BACCALAUREATE SERMON HEARD

DR. J. W. HILL PREACHES COMMENCEMENT SERMON TO GRADUATES

FINAL PROGRAM TO-NIGHT

Diplomas Will be Awarded to Twenty-Eight Young Men and Women at Majestic

An audience that thronged the big auditorium of the M. E. Church, South, to the limit of the capacity of the floor and galleries, attended the baccalaureate sermon which was delivered yesterday morning by Rev. J. W. Hill, pastor of the church.

Tonight the commencement exercises will close with the awarding of diplomas at the Majestic Theatre to the twenty-eight graduates.

Part of the center section of seats in the church had been reserved for the graduates, being roped off with strands of purple and white ribbon and the young men and women took their seats there just before the services started. A special musical feature was an anthem by the choir, "I Was Glad When They Said Unto Me."

Dr. Hill took as his text that portion of the book of Genesis which deals with Esau selling his birthright to Jacob and the burden of his theme was that, just as Esau, to satisfy a moment's physical desire, sold his birthright to his brother, so do many young people today allow all that is worth while in life to escape them in order that passing whims may be gratified.

"Why is it," asked Dr. Hill, "that a boy will stop school and take a job jerking soda or clerking in a store for eight dollars a week, just to get a little money for the picture shows and to spend on a towie head girl?"

Congratulates Students. He congratulated the students upon the successful completion of their high school labors and reminded them that they had incurred debts to their teachers which they could never repay. He expressed the hope that all would continue their education and not consider that the high school marked the end of their studies.

The services ended with the singing of "Stand Up, Stand Up, For Jesus," and benediction by Dr. J. L. McKee.

As the graduates passed out, they were photographed by the moving picture machine, which was stationed across the street.

Tonight's exercises at the Majestic will mark the conclusion of the school year. They will begin at 8:30 with the overture, to be played by Miss Gladys Herron, followed by the invocation by Rev. J. P. Boone. A chorus by the class will follow, then the salutatory by Miss Hazel Gibson.

Miss Kathleen Benson will then give the class history, after which there will be a piano solo by Miss Lois Brothers. Oluff D. Beau champ will give the class oration "The Civilization of Today." The class essay, "The Red Cross Movement," will be given by Miss Bernice Taylor. A chorus of seventh grade and first year pupils will then sing "Ballad." The valedictory "Influence of Pictures" will then be given by Miss Una Cook, followed by the class chorus. Then will come the commencement address by I. W. Parrish of Henrietta and the exercises will close with the presentation of diplomas by W. J. Bullock, president of the school board.

BRIN MAKES LARGE FURNITURE PURCHASES

M. A. Brin of Brin & Dolman, who left here last week for Shelbyville, Wis., to buy their opening stock, reports that he has made some extraordinary deals at a big discount on several car loads of high grade furniture.

He is superintending the loading out of these cars so they will be able to open their new store about June 15th. Mr. Brin expects to be home in about three weeks.

GOD LIVER AND IRON

Two Most World Famed Tonics Combined in Vinol

Cod Liver oil and iron have proved to be the two most successful tonics the world has ever known—iron for the blood and the medicinal curative elements of cod liver oil as strength and tissue builder for body and nerves, and for the successful treatment of throat and lung troubles.

Two eminent French chemists discovered a method of separating the curative medicinal elements of the cod's livers from the oil or grease which is thrown away but to these medicinal elements, tonic iron is now added, thus combining in Vinol the two most valued famous tonics.

As a body builder and strength creator for weak, run down people for feeble old people, delicate children, to restore strength after sickness; and for chronic coughs, colds or bronchitis or pulmonary troubles. We ask you to try Vinol with the understanding that your money will be returned if it does not help you. For sale by Miller Drug Store.

Nothing Better If you have indigestion, no matter how bad, the Robatsch mineral water will cure you. Remember when we deliver water to you, you get a clean vessel that has been scalded and thoroughly cleaned. We use all precaution against the spread of loathsome diseases. Our cork and caps are sterilized before it has been delivered to you. Remember we have a good clean trade and we are improving our plant to take care of our customers. If you want the best for health we have it. G. T. Robatsch, Prop. Phone 1661. Bldg. 24.

MOTION PICTURE FILM COMPLETE

WILL PROBABLY BE SHOWN HERE SOMETIME THIS Week

LAKE SCENES ARE TAKEN

Says Texans Had Prominent Part in Work and Reviews Activities of Past Year

The motion pictures taken in Wichita Falls and at Lake Wichita and in the factory district last week and Sunday will probably be shown in one of the local theatres the latter part of the week. The Chamber of Commerce expects to raise enough money from admissions to pay for having the pictures made. They will probably be shown two or three nights.

The taking of the pictures was completed Sunday afternoon when crews of Lake Wichita were taken including one from Bug Point, one from the middle of the lake, another of the boats, piers and pavilion merry-go-round, Ferris wheel, etc.

The feature picture, however, was one taken at the swimming pool where a great crowd of boys were gathered and participated in adequate stunts before the camera. Sunday morning pictures were made of the crowds leaving the First S. E. Church, South, following the baccalaureate sermon there.

BURKBURNETT FIELD HAS ANOTHER SHALLOW WELL

Showing at 435 Feet on Hardin, Half Mile From After and Fisher's Well

More evidence of a sizable shallow pool in the Burkburnett oil field was unearthed Sunday when the Burkburnett Oil Company, composed mostly of Burkburnett folks, struck good showing at 425 feet on the Hardin tract. While no test had been made up to noon today, it was possible to see the oil standing in the hole and it is believed that it will make ten barrels or better. This well is in the northwest corner of the Hardin tract and is half a mile east of the Allen-Fisher shallow well which is in the center of the north end of the George survey. The Allen-Fisher showing was encountered slightly below 500 feet. The Burkburnett Oil Company used a tar rig going after only the shallow lands.

The Corsicana has made a location on the Warren farm, giving it two in that tract, one being taken over from Greenleaf Brothers. The Burkburnett Oil Company is rigging up or a test on its Warren lease. The producers well on the Warren is now 700 feet.

H. A. Backus, formerly correspondent here for the Oil City Derrick and the Oil & Gas Journal, is in the city on business. He has been spending most of his time in Ohio and Indiana since leaving here last August.

At Petrolia, Esperson's well on the Oyce is down 1500 feet. The Esperson well on the Crosby is shut down at 1100 feet to substitute a rotary rig for the star with which the hole was started. P. S. Granbury is 200 feet deep with his rotary rig on the Oyce. Amarillo Oil & Gas Company's No. 1 Elliott is 200 feet deep. The Mulberry Oil Company on the Larry is 312 feet deep; it found an oil sand at this depth but will go deeper. Myers Oil & Gas Company is fishing at 500 feet on the Grogan. The Guffey is rigging up on the Dunn farm. Riverside Oil Company, on the Leever near Charlie is about 1800 feet deep. Developers No. 5, fee, is 530 feet. Producers No. 14 Myers is 1600 feet, and No. 15 is 200 feet is spudding.

The purchase by the Corsicana of the H. & T. C. section at Electra or \$76,000 has been approved by the court at Greenville. The Corsicana already has two wells on this tract.

REV. J. P. BOONE REPORTS ON BAPTIST CONVENTION

Says Texans Had Prominent Part in Work and Reviews Activities of Past Week

Texans played not only a prominent but a leading part, in the recent Southern Baptist convention at St. Louis, according to Rev. J. P. Boone, who yesterday gave a report of the work of the gathering at the morning services at the First Baptist Church.

He said that Texas led all other Southern States in contributions to both home and foreign missions and that Dr. Gambrell of Dallas, was one of the leaders of the convention. A total of 4982 baptisms took place last year as a result of the evangelistic work of the board of home missions, and these resulted in 6978 additions to the church. The building and loan department collected a total of \$52,291.85 for its part of the work. A new department, that of enlistment and co-operation, was created with A. C. Cree as secretary.

The 22nd annual report of the Sunday school board told of the sale of the Nashville property, purchased for \$60,000, for a consideration of \$200,000. A total of \$84,261.15 were contributed to denominational work. Texas' apportionment for foreign missions was \$100,000 for the next year, and \$85,000 for home missions. The sessions of the convention were held in the Third Baptist Church at St. Louis, an institution with 2200 members and an average Sunday school attendance of 1100.

RADFORD'S APPEAL TO THE CITY MAN

Fort Worth, Tex., May 26.—To the city man of Texas: In preparing this series of articles on agriculture for the press, I had hoped that the book farmers would keep their seats until I had finished, but I realize how impossible it must be for writers of agricultural fiction who sow theories, reap arguments, and market words, to sit quietly while men who toil are talking.

Things have come to a pretty pass in Texas when a farmer cannot enter his field without having to try title with a lot of trespassers and have his work criticised by a battery of book farmers, many of whom have been dodging the plow handles all their lives—then the nerve of it! The consternation caused by the presence upon the agricultural rostrum of one who farms measures, in a way, the distance we have arisen from the soil, but the man who plows has been doing the producing for four thousand years and he will in all probability continue to do so long after the "bookies" have worn themselves out frolicking in the fields and have returned to their legitimate labors.

My age, my occupation and my official position, forbid my entering into a controversy except in self-defense of my organization, but I want to say to book farmers who scoff at our position—beware—the men who plow in Texas will not be mocked.

I take it that the disturbance has subsided sufficiently to proceed with the discussion and I hope that there will be no further necessity for unpleasant words, at least, I shall use none unless the position of the Farmers' Union is again assaulted by book farmers.

The Farmers' Union Responsible.
 In order that the records may be kept perfectly straight, I want to say that I am preaching no new doctrine. The Farmers' Union has stood for the principles outlined in this series of articles ever since it was organized and on October 18, 1911 I gave the press an article which so nearly forecast the things I now want to say that I ask permission to reproduce a portion of it as follows:

"What Texas farmers really need above everything else is the co-operation of business men in financing and marketing cotton for a just price.

"Men with money can do more to bet the prosperity of the business man and the farmer alike by spending less toward educating the farmer in the science of tillage and cultivation, and more toward aiding the farmer in getting better returns on his products.

"Collectively the farmers do not need the advice of business men on how to produce a crop. As a class they understand scientific methods.

"The real problem of the farmer is how to sell his product. If the business men and merchants want to do something to solve that problem, let them lend the money that will give influence to finding or creating a satisfactory market for cotton. If there is to be any effective co-operating between business men and farmers, this is the channel through which will flow the results that will rebound to the interests of both.

"With the proper backing the farmers can fix a reasonable and stable price for their cotton. They are entitled to that much, that is all they want, and they will never be satisfied with less.

"Tax payers, producers and consumers alike are complaining that something is wrong today. Who is to solve or remedy things? Not the farmer alone, nor the merchant, nor the mechanic, but the best brains of all classes must co-operate. The farmer must get pay for the wealth he produces. The welfare of every man or property owner, mechanic and common laborer must be looked after.

"But the prime foundation of Southern prosperity is cotton, so when co-operation brings the farmer a good price for his cotton, not only the farmer, but every citizen of the South shares in the benefits. Cotton thereby furnishes the tone and the strength for all interests in the South. Then farmers should have the backing of all interests in selling at a just and equitable price.

I hope I have made it clear to the reader that the Farmers' Union originated and is responsible for the policy I am now pursuing.

I want in this article to submit the marketing plans as officially adopted by the Farmers' Union to the city men and farmers as well, for their consideration and co-operation.

Farmers' Union Marketing Plan.
 A plan of marketing adequate to meet the situation must give the producer the full benefits of its advantages. As first aid the farmer should have restored to him his independence taken from him by unnecessary, avaricious and lawless lines of industry associated in the handling of its products. Many of the veils that now beset the farmer will disappear when he is free to use his own judgment in selling. No farmer, unless compelled by financial necessity or forced by lack of facilities to hold his crop, will sell cotton for less than it cost to produce it. The Farmers' Union is in position to offer him money and a warehouse to store his cotton until such time as he may choose to sell it.

Warehouse System.
 We have unlimited storage capacity at the ports. We now have 250 or more Farmers' Union warehouses with an estimated total stor-

Why is the soda cracker today such a universal food?

People ate soda crackers in the old days, it is true—but they bought them from a barrel or box and took them home in a paper bag, their crispness and flavor all gone.

Uneda Biscuit—soda crackers better than any ever made before—made in the greatest bakeries in the world—baked to perfection—packed to perfection—kept to perfection until you take them, oven-fresh and crisp, from their protecting package. Five cents.

NATIONAL BISCUIT COMPANY

age capacity of 200,000 bales—with capacity increasing daily—located at interior points, and we are building additional warehouses as rapidly as we are able to finance them. In addition there are many interior points at which storage space is secured. Our warehouses are built with local capital and the plans of organizing a warehouse company are left entirely with the local union. It is the custom to sell stock at one dollar or more per share and charge a reasonable price for storage and in this way many warehouse companies

have declared dividends on the investments. In many instances warehouses are built by popular subscription of the farmers for their use and no storage charge is necessary except to take care of the expense of operating the warehouse. We recommend the building of warehouses in the interior so that cotton can be sold at the point of production until the local banker can have the first chance of financing the cotton.

Financing the Crop.
 We are endeavoring to take out all

Four Burns Sisters, Talented Singer and Musicians, at the Lydia Margaret first half this week.

the uncertainty in the securities issued upon cotton by bonding the warehouseman, insuring the cotton against loss by fire, etc., and asking for loans not to exceed seventy-five per cent of the market value of the cotton. The cotton will then be as good security as government bonds and we ask that money be loaned at six per cent per annum. The title to the cotton of course rests with the producer and he has a right to sell whenever he pleases and the amount borrowed will be deducted from the price and the remainder turned over to the producer. By this means a farmer can borrow, upon his cotton, an amount sufficient to meet his pressing demands and hold the cotton six months or more at a nominal cost for interest, storage and insurance. In fact he can hold it as long as he pleases and sell it his option.

Central Selling Agency.
 We have established a central selling agency at Houston which will keep in touch with all markets, study the world supply and demand, watch closely all agencies that influence prices and give the local unions the benefit of expert advice on market conditions. The central selling agency has made arrangements for storing all cotton at Houston that cannot be accommodated at interior warehouses and financial arrangements have been made to advance money on this cotton so stored at six per cent per annum. This will give all the producers of cotton in Texas an opportunity of storing the cotton in warehouses and securing money on the cotton at the rate of six per cent per annum. The plan has been put into effect by the Farmers' Union for the benefit of all producers.

The advantages which the Farmers' Union has been striving for years to place in reach of the producer are now available and are sufficient to take the pressure of the tenant farmer and others who must sell in order to meet maturing obligations and by so doing they usually break the farmer his God given right to sell when he pleases. The Farmers' Union does not stand for illegal combinations to fix prices. All the farmer asks is a square deal and a chance to get his products to the consumer at a price the consumer can afford to use them and at a price the farmer can afford to produce them. The city man can render us the greatest service in helping take out these extravagant, useless and oftentimes unscrupulous agencies of commerce that fasten themselves like leeches upon the producer and they can assist in finding for us new markets and in regulating the supply to markets he is now serving.

We now have under consideration plans for bringing the producer and consumer closer together in all their feelings, but the problem is a gigantic one and the construction of new machinery is necessary for its successful operation. I shall have more to say on this phase of the subject a little later on.

Many efforts have been recently made to misconstrue the position of the Farmers' Union on production. Our position has been kept so constantly before the public the past ten years that repetition would seem unnecessary but my next article will be devoted to discussing scientific farming.

Fancy Sliced Cold Ham

PHONES 432 and 232 AUTO DELIVERY

One of the things that I aim to specialize on particularly during the warm weather is a very fancy quality of boiled ham. My meat cutter is a crank of the right kind on this subject. He insists on having only the very best quality of ham for his boiled stock and it is put up in such a way so as to slice beautifully and on my slicing machine you get your slices absolutely uniform and as thick or thin as you please. Tell me what you want the ham for, that is, whether for sandwiches or serving at the table, and I will see that you get it just right. The price is 40c per lb.

ATTRACTIVE NEW BILL AT LYDIA MARGARET THEATRE.

Among tonight's attractions at the Lydia Margaret will be Raymond & Barnhart, a comedy team that is said to be one of the best on the road. Numerous jokes, with catchy musical numbers, are included in their act which has received complimentary notices at every point visited. Among the scheduled features will be the recitation by Bernard of a description of the sinking of the Titanic which is described as quite impressive.

Another act on tonight's program will be the Four Burns sisters, who play a great variety of musical instruments, in addition to some excellent vocal numbers. They use the piano, cello and violin principally but their instrumental work gives way before the vocal solos, which are said to be exceptionally good. Three entertaining vaudeville acts

and the usual quota of moving pictures make up the new program at the Lydia Margaret.

Rufe Thompson and mother of Panama, Texas are visiting at the home of Mr. and Mrs. Mart Roberson.

Belton—By an overwhelming majority Bell county road precinct No. 1 recently voted \$150,000 in bonds to be used in building good roads.

Donna—Hidalgo county will vote upon a \$200,000 good roads bond issue on June 18. Settlement throughout the county favors the issue and it will no doubt carry by a large majority.

TOO LATE TO CLASSIFY.
 WANTED TO RENT—Six room house, modern conveniences with barn. Phone 1246. 11 31p

Wichita Falls, Texas, May 26, 1913

Moving pictures are only ones that can really show the activity and busy scenes of Wichita Falls.

Wichita County is now producing over 20,000 barrels of oil a day and royalties are something that the grass hoppers can't bother.

To the graduates—take a look at the world today and be happy. We don't want to be pessimistic, but the prospect will never seem so alluring again so enjoy it while you can.

The following is from the Brown wood Bulletin: "The secret of the remarkable growth of Wichita Falls was revealed at San Antonio when Editor Haney stated that the directors of the Chamber of Commerce of that city met every Tuesday morning at 10 o'clock for the purpose of discussing measures that would be helpful to Wichita Falls, and the further fact that the Chamber of Commerce is spending thousands of dollars to advertise in the eastern papers for factories, showing the advantages of cheap fuel, excellent railroad facilities, etc."

Notice to Patrons of the Wichita Falls Traction Co.

On and after June 1st., 1913, the Wichita Falls Traction Company will inaugurate the "Pay-as-you-enter" system of collecting fares, and patrons are requested to have the exact fare ready on entering the car, in order to save time and avoid confusion.

Packages cannot be handled on the street cars except those that can be handled by the owner and within the car. Baby buggies cannot be handled unless folded or of such size as can be handled on inside of car and not block the aisle.

With the above system in effect, we will be able to give the public much more efficient service, and hope our patrons will assist us by having their nickles and tickets ready on entering the car, and not attempt to take packages on the cars other than specified above.

THOS. R. T. ORTH, V. P. & G. M.

When You Crave Sweets

Velva, that good syrup with the RED LABEL, on a muffin, a biscuit or even on a slice of bread. Velva is not only a sweet—it is a food. An ounce of Velva carries more nutritive qualities than an ounce of beef—not a theory, but a fact.

Bring one quart of RED VELVA to a boil, add best butter, keep stirring until syrup hardens when dropped into cold water. Grease pan, pour candy on them to cool. When cool enough to handle, pull candy from tips of fingers until it becomes a golden color.

is great on all kinds of griddle cakes and just as good on waffles or popovers. Just you try it on a rice fritter and you'll say, "That's syrup." Ten cents up, in the clean, sanitary red can—or in the green can if you prefer it. Send for the book of Velva recipes. No charge.

PENICK & FORD, Ltd. New Orleans, La.

The Supple, Slender Figure

The present fashions require a supple, slender effect. You should look natural as if uncorseted. The figure must be proportioned so that all lines are as nearly continuous as is possible.

This shapely effect can be easily and accurately gained if you wear your individualized Henderson Corset. There are special Henderson designs for large, average and slender women that will give the exact figure-lines that each require.

Henderson Corsets are designed and constructed on a hygienic basis that will enable the wearer to mould her figure to this graceful effect comfortably and easily. And these splendid corsets will give lasting service as they are double boned, have double side stays and the reinforced front clasp.

No matter what specification you require, low, high or medium bust, conservative, medium or long skirt length, etc., we can fit you perfectly with a Henderson Corset.

ONE GAME LOST ANOTHER IS TIED

SHERMAN TAKES FIRST OF DOUBLE HEADER BY HARD WORK

EVEN BREAK IN SECOND

Defilers Shy on Fresh Pitchers, With Another Double Header Due Today

Special to the Times. Sherman, Texas, May 26.—Wichita Falls' inability to defeat Sherman again demonstrated Sunday when the Cubs won the first game of a double header and tied the second. The Defilers, although defeating teams stronger than Sherman, have been unable to do much to Sherman this season.

Wichita Falls took the lead in the first game on five hits and three errors that netted five runs, but Sherman got the lead back a run at a time. Myers pitched the second game for the Defilers and held the locals safe enough in spite of the fact that he had but one day's rest since pitching against Ardmore.

Kizlar was back in the game yesterday and got two two-baggers in the second game. Hornbuckle was also back in the game after Lawson met with a minor accident and had to quit. Hornbuckle was taken out in the second game to let Scoggins go in as a pinch hitter and Nixon, a new utility infielder, finished the game behind the bat.

Manager Humphries was benched for kicking too vigorously in the second game. Another double header will be played Monday, although the Defilers have only one fresh pitcher here. Yesterday's scores:

Table with columns for player names and statistics (P, W, L, etc.)

Totals for Sherman game. Score by innings. Summary: Three base hits—Humphries, R. Allen. Two base hits—Appleton, Shelton. Nevitt, Lawson stolen base—Nevitt. DENVER COLTS DEFEAT CLERKS IN FAST GAME

White Holds Locals to One Hit and Gives Pretty Pitching Exhibition

In a game featured by the pitching of Purley White and fast fielding on both sides the Fort Worth & Denver's General office team from Fort Worth defeated the Wichita Falls clerks by the score of 1 to 0. The Denver's pitcher had the Clerks on his hip, striking out nine men, and they only secured a real bingle after two were down in the ninth.

May starred in the field pulling down two drives that looked like extra base swats, after a hard run, which kept the score from being tied.

The Denver run came in the seventh. Eargle singled and went to second on an error by Courtney, was advanced to third on an infield out and scored when Powell let the ball get away from him. Score:

Racing Fraternity Throught The Land Watches The Reopening of Belmont Park

The resumption of horse racing in New York state on Memorial day aroused interest among sportsmen all over the country. Betting had been barred by law in the state for the last few years, and the racing fraternity welcomed the decision of the courts which permitted racing under restrictions as to betting. The general view of Belmont Park, where the opening race meet was scheduled, shows the extent of the track which was, for a few years nothing but a mass of weeds. Governor Sulzer of New York threatened to stop the racing if his investigators found that open betting was going on. August Belmont headed the New York millionaires who made the racing season possible after the court had given its decision.

LIVED ON RAW EGGS

Mr. Richard's Experience With Different Diets: Peaches and Buttermilk for Three Years.

Cecilton, Md.—Mr. George Richards, of this place, during the past 12 years, has probably tried more different diets than the average person would ever use in a lifetime.

What he has to say about his experiments, must therefore be highly interesting to anyone suffering from indigestion or stomach troubles of any kind. He says: "For more than 12 years, I suffered with stomach troubles, and paid hundreds of dollars for doctor bills and medicines. I was also operated on for piles."

I lived on dried peaches and buttermilk for nearly three years. The only thing that would not give me pain was raw eggs. I was a physical wreck. I could not sleep, and was as near crazy as a man could well be.

I must say that after taking two 25-cent packages of Theodore's Black-Draught, it did me more good than all I ever spent for other medicines.

I have been working daily on the farm ever since, and I am as hard as iron. This purely vegetable remedy has been in successful use for more than 70 years. Try it. But beware of the "Theodore's."

FORMER WICHITANS NOT IN LONG BEACH CRASH

Dr. Mark Moore Receives Telegram From Father Saying That all are Safe

Although there are several former Wichitans residing at Long Beach, California, the scene of Saturday's disaster in which thirty-three were killed when the municipal pier caved in, none of those from this city were injured.

Dr. Mark H. Moore received a telegram from his father, R. M. Moore, stating that no ex-Wichitans were in the accident. When the news was first received here it was feared that some of the Wichita Falls colony at Long Beach were in the smash and Dr. Moore was relieved to know that all were safe.

In addition to Butler Moore and members of his family, there are W. W. Jackson and family, Job Barnett and family, Mr. Fain and family and Mr. Ingram and family all of whom formerly made their homes in Wichita Falls, now residing at Long Beach.

Texas Penitentiary System

Dead Broke, According to Special Auditor's Figures

The following on the finances of the Texas penitentiary system is from the Houston Chronicle:

The losses of the system aggregating \$992,241.45 are detailed as follows: On-state farms, \$366,455.88; share farms, \$93,982.54; manufacturing industries, \$5,976.76; prison maintenance and labor, \$142,486.65; general expenses, \$277,772.68; Rusk penitentiary, \$106,600.94.

Profits of the system are set out as follows: Convict labor, charged at the rate of \$1.10 per day in the walls and 50 cents per day on the farms, \$651,324.50; manufacturing industries, \$32,654.09; contract forces, \$4,961.68, making a total of \$689,940.27, or loss from operation aggregating \$402,900.58, to which is added \$13,852.62 carried over from the losses of 1911.

Expenses of Operation In the profit and loss account is detailed the cost of operating the various departments of the system, the losses sustained and the limited profits shown. This account shows the following figures: On the Harlem state farm, expense of operation, \$155,859.15; loss, \$13,531.96; Harlem sugar house, expense of operation, \$81,373.76; loss, \$19,308.38; Imperial farm, expense, \$217,360.47; loss, \$100,274.54; Ramsey farm expense, \$196,641; loss, \$66,213.40; Clemens farm, expense, \$175,881.90; loss, \$78,797.76; Clemens sugar house, expense, \$78,754.72; profit, \$1,118.51; Goree farm, expense, \$13,686.99; loss, \$5,188.76; Wynne expense, \$19,072.67; loss, \$9,795.35; Blakey lease farm, expense, \$79,556.66; loss, \$15,648.29; Burleson & Johns lease, expense, \$67,739.68; loss, \$24,660.94; T. W. House lease expense, \$107,294.20; loss, \$89,749.72; N. A. Shaw share farm, expense, \$32,930.80; loss, \$25,233.37; Lakeside Sugar Refining Company, share farm, expense, \$85,192.17; loss, \$54,821.91; H. L. Trammel share farm, expense, \$43,373.03; loss, \$32,927.26; blacksmith

shop, expense, \$14,452.47; loss \$2859.86; shoe shop expense, \$8062.64; loss \$3,110.90; Rusk penitentiary, expense, \$134,176.18; loss, \$106,600.94; machine shop expense, \$36,675.45; profit, \$10,511.74; tailor shop, expense, \$16,152.05; profit, \$19,161.09; cabinet shop, expense \$959.13.

Passing to the condition which confronts the people of the state with reference to the system, it is not unfair to say that much of the difficulty can be traced to the constant changes in methods which have come with each administration.

Fortunes of politics may be held accountable to changes in policies, not all of which have been beneficial, and some of which have resulted disastrously. It began to be realized forty years ago that the practice of appointing prison authorities for political reasons was far from satisfactory.

The best warden in those days was the man who could show the best balance sheet at the end of the year, and this was the principal test of the excellence in prison management.

Some Placed at Disadvantage There has been in Texas, perhaps, too much tendency to apply this test to those who have been placed in charge of the system. Those who have been less successful than others have doubtless been placed at a disadvantage by comparison.

The present constitutional provision directing the manner in which the commissioners shall be designated will in some degree relieve this condition in the future, so that the problem which confronts the people of Texas today is one that has to do with determining the kind and character of institution to be maintained and then placing competent subordinates in charge of the work.

The state should not expect the penitentiary to be a large, money-making institution. It has a right to expect it to be self-supporting, and it ought to be able to devise a plan by which this would be possible. The investigation shows that there are a total of 20 separate and distinct inside and outside institutions connected with the present system. The state has undertaken to raise crops of all kinds. It has bought or built sugar mills, constructed railroads, operated an iron industry, and conducted factories of one kind and another within the walls. It has enjoyed periods of prosperity in some of its undertakings. For those successes, those who brought them about are entitled to full credit.

In the final analysis of its history the system has failed to meet the expectancy of the state. For two years its assets have become depleted at the rate of practically half a million a year. The wisdom of the legislature must be directed in an effort to recover lost ground.

One Solution to Problem

One solution to the problem which seems to meet with much favor, and which has the support of those who have appeared before the legislative committee is the continuation of the present constitutional provision for three commissioners and a general superintendent. But the old familiar proverb of "Who shall decide when doctors disagree?" applies with much force when the methods suggested for the appointment of the superintendent are considered.

On one occasion the committee was told that he should be named by the commissioners, by and with the consent of the governor. It is difficult to see how he would not be subjected, by this method, to the very political influence sought to be avoided. Governor Colquitt and State Comptroller Lane are in harmony on the idea of having one general superintendent. Chairman Cabell is in favor of this plan. Others who appeared before the committee suggested, in addition to the general superintendent, the appointment of a manager for each of the farms and other industries, all to be under the direct supervision of and responsible to the superintendent.

With a well defined policy with reference to the business in which the penitentiary system should engage permanently, this plan would probably be favored by the legislature.

Industries a Difficulty

As to the question of the industries that should be maintained, the committee will find it difficult to reach conclusions. The legislature will have before it the suggestion that the state should confine itself to the operation of such factories as will supply the needs of the various institutions of the state with shoes and clothing, and the possible addition of a sawmill factory, which has for the most part proved a financial success. Profitable as it has been, it is not desired to return to the lease system and thus take a step backward in the matter of prison reform.

It was disclosed by the investigation that the percentage of consumption of supplies is abnormal, and that steps are necessary to remedy this condition. It was pointed out that in the consumption of meat and coffee the records of the United States army have been passed by a large margin. This is attributed to the lack of proper facilities for handling the meat after it is purchased, and for making the coffee for the convicts.

Net Fraud Unearthed

One of the most startling disclosures made during the investigation was the one involving the manipulation of the sale of railroad tickets to discharged prisoners by methods which constituted a fraud upon the state. This practice sprang up without the knowledge of the commissioners or other prison authorities.

That it was discovered was due to investigations made by the present auditor, J. M. Moore. That the practice was rendered possible was due to a simple provision written into the present penitentiary law. A condition was created which acted as an encouragement for this sort of thing for

which the legislature must hold itself alone responsible.

In detailing what a convict shall receive when he is discharged the law says he shall be provided with a decent outfit of citizen's clothing of good quality, two suits of underwear, \$5.00 in money in addition to any money held to his credit and undeposited and non-transferable railroad transportation to the nearest depot from whence sentenced.

If the law stopped at that the temptation to defraud the state would not exist. But the legislature added these fatal words: "But, if such prisoner prefers, he may receive such transportation to any point in this state designated by him."

Prisoners have a wonderful facility for acquainting themselves with the law governing them while wards of the state. The majority of them are usually quite as familiar with it as those upon whose shoulders its administration rests. With the opportunity "made and provided" by the state itself, and with an abundance of time on their hands to work out an and engage the co-operation of confederates in the scheme, it is little wonder that this practice sprang up.

Women Want Clear Skin and Bright Eyes

No woman can have a clear skin and sparkling eyes for long if the stomach is not kept in a healthy condition.

Natural beauty creates more admiration than the kind you buy by the box.

SHONA Stomach Tablets are fine for any upset condition of the stomach. They instantly relieve after dinner distress, drive out poisonous gas, stop fermentation, and make the breath as sweet as a nut.

Foodstuffs & Lynch gladly guarantee them for indigestion, gastritis or dyspepsia, for sallow blotchy skin and that miserable feeling. Only 50 cents, that's all.

VETS MARCHING ON CHATTANOOGA

(Continued from Page 1)

the survivors of the Confederate army and their friends.

With a complete and intelligent organization throughout the entire city for handling an immense crowd, and for giving the people all of the police protection that may be necessary Chattanooga feels safe on the score of good order. It will be preserved at any cost.

As to housing the crowd, there should be no fear in any quarter. If the attendance is double what the committee expects it to be, every man, woman and child will be taken care of in satisfactory manner.

The feeding and housing facilities of Chattanooga have been very greatly enlarged for the reason, in anticipation of a record breaking attendance. All who come will be given satisfactory accommodations at prevailing prices.—Rates for beds and meals have not been advanced, nor will they be.

The parades and the social side of the reunion, have been laid out along the same broad lines. Two of the best features of reunion week will be the parades and a round of social functions, all of which have been fully described in this correspondence.

The plans for entertaining the reunion are complete, and will be more than satisfactory to the visiting thousands who will attend the meeting. That a most pleasant and interesting meeting will result, there is no fear whatever in Chattanooga. This city knows how to entertain a crowd and it thoroughly understands what the veterans expect. All expectations will be met, if not largely exceeded.

In natural and historic environment, Chattanooga challenges the universe. The battlefields, where 50,000 men were killed, wounded and missing in the terrible battles of fifty years ago, will afford those who fought and lived an opportunity to study the conflicts that drenched the fields in blood, by looking over the ground where Greek met Greek and built an imperishable monument to American valor.

To go over these battlefields, study the ground and allow the imagination to go back fifty years, will be a pleasure indeed although it may be mixed with a tinge of melancholy as well on all the great battlefields of the world.

Kerrville—The taxpayers of precinct No. 1, Kerr county recently voted \$40,000 for the purpose of constructing good roads. The election was carried by an overwhelming majority.

FOUND
FOUND—Span of mules, strayed into Thornberry neighborhood. One black horse mule, one bay mare mule. Call Frank Burns, Phone 1089. 9 3tc

LOST
LOST—Bay Horse; 15 hands high, 7 years old, weighs about 850, branded on shoulder. Small white spot in forehead, foretop clipped. Three shoes on. Liberal reward for his return to G. W. Lawler. 11 1tc

LOST, STRAYED OR STOLEN—One Brown mare, four years old, 15 1-2 or 16 hands high; scar on the right hind leg high up. Lost last Wednesday evening from Wichita Falls. Ten dollars reward for any information. Notify the Constable, Wichita Falls, or Harnden Reynolds, Wichita Falls, Texas. 11 1tp

Notice to Knights.
There will be a special meeting of Pioneer Lodge No. 49 K. of P. at the Castle Hall, Thursday evening, May 29, at which time I will demonstrate the new Rank work in the three ranks. There is quite a change in this work and all who are interested should attend. I will also make report of Grand Lodge meeting which I attended as your representative. This meeting was held in the city of Corpus Christi the 13th and 14th of this month and would like for you to be present. A special program of entertainment is being prepared by the committee and I urge that you make it a point to attend.

A. G. DEATHERAGE,
K. of R. & S.

DISAPPOINTMENT

Is that which comes to those who build their homes, and fall to use the best Mantle, Wall, and Bathroom Tiling, set by some one who knows how.

Every few days some one comes to us with a tale of disappointment, having been misled by the apparent difference in cost between superior and inferior material and labor. Cheap material, set by inexperienced hands comes high and results in disappointment.

We demand only a fair profit, regardless of what competitors say, and what we say, we do—without any disappointment to you. If you are in the market for anything in our line, remember we are leaders.

and they will tell you how to Kill Germs and Prevent Disease. 709 Ohio Avenue Free Delivery

A DENTIST SAID TO THE WRITER THE OTHER DAY

"Some people say I am high priced, and some say I am rough, but none of them can say my work don't stand." That's what counts—RESULTS—We have customers say, "At first glance some of your prices seem high but we find upon comparison that we live cheaper and better when we trade with you." We think its the nicest thing they could say. We have been in the grocery business under one roof for twenty-five years and have lots of customers that started with us.
