WILL RESIST GENERAL STRIKE

BELGIUM GOVERNMENT PREPARING TO USE ALL ITS RESOURCES

400,000 MAY GO OUT

Workmen of Belgium Plan Great Demonstration for Universal Manhood Suffrage

By Associated Press. Brussels, Belgium, April 11.—The Belgian government is preparing to resist with all its resources the general strike of Belgian workmen scheduled to begin Monday.

The government has the support of the conservative interests of the country.

The Socialist say 400,000 men will go out in the strike. Workmen have been advised by their leaders to display restraint and calm and to exercise peaceful endurance. Some of the cabinet members profess to believe the strike will fail and that it will be only feebly supported by the working men of the country. Others think it will be general.

Unions Vote On Strike Question.

The unions throughout the country voted last night on the question of striking. In the government gunworks here 2,700 out of 3,000 employees voted to strike. The typographical union in Brussels opposed striking but in other places the typographical unions voted unanimously for the strike.

The Socialists believe the measures they have taken are fully adequate to prevent serious trouble. They urge prohibition of the sale of liquors and the closing of the saloons and have themselves forbidden parades and meetings of their adherents.

The Government working in conjunction with the provincial and communal authorities, is putting the finishing touches on its measures to preserve order, but as yet hesitates to call out sections of the militia not wishing to exaggerate the importance of the movement and also because it fears a repetition of the acts of mutiny which occurred after the last elections.

Ghent Exposition Neutral Zone.

The strike committee has decided that the Ghent Exposition shall be considered a neutral zone and that workmen employed there shall be free to continue at their tasks if they so please. There has been a considerable number of working men and their families, with their goods and chattels, across the French frontier.

Under the present system of voting toward the abolishment of which the strike is directed, every citizen over 25 years of age has one vote. Every citizen over 35 years of age with one or more children and paying \$1.00 or more in house tax, has a supplementary vote, as has also a citizen over 25 years of age, who owns \$400 worth of real estate. Two supplementary votes are given to graduates of universities or men who hold office, or who are ex-officio officeholders. No person has more than three votes and failure to vote is a misdemeanor.

NEW SCHOOL BOARD IS ORGANIZED

W. J. Bullock Again Elected President—Completed Plans Factory Addition School Received

The members of the school board elected on April 5, were formally sworn in last night at the high school and held their first meeting. Under the new state law, part of the board has to be elected every year and this necessitated drawing for terms, which resulted in W. J. Bullock, A. H. Carrigan and J. L. Downing getting one year terms and the others two year terms.

Officers were elected as follows: President, W. J. Bullock; vice president, A. H. Carrigan; secretary, W. W. Brown; tax collector, Harry Robertson. Mr. Brown as secretary will receive \$10 monthly and the collector's pay was fixed at \$500 annually, the same as at present.

The board appointed W. W. Brown to make the scholastic census next month. Plans for the new school building in the factory addition were completed by Glenn Brothers, architects. They provide for a four room one story brick structure, but the walls will be built strong enough to make the addition of another story possible when the needs of that section require it.

At next month's meeting the board will elect teachers for the ensuing year.

SERVIAN TROOPS LEAVE SCUTARI

March Back Toward Own Country Leaving Montenegro Alone Defying Powers

By Associated Press. Cetinje, Montenegro, April 11.—The Servian troops which have been assisting in the siege of Scutari withdrew today and are now marching back toward Servia. This leaves Montenegro practically alone in her defiance of the Great Powers. The official paper here declares that the heavy losses in the recent attack on one of the Scutari forts was mainly due to the Servian artillery which continued to fire while the allies were storming the works. "The Servian commander forgot to give the order to cease firing," this paper says.

JUSTICE'S COURT NO JURISDICTION

JUDGE FELDER SUSTAINS MOTION TO QUASH COMPLAINT IN AUTOMOBILE CASE

ORDINANCE GOVERNS

Only Defendant Convicted in County Court Beats Case on His Appeal

In the county court this morning the case of the State of Texas vs. T. W. Roberts, on appeal from justice court of precinct No. 1, Wichita County, Texas, was called for trial. This was the only one of the automobile cases, in which conviction had been in the justice court.

Mr. Roberts' attorneys, R. E. Huff and P. B. Cox, filed an exception to the jurisdiction of the court on the ground that the court below had no jurisdiction and filed a motion to quash the complaint and discharge the defendant on the ground that this was a prosecution under the state law which provided that an automobile should not be driven at a greater rate of speed than should be fixed by the ordinance of any city or town in the built up portion of said city or town, and the ordinance of the city of Wichita Falls, authorized a speed of twelve miles an hour, while the complaint was for running at a rate of speed greater than ten miles an hour.

It seems that the city ordinance authorizes that an automobile may be run ten miles in the fire limits and twelve miles in the built up portion of the city.

Judge Felder sustained the motion to quash the complaint and discharged the defendant.

It is probable that all of the other automobile cases now pending in the justice court charging the defendants with driving automobiles at a greater rate of speed than ten miles, will now be dismissed. This, however, will not affect prosecutions in the city court under the city ordinance.

INCREASED FREIGHT RATES HELD UNJUST

Decision of I. C. C. Today Will Afford Relief To Shippers in American Territory

Washington, April 11.—Increased freight rates to Texas destinations by Southwestern lines were held unjust and unduly discriminatory by the Interstate Commerce Commission today.

In various forms the so-called Texas common points cases have been before the commission for many years. It is believed today's decision will finally settle all such cases. The commission held that when carriers narrowed their common point territory they must do so with fair regard to the rights of the communities they propose to exclude.

The commission did not grant the petition of the Amarillo territory for inclusion in common point territory because to do so would make the Amarillo territory practically co-extensive with the State of Texas and would reduce the revenues of the roads materially. The railroads, however, were directed to put into effect reduced rates on a number of important commodities on a parity with Texas common points. In the opinion of the commission compliance with this order will afford relief from the present high rates.

WEATHERFORD EDITOR DIED SUDDENLY TODAY

Weatherford, Texas, April 11.—G. P. Richardson of the Daily Herald here, died suddenly this morning. He had been ill only two days and was not considered in danger.

MODIFICATION BEING URGED

PRESIDENT'S CALLERS ASK THAT FREE SUGAR CLAUSES BE MADE DISCRETIONARY

COULD STAND ONE CENT

Adams and Ewing Declare Certain Prospect of Free Sugar Would Have Depressing Effect

By Associated Press. Washington, April 11.—President Wilson was urged today to agree to a modification of the sugar schedule in the new tariff bill to make it discretionary with the executive at the end of three years whether sugar should be free.

Former Governor Oliver Adams of Colorado, was a caller at the White House and told the President that while the industry in his State could stand a reduction to one cent a pound, as now provided in the tariff, that the knowledge that sugar was to be free at the end of three years would have a depressing effect on business during that period.

Robert Ewing, Democratic national committeeman from Louisiana discussed the question with the President also, taking the same position as Mr. Adams. He went away with the impression that the President would give careful consideration to that feature.

Senator Thomas of the Senate finance committee discussed the tariff briefly with the President this morning.

A PARADE ON OPENING DAY

BALL TEAMS WILL BE ESCORTED TO GROUNDS TUESDAY BY OFFICIALS AND FANS

DENISON FANS COMING

Many Merchants Have Agreed To Close Their Stores From 3 To 5 P. M.

Next Tuesday, opening day of the Texas-Oklahoma League season, is to be a big day in Wichita Falls annals. Denison will open the season with the locals and the first game will be preceded by a parade.

This parade will be headed by the officers of the baseball association, the mayor and city officials, in automobiles, followed by the members of both teams and a number of fans. This parade will follow the car line to the park, acting as escort to the cars carrying the fans to the game.

A committee consisting of J. L. Art, Frank Collier and Eugene Leopold visited the merchants this morning, asking them to close from 3 to 5 Tuesday afternoon, and practically everyone agreed to do so, making it possible for nearly everyone to attend the game.

Tuesday's game will start promptly at 3:15 and as both Denison and Wichita Falls are regarded as the league's top-notch teams, the opening contest ought to be full of pep and ginger. It is felt that with a rousing crowd on hand to give the boys encouragement at the beginning, they will take Denison into camp in pennant style.

Mayor Bell will pitch the first spit ball across the plate in the game, but will be relieved soon afterward by some younger pitcher.

A big delegation of Denison fans will accompany their team here according to a report received today.

MANY BILLS HAVE PASSED THE GOVERNOR'S HANDS.

By Associated Press. Austin, Texas, April 11.—A total of 362 bills have passed through the governor's hands and have been recorded by the Secretary of State. Fully enough more have been returned to the Senate and House for correction to make 400 handed so far. A record has been kept only of the bills signed and vetoed since the adjournment of the legislature. There are still 20 bills in the governor's hands awaiting action.

CONSTITUTIONALISTS SECURE \$75,000 IN SILVER BARS.

By Associated Press. El Paso, Texas, April 11.—Pampho Villara who has taken the field in Chihuahua State against the Huerta government, yesterday held up a train of Chihuahua and took 150 bars of silver, valued at \$75,000. The hold up took place near Santa Ysabel on the Mexican Northwestern.

WEATHER FORECAST

Tonight fair, frost; Saturday fair and warmer.

POPE ABLE TO SIT IN CHAIR TODAY

Wanted To Read Newspapers To See Whether They Had Killed and Buried Him

By Associated Press. Rome, April 11.—Pope Pius rose today and sat in an arm chair in his bed room while his bed was being made up. He at times complained of pains in the small of his back which increased when he got up and when he talked. These and other symptoms are attributed to neuralgia. The Pope's physician is apparently not quite satisfied with the progress of his patient's recovery of strength and is inflexible in his decision not to allow his patient to take any exercise.

The Pope today wanted to read a newspaper saying "After what was in them when I was ill the first time, I want to see what they have been capable of doing this time." His physician, however, refused. "That shows they must have killed and buried me," smilingly commented Pope Pius.

MARIETTA, OKLA., TEAM TO PLAY SUNDAY

The last game here before the season opens will be played Sunday when the Marietta, Oklahoma nine will be at Lake Wichita to meet the Drillers. The Marietta nine is one of the fastest in Oklahoma; it defeated the Durant team, which played the Drillers two neck and neck games.

The cold weather this week is not giving the team much opportunity for the final work outs which are so badly needed, but as practically every town in the league is having the same trouble, the Drillers are not hurt much.

Sunday's game promises to be a good one and should draw a large crowd.

It is planned to make the opening of the season next Tuesday a gala event, to give the Drillers a good start on their pennant-ward hike. Mayor Bell is to pitch the first ball.

MRS. FANNIE FLANNERY ACQUITTED OF MURDER.

By Associated Press. Denton, Texas, April 11.—Mrs. Fannie Flannery was found not guilty here today of murdering her husband John R. Flannery in 1909. She shot Flannery just as he stepped from a street car. The jury retired at 11:40 last night and was practically unanimous for acquittal on the first ballot, but the verdict was delayed on account of the illness of one of the jurors.

SKIFFS FORM FUNERAL CORTEGE OR MINISTER

Columbus, Ky., April 11.—A funeral procession of skiffs passed through the streets of this town yesterday behind a boat bearing the body of Rev. G. R. Flowers. The home of Rev. Mr. Flowers, who died yesterday morning, is in the section of the city still under several feet of water as the result of the recent flood, and the body was lowered from the second story into a boat. The procession then moved to the home of a friend of the deceased in the higher section of town where the funeral services were held.

PLANS COMPLETED FOR MILITARY MASS AT TEXAS.

By Associated Press. Galveston, Texas, April 11.—Plans were completed today for a military mass in the open air at Texas City, April 27 which will be attended by at least 1200 soldiers and many civilians and Catholic organizations. The Rt. Rev. Vicar-General at Galveston will officiate. Instead of a bell to be tolled, the guns of the Fourth Artillery will be used in the service.

Copies of Ohio newspapers, printed under difficulties on account of the flood, have been received here. A Portsmouth paper, whose plant was almost drowned out, comes out on a single sheet of green wrapping paper, but carries excellent accounts of rescue work, flood damage and the general news of the day. Newspapers were among the chief sufferers of the business concerns, but very few of them, it is said, failed to get out issues every day, even when the flood was at its worst.

MEXICANS KILL 2 U. S. SAILORS

ADMIRAL COWLES INVESTIGATING ATTACK ON AMERICANS AT MAZLATAN

OTHER RECENT ATTACKS

Recent Displays of Anti-American Feeling Have An Ugly Look

By Associated Press. Guaymas, April 11.—Two sailors from the American gunboat, California were killed and three others wounded in a street fight Wednesday at Mazatlan. Two or three Mexican policemen were wounded in attempting to arrest them. Admiral Cowles is investigating the affair.

Anti-American Feeling Shown.

By Associated Press. Mazatlan, April 11.—The seaman killed at Mazatlan Wednesday were William Corrie and John Keslow, the latter first class master-at arms. Admiral Cowles says both have excellent records in the navy and are not likely to have been the aggressors in a street fight.

Recent displays of anti-American feeling of a serious nature have been reported at some of the Mexican Pacific ports. A few weeks ago officers were assaulted while ashore at Mazatlan and on another occasion the cruiser Denver was preparing to leave that port when the anti-American feeling became so strong that her orders were countermanded.

TO STANDARDIZE COTTON BALES

TEXAS AND SOUTHWESTERN SHIPPERS HOLDING CONFERENCE AT DALLAS TODAY

CARRIERS DEMAND IT

Underwriters Have Grown Tired of Losses Through Neglect in Packing and Wrapping

By Associated Press. Dallas, Texas, April 11.—Cotton shippers and others engaged in the transportation of cotton from all parts of Texas and some other southwestern points are holding a conference here today to devise a plan for standardizing the cotton bale.

On July 1 it will be required of shippers to give an exact description of the condition of cotton when delivered by them to the steamship lines. This may mean that the railroads may no longer give through bills of lading.

M. J. Sanders, president of the South Atlantic Steamship Company, explained why the July 1 regulation was adopted. He said:

"For half a century the American cotton bale has been a reproach to our industry. The greatest crop of the South and Southwest has been treated as so much dirt under our feet. Hundreds of thousands of dollars have been lost through neglect. Until recently it was packed and badly wrapped bale of the American product has been accepted by steamship companies just as they were and a bill of lading issued for them describing them in apparently good condition."

"The English underwriters have been losing hundreds of thousands of dollars yearly by our system and have grown tired of this draft. Therefore they inserted a joker in their insurance contracts. This joker allowed the return of the premium in proportion to the minimum amount of claims presented. In consequence the shippers have turned on us with their claims and we have no recourse but to demand better bills of lading and an inspection of the cotton to see if it conforms with the shipping contract, and this action we took last year. However, it brought little relief as the bills of lading clauses were too general and the work of inspecting the enormous amount of cotton passing through the important ports too great. We saw it must be somewhere remedied and our conference brought the action on which you are met today."

The Texas Compressor's Association at their meeting today were presented with the demands of the steamship companies but declared they could take no action until the railroads had passed upon the matter. The first speaker for the shippers was M. H. Wolfe. He declared the shippers were already between the devil and the deep blue sea and that they must hear from the railroads before they could take any action.

TO NEGOTIATE CITY HALL TRADE

Council Will Take Up Proposition for Exchange of City Hall For New Site

The city council will negotiate with N. Henderson for a deal whereby Mr. Henderson may buy the present city hall property giving a site 100x150 feet at the corner of Seventh and Scott streets as part payment. Councilman Young said Mr. Henderson had expressed a willingness to consider such a deal and it was agreed that negotiations should be opened with him to see what sort of a proposition might be made.

The site in question is one of the most favorably located for the new city hall of any of those that have been under consideration.

A PLAYGROUND IS PURCHASED

SCHOOL BOARD BUYS HALF A BLOCK AT GRACE AND TWELFTH STREET

IS NEAR HIGH SCHOOL

The Purchase Price Was \$10,000—Grounds Will be Used for School Athletics

Half a block of ground at Grace and Twelfth streets was purchased by the school board last night for a high school playground, the consideration being \$10,000. The school board has been figuring on this tract for some time, the need of play room for high school pupils having been felt, and last night the deal was practically closed. E. C. Gamble of Groveland, New York, was the owner, the trade being through J. L. Jackson of this city.

This tract is but a block from the high school grounds, convenient to the students at recess and after school hours and is considered the best tract available. The price is not considered unreasonable, based on adjacent property valuations.

The board will enclose the lots with an iron fence and make the necessary improvements. In making this purchase the trustees have profited by the experience of Dallas and other large cities in Texas, which have had to pay enormous prices for playground space that could have been purchased a few years ago at a comparatively low price.

DIRTY TOWEL WINS PENNSYLVANIA FIGHT

Harrisburg, Pa., April 11.—The "clean towel bill," which was designed to require a clean towel for every person in a public washroom, was defeated in the lower house of the Pennsylvania legislature yesterday, receiving eighty-three votes, or twenty-one short of the constitutional majority.

The bill carried a penalty of \$1 for the first violation of its provisions and \$5 for each subsequent violation.

OIL FIELD WORKER FOUND DEAD IN BED

Hemorrhage of Lungs Believed Cause of Death of W. L. Coakley

W. L. Coakley, aged about 35, a tool dresser, was found dead in a room at the Marion Hotel late yesterday. Justice W. J. Howard held an inquest and decided death was due to hemorrhage of the lungs. Doctors Wade Walker, Everett Jones and L. Coons made the examination. In the room was found an ounce bottle of carbolic acid, unopened; the man had seemed in good health earlier in the day. A telegram from San Bernardino, California, reading "Everything all right, come on," and signed "Dolly" was found in the room and in a coat pocket was an affectionate letter bearing the same signature. Coakley had worked on oil rigs in the Iowa Park vicinity.

The body is being held at the E. G. Hill undertaking parlors, pending efforts to locate relatives.

WILSON "SHOWS HAND" ON MARYLAND SCRAP

Washington, April 11.—President Wilson told Representative König of Maryland today he would appoint Sherlock Swan postmaster at Baltimore. Mr. König presented the name of Colonel Rawlins, who also had the support of Senator John W. Smith. This was interpreted as an indication of recognition of the Marbury faction in the Maryland senatorial fight by the President.

75 PER CENT MUST AGREE TO PAVE

COUNCIL WILL CONSIDER PETITIONS FOR PAVING AS LONG AS THE MONEY LASTS

CONDITIONS ARE OUTLINED

Council Tells Tenth Street Delegation it Will be Governed Largely by Wishes of Majority

Consideration by the City Council will be given petitions for the paving of any street where seventy-five per cent of the property owners will sign an agreement to pave. This was told a delegation of Tenth street property owners who appeared at the meeting of the city solons last night and with it went an intimation that those who came first would probably have the best chance of getting paving as the city could do its part of the work only so long as the money held out.

The alley will pave only the street and alley intersections. It will be governed largely in the choice of paving material by the recommendation of a majority of the property owners on the street to be paved.

The delegation of Tenth street residents before the council last night included Wiley Blair, Dr. Guesz, Dr. Boger, H. B. Patterson, C. W. Salder and P. H. Pennington.

Mr. Blair said that the purpose of the visit was to learn what was expected of the property owners in order to get Tenth street paved. He said that some had proposed the parking of the street in the center to add to its beauty and probably reduce the cost of the paving. This and the kind of paving were matters that might be decided later, he said, but the proposition was "We want to get Tenth street paved and want to know what kind of a proposition the city will accept or consider."

Others discussed the matter and at the conclusion Mayor Bell speaking for the council outlined the city's position as stated above.

Those who have been taking a lead in the matter will circulate a new petition in which it will be set forth that the paving shall not cost more than a certain maximum per square yard and stating that the council will be governed largely in the kind of material to be used by the wishes of a majority of the property owners. This proposition will be open to property owners on any street in the city, council promising to "consider" the paving of any street when the conditions are met.

It was learned this morning that property owners of some other street are anxious for paving on the same terms, although no petitions had been placed in circulation.

CHRISTIAN CHURCH SITE BRINGS \$6000

Frank Collier and C. W. Hendricks Purchasers of Lot at Corner of Lamar and Ninth Street

The Christian Church corner at Lamar and Ninth street has been sold to Frank Collier and C. W. Hendricks for a consideration of \$6,000. The lot is 50x150 feet. The church will have the use of the building for a period of about four months.

KESSLER COMING HERE ABOUT MAY FIFTEENTH

Noted Landscape Artist and Engineer Coming to Consult Regarding City Plan

George E. Kessler of St. Louis, the landscape artist and civic development engineer, will visit Wichita Falls about May 15, according to advices received here today by City Secretary McCarty and Acting Secretary Thomas of the Chamber of Commerce.

Mr. Kessler has been invited several times by the Civic League and other local organizations, but felt that Wichita Falls was so much smaller than the places he usually makes plans for that he could not come here. Not long ago, however, he met Myles O'Reilly of this city in Dallas and after a conversation with that loyal, enthusiastic gentleman, he had a different idea about Wichita Falls.

His work here will be in connection with the "city plan" which it is felt Wichita Falls has come to need. The exact date of his visit will be made known later.

CONTRACT FOR LIGHTS SIGNED

150 FORTY CANDLE POWER AND 25 FOUR-AMPERE MAGNETIC LAMPS PROVIDED

CONTRACT FOR TEN YEARS

Wichita Falls Electric Company to Install and Maintain Lights at Annual Cost of \$3600

Mayor Bell Thursday night attached his signature to a contract with the Wichita Falls Electric Company settling the street lighting question which has been occupying the attention of council for several months.

The contract runs for a period of ten years and provides that the light company shall install and maintain 150 forty candle power Mazda lamps and 25 four ampere series Magnett luminous arc lamps at a cost of \$3600 per annum, payable in \$30 monthly installments.

These lamps are to burn from nightfall until daylight every day in the year. The arc lamps are to be located between the railroad and Lamar avenue and the forty candle power lamps in the residence district. They are to be located under the direction of the city council. Additional lamps will be installed at the rate of \$12 per annum for the forty candle power lamps, and \$72 per annum for the arc lamps.

The forty candle power lamps are to be suspended from the company's poles by a goose neck device at a height of from fifteen to eighteen feet above the ground. The arc lamp are to be suspended at a distance of twenty feet above the crown of the street.

Installation of the lights is to start at once.

W. B. Head, manager of the company, was here from Dallas for the meeting of council last night bringing with him a contract embodying the points agreed upon at the meeting of council last week. The contract was read and unanimously approved and the mayor authorized to attach his signature as the representative of the city.

OLD AGE DEFERRED

Echo From the Medico-Legal Society. A few generations back a man a 50 was considered old, gray bearded and waiting for death. Note the change today; at a meeting of the Medico-Legal Society it was stated that a man of 50 ought to have forty good years ahead of him and that at ninety be in the fullness of manhood.

What if you have seen sixty, or even seventy birthdays—temperament, habits, fresh air and exercise, with a simple diet, and a sufficient amount of sleep will guard your health.

If perchance, your circulation is poor, if you become run down—weak and no appetite—nothing in the world will tone up those tired back-sliding organs—enrich the blood and create strength so quickly as our delicious cod liver and iron-tonic Vinol.

We ask every feeble, discouraged old person in this vicinity to try Vinol on our agreement to return their money if it fails to give satisfaction. (Advertisement)

GLOVE FACTORY COMING HERE

PLANT NOW OPERATING AT DALHART WILL MOVE TO THIS CITY

TO WIDEN OPERATIONS

Owners Expect Eventually to Make Overalls, Jumpers and Other Articles

Another industry for Wichita Falls has just been made certain by the definite announcement of Hilburn Brothers, now operating at Dalhart, that they will establish a cotton glove factory in this city. The plant's contingent upon a certain amount of stock being placed here and the necessary assurance that this will be done has been given them.

Hilburn Brothers now have a plant at Dalhart, and their factory here will be a new one. They also expect to have a plant at El Paso. They started at Dalhart only a few years ago, but have built up an excellent business. They expect eventually to manufacture not only cotton gloves, but overalls, jumpers and other similar articles here. One of the members of the firm is now buying machinery for the plant here. It will employ from twenty to thirty hands, mostly women.

Two other Texas cities, both large, according to the 1910 census, than Wichita Falls, were trying to get this plant and when Mr. Hilburn appeared before the Chamber of Commerce directors, he mentioned this fact, saying that one of the towns had offered a bonus. The directors told him that the towns mentioned were "not in Wichita Falls' class" and asked him to settle the other propositions first. After a conference with a committee of the directors, Mr. Hilburn announced he was ready to close the deal to come here.

Cotton gloves are a very staple article and as there are very few such factories in the South, the new factory here is expected to build up a large business. Hilburn Brothers expect to add to their plant continually after they get it going.

HOME ATTEMPTS TO SOLVE RURAL CREDIT SYSTEM

Philadelphia, Pa., April 11.—According to data compiled by the Country Gentleman, the oldest agricultural journal in the world, there have been only three States which have tried and abandoned systems of State loans on farm property. They are New York, Jersey and Wisconsin. Wisconsin's failure was largely due to fraud and mismanagement, badly drafted laws caused the failure of the New York system and New Jersey officials claim that the mortgages accepted failed to prove satisfactory investments.

A large number of other States have been making loans of State funds to farmers for several years and the results have, as a rule, been very satisfactory. Idaho has been plying its educational funds on farm mortgages for twenty-two years and during this time only 6 foreclosures have been made and not a cent has been lost by the State. The interest charged is six and seven per cent whereas private money lenders charge eight to ten per cent. The latest report shows the total outstanding farm loans to be \$1,500,000.

Iowa adopted a constitutional provision in 1857 enabling the state to loan educational and school funds to farmers, and June 30, 1910, \$4,495,731.19 was outstanding on mortgage security of all kinds. The interest rate varies from five to six per cent. The loans are made by county officers. Very little money has been lost in foreclosures. North Dakota in June 1, 1912 held 1069 farm mortgages as security for loans aggregating \$1,646,462.85. In 1907 the rate of interest was reduced from six to five per cent. The loans run not to exceed twenty years and after the fifth year the borrower can pay installments of principal in addition to interest. There has been just one foreclosure and the state has never lost a cent. When North Dakota's school lands are all sold, \$6,000,000 to \$7,000,000 will be available for farm loans.

Oklahoma carries more than \$4,000,000 worth of farm mortgages; Oregon on October 1, 1910, had loaned \$5,078,144.95 in the same way; South Dakota, on September 30, 1912 had loaned \$6,216,495.61, and Utah had outstanding \$1,088,174.47.

CIPHER CLUB GIVES ITS OPENING DANCE AT LAKE

January weather did not prevent a large number of young people from attending the Cipher Club's opening dance at the lake pavilion Thursday night, nor did it in the least detract from the thoroughly good time that everyone had. The discomfort occasioned by the cool air was very promptly forgotten when the music started and the occasion was one of the most delightful in many days. The Katz orchestra dispensed the music for the program of eighteen dances and couples whirled the hours away until midnight was near, when a special car brought them home. It succeeding Cipher Club dances are all as pleasant and enjoyable as the former, some good times are in sight for the members and their friends. Those present included Misses Vivian Mathis, Gertrude Orth, Mary Orth, Grace Nolen, Shelton of Electra, Lillian Avis, Lillian Denny, Kathryn Wilson, Kathryn Hindman, Agnes Reid, Jewel Kemp, Lemmie Peery, Carrie Kell, Lillian McGregor, Rogers, Eddie Carver, Devoe of Minnesota, Grace Morse, Fatheree, Messrs. MRS. J. W. DUVAL HOSTESS AT TWO DELIGHTFUL AFFAIRS

Two delightful entertainments of the week were the forty-two and five hundred party on Wednesday and the bridge party on Thursday afternoon at the home of Mrs. J. W. DuVal. Both were congenial and vivacious gatherings and Mrs. DuVal was a charming hostess.

Pansies and violets, prettily arranged, were the decorations for both affairs and a salad and ice course was served at both.

Wednesday afternoon there were three tables of forty-two players and five tables of five hundred devotees. The favor of the afternoon, a pretty jardener with a blooming plant went to Mrs. Adams.

Those at the forty-two tables were: Mesdames Langford, Strange, H. B. Patterson, Freear, Little, Adams, G. D. Anderson, Mack Thomas, G. H. Carpenter Culbertson, A. B. Huff, E. Howard and Mrs. H. A. Fairchild, while those at the five hundred tables were: Mesdames Darnell, Dent, Daniels, Webb, Mytinger, T. R. Boone, Daniels, A. D. Anderson, Inge Merrill Mark Moore, Carrigan, Art. Newton Maer Mrs. Kahn and Slater, Mrs. Carb of Fort Worth, Bolding, Misses Reisenberg of Sherman, Dola and Icie White.

The bridge favor Thursday afternoon, a handpainted bowl, went to Mrs. Gray. There were eight tables of player at this engrossing game, the guests including: Mesdames Bacon, Engene Sherrod, T. T. Reese, McGregor, R. L. Miller, Fant of Weatherford, Montgomery, C. W. Snider, Everett Jones, Short, R. G. Smith, Sheppard, Zundelwitz, Walsh, Loeb, Griffin, C. C. Huff, Oliver of West Virginia, E. P. Greenwood, E. L. Smith, Oberstein, Wiley Blair, Gray, White, Duke, George Harrington Boulevard, May and the Misses Dent, Chamberlain, Cora and Dora Coons.

Mrs. W. E. Ogston of Springfield, Mo., is the guest of Miss Ethel Chamberlain.

Mrs. J. W. Murph was hostess at a very pleasant session of the Thursday Sewing Club yesterday afternoon.

Class No. 7 of the First M. E. Sunday school will have a market of cakes, doughnuts and bread Saturday afternoon, April 12th at Miller's Drug Store. 86 1tc

HIS TROUBLE NOT OF HEART

Real Facts in Regard to F. R. Huffman's Illness. Relief Obtained By Curing His Stomach Ailments.

Waynesville, N. C.—Mr. F. R. Huffman, of this city, says: "I suffered dreadfully with what I thought was heart trouble, and tried various medicines in vain. After other remedies had failed, Bedford's Black-Draught restored me to health. I would not feel safe without Black-Draught in the house. I consider it worth its weight in gold.

It cured my indigestion, and by this means I was restored to health. I can not express my gratitude for its benefits."

Good health depends on the condition of your digestion. Poor digestion and good health do not go together.

Bedford's Black-Draught will thoroughly cleanse and set in order your digestive system.

It has done this for others, during the past 70 years, and is today the most popular vegetable liver remedy on the market. Try it.

A JEAN VAL JEAN IN SHERMAN COURT

Jury is Lenient With Man Tried After Living Reformed Life 14 Years

Sherman, Texas, April 11.—In the Fifty-ninth district court, Oscar Derrick pleaded guilty to the charge of burglary and was given two years in the State penitentiary and the jury recommended that the sentence be suspended, which was done by Judge W. J. Mathis.

No case has been called in the Grayson county court house recently which elicited more interest than this one. Derrick was arrested in Pine Bluff, Ark., a few days ago by Sheriff Lee Simmons on an indictment returned against him fourteen years ago. In this indictment it is alleged that on the night of August 8, 1899 he entered the store of Dollarhide & Harris in Denison and burglarized it of a quantity of goods.

The history of the case shows that at that time Derrick was only 18 years of age. He was arrested immediately after the crime and confessed, but told the officers making the arrest, where the goods were, which they recovered.

Derrick was placed in the Grayson county jail, and a few days later smallpox broke out in the jail and all of the prisoners were taken to a detention camp at the county farm. Here every prisoner escaped. Derrick being among them. Later two men whom Derrick had implicated in the burglary and robbery in his confessions, were arrested. One of them escaped and the other one was sent to the penitentiary on a plea of guilty. It was said that these men, one of them 28 years of age and the other 30 years old, led Derrick into the job, which was the first time he had ever been in trouble.

When Sheriff Simmons went to Pine Bluff last week after him, he found that Derrick had lived there ten years, and had an excellent reputation as a hard working, law abiding responsible citizen. He was married and has three children; one 7 years old and one 2 1/2 years old and the other 3 weeks old. As soon as the people found out that he was in trouble they got up a petition, signed by every county and State official, and by many citizens, asking that clemency be shown him.

Yesterday when the case was called and Derrick pleaded guilty, County Attorney Ben F. Gafford, in addressing the jury, plead for the young man instead of against him. He called attention to the fact that the last Legislature had passed a law enabling the court and juries to use their discretion, and that the law was for the purpose of helping to reform men, and that it seemed to him was made for just such a case as this; that the defendant had already reformed, and that while under the law the jury would be bound to find him guilty and assess his punishment at confinement in the State penitentiary, the jury could also recommend clemency and the county attorney asked that this be done.

The jury was out only a few moments and did as the county attorney had suggested.

In passing sentence on the defendant, Judge W. J. Mathis commended him for having reformed, and told him that he would suspend the sentence during good behavior and that the court wanted him to go back to that little wife and babies in Pine Bluff and make her a good husband in the future as he has in the past, and be a real father to those kiddies.

The court also took occasion to say that if the Legislature had passed no other law than the suspended sentence law, it was worth the

The bill protecting the waste of natural gas has been signed by Governor Colquitt, and as it carried with it an emergency clause, it is now the law.—Wichita Times.

And then the legislature adjourned.—Houston Post.

That's very unkind. The bill signed by the governor had no reference to the amount of natural gas being wasted by the legislators.

The regular monthly pay-roll for all wage-earners in Wichita Falls is more than \$200,000 and this will be increased before another year to double that amount. There are cities of from 40,000 to 50,000 population whose monthly pay-rolls to wage-earners is not equal to that of Wichita Falls today. That is why The Times has no hesitancy whatever in saying that money invested in Wichita Falls real estate will double in value in less than five years. It has done better than double its value during the past five years, and prospects for the future prosperity growth and development of the city were never before so flattering as at this time. The Times is not over-enthusiastic in its boasting of Wichita Falls. It is a rather conservative and would rather see that way than over optimistic. It is the best and surest way in which to build cities safely and on sound foundations. No one who has ever invested money in Wichita Falls real estate and held it through both the good and bad years has ever failed to make good on the investment.

THE NEW ADMINISTRATION

(Harper's Weekly.)

"Avoid entangling alliances!"

This was the first and chiefest admonition bequeathed by George Washington to his countrymen. Despite the inevitable changes wrought by mighty national expansion, it has lost not part of its force or its wisdom. Steam and electricity have worked wonders in drawing countries closer to one another, but the United States still remains and must necessarily continue to be an isolated nation. Becoming a "world power" has not altered and cannot alter the situation created by nature. Hence the immunity from international strife which affords our chief advantage and constitutes our greatest blessing. That by our own voluntary action we should initiate forfeiture of this priceless heritage seems incredible; and yet that is precisely what has been going on under the Knox "diplomacy," that is precisely what President Wilson has declared must stop.

"The government of the United States is not only willing, but earnestly desirous," the president says, plainly, "of aiding the great Chinese people in every way that is consistent with their untrammelled development and its own immemorial principles. The awakening of the people of China to a consciousness of their possibilities under free government is the most significant, if not the most momentous, event of our generation. With this movement and aspiration the American people are in profound sympathy. They certainly wish to participate, and participate very generously, in opening to the Chinese and to the use of the world the almost untouched and perhaps unrivaled resources of China."

But the government of the United States will not become a party to enforced imposition of a loan or of anything else upon a helpless people. Nor will it persist in a mistaken undertaking which not only involves entangling alliances, but also implies a readiness to turn its guns, if need or pretext should arise, upon those struggling to achieve self-government.

THE LIMIT

Hurrah for Postmaster Albert Burson! Let him insist upon that civil service examination as to insure only qualified, capable men getting into office—but not otherwise. And, let it be known, we put these petitions on notice right now. A strict account will be kept of their attempts to ride over efficient service and foist upon the public unqualified, inefficient men to administer such important offices as those of postoffices, and the public will be shown all correspondence and the evasion and trickery revealed therein when those office seekers again offer for election. Such men are unfit for any office, especially congressmen, when they do such outrageous things as the above. Give us qualified, intelligent, capable post-

masters—men who have business ability and experience and character.—Arlington Journal.

The Wilson administration, even the Wilson regime before administration, will "grow into a precedent," obliterating as it has in one short month so much of nation-long precedent that was held almost sacred at and by Washington. Tradition, custom, have been elbowed overboard from the ship of state. The president swoops on the inaugural ball, and it is no more. He announces "open office" at the White House—which to be sure hasn't quite materialized. He will go to the capitol to discuss affairs with the statesmen. He delivers his own message to the house. He turns over office seekers to the heads of departments. He prefers newspaper men for his most important appointments. He takes liquor in the national residence. He seeks secluded churches wherein to worship. He lets the vice president say something occasionally. He renders the social end of his position wholly subservient and announces he will make no public speeches for a year. He says he cannot be neighbor to the whole United States. But all these floods of innovation are as a mere ripple compared with the postmaster general's declaration that the lower class of postmasters must qualify by civil service for their jobs and all postmasters must work at least eight hours a day. A single day the official habitat of years thus is returned. Chaos! Destruction! Despair.—Waco Morning News.

UNCLE SAM'S PRINT SHOP

Distribution of Government Documents Now Centralized in Office of Superintendent of Documents.

Uncle Samuel may not go in for the sworn circulation stars in the newspaper directories, but he is something of a publisher himself, nevertheless. Just how extensive a publisher he is, however, not even he realized until under the new law all mailing and distribution of public documents was taken from the hundred or so departments, bureaus, commissions, services and offices and concentrated in the office of the superintendent of documents, which is a bureau of the government printing office.

August Donath, the superintendent, on whom all this new work has fallen, is willing and anxious to testify, after three weeks' experience in distributing all the government printing office publications, that Uncle Sam is the greatest publisher on earth. There seems to be some basis for Mr. Donath's contention. The new centralized mailing office is now sending out something like 1,000,000 copies of publications per week. It is true that certain, indeed numerous, private publishing houses in this country sell and exceed this number of copies per week. But it is in the diversity of the million documents going out each week to subscribers that Uncle Sam stands at the head of the art preserve. If he had only one or two or three publications making up this circulation, how quickly Mr. Donath's present problems would smooth themselves out! But this million is made up of somewhat over a thousand publications, which issue from the presses daily, weekly, monthly, annually or at uncertain intervals.

Over a thousand separate mailing lists must be kept in the floor for the purpose. There are acres of bins and shelves containing the back number files, on which there is a steady demand. The entire government in all its branches is blocked out in this huge stockroom, as if on a relief map—divisions of the room for departments, sections for bureaus, stacks for divisions and the pins or pigeonholes, filled with their hundred or two hundred copies of single publications. And a force of employees which on some days numbers as many as 150, but is always between 90 and 100, assisted by a battery of mechanical addressing machines, envelope licking devices and the like, doing nothing but sending out these publications to a more or less eager public. This is part of the activity created by the new law.

Uncle Sam, from his fifteen-million-dollar printing office, which is the best equipped printing office in the world, issues with other things three daily newspapers, five weeklies and half a dozen monthlies, as well as a monthly illustrated magazine, which is a model of beautiful typographical work and which can be bought on many newsstands not only in this country, but throughout the world, especially in Central and South America, for 20 cents a copy. This latter is the Bulletin of the Pan-American Union. The combined circulation of these publications is about 465,000.

The Blue Serge
I am offering at \$18.00
This week is worthy of attention of any man who wants value in clothes. It's really worth \$25.00, and not another tailor in Texas would think of selling it for less than \$22.50. I am selling it this week for \$18.00, because I want to get you started in my new place, and because I had an opportunity of buying two big bolts of the cloth at a very low price. Into these \$18.00 suits, as an extra value, I am putting a first class mohair wool lining, just the same as I use in \$35.00 and \$40.00 suits without extra charge. I am guaranteeing them to fit, wear and look right.

Notice to Property Owners
We desire to say to the property owners that we have called upon each and every property holder in the county and city at least once, for the purpose of securing their renditions, and while neither of us are inclined to be grouchy or lazy it will be next to impossible for us to make the rounds again to perform our work in the time prescribed by law, and from this time until April 15th each of us will be in our respective offices and will expect all those who have not rendered their property for taxation to call and do so at once, as we expect to close our books by April 15th and all property that has not been rendered by the owners or agents will have to go down on the unknown or un-rendered roll. It will be much better for the owners or agents to heed this notice. By doing so, they will in all probability, escape a higher rendition, and at the same time confer a great favor on us.
Respectfully,
HARRY ROBERTSON,
City Tax Assessor.
JOHN ROBERTSON,
County Tax Assessor.

Extraordinary Spring Dress Offer
All spring tailored serge dresses we offer at 1-3 to 1-2 off. These dresses are all pretty and up to class styles. If you are contemplating taking a vacation later on and going to a cooler climate you will need these dresses. It will be better for you to buy now than wait later until they are all picked over, then be hard to please, the prices we offer them. It will certainly pay you to look them over even if you do not buy.
\$18.00 dresses \$12 50
\$12.50 dresses \$8 45

**NEW CITY JAIL HAS
BECOME NECESSITY**

It Would be Inhumane to House Prisoners in Present Quarters During Hot Weather

The erection of a new city jail is a problem which the city council must solve within the next few months before the hot summer months come. The present low ceilinged room, ventilated with small windows from which any possible breeze is cut off by surrounding buildings but upon which the hot rays of the afternoon sun fall and heat to the temperature of an oven cannot much longer be used to house the unfortunates who become the city's prisoners.

The plan now under consideration is the erection of a jail at the corner of Fifth and Holliday streets entirely removed from the city hall. Its erection is a matter of finances.

At last night's meeting Mayor Bell appointed a committee comprised of Councilman Bradley, Young and Richolt to investigate the probable cost, etc., of an adequate structure and make a report to the council.

The only reliable way of carpet cleaning is the Higdy Man's way. Try it.

**GROWTH IN LIVING
COST SINCE CIVIL WAR**

Comparison of Prices, Possible Through Copy of Iowa Paper of 1862

Muskogee, (Okla.) Journal.

The high cost of living or the cost of high living, as someone has facetiously called the skyward trend of values, has reached a phenomenal limit in the last fifty years. A comparison of prices during the Civil War, when values reached great proportions, and present day prices in Muskogee shows a remarkable difference. Such a comparison is possible through a copy of the Daily Nonpareil, a daily newspaper published at Council Bluffs, Iowa, in 1862, owned by Fire Chief John L. Templeton.

Wheat, one of the most important of grains, sold for 35 and 40 cents a bushel then as compared with the \$1.20 a bushel grade now. Corn, now worth 65 and 70 cents a bushel, sold for 15 and 20 cents. Comparing these “grains” that are fundamentals for food products, with meats and the advance in prices is more pronounced. Pork, now worth 20 cents a pound, was worth one-tenth of that amount in 1862. Beef, now worth from 10 to 30 cents a pound, brought

2 1/2 and 3-cents a pound then. Hams sold for 8 and 10 cents a pound now compared with 30 cents a pound now and side meat, then worth 10 cents a pound, is sold for 22 cents in Muskogee markets.

In butter, a great difference in price is apparent. Butter now sells for 40 cents a pound and the country butter on the market at that time brought 15 cents a pound. Lard sold for 5 and 5 1/2 cents a pound and it brings 17 1/2 cents today. Cheese sold for 8 and 10 cents and sells for 25 and 30 cents a pound now.

Sorghum molasses is the only eatable that has not changed in value during the fifty years. During the war molasses was worth 65 and 70 cents a gallon and it has the same value now. Corn syrup, however, sells for 10 cents a quart now and sold for \$1.00 and \$1.10 a gallon then. Sugar sells for about 5 cents a pound now and sold for twice that amount then. Coffee now worth 30, 35 and 40 cents a pound was put on the market for 20 and 25 cents at that time.

Potatoes are worth about the same as fifty years ago. In 1862, they sold for 20 cents a peck and they may be bought now for 25 cents. Dried apples at that time brought \$1.50 and \$2 a bushel and sell for 13 cents a pound or two pounds for 25 cents now.

Good whiskey sold during the war for 20 cents a gallon. It is not possible to make a comparison of prices on this commodity in Eastern Okla.

homa. It is said that the “bootleg” variety sells for \$3 a quart, however.

For the feeding of live stock, the price of feed shows a remarkable difference relatively. Shorts, now worth \$1.25 a bushel, sold for 50 cents a bushel. Oats sold for 50 cents a bushel then and sell for 45 cents a bushel now. Prairie hay was worth \$3 a ton then and has tripled in value since that time.

The cost of lumber and building supplies is less now than during the war, strange to say. Pine flooring worth \$40 a 1,000 then, may be purchased for \$31 now. Clear yellow pine lumber sold for \$45 a 1,000 feet, and sells for \$35 at Muskogee yards. Clear siding pine brought \$25 a 1,000 feet and brings a dollar more than that amount now. Shingles were worth \$3.75 and \$4 a 1,000, and do not sell but for \$3.25 in this city. Lathes were \$5.50 a 1,000, and may be purchased in Muskogee for \$3.75.

The same comparison holds for paints and oils. Turpentine, now \$1 a gallon, was \$2. Linseed oil was \$1.10 a gallon and is 70 and 75 cents now. Varnishes sold for \$3.50 a gallon and may be bought for half that price now, excepting the expensive brands. White lead is an exception to the rule in paints, costing now \$5 a 100 pounds as compared with \$2 and \$2.10 a hundred pounds then. Putty, worth 8 cents a pound, is worth 4 cents now. Whiting now sells for 3 cents a pound and sold for 8 cents

a pound during the civil war period.

The Daily Nonpareil was a four page, four column newspaper that sold for 25 cents a week or 75 cents a month. The editor was William W. Maynard of Council Bluffs, Iowa. The front page of the publication contains the market quotations, a column or two of standing advertising cards, and some free advertising of a political nature. Page two was devoted to editorial comment, Ayer's Agree Pure, and column ad for the Nonpareil office. Page three contained two columns of several days old telegraphic news of the war, and a column or two of standing advertising and page four was all advertising excepting five or six inches of supposedly witty paragraphs, most of which contained puns of a nauseating nature.

Texas Baptist Laymen's Convention Those who attended the Baptist Laymen's convention at Dallas, from Wichita Falls have returned and report that it was an epoch making convention. There were laymen present from all over the State and the interest they manifested in the discussions will be felt in all lines of the work of the denomination. There were more than a thousand men in attendance at several of the day sessions. Many prominent laymen from different parts of the State took in the program. Some of the themes discussed were as follows: "Stewardship," "Business in Religion," "Making Business Sacred," "Proportionate Giving," "Christian Citizenship." Mr. J. Howard Ardrey, cashier of the City National Bank of Dallas made one of the greatest speeches of the convention on "Proportionate Giving." Many other prominent laymen testified as to the blessings that have been received in honestly practicing stewardship as taught in the Word of God.

Correct—Attest:

In Memory of Baby Eugene Ricks Sleep took upon its arm An infant's lovely form; Imprinted kiss on rosy lips, A kiss as sweet as morn.

Tired eyes were gently curtained, Little hands folded sweet And away to happy dreamland Sped the tiny baby feet.

Kneeling by the little cradle With wealth of love untold Was the mother softly praying To the shepherd of the fold.

Death glided after sleep, And took upon its arm The same infant sleep caresses The same fair baby form.

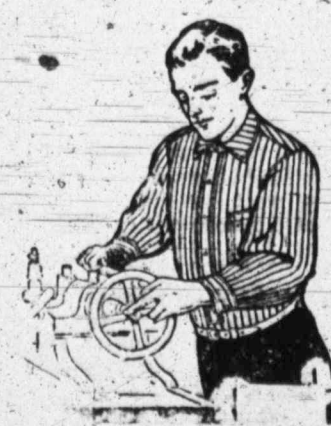

Imprinted kiss on rosy lips As chilling as the snow, Folded hands, so mute, so still And laid the sweet form low.

Strange, so strange, to that mother, This answer to her prayer, She had craved a blessing, For her little one so fair.

And is death a blessing? Baby lips can not tell, But the gentle Shepherd answers, All is well, all is well.

Yes, 'tis well, ye lonely mothers, Little ones you miss today Are safe within the mansions, Where no tiny feet can stray. —A FRIEND.

This is the Type of Homes You Have Been Looking For

A FIVE-ROOM MODERN BRICK HOME PLASTERED THROUGHOUT AND LOCATED IN A CHOICE SECTION OF FLORAL HEIGHTS

This house must be seen to be appreciated. Its arrangement, finish and completeness makes it an ideal home. The material used in its construction is of the best grade. Being plastered throughout it assures one of a sanitary home, one that is warm in winter and economical to heat, and on the other hand is cool in summer. Has hot and cold water to every fixture, bath, lavatory, commode, and natural gas in every room. A brick house costs less to maintain in insurance, painting and deterioration and it gives the greatest amount of home comfort. Located on 9th street 1-2 block west of bend in car line. On continuous sidewalk and adjoining restricted district. Also on the only 100 foot street in the city. Look over the property before you pass judgment on the price. Then you will concede it is the cheapest property in Wichita Falls.

CLEOPATRA

is said to have been about the swiftest damsel who ever worried the milliners of her city. She wore large rings in her ears and had a complexion like a new saddle. She never met a hobble skirt and if she should sweep down Eighth street this afternoon she would be looked upon as what the Ladies Home Journal would call a lumpy dresser. Our old friend Cleo was rather shy on happy raiment but gold and silver, well she had some because she took money off of every farmer in the Nile Valley whether he belonged to the union or not and in the matter of real shiners seventeen of the best pawn shops in the business could not have covered her sparklers with a twenty per cent margin if they had rediscouted every ticket in the house and soaked everything they had but their shoes. She spent more money for beads than Mary Garden spends for clothes, but there was one thing that Cleo could not buy because the ALTA VISTA PURE ICE CREAM man had not yet happened. Don't forget when you are regarding yourself with good old ALTA VISTA PURE ICE CREAM that Cleopatra, Queen of Egypt, who had gold and diamonds enough to load a two-ton truck, could not buy a dime's worth of it.

DIAMONDS

Without fear of successful contradiction we lay claim to having the best of the DIAMOND TRADE of Wichita Falls. The reason is because we have always sold them at the lowest prices, and with an absolute guarantee of purity. We know a diamond when we see one, and place its value correctly. Then we sell it on a close margin and our customers gets the benefit. At present, we have a very large selection of beautiful gems, bought before the recent rise, which we are offering at extremely low prices.

NEGLIGENCE

WHAT does an unmarked grave call to mind? You look upon it and wonder who they were. Every cemetery shows the unmistakable outline of unmarked, unremembered graves, and as we look we know their life was as full of all the human emotions, of love pathos and tragedy as our own.

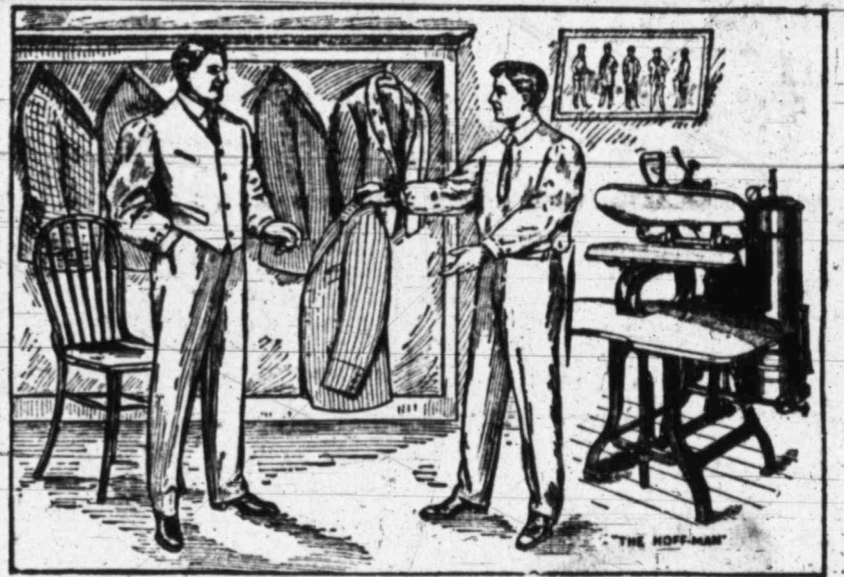

Inattention, neglect, penury, who can tell? The unremembered spot, it is unmistakable proof that some one has lived, and that the name, together with all that life holds dear has perished from this earth. There are more unmarked graves in Riverside cemetery than any city of like size in the state. What is it? Inattention, neglect, or plain penury. We upon investigation are inclined to think it is the former in most cases.

DEVELOPING AND FINISHING DONE

Don't Sacrifice Quality for Quantity

There is no economy in buying cheap Groceries. Every housewife knows this, or ought to know it, and a careful comparison will prove it. Our business has been builded upon the plan of handling only the very best grades of goods—giving the very best values, but never sacrificing for quantity or price.

We take pride in the knowledge that not a single customer has ever gone out of our store dissatisfied. Our prices are low—when the quality is considered, and a dollar spent with us buys a full dollars worth of groceries—no matter who buys them.
