HAIRBREADTH ESCAPES AND MI RACULOUS RESCUES IN DAYTON'S DISASTER

FAMILY'S EXPERIENCE

Man Saw Wife Sink Third Time and Babies Float Away But all Survived

By Associated Press
Dayton, O., March 31 Many thrilling adventures are coming to light as the victims of the flood are recovering from the effects of their awful experiences. Among the most interesting experiences reported were those of the family of C. M. Adams in Riverdale.

When the first rush of the waters came Adams took his wife and ten months and two year old bables to the house of a friend. An hour later they were again forced to move this time from a second story window from which they floated on an improvised raft of doors. This frail veraft soon dashed against a telegraph pole and was capsized. Just before he was rescued Adams saw his wife sink for the third time and his babies floating down the strtam. Three hours later he recovered conscious ness and found himself in the attic of a house and beside him on the floor his wife alive. A few minutes later a man came swimming up to the attic window bringing him his two babies. They had lodged in the branches of a tree and were unhurt Mrs. Adams was rescued by a high school boy who was a member of the boy scouts. He had been trained in the resucitation of persons nearly drowned and had put his knowledge to good practice when he found Mrs. Adams, apparently lifeless body floating in the street.

No charge has been filed agains the contractor who cashed Burt Rex ford's check for \$475, as published in Sunday's Times, and it is not likely that any action will be taken. "The same price the world over"

Many of the all-wool fabrics are specially made by the woolen mills for this special suit. The patterns are as distinctive, the cloth is as fine as you see in many suits selling for \$20 to \$30 retail.

The framework of the suit is molded and bound together in permanent construction. The high-grade haircloth and canvas are even soaked in water to exclude any chance of shrinkage.

You get the hand-tailored, shapely and shape retaining coat. This is possible because the Styleplus organization is admittedly the biggest and most modern in the world. Not only is every workman a specialist, but the whole manufacturing scheme is scientifically planned.

Mrs. Della Long Unable to Stand On Her Feet More Than a Few Minutes at a Time.

Pendergrass, Ga.—Mrs. Della Long, of this place, in a recent letter, says: "For five or six years, I suffered agon-

ies with womany troubes.

Often, I couldn't sit up more than a few minutes at a time, and if I stood on my feet long, I would faint.

I took Cardui, and it helped me immediately. Now, I can do my work all the time, and don't suffer like I did." Take Cardui when you feel ill in any way—weak, tired, miserable, or under the weather. Cardul is a strength building tonic medicine for women.

It has been found to relieve pain and

distress caused by womanly troubles, and is an excellent medicine to have on Cardul acts on the womanly consti-

tution, building up womanly strength, oning up the nerves, and regulating the womanly organs.

Every man should own his own home. It is not only better for him financially, but there is more pleasure in owning something rather than to be continuously paying rent. This is more especially true if you happen to be located in a live-wire city-like Wichita Falls, for instance, where rents are high and where property values never selection change hands ex cept at a substantial advance in price It has been doing that for the pas six years. There is exerything to in dicate that it will continue to do se for the next five or six years. What's the use of a man paying out rents suf ficient to buy a home and then allow his landlord to continue to hold th deed? Buy a home in Wichita Falls It is as safe an investment as yo

In the event the bill which has passed the legislature and which has for its purpose to prevent the empty ing of sewers into running streams stands the final test and becomes law it will mean that Wichita alls splendid sewerage system but in at great expense will be practically use less, or will have to be over-hauled at great expense. Doubtless there are many offer efties in the same fix. As the water in the Wichita river is not suitable for domestic purposes, nor can it be used for irrigation, it is dif ficult to see the good of such a law If there were towns or communities below where the sewerage is emptied into the river that used the water for any purpose it would then furnish at excuse for the passage of such a law As it is the passage of the law can only serve to prevent the pollution of the water in a river that is being put to about the only use it is fit forthat of carrying off refuse and waste from cities that are located on them

In a few days the new congress will convene, and then the American peo ple will expect the Democratic party now in control of every branch of the National government, to give them what it has pledged the people it would give-legislation that will tend to lower the prices on the necessaries of life and thereby reduce to con extent at least the cost of living. This can be done, in the opinion of the greatest statesmen, without material ly injuring business interests or causing any panics. It might make it so that capital will not be able to rea; so great a profit, but capital can stand to take less. The people who have trusted the Democrats did so because they were demanding a new deal all the way round. If the Dem ocrats prove faithful to their trust there need be no fear but that the people will continue that party in power. There should be no side-step ping. The time for action is now at hand, and the day for the American people to be frightened by threats of panics from the money kings is, or at least ought to be at an ende

What We Believe

There are three things we believe in, so much so that we have plade them our motto, Honesty, Quality and Sovice. We believe in a good many other things too, but we are strong for honesty if the other fellow owes us anything, while quality and service goes a long ways when we go to buy goods.

-It's the quality that has given us success. Five years ago we opened a small plant here employing two men, today we have over a dozen employees with modern pneumatic tools with which to give the service required. Cemetery improvement is going on each day, we beautify a plot for some one by placing a memorial, they planting a flower in loving remembrance. It's all your fault, if the loved one is unremembered, as our pleased customers will tell you we can be trusted, to mark the sacred mound.

You intend to beautify your Cemetery plot, WHEN? Yesterday is gone, and tomorrow never comes. Our telephone is 440. We will get busy today if you say the word.

Entered at the Postoffice at Wichita Fall-as second-class mail matter

Wichita Falls, Texas, March 31, 1913-

Every man should own his own home. It is not only better for him financially, but there is more pleasure in owning something rather than to be continuously paying rent. This is more especially true if you happen to be located in a live-wire city-like Wichita Falls, for instance, where rents are high and where propert values never sell or change hands ex cept at a substantial advancé in price It has been doing that for the pas six years. There is everything to in dicate that it will continue to do so for the next five or six years. What's the use of a man paying out rents suf ficient to buy a home and then allow his landlord to continue to hold the deed? Buy a home in Wichita Falls It is as safe an investment as you can make.

In the event the bill which has passed the legislature and which has for its purpose to prevent the emptying of sewers into running streams stands the final test and becomes a law it will mean that Wichita alls splendid sewerage system put in at great expense will be practically use less, or will have to be over-hauled at great expense. Doubtless there are many other cities in the same fix. As the water in the Wichita river is not suitable for domestic purposes, nor can it be used for irrigation, it is dif ficult to see the good of such a law. If there were towns or communities below where the sewerage is emptied into the river that used the water for any purpose it would then furnish an excuse for the passage of such a law. As it is the passage of the law can only serve to prevent the pollution of the water in a river that is being put to about the only use it is fit forthat of carrying off refuse and waste from cities that are located on them

In a few days the new congress will convene, and then the American people will expect the Democratic party now in control of every branch of the National government, to give them what it has pledged the people it would give-legislation that will tend to lower the prices on the necessaries extent at least the cost of living. This can be done, in the opinion of the greatest statesmen, without material ly injuring business interests or caus ing any panics. It might make it so that capital will not be able to rea; so great a profit, but capital can stand to take less. The people who have trusted the Democrats did so because they were demanding a new deal all the way round. If the Democrats prove faithful to their trust; there need be no fear but that the people will continue that party in power. There should be no side stepping. The time for action is now at hand, and the day for the American people to be frightened by threats of panies from the money kings is, or at least wught to be at an end.

What We Believe

There are three things we believe in, so much so that we have made them our motto, Honesty, Quality and Service. We believe in a good many other things too, but we are strong for honesty if the other fellow owes us anything, while quality and service goes a long ways when we go to buy goods.

It's the quality that has given us success. Five years ago we opened a small plant here employing two men, today we have over a dozen employees with modern pneumatic tools with which to give the service required. Cemetery improvement is going on each day, we beautify a plot for some one by placing a memorial, they planting a flower in loving remembrance. It's all your fault, if the loved one is unremembered, as our pleased customers will tell you we can be trusted, to mark the sacred mound.

You intend to beautify your Cemetery plot, WHEN? Yesterday is gone, and tomorrow never comes. Our telephone is 440. We will get busy today if you say the word.

DRILLERS TAKE

OVERWHELM TIPTON SQUAD BY SCORE OF SIXTEEN TO

Scroggins Fans Ten Men in Five I nings and Gets Home Run-Fielders Have Little Work

The Drillers found the going easy n their first game on the home lo esterday and defeated the Tiptor am, 16 to 0. The feature of the ame was the pitching of the Stamford outhpaw, Scroggins who fanned ten atters in five innings and did not al w a Tiptonite to get to first.

The game was unsatisfactory so far as showing what the new Drillers can lo, was concerned. Of the twenty line batters who faced Scroggins and Valverde, only one was fielded out Eighteen were fanned and eight sent easy pop-ups. Just two reached first base, one on a clean hit the other on an error by Phillips. For most of he game the pitcher and catcher were

The Drillers got to Smith with lit tle difficulty after the first two innings and made a race-course of the liamond in the seventh and eighth There were six two baggers, two three-baggers and a home run, the last being by Scroggins,

Both the local pitchers were lef handers and while Scroggins showed up best yesterday, Valverde is no mean pitcher himself. He has less control than the Stamford boy, but has some fast, quick breaking curves Scroggins had excellent control and often vesterday.

Wilson, Nicholson and Au Miller were tried at first base, but had so little to do that no comparison of them can be made. Shell at third had two chances and Payne at short had one, handling them nicely. The outfield consisted of Guthrie, Brown and Morris, all old timers. Behind the bat Rosamond caught for five innings and held the position down nicely. He pegs cleanly but not

quickly. The performance of Scroggins was he most interesting part of the game. He fanned every Tipton batter at least once and did not allow even a semblance of a hit: His home run was a smashing drive that looked

tollable nice. Nearly all the Drillers got at least one hit. Brown got three, but only one was a clean one; Guthrie also got three. Six errors by the Tiptonites also contributed to the score getting and the result was not long in

In general, the Drillers loom up mite promising. The new infield is ret to be tested, but both Shell and Payne look good, and first base should certainly be well filled with

WEED CHAINS CAN BE EASILY IDENTIFIED - the name "WEED" is stamped on every cross chain hook, and each pair is packed in a brown canvas bag on which is printed : "Weed Chain Tire Gr.ps." Rid-O-Skids are made of softer material and with less care. The cross chains are not plated and each pair is packed in a white canvas bag on which is printed: "Rid-O-Skid Tire Chains." Owing to the greater cost of the material used in the manufact

pleasing Roman hero of historic narrative. He was what is known in some of the modern vernaculars as a Hum-Dinger. He stood pat and dared a powerful army to invade Rome and made it stick. He was crowned with a laurel wreath which in the matter of honor was about the same as getting yourself fastened to a Carnegie medal for rescuing a pie-eyed wreck from a duck puddle who thinks he was aboard the Titanic when it sank. But, speaking of honor, the chap who will come in for tears of admiration as big as a gas meter for making a noise that reached round the world and blessed humanity from one end of the world to the other and who will reap a wreath worth mentioning is the chap who invented ALTA VISTA PURE ICE CREAM.
