As the newspaper men and the minister left him, he peered through the bars after them and lit a cigarette. Oates gave his Bible with its marked passages and notes to Rev. Parker. On the fly-leaf was written his name and the words, "May God

# PATRICK FREE MAN "TOO HAPPY TO TALK"

New York, Nov. 29.-Albert Patrick walked out of Sing Sing yesterday afternoon a free man. He was too overcome and too hppy to say much.

"I am too happy to say anything," was the pardoned man's only comment as he was escorted to the railroad station to take the 4 o'clock train for this city.

Just before leaving the prison and when he was changing his convict suit for a well-fitting suit of black, in answer to a question put to him by one of the deputy keepers, he said, 'The fight's only started."

This was taken to mean by those who overheard the remark that Patrick intends to fight for the estate left him by William Marsh Rice, for whose death he spent more than ten Turks are being hurriedly prepared years behind the walls of Sing Sing prison and narrowly escaped suffering the death penalty in the electric chair.

It was the error of a railway ma clerk, who dropped the Ossining mail off the train at Peekskill early yes-Reichpost says they will be formed terday by mistake, that held Patrick in the prison until late yesterday afternoon. "You are a free man now," said the principal keeper, as the two men shook hands. Patrick seemed overwhelmed when he heard these words. FARMERS' UNION There was no member of the Pat-

The first step he will take in this work will be to have set aside the disbarment proceedings which now stand against him.

#### CHRISTMAS SHOPPING.

Knowing what is wanted for the various members of the family, and others entitled to Christmas givings, is one thing. Plannings for the gifts is another-and figuring the purse to cover all proposed purchases, without leaving any sting, is a third proposition.

To satisfy yourself in the matter there is one way-and but on way. A little time in thought will settle the first; some more time in study will settle the second; and to shop by The Times as "a guide to Christmas buying" will make the third easy.

In every issue of The Times announcements of the merchants who want your business appear. They are bids for your trade strong, convincing bids. They are safe guides and followed closely will mean much in time and mon-

#### PROGRESS ON RINGLING ROAD PROJECT REPORTED

The new railroad which J. S. Ringling is planning to build in Southwest Oklahoma and which is said to have Wichita Falls as an objective point is to be completed into Lawton within one year. The following dispatch from Lawton was printed recently in the St. Louis Globe-Democrat:

"By unanimous vote the members of the Lawton Chamber of Commerce adopted the contract previously agreed upon between its Railroad Committe and John Ringling, the millionaire cir cus man, for construction of a railroad from Ardmore to Lawton. The contrac provides that the road is to be con pleted between Ardmore and Lawton by December 31, 1913, . If the track of no other road is used for a dis tance of more than six miles, Lawto will pay a bonus of \$50,000, give terminales i nthe city and ten miles of right-of-way. If other lines are used for more than six miles the bonus is to be reduced to \$20,000.

"Mr. Ringling was present in per son to take charge of the negotiations coming in his private car. J. L. Hammon, the original promoter of the Ardmore, Duncan and Lawton line, is associated with Mr. Ringling in his project, and says that Ringling is not a railroad builder. As evidence that he intends to build at once, and do it ahead of the other company, it is agreed that if the Robertson inter ests build a line from Ardmore to Lawton ahead of the Ringling road, no bonus is to be paid to Ringling, but he is to be given terminals just eas: of those already set, aside for the Robertson road.

met the advance. This makes an increase of twentysix cents a barrel since the first of the present year. The first advance was made January 2, and it his been going up two and three cents at a time during the year, but more rapidly during the past few months. There had been three advances of five cents each in Eastern oil since the last increase was made in this field and there was a general conclusion that a few cents would be tacked on before this week closed. There is a pretty strong conviction that this oil will go to 85 or 80 cents before the advance stops.

#### CUERO'S "TURKEY TROT."

Besides getting a great deal of valuable advertising for itself and Texas.—San Antonio Express. the surrounding country, the enterprising little city of Cuero has given by its unique celebration this week an illustration of the importance of poultry-raising in Texas which is calculated to benefit the en-

Turkey raisers received for their sales last year the very important sum of \$71,400, a pretty good income from a business which can be con ducted in connection with every farm without detracting from the crop demands. The turkeys sold in Cuero last year averaged eleven pounds each in weight and brought 10 cents a pound on foot. Cuero shipped thirty-two cars of dressed and froz en turkeys, aggregating -704,000 pounds, and the result has been on of which the citizens of that sec tion have a right to be proud-

But the lesson that is taught is o State-wide importance, because what can be done around Cuero can be done in almost any section of Tex as, and the example, which has been set should not be overlooked by farmers and others in other parts of the State. If Cuero shipped thirty two carloads last year, one hundred Texas towns should ship one hun dred times thirty-two carloads, or 70,400,000 pounds, worth 10 cents a pound, aggregating \$704,000.

There is a market for many more turkeys than Texas is likely to produce soon, so there need be no fear of overproduction. On the contrary, the more turkeys raised," the more popular they will be, consequently

Making Wilson Cabinets.

He is busy constructing nicely preciate. Wilson. No orders have been given St. Louis Times. for the work, but he goes blithely ahead nevertheless.

Every four years this happens. No sooner is a President 'elected than from all sides come suggestions of Political directories are names. searched for material. Every day brings new faces upon the screen of possibilities." Without any refer ence whatsoever to the policies of the newly elected President, often with out regard for geographical considerations and with little thought for the National political problems, secre taries are made in quantities. This s'a pleasant diversion for everybod concerned. It entertains the one who does it, flatters the people who are mentioned and it does not embarrass the newly chosen executive. If one would keep track of the names pro posed for the nine different Cabine positions the list would probably in clude every person of the least pron inence in Congress, every local leade of more than parochial position. good many financiers with Democrat c leanings and a sprinkling of "ar gels" both State and National i their givings.

In a way this enterprise is beliffe to the President-to-be, for it give him the benefit of the wide range of proposals, for which he is in no wise responsible, and enables him to study public sentiment through the re sponses given to these suggestions Governor Wilson will do well to keep clippings of all the publications bearing upon the Cabinet question He will find them mighty interest ing reading later when he has finally made his combination and sees wha might have happened.-Washingtor

Reciprocity. We are going along with our pros pective tariff policy, but with some interests being averse to opening wider trade with other countries, ar witness the defeat of Canadian re ciprocity. We have surrounded our selves with what is freely admitted a source of protection that has im mensely developed our industries, bu in the course of enacting protective tariffs, some interests are over-pro tected. But this is very nice so long as other antions by these protective parriers do not throw out our trade Other nations have protection as wel as do we, and the tendency is to increase the schedules against us with every charge. This naturally must reduce our exports.

Germany, Japan and other coup

tries are to increase their protection

and the best way we can meet this is to do as President McKinle in the last address he made, advised He told his countrymen that the tim had come to open wider the gate and that the day of tariff seclusion had passed Our reciprocity treaties must be enlarged, or sooner or later very possibly sooner, the country will sincerely wish it had followed this advice of President Mckinley and Blaine. These masters of pro tection perceived our protective re ciprocity treaties, or our trade will suffer.-Racine Journal-News.

Dring the last holiday rush many people bought jewelry from us, more out of curiosity than anything else. They had read our advertisement, and, as one of them said, "I want to find out if you know what you are talking about." Today, all of these curiosity seekers are steady customers of this house. We DID know what we were talking about. That's what makes our advertising effective.

Now we are not resting on our oars or on our reputation. We know there are no eggs in last year's bird's nest. But this we do know: What we did WELL last year we can do BETTE7R this year.

It is not the stocks Merchants carry that make them BIG. It's giving purchasers what they buy for less money. Advertising one thing and doing another is ADVERTISING WASTE and COMMERCIAL SUICIDE.

If there is anything, mind you, ANYTHING, in the line of Diamonds, Watches or Jewelry, that you want and must have in time for a Christmas Gift, Art Loan Company servie will get it for you ON TIME. There are no "ifs" or "ands" about it That's a bold statement. By making good we convince you that our service means dollars in your pocket. That's what we're after.

FONVILLE'S DIAMONDS

They Are the Acme of Beauty and Value

The giving of a diamond is an act of love and esteem. Diamonds are the emblems of purity and because they are the most admired and loved of all precious jewels. The Fonville stock is bought with the idea of securing the best qualities. It is sold with the idea of giving you the

greatest possible values. During our ten years of steady growth the people of Wich-ita county and neighboring counties have come to learn of our methods, and they are daily showing their approval with increased patronage.

So well have these facts become known that gift buyers in general know that by purchasing here they pay the recipient a special compliment. The name Fonville on the box adds much in prestige, but nothing in cost.

You are most cordially invited to visit our DIAMOND. DEPARTMENT. Prompt service and courteous treatment await you there. Such a visit will in no way obligate you to buy. Special values \$25.00, \$50.00, \$75.00, \$100.00 \$115.00, \$150.00.

We have received direct from the orchards of Michigan a shipment of these goods, and they are "as fine as silk." Cider Jelly is entirely different than anything else in this line and Southern Michigan and Northern Ohio is the only section we know of where it is produced. There is nothing as good to serve with meats. If you know what it is, we've said enough. If you don't, you have overlooked a bet. You will want some boiled cider for your Holiday cookery.
