ENABLING ACT PASSES IN HOUSE

(Continued from Page 1)

Schwegan introduced a bill extending the time in which corporations may pay their franchise taxes. The House adopted a resolution to purchase 152 copies of the Texas Constitution, annotated by Assistant Attorney General Harris, for the use of legislators and accredited newspaper men. The House adopted a resolution by Morris of Victoria asking Congress to extend the benefits of the parcels post to executive and state documents to aid state libraries in the exchange of state papers.

Consideration then began on the Kennedy bill creating a state tax commission of three members to be paid \$5 a day while at work to investigate fully all tax laws, and report to the legislature a system of laws advisable for taxes. There was strenuous opposition to this bill. The Senate committee on senatorial districts today appointed a subcommittee of Senators Nugent, Morrow, Taylor, Weinert and Watson to draft a senatorial district bill. The subcommittee is to report to the full committee not later than next Tuesday. It is said senatorial redistricting will be pushed at once.

The Senate marked time this morning an hour and fifteen minutes awaiting a quorum. After the quorum arrived, a resolution by Morrow was adopted providing that next Tuesday after the morning call, resolutions

carrying constitutional amendments to be submitted shall have preference over all other matters. Morrow's idea seems to be to give special consideration to the amendments affecting the educational institutions. The H. & T. C. bill passed to third reading. Senator Kaufman secured the engrossment of his joint resolution proposing to authorize gulf counties to build sea walls. Vaughan's bill requiring all liquor dealers to file an annual report with the controller, showing the ownership of their business, and all contributions made for political purposes, was passed finally with an amendment accepted by Vaughan, removing the venue of suits from Travis county.

Nugent's bill permitting the deposit of irrigation drainage and levee bonds with state bank depositories on equal terms with United States bonds, was passed. New bills included one by Weinert, Carter, Murray and Palus, providing for the creation and incorporation of rural credit unions. There was also a bill by Johnson reorganizing the Forty-sixth, Forty-seventh and Fiftieth judicial districts and creating the Seventy-sixth judicial district.

WEALTHY LOUISIANAN HELD ON SERIOUS CHARGE. Jackson, Miss., March 15.—C. F. Schwartz, 73 years old, a wealthy lumber dealer of Monroe, La., but registering here from St. Louis, was arrested in this city tonight on a charge of abducting a 15 year old girl whose name is withheld. She is said to have been found in a local hotel where the police alleged the aged man placed her. Schwartz was released under \$1000 bond.

2 MORE BIG WELLS IN AT ELECTRA

BICKLEY NO. 14 AND BYWATERS NO. 4 SWELL PRODUCTION ABOUT 1600 BARRELS

OTHER NOTES OF FIELD

Week Brought Nothing Exciting at Petrolia or Burkburnett.

Two late completions by the Producers company at Electra feature the new production report for the past week. The completions were No. 14 Bickley and No. 4 of the Bywaters lease No. 2, each being good to about 800 barrels. The Bickley well is an offset to the Corsicana No. 33 Honaker, which started off at 1500 barrels. It is in the 1500 sand. The Bywaters well, in the 1900 foot stuff these two wells with Honaker 13, are the best the field has yet seen 700 barrels being the largest initial production up to the time the Honaker was drilled in. The completions go to swell the daily production average, which had dropped to 15,000 barrels, considerably above the 17,000 barrel mark.

There was much disappointment over the failure of the Marrus (O'Brien) well to show up for any Company's well to show up for any well in the 1600 foot sand which had looked so promising, as the early indications were for a good well. The well is now being drilled deeper and is near the 1800 foot mark.

Owen and Wilson lost their hole on Ferguson No. 1, dropping some tools. They have resumed pumping the well. It is said this firm will put up a standard rig about two locations distant from No. 1 and go after the deeper stuff again. There are three star rigs drilling in that vicinity but the No. 1 which was to test the deeper strata, dropped some tools at 250 feet and after vainly fishing for two weeks, was given up as hopeless.

Neither Burkburnett nor Petrolia came to the front with any new production of interest, though several wells in the former field are due to reach the sand this week. The Sun Company's well on the Stone is 1750 feet. The Guffey is down 1400 feet in the Smith and about 1100 on the Rober. Two of the Corsicana's wells in the immediate vicinity of the discovery well are among the early scheduled completions.

The water was successfully shut off on the Interstate's No. 3 Borchardt and the well is now making about 25 barrels per day.

The Producers company has made a location of Petrolia to offset the Bickley No. 4 and the rig is up. Plans are looking ripe for a line fight between the Developers and Producers along the edge of the Byers tract and neither side appears to be wasting any time.

Corsicana No. 1 Warner has been abandoned at 2210 feet and Producers No. 1 Miller has been abandoned at 2200.

OLNEY DECLINES AMBASSADORSHIP

By Associated Press. Washington, March 15.—Richard Olney of Boston, to whom President Wilson offered the post of ambassador to Great Britain, has declined. His letter of refusal was received at the White House today and was said to be based on business and personal grounds.

Others Mentioned For Post. Anxious to fill the ambassadorship of Great Britain, the president probably will make an appointment within a few days, but it is said he has not yet definitely decided upon any individual. He is said to favor a man of literary as well as diplomatic reputation. Those mentioned for the post include David H. Francis of Missouri, Thomas Nelson Page of Virginia, Augustus Thomas of New York, Judge George Gray of Delaware, William Church Osborne of New York and Edwin A. Alderman, president of the University of Virginia.

In Conference With McCombs. Chairman William F. McCombs of the democratic national committee today told the president some of the details of the pro-convention fight in various states. Although President Wilson is not making his appointments on the basis of pro-convention support, it was said that the alignments of divided democracy before the Baltimore convention was a better indication of what democrats were progressive than in the campaign that followed when the standard bearers were given united support everywhere. The president will be in frequent conference with Mr. McCombs until some of the most important appointments are disposed of.

LIGHTWEIGHTS BATTLE FOR TWENTY ROUNDS

Fight Between Knockout Brown and Bud Anderson Was Fierce Affair

By Associated Press. Los Angeles, March 15.—In one of the fiercest light weight fights ever seen in the Vernon arena, Bud Anderson of Vancouver and Knockout Brown of New York battled twenty rounds to a draw this afternoon. Both boys took great punishment. In the seventh and twelfth rounds, Anderson had Brown almost out, but in the twentieth the New Yorker had his opponent in the same condition. The well saved Anderson from a probable knockout.

DRILLERS DOWN TO REAL WORK

LEAVE SNARES OF CITY TO START TRAINING AT LAKE WICHITA

TWENTY IN THE SQUAD

Kizzlar Only Old Timer Who Has Not Yet Arrived—First Game Next Sunday

The first public appearance of the Drillers for this season will probably be next Sunday afternoon. Efforts are being made to arrange a game for that date, but have not been successful; it is probable, however, that a game will be secured. Plans for the trip which the team will take before the season opens are going right ahead.

The boys were taken out to the lake yesterday and got down to training in good earnest, with a squad of about twenty on hand. Everybody is now on deck except Kizzlar, who is expected to show his handsome face in these parts before many days.

Foley White the old war-hoss, is among the recent arrivals and looks powerful fit, and as spry as if he were still a young man. Business will now pick up behind the bat. In the gang that was taken out to the lake yesterday, away from the snares and pitfalls of a great city were: Duke Morris, Bobby Myers, Scroggin, Crockett, Shell, Rosamond, Miller, Ziegler, Jones, Brown, Valverde, Phillips, Young, Nicholson, Sid Myers, Laycock, Wilson, White.

It is stated on good authority that the boys did not go in swimming in the pool yesterday.

With the arrival of Kizzlar, all of the old timers will have gotten back into camp, but several recruits are still to make their appearance. It is probable that a squad of about twenty-five will be lined up by the end of this week and soon after that time some of them will be weeded out and the real picking of the team started.

MR. HOME RUN BAKER, KING OF SWATVILLE IS 27 TODAY.

Baker's birthday will be celebrated today throughout the United States of Baseball and the Dominion of the Diamond. If you ask what Baker you confess yourself an ignoramus, for there is only one Baker—John Franklin, alias Home Run—and he was born at Trappe, Md., twenty-seven annus ago this very day and date. All fans remember those critical days in 1911 when the Athletics and the Giants faced each other as contenders for the world's flag—how Baker smashed out home runs that decided two contests—how the New York bugs, frenzied with anger, ran amuck and, in a spirit of impotent revenge, heaved rocks through bakers' windows. Other players have made two home runs in world's series but never at such critical periods as when Baker proved his right to the crown of King of Swatville.

The hard hitting third baseman of the Athletics was born and bred on a farm, and a farmer he has remained in the intervals between the practice of his profession. With the proceeds of his share of world's series money he purchased a fine farm in Maryland, and there he spends the off season, looking after his cabbage

HIGH SCHOOL TEAM SHUT OUT NOCONA

Wichita Slabman Struck Out 19 Batsmen and Did Not Allow Single Hit to Outfield

The high school team played its first game of the season Friday afternoon, choosing the Noconon nine as victims and making it good by the score of 6 to 0, the home team not only failing to score but failing also to send a single ball to the outfield. Leonard Smith was the box performer for the Wichitans and struck out nineteen Noconon batsmen, in addition to which, he scored two runs. Goodnight was the star batsman, scoring one run himself and bringing in three more by timely hits. Robert Ayis secured a two-bagger, and Powell and Ikard were also in the run column.

Among the fielding features was a double play, from Trotter to short to Ayis at second, to Goodnight at first. The Wichita Falls lineup was: Wheeler, right field; Ayis, second base; Hickman, center field; Trotter, second base; Ward, catcher; Smith, pitcher; Ikard, left field; Powell, third base; Goodnight, first base.

The team's next game will be on the home lot next Friday afternoon, with the Henrietta squad of hopefuls as the opposing selection.

rees, his pumpkin bushes and his peach fields and turnip orchards. He is gradually adding to his landed estates, and by the time when he is forced to quit baseball expects to own all of Maryland outside of Baltimore and a few other cities.

A number of years ago, about eight, to be exact—the little village of Ridgely, Md., boasted a ball team that had among its members Charlie Herzog, later of the New York Giants; the late Simon Nicholls, who died in Baltimore two years ago yesterday, and J. Franklin Baker. The latter had been discovered by Herzog who thought he saw in the young farmer the makings of a brilliant player. In 1907 Baker was signed by Jack Dunn, of the Baltimore team, but was not given a chance to display his ability, and joined the Cambridge, Md., semi-professionals Reading, Pa., needed a third baseman in 1908 and Baker was given the job. He led the Tri-State in extra base hits, and Connie Mack gobbled him up. As a member of the "\$50,000 infield" of the Athletics Baker has been a star, and his later history is familiar to all fans.

AUSTIN SCHOOL CUBS WIN FROM SAN JACINTO COLTS.

The Austin school Cubs and the San Jacinto Colts crossed bats Friday afternoon, the final score being 17 to 9 in favor of the Cubs, who have now played six games and won five. Batteries for Cubs, Walter Trueblood, Jerome Ellinger, Everett Whatley; for the Colts, Arnold Weaver, Carsey Boone and Henry Boston.

TIGERS AND ATHLETICS TO MEET THIS AFTERNOON.

The Wichita Tigers will play their first game of the season this afternoon at the City Park at 1:30, against the Wichita Athletics. The Tigers expect to get beat on account of two of their best men going to Grandfield, Oklahoma, the same being their pitcher and catcher, but will put up a plucky fight. The Athletics have a good team and have been winning steadily. No admission will be charged.

The FERRORS of SWEEPING DAY Full of Meaning to Housewives

That was many years ago, when the primitive corn broom was the only device woman had to clean her carpets and rugs. The BISSELL Sweeper has changed all this, making sweeping day a pleasant anticipation instead of a day to be dreaded. Sweeping with a corn broom is indeed a self-imposed drudgery. Running so easily that a child can operate it, the BISSELL glides over your carpets and rugs, lifting out of the nap all the fine dust and grit that is never gotten by the corn broom, confining same within the pans, instead of scattering it over the furniture, draperies, etc. Once you purchase a

Coffee made in the **UNIVERSAL** Percolator Loses no aroma in steam

Coffee boiled for any length of time in ordinary pots, or sprayed with boiling water, as in ordinary percolators, loses its fine aroma in steam. While good coffee can be made in ordinary coffee pot by experts, experts are rare.

The best coffee pot is the one which automatically completes the process before the water boils, and the "Universal" is the only one that fills this requirement.

This is the perfection of the drip process, circulating six to ten times as much water as any other percolator, consequently extracting a greater amount of the aromatic properties of the coffee.

Made in Pot Style for use on the stove and Urn Style for making coffee at the table.

Call at the store, see the percolators and ask for booklet describing them.

Delay In Recording Papers Is Often Very Costly

County Clerk E. P. Walsh received by mail the other day a deed to be recorded, which upon examination, he found had been so badly gnawed by mice as to be unrecognizable. He was compelled to return the deed to its owner who may have to go to much trouble and expense to secure another deed.

A Wichita Falls man who owns one of the finest homes on the hill had been neglecting to record the deed. Recently he went to look for it and could not find it. Fortunately the man from whom he purchased the property lives in the city and a certified deed was secured and recorded after some expense.

Many others have sent in deeds to be recorded, which the clerk has

found to be alright except that the signature of the grantor is missing. If the deeds have been newly drawn the clerk can call the owner's attention to the defect and it can often be corrected without much trouble, but if the deed is an old one, the grantor has often left the country and in some cases it has been impossible to locate him.

Such instances could be multiplied to a great number and hardly a day passes at the court house but that something does not turn up to prove the folly of delay in putting important papers on record. The sooner they are recorded the less will be the chance of some of the things happening enumerated above.

EXPOSITION WILL BEGIN ON MAY 12

(Continued from Page 1)

Are Preparing Program

Work will begin very shortly on the exposition buildings and \$6,000 feet of lumber will be required, which will give some idea of the magnitude of the affair.

The official program is now in process of preparation and will be announced shortly. The leading towns in Texas and Southwestern Oklahoma will each be given one day, with Wichita Falls day as the big day of the week; the schools will be closed, it is planned, and a school parade will be among the pageants. The sur-

rounding towns, in addition to the visitors who will represent them, will send their bands, so that there will be no lack of music. The exposition band, the military band, and the fireman's bands, will all contribute to the melody of the week.

There will be at least one parade a day during exposition week, and these parades will include those of the firemen, the soldiers, the automobiles, the floral pageant, the industrial parade, the fraternal parade and possibly some others.

Open Air Attractions

The open air attractions to be given in the exposition grounds will be the very best that money can get. Mr. Berger promises. Already applications are coming in for space, but the committee will send representatives to see all such applicants before allowing them to be considered part of the exposition. There will be high class, sensational, animal, novelty,

The Musical Pikes in a novel musical act, featuring the Marimbaphone, Aluminum Chimes, silver toned bells, double euphonium and trumpet at the Lydia Margaret Theatre this week.

comedy and gymnastic acts in the program, and all will serve to keep the visitors thoroughly entertained. Nothing doubtful or common will be permitted, Mr. Berger promises.

Plans for the exposition will be pushed rapidly from now on, and with due co-operation on the part of the business men, there is little doubt that one of the biggest and most successful affairs the Southwest has ever seen can be staged here in May.

New Lumber Yard is Another New Institution in Industrial Addition

Massive steel frames are now rising at the Bell Brothers jar plant site and work is being pushed with all speed towards the completion of the big factory.

On the other buildings, some of the foundations have been completed and others are marked only by stakes driven into the ground.

Across the Valley tracks the C. W. Shamberger lumber yards are nearing completion, a long shed and the office building being about finished.

The work completed so far has every aspect of permanency, the foundations being heavy and deep and the steel frame massive and stable.

PETITION FORWARDED FOR NEW POSTOFFICE

Residents of Factory Addition May Soon be Addressed at "Maples"

A petition for a postoffice at "Maples" as the factory addition has been named, has been forwarded to Washington by Postmaster Bacon and favorable action is expected.

If the addition becomes a part of the municipal corporation at some future date, as every one believes it will, the postoffice could be maintained as a branch of the present office.

At the Lydia Margaret. Electrica, "the girl who tames electricity," Dixie Christy and the Musical Pikes are the vaudeville numbers of a program opening the first half of the week at the Lydia Margaret this week and which Messrs. Wren and Berry promise will be one of the more than ordinary merit.

Advance notices say that Electrica is one of the most wonderful girls in the entertainment world.

"She thrives with death under pressure of 30,000 volts of electricity," one notice says, "the current being turned into her body in the view of the audience." She lights electric globes, cigars, torches, gas jets, etc., with electricity that flies from her fingers.

Dixie Christy is a novelty in melody with a comedy finish using harmonium and freak fiddle.

The Musical Pikes offer selections of a much higher order than those usually offered by vaudeville musicians.

Everything they do they do well and merit every bit of the generous applause that greets their act.

BARNARD'S OPENING FRIDAY

SHOWING OF SPRING FOODS AND RECEPTION IN HANDSOME NEW HOME

BIG STORE IS ATTRACTIVE

Even Homefolks are Surprised at the Variety and the Completeness of its Stocks

The formal opening of the store in its handsome new home, and the showing of spring goods in all departments of the big establishment combined to make the opening at C. J. Barnard & Company's store Friday night an event of more than ordinary interest to Wichitans.

While nothing was lacking in the completeness or the variety of the displays, the management for good measure distributed carnations as souvenirs for the ladies, and cigars for the gentlemen, while Katz orchestra added to the pleasure of the event.

The store had been tastefully decorated, the decorations harmonizing with the different displays and the whole building was ablaze with light.

This big store has been a vision before C. J. Barnard, its proprietor, ever since he engaged in business in Wichita Falls about three years ago.

The store houses a millinery establishment whose showing Friday night was a center of much interest.

Arrangements have been completed for the special train which will carry the Wichitans to the health resort over the new route.

TO RETURN COMPLIMENT

Mineral Wells Boosters Planning Trip Here Early in April

Wichitans to the number of 200 or more will journey to Mineral Wells by way of the Wichita Falls & Southern and the Gulf Texas & Western, and early in April citizens of Mineral Wells will return the compliment by paying a visit to Wichita Falls.

Arrangements have been completed for the special train which will carry the Wichitans to the health resort over the new route.

The train will leave Wichita Falls at 7:30 or 8 o'clock in the morning and reach Mineral Wells shortly afternoon.

It has long been felt that an excursion of some kind should be taken to the country south of this city and the opening of the new line into Mineral Wells affords an excellent opportunity for such a trip.

Word was received yesterday from Mineral Wells that the business men of that city are already planning a trip to this city, sometime early in April.

What can the osteopath do if one is sick?

First, he can tell what is the matter with you and explain it so you will know yourself, secondly he will give a specific treatment for your trouble just as the man who repairs an automobile, seeks out the part at fault and adjusts it.

Osteopathy conflicts with no law but is the correct interpretation of nature itself. The osteopathic physician is rounded out and perfected by education and experience as he should be.

Osteopathy teaches that if you would enjoy good health you must blend in your life, proper environment, diet, habits, vaccination, etc., and this leads them to an elevated plane of health and teaches them to be masters of their own bodies.

State Clean-Up Day Is Set For March 24

By Associated Press. Austin, Texas, March 15.—The state board of health announced today that clean-up day for Texas has been set for Monday, March 24. The date was formerly set March 19 but inclement weather throughout the State made it impossible to clean up properly that day.

Dr. Ralph Steiner of the state board of health said today:

"The recent epidemic, cerebro-spinal meningitis, smallpox and typhoid fever, aggravated doubtless from unsanitary conditions, should prove an excellent argument for the importance of sanitation and a general clean-up of the State."

The Legislature has been requested to adopt resolutions urging this necessity for concerted action throughout the State.

MORGAN REACHES NAPLES; HEALTH APPEARS GOOD.

Naples, March 15.—J. Pierpont Morgan arrived here from Alexandria, Egypt. He appeared to be in a satisfactory condition of health when he landed. He departed for Rome on a special train.

Mr. Morgan was accompanied from the boat by Prof. Giuseppe Bastianelli, his Italian physician. Prof. Bastianelli declared that in a short time Mr. Morgan would have entirely recovered his usual good health and vigor.

ENGLISH AUTHORESS SEEKS INJUNCTION

Marie Corelli is plaintiff in an action to be heard in the Chancery Court in London soon. The novelist is asking the court to grant an injunction restraining George Gray, the noted vaudeville performer, from producing a sketch entitled "The People's King." Corelli alleges the sketch is a dramatization of her book, "Temporal Power," incidents in which form the basis of Gray's sketch.

REMARKABLE RECORD FOR INDOOR SHOOTING

598 Bullets Out of 1000 Shots Placed Inside Circle Large as Dime at 75 Feet

By Associated Press. Washington, March 15.—A new world's record for indoor rifle shooting of 998 out of a possible 1000 was made by the Park Club of Bridgeport, Conn., in this week's matches of the National shooting competition. This record means that five men placed 998 shots inside of a circle the size of a dime at a distance of 75 feet, using 22 calibre rifles.

The Warren, Pa., rifle club won the eastern league championship.

Specialists Wife Kills Barber.

By Associated Press. Nashville, Tenn., March 15.—"You have ruined my home and broken my heart."

This was the accusation against Charles Cobb, a barber here, today by Mrs. W. S. Dodson, wife of a prominent Gallatin, Tennessee specialist; and with these words she drew a pistol from her muff and shot Cobb three times. He was hurried to a hospital, where he died within five minutes.

According to dispatches from Gallatin, the tragedy caused but little surprise there. Mrs. Dodson is 33 years old and has been married 16 years. Cobb was 26 years old.

FLOOD SUBMERGES BREWTON, ALABAMA.

By Associated Press. Mobile, Ala., March 15.—Water in some places as deep as twelve feet and rising at the rate of eight inches an hour, covers the ground upon which the town of Brewton, Alabama, stands. Its population is about 3000. More than fifty residences have six feet of water in them, and several large manufacturing plants are out of commission. The water is due to a rise of the Alabama river, caused by excessive rains in some cases as much as eight inches.

SOCIETY

NOTES OF THE WEEK.

The Just-So Sewing Club will meet tomorrow with Miss Lespie Peery. The Wesley Girls Sewing Club met Saturday afternoon with Miss Tommy Hale.

Mrs. Rhea Duke will be hostess to the next meeting of the Tuesday Bridge Club.

Tuesday's meeting of the Art Literature Club will be with Mrs. H. O. Cravens.

were taken into the dining room where dainty refreshments consisting of cream and cake were served to the following: Thelma Fricks, Maud Taylor, Lula Mae Cook, Helen Davis, Irene Brooks, Etta Maud Lee, Jewel and Majorin Simmons.

REPORT OF SESSION OF UNITED CLUBS LAST MONDAY

Monday afternoon at the First Presbyterian Church the president and delegates from eight clubs met to reorganize and elect officers for United Clubs. We know that in unity there is strength, and we feel that the time has come when we must put all our forces together and be a help to our town in making our city more what it should be. We come together for four purposes. Club extension, the moral and mental uplift of our women and children, and the building of a club room and library. Our first step will be to ask an enactment of the curfew law; second to ask our city council for board of censorship over moving picture and vaudeville and public amusement halls where ladies and children congregate. Our new officers are president, Mrs. Berney; vice president, Mrs. McGregor; recording secretary, Mrs. Montgomery; corresponding secretary, Mrs. Wade Walker; treasurer, Mrs. White; parliamentarian, Mrs. Fleming; press reporter, Mrs. J. W. Lee. We know that in selecting our officers the nominating committee has made a wise selection. Mrs. Berney, our new president, is comparatively a new woman in our city having been here not more than three years, but in that short time she has won the esteem and confidence of all, and we feel no higher compliment could be paid her than to be chosen president of such an organization of our three hundred women and we feel with her executive ability and good judgment that this body of women will accomplish all they undertake. Mrs. Berney, when living in Fort Worth, was second vice president of the Fort Worth City Federation of Women's Clubs, also is ex-president and associate member of the Standard Club of Dallas. Our second vice president, Mrs. George Harrington, is also a new woman among us, but we have known her long enough to know she will be quite an addition to any body of officers. Our other officers are too well known to need any praise of their efficiency in club work. Further plans for the year's work will be formulated at our next meeting which will be Saturday, March 29th. Place of meeting will be published later.

MISS ALICE BURNSIDE IS HOSTESS FRIDAY EVENING.

Miss Alice Burnside was at home to a few friends Friday evening and the occasion proved a very enjoyable one. Music was the evening's principal diversion, vocal and piano selections making the evening merry. A delicious refreshment course was served at a late hour. Those present were Misses Grace Nolen, Campbell, Mabelle Jackson, Della Stong, Edna Gaston, Messrs. Gould Thomson and Speaker.

HOME MISSION SOCIETY HAS AN INTERESTING SESSION.

The regular monthly meeting of the Home Mission Society of the First M. E. Church was held Monday afternoon in the church parlors with the president, Mrs. L. E. Coe, in the chair. Mrs. G. E. Friberg led the devotional exercises. An interesting program was carried out. Mrs. A. A. Little read a paper on "Priesthood" and Mrs. E. G. Cook read a paper on "Mormonism at our Door." The question hour was conducted by Mrs. W. G. Shaw. At the close of the meeting the members repaired to the home of Rev. and Mrs. Coe, where a delightful hour was spent with the pastor's mother, Mrs. M. S. Coe, whose birthday it was. She gave some affecting reminiscences of her early church life, concluding with a touching prayer. Light refreshments were served and the meeting closed with the singing of "Blest Be the Tie That Binds." Mrs. Coe received a number of gifts.

CONCERTS ARE PLANNED AT BYERS AND OTHER POINTS.

The faculty of the College of Music and Art will probably go to Byers next Friday night for a recital concert there, and later expect to visit Electra. The Byers concert was to have been given last night but was postponed on account of the weather.

MISS JEWEL SIMMONS HAS NINTH BIRTHDAY PARTY.

Jewel Simmons entertained a few of her little friends on March 13 in honor of her ninth birthday from 4 until 6. About four o'clock the little ones arrived. After many games they

tion will be given by one of the classes of the school. A vocal solo by Mrs. W. H. Walker and a reading by Miss Mabelle Jackson will conclude the program.

INTERESTING SESSION OF U. D. C. IS HELD SATURDAY.

Major W. R. Scurry chapter of the U. D. C. held a very interesting session Saturday afternoon at the home of Mrs. H. B. Patterson, who was assisted in entertaining by Miss Carter. The roll call was answered with names of Texas heroes, among those mentioned being Lubbock, the war governor, Sam Houston, McCulloch, Dick Dowling and many others. Mrs. Peery read an interesting paper on "Texas Heroes" and a sketch of Oran M. Roberts, the "old alcalde" was given by Mrs. P. A. Martin. Interesting papers were read by Mrs. G. D. Anderson and Mrs. Ross. A pleasing social session followed the program; Mrs. Patterson served a refreshment course of tea, nut sandwiches and wafers. The next meeting will be an observance of Memorial Day.

GUILD OF GOOD SHEPHERD CHURCH HAS TEA THURSDAY.

The Ladies Guild of the Church of the Good Shepherd served tea Thursday afternoon to a large number of visitors. The tea was held at the home of Mrs. J. M. Simmons on Travis street and was a very pleasant affair. In spite of the bad weather there was a large gathering present.

MRS. W. J. GRISHAM HOSTESS TO NEW CENTURY MEETING.

An enjoyable and unusually well attended session of the New Century Club was held Wednesday afternoon, the hostess being Mrs. W. J. Grisham. Mexico was the subject from the Bayview course, with Mrs. Whitney as leader; an interesting diversion was an impromptu contest in which those present attempted to draw maps of Mexico from memory. The hostess served a pleasing refreshment course at the conclusion of the lesson.

CEMETERY ASSOCIATION IS PLANNING AN OPEN MEETING.

While the date and place have not been definitely fixed, the Cemetery Association is making plans for an open meeting in the near future. It is proposed to invite all owners of cemetery lots to be present to hear what has been done by the association at Riverside and also to discuss plans for still further improvements in the future. The meeting will probably be held next week.

INTERESTING SESSION OF ART LITERATURE CLUB HELD.

Tuesday's session of the Art Literature Club was held with Mrs. C. W. Bean and a very instructive program carried out. The roll call was answered with current events and was followed by a parliamentary drill, led by Mrs. H. O. Cravens. Mrs. D. J. White gave the report of the meeting of the United Clubs, which was held Monday. The art study for the afternoon was from Stoddard, Switzerland being the subject, and a paper on the scenery of that country was read by Mrs. E. L. Smith. Mrs. D. J. White led in the study of the Bayview lesson and Miss Essie Seelinger read a paper on South American art. An

NEW STREET CAR LINE IS PLANNED

WOULD OPEN UP TERRITORY SOUTH AND SOUTHWEST OF CITY

MAY RAISE \$12,000 BONUS

Would Branch Off From Present Line At Thirteenth and Lamar, Going South and West

A petition is in circulation asking the Wichita Falls Traction Company to build an extension from the corner of Lamar and Thirteenth street, where its present line turns, to run westward along Sixteenth and Seventeenth streets and through the Spivey addition to the Archer City road near the old W. A. McCutcheon place and thence in a westerly direction.

The petition is being signed by property owners interested who are subscribing to a bonus of \$12,000 for which it is understood the traction company is willing to build the line.

An effort is also being made to induce the traction company to extend south from the turn of the carline on Broad street for about four blocks and thence west to the dividing line between Wyatt's addition and Ed Wilson's tract adjoining, and north to Downing street where it will strike the line first proposed.

The petition now in circulation asks the traction company to operate a service not less frequently than every thirty minutes during the same hours that service is operated in any other part of the city. This requirement is also said to be acceptable to the street car company.

Outline of New Route. The petition outlines the route first mentioned as follows:

"Leaving the present line near the corner of Thirteenth street and Lamar avenue, then going south on Lamar to corner of Sixteenth street; thence west on Sixteenth street to Travis street or Austin; thence south on Travis street to Seventeenth street; thence west on Seventeenth street to Downing street, which is about the center of the H. W. Spivey addition, and through the H. W. Spivey survey (land owned by R. E. Hoff and C. F. Collins) to Archer City road, near the old W. A. McCutcheon place; thence in a westerly direction along such a route as may be determined by the traction company to an intersection of the present car line leading to the lake."

It is not understood that the extension asked for will involve any changes in the lines now in operation.

SHORT TERM OF COURT IN YOUNG COUNTY

District Officers Will Enjoy Two Weeks' Vacation Before Archer County Court Opens

Judge P. A. Martin and Court Stenographer Eugene Sherrod have returned from Graham where the Young county district court has been in session.

The court closed Thursday after having been in session about two weeks. Only three cases were tried during the entire term.

The district officers will now have a two weeks' vacation before the Archer county court convenes.

District Attorney Scurry did not return here from Graham but went to South Texas on a business trip.

SPEAKS THIS AFTERNOON ON CHRISTIAN SCIENCE

Dr. Francis J. Flinn of Oakland, Cal., Will Lecture at Lydia Margaret Theatre

Dr. Francis J. Flinn of Oakland, California, a member of the board of lecturers of the First Church of Christ, Scientist, in Boston, Mass., will deliver a lecture on the subject of Christian Science at the Lydia Margaret Theatre in this city this afternoon at 3:30 o'clock. The following announcement regarding the service has been received:

"Probably there is today on Christian teaching or practice which is so generally misunderstood and misrepresented as Christian Science, and this lecture is given by the local Christian Science Society to correct and remove erroneous impressions, honestly obtained by those who have made no special investigation of the subject, and to give to the public an authoritative statement of its distinctive tenets.

"Dr. Flinn has been selected to deliver this lecture because of his thorough knowledge of the subject and those who attend are assured an intellectual treat. In addition to hearing something of Christian Science, which is today attracting the attention of thousands of men and women throughout the world, its rapid and substantial growth; its churches and societies, located in every civilized country in the world, have made it a factor in the field of religious activity."

NEW STREET CAR LINE IS PLANNED

WOULD OPEN UP TERRITORY SOUTH AND SOUTHWEST OF CITY

MAY RAISE \$12,000 BONUS

Would Branch Off From Present Line At Thirteenth and Lamar, Going South and West

A petition is in circulation asking the Wichita Falls Traction Company to build an extension from the corner of Lamar and Thirteenth street, where its present line turns, to run westward along Sixteenth and Seventeenth streets and through the Spivey addition to the Archer City road near the old W. A. McCutcheon place and thence in a westerly direction.

The petition is being signed by property owners interested who are subscribing to a bonus of \$12,000 for which it is requested the traction company is willing to build the line.

An effort is also being made to induce the traction company to extend south from the corner of the carline on Broad street for about four blocks, and thence west to the dividing line between Wyatt's addition and Ed Wilson's tract adjoining, and north to Downing street where it will strike the line first proposed.

It is not understood that the extension asked for will involve any changes in the lines now in operation.

DR. J. W. HILL BACK FROM CONFERENCE AT DALLAS

Says Wichita Falls Is Being Much
Talked About—His Plans For
the Coming Summer

On his return from Dallas Friday, Dr. J. W. Hill said:

"My visit to Dallas was to meet the executive committee of the church extension board of the North Texas conference of which I have had the honor to be the president for the past ten years. This committee has to pass upon all applications for help from the general board both for church and parsonages. We had a number of applications as the church in the bounds of this conference is growing very rapidly. I could not meet with the Lakeshore Assembly trustees here last Tuesday, but I learn that the assembly will be held and that the prospect is better than ever before."

"I have had the chair of history in the post-graduate department of the Southwestern University summer school of theology for the past eight years, and will be there lecturing from June 10 to June 20. But the heaviest work of the year has been placed upon me by the Epworth League of the State; I am to deliver ten lectures at Epworth by the Sea in July. How will I do it? Well, it so happens that the Presbyterians will be worshipping with us at that time, and while I am gone Dr. McKee will fill the pulpit both morning and evening. I did not know the Epworth lecture business when I invited our good Presbyterian brethren to worship with us pending the building of their new church, but it turns out to be the best thing for me in view of this new work. Fact is, otherwise I would have had to turn down this additional work. But the Presbyterians will get it back on me when Dr. McKee takes his vacation. Then for a month at least I will have to do for him what he does for me while I am gone to Georgetown and Corpus Christi. So we will both be full of work all the summer. I am thankful for health and strength to work. Work hurts no one. It is worry that breaks men and women down."

"What did I hear about Wichita Falls? Everybody was talking about it. I tried to keep in bounds when telling about our gas and our factories and our rapid improvement. But some walled up their eyes, nevertheless. One preacher I met at our publishing house in Dallas, after hearing me discourse for a few minutes on these themes, remarked to some bystanders that it was evident to his mind that Wichita Falls had plenty of hot air whether she had much gas

or not. I pretended not to hear this but I knew what the brother meant. But I wound up by saying that if any one had any doubt in his mind about the marvelous growth of Wichita Falls, all he had to do was to come and see.

"I met a large number of people from different sections of the State, and every one asked me concerning the growth of the city. So it seems that we are being heard of and thought about pretty generally."

"But Dallas and Oak Cliff can match us on any proposition of improvement never was more surprised. In a few more years if there is no break in the present rate of improvement, Dallas and Fort Worth will be joined up like Minneapolis and St. Paul. There are great things stirring all over our State, and it behooves us

all, as I see it, to plan the very best for the marvelous future that is before us."

POSITION OF U. S. ON THE AMNESTY BILL DEFINED.

Washington, March 15.—The Cuban minister has sent to his government a note from the state department defining the position of this government on the amnesty bill by the Cuban

Congress, but which President Gomez is holding up pending the arrival of the note from the United States. The exact nature of the overtures has not been learned, but it is known the United States has protested.

HARRIS COUNTY SLEUTHS BAFFLED BY SHOOTING.

Houston, Texas, March 15.—Sheriff Hammond reports his force is at a loss for clues to the identity of the man who Erwin Stanley of Joshua, Johnson county, says put two bullets into his body and then threw him into a crack just west of the city.

Stanley says he was lured to the place under promise of work, and then shot, presumably for robbery, as he had some money and boasted of having more.

His wounds are through the shoulder and face, but he will recover.

The Easter Style Show at McClurkans

By Far the Most Important Event of the Season

For men and women, boys and girls, and babies too, we show the complete outfits of the accepted dress styles from the best designers and makers of the world. *New Spring Coats, Suits and Dresses* are the important feature of the

Easter parade of course, and here especially the McClurkan store is par excellence. Our buyer made an early selection from the entire stock of the famous designer, Bischof, and the cream of all his models are shown. Whether you are ready to buy or not, do not fail to see how Bischof incorporates the latest features in models that are simple, serviceable, beautifully tailored, yet inexpensive.

We also show a choice line of new silks and woolen dress goods, dainty colored wash goods, white goods and linens, and a special assortment of fine laces and embroideries. Your choice of all the nobby dress accessories are here on display.

The New Top Coats Will Delight You

Designed with beautiful simplicity, made of attractive materials, smartly trimmed and lined with bright colors, the separate coats of Spring are altogether desirable.

With few exceptions all are three-quarters or seven-eighths, with cutaway fronts either extreme or modified. An important feature is the slanting seams in the back, used on many of these coats. These seams start under the arm-hole and slope slightly in toward the hem, giving a smart tapering effect. Often they are outlined with groups of buttons.

Lace collars on some of the coats form an attractive feature. They add richness and a finish that is altogether charming. White pique collars on the dark coats give a delightful touch of freshness.

One prominent feature is the lowered belt, directly traceable to a distinguished Parisian designer.

Bischof top coats are marvels of style and simplicity—marvels of workmanship. Bischof has handled the long lines of the separate coat with a dexterity shown by no other designer. And every model is finished with a skill which shows in the smallest details. They are real creations. Come in and see them.

Approved Features of the Tailored Suit

The one feature you will notice instantly in every suit this Spring is the cutaway coat—either modified or extreme. The cutaway has an indefinable air of smartness, and much pleasure is voiced at its return.

Suit coats are shorter this Spring—"wrist" length—24 to 26 inches—being the average length. This length varies however, according to the character of the suit. Some models, for instance, are cut sharply away from the waistline in the front while in the back they are quite long.

In the treatment of seams, suit coats follow the separate coat. The slanting seams of the back are very popular. Belts placed below the waistline are another new and quite distinctive feature on many suits.

Suit skirts are slightly longer and show a few setin pleats.

A pleasing feature of the skirts is the shirring at the waistline, which by the way, is slightly raised in nearly every case. This shirring is sometimes used in connection with a strap effect.

It is the cleverness with which Bischof uses these latest style features that makes his "man-tailored" suits so attractive. Come in and see how becoming they will be to you.

The New Dresses Are Irresistible

You will "love" every dress which Bischof shows this season, from the dainty lingerie gown of marquisette or net for afternoon wear, to the trim and practical tub frock of ratine and linen.

Linen, pique, voile, net, crash and marquisette are all represented in these good-looking models.

The most elaborate afternoon dresses are trimmed in lace or ribbon—for ribbon, both flowered and plain, is used extensively to "brighten up" the summer dresses.

Slight drapings and puff effects are used on many models, and many charming accessories give added distinction—a kid belt, perhaps, a lace tie, soft shirred girdles, or a velvet bow with pearl-buckle—all in all, summer dresses were never more charming and becoming.

Whether you intend to buy ready-to-wear dresses or not this season, come in and see these. When you do, we know you will be convinced that it will not pay you to make up your summer wardrobe when you can purchase such garments at our low prices. You will find that every one fits perfectly, for Bischof garments are always fitted on live models and need little, if any, alterations.

Advance Fashions For Spring**

New York, March 15.—Never has "Dame Fashion" offered greater diversity in coats than this season. Jackets, boleros, Eton, Russian, Balkan, jackets with French back and cut-away front, sacque and Tuxedo jackets, are all in equally good style. From such a galaxy of lines and cuts it would be strange indeed if every type of feminine figure could not find one or more suitable for its individual needs. To rival the Russian blouse the short coat has appeared. This is fashioned either on Eton blouse lines or on lines which, to the uninitiated, resemble much more a sacque for boudoir wear than a coat for the street. The Eton stops in front at the waistline or an inch or two below, and slopes gradually to a deep point in the center of the back. The sacque jacket descends to the hips or an inch or more below. These jackets combine artistically with the draped skirts, the effect being that of much rounder silhouette than has been noticeable for some time. Either style of coat is very effectively developed in brocaded materials, silk, mesaline, matelasse or cotton. Very attractive is the coat of the illustration with blouse effect, back and front, and the fashionable low waistline. The peplum may be short and follow snugly the contour of the hips or long, fitting easily and smartly cut away. It was made of black broadcloth. The large collar fashioned on sailor lines is of light gray broadcloth. The skirt of gray broadcloth has simulated front closing trimmed with buttons. A slight fulness is noticeable at the back waistline. The pleated inset at the lower edge is of black broadcloth similar to that used for the jacket. If preferred, the inset may be omitted, in which event the front skirt is not cut away but extends to the hem. Pleats are also inserted at the center back, a very necessary precaution since skirts have been gradually narrowing more and more about the feet until if it were not for the introduction of some such feature walking would be almost impossible. The model would develop to equally good advantage in any of the new summer-suiting fabrics, ratine, agarie, epouge or linen.

Gone are the demure tones of black and white which have so long prevailed in the realm of fashion, resembling the pen and ink drawings of a Christy or a Gibson. They have been supplanted by all the brilliant colors of an old time garden—the blues of the larkspur, and forget-me-not, the pinks of the rose and apple blossom, the reds of the fuchsia and geranium, and the yellow of our national golden rod and of the squash of the vegetable garden. For trimmings the whole range of colorings have combined. For gowns and suits one, or at most, two tones are discreetly chosen. Yellow dresses for day wear are among the latest novelties. With their bit of drapery and long sleeves that give a touch like spring sunshine to the other, somber winter colorings, they are very attractive. For evening, too, yellow prevails, chiffon and deep-toned laces showing through their diaphanous folds glimpses of gaily colored fabrics. Girdles in green and gold are suspended over foundations of deeper toned yellow mesaline. One of the few garments, other than the conventional evening wrap in which the Balkan colorings are observed throughout is the smart little afternoon and evening coat known as the "Pompadour." In line this wrap makes no pretense of adhering to the contour of the figure, but merely suggests it. The sleeves are of raglan cut, the back falls in two sections from the waistline, each of which is gathered to a point and ornamented and weighted by a silk tassel; the front is smartly cut away.

A few weeks ago we spoke of the prevalence of lace sleeves, of the same color tone as the material of the gown. A new note has been sounded in sleeves in the use of brocade in tones of Oriental coloring, the predominant hue of which blends in with the color tones of the gown. A costume of tan, charmeuse has sleeves and full vest of brocaded crepe in shades of tan and dull green. Another gown of white silk crepe has sleeves of white foulard with floral motifs of Chinese blue and gold strewn over it. Invariably these sleeves are long and follow closely the curves of the arms. Crepe de chine will continue in favor during the spring and summer. Its dull finish has a tendency to lessen the cross lines of the figure, thus aiding in the impression of slenderness. For the gown of the second illustration this material in a dark blue color was used. The inserts and collar are of crepe in a light blue brocade. The waist has the fashionable dropped armhole, long sleeve and much fulness at the underarm. The front closing is a unique and stylish feature. It opens at the waist to present an under vest of brocade. The skirt is smartly caught up in draped folds at either side of a narrow front panel. The inserts are of light blue brocaded crepe similar to that used for the trimming of the waist. The black has slight fulness at the waist.

With the new features in girdle, jacket and skirt already showing the advance summer styles, and a range of materials, both in cotton and silk, heretofore unknown, it is a fit time before the Lenten days are gone for women to get ready their summer wardrobes. With a coat suit on any of the suggested lines, developed in serge, epouge, ratine or Bedford cord, and if possible a second suit in linen in any of the light or dark brown tones; with a smart afternoon frock of crepe or silk and an evening dress of chiffon, net or lace; with lingerie frocks touched up with deep gaily colored ribbons in number as many as she can afford, milady is ready for any emergency and may at all times appear attractively and well gowned.

Baking Economy

By the use of perfect baking powder the housewife can derive as much economy as from any other article used in baking and cooking. In selecting a baking powder, therefore, care should be exercised to purchase one that retains its original strength and always remains the same, thus making the food sweet and wholesome and producing sufficient leavening gas to make the baking light.

Very little of this leavening gas is produced by the cheap baking powders, making it necessary to use double the quantity ordinarily required to secure good results.

You cannot experiment every time you make a cake or biscuits, or test the strength of your baking powder to find out how much of it you should use; yet with most baking powders you should do this, for they are put together so carelessly they are never uniform, the quality and strength varying with each can purchased.

Calumet Baking Powder is made of chemically pure ingredients of tested strength. Experienced chemists put it up. The proportions of the different materials remains always the same. Sealed in air-tight cans Calumet Baking Powder does not altar in strength and is not affected by atmospheric changes.

In using Calumet you are bound to have uniform bread, cake or biscuits, as Calumet does not contain any cheap, useless or adulterating ingredients so commonly used to increase the weight. Further, it produces pure, wholesome food and is a baking powder of rare merit; therefore is recommended by leading physicians and chemists. It complies with all the pure food laws, both STATE and NATIONAL. The goods are moderate in price, and any lady purchasing Calumet from her grocer, if not satisfied with it, can return with it and have her money refunded.

Imperial Reliability

Every principle of construction of the Imperial cars has been thoroughly tested in cars of the past that have made good. There is nothing new or untried, every part has been proven. We know these cars are right, and numerous gruelling reliability contests have shown this beyond any doubt. We know they are right, for behind them are the records of Imperial cars of the past—records of satisfactory service rendered many owners. Our motto is, "The Car that Gets There and Back," and it has been proven scores of times that this is true.

J. W. CLASBEY AND TO WHOM IT MAY CONCERN:—
I bought an IMPERIAL car in March, 1911, and drove it about 50,000 miles, and over all kinds of roads, mountains, sand and mud. Used for service for several months and don't believe was out \$25 for repairs, which includes two springs.
I don't believe there is a car made that will give the actual service as the IMPERIAL for anything like the money and as have owned personally six different cars, some of them only a short time, believe I am competent to know a good car and the simplicity of the IMPERIAL is unsurpassed.

Yours very truly,
J. C. TANDY.

There are quite a few in Wichita Falls who personally can verify this statement as to the service gotten out of my Imperial.

Mind Reader Predicts New Depot.
Childress was visited by a mind reader last week, performing or showing her powers for three nights at the LaGrande theatre. The display of her powers was rather remarkable in some instances. Letters, checks, coins and other articles were described minutely. The reader also answered questions, but of course there was no means of telling whether or not the answers to the questions were true. But one question that was of particular interest to Childress people was put by a well known and prominent railroad man. He wanted to know if Childress was to have a new depot during the year 1913. The reader replied that while her impression was not clear, but she believed the fates pointed that way and that the Denver road would erect a new depot, and one of their best, at Childress during the summer or early fall. Of course the audience greeted this with pleasure, and if the depot is erected that mind reader can have almost anything she may ask of the people of Childress.—Childress Index.

Send Firemen To Convention.
At a meeting of the Childress fire boys recently it was decided to ask the business men of the city for funds with which to defray the expenses of a good delegation to the State Firemen's convention at Wichita Falls. The boys had intended to revise some other plan of raising this money, but different things have interfered and a straight donation seems the only plan. Since the convention is to be held so near it has been decided to send about eight delegates in order that the city may gain the greatest possible benefit from the proceedings of the meeting.—Childress Post.

To Drill On Gin Lot.
A company is being formed to be composed mostly of local capital, to drill an oil well in the gin lot west of town. The location is right in Petrolia. The derrick has been completed and ready for the machinery. L. P. Hammond has the contract for drilling the well, and he, and Messrs. C. T. and J. J. Taylor are industriously at work organizing the company. Mr. Hammond believes he will be in a position to begin drilling in a week or ten days. Of course this depends greatly on how soon the stock is raised. All concede the new location an ideal one for striking a good oil well. It is on the line with the other good oil wells, which are coming toward town.—Petrolia Round-Up.

Bold Robbery at Vernon.
One of the boldest robberies that has ever been committed or attempted in this community was that of last Saturday night in the alley between the Hotel Vernon and Youngblood's store. Rem Gilmore, who peddles apples for Sam Levitt, one of the North Main street dealers, had been selling apples in the country

and was just driving in to close up his week's business when he was attacked by two men, armed with revolvers, who knocked him down and relieved him of a considerable sum of money probably about \$42 in \$43. It is said Mr. Gilmore recognized his assailants and therefore warrants were sworn out for the arrest of R. M. Brinkley and Fred Jobe, who have been staying around Vernon for some time. We are told the former has a wife and one child living in Vernon at this time. Both these parties were arrested in Fort Worth by Deputy Sheriff W. A. Ish, and returned to this city Wednesday.—Vernon Record.

Safe Blown at Harrold.
A telephonic message from the Record's correspondent at Harrold stated that safe blowers entered the Harrold Bank & Mercantile Company Wednesday night and with the assistance of nitro-glycerin succeeded in blowing the safe in the grocery department into atoms, and making their escape unapprehended at the hour of going to press.—Vernon Record.

Object To "Shoe-String."
Efforts to put Tillman county in a shoe string district, falling in the House of Representatives at Oklahoma City Wednesday. A redistricting measure, with this as one of the features, was recommended by the conference committee in charge of the bill. It was proposed that Tillman, Jackson, Harmon, Greer, Rogers, Mills, Beckham, Ellis, Woodward, Woods, Harper, Beaver, Texas and Cimarron should compose the Eighth district. Senator Echols of Elk City, was given credit for the gerrymandering as this arrangement would have thrown Congressman Scott Ferris in another district, and given the Elk City senator a better chance to satisfy his unsatisfied appetite for a seat in Congress.—Frederick Leader.

Sells 7000 Acre Tract.
Sidney Webb of Bellevue has purchased the Gin Smith farm and ranch in Bosque county, ten miles west of Whitney for which he paid \$200,000. The tract consists of 7000 acres of land.—Bowie Cross-Timbers.

Booze Shipments Continue.
Shipments of booze from Wichita Falls and Fort Worth and other "red licke" communities into Oklahoma, continue to be of considerable volume notwithstanding the passage of the Webb law by the last Congress. Hereofore much of this has been sent out of Fort Worth to Lawton and other frontier stricken territories, by local freight but the recent selling of two truck loads of whiskey and other liquors in the Rock Island depot at Lawton, has driven the shippers to make Quanah their gateway into Oklahoma, and shipments through this city are large and increasing. Cottle county still gets its 36 quarts and two kegs of beer, with surprising

Buy Site For Gin.
At a meeting of the Merchants Association Monday night it was decided to accept the proposition made them by W. T. Waggoner for two acres of land at \$100 per acre for a gin site for the Farmer's Union Gin. A committee was appointed to communicate with Mr. Waggoner accepting his proposition, which insures the site. Arrangements are being made as fast as possible for the new gin, and by the time the 1913 crop is ready, there is no doubt that every thing will be in readiness for the new crop.—Electra News.

Iowa Park Gets Rain.
Two of the best rains this section

has had in some time fell on last Sunday and on Tuesday night. Wednesday morning the ground was well soaked and the grass, wheat and oats has taken on new life and looks most beautiful this morning. Farmers who have their corn planted are to be congratulated, and those who have their gardens in are lucky, this rain will help everything in the ground. Wheat and oats are growing nicely and the prospect for good crops are very flattering.—Iowa Park Herald.

STOPS HAWKING IN MORNING.
Simple Way to End Catarrh Without Upsetting the Stomach With Medicines
Do you, Dear Reader, really care to forever rid yourself of catarrh? Do you like to hawk and strain and choke and upset your stomach trying to get that accumulation of mucus from your throat every morning.

It's easy to end catarrh if you will only try. Go to Foosehee and Lynch today, say "I want a Booth's HYO-MEI outfit." Take it home; breathe according to directions the pleasant germ killing balsams from the Eucalyptus forests of Australia, and if it doesn't stop hawking, snuffling, clearing up your stuffed up head and drive out all catarrhal misery, money back.

\$1.00 secures a complete outfit including inhaler. Extra bottles needed, 50 cents. Just breathe it—no stomach dosing.

Local Evidence
Evidence that can be verified. Fact is what we want. Opinion is not enough. Opinions differ.

Here is a Wichita Falls fact. You can get it.
J. R. Henson, 119 Indiana Avenue, Wichita Falls, Texas, says: "I was in a bad way and could find nothing that would relieve me of the dull, nagging pain across my kidneys. Mornings I felt devoid of energy and after sitting in a chair, I could hardly stand erect. Sharp twinges often darted through me when I stooped. These troubles all left after I used Doan's Kidney Pills. I have had no occasion to use a kidney remedy since. You are at liberty to continue publishing my former testimonial."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Bert Bean Is Interviewed In Dallas And Puts In Boost For His Town

B. J. Bean of this city was tackled by a newspaper man in Dallas recently and took occasion to put in a good, hard boost for his home town. The following is from the Dallas News:

"Declaring that glass sands recently discovered at Wichita Falls and Nocona are capable of making the finest picture glass, which has up to the present not been made in the United States, but imported entirely from Europe, B. J. Bean of Wichita Falls was in Dallas yesterday and a visitor at the offices of the Texas Industrial Congress.

"Mr. Bean said that the glass fac-

tory which has just commenced operations at Wichita Falls found its prospects so flattering that arrangements were made to double the factory even before the first part was completed. A high quality of glass is manufactured and large orders have been received, he said.

"The white sands, recently discovered at Nocona, he said, are the first to be found in America capable of making a glass clear enough and thin enough for use in framing ordinary pictures, for which type of glass has already been manufactured the first order of the kind coming from a Dallas firm.

"Mr. Bean is an enthusiastic Wichita Falls booster and said that his town is growing steadily and very rapidly."

St. Patrick's Grand Souvenir Ball to be given St. Patrick's night, Monday, March 17th, 1913, by Rucker Lodge No. 1222, Loyal Order of Moose, in their big new hall, 812 1-2 Ohio avenue.

The best of music, and a nice souvenir for all. Everybody invited. Admission for gentlemen \$1.00, ladies free. Dancing begins at 8:30. A handsome prize will be given the best lady waltzer.
