G. O. P. LITERATURE IS WRITTEN BY SUGAR LOBBY

PUBLICITY PLAN METHODS TOLD

"PRESS SERVICE" GUARANTEES PUBLICATION OF 50,000 LINES MONTHLY

INQUIRY MAY BE LIMITED

Objection is Made to Going Back of Present Session of Congress to Investigate

By Associated Press. Washington, June 18.—The character of publicity of beet sugar men was outlined in one of the unsigned letters in the Hamilton correspondence addressed to Sidney Ballou, an active figure in the Hawaiian sugar organization. It said the beet sugar men had made a contract with the Press Service Company at \$2500 a month for publicity.

"They guarantee the publication of 50,000 lines a month of matter pertaining to the sugar industry," the letter added.

The Senate committee was confronted with a formal objection from Henry T. Oxnard of the American Beet Sugar Company and Truman J. Palmer, head of the Washington office of the sugar interests against reading any more correspondence addressed to and from them and dated prior to the beginning of the present session of Congress. John W. Yerkes, an attorney, broke into the proceedings when a letter from Oxnard to Palmer, dated in 1896, was read. Yerkes contended the committee was limited to investigating matters affecting legislation before the present Congress. The committee took the objection under advisement. The letter said in part:

"I have a letter from Mr. Maury in which he says that Mr. Gove will go around trying to educate congressmen. Will you please give Mr. Gove any statistics he may desire?"

May Summon Lovett

Senator Norris today proposed a resolution to broaden the powers of the lobby committee to call Robert S. Lovett of New York to explain statements that the railroad authorities had been approached by persons professing to have influence in the Union Pacific Southern Pacific dissolution matter.

After some discussion the resolution was adopted by unanimous consent.

More letters and telegrams from files of the anti sugar "lobby" put into the records of the investigating committee purported to show that the beet sugar men furnished the sugar tariff argument contained in the Republican National campaign text book in 1912, engaged Dr. Harvey W. Wiley, former government pure food chief, to deliver lectures, expressed "great doubt" of former President Taft's ability to carry such states as California, Idaho, Utah and Colorado, and added:

"If we don't head him off, we might be able to get a promise relative to the sugar and tobacco industries."

WHOOPING COUGH CURE IS DISCOVERED IN PARIS.

Paris, June 18.—Discovery in the near future of a cure for whooping cough was predicted today at the Academy of Sciences by Dr. Emile Roux, director of the Pasteur Institute. Dr. Roux was merely transmitting the report of Dr. Alfred Conner, bacteriologist of the Belvedere Military Hospital, Tunis, where with the collaboration of Dr. Nicholle, he had prepared a solution containing living whooping cough bacilli which he injected into 123 children suffering from the disease, repeating it every two days. Thirty-seven per cent of them improved. In less than three weeks, whereas under ordinary treatment the mildest attacks lasted two months.

PROPOSED MEXICAN LOAN IS BARRED IN BERLIN

Berlin, June 18.—Issues of the proposed Mexican National Railway and the Mexican Government loans, were barred from the German markets today by the Prussian minister of Commerce. He notified banks today in the international syndicate in charge of the loans that they could not be listed on the bourse.

This action was taken as a sequel to the request of the German government to the great German banks to desist from further foreign operations in view of the monetary pressure. It is understood that the German underwriters of the loans will endeavor to place their quotas abroad.

1000 AT HOUSTON FOR BAPTIST LAYMEN MEETING

By Associated Press. Houston, Texas, June 18.—Fully 1000 visitors were present this morning when the Baptist laymen of the east country convened. Notable dignitaries are present from many States.

RUEMAN G. PALMER

"FREEDOM OF PRESS ENDANGERED BY LAWS"

Newspaper Woman Reviews Some Recent Court Decisions at Meeting of National Press Association

Colorado Springs, Colo., June 18.—The freedom of the press is endangered by recent statutes and court decisions affecting newspapers, in the belief of Mrs. L. R. Eastwood of Watertown, S. D. Mrs. Eastwood's paper on "Laws that Curb the Press," was one of the features of the program at the twenty-eighth annual convention of the National Press Association of America.

Mrs. Julia V. Strauss of Rockville, Ind., told of "a woman's experiences in Journalism."

Closer organization and the consideration of effective methods of promoting the business interests of the members, with possibly the establishment of an advertising agency, were urged by A. D. Moffett of Elwood, Ind., president of the association.

"Changed conditions have created a demand for something more than mere association," said President Moffett. "The low rates paid for advertising by the middle men and the large profits made through it are well known. There is a growing belief among our members that an agency for the handling of foreign advertising should be established."

ESTIMATES TEXAS WHEAT CROP 11,000,000 BUSHELS

Fort Worth, Texas, June 18.—An estimate of 11,000,000 bushels is placed on the wheat crop in Texas this year by Frank Kell of Wichita Falls, who was here on business. Mr. Kell says that despite the fact that the acreage in wheat was cut down on account of the dry weather during the early part of the season in the Panhandle, the production will be large. The government gives Texas 675,000 acres in wheat this year.

INCREASED OIL PRICES PROBED BY GOVERNMENT

Not Believed However that Standard is Responsible for Continued Advance

Washington, June 18.—Attorney General McReynolds is seeking further information before deciding whether the decree dissolving the Standard Oil Trust has been violated and whether the Federal government should proceed against those responsible.

Under instructions of the attorney general, Charles B. Morrison, government's counsel in the case, is in Chicago attempting to develop more facts. This may take several weeks.

The government's investigators found that the disintegrated parts of the great trust have quit all the unfair competitive methods originally charged. The government's inquiry now relates to the question whether the former subsidiaries of the trust are, by agreement or understanding, refraining from competing with one another and fixing the price of oil.

ROB EXPRESS ON ILLINOIS TRAIN

BANDITS OVERWHELM MESSENGER AND CREW AND DYNAMITE SAFE

RUN PAST THE OFFICERS

Latter Arrive Before Hold Up Men Finish—Only \$500 Is Secured

By Associated Press. Springfield, Ill., June 18.—Two bandits who held up the express car on the "Diamond Special." The Illinois Central's fast train between St. Louis and Chicago were sought in this city today.

After being interrupted in their work by the police the bandits forced the engineer to run past the bluecoats and when a later trial with dynamite forced the safe, they ran the engine into Springfield and escaped.

The safe, according to the local express agent contained not over \$500. In their attempt to get this sum the robbers threatened the engine crew with death, overpowered the express messenger, fired promiscuously at passengers, disarmed one detective and fired at another. No one was hurt so far as known.

The holdup took place ten miles south of Springfield. A danger signal brought the train to a stop and the engine was roved with revolvers. After firing a fusillade along the coaches to intimidate the passengers, disarmed one detective and giner to uncouple the express car from the train and proceed two miles down the track. The engineer obeyed and five charges of dynamite which could be plainly heard by the passengers were fired in an effectual attempt to open the safe. Soon after the train was stopped Conductor McWilliams ran across the field a distance of a mile to a farm house where he notified the dispatcher in this city by telephone.

The first detachment of police arrived while the bandits were attempting to blow the safe.

Ticket Agents' Thrift Brings Him \$5000 In Fare Rebate Coupons

Huntington, W. Va., June 18.—When the United States Supreme Court sustained the 2c passenger fare law of West Virginia, it virtually placed in the pocket of John J. Conway of this place approximately \$5,000.

When the law was enacted by the West Virginia Legislature in 1911 the railroads appealed to the courts and continued to charge 3c a mile, giving passengers coupons entitling them to a rebate of 1c a mile if the courts decided the 2c law was constitutional. Conway, who was a ticket agent, noticed that many persons threw the coupons away and realizing they might some day be good, he began collecting them. The decision yesterday found him with about \$5,000 worth of perfectly good coupons in his possession.

GOATS AND SHEEP NOW ON THE SAME LEVEL

Washington, June 18.—The Angora goat can no longer lord over the pastoral sheep and proclaim its aristocracy for the Democrats of the Senate finance committee have put both on a level.

EMPLOY HEROIC MEANS TO RESCUE SWIMMER.

New Haven, Conn., June 18.—John Goglik, aged 16, stared death in the face for four hours in an unusual battle with the swift incoming tide in West River.

While swimming, his legs were caught in one of the tide gates which prevent the water overflowing the weirs. The fire and police departments were called out and a large crowd gathered. A rubber tube was inserted in the boy's mouth so that he might breathe under water.

ZACATECAS REPORTED CAPTURED BY FEDERALS.

By Associated Press. Mexico, June 18.—Mexican Consul Eayon has received official advice that the city of Zacatecas was captured by General Delgado of the federal forces Tuesday without firing a shot.

His record at the detective agency includes a marriage in Oklahoma City, Okla., to Miss Freddie Townsend and his subsequent desertion of her, talking with him per diamonds. His appearance and manner are said to have been one of his greatest assets.

PRETTY MRS. BELAIS MAKES CHARGES OF CRUELTY AGAINST DR. CARRELL AND OTHER EXPERT VIVISECTIONISTS

Mrs. DIANA BELAIS

New York, June 18.—Club women of the country over who do not believe in vivisection of animals for scientific purposes will likely support the action of Mrs. Diana Belais, president of the New York Anti-vivisection society, in protesting to District Attorney Whitman against vivisection as practiced at the Rockefeller Institute. Mrs. Belais laid before the district attorney affidavits charging that cruelties were practiced at the institute by Dr. Alexis Carrel, who received this year's Nobel prize for medicine; Dr. Simon Flexner and other heads of the institution. She asked that a John Doe proceeding be started to find out if her allegations were correct. To try to convince the district attorney that the law prohibiting cruelty to animals is being violated at the institute Mrs. Belais showed a picture of a dog operated on by Dr. Carrel. This picture shows what Mrs. Belais describes as the "tormenting instruments" in use. It was taken surreptitiously by an employee of the institute. "The prosecution of Dr. Sweet in Philadelphia has pointed the way to us," said Mrs. Belais. "We have had evidence frequently of inhuman treatment of animals by surgeons at Rockefeller Institute, Columbia University and at various hospitals, but we always have been informed that they were protected by the law that permits vivisection. Apparently it has never occurred to your attorneys that we could proceed, as the Philadelphia women did, under the statute that prohibits cruelty to animals." Dr. Carrel is on his way to Europe and Dr. Flexner declined to discuss the action of Mrs. Belais. Rockefeller Institute officials, however, declared they had nothing to fear from investigation.

PATRICK HENRY QUOTED BY JAPANESE AGITATORS

"Give Me Liberty or Give Me Death" Appears at Head of Mass Meeting Posters

By Associated Press. Tokyo, June 18.—Posters calling a mass meeting for tomorrow and bearing the headline "Give Me Liberty or Give Me Death—Patrick Henry," were posted today by agitators on walls in the vicinity of the United States embassy and other points in the Japanese capital. The organizers of the meeting declare their object is to secure a more determined diplomatic attitude toward the United States.

MEDICAL SOCIETY IN SESSION AT ELECTRA

Several Physicians From This City Attend—Dr. Hartsook Contributes Paper

The Wichita County Medical Society met at Electra Tuesday night. Dr. Charles R. Hartsook read a paper on "Headaches Due to Pressure from the Nose and Eye Strain." Those in attendance were Dr. Hartsook, Dr. Burnside, Dr. Wade Walker, Dr. Conner and Dr. Macheckney. A larger attendance had been expected, but owing to the bad roads only a few were present.

SOCIETY SWINDLER IS CAPTURED AT ALBANY.

Chicago, June 18.—Word was received today of the arrest at Albany, N. Y., of Charles Harold Waxman, said by a detective agency to have operated all over the country under various aliases as a forger with hotels and society people as his victims.

ARMED VOLUNTEERS ARE OPPOSING NIGHT RIDERS

Vigilance Committee is Formed in Western Kentucky to Check Depredations

By Associated Press. Henderson, Ky., June 18.—Volunteers were armed and sent into the tobacco patches of Western Kentucky to halt "night riding" after the organization of a vigilance committee which numbers nearly four hundred members here. The committee's leader is a man who is said to have been one of the Ku Klux Klan of post bellum days.

TELEPHONE COMPANIES' RIGHTS ARE SUSTAINED

Have Authority to Erect Poles in Any City, Declares State Supreme Court

By Associated Press. Austin, Texas, June 18.—The right of telegraph and telephone companies to erect their poles within the limits of any city was affirmed today in the supreme court when an opinion was handed down in the city of Brownwood vs. Brown Telephone & Telegraph Company, which had erected poles to Brownwood from Gold-waite, but was threatened if prosecution if it attempted to enter Brownwood. Injunction proceedings were granted by a district judge. The supreme court declared that holding just.

WILL FIRE INSURANCE COMPANIES QUIT TEXAS?

By Associated Press. New York, June 18.—Representatives of sixty of the 115 of fire insurance companies doing business in Texas met there this afternoon to discuss the insurance situation in that State possible with a view to withdrawing in the face of legislation inimical to their interests.

CORN CROP GETS MORE GOOD RAINS

OUTLOOK MATERIALLY IMPROVED BY SHOWERS HERE THIS WEEK

COVERS WIDE TERRITORY

Local Crop Outlook Now Declared To Be Best in Years in This Vicinity

Wichita county's corn crop, which has benefited from recent rains until an someone expressed it, one could almost see the lightning bugs flitting through the leaves and smell the roast-corn cooking, was given still better prospects last night and this morning when three-fourths of an inch of rain fell. This rain, following the other recent showers, will be of untold value to cotton and to corn and other feed crops throughout Northwest Texas.

Monday's rain was a local affair, but Wichita Falls was less selfish with that of this morning scattering it over a large section which extended as far north as Elk City in Oklahoma and as far south as Abilene in Texas. In some of the sections visited, particularly on the Texas side of Red River, rain was badly needed and the rain will doubtless be of much benefit. Yesterday and this morning rain fell practically throughout the entire State.

Corn prospects in this section are declared to be the best in years, the only drawback being the damage which grasshoppers have done to the young plants; this damage has been severe in some vicinities, but has not been general. At present there is a good stand and the healthy color of the blades is considered promise of an excellent crop. Feed crops in general are prospering, especially with the late rains, while the cotton that escaped the hoppers is also showing up splendidly.

INCH OF RAIN FELL AT LAMPASAS LAST NIGHT.

By Associated Press. Lampasas, Texas, June 18.—An inch of rain fell here last night insuring a good corn crop.

GOOD RAINS FALLING IN SAN ANGELO COUNTRY.

By Associated Press. San Angelo, Texas, June 18.—Excellent rains are falling in this vicinity today.

LIGHT SHOWERS FALL IN THE COAST COUNTRY.

By Associated Press. Houston, Texas, June 18.—News from over the coast country is that light showers are falling but a hard soaking rain is still needed.

SHOOT A PHYSICIAN THEN KILLS HERSELF.

Savannah, Ga., June 18.—That Mrs. Katie Whisnant, the young widow who killed herself after she had shot to death Dr. Guy O. Brinkley in his private office here, had determined before she left her home to kill the physician, is indicated in a note Mrs. Whisnant addressed to her mother, which was found in her bedroom today.

DR. FRIEDMANN LEAVES AND MAY NOT RETURN

New York, June 18.—Dr. Friedrich Friedmann, the Berlin physician who announced several months ago that he had a cure for tuberculosis, sailed for home today. His institute here was closed recently after the Board of Health had forbidden the use of his vaccine. The doctor did not say whether he would return.

MILITANT SUFFRAGETTES GET 14 DAYS IN JAIL.

By Associated Press. London, June 18.—Two militant suffragettes were today sentenced to fourteen days imprisonment for obstructing the police at a suffragette meeting near the residence of Premier Asquith.

MO BUSIFERS FILE CLAIMS FOR \$400 DAMAGE

Fort Worth, Texas, June 18.—Claims aggregating \$4,400 for damage due to the mob on East Ninth street the night of May 15 were filed with the City Commission today. The claims are for property destroyed by the mob when it looted the negro business section. Other claims have previously been filed, but no action has been taken on any of them. The claimants allege that the police officers advised them to go home and forsake their places of business, which they did. The mob arrived later and inadequate protection was afforded.

TABERNACLE BUILT IN ONE DAY AT LAWTON.

Lawton, Okla., June 18.—A tabernacle with a seating capacity of 2,000 was erected here yesterday on a public school block by volunteers, among whom were preachers, churchmen, merchants and clerks.

SALES MANAGER IS OIL WITNESS

E. C. EBIE IS WITNESS IN OUSTER PROCEEDINGS AT DALLAS

TELLS OF ORGANIZATION

Was Given His Present Place From 26 Broadway—Used Many Pierce-Fordyce Men

By Associated Press. Dallas, Texas, June 18.—An attempt to show that the Magnolia's oil sales department raided the sales department of the Pierce-Fordyce Oil Association to get the bulk of its sales organization was made by the State today in the \$99,000,000 oil and gas hearing. E. C. Ebie of Dallas, testified the Magnolia had secured many of its men from Pierce-Fordyce. He specifically denied any intent to take over the Pierce-Fordyce organization.

It required three men and two boys to carry the records from the Magnolia Petroleum Company's sales department here for use at today's hearing of the oil-penalty and ouster suit. Commissioner Charles C. Robey warned everyone at the hearing "in all due respect and all kindness" that there must be no laughter such as there was yesterday. Mr. Maury formally requested Robey to instruct the Magnolia employees present specifically not to try to influence the proceedings by outbursts of any sort. M. Tinney of the defense objected to Maury's statement going into the record and it was not recorded. Maury saying he was not speaking for the record. Robey said this ruling applied to every one.

Employed at 26 Broadway.

E. C. Ebie, general manager of the sales department and assistant secretary of the Magnolia Petroleum Company was called to the witness stand. He testified that from 1896 to 1910 before coming to the Magnolia he worked at the office for the Standard Oil Company of New Jersey, or companies which he had heard since were Standard Oil subsidiaries. These included the Waters-Pierce Company, for which he worked for a time as Oklahoma division manager.

While working for the Standard Oil Company of New Jersey in 1910 he was called to 26 Broadway where he received the offer to come to Texas, this offer he said leading to his present position. At this 26 Broadway meeting Ebie said R. P. Tinsley, treasurer of the Standard Oil of New York, called him in and introduced him to E. R. Brown, now vice president and general manager of the Magnolia Company. Brown made him the offer to come to Texas.

Ebie said he organized the Magnolia's marketing department. When he began this work he hired as chief clerk E. D. Smith who was then traveling auditor for the Waters-Pierce. He got Smith from St. Louis. Smith supplied a few of the Waters-Pierce forms as models for part of the Magnolia marketing department forms. Ebie said part of the Magnolia's barrels had been purchased from the Standard Oil of New Jersey and some of the wagons from the Standard Oil of Ohio.

Yesterday afternoon when the taking of testimony began H. M. Garwood of Houston, a defense lawyer, in answer to questions by Assistant Attorney General Sweeton, said he represented the Magnolia Petroleum Company as its attorney.

In that capacity he should be also represents C. N. Payne and H. C. Folger Jr., Magnolia stockholders, but he denied that he represents them as individuals.

The first witness was E. M. Hackett, manager of the Magnolia's northern division sales department. Before entering the Magnolia's employment in 1912, Hackett said he had worked for the Gulf Refining Company as local agent at Fort Worth, for the Waters-Pierce Oil Company and the Pierce-Fordyce Oil Association. He was the Gulf Refining Company's local agent at Fort Worth for four years.

Hackett's territory as general sales manager for the Waters-Pierce Company in Central Texas was taken up by the State.

Object to Affidavit

This testimony was based on a copy of an affidavit made by Hackett April 19, 1912, before he left the Pierce-Fordyce Oil Association. The defense objected repeatedly to introducing this affidavit. The State insisted that it was important and Mr. Maury said United States Attorney General McReynolds now has the original affidavit.

A copy was finally admitted with seven different objections by the defense recorded against it. Hackett said that from the affidavits would be found the names of nineteen Pierce-Fordyce employees who went to work for the Magnolia when it was organized. Names of others who quit to go to the Magnolia were not read.

CALLS INDIAN BUREAU THE "FLOWER OF FRAUD."

Washington, June 18.—Declaring that the Indian bureau had the reputation of being the "very flower of fraud," Senator Lane today attacked the Indian appropriation bill when it came up for passage.

MANY ENTRIES IN RACE MEET MADE

LISTS OF SEVERAL HARNESS EVENTS CLOSED ON JUNE 15

ALL EVENTS NOT CLOSED

Some Will Remain Open Until July 20 and Others Until Opening of Meet

Entries for several of the harness events in the race meet to be held in August closed June 15 and the list was made public today. Secretary Jeffries has arrived and assumed his duties.

The entries with the name and address of the owner and the name of the driver where the latter has been selected, are as follows:

2:35 Pace.
No. 1—2:35 pace, closed June 15th. Baby Eunice—J. W. Albert, Childress, McCloud.
Willie Watt—W. P. Parker, Wichita Falls.
Fred Lock—C. E. Mickens, Wichita Falls.
Josie B. and Dixie Hal—J. T. Patman, Clarendon, Waller.
Manjou—J. S. Saylor, Vernon, Crawford.
Allator—M. F. Stone, Elk City, Okla.
Al Onward—W. S. Pike, Lake Charles, La.
Rex, Jr.—Dr. Slack, Clayton, N. M., G. W. Felger.
Symbol G.—Frank Johnson, Lawton, Okla., Chas. Rodgers.
Johnie Patch—A. E. Seigner, Clovis, N. M., Seigner.
Baby Doot—John Simpson, Quanah, Texas, Rainey.
Twincolyte—W. H. Spalding, Center, Texas.
Honest Boy—T. T. Wood, San Marcos, Texas, Wood.
Loudeman Allerton—W. T. Mungler, Lampasas, Texas.
Etta Green—Jno. Breezely, Phoenix, Arizona, Breezely.
Robin Parole—S. H. Sterner, El Centro, Calif., Breezely.
Bill Taft—W. J. French, Sulphur, Okla.

2:14 Pace.
No. 3—2:14 pace, closed June 15. Baby Eunice—J. W. Albert, Childress, McCloud.
Mary Malone and Lord Greenfield—T. J. Jeffries, Childress, McCloud.
Symbol Seal—Robt. Nichols, Dickens, Texas, Anderson.
Willie Watt—W. P. Parker, Wichita Falls.
Fred Lock—C. E. Mickens, Wichita Falls.

Dorothy J. E. Fitzsimmons, Phoenix, Ariz., Breezely.
Buster B.—P. P. Scott, Sayre, Okla.
Floyd Togo—G. H. Black, Wichita Falls.

Entries Yet To Close.
The following entries to close July 26. No. 2—2:20 pace.
Mary Malone—T. J. Jeffries, Childress, Texas, McCloud.

ANOTHER NEGRO PASTOR IS UNDER ARREST HERE

Taken into Custody Upon Complaint of Wife of One of His Parishioners

Rev. D. J. Jones, pastor of the Mount Pleasant Baptist Church, colored, of this city, was arrested last night on a charge preferred by Mrs. J. W. Williams, a member of Rev. Jones' flock. The alleged offense was yesterday afternoon about 3:30.

J. W. Williams gives this account of the affair: "Yesterday afternoon while my wife was at home alone someone knocked at the door and before my wife thought she said, 'come in,' and this Rev. Jones, our pastor, came in. He said, 'Mrs. Williams, I have come to ask you to be my friend, and my wife says, 'Why, Rev. Jones, I should say not—you is my pastor, and my husband is a good hard working man who always treats me right, and besides I have a lot of housework to do before supper time.'

"Rev. Jones then asks once more will my wife be his friend, and she starts to run, but Rev. Jones locks the door and grabs her by the neck. My wife has been taking treatment for a long time for yellow jaunditis and for nervous prostration, but she says she hated Rev. Jones, and yelled for help. Mrs. Florida Moore lives next door and she heard my wife holler, and she says, 'What is the matter, Liverlip?' Everybody calls me 'Liverlip.' Everybody calls the same thing. When Mrs. Moore called that way, Rev. Jones jumped up and ran from the house, but he left his hat and umbrella.

Has Pastor Arrested.
"As Rev. Jones left the house he says to my wife, 'Don't you try to make a case in court out of this.' "When my wife told me I had Rev. Jones arrested."

Rev. Jones' version of the affair differs in many of the details from that of Williams. He said: "I came home yesterday from Fort Worth, and as I passed Jim Williams' house, Mrs. Williams called to me and said, 'I am tired and I haven't got time. But she asked me some more to come in, so I said, 'Well, I will come in and shake hands.' I went in to shake hands and had been there only about twenty minutes when another woman came in and so I got up and went away. I then went over to Brother Gibbs' where I roomed and I went to sleep. When I went to church last night this Jim Williams tried to hit me twice with a billiard cue, and would have killed me if I had not run on to the church. Besides, the man who was in charge of the church was so sore at me, and knew that this is all a frame-up. When I came here from Fort Worth two years ago to take charge of this church I threw Jim Williams and thirty-three others out of the church because of their unchristianity. They was not living the right kind of lives. This made Jim mad and then when we had some additions built to the church I gave the job to some one else when Jim wanted it, and that made him mad again.

Arrested Once Before.
"This is all because when I went on to the church last night, I sent word to the law to come and get Jim for trying to hit me with that billiard cue. When the law came down looking for him, he and his wife framed up this story that they now tell. I never have done what what says I did at the Williams house. "About two years ago I was arrested for something like this, and I didn't want to stay all night in jail so I pleaded guilty. That come about this way, I was out making some collections for the association, and when I stopped at one place the woman was in bed, and I was sitting on the side of the bed, when the law came in and got me. I know I pleaded guilty just to stay out of jail, for I was a pastor and knew it would be wrong for me to stay all night in jail when I was in charge of the church here."

The officers, however, say that Rev. Jones has been taking a chance at trouble for some time, and his actions have kept the colored people of his section of town in a broil all the time. He has been accused of going to church before the bell rung on several occasions.

Rev. Jones was bound over to district court for trial on a state charge. His bail was fixed at \$1,000. This he has so far been unable to secure and is now in the county jail.

The Northwestern hog special came through last night with sixteen carloads of porkers from points in Oklahoma on the Wichita route.

Pennington's

Red Cross Shoe

The Famous Red Cross Shoes with a world wide reputation where quality is not sacrificed for styles

Painful Mystery Solved:
Officers Lodge Pin Is Found In His Pocket

Policeman Graves' lodge pin has been found. The police department, spurred on by the criticism that was directed toward the department because the theft of a policeman's jewelry was perpetrated right in the police station, finally found the pin in the pocket of Graves' coat, where it had dropped—or been dropped by some other officer around the station.

This is the Week That Miss Galvan

is illustrating by expert fittings the style, comfort, and quality of the celebrated

You will be delighted with the way in which the MODART creates a beautiful and graceful figure. A trial fitting by Miss Galvan will cost you nothing. Let us show you how Front Laced Modart gives you the qualities of comfort, grace and healthfulness to an extent you've never believed possible.

Be sure and attend Modart exposition in our corset section

McGrattan-Millsaps Co. 817-819 Ohio Ave.

IN THE SPHERE OF WOMANKIND

Telephone No. 187. WHEN IT ALL STARTED: When Adam met Eve he was bashful and shy. And he stammered and blushed every time she came nigh. Till at last he grew bold and began to pay court (You may put all your trust in this faithful report) And he murmured to her on an evening long the prettiest girl that I ever have seen— And that's how that started. When Eve with a beautiful blush on her face Yielded shyly and sweetly to Adam's embrace And put up her red lips for the true lover's pact (You may set all this down as an absolute fact) She inquired, while he breathed the fond names on his list: "Have you said that to all of the girls you have kissed?" And that's how that started. When Adam asked Eve if she would be his bride, She looked up and looked down, and she sighed and she sighed, And she let him take hold of her lily white hand, (This is history now, as you must understand) The she said in a voice that was dulcetly low: "I must take time to think; 'tis so sudden, you know." And that's how that started. When they had been married a few years or so Then Adam told Eve: "We're invited to go To a dinner and dance with some friends down in Nod." (This is truly authentic, although it sounds odd) Eve replied with a sad and sorrowful air: "I can't go. Don't you see I have nothing to wear?" And that's how that started. —Willbur D. Nesbit, in Life.

OLD MAIDS' AID MEETING WITH MISS KATHRYNE HINDMAN

Tuesday's session of the "Old Maids' Aid" was held at the home of Mrs. H. J. Fenton on Brook street, with Miss Kathryne Hindman as hostess. In addition to the club members in attendance there were several of the members' "little sisters" as guests for the occasion and a very enjoyable evening was spent with the usual round of sewing and conversation, followed by refreshments. The next meeting will be with Miss Eddie Carver. Those present were Misses Agnes Reid, Carrie Kell, Jewel Kemp, Eddie Carver, Mabel Simpson, Bertha Mae Kemp, Bess Kell, Edith Mathis, Genevieve Carver, Mrs. H. J. Fenton, Mrs. Jesse Dolman.

NUMBER OF YOUNG PEOPLE ENJOY OUTING AT THE LAKE

A number of young people enjoyed a picnic and dance at Lake Wichita Monday evening, going out on the cars and whiling away the evening hours with dancing a delightful lunch Mrs. J. W. Stone and Mrs. J. L. Jackson chaperoned the party, which included Misses Audrey Adickes, Lillian Bell, Bernice Jackson, Lillian Fain, Thelma Kahn, Ruby Moore, Gladys Herron, Elizabeth Youngblood, Helen Stone, Marie Shelton, Beryl Murph Messers, Clyde Smith, Leslie Milligan, William Robertson, Joseph Kell, Alfred Carrigan, Luther Robertson, Austin Self, Ralph Pond, N. Harrison of Chickasha, J. Atwood of Comanche, Charles and J. Barnard.

TUESDAY PRISCILLA CLUB WITH MRS. J. MILT ERWIN

Mrs. Milton Erwin was hostess to the Priscilla Club Tuesday, for the customary session of sewing, reading and refreshments, the gathering being small but pleasant. The next meeting will be with Mrs. Mark H. Moore. Present were Mesdames Priddgen Moore, Erwin, Eagle, Quinn, Ashmore, Miss Steever.

HANKS-MAHONEY WEDDING IS WEDNESDAY MORNING EVENT

Mr. Henry Hanks and Miss Helen Mahoney were united in marriage Wednesday morning at the home of the bride's mother, Mrs. C. Q. Mahoney at 606 Lee street, the ceremony being performed by Rev. J. P. Boone. The wedding was a quiet one, only the close friends and relatives of the contracting parties being present. Mr. and Mrs. Hanks left this afternoon for Gateville where they will visit for a time before returning to make their home at 2305 Ninth street. The groom is a popular young business man of this city and has resided here for some time; the bride is a young woman of unusual beauty and of much personal charm. Both enjoy the friendship of a wide circle, whose best wishes are extended them in their new estate.

Several citizens will mark the visit here of Miss Dorothy Trenholm who is the guest of Miss Blanche Kahn, Miss Trenholm and Miss Kahn were roommates at school and Miss Trenholm will remain here about a month.

CITY ENGINEER IS GOING OVER PAVING PETITION.

So many of the signers to the tenth street paving petition signed their names like a bank cashier, that City Engineer Hinckley has as yet been unable to determine how many of them are property owners, and legal signers of such petition within the law. He has succeeded in comparing enough names with records that he believes the full seventy-five percent of property owners have signed the petition, but is not yet sure. If that number are found to have signed it, the paving can be ordered done, in spite of the protest of the minority.

COLORADO-TEXAS HIGHWAY PLANS

GOOD ROADS TO BE BUILT WHETHER ROUTE IS CHOSEN OR NOT

THIS CITY ON TWO LINES

Will Probably Be on Both Colorado and Meridian Road Highways

Whether or not the Amarillo-Fort Worth route is designated as part of the Colorado-Gulf highway, the towns and counties along the Fort Worth & Denver from Dallas to Fort Worth will have a continuous highway that will be an attraction to motorists, if present plans are carried out. At present much of the Texas-to-Colorado automobile travel, which assumes considerable proportions in the summer, goes by way of Oklahoma and Kansas and while Wichita Falls is visited by many of the tourists, the towns north of here on the Denver are not, the route branching off here into Oklahoma. Plans are under way by the Panhandle division of the highway association for an organized campaign of road improvement which will furnish a continuous improved highway from Fort Worth to the western limits of the Panhandle. Each county will be assessed 100 to defray the initial expenses of the work, but the work proper, of course, must be done through the commissioners' courts of the counties along the line. Wichita Falls' part of the road is in good condition, compared with the remainder of the route. The complaint was made by the party which was here Monday, that the bridges and culverts "don't fit the roadway," and that there are two bad stretches, one at Iowa Park and one in Wichita Falls. If the Denver route is chosen as the official Colorado-Texas highway, Wichita Falls will then be on two leading automobile routes, the Colorado highway and the Meridian road. This will bring hundreds of automobile tourists here every year. There is much work that might be done, however, on the roads in this county and it is probable that this will be undertaken, possibly by means of a bond issue, before many days. A great deal of improvement has been made in recent months, but it is felt that there is room for a great deal more.

Washington, June 18.—The Bureau of Standards, Department of Commerce, expects to begin, soon after July 1, the inspection of railroad scales, starting with some of the scales of the eastern roads. This test will be made as a result of complaints from shippers as to the weights charged for by railroads, which have recently drawn attention to the necessity for some governmental supervision over railroad track scales, as well as scales used by shippers doing an interstate business. Every grocer's scale is supposed to be tested as to its accuracy periodically in order that the purchasers may be assured of getting correct weight. In addition, the city or county sealer sees to it that the purchaser secures full weight or measure, and prosecutes violations of the law by the dealers. On the other hand, the railroads annually collect approximately 2,200,000,000 from the shippers of the country on scales which belong to and are operated entirely by the roads and over which neither the shippers nor the government has any control. Indeed, any information as to the correctness of the scales, in order to secure information that will enable the government to draw reliable conclusions as to what shall be done to guarantee the accuracy of railroad weights, and also for the purpose of rectifying the scales, the Bureau of Standards was allowed an appropriation of \$25,000 by Congress for the purchase of a test weight car equipment. The contract for this car has already been let, and it is expected that the car will be delivered soon after July 1 when the appropriation becomes available. The equipment ordered by the Bureau will differ radically in principle from any in use. Instead of the wheels, brakes and other movable parts of the car constituting part of the standard weight, as is customary, the Bureau proposes to carry a series of 10,000 pound weights and a truck for moving them on the scales, in a specially designed car provided with a power crane and other accessories for handling the weights. The advantage of this arrangement is that the weights may be standardized and transported from one end of the country to the other with a reasonable assurance that they will remain constant, whereas if the running gear is included in the weight of the test car it would be necessary to verify this weight at frequent intervals. After testing a scale with the standard weights, the empty car may then be put on the scale and its weight determined, after which the weights may be loaded into the car and the scale tested up to the full capacity of the car plus the standard weights.

RAILROAD SCALES WILL HAVE GOVERNMENT TEST

Bureau of Standards Will See How Many Show Correct Weights

Washington, June 18.—The Bureau of Standards, Department of Commerce, expects to begin, soon after July 1, the inspection of railroad scales, starting with some of the scales of the eastern roads. This test will be made as a result of complaints from shippers as to the weights charged for by railroads, which have recently drawn attention to the necessity for some governmental supervision over railroad track scales, as well as scales used by shippers doing an interstate business. Every grocer's scale is supposed to be tested as to its accuracy periodically in order that the purchasers may be assured of getting correct weight. In addition, the city or county sealer sees to it that the purchaser secures full weight or measure, and prosecutes violations of the law by the dealers. On the other hand, the railroads annually collect approximately 2,200,000,000 from the shippers of the country on scales which belong to and are operated entirely by the roads and over which neither the shippers nor the government has any control. Indeed, any information as to the correctness of the scales, in order to secure information that will enable the government to draw reliable conclusions as to what shall be done to guarantee the accuracy of railroad weights, and also for the purpose of rectifying the scales, the Bureau of Standards was allowed an appropriation of \$25,000 by Congress for the purchase of a test weight car equipment. The contract for this car has already been let, and it is expected that the car will be delivered soon after July 1 when the appropriation becomes available. The equipment ordered by the Bureau will differ radically in principle from any in use. BELLE OF WICHITA--IT'S BETTER

any specified amount of stock. We expect to come here whether we place one share of stock or not. As in the organization of a legal bank, we would like to place some of this stock among our future customers and will have only a very limited number of shares to offer for a very few days at par and no promotion expense.

Be this understood: We are coming to Wichita to put in a wholesale grocery, as good as the best. We expect opposition and shall meet it at all times. This is not a one-man company. It is a corporation in which all stockholders shall share in its management. This is a cooperative movement by a great many retail grocers throughout Texas to eliminate the middle-man-costs and make it possible to sell groceries at a lower price, and by this way meet the often heard and just cry of the high cost of living.

Very respectfully,
BORDEAUX AND ALTER,
Fot Dealers & Producers Mercantile Company.

YOAKUM AND SPEYER.
(Herbert Cory in N. Y. Globe.)

When the Frisco system went to lusty smash the other day, the situation began to evolve about two men. One is Benjamin Franklin Yoakum, the big Texas who built up the Frisco from a pair of rusty rails and a right-of-way through No Man's Land. The other is James Speyer, one of the great private bankers of the country. Yoakum represents the stockholders and Speyer the owners of bonds. It follows that their interests are directly opposed.

"Yoakum," said one of his heads of department, "is the liveliest railroad man that ever yanked a bellcord. We don't work for Yoakum. We work with him."

"Speyer," said a banker, "has preserved a peculiarly independent position among New York financiers. French bankers have reposed great confidence in him. They feel that he is a conservative force in American finance, and that he is especially dependable in his opposition to those methods which flowered in interlocking directorates."

Litigation, which may last for years, seems assured over the appointment of receivers. And the interstate commerce commission has been asked to take down its rope and hang some one. And a party of French bankers is reported to be on its way here. The gentlemen want to find out whether any one slipped them the wrong card. And various other commissions will confer over the questions of finance, morality and ethics arising from the Frisco failure. So that it might be well to spare time enough now to look over the two big men of the situation. Yoakum is one of the most semiprecious, always optimistic, champagne-taking men without whom many railroads would have been built twenty years ago. Speyer—always arrayed on the constructive side of finance—is still of a different school. He not only wants a fair return, but he looks to the absolute security of his dollars.

Yoakum, Road Builder.
Ten years ago "Ben" Yoakum had been barely heard of. It is true that he was the president of the Frisco railroad, a miserable, half-starved, skim milk road that tottered out of St. Louis in the general direction of the Southwest. No one in railroad circles considered the Frisco more than they would consider a silkworm. But Yoakum went to building up the road—and building men with it.

"Yoakum knew by his first name every man holding an official position on the Frisco," said one who knows him well. "He knew by his last name every employe of the road in those days. He was on handshaking, baby-kissing, crop-talking terms with every shipper along the right-of-way. Business came to the Frisco. It couldn't help it. As fast as Ben Yoakum got a dollar that the Frisco could be borrowed out of for awhile, he carted an immigrant family down into his territory. A few years of that made his annual statement look a little less like a plea in confession and avoidance."

He actually lived on the road then. He ran a train sometimes, just to keep his hand in. He camped with his construction gangs and worked with his engineers, and hired teams of farmers. When the Frisco got to it could walk without holding onto the cradle he not only knew every mile of it, but he had established a bond of fellowship with his men that perhaps has never been paralleled in railroad circles. He was one of them. He had no strikes, no fuses, no rate wars, no trouble of any sort. If any thing happened that didn't seem just right, the other fellow, before he began to feel aggrieved, "talked over with Ben."

they found Yoakum in the way. He kept them from pushing south from Kansas City, because he held the only road; and he barred them from New Orleans, until they finally bought the Frisco system on his own terms. Later they separated, and Yoakum built up the Frisco system as it stood until the receivers were named the other day. In his hands it was a standing defiance to the laws of financial gravity. Its 7,500 miles of line and \$300,000,000 in bonds were controlled by \$50,000,000 in stock. Yoakum held control of that stock—and it is charged that through the appointment of friendly receivers he still hopes to hold control.

"Yoakum's father was a doctor down in Texas and wanted to train his big youngster to be a dominie. But Benjamin Franklin wasn't built along those lines. He took to railroading because he couldn't keep away from it. He had to go to the Great Northern school of railroaders, conducted by Jim Hill, to take his first lesson. He bossed one of Hill's surveying parties all one summer. The rest of his story is simply a recital of going up from one job to another. His work as a developer of the Southwest has been called as important as that of Hill in the Northwest. Like Hill, he continually opened new territory, and filed that territory with settlers.

"Ten years from now," said an Eastern railroad president, "we'll know Ben Yoakum as one of the great men of his time. But he began ten years too soon."

Speyer is Conservative.
Speyer is Yoakum's opposite. Yoakum in all good faith will "take a chance." Speyer never would—with other people's money. He will put his own money in to help a tottering enterprise, if the enterprise seems to deserve it and the money promises to be safe. Where Yoakum is big and bulky and somewhat overpowering, Speyer is slender and quiet and almost retiring. In anger Yoakum might be loud. Speyer would be cold and low-voiced.

He is a New Yorker. Born here in 1861, he was educated in Germany, served in the Speyer branches in Europe, and was finally ordered to New York in 1885 to take charge of the American branch. The Speyer house antedates the first Napoleon. In all its history it has been a bank of constructive finance. It has furthered great enterprises. From time to time it has assumed the right to act in the realm of diplomacy. More than once the Speyers, in conjunction with other bankers, have forced hot-headed national leaders to pause on the brink of war. They have occasionally taken part in wars on their own account. Once they interfered between the Rockefeller and Morgan factions, and by so doing prevented either warring house from gaining control of a great trust company, and with it a possibly dangerous—at that moment—dominance in financial affairs here.

RAILROADS OBJECT TO INCREASED TAX VALUES

Austin, Texas, June 17.—Hearings were resumed before the State Tax Board, the railroads strenuously opposing the intangible asset values adopted preliminarily. Unless the board makes a number of changes law suits are certain to follow. It is not expected that the board will make radical departures from its preliminary estimate.

Not only is the International and Great Northern making protests, but the Texas Midland is asserting itself, and it is said that the Katy, Cotton Belt and Texasarkana and Fort Smith are displeased at its prospects. The board hopes to conclude its hearings tomorrow and issue the final values shortly thereafter.

The International and Great Northern is endeavoring to have its assessment reduced from \$14,000,000 to \$700,000. Present were Judge Wilson, general attorney, accompanied by Auditor Maury and Land and Tax Agent Cunningham. They had an expert stenographer to record the proceedings. The preliminary estimate of \$14,000,000 is the amount the International and Great Northern was assessed last year. It protested then, but is doing so more vigorously this time.

MEMORIAL TO JEFFERSON DAVIS

Wichita Falls, Texas, June 17th, 1913. To the Confederate Veterans, their Sons and friends of the Confederate cause:

As you will see from the letter of Geo. Young herewith published, an appeal is being made to raise a fund to build a memorial to our beloved president, Jefferson Davis, and they only call on us to raise the sum of \$25.00.

Read this letter carefully and contribute what you can. Money remitted to myself or the Wichita Times will be forwarded to the proper department at Louisville, Kentucky. Names and amounts subscribed will be published in the Times each week so you may know what has become of your money.

Hoping that each Son and Confederate who is able to do so will contribute to this fund, I remain,
Yours truly,
EDGAR SCURRY.

Commander of Trans-Mississippi Department of Sons of Confederate Veterans.
Dear Friend:

The State of Kentucky has done the handsome thing by the Jefferson Davis Home Association in appropriating \$7,500 to aid in a memorial to the President of the Confederate States on the spot where he was born, June 3, 1808. It was good to pay this tribute to her son—the man above all the survivors of the war suffered most for the South in the dreary months of his confinement in chains at Fortress Monroe and in loss of citizenship thereafter. They loved him for the sufferings he endured heroically and without murmur for them and their cause.

The people who believed as Mr. Lincoln believed have built a great memorial structure at his birthplace in Larue County, Ky., and we believe those who had like faith in Jefferson Davis will surely do as much for his birthplace in Todd and Christian Counties. The South cannot fail to do this much to honor Jefferson Davis. He was a martyr and suffered untold sorrow in his loyalty for her.

The Jefferson Davis Park at Fairview, Ky., contains 19 acres of ground. It has been beautifully laid out and in it the memorial to Jefferson Davis will stand. We have half the money to do this fitting honor to Mr. Davis.

You will honor the South and yourself by helping the Association to complete this work. We are asking no greater contribution than \$25.00. One dollar buys a membership in the Association. We trust you will help us in this patriotic work; send one, two, five or more dollars, and we will forward you a certificate of the worthy movement. With the park paid for, we have \$5,000 on hand. This appeal is that you assist in completing the amount towards building the memorial. Send contributions to Capt. John H. Leathers, Louisville, Ky., and they

Threshermen, Take Notice

TODAY'S MARKET REPORT

New York Cotton.

By Associated Press. New York, June 18.—Cotton spots quiet. Middling uplands 12.40. Middling gulf 12.65. Sales 14 bales. Cotton futures closed steady. January 11.48 to 49. March 11.57 to 58; May, 11.62 to 63; July, 12 to 12.03; August 12.08 to 12.10; September, 11.74 to 76; October 11.58 to 59; December 11.55 to 56.

Fort Worth Cattle.

By Associated Press. Fort Worth, Texas, June 18.—Cattle receipts 5200 head. Beef steers very scarce, steady; best \$7.25 to \$7.35. Hog receipts 1800, ten to fifteen lower. Bulf \$8.50 to \$8.60. Sheep receipts 200, weak.

Kansas City Grain.

By Associated Press. Kansas City, June 18.—Cash wheat No. 2 hard \$7 1/2 to 94. Corn No. 2 mixed 61 1/2. Oats No. 2 white 49 to 41.

OLDEST GLOBE-TROTTER.

PLANS TO KEEP GOING. New York, June 18.—At 91 years of age, Dr. J. M. Peebles of Los Angeles, Cal., who is here on his way home from London, believes he has qualified as the oldest globe trotter of the day. He is making plans for his sixth trip around the world in the fall of 1915. Dr. Peebles left the East twenty-eight years ago, a hopeless sufferer from tuberculosis, but in the West he recovered his health and has preserved it by "just behaving" himself and by "always being up-and-doing."

INTEREST ONLY ON PRODUCTION
UNIVERSITY OF CHICAGO PROFESSOR HAS NEW ECONOMIC THEORY
FROM LABOR AND NATURE

Argues That Mere Ownership of Money, Without Production, Should Not Elicit One

Chicago, June 18.—Abolition of interest on capital not directly engaged in production is being advocated by Professor Albion W. Small, head of the department of sociology at the University of Chicago and president of the American Sociological Society. His ideas are treated at length in a book, "Between Eras," soon to appear from the press.

"There should be no income except from labor and nature," said Professor Small. "Mere ownership of money or land should not bring additional wealth to the owner unless he is at the same time a producer. My doctrine applies not only to money loaned, but also to land which is rented and to other business methods of the present day. The whole economic and social theory which modern business takes for granted is radically mistaken."

"I am not an opponent of capital, but I do oppose capitalism, and capitalism is that business phenomenon which increases private wealth without actual production. I believe that the only producers of wealth are nature and labor, which supply the power where capital is merely the grist and millstone."

"Take the case of a man who owns a section of land in the country, rents it out and moves to town. As long as he has possession of that land he gets money for it, not because he is producing anything on the land, but merely because he owns it. Or, take the man who buys land near the center of a growing town and holds his acres for a rise in values. When the ten or twentyfold increase comes after 20 years, is the owner deserving of that profit? No! The owner has produced nothing. He has merely owned the land."

"In the matter of simple interest, it is natural that gold-bullion deposited in a bank can make gold increase, or, in other words, produce more gold bullion? Not at all. Corn, wheat and oats increase naturally, but gold can not. But when gold is made to increase as it is made by our present business methods, then there is something wrong—we are on a false lead, and the whole theory of the productivity of capital is absurd."

"I may be the first of the modern thinkers to advocate the abolition of interest, but certainly not the first in the world. In the Bible we find many passages which show that the taking of interest was regarded as criminal, both before and after Christ. The old Mosaic law contained a number of passages against usury. Usury in those days had a different meaning than we now give it. Usury was the taking of any interest, not excessive interest as we now regard it."

"It is interesting to note that money was first paid for the use of money when the loan was made between strange or hostile tribes, or nations. Interest was never taken when the loan was between friends."

"Continuing from Bible times down through the middle ages we find the Roman Church legislating against the taking of interest, and only desisting from it as commercialism advanced in Europe. Since the discovery of America interest has become a common thing, and may be called a modern development."

"A classical reference to the time when the taking of interest was coming into vogue is in Shakespeare's 'Merchant of Venice.' Shylock hates Antonio because:

"He lends our money gratis and brings down the rate of usance here in Venice . . . He falls on me, my bargains, and my well won thrift, which he call interest."

"Of course, there are many details which must be worked out before business men will think this theory is at all reasonable. I am not at all opposed to capital, but to capitalism. I realize that a man must have a fair return for his labor and shrewdness, but only when that labor and shrewdness are engaged in actual production. Nature and labor are the only true sources of wealth."

UNIVERSITY STUDENTS GO TO GOOD POSITIONS

Practically Every Graduate of Department of Engineering is Employed

Austin, Texas, June 17.—Every graduate of the University of Texas School of Engineering who received his diploma last week has a position waiting for him or will continue in his special engineering course to advanced study. The senior engineering class numbers 24 members and the majority of them will give their services to positions in the United States, while a few will leave for Mexico.

H. E. Giesecke of Austin, bachelor of science in architecture, has formed a partnership in Austin and will practice his profession there. One of the most interesting and popular members of the senior class is L. M. Chokla, a native Russian, who came to this country in utter poverty and without any knowledge of the language. After hard efforts he secured a high school education and came to the university where he took the degree of civil engineer. During his college career he supported his wife and child by his own efforts. There is another Russian in the same class, Samuel Robinson of Garrettsville, Ohio. He is a brilliant student in mathematics, in which subject he was appointed as student assistant.

To Enter Houston Firm.
Z. A. Green of Sayersville has a position in the Santa Fe's engineering department, Galveston, and H. D. McAllister of Austin will be with the Texas Central railway. F. L. Kebleman of Weatherford will be with the Crane Elevator company of Houston. R. E. Killmer of Casa Blanca will engage in railway construction work in Mexico, as will Harry Leonard of Austin. W. A. Smith, Coleman, will join a party of location for interurbans in North Texas. Each year a selected few of the graduates in electrical engineering are chosen to enter the manufacturing plants of the General Electric company and the Westinghouse company. Of the 1913 class R. A. Alexander of Taylor, M. C. Crawford of Calvert, K. S. DeGman of Dallas, C. G. Palmer of Dallas will go to the General Electric company's plant at Schenectady, N. Y. W. D. Burk of Nacodoches and O. K. Green of Fort Worth will enter the Westinghouse plant in Pittsburgh. F. W. Denison of Temple has entered the employ of the Bastrop Coal company at McAdoo, Texas. F. H. Boynton of Waco will resume his studies along advanced lines at Boston Institute of Technology next year.

Paul Hilker of Fredericksburg and E. W. Widen of Austin will join the Southwestern Telegraph and Telephone company of St. Louis. W. E. Keck of Cotulla and W. C. Quebeaux of Midland will return to the university as assistants in the engineering school. C. M. Strauss of San Antonio has gone to San Diego, Cal., to join in a development of a transmission line.

Three Mining Engineers.
The three mining engineers, J. B. Andrews of Austin, H. T. Weaver of Congress Park, Ill., and J. M. Byers of Houston, will leave for Mexico, where they have secured positions. Hal C. Weaver, who was given the degree of electrical engineer in a five-year course, will return to the university as an instructor.

The first day of registration of the sixteenth annual session of the University of Texas Summer Schools was Saturday, June 14. The term will extend to July 1. Prospects are excellent for the heaviest registration the schools have ever had. The summer session of the university was established especially for the benefit of teachers and other persons who can not attend the regular session. Teachers in the city and country schools have already arrived and the greater number will be here for the first day of registration. Quite a few county superintendents will be among those registered in the coming session. Much of the work will have direct reference to the proper teaching of high school studies, such as English, history, mathematics, the natural sciences, Latin, Greek and the modern languages.

QUININE AND IRON—THE MOST EFFECTUAL GENERAL TONIC

Grove's Tasteless Chill Tonic Combines both in Tasteless form. The Quinine drives out Malaria and the Iron builds up the System. For Adults and Children.

You know what you are taking when you take GROVE'S TASTELESS CHILL TONIC, recognized for 37 years throughout the South as the standard Malaria, Chill and Fever Remedy and General Strengthening Tonic. It is as strong as the strongest bitter tonic, but you do not taste the bitter because the ingredients do not dissolve in the mouth but do dissolve readily in the acids of the stomach. Guaranteed by your Druggist. We mean it. 50c.

There is Only One "BROMO QUININE" That is EXACTLY GROVE'S TASTELESS CHILL TONIC. Look for signature of E. W. GROVE on every box. Cures a Cold in One Day. 25c.

RELIEVES PAIN AND HEALS AT THE SAME TIME

The Wonderful, Old Reliable Dr. Porter's Antiseptic Healing Oil. An Antiseptic Surgical Dressing discovered by an Old R. R. Surgeon. Prevents Blood Poisoning.

Thousands of families know it already, and a trial will convince you that DR. PORTER'S ANTISEPTIC HEALING OIL is the most wonderful remedy ever discovered for Wounds, Burns, Old Sores, Ulcers, Carbuncles, Granulated Eye Lids, Sore Throat, Skin or Scalp Diseases and all wounds and external diseases whether slight or serious. Continually people are finding new uses for this famous old remedy. Guaranteed by your Druggist. We mean it. 25c, 50c, \$1.00.

THE BIG BOSS A Thrilling Story of Love and Politics
ALAMO THEATRE TONIGHT

SAID SHE WOULD FAINT
Mrs. Della Long Unable to Stand On Her Feet More Than a Few Minutes at a Time.

Fendergrass, Ga.—Mrs. Della Long, of this place, in a recent letter, says: "For five or six years, I suffered agonies with womanly troubles. Often, I couldn't sit up more than a few minutes at a time, and if I stood on my feet long, I would faint. I took Cardui, and it helped me immediately. Now, I can do my work all the time, and don't suffer like I did." "Take Cardui when you feel ill in any way—tired, miserable, or under the weather. Cardui is a strengthening tonic medicine for women. It has been found to relieve pain and distress caused by womanly troubles, and is an excellent medicine to have on hand at all times. Cardui acts on the womanly constitution, building up womanly strength, toning up the nerves, and regulating the womanly organs. Its half century of success is due to merit. It has done good to thousands. Will you try it? It may be just what you need. Ask your druggist about Cardui. He will recommend it. R. B.—Write to: Ladies' Advisory Dept., Carter-Lewis Medicine Co., Chattanooga, Tenn.—Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request. 1103 Commerce Street Fort Worth

Opinion of the United States Supreme Court

Rendered on Bank Overdrafts

"A usage to allow customers to overdraw and have their checks and notes charged up without present funds in the bank, stripped of all technical disguise, the usage and practice, thus attempted to be sanctioned, is a usage and practice to misapply the funds of the bank; and to connive at the withdrawal of same, without any security, in favor of certain privileged persons. Such a usage and practice is surely a manifest departure from the duty, both of the directors and cashier, as can not receive any countenance in a court of justice. It could not be supported by any vote of the directors, however formal; and therefore, whenever done by the cashier, is at his own peril and upon the responsibility of himself and his sureties. It is anything but well and truly executing his duties as cashier."

The above is an exact copy of decision of the United States Supreme Court.

We ask our customers and friends to be careful and not draw checks that will create overdrafts.

DENISON TAKES FIRST WITH EASE

LOCALS OFFER LITTLE RESISTANCE AND VISITORS SCORE SHUT OUT

PLAY FOUR OR NO COUNT

Listless Fielding by Drillers Contributes Largely to Blue Sox Tally Column

As lambs led to the slaughter house the Drillers were overwhelmed yesterday afternoon, falling to get a man around the circuit while Denison was romping around some eight times. Denison played it four or no count and tallied a pair of fours.

The Drillers seemed to have acute attacks of the woody wobbles whenever a ball came toward them and that the error column is no fatter is due mostly to the fact that a fielder has to at least touch the ball before he can make an error. Brady, in the box, pitched the kind of ball that will win with any sort of support, but Monday had been an off day and the support was about as able as a pair of busted galloons.

There is enough individual talent on the Wichita Falls team to make a crack nine. There is not an individual player in any position that could be profitably traded for any other player in that position, in the league; and yet that bunch will get out and play without system, without team work, without pep and lose to inferior teams. They need a dose of high-life.

Jinx Not To Blame

Haislip was touched for seven hits; three of these came in the fifth and two in the sixth, yet in neither inning was there a score. Ordinarily such a performance could be charged up to the jinx, but the jinx was not to blame yesterday.

Of the ten hits that Denison got, six were real, honest-to-goodness hits; the rest were balls that ought to have been handled safely and cleanly, but which must be counted hits under the scoring rules. Denison scored four in the third and four in the seventh. In the second, Merritt started by walking and was sacrificed by Haislip. Kerr sent a long drive to left and Workman reached, but could not hold it. It was a hard slam and Workman is saved an error, but we've seen him nab many of that kind. Harper followed with another that Workman could not reach scoring Merritt. Wakefield sent a grounder to Dupuy who threw to the plate to catch Kerr; Hornbuckle obligingly dropped the ball. Covington singled, scoring Harper and sending Wakefield to third. Gordon's sacrifice fly scored Wakefield and Campbell went out. Nevitt to Nicholson for the third out. Another score was nipped in the

NATIONAL BISCUIT COMPANY

5c

fourth; with two out, Haislip was hit by a pitched ball and took third on Kerr's single to right field; Kerr tried to go to second and when he got in a chase, Haislip started for home and was thrown out at the plate. Yet another was nipped in the fifth when Harper and Wakefield led off with singles and the former was thrown out at the plate on Gordon's grounder to Brady.

Three Hits—No Score

Wichita Falls' best chance to score came in the fifth. Phillips and Dupuy led off with singles. Morris hit between first and second and Dupuy collided with the ball. Morris stole second and Phillips broke for home on the throw, which beat him by a hair. Hornbuckle fanned for the third out in the sixth, with two down. Brown and Nicholson singled, but Workman was fielded out at first.

Denison added another four in the seventh. Harper was safe when Brown dropped his long fly. Wakefield walked. Covington singled, hitting the bases. Harper was thrown out at the plate by Nevitt, on Gordon's grounder. Campbell sent a grounder to Phillips who threw badly to the plate and Wakefield and Covington scored. Brooks singled, scoring Gordon and sending Campbell to third. Merritt laid down a bunt and Campbell came in on the squeeze. Haislip went out, Brady to Nicholson.

INCH RAIN HELPS CORN IN SAN MARCOS COUNTRY.
By Associated Press.
San Marcos, Texas, June 18.—An inch rain fell yesterday and last night; it is still raining hard this morning. The corn crop will be greatly benefited.

Sherwood Magee, Star Outfielder Of Phillies, Playing Snappy Game

Philadelphia, June 17.—Sherwood Magee, the star outfielder of the Phillies, is playing the best game of his career this season. Not alone is he walloping the ball at a great rate, but his fielding is of the sensational order. His base running is also of the best. For many years Magee has been considered one of the star outfielders and batters in the game. In the early games he did not connect with the ball very often, but during the last few weeks his batting has been very much in evidence. With "Gabby" Cravath and Magee going well the Phillies have two of the heaviest pill pounders in the National league.

IOWA PARK AUTOISTS IN COLLISION WITH TRAIN.
Special to the Times.

Iowa Park, Texas, June 15.—Mr. and Mrs. T. W. Phillips narrowly escaped a very serious accident Sunday night as they were returning home from Wichita Falls. When they neared the railroad track a passenger train was just pulling out. Mr. Phillips thinking the cars would be out of his way did not stop his auto, but when he saw there would be a collision he attempted to stop his car, but having learned to drive it only very recently, was unable to find the lever. The auto ran into the train. The front tires were torn off, a wheel crushed and other damages done. Mr. and Mrs. Phillips escaped however, without injury.

Evangelist Wm. Kearns, representing the Central West Missionary Association, held services at the Christian church last week and on Thursday night gave his illustrated lecture on his ten years experience as missionary to Jamaica, with a splendid series of lantern slides. His lecture was well illustrated.

Rev. and Mrs. Fitzgerald and their two little boys, left Sunday night for Ennis, where they will spend the remainder of the summer with relatives.

Mrs. J. A. Tanner and little son are visiting Mr. Tanner's mother at Jackalboro.

Sam McClendon who has been attending the State University returned home Tuesday.

Miss Lillie Sisk went to Wichita Falls today and will be the guest of Miss Ruth Downing.

Rev. C. C. Davis, who has been appointed as postmaster for this precinct, left for the work Monday.

Rev. and Mrs. Johnson returned home last week from Gainesville, where they have been visiting Mrs. Johnson's mother, Mrs. Gay.

Mrs. L. N. Robertson is visiting with her mother at Waco, Texas.

Mr. and Mrs. Charley McKinney are rejoicing over a little girl who arrived at their home last week.

GOOD ROADS ASSOCIATION TO MEET AT CORPUS CHRISTI.

be held in the city of Corpus Christi, July 16, 17 and 18, 1913, under the auspices of the Texas Good Road's Association.

Corpus Christi was selected for this meeting by the officers and executive committee of the association after considering the claims of a number of other coast cities, because of the growing interest in the improvement of the public highways of that section of the State; because of the splendid inducements offered, and because of the superior advantages for pleasure combined with profit. Ample hotel accommodations have been guaranteed and the full assurances given by the city and county authorities and the Commercial Club that the fullest possible co-operation will be given to make the meeting the greatest of its kind ever held in the South.

The officers of the association have assurances that a record breaking crowd will be in attendance from all sections of the State, as well as other States.

HARD LUCK OF THRESHING OUTFITS IS UNABATED.

The hard luck of the thrasher men continues. Today's rain has ended the threshing in this vicinity for two or three days. The men who have been working with the machines have worked only four or five days since they started out two weeks ago, and some of them are quitting their jobs and looking for some kind of a job that is more like a steady job. These men get their board here while they are waiting for the weather to clear up, but life around a water-soaked threshing machine becomes monotonous after three or four days and the men become restless. Some of the men who are now quitting their jobs have had ten days free board and all of this has to be figured in the profit and loss column by the threshing machine man who paid for the groceries.

PERSONAL MENTION

Mrs. J. J. Hanley left yesterday for Kansas, Penn., where she expects to spend the summer.

Mr. and Mrs. O. C. Thomas leave tonight for Galveston to attend the cotton meeting of the Katy and Wichita Route agents, after which they will go to New York for a vacation trip. They will be gone about two weeks.

Mrs. D. A. Dosenbach, of St. Louis, who has been a guest of her aunt, Mrs. N. L. Inge, has gone to Dallas for a two weeks' visit. She will return here for a short visit before returning to her home.

Mrs. C. L. Fontaine, O. C. Thomas and J. P. Anderson of the general office, and A. B. Maples, local agent, I. G. Post, agent at Altus, H. L. Hollister, agent at Frederick, and N. B. Peck at Elk City, go to Dallas tonight to join the Katy special going to Galveston to attend the annual cotton meeting.

J. T. Carter of Alford, was in the city today.

E. A. Patterson of Stamford, is a business visitor here.

Mrs. J. C. Waits and little son of Dallas, are the guests of Mr. and Mrs. B. T. Burgess at 1004 Lamar.

Mr. and Mrs. J. H. Curl who have been visiting at the home of their daughter, Mrs. B. T. Burgess have left for Houston. They will visit in Galveston and Brownsville before returning to their home in Bloomfield, Illinois.

A. S. Ford of Denison, an engineer on the Katy, is visiting at the home of C. W. Eagle. He is accompanied by his little son, Dale, who will visit his grand parents for the summer.

Mrs. H. F. Cauble and Mrs. W. J. Bullock went to Dallas last night, as a committee selected by the Christiana Church to inspect pipe organ plans for the use of the local church when it is re-opened.

Mr. and Mrs. S. E. Redecker of Fort Worth, are visiting Mr. and Mrs. J. K. Fauntleroy.

Mrs. Willard Harrison is in St. Jo, visiting her mother.

J. L. Lea and daughter, Miss Annie, left this afternoon for Baird to visit relatives.

Mr. and Mrs. H. L. Montgomery returned this afternoon from a trip to California.

Superintendent R. J. Sullivan of the Northwestern left for Galveston last night to attend the Katy agents' meeting.

Miss Annie Carrigan returned this afternoon after spending the session at the University at Austin. She has been at a house party since commencement.

Bargain in Glasses

You can't afford to buy glasses on the basis of price. If you do, you'll not get any more than you pay for—probably less.

A bargain in glasses is not determined by their cheapness but by the satisfaction they give.

Our examination of the eyes is thoroughly and authoritative, and the glasses we furnish are made especially for your eyes and guaranteed to be correct.

"No drops." We know how

DOUBLE-HEADER TOMORROW IF WEATHER WILL PERMIT

With City Park field ankle deep in mud, there was no chance for a baseball game this afternoon and the Denison and Wichita Falls players are taking life easy today. Tomorrow, if the weather man permits, there will be a double-header. At this writing the odds are very much for the weather man.

After Denison, the Durant nine will be here Friday, Saturday and Sunday and the Drillers will then venture forth on the road once more.

NINETY PER CENT

of the people who take medicine do not know whether Phenacetin is made in Germany or grows wild in Kansas. They do not know whether Chloroform is indicated in Typho-Malaria or a specific for disappointed affections. They do not know whether Homatrophin is worth fifty cents a grain or two dollars a barrel. They do not know these things and will never know because it takes half of a lifetime to learn them. So you are at the mercy of the man who fills your prescriptions both as to quality and price. However we think the man who would take advantage of your not knowing to charge you too much or give you inferior drugs in your prescriptions would take your purse if opportunity offered. Our prescription department is the pride of the business and is on the square. Give us a chance to show you.

Greatest Ink Saver Ever Invented—The Eclipse Pneumatic Inkwell. The only inkwell that absolutely eliminates all evaporation, dust and lint. Guaranteed to reduce ink bills 75 per cent or more—all glass, but almost indestructible—easy to fill and clean—no valves or rubber to corrode and clog—only one pen dip of ink at a time, no more, no less—no waste—no lumpy pen-holders, stained fingers or blotting—only requires filling once in three to six months—pay for itself over and over in the saving of ink alone, without considering many other great advantages. Take it. Try it. It not satisfactory, return it.

Martin's Book Store 609 8th—Phone 96

It is only natural that a powder which soothes and refreshes your skin will bring comfort and beauty.

No housewife would think of paying the same price for every baking powder on the market. There is just as much difference in talcum powders, but few people know it, and all powders sell at about the same price.

You owe it to yourself to be careful what you put on your face. It is just as important as what you eat. The talcum we sell is made from the purest and best materials. It costs us more than the other kind but it DOESN'T COST YOU ANY MORE. If it pays us to sell this kind on a far smaller margin of profit, it stands to reason that it pays you to buy it.

DOG DAYS ARE COMING: TO ENFORCE ORDINANCE

All Canteen on Which No Tax is Paid are to be Impounded and Shot

Chief of Police Gwinn was asked this morning what the policy of the police department would be regarding the enforcement of the dog tax ordinance. "I don't know just yet," said the chief, "but I always make it a point to kill every dog I can, for we have about a thousand too many in this town."

If the tax is not paid, and the dog is not furnished with a neat looking, well fitting collar, bearing the name of the owner and the words "Tax Paid" such dog can legally be led out and shot at sunrise by any uniformed policeman. The tax collector says that one-tenth of one per cent of the town dogs have had their license paid by their owners.

No dog with an unpaid tax bill hanging over his head can tell what any day may bring forth, and he has no latitude in the matter himself. It is up to the owners of dogs to look after them themselves. Guide—Painful

MUCH MAIL DELIVERED BY THE LOCAL CARRIERS

The careful records kept by the local postoffice force during last week, in accordance with instructions from the department show that from June 9 to June 14 the six carriers delivered a total of 12,789 letters and 5,950 pieces of other mail. The net weight of the letters was 305 pounds; and of the other mail, 1,660 pounds. Mail was delivered to 11,700 people residing within the city delivery limits. Each carrier made an average of 256 stops per day—which is a good many stops. A "stop" is a delivery of mail or a trip up to the house to get mail matter for mailing, according to the usage of the postal department.

LECTURES BY MEMBERS OF THE FARMERS' UNION

This County and Many Others Are to Be Visited Sometime During July

Farmers' union lectures will be delivered at several points in this county next month, and it is probable that F. I. Townsend, one of the Union's best known lecturers will be sent to this county. During July, the Union proposes to cover one hundred Texas counties with these lectures, some speaker spending a week in each of four counties. Local officials of the Union are making preparations for the lectures which will be held in this county, but the places and dates have not yet been announced.

STATE APPROVES ROCK ISLAND'S NOTE ISSUE

Jefferson City, Mo., June 13—The announcement was made that the Missouri public utilities committee had approved the proposed issue by the Chicago, Rock Island & Pacific railroad of \$4,410,000 gold notes, bearing five per cent interest. The funds are to be used for the purchase of equipment.

DIVINE ATTRIBUTES Love and respect for those who have departed this life are two of the higher attributes that distinguish us from the lower animals. We erect beautiful and lasting MEMORIALS to commemorate the life and death of those we hold dear, because of this DIVINE emotion we are pleased to call LOVE, yet no words in any of the love or dead languages can encompass or express the things of the heart, or the thoughts and emotions that make of us more than beings of less intelligence. There is a distinction between frailty and robust health, between wisdom and ignorance, between morality and immorality, but there is no distinction between LOVE and MEMORY. That which clothes in a mantle of charity and wreathes in forget-me-nots. We express these divine emotions as nearly as the human hand and loving heart can, with our LASTING MEMORIALS.

CITY PAVING PLANT IS PLANNED FOR WORK HERE

Believed Enough Paving Will be Done in Next Few Years to Justify It

In connection with the plans for paving Tenth street and the other paving which is considered certain to follow this work, there is some agitation here for a municipal paving plant. It is believed that when the paving is fairly started in the residence section, it will not stop for five or six years, or until every residence street is paved. A city paving plant, it is pointed out, would permit the work being done much cheaper as the city would not gain any profit, but could get the work at cost. A paving contractor, of course, would figure in every reasonable risk to which he is subjected so as to be sure of coming out on the right side of the ledger, while the city, while of course running the same risk, such as damage suits and the like, would not figure them in the cost unless the expense was actual. The cost of moving the outfit from one town to another would also be eliminated.

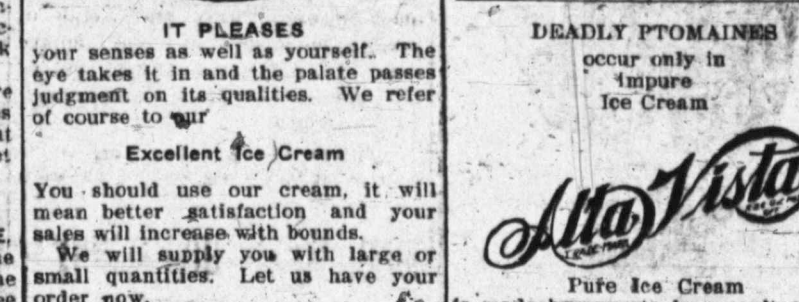

As an indication of the spread of the "paving fever" once started, it is pointed out that even before Tenth street is paved, property owners on Ninth street and on Burnett are agitating the paving of those thoroughfares.

It is believed that the expense of paving could be reduced from twenty to fifty per cent by having a city paving outfit and this would result in a material saving to property owners, but would obviate the necessity of voting bonds to pay for the city's paving of street intersections and alley crossings. No definite steps have been taken in the premises, but the idea appears to be meeting with favor.
