WILSON GOES TO **ROOM IN CAPITOL**

PRESIDENT SHATTERS ANOTHER PRECEDENT WHEN HE HOLDS CONFERENCE AT CAPITOL BUILDING

DISCUSS THE TARIFI

Democratic Members Senate Finance Committee Meet President This Afternoon

By Associated Press.
Washington, April 9.—President Wilson announced this morning that The Senate adjourned at noon until he would meet the Democratic members of the Senate finance committee in the President's 10 m at the capitol at three o'clock this afternoon to talk about the tariff bill.

Although it had been unofficially announced here before the President took office that he expected to go to the President's room at the capitol at frequent intervals, the announce ment that he would make his first visit today, following his departure from custom yesterday when he read his message to Congress in person has set official circles by the ears. Word Sent By Tumulty.

The President sent word early this morning by Secretary Tumulty to members of the finance committee asking for the conference.

It is generally recognized that the pivot of tariff reform will be in the Senate where the Democratic margin build be focused on each schedule tion are already apparent. When President Wilson last discussed the method of adopting a tariff reform bill with members of the Senate finance committee they favored the separate schedule method assuring the President that wider attention woul dbe foscused on each schedule and that agreements among senators might be eliminated.

President Wants Harmony. President Wilson is anxious that an unaniminity of opinion should prevail between the two Houses and has declared that the arguments advanced by both Houses are good. House Leader Underwood favors the adoption of a tariff bill in a single measure. The President feels that his visit to the capitol will promote harmony as he will be where he will be of easy access to those, reluctant A to favor the bill. Mr. Wilson firmly believes that as leader of the party he should consult with the leaders contact with the members of both Houses not only to save time in legislative matters but also to avert mis-

understandings. Wilson Might Take the Stump. The intimation has come that if the party's pledges for tariff revision are defeated in the present session that the President will go before the people of the States whose representatives have thwarted the party's program and will appeal for the election in the primaries, of what he believes are progressive candidates.

London. April 9.—A Central News Agency dispatch from Rome this af ternoon says the Pope suffered a faint ing spell lasting two hours today and it is rumored in the lobby of the Italian Chamber of Deputies that his condition is critical. His physician however, continues to assert that his condition is no worse and that there are no grounds for anxiety.

Much Depressed and Very Weak Rome, April 9 .- The condition of Pope Pius was reported not improved this morning. While his temperature was only slightly above normal he was still reported suffering from NOT APPROVED depression and weakness.

He dozed a short time this afternoon and when he awoke he appear ed to feel too weak to take much notice of those around him. He smiled feebly when his sister and niece came into the room and sat quietly without disturbing him.

Washington, April 9.-The Demoratic majority of the House of Representatives Tuesday went the Re-publican minority of the Senate one bolder when they voted down a motion to make all party caucuses on the tariff open to the public. The Senate Republicans recently had this motion to face and avoided a vote on the question by postponing action until a subsequent meeting. The House Democrats not only voted overwhelmingly against an open caucus, but at the same time went on record as opposed to inviting President Wilson and the members of his Cabinet to attend the caucuses at which the new tariff bill will be considered. Oscar W. Underwood, Author of The Tariff Bill Now Before Congress

W. Underwood, chairman of the House Ways and Means com mittee and President Wilson are apparently in entire harmony over the new tariff bill introduced in the House yesterday.

The bill embodies the ideas of the President and House leaders of the fulfillment of democratic platform pledges in regard to the tariff, Upon Mr. Underwood's shoulders is expected to fall the brunt of the battle in the coming months of the S ixty-Third Congress.

Certain Trains to Federal

Austin, Texas, April 9.-In revers ing and rendering the case of the M. K. & T. Railway of Texas the court of criminal appeals today gave a setback to the State Railroad Commission's ruling providing for the operation of trains within thirty minutes of their schedule time, unless delayed by accident. This ruling was made in a suit brought by the State in the Travis county district court for \$14,-000 penalties for violating the rule.

The decision was based on the fact hat the passenger trains violating the rules are interstate carriers and are subject to regulation of the Interstate Commerce Commission, rather than by the State Railroad Commission.

As practically all of the offending rains are interstate carriers the deision is regarded as highly important. The case will be appealed the State supreme court.

IN KATY'S SCHEDULE

Improved Train Service Out of Wichita Falls Will be Effective Thursday

Several important changes in the Katy time card become effective tomorrow, and Wichita Falls gets better service both into Dallas and down the Southern thereby,

The Wichita Falls & Southern trafn will hereafter be a straight passenger train leaving at 2:30, reaching Olney at 4:15, and Newcastle at 5 o'clock; at Olney it makes connection with the Gulf, Texas & Western for Mineral Wells, reaching Jacksboro at 6:25 and Mineral Wells at 7:50. Returning, one may leave Mineral Wells at 6:40, reaching Jacksboro at 8:09 and Olney at 10:15 getting here at 12:05. The return train leaves Newcastle at 9:20 a. m.

This train will carry two cars for the through Mineral Wells service. The freight train will leave in the morning at 7 a. m., and get back at 4:15; this will carry passengers, thus giving double daily service

castle nad intermediate points. The sieeper which has heretofore been operated between Dallas and Elk City will, effective tomorrow, bedropped here and will be known as the "Wichita Falls lay-over sleeper." Wichitans bound for Dallas, may enter the sleeper at 9 a. m., and on the return trip may remain in the'r berths until 7 a. m.

No. 17 from Dallas, formerly arriving at 3:10, now reaches here at 3:35 it being the train carrying the sleep er. No. 18 will leave Wichita Falls for Dallas at 12:25 a. m., instead of 12:40.

No. 14. leaving here at 6:20 a. m., will make connection at Whitestoro with a train, into Dallas, arriving there at 2 p. m., this gives double daily service over the Katy between Wichita Falls and Dallas. Train No. 11 from Denison will hereafter arrive at 1:35 p. m., instead of 12:20 leaving Dallas at 6:10 a. m. 'No. 12. which now leaves at 1:20 p. m., will leave at 1:35. No. 13 will arrive at 11 p. m., as heretofore.

On the Northwestern trains' 3 and 4 which formerly stopped at Woodward, now operate through to Forgan. No. 3 leaves Wichita Falls at 4:30 a. m., instead of 3:40 a. m., and No. 4 will arrive here at 9:25 pam instead of 10:40 p. m. Trains I and 1, arriving at noon and leaving at 2:40 p. m., will be unchanged.

These changes result in materially improved service for Wichttans, enabling them to get convenient sleeper accommodations to and from Dallas and through service to Mineral Wells with two trains daily to Newcastle and Southern points,

Young Man Taken Into Custody Wednesday on an Affidavit

Robert Cobb, Jr., aged 45, died af 9 o'clock this morning at the home of his father, Major Robert Cobb. 2110 Tenth street. Shortly after his death, Sam Carter, aged 22, was placed under arrest on a charge of murder, the affidavit being signed by George Hawkins, deputy sheriff. On Wednesday of last week, Rob-

ert Cobb received injuries in an alleged assault by Carter and these, it is charged, resulted in his death today. Carter paid a fine last week on a charge of fighting. When he was arrested this morning, steps were taken by his relatives to have a post mortem examination of the attorney's body, which will probably be done this afternoon.

Robert Cobb was 42 years of age and had been engaged in the practice of law here for several years. He was a young man of many admirable qualities, member of one of the city's oldest and most prominent families, making his sad end deeply o be regretted. The funeral will take place tomorrow afternoon at 3 o'clock from the Church of the Good Shepherd, Rev. Chester Wood offi-

UNIVERSITY OF TEXAS CORRESPONDENCE SCHOOL

The Times has received the follow ng announcement:

The University of Texas is constantly broadening and extending its advantages to the citizens of the State. The work of the home study or correspondence division is reaching out into the remotest corners of the State and bringing life nad hope and educational progress to many an ambitious person who is debarred by force of circumstances from gaining a college education. Over five hundred students in all parts of the State are now actively engaged in this correspondence work. Since the founding of the extension department, three and a half years ago, over two thousand applications have been received in the correspondence division. There are, in our own community, persons who are prepared to undertake work of college grade, but who have little or no prospect of being able to go away to school. To such persons the University offers advantages that, may be made immediately available. It takes tenacity of purpose and a strong ambition to pursue successfully these coures in absentia, but there are, no doubt, many of our young men and women who have the proper qualifications to do creditable work of this kind. An examination of the University

bulletin announcing the correspondence courses discloses the wilde range of subjects now beging offered. There are courses in English composition and literature, elementary and advanced courses in Latin. and Greek, and in the modern foreign languages, Spanish, French and German. These are also courses in pure and applied mathematics, in history and philosophy, economics, government, domestic science, business training, agriculture, public speaking Surviving the deceased are his par and other academic branches. A few elementary courses in such sciences a brother Percy Cobb and three six as botany, zoology and geology, are also offered.

Of special interest to persons of a practical turn of mind are the technical courses in civil, mechanical and electrical engineering, and in drawing, and architecture. These courses lare adapted to the needs of practical machinists, electricians. surveyors, builders, and architectural draftsmen. The purely practical courses do not command University credit, but the technical courses may be counted toward the engineering degree

Among the most popular subjects taught by correspondence are the law courses. The elementary subjects in law are offered to ambitious youths who can pursue the courses profitably, either for purely business purposes or in preparation for the State examinations for admisdates for the bar examinations who are of mature age may be admitted courses without becoming candidates for the law degree. In addition to the regular elementary subjects in law, a few topics, such as legal business and the rights of married women, are offered without coffege cre

Teachers' courses, designed to pre pare applicants for first grade or permanent certificates, are also ofered. These courses are becoming nore and more profitable and popuar, because they give the students information and thorough training, instead of encouraging them o pursue the more "cram" method in preparing fo rthe State examina-

America Holds Power to Lift Torch of Peace for Whole World, Declares Celebrated English Poet

Philadelphia, April 9.—"America alone can dissolve the tremendous armaments of Europe and turn the nations of the world to peace." This was the assertion of Alfred Noyes the English poet, in an address be fore the ethical society in this city yesterday. "Each nation is at pres ent maintaining a great army and navy because its neighbor is," clared Mr. Noyes.

"The future lies with America. Let her lift the sublime torch of peace above the world and the mations of Europe will turn their eyes to it. To merica will go the homage and rev

erence of all ages." "The great green table," was the subject of the poet's address. "Seated about it." he said, "are the nations of the world, spending hundreds of millions of dollars on a dread thing, while the peasantries strive.

"Today war is promoted mainly by the greed of land. The present system is against nature. It is anomaly which will end either in disaster, or in the final establishment of permanent peace."

Horses and Automobiles.

Fort Worth, Texas, April 9 .- There is an automobile to every three horses in the principal cities of Texas, population basis, and the number of cars in these cities totals 10,026 while the horse population is 30, 382 according to data compiled by the Texas Commercial Secretaires and Business Men's Association from information furnished by the Census Departemnt and the commercial organizations of San Antonio, Dal las, Houston and Fort Worth. The latest federal census gives these cities an aggregate population o 340,830, which is an average of 11 persons to each horse and 34 people per automobile. San Antonio has more horses than any other city while Dallas ranks first in number

The horse is evidently holding-his own in Fort Worth as the equine population per car is 4.2 while the iverage in Dallas, Houston an dSan Antonio is 2.2, 3 and 3.2 horses per car respectively. Houston appears to have the best transportation facilities as there are 9 persons to each horse and 28 persons to every car The vacrage number of persons to each horse is 11 in San Antonio and Fort Worth and 14 in Dallas. The population per auto in Dallas is 31.

The total value of horses in these cities is \$3,250,000 and the capital invested in automobiles is \$14,500.000 clean vessel that has been scalded and thoroughly cleaned. WOODROW WILSON ON TRIAL. Success is everywhere. If a man succeeds, he is a hero; if he fails, he goes to his grave unwept, unhonored and unsung. No matter how good may have been his intentions, how much he would have accomplished for his fellows had his plans not gone awry, the man that fails literally rests in an unnamed grave, The world has no use for the failure, even should this fallure be the result of sealous effort in hehalf of hettering the world.

Particularly are these thoughts true in the political world. How welldo Democrats remember the landslide of 1892 that carried Grover Geyeland into office and at the same time gave him a Democratic House and Senate. Democrats who for

Will history repeat itself at this to anything I hear, especially over a stage of the game? Will the well matured plans of President Wilson, who has the backing of the party, come to naught and he go out of office as unpopular as Grover Cleveand? Let us hope not. But, even niece, I was prevailed upon to arise at this early day signs of disentegration are clearly evident. The sugar dorns my study and couple on to the Democrat demands his share of the tariff advantages; likewise the wool Democrat, and as the tariff makers go further down the schedule they will find other tariff interests represented by members on the Democratic side in the two houses of Congress. These men know to whom they are responsible for seats in Congress, and it is beyond the pale of conjecture to believe for a moment that they will surrender their own interests for the president's program. If they should it would be more than human and congressmen and senators are

nothing if not intensely human. True, President Wilson has many advantages not enjoyed by Cleveland, The ways and means committee of the House seems to be with him and in Speaker Clark his policies have a patriotism of the twentieth century firm defender. It is recalled that the congress under Cleveland refused to elect Roger Q. Mills speaker. Mills represented the president's views as to tariff legislation—that was known at the time. But the House refused to name the Texan and this was the first rock planted in the awy of the Cleveland tariff policy. At present seemingly this condition does not menace Mr. Wilson and with the active support of the House leaders and the make-up of the Senate finance committee favorable to the new president's policies, the conclusion forces itself that Wilson has a distinct advantage. But there are many slips between cup and lips when Congress considers the tariff—that intricate question which our wiscont political economists believe to be re sponsible for many of the woes that now afflict the masses.

If President Wilson gets away with his program be will be the idol of a great people; should he fall, like Grover Cleveland, he will wait until the clods of the valley rest above his form before justification is given him by a credulous people.—Dallas Times-

And so on down the The 5 per cent of Democrats who insinuated themselves into appointive offices under the Roosevelt Taft regime doubtless feel more at home now than they did before the Wilson administration came to town and the 95 per cent of Republicans feel less at home. But the larger now holds that the question of politics should have no bearing upon appoint ments to minor governmental offices, and that neither Democrats nor Re publicans as such should be known in the-apportionment of positions in the working departments of the public ser vice. Undoubtedly that is the broad view, the worthier view, the human view-but it isn't the view that has heretofore prevailed, and State Press, for himself, regrets that the change should have been delayed until the departments are all full of Republicans whom the riper public sentiment objects to seeing lose their jobs in favor of Democrats.—Dallas News. Sale of Art Treasures Makes Social Leader III

April 7.-Misfortunes c'ame piling down upon the pretty head of Mrs. Philip Lydig, a famous societ y beauty, thick and fast. Her friends here among the exclusive set sympat hize deeply with her. She is at present in a sanitarium in Rochester, Minn, r ecovering, it is believed, from an operation to save her life. The strain of so cial conquest had weakened her constitution, it is asserted, and she went west for the purpose of complete rest. Meanwhile it was found desirable for her to put up at public auction all of her valuable paintings, rare tapestries, costly rugs, bronzes and other art treasures. Thus while she lay critically ill-after the operation her home here was dismantled of its treasured objects and closed. It is doubtful if Mrs. Lydig will again plunge into the gayeties of the

A Sensible Woman)

Cheaper Than

Better Than Lard

When you order Cottolene you are ordering the best cooking fat on the market - butter, lard or cotton-oil imitations of Cottolene included.

Cottolene was the first successful cotton-oil shortening. It has "made good" for over 20 years, and is still the best.

The source of Cottolene is pure; it is made in a cleanly, wholesome manner; it makes food that is rich but does not disturb the digestion.

Cottolene

is packed in patent, air-tight, tin pails. It is always pure and sweet, and protected from dirt, dust and store odors

Cottolene is always uniform. Use it right and you will always have the same results—the best.

Cottolene is far superior to lard, because lard is made from hog fat, and cannot compare with Cottolene in wholesomeness and purity. Lard is an animal product; Cottolene is vegetable.

Cottolene is even better than butter for shortening and frying, and costs no more than lard.

Cottolene is richer than butter or lard; therefore, you should use one-third less.

leve Who will take his place?-Life. What It Means:

Did you ever hear the expression

He'll never set the river afire?" Natrally. Do you know how it started? No? Here is the origin. In olden days grain was sifted by hand in a sieve known as a "temse." When a very Statenergetic man did the sifting he often rubbed the sleeve so violently against he receptacle for the grain as to set ire to the wooden hoop of the temse. It used to be said of a lazy man: "He'll never set the temae afire." People Trehearing this supposed that word "Th'temse" was the "Thames," and, believing the expression referred to the river Thames, they gradually changed the word "temse" to "river," You have heard the phrase "not worth a tinker's dam." That isn't profanity. A tinker's "dam" was the little mound of pressed San Angelo-A carload of polo bread or dough that tinkers used to put around a hole or joint they were mending. When the work was overthe bits of bread were useless. They were worth nothing. Hence, a useless thing was said to be "not worth a tinker's dam."

> Even Royal Children Are Inquisitive. The subdean of the Chapel Royal. London, was giving the royal children a religious lesson. They said: Please we want to ask you something. If Adam and Eve had died when they were babies, should we have been here now?" Which was something of a poser. However, he gave the neat answer: "There is nothing in the Bible which tells us that Adam and Eye ever were bables."

ners of her city. She wore large rings in her ears and had a complexion like a new saddle. She never met a hobble skirt and if she sholud sweep down Eighth street this afternoon she would be looked upon as what the Ladies Home Journal would call a lumpy dresser. Our old friend Cleo was rather shy on happy raiment but gold and silver, well she had some beause she took money off of every farmer in the Nile Valley whether he belonged to the union or not and in the matter of real shiners seventeen of the best pawn shops in the business could not have covered her sparklers with a twenty per cent margin if they had rediscounted every ticket in the house and soaked everything they had but their shoes. She spent more money for beads than Mary Garden spends for clothes, but there was one thing that Cleo could not buy because the ALTA VISTA PURE ICE CREAM man had not yet happened. Don't forget when you are regarding yourself with good old ALTA VISTA PURE ICE CREAM that Cleopatra, Queen of Egypt, who had gold and diamonds enough to load a two-ton truck, could not buy a dimes worth of it.
