

UNDERWOOD IS SUSTAINED

AGRICULTURAL AND CITRUS FRUITS RATES REMAIN AS FIXED IN COMMITTEE

SLOW PROGRESS MADE

New Seems Improbable Bill Will go to Senate Before June the 1st

By Associated Press. Washington, April 15.—The slow progress on the new tariff bill has upset calculations that the bill would be ready for the Senate early in May.

The agricultural schedules were taken up this morning and the removal of the duty from flour and the reduction in the duty on wheat were the targets of the northwestern interests.

When the wheat schedule was taken up Red Ledy of New York moved to place wheat on the free list while Representative Fowler of Illinois, moved a substitute to increase the rate to 15 cents, but the vote was for letting the rate of ten cents in the Underwood bill remain.

When the citrus fruit provisions were reached the Democratic members from Florida and California made a fight to permit the present rates on oranges, lemons and lemons remain unchanged but they were defeated.

Representative Underwood was on the floor of the House today despite the instructions of his physician to remain quiet.

COURTS SETS ASIDE EVIDENCE IN STONE

Washington, April 15.—Setting aside evidence in the nature of a marriage record set on a tablet in a temple in Amoy, China, the supreme court today held by Quin, a millionaire Chinaman of the Philippines, had not been married in China, and awarded his property to his children by a Filipino woman.

It was the first case in which religious tablets were brought across the Pacific for presentation to the supreme court.

After they arrived interpreters fell into a dispute as to how to translate them.

THROW OF DICE WINS HIS LIFE SENTENCE

New York, April 15.—A throw of the dice today sent William Rooney to prison for the rest of his life—unless he succeeds in getting a parole from the board of pardons. It was the possibility of this parole that left Rooney undecided between a life sentence and one of ten years with no possibility of commutation.

He was arrested for burglary and adjudged an habitual criminal and the court gave him his choice of pleading the ten years' sentence, or as fourth offender and receiving a life sentence.

NOTED RAINMAKER TO TRY TO "COME BACK"

Dallas, Texas, April 15.—North Texas need have no fear of crop failures during the coming hot months of summer if the plans of local business men and Prof. Hatfield, the famous rain-maker, succeed.

J. S. Kendall has issued a letter to thirty Dallas prominent business men telling them of the plan to cause a ten-inch rainfall in the territory adjacent to Dallas during the corn making period this summer.

CHARGES NECESSARY TO OUST REPUBLICAN

Burleson Announces Administration's Policy to Allow Postmasters to Fill Their Terms

By Associated Press. Washington, April 15.—Postmaster General Burleson today announced that it would be the policy of the administration to retain in office republican postmasters until the end of terms unless charges that might be filed against them were sustained. He said that this policy would apply to all classes of postmasters.

The President today sent to the Senate nominations for a number of Texas post offices including R. H. Newton at Midlothian, R. A. Wright at San Pedro, Thomas Durham at Wellington and Tom H. Hood at Wortham. State Senator D. A. Paulus was appointed postmaster in his home city.

DYNAMITE AND FIRE ARGUMENTS

MILITANT SUFFRAGETTES BURN RESIDENCES AND BLOW UP RAILROADS

THEIR LATEST METHODS

Burn Home of Member of Parliament And Dynamite Tunnel

By Associated Press. Hastings, Eng., April 15.—Militant Suffragettes today burned the handsome home at Cape Leonard-on-the-Sea of Arthur Ducros, a member of Parliament. They not only set fire to the home but set explosives in the rooms with fuses attached.

The residence was temporarily vacant, the family having gone to Bath. Before setting fire to the house they cut all telephone and telegraph wires. They also discharged dynamite at the entrance of the tunnel on the Great Western Railroad west of here causing a considerable delay in traffic.

DALLAS PREPARES FOR SHRINERS' MEET

City Will Spend \$100,000 in Entertainment of Imperial Council—Other Texas Towns Join

Dallas, Texas, April 15.—In practically every large city in the southwest preparations are being made for visitors in attendance at the thirty-fifth annual meeting of the Imperial Council, Ancient Arabic Order Nobles Mystic Shrine in this city May 12-15. Dallas, Austin, San Antonio, Houston and Galveston will all have an opportunity of entertaining visitors, for after the close of the Imperial Shrine meeting in this city, Imperial officers and representatives and their ladies will visit the cities named on a complimentary trip given by Hella Temple of Dallas.

San Antonio is now giving a Shrine fair, the proceeds of which will go toward defraying the expenses of a large delegation to Dallas and for the entertainment of visitors Friday, May 16, after the close of the Imperial Shrine meeting. The meeting of the Imperial Council is an event in which the whole southwest is interested and Texas as a whole is busy with plans to make the visit of the nobility of North America pleasant and of interest in every respect.

San Antonio will be well represented at the Imperial Shrine meeting. Two special trains will be operated out of that city for Dallas. In each train will be twelve Pullman cars. Shrine delegates and visitors from Christl, and these will be attached to the San Antonio specials. Other delegations will be picked up at Austin, the home of Ben Hur Temple.

The fact that Dallas has prepared to spend \$100,000 in the entertainment of her guests on this occasion, and that San Antonio, Austin and Galveston are preparing to give lavish entertainments to the participants in the around-the-state tour, has inspired the Shriners and business men of Houston to make much more lavish preparations than was planned formerly, and a campaign is now on in which the entire business public of that city is asked for contributions sufficient to make a favorable impression on visitors. One of the features of this entertainment will be a visit to the battlefield of San Jacinto, where Texas won her independence of Mexico, and where Antonio Lopez de Santa Anna surrendered to Gen. Sam Houston.

En route to Dallas, Syria Temple of Pittsburg is planning a trip to the battlefields of Cuba, both on land and sea, proceeding from there to Galveston on a special steamer. The Pittsburg delegation will arrive in Dallas May 12, leaving this city the night of May 15.

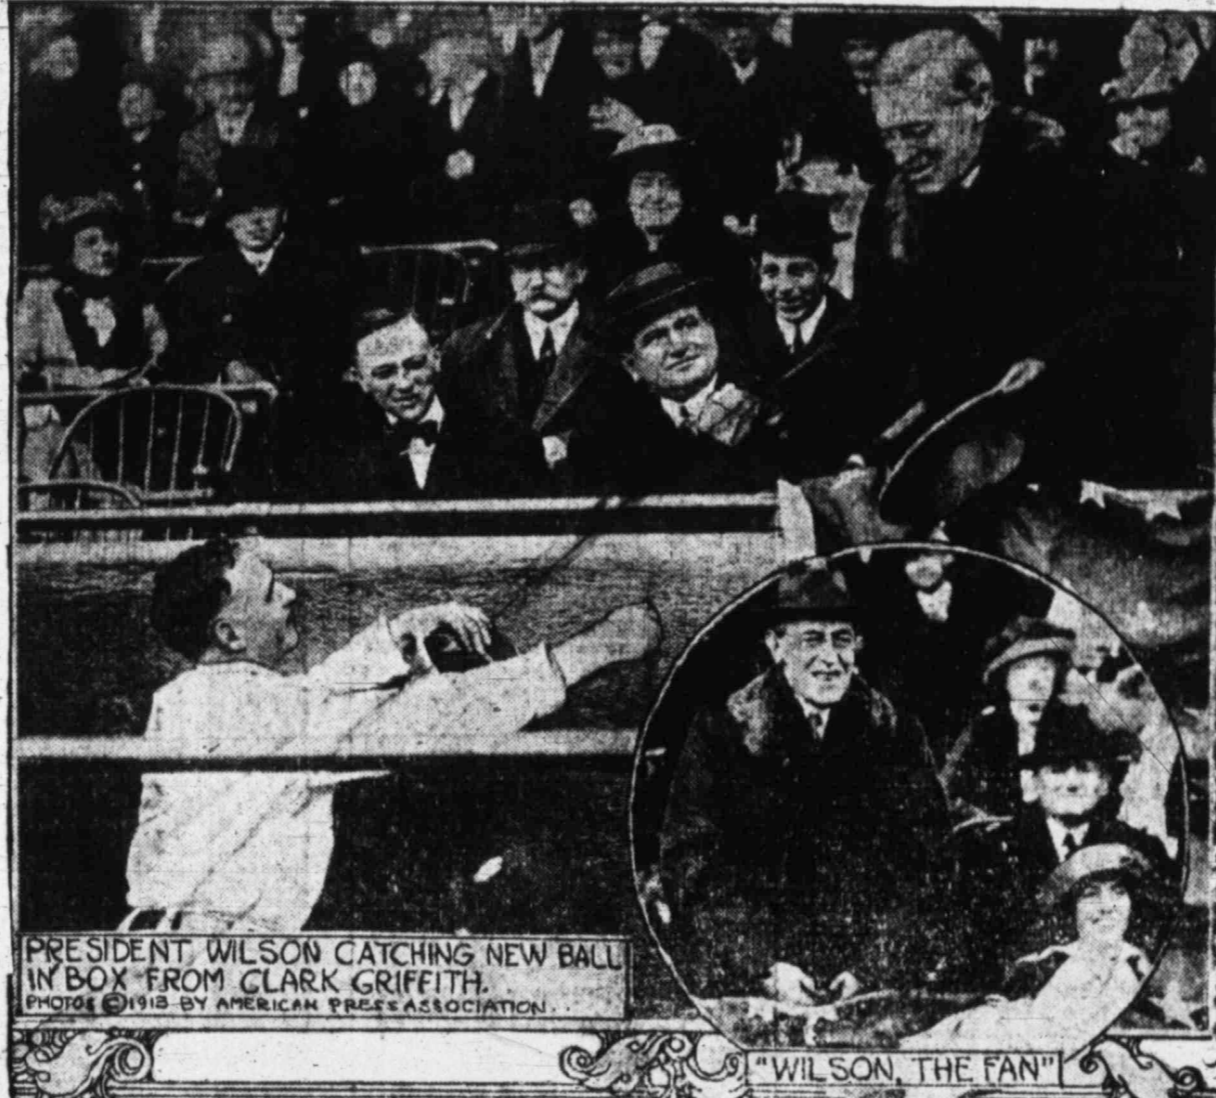

THIRD PAIR OF TWINS FOR McLENNAN COUNTY COUPLE

By Associated Press. Waco, Texas, April 15.—The wife of E. M. Miller, a farmer living near here presented him with a pair of twins this morning whose combined weight was 10 and one-fourth pounds. Previously two sets of twins has been born to the couple. They are now the parents of seven children born within a period of less than seven years.

FORMER REPUBLICAN GETS APPOINTMENT

By Associated Press. Washington, April 15.—Houston Thompson, former-Republican assistant attorney general of Colorado, has been appointed to represent the federal government in the court of claims. Mr. Thompson was a student under President Wilson at Princeton and was a member of the football team of 1896.

WHAT, HO! PRESIDENT WILSON A REAL FAN! PLEASE OBSERVE HIS BASEBALL SMILE

PRESIDENT WILSON CATCHING NEW BALL IN BOX FROM CLARK GRIFFITH. PHOTO © 1913 BY AMERICAN PRESS ASSOCIATION. "WILSON, THE FAN"

Washington, April 15.—There is no doubt about it—President Wilson is a real baseball fan. He knows all about the game, and he is going to be seen often at the ball park here. At the opening game of the season between the Washingtons and the Yankees the president was given a new ball in a box by Clark Griffith, manager of the Senators, and he threw it—not tossed it—mind you—with speed and precision into the hands of Pitcher Walter Johnson. The upper illustration shows him catching the boxed ball from Griffith. The other picture shows the positive proof that the president is a fan. Notice his "fan smile." For a few hours he forgot all about the intricacies of the tariff situation and gave himself up to enjoyment. He was accompanied to the game by his daughter Eleanor and Secretary Tamm. They are seen in the lower illustration on the right. In the last campaign, ex-Governor Robert B. Glenn of North Carolina, bespeaking on many stumps and hustings the election of Woodrow Wilson to the presidency, told of a baseball game played at Davidson College, North Carolina, in the spring of 1873. The point on which the former governor dwelt was that both he and one Thomas Woodrow Wilson played for Davidson in this game. He attributed to "Tom Wilson" an "arm like iron and the speed of the wind." Bob Glenn would have been proud of Tom Wilson had he seen him as president throw the first ball here. Thousands in the grand stand and bleachers cheered the skill with which the president tossed the ball and welcomed him royally into the ranks of fans. As the game progressed they became more and more convinced that President Wilson was a "real roofer."

WILSON AGAINST TOLL EXEMPTION

Believes It Violates Treaty and is at Same Time a Subsidy

By Associated Press. Washington, April 15.—While President Wilson has made no public statement regarding his position on the exemption of American vessels engaged in coastwise trade from Panama Canal tolls, it is said he believes it improper to exempt them from such tolls. He is said to have taken the position that such exemption not only violates our treaty obligation, but at the same time is in effect a subsidy and he has always been opposed to subsidies.

TO ASK EXTENSION OF NATURALIZATION

This Will Probably be Course of Japanese Government Following Alien Enactment

By Associated Press. Tokio, April 15.—The Japanese Government is inclined to believe there is nothing it can do in the California land owner legislation and that its only course is to wait until the bill has passed and then the government will take up the question of extension of naturalization rights to Japanese. Newspapers here call attention to "the humiliating insult by a nation great and proud to a nation which has gone out of its way to maintain friendly relations with the United States."

\$600,000 IS REQUIRED TO CLEAN DAYTON, OHIO STREETS

Columbus, Ohio, April 15.—Six hundred thousand dollars will be required to clean Dayton's streets, according to a report submitted to Governor Cox today. This sum does not include the cost of reconstructing public property damaged by the recent flood. The report estimated the flood loss on merchandise in Dayton at \$13,000,000.

WINFIELD HELD FOR TEXAS AUTHORITIES

Man Arrested in Chicago, Said to Be Wanted, For Number of Texas Robberies

By Associated Press. Chicago, April 15.—George C. Winfield said to be wanted in Texas for bank robberies aggregating \$107,940 was arrested by the authorities here today. It is said Winfield was with a Burns detective who was ed a Burns detective when the latter attempted to arrest him in connection with the robbery of a bank at New Westminster, British Columbia.

MINERAL WELLS CROWD COMING APRIL 22

Acting Secretary John W. Thomas of the Chamber of Commerce has received a letter from P. E. Bock announcing that the Mineral Wells excursions will reach Wichita Falls on the afternoon of April 22. They will leave Mineral Wells at 6:40 a. m., and are due to arrive at Archer City at 3:35. Arrangements have been made to stop their train at the glass factory and to show them through the factory district and then bring them on into town on the traction line. The party will stay in Wichita Falls over night leaving in the morning over the Wichita Valley for Seymour and points on the Gulf Texas & Western.

DEFENDANTS IN OIL SUITS ARE SERVED

Richard G. Maury of Houston Lies in Wait For Archbold and Others

New York, April 15.—John D. Archbold, president of the Standard Oil Company of New Jersey, was served today in a suit brought against him and others by the State of Texas to recover approximately \$100,000,000 for violation of the anti-trust law of the State. Richard G. Maury, criminal district attorney of Houston, who served Mr. Archbold, has been in and around New York for a week with a special commission from the attorney general of Texas to reach the non-resident defendants in the suit. Among the others he has served are John D. Rockefeller, H. C. Folger Jr., president of the Standard Oil Company of New York; Samuel G. Bayne, president of the Seaboard National Bank; Howard Bayne, vice president of the Columbia-Knickerbocker Trust Co.; Charles W. Harkness and Lewis Cass Ledyard.

FEDERAL GARRISON LOCATES AT EL TALMES.

By Associated Press. Nogales, Ariz., April 15.—The federal garrison at El Talmes crossed the bay to Guaymas early this morning while the State troops occupied the town. The federal forces left the town by boat leaving the State troops in full possession. POISON FOUND TO HAVE BEEN SELF-ADMINISTERED. By Associated Press. Dallas, Texas, April 15.—Poison self-administered was the verdict in the peculiar case presented by the death of Dr. J. R. Mitchell in Oak Cliff Saturday night. A new development brought out by the inquest was the fact that before making a demonstration of a new skin linament Saturday Dr. Mitchell injected some drug into his arm to deaden the pain that ensued. It is now believed that this was strychnine.

SAM CARTER HELD TO GRAND JURY

BOUND OVER UNDER \$2500 BOND IN CONNECTION WITH DEATH OF ROBERT COBB, JR.

IS GIVEN HEARING TODAY

Eye Witnesses of Altercation and Physician Give Testimony at Hearing

Sam Carter was held for appearance before the grand jury in bond of \$2500 in the examining trial before Justice Howard this afternoon, on complaint charging him with murder in connection with the death of Robert Cobb Jr.

The defendant was represented by Judge Nicholson and J. M. Blakenhip and the State's case was conducted by District Attorney Scurry.

The altercation which led to the death of Mr. Cobb and the arrest of Carter occurred several days before Cobb's death.

Dr. Everett Jones was called as an expert witness and testified to having made an examination of Mr. Cobb before the latter's death and also an autopsy after death. He stated that Cobb's face was badly discolored and bruised, and that his nose was broken, that an abrasion showed over the left eye, under which on the brain was a clot of blood. Another abrasion was on the head over the left ear, and on the brain under this bruise another clot of blood appeared. He testified that in his opinion this could have been the cause of death.

Other witnesses testified as to the number and nature of the blows that were struck, it being claimed by some that only three blows were struck and by others as many as five were passed. Cobb was said to have been unable to defend himself.

Carter's bond had not been made this afternoon but friends believe they will secure it before night.

270,000 HAVE JOINED STRIKERS IN BELGIUM

Strike Characterized So Far By Entire Absence of Disturbances

By Associated Press. Brussels, April 15.—The second day of the great political strike by the workmen of Belgium opened this morning with about one-third of the workmen in the provinces outside of West Flanders and Antwerp idle. It is estimated the strikers in the provinces number 256,000, and with those in West Flanders and Antwerp the number will aggregate about 270,000. The government estimates the number of strikers at 140,000.

There has been no disturbance of any kind and tranquility prevails. Only four arrests have been made. The strike leaders are insisting on the motto "Folded Arms and Not Bruised Heads."

The strike is against the system of plural voting by which the clerical party has remained power for twenty years.

SUPERINTENDENT'S ANSWER TO STRIKING EMPLOYEES

Yonkers, N. Y., April 15.—Lewis Shreckles, superintendent of one of the largest sugar refineries in the world, closed his desk today at noon and announced he was going fishing and did not know when he would return.

This was his answer to a strike order issued to the laborers of his plant this morning.

Employees who congregated at the gate this morning found it locked and admittance refused. About 1200 men were affected.

POISON FOUND TO HAVE BEEN SELF-ADMINISTERED.

By Associated Press. Dallas, Texas, April 15.—Poison self-administered was the verdict in the peculiar case presented by the death of Dr. J. R. Mitchell in Oak Cliff Saturday night. A new development brought out by the inquest was the fact that before making a demonstration of a new skin linament Saturday Dr. Mitchell injected some drug into his arm to deaden the pain that ensued. It is now believed that this was strychnine.

NO IMPORTANT DECISIONS

Washington, April 15.—No decisions in the State rate cases, newspaper publicity law, intermountain rate cases or other important suits pending before the Supreme Court was announced today.

NEGOTIATE FOR HOSEIERY MILL

PHILADELPHIA MANUFACTURER VISITS CITY TO CONFER WITH CHAMBER OF COMMERCE

MEETING THIS MORNING

Plant if Moved Here Will Give Employment to About 75 Women

A hosiery manufacturer of Philadelphia, was a visitor this morning at the meeting of the directors of the Chamber of Commerce, and presented a plan whereby he hopes to bring his manufacturing plant to Wichita Falls.

Desiring to locate in the West or South he has visited a great many cities with a view of locating, if conditions merited his removal from the east. Arriving in Wichita Falls he was at once favorably impressed with the opportunities presented here and has decided to move here at once, just as quickly as he completes negotiations with the Chamber of Commerce.

He now operates two hosiery manufacturing plants in Philadelphia. It is his intention to combine them in moving here and operate one large plant. The industry comprises the manufacture of hosiery, mercerized and cotton hose, although later it is the manufacturer's desire to also engage in the manufacture of silk hose.

In operation, the plant if located here, will employ about 75 laborers, two-thirds of whom will be females. The wages paid will range from ten dollars a week up to about twenty-five.

One of the advantages to be gained by locating an industry of this nature in Texas is the close proximity to the cotton fields. The manufacturer hopes later to erect in connection with his factory a plant for spinning the cotton used from the raw material, and also erect in conjunction with his factory a dye and knitting plant.

It appears that in other localities visited by the Philadelphia man the difficult question has been in receiving assurance that he would be enabled to obtain sufficient labor. The directors of the Chamber of Commerce were of the opinion that no difficulty of that nature would be experienced here.

A committee was appointed this morning to conduct the Philadelphia man about the city looking over various favorable sites.

GIRL'S HEROISM SAVES FRIEND

Mansfield, Ohio, April 15.—Clinging to the pilot of the engine with one hand, while she held the unconscious form of her companion with the other, Miss Mary Farber, a small 17-year-old girl, yesterday rode more than two miles from the West Park avenue crossing, where their horse and buggy was struck by a Baltimore and Ohio passenger train, to the Mansfield passenger station. Her screams there brought her assistance.

None of the train crew knew that anything had been struck until the station was reached. Miss Farber escaped with only a few bruises. Her companion, Fred Lutz, aged 18, is suffering with two fractures of the skull and will probably die.

MUMPS CONSUMES ALL MARSHALL MATERIAL.

Marshall, Tex., April 15.—Marshall has had a siege of the mumps. It is estimated there has been fully 3,000 cases since March 1. The disease is now fast disappearing for want of material.

\$2,000 Fire at Mangum, Okla. Mangum, Okla., April 15.—Fire of unknown origin destroyed the home of Irvin Chancellor on North Oklahoma avenue this morning. No insurance. Loss \$2,000.

OKLAHOMA COMMISSION JOIN IN PROTEST

Effort Being Made to Secure Reduction in Rate to Re-union at Chattanooga

By Associated Press. Austin, Texas, April 15.—The Oklahoma State Railroad Commission joined with the Texas Railroad Commission in its protest against the two cent rate of the Southwestern Passenger Association for the Confederate reunion at Chattanooga. The rate has heretofore been one cent a mile for these reunions. The commissions believe that an injustice is being done the old soldiers and that the railroads are also violating the Sherman anti-trust law. Commissioner Watson of the Oklahoma Commission and Chairman Mayfield have joined in a petition to Commissioner Clements of the Interstate Commerce Commission requesting that the rate be reduced.

Men's Spring and Summer Clothes

at

The Globe

Where Clothes Are An Institution

Our ready-for-service clothes this spring and summer are superior to any we have ever produced. This is impressive because last spring and summer it looked impossible. We did not quite see how we could excel in 1912 what seemed so perfect in 1911. Perfection, however, always lies a little ahead of the best men do and trying to attain it is like the futile effort of pussy to fasten her teeth on her fugitive tail. All she gets is a glimpse and perfection is just as elusive. But he who works with his heart works better than he knows, and we have surely worked with ours. That is why we are consistently foremost in contemporary styles, and why our present spring and summer exhibit of men's suits, hats, shoes, shirts and furnishings is probably without a peer in the reputable clothes.

GREENLEAS WELL IS LOOKING GOOD

REPORTED TO BE DOING BETTER THAN ONE HUNDRED BARRELS

THE PRODUCTION REPORT

Decrease in Production Shown but Field Never Looked So Good

The sensation of the Wichita county oil fields was the Riley farm well being drilled by J. R. and C. A. Greenleas. There is more romance concerning the initial ventures in the leasing and the operating of land after it has been leased than you would find between the lids of one of May Agnes Fleming's most soul stirring novels. But the cold facts are only required for this publication hence we will confine ourselves to those alone.

This well has had a very checkered career. It was one of the first real pioneer wells southwest from the original Burk Burnett well. The leases contain approximately three thousand acres. With a contingent bonus of \$70,000.00 the well is located near the center of the acreage and when it came in last week it looked like a 200 barrel beauty. Since that time it has settled down until it will make a good 100 barrel pumper. Mr. J. A. Greenleas is at this writing in London, England. He recently made a sale of his Oklahoma holdings for the neat sum of something like \$500,000 to a French syndicate. No doubt Mr. Greenleas is in a position to handle this large proposition as it will run well into the hundreds of thousand dollars to properly develop this property.

A new company to make a star here is the Worth Oil Company of Tulsa, Okla. The owners are George Crawford, Harry Heasley, J. W. Clover. These are all well known men of the east and will be a valuable addition for the North Texas oil field.

In spite of the drop in the production of this district, there has never been a time when the field looked as rosy for new production as it does now, spots that were condemned a month or two ago are now in the spot light, and the Producers Oil Co. with the largest production in the field, should not get much under the 10,000 barrel mark for the next four months and really should increase its present production. In view of the fact that they have so much drillable territory that is in the defined limits and the Waggoner ranch with two hundred thousand acres has only about thirty completed wells with about five drilling. Hence we take a very optimistic view of the field. What is needed most is the eastern producer to come and make things hum as he always does. The Worth Oil Company starting their well on the Martin is a step toward more money distribution in the field. The Riley well extends the field for over 2 1/2 miles southwest.

A new gas well has been opened up in the southern part of Stephen County, Oklahoma on account of its proximity to this field it always makes the reports for it. It is located near Loco, about 12 miles east from Comanche. It came in with such force that it destroyed the rig and made a very spectacular scene.

W. G. L. New production at Electra in March as follows:

Producers—965 barrels.
Corsicana—643 barrels.
J. M. Guffey Co.—400 barrels.
Red River Oil Co.—55 barrels.
W. C. McBride—150 barrels.
Dale and Knott—12 barrels.
Sanders and Dale—5 barrels.
G. C. Wood & Co.—125 barrels.
Total new production Electra district past fifteen days—2355 barrels.
Burk Burnett District.
Corsicana Pet. Co.—60 barrels.
Producers—50 barrels.
Greenleas Bros.—125 barrels.
Iowa Park District.
Forest Oil Co.—10 barrels.
Jack County, Texas.
Toyah Valley Oil Co.—10 barrels.
Total new production for last 14 days in March—2665 barrels.

Producers	9964	1029
Corsicana Pet. Co.	5181	595
J. M. Guffey Co.	1253	91
Red River Oil Co.	500	50
Five Rivers Oil Co.	149	19
W. C. McBride	425	26
G. C. Wood & Co.	125	..
Interstate Oil Co.	53	7
Northwestern Oil Co.	25	4
Sun Oil Co.	25	3
Forest Oil Co.	43	4
Miscellaneous	313	30
Total for Electra district April 12—16,843 barrels; total for March 2—18,614 barrels.		

A loss on the total production of the Electra field of 1,771 barrels per day but this readily accounted for a last month as the banner month to large wells and the history of the big wells has been that they decrease very rapidly when they are being drained by the line wells.

Burk Burnett District.
Corsicana Pet. Co.—287 barrels.
John Dyson & Co.—8 barrels.
Interstate Oil Co.—25 barrels.
W. C. McBride—50 barrels.
Greenleas Brothers—100 barrels.
Producers Oil Co.—50 barrels.
Making a total for Burk Burnett of 520 barrels against 315 barrels in

your last report. A gain of 105 barrels.

Petrolia District.
Producers Oil Co.—275 barrels.
J. M. Guffey Pet. Co.—35 barrels.
Developers Oil Co.—200 barrels.
Edmonds Oil Co.—40 barrels.
Amarillo Oil Co.—5 barrels.
Miscellaneous—250 barrels.
Total—905 barrels.

Petrolia lost 62 barrels per day when compared with last report. The daily production of the Wichita county or the North Texas Oil field is at this writing round numbers 18,581 barrels as compared with 19,904 barrels March 28th. A net loss of 1,323 barrels. This is the first time since February, 1912 that this condition has existed. In addition to the loss in production there was more abandonments in this field during the last month than has ever been recorded in the past in the same length of time.

ADVERTISING CAMPAIGN IS BEING PLANNED

Chamber of Commerce Will Co-Operate With the Real Estate Men

Several matters of importance were discussed at the regular weekly meeting of the directors of the Chamber of Commerce held this morning, among them being the proposed bringing to Wichita Falls of several manufacturing plants.

Among these is a cotton factory a hosiery factory, and a plant for the manufacture of stoves and ranges. The latter concern is now located in an Ohio city. Negotiations are now under way between the Chamber of Commerce and the secretary of the company with a view to having a representative sent here to look over the ground. The latter concern state in their correspondence that they would later also move to this city another plant they are now operating in the manufacture of pumps and windmills.

The question of carrying on a thorough advertising campaign by the Chamber of Commerce in the near future was thoroughly discussed and it was decided that subscriptions for this purpose would be solicited from the real estate men of Wichita Falls. The Chamber of Commerce an amount equal to that subscribed from the real estate dealers up to the sum of \$1250.00. The money is to be expended on newspaper and magazine advertising in the next three or four months.

Also a plan was adopted to have postal card views in panorama form taken of interesting scenes in and about Wichita Falls. These views will be enclosed in correspondence carried on by the secretary of the Chamber of Commerce. Another suggestion made which may be carried out later, was to have large photographs taken of Laké Wichita and placed in the local hotel lobbies, restaurants and business houses.

PRISONERS ESCAPE FROM CITY JAIL

Digging a hole in the brick wall of the city jail, four prisoners last night made their escape, and three of them were still at large this afternoon.

One prisoner was recaptured and put back into the cell, but escaped again in very short order; he was discovered before he had gotten far and was put in more secure confinement. The jail wall is not particularly solid and anyone with a good socket chisel or tool of any kind could remove sufficient bricks to make his escape with little difficulty.

FROM POVERTY TO \$2,000,000.00 FORTUNE

Detroit, April 14.—From poverty and the obscurity of a little country town to the possession of a fortune of \$2,000,000 is the Aladdin-like story of twenty-one-year-old Elvin Leschappelle of Grayling, this state. Within a few weeks he will receive his share of the estate left by his father, a millionaire lumberman of Northern Wisconsin, whom he has never seen.

The young man's parents quarreled within a month after their marriage. The husband, Joseph Leschappelle of Grayling, and never returned. After the birth of her son the young mother secured a divorce and remarried, leaving the child with her father. Joseph Leschappelle went to Wisconsin where he engaged in the lumber business and became wealthy. He also remarried and one son was born from the union.

The millionaire died recently. His estate is being wound up and will be divided between Elvin and his half-brother.

Nothing Better

If you have indigestion, no matter how bad, the Rohatsch mineral water will cure you. Remember when we deliver water to you, you get a clean vessel that has been scalded and thoroughly cleaned. We use antiseptics against the spread of loathsome diseases. Our cork seals to prevent others from slobbering or drinking out of the vessel before it has been delivered to you. Remember we have a good clean tradition and are improving our plant to take care of our customers. If you want the best for health we have it. J. J. Rohatsch, Prop. Phone 1601 Ring 14.

"Give same price the world over"

Brains applied to clothes

Every now and then something big happens that snaps men up onto their toes.

Just two years ago the oldest clothing maker in the country decided to focus the whole force of his organization upon the production of a thoroughly good suit of clothes for the average American man. All-wool fabrics were specially selected, hand-tailoring and expert workmanship were included in the coat—even the buttonholes were hand-made. It was found that this high-grade suit of clothes could be sold for the low price of \$17—based on volume output.

Now, after two years, STYLEPLUS CLOTHES \$17 are sought out in preference to many clothes selling as high as \$25—the popularity is country wide. We are sole distributors here. Try a suit this spring.

Snake Indian Enjoys Income of A Prince From Oil Royalties

Muskogee, Okla., April 15.—Presidents of the United States who draw down \$75,000 per year salary and presidents of trusts, who raise it to \$100,000, all are pikers compared with Eastman Edwards, a Snake Indian of the Creek tribe.

Edwards could pay the salary of Woodrow Wilson, then throw away the salaries of the state officials of Oklahoma and still have enough to scrape along on. In actual cash income this Snake is the richest Indian in Oklahoma and probably in the world. All on account of oil.

The records in the Union Indian agency here show that during the last year this Indian's oil royalties have ranged from \$11,000 to \$12,500 a month and for the current month it will exceed \$15,000. This comes from two allotments, 320 acres, located in the great Cushing oil field.

His share of the oil is only one-eighth, so the value of oil flowing from the wells on the land is enormous. It is expected that within the next thirty days ten more producing wells will be drilled in on this land, in which case the Indian's income will be increased about 40 per cent over the present \$15,000 per month.

This Indian was made rich by a trick of fate. Being a Snake he would not come before the Dawes commission and select an allotment. So he was arbitrarily allotted along with hundreds of his kinsmen in the western part of the Creek nation, where the land was supposed to be of little value. And it was—until oil was discovered there.

Edwards did not even know where the land was situated and did not care, until oil lease-men commenced

to swoop down upon him for a lease. The government saw to it that when the lease was made the Indian was protected, and that's how he is now the richest Indian in the country.

SOCIETY WOMEN'S HAIR A Simple Treatment That Will Make It Truly Fascinating. Fooshee & Lynch Guarantee It

Nowadays every up to date woman has radiant hair.

What a foolish creature a woman would be if she lost the opportunity to add to her attractions.

Yet in America today there are hundreds of thousands of women with harsh, faded characterless hair who do not make any attempt to improve it.

In Paris most women have beautiful hair and in America all women who use Parisian Sage have lustrous and luxuriant hair.

And any woman reader of this paper can have attractive and lustrous hair in a few days' time by using this great hair rejuvenator, Parisian Sage.

Fooshee & Lynch sell a large bottle for 50 cents and guarantee it to banish dandruff, stop falling hair and itching scalp in two weeks or money back.

Parisian Sage is an ideal hair tonic, not sticky or greasy. Sold by druggists in every town in America.

Notice I have moved across Ohio Avenue opposite O. W. Bean's at No. 613, New furniture. Everything sanitary. Shave, 10 cents; hair cut, 25 cents. Red Front Barber Shop, H. H. Bates, proprietor. 53-251-c

IN THE SPHERE OF WOMANKIND

MRS. MILLER HOSTESS COMPLIMENTRY TO MRS. FANT

Charming hospitality was dispensed by Mrs. R. L. Miller Saturday afternoon April 12 when she entertained at auction bridge in honor of Mrs. George Fant of Weatherford. There were eight tables of players and a delightful afternoon was spent in this engrossing game. Mrs. Fant was presaged with a souvenir spoon. An ice course was served. The guests were Mesdames Fant, C. C. Huff and guest, Mrs. Oliver of West Virginia, Blair, DuVal, B. Smith, M. W. Walker, W. H. Walker, Woods, R. E. Huff, Jones, Reese, Roberts, Eugene Sherrod, McGregor, Toney Weeks, Adams, Ogston, Duke, May, and the Mrs. Dora and Cora Coons and Ethel Chamberlain.

MISS STENGLE ENTERTAINS FOR MISS KILANDER.

The Misses Stengle entertained a few friends Friday night April 11, complimentry to their guest, Miss Eleanor Kilander of Fort Worth.

Games and contests were the diversions of the evening, a doll dressing contest being especially amusing. Miss Mammie Boone was given the prize as being the best dresser. Miss Kilander was also given a prize for forming, the best animal. Refreshments of ice cream, and cake were served. The guests included the Misses Boone, Kate Burgess, Morgan, Durfee, Jimmie Brown, Gene Brown, Elinor Brown, Sadie Boone, Davis, Smoot, McKenzie, Bartlett, Gene Stengle, Miss Stengle, Mr. and Mrs. Searington and Messrs. Robins, Davis, Smoot, Morgan, Hamilton, Katz, Hursh and Stengle.

MRS. THOMPSON ENTERTAINS AT A TURKEY DINNER

Mrs. Lizzie Thompson was hostess at a turkey dinner Sunday in honor of her brother, T. K. Coker, that being his birthday anniversary. The table was prettily arranged with carafes and conspicuous was the great birthday cake. Those enjoying the dinner were: Mr. and Mrs. T. W. Scott, Mr. and Mrs. B. F. Stengle, son Fred and daughter, Miss Gene, Mr. and Mrs. Louis Allen, Mr. and Mrs. Will Joehrendt and son, Lester, and daughter, Lorene, Mr. and Mrs. Fritz Ernst and daughter, Thelma, Mr. Coker and Mrs. Thompson.

MISS ADELL ADICKES ENTERTAINS YOUNG FOLKS

Miss Adell Adickes delightfully entertained about fifty of her young friends Saturday night, April 12, at her home on Tenth street. Games of various kinds and contests were played and the evening passed all too quickly for the gay and happy crowd of young people. One of the most interesting of the contests was one in which the participants' power of observation were tested. A number of miscellaneous articles were grouped and the contestants permitted to look at the moment after which they were asked to name as many of the articles as possible. In this contest Miss Louise Frieze was first.

Refreshments of ice cream and cake were served. The guests included: Miss Farmer of Henrietta, Misses Sibyl Kell, Madeline Mackechny, Lillian Berges, Margaret Burnside, Gretchen Avis, Myrtle Morris, Louise Leachman, Louise Frieze, Louise Montgomery, Mary McKinnin, Lorna Shaw, Elizabeth Patterson, Mattie Ruth Corlett, Mildred Van Voy, Lola Bell Anderson, Wilma Filgo, Misses Alder, Forsyth, Eva Stratton, Hickman, Gordon and Helen Beavers, and Paul Pond, Henry

PASTOR WOULD BE A JOHN ALDEN

Muskogee Minister Offers to Propose on Behalf of Any Young Man of Congregation

Muskogee, Okla., April 15.—The Rev. E. D. Cameron, pastor of the Central Baptist Church of Muskogee, has placed before the young people of his congregation a proposition that has astonished them. He has offered to take upon himself the duty of proposing marriage to any young woman in the congregation in behalf of any young man in the church who desires to marry her.

The same proposition applies to the young women of the church if they desire to submit such a proposal to the young men, but as this is not leap year Mr. Cameron said he did not expect to have any calls from the young women for that purpose.

"This proposition is made for the reason that there are at least two dozen young couples in the church who should be married before the end of June," said the pastor. "I see before me more than one young man who has been attending this church every Sunday night for more than a year in the company of the same girl."

Too Bashful To Propose. "That is long enough for them to become fully acquainted with each other and to know if they are suited to become husband and wife. I see many such couples, and still they are not married. The only conclusion to be drawn from this condition of affairs is that the young men are too bashful to ask the important question."

"That being the case, I will offer my services as a medium to bridge his unfortunate condition. If any young man in this church feels that he cannot ask the girl to marry him, let him come to my study any day, and talk it over with me. I will look into the affair and give it my best judgment."

"If he desires me to do so I will do so to the young woman of his choice and as the pastor of this church will make to her his proposition of marriage. If for any reason he is not accepted, that will remain forever a secret between the three of us, at least, as far as I am concerned. I promise that I shall not tell even my wife the secret."

Not Right To Stay Single. "My only interest in these affairs is that I may be able to bring about some happy marriages among the young people of this church. It is not right for the young men to remain single. There is no reason for the young women of this church should not be happily married. I know several of the young men are financially able to marry and maintain a home."

"I believe that marriage is the true road to happiness and to living a Christian life."

Mr. Cameron, for a number of years, was superintendent of schools for the state and in that time was an advocate of marriage and a forerunner in the teaching of domestic science in the schools of the state. Mr. Cameron long has advocated the idea that girls who are taught to take care of a home and who are trained for home life make the best wives.

The pastor also favors the bill now pending in the legislature providing for the physical examination of men before a marriage license can be granted to them.

Marry and Have Children. "I advocate marriage from patriotic motives as much as for the happiness of the individual," said Mr. Cameron. "A patriot is a man who is married and has a family and who feels the responsibility of caring properly for his family. I pity the man or woman who does not marry, but I pity fully as much those who marry and have no children. A home without children is really not a home at all."

"A woman's place is not in a line of march to declare for equal suffrage. It is not behind the counter of the dry goods store or in the office of a professional man and in front of a typewriter, and a mirror. It is in the home, where God intended that she should be the mother of children and the helpmeet and comforter of her husband. It is there that she will find true happiness."

"With most young women, the day they get the idea into their heads that they must have a 'career' that day they are unfitted to become a wife or a mother."

Mr. Cameron has been a lawyer, a teacher, a college president and a politician.

WICHITA STATE BANK INCREASES CAPITAL

New Issue of \$25,000 Sells at \$120—Increase Necessary for Growing Business

At a meeting of its stockholders held on the 11th, the Wichita State Bank increased its capital stock to \$50,000. This step was considered necessary in order to take care of the rapidly increasing business of the bank. The new stock was readily subscribed for, selling for \$120 or at the present book value of the old stock and several new stockholders were added to the list. The Wichita State Bank is the largest of our four savings banks.

SCHOOL OF INSTRUCTION FOR MILITARY OFFICERS

Austin, Texas, April 15.—Adjutant General Hutchings and Captain H. S. Wagner, military aid of the guard, left soon today for San Antonio to confer with Lieutenant Colonel W. S. Scott, in charge of militia affairs at Fort Sam Houston, relative to the holding of the officers' school for infantry of the Texas National Guard. The time and the place is to be determined.

It was announced today that school of instruction for cavalry officers of the Texas National Guard will be held this year at Fort Sam Houston on May 12 to 21 and will be in charge of Captain Bruce Palmer.

Entered at the Postoffice at Wichita Falls as second-class mail matter

Wichita Falls, Texas, April 15, 1913

Dr. Friedmann's patients—some of them, at least, declare his treatment has cured them of tuberculosis. This however, has not stopped some of the ethical doctors from their denunciation of Dr. Friedmann as a fakir.

Some of the Northern states of Mexico are agitating secession and if they succeed will then ask to be annexed to the United States. 'T would not be a bad idea.

It costs to talk. As an evidence of this, the receipts for the Bell Telephone Company for one year were \$199,209,000.

The Civil Service Commission is not in sympathy with Postmaster General Burleson's idea of requiring present incumbents to take the examination for efficiency, probably for the reason that a large per cent of them cannot stand it, and would be forced to give up the offices to some one who could.

There is talk of Senator Culberson being elevated to the Supreme bench and in that event there will be several applicants for the place made vacant by Culberson's promotion. It is understood Gov. Colquhoun has ambitions to go to the Senate. Ex-Governor Tom Campbell also has aspirations in that direction. If all other could be kept out save the two above mentioned, it would make it a very lively race. Those two could then have their fight out, and the Democrats of Texas would be given the opportunity to decide which of the two made the state the best governor and reward them accordingly.

When this was written Gov. Colquhoun had not yet vetoed the Boehmer election bill, albeit Austin dispatches have announced that its veto is practically certain. We are still hopeful, however, that the Austin respondents are mistaken and that the Governor, on final thought, will decide to approve a bill whose only purpose and chief possible effect is to prevent illiterate Mexicans and negroes from virtually controlling elections in which they have no interest and of whose results they are altogether indifferent. As a matter of fact the bill would have an inconspicuous effect on elections in most of the counties of Texas. But in the border counties the voting of ignorant boss-controlled Mexicans drives a common talk; that through their meretricious control elections whom responsible folks would speedily discountenance. Political expediency seems to have been about the chief objection urged against the bill, but the authorship of the bill should prove that it was not expediency, but a pressing need of such a statute for the purification of the ballot in the border counties that was primarily responsible for its introduction and passage. It is true, also, that such a bill would disfranchise a few men who, except for their misfortune in lacking an education, are in every other way qualified to vote. But there are few remedial laws on any subject that do not affect some citizens somewhat unjustly. Against the injustice upon the few, however, stands the vast benefit conferred thereby upon entire communities and even, in close elections, the entire state. The advantages are so infinitely superior to the few hardships or injustices, as we view it, that we think the Governor should rue his first decision and sign the bill, even though it seem at the risk of personal political hurt.—Denton Record and Chronicle.

TEXAS GOOD ENOUGH FOR JOHNSON.

Texas is good enough for Captain Frank Johnson of Weatherford. He is the Johnson who was a captain of rangers and journeyed to the Argentine Republic to superintend a South American ranch as large as the State of Delaware. Texas has an ideal climate all seasons around. The salty breezes from the Gulf lulls it to sleep after highfall. The pure ozone from the Colorado mountains exhilarates the blood and makes life one glad song after the coming of the dawn. Johnson, of Weatherford, found the climate of the Argentine Republic Hades-trimmed with sun blisters on the entire surface of things. He found more than this; the people unfriendly and the wage scale a sharp pointment. So Johnson came home; he was not to leave the state to do good.

ASK FOR BELLE OF WICHITA FLOUR EVERY SACK GUARANTEED. THE WICHITA MILL & ELEVATOR CO. EXTRA HIGH PURITY. WICHITA FALLS, TEX.

Why go to South America? Why go to Canada? Why go to the Pacific coast or the Puget Sound country? Texas is pulsating with possibilities; it is rich in natural resources; it is as fertile in spots as the valley of the Nile; it is a stranger to solarian winters and equatorial summers.

Seven of its cotton counties produce more wealth annually than the 'old' output of the world's mines. It has millions and millions of acres of virgin soil awaiting the magic touch of the man with the hoe. It has lakes and rivers and forests of timber and mountains of minerals.

It is an orchard country, a truck gardening country, an agricultural country, a grazing country and its soil grows all the products of the temperate and semi-temperate zones.

A man who cannot succeed in Texas would have starved in the Garden of Eden before Adam and Eve devoured the Golden Apple of Knowledge and were driven from the Elysian field by the flaming angel of the Lord.

Texas has sufficient cotton land to supply the world with garments woven from the fleecy staple. It has sufficient orchard bearing land to feed the mouths of the civilized world with luscious fruits.

It has sufficient corn land to supply the demands of the home people of those of Mexico and other Central and South American countries.

Its rice fields, if properly tilled, and its Gulf fisheries, if properly fostered, would furnish food for the millions of the food products that nourished the soldiers of Japan in their incomparable campaign which ended in the humiliating defeat of the czar's legions on the plains of China and the conquest of Korea, Manchuria and other favored territory in the Orient.

Why leave Texas? Why desert the land that has been the cradle of our forefathers in distant lands? "What happened to Johnson," points a moral and reforms this tale, but Johnson came home and Johnson is to be congratulated. There is room in Texas for brains and brain, for intelligent hands and willing hands. Texas could support twenty millions of people without an effort and without being crowded. God made it a land of promise, man should make it a land of fruition and happy homes and Fort Worth is the star jewel in the Texas diadem. Don't forget it. "What happened to Johnson" will not happen to you if you live and hustle under the blue sky of the Lone Star commonwealth.

FOR WORTH RECORD.

THE CITY YOUTH A SNOB

From the American Magazine. "We reached Fred's place after an all night ride, and the boys spent the morning getting acquainted with each other. I walked with the boys over the farm. Fred showed me my boy, George, his traps for mink, weasel and muskrat, that he had set in the creek; he pointed out the cover where the quail were, explained the silos, took us through the dairy barn, started the cream separator, explained the milking machine. I was much interested to see the development of the old place, and so interested that George observed for some time that George appeared bored, and kept winking at me while Fred talked of the rotation of crops and the success and failure of some experiments he had tried. The only thing I observed that day was that our boy did not compare favorably, physically, with his sturdy, well-reliant cousin. He was better dressed, but I felt a pang of regret to think his younger cousin could beat him at anything requiring strength and endurance in spite of the fact that George had won prizes at his school athletic meets. It was not until night when we retired to our rooms, that I began to see light. George hardly could wait until we were alone. "Oh, aren't they rube, though?" he laughed. "Honestly, mother, I hardly could keep my face straight when Fred was showing me round. But, cracky, I wish I could handle a machine the way he does! He knows all about cars and he can run into town and back. His father lets him go anywhere in it. But he's green as grass. He talked as if I cared about cows and sheep and chopping up corn and stuff. "Momsy, I nearly snorted out loud at dinner and supper. What the dickens do they want to pray for that kind of grub for? I never saw such service. If Jane cut bread into chunks like that, and baked things onto plates and shoveled it at you the way these

seems to me you have a poor sense of politeness to speak that way of your relations, who also are your hosts. It's a poor return for their hospitality. "Oh, I forgot you used to be a Jasper, too!" he laughed, not in the least abashed. "I'll bet you had to wash in cold water and eat ham gravy, too. This simple life isn't any hit with me."

I was losing my temper when the wife said: "Don't scold him, Billy. It's all new to him, and he doesn't mean to be rude or impolite—do you, George?"

"Why, these Reubens back here in the high grass don't know what politeness is, dad," he argued. "Fred don't know how to tie a necktie. He told me himself he never had a dress suit in his life. What do you think of that? When he goes to a party, he wears what he calls his Sunday suit. And he's never been to the theater except to 'Uncle Tom's Cabin' and the 'Drummer Boy of Shiloh.' He thinks that great. Wait till I get him into town and I'll teach him some thing."

I was so angry I dared not trust myself to talk, and after he had rattled on and on in the same strain I told him to go to his room and to bed. I could not sleep, and kept thinking over and over his words and manner.

SOME NEW WAYS IN THE HOME.

When you clean any room you do several kinds of tasks like sweeping the carpets, or rugs, dusting the furniture and ornaments, and wiping the floor with a dry or wet mop. It may also include window and wall cleaning. Now, when we study just how we do all these tasks, we find out several things which will help us to save time and also effort. When we sweep, for instance, we use one set of muscles and use our body with a big swing. When we dust we use a totally different set of muscles with finer adjustment. In mopping we generally get down on our knees and use back muscles and take a changed position. Each one of these different kinds of tasks we may call a "shift" of work. Now we find that our body becomes adjusted to the different shifts and we can speed up so that we work very rapidly. But—and here is the whole point—we lose time whenever we change the shift from one task to another.

Now many women who have several rooms to clean at once proceed this way: They first sweep, dust and mop each room separately. This is not the best way because they lose time changing from sweeping to dusting, and from that to mopping. The efficient way is to sweep all rooms first, right straight through, and carry those tools to some definite place; go back and adjust to the next shift of dusting, and dust right through; last mop all rooms. This specialization, without changing shift and dropping and changing tools in each separate room, will save you time and enable you to do the work with far less effort. Try timing yourself first the old way, and then the new, and see if you don't like the new way better.—Mrs. Christine Frederick in the Philadelphia Enquirer.

A NEW RECIPE FOR SARDINE RABBIT.

Remove the bones and skin of the contents of a box of good sardines and pound the meat to a paste. Add a few drops of lemon juice and onion juice, a dash of salt, two tablespoonfuls of grated cheese and one tablespoonful of thick cream. Mix this in a bowl. Now toast narrow strips of bread on one side, spread the sardine mixture on the untoasted side and cover with another strip, untoasted side in. Set these sandwiches in the oven till the sauce is made in the chafing dish. For this sauce beat the yolks of two eggs and add to them six teaspoonfuls of melted butter and a very little extract of beef. Cook this till it begins to thicken, then add half a teaspoonful of salt and a dash of paprika and almost immediately afterward turn out over the sardine strips, which have been kept hot. Serve at once with quarters of lemon.

LOCATION MADE ON NITSCHKE LAND

The Canadian Oil Co. went out this morning and made a location for a well on the Nitschke land, nine miles southwest of the city. The location is west of the Allendale well, and north of the Kemp. The lease is held by Jack Keller and other local men. Work of erecting the derrick will begin at once.

OPENING GAME AT CITY PARK

DRILLERS MEET DENISON IN OPENING GAME OF THE 1913 SEASON

BIG CROWD AT THE PARK

Automobile Parade Headed By City Officials, League Officials and Players To Grounds

Several thousand rooters thronged the grand stands at the City Park this afternoon to witness the opening game of the Texas-Oklahoma League 1913 season...

About twenty automobiles formed a parade in the downtown streets at 2:30 o'clock, carrying to the grounds city officials, league officials and the players.

Following this ceremony amid enthusiastic cheering from the grand stand the competing teams took up their positions. Rooters from Denison were greatly in evidence...

Wichita Falls now possesses the Texas-Oklahoma League pennant having headed the league last season by a large percentage and retaining the title won in 1911.

The Denison nine is considered among the strongest of the opposing teams and a fast game is predicted for this afternoon's meeting.

NO ATTACK UPON PRESIDENT WILSON'S APPOINTMENTS

By Associated Press. Washington, April 15.—Republican senators at a conference today decided that there should be no general attack upon President Wilson's appointments.

Cheaper than butter Better than lard

Cottolene is better than butter or lard for frying because it can be heated about 100 degrees higher without burning or smoking.

Fry fish with Cottolene and it will never be greasy, but crisp and appetizing enough to make your mouth water.

Cottolene is more economical than lard; costs no more, and goes one-third farther than either butter or lard.

Cottolene is never sold in bulk—always in air-tight tin pails, which protect it from dirt, dust and odors.

COMMISSION GOVERNMENT PROPOSED FOR COLORADO

Change May Be Asked in Constitution to This End at Next Election

Denver, April 15.—A new constitution for the State of Colorado, abolishing all elective and administrative offices, except that of governor and auditor, and substituting fifteen commissioners for the present general assembly...

According to Malone the fundamental principle underlying this proposed method of changing the form of the state government is the same as that advanced by the advocates of the petition method of changing the city charter in the recent municipal election.

All Appointments By Governor. The form of government, he argues, does not affect a single property right or interfere with a single relation of the people established by law.

Based on these principles he will prepare and place the proposed new constitution before the people under direct legislative methods.

Simpler Legislative Machinery. The house of representatives and the senate will be abolished and a commission created of fifteen elected members from that many representative districts of the state...

Abolition of all useless boards and departments which Malone urges are simply outgrown barnacles on the public business.

The state commissioners would be by Malone's plan precluded from any connection with the present kind

Jamison Hardware and Implement Co.

400 Block Indiana Avenue

Official 1913 Schedule of Texas Oklahoma League

Large table with columns for teams (Ardmore, Bonham, Denison, Durant, Paris, Sherman, Texarkana, W. Falls) and rows for various events (Read The Times for Baseball and Sport, News--Full, Reports of, All Games, Every Day).

I Don't Use an Automobile, But I Deliver the Goods.....

When you pay \$1.50 to have a suit cleaned and pressed, you want it cleaned and pressed. I take it, you do not care so much whether it is delivered in an auto or on the arm of a messenger boy, so long as it comes to you in the right condition.

I put my expense money into a cleaning plant and into expensive, experienced help, to operate it, so that I can do your work in the very best possible manner.

And I leave you to be the judge—if a suit I clean and press is not exactly as you wish it, you just have to phone me and I'll send for it and do it over. That's what you pay your dollar and a half for and that's what you get from me—absolute satisfaction.

Many Attempts Have Been Made On Life of King of Spain

May 17, 1901—A bomb intended for King Alfonso exploded prematurely. He was driving to the Chamber of Deputies in Madrid to be crowned.

April 7, 1904—A bomb was thrown at the king's carriage in Barcelona, killing two persons.

June 1, 1905—A bomb at King Alfonso and President Loubet of France in Paris. They were returning from a theatre.

May 31, 1906—Sixteen persons were killed by a bomb thrown at King Alfonso and Queen Ena in Madrid as they were returning from their wedding.

February 5, 1908—King Alfonso attacked by a policeman in Seville.

March 10, 1908—A bomb exploded in a street at Barcelona shortly after King Alfonso had passed.

March 3, 1909—A bomb with a burning fuse found on the wall of the Royal Palace in Madrid.

May 23, 1910—A bomb exploded in the streets of Madrid a few hours before King Alfonso's ceremonial return from London.

January 6, 1911—While King Alfonso was waiting for a train at Malaga, Spain, an explosion wrecked the station near where he was standing.

April 13, 1913—While riding in the streets of Madrid, King Alfonso was fired upon three times by an anarchist. None of the bullets touched him.

Although Alfonso XIII is heralded as a popular king, nine attempts, previous to the one yesterday, have been made on his life since he was crowned. He has never been injured. Several times persons near him have been killed.

Every year since 1902 some bomb thrower has taken a pot shot at Alfonso in the springtime. In eight of those years the assassins actually tossed bombs in the general direction of the king. In 1908 two attempts were made. In the springs of the three years when no attempt was made several embryo plots to kill Alfonso in some approved fashion were discovered.

The assassins seem to be about on schedule time with their attempt to kill Alfonso this year. The earliest in the season yet reported was January 6, in 1911. The latest was June 1. That was in 1905. Using those extremes the annual attempt should have been made March 19.

The most serious, from Alfonso's standpoint of all the attempts was on May 21, 1906. He and the queen were driving on Mayor street on their way to the Royal Palace after

they had been married in the cathedral.

The bomb was thrown from a window. It struck an electric wire and fell among the king's military escort. Sixteen persons, mostly army officers, were killed. Only that wire saved the king and queen from being blown to bits. The assassin, an Italian, killed himself. Alfonso calmly assisted the queen into another carriage and drove away. His postillions were spattered with blood.

A year before that, June 1, 1905, Alfonso and President Loubet of France went to a gala performance at the Grand Theatre, Paris. As they were leaving about midnight, surrounded by a cavalry escort, a bomb was thrown. Several people were injured.

The 1904 attempt was made in Barcelona—the hotbed of republicanism in Spain. Alfonso was there to attend an exhibition arranged in his honor. Two persons were killed by the bomb.

The 1908 attempt in Seville was not quite so serious. It was rumored that Alfonso was to be killed there and hundreds of extra police were scattered about the town. Alfonso went out in ordinary clothes to see the crowd. A policeman attacked him with a club. The officer maintained that he did not recognize the king and took him to be an anarchist.

The second attempt that year, in Barcelona, was also somewhat of a failure from the assassin's standpoint. Alfonso was warned not to go to Barcelona. Wholesale arrests of Republicans were made before his arrival. A bomb hidden in a water pipe exploded after Alfonso had passed down that street. Two other unexploded bombs were found.

The last three attempts, 1909, 1910 and 1911, all failed by accident. A guard found a bomb in 1909 against the palace wall. The fuse was burning. Its explosion would have wrecked the building and probably killed the king. In 1910 arrangements were made for Alfonso to pass a certain statue when he returned from London to Madrid. He went another way. The statue was wrecked. In 1911 he waited for his special train on the platform of the railway station at Malaga. The waiting room was wrecked by an explosion.

This is the Type of Homes You Have Been Looking For

A FIVE-ROOM MODERN BRICK HOME PLASTERED THROUGHOUT AND LOCATED IN A CHOICE SECTION OF FLORAL HEIGHTS
 This house must be seen to be appreciated. Its arrangement, finish and completeness makes it an ideal home. The material used in its construction is of the best grade. Being plastered throughout it assures one of a sanitary home, one that is warm in winter and economical to heat, and on the other hand is cool in summer. Has hot and cold water to every fixture, bath, lavatory, commode, and natural gas in every room. A brick house costs less to maintain in insurance, painting and deterioration and it gives the greatest amount of home comfort. Located on 9th street 1-2 block west of bend-in-car line. On continuous sidewalk and adjoining restricted district. Also on the only 100 foot street in the city. Look over the property before you pass judgment on the price. Then you will concede it is the cheapest property in Wichita Falls.

Price \$3150 00 Terms to Suit

PROGRESS ON GREAT INTERCOSTAL CANAL

Brazos and San Bernard Rivers Will Soon be Connected by Ditch
 Freeport, Texas, April 15.—Work on the last stretch of the Intercostal canal that remains to be dug between the Brazos and San Bernard rivers, which, when completed, will open this great Texas inland waterway for navigation from Galveston to Corpus, continues to progress at a rapid rate.

T. J. Morahan, assistant to Captain John Jacobson, in charge of the dredging for the Metropolitan Contracting Company of Texas City, who have the contract for digging the canal, stated today that unless some unforeseen accident or unforeseen obstacle was encountered, the work would be finished about the middle of May. The company's dredge Matagorda is approximately 10,000 feet from her Brazos river goal.

The Matagorda was equipped during the past week with a new pump runner capable of increasing her dredging capacity. Since the installation of this runner the dredge has been making more rapid progress in the construction of the canal than she has in the past. This new equipment should make it possible for the dredge to finish the less than two miles that remain to be dug in record time.

The dredge is now working in the strip of mainland adjoining Bryan Lake. It is estimated that the Matagorda will reach the lake within a few days. Bryan Lake at the point where the dredge will cross is 2500 feet wide and, according to Mr. Morahan, the Matagorda will go through this in five days at the outside. Once the lake is crossed a comparatively short distance of mainland dredging will remain to be done, as the canal has been dug one mile to the west from the Brazos river.

The various committees of business men who are arranging the program of events and entertainment planned for "Farmers' Day," which is to be held here on Saturday, April 19th, have practically completed all the preliminary details. The "Farmers' Day" will be the principal feature of the day. This is to be held in the Tarpon Inn and will consist of morning and afternoon sessions. Among the topics to be discussed will be the advisability of increasing acreage of

NO VERDICT AT NOON IN HOUSTON TRIAL

By Associated Press. Houston, Texas, April 15.—In the trial of H. M. Bradley, charged with the murder of J. E. Wright Christmas week, the jury had reached no verdict at noon. The two men were partners in an automobile garage; Bradley admitted killing Wright with a blow from his fist but claimed the blow was struck in self-defense.

IS JACK OF ALL TRADES

Senator Ashurst of Arizona in a Class by Himself as Shown by Official Biography.

As a jack of all trades, Senator Henry F. Ashurst of Arizona is put in a class by himself by his biography, which is published in the Congressional directory for the new session. After recounting that he became a resident of Arizona when three months old, and studied business, law and political economy, the biography continues:

"He has pursued the following occupations: Lumberjack, cowboy, clerk and cashier in store, newspaper reporter, hodcarrier and lawyer.

Senator Fall of New Mexico, whose biography is another new feature as a person of diversified employment. It is stated that he "has worked on a farm, cattle ranch and as a miner."

The other biographies appear practically as they were in the last directory, published during the last session of congress. Although he has announced he will act as a "progressive" during the coming session, Senator Poladexter is listed as a "Republican."

A Prescription

is a physician's order for medicinal agents used for the alleviation of pain and the cure of disease. This order is of vastly more importance than your grocery order. If your groceryman sends you spoiled strawberries or petrified beef steak you know it the moment you see it but if your druggist uses cheap imitations in the prescription for your child that is sick you do not know any difference. If your child should die you would think it was fate, if it recovered you would be thankful but you would never know whether your prescriptions were correctly filled with standard goods or not. Years of experience has taught us the gravity of the responsibility that rests on the shoulders of the man whose duties are in the silent prescription room where every effort should be made to aid the physician in his fight to save life. It is here that paltry dollars are not a consideration and price is of no importance. When a life hangs in a balance that a grain of dust would break you would throw in the earnings of years of toil and give every thing but your soul to bring the sick one back to life and health. Should misfortune overtake you remember our mission is to help you and there is nothing in the markets of the world that is too expensive or far away for us to get for you.

NEGLIGENCE

WHAT does an unmarked grave call to mind? You look upon it and wonder who they were. Every cemetery shows the unmistakable outline of unmarked, unremembered graves, and as we look we know their life was as full of all the human emotions, of love paths and tragedy as our own.

Inattention, neglect, penury; who can tell? The unremembered spot, it is unmistakable proof that some one has lived, and that the name, together with all that life holds dear has perished from this earth.

There are more unmarked graves in Riverside cemetery than any city of like size in the state. What is it? Inattention, neglect, or plain penury. We upon investigation are inclined to think it is the former in most cases.
