## CHARTER DRAFT TO COMMITTEE

TWO DRAFTS COMPLETED BY SUB-COMMITTEE AND TAKEN UP BY GENERAL COMMITTEE

### MEETING FRIDAY NIGHT

Further Discussion of Two Charters Provisions Will be Held Then

The draft of Wichita Falls special charter, as prepared by the subcommittee, was considered last night at a meeting of the general charter committee, which held an extended session, going over the document in detail and approving many features of it. Another meeting will be held Friday night, at which it is expected to complete the work.

Two complete charters were provided by the subcommittee, one providing for the commission, the other for the aldermanic form of city government. The charters are similar in all other details, as far as possible. Both confer extensive powers upon the city's governing body.

Eight of the committee's eleven members were present last night, the following being in attendance: A. H. Brittain, R. E. Huff, W. J. Bullock, Fred W. Householder, C. B. Felder, Patrick Henry, J. M. Bell and Dr. L. Mackechny.

Sentiment was not unanimous on all features discussed and some of those who objected to certain provisions were allowed to take a "bill of exceptions" before the questions were finally settled.

The question of boundaries was postponed for later discussion, as two members of the boundary committee were absent. The tentative boundaries were described, but no final decision was reached; the new limits, as proposed, would take in considerable outlying territory, but would add little to the city's population.

Among provisions which met with opposition was one providing that no national political party designation should appear on the city election ballot. Judge Felder opposed this, saying the time might come when it would be advisable to draw the party line in this city. The question of compensation for the commissioners while the charter was read fixed at \$25 monthly, also called forth some discussion and while it was agreed that the sum mentioned would not be really compensatory for the services, it would not be wise to fix a figure at this time.

The charter raises one big question, which the committee did not settle to its own satisfaction last night. This was the question of saloon limits. The draft as prepared limits the saloons to the territory bounded by the Denver track, Sixth street, the alley between Scott and Indiana, and Tenth street; it also provides that any saloon opened hereafter within this limit must have the consent of a majority of the property owners fronting on the same street in that block. The effect of this would be to prevent the further establishment of saloons in this city and to cut out several that are now in the flats.

This question was discussed at length by the committee, and it was suggested that, owing to the difference of opinion on it, the question should be submitted separately to the voters. It was pointed out that the provision would really be of benefit to the saloon men now in business and that they might support it.

The provisions of the commission charter, as far as discussed last night were as follows:

Chapter I relates to the establishment of the city government, including the name, boundaries, general powers, corporate being and departments of government.

Chapter II relates to the administrative departments, and divides the government into five heads, as follows: Department of Public Affairs and Public Safety; Department of Public Health and Sanitation; Department of Finance and Revenue; Department of Public Highways; Department of Public Buildings, Parks, Lights and Civic Beauty.

To be eligible for election to the commission, a man must either own real estate or be a householder in the city. The elections are to be held annually and of the mayor and four commissioners elected in 1913 they shall serve for one year only, they to be selected by lot. There is to be no national party designation on the municipal ballot. To become a candidate, a man must secure the signatures of fifty voters to his petition, and the petition must be filed with the city clerk not more than thirty nor less than ten days before election and the names of the candidates are to be published in all daily papers three times within the ten days preceding election.

By Associated Press.  
Tokyo, Dec. 4.—Premier Faojii and other members of the Japanese cabinet resigned today because of the crisis brought about by the difficulty in finding a successor as war minister of Lieut. Gen. Uyehera.

## NEW WAREHOUSE FOR FARMERS' UNION

New Building Decided upon Yesterday and Site is Being Cleared Today

Work was started this morning on clearing the site for a new warehouse to be erected by the Farmers' Union organization here. At a meeting of the directors of the organization yesterday afternoon a new building was decided upon and work was started at once.

The new building will be just south of the present warehouse, so close that it will be easily possible to join the two into one big structure at some future time. The building will be of galvanized iron, with concrete foundations, 64x100 feet. The present warehouse is filled to overflowing and additional room was found necessary.

It is reported that there is a decided tendency in this section to hold cotton and that an unusually large amount of it is being held for better prices. This condition applies not only to Wichita county but to other parts of Northwest Texas, where general conditions are equally good.

## TAFT STANDS FOR PREVENTION

OPPOSES ANY IMPROVEMENT OF MISSISSIPPI THAT DOES NOT HAVE THIS FOR FIRST OBJECT

### DELEGATES ARE STARTLED

President Talks Plainly to Rivers and Harbors Congress About Appropriation

By Associated Press.  
Washington, Dec. 4.—President Taft today told delegates to the Rivers and Harbors Congress that he personally was opposed to any scheme of improvement for the Mississippi which did not contemplate as a primary object the prevention of floods. He favored the expenditure of the government and the idea of preventing floods in that district. He declared his indorsement of improvements would be forthcoming only if the work were placed under the direction of army engineers.

So far as other waterways projects were concerned the president said his approval would be lacking unless their backers could show as good a case and as dire necessity as could the Mississippi Valley case. Many of the delegates were startled by the President's speech.

## LOS ANGELES WOULDN'T GIVE UP FREE LUNCHES

New City Charter Also Voted Down by Big Majority—Good Government Organization Defeated

By Associated Press.  
Los Angeles, Dec. 4.—Citizens of Los Angeles awoke today to find that they had no new city charter and that the saloon free lunch was left to them. Both propositions were voted down yesterday. This was the first defeat suffered by the good government organization since it assumed control of the city's affairs with the recall of Mayor Harper four years ago.

The charter proposition was beaten about two to one. The anti free lunch argument lost in about the same proportion.

Daughters of Confederacy Convention  
By Associated Press.  
Fort Worth, Texas, Dec. 4.—Texas Daughters of the Confederacy in state convention here today, raised several hundred dollars for the Arlington monument fund. The money will go toward erecting a Soldiers and Sailors shaft in the national cemetery. The convention here will close Thursday.

## WILL AWARD COTTON PRIZES

MEETING OF MEMBERS OF BOYS' CLUBS WILL BE HELD DECEMBER 14TH

### OVER TWENTY PRIZES

One Hundred and Eighty-Nine Members Have Each Raised Two Acres of Cotton

J. W. Campbell, special agent of the U. S. Department of Agriculture is mailing out letters to the members of the Boys' Club in this section notifying them of a meeting to be held here Saturday morning, December 14th at which awards of prizes offered by the Chamber of Commerce will be made.

The meeting will be held at the Chamber of Commerce rooms at 11 a. m. The prizes are as follows: Best yield—First, \$10; second \$5; third, \$2.50. Best product exhibited—First, \$10; second, \$5; third, \$2.50. Best report—First, \$10; second, \$5; third, \$2.50.

In addition to above there will be awarded ten \$1.00 honor prizes to the ten boys making the best general average yield, product exhibited and report combined. Boys having been awarded any one of the larger prizes will be barred from participating in these honor prizes.

Boys will be permitted to enter in but one class, they to choose whether they will enter for yield, product or report.

The Wichita Cotton Oil Company will also award prizes at the same time but details cannot be given at this time.

There are 189 members of boys' cotton clubs in the territory under Mr. Campbell's charge. Each of these boys planted and raised two acres of cotton and it is reported a number of them have picked yields of a bale an acre and better.

Mr. Campbell is already looking out for seed for next year's planting and it is probable some of the boys next year will experiment with long staple cotton.

## DENTON COUNTY MAN AN ESCAPED CONVICT

Death Reveals Secret of Prominent Farmer—He Had Told Story to a Neighbor

By Associated Press.  
Denton, Texas, Dec. 4.—The death here last week of a man known as John Ellis, a well known citizen for 35 years, resulted in the revealing today of the fact that Ellis was Joseph Addison, who was convicted of manslaughter in Buchanan, Georgia, in 1873.

He escaped after serving three years of a 15-year sentence, and came here. No one knew of his life story until an intimate friend whom he confided in five years ago told the story after his death.

Addison told his story to J. C. Brock. Brock said Addison seemed to live in a constant fear of recapture and that he slept with two pistols under his pillow and a loaded rifle in his room. Addison kept his identity secret from his own family until a year ago. Then a letter was sent addressed "Old Man Addison's son."

The result was two of Addison's sons came here from Georgia and identified their father. From the boys Addison learned for the first time that his wife was dead. She died six years ago. The three men decided to keep the secret and the boys returned home.

It was charged Addison killed the other man in a quarrel over a dog. He claimed however, that the other man was approaching his house at the time with the intention of killing Addison. He said he escaped near Cartersville, Georgia, by fling off his shackles.

## 5,000 MORE PENSIONERS FROM WAR WITH SPAIN.

By Associated Press.  
Washington, Dec. 4.—Nearly 5,000 widows and minor children of veterans of the Spanish-American war or the Philippine insurrection would receive pensions under a bill passed by the House without debate. The bill entitles the widow of any officers or enlisted man who served ninety days during the Spanish war or Philippine insurrection to a pension of \$12 a month.

W. H. Lewis, accompanied by his wife, little daughter and mother, passed through the city today en route to their home at Altus, from their visit with relatives in Measouri.

## WEATHER FORECAST

Tonight and Thursday unsettled; colder Thursday.

## Knocked From Bridge By Train

Injuries Slight

Knocked from the river bridge by a freight train and tumbled twenty feet or more into the sand and mud is not such a harrowing experience, judging from the condition of Mike Myles, a laborer, this morning. A black eye and a few minor bruises were the extent of his injuries.

Myles was sitting on the railroad bridge, half asleep, when a north-bound Denver freight crossed this morning. The engineer did not see the man in time to stop the train, and the pilot struck him amidships lifting him clear of the bridge and hurling him to the river bed below. The train was quickly stopped and the crew went to gather up the supposed mangled remains. They didn't because there wasn't any. Myles seemed a little the worse for wear, but lacked considerable of being dead.

He was brought to the Mackechny sanitarium, where Doctors Jones and Coons attended him. It was stated this morning that his injuries were very slight.

## ANOTHER TRIAL IN FEBRUARY

Beal Sneed Will be Tried at Vernon For the Killing of A. G. Boyce, Jr.

Fort Worth, Texas, Dec. 4.—Beal Sneed, acquitted of the charge of murdering Captain A. G. Boyce, again will face a jury of his peers in February. He then will be tried for the killing of Albert Boyce Jr., a son of the man for whose death he has just been acquitted.

There is speculation as to what effect, if any, yesterday's acquittal will have on the other trial. While legally there can be no reference to the case already disposed of, it is not denied that public sentiment has a good deal to do with the final outcome of cases in court, especially when they are of as-much note as are these.

The trial for the killing of Albert Boyce Jr. will be called at Vernon in Wilbarger county, during the February term of court. The date has not been announced.

Beach B. Epling, alleged to have been an accomplice in the killing of young Boyce and also indicted by a Potter county grand jury, will be tried at Memphis, Tenn. Judge A. J. Pires of Childress, who was present during the first two weeks of the trial just closed here, will represent Epling when his case is called for trial.

Epling is a tenant on one of Beal Sneed's ranches.

Sneed killed Albert Boyce in Amarillo the afternoon of Saturday, Sept. 14.

Word pictures of the effronter gaze of the old house dog caused one member of the jury to decide in favor of Beal Sneed, on trial for the killing of Captain Boyce.

This word picture was painted by Cone Johnson during his address to the jury, and the man who was touched by the simile was Weaver Birch, a native Mississippian, a farmer. He is married and has three children, two of them girls.

"I've got the best old dog in the world," said Birch last night, "and when Mr. Johnson told about us going home and all that, and mentioned the look in the eyes of that honest"

## CONDITIONS OF THE ARMISTICE

IT PROVIDES FOR OPENING OF PEACE NEGOTIATIONS IN LONDON ON DEC. 13TH.

### WAS SIGNED LAST NIGHT

Belligerent Armies to Remain in Positions They Now Occupy—Turkish Fortress not to be Revictualled

By Associated Press.  
Sofia, Dec. 4.—The peace plenipotentiaries representing Turkey, Bulgaria, Serbia and Montenegro, will begin their work in London on Friday of next week. The armistice signed at 8 o'clock last evening took the revised form drafted by Dr. S. Danoff, speaker of the Bulgarian parliament.

It contains the following conditions: First, The belligerent armies shall remain in the position they are at present occupying.

Second, The besieged Turkish fortresses shall not be revictualled. Third, The provisioning of the Bulgarian army in the field shall be carried out by way of the Black Sea, and Adrianople, commencing ten days of the signature of the armistice.

Fourth, The negotiations for peace shall begin in London on December 13.

It is officially announced that the Greek plenipotentiaries did not definitely reject the terms of the armistice but reserved their decision for twenty-four hours. Even in the event of their declining to approve the armistice protocol, Greece will participate in the peace negotiations.

### Ferdinand Returns Pasha's Sword.

By Associated Press.  
Sofia, Dec. 4.—King Ferdinand at Kirk-Killiseh on December 1, received General Dava Pasha, commander of the Turkish column which was captured near Dedeghatch. The king returned the general's sword to him, and told him he could reside where he chose in Bulgaria. The Turkish commander chose Sofia.

### Work of Turkish Red Crescent.

By Associated Press.  
Constantinople, Dec. 4.—The Turkish Red Crescent has collected and sent \$25,000 to the Turkish hospitals. Unfortunately the province of the society does not extend to cholera camps. As a result of overwork Miss Alt, who at one time was the only woman attendant in the cholera camp at San Stefano, has been brought to the British hospital here. It is not believed, however, that she is suffering from cholera.

### Dissension is Rumored.

London, Dec. 4.—The Vienna correspondent of the Chronicle asserts there is dissension between Serbia and Montenegro.

### Strict Censorship in Russia.

By Associated Press.  
London, Dec. 4.—The Russian press has been forbidden to publish any military or naval news without the censor's permission, according to an Odessa dispatch. The Russian gunboat Perot has been ordered to Cretdzron.

### Greece Wants Autonomous Macedonia.

By Associated Press.  
London, Dec. 4.—Discussing the question of Greek discontent the Sofia correspondent of the Post expresses the belief that the Greeks favor an autonomous Macedonia, and Thrace, because in the conquered territory, while the rural population is predominantly Bulgarian, in the towns especially near the coast the Greeks are stronger and the latter are carrying on a quiet but persistent agitation against Bulgarian rule in Macedonia.

### Russian Banks Make Loan to Bulgaria.

By Associated Press.  
St. Petersburg, Dec. 4.—It is reported three Russian banks have advanced Bulgaria five million dollars on easy terms and have consented to subscribe for part of the loan of eight millions, now being negotiated at Paris.

### Turks Agree to Discuss Cession of Adrianople and Jenina.

By Associated Press.  
Paris, Dec. 4.—While the Turks have refused to surrender Adrianople, Scutari and Jenina, they have agreed to discuss the cession of these places at the peace negotiations at London, according to a Sofia dispatch.

### Beer's Nomination Sent to Senate.

By Associated Press.  
Washington, Dec. 4.—President Taft today sent to the Senate the nomination of Phil E. Beer to be United States marshal for the Eastern district of Texas.

## Suffragettes Will Use Dynamite.

London, Dec. 4.—Militant suffragettes decided at a recent meeting to resort to the use of explosives if the government refuses to incorporate woman suffrage in the forthcoming bill, according to a news agency statement today. "Volunteers are to be called to use bombs, both inside and outside the House of Commons."

## FOUR INDICTMENTS BY GRAND JURY

Witness Who Refused to Testify and Was Profane Placed in Jail

Four indictments were returned by the grand jury this morning, the first report being submitted to Judge Martin. The bills were: L. T. Thomas, theft; W. F. Roark, theft; J. F. Bracher, robbery; Will Arisman, robbery. All four of the men are already in custody.

The grand jury yesterday afternoon reported to Judge Martin that a witness was refusing to testify before it, also that the witness was using profanity while appearing before it. Judge Martin instructed the sheriff to place the witness in jail until 10 o'clock this morning, after which time he was again taken before the grand jurors and gave his testimony.

Three divorce cases have been decided by Judge Martin, as follows: Mrs. Lila Somera vs Herbert J. Somera, divorce granted and custody of child awarded to plaintiff; William A. Monce vs Althea Monce, divorce granted; Sam Cavitt vs Mary Cavitt, divorce granted.

## BURLESON'S PLAN NOT APPROVED

COMMITTEE DOES NOT ENDORSE PROPOSAL TO MAKE EXPENSES OF CONGRESSMEN

### HOUSE TO PAY CLERKS

Supply Bill Contains Provision to Give Congressmen's Clerks all of Their Pay

By Associated Press.  
Washington, Dec. 4.—The first big supply bill in the present session of Congress, the legislative, executive and judicial appropriation bill, was reported to the House today. It carries \$34,897,105.

Estimates of the Secretary of the Treasury were cut more than a million dollars by the committee. As presented to the full committee, the bill contained a provision by Representative Burleson of Texas making former presidents members-at-large of the House with a salary of \$17,500, but a full committee disapproved and it was struck out.

The commerce court is not provided for in the measure. The court asked for \$5,500 for the year. The last bill gave the court just enough money to continue it to March of next year.

President-elect Wilson will probably get the regular annual allowance of \$25,000 for traveling expenses.

The committee included in the bill a provision putting the clerks of the members of the House on the House pay roll and paying them direct. At present members draw \$1500 a year for clerk hire and pay their own clerks. There has been much complaint that the full amount does not go to the clerks.

## RADICAL REFORM STRONGLY URGED

SEC. OF TREAS. WARNS CONGRESS OF DANGERS OF "UNREASONABLE AND UNSCIENTIFIC" BANKING

### IT PROMOTES PANICS

McVeagh Foresees Deficit of \$22,556,023 For Year Ending June 30, 1918

By Associated Press.  
Washington, Dec. 4.—Strongly urging radical reform of the "unreasonable and unscientific" banking and currency system of the United States, Franklin MacVeagh, Secretary of the Treasury, freely warns Congress in his annual report—submitted today that the federal government, as long as the present scheme exists, will be exclusively responsible for the commercial, industrial and social disasters which flow from panics and attack, directly or indirectly, every home in the nation.

The present system promotes and develops panics and the need of legislation is urgent, declared Mr. MacVeagh, in outlining his idea of the necessary general provisions of an adequate reform measure. Aside from affording flexible and elastic currency and reserves, such a revision, he says, should bring the banks into organized co-operation and provide for a central agency through which they could work together, free of political or trust control.

According to the estimates of the Treasury Department, the secretary foresees a deficit of \$22,556,023 exclusive of Panama Canal expenditures, for the fiscal year ending June 30, 1914, the first fiscal year of President Wilson's administration. Including the Canal expenses, the deficit is estimated at \$27,730,455. The canal expenditures, he adds, however, may be paid under the law from bond sales. The estimated receipts for that year are \$710,000,000, while the ordinary appropriations are estimated at \$732,554,023, and the canal expenditures at \$30,374,432. Undoubtedly having probable tariff revision in mind, the secretary announces that these estimates are based upon present conditions and laws.

For the current fiscal year, ending June 30, 1913, Mr. MacVeagh estimates that there will be a surplus of \$40,200,000, exclusive of Panama Canal expenditures and a deficit of \$1,800,000, including the canal transactions. He estimates receipts for this year at \$711,000,000 and ordinary disbursements at \$670,000,000.

In connection with financial reform, Mr. MacVeagh says the people are helpless under existing evils. The present system never permits freedom of action at any time, because its liability to sudden constraint and restriction is always a part of the nation's financial consciousness.

"There never is a time," continues the Secretary of the Treasury, "when there is any long look ahead; except when we are in the midst of a panic when there is a long look of disaster ahead. There is never a long look of ease and convenience and prosperity ahead."

In the crop moving season, Mr. MacVeagh points out, there is a special stress and restraint and the secretary found an object lesson in the condition during the past autumn when the banks were called upon to finance the movement of record breaking crops, necessitating the employment of nearly all of their available resources under our constricting system.

"This relief which is so urgently needed by the legitimate business and enterprise of our people," he adds, "is not relief from a financial situation built up by a financial world itself, but is from a system and conditions superintended by the government, and forced upon the business community and upon American society. The banking and currency system is the product of federal law, and there can be no relief from it until Congress acts. And this is why Congressional action is urgent."

Pointing out that the banks, fortunately had been able to finance the crop movement of the past autumn unaided by the government, the secretary says that the anomalous relation between the Treasury Department and the general financial world is a part of the system to be reformed. He added: "Taking large sums of actual money out of the ordinary financial use and locking it up as a dead mass in the vaults of the Treasury is a proceeding an unscientific and unreasoned as any other part of our unreasoned and unscientific banking and currency system."

A relief measure reforming the banking and currency system, the secretary declares, "must include among its necessary features, provisions for"

D. P. Talley, who has been untiring in his efforts to bring the Meridian Road through Wichita Falls, and now that he with others has succeeded, is keeping up his efforts to have the road through the county repaired and maintained so that the route will not be changed, sends The Times a clipping that has been taken to improve the highways in the State of Maine. In this movement Governor Plaisted and other officials participated and state funds were appropriated.

Referring to this action Mr. Talley said: "If the State of Maine could afford to take such action as this, with its Governor at the head of the movement, certainly Wichita county should devise some plan for at least keeping dragged every mile of the Meridian Road through this county, and see that its approaches to bridges and the culverts are kept in first class condition."

The dispatch in reference to the movement in Maine follows: "Portland, Me.—As a result of a conference held at the Falmouth hotel yesterday among prominent state officials, work will be started immediately to improve the state highways in an effort to prevent the motorists visiting New England side-tracking Maine in their journeys as they have in the past because the roads leading to the state from the New Hampshire line have been among the poorest stretches in New England. This has lost the state much money in the past.

The conference lasted 3 hours and every phase of the matter was thoroughly discussed. As a result Governor Plaisted has recommended to his council that the road between Bridgeton and Fryburg be put in shape immediately, the amount required being between \$10,000 and \$15,000 a portion of which will be paid by the two towns under the new law. This will mean that the important artery of travel leading to and from the White mountains in New Hampshire will be improved immediately. New Hampshire has its share of the road in fine shape and when the Maine portion is finished it will mean a fine road from Bretton Woods to Portland, by way of Poland Springs.

Governor Plaisted expressed himself as being heartily in favor of a patrol system for the roads whereby a certain number of miles be allotted to a caretaker who would make daily trips over the stretch and note its condition and make reports so that breaks could be easily repaired before they become extensive. New Hampshire is going to adopt this system.

### LAWTON ACCEPTS RINGLING'S PROPOSAL.

(Lawton Star)  
At a fairly well attended citizens meeting last night in the city hall, the members voted in favor of accepting the Ringling-Hamon contract to build a railroad from Ardmore to Lawton; no votes were cast against it although a number did not vote. There were about 60 present.

The committee appointed Saturday night reported, recommending the acceptance of the Ringling contract. By motion it was decided to appoint a committee of ten to get the contract and notes signed by citizens of Lawton looking to the carrying out of the terms of the contract. Appointment of the committee was deferred until today.

This action was made not to the exclusion of the Robertson road, but with the understanding that if it be built, the city will accept both lines and pay the bonuses.

The subject was quite thoroughly discussed. Messrs. Lloyd, Hamon, Hadley, McLennan, Fullerton, Gross, Doak, Pruitt and others favoring the adoption of the committee report, which in effect was the adoption of the Ringling contract. R. L. Robertson made some vigorous statements, implying bad faith on the part of Messrs. Hamon and Ringling, and that their efforts were being exerted in the interests of the Frisco-Rick Island companies, for the purpose of keeping a competing line out of Lawton. It was the sense of those present that above all things, Lawton wanted a road or two roads, and not to antagonize either the Ringling or Robertson interests, or show partiality for or against either party.

### ANOTHER TRIAL IN FEBRUARY

(Continued from page 1)

old dog who had been watching your home while you are away, and I thought of the right of every man to protect his home, I decided right then and there that I couldn't say 'Hang Mr. Sneed.'

"I have no home. The doors of that house at Amarillo are locked and the windows are barred, and the only sound to be heard there is the bleak wind from over the wide prairie of the Panhandle, howling around the corners. A roof and walls do not make a home, and that is all that is. They have taken my home from me," said Mrs. A. G. Boyce last night.

The frail form of the widow, garbed in deepest black, was a pathetic picture, as she told of the result of the two tragedies within less than a year.

"I am going to leave in the morning for Winchell, Texas," she said, "to visit a sister of my dead husband and after that I will go to Austin and visit relatives for a while. I don't think I ever will live in the house at Amarillo—it is less like a home than any place on earth to me.

"I—I am dazed—stunned. Just like it was when they told me that my husband—and that my son—"

She choked back a sob and with a black-bordered handkerchief, wiped away the tears that filled her eyes.

"I can't seem to realize it," she said.

"Oh, I don't know what those twelve men could be thinking of. They looked like good honest men, too. I don't know. I don't know."

And the look in the eyes of this dear, old, motherly woman, who was indeed a woman without a home, was one that caused a lump to rise in the throat of her hearers.

And, ringing in their ears as they hastened away, they heard:

"Oh, I have no home—no home."

**THE BEST PROOF.**  
Wichita Falls Citizens Cannot Doubt It.

Doan's Kidney Pills were used—they cured.

The story was told to Wichita Falls residents.

Time has strengthened the evidence.

Has proven the cure permanent.

The testimony is home testimony.

The proof convincing.

It can be investigated by Wichita Falls residents.

R. F. Redin, Avenue A, Wichita Falls, Texas, says: "My back bothered me for two or three years and the spells often came on without warning. I was so lame across the small of my back that I could hardly bend.

My kidneys became disordered and the kidney secretions were too frequent in passage, causing me annoyance. I finally got a box of Doan's Kidney Pills and began their use.

They cured me and I have not felt a return of the symptoms since."

The above statement was given June 19, 1908 and when Mr. Redin was interviewed on December 27, 1911 he added: "When occasion requires a kidney medicine we always use Doan's Kidney Pills and know that they will act quickly in bringing relief. You are at liberty to use my statement as heretofore. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

### CHARTER DRAFT TO COMMITTEE

(Continued from Page 1)

The salary of the mayor is fixed at \$1200 annually and that of each of the commissioners at \$500 annually. The mayor will head the department of public affairs and public safety and will have charge of the police and fire departments and be chairman of the commission.

The commissioner of health and sanitation will have control over the enforcement of the health and sanitation ordinances; city hospital, sewer, quarantine, food inspection and water supply.

The commissioner of finance and revenue will be in charge of the city's receipts, taxes, record, bonds, auditing and printing.

The commissioner of public highways will look after all streets and sidewalks and their improvements.

The commissioner of public buildings, parks, lights and civic beauty will have control over water and light contracts, water works, lights, parks, the city pound and all public buildings, including recommendations for new structures.

Chapter III of the commissioner charter relates to the workings of the board of commissioners: it is to meet on Tuesday mornings at 9 a. m. from May to November and on Tuesday evenings at 7:30 from November to May. All sessions are to be public, save that when the removal of an employe is contemplated, the board may discuss the matter privately, but must vote on the matter in open session. Vacancies are to be filled by special elections. If a commissioner absents himself from the city for more than fifteen days without leave of absence, his seat is vacated. Four members constitute a quorum and all members must vote on every ordinance.

Chapter IV names the other officers, which are to be a city attorney, assessor and collector, health officer and city engineer. These are to be elected by the commission but the present officers will be allowed to serve out their terms if they desire. No city marshal is provided for; the mayor as head of the police department, has power to appoint someone to head the force, however.

There are to be five park directors, and both men and women are eligible. This board has unusual powers for such an organization, and the commission can pass no ordinance relating to parks or other matters within the board's jurisdiction without the recommendation of the board.

A "city plan" is provided for and the commissioners have power to employ an expert for this work. Myles O'Reilly secured the approval of the committee for this provision.

Chapter V fixes the police powers of the city, and includes all the powers now conferred, and a great many more. The powers with reference to food and water supply and health and sanitation, the meat supply, nuisances, sewer connections fruit and vegetable display and numerous other points are covered. The city is empowered to establish a public slaughter house if deemed expedient. The inspection ordinances cover the inspection of even whiskey.

The remaining sections deal with taxation, annual budget and tax levy and other matters, and were discussed only in a general way last night. The budget provision was not adopted finally, but probably will be. The tax rate is fixed at \$1.25 to be divided as follows:

For general purposes, 45 cents, of which five cents shall be a park fund; for park bonds, 5 cents; for street building and sewer bonds, 25 cents; for street lighting and fire hydrant bonds, 5 cents; for water works bonds, 30 cents; for street improvement, 15 cents.

The remaining provisions will be discussed at Friday night's meeting.

Jefferson—Several thousand tons of iron have been mined from the deposits north of this city and the owners will start shipping the ore at an early date.

### CARDUI WORKED LIKE A CHARM

After Operation Failed to Help, Cardui Worked Like a Charm.

Jonesville, S. C.—"I suffered with womanly trouble," writes Mrs. J. S. Kendrick, in a letter from this place, "and at times, I could not bear to stand on my feet. The doctor said I would never be any better, and that I would have to have an operation, or I would have a cancer."

I went to the hospital, and they operated on me, but I got no better. They said medicines would do me no good, and I thought I would have to die.

At last I tried Cardui, and began to improve, so I continued using it. Now, I am well, and can do my own work. I don't feel any pains.

Cardui worked like a charm. There must be merit in this purely vegetable, tonic remedy, for women—Cardui—for it has been in successful use for more than 50 years, for the treatment of womanly weakness and disease.

Please try it, for your troubles. N. B.—Write for Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for literature, instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request.

### RADICAL REFORM STRONGLY URGED

(Continued From Page One)

never falling reserves and never falling currency, and for the perfect elasticity and flexibility of both; for the permanent organization and organized co-operation of the bank which are now suffering and causing the nation to suffer by reason of the unorganized state; for a central agency, to represent and act for the organized and co-operative banks—this agency to be securely free from political or trust control, but with the government having adequate and intimate supervision of it; for independent banking units—so independent that no one bank can be owned, controlled or shared in in any degree, directly or indirectly, by any other bank; for the equality of all banks, national or state, both as to standards and as to functions—so that every requirement made of a national bank must be complied with equally by a state bank, and every function or privilege enjoyed by a state bank shall be enjoyed by a national bank; for the utilization and the fluidity of bank assets; for the scientific development of exchanges—domestic and foreign; for foreign banking as an adjunct of our foreign commerce; and for taking the Treasury Department out of the banking business.

Discussing customs reforms, Secretary MacVeagh says that widespread exposures by the present administration of frauds have resulted in an annual saving to the government of more than \$10,000,000, "undoubtedly an underestimate."

To show that incoming travellers are now more honestly declaring their baggage as the result of reforms, the secretary points out that at New York alone the revenue from travellers' imports have increased from a yearly average of \$800,000 for the previous administration to about \$2,100,000 in 1912. The class of frauds, he says, had been not only conspicuous, but almost defended.

Regarding the proposed investigation of the Board of General Appraisers at New York by a commission appointed by President Taft, Secretary MacVeagh says the board has drifted from its original institution as a board of customs review within the Treasury Department to a quasi-independence as a court outside of it. The Department, he adds, needs a board of general appraisers within the department to supervise and unify the appraising work of the country.

Officers and surveyors of customs, naval officers, appraisers and assistant appraisers, collectors of internal revenue and all like officials of the Treasury Department whose appointment requires confirmation by the Senate be transferred to the classified civil service. Complete separation of the Treasury service, especially the classified part of it from practical politics, is recommended by the secretary.

The abolition of all assay offices in the country, except the one at New York, is urged by Mr. MacVeagh. All assay work, he adds, should be done at New York or at the mint.

Secretary MacVeagh announces his intention of reforming the Treasury Department's business methods by a scheme for the payment of government obligations in such a manner as to avoid exchange on government checks. He does not divulge the details but apparently contemplates the distribution of government funds at convenient points over the country for the payment of checks. He points out that pension checks, for example in many instances are not really worth their face value because the difficulties of collection enforce an exchange charge.

Other recommendations by the secretary include: Construction of four revenue cutters and a building program of at least two cutters yearly in the future; power presses for the bureau of engraving and printing; retirement pension for civil service employes; complete revision of the oleomargarine law; legislation for the prevention of the opium traffic; and the creation of a bureau to supervise the expression of laws, co-operating with Congress to make their meaning plain to executive officials who enforce them.

Here's hoping that in the event President Taft's nerve fails him in the "canning" business that President-elect Wilson will take up the work where Taft left off and make a clean sweep of it.

The town or city that is without a commercial club, board of trade or similar organization in this day and time cannot be considered in the list of "live-wire" towns. Such organizations have come to stay.

If the Boys' Cotton Clubs start experimenting with the growing of long staple cotton the ginners here will have to equip their plants to take care of it, for just as certain as the boys take up the proposition they are going to raise it. A few others have already been successful, with small tracts and when the boys apply their scientific methods they are going to be even more successful.

The M. K. & T. Railway Company has filed application with the State Railroad Commission for reduced rates on glass fruit jars from Wichita Falls to points within the State. It is believed the rates asked for will be granted without delay. This is one of the conditions upon which Ball Brothers plant will locate in Wichita Falls.

Wichita Falls needs many things, but nothing more right now than a new city charter—one that will fit a city of from 25,000 to 50,000 population. The city has outgrown the present charter and can't make much progress unless a new charter is obtained. As to whether the new charter shall provide for an aldermanic or a commission form of government will be a matter for the people to decide themselves.

The "perniciousness" of political activity in Texas seems to be wholly with regard to which side the activity was on. But all republicans will have been guilty of "pernicious activity" after March 4.—Denton Record and Chronicle.

The revised edition of the Bible gotten out by the American Baptist Society contains many changes, not the least of them being that the word "hell" is entirely eliminated and in its place is substituted the word "underworld." So, in the future when one wants to extend an invitation to knockers and tight-wads he can make use of the softer term, provided of course, he finds that it is expressive enough and will do justice to the subject under discussion.

Volume 1 No. 1 of the Electra Daily News reached The Times' exchange table today. This is the second daily paper for Electra, both of the "free circulation variety, and were it not for the fact that one of them, the News, has an "angel" behind it, The Times would predict that both would soon cease to exist. To publish a daily paper at all in a small town or city is a job that requires lots of energy and some capital, but when the publisher proposes to give the paper away he by all means ought to have not one, but a

### IN THE BERMUDAS

Even if Mr. Wilson does threaten to thrash a photograph now and then, he probably is fitting the Bermuda gulf stream New Jersey. Twenty-four hours the Steamship Bermudian, on the President-elect sailed, had left the November air of New York warm waters of the gulf stream tempered the air to the softness of spring. The cold and turbid Atlantic underwent a fascinating change, an became the brilliant changeable water of the South.

Bermudas lie just forty-five hours New York City. The first glimpse as of a garden, a reefy line of islands suspended from the blue of sky to the blue of the deep below. Once inside the reefs, the air more calm and clear, and you down from the ship's deck into depths of the sea, so transparent water. There are strange fish of (tropical) colors, like gorgeous birds ting about in a tropical forest of like seaweed. The ship sails on a coast whose green, rolling slopes dotted with white coral stone houses. You catch glimpses of garden paths and farms. It is a summer land in the midst of a summer sea.

The Bermuda Islands, you will find says the Kansas City Star, are not the West Indies. They are about an hundred miles south and east New York, and some six hundred east of Cape Hatteras. They are closer to New York than to the West Indies.

The first thing that strikes the visitors on going ashore is the atmosphere of the place. The stone base on which these bits of paradise rest makes the building of a road easy, and the system of highways that traverses all the islands is not surpassed even by the roads of France. The islands are British possessions, and the government has wisely prohibited by law the importation of motor cars and cycles. There is no noise, and the tourist gets about quietly and peacefully by riding horseback, driving or bicycling. Governor Wilson has always included bicycling as chief among his recreations, and in pedaling along the firm, smooth roadways will have the beauties of the place unfolded to him.

There is also golf under ideal conditions, fine bathing, tennis, sailing, boating and fishing and above and around all glorious sunshine and health-giving air.

The frost that sometimes swoops down on Florida and our own winter resorts in the South is absolutely unknown in Bermuda. The temperature is almost springlike, not only when the North is covered with ice and snow, but also when our Northern cities are scorching in summer. It varies only a few degrees the year round.

Bermuda, apart from its interest as a recreation place, is famous for its Easter lilies, its onions and potatoes. One sees the great fields of lilies being cultivated for New York and Eastern markets. Their perfume is carried miles by the breezes. Onions

deceased: Henry Bradford, Chillicothe, vice J. W. Heedy, term expired; Cora E. Antram, Nocona, vice Wm. E. Merritt, term expired. All of these appointments are in the 13th Congressional district.

One draft of the proposed new city charter provides for the inspection of whiskies. We know of several men who could qualify as inspectors.

## FARMERS LEAVE FOR DALE RANCH

District Union Convention Adjourns and Wichita County Union Convenes near Mabledean

The district convention of Farmers' Union interests adjourned yesterday afternoon, after being in session here two days. The time was taken up with routine business matters in connection with the operation of the clinics, warehouses and clearing houses in the counties represented. One new county was added to the district, Cooke being taken in.

Next year will probably witness the taking over of a number of the warehouse as parts of the National Warehouse System, which the Farmers' Union is fostering. Warehouses at Bowie and Nocona were taken over last week and during next year the local warehouses and others in this section will doubtless become parts of the national system. This will result in little change in operation and management, but will make the storers of cotton share-holders in the larger organization.

This afternoon and this morning a number of the members went to Mabledean, where vehicles met them to take them to the Dale ranch, where a county union meeting is being held today and tomorrow. The west half of Clay county has affiliated with Wichita county's organization.

There are hopes for having Fort Worth selected as the national headquarters for the warehouse association, as it is felt that Texas, the greatest cotton State, should have the general offices in one of its cities.

### For the Kiddies After School

Give the kiddies Velva on bread, after school. They'll love it, because it's good, because it's flavory, because it satisfies the hunger for sweets that every child has. Besides, it will do them good, because it's nutritious.

Chocolate Taffy  
1/2 cupful Red Velva Syrup, 1 cupful sugar, 1/2 cupful milk, 1/2 cupful butter, 1/2 lb. bitter chocolate, 1/2 teaspoonful almond extract. Put Syrup into a pan, add chocolate, butter, milk and sugar; boil steadily 20 minutes, stirring now and then. Add extract, pour into a buttered tin.

is that better syrup with the RED LABEL—a clean, sanitary package that ought to be on every pantry shelf. It's fine for desserts and great for cake. It helps wonderfully on griddle cakes, waffles or hot biscuit. In the green cans, too. If you prefer it, both kinds 10 cents up. Send for the book of Velva recipes. Nothing to pay.

## Kirschbaum Clothes \$15, \$20 and \$25

### No Guesswork About Kirschbaum Clothes

A lot of men "guess" about their clothes. Small wonder, for a lot of clothiers guess, too. And the guesser usually gets stuck.

There's no guesswork about the Kirschbaum clothes—that's why we have them here, and why we unqualifiedly recommend them to you.

Every piece of fabric is acid-test all wool. Every yard is shrunk to the limit—not by the woolen mills, mind you, but by the people who make the clothes. Every gar-

### SCHEDULE OF RATES FOR PARCELS' POST

Circular Received Giving Instructions Concerning Articles That Can Be Transported, Etc.

The new parcels post law becomes effective January 1, and Postmaster Bacon has received from the postmaster general a circular giving the rate on packages to be carried certain distances.

The circular says: The parcels post law which becomes effective January 1, 1913, provides:

"That hereafter fourth-class mail matter shall embrace all other matter, including farm and factory products, not now embraced by law in either the first, second, or third class, not exceeding eleven pounds in weight, not greater in size than seventy-two inch in form or kind likely to injure the person of any postal employee or damage the mail equipment or other mail matter and not of a character perishable within a period reasonably required for transportation and delivery."

For the purpose of carrying this law into effect the United States is divided into zones with different rates of postage applicable to each, as follows:

The local rate is applicable to parcels intended for delivery at the office or mailing or on a rural route starting therefrom.

It will be observed that the rates of postage are largely reduced and that the limit of weight is increased from four to eleven pounds. Parcels will be delivered at all free-delivery offices and to patrons residing on rural and star routes; they may be registered and may be accorded special delivery service on payment of the usual fees, and they may be insured against loss in an amount equivalent to their actual value, but not to exceed \$25, upon payment of a fee of five cents. Distinctive stamps must be used on all parcels, but they may be mailed in quantities of not less than 2,000 identical pieces without stamps affixed, the postage being paid in money.

### FOR CONSTIPATION

A Medicine That Does Not Cost Anything Unless It Cures.

The active medicinal ingredient of Rexall Orderlies which is odorless, tasteless and colorless is a comparatively new discovery. Combined with other extremely valuable ingredients it forms a perfect bowel regulator, intestinal invigorator and strengthener. Rexall Orderlies are eaten like candy and are notable for their agreeableness to the palate and gentleness of action. They do not cause griping or any disagreeable effect or inconvenience.

Unlike other preparations for a like purpose, they do not create a habit, but instead they act to overcome the cause of habit acquired through the use of ordinary laxatives cathartics and harsh physic and permanently remove the cause of constipation or irregular bowel action.

We will refund your money without argument if they do not do as we say they will. Two sizes, 25 cents and 10 cents. Sold only at our store—The Rexall Store, Foshue & Lynch Drug Store. (Adv.)

Bryan—At the instigation of A. B. Carson, city engineer, a movement has been started toward paving the main street of the city on the co-operation plan. The city will pay one-third and the property owners on each side of the thoroughfare will pay one-third.

### Drives Off a Terror.

The chief executioner of death in the winter and spring months is pneumonia. Its advance agents are colds and grip. In any attack by one of these maladies the best medicine obtainable to drive it off. Countless thousands have found this to be Dr. King's New Discovery. "My husband believes it has kept him from having pneumonia three or four times," writes Mrs. George W. Place, Rawsonville, Va., "and for coughs, colds and croup we have never found its equal." Guaranteed for all bronchial affections. Price 50 cents and \$1.00. Trial bottle free at all druggists. (Adv.)

### WOMEN JURORS BEGIN SERVICE WITH PRAYER

First They Ordered Cuspidors Removed from Box in Kansas Courthouse

El Dorado, Kan., Dec. 4.—When the first women's jury in a Kansas court of record entered the jury room to begin its duties, the twelve paused, a trifle uncertain as to the first move.

"I believe we should pray," one juror said. So the twelve women jurors bowed their heads in silent prayer. Then one juror led in a spoken supplication for guidance. The jury elected its oldest member foreman, or rather forewoman. Mrs. Hattie Riley, the white haired, kindly woman who was given the distinction of being the first Kansas woman to sign a jury verdict, has lived in El Dorado nearly forty years.

"It seemed as if all of the twelve women were talking at once," one of the jurors confessed today. "But we were terribly in earnest. We had respected the judge's instructions and for three days had not spoken a word about that case. We paid a great deal of attention to the court's instructions touching the evidence."

The case went to the jury at 8 o'clock. Exactly three hours later they reached a verdict. It awarded the plaintiff \$1,200 damages, based on the alleged misrepresentation of the quarter section of land in Grove county.

A year ago the same case was tried before a jury of men. The women went at once to the clerk's office to claim their jury fees of \$4 each.

Some of the jurors wore their hats throughout the trial. Their first act was to request the removal of spittoons from the jury box.

J. F. Darby, court reporter for twelve years, said that the women followed the evidence with more interest than had ever been shown by a jury of men.

"There is a valuable lesson in jury service," Mrs. Foulks, one of the jurors, explained. "It should be a cure for forming hasty opinions and snap judgments. I believe any woman who has felt the tremendous

"No jury ever showed truer appreciation of its responsibilities," said Judge Aikman, who summoned the woman jury and who has been a district judge for twelve years.

CHRISTMAS

is a magic word that brings gladness, good cheer, peace and good will to men. It brings back pictures of the past and is the milestone that marks the way back to childhood's innocent days when it meant new toys and a visit from good old Santa. Who can't remember Christmas morning when our longest stockings were stuffed with trinkets that made our childish hearts glad.

We are all children and the only difference in us is that some of us have come from further up the stream of years than others. A few days more brings another Christmas and the buying of gifts for friends and loved ones will occupy our thoughts. We are showing the best that money will buy in gift goods. Quality was our foremost thought when selecting these goods. We have bought goods of a quality that will represent in intrinsic value the friendship and regard of the giver.

have advanced 80 per cent in the last ten years. There is no better investment, nothing will take the place of a DIAMOND. For sentiment and intrinsic value it never grows old, but is more valuable as years go by.

Our goods are figured as close as possible. That's why we sell the goods. Quality and the right price is to what we owe our large trade. See our goods and you will purchase.

The Best Christmas Gift the World Over is a

DIAMOND

Their beauty, their intrinsic value, and the fact that they are constantly increasing in value, make them not only the most valued gift, but the most economical as well.

For this Christmas we are showing an assortment of diamond studded jewelry and unmounted stones that is not surpassed even in the largest cities, and the way we buy them—either for cash or from the cutter, or as unredeemed pledges—enables us to sell them so much cheaper than any other firm in the city that it is well worth your while to investigate before you buy.

Our absolute guarantee and our offer to loan up to 90 per cent of the price goes with every stone we sell.

RYAN DISPLAYS SURPRISING IGNORANCE

Associated Press  
Indianapolis, Ind., Dec. 4.—"When you learned through letters that Philip Cooley had knocked a man in New Orleans the man had to have a silver plate put in his head did you take any steps to have Cooley removed as a member of the Union's executive board?" was one of the questions put to Frank M. Ryan, president of the Iron Workers during his cross examination in the dynamite trial today.

Ryan said, "All I learned was that Cooley had been in trouble. I took no steps to learn the facts."

"Cooley wrote, he had fixed things with the court and had hired two witnesses to testify falsely so that he would escape jail. Did you take any actions about that?" Ryan was asked. "I did not."

Ryan denied any knowledge of any plans by Cooley to arrange for explosion in non-union jobs at Houston and other southern points. The trend of the cross examination was as to whether he, as head of the union, sanctioned violence which the government-alleges preceded a dynamite campaign in labor disputes.

Could Shout For Joy.

"I want to thank you from the bottom of my heart," wrote C. B. Kader of Lewisburg, W. Va., "for the wonderful double benefit I get from Electric Bitters, in curing me of both a severe case of stomach trouble and of rheumatism, from which I had been an almost helpless sufferer for ten years. It suited my case as though made just for me." For dyspepsia, indigestion, jaundice and to rid the system of kidney poisons that cause

rheumatism, Electric Bitters have no equal. Try them. Every bottle is guaranteed to satisfy. Only 50 cents at all druggists. (Adv.)

Austin—The 1913 budget of this city contemplates extensive improvements and provides for a \$100,000 city market, \$25,000 altair, new public library, a new city park, increase in police force, motor truck for fire department, \$100,000 sewer improvements and better lighting facilities.

and it is only reasonable then that a good complexion enhances the natural beauty of any woman, while blemishes, sallow skin and wrinkles will soon destroy feminine charms.

We have many beauty aids, all of which work in nature's way and the results are a little short of magical. They eradicate wrinkles, sallow skin and insure a clear, fresh, velvety complexion with all of the charms which this applies. Our cold creams are composed of sweet, vegetable oils, daintily prepared without drugs, making them absolutely harmless and enabling any woman to retain her beauty years and years longer than she otherwise could.

FONVILLE'S DIAMONDS

They Are the Acme of Beauty and Value

The giving of a diamond is an act of love and esteem. Diamonds are the emblems of purity and because they are the most admired and loved of all precious jewels. The Fonville stock is bought with the idea of securing the best qualities. It is sold with the idea of giving you the greatest possible value.

During our ten years of steady growth the people of Wichita county and neighboring counties have come to learn of our methods, and they are daily showing their approval with increased patronage.

So well have these facts become known that gift buyers in general know that by purchasing here they pay the recipient a special compliment. The name Fonville on the box adds much in prestige, but nothing in cost. You are most cordially invited to visit our DIAMOND DEPARTMENT. Prompt service and courteous treatment await you there. Such a visit will in no way oblige you to buy. Special values—\$25.00, \$50.00, \$75.00, \$100.00 \$115.00, \$150.00.

What we say it is, it is!

NOT OFTEN

It's seldom that you have a chance to buy genuine Michigan Sweet Cider, Boiled Cider and Apple Cider Jelly

We have received direct from the orchards of Michigan a shipment of these goods, and they are "as fine as silk." Cider Jelly is entirely different than anything else in this line and Southern Michigan and Northern Ohio is the only section we know of where it is produced. There is nothing as good to serve with meats. If you know what it is, we've said enough. If you don't, you have overlooked a bet. You will want some boiled cider for your Holiday cookery. Order the sweet cider while it's fresh.
