NEW PEOPLE  
Are coming into town every day. Some want to rent houses, some want to buy. The first place they go is to the Times. The first place they go is to the Times.

YOUR OPPORTUNITY  
May be in the want ad columns of the Times today. Things are moving in Wichita Falls these days and the man who watches the want ads will find money-making opportunities.

VOLUME VI SUNDAY MORNING EDITION—WICHITA FALLS, TEXAS, SUNDAY, OCTOBER 20th, 1912—SECTION ONE NUMBER 137

## A NEW INDUSTRY LAUNCHED IN WICHITA FALLS

### WINDOW GLASS PLANT NOW IN OPERATION; THREE SHIFTS WORK

New Industry Opened At 12:01 A. M. Saturday When "Gathers" Open The Furnace Doors For First Glass Making In Northwest Texas.

Wichita Falls' newest industry, the manufacture of window glass, is now a reality. Operations began at midnight Friday at the plant of the Wichita Falls Window Glass Company west of the city, where a large force of men worked a four-hour shift in the furnace room. The flattening and cutting departments will be in operation by tomorrow.

The magnitude of this industry may be understood from the fact that there will be three shifts of about sixty men each employed in the plant, the wage averaging from two to six dollars per day, according to the character of work done; in addition there will be numerous other employees in the shipping department and the offices, making a total of probably two hundred men added to Wichita Falls payroll.

The plant is open for public inspection, though visits would best be delayed a few days until everything is running smoothly. It is a sight worth seeing.

For two weeks or more the fire has been burning in the immense melting furnace and by Friday night the mixture of "batch" and "cullet" had been melted to a workable state. The furnace, 76 feet long, 21 feet wide, and four feet deep, is constructed of fire clay blocks, 18 inches thick, with a covering of silica brick.

In this receptacle there had been placed approximately 500 tons of material which will eventually become glass. The material was 100 parts sand, sixty of salt coke, forty of limestone and about five of carbon; the mixture being known as "batch." To this was added a quantity of "cullet," about one-fifth as much as of the batch. "Cullet" is simply glass chunks in huge lumps.

A collection of glass bottles of every sort, size and description was also put in the furnace. These bottles had contained everything from carbolic acid to Lydia Pinkham's compound, having been gathered from alleys and trash-heaps over the city.

The heat in the furnace was about 2700 degrees, a million cubic feet of natural gas being consumed daily in melting it. Outside, in the work-room, it was slightly cooler, but not much. The Times reporter, unused to such heat, became very sick, and the same experience is likely to happen to any outsider.

The gas flames glowed through the holes in the furnace and the interior resembled a scene from Dante's Inferno, made still more realistic by the fierce heat that seemed to fill the entire structure.

### YOAKUM SPEAKS AT DALLAS FAIR

RAILROAD MAGNATE ADVOCATE OF NATIONAL MARKETING ASSOCIATION

### TRUST IS NOT PROPOSED

Purpose of System Would be to Give Consumers Products at Least Expense

By Associated Press. Dallas, Texas, Oct. 19.—"A National Marketing Association for Farmers" was advocated by B. F. Yoakum here today in an address before the convention of Southwestern Growers. It costs the farmers of this country something like \$510,000,000 annually, in interest on their loans, which is \$200,000,000 more than it should be. He pointed out that American manufacturers by cheapening the cost of production and distribution, have developed industries which the admiration and wonder of the world producer of all "has done almost nothing at all in the direction of eliminating unnecessary expense in selling his products."

### Arrested For Speaking on Street.

By Associated Press. Little Falls, N. Y., Oct. 19.—Dr. Almeron S. Crapney, a former clergyman of Rochester, was arrested here today while addressing a street crowd on the subject of the "Sermon on the Mount." He was taken to police headquarters holding the Bible in his hand. The arrest was an incident of the attempt of the authorities to prevent street meetings of Socialists in sympathy with the striking mill workers.

### BATTLE EXPECTED AT VERA CRUZ

REBELS UNDER FELIX DIAZ PREPARE TO MEET FEDERAL TROOPS

### OUTSIDE OF THE CITY

Agreement is Reported to do Fighting Away From City So as not Endanger Foreigners

By Associated Press. Vera Cruz, Oct. 19.—The rebel forces in possession of this city have made every preparation for an attack by federal troops and this is expected to occur at any moment. Two columns of federal troops arrived yesterday within fifteen miles of the city boundary.

### Battle Will Take Place Outside of City.

By Associated Press. Washington, D. C., Oct. 19.—The State Department advises that the opposing forces at Vera Cruz have agreed that the battle shall take place outside the city. This assurance has lessened somewhat the anxiety which the department felt for Americans and other foreigners in the beleaguered city. It is understood the agreement between the federal general, Huerta and Gen. Diaz was not formal.

### General Trevino Favored.

By Associated Press. Mexico City, Oct. 19.—Three of the four gunboats at Vera Cruz have fallen into the hands of Felix Diaz, according to information received by the government. The fourth gunboat which Commodore Aguirre commands, has remained loyal to the federal government, but is covered by the guns of the other vessels and is not allowed to obtain provisions.

It was generally thought that the commander soon might surrender. General Trevino, the commander of the federal forces at Monterey, who resigned yesterday, is said to be favored by many military men for provisional president. He is believed not to be implicated in the rebel movement started by Felix Diaz.

Has No Special Candidate in Mind. By Associated Press. New York, Oct. 19.—"I have in

### COLONEL TO LEAVE HOSPITAL MONDAY

PHYSICIAN ANNOUNCES THAT ROOSEVELT WILL START FOR OYSTER BAY TOMORROW

### IMPATIENT AT THE DELAY

Only Uncompromising Rule of His Wife Kept Wounded Man Approximately Calm

By Associated Press. Chicago, Oct. 19.—"Col. Theodore Roosevelt will leave Mercy Hospital for Oyster Bay Monday afternoon at 10:25 o'clock over the Pennsylvania railroad." This was the announcement made today by Dr. Alexander Lambert, the colonel's family physician.

By Associated Press. Chicago, Oct. 19.—The gentle but uncompromising rule of his wife was all that kept Col. Roosevelt in an approximately calm condition today. With the time for his departure for New York decided and with the assurance of his physician that he was just about out of danger, the colonel chafed at all restraints, sniffed at the crisp autumn air from his window as eagerly as a boy who is kept in after school.

It was the last day of his stay in the hospital with the proviso that no complication arise and in the colonel's room and the big corridor outside, it was as quiet as a Sunday afternoon. The physicians permitted Col. Roosevelt to sit in his easy chair, wrapped in a bathrobe, for several hours today. He saw few visitors, replied to some of the telegrams of congratulation and passed the remainder of the day dictating letters and statements.

Col. Roosevelt today made clear, for the purpose of publication his attitude on the industrial commission which he proposes shall control the trust situation in America. His announcement was in reply to writings of Louis Brandeis and speeches of Gov. Wilson in which Col. Roosevelt is accused of "endeavoring to legalize monopoly" by a commission "which would have police power to say let's favored corporation 'you are legal' and to an unfavored corporation, 'you are illegal.'"

"This absolutely is not my position," said Col. Roosevelt. "In fact it is as near the antithesis of my position as any declaration well could be."

"I explained in part my position in my Milwaukee speech, when I said in effect that the idea I had was that there be passed new laws, or that the Sherman anti-trust act should be amended in such a way that what would be a definition of what was wrong, eliminating the 'rule of reason' feature.

"I am in favor of new laws or of the amendment of the Sherman law to provide such supervision as is contained in the LaFollette-Lenoir bills. I would provide in the statutes provisions which said, 'This thing is wrong,' or 'that thing is wrong.' I would not have left to the guess or judgment of any man or men the determination of what was wrong or right, or 'reasonably wrong' or 'reasonably right.'"

"If for instance a corporation should be found crisscrossing out competition by refusing to sell when the patron bought of competitors, by underbidding, or in the dozen other ways that Congress should know were being practiced and should say with no chance for escape, the corporation is guilty. "I would have the commission empowered to put men on the books of a corporation whose acts were questioned so that the responsibility of conducting business would be at all times within the view of those whose duty it is to enforce the law. "I find I am accused of wanting to give the commission the power to fix prices. I do not want now to provide that. I fancy the commission would be so busy for a time in enforcing laws that it would not want to concern itself with prices."

### JUDGEMENT OF ALL THE PEOPLE

WILSON DECLARES IT HIS PURPOSE TO CONSULT WHOLE CITIZENSHIP OF COUNTRY

### A SUFFRAGETTE DISTURBS

Persists in Interruption Until She is Taken From Hall Over Wilson's Protest

By Associated Press. New York, Oct. 19.—Gov. Woodrow Wilson made two speeches tonight in New York and Brooklyn closing his speaking campaign for the present. He will not make another speech, he announced, until Col. Roosevelt has recovered.

Mrs. Wilson and her three daughters attended the big meeting at Carnegie Hall. The governor returned here during the afternoon from a campaign trip to Delaware, West Virginia and Pennsylvania.

Miss Maude Malone, a suffragette, interrupted the speech of Gov. Wilson at the Academy of Music, Brooklyn, and after a scene of confusion, in which the Democratic candidate tried to pacify the crowd, the police interfered, and arrested the woman on charges of disturbing the peace.

The governor was talking about monopoly when the woman who was conspicuous in interrupting an address by Gov. Johnson of California, here recently, rose from the balcony and shouted:

"How about women's suffrage, Gov. Wilson? Man has a monopoly on suffrage."

"Cries of 'put her out, put her out!' and an uproar of protest against the interruption came from the crowd.

"Do not be rude to the lady," urged the governor and the crowd became quiet, while the speaker added:

"Woman's suffrage, madam, is not (Continued on page 7)

### WITNESSES FOR DEFENSE TESTIFY

TWO POINTS WHICH DEFENSE CONSIDERS VITAL TO ITS CASE ARE BROUGHT OUT

### THE ROSENTHAL RAID

Police Testify Evidence Obtained in Regular Manner—Gambler's Meant to Kill Gambler

By Associated Press. New York, Oct. 19.—Witnesses in the trial of Police Lieutenant Becker testified today to two points which the defense considered vital to its case; first, the raid on Herman Rosen's gambling house April 17, was made after evidence against it had been obtained by the police. The state charged the raid was a "fake"; second, that Bald Jack Rose and Bridgie Webber who turned state's evidence threatened to kill Rosenthal weeks before he was murdered.

## BALKAN ALLIES DRIVING TURKISH TROOPS BACK FROM THEIR BORDERS

Turks Contesting Every Foot of Ground To Permit Mobilization of Vast Army For What Will Probably Be Bloodiest Fighting of Modern Times.

By Associated Press. London, Oct. 19.—Along the mountainous front of two hundred miles from Kirk-Killioth in the east, to Uskup in the west, the advance of the allied armies into Turkey continues. The Turkish army appears to be actively on the defensive. Its outposts are slowly withdrawing and are attempting only to pave the way for mobilization while the main forces are marching to the frontier.

Only small engagements which give no idea of the mettle of the combatants have occurred thus far. The censorship has been so complete an effective that Europe has few details except that the largest armies in the field on the continent since 1870 are preparing for a death struggle.

Adrianople and Enkay are being watched as the strategic points for the first great battle. Adrianople is defended by a modern fortress with three hundred of the most modern guns. It is the main gateway to Turkey and offers the invaders a long siege.

Servian Army Crosses Turkish Border. By Associated Press. Belgrade, Oct. 19.—The general staff reports at 7 o'clock tonight that the Servian army has crossed the border and is engaged in operations in Turkish territory. Important developments are expected immediately although cold and rain are hampering the movement of the troops.

Turkish Fire Ineffective. By Associated Press. Sofia, Oct. 19.—Three Turkish warships opened a bombardment off Verna today, directing their fire against two Bulgarian torpedo boats in the roadstead. The range was ten miles, and the shots were ineffective. The Turkish ships then withdrew.

Greek Force Dislodge Turks. By Associated Press. Athens, Oct. 19.—The Greek army under the command of Crown Prince Constantine after four hours fighting today, dislodged the Turks from a position commanding Elasona, near the Grecian frontier. The Greeks then occupied Elasona.

Movements of Turkish Troops. By Associated Press. London, Oct. 19.—One of the Turkish armies according to a news agency dispatch from Constantinople is advancing toward Sofia, the Bulgarian capital, while another is marching on Philippopolis.

Red Cross Nurses to Turkey. By Associated Press. Berlin, Oct. 19.—The German Red Cross society today sent a surgeon and twenty-two nurses to Turkey to assist in caring for the wounded. German officers employed in the Turkish service have been forbidden to participate in the war unless they resign their commissions in the German army.

Bulgarians Take Another Turkish City. By Associated Press. Sofia, Oct. 19.—The Turkish city of Mupatah Pasha was taken last night by the Bulgarian army corps which is marching on the great fortress of Adrianople. The Turks were repulsed all along the line.

Bulgarians Capture Mustapha Pasha. By Associated Press. Sofia, Oct. 19.—In taking the town of Mustapha Pasha the Bulgarians commenced operations at two points simultaneously. Gen. Ivanoff's army, with Harmanli as a center, attacked the right wing of the Turkish forces and occupied the village of Kourkale which dominates Mustapha Pasha. The Turks were forced to fall back to Mustapha Pasha and this also they were soon compelled to desert. As they retreated they blew up railroad bridges over the River Mariza, cutting off communication with Adrianople.

Turkish Fleet Bombarding Pans. By Associated Press. Constantinople, Oct. 19.—The Turkish fleet arrived off Parma at 6 o'clock this morning and began a bombardment at 2 o'clock this afternoon.

WATER FALLS DOWN SHAF AND IS FATALLY INJURED. By Associated Press. Dallas, Texas, Oct. 19.—G. Camiro, a French waiter at the Adolphus Hotel fell head first down the elevator shaft at the hotel this afternoon and was fatally injured. He died two hours later. Camiro fell a distance of three stories and his skull was fractured. He came to Dallas a few weeks ago and entered the service of the hotel. Eye witnesses say he opened the door leading to the service elevator and stepped into the shaft, the elevator having moved while his attention was attracted by someone speaking to him.

### GREAT DAMAGE BY PHILIPPINE TYPHOON

Loss Estimated at \$25,000,000—Reports of Damage are Yet Incomplete

By Associated Press. Manila, Oct. 19.—Twenty-five million dollars is the estimated damage done by the typhoon which swept the Philippines October 16. The storm extended over a wide area. Reports from the various districts are incomplete and contain nothing definite concerning the rich cities in Negros, and the interior points in Segou and Panay.

Five small coasting steamers were driven ashore and wrecked and a hundred small vessels were sunk or beached.

### ENTHUSIASTIC GREETING TO GOV. MARSHALL

Vice Presidential Candidate Given Magnificent Reception in Colorado and Wyoming

By Associated Press. Cheyenne, Wyo., Oct. 19.—Gov. Marshall, democratic vice-presidential candidate tonight received the most enthusiastic reception thus far tendered him on his Western trip. Between Greeley and Cheyenne, Gov. Marshall's train was greeted by bonfires of Russian thistles shooting flames forty feet skyward.

The governor was so much pleased with his reception along the Wyoming-Colorado line that he broke his rule against far-end speaking at Pierce, Colorado, where a crowd of ranchers had gathered and spoke for ten minutes from the observation platform.

### Longhorns Go Down In Defeat Before Sooners

By Associated Press. Dallas, Texas, Oct. 19.—Hurling themselves again and again against the fierce attack of the Sooners, the Texas Longhorns were unable to thwart the irresistible advance and when the final whistle was blown the score stood 21 to 6 in favor of the Oklahoma visitors.

For a while the teams tossed back and forth, each putting up a stone wall of defense when its goal was threatened. Then Oklahoma got a forward pass across the Texas line. The ball whirled and twisted through the air, descended and Barrell, left half for the Longhorns, leaped high and carried the ball through the eager Sooners. He turned and rushed down the field for the first touchdown of the game.

It was a sixty-five yard run and the sensational single play of the day. He failed to kick goal.

# PUBLIC SALE

OF THE

## DAYLIGHT STORE STOCK

Now in full blast. The last week of this sale. Like chaff before the wind, this great sale is sweeping all before it. People that came only to look became eager, enthusiastic shoppers. It is easy for anyone to spend money. The real problem is how to spend it wisely. In this sale, the savings are so real, so apparent to everyone who knows the usual prices and the actual values of these goods, that it is not at all surprising that people come miles to attend this sale. Don't forget that these closing days of this sale will be the greatest bargain days ever recorded in the mercantile history of Wichita Falls, Texas.

WE ARE EXPECTING YOU? WILL YOU COME?

## THE DAYLIGHT STORE

803 Indiana Avenue, Wichita Falls, Texas

### AN ODD HONEYMOON

Pastor and His Bride to Begin Married Life Amid Lepers.

Isolation for Life Their Probable Sentence—While, in Addition, They Run a Great Risk of Contracting Disease.

Buffalo, N. Y.—The Rev. Martin P. Davis and his young bride, married in this city recently, are now on their way to Chandkuri, the central province of far off India, where they will spend one of the strangest honeymoons on record. Their destination in Chandkuri is the leper colony in the interior of the province, conducted by the German Evangelical Missionary society, where they take up their abode, probably nevermore to leave it.

It is to ameliorate the condition of the 427 members of the colony that the young people are making the sacrifice. And there are few who have made a greater. Although many experts are of the belief that leprosy is not easily contracted, the laws of sanitation prescribe isolation for all who have the disease and those who mingle with them. The missionaries run more than a passing chance of falling prey to the disease, as have many before them. One of the missionaries, Miss Mary Reed, now laboring in the snow-capped Himalayas, has been a leper since girlhood.

In a colony such as Chandkuri lepers are given little plots of ground and they are encouraged to grow mangoes, lemons, oranges and other Indian fruits. An effort is made to instill a spirit of independence in them. Each man and woman is given 20 ounces of coarse ground wheat a day and eight cents a week.

Each leper cooks his own food. For clothing, each man is given four yards of coarse, strong cotton cloth, 40 inches wide, which costs about 30 cents; the women, because of headgear they wear, receive two yards more than the men.

Two children's homes, for the segregation of the offspring of lepers, will be under the care of Mr. Davis. Children of leperous parents usually contract the disease if they are not separated; if taken away from their parents at an early age, they escape. It will be one of the duties of Mrs. Davis to wean healthy children away from diseased mothers.

From Biblical times leprosy has been one of the worst scourges of the east. The census returns show there are 200,000 lepers in India alone. These are only pronounced cases.

### GIVE MEN SOCKS TO WOMEN

Chinese Who Take Ship Passengers' Clothes Make Odd Mistakes in Returning Them.

San Francisco, Cal.—The Chinese are assimilating Caucasian customs fast, but their inability to differentiate between masculine and feminine garb or to understand why half hose are worn only by men caused sixty-two cabin passengers of the liner Manchuria much inconvenience at Shanghai three weeks ago.

The Manchuria which arrived from the orient recently, was ordered into quarantine at Shanghai because of the death of a steerage passenger from a communicable disease, and all passengers were ordered ashore to take a plunge in a germ-killing solution. Each was assigned a bathroom and the clothing of each was taken away for fumigation. The Chinese neglected to mark the clothing. A sedate man of sixty received a corset in lieu of his waistcoat. Many of the women received men's socks, others no stockings at all, while many garments went astray, never to be restored to rightful owners.

Captain Dixon, veteran of many a storm, fled to his cabin when the women appealed to him.

### GIRL CORNERS "PIG" MARKET

Laboratory Experimenters Depend on Droves Fostered by Eight-Year-Old Child.

Dayton, O.—The youngest monopolist in the world lives in Dayton. She is Beatrice Howell, daughter of Frank Howell, wealthy attorney, and is only eight years old.

She controls the guinea pig market. State boards of health, medical colleges and other organizations which must have guinea pigs for laboratory experimental purposes are at her mercy. Beatrice actually is the head of America's largest guinea pig farm at her father's magnificent country home, just outside of Dayton, near the National Soldiers' home. Two sisters, Kathryn, eleven, and Pauline, five, assist her.

"The business has grown so enormously within the last year that Beatrice is unable to look after the business," said her mother, a popular Dayton society matron. "So I keep the accounts."

"This year her sales will amount to about 15,000 pigs. She is getting 65 cents each for them in lots of 50 or more, but the day will soon be here when they will command at least \$1.50 each."

"Love Me; Love My Dog." Boston.—Because they would not let her land with her dog owing to a technicality of the British law, Miss Cora Chamberlain has returned to Boston without leaving the ship.

## You'll Be Pleased

With the boys' clothes that we are showing now for fall and winter wear. Unusually well pleased this season because you'll find the styles more attractive, the qualities most dependable and the values the greatest we have ever offered and that is saying a whole lot. ## PENNINGTON'S

### Yesterday's Football Results

Brown's Weight Was Big Factor. Providence, R. I., Oct. 19.—Brown's weight overwhelmed the University of Pennsylvania speed, 30 to 7 here today.

Yale Defeats Army. West Point, Oct. 19.—After two successive years of defeat Yale regained her football supremacy over West Point in a fiercely fought game here today by a score of 6 to 0.

Sewanee Victorious. Sewanee, Tenn., Oct. 19.—Sewanee defeated the University of Chattanooga here this afternoon by the score of 27 to 0. The game was played on a glow field and the Sewanee team was composed largely of substitutes during the last two periods of play.

A Spectacular Game. Chicago, Oct. 19.—In a spectacular game, the University of Chicago today defeated the University of Iowa, 34 to 14.

U. of M. Defeats Ohio. Columbus, O., Oct. 19.—The University of Michigan football eleven defeated Ohio University 14 to 0.

Mississippi Wins From Louisiana. Baton Rouge, La., Oct. 19.—The University of Mississippi defeated Louisiana State University today, 10 to 7.

Dartmouth Won. Williamston, Mass., Oct. 19.—Dartmouth won from Williams today by straight football, 21 to 0.

Pennsylvania Outclassed Cornell. Ithaca, N. Y., Oct. 19.—Pennsylvania State outclassed Cornell in the annual football game of the two colleges here today, winning 29 to 6.

Purdue Overwhelmed. Madison, Wis., Oct. 19.—Wisconsin played fast football today and overwhelmed Purdue in their first game in five years, 42 to 0.

Indiana Defeated By Illinois. Champaign, Ill., Oct. 19.—Illinois defeated Indiana by a score of 13 to 7 today.

Easy Victory For Harvard. Cambridge, Mass., Oct. 19.—Harvard scored her easiest victory of several seasons over Amherst today, piling up 46 points to Amherst's 0 on a rain soaked field.

Princeton Outclassed Syracuse. Princeton, N. J., Oct. 19.—Princeton completely outclassed Syracuse here this afternoon and piled up a score of 62 to 0.

Orozo Nearing Nuevo Leon. By Associated Press. El Paso, Oct. 19.—Gen. Pascual Orozco, leader of the revolution in northern Mexico, is rapidly nearing the border of Nuevo Leon where General Trevino has been in charge of federal forces operating out of Monterrey, said rebel dispatches today. Pascual Orozco, Sr. Gualilo Hernandez, former secretary of state of Chihuahua and Castillo Herrera, a former Madero rebel, charged in the federal courts here with conspiracy to smuggle arms into Mexico, were released today.

The elder Orozco, however, remained in jail here on a charge of murder preferred by the Mexican government.

THE BIG CASH STORE

724 Indiana Avenue 9x12 Art Squares at very low prices Phone No. 80

**Cranberries,  
Sweet  
Potatoes  
and Pork  
Sausage**

These are three things that fit in beautifully with early fall weather:

The cranberries I am selling are fancier than usual. Big, fat fellows, rich, red and ripe, per quart **15c**

The sweet potatoes are the famous Jerseys, yellow and mealy and smooth and sizable, per peck **50c**

The pork sausage is made in my own meat department from the choicest pork selected and cut fine and mixed with fresh strong spices just enough to get a zesty flavor, per pound **25c**

**C. H. HARDEMAN**  
PURE FOODS

**FIVE NEW TEAMS ADDED TO OUR BUSINESS**

We get our customer through our office (not street corners) and our telephone numbers are

**Four, Double Four, and One, Four (444 and 14)**

Office Hours the whole year round.  
We want good men in our employ, men that will pay their debts and show kind, courteous, treatment to all.

**A BUSINESS WITH A GOOD BUSINESS REPUTATION**  
**McFALL TRANSFER & STORAGE COMPANY**  
J. M. McFALL, Mgr. and Prop.

**SCHOOL BOOKS CASH**

All parents are respectfully requested to provide their children with sufficient money to pay for their books according to lists which will be furnished by teacher's or can be gotten here.

Owing to very small profit and rush it will be impossible for us to do any charging.

**LOSS FROM MARSHALL  
EXPLOSION \$50,000**

Only One Man Seriously Injured in Blow-Up that Wrecked Four Stores

By Associated Press. Marshall, Texas, Oct. 19.—A survey of injuries and wreckage of yesterday's gas explosion which almost demolished four stores in the downtown section here today, shows five persons in the hospital, only one of whom is seriously hurt.

The loss estimates are creeping up being in excess of \$50,000 today, with no insurance. The only person seriously injured was D. C. Saniford, who was struck by flying debris. He has a chance of recovery.

**Militia Protecting Property.**  
By Associated Press. Austin, Texas, Oct. 19.—Sheriff Saunders of Harrison county has called on the governor for military aid for protection of property as the result of the Marshall gas explosion. Capt. Blake and the Marshall company was ordered out.

**TODAY'S MARKET REPORT**

**New York Spots.**  
By Associated Press. New York, Oct. 19.—Spot cotton closed quiet. Middling upland 10.90. Middling gulf 11.15. No sales.

**Fort Worth Livestock.**  
By Associated Press. Fort Worth, Texas, Oct. 19.—Cattle receipts 650. Beef steers steady \$5.66. Calves 19000; lower, \$4.50 to \$5. Hogs receipts 325, steady. Tops \$8.90. Sheep receipts 186, steady.

**New Orleans Spots.**  
By Associated Press. New Orleans, Oct. 19.—Spot cotton quiet unchanged. Middling 10 3/4. Sales on spot 320 bales. To arrive 830. Receipts 10,000. Stock 98,992.

**Kansas City Cash Grain.**  
By Associated Press. Kansas City, Oct. 19.—Cash wheat unchanged to half a cent lower. No. 2 hard, \$7 1/2. Corn unchanged to one cent lower. No. 2 mixed 61 to 62 1/2. Oats unchanged to fourth cent higher.

**COOKING PEAS AND CARROTS**

Many Ways of Preparation to Suit the Individual Taste—Peas Served in Turnip Shells.

One way of preparing peas, and for my own taste there is none better: Blend together two tablespoonfuls of butter and one tablespoonful of flour, one-half teaspoonful of salt and a little pepper, for each pint of peas. When the peas are soft stir this into the peas and cook five minutes. In preparing them in that way all the flavor and nutritive value of the peas are retained. Use care that there is not too much water; there should be only enough to cook the peas in, which is scarcely enough to cover them.

**To Cook Young Carrots.**—Wash and scrape the carrots and cut in quarters lengthwise; then holding the quarters together place on a board and cut crosswise through the four quarters in one-half inch pieces. Boil twenty minutes or until soft in just enough water to cover. They are very nice prepared by the same recipe given for peas; and just before serving add two teaspoonfuls of parsley finely minced to each pint of carrots.

**Peas and Carrots.**—One cup of carrots cut in small pieces as stated and two cups of shelled peas. Cook the carrots and peas together until soft. Drain; add four tablespoonfuls of cream and one tablespoonful of butter, one-half teaspoonful of salt and one-eighth of a teaspoonful of pepper. Heat over hot water and serve as soon as hot.

**Peas Served in Turnip Shells.**—Use the flat turnips for this dish and choose them near of a size. Wash and pare the turnips and with a sharp knife scoop out the center, leaving a well one-half inch thick. Steam the turnips and be careful not to overcook them or they will fall to pieces. Put a folded napkin in the serving dish and place the turnips on it; shake a little salt and pepper over them, and fill with cooked peas which have been seasoned with butter, salt and pepper. Do not waste the turnip which was scooped out, but cook and mash it and reserve for another meal.

**ADORNMENTS FOR THE TABLE**

Cloths, Luncheon Sets and Dollies Should All Be of the Finest Possible Materials.

The tablecloth is becoming a thing of rare beauty and some of the new ones are lovely enough, with their wealth of lace and hand embroidery, to be used for a lingerie gown.

For the round table the linen covers only the top, a 14-inch border of shiny lace hanging below. This same lace is inserted in the center of the cloth and takes the place of the usual center-piece.

For the luncheon set color is being introduced. Daisies embroidered in natural tints upon heavy Irish linen give a charming new touch. These, as a rule, include a large centerpiece and a dozen dollies.

The petals of the flowers are done with very thick, fluffy floss and the embroidery can be finished in a very short time.

Other pretty luncheon sets are made of finer linen, the dollies being cut in squares instead of round, while the new punch work and a very little fine French embroidery are introduced.

For breakfast the table linen is much plainer, and these sets include the cloth and a dozen small napkins.

Damask embroidered in quaint little flower designs in color are very attractive, while others are of linen crash embroidered in cross-stitch.

All of these are rather expensive when bought in the shops, but the housewife who has several idle hours during the day can with but a slight expense and little trouble give her table linen a distinctive air.

**Health Plum Pudding.**

Two cups best graham flour, sifted and then measured. Mix with half a teaspoon of salt, one-half teaspoon of soda and one teaspoon of baking powder, one cup of nuts (either almonds, English walnuts or pecans), a cup of raisins, a cup of milk and one-half cup of molasses. Wash, seed and dry the raisins and flour them lightly. Slice or chop the nuts fine, then add molasses and milk to the flour; mix well and quickly; add raisins and nuts; mix thoroughly again. Butter pudding mold, turn in the batter and boil three hours. Serve with lemon sauce.

**To Wash Blue Duck.**

To wash the child's blue duck suit, shake it free of all outer dirt, then dip it in cold water containing ox-gall in proportion of a tablespoonful to a gallon of water. Let the garment get almost dry, drying it in the shade; then wash it quickly in tepid water, using borax soap, or if you have not this, use a very little pure white soap wherever necessary to remove the dirt, and add a little borax to the wash water. Rinse well, dry in the shade, and iron while still damp, or at least not thoroughly dry.

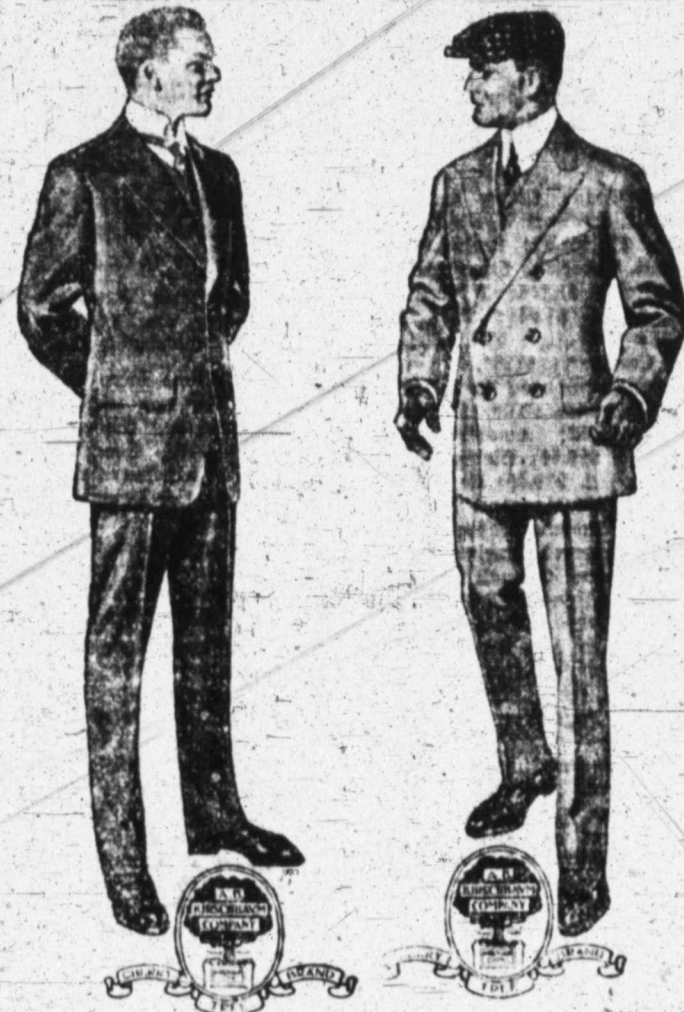

**Seeded Grape Pie.**

Take your grapes, pulp them, set aside the skins, bring the pulp to a boil slowly, then press through a sieve, mix with the skins. Take a cup of sugar, mix two tablespoonfuls flour with it, put with your seeded grapes, add a lump of butter. Have a nice, rich pie crust; line your pan with it, put in grapes, then your top crust. Cut holes in it to allow the steam to escape. Brush the top with melted butter; bake in a hot oven to a golden brown. Serve a little warm with coffee.

**STATE MILITIA MAY  
BE CALLED OUT**

Governor Marshall Contemplates drastic Action to Stop Race Track Gambling

By Associated Press. Indianapolis, Ind., Oct. 19.—State officials, balked in their attempt to obtain a restraining order to prevent racing and alleged gambling at the track of the Mineral Springs Jockey Club at Porter, Indiana, tonight decided to await authorization by Gov.

Marshall, who is campaigning in the West.

Affidavits submitted today in court at Valparaiso by a number of citizens to the effect that there had been no gambling at the Porter track, caused Attorney General Honan to withdraw the petition for a restraining order. As Gov. Marshall's instructions that the state troops are to be used as a last resort in closing the race track, it may be that a company of militia will be called out if the gates are thrown open Monday afternoon. The company of state troops at South Bend is being held in readiness to move on short notice and could reach the track in a few hours. The attorney general's office admits

that citizens of Lake county appeared to favor the racing meet and that any attempts to obtain a restraining order would meet with affidavits similar to those filed today at Valparaiso.

**Socialist Orators Released.**

By Associated Press. Little Falls, N. Y., Oct. 19.—Local authorities took steps tonight in their fight against Socialist orators. They denied they had given up the fight, but after holding Mayor Lunn of Schenectady and six other Socialist orators in jail on the charge of having committed a felony, the accused were paroled when the charge against them was reduced to a misdemeanor.

Mayor Lunn's case is scheduled to come up again Tuesday but it is expected it will not be pressed. After the visit here today of Attorney John A. Gagan of Albany, a conference was arranged. The situation was talked over in a business way and it was declared, all past rancor was dropped. When Charles Edward Russell the Socialist candidate for governor, visited this city Monday he will be allowed to speak in the city park.

Entered at the Postoffice at Wichita Falls as second-class matter

Wichita Falls, Texas, Oct. 20, 1912

There is this difference at least, between Lincoln and Roosevelt: The first named was a rail-splitter, and a good one. The latter is likely to add greatly to his already great fame, that of a successful party splitter.

Secretary of Agriculture James Wilson has announced that he will resign from the presidential cabinet on March 4 next. That is the date fixed by Mr. Wilson for the whole bunch to step down and out. There is hardly a doubt but that if Mr. Wilson had the slightest hope of the re-election of Mr. Taft he would not have made this announcement, but it comes better now than it would after the election at which time in the event of the defeat of Taft and the election of Wilson it would not have been necessary.

The report that Jack Johnson, the negro pugilist, had been shot to death by the mother of the white girl who had expressed a wish to marry the negro, proved untrue. Doubtless this was very disappointing to every decent white person this side of Mason and Dixon's line, and many above it. But here's hoping that the good Lord will yet steady the hand of that poor woman long enough for her to fire a bullet that will go straight through the negro brute's heart. It's no sin to take the life of such an inhuman scoundrel, and even should that be his position all his worthless blood could not atone even in a small measure for the humiliation that he has caused to that mother in particular, and the white race of people in general.

The revolution in Mexico under the leadership of General Felix Diaz, a nephew of Porfirio Diaz, seems to look more like business than at any time since Madero triumphed over the former dictator, and if it does not share the same fate as the elder Diaz, by being forced to give up the presidency of the Mexican republic and flee for his life to some foreign country, we miss our guess badly. Vera Cruz is now in the hands of the new revolutionary leader, and it is the main port of entrance on the east shores of Mexico. From that place the City of Mexico can be entered easily with a strong army under the leadership of the younger Diaz, who is an experienced warrior, and one who learned the tactics of warfare while a colonel in the army while that country was under the rule of his uncle. There is but little doubt but that the younger Diaz is under the influence and is carrying out the well-laid plans of the elder Diaz. As to whether the younger Diaz, in the event he succeeds in his resolution against the Madero rule can restore normal conditions in Mexico remains to be tested. If he fails, it will mean another stage of prolonged strife, and that will bring about intervention of some foreign power.

The pro election has passed into history and from the results it does not seem likely that we will have another any time soon. Of course the election was expensive in more ways than one, but perhaps it is well that it took place. An election has been talked of in our county for several years and somebody would never have been satisfied until the election was held. Now it is settled for two years anyway. Let's forget it. Again we would say that we are thankful that there has been no hard feelings engendered by the election. Rare it is that a prohibition election has passed off so quietly. It's a good sign for the future welfare of our county.—Baylor County Banner.

It is rare that a local option election, it matters not which way it goes, does not leave a few sore spots, but the result in Baylor county was such an overwhelming defeat for the wets that it puzzles one to think why they wanted to put the county to such useless expense. Probably they thought that inasmuch as the county gave a majority for Gov. Colquitt, it would also endorse his position on the local option question, but if that was their idea, they can now have another. Baylor is one of the best and most prosperous counties of the state, and it is very evident that a majority of her citizens do not

think that the open saloon would improve conditions.

### SUPPORT FOR SECRETARIES' ASSOCIATION.

The Times has received a statement showing receipts and disbursements of Texas Commercial Secretaries for the past five years. Statement showing total receipts during that period of \$30,054.49.

Among Texas Cities contributing over \$1,000, are Fort Worth \$16,771.50; Houston, \$15,207.50; Dallas, \$14,780; Beaumont, \$6,485.33; Stamford \$1,915; San Antonio, \$1,845; Wichita Falls, \$1,835; Waco, \$1,661; Port Arthur, \$1,626.65; Galveston \$1,426.50; Paris, \$1,332; Corsicana, \$1,280.

Of towns supposed to be in same class as Wichita Falls, Abilene contributed \$125.00; Amarillo, \$380.00; Brownwood, \$38.50; Cleburne, \$45.50; Corpus Christi, \$20.00; Denison \$665; Greenville, \$10; Marshall \$337.00; San Angelo \$35; Sherman \$150; Tyler \$305. Nearby towns: Henrietta, \$179.50; Vernon \$30.00; Quannah \$10.00; Decatur \$25.00; Bowie \$35.00.

Stamford's fine showing is probably attributable to Mr. Swenson's interest. Dallas makes the best showing for the past year, \$7,415 as against \$6,287.50 for Fort Worth and \$6,595.00 for Houston.

The Commercial Secretaries and Business Men's Association of Texas is doing a great work for the State and we regret to see that many of the smaller towns and some of the cities are not more liberal in its support.

The Secretaries are always alert to report progress in any portion of Texas and to urge legislation that will tend to the upbuilding of the State.

### WINDOW GLASS FACTORY NOW IN OPERATION

(Continued from page 1)

where a man stands near a reel. He removes the sheets of glass and stacks them on one of the four sides of the reel; the reel is then turned so as to bring the glass over a vat containing boiling water and prussic acid, into which the glass is lowered. While this is being done the next side of the reel is being loaded. After dipping, the reel turns again and the dipped glass is turned again and permitted to dry; a fourth turn brings it into juxtaposition to the cutting room, where it is removed to the "cutting-stalls."

There are sixteen of these stalls, and regions; the half-naked men at work commercial size glass being prepared in a different stall.

Such, in brief, is the glass-making process. Mere description cannot portray, however, the scenes that are presented. The big furnace room, glowing like a cross-section of the infernal long cylindrical of glass. It must carry huge ladles of molten glass to and fro; the blowers shaping the that time they will be stiff and sore seen to be appreciated.

F. G. Thornburgh was in charge of the plant Friday night—a big, genial human who was good enough to explain the working to the Times man. He is "Fred" to all the workmen. W. G. Shaw is general manager, or as one of the men expressed it "chief ram-rod" of the plant; both he and Mr. Thornburgh are from Coffeyville, Kansas. Walter Busby, who will be in charge in the daytime, is a West Virginian.

The workmen are a good-natured, pleasant crowd. They are great "kiddlers." One of them, carrying a "big bowlful of melted glass across to the blow-fire, asked the reporter if he "wanted to help pull some candy." The melted glass was of about the same consistency, apparently, as un-pulverized molasses candy. The men sing at their work and pay no more attention to the intense heat than if it wasn't.

Within a week, one of them said, they wouldn't be good-natured, as by that time they will be stiff as a door from working again after a summer of idleness. The Times man is indebted to Sam Malcolm, head of the flattening department, for much valuable information. All of the men evinced a kindly interest in the reporter and answered questions very willingly.

Most of the men come here from Coffeyville and other Kansas points and from Indiana. They will be followed by others who will work in the same plant and in the bottle factory which will probably open up about November 1.

### AVIATORS FALL FROM GREAT HEIGHT

German Army Lieutenant and Passenger Instantly Killed When Aeroplane Fell

By Associated Press. Geisingen, Wurttemberg, Germany, Oct. 19.—An aeroplane piloted by Lieut. Weiss, a German military aviator, and carrying a passenger named Lange fell to the ground from a great altitude while flying near here today and both were instantly killed.

### ALL IS READY FOR DALLAS TRIP

FULLY HUNDRED EXPECTED TO GO ON Y. M. P. L. EXCURSION TO DALLAS FAIR

### SLEEPERS ARE PROVIDED

Cost including Fare, Caps, Cans, Badges, etc., Will be \$7.40—Start Tuesday 2:30 a. m.

Preparations have been completed for the "booster trip" to Dallas on Tuesday under the auspices of the Young Men's Progressive League. The party will leave this city at 2:30 o'clock via the Denver road, arriving at Dallas at 10:30 Tuesday morning. Sleeping cars have been provided for the party so that the participants in the trip may retire at any hour they desire Monday night.

It now seems probable that more than the one hundred expected will be in attendance. However, accommodations have been arranged for all who decide at the twelfth hour that they are able to make the trip.

Each excursionist is expected to purchase his own railroad and Pullman ticket; the total cost to be \$5.65 for these accommodations. The expense of caps, cans, pennants, badges and decorations will be \$1.75 additional, making a total cost of \$7.40. In other words the trip with the party will cost \$1.75 more than to make the trip "at another time."

Pennants, caps, badges and so forth will be at the train and will be distributed Tuesday morning before arrival at Fort Worth. Two hours stop will be allowed in the Panther City.

In Dallas the party will parade the main streets, led by a crack band. The excursionists can return on any train leaving Dallas within three days from the date of purchase of tickets. Ladies and children may make the trip just as on any other date.

An effort is being made to provide each member of the party with glass cans blown at the Wichita Glass factory, these to bear ribbons reading, "Made in Wichita Falls."

The Progressive League earnestly requests that all who can attend notify one of the officers of the League Monday morning in order that the party may be arranged for and handled to the best advantage.

Reservations for sleeping accommodations should be made Sunday or early Monday morning, preferably the former day so that an additional sleeper can be ordered if necessary. The League asks all loyal citizens of Wichita to put forth every effort to make the trip, pointing out that the town of Victoria, on the Gulf coast section of Texas, three hundred miles from Dallas, sent one hundred boosters to the Fair—and even the little town of Bishop on the Brownsville road sent a like number, although that town boasts of only one thousand population. It is the general desire that the showing in Dallas made by the Wichita Falls party be in keeping and on a par with the general reputation of Wichita Falls throughout the Southwest.

### REPORT OF KILLING OF NEGRO UNTRUE

General Regret Expressed When It Was Learned Here That There Was No Truth in Report

Chicago, Oct. 19.—Charged with the abduction of a white girl, Jack Johnson, the negro champion pugilist, was arraigned in the municipal court today. His bond was increased from \$800 to \$1500 and the case continued until October 29. Johnson became furious when counsel for Mrs. Falconer, mother of the 19-year-old girl, demanded that his bond be increased.

When the pugilist stopped his automobile in front of a downtown bank today, such a crowd gathered that police were called. Mutters against the fighter were heard but there was no open demonstration. A few negroes cried, "Hurrah for Johnson." Johnson paid no attention to the crowd but guided his car carefully between the two lines of men. Once at the throng's edge he drove away quickly.

While Johnson was leaving the bank an unidentified man dropped a large ink well from a window on the tenth floor of an office building. The heavy glass narrowly missed the pugilist's head.

NOTE.—A report gained circulation over the city yesterday morning that the negro had been shot by the mother of the white girl he is alleged to have abducted. Nearly a hundred telephone calls were received at The Times office asking as to the truth of the report and upon the inquirer being informed that it was false the general expression was, "Too bad it's not so." Before the falsity of the report had been learned several persons offered to contribute money toward the defense of the woman whom it was reported had shot him.

### ROOSEVELT TO LEAVE HOSPITAL MONDAY

(Continued From Page One)

The Colonel was told that if he would exercise prudence in the meantime, it would be in condition to make the speech. Whether he makes it depends almost entirely upon the condition of his broken rib which is his chief source of trouble now. He was told that he must keep as quiet as possible so that the rib ends may knit together and if he does not heed the warning he may find himself unable to take any part in the campaign.

The Colonel sighed and said he would try. Whether Col. Roosevelt will be able to make more than one speech the physicians would not say. He is anxious to deliver an address in Massachusetts, at least one in Pennsylvania and another at some point in New York State in addition to a speech to be delivered in Madison Square Garden.

It is unlikely that he will be able to undertake such a task. Mrs. Roosevelt admitted a few visitors to her husband's room today and when she feared he was becoming fatigued gave out word that no one else was to come in.

Gov. Hiram Johnson and Francis J. Heney talked politics with the Colonel for a time and several representatives of employees of western railroads came to congratulate him for their fellows. Patients on the third floor on which is Col. Roosevelt's room took up a collection and purchased a basket of flowers. Each patient attached a card with a message to the Colonel. Mrs. Roosevelt and Miss Roosevelt went through the wards and thanked the patients.

Col. Roosevelt said today it was impossible for him to send replies promptly to all of the thousands of letters and telegrams which have been sent him since he was shot. They were taken to Oyster Bay and the Colonel said he would reply to each one as soon as he was able to do so.

### Oil Man Sent Message to Roosevelt

Among the many telegrams, some of sympathy for his injury, some of congratulations for his escape, and some of good-wishes for early recovery, that Col. Roosevelt received at Chicago, was one from a Wichitan, W. G. Long, the well known oil man and poet.

Mr. Long is not only an ardent supporter of the ex-president, but is more or less acquainted with the candidate, and he took occasion to extend congratulations and best wishes to him. There are several Roosevelt men among the oil fraternity here and they have been solicitous regarding the condition of their candidate since he was shot last Monday night.

### WITNESSES FOR DEFENSE TESTIFY

(Continued from Page 1)

upon which Rosenthal's place was raided. He was taken to the establishment two days before the raid, he said by a "steerer" who met him and two other policemen at the hotel Cadillac. The policemen wore citizens' clothes and the "steerer" did not know their identity. They were met at the basement door by a man to whom the "steerer" vouched for their good intentions, went upstairs and lost fifty dollars playing roulette. The next day, Sheppard said, he met Becker, told him what he had done, and at Becker's instructions drew up the necessary legal papers preparatory to making a raid.

The day after this, warrants were issued, and that night Rosenthal's place was raided. One of the men who had been at the wheel was arrested, Sheppard said, and was identified by Mrs. Rosenthal as her nephew. She asked Becker not to take the youth away but Becker had a warrant for him, and then, Sheppard testified, Mrs. Rosenthal tried to draw Becker aside, saying she had something to tell him.

"And what did Becker say to her?" asked John McIntyre, chief of Becker's half dozen lawyers.

"He said, 'If you have anything to say to me, say it here and now.'"

Sheppard was not cross examined, but District Attorney Whitman said he would be when court convened Monday. Justice Goff held a forenoon session as the day is registration day here and the jury wanted to register during the afternoon.

At the request of John McIntyre, Becker's lawyer, District Attorney Whitman produced when court convened today, stipulations by the state here and Harry Vailon, Bridget Webber and Sam Schepps. They were placed in evidence. They provide that if the four men would testify before the grand jury in the Rosenthal case, they should not be prosecuted for "gambling, extortion or for any crime disclosed in the tes-

## Attention, Farmers.....

We have just received a car load of Superior Grain Drills. You know they are the best. Our prices are the lowest.

We also offer the celebrated Moon Bros. Buggies, in any desired style, from steel tired, open run-a-bouts to two-seated rubber tired carriage at very reasonable prices.

Our grocery department is stocked with the best in the market, and the fact that our buying and operating expenses are reduced to the minimum enables us to offer the very best in this line at prices away below the prevailing quotations.

## Farmers Supply Company

Mississippi Street. J. T. GANT, Manager. Phone 448

Has roan spot on right shoulder size of man's hand; few white hairs on right side and flank. Any information leading to recovery of horse will be liberally rewarded. Dr. L. C. Tyson. 137 tfe

CURIOUS BITS OF HISTORY

GENERAL PIKE'S TRAGIC DEATH

By A. W. MACY. During the War of 1812 an expedition was organized by General Henry Dearborn for the capture of the British forts on Lake Ontario. The first one attacked was Fort York, where Toronto now stands. The attacking column was led by Gen. Zebulon B. Pike. The outer battery had been taken by assault and the guns of the main battery silenced. While waiting for the garrison to raise the white flag General Pike seated himself on a log and began talking with a British prisoner. Instead of running up the white flag as expected, the British commander ordered his men to retreat, and then had the powder magazine blown up. Fifty-two American soldiers were killed by the explosion, and 180 others wounded. A huge stone fell upon General Pike, breaking his back, and he died a few hours later. Thus perished one of our great explorers, the discoverer of Pike's Peak, at the early age of thirty-four.

(Advt.)

Celebrating a football victory over Indiana, nearly 1000 students laid siege to the theatre. They were regulated by stage hands and policemen armed with revolvers and clubs.

Edgar Dillavio, a high school student, was knocked unconscious. A chorus girl was struck on the head with a brick hurled through a dressing room window. Two other chorus girls fainted on the stage and were carried off.

The audience thought it was part of the show and did not become greatly excited. Many students were slightly injured, but their friends quietly removed them.

By Associated Press. Chicago, Ill., Oct. 19.—A number of persons were injured tonight by a riot caused by an attempt of University of Illinois students to force their way into the opera house where a vaudeville show was in progress.

WEATHER FORECAST. Sunday Fair

# We Want to Demonstrate to You the Value of the *Hotpoint* ELECTRIC FLAT IRON

To do this we have determined to sacrifice our profit, and instead of paying \$5.00, the regular price the world over, you can buy them now from us for . . . . .

# \$3.50

The merits of the Hot Point Iron are well known to thousands of housewives, and not one who has ever used one will be without it. The other Hot Point articles are just as useful and just as economical, and we know that one sale will convince you of the merits of them all. That is the reason we are offering the Hot Point Irons at the very low price. We also show El Tosto, the electric toaster; El Grillo, the quick broiler; El Perco, the scientific way of making coffee; El Chafo, the handy chafing dish; El Warmo, the electric warming pad. Our agents will call on you this week and demonstrate the values of the Hot Point Electric Iron.

## To "Occasional" or "One Time" Customers Who Ought to Be "Regulars"

We have been rather hoping to see you in our store this fall, for we have some unusually attractive suits from *The House of Kuppenheimer* to show you. We believe they'll strike your fancy, as they did ours; that you'll find them of rather more than ordinary interest. Among them are some novelties that we predict will be decidedly popular here this season, new ideas that you'll not see in any other store. Perhaps there is a reason unknown to us why we have not had the pleasure of a visit from you. If there is, and we can be of service in adjusting it, we shall consider it a favor to have you tell us of it. We aim to give everyone who trades at this store nothing less than absolute satisfaction.

### FUSES FOR DYNAMITE SENT THROUGH MAIL

Postmaster at Cleveland, O., On Stand in "Dynamite Conspiracy" Trial at Indianapolis

By Associated Press. Indianapolis, Ind., Oct. 19.—The delivery through the mail of a package which the government charges contained fuses enough to blow up a building at Akron, Ohio, on July 4, 1910, was described by R. C. Floyd, postmaster at Cleveland, Ohio, on the stand as a witness in the "dynamite conspiracy" trial today.

He testified from record that the package sent by Ortle McManigal, of Chicago, was received by special delivery at the home of Peter J. Smith, an iron worker's union official in Cleveland. According to the government, Herbert S. Hockin and McManigal had taken to Cleveland from Westchester, Penn., on a passenger train, a quantity of nitroglycerin to carry out orders from J. J. McNamara, that "there must be a Fourth of July celebration in Akron." McManigal in his confession said he had been selected to do this work but that Smith and George "Mitter" Anderson also a defendant, protested, saying they had been promised the fee of \$200 for doing it.

It was discovered, said McManigal's confession, that only McManigal knew how to use nitroglycerin, so it was determined to use dynamite; but that there being no fuse, McManigal was sent to Chicago to forward the fuse from his home. The package arrived in Cleveland and July 4, Mr. Floyd testified, an explosion in a building under construction by an employer of non-union labor occurred in Akron on the same day, but the damage was slight.

More financial accounts, taken from McNamara's office in the Iron Workers headquarters in Indianapolis which government charges to show a conspiracy on the part of the forty-five defendants to give financial support to the "dynamiting campaign" were identified by Miss Mae Dye, former book-keeper for McNamara.

Miss Dye identified checks issued to Frank D. Webb, New York and signed by President Frank M. Ryan with the notation "charge as a donation to local union \$200 expenses for organizing purposes by order of the executive board." Other checks issued to Hockins that he is alleged to have paid to McManigal were identified.

### JUDGEMENT OF ALL THE PEOPLE

(Continued From Page One)

a question that is dealt with by the National Government at all. I am only here as a representative of a National party."

The woman continued to shout questions about suffrage and when the governor could be heard again, he said to her:

"I hope you will not consider it a discourtesy if I do not answer your questions on this occasion. I am sure the lady will not insist."

Miss Malone did not stop, however, and for a few moments there was a confusion of cries to take the woman from the hall, which finally ended when the police arrested her. Gov. Wilson continued his speech amid cheers.

"This is indeed a serious matter," said the governor, "and it was very much against my will and wish that the lady should have been ejected. I would rather have the meeting broken up, because I respect the right of every person holding strong convictions to put questions, however inopportune. The question was not pertinent to the National campaign, but I am sincerely sorry about the incident."

The nominee then devoted his speech to the tariff and the trusts and closed his speech amid cheers. Governor Wilson motored from Brooklyn to Carnegie Hall, New York, where a great crowd awaited him. The meeting was under the auspices of a German-American society presided over by Hermann Ridder.

"I should be very sorry to see the government of the United States adopt any niggardly immigration policy," said Gov. Wilson, "because when you in the largeness of genius, the infinite variety of capacity which other nations have conferred upon America, it would be certainly an act of self-denial and an act of folly to shut our doors against such enrichment."

The speaker discussed the claim of opponents of the Democratic that a Democratic president would "destroy business."

"I wish I were big enough to destroy it," he said, "because if I were big enough to do that I would be big enough to establish it and set it free."

The governor declared it would be his purpose to gather the judgment of all the people, rather than any group of individuals.

"I do not wish to be the master of any people," he added, "I wish to be their spokesman."

A demonstration of approval fol-

## Guard the Family Health

Health is often endangered by unsanitary cooking utensils. Physicians have found that cancer is caused by enamel ware chipping off and irritating the stomach.

If you have children or invalids in the family beware of cheap cooking utensils that crack, scale, peel off, tarnish or rust. Disease germs lurk in the worn places and there is further danger of tainting the food. Health is too precious to take risks with it.

Be safe. Use

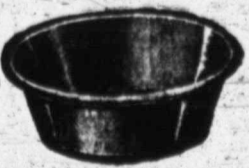

### "1892" Pure Spun Aluminum Cooking Utensils

which are guaranteed for 15 years constant service and will never spoil food nor endanger health.

This new ware is featherweight, beautiful, easy to clean—does not tarnish nor rust. The slight extra cost is more than made up by long service and absolute safety.

### Look for Trade mark on Every Piece

The Maltese cross with the words Pure Illinois "1892" Aluminum—the original, insures that you get the genuine. There are imitations, so be sure this trade mark is on every piece.

### REWARD FOR TENANT

Owner of House Offers \$50 for an Occupant.

Landlord Also Will Give Free Rent to Negro Who Promises to Make "Haunted" Building His Residence.

Kent, Conn.—Fifty dollars cash bonus and two months' rent free to anybody who will live not less than two months in this house.

Such is the sign which Ezra Blake, wealthy land owner, has put up on one of his houses in the negro quarter near here.

Among negroes the house is reputed "haunted." Until a month ago it was a perfectly self-respecting house, never known to have any spiritual visitors. But the last tenants, a couple named Jackson, after living in it for five years, had a ghostly visitor one night, and since then Mr. Blake has been unable to rent the house.

The Jacksons are considered truthful people. At any rate, their neighbors believe them. Mrs. Jackson declares that a ghost chased her up the back stairs and Mr. Jackson corroborates her.

Mr. Jackson was first to hear queer noises and he aroused his wife Josephine.

"Josephine," he called to her, "thar's suah an awful queer soun' in de cellar!"

Josephine listened, and sure enough, she heard low moaning. Jackson said he'd investigate this matter thoroughly.

"Josephine," he said, without a tremor, "you go down in the cellar and see wha' fo' that noise is. Ef you need any help, why jes' call me, thar's all, jes' call me."

Josephine demurred, but Mr. Jackson was firm, so Josephine went downstairs.

He didn't have long to wait. Josephine came flying back, shrieking: "Mah gracious! It's arter me!"

Mr. Jackson didn't wait to see what "it" was, but sprang through the window to the porch roof and slid down a post to the ground. The last Josephine saw of him he was sprinting up the road.

Now, Mr. Jackson is very devoted to his wife, and he'd have given \$5,000, if he had it, so he said afterwards, to have had that ghost right then. What he would have done to it would have been a plenty.

As it was he hoofed it right along to his neighbors and told his story.

Mr. Jackson and his neighbors returned to the house to rescue Josephine, but when they reached the house her shrieks had ceased.

Presently young Mose Johnson espied a slimy white figure flitting past the upstairs window. He let fly an apple. It hit the white-robed figure square in the face. The head was poked out of the window.

"Mose Johnson!" it shrieked. "I'll smash yo' everlasting good fo' nuffin' happy head fo' you."

It sounded like the voice of Josephine. And, in fact, as Mose did a quick step up the road Josephine darted down the back stairs.

Nothing could induce Josephine to return, though her husband hinted to her that her attire was not quite the thing for the street. The couple spent the rest of the night at Neighbor Webster's house down the road.

Since then not a colored person has crossed the threshold of the "haunted house."

Mr. Blake recently spent considerable money repairing the place and he says he does not propose to be "robbed of his house by a superstitious prejudice."

### BAR ALL STOCKINGLESS GIRLS

Atlantic City Rules Bathers Must Cover Legs While Walking Around Beach.

Atlantic City, N. J.—Feminine "calves" unprotected by stockings are no longer to be seen along the beach. Stockingless maids went under the ban by order of Dr. John T. Beckwith, chief of the beach patrol, acting under direct orders from William Bartlett, director of the department of public safety.

Shapely damsels, not content with abbreviated bathing garments, started a bare leg fad some weeks ago. Since then there has been a general move by athletic girls to follow suit. Director Bartlett was shocked when he sighted several fine specimens drifting about the strand today and the ukase followed.

Now the girls are protesting that the men should be treated likewise.

### MRS. BELMONT IS MARKETER

Society Woman Does This as a Protest Against Petty Graft of Employees.

Newport, R. I.—Mrs. D. H. P. Belmont is doing her own marketing this summer as a protest against a system of petty graft, which she says has become well-nigh universal in the households of the wealthy summer colonists, here.

"This system of graft, by which employees profit at the expense of employers, is all wrong," says Mrs. Belmont. "We pay our kids good wages, for which they are expected to do a certain service. It is certainly unfair for them to expect to make a large sum of money on commissions that are bound to come out of the pockets of their employers."

H. P. Sansbury left last night for Fort Worth and Dallas, where he will visit relatives for a few days.

### COST OF LIVING NOW DECREASING

PRESIDENT TAFT DECLARES WAVE OF HIGH FOOD PRICES HAS BEGUN TO SUBSIDE

### SEC. WILSON'S REPORT

Prices On October 1 Indicated Saving to Consumer of Nine Per Cent

Beverly, Mass., Oct. 19.—In a statement issued tonight on reports from Secretary of Agriculture James Wilson President Taft declares the wave of high prices for food has begun to subside in this country.

"The wave of extremely high prices for food throughout the civilized world," read the president's statement, "has reached its height in the United States and is subsiding. The American people have cause to be thankful that because of our industrial prosperity, it has not been attended here with

the great hardships which have prevailed in some of the countries where high prices have combined with low wages to reduce the working people to a point bordering on starvation."

According to the announcement of White House officials, Secretary Wilson made an investigation of the causes of the prices and the effect of bumper crops in the United States upon such prices.

The great prosperity of the American farmer has brought about a material decrease in the cost of food products, the report said, although in many instances the reduction will not become apparent to the consumer for several months. The report promises that the price of meat will decrease noticeably on account of the bumper crop and after cattle, sheep, and hogs fed from that crop, reach the consumer.

Secretary Wilson advised the president that on the nine great crops of the country, corn, wheat, oats, barley, rye, buck wheat, potatoes, flax seed and hay, the October 1 prices indicated a saving to the consumer of nine per cent.

### CHANCE MAY RETIRE FROM BASE BALL

Definite Announcement Made That Veteran Will Not Again Manage Cubs

Chicago, Ill., Oct. 19.—Frank Chance, manager of the Chicago Cubs for seven years, will not be at the head of the team next year if President Murphy stands by a statement he made today. Murphy said he would have as leader next year, the youngest playing manager in the League and a man who will live and vote in Chicago, but he would not name him.

Chance who is older than some of the managers, probably will not play next year and says he will not live in Chicago throughout the year under any consideration on account of his California interests.

"I don't know whom Murphy has in mind," Chance said. "I shall not visit his office unless I am requested to and further, I don't think Murphy wants to see me any more than I want to see him."

### STATE'S WITNESS USED BY DEFENSE

Testimony so Favorable for Defense in Grabow Riot Case, State Attempts Impeachment

Lake Charles, La., Oct. 19.—Practically the whole day of Saturday in the Grabow labor riot case was spent in the examination of Sberly R. Buxton, an employee of the Galloway Lumber Company, at whose plant the battle was fought. Though he was a witness for the State, his testimony was so favorable to the defense that District Attorney Moore tried to im-

peach his evidence. The court would not permit impeachment of the testimony.

Featured in Buxton's evidence was the statement that John Galloway, one of the brothers who formed the Galloway company, said when the approach of the union men was discovered, "By God, they can't speak. Don't let them speak."

This was directly in opposition to the testimony that the state secured yesterday that the mill officials instructed their employees to go quietly to their homes unless they wanted to hear the speaking.

My prices are consistent with first class work and material. Dr. Garrison, dentist. 137 11c

### TWINS KEEP UP TRADITION

Both Parents of New Colorado Arrivals Are Twins Themselves—Long Lineage Likewise.

Golden, Colo.—The birth of twin boys in the family of Prof. Charles D. Test of the department of mineralogy in the State School of Mines here proved no anomaly to an ancestral characteristic.

Professor Test himself is a twin. Mrs. Test has a twin sister and Professor Test's father came into the world with a brother. Both Professor Test and Mrs. Test came from a lineage long noted for twins.

The couple was married a year ago.

MAKES A DARING RESCUE

New York Fireman Climbs Five Stories—Brings Man Down Ladder.

New York.—Taking his life in his hands, Fireman Walter Signer, driver of the tender of Engine Company 15, entered a window on the fifth floor of the burning tenement house at 303 and 305 East Thirty-first street and rescued John Robinson, a tailor, who had been trapped in the flat.

The fire was discovered by Catherine Van Dren, who lived on the top floor with her mother, sister and brother. She was awakened by the choking smoke, and after arousing the family started down the stairs.

The fire escapes were blocked by the crowds of people on their way down, and it was necessary for the firemen to run up a ladder and take more than a dozen persons off.

Signer saw Robinson appear at a window on the fifth floor, appealing for help. Signer ran up a scaling ladder, but when he was half way up, Robinson fell back into the furnace behind him. The fireman climbed into the window and appeared a moment later with Robinson slung over his shoulder.

An earlier rescue performed by Signer was recalled, from the effects of which exploit he had been partly disabled. He brought from the depths of the earth a 200-pound watchman, who was unconscious, carrying him over four platforms, while flames from a gas explosion made a "magic fire" scene.

SUES FOR LOSS OF FIANCÉ

Mishap Shortened Men's Legs and Sweetheart Jilted Him. Ask Ice Firm for \$17,000.

Scranton, Pa.—James A. Hubbard of Factoryville has brought suit against the Tobyhanna Ice company for damages in the sum of \$15,000 because of an accident which left him with a "rainbow" leg and which cost him the loss of a sweetheart, who could not stand the prospect of a long life with a man one of whose legs was longer than the other.

Hubbard was employed by the ice company, and while loading ice, a trestle gave way with him and his right leg was crushed by a huge cake of ice he was handling. The accident left the leg two and a half inches shorter than the left one, and his sweetheart, when she saw the deformity, insisted on breaking their engagement.

Hubbard now sues, he says, not so much for the shortening of his leg as he does for the loss of the woman who was to have been his wife, and declares that he believes he will have to go through life a bachelor, for he does not believe any woman will care to marry him in his present crippled and deformed condition.

Graham Nut Bread. One cake compressed yeast dissolved in cup of warm water with one teaspoon sugar. Let stand until foamy.

SUNDAY MORNING EDITION—WICHITA FALLS, TEXAS, SUNDAY, OCTOBER 20th, 1912—SECTION TWO

NUMBER 137

## NOTES OF THE WEEK.

The end of the week finds many Wichitans in Dallas, enjoying the fair and taking in the sights.

The Thursday Sewing Club met with Mrs. J. W. Murph on Tenth street last week.

The Musician's Club is to meet next Thursday at the home of Mrs. J. P. Boone and an interesting program has been prepared.

Mrs. C. C. Huff is the next hostess of the Friday Bridge Club and will entertain the members next Friday afternoon.

The second of the Thursday night dances at the Elks' Club was held last week and a large number of young people were on hand to enjoy it.

The ladies of the Episcopal Guild are already making plans for a reception to the new rector, soon after his arrival here next month.

Circus parties were the particular stunt for last Tuesday and both afternoon and night performances found many groups of young people taking it all in, though there were no large parties.

Mrs. C. W. Beavers entertained Section C of the Ladies Aid Society of the First Presbyterian Church at her home Thursday.

Many of the ladies on Tenth street are taking an active part in the movement to pave that thoroughfare and the pavement will become a reality if they have their way.

The Times would be glad to publish the programs for the club meetings in advance, if the program committees will furnish them in time. This request has been made before and is republished in the hope that it will meet with still more response.

Circle No. 4 of the M. E. Church, South, will meet at 3:30 p. m. Monday with Mrs. Mark Moore at the church.

### MRS. GORSLINE HOSTESS TO UNITY CLUB MEETING.

Last Friday's session of the Unity Club was held at the home of Mrs. E. B. Gorsline, where the members, as always, found much of wholesome hospitality. The roll call was answered with current events, following which there was a parliamentary drill led by Mrs. T. B. Greenwood. A very interesting paper on "The Moors" was read by Mrs. Berney, then the members took up the discussion of the play "Othello," with particular attention to Iago. The topics were "Iago From Othello's Viewpoint," "Iago's Railing Passion," "His Soliloquies and Asides" and "Iago as Compared with Other Shakespearean Villains." The lesson was on Act II, Scene 3, with Mrs. Mark Walker as chairman. Mrs. Walker also gave a pleasing piano solo as a musical feature of the afternoon. Refreshments served by the hostess were yet another contribution to the afternoon's enjoyment.

### BAUCH-LITTLE CEREMONY AT WAGO LAST WEDNESDAY.

The wedding of Mr. Karl Emil Bauch Jr., of this city and Miss Besse Irene Little, occurred last Wednesday at the home of the bride's mother in Waco and Mr. and Mrs. Bauch returned Friday to make their home at 1011 Eleventh street, where affairs of a house-warming nature were held, being planned by the many friends of the young couple. The groom is a well-known and popular young man of this city and those Wichitans who are acquainted with the bride aver that Mr. Bauch is indeed fortunate.

### FORTY-TWO CLUB HOLDS FIRST MEETING OF FALL.

The Forty-two club was revived last week with a delightful meeting at the home of Mrs. C. W. Snider, where a dozen couples gathered for an evening with the dominoes. The merry round of the games was given an increased charm by the entertainment provided by the hostess and the evening was one of marked enjoyment. Those present included Mr. Perkins, Mrs. McNeil, Messrs. and Mesdames T. B. Noble, C. C. Huff, P. P. Langford, T. T. Reese, R. E. Huff, J. L. Jackson, Greshman, H. A. Allen, Carpenter, Adams, Orlopp.

### MRS. SNIDER ENTERTAINS THE NEW CENTURY CLUB.

Mrs. C. W. Snider was hostess to the New Century Club at last Wednesday's session and a decidedly instructive session was held, with eleven members present. The pres-

ident, Mrs. W. M. McGregor, presided and Mrs. Wade Walker was the leader in the program, which again dealt with that region of ever-increasing interest, Panama. Dainty refreshments were served by the hostess.

### 500 CLUB HAS SESSION WITH MISS CHAMBERLAIN.

Miss Ethel Chamberlain was hostess to the Five Hundred Club Thursday, and a full membership was present to partake of her welcome, there being several guests in addition to the members of the club. Mrs. McGregor received the club favor, a hand-bag, while the guest favor, a card-case, went to Miss Cora Coons. Cream and cake were served at the conclusion of the games. Those present were: Mesdames Allen, Bacon, Frank Blair, Cravens, Duval, Duke, McGregor, M. M. Walker, Wade Walker, Bruce Smith, Sammons, Inge, Short, Fontaine, T. W. Thomas of Vernon, Misses Dent, Sherrod, Dora Coons, Cora Coons, Lonie Childers.

### KEMP MAER ONE YEAR OLD; OCCASION IS CELEBRATED.

Kemp, the son of Mr. and Mrs. Newton Maer, was one year old yesterday, and the day was the occasion for the inviting in of a number of the very little friends to help him fitfully observe the anniversary. The little ones entertained each other at the Maer home and the young man proved a thorough host. Ice cream and cake were served and the affair was a thoroughly enjoyable one. Among the future beaux and belles in attendance were: Little Misses Mildred Miller, Sarah Elizabeth Langford, Frances McKee, Katherine Weeks, Jeanette Walker, and Masters James Mytinger Jr., Anderson Walker, Archibald Greenwood, Wallace Little, Charles Hise Jr., Winfield Little and James Prothro Jr.

### WILLIAMS-RAHL WEDDING INVITATIONS ARE ISSUED.

The following has been received: "Mrs. Frances Rahl requests the honor of your presence at the marriage of her daughter, Gladys, to Mr. Robert T. Williams, on the evening of Wednesday, November 6, 1912, at 9 o'clock at her residence."

### BETROTHAL ANNOUNCEMENT CARDS HAVE BEEN SENT.

Cards have been received announcing the betrothal of Mr. Philip Kleinman of this city to Miss Rae Dugan. Miss Dan is a member of a well-known Fort Worth family and Mr. Kleinman is a merchant of this city, comparative a new-comer who already has many warm friends in Wichita Falls.

### ART LITERATURE CLUB HAS SESSION WITH MRS. CARITHERS.

Mrs. J. W. Carithers was hostess to the Art Literature Club Wednesday, with Mrs. E. M. Harris presiding. The afternoon's subject was "Michael Angelo," and Miss Louis Bell was leader, giving the biography of the great painter. Mrs. J. M. Blankenship told of Angelo's best picture, and the lesson from the Bayview Course was read by Mrs. Smith. There was a general discussion by all the members and some musical features. Mrs. Lawler and Miss Helen Hines were appreciated visitors and rendered several beautiful musical selections; Miss Jessie Kerr was another pleasing contributor to the musical program, and all the selections were thoroughly enjoyed. The club colors, purple and white, were reflected in the refreshments, ice cream and cake. The next meeting will be held at the home of Mrs. Cravens, 1002 Brook street at 3:30 next Tuesday afternoon.

### THOMAS-FORMBY NUPTIALS CELEBRATED ON THURSDAY.

Mr. Church Cecil Thomas and Miss Eloise Formby were married Thursday at high noon at the home of the bride's sister, Mrs. A. N. Lammus, Rev. J. P. Boone of the First Baptist Church officiating. The wedding party entered to the strains of the wedding march played by Miss Maugarsite Baker, a niece of the bride, and halted under a bower of cut flowers and ferns. The bride was attired in white messaline with chiffon over it, and wore a pendant of pearls and diamonds, the groom's gift. Following the ceremony a number of friends accompanied Mr. and Mrs. Thomas to the Union Station, where amid a shower of rice, they left for Fort Worth and other points, thence to their home in Jefferson, Texas. The bride is blessed with a wide circle of friends whose best wishes are with her. The groom is a business man

of Jefferson and is a young man of sterling qualities.

### ENTERTAINMENT IN HONOR OF BRIDE AND GROOM.

Mr. Leon Deaton entertained a number of young people Thursday evening at the home of his sister, Mrs. J. R. Bachman, 1011 Eleventh street, in honor of Mr. and Mrs. K. E. Bauch, who returned Thursday from Waco, where the wedding ceremony took place. The evening was very pleasantly spent in playing hearts and forty-two. Mrs. Bachman and Mrs. Deaton served refreshments of ice cream and cake. Those present took the opportunity to extend good wishes to the bride and groom, and the affair was in the nature of a cordial welcome home. Those present were: Misses Vera Taylor, Hesia Zeigler, Lennie Peery, Rowling, Messrs. Morgan, Clarence Davis, Pate, Mr. and Mrs. Bachman and Mr. and Mrs. Bauch.

### ALAMO HOME AND SCHOOL CLUB TO MEET ON FRIDAY.

The Alamo Home and School Club will hold its regular meeting Friday October 25, at the school building. The following interesting program has been prepared and all are urged to attend: Topic—"Play Hour for the Child;" devotional, Mrs. Sam Scaling; Roll call to be answered with appropriate quotations; business meeting; paper, "How Do Plays and Games Educate Children," Miss McGill; discussion; piano selection, Miss Allene Waggoner; "Old-fashioned Plays and Games," Mrs. J. A. Kemp; solo by Mrs. G. H. Carpenter.

### MRS. JAMES OF ELECTRA HONORED BY MRS. HUEY.

Mrs. A. L. Huey entertained Thursday afternoon from 4 to 6 in honor of Mrs. Hugh James of Electra. Little Miss Bernice Gohlke, presented gifts from friends, with appropriate recitations. Piano selections, rendered by Mrs. M. H. Benson were a delightful feature. The game of Forty-Two was the evening's diversion and was enjoyed until a late hour. Miss Halle Huey dispensed cake and punch to the guests. The Huey home was prettily decorated in blue and white, with vases of cream roses adorning each room. The affair was a charming one and added substantially to Mrs. Huey's reputation as a hostess. Those present included: Mesdames C. L. Reed, P. C. Maricle, A. S. Fonville, F. H. Gohlke, M. H. Benson, Oran Taylor, J. P. Belote, J. T. Young, Hugh James of Electra, and Miss Halle Huey.

### EPISCOPAL GUILD PARTY AT THE FONTAINE HOME.

The Ladies Guild of the Church of the Good Shepherd entertained the members of the Episcopal church Monday evening at the home of Mr. and Mrs. C. L. Fontaine. The affair was an informal one, being a source of much pleasure to all present; it was in the nature of a "get-together" for the members of the Episcopal church of this city, as the coming of the new rector is to mark a renewal of the activities of this congregation. Musical selections by Mr. and Mrs. Von der Lippe, Miss Mabel Simpson and Mrs. Dunasvski were among the evening's pleasures. The Fontaine home was decorated with flowers and looked its prettiest. Refreshments in the form of coffee and sandwiches were served and Mrs. Cravens presided at the coffee-table, assisted by Mrs. Inge, Mrs. Fontaine, Mrs. Gates, Mrs. Frank Blair and Mrs. O. J. Pickle. When the new rector, Rev. Mr. Chester Wood, arrives, it is the plan of the Guild, ladies to give a general reception in his honor, of which Monday's affair was a delightful forerunner. Those present included Mrs. Sammons, Miss Sammons, Mr. and Mrs. Von der Lippe, Mrs. Daniels, Miss Simpson, Mr. and Mrs. D. J. White, Mr. and Mrs. W. M. McGregor, Mr. and Mrs. Frank Blair, Mr. and Mrs. F. M. Gates, Mrs. S. D. Lynch, Mrs. Childers, Miss Childers, Mr. and Mrs. Kelley, Mrs. Inge, Mrs. Bruce Smith, Dr. Mackechney, H. M. Berry, Miss Ethel Cobb, Mrs. Thornburn, Mr. and Mrs. H. A. Allen, H. M. Lockwood, Mr. and Mrs. O. J. Pickle, Mr. Whitney, Mrs. Goodale, Mrs. Short, Alphonse Boger, Mrs. Boger, Mrs. Ted Smith, Mrs. Craven, Miss Dent and Miss Hickman.

### AUSTIN SCHOOL MOTHERS IN SESSION THURSDAY.

The Mothers' and Teachers' Club of the Stephen F. Austin school held its regular meeting Thursday afternoon. The attendance was unusually good and there were four new members whose names were added to the roll; also, several visitors were present who expressed themselves at the close of the program, as having enjoyed it very much and said they in for all stories. The report of the roll call was answered with sentences expressing some great need of the school child, from the viewpoint of the member, which brought out many valuable ideas for thought and discussion. Mrs. Lee's paper on "The Country School" was interesting

#### SOCIETY.

(Continued from page 1)

and opened up a field for further labors, that of supplying friends and acquaintances with literature on the subjects of the child, home and school and sending the same literature to the rural districts. The report of the committee on apparatus was submitted and it was decided to wait until the last term of school before providing the equipment and devote all energies, for the time being, to helping the teachers and children in their work and to having instructive and entertaining programs and in cultivating the intellectual side of the members, believing as Webster said, "if we work on marble, it will perish; if we work on brass, time will affect it; if we rear temples, they will crumble into dust; if we work on immortal minds and imbue them with good principles, we engrave on those tablets something that will brighten for all eternity." The report of the committee on program was accepted and the committee was made permanent. The last and most enjoyable feature of the afternoon was the vocal solo by Mrs. G. H. Carpenter, which showed her a true artist and the possessor of an unusually musical and highly cultivated voice. At the next meeting, which will be held a week from next Thursday at the high school, Dr. J. W. Hill, pastor of the M. E. Church, South, has promised to give one of his interesting lectures and the officers of the club are anxious for every mother in the city to hear him; there will also be some musical numbers, both vocal and instrumental and a humorous reading. Further notice will appear in next Sunday's paper.  
MRS. T. H. PEERY, Press Reporter.

#### SOCIETY PERSONALS.

Mrs. J. V. Tidwell, who was the guest of Mrs. W. L. Lawler, returned last week to her home in Dundee.  
Mrs. J. T. Montgomery is in Dallas.  
Miss Clair McCarty returned early last week from a visit to Chicago, Cincinnati and other points.

#### MUST BELIEVE IT.

When Well-Known Wichita Falls People Tell It So Plainly

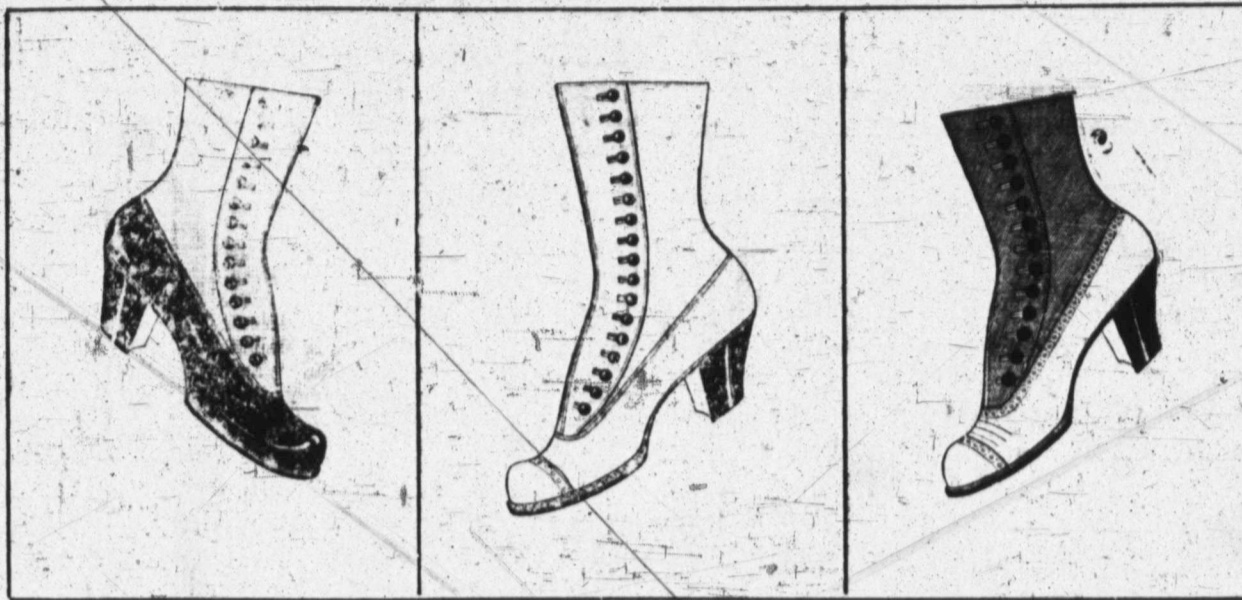

When public endorsement is made by a representative citizen of Wichita Falls the proof is positive. You must believe it. Read this testimony. Every backache sufferer, every man, woman or child with any kidney trouble will find profit in the reading.

Mrs. G. A. Swoge, carpenter, 612 Burnett street, Wichita Falls, Texas, says: "Some years ago I publicly recommended Doan's Kidney Pills. I now confirm all I then said. I had pains across the small of my back and in my sides and besides this there was difficulty with the kidney secretions. My ankles became swollen and I had terrible pains in my back and sides. The contents of a few boxes of Doan's Kidney Pills entirely cured me. I seldom have occasion to use a kidney remedy, but when I do, Doan's Kidney Pills always give me excellent results. It gives me pleasure to recommend this excellent remedy."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

#### Eggshells in Surgery.

In a number of skin-grafting operations he has recently carried out, a Philadelphia physician has used the lining of egg shells instead of human skin. One of the patients he is reported to have successfully treated in this way was a woman, who had the skin burned off her back. The physician declares that the suffering which has been imposed on human donors of skin for such operations is unnecessary. Only fresh eggs may be used.

## Why Not Select Your Shoes From Among the Best?

### For Men We Offer:

The Boyden and Just Wright makes, either of which are recognized as leaders in the shoe trade. The Boyden's are strictly bench made of the finest materials it is possible to put into a shoe. We have them in button and bluchers, in all leathers, and the new fall styles of toe.

The Prices are . . . . \$5.50, \$6.00 and \$6.50

The Just Wright's are a lower priced shoe, made of just as good materials and in just as good styles, but are machine made and built more for long wear and service. We have these also in all the leathers, and several extremely new shapes.

The Prices are . . . . . \$4.00 and \$5.00

### For Ladies We Offer:

The John Kelly make, and in this selection we defy competition in style, material and workmanship, and offer them as the most durable ladies' shoe on the market. We have them in the high boots and regular lengths, in the calf, gunmetal, patent, black vici, white and black with white tops.

The Prices are \$3.50, \$4.00, \$4.50 and \$5.00

## W. B. McClurkan & Co.

Corner Seventh and Ohio

### VENERABLE FATHER OF REV. COE DEAD

He Had Come Here to Spend With Son—Was 73 Years Old and Had Been Minister 34 Years

Rev. A. J. Coe, aged 73 years, father of Rev. J. E. Coe, pastor of the First M. E. Church, corner Seventh and Lamar streets, died at the home of his son, 702 Lamar street, at 12:30 o'clock Saturday afternoon.

Rev. and Mrs. Coe came here something over a month ago to spend the winter months with their son. Rev. Coe had been seriously ill before coming here from Iowa, but after his arrival seemed to improve greatly, but a few weeks ago again became worse.

His son was at Guthrie attending conference at the time of his father's death and was expected to reach here on the early morning train today.

The funeral will be held at the church Monday morning at 10 o'clock and will be conducted by the Wichita Falls Pastors' Association.

The deceased was a native of New York and had been a minister of the gospel for thirty-four years, preaching at a number of churches in Kansas and Iowa.

Rev. Coe visited here in the early part of the year and his kindly interest and his almost youthful enthusiasm in any good cause inside the jurisdiction of his visit regretted by all who formed his acquaintance.

He is survived by a widow and one son.

## Do You Realize

#### TOWEL DESIGNS ARE PRETTY

Natural Colors Introduced to Add to Effect, and Results Speak for Themselves.

When the dainty cross stitch designs in natural colors were fashioned in garlands from flowers and bowknots on towels last year many declared nothing could be prettier, but now the darn stitch and the bias stitch, also

in natural colors, have been introduced and they certainly are attractive.

At the present moment, however, no towels are meeting with popular favor like these variously termed the "medieval design," the "20th century design" and "Venetian point"—designations that are confusing in both period and place. There is some excuse for this, as the designs show the influence of lace's evolution and do not cling to

any one decided type, but borrow beauty from all. The work is done in a sort of buttonho's stitch, combined with punch work.

#### When Cooking Eggs.

Here is a fact worth knowing when you cook eggs.

A spoonful of flour added to the grease in which eggs are to be fried will prevent them from breaking or sticking to the pan.

**GUFFEY CO. PURCHASES TANK FARM SITE**

HUNDRED ACRES EAST OF ELECTRA WILL BE USED FOR RESERVOIRS SITE

**OTHER OIL NEWS**

Next Few Days Expected To Show Something in Eeds Section of Field

The purchase of about 100 acres east of Electra by the J. M. Guffey Petroleum Company, to be used as a site for a tank farm, was announced by local officials of the company yesterday. The land is located along the Denver tracks and the consideration has not been made public. The purchase was made from S. Williams and Bert L. Brooks.

The construction of the tanks is to begin very shortly, it is learned, but it is not yet known how many will be constructed. The Guffey's present production is about 1400 barrels daily.

The significance of the deal lies in the fact that it practically makes certain another pipe line from the Electra field. Ever since the Guffey actively entered the Electra field it has been the belief in oil circles that it would eventually mean the construction of another pipe line and this appears to be near consummation.

The Red River Oil Company's No. 1 on the Bywaters is down about 100 feet and is reported to have prospects for a good well. Red River No. 2 Bywaters is down nearly 1400 feet without ever having found the good sand at a thousand feet, and will be sent to the deeper strata.

The Corsicana has a location for an offset to the Badgett well, near the Wilbarger county line and will use a Star rig. The Badgett well was reported to have a good showing at 720 feet and this has resulted in some additional activity in the extreme western part of the Electra field.

The next few days may show something in the Eeds section of the field. The Corsicana's well on the McClure farm north of the Eeds is due to reach the sand in about ten days, after considerable trouble. The Guffey wells on the Eeds and the Ward and Todd are progressing slowly. Northwestern No. 2 on the Eeds is going again, after trouble with a cracked hole and the Clint Woods well has a fishing job.

Drilling on the Avis well which has been shut down for several months is to be resumed soon. Drilling was stopped at a depth of something over 2,000 feet. The company has been reorganized and will drill as deep as the drill will go or until oil or gas is found.

The Five Rivers No. 1 on the Campbell tract at Electra found the same sand at 738 feet as was found in Developers No. 1 at the same depth. The sand is of the same thickness as the same sand in the Byers No. 7 and Developers No. 1 giving grounds for hope that the same pay sand will be found deeper in this well as in the first two mentioned.

Several of the companies have been negotiating with a farmer near Electra to settle for damages to his cotton growing on land which they have leased. The figures for which the farmer is holding out, the oil men declare, would make his cotton worth about ten cents a boll.

The Lillian Oil and Development Company is reported to have closed a contract to sink a well within the corporate limits of Archer City.

Five Rivers Marriot No. 2 is preparing to underream at 410 feet.

The pipe line runs are holding in strong this month. The Texas company is running over 22,000 barrels a day, the Gulf company about 20,000 barrels daily and the Prairie Oil & Gas Co., 88,728 barrels a day. These figures show that with the large amount of development the production is being increased, and yet compared with the large number of completed wells the increase is only slight. With new wells starting off at from 100 to 10,000 barrels a day, and many of them at that, the production has only a little more than held its own, perhaps 10,000 barrels a day more than it was the first of the year. The total run of the Prairie Oil & Gas Co. for the first fourteen days of October were 1,242,194.90 barrels, a daily average of 87,285.21 barrels, or about the same as the average of last month. At the same time the deliveries were 1,328,516.4 barrels, being 94,894.63 barrels a day. This means that the runs have increased more than the deliveries, the amount taken out of storage showing a decline, aggregating 86,321.52 barrels or 6,165.82 barrels a day. The drain upon the stocks a few months ago before the big drilling campaign was as high as 18,000 barrels a day. —Independence (Kans.) Reporter.

Chapman and McFarlin's (Red River Oil Company) No. 3 on the Bywaters has a good sand at 833 feet and a good shallow well is indicated.

Nothing has been heard from the scouts who beat it to Duncan, so hurriedly and it is not known how the developments there panned out. The report was that there was a 20 barrel well at about 450 feet.

The Corsicana's well on the Stone land near Petrolia, which had a good gas showing, found only salt water when it went deeper. Cement is being let in the hole in an effort to do something with the gas.

The Corsicana is laying a two inch gas pipe line to supply fuel for its well on the Boddy farm between Mabledean and Thornberry. The gas is piped a distance of six miles and is said to be considerably cheaper, at that, than oil or coal would be. The derrick is up for the Boddy well and drilling will start this week.

Progress is very slow on the Green R. M. Moore having moved to California is offering his real estate located on Indiana avenue for sale. Anyone interested can see me in my office Kemp and Kell building, room 203, Mark H. Moore. 123-12c.

less well near Mabledean, and its depth is now 1280 feet. The drill has encountered some of the hard stuff that makes work go very slowly.

The derrick on the Embury near Burk Burnett which was burned last week, was completed yesterday and the next day or two should bring some definite news from that offset to the Schnocker well, to determine whether Burk Burnett shall stay on the oil map or meet the fate of its Archer county neighbor.

**NEW RECTOR FOR EPISCOPAL CHURCH**

The congregation of the Church of the Good Shepherd (Episcopally) which has been without a rector for some time, has secured the services of Rev. Chester Wood, who will arrive here November 10 from Lansing, Michigan. He will conduct the first services on November 11.

The new rector is originally from New York City, where he was for a time assistant rector of the famous

**NEARLY 3000 BALES COTTON ALREADY GINNED**

Estimated a Little More Than Half of the Crop Has Been Ginned Here

Approximately 2700 bales of cotton have been ginned in the three gins in Wichita Falls this season and it is estimated that the crop is only a little more than half picked. It is

"Little church around the corner." He is said to be a divine of more than ordinary ability and the congregation feels that it is to be congratulated upon securing his services. There are a number of Episcopalians among the new residents of this city, particularly among the families which the oil activity has brought to Wichita Falls and it is believed that with the arrival of the new rector, the church will enter a period of marked activity. The local members of the church are making extensive plans.

now estimated that between five and six thousand bales will be ginned here this season and that the total ginning for the county will be upward from 10,000 bales.

Last year the total ginnings for the county were only a little more than 4,000 bales.

While definite figures were not available last night it is estimated that about 25,000 bales have already been handled by the two compresses here and the present season will see all records broken for the number of bales compressed here.

The three gins, the cotton oil mill and the two compresses present scenes of busy activity these days and several hundred men are directly employed in the handling of cotton here.

### WICHITA FALLS CLUB MAY BE ORGANIZED

Meeting Will Be Called Within-Next Two Weeks of Students at State University.

Austin, Texas, Oct. 19.—What makes a preacher preach, boys; what makes a preacher preach," sang seven or eight hundred students of the University of Texas on the University athletic field last Saturday afternoon during the football game which ended in the defeat of the Austin College eleven of Sherman by a score of three to nothing. "Got any chicken over there, boys; got any chicken over there," answered two hundred and fifty or more Presbyterian ministers who were present at the game by special invitation from the Athletic Association of the University.

The preachers were assembled in Austin for the purpose of attending the Synod of Texas, which adjourned last Monday after a four day's session. While in the city the ministers took their meals at the University dining hall and mingled freely with the students during the entire four days of their stay here. The Synod thanks to the Athletic Association for the courtesies extended to the preachers at the game with Austin College which is a Presbyterian institution.

Last week passed slowly for the majority of the University students the great majority of them now being settled down for the term's work which is occupying the most of their time practically every day of the week. Probably the most important event that transpired at the University during the past week was the announcement which was made public Wednesday morning of the existence of an organization which has for its avowed subject the abolishment of factional politics in the University. The movement found its origin in the political situation which had existed in the University for a number of years prior to the organization of the above club which came into existence last year.

Up to one year ago there were two distinct political factions in the University, these being largely headed and directed by the fraternities. As a result of this alignment, manifold evils of a more or less serious nature resulted. Trades were made in which class and department offices were used to buy support for the men running for the more important offices; incompetent men were set up as candidates merely to pay political debts; and candidates were supported by the members of the two factions for purely political reasons and not because such candidates were conspicuously qualified for office.

The two factions were manipulated

and controlled by small groups of students who passed on all nominations and directed party action so that under this arrangement mud-slinging was the order of the day and reputations were freely besmirched. Even University athletics which above all else should have been free from the foul hand of politics, was not spared by the schemes of the politicians. The time had arrived for drastic action and such action was taken by a number of the most prominent students of the University when they banded together more than a year ago and organized themselves into a club which had for its object the abolishment of factional strife in politics.

The club which was organized without publicity at the time, has fully succeeded in its object and the official announcement of the existence of the organization was made this week. It is thought that practically every student in the University has joined or will join the club and sign this pledge: "I hereby agree that in voting for candidates for office or for measures, I will lay aside all party, club or fraternity affiliations and will vote solely for the men best qualified for office and for the measures that are most beneficial to the University."

In addition to the announcement of the political anti-factional club, President Mezes of the University announced a few days ago that the new registration figures show that three hundred more students are enrolled in the University at present than were enrolled at the same time last year. The new record is 1952 as compared with 1699 at a corresponding date last season. As many students enter the University at the opening of the winter and spring terms, the total attendance at the University of Texas this session will probably reach the twenty-two hundred mark which is a record that has not yet been attained by any university or college in the entire Southwest.

The attention of most of the students of the University will in a day or two be directed to Dallas, where next Saturday afternoon at Gaston Park will be played a football game with the eleven from the University of Oklahoma. Hundreds of rooters from both universities are expected to be present and cheer their teams on this occasion and all of the students from this University who go to Dallas will be excused from class work Saturday. A special train of chair cars and Pullmans will be operated from Austin so as to arrive in Dallas at 7 o'clock Saturday morning where the students will be met at the station by the Dallas Alumni and members of other university organizations in Dallas. A huge parade will form and the students will march through the city with band playing and colors flying. There will likely be another parade before the game, after which the rooters will take their places in that part of the

park which will be assigned to them and will render all of the assistance in their power to the Texas eleven in order to help them in winning the game.

It is expected that the game with the University of Oklahoma will be a hard one this season, because for the last three years Texas has gone down in defeat before the "Sooners" team, and at the present time the Texas eleven is in no condition to meet adversaries of such merit as the men from Oklahoma have proven themselves to be. However, the same condition of affairs existed last year when Texas played A. & M. and many of the students here are looking forward to victory in Dallas. The Varsity Alumni of Dallas are planning a swell entertainment for the students after the game and everybody is invited and will be expected to be on hand.

A monster rally will be held in the auditorium of the main building Friday night for the purpose of encouraging the team for the contest and of inducing as many as possible of the students to make the trip to Dallas. It is probable that most of the Wichita Falls students will attend although none of them have as yet expressed any intention of doing so.

There is talk at the present time of organizing a Wichita Falls club at the University and a meeting will probably be called for this purpose within the next two weeks.

Among recent visitors at the University were Charles Ingram, formerly of Wichita Falls, but now living near Lampasas and Judge A. H. Carrigan, who remained in Austin for two or three days on legal business. T. H. Mathis is expected to arrive here in a day or two to look after legal business. He will be the guest of his son, Ralph.

JEROME STONE.

### "SQUATTING" FOR OIL AND MINERAL RIGHTS

Oil Companies Take Steps to Protect Rights Against New Claimants

Although the day of the "squatter" in this neck of the woods was supposed to be long since past, there are now a number of those individuals in Wichita county. They are different from the old-time squatter who was seeking a place to build a home and raise some crops; these 1912 squatters are camping on some land near Electric in order to hold the mineral rights on it.

It all came about from the discovery of the defective land title to about 700 acres east of Electric, mention of which was made in The Times of Friday afternoon. It appears that while the actual ownership of the land is in question, the oil companies may file on the mineral rights, through actual residence on the land itself.

The result is that all the land leased by oil companies in the questionable section is now occupied by men whose orders are to stay there twenty-four hours a day and about seven days in the week. Tents, hastily erected shacks, anything that will serve as shelter from wind and rain, are used as habitations.

This action on the part of the oil companies is taken under the State laws, which permit "squating" on land for the mineral rights thereon, when the land itself is untenanted. The oil companies had leased from the supposed owners and when the title of these supposed owners was alleged defective, the lease contract was also involved. To protect themselves, the oil companies proceeded to "squat."

## You Can't Afford to Buy Anything But the Best of Clothing.....

That goes without argument, and you should not pay any more for it than at the lowest price for which it can be bought. That's business.

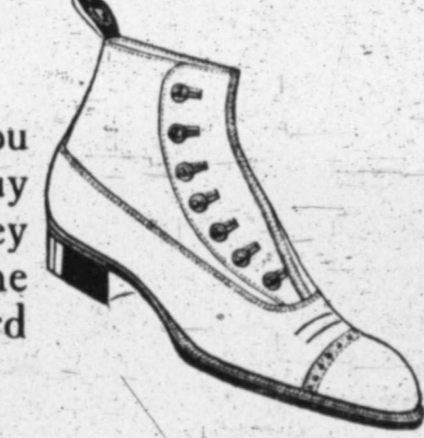

We don't cover so much ground; our stock is not so very large, but when we turn out a suit, overcoat, shoe, hat or any other furnishing article it is absolutely correct, and that's what we call satisfaction, and if you satisfy a man you have covered a whole lot of ground.

You know we are putting out a world of fine tailored suits this fall. Our tailoring business has more than tripled last season's—every day some fellow walks in, picks him out a piece of woolen and instructs that we duplicate his last season's measurements, all because he was satisfied with the fit. Most every day some fellow comes in with a low or an awful square shoulder or a stooped back or some other deformity, saying, he understands that we are mighty fine on fitting freaks, and wants us to fit him up. We know exactly what we are doing when it comes to selling clothes. We can prove it to you if you will give us one chance.

Just Bing CINCINNATI

**"Packard Shoes"**  
You can pay more but you will have a job trying to buy anything better—in fact they can't make 'em better—the world can't beat a Packard shoe.

**"Packard Shoes"**  
We have the new English last, with long drawn out toe and the flat heel. They are not what we fellows down here call a pretty shoe, but you know they are wearing them in the east and of course that's sufficient.

The Price is \$5.00, \$4.50, \$4.00 and \$3.40

We want your business and will take the best care of you in every way on all kinds of furnishings

### People Who Have Used Fowler's Stomach Wafers

EVERYONE PRAISES THIS GUARANTEED CURE.

Wherever Fowler's Stomach Wafers have been used we have hundreds of friends who have recommended it to their friends and insist on them trying it. It is simply wonderful the way this stomach wafer cures all forms of stomach troubles, from the mildest cases to chronic cases of years standing. Fowler's Stomach Wafers are sold on a basis of "money back if you are not satisfied," and druggists are authorized to give you your money back when you ask for it. They are convenient to carry, pleasant to take and you are judge of their merit. Try them today and not how quickly they bring relief to your poor stomach. Placed in the mouth they are chewed up and swallowed—no bad taste. Fowler's Stomach Wafers work instantly and in cases of cramps, over-eating, gas, sourness and mild forms of stomach troubles the relief is immediate. In chronic cases relief is felt at once, but it takes longer to effect a permanent cure. These wafers are sold by all first class druggists. Trial size sent on receipt of ten cents in stamps by addressing Harry L. Fowler & Co., San Antonio, Texas.

### Scene From Captain Jasper Here Wednesday Night

In Captain Jasper as presented by the Black Patti Musical Company at the Wichita Theatre Wednesday night, there is a plot and a story that is interesting. Friends of Captain Jasper, Colonel Warsaw of the U. S. A. with his daughter Lucy, when on the eve of their departure for the Philippine Islands for a pleasure trip discovered the theft of very valuable papers to the government concerning secret plans of attack on the Philippine strong-holds, also documents given in trust to the Colonel by his friend Sargeant Jackson, intended for his daughter Chetka when she becomes

of age. These papers concern an enormously wealthy grant of land in the United States, which some day will make her very wealthy. Before departing for the Philippines, Col. Warsaw is informed that a certain Major Drummond who was commissioned to the islands several months prior to the discovery of the theft, had committed the crime. Captain Jasper is commended to search for him and to recover at all hazards the secret plans. The Colonel intends at the same time to make an effort to secure the return of the valuable documents left by Sargeant Jackson to the Colonel.

Mr. and Mrs. Jackson (formerly Chetka Castro) a native of the Philippine Islands, whose relations have become estranged, and having a longing for her native land, decides to return and take her daughter Chetka with her. Here she meets Major Drummond who acquaints her with the contents of the valuable missing documents left in trust to Colonel Warsaw. Upon the arrival of the party in the United States Major Drummond in an effort to escape meets an untimely death. The stolen papers are eventually returned to their real owners.

elves, the oil companies proceeded to "squat." No such means of relief, however, will be afforded the present "owners" of the land if the claims of Maddox Brothers are sustained.

### TEXAS DIVISION "MERIDIAN ROAD" ORGANIZED

Wichita County Committee Will Consist of Mayor Bell, Walter Reid and A. L. Huey

The Texas division of the Winnipeg-Gulf highway or "Meridian Road" has been organized and the Wichita county committee will consist of Mayor Bell, Walter Reid and A. L. Huey. The state organization was set on foot at Fort Worth and the following is from the Record of yesterday: Newton H. Lassiter was chosen as temporary chairman of the Texas division of the International Meridian Road Association, which began its work in this state yesterday afternoon at the Chamber of Commerce.

W. G. Turner was named temporary vice chairman and it. O. McCormack temporary secretary of the Texas division. Permanent officers will be chosen within the next few days when a meeting of county delegates from Jack, McLennan, Wichita and Parker counties will be held here.

The meeting yesterday was held under the direction of John C. Nicholson of Newton, Kansas, secretary and treasurer of the association. He explained that the object of the movement was to build a highway along the 119th meridian from Winnipeg, Canada, to the Gulf of Mexico. As it is now planned, the road will pass through Fort Worth.

County committees selected yesterday were: Wichita county—John M. Bell, W. A. Reid and A. L. Huey. Jack county—J. P. Simpson, F. N. Foxall and Dr. R. E. Hillburn. Parker county—H. W. Cuteman.

### KATY'S STATEMENT OF NORTHWESTERN PURCHASE

Annual Report to Stockholders Gives Details of Deal and Facts About Earnings

The annual statement to the stockholders of the M. K. & T. Railway Company just issued reports the purchase of the Wichita Falls & Northwestern and the Wichita Falls & Southern railroads as follows:  
"Your company acquired during the year all of the capital stock of the Wichita Falls & Northwestern Railway Company, an Oklahoma corporation, of the aggregate par value of \$2,000,000, and all of the capital stock of the Wichita Falls & Southern Railway Company, a Texas corporation, of the aggregate par value of \$53,000. Those companies operated on June 30th, 1912, a system of railways known as the Wichita Falls Lines, extending from Newcastle, Texas, to Woodward, Okla., to Wellington, Texas, aggregating 333.37 miles, of which 328.60 miles are owned and 4.77 miles are used under trackage agreements with other lines. The line from Hinton, Okla., to Woodward, 66.33 miles was constructed and placed in operation during the fiscal year, and 83.67 miles from Woodward to Forgan, Okla., are under construction and will be completed and placed in operation soon. This new construction of 150 miles was arranged by the Wichita Falls & Northwestern prior to the purchase of its capital stock by your company. The Oklahoma corporation is the owner of all of the stock and bonds of the Wichita Falls Railway Company, which owns 17.98 miles of road extending from Henrietta, to Wichita Falls, Texas, and this mileage has been operated by your system, since its construction, under a contract which provides for specified divisions of rates and for the payment to the Wichita Falls Railway Company of the net earnings. The payments by your system to the Wichita Falls Railway under this contract have averaged \$112,573 during the past three years, and such payments will of course hereafter be retained within the system because of the acquisition of the Wichita Falls lines.  
"On June 30th, 1912, the outstanding capitalization of the lines in question was as follows:  
Wichita Falls & Northwestern:  
Capital stock ..... \$2,000,000.00

First mortgage bonds ..... 2,236,000.00  
Panhandle div. bonds ..... 882,000.00  
Deaver div. bonds ..... 2,500,000.00  
1st mortgage 6 per ct. note ..... 220,000.00

Total ..... \$7,838,000.00  
Wichita Falls & Southern:  
Capital stock ..... \$ 53,000.00  
First mortgage bonds ..... 757,000.00

Total ..... \$810,000.00  
Gen. total ..... \$8,648,000.00  
The following table shows the average earnings of the Wichita Falls lines (including Wichita Falls Railway) during the three fiscal years ended June 30th, 1912:  
Gross revenue ..... \$958,597.00  
Operating and taxes ..... 537,244.00  
Net earnings ..... \$421,353.00  
Interest, rentals, etc. .... 249,164.00

Surplus ..... \$172,189.00, equal to 8.4 per cent on \$2,053,000.00 capital stock.  
The Wichita Falls lines occupy some of the most fertile and densely populated agricultural country in Northwest Texas and Western Oklahoma. The principal agricultural products are cotton, corn, wheat, oats, broom corn and forage crops. The raising of hogs and cattle for market is an important industry. Large deposits of coal exist at Newcastle, Texas, the southern terminus of the Wichita Falls & Southern. Important discoveries of oil and gas in the district tributary to Wichita Falls were made during the year. The commercial and agricultural development of the territory contiguous to these lines is progressing rapidly. The earnings of the Wichita Falls lines suffered during the past year from the same adverse conditions which affected the operations of other roads in the Southwest, but there is every indication that the current fiscal year will be a prosperous one, and your management is of the opinion that these lines will be valuable feeders to your system. There is no floating debt, and under the terms of purchase the vendors of the stock discharged all of the current liabilities existing on July 1st, 1911.  
The mileage and operations of the Wichita Falls lines will be included in the system's reports when the extension to Forgan is completed and placed in operation.

Building Permits Issued.  
The following building permits have been issued: S. LeVize, one story brick on lot 3, block E, Graber and Ballew addition, \$1200; J. S. Bridwell, five room cottage on lot 4, block 253, \$1200; J. D. Lennox five room cottage, lot 6, block 65, Floral Heights, \$900; W. W. Curtin one story brick building on Ohio avenue between Sixth and Seventh, \$9000. These permits bring the total issued so far to past the \$30,000 mark.

### CITY TEACHERS HOLD INTERESTING SESSION

The teachers of the city schools held their regular monthly meeting yesterday at the High School building. Nearly all were present.  
Superintendent Carpenter opened the meeting with a few preliminary remarks. He first read a communication from State Superintendent Bralley, with reference to contributions to the Woodrow Wilson campaign fund. Then he offered suggestions concerning the proper method of teachers preparing their assignments for the Institute.  
The program consisted of talks and papers on the following subjects:  
"What is Education?"—Miss Sammons.  
Philosophical Basis of Education, and Biological Psychology—Miss Womack.  
Fundamental Principles of Genetic Psychology—Mr. Owen.  
Distinct and Feelings—Mrs. Jones.  
Religious Instincts and Emotions—Miss Oliver.  
General Confessions—Miss Gordon.  
Some Adventures Among Savages—Miss O'Neal.  
The Young Pretender—Miss Willis.  
How a Child Does His Thinking—Miss Kell.  
Books and Firelight and Children's Faces—Miss Haynes.  
The Gans—Miss Gihman.  
The teachers manifested much interest in the different topics. The following are some of the leading thoughts developed in the discussions:  
The purpose of education is to enable the individual to adopt himself to the service of humanity and at the same time to enjoy a normal, healthy life.  
The development of a child is parallel with that of the race.  
In the process of growth certain organs atrophy, and form the basis for more highly developed organs.  
The mind and body are correlated.  
Incarnation is a necessity of successful parenthood.  
After a few suggestions from Superintendent Carpenter and voluntary offerings to the Woodrow Wilson fund the Institute adjourned.

To Soften Butter.  
When butter gets too hard for use in winter fill a bowl with boiling water. Allow it to stand for a few moments until the bowl is thoroughly hot. Empty out the water and place the steaming bowl over the plate of butter. This may be done in a few minutes before one wishes to use the butter. There is no waste and the flavor of the butter is not impaired as by heating at the stove.

## NOTICE

If we can help you succeed in your business enterprises it will benefit the community and the Bank as well as yourself.  
We offer a Bank large enough to inspire the confidence of its customers, but not too large to give every consideration to the interest of every customer.  
You need never pay a bill twice if you pay by check. The check cancelled by the Bank is positive proof that you paid the money.  
The above are a few reasons why we think our Bank especially adapted to your needs.

# PRACTICAL FASHIONS

## For the Woman of Modest Means

Attractive Tailored Suits may be Picked Up Reasonably

An Easily Made Evening Frock of Tucked Chignon

Possum is an Effective yet Inexpensive Fur

A Smart Topcoat will fill a Multitude of Needs

Smart Neckwear an Essential of the Simple Costume

### The Importance of Judicious Purchasing When Bargains Are At Their Best—Keeping To One Color Scheme—Boots And Hats Must Be Bought At The Season's Beginning.

The woman who must economize and not just go out. Most furs last three years in favor and at present the brown furs are "coming in." Fox, skunk, brown marten, mink, bear and wolf are very fashionable and there is a special craze for the brilliant red fox which Poirer has raised to high favor. This felt is rather conspicuous and a woman who can spend little but must dress well selects a more quiet variety of fur. Opossum is an attractive felt that is also very durable. The set of opossum furs in the illustration shows a smart toque with an embroidered Oriental ornament as well as a flat hat and a big neckpiece made of two animal skins, one lapping over the other.

The woman who must economize and not just go out. Most furs last three years in favor and at present the brown furs are "coming in." Fox, skunk, brown marten, mink, bear and wolf are very fashionable and there is a special craze for the brilliant red fox which Poirer has raised to high favor. This felt is rather conspicuous and a woman who can spend little but must dress well selects a more quiet variety of fur. Opossum is an attractive felt that is also very durable. The set of opossum furs in the illustration shows a smart toque with an embroidered Oriental ornament as well as a flat hat and a big neckpiece made of two animal skins, one lapping over the other.

Accessories should be bought at a season's beginning; furs, elaborate hats and garments at midseason. The later one buys furs, the better, for a price standpoint. Styles in these wearables change little, and the handsome set of fox or wolf, bought at a marked down price in February or March, will be perfectly correct for wear the following autumn. It is the woman who has things left over to wear at the beginning of a new season while she is making up her mind, who is able to dress most economically.

There are certain wearables, however, that are best purchased at the season's beginning. Hats and boots are among these. For some reason or other shoe departments or stores never seem to carry enough sizes of the boot that is most wanted and if one has to wait for re-orders it may prove inconvenient, since all the shoe stores seem to be re-ordering at the same time. Therefore the boot supply should be attended to early and there is no trouble about making up one's mind what sort of boots to buy as all the new styles are exhibited by the dealers at the opening of the season.

days for a needed theatre or restaurant chapeau. Hats bought too late in the season are of little use the following year for millinery styles change very rapidly. The trimmings may be worth the reduced price of the hat, no doubt, but one could buy the more trimmings quite as cheaply at the beginning of a season. So that the tailored suit, the utility coat and at least one evening gown and in sufficiently good style and condition to do service through the early part of the season—following their purchase but buy hats and boots while the choice is unclouded.

Exaggerated and freakish styles are not for the woman who must make a small dress allowance go a long way. The average tailored suit, if made of superior material and in a conservative style, will usually be correct in style through a second and even a third season—provided skirt styles are not as just now—in the process of a decided change. Ready-made suits, bought after the holidays may often be picked up in good models for as low as twenty dollars and such a suit should last well into the following winter season when a similar bargain may be found. The woman who has her tailored suits made to order by a custom tailor—and this is often the best plan when expensive alterations are called for—is ready to wear garments—should spare from the tailor an extra yard or two of material with which she can alter the skirt another season if style changes demand.

The woman who must economize buys her furs very carefully. She sees to it that the skin is soft and pliable, which means properly dressed and that the fur is the kind coming and not just going out. Most furs last three years in favor and at present the brown furs are "coming in." Fox, skunk, brown marten, mink, bear and wolf are very fashionable and there is a special craze for the brilliant red fox which Poirer has raised to high favor. This felt is rather conspicuous and a woman who can spend little but must dress well selects a more quiet variety of fur. Opossum is an attractive felt that is also very durable. The set of opossum furs in the illustration shows a smart toque with an embroidered Oriental ornament as well as a flat hat and a big neckpiece made of two animal skins, one lapping over the other.

The good looking tailored suit illustrated is of the sort of model that one may pick up at an attractive price after the rest of first purchasers is over and high-priced models are beginning to be marked down to attract late shoppers. This suit is built of dark blue serge and is simple in cut and design, though the white silk stitching and trimming of pearl buttons lend it individuality and distinction. A worsted suit in the winter and one of mohair or similar fabric will be a practical investment for the average woman—provided there is a warm topcoat to do service on specially cold or stormy days in mid-winter. A handsome set of furs will lend distinction to the simple suit and if well made, and accompanied by dainty boots and gloves and a smart hat, in addition to the rich furs, it will be quite suitable for all formal occasions during the day.

The beautiful petticoat illustrated, like the nightgown and combination garment, is part of a trousseau now being prepared for a November bride.

## New Notions in BRIDAL LINGERIE

SHEERNESS, simplicity and slenderness are the three S's which cover modern lingerie garments. Everything that is worn beneath the frock is as straight as an arrow and as soft as it can possibly be, so that there shall be absolutely no extra bulk of material to spoil the lines of the outer costume. Fashionable simplicity is the thing in lingerie now, and this is fortunate for the woman who must economize, for the loveliest undergarments may be concocted at very little expense and with a minimum of labor.

The most radical change in underwear in the past few seasons has been in the petticoat. Petticoats nowadays are made of about half the material that went into them formerly and the new petticoats are so soft and limp that they have not substance whatever, beneath the gown—a very different condition from the time, not so very long ago, when thick petticoats of mullin, stiff starched, were worn to make the foot of the gown stand well away from the feet. The new petticoat does not come anywhere near the feet; it stops short at the ankle, if it is a dancing petticoat trimmed with lace, fine embroidery and ribbons; and half way between the knees and the ankle, if it is a simpler affair for use with the colored skirt. These abbreviated petticoats are delightfully comfortable for while giving one the satisfaction of having a petticoat on, beneath the gown they leave the limbs free in walking—and the skirt over them takes on the slender, light lines of the foot now considered graceful and fashionable.

When a silk petticoat is worn it is as soft and limp as the model of our material and is sufficient of a duff ruffle, the scant little flounce being placed at the edge of the rather short skirt. These silk petticoats never fall below the top of the buttons, walking boot and shoe only when the skirt is lifted in crossing a gutter or stepping from a vehicle. Fine white machine embroidery is liked better for wash petticoats than lace, though the latter is used up very coquettish petticoats for evening wear. Yet even these models are trimmed with embroidery, exquisitely fine patterns on a sheer ground being used.

Yoke Effects Again Popular in Nightgowns.

# AT THE CHURCHES

**Lutheran Trinity Church.**  
(Dallas Street)  
Morning services at 10 a. m. Sunday school at 11:30 a. m. Afternoon services at 2:30 p. m. We shall celebrate our annual mission festival on this Sunday. The Revs. E. Meier of Stamford, Texas, and J. Worth of Winters, Texas, will speak on our home and foreign mission work. Next Tuesday and Wednesday our St. Andrew conference of the First Lutheran Synod of Texas, will convene in this city. The pastoral meetings will be held at our place of worship. On Tuesday evening at 7:30 we shall have conference services and communion. The Rev. C. Stadler, of Plainville, Texas, will preach the sermon. Everybody is cordially invited to our services.  
**F. A. BRACHER, Pastor.**

**First Presbyterian Church.**  
(Corner Tenth and Travis)  
Annual congregational meeting at 11 a. m. Reports, elections of officers, etc. 7:30 p. m., sermon "Heart Burning." 6:30 p. m., Christian Endeavor meeting. Monday at 3 p. m. Ladies Aid Society meets at the church. Mid-week service Wednesday at 7:30 p. m. Session meeting at the close of the service Friday at 7 p. m., Scouts meeting. Sunday, October 27th communion service. Reception and welcome of new members.  
**J. L. MCKEE, Pastor.**

**First Baptist Church.**  
(Corner Austin and Tenth)  
Preaching by the pastor at 11 a. m., and 7:30 p. m. Morning subject, "The Foundation for Spirituality." Evening subject, "Am I My Brother's Keeper?" Sunday school at 9:30 a. m., W. L. Robertson, superintendent. B. Y. P. U. at 6:30 p. m. Burton Stuytman, president. Sunbeams at 3 p. m., Mrs. J. B. Jones, leader. Juniors at 3 o'clock, Mrs. P. E. Phillips, leader. Volunteers at 3 o'clock, Mrs. T. M. Smyre, leader. For the week: Men's Alliance will meet Monday night at 7:30, H. A. Fairchild, president. Women's Alliance will meet Monday at 3 p. m., Mrs. W. L. Robertson, president. Prayer meeting Wednesday at 7:30 p. m., followed by normal class. Officers and teachers' meeting of the Sunday school Friday at 7:30. Choir practice Friday at 8:30. Strangers and friends are given a cordial welcome. New Baptists in the city are urged to give their name and address at the register in the vestibule, and the pastor and other members will call to see them.  
**JOSEPH P. BOONE, Pastor.**

**Christian Science.**  
Services will be held in room 7 postoffice building as follows: Lesson sermon Sunday at 11 a. m. Subject, "Doctrine of Atonement." Sun-

day school at 9:45 a. m. Testimonial meeting Wednesday at 8 p. m. The reading room at same address is open Tuesday and Friday of each week from 2 to 5 p. m. Here authorized literature on Christian Science can be read or purchased. The public is cordially invited to attend the services and visit the reading room.

**Christian Church.**  
(Ninth and Lamar)  
Bible school at 9:30 a. m., W. J. Bullock, superintendent. Good teachers and classes for all ages. Junior Endeavor at 3 in the afternoon. Senior Endeavor at 6:30. Prayer meeting and chorus practice Wednesday evening at 7:30. Morning sermon at 10:45. "The Victorious Life." Evening sermon at 7:30 p. m., "The Three Bible Dispensations" from a chart. A cordial invitation extended to all to attend these services.  
**F. F. WALTERS, Pastor.**

**First M. E. Church, South.**  
(Corner Tenth and Lamar)  
Preaching in the morning at 11 a. m., and at 7:30 p. m., by the pastor. The Sunday school and Epworth League meet at the usual hours—9:30 a. m. and 6:30 p. m. The doors of the church will be opened at the close of the morning service and all persons wishing to join will have the opportunity. All Methodists who are new-comers among us will please be present at one, at least, of the services Sunday, in order that we may be able to introduce you to our people. The prayer meeting on Wednesday evening will open promptly at 7:30.  
**JAS. W. HILL, Pastor.**

**Lutheran Church (Mo. Synod)**  
(Corner Eleventh and Holliday)  
Sunday school, German and English departments at 9:30 a. m. German services with communion at 10:30 a. m. Preparatory service to communion at 10 o'clock. There will be no English services at night as the pastor must preach at Henrietta in the evening. A cordial welcome to all.  
**C. M. BEYER, Pastor.**

**Southern Presbyterian Church.**  
(Corner Bluff and Eleventh)  
Morning services: Sunday school at 9:45. Preaching subject "Religion in the Home" at 11 a. m. C. E. Society at 6:30 p. m. Preaching at 7:30 p. m. Prayer service Wednesday evening at 7:30 p. m. You will be welcome to all of these services.  
**FRED L. McFADDEN, Pastor.**

**Nazarene Church.**  
(Corner Fifth and Bluff)  
Rev. Charles Robinson, pastor, will preach Saturday night, Sunday and Sunday night. The services Saturday and Sunday night will start at 7:30 p. m.

## Let Every Democrat Have Conscientious Right to Participate in Ratification

To the Democrats of Texas:  
The Presidential election is less than three weeks away and while there is now every indication that Wilson and Marshall will be successful, it is entirely possible that during the last few days of the campaign our opponents will attempt to again Hanzelize the country.  
The fight from now until November 5th is to hold our own, and the only way to do so is with a perfect organization in the doubtful states.  
If it costs approximately \$20,000 to finance a Texas gubernatorial campaign with comparatively no organization, it certainly must require many times as much in each of the states where the great political parties are struggling for supremacy.  
Unquestionably the Democratic National Committee cannot properly finish the campaign with less than \$600,000, and every dollar of this amount is yet to be collected.  
A Presidential election is of as much concern to the democrats who live in states like Texas, where there is no contest and no expense, as it is to those who live in Indiana or Maryland, where every inch of the ground is desperately fought.  
In Texas the factors will certainly be democrats and under the conditions existing here the only service we can render our party is by answering the Macedonian call from the National Committee by sending a campaign contribution worthy of the greatest democratic state in the Union.  
Texas, more than any other state, is responsible for the nomination of Governor Wilson and certainly, now when financial distress is confronting our National organization, we must not fail to respond.  
We have been asked for \$50,000. At this time, October 24th, about one-half of the amount has been contributed.  
Truly Texas democrats have given splendid evidence of party loyalty by the contributions thus far made, but we are easily capable of doing all and vastly more than has been requested of us.  
The Democracy of the Nation is confidently looking to Texas in this emergency and as your National Committee member, I make this final appeal to every Texas democrat to at once

rally to our standard bearers and with all the historic pride of Texas leave no stone unturned to the end that each city, town and community shall during a coming week make for itself a record in raising Wilson and Marshall campaign funds of which we will all be justly proud.  
Do not wait for another democrat to lead. The responsibility for success or failure is up to every one of us. It is both a party obligation and a patriotic duty.  
We must still raise not less than \$25,000, and its accomplishments will require "a long pull, a strong pull, and a pull together" as they say at sea.  
Remember that on November 5th, we have the best prospect for re-establishing the Democratic party in its old time place of prestige and power that has occurred since the Civil war, and that, too, with a candidate for president who is not only a master of statecraft and "a gentleman to the manor born," but withal a son of the Southland.  
Let every loyal Texan come to the rescue now in this time of unprecedented opportunity for a long reign of democratic supremacy.  
The demand upon the purse of each is not great. No one is asked to give a large sum, but it is necessary that we contribute to the full extent of our ability.  
If we are to be successful in raising the promised \$50,000, right now so greatly needed, many of us must contribute \$100, and from this amount down to \$1, as we are able.  
Let us all be sure that when Wilson and Marshall are triumphantly elected, we will have a conscientious right to participate in the glorious ratification meetings that on the night of November 6th, 1912, will set our land ablaze with the light of a restored democracy.  
The election is now so close that a day should not be lost in transmitting the funds to New York headquarters and it is best that hereafter contributions be sent direct to Hon. Rolla Wells, Treasurer of Democratic National Committee, 5th Avenue Building, New York City.  
**CATO SELLS,**  
National Committeeman for Texas, Cleburne, Texas, October 18th, 1912.

**72x90 SHEETS 43c**  
Bed sheets 72x90 inches, made of good quality muslin, full measure, good 50c values, only 25 dozen to sell at this bargain price. This week only priced at **43c**

Embroidery Smarter Than Lace For the Evening Petticoat.

very practical for week-in and week-out wear, as this lace must be laundered with extreme care to look like anything but a rag after two or three visits to the tub. Dainty and practical nightgowns are made of fine long cloth with imitation cluny lace around a square neck and edging the short kimono sleeve. A row of ribbon run embroidery beading makes a pretty finish inside the lace edge. There is a fad for adding scant flounces at the lower edge of nightgowns and the finish is rather graceful, though it gives the gown the effect of a wrapper and the straight slender, clinging effect of the long hemmed gown is considered by most women more pleasing.  
The combination corset-cover and pantalon pictured is another trousseau garment and is made of sheer handkerchief linen with trimmings of Irish and cluny lace. The corset-cover is fitted by means of pinucking at the waist.  
Corsets are softer and more supple than ever, though very careful cutting and fitting makes the soft material hold its shape with a minimum of boning. Beneath the corset is worn a union garment of silk, silk and wool—if one feels the cold greatly—or of fine nainsook. A few chem-

ise-pantalon of nainsook is much liked for wear beneath the corset. This little garment includes a soft chemise edged at neck and armholes with fine embroidery or lace and a very short pantalon trimmed to match. The garment is all in one and is so soft that it makes no bulk whatever under the corset.  
Glove silk combinations are luxurious for the woman who can afford them and these dainty glove silk garments come in delicate colors as well as white, with embroideries like those which make the embroidered silk gloves so pretty.  
**HIGH-O-ME.**  
That's the Proper Way to Pronounce Hyomel, the Famous Catarrh Remedy Made From Australian Eucalyptus and Other Antiseptics—Just Breathe It.  
**IT BANISHES CATARRH.**  
Foshee & Lynch are authorized to refund purchase price to any dissatisfied customer. Complete outfit \$1.00; extra bottle, 50 cents.

## EXCURSION RATES WHEN SHEPPARD SPEAKS

Big Delegation From out of Town Expected at W. O. W. Meeting Meeting November 10th  
A round trip rate of a fare and a third has been granted by the railroads entering Wichita Falls for the rally of the Woodmen of the World, to be held here November 10, on the occasion of the visit of Senator-elect Morris Sheppard and the unveiling of the Woodmen monument.  
The rate will apply to the following points: Katy—east to Gainesville; Wichita Falls Route—north to Burkburnett and south to Newcastle; Fort Worth & Denver—north to Childress and south to Decatur; Wichita Valley—south to Seymour and east to Beyer.  
Preparations are being made for a large crowd on that occasion and it is expected that the Woodmen lodges of Northwest Texas will be represented in force. In addition to delivering the address at the cemetery, Mr. Sheppard is to speak at a mass meeting at one of the churches on "Christian Citizenship."

## GLASS WORKERS TO ORGANIZE HERE TODAY

Permanent organization of the Wichita Falls local of the glass workers international union, is to be perfected at 10 o'clock this morning at a meeting to be held in the Eagles Hall on Indiana avenue. Temporary organization was effected several days ago, with the following officers: O. P. Gaston, local president; Sam Malcolm, Al Price and Chester Griner, vice presidents.  
There are already many of the glass men here and others will come this month to join the force already at the window glass factory and to work at the bottle plant. It is expected that the membership here will be from 150 to 200. Glass workers are organized, it is said, wherever there is a glass factory.  
The total American yield of diamonds, emeralds, sapphires and other precious stones in 1911 amounted to only \$343,692. Most American diamonds came from Arkansas and California.

### HAS FLYING AUTOS

#### Motor Car With Wings Is Latest in French Capital.

Successful Experiments Have Been Made With Machines That Combine the Principles of the Automobile and the Aeroplane.

Paris.—Paris is gossiping over the latest type of motor car—one with wings. M. Bertrand de Lesseps recently drove some distance from the capital in a machine thus equipped. M. Filippi is another searcher in the same field, who has been even more successful. Filippi based his trials on the principle of the bird's wing and aimed at producing a propeller which should realize the same effect as the beat of a bird's wings in the air. The propeller evolved is not a screw, but a blade of wood, broader and thicker in the center than at the extremities, one of which tapers off nearly to a point. The other is comparatively wide, looking like a wing, concave on one side and convex on the other. Furthermore, both ends are curved backward, forming an obtuse angle.

The whole is inclosed in a cage and measures only about 55 inches in diameter, not projecting beyond the gauge of the car in any direction. The maximum speed is 2,200 revolutions a minute. This air propelling system enables the constructor to dispense with the most delicate and complicated parts of the machinery at present employed—no more gear boxes are required, as a change in the number of rotations is substituted for a change of gear, while progress backward is obtained by reversing the movement of the wing. This backward rotation also serves as a powerful brake when going downhill, and does away with "differentials" and back bridges.

In traveling the friction is reduced to a minimum, and the car seems hardly to touch the ground, raising no appreciable dust, and consequently inflicting but slight wear and tear on the tires, while the comfort of the passengers is improved. In general appearance the car used recently resembled an ordinary torpedo type, but the rear part forms an extension, from which projects the axle carrying the wing. The 40 horse-power motor is in front, and connects with the wing by transmission chains. There is no other mechanism, and the wheels all run free like the front wheels of an ordinary automobile. One lever only is used to start, and move forward or backward, by reversing the rotation of the wing, and there is one pedal by which extra brake power is put on.

The whole car weighs about 1,320 pounds, or, with its three passengers and the necessary equipment, about 2,000 pounds. A start was made about 4 o'clock in the morning, in the presence of several spectators, and after showing off its capabilities in various preliminary maneuvers the car went off on its journey of 300-odd miles amidst cheers. The travelers sent telegrams reporting progress from different points on the way, and arrived safely at Lyons. The future trade interests involved in this experience may prove of immense importance, and the new type of wing may turn out superior to the propellers so commonly used in the same class. In the trials made by M. Filippi with a view to finding the best shape for the wing the present model gave 70 per cent. of power, which is at least 10 per cent. more than has yet been produced by the best known screw propeller of the usual type.

### SEEKS PLANT ENTHUSIASTS

#### Large Number of Young Slips to Be Sent Out From Chico, Cal., by Government.

Washington, D. C.—The United States department of agriculture is looking for plant enthusiasts to aid in the work of experimenting with the thousands of new varieties of foreign plants brought to these shores annually by the bureau of plant introduction. David Fairchild, in charge of this work, is preparing to send out from the government experiment farm at Chico, Cal., a large number of young plants. But they will be sent only, he declared, to those people who can prove to the government that they are genuinely interested in experimenting carefully with the plants to help determine their possible value for further introduction into various sections of the country.

Rain-proof canvas cards, giving name, history and known characteristics, will be attached to each specimen, and the experimenter will be expected to inform the government of the results of his work.

### FIND WHISKY IN HAY WAGON

#### Police Hold 500 Bottles for Bashful Claimant at Wilmington, North Carolina.

Wilmington, N. C.—Five hundred bottles of "Turkey Mountain" corn whisky, neatly packed away in gunny sacks, await an owner at the local police station. A wagon ostensibly loaded with hay broke down in the street and when the police, "seeing the trouble from afar," arrived on the scene the negro driver took to his heels, leaving the property without a claimant. Following a senatorial campaign against "blind tigers" here a week ago, no one has the temerity to claim the goods.

Only Eye Specialist in city having lady assistant. We know why. Dr. DuVal.

### BUGSCUFFLE BUDGET

Editor Daily Times:

We have just witnessed one of the most interesting and delightful social events in the history of our town. For several months it has been whispered about that we were likely to have a wedding in high life here and our society contingent have been very busy with the gossiping side of the matter. But we were not prepared for what we really saw and enjoyed. Fact is, we were thrown clear off the track about the matter. For a long time Jabe Jawsmith, the son of our Col. Jim, had been paying court to Miss Mandy Yukes, the beautiful and accomplished daughter of old Squire Yukes, of whom I have written in former letters. Everybody expected for them to "get off" some time; but what was our astonishment, when it turned out that Jabe was to take Huldy Seets, the eldest daughter of old man Seets, one of our most popular and prosperous farmers. Very much surprised everybody was, but the whole community seemed to sanction it when they saw just how it was. The wedding took place in the church; and as it was our first church wedding, the reader may well suppose it was largely attended. Fact is, for two hours before the time for the ceremony the people began to fill up the building; and it was soon seen that the house would not hold even the women and children unless something could be done—some shift made—to enlarge its capacity. Col. Jawsmith suggested building a temporary shed on one side of the house; which if done, and the windows all being up those occupying the improvised seats could see most of what was going on inside.

This was accordingly done; for whatever is suggested by Col. Jim, Squire Yukes, Bro. Bugle and Dr. Pellet generally goes. Fact is, nothing can be done here in a public matter without the sanction of these four men. As the affair was reported in full by our local paper, the Weekly Bug, I quote an account of it from that source. The Bug said in part:

"Last night was pulled off in this city one of the most brilliant social stunts that ever illuminated the minds and delighted the hearts of the people of this town. The occasion was the marriage of Mr. Jabe Jawsmith, son of our learned and accomplished lawyer, Col. Jim Jawsmith and Miss Huldy Seets, daughter of that most estimable and popular farmer who is affectionately referred to as old man Seets. Though less than sixty, and, as Dr. Pellet opines, has vitality enough to carry him to the one hundred mark, Mr. Seets has no more hair on his head than there is on an onion; and as he never shaves and his beard is long, bushy and white—(except for some tobacco stains); and as he persists in holding to the fashions of forty or fifty years ago, including the wearing of the old time flaps to his breeches and the utter rejection of collars and cuffs—these peculiarities have caused him to be termed 'old man' an epithet which he rather enjoys than resents.

"Well, his daughter got married last night and the old fellow was in his glory. For Huldy is on the shady side of thirty and is by no means pretty; and to work off an offspring of that age and character as fortunately as Huldy's parents did, was a matter to be proud of. And they were proud of it. Everybody could see it. Miss Tilby Tut said she thought that they certainly had a right to be; for there was nothing absolutely to Huldy, so far as she could see; and the only wonder was that a fine looking young chap like Jabe should ever fall in love with such a fright. Some say Miss Tut is envious; the Weekly Bug has no opinion in the matter; its business is, as the editor understands it, to give the news and to let it go at that.

"Due to the details of the wedding, it was pulled off in the church while a large crowd both from within and from the outside looked on the imposing ceremonies with silent wonder and delight. Bro. Bugle pronounced the words that put the two into one.

"The bride's maids were Nan Seels, sister of the bride, Sis Ponder, Winnie Wunk and Mandy Yukes. These followed the bride down one aisle, while Dutch, Bunker, Tick Blevins, Dave Stofor and Dick Fizzleton walked behind the groom down the opposite aisle—all converging at and in front of the altar. The bride carried a large bouquet of sweet williams, hollyhocks, touch-me-nots and grass pinks. She was elegantly dressed in a blood-red skirt waist and deep blue skirt and wore on the top of her head a big bunch of chrysanthemums. Her hair which is so blonde that it is nearly white, hung in graceful curls about her ears and down her back. Her maids were all dressed just like herself.

"The male actors in this drama were all dressed exactly alike—each wearing a brown corduroy suit, with yellow shoes and red socks. The boys looked swell; everybody said that Bugscuffle ought to be proud of that bunch of young bucks.

"Last Saturday being court day, Squire Yukes was full of business from morning until night, and even into the night. This unusual long term of court was caused by the suit of Lon Skidmore against Sid Sykes for big damages.

"The following is the statement of facts, as agreed to by all concerned: On or about some day lately, while on a peacan hunt, the said Sykes fired the said Skidmore to climb a tree for the purpose of shaking down pecans.

While engaged in this labor he slipped and fell, almost to the ground. On his descent, however, a stout snag caught the seat of his breeches and not only broke his fall but held him suspended in the air some thirty feet from the ground, until he was finally rescued by several parties present. "These pants cost \$1.98. Now the said Skidmore prays the court to give judgement against the said Sykes not only for that sum but for \$10,000 due him for the mental anguish he endured while hangin in the air.

"There was able counsel employed on both sides. Three of the leading law firms of Wichita Falls were employed by Sykes, while Skidmore was ably represented by Col. Jim Jawsmith and a young man from Electric or Newcastle (we have forgotten which), and try not to forget, the Col. was in his glory. The whole town turned out to hear the speeches and time and again, while Col. Jawsmith was speaking, Squire Yukes had to send Tad Sembie, our comestable out among the crowd to stop their cheering. One paragraph from the speech of the Col. will suffice to show the trend and style of his remarks and will go far, we think, toward excusing our people from what would seem at first blush, a very unseemly stunt. The Col. was well along in his discourse when, rising upon his tip-toes and throwing back his head and shaking his long red hair (one of his strong poses) he exclaimed his arms into the air and shouted out loud enough to be heard all over town: "When our forefathers kicked the everlasting stuffing out of the so-called Noble Red Man of the Forest, and with rifle, ax and saddle bags explored and opened up this great and glorious republic the American Eagle screamed himself hoarse, as he followed their progress from the sea-board of Boston harbor through the waste howling wilderness until he reached the shining portals of the Golden Gate."

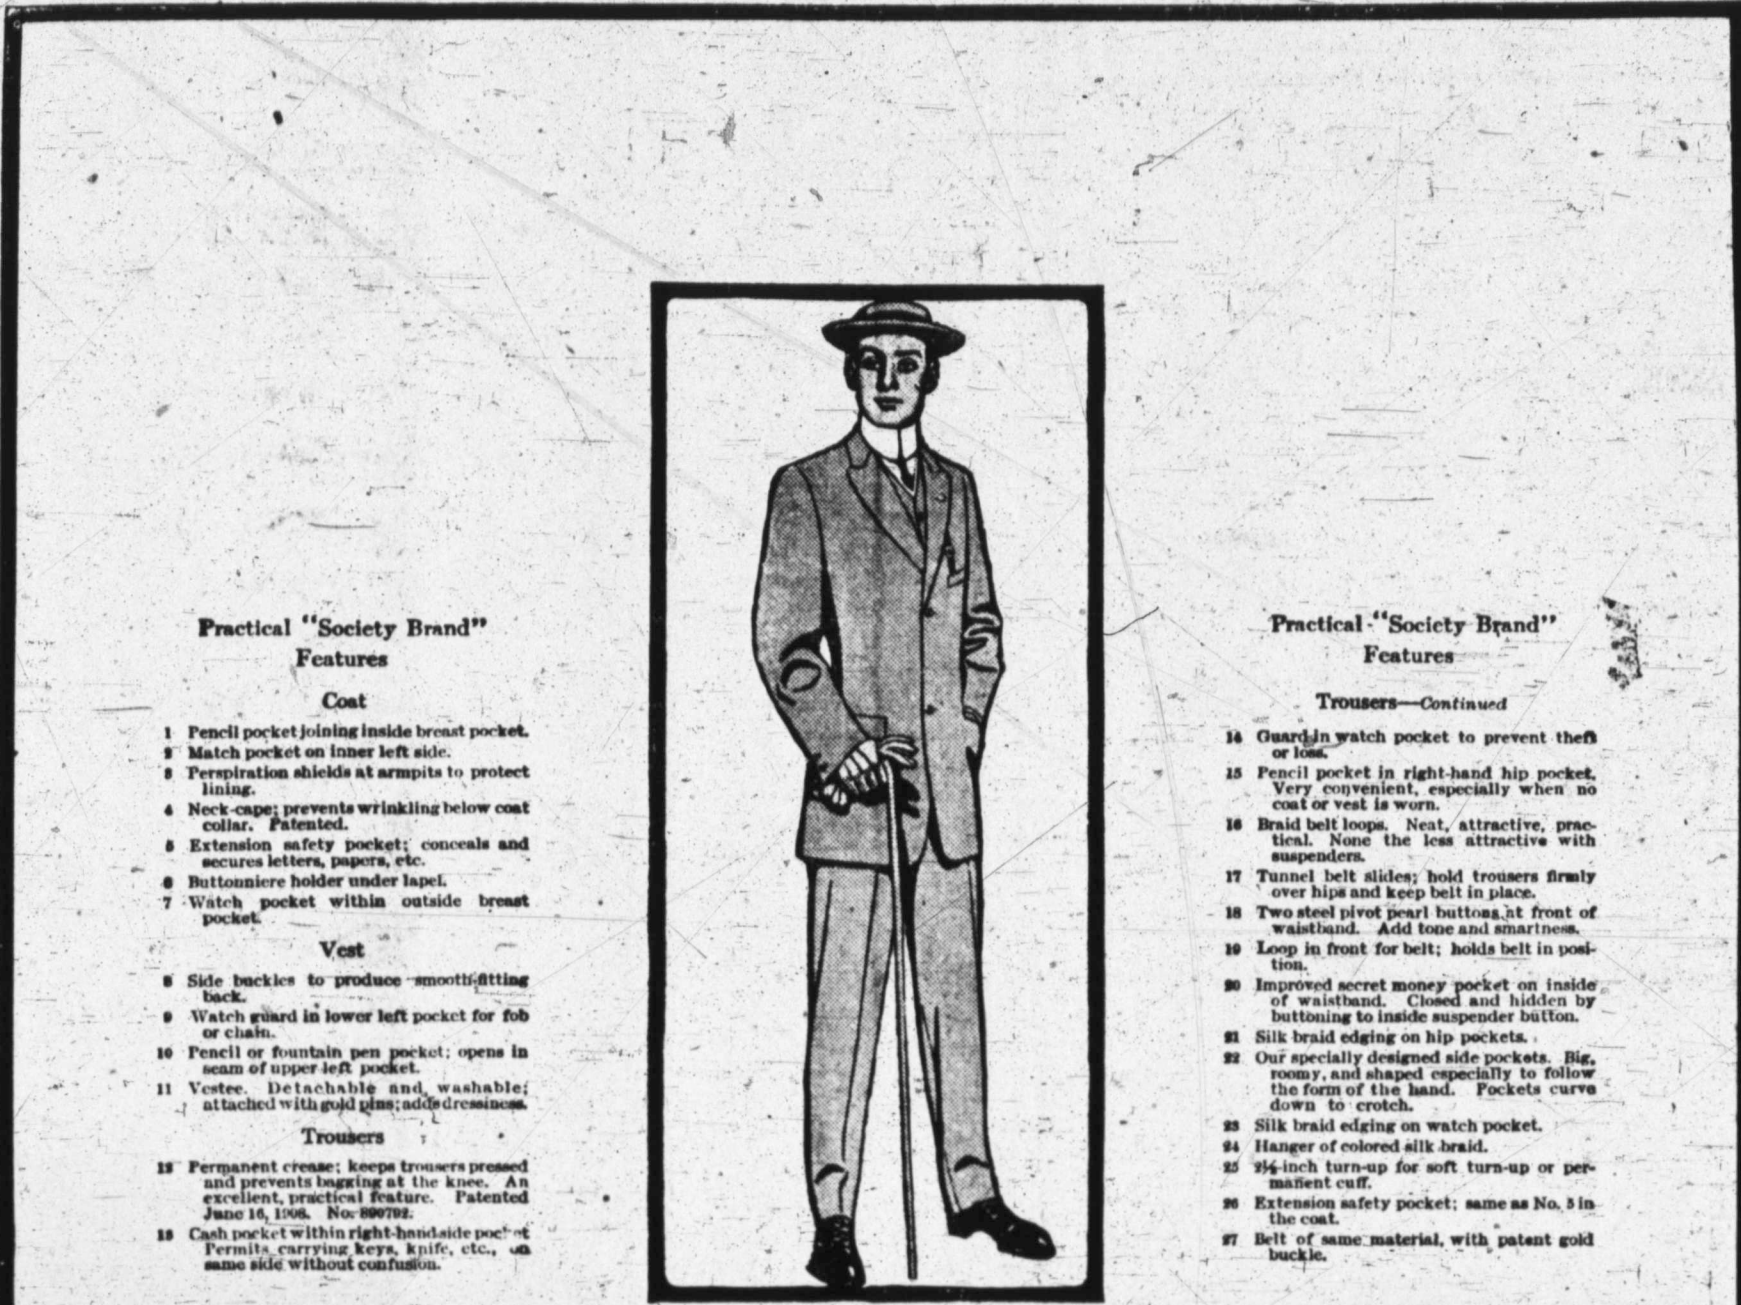

That royal bird, unseem, is this day, poised above this temple of justice, and he demands, we demand, truth and justice demand, that my client go free."

Judge Carrigan and Judge Mathis were nudging each other during the whole length of the colonel's speech and when it was concluded and court had finally adjourned, Judge Huff remarked that he regarded old Jim Jawsmith as a great big windy word-bag. Of course those big lawyers of the Falls don't understand Col. Jim's style, and therefore can't appreciate his ability. Some think those gentlemen are envious of Col. Jim. Judge Kay, Judge Brittan and several other Wichita Falls attorneys made slighting remarks about the Col. Well, let them do so; we of Bugscuffle are fully persuaded that it comes to real, frery, hair-lifting oratory.

P. S. Sime Stiggins has gotten back home. Old man Seets hauled him in in his vegetable wagon. Dr. Pellet says that one more drunk like that on circus day and we will be bothered no more with Sime. J. B.

### JUDGE MARTIN WILL BECOME A WICHITAN

Judge P. A. Martin, of the Thirtieth Judicial district is over from Graham to arrange for the moving of his family here within the next two or three weeks. Judge Martin has purchased a residence on Tenth street in Floral Heights and will become a permanent resident of this city. It has been expected for some time that Judge Martin would eventually become a resident of Wichita Falls and the friends of Judge Martin who include nearly everybody in Wichita county are delighted to learn that he is to become a citizen so soon. Judge Martin will go to Henrietta, Monday for the opening of the district court there and will move his family here as soon as there is a lull in the court proceedings there.

#### Practical "Society Brand" Features

- 1 Fencil pocket joining inside breast pocket.
- 2 Match pocket on inner left side.
- 3 Perspiration shields at armpits to protect lining.
- 4 Neck-caps; prevents wrinkling below coat collar. Patented.
- 5 Extension safety pocket; conceals and secures letters, papers, etc.
- 6 Buttonhole holder under lapel.
- 7 Watch pocket within outside breast pocket.

#### Vest

- 8 Side buckles to produce smooth-fitting back.
- 9 Watch guard in lower left pocket for fob or chain.
- 10 Fencil or fountain pen pocket; opens in seam of upper left pocket.
- 11 Vestee. Detachable and washable; attached with gold pins; adds dressiness.

#### Trousers

- 12 Permanent crease; keeps trousers pressed and prevents bagging at the knees. An excellent practical feature. Patented June 16, 1908. No equal.
- 13 Cash pocket within right-hand side pocket. Permits carrying keys, knife, etc., on same side without confusion.

#### Practical "Society Brand" Features

#### Trousers—Continued

- 14 Guarded watch pocket to prevent theft or loss.
- 15 Fencil pocket in right-hand hip pocket. Very convenient, especially when no coat or vest is worn.
- 16 Braid belt loops. Neat, attractive, practical. None the less attractive with suspenders.
- 17 Tunnel belt slides; hold trousers firmly over hips and keep belt in place.
- 18 Two steel pivot pearl buttons at front of waistband. Add tone and smartness.
- 19 Loop in front for belt; holds belt in position.
- 20 Improved secret money pocket on inside of waistband. Closed and hidden by buttoning to inside suspender button.
- 21 Silk braid edging on hip pockets.
- 22 Our specially designed side pockets. Big, roomy, and shaped especially to follow the form of the hand. Pockets curve down to crotch.
- 23 Silk braid edging on watch pocket.
- 24 Hanger of colored silk braid.
- 25 3/4-inch turn-up for soft turn-up or permanent cuff.
- 26 Extension safety pocket; same as No. 5 in the coat.
- 27 Belt of same material, with patent gold buckle.

## Society Brand Clothes

For Young Men and Men who Stay Young

THE modern clothes-maker must incorporate more than merely fine tailoring and good fabrics in his clothes. He must also embody "lines" which give the wearer the appearance of perfect physique. Ask us to let you try on a Master Suit of Society Brand make. You'll like the effect of full, broad chest, trim waist and stately carriage—the graceful stride it encourages—and the air of refinement it gives you.

The Master Suit possesses the very latest style effects in men's clothes. It is tailored faultlessly—of staunch fabrics. On sale here—ready-to-wear—\$20 to \$40.
