ASSASSIN OF GREEK KING PROVES TO BE ANARCHIST

Lies In Wait For Ruler And Fires at Close Range—King Dies Within Short Time.

By Associated Press.

Saloniki, March 19.—Aleko Schinas, murderer of King George I. of Greece appears to have lived much abroad. He returned to Saloniki only when it was occupied by the Greek army after the surrender of the Turkish garrison. The deliberate intention of the regicide appears to be established by the fact that he lurked in hiding and rushed out only when the royal victim was within sixty feet of his hiding place.

Then he fired point blank into the king's back. The shooting occurred only a few yards from police headquarters. Lieut. Col. Frangoutis, the king's aide-de-camp, immediately drew his revolver. Schinas turned and fired at him, but the shot went wild.

Two Cretan military police who were acting as an escort to the king dashed at Schinas and pinioned his arms before he could fire again.

When Frangoutis saw that the assassin had been arrested he turned to King George. Believing that the monarch had escaped unscathed the aide was horrified to see his majesty stretched on the roadway. Frangoutis raised the stricken ruler's head from the pavement, but the king already was unconscious and he never spoke again. Soldiers who had been summoned by the shots lifted the king from the ground and carried him to a hospital. He expired on the way without recovering consciousness.

When questioned by the police, Schinas replied: "You have courts. I will speak there."

Pressed to say who he was and what was the motive of his crime he replied:

"Take me to the police station so that the crowd shall not maltreat me; I will speak there."

On reaching the police station he gave his name and a few particulars about himself.

Schinas Well Educated And Head of Anarchistic School

By Associated Press.

New York, March 19.—Aleko Schinas, assassin of King George of Greece, was a man of education and a confirmed anarchist, according to information obtained by Demetrius E. Botassi, Greek consul here. The man nursed a grudge against the king, Mr. Botassi was told today by Greeks in this city who knew Schinas well, because the government had closed a school of anarchism which Schinas had established.

"Schinas, I have been told by countrymen who knew him well was a much more interesting type of man than is indicated by the news dispatches," said the consul.

Queen Olga Is Prostrated By News of Husband's Death

By Associated Press.

Athens, Greece, March 19.—Queen Olga of Greece was prostrated by news of the fate of her husband to sail for Saloniki last night, but she left today. When her sons, Prince George and Prince Andree communicated the news of the tragedy to her, she fell fainting in their arms and only recovered to swoon again. This happened several times and physicians were called in to quiet her.

All the princes and princesses of the royal family accompanied their mother to Saloniki.

State mourning has been ordered for a period of six months and court mourning for a year.

INJUNCTION STOPS CITY OFFICIALS IN HOUSTON

Mayor and Others are Restrained from Purchasing Water Works and Sewer Plant

By Associated Press.

Hodoston, Texas, March 19.—Judge Kirtrell on petition of several of the heaviest taxpayers of the city this morning enjoined Mayor Rice and other officials from carrying out the purchase of a private water works and sewer system from the Montrose addition promoters for \$47,000 which determined upon at Monday's council meeting.

Allegations are that the city is without charter authority and funds to make the deal and that efforts are being made to pile up debts for the incoming administration to pay.

ARRESTS TODAY FOLLOW ALLEGED INVOICE FRAUD

Antonio Musica, With Sons and Daughters, Said to Have Secured Million Dollars

By Associated Press.

New Orleans, March 19.—Charged with defrauding banks in this country and Europe of approximately a million dollars through alleged manipulation of invoices covering hair imports, Antonio Musica and his sons, George and Philip were arrested here today. Two daughters of the elder Musica were also detained.

The party was fleeing to Colon. When searched at police headquarters \$60,000 in cash was taken from their pockets.

EXPOSITION WILL NOT TAKE PLACE

CHAMBER OF COMMERCE DIRECTORS AGREE TO ABANDON PROJECT

DECISION IS UNANIMOUS

Efforts Will Now Be Centered In Entertainment of State Convention of Firemen

The proposed Merchants and Manufacturers Exposition, Prosperity Celebration and Military Tournament will not be held. It was called off at a called meeting of the directors of the Chamber of Commerce this morning upon the recommendation of the committee having the affair in charge. The vote was unanimous as was also the report of the committee.

The committee based its recommendation upon matters that had arisen making it appear inadvisable to attempt the entertainment as originally planned and it was decided best to call off the project altogether for the present at least.

The committee was given a vote of thanks for its painstaking and conscientious efforts.

The efforts of the Chamber of Commerce will now be centered in giving a royal entertainment to the visiting firemen when their State convention meets here in May.

URGES RESIGNATION OF BRITISH HOME SECRETARY

Member of Parliament Says That Suffrage Situation Calls For Strong Men

London, March 19.—Methods of the government in dealing with militant suffragettes were discussed in heated fashion in the house of commons. One of the Unionists members, Harold Smith, declared that the passive submission of the authorities to "hunger strikes" and subterfuges had brought ridicule on administration of the law.

"The country faces mob rule," he urged, "and emergency measures are necessary. The home secretary has reduced the administration of the law to a farce. The natural consequence is that the mob is taking the law into its own hands."

"It is a disgrace to a civilized country that women are allowed openly to boast that they are criminally conspiring to break the law and that nothing can deprive them of their liberty. The home secretary ought to proclaim unlawful the meetings of the militant suffragettes, but his only attempt to remedy the situation thus far has been a few puny and futile efforts at forcible feeding, barbaric in their cruelty."

Mr. Smith turned upon the home secretary and dramatically demanded that he resign from the cabinet. "You are a hopeless failure," he shouted. "This present serious state of affairs can be ended only by strong men."

ABILENE COUNTY JUDGE SUSPENDED FROM OFFICE

District Court Temporarily Removes Him and Puts Newspaper Man in Place

By Associated Press.

Abilene, Texas, March 19.—District Judge Blanton this afternoon issued an order temporarily suspending T. A. Bledsoe from the office of county judge of Taylor county. George S. Anderson of the Abilene Reporter was appointed to serve.

Judge Bledsoe is president of the County Judge's Association of Texas. He has been judge several years. The action of the court was based on a petition charging forgery.

TWO BABIES ARE BURNED TO DEATH AT QUANAH

By Associated Press.

Quanah, Texas, March 19.—Two babies of George Harmon were burned to death here today when his residence was destroyed by fire during a high wind.

MAN WHO SHOT WIFE AND HIMSELF SUCCUMBS

By Associated Press.

Fort Worth, Texas, March 19.—Richard Selman, who shot his wife in a North Fort Worth restaurant Monday night and then turned the pistol on himself died this morning without regaining consciousness. Mrs. Selman is expected to recover.

New York To Follow Lead of Illinois In Vice Probe

John D. Rockefeller, Jr. (top left), Rev. Anna Howard Shaw and Mayor Gaynor.

New York, March 18.—The invitation of John D. Rockefeller, Jr., some days ago to Lieutenant Governor O'Hara of Illinois to bring his vice and girl wage investigation to this city has been enthusiastically seconded by many persons of note in New York.

Mayor Gaynor is one of those who have been deeply stirred by the findings of the investigations in Chicago. He believes the real cause of young girls and women going wrong is the low wages paid them.

"The chief cause of the evil is to be found in our social conditions," declares the mayor. "If women and girls were paid a living wage very few of them would become immoral for pay."

"Here in New York some of those making the greatest noise on the subject are men who pay starvation wages to women and girls."

"One of the set of men who own three of the biggest department stores in this city, where girls are paid from \$2.50 to \$10 a week, is swaggering around saying he is going to spend millions to stop white slavery, as some people call it. My own opinion is that he ought to rather raise his wages or shut up."

Dr. Anna Howard Shaw, president of the National Woman's Suffrage Association and well known social worker, favors a national probe of the

male wage question and the passage of minimum wage laws.

"Unquestionably, the most prolific cause contributing to vice among the young women is the low wages received," she declares. "In most instances the employer demands a certain amount of expenditures on the personal appearance of employees. This takes a large proportion of their wages. There is very little left for food and shelter, and nothing to satisfy the natural craving for pleasure and entertainment."

"After months of this starvation of both the physical and moral natures there can be but one result: The temptation is not yielded to in a day or a week, but after months of struggle, when both the physical and moral natures are incapable of further resistance."

CONVICTS MUTINY SHOT GUNS USED

ONE PRISONER IS KILLED AND NINE OR TEN ARE WOUNDED

HAD DECLINED TO WORK

Rations Were Withdrawn and Convicts Mutinied—Guards Use Their Shot Guns

By Associated Press.

Houston, Texas, March 19.—News from the Clemens state convict farm near Brazoria this morning is that all is quiet after the mutiny of yesterday in which one Mexican was killed and nine or ten wounded.

It is stated that the convicts refused to work and the order was given not to feed them and when an attempt to withdraw rations was made, knives and dirks were drawn and the order was given to fire. Guards emptied their shot guns into the ranks of the convicts. The wounded are said to be resting well, except one who had a leg shot off.

290 TO 145 IS SCORE OF HOUSE MEMBERSHIP

Lower Branch of New Congress Will Be Overwhelmingly Democratic—Many New Members

By Associated Press.

Washington, March 19.—The membership of 435 in the House when it convenes April 7 will comprise 290 Democrats, of which 103 will be new members, and 145 Republicans, of whom 55 will take their seats for the first time. These figures, officially compiled today, include two Democrats expected to be elected from the Tenth district of Texas and the First district of South Carolina to succeed Postmaster General Burleson and the late Representative Legare of Charleston, and a probable Republican to Representative Weeks of Massachusetts.

ALL QUIET TODAY AT NUEVO LAREDO

SHOTS HEARD TUESDAY FIRED BY BUNCH OF COWBOYS AT WORK

FEDERAL TROOPS COMING

Carranetas Reported To Be Moving Slowly Southward, But Expecting Reinforcements

By Associated Press.

Laredo, Texas, March 19.—All is quiet here today and there are no indications of trouble.

The shots heard yesterday at Nuevo Laredo were fired by cowboys who were shooting at a steer. As far as known no Mexican soldiers have appeared across the river.

American Consul Garrett and a party in an automobile reported they had been fired upon, but later stated they might have been mistaken, or a stray bullet from a cowboy's pistol caused their alarm.

The federal troops, however, continued their preparations for an attack, barricaded themselves in several strong buildings and lined the roof of the Catholic cathedral with sharpshooters.

Will P. May, a prominent stockman of this county, who owns a ranch on the Mexican side of the river, twenty miles from here, reports that Carranza and his band of rebels, who were engaged in the battle with the federals on the outskirts of Nuevo Laredo yesterday morning, spent the night encamped on his ranch. Carranza informed him that he had twenty killed and only a few wounded; that of his 350 men only seventy-five were engaged in the encounter, as the remainder refused to fight because they were in rags and without shoes and had nothing to eat for two days. Carranza stated that when he received his reinforcements he would attack Nuevo Laredo again. This Carranza is a brother of the governor of Coahuila, who is at the head of the latest revolution. The rebels left the May ranch this morning after purchasing a few horses and proceeded southward, having with them several wounded whom they conveyed in wagons.

Col. Villareal, the commander of Nuevo Laredo, today received a telegram from Gen. Tracy Aubert at Monterrey, stating that a large detachment of federals had left for Nuevo Laredo to take quarters in the Garrison there, and that from Lampazos they would make a forced march to Nuevo Laredo.

Seven trustees of the Wichita Falls Independent School District are to be elected on Saturday April 5th. The terms of all members of the old board expire. The election is on the same date as the election for county school trustees. Several members of the old board declare they will serve another term.

CLEVELAND BIRTHPLACE DEDICATED AS MEMORIAL

House Where Late Ex-President Was Born Is Scene of Interesting Ceremony

Caldwell, N. J., March 19.—The wooden house where Grover Cleveland was born was dedicated today as a permanent memorial to the dead president. The day's formal program began with the transfer of a purse of \$17,500 in payment for the house, purchased by the Grover Cleveland Birthplace Memorial Association from the trustees of the First Presbyterian church. Richard F. Cleveland, the president's son was selected to receive the key and open the front door, while his sister, Esther, was chosen as the first of the official visitors to enter the room where her father saw the light just seventy-six years ago and decorate it with flowers. Her mother, now Mrs. T. J. Preston, was among the spectators.

The Cleveland memorial is the Presbyterian manse, which the president's family occupied when his father was pastor of the Caldwell Presbyterian church. For its purchase the memorial association raised \$25,000. A movement is on foot to raise \$25,000 more by popular subscription to provide for its care. Until this money is obtained the manse will continue to be occupied by the present pastor of the church.

The memorial is a two story frame structure set back from the road behind two big elms. The association intends to plant it white with green trimmings and otherwise restore it to the condition it was in when occupied by the Clevelands.

On the adjoining lot a memorial library will be erected. Andrew Carnegie has promised \$7500 for this building.

EARLY CLOSING BILL IN TROUBLE

HOUSE SUBSTITUTES MEASURE WHICH GOVERNOR WILL PROBABLY VETO

MANY BILLS ARE PASSED

Consideration of Initiative and Referendum Amendment in Progress This Afternoon

By Associated Press.

Austin, Texas, March 19.—The House this morning substituted for the Weinert-Renal 9:30 closing bill which has finally passed the Senate the Kennedy liquor regulation bill which Governor Colquitt is almost certain to veto if it reaches him. The governor has indicated plainly that he will approve a 9:30 closing bill only, this being in accordance with the platform.

The Senate judiciary committee No. 1 reported with an adverse majority and favorable minority report, the House bill providing for nine juror verdicts in civil cases and the House supreme court bill which Chief Justice T. J. Brown of the supreme court favors. Adverse report was made by the committee on public health on the bill creating a state board of examiners to regulate the practice of medicine.

Senate Bills Pass

The House concurred in Senate amendments to the county hospital bill, thus disposing of it finally and passing it up to the governor. The House engrossed the Burgess-Harris general law which is identical with a measure which the Senate has already passed.

Final passage was given to the following Senate bills:

Lattimore's bill requiring live stock commission merchants to make bond.

Johnson's bill validating the incorporation of certain cities and towns.

Townsend's wife and child amendment bill.

Watson's bill increasing salaries of judges of the supreme court and court of criminal appeals to \$5000 a year and those of judges of courts of civil appeals to \$4000.

McNeal's allowing interurban roads to build union stations and office buildings.

McGregor's bill extending the corporation powers of sanitariums to allow them to own land.

Lattimore's bill validating certain land titles.

Conner's bill permitting cities to sell city park property for railroad use.

Warren-Astin bill creating the 76th judicial district and reorganizing the thirteenth judicial district.

Vaughan's bill permitting the consolidation of telegraph and telephone companies within the State.

Westbrook's presidential preferential primary bill.

Initiative and Referendum.

The House passed to third reading Vaughn's bill permitting veterinary surgeons who have practiced for three years prior to the creation of the state board of veterinary examiners to practice without passing an examination, upon presentation of a verification certificate.

The House then began consideration of the Senate resolution submitting to the people the constitutional amendment providing for the initiative and referendum.

JURY IN MURFF ASSAULT CASE UNABLE TO AGREE

Is Divided Hopelessly After Being Out Since Yesterday, But Is Not Discharged

Dallas, Texas, March 19.—The jury in the trial of Luther A. Murff, well known business man here, accused of criminally assaulting a 14 year old girl, is still divided. Judge Crawford sent for them at 10:30 this morning. The foreman told the judge that the jurors were hopelessly at variance in their opinion, and the judge again ordered them back to the jury room.

HENRY'S BILL NOT ASKING MINERAL RIGHTS TAXATION

The bill introduced in the House Saturday by Representative Henry was not a bill authorizing the taxation of mineral rights as reported in Sunday Morning's Times but was a bill entitled "An Act to grant unto guardians the right to make mineral leases for wards." This act is of vital interest to many estates in this section, as well as to oil companies desiring to take such leases. The bill has finally passed the House, Mr. Henry reports, and has been favorably reported by the Senate committee, and will no doubt receive final passage the last of this week.

CHANGE IN ADMINISTRATION BRINGS BRYAN, JR., AND WIFE INTO PROMINENCE

Mr. and Mrs. William Jennings Bryan, Jr., and their children, Mary and Helen.

Among the persons brought into prominence by the change in national administration are Mr. and Mrs. William Jennings Bryan, Jr., son and daughter-in-law of the new secretary of state. They, with their two children, Mary S. and Helen V., are now living in Washington. The young husband is pursuing law studies in Georgetown University. His wife is a daughter of Alexander Berger, a Milwaukee millionaire.

ASH WEDNESDAY OBSERVED HERE

SPECIAL SERVICES BEING HELD IN CARRYING OUT HOLY WEEK PROGRAM

SIGNIFICANCE OF DATES

Holy Thursday and Good Friday Are Observed By Social Members of Catholic Faith

Today is Ash Wednesday and it being observed by special services at the Catholic church. The date gets its name from the Catholic ceremony of strewing ashes on the head as a sign of penitence. It was the early custom of the one seeking penance to stand before the door of a church in sack cloth and ash. The ceremony in Catholic churches now consists of the priest putting the ashes, which are made by burning the palms consecrated on the preceding Palm Sunday on the head; each penitent kneeling at the altar while he says "Remember me, though art dust and shalt return to dust."

Holy Friday. Thursday the Catholic services are more solemn and from then on until Easter the church is in the most important season of the year. By the Catholics it is called Holy Thursday. The services in the church consist of the institution of the holy eucharist, the Lord's supper. In most of the churches this will take place about 8:30 in the morning. The blessed sacrament will be placed in the repository at this time in one of the side altars which is beautifully decorated with flowers and palm and other artistic decorations arranged by the ladies. This will be ready for the adoration of the faithful all day.

The old English custom was to designate this day as Maundy Thursday, from the practice of distributing mounds of bread on that day. It was a season of practical humility, the custom of many men fasting that spirit being in the washing of feet. Those in high estate showed their humility before God by washing the feet of as many poor people as they were years old, an giving the poor people gifts. It is written of Cardinal Wolsey that one of these Thursdays he washed the feet of 50 poor people and gave each three shillings, 12 pence and a pair of shoes. Queen Elizabeth also washed the feet of the poor on this day and presented them with gifts. This service by kings was last performed in the time of James II.

In Rome the oils are consecrated on Holy Thursday in St. Peter's during mass. It was also a custom for the Pope to wash the feet of priest and to serve supper to them. This was a sign of the spirit of humility of the Pope, the head of the church.

The churches are in the deepest mourning from Thursday until Saturday night, signifying the death of the Lord. No bells are rung in the churches from the "Gloria" of the mass until the "Gloria" of the Saturday mass. The church is in deepest gloom.

The day following is Good Friday.

This day has been observed from the earliest times. In England today business is suspended. In Rome however, outside of the church, the day is not especially observed. The church at Rome is desolate in appearance and the cardinals wear purple and leave off their rings. There are always many visitors in Rome at this season and the services at the church are unusually well attended. Many Protestants are usually in attendance as well as Catholics. Good Friday commemorates the death of the Lord on the cross. It is called Good Friday because Christ showed by His suffering and death on the cross His love for the world. Tomorrow in observance of Holy Thursday High mass will be celebrated at 7:00 a. m., followed by the Holy Eucharist at 7:20 with the procession. The Blessed Sacrament will then be ready for the adoration of the faithful for the remainder of the day. A short closing service will be held in the evening.

Catholic Services. Friday's services at the Catholic church will open with the mass of the presantfield at 7 a. m. The cross on the high altar will be unveiled for the veneration of the faithful. It will then be placed on the communion railing for the adoration of the faithful all day. Friday services will be held again in the evening at 7:30 p. m. Saturday morning services will be held at 7 o'clock and will include the reading of the prophecies, the blessing of the Pascal candle, eucharistic of the Lord in the earth, and the blessing of the baptismal water. Confessions will be heard after 7 o'clock this afternoon and again after 3 o'clock Saturday afternoon.

DRUGGIST RECOMMENDS

Vinol For Run Down People
If any one person should know the value of medicines it is the druggist who dispenses them and from our experience we want to say if people in this vicinity only knew the value of Vinol, our delicious cod liver and iron tonic (without oil) at this season of the year, we would not be able to supply the demand. This is because Vinol is a combination of the two most world famous oils, namely, the medicinal curative elements of cods' livers without the big and iron for the blood. Vinol tones up the digestive organs, purifies and enriches the blood, promotes healthful sleep and a normal appetite.

Old people, delicate children, run-down overworked and tired women should try a bottle of Vinol with the understanding that your money will be returned if it does not help you.

Are You Constipated?
If you get a box of Dr. King's New Life Pills, take them regularly and your trouble will quickly disappear. They will stimulate the liver, improve your digestion, and get rid of all the poisons from your system. They will surely get you well again. 25c at all druggists.

Any Clothes Will Do For Tommy. He Wears Them Out Anyway

That is the excuse some mothers give for buying cheap clothes for their boys—of course it's ridiculous. If it were true, why not dress them in brown paper—its still cheaper than the cotton mixture and shabby materials, that cheap boy's clothes are made of—but here is the truth, the harder Tommy is on his clothes, the stronger and better clothes he should have. We challenge Tommy or any other boy to wear out a suit of **Woolly Boys Clothes** in the time he can wear out two suits of the cheaper kind, and the **Woolly Boys** suits look good and keep their shape all the while Tommy wears it, that's because its made right out of all wool materials. There's no economy in buying cheap boy's clothes when you can get **Woolly Boys Clothes** that wear twice as long for very little more in price. They are guaranteed too. Let us show them to you

BURNING TRASH CAUSES ALARMS

FIRE DEPARTMENT CALLED OUT
THREE TIMES THIS
MORNING

DAMAGE IS INSIGNIFICANT

Windy Weather Causes Small Trash
Fires to Spread But All are
Soon Put Out

Trash burning in windy weather was responsible for three fire alarms today. Fortunately the blazes were discovered before they had gotten good starts otherwise bad fires would have been probable.

The first alarm came from the Bessey Furniture Company where a burning trash pile at the rear of the store threatened to get beyond control. It was extinguished with the use of chemicals. Before the firemen got back to the city hall another alarm came in from Hill's undertaking establishment where a man cleaning up the premises was burning trash. The blaze spread to a store room on the back lot but was extinguished before any damage was done. The third alarm came from a residence at the corner of Harrison and Tenth street but was extinguished before the department reached the scene.

It was on such a day several years ago that fire spread from a trash pile in Fort Worth and destroyed many blocks of residences before it was extinguished. It is now against the city ordinances there to burn trash in the open.

EPISCOPAL CHURCH PROPERTY MAY BE SOLD

At a meeting of the vestry of the Episcopal church held in W. M. McGregor's office at the First National Bank last night a committee was appointed to consider offers made for the purchase of the church's property at the corner of Lamar and Eighth streets. The following comprise this committee: Dr. L. Mackechney, W. C. McGregor and H. O. Craven.

The meeting of the vestry was well attended.

MAJESTIC THEATRE TO REOPEN TOMORROW NIGHT

The Majestic Theatre will reopen Thursday, with matinee and night performances of vaudeville and pictures. Abe Marcus will be in charge of affairs as manager, and offers what he considers a first rate program. The billing includes Misses Excella and Jessie J. Franks in physical culture exercises and bag punching. James Grady and Co. presenting a one-act classic entitled "The Tail Bridge." Hall and Gilroy, singing comedians, and Brent Hayes, banjoist.

Of the Excella and Franks act, the Denver Post has the following:

No act of its kind was ever accorded a more flattering reception in this city than the bag punching specialty of Miss Excella and Jessie J. Franks. "The Physical Culture Girls," which is one of the strong features of the Majestic show this week. These young ladies are perfect types of physical womanhood, strength, and in their work, grace, dexterity and refinement. Their bag punching is not excelled by that of the most celebrated masculine experts, and is a delight to the eye and to the ear. Executing all kinds of difficult blows, they keep the leather covered bags moving with lightning-like rapidity in time with various musical selections, and no audience is slow to appreciate the remarkable difficulty of their movements or the skill with which they perform.

The managers of the Majestic circuit call especial attention to the Jas. Grady Co. and state it is one of their best feature acts.

Father-Love.

We hear about a mother's love in story and in song,
How staunch it is thro' thick and thin
How tender and how strong,
How sweet and pure and beautiful,
And every word is true,
But what about a father's love?
That claims some credit, too.

It's father delves the darksome mine
And climbs the girders high,
And swings upon the scaffolding
Between the earth and sky,
It's father bends his aching back
And bows his graying head,
To bear the burdens of the day
And earn the children's bread.

Both must work and both must plan
And do an equal share
To rear the little ones the Lord
Has trusted to their care,
All honor to the mother-love,
The universe its ill,
But when you praise it don't forget
That father pays the bills.
—Exchange.

ST. PATRICK'S PROGRAM BY THE ART LITERATURE CLUB.

Tuesday's meeting of the Art Literature Club was held at the home of Mrs. H. O. Craven, the program dealing at length with St. Patrick and Ireland. The Carvens' home had been beautifully decorated for the occasion and was a veritable bower of spring, with cut flowers in profusion and a general spring time atmosphere. The art lesson dealt with Ireland, the roll call being answered with many amusing examples of Irish wit and humor. The leader for the afternoon was Miss Essie Seelinger; a paper by Mrs. Filgo on Ireland's scenery and natural attributes, a paper by Mrs. W. P. Bolding on the occupation and customs of the Irish, a paper by Mrs. D. J. White on St. Patrick, and the parliamentary drill led by Mrs. D. J. Carithers, made up the literary program. At the business session Mrs. D. J. Carithers was elected delegate to the district meeting of the Federated Clubs, which will be held at Stephenville in May. The Bayview lesson for the afternoon was on Venezuela. Pansy bouquets were distributed as favors and a two course luncheon was served. Mrs. D. J. Carithers will be the next hostess. Those present Tuesday were: Mesdames J. M. Blankenship, W. P. Bolding, C. W. Bean, Baker, Filgo, Harris, E. L. Smith, Lou Gebhart, D. J. White, D. J. Carithers, Miss Essie Seelinger.

MEHODIST LADIES HOLD ALL-DAY SESSION MONDAY.

An all day session of the ladies of the M. E. Church, South, was held last Monday at the church, about fifty being in attendance, and the occasion proved a most profitable one. In the morning needle work occupied those present, and after luncheon, a literary program was carried out; among the musical features of the program was a vocal solo by Miss Boone Hardy, which was greatly enjoyed.

WESLEY SEWING CLUB WITH MISS TOMMIE HALE.

The Wesley Sewing Club met with Miss Tommie Hale Saturday afternoon. After spending the afternoon in the usual pleasant diversion of sewing and conversation, the hostess served dainty refreshments of sandwiches, chocolate and wafers. The club will meet next week with Miss Bon Hardy. Those present Saturday were Misses Gera Davis, Zola Robertson, Aileen Waggoner, Alta Rufner.

SHE GAVE UP ALL HOPE

Physicians Failed To Help Mrs. Green, But She Finally Found Relief in Cardui.

Meets, Va.—Mrs. J. C. Green of this place, says: "I suffered with womanly troubles so that I could hardly sit up. Two of the best doctors in our town treated me, and I tried different medicines until I gave up all hope of ever getting well. One day, I decided to try some Cardui. It did so much for me that I ordered some more, and it cured me! Today, I feel as well as I ever did in my life. The pains and the trouble are all gone. I feel like another person in every way. I wish every sufferer could know what Cardui will do for sick women."

A few doses of Cardui at the right time, will save many a big doctor bill, by preventing serious sickness.

It tones up the nervous system, and helps make pale cheeks fresh and rosy. Thousands of weak women have been restored to health and happiness by using Cardui. Suppose you try it. It may be just the medicine you need.

Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request.

EVENING GOWN OF ATTRACTIVE LINES

Delicate, sweeping curves characterize this evening gown—produced by Schaub of Paris. It is made of pink liberty trimmed with black and white beaded net. Black and pink velvet roses garnish the waist.

Marie Shelton, Bon Hardy, Kathleen Benson, Eva Benson, Myrtle Humphries, Ester Hale, Mrs. C. R. Harri-look, the Cook.

MISS PEERY ENTERTAINS JUST-SO CLUB MEETING.

Miss Lennie Peery was hostess Monday evening for the regular meeting of the Just-So Club. Misses Esther Gorsline, Laura Martin and others added zest to the evening with ever delightful music. Sparkling conversation combined with a progressive exhibition of the latest fancy work was the order of the evening. As it was also a meeting of the "Qui Vive Book Club" the drawing of the books proved to be quite interesting and enjoyable feature, as did the discussion of the books. The hostess was assisted by her niece Ellouise Peery, in serving a course consisting of ice cream cunningly hid by whipped cream, and cake, to the following club members: Misses Eva Benson, Pearl St. Clair, Esther Gorsline, Hazel and Helen Brightwell, Miss Allen, Iva Bullard, Lena Gardner, Ruth Downing, Mrs. W. W. Silk and Mrs. Peery.

To The Times:

Every citizen should know that— "A peace officer or any other person may, without warrant, arrest an offender when the offense is committed in his presence or within his view, if the offense is classed as a felony or as an offense against the public peace. (Art. 247 Code of Criminal Procedure)."

Evidently this article gives every citizen the right and authority of law to be a conservator of the peace, and to act in any emergency necessary to protect life, property and enforce ordinances and laws in the community where he resides.

Consequently the privilege carries with it responsibility of citizenship and to a certain extent, makes each man an auxiliary arm of justice, charged with aiding the peace officers.

Together with jury service and giving information that would lead to the detection and suppression of crime the citizens of every community can have just as strict enforcement of the laws as they desire.

While it is true, there is no excuse for any officer to neglect or fail to do his duty, the force of public sentiment goes a long way toward the enforcement of laws.

Entered at the Postoffice at Wichita Falls as second-class mail matter.

Wichita Falls, Texas, March 19, 1918.

Now that the original friends of President Wilson in Texas, and a least twelve of our congressmen who were not supporters of Wilson during the presidential preferential campaign are disgraced as to how the federal offices should be disposed of how would it work to adopt a plan to recommend for appointment to office men who supported the claim of Champ Clark, Harmon or Underwood in counties that instructed their delegates to the Houston convention that way and Wilson men in counties that instructed for Wilson? This is the opinion of The Times. It would be a fair and just way to settle the matter without causing any friction. Those who supported Wilson do not take the position that only Wilson men should be recommended for office. They do feel, however, that it would be unjust to recommend for appointment to any office either an original Clark, Harmon or Underwood applicant in counties that instructed for Wilson.

WANTS POLICEMEN TO WEAR UNIFORMS.

Editor The Times: Is there any reason why the officers in this city should not be uniformed? At present it is difficult to distinguish one of our officers from any other citizen, and this fact makes it rather bad for strangers, especially the ladies. I am a working girl, and not only myself, but several of my girl friends have been the subject of several insults from men who stand on the corners. Being a comparative stranger, I did not know the officers and I am informed that even though one does know them, they are always hard to locate. Now I like Wichita Falls in fact I think it is a splendid little city, but I do think that the officers should either see that men do not congregate on the street corners, or else the city should provide uniforms for the officers, so one could have these men arrested. I am sure that this will be endorsed by several ladies of my acquaintance, as well as by gentlemen who desire to see the ladies protected. I do not wish to sign my name for obvious reasons.

WORKING GIRL.

Usually The Times does not accept for publication anonymous communications, but the above is so suggestive of a reform long needed that The Times makes an exception to the rule in this case and gives room for what "Working Girl" has to say. There can be no doubt but there are too many mashers and the ladies should receive protection. Perhaps if they were personally acquainted with

SEASON TO OPEN WITH GAME HERE

SCHEDULE FOR TEXAS-OKLAHOMA LEAGUE IS COMPLETED AT MEETING

DENISON FIRST VICTIM

Drillers Will Take To Road After First Series—Time of Season May Be Extended

Wichita Falls will open the Texas-Oklahoma League season on the home lot, with Denison as the contender, according to the schedule adopted Wednesday by the league officials at Denison. Immediately after the first series the Drillers will take the road for a series of fifteen games, returning May 3 for a long period at home.

Duke Morris, who represented the local association at the schedule meeting had been instructed to get names here, if possible, while the "premen's" convention was in progress, May 13, 14 and 15, and this he was able to do, in addition to having the season open here.

Includes 127 Games.

The schedule as drawn up includes 127 games, beginning April 15 and ending August 18. It is understood an effort will be made to have the time extended at least to Labor Day.

After playing the season's opening series here with Denison, the team will be at Ardmore on April 18, following with series at Sherman, Texarkana, Paris and Bonham. The team returns here May 3 for a series of fifteen games with Paris, Texarkana, Bonham, Sherman and Durant. On May 18, 19 and 20, the team will be in Denison, returning here for a series with Ardmore and then going in the road again; Sherman, Texarkana, Paris and Bonham, will be played on this trip, which will end June 5. Paris, Texarkana, Bonham, Sherman, Denison and Durant will be here in the order named, finishing an at home stay of 18 games.

One June 23 the team takes the road again for Denison, Durant, Texarkana, Paris, Bonham and Sherman. July 11 finds the Drillers back at home with Sherman, Texarkana, Paris, Bonham and Ardmore; on July 26 the team goes to Ardmore, then Durant, returning August 4 with Durant followed by Ardmore; the series with Ardmore will end August 9, and the team will spend the remaining nine days of the season at Denison, Durant and Ardmore.

Better Than 1912.

In general the schedule appears to be much more satisfactory than that of the officers it would not be necessary for them to be uniformed, but the way things are now the only way one can distinguish an officer from a private citizen is by the badge the officers usually wear and sometimes the badges are not visible.

WE HAVE SCORED A HIT

In this city with the excellence of our work in cleaning all kinds of Ladies and Mens' Clothing and returning them so that they look as good as new. Ladies' lace, silk, satin, pongee dresses of dainty fabrics, gloves and furs cleaned so that they have the beauty of a new garment at the

of last year when the season was half gone before the Drillers played against four of the clubs. There will be on July 4 game here, the team being in Paris for a double header on that date. Only twice during the season will there be repeated series, one being with Ardmore and another with Durant.

CHOOSE SPECIAL JUDGE WHEN FELDER IS ABSENT

Attorney Orville Bullington was elected special judge of the county court this morning in place of Judge Felder but did not get to serve long enough to re-instate some cases which Judge Felder had dismissed last week because the attorneys were not in court to try them.

Since Judge Felder dismissed these cases the attorneys have been diligent and punctual in their attendance upon the court. A number of them were in the court room this morning at the time for opening court. Judge Felder had not arrived. After waiting some little time and Judge Felder still not arriving they decided to get back at the judge. Accordingly they elected Mr. Bullington special judge and one of the number was making a motion for the re-instatement of the dismissed cases when Judge Felder walked into the court room.

With his arrival the re-instatement proceedings came to a halt. The judge had been delayed by an engagement up town and relished the joke as much as the attorneys themselves.

U. S. ARMY TRYING WICHITA TRUCKS

WANTS THEM FOR AERO SQUAD AND IS MAKING TESTS

USED FOR PICTURE SHOW

Man Who Has Traveling "Movie" Buys Trucks Here With Which to Transport Apparatus

A Wichita Truck is being used by the Aero squad of the United States Army and is giving such good satisfaction that the government is negotiating for the purchase of five of these trucks.

Jack Culbertson, manager of the local plant, has just returned from Texas City, where he went to make a test of the truck for the government. The truck was shipped in response to a telegraph order. He says the army fliers are preparing to attempt a flight from Texas City to San Antonio and expect to break the world's record for a single continuous flight.

Carry-Moving Pictures.

New uses are being found for the Wichita Truck constantly and it is making good in all of them. The latest and most novel use to which they have been put is as the home of a moving picture show. The term "moving" is used in a double sense. A Mr. Ayes, proprietor of Ayes Overland Shows, recently placed an order for two Wichita Trucks. These trucks will be equipped with a complete motion picture outfit and will carry a piano and will also be the homes of the show people while the shows are on the road. Electrical current for the picture machines will be generated from the truck's motor. The two trucks ordered by Mr. Ayes are to be ready for delivery by May 1, when they will be started on tours that will take them to the Canadian line and back.

Orders so far received for the Wichita Trucks have averaged more than one a day for each day in March so far.

Easter

YOUR EASTER GOWN AWAITS YOUR COMING

The question of fitness in a garment is simply a question of style and largely depends upon your individual preference, aided by the good taste and discrimination of those who serve you personally. We have nothing but models that have been chosen with critical care, and we must submit Thursday, Friday and Saturday collections of modes as the happiest, choicest examples in the realm of Suits, Coats and Dresses. The question of fit is a matter of tailoring, and we do not exaggerate it in its importance when we say that the solution of this question has much to do with a woman's peace of mind. Perfect fit is the better part of style and satisfaction.

Ideal Models in Handsome

Materials in making that... of good taste and refinement... and not to be found elsewhere. Price \$15.00 to \$25.00

Artistic Tailored Suits

We are particularly anxious that you see our stock of skirts just as they are now and beautiful. Price \$15.00 to \$25.00

Easter Showing of Spring Millinery

Judging from the things we hear about every hour about millinery one would be led to believe that there was not one millinery shop in this city. We men think to think it a mark of distinction to wear a hat with the Calumet label. It stands for good taste, good judgment, expert workmanship and a clever knowledge of harmony, perfect copies and improvements and cost less. Hats for Easter should be selected now to avoid disappointment. Those who desire hats for Easter Sunday. We are showing the largest and most complete selection in the city.

Easter showing of shirt waists and shirts, all white waists in an equally comprehensive showing. These are trimmed in dainty laces, rich embroidery work, baby tucks, made of sheer voile and lingerie, with half and three-quarter sleeve, high and low neck. Prices \$2.00, \$2.25, \$2.50, \$3.50 to \$6.50. A complete line of ladies shirts with separate collars, in plain and fancy patterns. Price \$1.50. Showing of Easter Gloves. Showing of Ladies' Hose. Easter Showing of Women's fine silk thread hose. New Shoes for Easter. Showing of Easter Handkerchiefs. Easter showing of Swiss embroidery flouncings.

Easter showing of ladies' \$3.00, \$4.00 and \$5.00 shoes. Easter showing of boys' youths and little girls' shoes. Easter showing of Bullseye and Irish lace collars. Come and see the Latest in Silk. There are many novelties still being introduced, and we show them at the same time they are displayed in the eastern shops. Many new things have been received during the past week. Come tomorrow and see them. 36-inch best quality Messaline at \$1.00. 27 inch at 75c. 36 inch Tub Silk white ground pink, blue, lavender, black, also all white at, per yard \$1.00

Easter Showing Children's Dresses

Dainty White Dresses for \$1.25 and up

Made of sheer white lawn, French styles with yoke of fine Val lace, skirts with small cluster tucks and lace edges. Price \$1.50 to \$4.00

Women's Union Suits

Of fine lisle and cotton, Swiss and Jersey ribbed, low neck, sleeveless, umbrella style or light knee, plain and silk tape trimmed with heavy lace. Easter showing at 50c. Easter Showing of Silk and Messaline Petticoats \$2.95 and upwards to \$10.00. We just received a spring shipment of new silk and Messaline petticoats that will appeal at once to every woman of taste, particular to the woman who seeks to buy the best. Petticoats at all prices from the least expensive up to the finest in all colors.

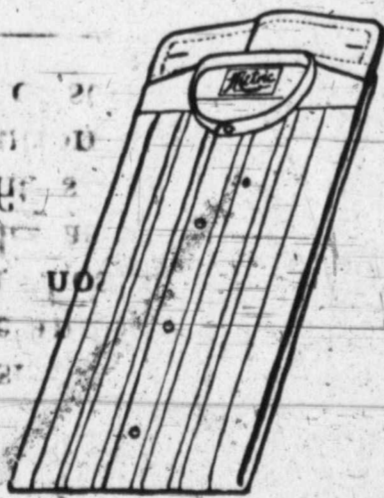

Easter showing of Warner and La Rein Corsets, all sizes and styles \$1.00 to \$12.50

Easter showing of hair ornaments.

Easter showing of Mesh and leather bags.

Showing of Dress Goods of Rare Charm and Beauty for Easter

Tomorrow's showing will be wider in scope and larger in variety than will be gathered here at any one time later on. We are abundantly prepared to care for your every want together with all the newness and novelty of fashion's latest demands. We present herewith many specially attractive values for tomorrow.

Men's Easter Furnishings

Men's new spring shirts in a splendid variety of the newest patterns and colors made of percale, madras, mercerized stripes and soisette shirting, some made with French roll cuffs, coat style, newest spring effects made of fine imported silk stripes and figured pongees. Our garments are backed by a strong guarantee, workmanship and tailoring that means style and fit and your suit will not only give you satisfaction in fine weather but will keep its snappy appearance through all kinds of weather and wear. Visit our men's, young men's and boys' clothing department for good clothes. Prices \$15.00 to \$25.00

Easter Showing of Boy's Suits

With two pair pants. Special offer for Easter at only \$7.50. Other suits from \$5.00 to \$13.75

Water Power of World Wide Effects

SECTION OF DOWNSTREAM SIDE

IN THE heart of the United States, but at a point which is one of the nearest by transportation routes to the countries of Central and South America, is being built a giant water power plant which must greatly affect for good not only its immediate environment, the Mississippi valley, but the whole nation and all the nations in Pan America. The colossal size of the water power there would cause appreciable effects anywhere in the world, and it is located exactly at the point where its social influence may be exerted most fully and effectively upon world commerce. The achievement nearing completion is the damming of the mighty Mississippi river, harnessing it to turbine wheels and electric generators and distributing its tremendous power over one hundred miles and more of the most efficient portion of the United States on a direct traffic line to the rest of the western hemisphere. It is not only an unparalleled engineering achievement, but also perhaps the greatest single economic force flung into the world by the hand of man, excepting only the Panama canal.

Nearly Mile Long

The basis of the water power development at Keokuk, in the southeastern corner of the state of Iowa, is a great dam extending for nine-tenths of a mile from the Illinois bluff to its junction with the titanic power house near the Iowa shore. This dam is a composite structure of 119 arched spans, all alike, with piers six feet thick thirty feet apart, and spillways in the spans, all alike, over which the water will flow. This dam is a monolith of massive concrete set down several feet into the hard rock bottom of the Mississippi, but impounding the water by its immense weight. The structure, with the exterior appearance of a bridge, is 63 feet high, 42 feet top at the bottom, and 39 feet wide on top; the spillways between the piers are 32 feet high, all the width of the dam at the bottom, have vertical upstream faces, and their downstream face is an ogee curve which delivers the water at the bottom horizontally to the river current. On top of each spillway will be a steel gate 11 feet high. By varying the number of these gates, which are open and closed, the amount of water flowing over the dam will be regulated, with the result that at varying stages of the river the pool above the dam will have always an unvarying depth and its surface will always remain at the same place.

The water wheel itself is another example of overcoming the impossible, for experts said that it was impossible to build a turbine which would meet the unusual conditions there. But Chief Engineer Cooper called a council of war and a little later rose from the head of that table with a new design of turbine which tests show has 86 per cent of efficiency as compared with the next best result ever attained of 75 per cent, and a textbook figure of 75 per cent of efficiency as the norm to be used in engineering calculations. The 30 turbine wheels in the Keokuk power house are several times as large in dimensions as any ever made before. Each is at the lower end of a shaft 25 inches in diameter, on the upper end of which is the revolving part of the electric generator standing on the power-house floor. The revolving shaft, with its machines at each end, weighs about 552,000 pounds, and it is supported on one bearing which is lubricated by forcing oil between its surfaces at a pressure of 250 pounds to the square inch. From this bearing a steel cone carries the weight to a huge ring below, and the total weight of one turbine unit is about 552,000 pounds. The lower ring itself weighs about 111,000 pounds, and between it and an upper ring of similar size is a steel cylinder embedded in the basement of the power house. The 30 turbines develop over 500,000 horsepower, and this is increased by two auxiliary smaller wheels, which also energize the exciters of the electric generators. This is over three times as much power as is developed in any one other water-power plant in the

world. After deducting slight losses of energy and very large reserve, 200,000 horsepower will be sold for commercial use.

At the lower end of the great power house is a colossal lock with the same width as those at Panama and with a lift of 40 feet instead of the lift of 25 feet 4 inches in any one lock at the canal. Beside the lock will be a mammoth dry dock for building and repairing boats. There is also a long and high wall protecting the tracks of a railroad alongshore, which must be elevated above the new water level above the dam, and an ice feeder like a concrete bridge over a kilometer long is another part of the work there in the bottom of the Mississippi river, built to keep ice and debris of all kinds out of the turbine.

At its western end this largest of power dams joins the power house, which stretches almost at right angles down the river for almost a third of a mile—accurately, 1,718 feet—with a width of about 123 feet and a height of over 177 feet. The water from the immense forebay between the power house and the Iowa shore passes through thirty arched portals, behind which are buttresses, on their outer ends, the steel rods acting as strainers. Behind each arched portal are four intakes to each turbine water wheel, each intake being 22 feet high.

Work of Many Years

The origin of that water power development is most interesting. It is the result of remarkably persistent labor on the part of the people of that community through several decades. In the middle of the last century the value of the vast quantity of power going to waste there was recognized and various unsuccessful movements to utilize it were launched. Then ten years were spent in work which was successful at last. A corporation which really was a trustee for the people made preliminary surveys, collected data, obtained a franchise act from congress, and searched for capital to build the water power installation. It obtained its funds from the municipal treasuries of Keokuk and of Hamilton, Ill., across the river. It succeeded only after it interested in the project Mr. Hugh L. Cooper, who organized the present proprietor company only after much labor and many rebuffs, and succeeded finally chiefly because of his record of successful building of water power plants at Niagara Falls, Sao Paulo and other places.

It is intended to start the turbines and generators in the mammoth power house early next summer, with the president of the United States pulling the lever to start the turbines, while he stands surrounded by the governors of all the states in the Mississippi valley.

He Knew Pounder

The managing editor was disappointed and he told the city editor so. "Why didn't you print that story young Pounder turned in last night?" he wanted to know. "Which story?" asked the city editor. "The one about the crazy man scattering money through the downtown streets. That was a good story, and full of interest. It would have been exclusive, too. I see the other paper hasn't got it." "Well, I didn't print it because I thought it one of Pounder's jokes." "What made you think so?" "It stands to reason. If it had been true Pounder would have been following him yet."

Translated

The Boston lady entered the department store. Approaching the gentlemanly floor walker, she said: "I desire to purchase a diminutive, argenteous, truncated cone, convex on its summit and semiperforated with symmetrical indentations." "Yes, madam," replied the gentlemanly floor walker. "You will find the thimbles two counters to the rear."

Many Abandon Religious Faith. Germany, according to the religious statistics of the empire, has an increasing number of persons without any religious profession. At least they are so registered. The number has grown from 17,000 in 1907 to nearly 205,000.

"THE STORE DEPENDABLE"

WHAT THE SILO MEANS TO TEXAS

WILL PRACTICALLY REVOLUTIONIZE GROWING OF FORAGE CROPS

MANY ALREADY IN USE

Over Two Hundred in State—Value is Pointed Out in Saving of Feed For Cattle

Fort Worth, Tex., March 19.—There has been introduced in Texas within the past two years one of the greatest boons that has come to modern agriculture since the first reaper was manufactured and the fact has been established beyond a doubt that the silo has secured a permanent place among the necessary equipment of a modern Texas farm.

A census recently taken by the Texas Commercial Secretaries and Business Men's Association shows that there are 214 silos now in use on Texas dairy, stock and other farms where feeding livestock is practiced to any extent and that the total storage capacity of all the silos in the state is 27,765 tons or an average of 130 tons per silo.

While silos have been in use at the A. & M. College dairy, Taft ranch and by a few others in the state for several years the feeding of ensilage and the erection of silos in Texas has only become general during the last two years the majority of the total number of silos in the state being erected during 1912.

The number of silos in each county is shown in the following list: Brazos 5, Bowie 1, Brazoria 60, Bosque 2, Bell

4, Clay 3, Colorado 1, Cameron 3, De Witt 2, Denton 10, Ellis 4, Fisher 1, Galveston 6, Gregg 3, Harrison 3, Harris 15, Jack 1, Jefferson 8, Kaufman 3, Matagorda 2, Nolan 1, Neuces 7, Palo Pinto 9, San Patricio 10, Tom Green 12, Tarrant 2, Travis 2, Wharton 25, Wilbarger 2, Webb 2, Williamson 2, Wichita 1.

There are four silo manufacturing concerns now operating within the borders of the state, three of which are located in Fort Worth and one in Houston. The representative of these concerns, farm demonstration agents and the testimony of those who have proved that the silo and ensilage is no longer an experiment but the best system of growing and curing crops for feeding farm animals, is responsible for the state-wide interest now being manifested in the silo.

Results show that the silo is offering the best possible solution of the perplexing problems for feed supply and milk, butter and beef is being produced cheaper on a ration of ensilage

than was possible on any other kind of food except pasture grass.

The majority of the silos erected during the past year were constructed in the Southern part of the state while a few were built in nearly every section. There are now quite a number of silos scattered over the Panhandle region, the greater number of which being in the vicinity of the Plainview country. Silos are found occasionally through central Texas, especially near Brownwood and Temple.

Brazoria county leads all other counties of the state in the number of silos in use with 60 having a total capacity of 5,000 tons. Wharton county farmers have 25 silos in use, some of which have as high as 300 tons storage capacity.

The interest manifested in the silo and the desire for a more complete knowledge of its value was clearly emphasized when this census was taken. Many farmers writing the Texas Commercial Secretaries Association for complete information on the subject.

Therefore, it would probably not be out of place here to define the silo as an air tight structure used for the preservation of green coarse fodders in a succulent condition and silage or ensilage as the feed taken out of the silo.

The silo enables the farmer to preserve a larger quantity of the food materials of the original fodder for the feeding of his animals than is possible by any other method of preservation now known. It has been proved in the dairy states that where the silo has been in use for several years producing capacity of the farm is increased at least ten per cent, and often more. A 160 acre farm with a silo will produce as much revenue as one of 180 acre without it. As compared with the producing value, the cost of constructing the silo is small. Round wooden or stave silos are the most generally used in Texas cost from \$1.50 to \$3. per ton capacity, while those of stone, brick or cement cost from \$2 to \$4. The average size of the silo in this state is from 90 to 150 tons. To hold 100 tons of silage the structure must be about 14 feet in diameter and 32 feet high. As the silage is always fed from the surface of the stored mass it is necessary that the diameter be such that the surface layer be fed off every day if the feeding is done in warm weather. Therefore, the diameter of the silo will vary from ten to fifteen feet to meet the demands of the herd.

The life of the silo is generally dependent upon the initial cost and materials used. A silo might be built for \$150 which would last ten years. The cost exclusive of the upkeep being \$15 a year. With the use of better materials or construction on the same size silo its life might be increased to twenty years at an additional outlay of perhaps \$50, which it is readily

Imperial

MODEL 34

Imperial Reliability

Every principle of construction of the Imperial cars has been thoroughly tested in cars of the past that have made good. There is nothing new or untried, every part has been proven. We know these cars are right, and numerous grueling reliability contests have shown this beyond any doubt. We know they are right, for behind them are the records of Imperial cars of the past—records of satisfactory service rendered many owners.

Our motto is, "The Car that Gets There and Back," and it has been proven scores of times that this is true.

Letter From Owner

EL PASO COMMERCIAL AND REALTY EXCHANGE
Brokers
510 M.H. Building

J. W. CLASBEY AND TO WHOM IT MAY CONCERN:

I bought an IMPERIAL car in March, 1911, and drove it about 50,000 miles, and over all kinds of roads, mountains, sand and mud. Used for service for several months and don't believe was out \$25 for repairs, which includes two springs.

I don't believe there is a car made that will give the actual service as the IMPERIAL for anything like the money and I have owned personally six different cars, some of them only a short time, believe I am competent to know a good car and the simplicity of the IMPERIAL is unsurpassed.

Yours very truly,
J. C. TANDY.

There are quite a few in Wichita Falls who personally can verify this statement as to the service gotten out of my Imperial.

LITTLE JOSEPHINE COTHRAN, WHITE HOUSE BABY, GIVES FIRST TEA PARTY; COUSINS VIRGINIA AND WILSON HOWE AMONG GUESTS

Left to right: Josephine Wilson Cothern, Virginia Peyton Cothern, Wilson Howe and Elizabeth Wilson.

Baby Josephine Cothern entertained at a tea party in the green room of the White House a few days ago. Her guests were her little cousins, Virginia and Wilson, the daughter and son of Mr. and Mrs. J. Wilson Howe, and Miss Elizabeth Howe, daughter of Mr. and Mrs. Alfred A. Wilson.

The tea table and chairs, as well as the dainty Japanese dishes, were brought down from the attic where they had been stored since the Cleveland administration.

"Baby Joe" sat at the head of the table and dispensed the coffee and milk with which the teapot was filled.

There is a great race on at the White House between the three grand-nieces and the grand-nephew of Woodrow Wilson for the president's favor.

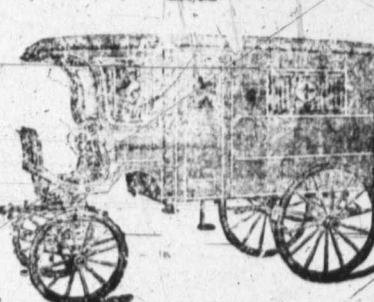

seen is much cheaper per year. Quality usually goes hand in hand with price and the farmer who can afford it should not make the mistake of building anything but the best if he wishes to economize to the greatest advantage.

Sorghum is a sure crop in Texas and produces a fine quality of ensilage if it is planted early, two good crops can be secured on the same ground if the stubble is cultivated after the first crop is cut off. A recent bulletin of the Texas Experiment Station at A. & M. College states that the crops most desirable for the silo in Texas are corn, sorghum, cow peas, alfalfa and ribbon cane tops. Indian corn is the crop most generally used while sorghum, kafir and milo maize are used extensively. These four crops are some times planted in rows together, the result being a mixed silage of high quality.

From reports from Farm Demonstration Agents in all sections of Texas, the year 1913 will witness the number of silos in use at present doubled. The largest order for silos ever given any factory was placed in January of this year by Mrs. Hehrietta King, owner of the King Ranch in South Texas, which is reputed to be the largest ranch in the world. The order is for 45 silos from the McClure company of Texas, located in Fort Worth. It will require fifteen cars to handle the material which will cost \$25,000. The total amount of ensilage which these silos will hold will be approximately 10,575 tons and will feed 5,000 head of baby beef.

**TUMULTY, SECRETARY TO THE PRESIDENT,
GROWS IN POPULARITY AT THE CAPITAL**

Washington, March 11.—Joseph P. Tumulty, secretary to President Wilson, has endeared himself to official Washington by his genial personality. They say he's the most popular president's secretary since the Roosevelt days, when William Loeb held the post. Tumulty is a hard and efficient worker, too, and President Wilson considers himself pretty fortunate. It is part of the secretary's job to stand as a buffer between the president and the off-putting politicians. Tumulty's task, therefore, since his arrival in Washington has not been one long sweet dream. The politicians have swarmed around the White House and President Wilson has refused to see any of them. Tumulty was secretary to President Wilson when the latter was governor of New Jersey. What Wilson didn't know about the Jersey politicians the blond young Irishman did and when the governor decided upon a course of action he found he could depend upon Tumulty to carry out his plans regardless of opposition. It was not until he was nominated for governor of New Jersey that Dr. Wilson met Mr. Tumulty. The young man had previously served four terms in the New Jersey assembly under

the patronage of the then powerful Bob Davis, boss of Hudson county, retiring when he found that his dependence in legislative matters on his refusal to blindly follow the orders of Davis had so seriously impaired his law practice that it was necessary for him to quit politics to make proper provision for himself and family. It was that independence that attracted the attention of Dr. Wilson to him and after becoming thoroughly acquainted with Tumulty in a campaign of 1910, he made him his private secretary. Tumulty made his debut in politics in Jersey City while he was yet a student in St. Peter's college, a dressing Democratic meetings. It was a good talker—he won the gold medal for oratory in his class in 1898—and he continued speech making while he was studying law in the ensuing four years. One year later he married Miss Catherine Byrne, with whom he is a tenured St. Bridget's Parochial school. They have six children—four girls and two boys—and Mr. Tumulty says the only drawback about politics that it keeps him away from his little ones too much.

The Safe, Sure, Clean, DIGESTIBLE

Cottolene PANTRY

Pastry can be "pasty" or "tasty"—much depends upon the cooking fat used. *Cottolene* is preferable to butter or lard for shortening because it makes pastry rich without the least suggestion of greasiness. It also makes it light, crisp and digestible.

In addition to giving better results, *Cottolene* is cheaper than butter, more economical than lard. Two-thirds of a pound of *Cottolene* will go as far as a full pound of butter or lard, and *Cottolene* is usually as cheap as or cheaper than lard.

When results and economy both point to *Cottolene*, why use any other shortening?

Cottolene is the original vegetable shortening and frying medium. It is a product of Nature, made from the purest and choicest cotton oil, and is in every sense as palatable, healthful and digestible as olive oil.

Buy a pail of *Cottolene* today, try this recipe, and let "hubby" render the verdict when he tries the food.

COTTOLENE DOUGHNUTS
Cream three tablespoons *Cottolene*, add scant cup of sugar, 3 yolks of eggs well beaten with one white, stir in one cupful of freshly mashed potatoes and 1/2 cup of milk. Sift 2 1/2 cups flour with 3 teaspoons baking powder, 1/2 teaspoon each of salt and ground mace, also a little nutmeg, and add to first mixture, working in additional flour as necessary to handle lightly. Roll and cut all doughnuts before frying. Fry in hot *Cottolene* 3 inches-deep in kettle, testing the temperature with piece of bread.

EXTENT OF TEXAS COAL INDUSTRY

THIS STATE RANKS TWENTY-SECOND IN PRODUCTION OF MINERAL.

FROM NINETEEN COUNTIES

Lignite Is Mined Extensively—Output Totals Approximately Two Million Tons Per Year

Port Worth, Texas, March 11.—There are 49,200 acres of land in Texas that contain workable coal, and at the present rate of mining the supply will last 15,500 years, as the coal department of this state is estimated at 39,967,000,000 tons, in a report just issued by the United States Geological Survey.

Compared with other states, Texas ranks twenty-second in coal production, the output for 1911 being 1,974,583 short tons which had a mine value of \$1,722,288, which is the largest production on record for the state. The Texas production for 1910 is estimated at 1,832,176 tons and valued at about \$1,669,962. Fifty-three per cent. of the 1911 production was of the bituminous variety, 45 per cent. lignite and 2 per cent was coal bituminous. The following table shows the number of tons of each class of coal mined in Texas in 1911:

Bituminous	1,051,858
Lignite	\$90,641
Semi-bituminous	\$2,994
Total	1,974,583

Texas was a notable exception in the matter of coal production in 1911 to the generally decreased output throughout the United States. Moreover, it was one of two states in which coal mining is an important industry whose production in 1911 was the maximum. Pennsylvania is the other state in which the 1911 production broke all previous records. Coal mining in Texas is confined to 19 counties. In 1911 approximately 1,907,655 tons of bituminous were mined in the counties of Eastland, Erath, Maverick, Palo Pinto, Webb, Wise and Young. The remainder of the output, which consisted of mostly lignite, came from Bastrop, Hopkins, Houston, Lee, Leon, Medina, Milam, Bains, Robertson, Titus, Van Zandt and Wood counties. Palo Pinto is the most important bituminous county and Wood county leads in the output of lignite, the production for 1911 being 265,820 short tons. Texas is the only state in which bituminous coal and true lignite, or "brown coal," are pro-

duced in any material quantity. The increased production of coal and lignite in 1911, as in 1910, may be attributed to the growing population and industrial development of the state which consumes not only its own production, but large quantities shipped in from Arkansas, Oklahoma, Colorado, New Mexico and other states.

The Men Employed.
The number of men employed in the coal and lignite mines of Texas in 1911 was 5,352, who worked on an average of 234 days, against 4,117 men and an average of 234 days in 1910. The bituminous mines operate 259 days in 1911 and furnished employment to 4,037 men, while the lignite mines employed 1,316 men for an average of 268.5 per year or 1.17 per day in the bituminous mines an average of 206.8 tons per year and 3.19 tons per day in the lignite mines. The general averages were 369 tons per year, an average of 1.63 tons per day per man.

The quality of coal mined by machines in Texas is relatively small amounting in 1911 to 71,085 short tons or 3.5 per cent of the total. Operation of mines in which machines are not used were for the most part unable to report for 1911 the percentage of their product mined by hand or shot off the solid. The tonnage for which the mining methods were reported represented 45.6 per cent. of the total output, most of the report stating that an account was kept a separation made of the coal shot from the solid or hand mined. Of the tonnage reported, however, 75 per cent was hand mined and 25 per cent was shot down without being mined. This record is highly favorable as compared with some of the other states in the middle west. Some of the production from the Eagle Pass district, lying in Maverick County, has been materially improved in quality by washing. In 1911 there were 37,000 tons put through washers, yielding \$20,375 ton of clean coal and 6,625 tons of refuse.

Coal mining in Texas in 1911 was practically free from labor trouble. As a usual thing bituminous mines are worked 8 hours per day and the lignite 10 hours. Only 60 men were out on strike and the time lost by them aggregated 300 days, an average of 5 days per man, while in 1910, 1776 men were out on strike for 168,230 days.

Texas Production.
The Federal Government has approved the following:
Mrs. M. M. Addicks, one story frame building, lot 12, block 15, Jacksonville addition, to cost \$1500; Carriington, contractor.

DETECTIVE BURNS NEW MOVIE HERO: FOR A TIME CONSIDERED A HERO HE APPEARS IN PHOTO-PLAY AND PLAYS HOB WITH THE VILLAIN

Detective Burns enacting the role of a great detective in Photo-play.

New York, March 18.—Tempted by the biggest salary ever offered anybody to appear in a single photo play, Detective William J. Burns, America's famous sleuth, has become a hero of moving pictures. Not for long, however. He will be seen just once, in a thrilling melodrama, wherein the detective, just as in real life, runs down the horrible villains and brings them to a wretched end.

TEACHERS MEET HERE NEXT WEEK

NORTHWEST TEXAS ASSOCIATION WILL HOLD THREE DAYS' CONVENTION

PROGRAM IS ANNOUNCED

Mothers' Clubs of This City Will Tender Reception To Visitors To Organize For Athletics

A special feature of the convention will be a reception to the visiting teachers by the Mothers' Clubs of Wichita Falls Friday evening after the close of the session. Another feature that will be of especial interest to the visiting teachers will be a trip to the glass factories and a trip to Lake Wichita.

Convention Officers.
President—B. F. Holcomb, Vernon.
Secretary—Miss Trumble, Wichita Falls.

Among the speakers will be Hon. R. B. Cousins, president of the State Normal School at Canyon City, Prof.

A scene representing the house of representatives in session is modestly termed by the producers the greatest achievement ever made in photo play production. As there was no studio stage in existence which would permit the construction of such a setting, the producer sent scenic artists and carpenters to Washington so that they might make accurate sketches and plans of the chamber and then reproduce the desired portion on a special outdoor stage.

Lee Clark, secretary of the Conference for Education: State Superintendent of Public Instruction, F. M. Bralley and Dr. Leon W. Payne, Professor of English in the State University at Austin.

Program For Meeting, Thursday Evening, March 27, 1913 at 8 o'clock.

GREECE FACING CRITICAL TIMES

Greece faces a critical period in her history, following the assassination of her king, according to A. H. Fell, a well known Greek subject of this city. Mr. Fell says that if it should be found that Turkish influence was behind the murder of King George, wholesale riots and massacres are certain to follow.

According to Mr. Fell, Prince Constantine, who succeeds to the Greek throne, is a beloved and respected member of the royal family. He is about 44 years old, and has been in personal command of some of the Greek troops since the war started. Mr. Fell says that while historians charge King George with the defeat of the Greeks by the Turks in 1897, the Greek cabinet was in reality responsible, and the people, eventually realizing this, lost none of their affection and regard for the king.

Constantine is able to take the reins of government, Mr. Fell believes, but no power on earth, he thinks, can save the Turkish prisoners if the people believe the Ottoman government instigated the assassination. It does not appear, on the face of today's dispatches, that Turkey was responsible.

Oil and Gas Leases Recorded. Transfers of oil and gas leases have been made to Frank Cullinan by the following: Chas. Pridden, G. E. Nance, G. E. Nance at 10, S. H. McCarty Jr., Wm. Guthrie, J. D. Melton, F. W. Hamilton, A. C. Henry, J. R. Beckham, J. H. Banta, C. F. Ansell, George B. Ansell, W. M. Old.

LOCAL SUBJECT BELIEVES MASSACRES MAY FOLLOW ASSASSINATION

CONSTANTINE NOW RULES

New King Popular and Able, Says A. H. Fell of This City. Defends George's Memory

According to Mr. Fell, Prince Constantine, who succeeds to the Greek throne, is a beloved and respected member of the royal family. He is about 44 years old, and has been in personal command of some of the Greek troops since the war started. Mr. Fell says that while historians charge King George with the defeat of the Greeks by the Turks in 1897, the Greek cabinet was in reality responsible, and the people, eventually realizing this, lost none of their affection and regard for the king.

Constantine is able to take the reins of government, Mr. Fell believes, but no power on earth, he thinks, can save the Turkish prisoners if the people believe the Ottoman government instigated the assassination. It does not appear, on the face of today's dispatches, that Turkey was responsible.

Oil and Gas Leases Recorded. Transfers of oil and gas leases have been made to Frank Cullinan by the following: Chas. Pridden, G. E. Nance, G. E. Nance at 10, S. H. McCarty Jr., Wm. Guthrie, J. D. Melton, F. W. Hamilton, A. C. Henry, J. R. Beckham, J. H. Banta, C. F. Ansell, George B. Ansell, W. M. Old.

W. B. Head has transferred to P. P. Langford, 50 acres of the E. R. Kemp lease, \$50.
R. W. Kamming has assigned an one-half royalty interest in L. H. Lawler lease to P. P. Langford for a consideration of \$1750.

DR. JENKINS ACQUITTED ON CHARGE OF MURDER

Mrs. Cornish of This City Will Be Tied On Same Charge Next Term at Walters

A dispatch from Walters, Okla., says that Dr. J. H. Jenkins was acquitted by a jury there on a charge of murder in connection with the death of his son-in-law, Albert Cornish last summer. Mrs. Cornish is now a resident of Wichita Falls who is also under indictment in connection with the death of her husband will not be tried until the next term, her case having been continued.

Best Known Cough Remedy.
For forty-three years, Dr. King's New Discovery has been known throughout the world as the most reliable cough remedy. Over three million bottles were used last year. Isn't this proof? It will get rid of your cough or we will refund your money. J. J. Owens, of Allendale, S. C., writes the way hundreds of others have done: "After twenty years, I find that Dr. King's New Discovery is the best remedy for coughs or colds that I have ever used." For coughs or colds and all throat and lung troubles, it has no equal. 50c and \$1 at all druggists. (Advertisement)

BOMBS FOR EDITORS MAIM FOUR CLERKS.

Calcutta, March 18.—Four bombs, intended to kill the editors of the leading papers here exploded in the postoffice today. Three clerks were probably fatally injured.

ANOTHER WICHITA FALLS CASE

It Proves That There's a Way Out For Many Suffering Wichita Falls Folks

Just another report of a case in Wichita Falls. Another typical case. Kidney ailments relieved in Wichita Falls with Doan's Kidney Pills. C. C. Willard, 1922 Eighth street, Wichita Falls, Texas, says: "I suffered constantly from my back and kidneys. I got Doan's Kidney Pills from Harrington's Drug Store and although other remedies had failed, Doan's Kidney Pills made a cure. Although I was never laid up, every move I made sent sharp twinges through my back. We still use Doan's Kidney Pills when we need them and are always greatly benefited. You are at liberty to continue using my testimonial as heretofore."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other. (Advertisement)

MACK TAYLOR
820 OHIO AVENUE

FRESH

is a word that when applied to young men and winter colds is not significant of goodness or desirability but when applied to cigars it means something. The freshest thing in our place is the cigars. There is not a cigar in our case that has been there over sixty days. We buy only real cigars to begin with and they are cared for just right. They are neither bone dry nor soggy. They burn evenly and do not blaze and do not make smoke instead of steam.

If you want the softmellow smoke that puts you at peace with the whole world and brings profound thought to your brain and pleasant memories to your mind try carefully kept Havanas. Your money's worth is in every one of them.

WE DO NOT GUESS OR SUBSTITUTE

One is as bad as the other. If your prescription is not filled with the right quantities or if some ingredient is adulterated or substituted you cannot expect results. Everything sold at this store is measured or weighed accurately, and we are just as particular about the quality too. We use only pure, fresh drugs and your orders and prescriptions are filled by a graduate in pharmacy. If you ask for one article we do not try to persuade you to take another on which we make a greater profit. No want of yours is too small to receive our most careful attention.

WHAT THE SILO MEANS TO TEXAS

(Continued From Page 7)

The United States Department of Agriculture estimates that five per cent of the 1911 corn crop of the United States was used for silage. Assuming that the average silo had a capacity of 100 tons, it would take 266,679 silos to hold five per cent of the 1911 corn crop. Helmer Rabild in charge of the dairy farming investigation bureau of the Department of Agriculture puts forth the following arguments in favor of silos as a densilage.

"Silage keeps your stock thrifty and growing all winter. It enables cows to produce milk and butter more economically. Silage is more conveniently handled than dry fodder. The silo prevents waste of corn stalks, which contain about one-third of the feed value of the entire crop. The silo makes palatable feed out of material that would not otherwise be eaten. It enables a large number of animals to be maintained on a smaller number of acres. It is the most economical method of supplying feed for stock during the hot dry periods in summer when the pasture is short."

The animal husbandry department of the A. & M. College of Texas have conducted a series of feed tests with ensilage and other methods of feeding their dairy herd and have found that the best results were obtained from a ration of ensilage.

Best For Skin Diseases
Nearly every skin disease yields quickly and permanently to Bucklen's Arnica Salve, and nothing is better for burns or bruises. Soothes and heals. John Deye, of Gladwin, Mich., says, after suffering twelve years with skin ailments and spending \$400 in doctors' bills, Bucklen's Arnica Salve cured him. It will help you. Only 25c. Recommended by all druggists. (Advertisement)

TONG WAR RESUMED IN SAN FRANCISCO, CAL.

San Francisco, Cal., March 18.—Three Chinese were killed and four wounded in the resumption last night of the Tong war that has raged on the Pacific coast intermittently for years. One of the men slain was a resident of San Francisco and the other two were killed in Portland, Oregon.
