banquet late in June or in July, and a committee was named to make the necessary preparatoons. At a later meeting the association will appoint delegates to the meeting of the state association at Beaumont.

Mr. Pennington made an effort to withdraw from the directorate last night, saying he felt that someone else could be of more service, owing to the fact that he does not share in the work of the credit bureau. So far from allowing him to withdraw, the merchants not only reelected him a director, but made him vice presi dent as well.

Both President Bean and Vice President Pennington made characteristic speeches of acceptance. When nomi nated for vice president, Mr. Pennington attempted to shove the honor ou to T. B. Noble, but was unsuccessful The new directors chosen were Joe L. Art and Dew Millsap. All the other directors were reelected.

through streets walled on each side by thousands of spectators. The ndards carried by the cavalrymen almost touched the overhead arches formed by the entwined Confederate and United States flags Nearly a thousand of the veterans were mount ed on spirited horses loaned by the Eleventh United States Cavalry at Fort Oglethorpe. Long Line of Marchers.

As the ex-warriors filed past, grim and grizzled and gray, the thought of the thousands of warriors who had marched on before to the "white tents far away" moved hundreds of the spectators to tears; it was a scene to move the most indifferent. Feeble with age, many of the veterans stum bled and staggered as they marched, trying to keep-step; finally they would drop out of line, to be picked up by the automobiles which followed the marchers. There were many who believed themselves equal to the march, but who had to drop out to keep from being overcome.

In line were representatives of practically every camp of veterans in the South; Sons of Confederate Veterans, marching and in automobiles; spensors, be-ribboned and badged many of them in semi-military costumes, rode in automobiles and on horseback. Bands at frequent intervals provided lively music.

None of the divisions appeared with even a semblence of its former strength. There were pitiful gaps in the gray columns. Those who remained marched proudly beneath the tattered battle flags that told their mute story of conflict.

In advising against the chartering of these organizations the depart-ment held the statute did not authorize organization of clubs for the purpose of social gatherings, nor incorporation for fraternal purposes, to romote social entertainment and to provide amusement and recreation for members.

WITNESSES HEARD FOREIGN TRADE SHOWS SUBSTANTIAL INCREASE

Gain in Exports of Manufactured Ar ticles During Present Year Larger Than Usual

Washington; May 29. - Secretary o Commerce William C. Redfield, in commenting upon the figures for the exports of the United States by great groups during the ten months ended April 30, 1913, states that the returns show very striking results when compared in their details with the corresponding period for the preceding year.

Manufactured goods are divided in-to three classes, viz, foodstuffs partly or wholly manufactured, manufactures for further use in manufac-turing and manufactures finished ready for use and the total exports for each of these classes for the first ten months of the fiscal years 1912 and 1913 were as follows:

Foodstuffs partly or wholly manufactured 1912, \$275,847,856; 1913, \$271,726,527.

Manufactures for further us manufacturing 1912, \$278,403,749; Manufactures finished, ready for

These figures show an increase tural Iron Association in criminal exports of manufactures for the ten court here today. Foster was fined months of \$154,086,415, an average increase per month of over million dollars, or at the rate of half a million dollars per day. The details are, however, even more inter-Ryan alleged Foster had assaulted esting. There is a failing off in the him and caused his arrest upon total exports of manufactured food. stuffs of a little over four million dollars, but there is an increase in exports of manufactures for further use in manufacturing of over sixty-two million dollars for the ten months and in the item of manufactures ready for use there is an in-crease in the ten months in excess of ninety-six million dollars.

There has, therefore, been an in-crease in sales abroad of manufac-tures for further use in manufacturng at the rate of over six million lollars per month and an increase at the same time in the single item of manufactures sold abroad ready for use at the rate of over \$9,600,000 per month. Thus if appears that in the lines where it is sometimes claimed America has the least competing power the increase in her trade is greatest. Not only are exports of manufactured goods gressing at the average rate thus far through the fiscal year of five million dollars every working day, but these sales have been increasing over former records at the rate of nearly \$300,000 daily throughouthe ten months thus far elapsed, nearly \$300,000 daily throughout Manufactures ready for use now form nearly thirty-one per cent of the entire export trade, and combin-ed with the other manufactures mentioned above make a total slight-

largest volume of exports ever made by this country.

The total volume of trade for the ten months has been: Imports, \$1,647,039,463; exports, \$2,107,873,911, leaving a trade balance in our favor for the ten months of \$559, 834,448. This is, equal if the same ratio is maintained through the last two months of the fiscal year, to a trade balance in our favor for the entire year ending June 30, 1913, in excess of 670 million dollars.

HOOKWORM FIGHT WAGED WOMEN'S WORK HOUR LAW IN THIRTEEN COUNTIES

Over Forty Per Cent of Those Ex amined Are Found To Be

Austin, Texas, May 29.—Dr. Morris Boerner of the Hookworm Commission in a report of the work done by that body since it was organized on August 6, 1912, traces up the work done in thirteen counties in Southeast Texas. The general average infection found in these counties was 43.1 per cent. Examinations to the num-ber of 23,021 were made, and 9928 were found infected. Treatments numbering 12,722 were given.

The thirteen counties given in the report' represent a section of South-east Texas embracing 12,832 square miles, inhabited by 321,987 people. Of the total population, 23,081 persons, or one-fourteenth of the entire population, have been examined for hookworm infection. Of these 23.021 persons, 9936, or one-thirty-third of the entire population, were found to be infected with hookworm and were

In the thirteen counties there are 85,404 children of the school age. Othe total school population, 10,739 or one-eighth of the school children were found infected with hookworm

and were treated.

All of the above referred to examinations were made with the miroscope and therefore constitute indisputable evidence that hookworm disease is very prevalent in certain sections of Texas. It is impossible to estimate the economic loss to the State resulting from this disease. However,a conservative statement is that hundreds of thousands of dollars are lost to Texas because of an easily cured and preventable disease.

That the county authorities are materially interested in public health matters is evidenced by the fact that twenty-six county commis-sioners' courts have already appropriated money to supplement State's funds for carrying on a sani-tary campaign in their respective counties. The counties having made the appropriations to date are as fol-lows: Jasper, Angelina, Montgom ery, Hardin, Liberty, San Jacinto Maverick, Polk, Panola, San Augus tine, Jefferson, Harris, Walker, House ton, Waller, Grimes, Orange, Brazoria Robertson, Shelby, Brazos, Austin Henderson, Smith and Navarro.

Minstrels Make Good J. M. Busby's minstrels played to a crewded tent last night. They were by far the finest minstrel troupe that ever visited our city under can Anyone who likes minstrel shows could not help but be pleased at their singing and dancing, which was greeted with round after round of applause. The show is new, clean and up to date, replete with new ongs and certainly deserves the exellent patronage which it received. -Alva Daily News. Wichita Falls, May 31.

IN THE SPHERE OF WOMANKIND

The Woman Tamer. He said, "She shall be my slave! besser in all than I; Feeble of body and brain, She shall carry a golden chain, In the golden cage I gave" ...

And he found a treacherous creature of hate and fear.
With teeth and claws that were ready when he came near!

He said, "She shall be my star! I will set her high above This dusty world of mine. I will bow me down at her shrine, for the light of her love, And worship her from afar."

But he found that the light of her love had been withdrawn, Leaving only a faint chill pity, faint chill scorn.

He said, "She shall be my friend! Side by side let is stand, For I need your help and you Comrades true and true, With my hand in your dear hand We will see life out to the end"...

And he turned and her eyes met his; and I think she caled (But she laughted through her tears) and she came to her place at his

......... General Manager Managing Editor

Wichita Falls, Texas, May 29, 1913

It is a very cold day in August when fire insurance companies can not ge up some excuse for either maintaining present high rates or raising them. The fire loss record for Wichita Falls entitles this city to a 10 per cent. repremiums, but now it seems that the fire insurance companies have dissatisfied with the water supply for are protection and note a long list of improvements to be made at the expense of the water company. The fear is expressed that unless these dations are followed out to the letter, the 10 per cent, due the poli-cy holders of this city on the fire loss record will not be paid, and those of us who know the tactics of fire insur nies have no reason in the world to doubt but that they mean to do that very thing-keep the money Doubtless, if the water company would of its own accord make the improvements suggested: the laying of additional and larger water mains, making certain changes in machinery at the pumping stations, metering of all service connections to consumers, and many other improvements and changes too numerous to here mention, or if the City Council had the power to ompel the water company to make the changes as suggested by the fire insurance companies, that 10 per cent. due on premiums might be paid the policy holders, but to us the chance of such a thing really happening seems small, and as one of the policy holders we are going to kiss our phospective ten per cent rebate good-bye. Fire insur-ance rules are made—not for buildings that are already constructed, but for those to be constructed in the future, and a risk that would meet with the approval of fire insurance compa nies today, in all probability, might not satisfy them next year.

THE TARIFF AND THE FARMER

The Times has received the follow ing circular letter and is asked to publish same, which request it grants cheerfully, but does not endorse the senteminets expressed. The Times, ng a Democratic newspaper, an having supported the present administration with full knowledge of the kind of tariff legislation that would be put into effect in the event the Democratic ticket was elected, and the platform demands of the Democratic party carried out, could not con sistently condemn the administration for attempting to carry out platform pledges. In other words, the Times believes "every tub should stand on its own bottom" and that it is unfair to take money out of one man's pocket and give it to another. The letter referred to above follows, and those who wish to comply with its terms can do

Get The Syrup Habit— It's Good For You

Velva Syrup is more than a mere sweet. It's a fine, wholesome, healthful food. It's just what growing children need - and it's good for grown-ups, too. Earnest, careful scientists have long ago exploded the mossy idea that sweets are harmful - and they tell you that sweets are necessary. You'll find

has the smoothest of sugary flavor and rich color. It makes candies, fudge, cakes and cookies that just melt in one's mouth. It goes great with griddle cakes and it will make your good muffins, waffles and biscuits better. Try it and see if this isn't so. Ten cents and up, according to size. Velva in the green can, too, at your grocer's. Send for the book of Velva recipes. No charge.

PENICK & FORD, Ltd. New Orleans, La.

Notice to Patrons of the Wichita Falls Traction Co.

On and after June 1st., 1913, the Wichita Falls Traction Company will inaugurate the "Pay-as-youenter" system of collecting fares, and patrons are requested to have the exact fare ready on entering the car, in order to save time and avoid confusion.

Packages cannot be handled on the street cars except those that can be handled by the owner and within the car. Baby buggies cannot be handled unless folded or of such size as can be handled on inside of car and not block the aisle.

With the above system in effect, we will be able to give the public much more efficient service, and hope our patrons will assist us by having their nickles and tickets ready on entering the car, and not attempt to take packages on the cars other than specified above.

know its history.

If I a stock of rags should keep, I'd read up sundry books on sheep and wool and how it grows. Beneath my old bald, freekled roof, I'd store some facts on warp and other things like those. I'd try to know a spinning jack from a patent churn or wagon rack, a loom from hog-tight fence; and if a man came in to buy, and asked some leading question. I could answer with

If I were selling books, I'd know a Shakespeare from an Edgar Poe, a Carlyle from a Pope; and I would know Fitzgerald's rhymes from Laura Libbey's brand of crimes, or Lillian Russell's dope.

If I were selling shoes, I'd seize the fact that on gooseberry trees, good leather doesn't grow; that shoe pegs do not grow like oats, that cowhide doesn't come from goats—such things I'd surely know. And if I were a grocer man, I'd open now and then a can and see what stuff is held; 'twere better than to writhe in woe and make reply, "I didn't

know," when some mad patron yelled. I hate to hear a merchant say: "I think that this is splendid hay," "I guess it's first class tea." He ought to know how good things are, if he would

sell his silk or tar or other goods to me. Oh, knowledge is the stuff that wins; the man without it soon begins to get his trade in kinks. No matter where a fellow goes, he's valued for the things he knows, not for the things he thinks.—Walter Mason.
