

WHY YOU NEED LIFE INSURANCE

BECAUSE—

Life is uncertain and your family or business interests would suffer by your death.

You would dislike to have your income stopped today and your family would dislike it quite as much. Life insurance cannot keep you alive, but it can continue part of your income to them.

If you know that your family is properly protected your peace of mind on that subject will give you more power in your business.

A Wichita Southern Life Policy will improve your credit and enhance your importance as a solid citizen.

If you are rich, a Wichita Southern Life Policy will provide ready money at your death, and save your estate from hasty and unprofitable realization.

If you are poor, a Wichita Southern policy will pay your debts and stand between your family and want.

If you are making more money than you need, you ought to put some of it by in a safe place, and there is nothing in the Commercial World so safe as an Old Line Life Insurance Company.

If you need almost every dollar of your income now, the chances are your family will still need it after your death and there isn't any way you can earn it for them then.

Insurance guarantees in a moment an income to your family after your death which you could hardly obtain by a lifetime of toil and economy.

It is your wife and family that takes the risk if you don't insure. It is they who will suffer by your death.

If you do not need insurance protection after twenty years, you can surrender the policy for a large amount in cash.

It is so difficult to save money in any other way.

The Wichita Southern Life Insurance Company is a company operated for the benefit of its policy holders.

Wichita Southern Life Insurance Company is a company operated for its policy holders.

Wichita Southern Life Policies are clear and simple contract, easily read and understood.

All policies issued by the Wichita Southern Life Insurance Company are secured by deposit of their legal reserve with the State of Texas.

NEW COMPLETIONS AROUND ELECTRA

SEVERAL GOOD WELLS DURING PAST WEEK—BORCHELDT HAS NEW PRODUCER

WORK IN ARCHER COUNTY

Coriscana Company Makes Two New Locations—Other News From Oil Field

Several good completions in the Electra field the past week have further boosted the production figures and some new pay outside the proven field has also served to stimulate activity. The new production includes Producers No. 16, second Bywaters tract, 500 barrels; Red River No. 13 Bywaters, 30 barrels; Guffey No. 18 Miller, 250 barrels; Coriscana No. 1 W. B. Honaker 75 barrels. The last named is one location from the Hardenburg-Webb well and makes things look better in the far eastern extension of the Electra district. It was drilled in at 1580 feet. Miller No. 18 missed the shallower sands, but started off at 300 barrels in the deep pay and is easily in the 250 barrel class. The Producers' latest completion on the second Bywaters property makes that tract one of the cream pieces of the field, as this is the third well of that class to be drilled in. The Producers planked down \$105,000 in cash for this piece of land.

Clint Woods completed his well on his Borcheldt lease, west of the Interstate holdings, in the deeper sand and it is good for better than 150 barrels. This completion gives a decidedly improved appearance to that section of the Burk Burnett field, especially since the wells in that vicinity are holding up much better than those in the Schmoeker neighborhood.

J. A. Kemp and others have made location for a well on the Daniels farm, southwest of Burk Burnett and west of the Roller properties. Drilling will be started at once by C. T. Paul.

R. H. Whitney, who is Wichita Falls correspondent for the Oil & Gas Journal and the Oil City Derrick, is the father of a ten pound boy which arrived at his home last week.

And Archer is not yet dead. The Coriscana last week made locations for two new wells on the Dr. Miller and Archer Oil Company's property, southwest of the other wells, and work will be started at once. Dr. Miller has been insisting for some time that more work would be done in that section and he apparently was correct. Work will be started at once.

Both the Guffey's No. 3 and Ed Morgan's No. 1 missed the 1050 sand on the Crow lease, and are being drilled deeper. The Guffey has one small well on this tract, but three wells drilled since then have found nothing.

Across the river the Northwest Electra's Finley well is 1960 feet, the Burt Switch well is 850 feet deep and the North Fork Oil Company's well near Davidson is 170 feet.

T. T. Reese and others are drilling with a star rig on the Munden farm near Iowa Park, in addition to their standard rig. The latter encountered some shallow sands that looked good enough to explore.

J. A. Kemp and others let the contract yesterday to L. C. Hivick for the well near Allendale. It will be on the J. A. Ayres tract west of Lake Wichita in the Bowman neighborhood.

DYING, CONFESSES THAT HE SENT DEADLY BOMBS

New York Municipal Employee, Fatally Injured, Tells of Making Infernal Machines

By Associated Press. New York, March 29.—Harry J. Klotz, the city clerk injured recently by the explosion of a bomb which he was making, confessed on his death bed today that he had constructed and mailed two bombs which resulted in the death of Grace Taylor last year and Mrs. Madeline Herrera a few months ago, also the bomb which exploded last March in the library of Judge Otto Rosalsky.

A few minutes later Klotz died. He was sinking rapidly after an operation when he made his confession. It was explicit as to all but the Herrera bomb; which he denied having sent. He said he sent the bomb to Judge Rosalsky "because I don't like him." Klotz said the agitation at that time over the efforts of Folk Brandt to obtain his release from prison, influenced him. Rosalsky sentenced Brandt to thirty years for a robbery in the house of Mortimer Schiff where Brandt had been a valet. Brandt recently was released. Asked why he sent the Grace Taylor bomb, he said "I don't know why, that's all."

Later he admitted it was on account of a quarrel with the girl. The police believe Klotz was enraged over having been forbidden to call at Mrs.

CINCINNATI NOW IN DANGER ZONE

FIFTEEN THOUSAND ALREADY DRIVEN BY RISE IN OHIO RIVER

ONE FATALITY REPORTED

More Than 3500 Homes Already Submerged and Situation Grows More Serious

By Associated Press. Cincinnati, March 29.—With nearly 15,000 persons in the town on the Kentucky side of the Ohio river driven from their homes by the rising tide that is sweeping down the Ohio Valley, and with more than 3500 homes altogether or partly submerged the flood situation in this vicinity is assuming graver proportions hourly. Here the water front buildings are all partly under water and much damage has been done.

An increase in the river stage at this point will mean the complete isolation of the city from the Kentucky side and stoppage of train service in that direction. Late today the government gauge showed 67 feet and according to indications before many hours there will be 68 feet in the Ohio river here. So far only one life has been lost from the high waters; Miss Anna Smith was the first victim drowned in an effort to reach Newport in a skiff. Three men companions with her were rescued while swimming to shore.

Newport and Covington, Kentucky, opposite here virtually are surrounded by water. Conditions there are worse than elsewhere and nearly 10,000 persons have been driven from their homes. Relief measures, however, are adequate. In the two Kentucky cities, the greatest fear that health conditions will be seriously affected because of the clogging of the sewage system, and the stagnation of back waters. Railway service in and out of Cincinnati is virtually at a standstill.

LOUISVILLE SITUATION NOT VERY DISCOURAGING

By Associated Press. Louisville, Ky., March 29.—With the Ohio River showing a rise of only one-tenth of a foot an hour and no developments above Louisville to indicate anything higher than the original prediction of a crest of forty-five feet at Louisville, the only disconcerting report received here today was from Parkersburg, West Virginia, telling of a stage of 84 feet.

Washington advices, however, say that the Parkersburg correspondent probably was misunderstood and that the stage there was probably 54 feet.

Taylor's home after a young woman living with her rejected his attentions.

When pressed about the Herrera bomb, after first denying he sent Klotz finally nodded his head affirmatively when questioned and added he sent the bomb for "experimental purposes." He was growing weak at this stage and shortly afterward died without regaining in what the experiment consisted. He seems to have had a mania for collecting fire-arms and experimenting with explosives.

DRILLERS PLAY TIPTON TODAY

FIRST GAME OF SEASON AT LAKE WICHITA THIS AFTERNOON AT 3:30 O'CLOCK

WILL SEE NEW PLAYERS

Only Four Old Men in The Line-Up—New Infield Looks Good

The line-up: Guthrie, left field; Shell, third base; White, catcher; Brown center field; Nicholson, first base; Phillips, second base; Payne, short stop; Au Miller, right field; Scroggins, pitcher.

With the nine from Tipton, Okla., opposing them, the Drillers will make their opening appearance of the season on the home lot this afternoon at 3:30 at Lake Wichita. It will be the first opportunity of the fans to see the crew that Duke Morris has picked out to win another pennant.

The boys have been kept in by the cold and wet of the past week, but are in good shape, everything considered, in spite of their inactivity.

Of the nine men who are in the above line-up, only four are familiar to fans. These are Guthrie, White, Brown and Phillips. The others are new men. Shell, who will play third, is from Stamford and will play his first league ball this season. Payne is from St. Jo, Texas and played in northern circuits last season. Miller hails from the Pecos country, but played in the Ohio Valley League, where the big wet now is, last year; Nicholson is from Sanger, Texas, where he has been playing independent ball. Scroggins is another Stamford product.

The present pitching staff includes Scroggins, Trigg of Lockhart, formerly with the Corpus Christi club in the Southwest Texas League; Valverde of Supply, Oklahoma, a south-paw; and our old friends, Jones, Meyers and Morris. Others on the squad are Rosemond of Stamford, a catcher, Wilson of the Mountain State League, first baseman; Kizlar of last year's team, who has been too sick to practice so far.

There are seventeen men in camp at the lake at present, and this number will be cut to the required fourteen before the season opens, two weeks from next Tuesday.

"I believe we have fully as good a team as we started the season with last year," said Duke Morris yesterday. He declined to talk about the individual players, preferring to let them show for themselves today. It is believed that Phillips is the only old-timer still on deck, will prove a good one. Wilson and Nicholson are candidates for first base and one will probably be dropped before the season starts.

With good weather during the next two weeks, the bunch will be put through some strenuous work-outs and will be gradually cut down until it is within the salary limit. Wichita Falls has suffered no more than the other clubs in the league in the way of bad weather.

This afternoon's game will be called promptly at 3:30.

HORATIUS

Who kept the bridge in the brave old days of old, is probably the most pleasing Roman hero of historic narrative. He was what is known in some of the modern vernaculars as a Hum-Dinger. He stood pat and dared a powerful army to invade Rome and made it stick. He was crowned with a laurel wreath which in the matter of honor was about the same as getting yourself fastened to a Carnegie medal for rescuing a pie-eyed wreck from a duck puddle who thinks he was aboard the Titanic when it sank.

But, speaking of honor, the chap who will come in for tears of admiration as big as a gas meter for making a noise that reached round the world and blessed humanity from one end of the world to the other and who will reap a wreath worth mentioning is the chap who invented ALTA VISTA PURE ICE CREAM. That taste teasing, palafe-tickling ALTA VISTA PURE ICE CREAM that has a fetching farewell that you can't forget if you live until Matheuslah looks like a trundle bedder. TAKE A BUCKET HOME.

LEGISLATURE IS AFTER MORE PAY

(Continued from Page 1)

cotton mills from taxation for a period of fifteen years.

The Senate also passed to engrossment the McDaniel House bill providing for verified pleadings. The Senate also adopted the House amendments to the Senate joint resolution providing for salaries of members of the legislature by a vote of 23 to one. This means this resolution will be submitted to a vote of the people. It provides a salary of \$1,200 for the first year and \$5 per day for sessions held during the second year.

Night Sessions Held.

At tonight's session of the House passed the Bailey Senate bill providing that corporations may borrow money in excess of their capital stock to build. The House also adopted the Senate amendments to the Burgess-Glasscock general irrigation bill. The bill now goes to the governor for his signature.

The governor tonight sent a message to the House in which he suggests the recall of the enabling act and that initiative, referendum and recall feature be eliminated as he objects to these provisions. The House took no action on the message, but may act on Monday.

The House adopted the free conference committee report on the wife abandonment bill also on the

railroads to own demonstration farms, orchards and gardens and the House bill for redemption of land sold the state and cities for taxes.

The Senate passed the House Tarrant county road law. It then took up the general irrigation bill and adopted an important amendment to that measure providing that the appropriation of water for development purposes shall be secondary to the appropriation of water for irrigation.

Increasing Member's Pay. The House today adopted a joint resolution for a constitutional amendment to increase pay of legislators to \$1200 a year for the first year and \$5 a day for any called sessions of the second year of their term.

The question came up under a special order for Allison's joint resolution proposing to give legislators \$10 a day for ninety days and \$5 a day thereafter. Tarver offered a substitute to pay \$1200 the first year and \$5 a day for extra sessions in the second year.

Sick Member's Expenses. The House adopted a resolution to pay the expenses of its sick members. A resolution was then introduced pointing out what the House considered an exorbitant charge by physicians who attended Representative Herder of Weirmer who has been ill for two months. The bill was \$3435.55; this was an average of about \$100 per visit.

The House adopted a resolution by Chresman that the joint committee of House and Senate appointed to investigate the financial condition of the penitentiary system, shall not begin investigation unless there shall be no extra session immediately after adjournment April 1.

Cotton Brokers Exempted. The House finally passed the Savage bill to add \$10,000 to the legislative contingent expense fund. Repr-

Postoffice Robber Gets Away From Leavenworth—Two Others are Overcome

By Associated Press. Leavenworth, Kan., March 29.—Clyde Stratton, serving a five year sentence in the federal prison at Fort Leavenworth for the robbery of the McCool, Indiana postoffice, escaped today by crawling a mile through the prison sewer. Two other prisoners who made the attempt with Stratton were captured. The captured men were overcome by sewer gas and were pulled out of the pipe unconscious. When removed they declared Stratton had escaped. Stratton was also alleged to have been connected with the robbery of a Chicago diamond merchant. He is a college graduate.

Tailored Suits—Spring Styles in Immense Variety

This is an exceptionally good spring for a tailored suit. Easter made her appearance just two days after the birth of spring, which naturally forced many women to buy early. Spring is just here, so you are sure to need a real swell suit! It is almost useless for us to say that "Kahn's" suits have a distinct "style" about them that is uncommon for garments priced so moderately. The fabrics are different from what you would expect and every seam and section has been finished with unusual care. New long and short jacket styles. Skirts in draped effects, Turkish or Balkan silk and embroidery trimmed. Our suits priced from \$18 to **\$50.00**

Elegance and Beauty in Kahn's Millinery

To convince yourself of the superiority of Kahn's Millinery, we only ask you to inspect our display. The beauty of a hat depends upon its lines and its color or color harmony and you will probably think that the elegance of a hat depends upon the quality of materials. The way a hat is made makes a HAT truly elegant or very common-place. There is not a detail too small to be well done by our artists. So the elegance of Kahn's millinery is due to the fact that we use the finest materials and every hat is created by an artist milliner.

Vocal Solo—Miss Hines.

A very pleasing feature of the afternoon's entertainment was a guessing contest. A medley of old time melodies rendered by the hostesses caused much merriment. Each one present having been provided with pencil and score card tried to be winner. At the conclusion an ice course was served by the hostesses and the club adjourned with many expressions of pleasure and appreciation to meet next Tuesday with Mrs. Kate Ward. The guests present besides club members were Mesdames J. W. Bone, E. E. Saunders, Misses Icie White and Helen Hines.

Mr. and Mrs. Frank Cullinan are in Mineral Wells.
Mrs. Tom Donnelly of Ardmore, is the guest of Mrs. L. C. Hivick.
Mrs. C. E. Naylor is visiting in Frederick.
The meeting of the United Clubs which was to have been held yesterday afternoon was postponed until the third Saturday in April.
Mr. and Mrs. H. A. McFarland returned Thursday from a trip to Amarillo.
Mrs. M. McKinley went to Mineral Wells Thursday to join her daughter, Miss Eldora.
Mr. and Mrs. R. G. Scheurer have returned from St. Louis and other points.
Mr. and Mrs. A. B. Maples and little son are home again after a visit to Temple and Waco.
Miss Ruth Bullock returned early in the week to Kidd-Key at Sherman.

Mrs. W. W. Little has left for Denver to accompany her brother, Nolan Bullock, who will undergo treatment there.
Mrs. H. C. James has returned to Electra after visiting her parents, Mr. and Mrs. J. T. Young.
After a very pleasant visit with her aunt, Mrs. A. Zundelwitz, Mrs. Ben Davis of Salt Lake City left early in the week to spend several weeks at San Antonio.
Miss Lillian McGregor returned early last week from St. Louis, where she has been attending school.
Mrs. G. L. Spear of Florida is visiting the family of her brother, J. B. Marlow.
Mrs. Everett Jones is visiting relatives in Lancaster.
Mrs. H. A. Allen returned early in the week from Fort Worth.
Mrs. Carrie Suter has returned to Dallas, after visiting her sister, Mrs. Claude Woods and mother, Mrs. Carrie Joline.

MRS. O. T. BACON ENTERTAINS FRIDAY BRIDGE PLAYERS
The Friday Bridge Club resumed its sessions, after Lent, with a pleasant meeting at the home of Mrs. O. T. Bacon. Three tables of players were present, including several guests. At the conclusion of the games the hostess served a salad course. Mrs. Wiley Blair will be the next hostess. Those present Friday were Mesdames H. A. Allen, Wiley Blair, C. C. Huff, Oliver of West Virginia, Bruce Slight, Wade Walker, I. D. McKee, L. B. Gray, Misses Cora Coons, Dora Coons, Lucile Sherrod.

MRS. C. C. HUFF ENTERTAINS IN HONOR OF HER VISITOR
Complimenting her visitor, Mrs. C. C. Huff entertained at bridge Thursday afternoon. There were seven tables, and the occasion was a thoroughly delightful one, both in the entertainment provided and in the opportunity to meet the pleasant West Virginia visitor. Mrs. Huff served a delicious salad course at the conclusion of the round of play. Those present were Mesdames Wade Walker, W. B. Sheppard, Bruce Smith, R. E. Huff, Wiley Blair, T. T. Reese, O. T. Bacon, Reese Allen, T. W. Roberts, A. Zundelwitz, Eugene Sherrod, W. M. McGregor, R. L. Miller, J. T. Montgomery, R. D. Thorburn, C. W. CHATTANOOGA BETTING READY FOR REUNION

Twenty-third Annual Reunion of U. C. V. in Tennessee City May 27-29.

Chattanooga, Tenn., March 29.—The twenty-third annual reunion of the United Confederate Veterans will be held in Chattanooga May 27-29, 1913. The reunion of the sons of Confederate veterans will be held at the same time. Chattanooga is making preparations to entertain these reunions on a board, patriotic, liberal scale.

Two of the most deadly and decisive battles of the Civil War were fought here in the fall of 1862, besides a number of smaller engagements. This year is the fiftieth anniversary of these great battles and the May reunion will be in the nature of a semi-centennial celebration of these historic conflicts between the Blue and the Gray.

Gen. Bennet H. Young of Louisville, Ky., is the commanding general of the United Confederate Veterans' Association. Gen. Wm. E. Mickle is adjutant-general and chief of staff. The Department of the Army of Tennessee is commanded by Lieut. Gen. George Harrison; Gen. E. J. Sykes, adjutant-general and chief of staff.

The Army of Northern Virginia is commanded by Gen. Theo. S. Garnett; Gen. E. V. White, adjutant-general and chief of staff. The Department of the Pacific is commanded by Gen. Wm. C. Harrison; Gen. B. L. Hodge, adjutant-general and chief of staff. The Trans-Mississippi Department is in command of Gen. K. M. Van Zandt.

Col. Nathan Bedford Forrest, son of the brilliant confederate cavalry commander, is commander in chief of the Sons of Confederate Veterans.

The publicity work of the reunion is under the direction of Mr. E. J. Kruesel, who was selected for the important position of chairman of the publicity committee because of his peculiar fitness. He has a well organized force at work supplying all desired information and conducting a press bureau.

at 9:30 a. m. Epworth League at 6:45 p. m. Prayer-meeting every Wednesday evening at 7:45 o'clock. Good music and everybody invited to attend the service. JAS. W. HILL, Pastor.

Wholesale Grocery to Install A Cold Storage Plant

Carroll-Brough-Robinson & Gates yesterday let the contract for the installation of a complete system of cold storage in order to better care for their increasing business in the line of produce and green fruits. The plant will consist of a room 30x60 feet on the main floor of their warehouse building and one of larger dimensions in the basement. The two will have a capacity of ten cars and will be as complete as it is possible to make them. A 25 horse power gas engine will furnish the power, and the cold air will be manufactured by a 50 ton ice machine of the York storage type. The rooms will be completely ceiled with cork and cement.

spices, etc., packed expressly for them and to select the best stock for this purpose sends a member of the firm into the states where the best of each article is grown to personally select and supervise its packing. Of coffee alone, the firm receives a shipment of 5000 pounds or more each week, direct from the roasters and more than 100,000 cigars are sold every month.

With the addition of the cold storage plant, the firm will increase its business in the produce line, and make a bid for all kinds of business in the wholesale grocery line.

The success of the firm is due almost entirely to the efforts of the manager, Mr. F. M. Gates, who has worked early and late in season and out, for the upbuilding of the project which he was instrumental in establishing in Wichita Falls, and it is his ambition to make it the largest wholesale grocery house in Northwest Texas.

The Major Francis-Grice Chapter D. A. R. will give a musical at the College of Music and Art next Thursday, April 3rd, 8:30 p. m. Proceeds to be used for the "D. A. R. Texas University Scholarship Fund." Admission 50c, tickets on sale at The Retail Drug Store, or from any member of the Chapter. 75 5tc

LARGE AMOUNT SENT TO OHIO FLOOD SUFFERERS

Total of \$171.50 Forwarded To Red Cross Society at Washington From This City

The appeal made by The Times in behalf of the flood-sufferers in Ohio and Indiana has met with a very liberal and generous response by the citizens of Wichita Falls. No cork-screw or chloroform method was resorted to in this instance, and those who contributed did so voluntarily and from a sympathetic standpoint and right motives. Up to last night a total of \$173.50 had been turned in at The Times office, of this amount all but the two last dollars donated have been forwarded as will be shown by the following telegram which was sent yesterday:

"Commercial National Bank, Washington, D. C. Pay American Red Cross Society one hundred seventy-one dollars, fifty cents for relief Dayton flood sufferers contributed by Wichita Falls, Texas, citizens.

"FIRST NATIONAL BANK"

Fortunately the loss of life in the flooded district is not so great as first reported, but there can be no doubt but that thousands of people have been left penniless and unless aided by others, will suffer greatly. Doubtless there will be a few more dollars contributed and on Monday The Times will forward all the money it has on hand.

ONE KILLED, TWO HURT, WHEN BOILER EXPLODES

Texas & Pacific Engine Blows Up Near Handley Today With Fatal Results
Fort Worth, Texas, March 29.—En-

gineer Cole of Marshall was killed, Firtman J. T. Foore of Fort Worth, and Brakeman George Thomas of Marshall, were injured. When a boiler of a Texas & Pacific freight train exploded at Handley this forenoon. The boiler was lifted from the truck and after whirling over in the air, struck the track again 130 feet in front of the engine and sank in the ground.

Part of the dome was found 600 feet away. Fireman Foore was carried into the air by the explosion but escaped with a broken arm and some burns. Brakeman Thomas was directly underneath the boiler in front of the engine, but it passed over his head without crushing him. His injuries are slight. Arthur Cooper of Sweetwater, was crossing the railroad track when the explosion occurred. A chunk of iron hit him on the head and knocked him down, but he was able to go to work soon afterward.

CONDITIONS PROMISING IN SOUTHWEST STATES

Traveling Man Says Outlook Excellent in Texas, Oklahoma and Kansas This Year

Arthur Wilson, globe trotter, mechanic, salesman of printing presses, agent for the Duplex Printing Press Company of Battle Creek, Michigan, called at The Times office on Saturday. Mr. Wilson travels extensively. He was born in England and came to this country when a boy and has worked himself up to his present position as Western representative of

one of the greatest printing press concerns in the world. Mr. Wilson has been pressman, printer, traveling mechanic, salesman and now has ripe experience, and excellent opportunity to observe general conditions. Therefore what he says may be considered worthy of careful consideration and interest. Says Mr. Wilson:

"The States of Texas, Kansas and Oklahoma are facing a season of abundant prosperity such as they have never known. In God's Providence I believe the people of these States are to face this year of 1913, the greatest temptation which ever befell any people. Crops superabundant, money in plenty and the danger of forgetting the lean years, will, I believe be with us.

"The wheat in Kansas and Oklahoma is in excellent condition and merchants and farmers, newspaper men and professional men of all kinds are looking forward and expressing great hopes for trade and general prosperity. Intellectually the people of these three States are making more and faster progress than can be shown by any people anywhere on the surface of the earth. The evidence of their desires along these lines of intellectuality can be seen in the printing press factories and the school furniture factories. The Southwest is the world's best present market in these commodities.

"In the development toward keener consciousness of the Christian spirit and its fuller expression in every day life no people on earth are making more substantial progress than the people of these three great Southwestern States in particular. God is blessing the people and it is

up to the people of the Southwest to keep right on going along to even better things and conditions in these realms of spiritual essential and material prosperity.

"It's clearly evident Wichita Falls is prospering. The paved streets, new Union Depot, new hotels and business blocks, show substantial progress to one who visits you only occasionally. One feels your development is substantial and lasting."

HUNDRED THOUSAND DOLLAR MARK PASSED

With Two Days of Month To Go On Building Permits Total \$105,400

With two days of March left, the building permits for this month have broken all records, reaching the tidy total up to yesterday evening of \$105,460.

It has now been five and a half months since the issuance of permits by the city began and the total in that time is not quite \$500,000, or at the rate of a million dollars annually.

The city is threatening to get in behind builders who fail to take out the permits and some fines may be assessed for infractions of the permit ordinance before long.

U. W. Fligo was yesterday issued a building permit for a one story brick building on lots 9 and 10, block 194, being on Tenth street, between Indiana and Scott. The cost, will be \$7000.

ALDERMEN TO BE ELECTED TUESDAY

Three Are To Be Chosen From a Field of Six Candidates

Qualified voters of Wichita Falls will decide Tuesday upon three aldermen to represent them for the next two years, and six candidates are in the field.

Otto Stehlik, Dr. J. F. Reed, J. T. Young, H. G. Karrenbrock, M. J. Gardner, V. E. Stampfl.

The three aldermen whose terms expire, Reed, Young and Gardner, are all candidates for re-election. Very little interest has been manifested in the election so far and none of the candidates appear to be straining themselves to get votes.

POINCARÉ NOT SUPERSTITIOUS

ACCEPTS HINDOO IDOL SAID TO MEAN VIOLENT DEATH TO OWNER

FRIEDMANN'S NEW CURE

Declared Medicinal Properties of Sea Turtles Have Been Proved For Several Centuries

By Associated Press.

Paris, March 29.—When Sadi Carnot was Minister of Finance an eminent archaeologist, who had just returned from an expedition to Nepal, presented him with a curiously and delicately wrought stone idol. The rajah who gave it to the archaeologist averred that it assured supreme power to one of the members of the possessor's family, but that he would also die a violent death. The Hindoo prince preferred to forego power under such conditions and so it came into the possession of the man of science, who gave it to M. Carnot. The Minister of Finance was not superstitious and accepted the gift with pleasure.

The evening of Carnot's unexpected election to the Presidency of the Republic, the archaeologist received a laconic note from Madame Carnot saying: "It is the statue." Seven years later President Carnot was assassinated at Lyons.

When Madame Carnot died her children found in her will an urgent request to them not to keep the idol. Her sons, in compliance with their mother's last wish, got rid of the image which ultimately came into the hands of an intimate friend of M. Poincaré, who presented it to that statesman on August 20, 1911, his birthday. A little more than a year afterward Poincaré was elected, by the Congress of Versailles, to the Presidency of France. It is a curious coincidence, but President Poincaré,

like Carnot, has a mind unsusceptible to the suggestions of superstition.

Sea Turtle Medicine.

A French historian, in connection with the alleged cure for tuberculosis now being advanced by Dr. F. F. Friedmann in the United States, calls attention to the little known fact that the medicinal use of the sea-turtle is by no means of recent date.

On July 8, 1483 King Louis XI of France sent George the Greek a mariner, to the Cape Verde islands to seek "various things touching nearly to the well being and health of our person." The Cape Verde Islanders had the reputation of possessing a cure of leprosy, a report of which had been brought back of France by a traveler from the coast of Guinea at about the time King Louis was in declining health. According to the recital of this traveler, the big sea turtles were caught by the islanders when they came out on the beach at low tide to feed. They were at once killed and their blood caught in large tubs. Persons afflicted with leprosy bathed in the blood, and afterward ate of the turtle's flesh. This treatment was kept up for two years, at the end of which time the patients were usually completely cured of the dreadful disease.

This record would tend to show that Louis XI was a leper. That such was the case had been rumored by chroniclers, but the reason of the expedition to the Cape Verde Islands, now published for the first time, throws much light on the psychology of Louis XI, his ill-humor, and his sedulous avoidance of mankind during the last days of his life. The wretched man evidently believed himself smitten with leprosy. He was, however, never fated to test the efficacy of the sea turtle remedy, for he died August 30, 1483, before the return of the expedition.

Old Student Dead. The oldest university student in Switzerland, Gottlieb Laederach, died in Bern this week at the age of fifty-seven, having studied at the University of Bern for thirty-seven years without having taken his medical degree.

Laederach entered the university when he was twenty years old. He

studied assiduously but, owing to a singular nervous temperament, he could never pass an examination. Under the written and oral tests he became so embarrassed that he always failed.

Laederach, however, had an independent income and tenacity. He determined to pass the examinations if it took a lifetime. Many of his student friends became distinguished doctors. Several became professors of medicine at Bern, and Laederach attended their lectures, although he knew as much as they did.

Years went by, with the student still striving for his degree. Last week he went into his university examination room for the hundredth time. He was engaged in writing a series of answers to the questions of the examiners when he fell forward on his desk, dead from heart failure.

NATURE'S WARNING

Wichita Falls People Must Recognize and Heed It

Kidney ills come mysteriously. But nature generally warns you. Notice the kidney secretions. See if the color is unhealthy. If there are settlements and sediment. Passages frequent, scanty, painful. It's time to fear serious kidney trouble.

It's time to use Doan's Kidney Pills. Doan's have done great work in Wichita Falls.

John Glen, shoemaker, 712 Seventh street, Wichita Falls, Texas, says: "For many years I had various troubles caused by my kidneys and bladder and the only remedy I have ever found that will cure me is Doan's Kidney Pills. I had pains in my back and side and was troubled by irregular passages of the kidney secretions. Seeing Doan's Kidney Pills so highly recommended, I tried them and found them even better than represented. They cured me and now I seldom need a kidney remedy. When I do, I take Doan's Kidney Pills and they always benefit me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

What We Believe

There are three things we believe in, so much so that we have made them our motto, Honesty, Quality and Service. We believe in a good many other things too, but we are strong for honesty if the other fellow owes us anything, while quality and service goes a long ways when we go to buy goods.

It's the quality that has given us success. Five years ago we opened a small plant here employing two men, today we have over a dozen employees with modern pneumatic tools with which to give the service required. Cemetery improvement is going on each day, we beautify a plot for some one by placing a memorial, they planting a flower in loving remembrance. It's all your fault, if the loved one is unremembered, as our pleased customers will tell you we can be trusted, to mark the sacred mound.

You intend to beautify your Cemetery plot, WHEN? Yesterday is gone, and tomorrow never comes. Our telephone is 440. We will get busy today if you say the word.

SUFFRAGISTS NOT ALL MILITANT

LATTER IN ENGLAND GET LION'S SHARE OF PUBLICITY—OTHERS DO REAL WORK

CAMPAIGN IS WIDESPREAD

Quieter Suffragists Start Educational Campaign—Anti-Suffragists Not Idle

By Associated Press
London, March 29.—English suffragettes are today complaining of a decided falling away of American support, in the field of financial contribution as well as in the matter of volunteer workers. But at the same time it is recognized that the reason is because the growing activity of the campaign in America is making increasing demands on both the money and the time of American women, and that the home interest is naturally the more vital.

During the early days of the militant movement the Women's Social and Political Union received monetary and personal assistance from numerous American women, most of whom have withdrawn from the work here to take part in the exciting campaigns which are being conducted in various American states. The militants, dependent for their American support largely on American women staying in England either for pleasure or study. This was because resident American women interested in the cause have given their talents and sympathies to the organizations which use only constitutional methods in their campaigns. American wives of Englishmen in most cases also have attached themselves to the constitutional organizations.

A number of American women who have associated themselves with the militant movement have jail records as long as the most ardent of their English sisters, but the same enthusiasm which led them to smash windows and disturb the peace of cabinet members has now been enlisted at the suffrage battle front in the United States.

This defection is resented by some of the officials of the Women's Social and Political Union, who declared that there should be no national boundaries in the cause and that, once having thrown in their lot with the English militants, they should stay in the forefront of the battle until Parliament is changed. They also complain of the inactivity of the American women permanently residing in London, and declare that their attitude is

selfish. In answer to this, a prominent member of the American Women's Society stated that her compatriots had no more business to meddle in English suffrage movement than an American man would have to mix actively in politics here.

New American Volunteer

The latest merican volunteer to the fighting forces of the W. S. P. U., Miss Zelle Emerson, of Michigan, proved herself a strenuous fighter for the brief time she remained at liberty. She is now, however, a guest of His Majesty in Holloway jail, where she has just been removed to the second division after undergoing a hunger strike in protest against a sentence of hard labor for window smashing. Accompanied by Miss Sylvia Pankhurst and George Lansbury, Jr., son of the former member of Parliament who resigned his seat to contest Bow and Bromley on the issue of equal suffrage, Miss Emerson made a spectacular raid through the slum district. The raid took both the inhabitants and authorities by surprise, for hitherto the militants have confined their window smashing to the fashionable shopping and office districts, and it was not until the smashers had destroyed much glass that they were arrested. The offices of the Liberal Association of Bow and Bromley suffered severely from the raid, and thereby were the suffragettes revenged for the failure of the Liberal party to fight for Lansbury in his contest to regain his seat as a champion of suffrage. The sentence of hard labor on the raiders was denounced by their supporters as vindictive and they at once went on a hunger strike, the result of which has been their removal to the second division.

One of the most active fighters in the W. S. P. U. ranks is Miss Amy Maud Hicks, formerly a professor at Bryn Mawr. Her record of previous convictions reads like that of a New York burglar. She is exceedingly proud of this record, which is spread over a page of the "Who's Who" of Woman's Suffrage. Miss Hicks is now so well known to the police that she cannot appear on the street without meeting some policeman who has had the pleasure of accompanying her to a police station. No one woman in the militant army has done more for the glaziers' trade than Miss Hicks.

Until her return to the United States where she has gone to become chairman of the Congressional Committee for Woman's Suffrage, Miss Alice Paul, a doctor of philosophy of the University of Pennsylvania, was a close rival of Miss Hicks for the distinction of serving the longest time in jail. Miss Paul is now at her in Moorestown, Pa.

Another American woman who has left for home recently after a tour of Europe, spent chiefly in investigating the suffrage movement, is Mrs. James Sanborn, of San Francisco, who was

one of the leaders in the campaign which gave the California women the vote. Mrs. Sanborn spent three months in Spain, where she met one avowed suffragette. This bold pioneer declared, however, that she had many sub rosa supporters. Mrs. Sanborn visited many of the suffrage organizations here, but did not do any active work for any of them.

Miss Teresa Frances Wilson, secretary of the National Council of Women of Canada, is still an active unit of the W. S. P. U.'s fighting cohorts. She is a playwright, and uses her pen as well as a hammer in support of the cause.

Actresses Are Active

Maxine Elliott and her sister Gertrude (Mrs. Forbes-Robertson) are active workers for the cause which they serve through the Actresses' Franchise League. Gertrude Elliott frequently opens her home for suffrage financial loss. The Actresses' Franchise League often adds to the gaiety and picturesqueness of the campaign by giving novel entertainments to replenish the war chest. One of these was advertised recently by a procession of masked actresses bearing sandwich boards.

In the new "Who's Who" of Woman's Suffrage, just off the press, it is interesting to note that in the sketches of the careers of both Mr. and Mrs. Pethick Lawrence, the bald statement is made that they were requested to leave the W. S. P. U. by Mrs. Pankhurst. Much secrecy was observed when the Pethick Lawrences severed their connection with the militants, and the statements in the "Who's Who" is the first intimation that the initiative came from Mrs. Pankhurst. No figures are available, but it is generally believed that at least four thousand members of the W. S. P. U. left the society with the Pethick Lawrences.

Dogs Wouldn't Work.

Some one entered the grocery store of J. W. Gantt on last Saturday night by breaking out a window at the rear of the building, and getting away with some loose change of about \$2.00. There was also three half dollars in the money drawer that they did not take. Mr. Gantt says he don't think they took anything else. Sunday morning John Bell who has charge of the convict gang and who keeps two blood hounds at the camp, brought the dogs to the store to see if they could get a scent of the robbers tracks, but as there were so many tracks around the back of the building and around the window, where they made their getaway, it was hard for the dogs to do any good.—Iowa Park Herald.

A Good Tiller.

T. H. Fehmer an up to date farmer living a mile and a half southeast of the Park, was a pleasant caller at this office on last Saturday. He says his wheat field of 110 acres sure does look good, and that his maize and corn is up about two inches and is growing nicely. He will put 40 acres in cotton this spring, and he and his son will have the ground all ready. Mr. Fehmer says he would rather five and farm in this part of Texas, two to one, than down in South Texas. He also said "I made more of

my farm last year, than I could make in two years down in that country.—Iowa Park Herald.

Calf Nearly Killed Child.

J. W. Hammack's little four year old daughter was playing with a calf Thursday and the calf being tied up, she loosened it and tied the end about her own neck. Soon the calf was dragging the child all over the yard, and the latter was finally rescued after being seriously injured about the face and throat.—Quannah Tribune-Chief.

Wilbarger Alfalfa Acreage.

The Record man requested Jno. A. White one day this week to give an estimate of the acreage in alfalfa in this county, this being a matter in which our people and the public generally are not informed. After some little thinking and figuring, Mr. White stated that the figures would range somewhere from 3,000 to 5,000 acres, and that there is yet a great deal of our lands that are well suited to this popular forage crop. Mr. White stated that the crop everywhere this season is very promising, as there has been no lack of moisture at any time. He also stated that the first cutting, which will be ready about May 1st, with the present fine conditions will likely be one of the largest ever harvested at the same

time of the year. The plant is now showing up well and growing rapidly.—Vernon Record.

Vernon Officials Travel.

Mayor I. S. Sewell and City Attorney W. N. Stokes have been absent from the city this week on a trip of investigation at Paris, Mt. Pleasant, Fort Worth and Dallas. The object of the trip by these officials is to get information concerning certain municipal problems, such as franchises, the issuance of scrip in payment for street improvements as permitted under the recent charter amendment, bond issues for street improvements.—Vernon Record.

Fruit Damaged By Cold.

Weather that would have been more timely in January than in March was the treatment received from the elements by Vernon and Wilbarger county this week. Monday was an ideal spring day, but was followed by cooler weather. Tuesday, snow Tuesday night and Wednesday and a heavy frost and freeze Wednesday night. As to the extent of the freeze and the amount of damage done the fruit crop there is considerable difference of opinion, some claiming that the cold was not sufficiently severe to do any considerable amount of harm, while others maintain that the crop is ruined. The snow of Tuesday night and Wednesday will prove very beneficial to growing crops and put a good season in the ground for those yet to be planted.—Vernon Record.

Little Boy Fatally Scalded.

Alva, aged four, the little son of

Mr. and Mrs. W. C. Briscoe, was fatally scalded at their home on South Seventeenth street Monday. Mrs. Briscoe was engaged in doing the family washing. She had taken a tub of hot water from the stove and put it on the floor near the door. She turned to look out of the door and as she did so the child fell into the tub. Mrs. Briscoe rescued the boy quickly, but the scalding water had fearfully burned him about the abdomen and back, and although medical aid was quickly summoned, the injuries were of such a degree of severity that nothing could be done for the little sufferer. The accident happened at 11 a. m., and the child died at five o'clock that afternoon.—Frederick Leader.

O You Professor.

Our popular little teacher, Prof. Mancell Doss was seen on the streets of Childress Saturday afternoon smiling at the girls.—Valley View Correspondence of Childress Index.

Newcastle's Explanation.

Well its all over and we didn't win. The only reason we didn't win is because we lacked one hundred and sixty-six votes. We had it all planned out to have a big bon fire of hats on last Saturday night, but as the returns began to come in we decided to wait five years. They landed on us like the dickens in Graham, put the kibosh on us at Gooseneck (durn them ganders) and turned Conner Creek into a goose ranch for once, our vote there tallying up exactly with "Doc" Williamson's reputation.

The votes as cast show that the farmers want the court house moved by 126 majority, but we were shy in the towns, so we will bid the county seat farewell for a time.—Newcastle Register.

Burkburnett Building.

Not a vacant business house in this good town, and residence after residence rearing its symmetrical shape towards the ethereal dome in various stages ranging from the foundation blocks to the finishing touches, is one of the sure indexes that Burkburnett is getting somewhere. And the amount of building material being hauled to the country indicates that that section is engaged in a friendly rivalry with the town to see which shall be first to come under the wire at the judge's stand with the greatest amount of improvement.—Four-Six Star.

Electric Lighting Plant.

C. J. Patterson was here from St. Louis the first of the week, mapping out the preliminaries for the installation of an electric lighting plant for Burkburnett. Mr. Patterson has extensive experience in promoting and conducting enterprises of this character, and the prediction is freely made that success will crown his endeavors here. He secured a franchise from the city council some two weeks ago and we have his promise that material for the plant will be on the grounds here within the next two weeks.—Four-Six Star.

Tame Geese As Decoys.

The Holland boys living near Quan-

ah, are having great success with live wild geese as decoys. They captured five wild geese and have tamed and educated them so they take real pleasure in the work cut out for them. When the boys want to enjoy some real goose shooting they lead their decoys down to the river and shoot them into the water. When a flock of wild geese come in, hailing distance the decoys begin to talk to them. Of course they use the goose language, which is not well understood by the hunters, but it is believed the decoys say to the wild geese, "Come on in—the water's fine." At any rate the wild geese never fail to light, and the Holland boys then promptly shoot the stuffing out of them. One day recently they killed eleven by this easy method. When John Brown hears of this he will take his bunch of live wild duck decoys out behind the house and bury them.—Grandfield Enterprise.

Bullet Comes Through Window.

While Thomas O'Neal, an employe at the Frederick oil mill, was oiling a pulley Sunday night, a bullet came crashing through a window and struck the pulley on which he was working just on a line with his forehead. Only the pulley saved him from being shot in the head. Mr. O'Neal picked the bullet up from the floor. He summoned Chief of Police Waggoner, but no clew could be obtained as to the person who fired the shot. The bullet was of .38 caliber.—Frederick Leader.

Building at Chillicothe.

Work began on the Baptist \$5,300 veneer brick building Tuesday, but was delayed Wednesday on account of the snow storm and work resumed today and will be rushed to completion. When completed it will be an ornament to the city and the pride of the Baptist people. Ben F. Griffin is building to his already beautiful home. Mrs. Geo. Craig is building two rooms to her pretty residence. J. S. Martin is having some additions built to his home.—Chillicothe News.

Surest Way to End Catarrh.

Go to Foosee & Lynch and say, "I want a HYOMEI outfit." Take it home—pour a few drops of HYOMEI from the bottle into the little hard rubber inhaler—breathe it for five minutes and note the refreshing relief—breathe it four or five times a day for a few days and catarrh and all its symptoms will gradually disappear.

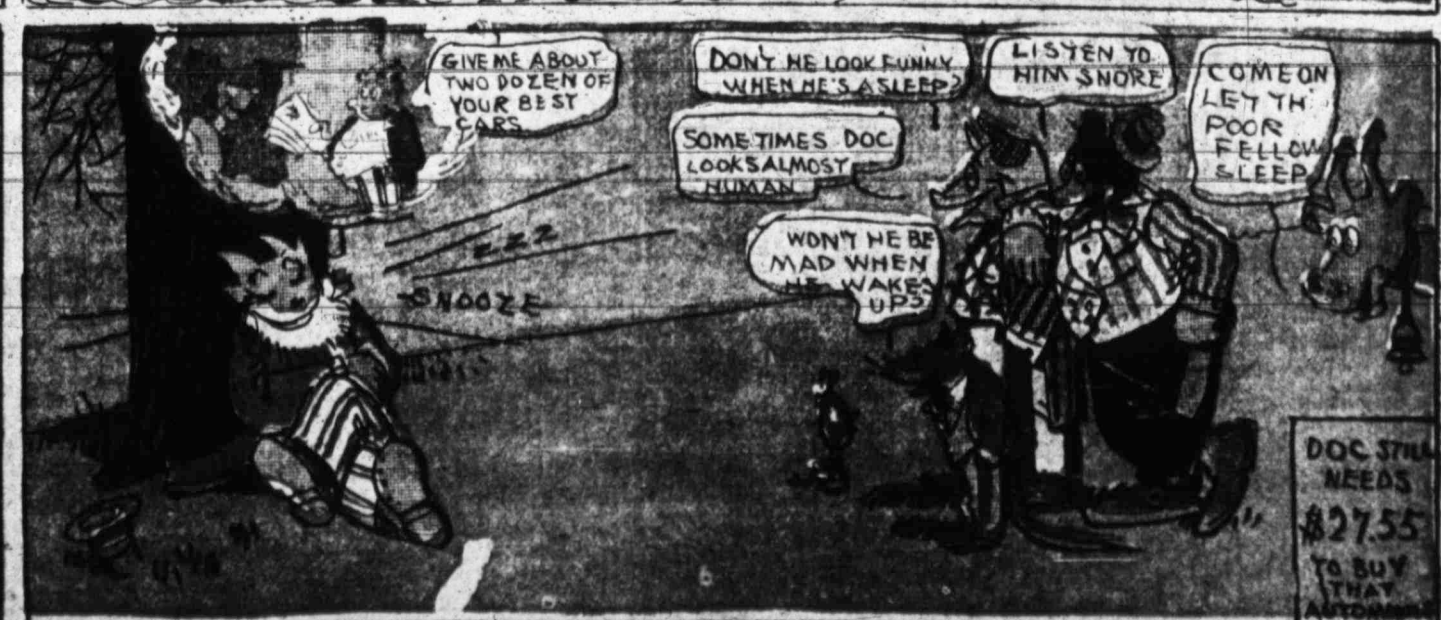

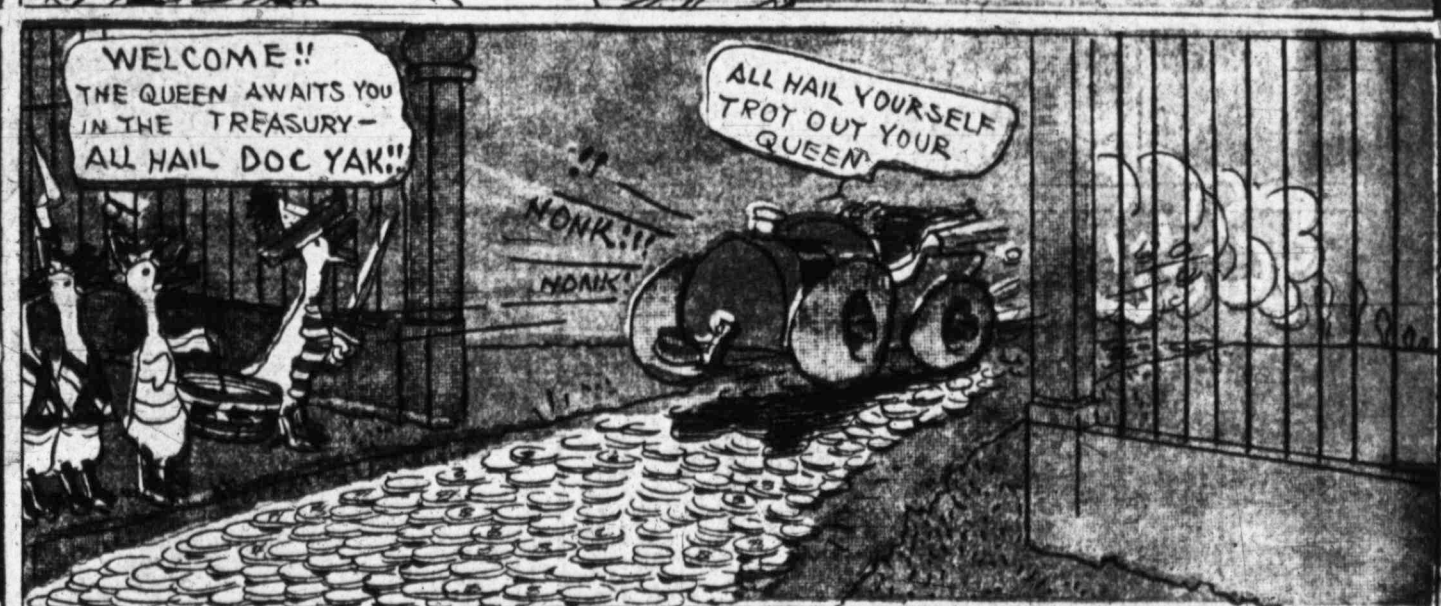

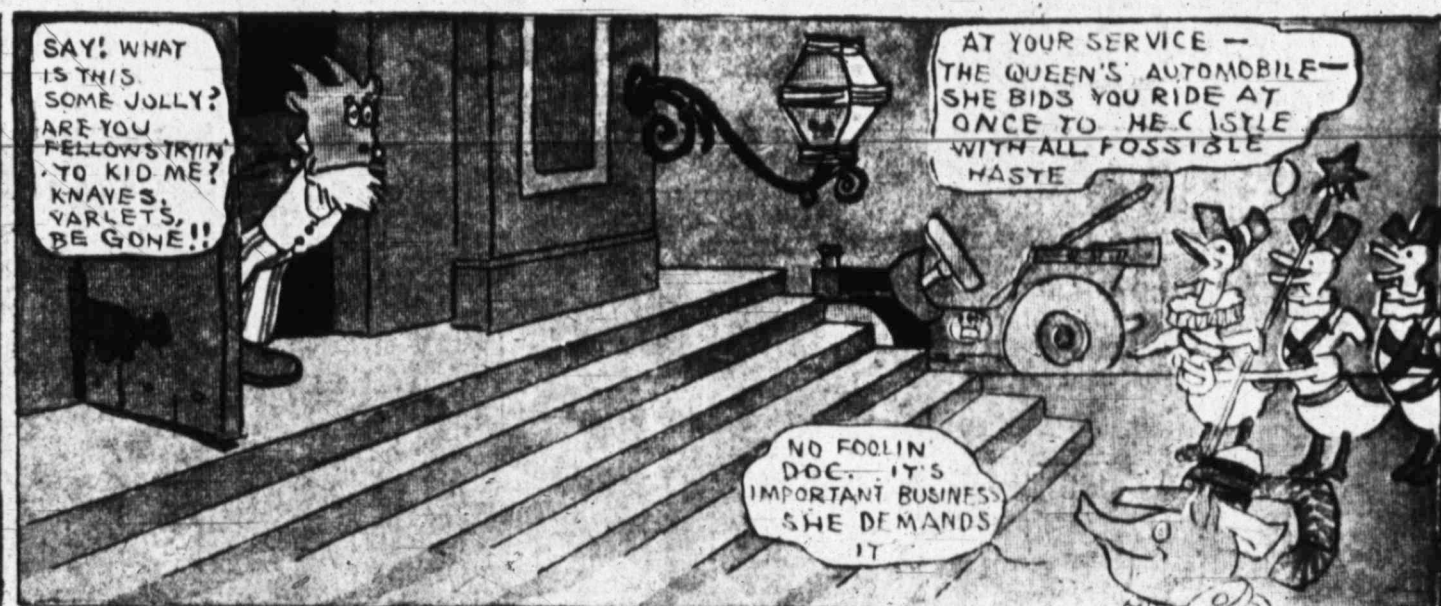

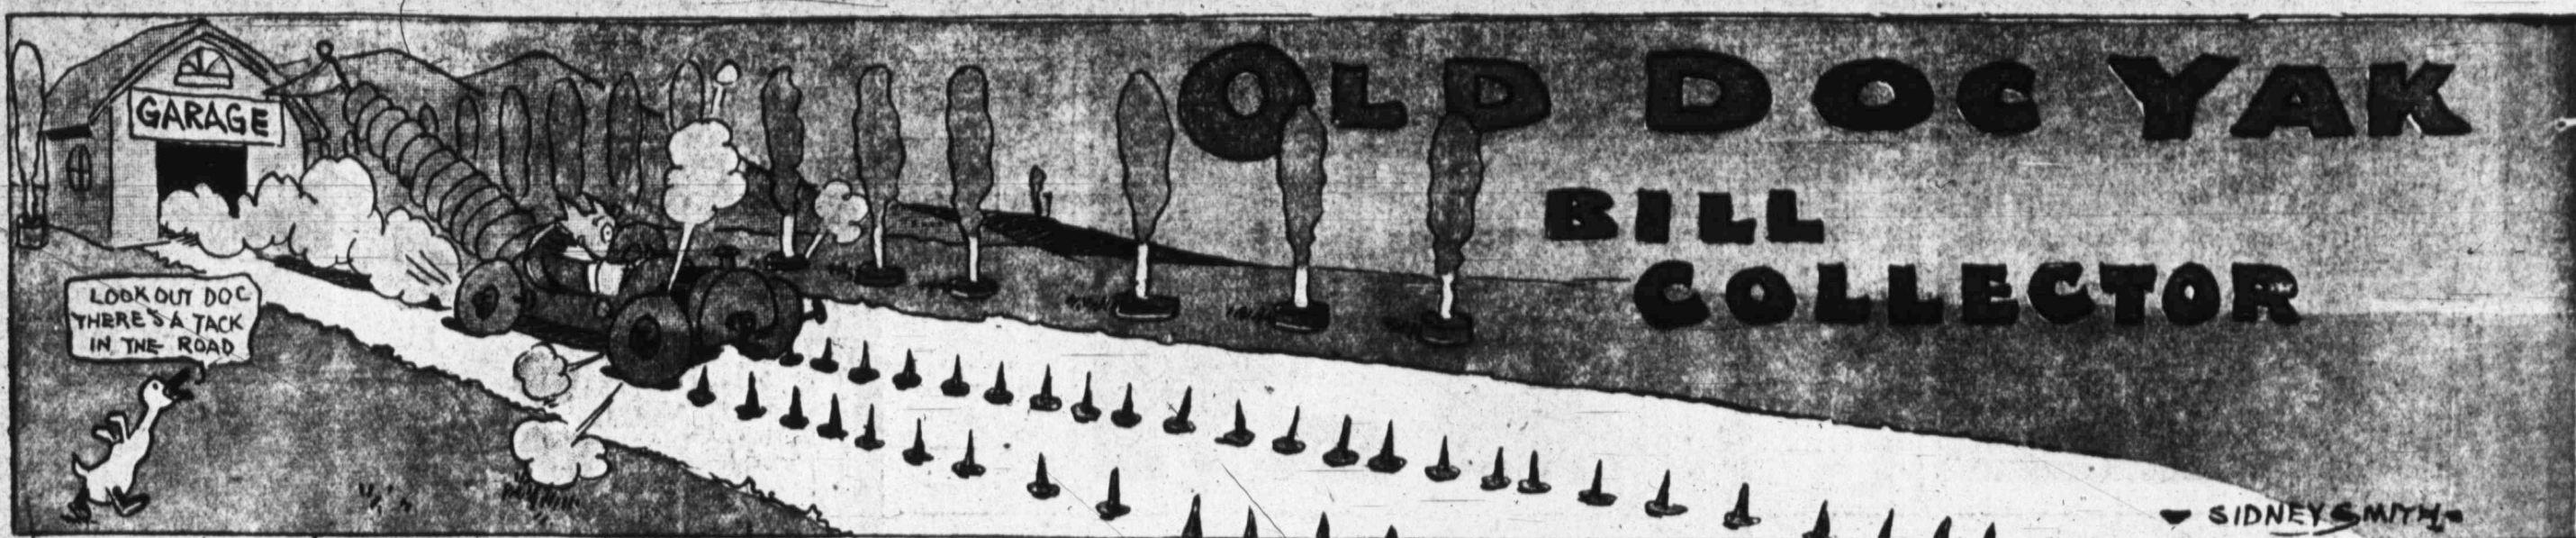

Both's HYOMEI is balsamic air; it contains no opium, cocaine or other harmful drug and is sold on money back plan for catarrh, croup, colds and coughs. Complete outfit (including inhaler) \$1.00—extra bottles if later needed 50 cents at Foosee & Lynch and druggists everywhere. Simple instructions for use in every package—you can't fail. Just breathe it—no stomach dosing.
