AERONAUTS FELL OVER 15,000 FEET

BALLOON BELIEVED TO HAVE
BEEN STRUCK BY LIGHTNING
AT DIZZY HEIGHTS

VICTIMS WERE GERMANS

Their Balloon Entered in International
Cup Contest and They Were
Testing It

By Associated Press.
Berlin, Oct. 21.—The announcement
of the death yesterday of Lieut. Ger-
icke, winner of last year's interna-
tional balloon race in the United
States created a sensation here to-
day.

He was thrown from a balloon at
a height of three miles by the explo-
sion of the gas bag which is believed
to have been struck by lightning.
His aide, Lieut. Steler, also was killed.

He and Steler were making a trial
flight to test the new balloon which
they expected to use in the 1913
international races. Just above a small
town, they met a thunder storm, which
they attempted to avoid by rising.
When a mile in the air their car was
caught in an eddy and became un-
manageable. After a terrific plunge
straight upward the bag burst. Both
men dropped three miles to the ground.

The shattered instruments which
the balloon carried were examined to-
day. The recording apparatus showed
they were riding at a height of
six thousand feet when they suddenly
hit by a vertical gust of wind, which
pushed them straight up with the vio-
lence of a hurricane to a height of
over 15,000 feet. At this altitude the
bag burst, either from the sudden
change in pressure, or, as is more
likely, from being struck by lightning.
The balloon embodied all the latest
ideas in gas bag construction and was
regarded throughout Germany as the
likely winner of the international cup
in next Saturday's contest.

GUARANTEES LIVES OF AMERICANS

Gen. Diaz in Message to State De-
partment Pledges Safety of
Foreigners

By Associated Press.
Washington, D. C., Oct. 21.—The
State Department is in receipt of a
message from Gen. Felix Diaz, who
is at the head of the revolution at
Vera Cruz, guaranteeing the life and
property of Americans and other for-
eigners at that port. Gen. Diaz guar-
antees the lives and property of all
non-combatants in the territory over
which he is now or may gain control.

American Warship Arrives

Vera Cruz, Oct. 21.—The United
States cruiser Des Moines, in com-
mand of Capt. Charles F. Hughes,
steamed into port. An officer from
the warship visited Gen. Diaz and ar-
ranged an interview for Capt. Hughes.
Diaz then visited the Des Moines,
where the American captain and the
leader of the revolt had a long con-
ference, the nature of which has not
been divulged.

While the Diaz revolutionists hold
the city and the Federals have taken
up positions on the outskirts, there
has been no coming together of the
two opposing forces as yet. The feel-
ing of anxiety among foreign residents
has been considerably relieved by the
arrival of the Des Moines, and it is
considered probable that a battle, if
it is fought, will take place beyond the
city limits.

The German and Russian ministers
to Mexico, who arrived here on the
steamer Seguerana, left today for the
City of Mexico on a special train sup-
plied by Gen. Diaz. The German and
Russian Consuls traveled with them
part of the way. In the fring last
night between the gunboats and Uioa
Fort a man operating the searchlight
on a gunboat was killed.

The Ward Line steamer Seguerana
on her arrival here yesterday was
warned by Commander Azueta, in
command of the gunboat still loyal to
the Mexican Government, not to dis-
charge its cargo. Today Capt. Jones
of the steamship was ordered by the
company to unload and declares his
intention to do so.

The Seguerana has on board arms
and ammunition for the government,
which will be acted by Gen. Diaz if
landed. Great interest centers in the
attitude which Azueta will assume and
what measures will be adopted by the
Des Moines.

Two other American warships are
expected here at any time. The Span-
ish Consul has sent out wireless mes-
sages to passing steamers to proceed
here to take aboard Spanish subjects
in case of a bombardment.

SERVIANS BLOWN UP BY MINES

REGIMENT OF INFANTRY REPORT-
ED TO HAVE BEEN PRACTI-
CALLY EXTERMINATED

TURKS ARE REPULSED

Attack Pass in Mountains Held by
Bulgarians and Forced to With-
draw

By Associated Press.
London, Oct. 21.—The seventh
regiment of Serbian infantry is re-
ported to have been virtually exter-
minated by the Turkish land mines
after crossing the frontier into the
district of Novitza, according to a
news agency dispatch from Belgrade.

Turkish Warships Attack Bulgaria

Sofia, Bulgaria, Oct. 21.—Turkish
warships today bombarded the Bulgar-
ian port of Kaziana on the Black Sea.
The custom house was destroyed and
many houses in the city demolished
and lives lost.

Turkish Attack Repulsed

London, Oct. 21.—The Turkish troops
which attacked the Bulgarian pass of
Komskiff were compelled to with-
draw after heavy loss according to a
news agency dispatch today. The
pass is high in the mountains and is
a strategic position. The Turks are
reported to have lost heavily.

SECOND PRIZE FOR GROUP COUNTY EXHIBIT

Wichita, Wilbarger and Foard Coun-
ties Awarded Second Prize at
State Fair

In conjunction with the exhibits
from Wilbarger and Foard counties,
Wichita county's display at the Dallas
Fair took second prize for association
exhibits, the prize being awarded to
the three counties mentioned. The
prize was \$100, of which Wichita and
Wilbarger will receive \$40 each and
Foard county \$20.

When it was learned that an as-
sociation exhibit prize was offered,
the managers of the three exhibits at
Dallas got their heads together and
entered the exhibits from their coun-
ties, as typical of Northwest Texas,
and it was picked for second prize.
Assistant Secretary John Thomas
of the Chamber of Commerce, who is
in charge of the exhibit, has written
home that he expects all who visit
the fair tomorrow to make the ex-
hibit their headquarters. The Wich-
ita county exhibit is attracting con-
siderable attention and received the
following mention recently in the Dal-
las News:

"J. W. Thomas of Wichita Falls, is
in charge of the Wichita county ex-
hibit. The products of farm and or-
chard are represented by a fine dis-
play of kafir corn, maize, peanuts,
millet, grain, corn, fruit and vegetables,
and the city by products of the fac-
tory.

Wichita county has a diversity of
soil and each kind has proved its fer-
tility by producing abundant yields of
all staples. The county also stands
high in the live stock industry. This
is due to the great variety of nutri-
tious grasses which are native of the
county, as well as to the abundant
yields of feedstuffs.

"Among the articles on display is
a sheep pelt, taken from the famous
Lincolnshire sheep found on the farm
of Alexander Albright. The wool on
this pelt is twenty-four inches long
and is said to be worth \$1 per pound.
Mr. Albright has a drove of 750 of
these animals on his Wichita county
farm.

"Broomcorn is one of the leading
staples of the county, the entire out-
put being consumed in the factories
of Wichita Falls. Brooms made in
this city from the local product have
been given the blue ribbon by State
Fair judges.

"Among the products of the factory
on exhibition in the county booth are
pressed brick, brooms, mattresses,
pottery and flour. There is also a
display of refined oil, the crude prod-
uct coming from Wichita county
fields.

"Being near a large natural gas
field, Wichita Falls is becoming the
seat for many factories. Its splen-
did water supply is also an induc-
ement for factories and the city is be-
coming noted for the products of the
factory, which are becoming more
numerous and of a greater volume
every year.

"Wichita Lake is now furnishing
water for the irrigation of 2,000 acres,
mostly truck and fruit, in the vicini-
ty of the city. It is capable of irrigat-
ing 4,000 acres, but water is reserv-
ed for the city and for manufacturing.

COLONEL LEAVES MERCY HOSPITAL

STARTED ON TRAIN FROM CHI-
CAGO TO OYSTER BAY AT
8:30 THIS MORNING

AN AFFECTING SCENE

Patients of Hospital Give Roosevelt
Cheery Greetings as He is
Wheeled Through Corridor

By Associated Press.
Chicago, Oct. 21.—Col. Roosevelt
last night, at the Mercy Hospital, was
somewhat restless. He slept only
about four hours. He awoke frequent-
ly and seemed nervous. It was said
this was chiefly due to the excitement
of his coming departure. Long be-
fore the time he was to leave, the
expressmen were ready. He put on
the heavy army overcoat he wore on
the evening he was shot. The hole
in the right breast was not distin-
guishable at any distance, but those
who were near him could plainly see
the small puncture.

The Colonel walked from his room
to a wheeled chair in the corridor.
The trip from his apartment through
the long corridor to the other side of
the building was made in a few min-
utes. He was accompanied by Dr.
Murphy and Mrs. Roosevelt.

On the way through the hospital,
doors of the various rooms were open-
ed and the patients who were able,
called a greeting to him and wished
him a safe journey. In the street
there was a large crowd of spectators
who also shouted a greeting as the
Colonel appeared in his wheeled chair.
At the door he abandoned the chair
and on the arm of Dr. Landers, his
family physician, he took the few
steps that were necessary to bring
him to the ambulance in which there
was a cot upon which the Colonel
reclined.

The start was made immediately.
In front of the ambulance was a large
detail of motor cycle police and an-
other squad immediately followed the
ambulance. Then came automobiles
in which were Col. Lyon of Texas and
others.

The last thing the Colonel and
Mrs. Roosevelt did was to shake
hands with and thank Mother Mary
Raphael, the mother superior in
charge of the hospital.

The farewell was brief but affect-
ing. The eyes of the mother superior
filled and she turned her head quick-
ly and then hurried to leave the build-
ing. To avoid the crowd at the sta-
tion, Col. Roosevelt boarded the train
at the railroad yards at Cross Street,
half a mile away. The train was
then backed into the Terminal Sta-
tion. The train had been scheduled
to leave at 8:15 a. m., but did not
pull out until 8:30.

An attempt to see Col. Roosevelt
was made at Mercy Hospital shortly
before midnight last night by Luis
E. Molina, who gave his address as
Bokota, Colombia, and said that he
was a secret diplomatic representative
of the Colombian government. He
was stopped by city police and city
police who were on duty. Molina
said that his father is a senator of
Colombia. He sent Col. Roosevelt a
postal card and wrote him a long let-
ter, containing accusations that the
Colonel had committed "an atrocious
crime" in taking Panama from Colom-
bia, and bidding him beware of the
vengeance of God. Molina was ac-
companied by two Mexicans. They
said they had known Molina but a
few hours.

Molina declared he would go to
New York on the same train with the
Colonel and would see him there or
would follow him to Oyster Bay. He
exhibited a ticket over the Pennsyl-
vania railroad to New York that would
entitle him to travel in the train taken
by the Colonel. He also displayed
a large roll of bills.

The detectives, after questioning
Molina, permitted him to depart.
Colonel Roosevelt knew nothing of
the attempt to see him.
Molina sent a box of flowers to the
Colonel and followed it with a note
written on a postal card. It read:
"Colonel Roosevelt, I sincerely de-
sire your complete recovery. Now
that you are lying on a bed of pain,
remember the Almighty God and how
easy it is to disappear from the earth.
After this, remember your greatest
offense in your official career—the
robbery of Panama from Colombia.
Try to remedy this iniquity and God
will protect you."

The detectives said Molina was not
armed.
Molina said he came from New
Orleans especially to see the Colonel
as soon as he heard of the shooting.
He said he followed him in the West
during his last speaking tour from
Texas to California.

His letter to the Colonel follows:
"I have hurried from New Orleans
on the expectation of being able to
express to you personally my sym-
pathy.

SWITCHING CHARGE QUESTION COMING UP

Wichita Falls Industries are Interest-
ed in Matter Before Railroad
Commission Tomorrow

Wichita Falls shippers, especially
the two glass factories and the auto-
mobile and brick plants are much in-
terested in the hearing at Austin by
the State Railroad Commission tomor-
row on the question of switching
charges.

Railroad men are looking forward
to some interesting and prolonged
debating when they appear before the
Texas Railroad Commission for the
purpose of discussing the proposed
switching rates and arrangements.
Switching in all its phases will be
gone over at length, several proposi-
tions having been advanced and the
merits of each will be fully discuss-
ed.

One proposition, one which will
probably be the most seriously con-
sidered and discussed, is the plan to
adopt the California switching regula-
tions. Under this plan the railroads
will adopt all switching charges up to
\$2.50, letting the industries pay all
over that amount on the larger hauls.
The plans provide that this princi-
ple hold true regardless of what
railroad brings in a car or where the
industry is located.

There has been a movement on foot
for the past twelve months to get the
commission to put this arrangement
into effect. This movement was start-
ed by some of the commercial organi-
zations of the State. This is the first
time, however, that it has been
brought before the commission, great
care having been taken in completing
the details.

Chairman Allison Mayfield of the
railroad commission in September
made a motion to the effect that he
believed that all switching charges
not to exceed \$2.50 per car should be
abolished by the transportation lines
and asked that a rule be drafted giv-
ing effect to the proposition.

Resulting from his motion cir-
culars were sent out notifying the rail-
road companies and receivers operat-
ing lines of railroads in this state
of the following hearing for Tuesday,
October 22, at Austin:

"All switching charges to and from
industries, not to exceed \$2.50 per
car shall be absorbed by the trans-
portation lines, and all amounts in
excess of the amounts above named
shall be in addition to the regular
transportation charges and in no case
absorbed by the carrier, provided that
the net transportation charge shall
not in any case, by such absorption,
be reduced below \$7.50 per car."

"All carload shipments loaded or
unloaded on industry tracks shall be
subject to switching charges, wheth-
er the transportation haul is perform-
ed by the line with which the indus-
try tracks connect or not, and the
switching charge shall, in all cases,
be based on the distance between the
industry and the freight depot of such
line. Lines performing intermediate
switching will use distance between
transfers."

WILSON URGED TO MAKE SPEECHES

CAMPAIGN MANAGERS HAVE NOT
ACCEPTED GOVERNOR'S DE-
TERMINATION AS FINAL

AT LEAST TWO MORE

One at Madison Square Garden in
New York and Another at
Philadelphia

By Associated Press.
New York, Oct. 21.—Governor Wil-
son's determination not to make any
more speeches until the recovery of
Roosevelt is not accepted as final by
his managers. The fact that Madison
Square Garden has been leased for
a meeting on the night of October 31
is urged as a reason why he should
yield to the wishes of the commit-
tee and speak in New York on that date.
An effort is also being made to in-
duce the Governor to speak in Phila-
delphia on the night of October 26.

ceipts 1850, lower.

12 MORE DOLLARS NEEDED TO COMPLETE WILSON FUND

Only twelve more dollars were need-
ed at noon today to make up Wil-
son's quota of \$300 for the Wood-
row Wilson fund. The Times is hop-
ing that the needed twelve dollars
will be sent into the office or given
to W. J. Bullock before 6 o'clock this
evening so that the full amount may
go forward to the National commit-
tee tonight.

The offer of Reese A. Allen of Elec-
tra, to contribute the last twenty dol-
lars to complete the fund aroused sev-
eral local citizens to a determination
to see that the full amount was raised
and a total of \$72.50 was subscribed
this morning and the canvass will be
continued until the full amount is
raised. The total subscriptions to-
date are \$268.00. Mr. Allen will give
the last twenty of the three hundred
dollars leaving \$12 yet to be raised.
While the active canvass will be
stopped after this amount is raised
those desiring to contribute may send
their money to The Times office and
it will be forwarded to the National
committee.

HORRIBLE CONDITION IN VENEZUELA

Six Hundred Reported Dead from
Starvation in One District—Re-
volution Party Responsible

By Associated Press.
New York, Oct. 21.—Conditions of
extreme poverty and privation in
Venezuela are described in a letter
from Caracas by a correspondent of
the Tribune. In the State of Tru-
jilla, more than six hundred persons
have starved to death in the past
season, it is said.

The letter declares "the bodies of
an entire family whose members
starved to death were found in one
house. One consequence of the paucity
of hunger was the killing of a baby
by its two older brothers, who then
roasted the body and ate it."
"Much of the blame for these con-
ditions is placed on political condi-
tions, which led to neglect of agricul-
ture."

The above dispatch from New York
was shown to Senator Felix Gracia
of this city, who recently moved here
from Venezuela. He said that the re-
tal of conditions was undoubtedly
true and that it was caused both by
political conditions and lack of rain.

"When I left Chasira, Venezuela to
come to this country," said Senator
Gracia, "there were 3000 people mov-
ing there from other parts of the
country to get food. There has been
no rain for two years and the peo-
ple have not been able to raise much
coffee to sell, or much plantain on
which to leave. Then the revolutions
and political disturbances have kept
the labor from the fields and the na-
tives have had no chance to attend to
their crops. There is much suffering
down there. I know that dispatch is
true."

NEGRO ASSAILANT IS IDENTIFIED

Dallas County Authorities Have Negro
in Hiding, Fearing Mob
Violence

By Associated Press.
Dallas, Texas, Oct. 21.—Somewhere
near Dallas the police are today care-
fully hiding a negro whom Miss Le-
Barrett today identified as the man
who criminally assaulted her about
a week ago. She is a young nurse
at the City Hospital and was on her
way to duty at the institution when
the negro caught her.

While it is believed the negro may
be in the county jail, the police will
not verify this report. They fear
violence if news of the negro's where-
abouts becomes general.

RYAN CARRIED DEMOCRATIC DEBT

HIS TOTAL CONTRIBUTIONS FOR
PARTY IN 1904 AGGREGATED
\$450,000

TO PRESERVE THE PARTY

Tells Senate Investigators He Had
No Hope For Parker's Elec-
tion and Motives Patriotic

By Associated Press.
Washington, Oct. 21.—Thomas For-
tune Ryan was the first witness to-
day before the Senate campaign con-
tributions committee. Mr. Ryan first
told the committee that he shouldered
\$300,000 of the debts of the National
Democratic committee in 1904.
"Early in the campaign," he said,
I gave \$50,000 to the fund, although
I was opposed to the nomination of
Judge Parker. I probably gave \$250,000
in similar contributions. When
the end of the campaign was approach-
ing and it was clear apparent Mr.
Parker could not be elected some of
my friends came to me and told me
the campaign would collapse unless
the committee received financial as-
sistance.

"I finally agreed in order to pay
the party's debt and preserve the
integrity of the party to furnish
\$250,000. This made a total of \$450,000
I gave throughout the campaign.
This was a personal contribution and
did not reflect adversely upon my
self. I did not give the money to try
to elect Parker. I merely wanted to
preserve the Democratic organization.

"For the campaign of 1912, Mr. Ryan
said he had contributed between \$75,000
and \$100,000 to Governor Harmon's
campaign and more than \$20,000 to
Representative Underwood.
"When I came back from Europe
in 1911," he said, "I made up my mind
the prospects of Democratic success
were very bright. I thought any
Democratic elect Mr. Ryan could be
elected and I was willing to try to
aid any other man. I had no special
interest in anyone, but I had known
Governor Harmon of Ohio for twenty-
five years. I was not asked to aid
Mr. Clark or Mr. Wilson, but would
have given assistance if it had been
requested."

George W. Perkins today denounced
as an "unmitigated falsehood" the
charge that he had underwritten the
Roosevelt presidential fund. He tes-
tified that his total contribution was
\$122,000. He described himself as a
"retired working man."

ANOTHER MISSION PLANNED BY BAPTISTS

Committee Appointed to Find Site in
Southeastern Part of the
City

The congregation of the First Baptist
church is making plans for the es-
tablishment of a mission in the south-
eastern part of the city, in the region
of the plating mill and other indus-
tries, where at present no place for
worship is afforded. The Baptist
church recently held a series of meet-
ings in that section and an encourag-
ing interest was manifested on the part
of the residents of that section.

A committee has been appointed to
find a site for a small building, and
when this is erected, services will be
held there regularly under the auspices
of the Baptist congregation. This will
be the first place of worship to be
erected in that part of the city and
members of the congregation are hope-
ful of good results.

million dollars took out a permit to
do business in Texas from the Sec-
retary of State today. The firm had
place of business in Texas of the com-
pany will be Dallas. W. B. Vegry,
president of the Texas Cotton Grow-
ers' Association is president. The
purpose of the corporation is the
purchase, sale and storage of cotton
and other products and the loaning
of money on such products. It is char-
tered under the laws of Alabama.

To "Occasional" or "One Time" Customers Who Cut to Be "Regulars"

We have been rather hoping to see you in our store this fall, for we have some unusually attractive suits from The House of Kuppenheimer to show you. We believe they'll strike your fancy as they did ours; that you'll find them of rather more than ordinary interest. Among them are some novelties that we predict will be decidedly popular here this season, new ideas that you'll not see in any other store. Perhaps there is a reason unknown to us why we have not had the pleasure of adjusting it, we shall consider it a favor to have you tell us. We aim to give everyone who trades at this store nothing less than absolute satisfaction.

BABY APPARENTLY DEAD REVIVED BY BREATH

Light Twitching Causes Physician to Use New Method With Success

New York, Oct. 21.—Physicians in the Post Graduate hospital were astounded when a newly born baby girl, weighing one pound and a quarter, was brought to the institution very much alive, and able to cry with some vigor. The infant was placed in an incubator in the hospital.

The baby owes its life to Dr. Chas. H. Goldsmith, who, first believing the tiny girl had come into the world dead, later noticed a slight twitch of one of the eyelids. He then revived the infant by a new method of breathing into its mouth.

Mrs. Mary O'Connor, of 2595 Eighth avenue, is the mother of the child. She is suffering with whooping cough. The fact that the baby, born prematurely, weighs only twenty ounces, was pronounced unheard of in the history of medical practice by Dr. Goldsmith.

Dr. Goldsmith applied the usual tests for signs of life. He told members of the family the infant had been born dead. Soft materials were arranged on a table and the body placed on them. O'Connor started out to find an undertaker.

A few minutes afterward Dr. Goldsmith noticed a slight movement of an eyelid. At once he began working to revive the infant, although the necessary appliances were lacking.

The new treatment which Dr. Goldsmith used was similar to a method employed by Dr. Arthur Krida, of Bellevue Hospital, on Friday last. The infant's mouth was forced open. Dr. Goldsmith seized both of the arms. As he slowly raised them he blew from a distance into the baby's mouth. In this way he forced a current of fresh air, with only a small percent of carbonic acid gas to the baby's lungs.

When the arms had been raised they were slowly lowered until the elbows rested on the child's chest, and a gentle pressure there was given, forcing the air out of the lungs. The raising and lowering of the arms, blowing into the mouth and pressure on the chest, were continued for half an hour, when the baby's skin assumed a more natural color. Heart action and respiration now were apparent. O'Connor returned to find his baby alive.

Even then Dr. Goldsmith held out no hope of the child living more than a few hours. An ambulance from the Post Graduate hospital was summoned and the infant taken there. Several hours later, when Dr. Goldsmith visited the hospital, he was surprised to find the baby thriving in an incubator.

"I did not believe it would live," he said. "To me the case is a most surprising one."

The November Woman's Home Companion.

Woodrow Wilson, Democratic candidate for the Presidency, contributes to the November Woman's Home Companion an interesting article which is really a message to women. In it he develops the idea that those with whom we entrust our government at Washington ought, as he expresses it, to "keep house" for the whole people. Our revenues, he says, should not be put at the disposal of a governing class or of any limited set of governing influences. As he goes along Mr. Wilson illustrates his points with specific suggestions.

Mr. S. Seymour Thomas made the picture of Governor Wilson for the cover. It is a study he made for his own use in painting a portrait of the Governor which is not yet finished. Only three people—the Governor, Mrs. Wilson and the Governor's sister—had ever seen this study before the Companion acquired it. Mr. Thomas said that Mrs. Wilson thought it the best portrait of the Governor which she had ever seen.

The November Companion contains many other entertaining special articles, among which are: "Women of the Campaign"; "The Girl in the Small Town, and "The Training of a Child."

In the household, fashions, cooking, home decorations and handicraft departments special attention is given to practical suggestions for Christmas—how various kinds of attractive gifts can be made, economically.

FIVE CITY PRISONERS TAKE FRENCH LEAVE

Picked Brick From Beneath Window Sill of City Jail and Make Their Escape

"When I woke up this morning, they were gone," might appropriately have been said by City Marshal R. V. Gwin yesterday morning when he arrived at the city hall.

If the city is going to keep its prisoners hereafter, it will have to confine them more securely than it has been doing. Sometimes in the wee small hours of Sunday morning, five of those confined in the lockup on the third tier of cells, pain-takenly picked a number of bricks out of the window sill until they could loosen the iron bars, then pulled the bars out, made a rope out of several blankets, climbed down to the ground and vanished in the dark and dreary night. When the chief woke up this morning, they were gone.

This is the second recent escape from the city jail, the other taking place a few weeks ago when two prisoners got away, being later recaptured. None of those who got away yesterday morning have been located.

**WILSON AND MARSHALL
DAY NOVEMBER 2ND**

Message Will Be Delivered From Governor Wilson in Every Town in U. S. on That Date

New York, Oct. 21.—The most distinctive and inspiring feature of the Presidential campaign of 1912 will be the nation-wide celebration of Wilson and Marshall Day on the afternoon of Saturday, November 2nd, when loyal Democrats in every city, town and hamlet will assemble to listen to the reading of an original and special message from Gov. Woodrow Wilson. What this message will be no one knows, except that it is to carry to the country a final word from the Democratic leader, and will give the voters of the nation something to think about before they go to the polls three days later.

The idea of the Wilson and Marshall Day originated with William G. McAdoo, vice chairman and Josephus Daniels, chairman of the publicity committee of the National Democratic committee and in the first announcement sent out it was suggested that October 31 would be designated as the day for the National celebration. For various reasons it was subsequently decided to hold the celebration at a later date, and last night the following telegram was sent by Mr. McAdoo to every National committeeman and State chairman in the Union:

"Referring to my previous telegram about Wilson Day, the Democratic National committee has decided to designate November 2nd instead of October 31st as Wilson and Marshall Day, and to request the Democratic organization in each State of the Union to hold as many meetings as possible in each State on the afternoon and evening of that day, at which an original and special message from our great leader, Gov. Wilson, will be read. All arrangements without your State are left entirely in hands of State committee. National committeemen are requested to co-operate with State chairmen. Whatever regular meetings you are arranging for afternoon and night of November 2nd should proceed just the same, and Governor Wilson's message can be read at such meetings, but the committee suggests that you have the Democrats assemble in as many other places within your State as possible, even if they come together informally for the purpose of receiving this special message from Governor Wilson. It will be an inspiring thing to assemble or mobilize as far as possible the hosts of Democracy on November 2nd to hear Governor Wilson's message and to concert measures for bringing out on election day the largest possible Democratic vote. The response we have received to this suggestion throughout the country has been most favorable. We believe that Wilson and Marshall Day can be made a great and inspiring feature of this campaign. Governor Wilson's message will be sent to you in ample time to have you forward it to every meeting which may be arranged for in your State. Please do all that you can to give this the widest publicity and to make Wilson and Marshall Day a great success. While the National committee can do little more than offer suggestions, you may be sure of our hearty co-operation.

"W. G. McADOO, Vice-Chairman." From forty-eight state chairmen, to whom the original announcement of the Wilson and Marshall Day was sent, forty-two have notified Vice-Chairman McAdoo that they are in accord with the idea and that they will co-operate in every possible manner to make the day a memorable success. Many of the State chairmen have already set in motion the machinery of the State organizations by notifying county chairmen and precinct leaders everywhere to make preparations for the big day by rallying the voters in every town and at every cross-roads in their respective localities.

It was first planned to have the nation-wide rally in the evening only but from many Southern and Western States came requests that the celebration be held in the afternoon as well, in order to give the country people, in sparsely populated sections, a better opportunity for taking part in the big demonstration.

This suggestion was approved by the National committee, and new preparations are in full swing all over the country. The idea is something new in Presidential campaigning, and is being enthusiastically supported in every section of the country. In some cities and larger towns plans are being made for big street parades and fireworks, to conclude with general mass meetings when the message from Governor Wilson will be read. In several of the Southern States the leaders have reported that they are preparing for a big picnic and general holiday in each county, and that large crowds and a jolly good time are expected. In thousands of country places the people will assemble in the evening around huge bonfires and hear the message read.

There is a psychological novelty in the consciousness that the same words are to be heard simultaneously by millions of people from ocean to ocean and throughout the country. Democratic leaders and Democratic newspapers are enthusiastically preparing to make the occasion one of the telling features of the campaign.

**A FIRM BELIEVER
IN HOME INDUSTRY**

Sherman, Texas, Oct. 21.—L. M. Ward, secretary of the Chamber of Commerce of this city is a firm believer in home industry and civic development. In a recent interview Mr. Ward said: "The first object of a commercial organization is to build up the home industry sentiment and to work towards the civic development of a city. In no better way can a secretary of the club as a whole show better results and secure the co-operation of the entire community. We may have a factory that has been struggling along for years on an in-firm basis. It manufactures a good grade of goods at a competitive price but lacking the capital to advertise, it is handicapped. It is the duty of the commercial club to assist this factory in securing the right kind of publicity and the necessary capital with which to expand. Before we make an effort to secure new factories we should make sure that condi-

VELVA

Divinity Fudge
Part 1.—3/4 cup Red Velva Syrup, 1 oz. chocolate, 1-2 cup water, 3 cups sugar, 1 teaspoonful almond extract.
Part 2.—1 cup sugar, 1-2 cup water, whites of 3 eggs, 1 cup chopped nut meats, 1 teaspoonful vanilla extract.
Boil part one until a little hardens in cold water. Boil part two (without egg whites, nuts and extract) until it forms a soft ball when tried in cold water; remove from stove, pour gradually into stiffly beaten whites of eggs, beating all the time. Then beat it into part one. Now beat the mixture for 20 minutes; add nuts and vanilla extract and pour into buttered tin or plates. Cool and cut in squares. The chocolate may be omitted.

The New York Herald's post card polls, all of them, puts Wilson first; Roosevelt, second; Taft, third. The Herald is an independent Republican paper, and its facilities for gathering news of this nature are unexcelled. In fact, the Herald's forecasts of presidential elections rarely ever miss the mark. President Taft, however, is out in a statement in this morning's paper in which he forecasts his own re-election—either that or Wilson, and asserts that Roosevelt is not to be considered.

The St. Louis Republic is authority for the statement that ex-Vice President Chas. Fairbanks is to make a canvass of Missouri for Taft, and adds that the Republican campaign manager seems determined to do something that would guarantee the biggest Democratic majority for Wilson, the State has ever given.

The Democrats of Wichita Falls and Wichita county may be depended on to do their full share toward contributing to the Wilson campaign fund. They were asked to raise \$300. At the present writing only \$35 is needed to make it that much, if \$15.00 of the \$35 can be raised by tomorrow noon, one good Democrat has authorized the Times to say he will contribute the other \$20. Will you be one of the fifteen to contribute \$15? The time is short, and you must act quickly, if at all.

Some weeks ago the Times printed the suggestion of a practical and successful farmer that the best method of selecting seed cotton was to go into the fields and pick the cotton from the earliest maturing and largest bolls on the best stalks in the field, and to have the cotton ginned separately from

the rest saving the seed for planting. We don't know whether the suggestion has been followed or not, but we are certain that seed selection is as important in cotton growing as with any other crop. Now is the time to lay in a next spring's sowing—Wichita Times.

That's as true in Denton as it is in Wichita County, Brother Howard. A news story the other day told of a Denton county farmer making better than 38 per cent lint and a careful selection of seed at no additional expense result in raising the percentage of lint and the net yield from every field in the county. The time has arrived in farming, just as long ago it arrived in mercantile and manufacturing lines, that the man who can produce the greatest output at the least expense is the man who shows the satisfactory profits at the end of the year. Reducing the useless expenditures to a minimum and speeding up the machinery in a factory coincides quite with better seed selection and more intensive and careful cultivation on the farm. Best of all, many farmers have realized it and the successful farmer in this section today is the man who has implied these very principles.—Denton Record-Chronicle.

PROPOSED CONSTITUTIONAL AMENDMENTS.

Four amendments to the constitution of the State of Texas are to be voted on at the regular election in November. The first proposition as it will appear upon the ballot is:

For amendment to Section 5, Article 11, of the constitution, authorizing cities of more than five thousand inhabitants to adopt their charters by a vote of the people.

Against, etc.
That strikes us as eminently right and proper. The full text of the amendment provides that the charter shall conform to the State constitution, and that only every two years shall there be a proposed change in the city charter. Why have to go to the Legislature every time we want a change in our city charter? Why can't we manage our own affairs? Bear in mind, the State constitution restricts the municipality as to a tax rate and bond issues, so we take no risks—this to quiet the timid souls—in taking charge of our own municipal affairs.

The second proposition as it will appear upon the ballot reads:
For a six years' term for prison commissioners.

Against, etc.
Under the constitution as it stands the prison commissioners can not be appointed for more than two years. In consequence there is the possibility and threat of a complete change in prison management and policies every two years. If the proposed amendment shall be adopted each of the three commissioners will be appointed for six years, but the schedule will be such that only one new commissioner will be appointed every two years. This amendment should also be adopted; it will help to lift the penitentiary system out of the mire of personal politics.

The third proposition as it will appear upon the ballot is:
For the amendment of Article 16 of the constitution of the State of Texas, regulating the term of office of the board of regents of the State University and other boards of trustees or managers heretofore or hereafter established by law.

Against, etc.
This is similar to the proposition concerning the prison commissioners. If it shall be adopted then the members of the board of managers of the university and other State colleges and asylums, etc., will be appointed for six years, with terms lapsing, and this, as in the other case, will put the schools measurably out of reach of a Governor who might wish to use them to boost his political fortunes. The language of the amendment is such that, if it is adopted, members of local school boards and of city commissions may be elected for six years, with lapsing terms. Referring to this proposition, Dr. S. P. Brooks says that the citizen can render a real public service by voting for it, and we agree with him.

The fourth proposition as it will appear upon the ballot is:
For the amendment to Section 51, Article 3, of the constitution, relating to increase of Confederate pensions.

Against, etc.
The classes entitled to Confederate pensions are enlarged by the proposed amendment. Under the existing provision the men entitled to pensions are: Indigent or disabled Confederate soldiers or sailors who came to Texas prior to January 1, 1880, and who are either over 60 years of age or whose disability is the proximate cause of actual service in the Confederate army for a period of at least three months.

The proposed amendment would render eligible for pensions disabled Confederate soldiers and sailors who came to Texas prior to January 1, 1860. The provision as to time of service is dropped.
The proposed amendment would render these additional classes eligible for pensions: "Indigent and disabled soldiers who, under special laws of the State of Texas, during the war between the States served for a period of at least six months in organizations for the protection of the frontier against Indian raids or Mexican

Pumpkin Ridge Oil and Gas Field Clay County, Texas

We are opening up the largest Oil Field in Northwest Texas. It is situated on Pumpkin Ridge in Clay County near the Petrolia Oil and Gas Fields which have wells producing 50-100,000 cubic feet of gas per day, having an economic value (coal being estimated at \$4 per ton) of over \$10,000 per day. We propose to drill 16 wells for oil and gas under conditions named in our prospectus. We guarantee to put our first well down to a depth of 1850 feet unless oil is found at a less depth, and to test each oil sand as we go down.

All of the earmarks showing this to be the largest Oil field in America at present. Gas is coming up through the ground that will burn on applying a lighted match. An analysis of the gas made by Prof. Phillips of the University of Texas shows it to be Natural Gas. Asphalt and oil are also found near by.

We will sell you (it is a shame to sell) we will GIVE you a block of land in the vicinity of one of four wells containing 70 lots, each lot being 620 sq. ft., for 36 cents per lot. We said cents; think of it. The 70 lots will cost you \$25.20. You get all the oil, gas and mineral rights now held by us as grantee.

Your check is good. Send same by first mail for \$10 and say how many blocks you want us to keep for you. We will mail out full information on receipt of check and if you do not find everything exactly as represented by us we will return your money immediately. You can have 10 days to make an investigation. If you are pleased with our investment you may send us the balance of one-half of the purchase price, the remainder to be paid in 30 days. Should you buy 5 or more blocks we will give you 30, 60 and 90 days on deferred payments. You can sell 10 lots, get your money back and keep the balance. The number of Blocks for sale is limited; send your check today. You take no RISK WHATSOEVER IN DOING SO. The earlier you send the closer you get to the first well. If you doubt our honesty, write to our bank references.

thy in your misfortune. This privilege, however, has been denied me. Nevertheless, I would like to convey to you the sentiment of the noblest people in South America and to inform you, colonel, that a time has come for your meditation of the blackest spot in the history of your life.

Remember, Mr. Roosevelt, that, although you are and have been a great world citizen, your entry into civilization from Africa and the honours you received from the world, were marred by the refusal by the vicar of Christ at Rome to see you. This material demonstration of a divine will, to humble your pride, will serve to call to your mind the fact that although you might have been proclaimed in a hypocritical way, the greatest man since the time of Napoleon, your star has been descending and will continue to descend until you clear your conscience of the most atrocious and wicked act you ever committed in your life.

"We Colombians hope to see you elected for a third term President of the United States. You injured us supremely, but we trust in God and He will certainly touch your heart and keep you, by moral force, to return to us what belongs to us, to say: 'The sovereignty of Colombia over Panama, our rebel state.'

"God help you, Mr. Roosevelt, to recover fully. I have come expressly from New Orleans to speak to you personally, but this opportunity has been denied me. I will see you, however, at New York."

If we can help you succeed in your business enterprises it will benefit the community and the Bank as well as yourself.

We offer a Bank large enough to inspire the confidence of its customers, but not too large to give every consideration to the interest of every customer.

You need never pay a bill twice if you pay by check. The check cancelled by the Bank is positive proof that you paid the money.

The above are a few reasons why we think our Bank especially adapted to your needs.

Four Million Invested In Ice Plants.
Washington, D. C., Oct. 21.—A report recently issued by the Federal Department of Commerce and Labor shows that there are 182 establishments in Texas engaged in the manufacture of ice and the capital invested in this industry is approximately \$3,344,000. 1,874 persons depend on this industry for a livelihood while ten years ago there were only 1,144 persons employed in ice factories in Texas. The payroll of these factories is now \$1,193,000 per annum compared with only \$430,000 ten years ago which is an increase of \$763,000 or 177 per cent in a decade! The value of the products manufactured annually have a total value of \$1,644,000

while ten years ago they were valued at \$380,000 an increase of \$1,264,000 or 332 per cent. Of the 182 establishments in the state 37 or 20 per cent are owned by individuals, 17 or 10 per cent are controlled by firms while 128 or 70 per cent are operated by corporations. 198,285 tons of coal, 19,112 cords of wood; 316,032 barrels of oil and gasoline and 78,365 cubic feet of gas are consumed annually in ice manufacturing in the Lone Star State.

HONOR TO BRITISH GENERAL
People of Brockville, Ont., Laud the Memory of Commander Who Won Detroit in War of 1812.

Brockville, Ont.—A monument in honor of the memory of Gen. Sir Isaac Brock, who was in command of the Canadian forces against the Americans in the war of 1812, was unveiled in this city with interesting but modest ceremonies. The local chapter of the Daughters of the Empire, to whose efforts the erection of the monument is due, was in charge of the ceremonies. The principal address was delivered by Col. Samuel Hughes, the Canadian minister of militia and defense.

The date for the unveiling of the memorial was appropriately chosen, since it was just 100 years since the surrender of Detroit, with which event the name of General Brock is most closely associated in American history.

General Brock was born in the island of Guernsey in 1769 and had a brilliant military career in the British service before he was sent to Canada. He was made a knight of the Bath for his victory at Detroit, but he survived his honors less than two months.

BLACK EAGLE ATTACKS BOY
Fourteen-Year-Old Youth on Tullman Ranch in Nevada Kills It After a Hard Battle.

Rebo, Nev.—Although it is against the laws of the state to kill an American eagle, little Jimmy Daniels, but fourteen years of age, living on the Tullman ranch, near this city, violated this law to save his own life.

The youth was hunting rabbits, and seeing a cottontail skid into a gully he fired a shot at it. Immediately there flew from the spot several hawks, magpies, vultures and an eagle. The big bird immediately attacked the boy, who fired the last two shots he had at the eagle, both finding their mark.

Although wounded, the eagle continued to attack Daniels and a fierce battle ensued. The youth finally succeeded in using the stock of his gun to good effect, one blow striking the head of the vicious bird and killing it. The boy dragged the bird to his home, and upon measuring it, the length from tip to tip of its wings was six feet and ten inches. It was a good specimen of black eagle, of which there are not many in Nevada.

PERSONAL MENTION

Roy Clements, one of the force that helped get out the first issue of The Daily Times, is here from Clovis, New Mexico for a visit with friends. Roy is now working in the Santa Fe offices at Clovis. He is a loyal, energetic boy and we feel sure will go up higher in railroad work.

Dr. R. L. Miller, accompanied by Mrs. Miller, left today for San Antonio, where Dr. Miller will take treatment at the Physician's and Surgeon's Hospital.

Mrs. Dallas Rigby and daughter, Evelyn, are visiting Mrs. Cochrum at Electra this week.

Ed Roberts returned today after spending several days in Dallas and Fort Worth, visiting relatives and friends.

Mrs. O. T. Bacon has as her guests her mother, Mrs. W. A. Smith and sister, Miss Belle Smith, also Mrs. T. B. Satterwhite and T. B. Satterwhite, Jr., all of Lexington, Kentucky.

W. L. Cameron has returned from Fort Worth where he underwent an operation, which appears to have benefited him materially.

Mr. W. Shriver returned from the Dallas Fair yesterday.

Jack McDowell, telegraph operator for the Denver at Childress, spent Monday in this city with his parents.

Mr. and Mrs. M. H. Stratton have returned from Dallas, after visiting their son, J. E. Stratton.

E. W. Pyle, formerly of this city, but now of Haviland, Kansas, is visiting here for a few days. Mr. Pyle was formerly manager of the Texas Road Supply Company.

Dr. E. K. McClure of Morgantown, Pa., is here this week looking over the city with a view of locating.

Mr. and Mrs. Elmer Wright are in Dallas today attending the fair.

Will H. Rice, a prominent citizen from Dundee, was here today transacting business.

Even Prize Fighters Cannot Stand For Conduct of Negro Pugilist Jack Johnson

By Associated Press.
Sydney, Australia, Oct. 21.—Hugh McIntosh who has been conducting the negotiations for a match between Jack Johnson and Australian pugilists in which the purses were to have aggregated \$150,000, has been authorized by the Australian promoters to cancel all arrangements. The recent arrest of Johnson on a charge of abducting a "white girl" makes it inadvisable to attempt to have the fight in Australia.

New Rails for Texas Roads
Baltimore, Md., Oct. 20.—The Maryland Steel Company has booked order for 25,000 tons of steel rails, including 12,000 tons of Maybi Bessemer rails for the Southern Engineering Company for 1913 delivery; 9,000 tons from the San Antonio and Uvalde Railway and 4,000 tons from the San Antonio and Aransas Pass Railway.

During the last ten days many of the large railroad systems have placed contracts for rails and others are pending. The other companies that have given the Pennsylvania, the New York Central, the Atlantic Coast Line and the Louisville and Nashville railroads the rails for the Texas roads will be turned out at the earliest possible moment. They will be shipped by steamer to Galveston and distributed from that point.

DEMONSTRATION OF THE USES OF ELECTRICITY.

A demonstration of the many uses to which electricity may be put, in the home and office, will be made in the near future by the water and light company, the exact dates to be announced later.

Recent appliances have made it possible to use electricity for nearly everything around the home except perhaps such duties as buttoning a dress up the back or spanking the baby and similar matters that require a delicate practiced hand. Cooking, washing, sewing and other household duties are all lightened by new appliances with electrical connections and these will be demonstrated by the company, for the public's benefit.

CROUP

Is indicated by that hoarse choking cough that sends a thrill of fear and dread through the very heart of the mother who hears it many times at the hour of midnight as unexpectedly as a thunderbolt from a clear sky. To combat this disease in children when unprepared is a dangerous experiment and no home where there are children should be without the greatest remedy yet discovered for the treatment of croup.
DIKES CROUP OINTMENT when spread on the chest and throat quickly relieves all forms of croup. When this remedy is used breathing becomes normal and the child is soon asleep. It is absolutely harmless when applied to the skin and may be used on an infant.

NEWS FROM OIL FIELDS

Russell Brothers have staked out a location for their first well on the A. S. Fonville farm about two miles from the Keds well.

German Oil Combination
Berlin, Oct. 18.—Additional details regarding the German Government's plan to organize an oil company to handle the German oil trade and prevent the Standard Oil Company from obtaining a monopoly of German trade became known today.

The new company is to be known as the German National. Its capital stock, already announced at somewhere between \$15,000,000 and \$20,000,000, is to be used chiefly for the purchase of the German Petroleum Company, a firm controlled by the Deutsche Bank and operating in Russian and Rumanian oil; the Olex Company, the selling agency for Austrian oil (and the German-American Petroleum Company controlled by the Standard Oil Company).

All three are wholesale firms. The German Petroleum Company and the Olex Company are expected to offer little resistance to the plan because they are reported to be unable to cope with the Standard Oil Company.

Not only is the stock of the company to be kept from foreign investors, but as far as possible it is to be kept also from the hands of the two leading banks. To bring this about the stock will be distributed widely among other banks.

The plan is not meeting with unqualified approval. Sceptical persons express doubt whether sufficient supply of oil can be obtained without buying from the Standard Oil Company. The American company now furnishes Germany with some 80 per cent of her supply. Those behind the official plan express confidence not only that enough oil will be available but also that new tank steamers will be built for the traffic when it becomes fairly evident that the plan will be successful. Further objections are based on the fear that the Government controlled monopoly contains financial dangers which can only be obviated by the most rigid provisions against price manipulation.

Black Patti Company.
Ask any person versed in musical matters what race of people are the most musical and have the best voices as a whole, and he or she will reply without hesitation, the negro race. It is seldom that you will find any member of this race that cannot play some musical instrument or that is not the possessor of a pleasant singing voice and in most cases, no matter how illiterate he may be in other matters, it seems to be natural for him to be proficient in this respect. The Black Patti Musical Comedy Company, which is composed entirely of this race of people is now in its seventeenth consecutive season, and it is said by the press and public everywhere to be one of the best musical companies on the road. The Black Patti Company is the attraction at the Wichita Theatre Wednesday night.

Silos Becoming Popular.
San Angelo, Texas, Oct. 21.—Data compiled by the secretary of the Chamber of Commerce of this city shows that 12 silos have been constructed in Tom Green county so far this year, six are now under course of construction and fifty more will be built in this vicinity next year.

WOMAN WORKS IN OVERALLS
Owner of Grocery of Butte, Mont. Shows Independence of Union Labor.

Butte, Mont.—Declaring that not a dollar of hers ever should go to union labor, Miss Elizabeth O'Boyle, proprietress of a grocery store here, donned overalls and completed the carpentry work on her store, made necessary by damage by fire. A crowd of union men looked on and jeered from a safe distance.

Miss O'Boyle's store had been picketed by unionists because she kept open after 6 o'clock, but she secured an injunction some weeks ago restraining the union from interfering further with her business.

Her store was damaged by fire and the insurance adjusters gave her the repair work to union carpenters. When they appeared for work Miss O'Boyle drove them off with a gun and did the work herself.
