NUMBER 161

DOUBLE TRAGEDY NEAR PETROLIA LAST NIGHT

STERLING WHITE SHOT AND KILLED
BEULAH LEE, HIS SWEET-
HEART AT PARTY, THEN
SHOT HIMSELF

WHITE STILL ALIVE

Without Warning Young Man Fires
Bullets into Fiance Before
Merry Makers

Before a number of friends gathered at a party Sterling White, aged 18, last night shot and killed Miss Beulah Lee, aged 16, then rushed out into the night and fired two bullets into his own body, fatally wounding himself. The tragedy occurred at the home of Dave Webb, three miles north of Petrolia, at 8.30 last night.

The shooting took place while the Webb home resounded with music and gay chatter of voices, as the young people gathered there made merry with songs and games and whiled the hours away. Then tragedy stalked into the scene and the life of pretty Beulah Lee was the forfeit.

Because she refused to leave her aged father, whose care and comfort she was, the pretty, popular young woman lies cold in death today, victim of a pistol in the hand of her affianced, for whom she had refused to place duty above love. A few miles away, at Byers, her slayer at midnight slept beneath the influence of opiates, two bullets in his body near the heart. His recovery was impossible, according to physicians.

The girl's continued refusals to wed White, her neighbor and sweetheart since infant days and a respected young member of the rural community had brought about an estrangement between the two and White, angered at her attitude, forgot his love and the law and took both their lives.

"You're having a good time, aren't you, Beulah?" said White pleasantly, meeting the girl amid the other guests.

Before she could reply, White had drawn a pistol and the smart of its discharge resounded through the house. "Twice he fired, then before the startled and frightened guests could collect their wits, he ran from the room, through the empty hall and out into the night."

A few minutes later two more shots were heard by the terror stricken guests and searchers found White's body about 150 yards from the house. He was still conscious and asked for water, but did not speak further. One bullet from the 38-caliber revolver had passed within an inch of his heart and another a little farther away.

Back in the Webb home, the guests, grim and frightened, had just folded Beulah Lee's hands across her breast. Death had come within five minutes after she was shot. When the shooting began she seemed to make an effort to run, then grasped at her side where the leaden missiles had wrought their deadly work and sank quietly into the arms of those near her. She never spoke.

Such was the tragic culmination of a romance that had ripened through childhood into budding manhood and womanhood in that rural community. The Lee and White farms adjoined, about three miles north of Petrolia and since their earliest days Beulah Lee and Sterling White had been sweethearts. Some years ago both of White's parents died and he became the owner of the farm, which he managed profitably, being a respected young farmer of that section.

The girl was the favored daughter of an aged father, her mother no longer residing with them. For this reason, when young White importuned her to become his wife, she hesitated, knowing that her father needed her care and attention. White insisted, she demurred, and for several weeks past they had been somewhat estranged.

Last night a number of the young people of that community had been bidden to the home of Dave Webb for a party and all gathered there for an evening of merriment. Miss Lee came but it was another, and not Sterling White, that served her as escort. The guests gathered around the cheerful fire in the Webb parlor and made merry in many ways, with little thought of sorrow or suffering, little dreaming that the grim specter

was so soon to cast its shadow across the door.

Beulah Lee, her affairs of the heart for the moment cast aside, was enjoying herself with the rest when Sterling White crossed the room to where she stood and addressed her: "You're having a good time, Beulah, aren't you?"

Then the sudden bark of the pistol as it flashed in his hand; the staggering helpless girl; the dash of the man through the crowd and out and away—all with lightning quickness and before even one of the assembled party could grasp the situation and start in pursuit.

The girl never spoke after the two shots were fired and though a physician was hurriedly summoned, it was too late for human aid. She lay prone and inert on the floor, a slowly widening crimson spot in her dress showing where the bullets had found their target. Within five minutes after the shots were fired she was dead.

In the meantime, White had been speeding away, no one knew where. Sheriff J. P. Jones was quickly called from Henrietta and went with all haste to the scene in pursuit. He reached Petrolia about 11 o'clock, learning there that White had already been found.

Saddened friends went to the home of the aged father of Miss Lee and as gently as possible broke the terrible tidings to him. Later the girl's body was taken there to await burial which will probably be today.

At midnight a message from Byers stated that White was still alive, but that no hope was held out for his recovery. He was at that time under the influence of opiates. The two bullets had penetrated his left lung close to the heart and death was considered a matter of but a few hours at the most.

News of the tragedy was received by The Times shortly after it occurred and with the assistance of Dr. A. D. Pattillo at Petrolia, E. C. Hennis, telephone operator at Charlie and J. W. Ross, manager for the telephone company at Petrolia, the details of the sad affair were gleaned. The tragedy has cast a gloom not only over the neighbors and immediate friends of the young people, but over those at Petrolia who knew and admired them both.

White stood well in his community and was a highly esteemed young man, fit mate for the pretty young woman who had promised to be his bride, but who considered that her higher duty for the present lay in bestowing a daughter's loving care upon her aged father.

It is understood that the funeral of the young woman will take place this afternoon.

MONTHLY MEETING OF C. E. CONGRESS

At the Y. M. C. A. rooms tomorrow the regular monthly meeting of the congress of the local organization of Christian Endeavor will be held, of which the young peoples' societies of the First and Central Presbyterian and Christian churches are members.

Final arrangements will be perfected toward the entertaining of the convention Wichita District of Christian Endeavor that will convene in this city November 22-24. This district is composed of about twenty counties and it is expected that many young people from out of town will be in attendance at this meeting. The principal speaker at the meeting will be Mr. W. Roy Breg of Dallas, president of the Dallas C. E. Union. Mr. Breg is an experienced Endeavor worker, and his coming is looked forward to with much interest by the young people interested.

Another matter of importance that will come up will be making final arrangements for the home talent play to be given at the Wichita Opera House on Thanksgiving night. Mr. Chester Byrne of Kansas City, an artist in this line, has been engaged to conduct this entertainment and will arrive in the city for such purpose on Friday, November 22.

Governor Colquitt has called a conference of all persons interested in social welfare to meet in Austin the first week in December and the matter of sending a representative of the local societies of Christian Endeavor of this city to such conference will be discussed and acted upon.

The council will meet this afternoon in the Y. M. C. A. rooms promptly at 4 o'clock, however, there will be no mass meeting on Monday night as is usual, on account of preparation for the coming of the district convention the last of the week.

WAIT FOR TOOLS AT BOTTLE PLANT

GLASS READY TO WORK AND MEN
ON GROUND BUT DELAYED
SHIPMENT RETARDS OPEN-
ING

"COFFEYVILLE" IS BOOMING

Factory Addition Grows Apace and is
A Little City in It-
self

The fires are blazing in the furnaces, the buildings are completed, the men are on the ground ready, and as soon as the needed tools and equipment arrive from the east, work will start in the plant of the Texas Bottle Manufacturing Company. Had the needed tools arrived on schedule time, work already would have started, but the equipment was considerably delayed.

The men to work in the plant are ready at "Coffeyville" as the industrial addition has been nick-named and T. S. O'Bear, manager of the plant, stated last night that the next few days would probably witness the beginning of work.

Fires have been burning in the furnaces for two weeks, reducing the crude material to workable form.

In the meantime, the window glass factory presents a scene of ceaseless activity. Save for the brief periods each day when the men are at lunch, the work never stops. The inferno of the furnaces has never slackened its blaze for a moment since the factory started, and for 135 hours a week the men are busy, taking the molten glass from the furnace, blowing it into the long cylinders, flattening it, cutting it and shipping it away.

Most of the cottages in "Coffeyville" have been completed and work is being rushed upon those remaining. That section is a little city in itself. All street cars now run there and it is a decidedly populous suburb.

Work continues unabated at the automobile plant and at the pottery works and these industries, though of lesser interest to visitors since the glass plant opened, are nevertheless still a source of much fascination.

WILSON SAILS FOR BERMUDA

PRESIDENT-ELECT AND FAMILY
LEFT NEW YORK ON BERNU-
DIAN SATURDAY AFTERNOON

TO RETURN DECEMBER 16

Gov. Wilson Missed Meeting President
Taft by Few Minutes Much to
His Disappointment

By Associated Press.
New York, Nov. 16.—Woodrow Wilson with Mrs. Wilson and the Misses Eleanor and Josie Wilson, left New York for Bermuda shortly after two o'clock this afternoon on the steamship Bermudian. They will be gone until December 16. A throng of well wishers saw them off. Governor Wilson tried to see President Taft today, but missed him by several minutes.

The governor arose late and after breakfast he asked his secretary to ascertain where the President was staying and how long he would be there. Soon afterward the secretary reported that the President had just left his hotel for the College of the City of New York.

"I am very sorry to have missed seeing the President," Mr. Wilson said.

NO DISPOSITION TO "RAILROAD" SHRANK

Milwaukee, Nov. 16.—Cognizance of insinuations that Milwaukee county officials are hurrying John Schrank, assessor of Theodore Roosevelt, through the form of a hearing without giving him a fair trial was taken today by Municipal Judge Bakus.

He directed that the five alienists who are examining Schrank's mental condition, continue their observation until such time as they are convinced there is no possibility of an error in their judgement.

The insinuations were published in a local paper and contain several letters and messages received by the prosecutor.

PRESIDENT TAFT SINGS SWAN SONG

SPEECH BEFORE LOTUS CLUB
LAST NIGHT ONE OF MOST RE-
MARKABLE HE EVER MADE

WIDE PLAY OF FEELING

His Speech Shifted From Grave to
Gay and Embodied Discussion
of Nation's Problems

By Associated Press.
New York, Nov. 16.—President Taft sang his "swan-song" as chief executive of the Nation tonight. As the guests of the Lotus Club, the president responded to the toast "The President." In a speech which many of his hearers considered the most remarkable he has ever made, President Taft shifted from grave to gay and from the philosophy which he said four years in the white house had taught him to a discussion of problems which face the nation.

He laughed at the outcome of the election, smiled when he spoke of some of the plans of President-elect Wilson and touched with gentle sarcasm William Jennings Bryan.

In his serious moments the president advocated the admission to the halls of congress of members of the presidents cabinet, declared that a six year term in the presidency was enough for any man, advocated strongly the placing in the civil service of practically every officer in government service, hinted broadly that Congress should provide for ex-presidents so that they need not lower the dignity of the position they have held when they enter private life.

His chief regret, the President said, was that he had been unable to influence the United States Senate to ratify the arbitration treaties with France and Great Britain. In spite of that fact, he asked his audience to believe that he would leave office with the deepest gratitude for the American people for the honor they had given him and with the belief that enough progress had been made in his administration to warrant him in believing he had done real good for his country.

His humorous reference to the persons of the White House, to his successor and to Mr. Bryan brought forth round after round of applause. He gave this toast to his successor: "Health and success to the able, distinguished and patriotic gentleman who is to be," and he raised his glass while his hearers rose to their feet, "the next President of the United States."

President Taft said: "You have given me the toast of 'The President.' It is said that the office of President is most powerful in the world because under the Constitution its occupants can exercise more discretion than an emperor or a king. I am not disposed to question this statement, but I am bound to say that the consciousness of such power is rarely, if ever, present in the mind of the chief executive."

"Because, what chiefly stares him in the face in carrying out any plan is the limitation upon the power and not its extent. Of course, there are individuals who are able to ignore these limitations, both in mind and practice, and as to them the result may be different. But to one whose training is subordinate to the law, the intoxication of power rapidly sobers off in the knowledge of its restrictions under the prompt reminder of an ever-present and not always considerate press, as well as by the timely suggestions that not infrequently from that hall of Congress in which impeachments are inaugurated in that smaller chamber in which they are tried."

"In these days of progress, reform, uplift and improvement, a man does not show himself abreast of the age unless he has some changes to suggest. It is the recommended changes that mark his being up to date. It may be a change only for the sake only of change, but it is responsive to a public demand, therefore, let's change it. It is contrary to my love for the dear old Constitution to suggest any alteration in its terms, else it be regarded as a criticism of that which has been put to sacred use for 125 years, maintaining liberty, regulated by law, and the guarantee of the rights of the minority and the individual under the rule of the majority."

"But, yielding to the modern habit, and just to show that though I am a conservative I am not a reactionary, I venture the suggestion that it

MORE WAGES FOR R. R. MEN

NORTHWESTERN ENGINEERS,
FIREMEN, CONDUCTORS, YARD-
MEN AND BRAKEMEN RAISED
15 TO 20 PER CENT

ANNOUNCED LAST NIGHT

Follows Week of Conference Between
Representatives of Men and Of-
ficials—Causing Rejoicing

An increase in pay, amounting to from fifteen to twenty per cent of the present wage, has been granted by the Wichita Falls & Northwestern to the engineers, firemen, conductors, brakemen and yardmen in its employ.

This announcement was made last night from the office of Superintendent R. J. Sullivan, who for the past two weeks has been in frequent conference with representatives of the various crafts. The full details of the agreements have not been made public, but it is known that an increase of approximately twenty per cent in pay is provided in the agreements.

When the new contract becomes effective, the Northwestern trainmen will receive the same pay as the employes of the other branches of the Katy, of which the Northwestern is a part. It was the fact that the Katy had taken over the Northwestern that caused the men to ask for a contract, their feeling in the premises being that as they were now, in fact if not in name, employes of the Katy, they should receive Katy pay.

As far as the requests for higher pay were concerned, the men received practically everything that they asked. They asked other concessions dealing with working conditions and not all of these were granted. Enough of their desires were granted, however, to thoroughly satisfy the men. Figures were not available last night on the increase granted each craft and this data will probably not be made public for several days. The increase for the passenger conductors will amount to about \$25 monthly.

Approximately one hundred men will be affected by the increase and there was considerable rejoicing last night when it became known that the concessions in the way of better pay had been granted.

JURY FOR SNEED TRIAL IS READY

LAST THREE JURORS TO COM-
PLETE TWELVE WERE SECURED
SATURDAY AFTERNOON

MADE UP OF FARMERS

Every Juror a Married Man and Most
of Them Have Children—
Evidence Taking Monday

By Associated Press.
Fort Worth, Texas, Nov. 16.—The jury to try J. Neal Sneed for the murder of Capt. A. G. Boyce here last winter was completed late this afternoon and the taking of testimony will begin Monday morning.

The jurors chosen today were T. H. Bird, L. W. Cole and J. T. Dunlap. All three are farmers and married. The completed jury is as follows: Walter Portwood, J. D. Crane, J. C. Gaither, F. M. Fitzgerald, Walter Winnett Weaver, Burch, S. B. Austin, Joe Gaston, T. P. Blanton, T. E. Bird, L. W. Cole and J. T. Dunlap.

The jury is entirely made up of farmers, every one married and most of them with children.

The taking of testimony is expected to begin without further delay Monday morning.

Former County Commissioner C. C. Huffman was disqualified today because he had expressed an opinion as to Sneed's guilt or innocence.

Judge Swayne went over the heads of the prosecutors when he peremptorily excused T. G. Fuller, a farmer, who said he had trouble with Walter Scott, of the defense counsel. Fuller said:

"He ordered me out of his office one day because of an argument over a bill. He abused me, but I walked out of his office like a gentleman."

STENOGRAPHER'S DEATH PLOTTED BY M'NAMARA

GENERAL ADVANCE ON TURKISH LINE

BULGARIANS PLAN SIMULTANEOUS
ATTACK ALONG ENTIRE
LINE OF FORTS AT TCHATALJA

A DESPERATE EFFORT

Resistance by Turks Will Mean Ter-
rific Loss of Life Among At-
tackers—Cholera Rages

By Associated Press.
London, Nov. 16.—The general advance of the Bulgarian army upon the Turkish line at Tchatalja, the main obstacle between it and Constantinople, has commenced, and according to reports, already has met with some success.

The Bulgarians aim at attacking the forts of which the line is composed simultaneously, and with that object the army is stretched across the peninsula. With every available piece of artillery that could be gathered together, it is marching straight towards the works which until the Turks suffered the series of awful defeats, were considered by military experts as impregnable.

The advance guards of this great army of invasion have already reached Lake Dardos on the Turkish right, below the town of Tchatalja, facing the center of the line which takes its name from the town.

Reconnoitering parties have gotten around the Turkish right and are operating in the country between the Tchatalja line and the capital, but the various divisions have only just commenced the attempt to make a breach which will give them an opening toward Constantinople, the city of their desire.

Those who have visited the Turkish front differ considerably as to the ability of the defenders to hold the forts. Some declare that the Turks, strengthened by reinforcements, with an abundance of ammunition and provisions, will make a good stand, while others cannot believe an army still containing remnants of forces so badly beaten in previous engagements, can hold out.

In addition, cholera has invaded the camp, to further deplete and dishearten the Turks. Again, the Bulgarians will have the advantage of superior artillery. However, unless the Turks give up without a fight, there will be a battle if possible, more bloody than any that has preceded it.

Although the cost in life would be heavy, the Bulgarians would like the battle decided before an armistice is arranged because with the Turks beaten in their last ditch, it would be a long time before they could make further trouble for their neighbors.

Scutari, Adrianople and Monastir are still holding out against the allies who keep up their bombardments. The Greeks are now heading for Jannina and the Montenegrins, according to an unconfirmed report, have beaten the Serbians in the race to San Giovanni di Madus, which it is said they have taken.

Constantinople, at the gates of which the Bulgarians are knocking, is now a city of sick, wounded and hungry refugees. With the thousands of wounded in addition to cholera patients, all hospitals are overtaxed. Some relief had been afforded by the action of the government in sending many refugees to Asia Minor.

A revolution has been added to the other Turkish troubles. The young Turks, on whom so much of the blame is placed for disasters are suspected of being concerned in a movement to overthrow the government and a section of them is said to be in a plot to restore the ex-sultan, Abdul Hamid, to the throne. The government has taken drastic action against suspects, many of whom have been arrested, including Dagnel Bey, ex-minister of the interior.

Mohamed Pasha, who led the army in the revolution of 1908, and who was largely responsible for the success of that adventure, is not considered above suspicion and is kept under observation.

By Associated Press.
London, Nov. 16.—The Ottoman army corps mobilized in Asiatic Turkey is to be conveyed to Europe, and landed at Midia, on the Black Sea coast near the position occupied by the Bulgarian army.

Seven transport vessels have been ordered by the Turkish war office to the port of Prebicond, in the eastern end of the Black Sea, to embark the troops.

HE WANTED TO PUT YOUNG WO-
MAN EMPLOYEE OF IRON
WORKERS OUT OF THE WAY

KNOW TOO MUCH

Therefore One of Dynamiters Wanted
Friend to Set a Bomb Under
Her on Train

By Associated Press.
Indianapolis, Ind., Nov. 16.—James B. McNamara's flight from Los Angeles after he blew up the Times building there on October 1, 1910, his expressed hope that the explosion would be attributed to escaping gas in the building and his reported purpose to murder a woman stenographer employed by the Iron Worker's Union, "because she knew too much," were related at the dynamite conspiracy trial today by Frank Eckhoff.

Eckhoff, a neighbor and friend of the McNamara family in Cincinnati, testified that two weeks after the Los Angeles explosion, he was sent by J. J. McNamara to the home of Mrs. Nagg, McNamara's sister at Balaga, Nebraska. Eckhoff said:

"I met James B. there. He appeared desperate and talked of killing himself. Then he asked if I noticed in the newspapers whether people thought the explosion was caused by escaping gas in the basement. One thing he said he wanted done, was to kill Miss Mary G. Dye, a stenographer at union headquarters in Indianapolis. He said she knew too much about dynamiting, and he proposed we talk to J. J. about having her gotten out of the way. He said he thought it would be a good idea if I followed her on a train and put a small bomb under her timed so it would explode after I got off the train."

Eckhoff said he refused to enter into the plan to put a bomb under Miss Dye. Miss Dye, who now lives in Pittsburgh recently identified hundreds of letters introduced by the government implicating the forty-five defendants in a conspiracy.

Incidents of James McNamara's preparation to blow up the Los Angeles Times building in the wreck of which twenty-one persons were killed were related by witnesses from California. James C. O'Brien told how a cottage owned by him had been rented before the Los Angeles explosion and how, when several weeks later he went out there to learn why the cottage was not occupied, he found ten boxes of nitroglycerin stacked in the parlor.

He looked into one box with a lighted cigar in his mouth and thinking the explosive was candles, knocked a stick against the box.

Another development of the day was an admission of Frank Eckhoff of Cincinnati, that he aided in the escape of McNamara after the dynamite was returning east. Eckhoff also admitted having demanded money from the McNamaras to keep his mouth shut. Mrs. Iena Ingersoll was the first important California witness to be called. She said she now lived at Victoria, British Columbia; that on September 1, a month before the Los Angeles explosion, she rented a room to McNamara who used the name J. B. Brice; later, McNamara was visited by Schmidt.

On September 14, McNamara left Mrs. Ingersoll's and went to a hotel. According to a telephone operator, most of the calls for the purchase of explosives and to owners of launches in Oakland were made from the hotel. Mrs. Ingersoll said she did not see McNamara again until the night of October 1.

"At about 11 o'clock on that night, he came to the house and wanted me to give him a room," she testified, "I said I could make no arrangements at that hour." Then he begged me to allow him to sleep on a sofa, saying he would give the rent of the flat for a whole month. On the following night he called and wanted to come again, but I refused him."

The government used this testimony as showing the time McNamara was in Los Angeles.

Miss Ethel Gill, a telephone operator in the San Francisco Hotel identified records of calls by McNamara to powder companies and to the launch owners. About the middle of September, Bruce McCall, employe of

The fires are blazing in the furnaces, the buildings are completed, the men are on the ground ready, and as soon as the needed tools and equipment arrive from the east, work will start in the plant of the Texas Bottle Manufacturing Company. Had the needed tools arrived on schedule time, work already would have started, but the equipment was considerably delayed.

The men to work in the plant are ready at Coffeyville as the industrial addition has been nick-named and T. S. O'Neil, manager of the plant, stated last night that the next few days would probably witness the beginning of work.

Fires have been burning in the furnaces for two weeks, reducing the crude material to workable form.

In the meantime, the window glass factory presents a scene of ceaseless activity. Save for the brief periods each day when the men are at lunch, the work never stops. The inferno of the furnaces has never slackened its blaze for a moment since the factory started, and for 135 hours a week the men are busy, taking the molten glass from the furnace, blowing it into the long cylinders, flattening it, cutting it and shipping it away.

Most of the cottages in "Coffeyville" have been completed and work is being rushed upon those remaining. That section is a little city in itself. All street cars now run there and it is a decidedly populous suburb.

Work continues unabated at the automobile plant and at the pottery works and these industries, though of lesser interest to visitors since the glass plant opened, are nevertheless still a source of much fascination.

WILSON SAILS FOR BERMUDA

PRESIDENT-ELECT AND FAMILY
LEFT NEW YORK ON BERMU-
DIAN SATURDAY AFTERNOON

Gov. Wilson Missed Meeting President
Taft by Few Minutes Much to
His Disappointment

By Associated Press.
New York, Nov. 16.—Woodrow Wilson with Mrs. Wilson and the Misses Eleanor and Jessie Wilson, left New York for Bermuda shortly after two o'clock this afternoon on the steamship Bermudian. They will be gone until December 16. A throng of well wishers saw them off. Governor Wilson tried to see President Taft today, but missed him by several minutes.

The governor arose late and breakfast he asked his secretary to ascertain where the President was staying and how long he would be there. Soon afterward the secretary reported that the President had just left his hotel for the College of the City of New York.

"I am very sorry to have missed seeing the President," Mr. Wilson said.

NO DISPOSITION TO "RAILROAD" SHRANK

Milwaukee, Nov. 16.—Coincidence of instructions that Milwaukee county officials are hurrying John Schrank, assailant of Theodore Roosevelt, through the form of a hearing without giving him a fair trial was taken today by Municipal Judge Bakaus. He directed that the five alienists who are examining Schrank's mental condition, continue their observation until such time as they are convinced there is no possibility of an error in their judgment.

The instructions were published in a local paper and contain several letters and messages received by the prosecutor.

PRESIDENT TAFT SINGS SWAN SONG

SPEECH BEFORE LOTUS CLUB
LAST NIGHT ONE OF MOST RE-
MARKABLE HE EVER MADE

WIDE PLAY OF FEELING

His Speech Shifted From Grave to
Gay and Embodied Discussion
of Nation's Problems

New York, Nov. 16.—President Taft sang his "swan-song" as chief executive of the Nation tonight. As the guests of the Lotus Club, the president responded to the toast "The President." In a speech which many of his hearers considered the most remarkable he has ever made, President Taft shifted from grave to gay and from the philosophy which he said four years in the white house had taught him to a discussion of problems which face the nation.

He laughed at the outcome of the election, smiled when he spoke of some of the plans of President-elect Wilson and touched with gentle sarcasm William Jennings Bryan.

In his serious moments the president advocated the admission to the halls of congress of members of the president's cabinet, declared that a six year term in the presidency was enough for any man, advocated strongly the placing in the civil service of practically every officer in government service, hinted broadly that Congress should provide for ex-presidents so that they need not lower the dignity of the position they have held when they enter private life.

His chief regret, the President said, was that he had been unable to influence the United States Senate to ratify the arbitration treaties with France and Great Britain. In spite of that fact, he asked his audience to believe that he would leave office with the deepest gratitude for the American people for the honor they had given him and with the belief that enough progress had been made in his administration to warrant him in believing he had done real good for his country.

His humorous reference to the persons of the White House, to his successor and to Mr. Bryan brought forth round after round of applause. He gave this toast to his successor:

"Health and success to the able, distinguished and patriotic gentleman who is to be," and he raised his glass while his hearers rose to their feet, "the next President of the United States."

President Taft said:

"You have given me the toast of the President." It is said that the office of President is most powerful in the world because under the Constitution its occupants can exercise more discretion than an emperor or a king. I am not disposed to question this statement, but I am bound to say that the consciousness of such power is rarely, if ever, present in the mind of the chief executive.

"Because, what chiefly stares him in the face in carrying out any plan is the limitation upon the power and not its extent. Of course, there are individuals who are able to ignore these limitations, both in mind and practice, and as to them the result may be different. But to one whose training is subordinate to the law, the intoxication of power rapidly sobers off in the knowledge of its restrictions under the prompt reminder of an ever-present and not always considerate press, as well as by the timely suggestions that not infrequently drop that hall of Congress in which impenetrable are inaugurated in that smaller chamber in which they are tried.

"In these days of progress, reform, uplift and improvement, a man does not show himself abreast of the age unless he has some changes to suggest. It is the recommended changes that mark his being up to date. It may be a change only for the sake only of change, but it is responsive to a public demand, therefore, let's change it. It is contrary to my love for the dear old Constitution to suggest any alteration in its terms, and which has been put to sacred use for 125 years, maintaining liberty, regulated by law, and the guarantee of the rights of the minority and the individual under the rule of the majority.

"But, yielding to the modern habit, and just to show that though I am a conservative I am not a reactionary, I venture the suggestion that it

(Continued on Page Five)

MORE WAGES FOR R. R. MEN

NORTHWESTERN ENGINEERS,
FIREMEN, CONDUCTORS, YARD-
MEN AND BRAKEMEN RAIS-
ED 15 TO 20 PER CENT

ANNOUNCED LAST NIGHT

Follows Week of Conference Between
Representatives of Men and Of-
ficials—Causing Rejoicing

An increase in pay, amounting to from 15 to 20 per cent of the present wage, has been granted by the Wichita Falls & Northwestern to the engineers, firemen, conductors, brakemen and yardmen in its employ.

This announcement was made last night from the office of Superintendent R. J. Sullivan, who for the past two weeks has been in frequent conference with representatives of the various crafts. The full details of the agreements have not been made public, but it is known that an increase of approximately twenty per cent in pay is provided in the agreements.

When the new contract becomes effective, the Northwestern trainmen will receive the same pay as the employees of the other branches of the Katy, of which the Northwestern is a part. It was the fact that the Katy had taken over the Northwestern that caused the men to ask for a contract, their feeling in the premises being that as they were now, in fact if not in name, employees of the Katy, they should receive Katy pay.

As far as the requests for higher pay were concerned, the men received practically everything that they asked. They asked other concessions dealing with working conditions and not all of these were granted. Enough of their desires were granted, however, to thoroughly satisfy the men.

Figures were not available last night on the increase granted, which was made public for several days. The increase for the passenger conductors will amount to about \$5 monthly.

Approximately one hundred men will be affected by the increase and there was considerable rejoicing last night when it became known that the concessions in the way of better pay had been granted.

JURY FOR SNEED TRIAL IS READY

LAST THREE JURORS TO COM-
PLETE TWELVE WERE SECUR-
ED SATURDAY AFTERNOON

MADE UP OF FARMERS

Every Juror a Married Man and Most
of Them Have Children—
Evidence Taking Monday

By Associated Press.
Fort Worth, Texas, Nov. 16.—The jury to try J. Neal Sneed for the murder of Capt. Al G. Boyce here last winter was completed late this afternoon and the taking of testimony will begin Monday morning.

The jurors chosen today were T. H. Bird, I. W. Cole and J. T. Dunlap. All three are farmers and married. The completed jury is as follows:

Walter Fortwood, J. D. Crane, J. C. Galtner, F. M. Fitzgerald, Walter Winnett, Weaver Burch, S. B. Austin, Joe Gaston, T. P. Blanton, T. H. Bird, I. W. Cole and J. T. Dunlap.

The jury is entirely made up of farmers, every one married and most of them with children.

The taking of testimony is expected to begin without further delay Monday morning.

Former County Commissioner C. C. Huffman was disqualified today because he had expressed an opinion as to Sneed's guilt or innocence.

Judge Swayne went over the heads of the prosecutors when he peremptorily excused T. G. Fuller, a farmer, who said he had had trouble with Walter Scott, of the defense counsel. Fuller said:

"He ordered me out of his office one day because of an argument over a bill. He abused me, but I walked out of his office like a gentleman."

Jordan Cummings of the prosecution quickly protested, saying: "That is no ground for challenge." Judge Swayne replied, "I know it isn't but this is a court of justice. I have asked the State's counsel to agree to excuse this man. They have refused so I excuse peremptorily, realizing that I have no right to do so by law."

STENOGRAPHER'S DEATH PLOTTED BY M'NAMARA

GENERAL ADVANCE ON TURKISH LINE

BULGARIANS PLAN SIMULTANEOUS
ATTACK ALONG ENTIRE
LINE OF FORTS AT TCHATALJA

A DESPERATE EFFORT

Resistance by Turks Will Mean Ter-
rific Loss of Life Among At-
tackers—Cholera Rages

By Associated Press.
London, Nov. 16.—The general advance of the Bulgarian army upon the Turkish line at Tchatalja, the main obstacle between it and Constantinople, has commenced, and according to reports, already has met with some success.

The Bulgarians aim at attacking the forts of which the line is composed simultaneously, and with that object the army is stretched across the peninsula. With every available piece of artillery that could be gathered together, it is marching straight towards the works which until the Turks suffered the series of awful defeats, were considered by military experts as impregnable.

The advance guards of this great army of invasion, have already reached Lake Dardos on the Turkish right, below the town of Tchatalja, facing the center of the line which takes its name from the town.

Reconnoitering parties have gotten around the Turkish right and are operating in the country between the Tchatalja line and the capital, but the various divisions have only just commenced the attempt to make a breach which will give them an opening toward Constantinople, the city of their desire.

Those who have visited the Turkish front differ considerably as to the ability of the defenders to hold the forts. Some declare that the Turks, strengthened by reinforcements, with an abundance of ammunition and provisions, will make a good stand, while others cannot believe an army still containing remnants of forces so badly beaten in previous engagements, can hold out.

In addition, cholera has invaded the camp, to further demoralize and dishearten the Turks. Again, the Bulgarians will have the advantage of superior artillery. However, unless the Turks give up without a fight, there will be a battle if possible, more bloody than any that has preceded it.

Although the cost in life would be heavy, the Bulgarians would like the battle decided before an armistice is arranged because with the Turks beat, or in their last ditch, it would be a long time before they could make further trouble for their neighbors.

Scutari, Adrianople and Monastir are still holding out against the allies who keep up their bombardments. The Greeks are now heading for Jannina, and the Montenegrins, according to an unconfirmed report, have beaten the Serbians in the race to San Giovanni di Madua, which it is said they have taken.

Constantinople, at the gates of which the Bulgarians are knocking, is now a city of sick, wounded and hungry refugees. With the thousands of wounded in addition to cholera patients, all hospitals are overtaxed. Some relief had been afforded by the action of the government in sending many refugees to Asia Minor.

A revolution has been added to the other Turkish troubles. The young Turks, on whom so much of the blame is placed for disasters are suspected of being concerned in a movement to overthrow the government and a section of them is said to be in a plot to restore the ex-sultan, Abdul Hamid, to the throne. The government has taken drastic action against suspects, many of whom have been arrested, including Dginal Bey, ex-minister of the Interior.

Mohamed Pasha, who led the army in the revolution of 1908, and who was largely responsible for the success of that adventure, is not considered above suspicion and is kept under observation.

By Associated Press.
London, Nov. 16.—The Ottoman army corps mobilized in Asiatic Turkey is to be conveyed to Europe, and landed at Midia, on the Black Sea coast near the position occupied by the Bulgarian army.

Seven transport vessels have been ordered by the Turkish war office to the port of Frebicond, in the eastern end of the Black Sea, to embark the troops.

HE WANTED TO PUT YOUNG WO-
MAN EMPLOYEE OF IRON
WORKERS OUT OF THE WAY.

Therefore One of Dynamiters Wanted
Friend to Set a Bomb Under
Her on Train.

By Associated Press.
Indianapolis, Ind., Nov. 16.—James B. McNamara's flight from Los Angeles after he blew up the Times building there on October 1, 1910, his expressed hope that the explosion would be attributed to escaping gas in the building and his reported purpose to murder a woman stenographer employed by the Iron Worker's Union, "because she knew too much," were related at the dynamite conspiracy trial today by Frank Eckhoff.

Eckhoff, a neighbor and friend of the McNamara family in Cincinnati, testified that two weeks after the Los Angeles explosion, he was sent by J. J. McNamara to the home of Mrs. Nagr, McNamara's sister at Ballaga, Nebraska. Eckhoff said:

"I met James B. there. He appeared desperate and talked of killing himself. Then he asked if I noticed in the newspapers whether people thought the explosion was caused by escaping gas in the basement. One thing he said he wanted done, was to kill Miss Mary G. Dye, a stenographer at union headquarters in Indianapolis. He said she knew too much about dynamiting, and he proposed we talk to J. J. about having her gotten out of the way. He said he thought it would be a good idea if I followed her on a train and put a small bomb under her timed so it would explode after I got off the train."

Eckhoff said he refused to enter into the plan to put a bomb under Miss Dye. Miss Dye, who now lives in Pittsburg recently identified hundreds of letters introduced by the government implicating the forty-five defendants in a conspiracy.

Incidents of James McNamara's preparation to blow up the Los Angeles Times building in the wreck of which twenty-one persons were killed were related by witnesses from California. James O'Brien told how a cottage owned by him had been rented before the Los Angeles explosion and how, when several weeks later he went out there to learn why the cottage was not occupied, he found ten boxes of nitroglycerin stacked in the parlor.

He looked into one box with a lighted cigar in his mouth and thinking the explosive was candles, knocked a stick against the box.

Another development of the day was an admission of Frank Eckhoff of Cincinnati, that he aided in the escape of McNamara after the dynamiter was returning east. Eckhoff also admitted having demanded money from the McNamaras to keep his mouth shut. Mrs. Lena Ingersoll was the first important California witness to be called. She said she now lived at Victoria, British Columbia; that on September 1, a month before the Los Angeles explosion, she rented a room to McNamara, who used the name J. B. Brice; later, McNamara was visited by Schmidt.

On September 14, McNamara left Mrs. Ingersoll's and went to a hotel. According to a telephone operator, most of the calls for the purchase of explosives and to owners of launches in Oakland were made from the hotel. Mrs. Ingersoll said she did not see McNamara again until the night of October 1.

"At about 11 o'clock on that night, he came to the house and wanted me to give him a room," she testified, "I said I could make no arrangements at that hour. Then he begged me to allow him to sleep on a sofa, saying he would give the rent of the flat for a whole month. On the following night he called and wanted to come again, but I refused him."

The government used this testimony as showing the time McNamara was in Los Angeles.

Miss Ethel Gill, a telephone operator in the San Francisco Hotel testified records of calls by McNamara to powder companies and to the launch owners. About the middle of September, Bruce McCall, employe of

REMAINS LAND OF ROMANCE

Bokhara's Attractions Many, but Make Little Appeal to the Traveler From the West.

London, England.—Would you go on the magic carpet to the land of the Arabian Nights? It still exists. It may be found in Bokhara, that crescent-shaped land, whose horns entwine the east and its mystery, and whose convexity points towards Mecca, the sacred city. But the only magic carpet to take the traveler there is the comfortable one that lies before the study fire, when, with a volume in his hand, like that of the learned traveler, Prof. O. Olufsen, he may make use of the professor's account of Bokhara to whip up the steed of his own imagination. Otherwise he will find a journey through Bokhara chattered with as many perils and hardships as befell immortal Sinbad. On the highlands of Bokhara which affront the Pamirs, the wind pierces the bones, the frosts crack the skin that the sun has scorched, the breath of the traveler comes in gasps as his lungs heat in the thin air; on glaciers his feet strive to maintain a foothold; and as he

Old Bokhara Fort.

climbs the passes the avalanches thunder by. Truly, you would say, a man who has endured these things should come within sight of an earthly Paradise as his reward.

It is not quite that. So much Professor Olufsen makes clear in the account of "The Emir of Bokhara and His Country," for though the Danish explorer was welcomed by the Emir and by many Begg who helped him on his way, he does not conceal from us the darker side of the romance of Bokhara. Yet one would like to preserve a little longer one of the few spots where the old order has yielded no place to new. "The Emir of Bokhara still lives behind his high crenellated walls, and the subject kings, the Begg, still keep up their old-fashioned court in the romantic, dismal castles. The meandering streets, with the flat-roofed mud houses, the mosques and madrasas are not yet disturbed by houses built in the European style; Mullahs, Dervishes, Calenders and Devanahs still crowd in the sacred spots as they did centuries ago. Slowly and sedately the caravans of camels cross the wide deserts and stages of the mysticism of the shiites prevails everywhere; the gates of the towns are shut up at night, the house gates are barred against intruders; and the aversion against Christian dogs is the same as in the middle ages."

But one would not like to live in Bokhara, even if Aladdin and Bagdadour and the one-eyed Calender were our companions. For, and to say these peerless creatures must have lived in an atmosphere which is saturated with the stinging dust of the plains of Bokhara; they must have drunk water that is excessively likely to provoke fever and the even more pernicious affliction of the night, which tradition says afflicted Job. It is a small point perhaps, but sanitation in Bokhara is not known; and though heathen is common in Bokhara, it is not nearly so common as the sickness of disease.

ELECTRIFIES U. S. GARDEN

Scientists Will Raise Vegetables by Means of Fluid in Government Garden Along Potomac.

Washington.—Dr. Lyman J. Briggs, head of the experiment section of the bureau of plant industry, is stringing electric wires over a government garden on the Potomac river for the purpose of raising plants by the aid of electricity. He will electrify onions and snapbeans, potatoes, and hops for more time. Dr. Briggs has been experimenting with electricity in the cultivation of plants. Dr. Briggs will not tell just how he is going to apply electricity to the onion and to the bean, but he thinks that he will produce better vegetables at a lower cost.

JUMPS FAR FROM POLICE

Man Accused of Attacking Woman Leaps From Second Story to Escape Arrest.

Philadelphia.—With a revolver in each hand, bareheaded and barefooted, Enoch Cossen, thirty-five years old, leaped from the second-story window of his home, at Ann and Chatham streets, and escaped, just as the police entered the front door to arrest him for an alleged attack upon a woman.

He exchanged shots with the police who pursued him, and managed to escape.

Cossen was charged with entering the store of Mrs. G. Glawatt, 2365 Ann street, and beating the woman over the head with a chisel.

THE SUFFRAGETTE ARMY AT LONDON

WOMEN WHO WANT VOTES COMPLETE 400 MILE TRAMP WITH TRIUMPHANT DEMONSTRATION

CAME FROM EDINBURGH

March to Prime Minister's Residence Where They Present Demand For Votes.

By Associated Press. London, Nov. 15.—The suffragette army which started from Edinburgh on October 12 triumphantly completed its 400 mile tramp to London this afternoon, having taken exactly five weeks to make the journey. Under the leadership of Mrs. D. Footblague, who traveled on horseback, they proceeded immediately to the prime minister's residence and presented their petition demanding suffrage for women.

Premier Asquith, profiting from his experience at previous meetings with vote seeking women, had retired to the country for the week end. His secretary, however, accepted the document and there was no unusual incident.

TODAY A BUSY DAY FOR ORGANIZED LABOR LEADERS

By Associated Press. Rochester, N. Y., Nov. 16.—Sunday will be a busy day for Samuel Gompers and other leaders who are in the city for the Thirty-second Annual convention of the American Federation of Labor. A public mass meeting in Convention Hall will be held in the afternoon. President Gompers, Treasurer John Lanson, Raymond Robbins of Chicago, and Miss Maude Younger of San Francisco, will be the chief speakers.

In the evening leaders of the Federation will address meetings of a semi-religious character. The absence from the town of J. Neblon Barnes, National chairman of the Socialist party has postponed developments in the anti-Gompers struggle that is expected to take place next week.

TROOPS ARE RECALLED FROM MERRYVILLE, LA.

By Associated Press. Baton Rouge, La., Nov. 16.—Governor Hall this evening recalled the company of soldiers from Merryville, where they were ordered last night in anticipation of trouble in the strike of employes of the American Lumber Company. Reports from Merryville to the governor today were reassuring and the parish authorities were considered capable of handling any serious situation that might develop.

Members of the Brotherhood of Timber Workers have given parish and State authorities assurance that the union men will not cause trouble.

Rehatch's Mineral Water. This water stimulates the secretion of the stomach, increases digestion, is highly recommended by physicians and patrons who have tested its merits for indigestion, catarrh of the stomach, kidney and bladder trouble, and favors a more complete absorption of the food and prevents the action of germs that cause typhoid and other infectious diseases.

This water can be purchased at the wells, or delivered in jugs or cases. This well is located one mile south of Nemo school building in Floral Heights, two deliveries daily, morning and afternoon. G. J. Rehatch, Owner. Phone 1601-1 long-4 shorts.

Negro Says He Killed Policeman

By Associated Press. Houston, Texas, Nov. 15.—Eugene E. Hall, a negro arrested here today, admits that he killed a policeman in Galveston seven years ago. He was tried, given fifty years in the penitentiary and escaped after serving six years of his term. He was arrested in a gambling raid at Galveston last week. The policeman whom he killed was named Mayo. Galveston officials are inclined to believe the negro's story.

Yesterday's Football Results

Yale and Princeton Tie.
By Associated Press.
Princeton, Nov. 16.—Princeton and Yale, in their annual football battle today, played a 6-6 tie. So evenly were the teams matched that neither had the power to rush the ball to a touchdown. Each team put up a stonewall defense, and all scoring was done on goals from field and a goal from placement.

The results of the struggle was unsatisfactory to both sides, especially to the thousands of Princeton rooters who saw the game slip from their hands of the fighting Tigers in the last few minutes of play.

The hero of the game was Pumpyell of Yale, who, coming into the game for the second time when everybody expected to hear the time-keeper's blow for a Princeton victory, booted the ball for a field goal from the 55-yard line, tying the score.

It was one of the most remarkable goals from the field ever seen on the Princeton gridiron. No one expected Yale would try for such a score with the ball in mid-field. The time was short and it was a case of doing something heroic or losing. Yale took the chance and won.

Princeton surprised Yale by the aggressiveness of her attack, and the strength of her defense. Yale's line had been heralded as almost impenetrable, but the Tigers, nearly every time they smashed into it, made a gain. The trouble was, they could not keep up the pace and weakened near the Yale goal line. The Tigers got the ball within the Blue's 10-yard line in the second period, but being unable to carry it over, H. Baker tried for the field goal and made it.

Outside of the stubbornness of the defense on each side and Pumpyell's great field goal, there was nothing remarkable about the game. Yale, because of the Harvard game next Saturday, evidently did not uncover all her plays. The forward pass did not figure in the game nor in the scoring. The score which placed Princeton in the lead came late in the third period. After an exchange of punts, Princeton worked the ball on good rushes by DeWitt to within ten yards of Yale's goal. Here the

Blue line stiffened and held, and Pendleton called upon Baker to try for another goal. It was easy for Baker and Princeton counted three more points.

Yale tied the score in the fourth quarter by Pumpyell's sensational kick. Quarterback Wheeler, who was back to receive a punt, let it slip through his arms and Andrews, the Princeton left end, fell on it. Then Baker dropped.

Flynn, the tall full back of the Yale team, was the first man to make a score. In the first period, he kicked a goal from placement from the 55-yard line.

Pennsylvania Defeats Indiana.
By Associated Press.
Philadelphia, Nov. 16.—Playing a fast game from the beginning, the University of Pennsylvania today defeated the Central Indiana by a score of 34 to 25. Until the middle of the last period, the result was in doubt. This is the first defeat for the Indiana this season.

Alabama and Sewanee Tie.
By Associated Press.
Birmingham, Ala., Nov. 16.—Alabama and Sewanee fought to a 6-6 tie here this afternoon.

Wisconsin Western Champions.
By Associated Press.
Chicago, Nov. 16.—First honors in the western "big five" football conference went to Wisconsin today when that institution defeated Minnesota 14 to 0. Wisconsin is champion and Minnesota and Chicago each of which has been defeated by Wisconsin, will play next Saturday for second honors in the west. Illinois failed to stop Chicago today, Chicago winning 19 to 9, and the best Illinois can do is fourth place.

Harvard 3, Dartmouth 0.
By Associated Press.
Cambridge, Mass., Nov. 16.—Harvard, using only part of her offensive tactics, defeated Dartmouth today, 3 to 0. The Crimson played a conservative game. Its goal line was never threatened and its principal battery of attack to be used against Yale next Saturday is still uncovered. The only score of the game was a field goal in the third period by Brickley, Harvard's star back. Brickley had three other opportunities to score in the same way, but the wind or hurried kicks spoiled each attempt.

Oklahoma Championship Decided.
By Associated Press.
Norman, Okla., Nov. 16.—Held repeatedly in the middle of the field, but plunging through the Aggie's defense when within striking distance, Oklahoma University today scored two touchdowns and a goal from placement, defeated Oklahoma A. & M. College, by a score of 15 to 0, carrying with it the State championship for 1912.

Louisiana University Won.
By Associated Press.
Little Rock, Ark., Nov. 16.—The University of Arkansas lost to Louisiana University today in a hard fought game by a score of 7 to 4. Arkansas had the ball on Louisiana's 15-yard line with only two minutes to play when Quarter Back Schalkin attempted to drop kick which failed and Arkansas' chances were gone.

Michigan Defeats Cornell.
By Associated Press.
Ann Arbor, Mich., Nov. 16.—Suddenly shifting from the old fashioned game to brilliant open play, Michigan scored two touchdowns in the fourth period of today's football struggle with Cornell and closed the season with a 20 to 7 victory. It was anybody's game when the final period started. A forward pass had given Michigan a touchdown in the first quarter, and a similar play helped Cornell tie the score in the second. In the third quarter, neither team scored and it was Michigan's brilliant work in the final quarter that wrested victory from possible defeat.

Navy Defeats North Carolina Team.
By Associated Press.
Annapolis, Md., Nov. 16.—By a score of 49 to 0, Navy's football team this afternoon defeated the A. & M. College of North Carolina and in a measure retrieved the series of defeats sustained from the opening of the season. Navy showed considerable improvement over former games.

Vanderbilt Won.
By Associated Press.
Nashville, Tenn., Nov. 16.—Vanderbilt 23, Kentucky Central 0.

Tufts Was a Worthy Opponent.
By Associated Press.
West Point, Nov. 16.—The Army had a harder time defeating Tufts today than the score indicates. The Army won by a 15 to 6 score, but in the first two periods was outplayed by Tufts. The cadets braced in the second half and played a different brand of football.

RANGER IS A HERO

Real Men to Be Found in Coeur d'Alene Reservation

How Captain of Fire Fighters, by Coolness and Bravery, Prevented Loss of Thirty-five of His Crew in Northern Woods.

Boise, Idaho.—Professor Welling, tanned and toughened by his summer's work in the Coeur d'Alene national forest reservation, held his eastern visitors spellbound with stories of the fight he had helped to make against the fearful forest fires, says the Youth's Companion. He had gone out, with two others, under government commission, to study the forest and, coming back in August, they had met the fires and spent almost a month in fighting their way out of them.

"There are real men among these forest rangers," he went on. "In fact, there is no place for anything that is not genuine up there. The most thrilling story of heroism that I have heard in a long time is the story of Ranger Pulaski. It did not happen in the part of the reservation where I was, but I can vouch for its truth, for I have talked with some of the men who were with him.

"Pulaski had forty men under him, and they had been fighting a big fire for hours. Suddenly the wind rose until it blew a gale. The fire got beyond them, and it became a question of saving the lives of the men. They were many miles from a railroad or a clearing.

"Pulaski remembered that about a mile from where they were working was an abandoned mine shaft that ran back about forty feet into the hillsides. He ordered the men to snatch their blankets from the camp and run for this shaft. Once there they packed themselves like sardines into the hole. Pulaski placed himself at the opening and stretched a blanket across it.

"In a few minutes the fire overtook them. The blanket at the opening caught and Pulaski jerked it away. Again and again this was done, and when the supply of blankets ran low he held the burning fragments across the mouth of the shaft with his bare hands.

"The suffering of the men from the heat and smoke was pitiful. They were fairly maddened by it, and some of them made a wild attempt to push their way out of the shaft. For a while Pulaski held them back by sheer physical strength, for he was an unusually strong man. But he knew that he must soon be over-

Sample of Protected Forests.

ered, and that the men, in their frenzy, would rush out to certain death. He drew his revolver and told them that he would kill the first man to attempt to break away. The men knew that he meant it, too, and that knowledge brought them back to reason.

"It wasn't more than twenty minutes before the worst of the fire had passed the shaft. When it was safe to crawl out they found that five of the men were dead from suffocation, but the other thirty-five were all right. Pulaski himself was blinded and burned, but his sight was partly restored. He lost five men, to be sure, but with less courage and presence of mind he would have lost them all. I take off my hat to such a man. He is a real hero."

BREAKS JAIL TO FEED CATS

Nevada Miner Tramps Forty Miles That His Pets May Not Suffer—Act May Bring Freedom.

San Francisco, Cal.—When James Watkins, a miner, was placed in jail at Beardsight, Nev., recently, charged with having stolen a pair of lace curtains, he asked the jailer to see that his pet cats were fed. The jailer laughed at him, but when night fell Watkins broke jail and tramped forty miles across the desert to attend to his pets. The sheriff followed him next day in a motor car and found Watkins pouring milk for the cats at his cabin.

The charge against Watkins probably will be dismissed, his accuser having been impressed by the miner's affection for his pets.

RCH Has gained the nickname of the gum shoe car because it is so quiet.

The Finest Kind of Mince Pies

PHONES 432 and 252 YOU GET IT QUICK

Just recently I opened a fresh shipment of Heinz Mince meat. I really don't believe there is anything better in America in the mince meat line than this special brand.

The utmost care has been taken to get perfect apples, the choicest of tender beef, clean fresh seeded raisins and new currants with the finest quality and pack of fresh apple cider. The way these materials are prepared, and mixed and packed make this an unusual mince meat for any kitchen.

You can't begin to produce as good a quality as this for less money, or even as much for, per pound..... 25c

Wichita Falls, Texas, Nov. 17, 1912

305 305

WEATHER FORECAST
Local rains Sunday.

Don't scrouge. There's plenty of
room for all in the pie line.

The honor of opening the Panama
Canal, after all, will fall upon a
Democratic president.

California finally fell into the
Roosevelt column by a majority of
city-seven. That was some close
race.

No, President Taft has not yet
given it out that he will resign his
office before the expiration of his
term, March 4th, but he has just as
good reason for doing as some others.

The question after March 4th, no
doubt will be: Who is our greatest
living president? There will only be
two of them and so far as we're
concerned they can settle it between
them.

With the Democratic landslide on
November 6th that extended from
ocean to ocean and Jack Johnson,
negro pugilist in jail, there is plenty
for which to be thankful. So let's
prepare for the feast.

Congressman Henry of Texas, who
was being urged to become a candi-
date for Speaker of the House against
Champ Clark, has given it out that
he will not be a candidate for that
honor. He probably realizes that
Champ Clark is entitled to another
term as Speaker, which will not be
denied him.

The selection of a successor to the
late Republican candidate for the vice
presidency has been postponed.
There seems to be no hurry in this
matter, and so far as is known none
of the aspirants are complaining at
the delay.

The chances of getting what you
pay for are just a little better than
one to two, judging by the fact that
of eighty-six food samples recently
put to the test by government ex-
perts in State laboratories, twenty-
six were found to be spurious and
 unfit to be used as food.

President Taft is glad. Not that
Wilson is elected, but that Roosevelt
is beaten. And Roosevelt is tickled
some himself. He did about all that
could be expected of him in sixty
days time and the results of his work
by the Republican party will be felt
for a long while, provided there is
any feeling left in it.

Iowa Park is to be congratulated.
It is now certain that oil has been
struck in a well being drilled near
that town at a depth of about 900
feet, and this has caused a great stir
among the people. Lands in what
there is every good reason to believe
will compose a part of the third oil
field in Wichita county, are being
bought rapidly and at good prices.

It seems to be the general accepted
opinion that President Wilson will
call an extra session of Congress
after he is inaugurated for the purpose
of revising the tariff. The
Democratic party is pledged to do this
and the quicker the pledge is re-
deemed the better it will be for the
party as well as the country. The
people want the tariff revised, and
that is why the change was made from
a Republican to a Democratic admin-
istration.

Attention A. F. & A. M.
Wichita Falls Lodge will con-
fer the E. A. degree Monday
night on five candidates and
the F. C. Degree Wednesday night on
four candidates beginning at 7:30
sharp. Visiting Masons cordially in-
vited to come out and assist us.

RADFORD HEADS NEW COMMISSION

PRESIDENT OF FARMERS UNION
CHOSEN MANAGER OF FARM
LIFE COMMISSION.

J. T. S. GANT A MEMBER

Archer County Man Named as Mem-
ber—Organization Perfected
Saturday

By Associated Press.
Dallas, Texas, Nov. 16.—The Farm
Life Commission of the Texas Com-
mercial Secretaries was organized
here today. Peter Radford, president
of the Farmers' Union, was elected
manager of the organization.

The Farm Life Commission was
formed at a meeting of the Texas
Commercial Secretaries and Business
Men's Association of Texas recently.
In resolutions adopted today, the
secretaries went on record as favor-
ing the Hogg stock and bond law
and denied their organization is an-
xious for the repeal of that measure,
though they favored its amendment.
In their resolution, it was declared:
"We believe the changed conditions
in this State during the eighteen
years this law has been on the
statute books demonstrate the wis-
dom if not the imperative necessity,
of some amendment which will en-
courage and stimulate the construc-
tion of independent lines of railway
in Texas, and the improvement of ex-
isting lines."

S. A. Lindsey of Tyler, is chairman
of the Farm Life Commission.
The members are: H. Loos of
Brookline; L. D. Steelman of Hagen-
man; J. T. S. Gant of Archer City;
George B. Dealey of Dallas; W. T.
Proctor of College Station; E. W.
Knox of San Antonio; Joe Hirsch of
Corpus Christi; Mrs. E. P. Turner of
Dallas; A. L. Ellis of Austin; E. J.
Kylie of College Station; Edwin
Chamberlain of San Antonio; E. W.
Kirkpatrick of McKinney; C. W. Post
of Post City; R. J. Kieberg of
Kingville.

The examining trial of George Ma-
son charged with forgery, was resum-
ed yesterday morning in Squire Broth-
ers' court, and after taking consider-
able testimony, was again continued
until Tuesday. The session was en-
livened by several brisk word-encoun-
ters between attorneys, several inter-
ests being represented in the case.
Judge Carigan represents H. A. Over-
all, the complainant, Judge Scoury
represents the state, C. C. Huff the
defendant and Judge Kay was present
to watch the side of the Producers'
Oil company, which is more or less
involved.

VOLUME VI

WICHITA FALLS, TEXAS, SUNDAY, NOVEMBER 17th, 1912—SECTION TWO

NUMBER 161

SOCIETY

NOTES OF THE WEEK.

Mr. and Mrs. A. G. Howard celebrated their sixtieth wedding anniversary at their home on Seventh street Wednesday with a family dinner at which all of their five children were present.

A large number of young people enjoyed the dance at the Elks club Thursday evening.

Circle No. 2 of the M. E. Church, South, will meet with Mrs. W. H. Horton, 1008 Burnett, Monday afternoon at 3 p. m. All members are requested to be present.

The Ladies Guild of the Episcopal church will meet with Mrs. Frank Byers Monday afternoon at 3 o'clock at the St. James.

It is not yet sure that Expert Keller will be able to accept the invitation extended him by the Civic League to visit this city, but it is very hopeful he will come here.

Several Texas towns have lady candidates for postmasterhips; may be Wichita Falls will add another to the list.

The Aid Society of the First Presbyterian Church will give a tea at the Scouts headquarters Monday afternoon at 3 o'clock.

The Musicians Club will meet on Thursday afternoon with Mrs. Sam Ashmore, 1308 Ninth street.

ART LITERATURE CLUB MEETS AT MRS. GEBHARDT'S.

The Art Literature Club met last Tuesday with Mrs. Gebhardt. The meeting was called to order by the president, and after the business of the afternoon the following program was carried out: A paper was read by Mrs. Kerr on "Frank Reagah," describing his imitable work. Mrs. Blankenship had for her part Frederick Remington and his pictures. Mrs. Filgo, the leader for the afternoon, conducted an able quiz on the Bayview course, after which there was the usual discussion of the lesson. Thirteen members enjoyed the afternoon and the samples of Mrs. Gebhardt's culinary skill, while Miss Jessie Kerr presided at the piano. The following ladies were present: Mesdames Bean, Craven, Harris, Ward, Kerr, Filgo, Robertson, Blankenship, Gebhardt and Misses Childers, Bell, Seelinger and Kerr. The club will meet next Tuesday with Mrs. Harris.

PHILATHES CLASS GIVES A VERY SUCCESSFUL SOCIAL.

The young ladies Philathes Class of the M. E. Sunday school gave a very successful social Friday evening at the home of their teacher, Mr. H. J. Bachman. The houses was tastefully decorated with roses and the guests were received by the president of the class. Dr. Dunserki was present and rendered several musical num-

bers which were highly enjoyed by the company present. The remaining part of the evening was spent in getting acquainted with the large number of strangers who were present and playing games. Very satisfying refreshments consisting of chocolate, graham cracker sandwiches, salad and cake were served and the company went to their homes declaring the Philathes to be a queenly entertainer.

ENTERTAIN IN HONOR OF DEPARTING YOUNG MAN.

Mr. and Mrs. S. W. Stout entertained very highly a number of their friends last Friday night at their home in honor of Arthur, Montgomery, who leaves Sunday for Denton to make his home there. The host and hostess was assisted by Miss Daisy Brooks. The diversion of the evening was forty-two, Mr. Montgomery being the winner. There was also a guessing contest and Miss Katherine Bartley won the prize. After fruit salad, nuts and grapes had been served all left, wishing Mr. Montgomery good luck in his new home. Those present were: Misses Kate Ricks, Eldine Ricks, Ellabeth Forsch, Daisy Brooks, Katherine Bartle and Messrs. Joe Havener, Arthur Montgomery, Tom Newhouse, Oliver Stout, Henry Puckett.

SAN JACINTO SCHOOL MOTHERS MEET THURSDAY.

The San Jacinto Mothers' and Teachers' Club met in regular session Thursday afternoon at 3:30. The program was begun by Mrs. Besney who rendered a very pleasing piano solo. Mrs. McCaugh then read an article on the "Necessity for Play Ground Equipment and Proper Supervision." Regular business was then entered into and the time of meeting was changed to Wednesday of the first week of the scholastic month. Plans were begun for a Christmas bazaar, which will be finished at the next meeting which all members are urged to attend.

"WIFFLE WAFFLE" PARTY FOR SUNDAY SCHOOL CLASS.

The following invitations were received last week by the girls of Mrs. B. T. Burgess Sunday school class: "To a Wiffle waffle I U invite Bring with you a friend to see the sight Each bring a needle and thread To dress the Wiffle who is dead. Wear a dress for which you do not care For through the Wiffle Waffle it may tear. Be sure at my home to arrive Friday evening at half past five." After all the little girls had arrived a witch from the "Wiffle Waffle" appeared and declared them her subjects for the evening. She led them into a room dimly lighted with red lights and through which great care had to be taken to keep out of thorny vines, which profusely de-

corated the room. Seating them on the floor she gave them a guessing contest which was won by Laura Hall who was given a doll whose features resembled the "Wiffle." They were then led to the door of another room which was a net work of string. Each was given an end to unvine at the end of which was a package containing a "Wiffle" and material to dress it. The best dressed "Wiffle" was made by Louise Leachum, who received a trombone to proclaim the victory over the "Wiffle." The next feature was the trip through the "Wiffle Waffle" one at a time, guided by the witch. The path was dark, long and tedious with many obstacles in the way, but at the end was a typical gypsy tent, brightly decorated with Mexican Zazapes, presided over by a Spanish Duanque who read their fortunes with accuracy. After all were seated on the floor an immense "Waffle" was brought in and when broken was found to contain refreshments consisting of delicious sandwiches, stuffed eggs, pickle and cake. The lemonade being served from a large tin pail. Each declared the best time ever. The following were invited: Lucy Mae Havener, Dolly Hull, Ruby Lee Martin, Dovie Shadowia, Leta James, George Roark, Mabel Morris, Laura Hall, Wilma Filgo, Beulah and Mary Walker, Dot Foosebe. Guests of the class: Louise Leachum, Ruth Fitzpatrick, Freda Iley, Anna Carter, Mildred Van Ve, Pauline Clara Jacobs, Myra Hall.

U. N. O. ART CLUB HAS MEETING AT MRS. TAYLOR'S.

The U. N. O. Art Club met at the home of Mrs. Chalmers Taylor, Tenth and Taylor streets Thursday afternoon at 3 p. m. All members had their needle work and spent an hour or so on that after which the business meeting was held and the roll call, each member answering with a quotation. Those present were: Mrs. C. Taylor, Mrs. Thomas, Mrs. Farrington, Miss May Neal, Mrs. John Taylor, and Mrs. F. C. Uitz. A two course luncheon was served. The next meeting will be held with Mrs. S. T. Thomas.

ALAMO HOME AND SCHOOL CLUB MEETING ON FRIDAY.

The Alamo Home and School Club will hold its regular meeting next Friday in the school building. An attractive program has been prepared and the report of the delegate to the Child's Welfare conference which was held in Houston November 13, 14 and 15, will be presented. The officers urge every one interested in children to come and suggests that those who are not interested come and get interested.

WICHITA FALLS WOMAN HONORED AT HOUSTON.

Mrs. J. W. Lee of this city was elected auditor of the Mothers' Congress of Texas at the convention at Houston last week. Mrs. C. W. Hutchison of Fort Worth was elected president. Other officers elected were: Mrs. George Hoyer of Houston, vice president at large; Mrs. E. A. Walters of Fort Worth, vice president in charge of first district; Mrs. T. W. Wiley of McKinney, vice president in charge of second district; Mrs. T. S. Cairk of Marlin, vice president in charge of the third district; Mrs. G. Zimmerman of Houston, vice president in charge of the fourth district; Mrs. Susan Thurston of Beville, vice president in charge of the fifth district; Mrs. Malone Duggan of Dallas, corresponding secretary; Mrs. Geo. Houlledge of El Paso, treasurer; Mrs. J. W. Lee of Wichita Falls, auditor; Mrs. William Capps of Fort Worth, honorary vice president. The retiring president, Mrs. J. N. Porter of Dallas was unanimously elected an honorary member for life of the legislative committee and was presented with a valuable gold pin.

"KIRNESS" THIS WEEK BY PRESBYTERIAN LADIES.

Something new in aid society affairs is the "kirness" to be given Friday and Saturday of this week by the Ladies Aid Society of the First Presbyterian Church in the basement of the Kemp and Kell building. There are to be various amusements, exhibits and sales at this affair and probably the best way to find out what a "kirness" is would be to go to the one this week and find out.

FIRST PROGRAM WICHITA FALLS C. OF M. AND A.

A large and appreciative audience were intelligent listeners last evening when the Wichita Falls College of Music and Art presented its first program at the Wichita Theatre for the benefit of the Cemetery Association. The musical numbers as well as the readings were artistic to a degree and well received by the audience as was evidenced by the hearty and prolonged applause. Miss Portune in the "Concert Etude" by Saint Saens and "Lina's 12th Rhapsodie," showed unusual technique and musical ability and was warmly received. Mrs. Edwards gave the Court scene from Henry the VIII, and the "Ode on the Passions" by Collins which brought out her remarkable interpretation and proved her past mistress of her art. Miss Ritchie's mezzo soprano voice of wonderful range, gave evidence of rare training and brought out to perfection its peculiar quality in her rendition of "O Mio Fernando" from La Favorita. As an encore she gave "My Laddie," which met with hearty applause. Mrs. Greenwood, easily the town favorite, played two violin solos, "The Adagio" by Ries and "Serenade" by Drlis in her usual graceful and charming manner. The Trio for piano, violin and cello, by Gade, a beautiful composition, was a masterpiece of ensemble as presented by Mrs. McKee, Mrs. Greenwood and Miss Portune. Those capable of judging are unqualified in their praise of the high quality of the program as a whole. The College of Music and Art has only been established two months with Mrs. McKee as director and has met with unparalleled success with the promise of a still brighter future. The faculty is composed of seven enthusiastic teachers—all artists in their respective lines and Mrs. McKee herself a musician of rare ability, educated in the best schools of this country and Europe and formerly a teacher in the Cincinnati Conserva-

tory of Music, is eminently fitted to direct so important a work. The college building opposite the High School will be completed December 1, which will relieve the tense situation of the present. More than one hundred pupils are being taught and many are enrolled who cannot receive instruction until the new quarters are equipped. Much praise is due those who are standing at the back of this new enterprise.

GRAY, R. G. FITZPATRICK, B. L. BROOKINS, R. THORPURN, FRANK GRIFIN, W. J. GRESHAM, R. G. SCRUGGS, MENDEL, BARREY OF ABLENE, M. A. BRIN, FRANK CULLINAN, ALLEN DARNELL, J. T. MOUNTGOMERY, E. P. WEDNESDAY BRIDGE CLUB WITH MRS. LUTHER WEBB.

The members of the Wednesday Bridge Club, together with a number of guests, played bridge with Mrs. Luther Webb at the home of Mrs. Elmer Filgo Wednesday evening. Mrs. Craven won the club favor, an embroidered dresser scarf, while the guests' favor went to Mrs. Marcus. It being an embroidered towel. A salad course was served by the hostess. The next meeting of the club will be with Mrs. Piner Avia. The following were present last Wednesday: Members, Mesdames E. L. Smith, Jack Blinford, R. C. Smith, Harrington, Cullinan, Piner Avia, T. B. Smith, D. J. White, Griffin, Leeb, Inge, Weeks, Craven, Miss Dent; guests, Mesdames Everett Jones, R. E. Sanders, Wade Hampton, Edgar Norton, Barry of Ablene, M. A. Marcus, Wallace of Dallas.

BAPTIST YOUNG LADIES JAPANESE TEA HOSTESSES.

The young ladies belonging to Mrs. J. L. Jackson's class in the Baptist Sunday school gave a Japanese tea Thursday at the home of Mrs. G. W. Filgo. The house was darkened, so as to show the effect of the Japanese lanterns, chrysanthemums and other Oriental decorations to the best advantage. Tea and wafers were served and from early in the afternoon

"WILD GOOSE DINNER" AT THE WILCOXSON HOME.

At their home, 1006 Indian avenue, Mr. and Mrs. D. A. Wilcoxson entertained last Sunday with a wild goose dinner, which was heartily enjoyed by Mr. and Mrs. W. A. Gressett, Mr. and Mrs. E. E. Pryn and children, Mr. Pringle, D. Shelton and Miss Grace Pryn of Mangum.

NEW CENTURY CLUB IN SESSION AT MRS. BARNARD'S.

Last week's meeting of the New Century Club was held at the home of Mrs. C. J. Barnard, where eleven members were present. With Mrs.

FORTY-TWO CLUB WITH MR. AND MRS. BULLINGTON.

Mr. and Mrs. Orville Bullington entertained the members of the Forty-Two Club Tuesday evening at their home in Floral Heights and a very pleasant session with the "hostess" was enjoyed by the following: Mr. and Mrs. R. E. Huff, Mr. and Mrs. C. Huff, Mr. and Mrs. J. L. Jackson, Mr. and Mrs. T. E. Noble, Mr. and Mrs. P. P. Langford, Mr. and Mrs. Mendel, Mr. and Mrs. T. T. Reese, Mr. and Mrs. C. W. Snider.

MEETING OF NEW CENTURY CLUB WITH MRS. ZUNDELOWITZ.

Mrs. A. Zundelwitz's hospitable home was the gathering place for the members of the Century Club this week, the study of the play "Othello" being continued. The roll call was answered with current events. Mrs. P. P. Langford read a paper entitled "Compare the Jealousy of Othello and Iago." The afternoon's lesson was on Act IV, Scene I, with Mrs. W. N. Meier as chairman and the club discussion was the possession of the play, the following topics being considered: "Jealousy As An Animal Instinct," "Jealousy as a Human Trait," "Jealousy As a Divine Attribute," "Jealousy in the Child," "Jealousy in the Adult." Cream and cake were served by the hostess. The next meeting of the New Century Club will be with Mrs. Kemp.

WALKER HOME IS SCENE OF PARTY ON TUESDAY.

Mrs. Wade Walker and Mrs. Will Shepperd were hostesses Tuesday to a large concourse of friends, the affair being one of the most pleasant of recent months. The honor guests were Mrs. Marchman of Dallas, Mrs. Satterwhite and Miss Belle Smith of Kentucky. Five hundred was the version and fifteen tables attested the popularity of the game. Mrs. Marchman and Mrs. Fred Weeks receiving the favors. Dainty refreshments were served at the conclusion of the games. Mrs. D. B. Walker and Mrs. Butler assisting the hostesses. The Walker home was decorated in chrysanthemums, presenting a tasteful autumn effect. The guest list included Mesdames Wiley Blair, C. B. Woods, A. Marcus, Eugene Sherrod, Fred Barron, J. W. Culbertson, A. B. Maples, M. A. Bundy, J. Townsend, Bruce Greenwood, M. D. Walker, San Scalling, J. A. Richolt, A. H. Carrigan, E. F. Greenwood, E. R. Goresline, J. C. Mytinger, Kleber White, M. Well, H. O. Craven, C. W. Butler, J. J. Dolman, George Keith, R. Robertson, C. H. Toney,

Japanese greetings by Misses Wilma Filgo and Anita Munroe were a novel feature until late at night, the house was thronged with visitors. There were several musical numbers, among them being a piano solo by Mrs. Arthur Huff, a vocal solo by Miss Della Stone, a solo by Miss Filgo, a Japanese love song by Jimmy Brown, a reading by Miss Sadie Boone, and a violin solo by Miss Bernice Jackson. In the evening, when the younger folks held forth, there were games of various kinds, including a mock wedding ceremony at which J. L. Jackson officiated in a finished manner. There were numerous other diversions, making the affair one of usual pleasure.

MR. AND MRS. C. E. BESSEY ENTERTAIN THEIR FRIENDS.

Mr. and Mrs. C. E. Bessey entertained very pleasantly a few intimate friends Wednesday evening. The house was replete with pink and white chrysanthemums and presented a very pretty appearance. Four tables of forty-two players found entertainment in that game. Mrs. D. Whitney won the ladies' favor, a hand-painted sandwich plate, while the gentlemen prize, a smoking set, went to Philip Kleinman. A delicious two course luncheon was served. The guest list included Mr. and Mrs. J. C. Bradshaw, Mr. and Mrs. D. Whitney, Mr. and Mrs. Garner, Mr. and Mrs. W. Jones, Miss Gertrude Scheurer, Messrs. Walter Garner, E. G. Hill and Philip Kleinman.

"WILD GOOSE DINNER" AT THE WILCOXSON HOME.

At their home, 1006 Indian avenue, Mr. and Mrs. D. A. Wilcoxson entertained last Sunday with a wild goose dinner, which was heartily enjoyed by Mr. and Mrs. W. A. Gressett, Mr. and Mrs. E. E. Pryn and children, Mr. Pringle, D. Shelton and Miss Grace Pryn of Mangum.

NEW CENTURY CLUB IN SESSION AT MRS. BARNARD'S.

Last week's meeting of the New Century Club was held at the home of Mrs. C. J. Barnard, where eleven members were present. With Mrs.

FORTY-TWO CLUB WITH MR. AND MRS. BULLINGTON.

Mr. and Mrs. Orville Bullington entertained the members of the Forty-Two Club Tuesday evening at their home in Floral Heights and a very pleasant session with the "hostess" was enjoyed by the following: Mr. and Mrs. R. E. Huff, Mr. and Mrs. C. Huff, Mr. and Mrs. J. L. Jackson, Mr. and Mrs. T. E. Noble, Mr. and Mrs. P. P. Langford, Mr. and Mrs. Mendel, Mr. and Mrs. T. T. Reese, Mr. and Mrs. C. W. Snider.

MEETING OF NEW CENTURY CLUB WITH MRS. ZUNDELOWITZ.

The "Helping Hand" of Electric Service

It is the General Electric Radiant Toaster. This Toaster was designed to make Perfect Toast for discriminating people—and it does.

When you eat Toast made on a General Electric Radiant Toaster you will quickly appreciate the big difference between Perfect Toast and the other kind. And you should recollect that Toast is very "versatile" food; it is the foundation for scores of the most deliciously toothsome viands.

Perfect Toast is therefore vitally essential. Aside from the quality of this Electric Toast, each slice only costs one-tenth of a cent. And there is a positive joy in making it, for there is something cozy and cheerful about the soft glow of the coils reflecting on the shining white porcelain base. The General Electric Radiant Toaster adds grace and charm to any table.

THE TEXAS LIGHT & POWER COMPANY

H 31

OPENING OF FREEPORT

New City of Texas, Wednesday, Nov. 20th, Causes Great Interest

FINE PORT CITY AT MOUTH OF BRAZOS RIVER WILL BE FORMALLY OPENED TO PUBLIC SALE

Rare Opportunities Open to Investors, Business People and Home-seekers—Arrangements for Excursion Should be Made Today

Next Wednesday, November 20th, the new city of Freeport at the mouth of the Brazos River will be formally opened to the public and lots will be placed on sale. There will be no auction sale of these lots and no competitive bidding. The same prices will be quoted to every one on any particular lot. Men of foresight consider the opening of this new city an event of unusual importance to Texas and the great Southwest, for its means a vast rich territory will here have an outlet to the world, an ideal harbor and a great port city where there will be no wharfage or dockage charges. It is worth any man's time to go on this excursion next Wednesday to Freeport and attend what will doubtless prove to be one of the most auspicious occasions in the history of Texas. The investment feature of the opening of this new port city is worthy the consideration of every conservative business man. In fact no such opportunity has ever before been placed before the public. Go to Freeport on the 20th.

How To Reach Freeport—The railroad fare to Velasco, with free transfer to Freeport on the opening day, November 20, will be a fare and one-third for the round trip from all Texas points, and will continue in force during the entire month of November. In case your Railroad Agent does not readily find the reduced rate, insist upon the ALL THE YEAR ROUND TOURIST RATE, which applies to Velasco, from all points, at one and one-third fare, with a ninety day limit. As the railroad is just building into Freeport, there may be many railroad offices which will not be able to locate Freeport as a railroad town. In this case purchase ticket to Velasco, Texas, from which point transfer arrangements, without expense to the passenger, will be provided at the opening date.

Houston R. R. Schedule

Houston will be the natural point of collection of passengers from all points and for the benefit of persons desiring to come to Freeport, the Houston & Brazos Valley have announced the following schedule for their trains—all leaving the Houston depot of the I. & G. N. Ry.: On November 19th and every evening thereafter trains leave Houston at 6:35 p. m., arrive Freeport, 9:35 p. m. A special train will leave Houston Wednesday morning, November 20th at 8:15 a. m., arrive Freeport 11:15 a. m., November 21st and 22nd, Thursday and Friday mornings, special trains will leave Houston at 6:09 a. m. and arrive Freeport 9:15 a. m. The Frisco connects with the Houston & Brazos Valley at Angleton and its trains leave Houston 8:00 a. m. daily, due Freeport 11:25 a. m.

Freeport Sugar Refining Co.

The daily newspapers have announced the organization of the Freeport Sugar Refining Company with capital of two million dollars, chartered under the laws of the State of Delaware, under date of November 1st. This is in prompt recognition of the great advantages of Freeport as a site for this important enterprise, and when erected it will be a most important factor in the port development.

Governor Enthusiastic

Governor O. B. Colquitt is in hearty sympathy with the plans outlined for the development of Freeport. Announcements of the plans have brought many inquiries from Northern manufacturers and others, offering cargoes just as soon as the wharves are ready to accept them.

A Safe Harbor

The Freeport Harbor is located on the west bank of the Brazos River, a short distance above the mouth, thus absolutely secure against the heaviest gulf storm. The security of this superb harbor is proven by the fact that during the gulf storm of 1909 vessels in the Brazos found no difficulty in riding the waves. Freeport is about 40 miles west of Galveston, 60 miles southwest of Houston, on the opposite side of the Brazos River from Velasco and somewhat nearer the gulf.

A Historic Spot

The mouth of the Brazos River is, historically, one of the most interesting spots in Texas. In fact, in early days this location was the seat of Texas government and first colonization.

Founded by Austin

Stephen F. Austin, who was truly the founder and father of Texas, chose the mouth of the Brazos, where Freeport is now being founded, as the most favorable spot upon the whole coast country. Even in that remote time he had an acute conception of the immense possibilities of this territory when the natural conditions of the harbor had been developed. Modern engineers, after a study of coast conditions, confirmed his conviction that truly deep water at Freeport could be more cheaply procured and more economically maintained than at any other point on the Texas coast. Austin came to this spot, then Mexican territory, in December, 1821, armed with a commission from Governor Martinez to locate colonists. The hardships led by these pioneers could hardly be conceived in the present day; however, they realized the great natural resources of the country and cast their lot in this section that was then inhabited by hostile tribes.

Soil is Rich

This sturdy band of pioneers cultivated the land and raised a crop, the first of a long series, upon the soil of the Brazos, which is among the richest and most lasting soils in the world. Without fertilization, it has through all the intervening years supported crops of marvelous abundance and will continue to do so until the end of time. What this important spot has been to the history of Texas is significant of what it is now to become to the industrial development of the state.

Oil Refineries Expected

The first industry to gain a foothold at Freeport was the Freeport and Mexican Fuel Oil Company, owners and operators in the Tampico district, just across the gulf from Freeport. The Tampico oil fields are considered the greatest yet discovered. Steaming directly across the gulf its storage tanks on the Brazos banks at Freeport receive the oil pumped direct from the vessel, thus every expense in handling is minimized and the company will eventually become a strong factor in the oil business, as it has untold millions of gallons to draw upon, produced at the lowest possible cost. A natural consequence of this will be the immense oil refineries at Freeport, as a market for all oil by-products lie within a radius of this important port, while as a distributing point for fuel oil its location is ideal.

A New Sugar Refinery Probable

The surrounding country commonly known as the "Sugar Bowl of Texas," makes Freeport the logical point for such an enterprise. The other sugar sections of Texas, as well as Louisiana, are within easy reach and the distribution features of Freeport will be entirely adequate.

A Lumber Center

Large yards for the distribution of coast lumber can profitably be located at Freeport. A great number of the largest lumber concerns in the North-west own their own schooners and can thus put lumber in Texas ports from the immense saw mills which are cutting the finest lumber in the world.

Cotton Exportation

One of the many features of all Southern ports is the exportation of bale cotton and Freeport would be a favorable port and secure its share of this enormous tonnage. This will require additional railroads, adequate warehouses and handling facilities, which are destined to become a part of the development of this coming city.

Free Sites

Sites for warehouses with suitable area and water frontage, will be donated to such institutions as can show that their business and tonnage entitle them to such concessions. Thus owning their own water front, they can erect and equip such special docks as are needed and be free from all dock and wharfage charges forever.

Panama Canal's Factor

The extremely liberal attitude of the owners will undoubtedly bring many manufacturers and shippers to Freeport, as the inducements offered are substantial. The opening of the Panama Canal will greatly augment the activity of all Texas coast towns and far-seeing concerns are already casting about for suitable locations.

Rich Sulphur Deposits

Perhaps the industry of greatest immediate importance to Freeport and the one which will yield largest tonnage at its commencement is the sulphur field at Bryan Heights, about two miles southwest of the town. These operations are controlled by the owners of the Freeport Townsite which will give employment to a great force of men.

The owners satisfied themselves that here was the richest sulphur deposit yet discovered in the world, and it is now proven that sulphur exists under 110 acres of the territory, with the total limits far from being determined. The depth of the overlay is 650 to 700 feet. At present the great sulphur deposits in Louisiana are probably the largest in the world and it now controls the sulphur trade of the United States, but experts predict that the sulphur fields a few miles distant from Freeport will be a strong factor in sulphur production.

This tremendous addition to the mineral resources of the state means a great deal to Freeport and the depth and extent of the sulphur mines point to the fact that scores of years will be consumed in extracting even the known areas.

Jetties and Channel

The jetties extend from either bank of the Brazos and project into the gulf approximately one mile, terminating in 21 to 24 feet of water. These jetties are maintained by the government and are designed to provide at least 18 feet of water over the bar and through the channel at mean low tide. The extension of the jetties to secure 25 feet of water is easily possible and 30 feet is the ultimate expectation of the owners of Freeport.

Freeport harbor is landlocked and is safe to a degree which has secured favorable comment from many captains who are familiar with it. As stated before, during the Galveston storm of 1906 ships in the Brazos rode safely.

Rail Facilities

The Freeport syndicate has acquired a controlling interest in the Houston & Brazos Valley railroad connecting at Ancher with the International and Great Northern, and at Angleton with the St. Louis, Brownsville and Mexico. The plans include the bringing of the Brazos and extension to Freeport as the terminal.

Direct Steamship Line

The Seaboard and Gulf Steamship Company is now operating a steamship line from its docks in the Freeport channel to New York. The inauguration of adequate passenger and freight service between Freeport and the Eastern seaboard and across the seas will be one of the first problems to be considered. There are now freight offerings far in excess of the capacity of the existing line.

Ideal Climate

The climate at Freeport is favorable at all seasons of the year. The winters are ideal and those unfamiliar with coast climate will be surprised to find how the southerly breezes temper the summer heat, producing a climate of wonderful softness and purity. The sweep of the winds over the gulf waters brings nothing but health and rest to the invalid and added vigor to the strong. The summer nights are rarely warm.

Government Improving Brazos

The government is now spending a big appropriation on the improvement of the Brazos from its mouth to Waco. This will afford navigation for vessels of light draft from Freeport to Waco, or over 400 miles of water distribution penetrating to the heart of the state. This will bring cotton to Freeport for export and take back inland freight, thus serving a region of great present prosperity and future growth.

Wonderful Agricultural Region

The Brazos valley and those of other rivers and creeks in this neighborhood are of wonderful richness. Here the alluvial deposits of countless ages have accumulated, giving a depth and richness of soil unsurpassed anywhere in the world on which crops of large variety are grown. The soil is a rich chocolate and black. Crops of 100 bushels of corn and two bales of cotton to the acre are common here and, while the Freeport syndicate has no land to offer, there are wonderful opportunities in Brazoria, Fort Bend, and Wharton counties.

Bathing, Fishing and Hunting

The Crescent, or old Surfside Beach, on the gulf at the mouth of the Brazos is an ideal and safe beach for bathing. The surf is rolling and it is perfectly safe for children, there being absolutely no undertow.

Magnificent sport can be had here at all seasons of the year. The bayous and lakes offer duck, geese, brant, quail and small waterfowl in great variety.

The fishing in either gulf rivers or creeks is ideal. Tarpon, the greatest of game fish, is plentiful. Huge Jew fish are sometimes caught, weighing up to 400 pounds, while edible varieties such as flounder, sheepshead, pompano, redfish, trout, etc., are very plentiful. In the fresh water lakes and streams black bass are numerous.

The man who prefers hunting game will find his delight in hunting deer and bear. The great forests of the river and creek bottoms have an abundance of game of this character.

Preliminary Development

Previous to the time when lots will first be offered for sale, the streets of Freeport will be graded, water mains and hydrants will be placed, some of the streets will be surfaced and curbed, guttered and supplied with cement sidewalks. A beautiful hotel of the seaside type of architecture is being erected and will be a comfortable home for guests. No lots will be sold in advance except to those who will contract to immediately improve on the plans to be submitted and approved.

Freeport Townsite

The certain and rapid development of Freeport will make this city take an early rank among all the Texas gulf ports and the owners will invite the public to share in the upbuilding of values by offering locations to business men and residents at very moderate valuations. There will be no auction sale and no competitive bidding. Prices will be the same to everyone on any particular lot and the first man to decide will get it at a price which will appeal to him as entirely reasonable. The business lots are 25x140, the residence lots are 50x140. The streets are wide with sidewalks of liberal width, and the whole town has been laid out after careful planning for a city of ultimate importance.

The terms of the sale will be one-third down and one-third in one year and one-third in two years, deferred notes payable on or before maturity interest at 6 per cent.

Title

The title to the Freeport lots is without a single flaw. The best land lawyers in Texas passed upon and perfected the title to the Town Site Company, justifying it in making an absolute warranty deed to all purchasers, and this form of conveyance will be used. The unquestionable responsibility back of this warranty safeguards and protects every transaction.

Freeport Townsite Co., Freeport, Texas

E. C. Hastings, Mgr. for S. M. Swenson & Sons and Associates

A Great Musical Event

A Great Musical Event.
The coming of the Dallas Symphony Orchestra to this city on Thursday night, November 21st will no doubt be the most important musical event of the season.

The orchestra is composed of forty-six musicians, each an adept artist in his individual instrument. The personnel of the organization is made up of leading musicians from largest cities of this country and many of them from the musical centers of Europe.

The director, Carl Venh, stands in the rank with the best directors in the entire country, and his services have been retained for the conducting of this organization through the liberality of many citizens of Dallas, who desire that Texas have the advantage of a musical organization of this nature that will be second to none.

Their popular concert given in Dallas last Sunday was attended by a record-breaking crowd for such attractions, and the tribute paid them

by the music lovers of Dallas, gives assurance that the concert is of the highest order, and that it is an unusual opportunity afforded the people of this city to hear this orchestra in our own city.

A special matinee will be given at 3:30 in the afternoon, at which time a special price of 35 cents will be the admission for all school children. The orchestra will appear under the auspices of the Y. M. C. A. and Y. W. C. A.

Hundreds of Thanksgiving Turkeys Packed Here Daily

Thanksgiving turkeys dressed for the roasting pan will cost Wichitans from 18 to 22 cents a pound according to the present prospect. In fact orders are now being taken by dealers at those figures for delivery on Thanksgiving day.

The Thanksgiving turkey movement has begun in "deadly" (the word has a literal meaning in this collection) earnest. From the small towns and the country for a radius of 300 miles around Wichita Falls live turkeys are moving toward Wichita Falls on foot, in farm wagons, and by express. From Wichita Falls these same turkeys dressed and picked in a few days will be aboard thundering express trains going to the big markets such as Denver, St. Louis and Chicago and will furnish the essential dish of the menu for family dinners hundreds and even thousands of miles distant.

Wichita Falls is probably the biggest center in Northwest Texas. The Hall Produce Company here is engaged in poultry packing on an extensive scale. Poultry "on the hoof" is being shipped into this company from nearly 250 buyers in small towns scattered from Woodward, Oklahoma, to Abilene, Texas, from Amarillo to Decatur, and from points along the Katy as far east as Whitesboro.

For the past several weeks the turkey receipts alone have been nearly two hundred head a day. In the past few days the receipts have jumped up by the hundreds and by the middle of this week be around

800 head daily. On their arrival here they are headed in screened enclosures and are killed and picked as rapidly as they can be handled. They are then placed in cold storage for cooling after which they are packed for shipment by express.

The force of chicken pickers will be increased to twenty or twenty-five hands this week, most of whom will be kept at work until the holidays.

The birds received up until a week ago have not been as well matured or as plump as those that usually come from this section but those arriving now are as plump as the most particular cook could desire.

Big turkeys are demanded by the Thanksgiving buyers, the bigger the better. This is because Thanksgiving is the time when effort is made to bring all the members of the family including cousins and uncles and aunts together at a reunion in which the Thanksgiving dinner is the crowning event of the day.

On Christmas the general demand is for smaller turkeys. This is because the Christmas dinners are usually confined to the members of the immediate family of the host and hostess. The "second crop" has therefore just reached the right size for the Christmas market.

Texas is the banner turkey State of the Union but statistics show the number of turkeys raised has decreased greatly within the past few years. Dealers say turkeys are less plentiful this year even than last.

plowed twice and kept clean with a hoe. The first ripe tomatoes were gathered July 10.

The yield totalled 160 gallons, selling at 15 cents per gallon or \$24 revenue from one-sixteenth of an acre. At this rate the total yield from one acre would bring \$384.

The following girls were entered in the tomato club contest: Vera Helm, Callie Priebe, Mable Priebe, Myrtice Williams, V. Lindsey, Bertha Schue, Myrtle Martin, Eunice Musgrave, Myrtle Parker, Nellie Friberg, Ruth Musgrave, L. Musgrave, Lou and Ola Rogers, Bessie Lee Wolf, Francis Smith, Elsie Gentry, Willie Holly, Dossie Smith, Dana Teafaltler, Viola Smith, Myrtle Hirsch, Ethel Sunday.

The boys entered in the corn club contest were: George Musgrave, Burgess Campbell, Claude Heath, Vergil Heath, J. Heath, M. Goen, J. Huffines, Swan Reeves, Raymond Williams, Luther Lester and D. L. Horton.

COUNTY ASKS CITY TO CO-OPERATE

The county commissioners are taking steps to put the approaches to the river bridge in good shape, and have asked the city to co-operate in making some permanent improvements there. It is proposed to pave the approaches in a manner similar to the Fourth street viaduct which would stand the wear and tear of the heavy traffic over the bridge.

The city is not financially ready to go into the work at this time, but will probably do so later. This improvement is badly needed, and the county commissioners feel that it should be done in a permanent way.

PRIZES FOR CORN AND TOMATOES

AWARDS MADE IN BOYS' CORN AND GIRLS' TOMATO CLUB CONTESTS

AT MEETING SATURDAY

An Archer County Youth Won Corn Prize—Archer County Girl also Took Tomato Prize

Raising forty-five bushels of corn on one acre, or about thirty-five bushels more than the average for this section, Burgess Campbell, an Archer county boy, won first prize for corn yield over a number of other contestants. The prizes were awarded yesterday at a meeting of the corn club boys and tomato club girls at the Chamber of Commerce.

Miss Bessie Lee Wolfe, a 10-year-old Archer county girl, won the prize for the largest yield of tomatoes.

The tomato clubs were much better represented than the corn clubs at the meeting and girls predominated very largely, making the few boys present somewhat ill at ease. There were several speeches, free dinner at local restaurants and a moving picture show.

Postmaster Bacon's \$10 prize for the best dozen ears of corn was won by Raymond Williams. Mr. Bacon addressed the young people, announcing he would make the same offer next year. He did it, he said, because he knew that it "took good corn to make good Bacon," his was a selfish motive, he declared, because he was so fond of roasting ears.

Others who addressed the boys and girls were District Judge Martin, County Judge Felder, Special Agent Campbell, District Agent Ganzer of Denton. All the talks were along lines calculated to encourage the embryo farmers.

The corn prizes were as follows:

Best yield—First prize of \$10 to Burgess Campbell, 45 bushels and seven pounds; second prize of \$7.50 to Monte Goen, 45 bushels; third prize of \$2.50 to Claude Heath, 38 bushels.

For Best Report—Split between Jewel and Virgil Heath, \$7.50. Sweepstakes prize for best yield and report—\$6.50 to Swan Reeves.

The report of Burgess Campbell, who won the prize for the largest yield shows that he broke the land on December 1 of last year, single listing it, and relisting early in January. On April 5, he planted, using the bloody butcher and yellow dent varieties, in rows 42 inches apart, with the drills 24 inches apart. He harrowed it once, plowed it four times and hoed it once.

The \$10 prize offered by Postmaster Bacon for the best dozen ears of corn raised in Wichita, Day or Archer counties, went to Raymond Williams, who submitted four ears, of the yellow, red and strawberry ears.

The tomato club prizes were as follows: Largest Yield—First prize of \$10 to Miss Bessie Lee Wolf of Mankin, Archer county, 1646 pounds on one sixteenth acre; second prize of \$5 to Miss Myrtle Williams; third prize of \$2.50 to Misses Lou and Ola Rogers.

Best Product—First prize of \$10 to Miss Myrtle Parker; second prize of \$5 to Miss Bertha Schulz; third prize of \$2.50 to Miss Myrtle Hirsch.

Best Report—First prize of \$5 to Miss Viola Smith; second prize of \$2.50 to Miss Ethel Sunday; third prize of \$1 to Miss Dossie Smith.

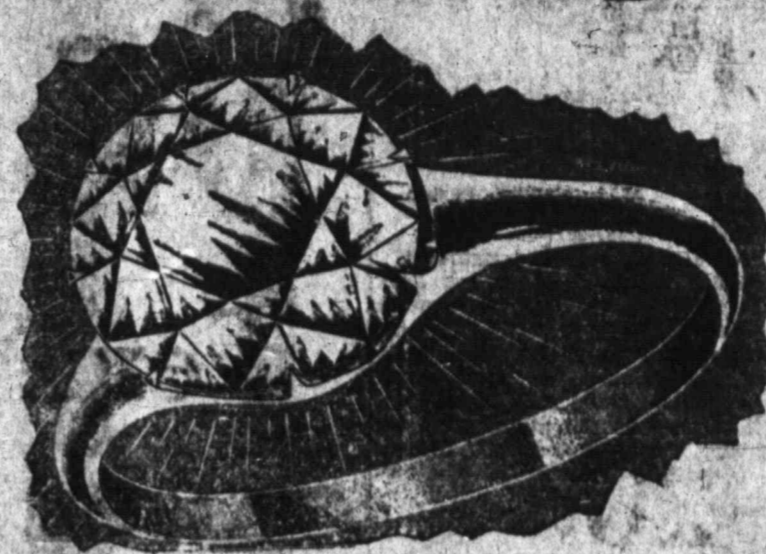

Sweepstakes for best yield, product and report—Miss Francis Smith.

Miss Bessie Lee Wolf, who won the prize for the largest yield is only ten years old. She submitted the following report of her work:

"The seed were planted February 16 in hot bed, were watered every other day. The ground was prepared in March, flat broke then harrowed, then bedded in two rows seven feet apart and 42 yards long, transplanted second week in April. Rty plants to the row; placed a tin can, both ends open, over each plant, to protect them until started to growing, then removed cans and pulled dirt to the plants.

Holiday Presents

Diamonds Watches Jewelry

If you are looking forward to purchasing a diamond for yourself, father, mother, sister or sweetheart, we can show you a display in gems that can hardly be equaled. We have them in all grades, from the smallest to the finest, and can save you from 25 per cent to 33 1-3 per cent upon every sale.

A Snappy Line of New Solid Gold and Filled Jewelry at Prices Much Lower Than Others

Watches

Among this unredeemed collections in watches are the finest railroad, gentleman's or ladies' either in solid gold or filled cases, with all the world's best makes in movements. We are now offering them at one-half factory cost. Even though you don't purchase, come see them.

Gold Jewelry

If there is any little trinket in the jewelry line that you want for a present or yourself it is here, no matter what it is. We have them in solid gold and gold filled. A great many of them are unredeemed pledges and we will sell them at small cost, as we believe in quick sales and small profits.

PROUD OF NATIVE COUNTRY

Visitor From Costa Rica Extols Conditions He Says Are Prevailing in That Country.

Baltimore.—"Though small and as yet in the infancy of its development, Costa Rica is thoroughly progressive," said Dr. Vincent Castro of San Jose, Costa Rica, who is perhaps the leading surgeon of that Central American republic. "Our present chief executive, Lic. don Ricardo Jimenez, is one of the ablest statesmen of this generation, a lawyer of profound attainments, and were he a resident of this powerful northern nation he would be esteemed worthy to hold the highest office in the gift of the people.

"At this time we choose our presidents for a four-year term in an indirect way, through electors chosen for that purpose, but two years from now we shall discard this system and all future presidents will be chosen by direct popular ballot.

"All male Costa Ricans of voting age are given the suffrage, the sole qualification being the ability to read and write. There is no rancor or bitterness in our election contests and the fact that it has been acquiesced

"The government, as I said before, is as stable as any of the big powers and its security has a firm basis in the enlightenment of the people. It owns and operates a railway from San Jose, the capital, to Puntarenas, on the Pacific ocean, which, contrary to most state-owned lines, is a financial success. Our monetary system is excellent, being on a gold basis. The unit of value is the colon, which rarely goes below 45 cents in United States money. A coin worth 90 cents, or two colons, is gold, the smaller coins being silver; and besides that, the banks issue paper currency that, being redeemable in gold, is always good. No notes are issued by our government.

"The coffee trade remains a heavy source of revenue. Besides these items, we have all kinds of precious minerals, including a number of good paying gold mines and virgin forests of mahogany and other ornamental woods, only a fraction of which has been cut for exportation.

"Outside of a few thousand blacks from Jamaica, who work for the banana company, and approximately 5,000 Guatusos—native Indians living in a remote district—the population of Costa Rica is of the original Spanish stock, the racial strain having kept its ancient purity. Ours is essentially a white man's country, as our people, with rare exceptions, decline intermarriage with those of inferior grade, and hence we have been able to evolve and maintain a creditable civilization. In proportion Costa Rica spends more for education than any of the Latin-American governments, our schools costing more than any other single item in the national budget. Education is compulsory and 95 per cent of the children receive free instruction in the primary and secondary schools."

In Beautiful Costa Rica.

cheerfully in the verdict of the polls. Our presidents have an extraordinary appointive power, and they show their magnanimity by naming their political enemies for some of the highest offices under the government.

CELEBRATES 100TH BIRTHDAY

Mrs. Samuel Sipe, of Carlisle, Pa., Attributes Her Long Life to Temperance in All Things.

Carlisle, Pa.—Entertaining friends and acquaintances here recently, Mrs. Samuel Sipe of Carlisle, a girl friend of "Molly Pitcher," the heroine of Monmouth, celebrated her one hundredth birthday. Mrs. Sipe was born in Switzerland October 5, 1812, and came to this country when she was six years old. She crossed the ocean in a sailing vessel, which took about six weeks to make the trip, landing in Philadelphia, where she lived one year before coming to Carlisle. Mrs. Sipe lived here ninety-three years ago.

"Retaining all her faculties with the exception of her sight, which is slowly failing, Mrs. Sipe today is in good health. She said she expected to live several years longer. When told that a few friends were coming to see her she exclaimed:

"What for? I'm no curiosity. I'm only an ordinary human being."

Mrs. Sipe attributes her long life and good health to temperance in all things, especially in eating.

Mrs. Sipe well remembers "Mollie Pitcher," has talked with her often, hearing her tell of the battle of Monmouth and the good treatment she received at the hands of the soldiers.

"It took us about a week to go from Philadelphia to Carlisle," said the centenarian, "as we travelled by stage coach, and the roads were not very good in those times."

The first railroad train which was operated by the Cumberland Valley railroad company, Mrs. Sipe witnessed much excitement in Carlisle, as the trial trip was made on July 4, 1837, the train making a trip of about two and a half miles.

RCH Has gained the nickname of "The gum shoe car" because it is so quiet.

AT THE CHURCHES

First Presbyterian Church.
(Corner Tenth and Travis)
Services for worship at 11:00 a. m. and 7:30 p. m. Reception of members before the morning service. Sunday school at 9:30 a. m. Christian Endeavor at 8:30 p. m. Mid-week service Wednesday at 7:30 p. m. Ladies Aid Society Monday at 8:00 p. m.
J. L. McKEE, Pastor.

Lutheran Church (Mo. Synod).
(Corner Eleventh and Holliday)
Sunday school (German and English) at 9:30 a. m. German morning services at 10:30 a. m. A special business meeting of the choir shall take place immediately after morning worship. There shall be no English services as the pastor must fill an appointment at Henriett. Every body cordially invited to our services.
C. M. BEYER, Pastor.

First Methodist Episcopal Church.
(Corner Seventh and Lamar)
Sunday school at 9:45 a. m. Morning worship at 11:00 a. m. Epworth League at 8:00 p. m. Evening worship at 7:30 p. m. Ladies Aid Society meeting Monday afternoon. Prayer-meeting Wednesday evening at 7:30.
JOSEPH E. COE, Pastor.

Christian Church.
Bible school at 9:30 a. m., W. J. Bullock, superintendent. Good teachers and classes for all ages. Juniors at 2 p. m., Mrs. J. W. Bond, leader. Y. P. S. C. E. meets at 8:30 p. m. Ladies Aid Monday afternoon. Prayer-meeting Wednesday at 7:30 p. m. Sunday morning at 10:45 the pastor, Y. P. Walters, sermon will be from John 15: "The Vine and the Branches." At 7:30 evening service he will give another sermon concerning the rise of the Bible, topic "The Hidden Book Revealed." A cordial invitation extended to members and friends to attend.

First M. E. Church, South.
(Corner Tenth and Lamar)
Preaching morning and evening at the usual hours by the pastor. Sunday school meets at 9:30 a. m. Epworth League convenes at 6:15 p. m.
JAS. W. HILL, Pastor.

Lutheran Trinity Church.
(Dallas Street)
Services at 10 a. m. Sunday school at 11:30 a. m. Luther League Wednesday at 7:30 p. m. A cordial welcome to all.
F. A. BRACHER, Pastor.

First Baptist Church.
(Corner Austin and Tenth)
The protracted meeting will begin Sunday at 11 a. m. Rev. J. H. Pace of Abson, Texas, will assist the pastor in the meeting. There will be a special service for men at 8 o'clock. The evening service at 7:30. Services through the week at 9:45 a. m. and 7:30 p. m. Sunday school at 9:30 a. m., W. L. Robertson, superintendent. B. Y. P. U. at 6:30, Burton Stuyton, president. Bible class at 8 o'clock, Mrs. J. B. Jones, leader. Juniors at 2:45, Mrs. P. E. Phillips, leader. Volunteers at 8:45, Mrs. T. M. Smyre, leader. Prayer-meeting for men and boys at 7 p. m., each week. A cordial invitation is extended to all. Baptists who have moved to the city and have not connected themselves with the church are urged to attend these services.

First Church Evangelical Association.
(Fifteenth and Broad)
Sunday school at 10 a. m. Gasman preaching at 11 a. m. English preaching at 7:30 p. m. Prayer-meeting Wednesday night at 8 o'clock. All are welcome to these services.
C. ERMEL, Pastor.

Church of the Good Shepherd.
Services will be held at the Church of the Good Shepherd Sunday at 11 o'clock. No evening services until announced.

Christian Science.
Services will be held in room 7 post-office building as follows: Lesson sermon Sunday at 11 a. m. Subject, "Mortals and Immortals." Sunday school at 9:45 a. m. Testimonial meeting Wednesday at 7:45 p. m. The reading room at same address is open Tuesday and Friday of each week from 2 to 5 p. m. Here authorized literature on Christian Science may be read or purchased. The public is cordially invited to attend the services and visit the reading room.

World's Greatest Catarrh Remedy.
Just breathe Booth's HYOMEI for five minutes and the penetrating, antiseptic air from the eucalyptus forests of Australia will soothe the sore catarrhal membrane and give wonderful relief.

Being such an efficient remedy; absolutely free from harmful drugs, Foosee & Lynch are willing at the maker's request, to guarantee HYOMEI for catarrh, croup, catarrhal deafness, coughs, colds, sore throat and bronchitis or money back. The little book in each package tells how simple it is to get rid of all these distressing diseases. Complete HYOMEI outfit including pocket inhaler, \$1.00; extra bottles 50 cents at dealers everywhere.

Pedestrians in Broadway, in the neighborhood of Canal street, saw a sign in the doorway of a loft building the other day that brought a smile to their faces and then gave them an opportunity to exercise their sense of humor. A manufacturer who wanted to engage the services of

\$1000

Would You Like Some Of This \$1000?

We will distribute \$1000 cash in prizes on December 26th. Getting a share of it isn't hard. You may be the one to capture a prize of \$100, if you'll try. We want women and girls to do their best on cake, candy and fudge, and to send in their specimens. Don't think for a minute that you can't bake good enough cake—or make good enough candy or fudge. You can. Go in and win. You have 80 chances in your favor. You will stand a fine chance of winning some extra Christmas money and at the same time help make the Christmas season brighter for the poor of New Orleans; for all cake, candy and fudge sent in will be distributed amongst the needy during Christmas week.

Distributed as follows:

FOR FUDGE	
1st prize	\$200.00
2nd prize	100.00
3rd prize	50.00
Next 5-10	25.00
22 of 25	100.00

FOR CANDY	
1st prize	\$200.00
2nd prize	100.00
3rd prize	50.00
Next 5-10	25.00
22 of 25	100.00

FOR CAKE	
1st prize	\$100.00
2nd prize	50.00
3rd prize	25.00
Next 5-10	10.00
22 of 25	100.00

VEIVA

is the very best syrup for making cakes, candies and fudge. Nothing can take its place because nothing is so good. Veiva is great on waffles, muffins and griddle cakes, and makes biscuits and fritters twice as good. All grocers sell Veiva with the RED LABEL. Ten cents up, according to size. Be sure to send for the free book of Veiva recipes. It may help you win.

CONDITIONS OF CONTEST

Any woman or girl can enter this contest except professional cake and candy makers.

All cakes, puddings, candies, etc., must have syrup on one of the ingredients.

Each contestant must submit a sample of candy or cake weighing not less than one-half pound and no more than one pound.

Any contestant may enter both cake, fudge and candy contests, submitting not less than one-half pound of each and be eligible to win a prize for each.

All samples must be received by us during the week beginning Dec. 25 and ending Dec. 31, 1912, when the contest closes at 5 P. M., and no sample will be accepted unless marked "Veiva Syrup Contest."

Each sample is to be accompanied by the name and address of the sender, a copy of the recipe used and the label from the can of syrup used in the recipe.

Contestants may use any recipe they wish. We strongly advise each contestant to write for the Veiva recipe book—it will surely prove helpful.

All samples submitted will be distributed among the poor of New Orleans just before Christmas.

Names of prize winners will be published shortly after prizes are awarded. Address all packages "Veiva Syrup Contest," care of Penick & Ford, Ltd., New Orleans, La.

Getting Ready for Another Horse and CLOTHES SHOW

Costly Furs Never So Beautiful

Hunter's Green Riding clothes this Year

Street ToGS for the Debutante who Rides

Pile Fabrics for Afternoon Wear

For the Evening Box Party

Extreme Effects in Millinery

IT is devoutly to be hoped that the weather this week in Manhattan will be snappy and cold; that the winds may blow out of the north, instead of from the soft south, where they so love to linger through the Indian Summer days, and bring from Jack Frost's land chilly enough temperature to make Horse Show furs bearable.

For, no matter what the weather, New York will wear furs at the Horse Show; this is the invariable rule—the mandate of fashion as unalterable as the laws of the Medes and Persians; that Horse Show week in Manhattan establishes the beginning of the fur season and whatever the weather's caprice, those that have furs prepare to wear them now.

One has only to glance into the furrier's windows to realize that black furs have had their day and the craze for colors not only in furs but in all fabrics, promises a Horse Show week of much greater interest and variety from the sartorial standpoint than has been the case in several seasons. Two years ago the predominance of black in the boxes gave the huge assemblage an actually funeral effect and at last year's Horse Show most of the women wore black and white or very dark tones of brown or taupe—in the afternoons at least, and furs were of the richly quiet sort, like sable, mink, pointed fox and skunk. All this is changed now, however and it is likely that the fashionable show at the Garden this week will be a veritable feast of color for the eye.

Leopard and Red Fox Fashionable Furs

With half the debutantes wearing leopard or red fox, and the other half wearing opossum, Australian chinchilla, blue fox or chinchilla squirrel, black furs will be almost absent, as far as the younger contingent are concerned, and even matrons now are favoring the warm tones of skunk, blue fox—which as everybody knows is of a lacy tan color, mink, fisher and fish. These brownish furs are much handsomer with velvet trimmings than the black pelts and even a black velvet suit looks richer with furs of chinchilla or skunk than with black fox, lynx or Persian lamb.

Most of the black fur coats have huge collars and cuffs of opossum skunk or the beautiful Australian chinchilla, even the handsome seal skin coats and wraps are usually lightened with a collar of contrasting fur.

Wondrous Wraps Ready For Evening Wear

Wraps are a feature of Horse Show dress. There is a well equipped cloak room near the entrance where wrap and furs may be checked if desired, but few women make use of it. The furs are invariably retained, and if

the afternoon is so warm that one must part with something, the coat is left in the dressing room, the handsome furs being retained over the gown. In the evening the carriage wrap is worn directly into the box and thrown over a chair behind the wearer. This is fortunate, from an artistic standpoint, for the furnishings of the boxes as the show are so bare and unsightly that the rich wraps lend a very kindly atmosphere of luxury, and cover up chairs that would be absurdly out of keeping with the rich costumes worn in the boxes.

When one steps out of a box for a visit to another box or for a saunter on the promenade, near the ring, her wrap is always donned. It is considered exceedingly bad form to move about in a gown in the Horse Show, and an uncovered evening gown is never seen on the promenade. The white ermine wrap illustrated is typical of the sumptuous fur garments worn at the Horse Show, even though the weather in its Indian Summer mid-June may render the weight and warmth of such a garment well nigh intolerable. This wrap has very simple lines and, like many of the new wraps, does not fall to the extreme edge of the gown beneath.

The shorter cut, together with the closely wrapped effect of the garment, reveals the foot and ankle plainly, when the soft folds of the skirt are lifted in crossing a corridor or stepping into a limousine. One feels that this is quite as it should be for usually the footwear that accompanies the evening costume is far too pretty to be hidden. The most adorable little boots of satin, matching the gown, and having buttons of amber or faceted glass, are revealed by the lifted skirt; sometimes the French heels as well as the buttons sparkling in diamond effect.

The beautiful white ermine coat pictured is trimmed with big cord frogs, and this is also indicative of a style note of the autumn. Everything is loaded with cord, braid and nomenclature, trimmings, and even the fur garments are trimmed with tassels and cord ornaments, as they were thirty or forty years ago. There are new mink muffs and neckpieces with brown silk tassels that are remarkably like some of the old fashioned fur garments that one comes across in collections of cloths of a generation ago.

Tailored Wear For the Afternoon

This craze for braid trimming is noticeable also on the new tailored wear. Even velvet suits have edges bound with braid and broadcloth and serge costumes are loaded with expensive braid trimmings. Such trimming gives a very dressy suggestion to the simplest suit, but simple suits

are not the fashion now for anything except morning wear, and at the Horse Show elaborate costumes rather than simple ones are affected. That velvet tailleur will be the rule in the afternoon is proved by the large numbers of velvet costumes turned out by the tailors for Horse Show week. These velvet tailleur makes are in most cases so fancifully cut and trimmed that they suggest pretty frocks rather than coat and skirt suits and indeed the costume, rather than the coat skirt suit, is just now the grand chic.

A suit of hunters green velvet illustrates this costume versus suit idea, for though including a coat and separate skirt of velvet, the costume suggests a handsome one piece gown in its general lines and its mode of trimming. No blouse is visible, the coat closing at the throat and a transparent stock collar of net which shows within the Hoberapire collar of the coat, being the only suggestion of a gump or blouse beneath.

This velvet suit is one of the most beautiful and authoritative models of the new season. It is made of a rich shade of hunter's green velvet and is from Redfern, noted for modish and conservative creations. The skirt is slightly draped at the sides and falls in most graceful folds to the floor, covering all but the pointed toe of a buttoned gaiter boot or patent leather and dark green cloth. The coat opens in a novel manner, a bit of the velvet, edged along the upper center front fastening of the coat and giving a straight line across the bust. This line of braid trimming, together with the braid on the center front and the braid edging the rounded collar, centers the trimming interest on the upper part of the coat front, leaving the lower part of the coat with its smart cantaway lines, to melt into the lines of the draped skirt. The sleeves are very long and have cross buttons almost to the elbow up the outer side.

Several knowing small touches make this velvet costume smart and

modern for afternoon wear; the very high, transparent stock of net for one, the gloves of pale buff kid rather than clear white, for another; the earrings of seed pearls with emerald pendants, the lognette chain of cold and pearls which shows up well against the dark velvet coat, and the beautiful hat in gold and faint pink tones which harmonizes exquisitely with the rich hunter's green velvet of the costume. All these little touches are carefully considered of course, and they make up the perfect and correct tout ensemble of the well dressed New York woman.

What the Debutantes Wear

Velvet is worn this year by young and old alike—and by rich and poor alike, one concludes after a tour of the ready made emporiums from Fourteenth street to the exclusive shops on upper Fifth avenue. Brown and navy blue velvet are especially favored by the young woman and the Horse Show maid is apt to wear a Jaehing suit of brown or blue velvet half covered by enormous furs, of leopard or the vivid red fox which is just now the craze; and she will also be apt to wear a big, bonny yellow chrysanthemum, the Horse Show flower, tucked against the soft fur of her neckpiece. The debutante's velvet afternoon costume is not as long as her mama's though its skirt may show a bit of drapery just by way of being completely in the mode. With the stunning suit will be worn equally smart boots of patent leather with buttoned tops of kid or cloth—the kid tops being now the favorite style.

After the afternoon session of the show everybody repairs to a favorite restaurant for tea, and it is as much as one's life is worth to get into a fashionable tea room at this hour. All the big hotels and restaurants have special Horse Show decorations and menus and when the tea room has been filled to the brim a velvet cord is stretched across the entrance and one may peer into the softly lighted place, with its yellow chrysanthemums, yellow shaded lamps, little horses and stirrups set forth on

a favor table, and its throng of richly dressed folk enjoying tea and music, and discussing the events of the afternoon at the Garden. A typical Horse Show debutante is pictured in the young girl in the extreme and striking hat. Just such hats are the fad for this great clothes show in November, just such pretty faces are shown, alight with interest when they are young—in the events taking place in the ring, and in the crowds of sightseers on the promenade. The pretty debutante sits back, high and exclusive above the throng in her private box; her rich wrap is thrown back, and while her attitude has all the quiet poise and dignity of perfect breeding, her eyes are alight with interest and pleasure in the events of the afternoon.

The Debutante Who Rides

Not all the pretty women sit quietly in the boxes. Some of them are to be seen on the tanbark, riding their favorite mounts and keenly desirous of winning the coveted blue ribbons. These young riders are always a most interesting sight, and they win a great deal of applause, not only from the boxes, where sit their relatives and friends, but from the tiers and galleries above also.

Two costumes for the young girl who rides are illustrated. One shows the riding habit, and the other the smart paddock coat worn over the riding togs through the street, or in the limousine which usually brings the young rider to the Horse Show. In the evening only black riding clothes are permissible, and the black broadcloth habit must be accompanied by a high silk hat, black boots and white gloves, but at the afternoon sessions more latitude is allowed, although cross saddle riding is not permitted at this formal event. The riding habit pictured is of very dark green corduroy with a sidesaddle skirt draped up for walking and a well cut coat opening over a silk riding shirt and stock. The derby is of black beaver and the habit is accompanied by boots of tan leather and cream dogskin gloves.

The paddock coat has a very smart bell cut and accompanies a checked sidesaddle coat and skirt, black boots and black beaver sailor hat.

Thanksgiving Feasts And Favors

ALL sorts of fascinating favors are ready to give the true Thanksgiving flavor to repasts that may or may not possess the genuine Thanksgiving spirit and traditional good things to eat. Most dinners on the great day, however, keep very closely to the old fashioned menu of turkey, cranberry sauce and pumpkin pie, made a sacred tradition in American families by the memories of Puritan great grandfathers, and if these simple edibles are enlarged upon by grape fruits, oyster cocktails, Parisian entrees, meringued desserts, ice cream and demi tasse coffee, they form at least the main attraction—the raison d'etre, one might say—of the Thanksgiving repast.

Of all the new favors the turkey place cards to be balanced on the amusing—if one has a sense of humor. What one's stern and upright New England great grandfather would have said of a frivolous turkey place card at his board on the day of praise and prayer for mercies past—it is hard to imagine, but the modern Thanksgiving dinner table will have plenty of gay place cards and doubtless plenty of glasses—for cocktails and other beverages calculated to increase the spirit of Thanksgiving; and there will be, besides, yellow ribbon bows, yellow pumpkins and other reasonable and significant decorations.

A modern Thanksgiving dinner table is a picture, a dinner table set forth correctly and perfectly with finest napery and glistening glassware, each place having its approved quota of silver, with forks, spoons and knives for the various courses, including all the Parisian entrees and endings of a latter day Thanksgiving feast as well as the noble bird and his trimmings that have dignified Thanksgiving tables in American homes from the days of the pilgrims.

At two corners of the table are tall comports for salted almonds and bonbons—golden yellow, of course, to match the yellow chrysanthemums in the center. On each folded napkin is a crusty roll to be eaten with the soup and the four glasses with their slender, graceful stems, are for le-water, for claret, for champagne and for the light wine served with the

soup. Cocktails are usually served from a tray in the drawing room before dinner, and cordials are passed in tiny liquor glasses with the coffee after the repast.

Nothing goes on the table but the place silver and glassware and the handsome plate which is changed frequently during the meal and upon which the smaller plates for soup, entrees and dessert are placed. At a well served dinner one is not supposed to see the cloth directly under one's nose all during dinner, a beautiful plate always being in front of one. Some of these plates are worth a hundred dollars a dozen or more and are well worth looking at between courses. In the center of the table are the flowers, and the small dishes or comports containing sweets, salted nuts and the like. All the rest of the dinner is served from the sideboard, though on Thanksgiving day a special dispensation permits the roasted turkey to appear before the host, and he helps each guest in person, though the bird may have been carved up previously in the kitchen or partially carved so that the head of the house need put to no necessity of strenuous endeavor.

There are appropriately decorated favors for every stage of the dinner, beginning with the aforementioned turkey place cards which balance blithely on the cocktail glasses at the beginning of the meal. These place cards are made of celluloid or card board and there are other turkeys made of metal which strut on the tablecloth in front of the guest. Turkeys containing surprises are another novelty—in fact surprise favors of all sorts are now the fad and the attractively decorated turkey, pumpkin or card board box at one's plate may contain anything from a funny motto to a seed pearl scarfpin or brooch.

Notice

The young ladies of the Philaetha Class of the First-M. E. Church Sunday school, will give a benefit social Friday evening, November 15th at the home of H. J. Bachman, 1410 11th street. All invited, especially the friends of the church and Sunday school. A musical program has been provided and refreshments will be served.

ATTRACTION OF THE TYROL

Towering Mountain Peaks Continue to Challenge Man to Attempt Their Conquest.

London, England.—The Tyrol, that rugged land of mountain warfare, has lost much of its lust for battle. But far above its vine-clad valleys and crag-capped castles, hoary with grim memories of hurrying slaughter, there rises a region of embattled spires where the joy of victory may yet be tasted. The battle is not with snakes and their legions, but with those solemn sentinels of the silence, the towering peaks of the Dolomites.

These rocky giants, says George D. Abraham in the Strand Magazine, with their defenses of gloomy precipices, icy slope and storm-swept ridges, still challenge man to the fray. Health and strength are some of the rewards they offer if approached with due prudence and skillful assault. Otherwise they may take a relentless revenge.

Of all these wonderful mountains undoubtedly by far the most attractive for attack are the central towers that cluster around Marmolata, the snow-

Corner of the Tyrol.

crowned king of the Dolomites. Of these the Grohmannspitze, the Funfingerspitze and the Langkofel are the most impressive. Well may they be called "the three Graces," for truly they grace the head of that most beautiful Tyrolean valley, the Fassathal.

Moreover, the Grohmannspitze, as Faith, upholds the simile well, for the man who climbs its shattered face trusts more to faith than to secure abiding places for hand or foot. "Hope springs eternal" with the climber of the Funfingerspitze, to Englishmen the best known and most famous of the Dolomites, for however steep and threatening its beetling cliffs, the rocks are firm and trustworthy.

As to Langkofelspitze, charity is mainly required; only the guides know the most engrossing route of ascent, and the reward they ask is as high as the peak itself. And in this case the greatest of these is not charity, but hope; in other words, the Funfingerspitze is the best of the three to climb. There are few to equal it in all the Alps.

AFTER SEA ELEPHANT HERD

Animals, Said to Be Ten in Number, Have a Reported Value of \$5,000 Each.

San Diego, Cal.—The power schooner Flyer, owned by C. B. Linton, is on a cruise which has for its purpose the capture of the only herd of sea elephants known to be in existence. There are said to be ten sea elephants in the herd. They have a value of about \$5,000 each and rendezvous on an island believed to be about 300 miles south of San Diego.

The expedition was organized, so it was announced, for the purpose of exploring the uninhabited portion of the coast of Lower California, the west coast of Mexico and the islands along the coast as far as Cedros island.

Provisions and fuel for a four-months' trip were taken and in addition the craft carried a full equipment of arms, traps and other material necessary for the capture or killing of such specimens of animal and bird life as may be encountered. These will be turned over to the Exposition Park museum at Los Angeles, but the one great prize which the party seeks to get is the \$50,000 herd of sea elephants.

The existence of the sea elephants was discovered by a party of government scientists aboard the Albatross early last year. At that time two of the sea elephants were killed and five captured alive.

The government scientists when here would not give out any information as to the island where the remaining ten sea elephants of the herd were left, but it is said on good authority that Captain Linton and his party had secured this information, and as a result the present expedition was organized. George H. Child is in command of the Flyer. The other members of the party are George H. Willett, an ornithologist; H. N. Lowe, marine scientist; William McCluskey, of the state museum at Los Angeles; Ralph Johnson, Edward Bellinger, Paul McHenry and C. B. Linton.

Dog-Snatching Syndicate.

New York.—A dog-snatching syndicate, whose members make money by collecting rewards for lost canines, has been unmasked by the police.

A resolution passed by the Massachusetts State Federation of Labor demands that the legislature pass a

A BIG BANK VAULT

How Its Doors Were Opened by a Message From the Sea.

THE MAGIC OF AN AEROGRAM.

A Dilemma From Which a Great Financial Institution Extricated Itself in Double-Quick Time by a Rapid Exchange of Wireless Dispatches.

To the ordinary man, too busy or too indifferent to better his head by scientific matters, wireless telegraphy is somewhat of a mystery. In a general way he knows that by its messages are flashed through the air over oceans and mountains, but he does not realize to what an extent and in what varied roles the aerial magic plays its parts in daily life. In "The Wireless Man," the author, Frank A. Collins, narrates an instance in which an aérogram averted a possible financial mishap. He writes:

"A secret, even a very big one, may be entrusted to the wireless man and flung halfway across the Atlantic with complete safety. There was the case, for instance, of the president of a great New York bank who sailed for Europe without leaving the combination of the locks of the vaults. As a rule, the combination is a single word, and the secret is known only to two of these. In this case, by an oversight, there was no one left ashore who knew the key. The money and securities of the bank were very safely locked away, and hours of work would be required to force the locks of the safe deposit vaults.

The bank president's steamer had sailed at 6 o'clock of a summer's morning to catch a favorable tide, and when the bank's officials tried to open the vaults at about 9 o'clock the steamer carrying the secret was upward of two hours at sea. A hasty examination showed that there was but one way to open the vaults, short of breaking into them, and that was by getting the code from the president, serenely unconscious of the troubles ashore. To delay opening the vaults would, of course, be a very serious matter. If the piles of money were not ready behind the barred window promptly at 10 the fact would be known within a few minutes throughout the financial section. A serious run on a bank has been started for a less cause.

In the old days, before the cable, the secret could not have been gained in less than two or three weeks at sea, or until a message had reached the president by mail and returned across the Atlantic. The cable alone would have cut the delay in two by catching the traveler on his arrival on the other side. Meanwhile the bank officials, hastily summoned to a conference, had acted quickly. The wireless station had been notified, and a message explaining the situation was flashed from the top of a high building in New York and from the Sea Gate and Nantuxet stations. All this was the work of less than ten minutes.

Now the combination word used to lock up these millions in gold, currency and securities is, of course, not a piece of information to be flashed broadcast along the Atlantic coast. It would be known to scores of people, even if the stations receiving guarded the secret with the utmost care. The officials therefore impressed upon the president the importance of sending his message in the private code used by the bank in its important cables. As the hour for opening the bank approached the officials waited with an impatience which may be imagined. The wireless message was handed to the bank president, as he sat at breakfast well out to sea. It was now exactly 9:16. There was a sudden "a-caw" at that particular table. After one glance at the aérogram the president, realising the situation to the last detail, rushed quickly for his stationer to search for his code book. A few moments later a dignified elderly gentleman rushed into the wireless booth, demanding at any cost that his message be given the right of way. He got it.

"An aérogram expressed in an unmistakable cipher was soon being flashed with the full power of the apparatus. The wireless stations along the coast had been ordered to expedite the message in every way and were waiting anxiously for it. It was read by two stations on the Long Island coast and repeated hurriedly to New York. A few minutes later the clerk at the telephone in the bank was carefully writing out the strange jumble of letters and transmitting them into intelligible English. The clock pointed to twenty minutes to 10, the bank's opening hour, when the great steel doors swung noiselessly open on its treasures and the day was saved."

He Was Precise.

"The truth, the whole truth and nothing but the truth," is the motto of police witnesses at Ystrad.

"Did you see him coming through the door?" asked a solicitor in court. "No, sir, through the doorway," answered the police precision in the box.—London Globe.

Very Conservative.

Talor—You have inherited a lot of money. Why don't you settle my bill? Owens—My dear man, I wouldn't have it said for anything that my newly acquired wealth caused any departure from my simple habits.—Boston Transcript.

Most of our misfortunes are more appreciable than the comments of our fellows upon them.—A. Dumas.

Bill calling for a Saturday half-day without loss of pay the year round for all laborers and mechanics in the employ of the commonwealth.

ANSWER IT HONESTLY. Are the Statements of Wichita Falls Citizens Not More Reliable Than Those of Strangers? This is a vital question. It is frankly with interest to Wichita Falls. It permits of only one answer. It cannot be evaded or ignored. A Wichita Falls citizen speaks here. Speaks for the welfare of Wichita Falls. A citizen's statement is reliable. An utter stranger's doubtful. Home proof is the best proof.

H. T. Cummings, 109 Burnett St., Wichita Falls, Texas, says: "I can still highly recommend Doan's Kidney Pills for whenever I have occasion to use them excellent results follow. You are at liberty to continue using my previous endorsement of this preparation." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other. (Adv.)

HOME MISSION SOCIETY OF FIRST M. E. CHURCH, SOUTH, Circle No. 4 of the Home Missionary Society of the M. E. Church, South, will meet at Mrs. T. R. Boone's in Floral Heights Monday afternoon at 3 o'clock. The following program will be rendered: Devotional—Led by Mrs. Niles. China—Religious Situation by Mrs. Baker. China—Political Situation—Mrs. Kearby. Pray briefly for: 1. Our Missionaries in these two fields—Mrs. Nolan.

2. Prosecuted Christians—Mrs. Scallan. 3. The Chinese Women and Girls Still in Darkness—Mrs. Staples. 4. Oriental Schools—Mrs. Waggoner. 5. Our Hospitals—Mrs. Googer. Discuss the Missionary Work in China or the More Effective Way of Establishing the Kingdom of God on Earth—Mrs. Silk. All members are urged to be present.

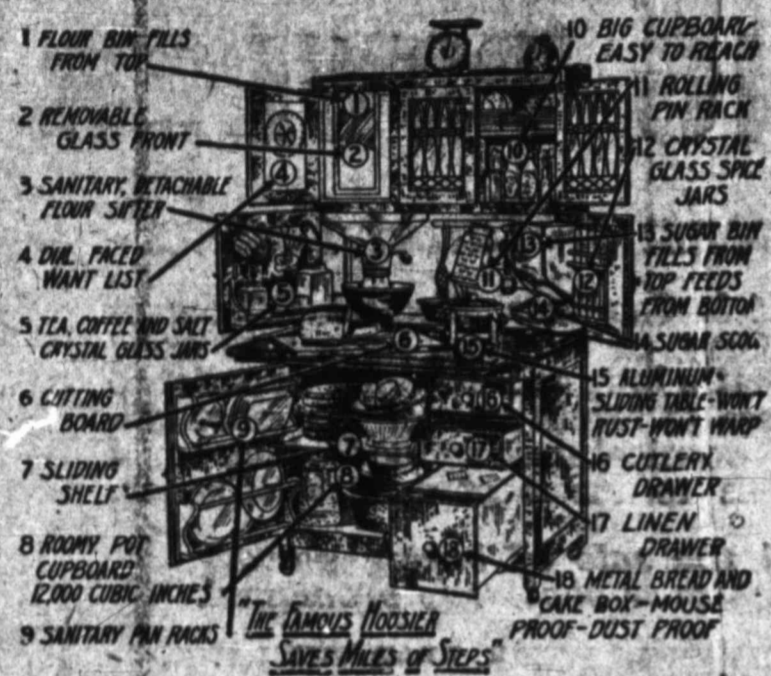

The fishermen in some parts of Portugal make material increases in the amount of their catch by the use of luminous bait. This is done by a fluid secured from the body of a fish which is quite plentiful in the waters of that country, while it is quite rare in other parts of the world. The fluid is spread in a piece of meat bait and the effect of the application may be observed at once. The luminosity increases as the bait is placed in the water, and the attention of the fish is attracted to it at once.

Texas-Oklahoma Notes Gleaned From Our Exchanges

Judge J. D. Bird, A. G. Powell, Max Tempel, S. G. Alexander, B. F. Shepherd, W. F. Cunningham, L. H. Humphries and Mrs. Houghton are among the applicants for the post-office at Memphis.

Stock is being subscribed for the building of another gin at Burk Burnett to be ready for next season's crop. There are already two gins there but they have had more than they could conveniently handle this season.

Incorporation and the extension of the city limits beyond the original townsite is being discussed by the citizens of that place. A committee has been appointed to make a report on the boundary lines of the proposed corporation and to employ an attorney to take the proper steps to secure incorporation.

The boiler in the Indianola gin at Hedrick, Oklahoma, exploded last week wrecking the gin and killing a man named Hamilton. A son of the man killed was so seriously injured that he may not recover. The boiler and part of the woodwork of the gin was found 300 yards from the scene of the explosion.

A. Mosely, who operates a big farm near Quanah has threshed his fifty-second car of milk maize and isn't done yet. So much of the fodder was piled up on his place that he has had to burn part to get rid of it.

Ardmore is feeling good over its latest gas well. It was brought in by the Ardmore City Gas Company and is said to be good for five million feet daily. This is a miniature well compared with some of those at Petrolia but will furnish an abundant supply for Ardmore.

Hundreds of turks were marketed at Quanah last week. The price has been around twelve cents a pound "on the hoof."

Buy your coal now is the advice being given by a good many Panhandle papers to their readers. When the pipe line goes up the Denver from the Petrolia gas field the coal business is likely to take a slump.

The Iowa Park Herald says there will be no trouble in filling the Iowa Park postoffice with a good demarcant. There are about ten applicants for the job.

The road between Wichita Falls and Iowa Park has been resealed with gasoline and for the past week from automobiles carrying oil men out to try to get leases in the vicinity of the Staples well.

The Denison Herald says the matter of a new bridge across Red River at that point is right squarely up to the people of that city. The "Kemps and Kells" of that thriving little city have come across handsomely but the amount subscribed is considerably short of the sum required to build the bridge. Dealson wants to take the Meridian road from Wichita Falls and run it across Red River on the proposed new bridge there. Besides the Meridian road a new inter-urban into Oklahoma and several other projects are waiting on the bridge.

Nearly \$2,000 in stock for a fair association was subscribed at Vernon Tuesday in less than an hour. It is proposed to capitalize the association at \$20,000. It is felt certain the stock will be fully subscribed.

Yard cotton receipts at Vernon have passed the 10,000 mark. The Vernon Record estimates the crop in Wilbarger county at between 28,000 and 30,000 bales.

The Dallas Symphony Orchestra will be the chief attraction at Electra on Sales and Trades Day there November 15. Merchants of Electra will give sixty-two prizes for farm products on the occasion.

The Horace K. Turner art exhibit will be at Bowie November 20 to 23, under the auspices of the high school of that place. The exhibit embraces over 200 reproductions of the world's masterpieces.

The Grandfield-Enterpriser laments that the hand-tilde found it without proper emblems to decorate the front page. It is already arranging to celebrate the next victory with appropriate ecstasy.

New Rector of Episcopal Church a Versatile Man

Poet, newspaperman, lecturer, author, scholar and rector—that seems a pretty big load for one man to carry, and it might be too big a load if the man in question were one of ordinary calibre, but apparently he is proving equal to the task.

It is Rev. Chester Wood, the new rector of the Church of the Good Shepherd of this city, that this description fits. Mr. Wood arrived Friday and will conduct his first services in Wichita Falls this morning at 11 o'clock. It is his first visit to the South and to him it seems like a long way from home; not as long though, as if his welcome had been less genuine or his reception here less hearty.

Mr. Wood is a Michigander. He occupied a pulpit at Battle Creek before he was assistant rector at the famous "little church around the corner" in New York City, and he was back in Michigan before he accepted the call to duty down here in the Southwest.

While Mr. Wood's work in the ranks of the Episcopal ministry has met with marked success, he is also well known as a writer and lecturer. He has written a number of short stories and poems and has been of the lecture platform for some time. Among his best known lectures are "A New Man in a New World" and "The Direction of Desire."

In his earlier days he was a newspaperman, but throughout his writing career he never lost sight of his purpose to enter the ministry. He entered the Theological Seminary in New York City, where he received his ministerial training and since his graduation there has occupied pulpits in Battle Creek, Detroit and New York City.

Although his duties as rector will probably keep him very busy, Mr. Wood has not quit the writing game and it is not likely that he will do so here. Among his well known poems is "The Hermit Thrush" which is here reproduced: "Listen! like melody that nightingales in groves of the old world for years have made, The thrush's song floats in the deepening shade, As into gray the sunset crimson pales. Ah! wonderful as sound of fairy tales it comes to me, out in this little glade; So beautiful all speech it does evade."

and for comparing all around me for not in tone of bells or pipes or strings, Nor carols clear of other kindred birds; Not in the purr or fall of sparkling streams, Nor in the realm of all the wildwood things; Nor is it found in music wed with words, but only in the harmony of dreams."

The Church of the Good Shepherd has been without a rector for some months, but with the arrival Wood the members look forward to a period of activity that will make up for last time, and they feel that the new rector is a man eminently well qualified to lead them.

DR. PRICES' CREAM BAKING POWDER

A Pure Cream of Tartar Powder

Dr. Wm. Sedgwick Saunders, Medical Officer of Health of the City of London, Eng., was good enough to say that a long and universal experience has proved a cream of tartar powder the most efficient, safe and economical, making food which could not be deleterious to the most delicate stomach.

In England the sale of baking powder containing alum is absolutely prohibited.

WHEN BUYING BAKING POWDER, READ THE LABEL.

Acreege Near Town

Will become very valuable some day with the growth of Wichita Falls. We can sell you the cheapest acreage around Wichita Falls in blocks of 2 1/2 acres each for \$300, and on monthly installments. Think of it—the same as fourteen city lots for less than \$25.00 a lot if the same land was divided into lots. This land can be irrigated and makes an ideal place to work in town and supply your own table by raising chickens, a garden, orchard and keeping a cow. Many others are doing the same at Southside Acres where we are selling acreage tracts at less than any acreage the same distance from the heart of the town can be bought.

Southside Acres is 1 3/4 miles east of Postoffice and adjoins the City of Wichita Falls on the southeast corner.

More than half of the Addition has been sold and the remaining tracts are going fast. Let us drive you out while you can get choice locations.

PRESIDENT TAFT SINGS SWAN SONG (Continued From Page One)

would aid the efficiency of the executive and center his energy and attention and that of his subordinates in the latter part of his administration upon what is purely disinterested public service if he would made intelligible after serving one term of six years, either to a succeeding or non-succeeding term.

"I am specific in this matter because it seems necessary to be so in order to be understood. I don't care how unambitious or modest a president is, I don't care how determined he is that he himself will not secure his re-nomination, still his subordinates equally interested with him in his re-election, will, whenever they have the opportunity, divide their time between the public service and the effort to secure their chief's nomination and re-election.

"Four years is rather a short time in which to work out great governmental policies. Six years is better."

Abruptly taking up the question of bringing the executive and legislative branches closer together, the President thought it wise to give each department head a seat in the Senate and House with the right to enter into discussions of proposed legislation in either branch of the National Legislative bodies. This, he said, would keep Congress much better informed as to actual conditions in the executive departments.

"I see that our friend, Mr. Bryan, proposes another method of disposing of our ex-presidents. Mr. Bryan has not exactly the experience of being a president. He has been a 'near-president' three times and possibly that qualifies him as an expert.

"He has been very vigorous in this campaign in helping to make me an ex-president, and if I have followed with accuracy his public declarations and his private opinions, he is anxious to perform the office of making my successor an ex-president after one term. As a Warwick, and as a maker of ex-presidents, I think we should give great and respectful consideration to his suggestion. Instead of ending the presidential life by chloroform, Mr. Bryan proposes that it should expire under the anesthetic effect of the debate of the Senate. He proposes that ex-presidents should be confined to business of sitting in the Senate and listening to the discussions in that body.

"Why, Mr. Bryan should think it necessary to add to the discussion in the Senate the incubation of ex-presidents I am at loss to say. If I must go and disappear into oblivion, I prefer to go by the chloroform or lotus method. It's quicker.

"What are we to do with our ex-presidents? I am sure Dr. Oiler's method of dealing with elderly men would not properly apply to the method of dealing with ex-presidents. The proper and scientific administration of our ex-presidents should be sitting end to the life of one who has held the highest office, and at the

LEGAL NOTICES, NOTICE

Notice is hereby given to all persons that during the next regular session of the Legislature of the State of Texas, which is to convene at Austin, Texas, on the 14th day of January, 1913, the undersigned railway and railroad companies will apply for and request the passage by said Legislature, of a special law or laws for the following purposes: To authorize the Missouri, Kansas & Texas Railway Company of Texas, to lease, for a term of not less than twenty-five years, the railroad of the Texas Central Railroad Company, extending from the City of Waco, McLennan County, Texas, to the town of Rotan, Fisher County, Texas; the railroad of the Wichita Falls & Northwestern Railway Company of Texas, extending from the City of Wichita Falls, Wichita County, Texas, to the Texas-Oklahoma State line; the railroad of the Wichita Falls & Southern Railway Company, extending from the City of Wichita Falls, Wichita County, Texas, to the town of Newcastle, Young County, Texas; the railroad of the Wichita Falls & Wellington Railway Company of Texas, extending from the Texas-Oklahoma State line into and through Collingsworth County, Texas, to the town of Wellington, in said County; the railroad of the Wichita Falls Railway Company, extending from the City of Henrietta, Clay County, Texas, to the City of Wichita Falls, Wichita County, Texas; the railroad of the Denison, Bonham

& New Orleans Railroad Company, extending from the City of Denison, Grayson County, Texas, to the City of Bonham, Fannin County, Texas; the railroad of the Dallas, Cleburne & Southwestern Railway Company, extending from the City of Cleburne, to the town of Egan, Johnson County, Texas, and the railroad of the Beaumont & Great Northern Railroad, extending from Weldon, in Houston County, Texas, to Livingston, in Polk County, Texas, or any of them, with the branches and extensions of said railroads constructed or to be constructed, together with the properties, franchises and appurtenances pertaining thereto, and at any time during the life of said lease or leases to purchase, own, operate and maintain the same, or any of them, as a part of its line, and to complete and extend the said railroads, or any of them, as contemplated and provided in the respective charters of the said Texas Central Railroad Company, The Wichita Falls & Northwestern Railway Company of Texas, The Wichita Falls & Southern Railway Company, Wichita Falls & Wellington Railway Company of Texas, The Denison, Bonham & New Orleans Railroad Company, The Dallas, Cleburne & Southwestern Railway Company, and the Beaumont & Great Northern Railroad, with the right to make such other extensions and construct such branches as may be hereafter authorized by amendment of its charter under the laws of the State of Texas; and to vest said Companies, and each of them, with the power to make and execute all necessary contracts and agreements to effect said leases, purchases, and sales or any of them; and to authorize the said Missouri, Kansas & Texas Railway Company of Texas to assume the payment of the bonds and other indebtedness of the said railroad and railway companies, or any of them, and to purchase the issued and outstanding stock of the said railroad and railway companies or any of them and to exchange its own stock and bonds for the stock and bonds of the said railroad and railway companies, or any of them, or to substitute its own bonds under the laws of the State of Texas and subject to the approval of the Railroad Commission of Texas, in lieu thereof; and to prescribe the terms and conditions upon which said leases, purchases, and sales may be made.

SHERIFF'S SALE The State of Texas, County of Wichita. By virtue of a certain execution issued out of the Honorable Justice Court of Precinct No. 1, Wichita county, on the 14th day of October 1912, by W. E. Brothers Judge of said court, against R. H. Stearman for the sum of Seventy-two and 50/100 (\$72.50) Dollars and costs of suit in cause No. 4454 in said court, styled Erwin & Patterson, a firm composed of J. Milton Erwin and G. E. Patterson versus R. H. Stearman and placed in my hands for service; I, F. L. Burns, as constable of Precinct No. 1, Wichita County, Texas, did on the 12th day of November, 1912, levy on certain real estate situated in Wichita County, described as follows, to-wit: Lots Nos. 2, 4, 6, 7, 8, 9 and 10 in R. H. Stearman's addition to the City of Wichita Falls, Texas, as shown by the recorded plat of said addition of record in the Deed Records of said county on page No. 518, Book 51 and levied upon as the property of R. H. Stearman. And on Tuesday, the 3rd day of December 1912 at the Court House Door of Wichita county, in the City of Wichita Falls, Texas, between the hours of ten a. m. and four p. m. I will sell said lands at public vendue for cash to the highest bidder as the property of said R. H. Stearman by virtue of said levy and said execution.

And in compliance with law I give this notice by publication in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Wichita Times, a newspaper published in Wichita county.

Witness my hand this 12th day of November, 1912. F. L. BURNS, Constable Precinct No. 1, Wichita County, Texas. 161 167 174

same time would secure the country from the troublesome fear that the occupant could ever 'come back.' It would relieve the country of the burden of thinking how he is to support himself and his family would fix his place in history and enable the public to pass on to new measures. I commend this to your consideration."

TENNESSEE WOMAN ELECTED PRESIDENT OF THE U. D. C. Washington, D. C. Nov. 16.—The United Daughters of the Confederacy today elected Mrs. Alexander B. White of Paris, Tennessee, as president general.

GIRL FROM TOKIO A CLEVER COMEDY

Company That Portrayed Farce Here Saturday Night an Unusually Clever One

Three acts of clever comedy and hilarious laughter is "The Girl from Tokio." The plot centers around the domestic relations of one Bartley Swift, who before his marriage had been somewhat of a blade, with a penchant for actresses. During a trip to Tokio, he had made desperate love to Nancy Noyes, who turns up afterward as the widow of Edward Miller, his wife's father. She turns up at his home, and for want of a better explanation, he introduces her as the new governess whom his family is expecting for his wife's younger sister. A number of laughable situations result until the real governess finally turns up and everything is explained.

The cast of the company here last night was exceptionally clever and each character was portrayed to the limit of its possibilities.

The "Smart Set" Company, coming back to add new laurels to those already gained in past seasons "The Smart Set" is announced for the Wichita Theatre tomorrow night. This season the management of that justly popular attraction announces an entire new production, keeping only the title and that clever comedian, Salem Tutt Whitney and his able companion in the production of continuous laughs, Homer Tutt,

and of course, a chorus of dark-skinned beauties in keeping with the well established policy of having the finest chorus of any musical show on tour. The scenic production is new and more elaborate than ever, the costumes are superb creations of a master mind, and the story is built to display the best abilities of the array of entertainers with that show. The music is by T. L. Corwell, whose work is well known throughout the breadth of the country, the story is by the comedian himself and in originality is rivaled only by the ability of the author as an entertainer, and must therefore be the scene of excellence. The company claims to carry the best singing and dancing chorus in America, and having held that place unchallenged in past seasons, it is safe to say that this season the reputation will be more firmly established than heretofore.

Friberg Notes

Our wheat growers are still at the drill but the finish is in sight. The Bayler boys of Petrolia, have their shelling going again. They are putting through some fine corn. Friberg high school hosts of a "New International Dictionary." Gus Byman and family of Wichita, came back to their old home for worship Sunday. E. E. Byman and wife entertained at week end the guests being Miss Louise Johnston and Lester Johnston and wife of Petrolia. Grandma Friberg, Mrs. Byman and Mrs. Carey came out from town to enjoy the all-day meeting of the Ladies Aid at Mrs. Audrie's home Thursday. R. F. D. wagon No. 4 suffered a

PRISON LOOKS BAD TO JOHNSON

Negro Pugilist Wants to Plead Guilty and Pay a Large Fine to Escape Penitentiary

Chicago, Nov. 16.—Visiting the federal district attorney today, Jack Johnson attempted to effect a settlement of the criminal charges against him. Johnson is said to have attempted unsuccessfully to reach an agreement whereby he could settle the case under the Mann act by pleading guilty and paying a large fine. The fighter intimated he had made his call on the district attorney against the advice of counsel. The pugilist entered Mr. Wilkerson's private office, much disturbed over the charges. He is said to have admitted that he feared to go to the penitentiary, and he was informed that such would be the penalty in the event of conviction. He was quoted as saying: "I don't like the looks of that." He then assured the district attorney that no matter what had happened he intended to remain in Chicago and "face the music."

RCH Stands for the best auto mobile value on the market today.

DALLAS SYMPHONY ORCHESTRA

OPERA HOUSE THURSDAY Matinee 3:30

Carl Venth, director, has under his charge forty-six artistic musicians, whose work is rendered with the preciseness of one man. Unusual opportunity for the music lovers of this city to enjoy a musical treat seldom coming to a town of this size.

WORST DESERT IN ALL ASIA

Hongwanji Temple at Kyoto, Japan, Crossed Takla-Makan Sand in Thirty Years.

Tokyo, Japan.—Her Zulcho Tachibana, a priest of the great West Hongwanji temple of Kyoto, returned to that place recently after five years spent in exploration in the virgin parts of central Asia, writes a correspondent. His journey was undertaken for purposes of research under the instruction of Count Otani, the lord abbot of the Hongwanji temple and an enthusiastic geographer. Mr. Tachibana is a young man of twenty-two years of age and of such delicate physique that he had to be carried by a woman disguised as a man.

Sheltered at the Edge of the Desert.

worst of all deserts in central Asia. Neither birds nor even insects are to be found there. The desert is a sea of sand, where there is only the wind to hear and the moon to see. The party consisted of two men and mules carrying 15,000 feet high, and the men began to grumble, fearing that they would be buried by the constant sandstorms.

On arriving at Goma, on the right bank of the River Tarim, he caused considerable fright among the shepherds, as his was the first party from the south for thirty years. At first the shepherds fled, but were brought back. The feat of crossing the desert caused greatest reverence by the shepherds.

At this point he left the camel caravan to follow on slowly, while he proceeded on horseback to Kuchar, which place he reached after three days. This is a large town, though not to be compared with civilized cities. "Nevertheless," said Mr. Tachibana, "I felt on entering it as though I had suddenly been put down in Piccadilly."

Some time was spent in the neighborhood of Kuchar investigating the buried cities, and afterward the explorer proceeded through the valley to the east of Taunling to Khotan, the districts previously explored by Dr. Stein (now Sir Marc Aurel Stein). Thence the party proceeded to Tibet for the purpose of geological investigation.

Several districts were visited by Mr. Tachibana which had been omitted by Dr. Sven Hedin. These regions are absolutely blank on the maps, and have never been visited before. As soon as the records of the journey have been collated, the Hongwanji temple will issue a report on Mr. Tachibana's explorations, which will without doubt be eagerly anticipated in scientific circles in Europe and America as well as in Asia.

STOWAWAY HEEDS A VISION

Explains That He Received a Divine Summons to Preach to Benighted Chinese.—Is Shipped Back.

San Francisco Cal.—Harold Yates, a frightened youth, who had seen a vision and started for the Orient to preach to the Chinese, was brought back to San Francisco on the steamer Nile, which reached here recently.

Yates, "call," by which he was summoned to spread the message of the gospel among the heathen, led him to stow away on the steamer Manchuria, which left here Friday. Captain Friele of the Manchuria listened to the young man's account of his vision, after he had emerged from his hiding place, but decided that it did not entitle Yates to free passage and the stowaway was transferred to the Nile when that vessel was met in midocean.

Yates, who was employed as a bellboy at a local hotel, was awakened with difficulty last Friday morning by another bellboy. He explained that he had been listening to a divine summons to the missionary field and hurriedly packed a few belongings and boarded the Manchuria, where he hid in the hold.

Huge Telescope Dedicated. Pittsburgh, Pa.—A new 30-inch photographic refractor telescope, valued at \$150,000, said to be the third largest instrument of its kind in the world, was dedicated at the Allegheny observatory, Riverview park, in the presence of a distinguished party of scientists and visitors.

Baton Rouge, La., Nov. 16.—With two millions missing the total vote for President in Louisiana was 5,005.

UNREST IN ENGLAND

Duke of Marlborough Blames Death of Cottages for Evil.

Advances of Homes for the Humblest Classes of Rural Workers in Depopulating the Country.—"Weak Enders" is Chief Cause.

London.—When the duke of Marlborough, in his recent articles in the Daily Mail on "Industrial Unrest in England," traced the source of the trouble back to the death of cottages for country laborers, it seemed rather facetious, but since his articles were printed, no small amount of evidence has appeared to back up his theory. One of the most interesting contributions to the discussion comes from "A Country Parson," who says that the death of homes for the humblest classes of rural workers is a crying evil. According to him, it is depopulating the country.

Marriages among the young people are at a discount, he says. Twenty years ago, in his parish, the registers show there was a yearly average of six marriages of agricultural laborers. During the last eight years this average has been reduced to one. Assuredly this statement backs up the duke of Marlborough.

The young men in the country have no inducements to marry there and no homes to settle down in. They flock to the cities, they crowd out the city-borne of weaker physique, they lower the standard of wages by glutting the labor market. Then come poverty, strikes, paralysis of business, general all-round disaster.

But why should there be a dearth of rural cottages. Why does not the law of supply and demand operate to end it in short order? One reason seems to be that ill sorts of outsiders are competing with the agricultural laborer in the way of a cottage that may exist or be built in rural regions. Behind this is the fundamental cause, the fact that the agricultural laborer is so badly paid or paid in such an unpractical way that he is not able to pay anything like a decent rent for a home—anything like the rent which will return even the smallest interest on the builder's investment.

Illustrating the competition with the laborer for the rural cottage, the case of the week ender is cited. The

Typical English Cottage.

week ender of moderate means wants a very cheap place where he can run down in fine weather and spend a day or two at what is to him merely nominal expense. He finds a laborer's cottage picturesquely situated; he goes to the landlord and offers a grotesquely low rent for it, say five shillings or \$1.25 a week, on condition that it be restored or fixed up—put in good order. The landlord cheerfully accepts the offer and puts the cottage in first-rate condition, for the rent of the city man offers, absurd though it may seem to a New Yorker, is anywhere from three to five times as much as the agricultural laborer can afford to pay.

MAY CALL OFFICER A "GINK"

And Philadelphia Judge Holds, It Doesn't Justify Arrest of Former Fugitive.

Philadelphia.—Magistrate Coward, sitting in city hall, today decided it is no crime to call a policeman a "gink," no matter what construction is placed upon the word. The Magistrate listened to the evidence of Police Constable Hill of the 10th square, who had arrested Jack Hanlon, the former pugilist, whom he accused of calling him a gink when Hill was on duty in the Tenderloin.

When the judge heard the case he said: "Well, that is not wrong. I'm called worse things than that a dozen times a day. I don't care how you take it. If that is all that the man said you had no right to arrest him." In the cross-examination of Hill Hanlon's lawyer asked Hill if he knew what the word meant. When the policeman said he did not know the attorney said: "Well, if you don't know now, you will soon enough, for you have been accused of being a 'gink' before, and you had better be careful or they may make more than accusations the next time." The Magistrate suspended further hostilities by discharging the prisoner.

Gives Gift to Son. New York.—David P. Condon, a member of the New York fire department, has given forty inches of his skin to save his son's leg.

STENOGRAPHERS DEATH PLOTTED BY M'NAMARA

(Continued From Page One)

A powder company, testified he received a telephone call from the Brice Construction Company, inquiring about the purchase of five hundred pounds of high explosives to blow up stumps on a ranch. A man called and left an order for five hundred pounds of eighty percent nitro-glycerin and paid the bill. He gave his name and left a rural address, saying he would call and get it in a launch," witness said. Two days after the launch was rented, Brice called on the telephone, and said he would go to Grant Station to get the explosives. Later the explosives was removed by a man described as Captain of the defendants. Frank B. Carroll, police detective of Los Angeles, testified about the condition of the wrecked Times building when he arrived there at 7:39 a. m. on the day of the explosion. Other witnesses who gave immaterial testimony were examined.

CITY TEACHERS HOLD INTERESTING SESSION

Topics of Practical Interest Discussed With Earnestness and Enthusiasm in Monthly Institute

The teachers of the City Schools assembled yesterday at the High School in their regular monthly meeting. Nearly all of the teachers were present. In opening, Supt. Carpenter called the attention of the teachers to the State Teachers' Association that convenes in Fort Worth on Thanksgiving Day. In taking a poll of those present, it was found that fourteen teachers expect to attend the Association. After a few remarks from Mr. Carpenter as to the importance of attending the state meeting of teachers, the following program was rendered: Intellectual—Mr. Phillips. Intellectual Development of the Child—Miss Childers. Development Stages—Miss Trimble. Adolescence—Miss Johnson. Religious Life of Child—Miss Haynes. The Wondering Years—Miss Robertson. The Modern Home—Mr. Niles.

Godparents and Their Duties—Miss Dresser

Methods and Means to be Used by Godparents—Miss Stratton

The following are some of the leading thoughts developed during the discussions: The intellect is based largely on the development of the instincts, sense consciousness, and the sense of touch—it is an inheritance of the race. The other senses are an outgrowth of touch. There are two methods of studying the development of the intellect—ractive and literature, and the development of the child's intellect. Adolescence is a period of important changes. It is a period of conflict between the primitive instincts, and new desires and feelings that arise at this time. A proper classification of pupils is based on the principle of growth. For a proper development of the child, there is too little reading done in our public schools. Adolescence is a period of religious convictions. Good examples are more are more effective in influence than mere formal theories. There is a period in the child's life known as the wandering years; he is full of energy and restless. At such a time he needs to be kept busy in such a way that this energy will not be used for the wrong purpose. The modern home today in many instances is not a place suitable for the proper development of the child. The interests of its various members are so many and varied that there is not unity of action, or of purpose. Many times it is little more than a place to eat and sleep. The Godparent is of great value to the child from the social standpoint; he should get the child to enjoy his virtues more and his vices less. Mrs. Edwards made an announcement with reference to a class of Physical Culture, which she seeks to organize among the teachers. The teachers manifested a lively interest in all the topics submitted for discussion.

MAYOR LUNN IS OUT ON AN APPEAL BOND

By Associated Press

Little Falls, N. Y., Nov. 16.—Mayor Lunn of Bennectady was released this afternoon from the Herkimer county jail upon furnishing \$100 bond pending appeal. Lunn is the Socialist mayor who was charged with disturbing the peace.

A BATTLE BETWEEN BANDITS AND POSSE

By Associated Press

Toia, Kan., Nov. 16.—Three bandits who impressed a motor car, a chauffeur and a mechanic and went on a raid of farm houses and villages in this vicinity were captured today near here and brought to the Toia jail. The men gave their names as Richard Victor, W. J. Van Bibber and John McCauley. Victor was taken early today. The two others were captured last night after a fight in which one of them was injured. Before the capture the bandits and the members of the posse exchanged two hundred shots and one of the three men was wounded. Victor, hard pressed, finally turned in at a farm house, covered the owner with a pistol, took a horse and fled. Overtaking one of his comrades, Victor put the aim on the horse before him and galloped on. The horse threw them and when the posse came up, Victor and his companion lay on the ground stunned. They surrendered without a struggle.

PERSONAL MENTION

C. A. Montgomery leaves today for Denton, where he goes into the plumbing business for himself. Mrs. Richard Sands and children arrived last night from Shawnee, to make their home here. Mrs. Sands has been here quite a while and is foreman of the cash and door company. Mrs. J. O. Wilson of Quanah, is visiting Mr. and Mrs. W. P. Wilson of this city. Mrs. S. C. Johnson has returned from Devo, Okla., accompanied by Mrs. Lucine Wright, who is recovering from an attack of typhoid. C. L. Fontaine, went to Denison yesterday on business connected with the Wichita Falls Route. Miss Nora Fitzgerald of Denison, has accepted a position as stenographer with the traffic department of the Wichita Falls Route. Mrs. W. M. Fuller has returned from an extended trip to Portales, N. M., and Plainview. At Portales she visited her brother, C. L. Carter and at Plainview her brother, Monte Carter. Miss Francis Miller left yesterday for a visit with relatives at Weatherford, while she recuperates from her recent surgical operation. T. H. Cardin has returned from Dallas, where he attended the Shriners' meeting. E. B. Marshall of Haskell, Texas, is here in the interests of the Fort Worth Star-Telegram and will probably make this his future home. Mr. Marshall has built up a good list here for his paper. M. F. Kelley of Gainesville, is visiting Mr. and Mrs. Coleman. E. M. Winfrey returned yesterday from a two weeks' trip to Western Texas. J. F. Gillette of Burkburnett, was in the city yesterday. J. A. Fisher of Electra, was in the city yesterday. He expects to move with his family to this city next week and will occupy his new home on Tenth street, now hearing completion. Mrs. L. C. Canwright of East Aurora, N. Y., is here for a visit with her brother, H. M. Carpenter and family. Frazier Nelson, one of the linotype operators on The Times, is spending the day in Stamford.

FREEPORT WILL BE OPENED NOV. 30

New Town and Gulf Port Will Begin Existence Under Most Favorable Auspices Special to the Times. Freeport, Texas, Nov. 16.—The birth of a new town is not an uncommon thing in this state, though such an event never fails to excite interest and speculation as to the future of the new town. The newest town in Texas is Freeport, Brazoria county, which is located at the mouth of the Brazos river. The official birth of this new town will occur November 30th of this year. There is no doubt expressed as to the future of this new town, but there is much speculation as to how important it will be, and the persons who have staked the location, resources and possibilities of the country are ready to say that there is every reason to believe that it will be a rival of the largest port towns in Texas. They reason that a free port of entry is a potent factor in the upbuilding of a coast town, and as there will be such a port of entry at Freeport, the future greatness of this new town is assured. The sulphur fields near Freeport, the fact that a large sugar, and a mammoth oil refinery and other great industries are to be located in Freeport will contribute largely to the commercial importance of the town, and, in addition to these there are a great many other industries of much importance. The largest port in the state collects

annually more than a half million dollars for wharfage alone, and it can be seen from this, some of the possibilities of a free port town. This is one of the reasons for the interest in the opening of the new town. The occasion of the opening of Freeport will be a most important one, and Governor Colquitt and other state officials will be present. In addition to these gentlemen, Frank A. Vanderlip, the well known financier of New York City, B. F. Yoakum of the Frisco railway, Chas. E. Schaff of the Missouri, Kansas and Texas railway and other prominent railroad men in the state will be present. E. P. Swenson of New York, who was the leading spirit in starting the great enterprises that are now under way at Freeport has already arrived, and is accompanied by a large party of friends, who have a special train chartered for their accommodation. Altogether the opening of the new town is one of more than statewide importance, and its future development will be watched with the greatest interest all over the state, as well as throughout the country.

A small blaze in the rear of the Crescent rooming house at 809 1-2 Indiana at 12:30 last night caused a scurrying of scantily clad tenants into the cold night air and brought the hose wagon and the auto engine quickly to the scene. The damage was trivial and was quickly extinguished after a line of hose had been laid. The origin is unknown. The damage is estimated at \$50, portions of the woodwork in the rear of the second story being burned.

Another Great Massacre The greatest butchery of modern times is taking place in the windows of the Harrington Jewelry Co. They have cut the price on all hand-painted china to the very bottom for a few days only. If you see the display at 709 Ohio you will see something that will startle you and you will be satisfied. Free Delivery

NOT OFTEN It's seldom that you have a chance to buy genuine Michigan Sweet Cider, Boiled Cider and Apple Cider Jelly. We have received direct from the orchards of Michigan a shipment of these goods, and they are "as fine as silk." Cider Jelly is entirely different than anything else in this line and Southern Michigan and Northern Ohio is the only section we know of where it is produced. There is nothing as good to serve with meats. If you know what it is, we've said enough. If you don't, you have overlooked a bet. You will want some boiled cider for your Holiday cookery. Order the sweet cider while it's fresh.

PERSONAL MENTION

C. A. Montgomery leaves today for Dallas, where he goes into the plumbing business for himself. Mrs. Richard Sands and children arrived last night from Shawnee, to make their home here. Mrs. Sands has been here quite a while and is foreman of the cash and door company. Mrs. J. G. Wilson of Quannah, is visiting Mr. and Mrs. W. P. Wilson of this city. Mrs. E. C. Johnson has returned from Devel, Okla., accompanied by Mrs. Lorraine Wright, who is recovering from an attack of typhoid. C. L. Postaine went to Deaton yesterday on business connected with the Wichita Falls Route. Miss Vera Fitzgerald of Deaton, has accepted a position as stenographer with the traffic department of the Wichita Falls Route. Mrs. W. M. Fuller has returned from an extended trip to Fortales, N. M., and Pinalview. At Fortales she visited her brother, C. L. Carter and at Pinalview her brother, Monte Carter. Miss Francis Miller left yesterday for a visit with relatives at Weatherford, while she recuperates from her recent surgical operation. T. H. Cardin has returned from Dallas, where he attended the Shriners' meeting. E. B. Marshall of Haskell, Texas, is here in the interests of the Fort Worth Star-Telegram and will probably make this his future home. Mr. Marshall has built up a good list here for his paper. M. P. Kelley of Gainesville, is visiting Mr. and Mrs. Coleman. E. M. Winfrey returned yesterday from a two weeks' trip to Western Texas. J. P. Gillette of Burkburnett, was in the city yesterday. J. A. Fisher of Electra, was in the city yesterday. He expects to move with his family to this city next week, and will occupy his new home on Tenth street, now nearing completion. Mrs. L. C. Canwright of East Aurora, N. Y., is here for a visit with her brother, H. M. Carpenter and family. Frazier Nelson, one of the linotype operators on The Times, is spending the day in Stamford.

Arson Case Continued.

Port Worth, Texas, Nov. 16.—The arson charge against Rev. J. Frank Norris, pastor of the First Baptist church, has been continued until February. The case had been set for November 25.

PROSPERITY has arrived, the news boys have more money than the bankers had a year ago, eggs are turning down any thing less than the price of a ten course feed at the most rapacious eat foundry in the battwick, and the goose is hanging far above all previous altitudinal records, in fact to say we are going some in Wichita Falls does not any more measure our commercial velocity than a snow flake quenches a prairie fire. And our own Woodrow Wilson is now chief pedagogue to the likeliest looking class he has ever had and here's hoping he don't go popping into the plans of some of the big boys and start a panic. We wish to call your attention to the reading of a portion of our business gospel which listens like this: "The only difference in a rut and grave is the length." We have always fought severely shy of the rut. Our business succeeds because we have what you want, at the right price and get to you quick. You grab the phone and we do the rest and do it quick.

FREEPORT WILL BE OPENED NOV. 30

New Town and Gulf Port Will Begin Existence Under Most Favorable Auspices

Freeport, Texas, Nov. 16.—The birth of a new town is not an uncommon thing in this state, though such an event never fails to excite interest and speculation as to the future of the new town. The newest town in Texas is Freeport, Brazoria county, which is located at the mouth of the Brazos river. The official birth of this new town will occur November 30th of this year. There is no doubt expressed as to the future of this new town, but there is much speculation as to how important it will be, and the persons who have studied the location, resources and possibilities of the country are ready to say that there is every reason to believe that it will be a rival of the largest port towns in Texas. They reason that a free port of entry is a potent factor in the upbuilding of a coast town, and as there will be such a port of entry at Freeport, the future greatness of this new town is assured. The sulphur fields near Freeport, the fact that a large sugar, and a mammoth oil refinery and other great industries are to be located in Freeport will contribute largely to the commercial importance of the town, and in addition to these there are a great many other industries of much importance. The largest port in the state collects

annually more than a half million dollars for wharfage alone, and it can be seen from this, some of the possibilities of a free port town. This is one of the reasons for the interest in the opening of the new town.

The occasion of the opening of Freeport will be a most important one, and Governor Cobbitt and other state officials will be present. In addition to these gentlemen, Frank A. Vanderbilt, the well known financier of New York City, B. F. Young of the Princeton railway, Chas. E. Schaff of the Missouri, Kansas and Texas railway and other prominent railroad men in the state will be present. E. P. Swenson of New York, who was the leading spirit in starting the great enterprises that are now under way at Freeport has already arrived, and is accompanied by a large party of friends, who have a special train chartered for their accommodation. Altogether the opening of the new town is one of more than statewide importance, and its future development will be watched with the greatest interest all over the state, as well as throughout the country.

A small blaze in the rear of the Crescent rooming house at 209 1/2 Indiana at 12:30 last night caused a scurrying of scantily clad tenants into the cold night air and brought the hose wagon and the auto engine quickly to the scene. The damage was trivial and was quickly extinguished after a line of hose had been laid. The origin is unknown. The damage is estimated at \$50, portions of the woodwork in the rear of the second story being burned.
