G. O. P. LITERATURE IS WRITTEN BY SUGAR LOBBY

PUBLICITY PLAN METHODS TOLD

"PRESS SERVICE" GUARANTEES PUBLICATION OF 50,000 LINES MONTHLY

INQUIRY MAY BE LIMITED

Object is Made to Going Back of Present Session of Congress to Investigate

By Associated Press.
Washington, June 18.—The character of publicity of beet sugar men was outlined in one of the unsigned letters in the Hamilton correspondence addressed to Sidney Ballou, an active figure in the Hawaiian sugar organization. It said the beet sugar men had made a contract with the Press Service Company at \$2500 a month for publicity.

"They guarantee the publication of 50,000 lines a month of matter pertaining to the sugar industry," the letter added.

The Senate committee was confronted with a formal objection from Henry T. Oxnard and the American Beet Sugar Company and Truman J. Palmer, head of the Washington office of the sugar interests against reading any more correspondence addressed to and from them and dated prior to the beginning of the present session of Congress. John W. Yerkes, an attorney, broke into the proceedings when a letter from Oxnard to Palmer, dated in 1896, was read. Yerkes contended the committee was limited in investigating matters affecting legislation before the present Congress. The committee took the objection under advisement. The letter said in part:

"I have a letter from Mr. Maury in which he says that Mr. Gove will go around trying to educate congressmen. Why should Mr. Gove any statistics he may desire?"

May Summon Lovett
Senator Norris today proposed a resolution to broaden the powers of the lobby committee to call Robert S. Lovett of New York to explain statements that the railroad authorities had been approached by persons professing to have influence in the Union Pacific Southern Pacific dissolution matter.

After some discussion the Norris resolution was adopted by unanimous consent.

More letters and telegrams from files of the anti-free sugar "lobby" put into the records of the investigating committee, purporting to show that the beet sugar men furnished the sugar tariff argument contained in the Republican National campaign textbook in 1912, engaged Dr. Harvey W. Wiley, former government pure food chief, to deliver lectures expressed "great doubt" of former President Taft's ability to carry such states as California, Idaho, Utah and Colorado, and added:

"If we don't head him off, we might be able to get a promise relative to the sugar and tobacco industries."

After the committee considered the objection of the Oxnard-Palmer letter it announced that they would be admitted on the ground that they were corroborative evidence to testimony already heard.

WHOOPIING COUGH CURE IS DISCOVERED IN PARIS.

Paris, June 18.—Discovery in the near future of a cure for whooping cough was predicted today at the Academy of Science by Dr. Emile Roux, director of the Pasteur Institute. Dr. Roux merely transmitted the report of Dr. Alfred Conr, bacteriologist of the Belvedere Military Hospital, Tunis, where with the collaboration of Dr. Nicholle, he had prepared a solution containing living whooping cough bacilli, which they injected into 122 children. The results, he reported, repeating it every two days. Thirty-seven per cent of them improved in less than three weeks, whereas under ordinary treatment the mildest attacks lasted two months.

PROPOSED MEXICAN LOAN IS BARRED IN BERLIN

Berlin, June 18.—Issues of the proposed Mexican National Railway and the Mexican Government loans, were barred from the German market today by the Prussian minister of Commerce. He notified banks today in the international syndicate in charge of the loans that they could not be listed on the bourse.

1000 AT HOUSTON FOR BAPTIST LAYMEN MEETING

By Associated Press.
Houston, Texas, June 18.—Fully 1000 visitors were present this morning when the Baptist laymen of the coast country convened. Notable divines are present from many States.

"FREEDOM OF PRESS ENDANGERED BY LAWS"

Newspaper Woman Reviews Some Recent Court Decisions at Meeting of National Press Association

Colorado Springs, Colo., June 18.—The freedom of the press is endangered by recent statutes and court decisions affecting newspapers, in the belief of Mrs. L. R. Eastwood of Watertown, S. D. Mrs. Eastwood's paper on "Laws That Curb the Press" was one of the features of the program at the twenty-eighth annual convention of the National Press Association of America.

Mrs. Juliet V. Strauss of Rockville, Ind., told of a woman's experiences in journalism.

"Closer organization and the consideration of effective methods of promoting the business interests of the members, with possibly the establishment of an advertising agency, were urged by A. D. Moffett of Elwood, Ind., president of the association.

"Changed conditions have created a demand for something more than mere association," said President Moffett. "The low rates paid for advertising by the middle man and the large profits made through it are well known. There is a growing belief among our members that an agency for the handling of foreign advertising should be established."

ESTIMATES TEXAS WHEAT CROP 11,000,000 BUSHELS

Fort Worth, Texas, June 18.—An estimate of 11,000,000 bushels is placed on the wheat crop in Texas this year by Frank Kell of Wichita Falls, who was here on business. Mr. Kell says that despite the fact that the acreage in wheat was cut down on account of the dry weather during the early part of the season in the Panhandle, the production will be large. The government gives Texas 675,000 acres in wheat this year.

INCREASED OIL PRICES PROBED BY GOVERNMENT

Not Believed However that Standard is Responsible for Continued Advance

Washington, June 18.—Attorney General McReynolds is seeking further information before deciding whether the decree dissolving the Standard Oil Trust has been violated and "whether the Federal government should proceed against those responsible."

Under instructions of the attorney general, Charles B. Morrison, the government's counsel in the case, is in Chicago attempting to develop more facts. This may take several weeks.

The government's investigators found that the disintegrated parts of the great trust have quit all the unfair competitive methods originally charged. The government's inquiry now relates to the question "whether the former subsidiaries of the trust are, by agreement or understanding, refraining from competing with one another and fixing the price of oil."

The Department of Justice, it is said, has practically no complaints from independent oil interests. With the prices of oil soaring and unfair competitive methods eliminated, it is said, they seem to be satisfied. The government is giving particular attention to the reasons for the rising prices of oil.

ROB EXPRESS ON ILLINOIS TRAIN

BANDITS OVERWHELM MESSENGER AND CREW AND DYNAMITE SAFE

RUN PAST THE OFFICERS

Letter Arrive Before Hold Up Men Finish—Only \$500 is Secured

By Associated Press.
Springfield, Ill., June 18.—Two bandits who held up the express car on the "Diamond Special" train between St. Louis and Chicago were sought in this city today.

After being interrupted in their work by the police the bandits forced the engineer to run past the bluecoats and when a later trial with dynamite forced the "safe" they ran the engine into Springfield and escaped.

The safe, according to the local express agent contained not over \$500. In their attempt to get this sum the robbers threatened the engine crew with death, overpowered the express messenger, fired promiscuously at passengers, disarmed one detective and fired at another. No one was hurt so far as known.

The holdup took place ten miles south of Springfield. A danger signal brought the train to a stop and the engine was covered with revolvers. After firing a fusillade giving the coaches no intimation of the danger, the bandits, one of whom was armed with a rifle, disarmed one detective and proceeded to uncouple the express car from the train and proceed two miles down the track. The engineer obeyed and five charges of dynamite which could be plainly heard by the passengers were fired in an effectual attempt to open the safe. Soon after the train was stopped Conductor McWilliams ran across the field a distance of a mile to a farm house where he notified the dispatcher in this city by telephone.

The first detachment of police arrived while the bandits were attempting to blow the safe.

Ticket Agents' Thrift Brings Him \$5000 In Fare Rebate Coupons

Huntington, W. Va., June 18.—When the United States Supreme Court sustained the 2c passenger fare law of West Virginia, it virtually placed in the pocket of John J. Conway of this place approximately \$5,000.

When the law was enacted by the West Virginia Legislature in 1911 the railroads appealed to the courts and continued to charge 3c a mile, giving passengers coupons entitling them to a rebate of 1c a mile if the courts decided the 2c law was constitutional. Conway, who was a ticket agent, noticed that many persons threw the coupons away and realizing they might some day be good he began collecting them. The decision yesterday found him with about \$5,000 worth of perfectly good coupons in his possession.

GOATS AND SHEEP NOW ON THE SAME LEVEL.

Washington, June 18.—The Angola goat can no longer lord over the pastoral sheep and proclaim its aristocracy for the Democrats of the Senate finance committee have put both on a level.

By striking off the Underwood tariff rate of twenty per cent ad valorem on the hair of the Angola goat and transferring it to the free list with raw wool, the committee ran counter to the ways and means committee of the house and decided a much disputed point in the wool schedule.

EMPLOY HEROIC MEANS TO RESCUE SWIMMER.

New Haven, Conn., June 18.—John Gozlik, aged 16, started death in the face for four hours in an unusual battle with the swift incoming tide in West river.

While swimming, his leg was caught in one of the tide gates which prevent the water overflowing the meadows. The fire and police departments were called out and a large crowd gathered. A rubber tube was inserted in the boy's mouth so that he might breathe under water.

ZACATECAS REPORTED CAPTURED BY FEDERALS.

By Associated Press.
Mexico, June 18.—Mexican Consul Eason has received official advice that the city of Zacatecas was captured by General Delgado of the federal forces Tuesday without firing a shot.

WEATHER FORECAST

Unsettled; showers tonight and Thursday.

PRETTY MRS. BELIAS MAKES CHARGES OF CRUELTY AGAINST DR. CARRELL AND OTHER EXPERT VIVISECTIONISTS

New York, June 18.—Club women of the country who do not believe in vivisection of animals for scientific purposes will likely support the action of Mrs. Diana Belias, president of the New York Anti-Vivisection Society, in protesting to District Attorney Whitman against vivisection as practiced at the Rockefeller Institute. Mrs. Belias laid before the district attorney affidavits, charging that cruel experiments were practiced at the institute by Dr. Alexis Carrel, who received this year's Nobel prize for medicine; Dr. Simon Flexner and other heads of the institution. She asked that a John Doe proceeding be started to find out if her allegations were correct. To try to convince the district attorney that the law prohibiting cruelty to animals is being violated at the institute Mrs. Belias showed a picture of a dog operated on by Dr. Carrel. This picture shows what Mrs. Belias describes as the "torturing instruments" in use. It was taken surreptitiously by an employee of the institute. "The prosecution of Dr. Sweet in Philadelphia has pointed the way to us," said Mrs. Belias. "We have had evidence, frequently of inhumane treatment of animals by surgeons at Rockefeller Institute, Columbia University and at various hospitals, but we always have been informed that they were protected by the law that permits vivisection. Apparently it has never occurred to our attorneys that we could proceed, as the Philadelphia women did, under the statute that prohibits cruelty to animals." Dr. Carrel is on his way to Europe and Dr. Flexner declined to discuss the action of Mrs. Belias. Rockefeller Institute officials, however, declared they had nothing to fear from investigation.

PATRICK HENRY QUOTED BY JAPANESE AGITATORS

"Give Me Liberty or Give Me Death" Appears at Head of Mass Meeting Posters

By Associated Press.
Tokyo, June 18.—Posters calling a mass meeting for tomorrow and bearing the headline "Give Me Liberty or Give Me Death—Patrick Henry" were posted today by agitators on walls in the vicinity of the United States embassy and other points in the Japanese capital. The organizers of the meeting declare their object is to secure a more determined diplomatic attitude toward the United States.

MEDICAL SOCIETY IN SESSION AT ELECTRA

Several Physicians From This City Attend—Dr. Hartsook Contributes Paper

The Wichita County Medical Society met at Electra Tuesday night. Dr. Charles R. Hartsook read a paper on "Headaches Due to Pressure from the Nose and Eye Strain." Those in attendance were Dr. Hartsook, Dr. Burnside, Dr. Wade Walker, Dr. Conn and Dr. Macheckney. A larger attendance had been expected, but owing to the bad roads only a few were present.

SOCIETY SWINDLER AS CAPTURED AT ALBANY.

Chicago, June 18.—Word was received here today of the arrest at Albany, N. Y., of Charles Harold Wayman, said by a detective agency to have operated all over the country under various aliases as a forger with hotels and society people as his victims.

His record at the detective agency includes a marriage in Oklahoma City, Okla., to Miss Freddie Townsend and his subsequent desertion of her, taking with him her diamonds.

His appearance and manner are said to have been one of his greatest assets.

CORN CROP GETS MORE GOOD RAINS

OUTLOOK MATERIALLY IMPROVED BY SHOWERS HERE THIS WEEK

COVERS WIDE TERRITORY

Local Crop Outlook Now Declared To Be Best in Years in This Vicinity

Wichita county's corn crop, which has benefited from recent rains until as someone expressed it, one could almost see the lightning bugs flitting through the leaves and smell the roast ears cooking, was given still better prospects last night and this morning when three-fourths of an inch of rain fell. This rain, following the other recent showers, will be of untold value to cotton and to corn and other feed crops throughout Northwest Texas.

Monday's rain was a local affair but Wichita Falls was less selfish with that of this morning scattering it over a large section which extended as far north as Elk City in Oklahoma and as far south as Abilene in Texas. In some of the sections visited, particularly on the Texas side of Red River, rain was badly needed and the rain will doubtless be of much benefit. Yesterday and this morning rain fell practically throughout the entire State.

Corn prospects in this section are declared to be the best in years, the only drawback being the damage which grasshoppers have done to the young plants; this damage has been severe in some vicinities, but has not been general. At present there is a good stand and the healthy color of the blades is considered promise of an excellent crop. Feed crops in general are prospering, especially with the late rains, while the cotton that escaped the hoppers is also showing up splendidly.

INCH OF RAIN FELL AT LAMPASS LAST NIGHT

Lampass, Texas, June 18.—An inch of rain fell here last night insuring a good corn crop.

GOOD RAINS FALLING IN SAN ANGELO COUNTRY.

By Associated Press.
San Angelo, Texas, June 18.—Excellent rains are falling in this vicinity today.

LIGHT SHOWERS FALL IN THE COAST COUNTRY.

By Associated Press.
Houston, Texas, June 18.—News from over the coast country is that local light showers are falling but a hard soaking rain is still needed.

SHOOTS A PHYSICIAN THEN KILLS HERSELF.

Savannah, Ga., June 18.—That Mrs. Kate Whelan, the young widow who killed herself after she had shot to death Dr. Guy O. Brinkley in his private office here, had determined before she left her home to come to Texas, is indicated in a note Mrs. Whelan addressed to her mother, which was found in her bedroom today.

In this note Mrs. Whelan stated that "something dreadful" was about to happen and she besought her mother's forgiveness for her act. The unusual portion of the box of cartridges with which Mrs. Whelan loaded the revolver she used in the tragedy, was also found in her room.

DR. FRIEDMANN LEAVES AND MAY NOT RETURN

New York, June 18.—Dr. Friedrich F. Friedmann, the Berlin physician who announced several months ago that he had a cure for tuberculosis, sailed for home today. His institute here was closed recently after the board of Health had forbidden the use of his vaccine. The doctor did not say whether he would return.

MILITANT SUFFRAGETTES GET 14 DAYS IN JAIL.

By Associated Press.
London, June 18.—Two militant suffragettes were today sentenced to fourteen days imprisonment for obstructing the police at a suffragette meeting near the residence of Premier Asquith.

MO BSUFFERERS FILE CLAIMS FOR \$400 DAMAGE

Fort Worth, Texas, June 18.—Claims aggregating \$4,400 for damage due to the mob on East Ninth street the night of May 15 were filed with the City Commission today. The claims are for property destroyed by the mob when it looted the negro business section. Other claims have previously been filed, but no action has been taken on any of them. The claimants allege that the police officers advised them to go home and forsake their places of business, which they did. The mob arrived later and inadequate protection was afforded.

TABERNACLE BUILT IN ONE DAY AT LAWTON.

Lawton, Okla., June 18.—A tabernacle with a seating capacity of 2,000 was erected here yesterday on a public school block by volunteers, among whom were preachers, churchmen, merchants and clerks.

SALES MANAGER IS OIL WITNESS

E. C. EBIE IS WITNESS IN OUSTER PROCEEDINGS AT DALLAS

TELLS OF ORGANIZATION

Was Given His Present Place From 26 Broadway—Used Many Pierce-Fordyce Men

By Associated Press.
Dallas, Texas, June 18.—An attempt to show that the Magnolia oil sales department raided the sales department of the Pierce-Fordyce Oil Association to get the bulk of its sales organization was made by the State today in the \$99,000,000 oil ouster hearing. E. C. Ebie of Dallas, testified that the Magnolia had secured many of its men from Pierce-Fordyce. He specifically denied any intent to take over the Pierce-Fordyce organization.

It required three men and two boys to carry the records from the Magnolia Petroleum Company's sales department here for use at today's hearing of the oil penalty and ouster suit.

Commissioner Charles C. Robey warned everyone at the hearing in all due respect and all kindness that there must be no laughter such as there was yesterday. Mr. Maury formally requested Robey to instruct the Magnolia employees present specifically not to try to influence the proceedings by outbursts of any sort. Mr. Tinsley, the defendant's attorney, said that Maury's statement going into the record and it was not recorded Maury saying he was not speaking for the record. Robey said this ruling applied to every one.

Employed At 26 Broadway.

E. C. Ebie, general manager of the sales department of the Magnolia Petroleum Company, was called to the witness stand. He testified that from 1896 to 1910 before coming to the Magnolia he worked either for the Standard Oil Company of New Jersey or companies which he had managed since were Standard Oil subsidiaries. These included the Waters-Pierce Company for which he worked for a time as Oklahoma division manager.

While working for the Standard Oil Company of New Jersey in 1910 he was called to 26 Broadway where he received the offer to come to Texas, this offer he said led to his present position. At this 26 Broadway meeting Ebie said R. P. Tinsley, treasurer of the Standard Oil of New York, called him in and introduced him to E. R. Brown now vice president and general manager of the Magnolia Company. Brown made him the offer to come to Texas.

Ebie said he organized the Magnolia's marketing department. When he began this work he hired as chief clerk E. D. Smith who was then traveling auditor for the Waters-Pierce. He got Smith from St. Louis. Smith applied a few of the Waters-Pierce forms as models for part of the Magnolia marketing department forms. Ebie said part of the Magnolia's barrels had been purchased from the Standard Oil of New Jersey and some of its tank wagons from the Standard Oil of Ohio.

Yesterday afternoon when the taking of testimony began H. M. Garwood of Houston, a defense lawyer, in answer to questions by Assistant Attorney General Sweeton, said he represented the Magnolia Petroleum Company as its attorney.

In that capacity he said he also represents C. N. Payne and H. C. Folger Jr., Magnolia stockholders, but he denied that he represents them as individuals.

The first witness was E. M. Hackett, manager of the Magnolia's northern division sales department. Before entering the Magnolia's employment in 1912, Hackett said he had worked for the Gulf Refining Company as local agent at Fort Worth for the Waters-Pierce Oil Company and the Pierce-Fordyce Oil Association. He was the Gulf Refining Company's local agent at Fort Worth for four years.

Hackett's territory as general sales manager for the Waters-Pierce Company in Central Texas was taken up by the State.

Object to Affidavit.
This testimony was based on a copy of an affidavit made by Hackett April 19, 1912, before he left the Pierce-Fordyce Oil Association. The defense objected repeatedly to introducing this affidavit. The State insisted that it was important and Mr. Sweeton, the State's attorney, General McReynolds, now has the original affidavit.

A copy was finally admitted with seven different objections by the defense recorded against it. Hackett said that from the affidavits would be found the names of nineteen Pierce-Fordyce employees who went to work for the Magnolia when it was organized. Names of others who quit to go to the Magnolia were not read.

CALLS INDIAN BUREAU THE "FLOWER OF FRAUD."

Washington, June 18.—Declaring that the Indian bureau had the reputation of being the "very flower of fraud," Senator Lane today attacked the Indian appropriation bill when it came up for passage.

"I am told Indians that have been many years in the happy hunting grounds are still carried on rolls," he said.

Reflection of Personality In The Summer Styles

New York, June 14.—Carlyle made familiar to us the philosophy of clothes proving beyond the possibility of effective contradiction that man's garb is a sure index of his life, but the psychology of clothes is quite another question. That is a modern discovery which is slowly and surely gaining the attention of the lay mind. Perhaps the majority of us are too busy in our endeavor to get clothes of any quality, color or construction to waste our much-needed energy on solving the question of whether this or that color scheme harmonizes with our temperament or, when adopted by us, typifies the bent and peculiarity of our personality. The woman who dresses well makes us conscious of her beauty, charm, softness and grace, and the nearer she approaches perfection in the art the more does she give us a happy impression of harmony and loveliness, unmarred by an obtrusion of detail. This is the technique at its highest. To accomplish this, woman must know herself. Her clothes must be the crown and culmination of her personality.

The frock seen in the first figure not only conforms to the dictates of fashion, but it may impregnate also the consciousness of the wearer. If the hair be brown, the complexion clear and the eyes brown or blue, shades of either blue or brown will develop it advantageously. As represented the dress was made of checked brown-and-tan silk. Collar, cuffs and girdle of Bulgarian silk effectively brighten the costume. The "finest feathers" employed may also tell a tale of personality. Usually women of most discriminating taste prefer little elaboration; and with them line is the most important factor of the gown. It is made to accent all good points and conceal all bad ones. This is the task of the woman who does her own sewing, to choose a model suited to her style.

At the present moment Bulgarian and Futurist trimmings are thought to produce just the right touch of piquancy and picturesqueness, but whatever country, from Japan to Turkey, serves as tone inspiration, women should use discrimination in adopting its color schemes and choose only those whose main tone is to them most becoming. A touch of color at throat, wrist or waistline is generally considered sufficient to brighten the most sober gown. Should the gown be of light tone, trimming in pleasing contrast may be used with good effect, and on the most serviceable frocks of coarse mesh and fabric the gray color effect is most pleasing. For evening, however, all such conspicuous shades are passe. Delicate pastel tones are preferred when the choice of trimming is silk or satin. But beads, bugles, rhinestones and fancy buckles, buttons and soft-toned pearls alone are used. The most elaborate lingerie dresses of this season are made of bustle embroidery combined with genuine lace of Cluny, filet, Venise and d'Alencon. Net, combined with batiste embroidery is also much in favor for both afternoon and evening. English eyelet embroidery is quite smart, but the material used is batiste, not linen, and is wrought in many spray and floral motifs as well as "cycleted."

Since gowns of sheerest fabric—voile, marquisette, sheer linen and chiffon—are most fashionable, the petticoat, on which heretofore some economy could be practiced, has come forward as one of the most important of garments, quite as greatly a factor as the dress skirt. Not infrequently the entire effect of the costume depends on the style and material of the petticoat. Those of chiffon, for evening wear with the frock of the same diaphanous web, are very charming. The shade of the frock, and they are to be had in white, pink, blue, lavender and yellow. Many are trimmed

with lace medallions and have flounces of shadow lace. Rosebuds, outlining the top flounce, make a pretty finish. A recent novelty is a petticoat, all of net, unlined, with corset waist to match. This is most effective for wear with summer frocks. Petticoats of shadow lace are next in favor and may be worn either with evening or afternoon dresses. Crepe de Chine, handkerchief linen, French batiste and nainsook are also much used. For the dark tailored suit, petticoats of messaline and soft taffeta are still popular. It is very important that the petticoat be well cut. Under the tight skirts a few inches of extra width will make a crease in the skirt. Every particle of superfluous width, not of underskirts, but of every undergarment worn with the present-day costumes, must be carefully cut away. It is only in the frock for practical wear that woman can afford to be extravagant in undergarment. For with a costume such as that of the second illustration, the cut of the petticoat must be as carefully considered, but the material and finish may be less fragile and dainty. The charming shirred waist in this figure was developed in white voile. Low collar and yoke proclaim the prevailing mode. A girdle of silk is in pleasing harmony with the green stripe of the skirt. The skirt was developed in green and tan summer silk, with a few folds of drapery at the left side. Buttons form an effective finish. To the woman who can not afford one of the new mantlets of chiffon of soft silk so dainty for summer wear, it will be a consolation to know that she may wear the coat of her silk suit with her sheer lingerie frock and be considered quite smart.

If she have a coat suit of matelasse, poplin, broche, silk or satin, either plain or brocade, and in black or any of the new shades, she may adopt the jacket for wear with her dainty summer frocks and get double service out of it. This will be a decided economy, as coats invariably outline their companion skirts. Equally suitable is the separate skirt of white serge, broadcloth, crepe or silk for wear with this jacket. These supplant the throws and scarves of recent fashion and are much more sensible and practical.

GOVERNMENT PARENT TO INDIANS; IS PRINCIPLE

Washington, June 14.—Uncle Sam is just as much a guardian and protector of his Indian wards as a parent is of his children, or a husband of his wife. This principle of responsibility was proclaimed today by George Downey, Controller of the Treasury in overruling the appeal of Robert W. Woolley the new auditor for the interior department for a reversal of the controller's previous decision approved a \$300 bill of George T. Sampson of Winslow, Arizona, for treating and nursing back to life a blind Indian who had been run over by a railroad train. Auditor Woolley sustaining the position of the predecessor thought the bill unreasonable. "Charles Walker, a blind Navajo of the Noup Arizona Indian school and ward of the government, deserted by his companion upon the approach of a train, was run over. Dr. Sampson called to his assistance, amputated his left leg and right foot and cared for him three months. "This was an emergency if there ever was one. The Indian had to be cared for at once as a matter of humanity," said the Controller in holding the bill a just and honorable one. "Could a father escape liability for services rendered his child under such circumstances? He could not."

USE OF SENATOR'S FRANK IS PROBED

NOT MUCH LIGHT THROWN ON SUBJECT AT SATURDAY'S HEARING

"LOBBYIST" IS EVICTED

Literally Kicked Out of Document Room When he Gets Too Pernicious

By Associated Press. Washington, June 14.—Anselm Wold, the Senate printing clerk, told the lobby investigation today about the order for printing "Sugar at a Glance" the anti free sugar document prepared by T. G. Palmer, representing the sugar interests, which was circulated under the franking privileges of Senator Lodge. The committee had developed testimony on whether Palmer was permitted to change the document after the Senate had ordered it printed. Turning to Senator Overman, Wold referred to a previous conversation and added "I told you then that somebody had been monkeying with orders here and I still think so."

Wold could not throw much light on the situation and other senate employees may be called. An "insidious lobbyist" was literally kicked out of the Senate document today. He did not tell his name.

Lobbyist "Kicked Out" The victim of the gisting, who Red down the capitol steps had been accusing Senate employees because they did not furnish him with some printed documents about indigo tariff rates, printed only for the finance committee. Assistant superintendent R. M. Cooper of the document room said he ordered the man to leave this morning.

"He rushed into the room and threw his hand back toward his hip pocket. Then I kicked him into the hall. That is one way to handle such lobbyists."

This incident did not happen in connection with the formal investigation. Henry Oxnard, the millionaire vice-president of the American Beet Sugar Company, testified that he estimated he had spent on an average of \$20,000 a year for the last twenty years in behalf of the beet sugar industry. He declared not a cent had been spent illegally. Each year when he was at his home in Washington he declared he came to the capitol to watch legislation and see his friends among the senators. Senator Reed demanded that the witness give the names of senators who were his friends. Oxnard replied:

Friendship is Disclaimed "Most all the senators." "You need not include me in that list," declared Senator Reed.

"Well, I call Senator Overman one of my friends and Senator Cummins there, and—"

"I don't know so much about Senator Nelson."

Senator Overman promptly asked Mr. Oxnard if he had ever called upon him at his office or house or if he had ever attended Mr. Oxnard's entertainments. Mr. Oxnard replied in the negative. Oxnard replied in the negative. Oxnard declared he had sold most of his stock in the beet sugar company because of fear of free sugar and his brother had owned jointly \$4,000,000 of the beet sugar stock and had \$1,000,000 invested in cane sugar in Louisiana. He informed the committee that "Haymeyer or some other person connected with the sugar trust" informed him that "the sugar trust spent \$750,000 in the Cuban reciprocity fight. He suggested some of it may have been spent in "subsidizing newspapers."

The committee adjourned until Monday without finishing Oxnard's examination.

Vivisection Causes Arrest of Professors On Charges of Cruelty

By Associated Press. Philadelphia, June 14.—Arrests were made here today of five professors and surgeons of the University of Pennsylvania for cruelty to animals in connection with the vivisection of dogs. This constitutes the second stop in legislation by the Women's Society for Prevention of Cruelty to Animals. Recently, Dr. Sweet of the University was arrested on similar charges.

Offered \$10,000 To Give Up Girl He Loves, Young Man Remains True Blue

By Associated Press. Sioux City, Iowa, June 14.—An offer of \$10,000 if he would give up the girl he loved and enlist in the United States Navy apparently has been turned down by Charles Jason, son of a wealthy Nebraska rancher. Two weeks ago the elder Jason left a \$10,000 check at the recruiting station here to be turned over to his account if the moment he enlisted in the Navy. The son has not claimed the check.

Gets Six Cents Damages; Had Sued Magazine for \$75,000 For Libel

By Associated Press. New York, June 14.—Thomas B. Harped, a Philadelphia lawyer, won a verdict today of six cents damages against the International Magazine Company, publishers of the Cosmopolitan, for libel. He brought suit for \$75,000 on the ground that he had been injured by publication of articles relating to the sugar trust.

JIL LAND TO LEASE—Land Is Proven Fertile. Phone 231 or 180.

By Associated Press. New York, June 14.—Thomas B. Harped, a Philadelphia lawyer, won a verdict today of six cents damages against the International Magazine Company, publishers of the Cosmopolitan, for libel. He brought suit for \$75,000 on the ground that he had been injured by publication of articles relating to the sugar trust.

THE WICHITA SOUTHERN LIFE INSURANCE CO.

WICHITA FALLS, TEXAS
Solicits Business from the Insuring Public on the Following Grounds:

- 1st. We are in a position to furnish sound protection for those who need it.
- 2d. The protection furnished by the WICHITA SOUTHERN is equal to the best furnished by the United States.
- 3d. The company is required by law to carry the same amount of reserve in proportion to amount of insurance in force as the largest company in the world.
- 4th. We find by comparison that our assets in proportion to liabilities, which is the real test of strength, are much greater than many of the companies who are much older and larger.
- 5th. The company loans its funds in the communities from which it receives its business, and in the ordinary channels of business drifts back to you.

STATE HARVEST IS IN PROGRESS

OATS AND WHEAT BEING HARVESTED IN MANY SECTIONS OF STATE

PROGRESS DURING MAY

Commercial Secretaries Summarize State's Output in Month From All Sources

Fort Worth, Texas, June 14.—The production of the farms, mines and factories (together with the foreign capital invested in the State during the month of May, aggregated \$89,350,000 according to data compiled by the Texas Commercial Secretaries and Business Men's Association.

The sources of wealth and the amount contributed by cash to the gross increase during May are as follows:

Agriculture	\$27,800,000
Foreign capital	17,350,000
Factory	14,200,000
Mineral	1,100,000
Total	\$60,450,000

Agriculture. The harvest area expanded during May until it now covers practically the entire State. The first grain crops of the year were harvested during the latter part of May during the latter part of May.

Reports received from dealers, agricultural and industrial agents, indicate that the oat crop will be in the neighborhood of 25,000,000 bushels and the wheat crop approximately 20,000,000 bushels. It is claimed that in most every section of Texas that this season has been an idea one for small acreals and that the wheat this fall should be of an exceptionally good milling grade. The recent rain falls that have been general throughout the State have assured a record corn crop in the neighborhood of 300,000,000 bushels.

The fruit and vegetable production during May included the first peaches, cantaloupes, watermelons, dewberries, strawberries, new potatoes, tomatoes and raising ears.

The first Texas cantaloupes to reach Chicago markets brought \$23 a crate or forty-six and a fraction of a cent apiece.

While the cabbage and onion season practically closed in the Lower Rio Grande Valley and the Laredo district during May, the bulk of the fruit and truck shipments to home and foreign markets were moved from East and Central Texas. Durum may nearly 2,000 carloads of onions left the State.

Taking into consideration the timber cuttings and the livestock sales

the total agricultural production was approximately \$27,800,000, the heaviest of any month this year.

Livestock. Livestock shipments for the month of May to markets were 294,213 head valued at \$7,355,325. Reports to the Cattle Raisers' Association of Texas for the last week of the month indicate a generally satisfactory condition of the ranges and cattle in excellent trim.

Throughout West Texas pasture tanks were filled and weeds for early feeding are assured.

Official figures show that more than 100,000 more cattle have been received at Fort Worth in May this year than for the same period last year.

Exact figures for the period between January 1st and May 30th were 420,622 cattle and for 1912, 319,396 cattle giving an increase of 110,226 head.

The May cattle receipts totaled 113,397, an increase of 11,513 over the same month in 1912. Hog receipts for May, 1913 also show a large increase over last year. The figures are 36,570 for this year and 24,225 last year, an increase of 12,345.

Nearly 1,000 more horses and mules were received at Fort Worth in May 1913 than in the same month in 1912. The calf and sheep receipts both show a decline for May, 1913 when compared with May, 1912.

The mines and wells of Texas increased the wealth of Texas approximately \$1,100,000 during the month of May. While the coal and lignite produced was 95,000 tons valued at \$119,000. Oil production in the Electra field of Wichita county jumped to a new highwater mark, three new wells bringing the daily output of oil in that field to more than 24,000 barrels daily.

Actual mining of iron ore near Cro City began during May and the opening of these mines in East Texas marks the beginning of an industry which has unlimited possibilities.

During the month of May unusual activity was witnessed in all lines of manufacturing due in part to the ever-increasing demand for Texas made products. The wealth added through the process of manufacture approximates \$14,200,000, an increase of \$500,000 over the preceding month.

There were sixty-one new enterprises opened for operation during the month and construction work was commenced on thirteen factory buildings.

Comanche—The Vanguard, a new publication will be published in this city by L. D. Russell. A carload of printing machinery formerly used by the Ballinger Ledger has arrived here following the consolidation of the two newspapers.

Coughran—The track laying crew of the San Antonio, Uvalde and Gulf Railroad has reached this point and 1,300 feet of siding has been laid alongside the main line affording freight facilities for the many new enterprises now under construction.

Emerson Springs

"The easiest riding buggy in the world," is our claim for Emerson vehicles. We purchase the finest spring used in vehicle construction. They are highly polished, oil tempered and never get loose in the heads, will not bind or wear on the bolt and no dirt can work its way into the head to cut out the bearings.

You will never find any Emerson buggy pitch to the front or rear, but ride perfectly level under all conditions, and as comfortable with one person as with two.

Emerson Auto Seats

We use yellow poplar exclusively of the finest quality, not less than 26 inches in width. The frames and posts are of ash, thoroughly reseasoned so that we never expect a seat returned unless damaged by an accident or misuse.

Manufacturers using cottonwood seats can quote much lower prices on what "looks like an Emerson," but when the vehicles are put in service, trouble commences, corners open up, posts give way, and the undercoats are absorbed by the open grain of the cottonwood.

Emerson Tops

We point with pride to the length and beauty of the tops we use on our vehicles. The quarters are 14 inches in depth and 50 inches in length.

JAMISON HARDWARE & IMP'T CO.

Brownsville, Texas, June 16.—A case in district court here, when deeded will in a sense settle the long mooted question of contributory negligence in collisions between automobiles and horse-drawn vehicles. The outcome of the case is awaited with much interest by automobile owners of this city, is being sued for \$10,000 damages by Mrs. G. L. Bowden for alleged injuries sustained in a collision which occurred a year ago when an auto driven by Mrs. Dr. Nanny collided with a buggy driven by Mrs. Bowden. The outcome of the case is awaited with much interest by automobile owners of this city, is

TEXAS FARMERS CLOSING APPEAL

RADFORD SETS FORTH SOME OF DIFFICULTIES IN HIS PATH

TO ASK FOR STATE AID

Will Seek Development of System of Rural Credits in This State

Fort Worth, Texas, June 14.—To the City Men of Texas: In this article I want to record some of the difficulties that confront a Texas farmer in a business way and to point out a few substantial reasons why many farmers have not the price of a home. I shall not undertake to defend the Texas farmer as a business man—he needs no defense. He produces eighty-five per cent of the wealth; pays seven million dollars of taxes per annum and manages property valued at \$2,853,000,000. I want to present some of the larger problems of agriculture in the hope of lifting the vision of city men to higher ground where they can study the forces that are rending asunder the Nation's hearthstone and analyze the powerful agencies that must be set in motion if we are to check the downward trend of agriculture.

According to authoritative estimates the farmers of Texas earn from production, four per cent per annum net on their investment and I consider these figures approximately correct. The federal agricultural department has just announced that the farmers of this State are paying an average of ten per cent per annum, or to quote exact figures, 9.97. The agricultural indebtedness of Texas approximates \$225,000,000. The difference between the amount of interest paid and the amount earned on this indebtedness per annum is \$13,500,000, which is a logical result something over two thousand farmers lose their homes. We are rapidly passing from home-owners to tenants, from tenants to laborers and the laborers drift in to the cities.

The tide in our affairs is flowing upstream and must be reversed if we are to have an enduring civilization. Farm peasantry is the most alarming spectre that confronts the public of Texas today. Indeed it is the industrial tragedy of the present century. Will you come with me for a moment and take a retrospective view of the farm homes of Texas? Behold each day a hundred fathers covering the hearthstone with the ashes of failure; as many mothers drenching the family altar with tears of despair; and hundreds of innocent children pined under the weight of their wrecked homes. Would you be surprised if these men, sinking as they struggle, cry aloud against society? Is it not your problem and mine?

The Price of a Home. Let us quote the price of a home in the language of the farmer. The price of a home is the toll of a mother with babe in arms, the reacting of children in poverty and ignorance, the mortgaging of a father's life into the timbers of the structure and lowering the standard of society toward the primitive levels of civilization. The farmer must be lifted to where the home must be reduced to a novel or agriculture will become a gypsy occupation.

We will now reduce the price of a home to dollars and cents and carefully compute the cost of each item of material entering into the structure at market prices. No civilization can better serve its citizens than by placing a home in reach of its humblest laborer and we will therefore follow the Texas farm laborer as he builds a home. The task is so monumental that many shrink from it in despair, others who summon courage to try it—stunned by the struggle—are sent staggering down the thoroughfares of failure to wander through life without ambition or hope. Those who succeed—haggard and aged—step from their portals into the grave, but we will produce the figures taken in the main from the federal census report. I shall in this analysis deal with general averages. There are, of course, extremes in all classes but the average results are all that can be reasonably expected.

Take Sixty Years To Build a Home. The farm laborers of Texas receive six dollars per week without board and few cents over four dollars per week with board. Their net earning power at best hardly exceeds \$150 per annum, provided they are constantly employed, which is not always the case. The first step toward a farm laborer in his journey toward a home is tenant farming although many who undertake the task omit this experience in their upward climb preferring to remain farm laborers until they have accumulated sufficient funds to make the first payment on a home. The average value of farm equipment on a Texas farm is \$1,050, including household goods. It will take the farm laborer seven years to become a tenant farmer. The gross earnings of a Texas farm are \$1,250 per annum and one-third must go for rental, leaving him with \$800 gross as his proportion. From this sum must be deducted the cost of living, feeding the teams, and the running expenses of the farm, including a hired hand when one is employed. The frugal farmer will raise most of his food but his expenses must be deducted as total production is included in the gross. A careful estimate places the cost of running the farm at \$600, leaving the tenant farmer \$200 net per annum. The figures are a little high as in practical experience many tenant farmers go back to laboring as more remunerative than tenant farming. The average value of a Texas farm as listed by the census enumerators is \$6,311. In seven years the tenant farmer has accumulated \$1,400 and can make his first payment on a home. He no longer pays rent and is now making \$550 per annum net, without allowing any wages for himself and family, which can be applied on in-

terest and principal and taxes. It will require twelve years to pay for his home provided he escapes the scythe of Father Time and dodges the shaft of Dame Misfortune. No provision has been made in this estimate for giving the children a higher education and performing the duties to church and society, or to provide himself and family with the comforts and conveniences of modern life. Add the financial burdens and compute the time and the farmer is sixty years of age before he owns a home.

The Need of Cheap Money. The remedy lies in cheap money and in securing better prices for our products. The average farm loan in the United States bears 7.75 per cent per annum. In the North Atlantic tier of states it is 5.96, in Texas 9.97. Certainly our securities are as good as the average, then why do we not get the same rate of interest? The equalizing of this rate will benefit the farmer on their present indebtedness approximately \$5,000,000 per annum, which can be applied to resting tired mothers, comforting aged fathers and educating our children.

May I not plead with the city man for co-operation in this the greatest task of the age? Is there one so busy that he cannot see the horizon darkened by the dust of moving vans of 200,000 restless farmers, hurrying toward the precipice of ruin? Can you not hear in the rattle of the wagons as they groan under the burden of one-fourth of our population, the echo of approaching calamity more dreadful than war and more terrible than pestilence? Can you not feel the hunger for culture and refinement gnawing at a million young and innocent souls who are being drilled in the early hours of life like spectres on their way to the cemetery of ignorance?

Will you not lend a helping hand in cooling the fever of our restless industry, soothing the brow of discouraged farmers and reviving the drooping spirits of those who fall in their struggle to feed and clothe the world?

Governmental Aid Required. The chasm between the amount earned and interest paid on mortgaged farm property in Texas must be bridged over by decreasing the rate of interest and increasing the price of our products. Marketing is equally as complex a problem as rural credits and neither has received the attention of the government it justly deserves.

The Farmers' Union is going to ask the Legislature at the special session to appropriate \$25,000 per annum to be expended under the direction of the State Department of Agriculture in promoting marketing and rural credits. It is as properly a function of government to study and disseminate information and to set out execution plans for the sale of products as it is to teach production. Certainly it is poor statesmanship to follow the crop to the harvest field and there let it rot for want of a market. The Farmers' Union stands ready to co-operate with state government in developing a warehouse system and facilities for the systematic marketing of cotton and other products on a more intelligent and business like basis. It will take the co-operation and combined efforts of all to handle the problem.

About two-thirds of our farmers are tenants and fifty-one per cent of them move every year. It is a sad commentary on our citizenship when the census reports show that over 1,000 families become agricultural vagabonds each year and wander from farm to farm. These people are not the waste material of our citizenship, neither have they become the victim of dissipated energies or misdirected efforts. These men are out of the loins of agriculture and have been stricken by the bludgeon of a stupid market system and a brutal method of rural credits that takes for its toll 2400 happy homes per annum.

A Challenge to Statesmanship. Let me suggest that a half million farmers crossing the continent on their annual journey to a foreign market; that seventy families losing their homes per day and thousands of mothers tolling in the field, is a defiant challenge to government as civilization ever hurled at the statesmanship of any country or age.

This closes the present series of articles and I want to thank the press for the liberal space given and the public for their patient hearing, and to beg the pardon of those who may have become offended at anything I have said. Will the audience please stand and be dismissed with a smile. All the farmer wants is cheap money and he won't be happy until he gets it. We have been tilling the soil a long time and we would now like to have a chance to till the till. We want a reasonable price for our products and unless we get it we are going to have to quit raising them, or go broke. In closing let me make a final appeal to the Texas farmer for organization and co-operation.

The Farmers Must Stand Together. The farmer neither fixes the price of the things he sells or buys. His assignment in the vineyard of industry is one of toll and his compensation is fixed by competitive lines of industry. He can only enlarge his responsibilities and extend his influence through co-operation and organization and until he does so he must depend upon mercy rather than justice to fix a price on his labors. He can only assume the managerial reins of agriculture through co-operation and until he does so he must remain the victim of his own folly. Let us all get together.

GAS EXPLOSION CAUSED BY SMOKING CIGARETTE.

(Electra News) Lighting a cigarette while pulling a well on the Douglas lease resulted in a gas explosion that severely burned Joe Chilson, one of the casing crew. His face and arms were burned to a blister and his hair was singed. He pluckily walked to the city alone and Dr. Gault dressed the burns. The flash ignited the slush and it was several minutes before the fire was successfully smothered. Chilson is to be congratulated that the result was not more disastrous.

SAYS NEW SUGAR TRUST WILL FORM

HENRY T. OXNARD DECLARES TARIFF WILL MAKE IT NECESSARY

PREDICTS FEW SURVIVALS

Declares Only the Best Managed Sugar Companies Will Survive The Tariff

By Associated Press. Washington, June 16.—Henry T. Oxnard, vice president of the American Beet Sugar Company told the Senate lobby committee today that free sugar would result in the formation of a new "sugar trust." Only the best managed sugar factories would be able to survive free sugar, he said, and a combination would result.

"Then you are going to form a new trust," asked Senator Root. "I have that in mind," said the witness. "In violation of the anti-trust law?" "No sir; there is no law to prevent it; I have been so advised by counsel."

Oxnard told how he assisted in organizing the old sugar trust in 1889.

RUMORS OF WAR IN WEST VIRGINIA

REPORTED MINERS ARE PREPARING FOR ANOTHER OUT-BREAK

MORE TESTIMONY TAKEN

Score of Workmen Give Evidence Relating to Troubles of Last Winter

By Associated Press. Charleston, W. Va., June 16.—Rumors of war from mining camps in the Paint Creek and Cabin Creek districts today came to Charleston where the Senate investigating committee was in session. Only the most meager information was available, but it was generally accepted that no serious outbreak had occurred.

There was, however, considerable anxiety over the effect renewal of trouble might have on the New River district a few miles away where 15,000 men have been considering strike orders.

The committee today continued taking a vast amount of testimony. A score of miners testified that the trouble was caused by activities of the mine guards.

Elizabeth Fish, a nineteen year old girl, described how a party of guards forced her and another girl to wade Cabin Creek at the point of a gun, meantime taunting them with obscene remarks.

HEARING OF OIL SUIT AT DALLAS

TAKING OF TESTIMONY WILL BE RESUMED TOMORROW MORNING

WICHITAN WILL TESTIFY

George Harrington is Among Those Subpoenaed—Prices to be Investigated

By Associated Press. Dallas, Texas, June 16.—Hearings in the Texas \$99,000,000 oil penalty suit began here today. Dallas is the head of the marketing department of the Magnolia Petroleum Company of Corsicana, the Texas oil refining concern involved.

State's attorneys said they would investigate prices and selling contracts, the state contending that the Standard Oil companies of New York and New Jersey or some of their stockholders who also are stockholders in the Magnolia influenced the prices charged by the Texas concern and controlled its selling department for the benefit of the Standard oil interests.

No testimony taken today—the session adjourning until tomorrow to enable the attorneys to investigate the books and correspondence of the sales department.

Among the witnesses called was George Harrington who left the employ of the Magnolia about a year ago. Attorney Richard Maury for the state said he believed Mr. Harrington now residing in Wichita Falls, will give testimony through an independent commissioner. Mr. Maury did not say whether this would be done.

LOCAL BANKER IS SKETCH SUBJECT

NATIONAL PETROLEUM NEWS TELLS OF P. P. LANGFORD, OIL MAN

LILACS ARE REFERRED TO

Transition From Tenderfoot to Fledged Oil Man is Told in Detail

P. P. Langford is the subject of an interesting sketch in the June number of the National Petroleum News, the occasion being Mr. Langford's becoming a full-fledged oil man. The article is by W. G. Long and follows:

Your correspondent usually does not go into the highways and byways in search of a victim. Neither does he write about an oil man who has been baptized in salt water and oil from the subterranean depths of the earth, therefore when a man's picture appears in these columns it is a foregone conclusion that he is an oil man.

The man this month, two years ago had about the same feet as ever stepped onto the hard floor of a derrick. But remember, that was two years ago, and today he has been immersed in the golden fluid of oil, and he is not a Baptist, either.

He was born during the stormy period of October 24, 1861, at Newberry, S. C. When 24 years old he came to Wichita Falls, landing here in 1885, hence he has been here long enough to grow horns, and is a long horn right. But instead of growing horns he grew whiskers and he has about the finest bunch of lilacs that ever got mixed up in the sawpumpings, and he is as proud of them as he would have been back in his dear old South Carolina had his father given him a pair of red-topped boots.

He did not go into the oil country, but waited for the oil country, to come to him, and as everything comes to those who wait, he waited and it came. P. P. Langford began his career as a bank clerk in the old bank building now occupied by the State Bank & Trust Company, on the corner of Seventh street and Ohio avenue. This was a time when there was sufficient gravels and Indians and they needed men as bookkeepers.

This is the same building that was robbed in February 25, 1896, by outlaws who will go down in history as men without a name. They died as they lived under the name of "Crawford" and "the Kid," and the stone that marks their graves is unmarked today. When this bank was robbed P. P. Langford was a clerk, and, as a good soldier, would state it, he knew how to make a retreat; he outran the first two bullets but the second hit him and you can tell by the place he was shot that he was not the man to run, but it was through his efforts that the robbery was known and chase given by the local officers which was finished by the famous Texas Ranger Bill McDonald. The robbers were taken to the jail and guarded, where through deceiving McKeon the robbers afterwards escaped out and hanged. You will note by this he has fought and bled for his bank.

In 1897 he was elected cashier of the City National Bank, where a large number of the oil men keep their "over-draughts" and your correspondent got well. He was promoted to the presidency of the bank where he enters into this story as an oil man.

You will note what a high forehead he has, and before I forget it, I want to say that there is more in that head than you can scratch out with a fine comb. He is in the right place now for he is a big broad gauge fellow, and it would be as hard to keep a man of his ability out of the oil game as it would be to operate an ice plant in—well just what you are thinking that I am going to say. Although he has only seen this one oil field, yet he is as much of an oil man as if he were born, as some men who aspire to poezy would say.

"Where the derrick spires are tallest, And the dividends the smallest; Where promoters are the slickest, And they get your coin the quickest." "In Texas."

There is a saying that "No one loves a fat man," and there is a disposition on the part of the oil fraternity to give a man with whiskers the cold side of their anatomy, but it never phased P. P., and today the oil men have taken him, whiskers and all, in to the holy of holies of oildom.

The position he now holds is one of considerable importance, that of vice president of the biggest bank in the Panhandle. No matter what his salary, he is one of the best assets that any banking institution can have for he can call every man in the county by name, and I, for one, do not believe that story where the man got the word recourse mixed with another that sounded the same.

He has a beautiful residence and a growing family. I hate to jerk aside the portieres, but it is too good to keep. When the latest arrival in the Langford household came it was a girl, and P. P.'s joy was great. Some of the boys in the bank swear he bought a thousand hats.

We are glad to welcome you, old scout, into the realms of the oil fraternity. We do this because of your breadth of vision and your disposition to take things as they come, and to look good to you. Because you are game and can lose without squealing. You are on the right road and our best wishes are yours, for you are the kind of a man of which oil men are made.

Author's Note.—I swear that the above gentleman has not joined me any money, neither do I owe him anything personally. My bank account is not overdrawn at this writing, therefore the above is written from the standpoint of an admirer of an honest-to-God good fellow.

Sweetwater.—The Nolan County Fair Association has started work on the annual catalog which will announce a premium list of two thousand dollars. An active campaign for exhibits has been inaugurated over the county and the exhibition is receiving liberal support.

WILSON TO READ MONEY MESSAGE

WILL LIKELY DELIVER IT IN PERSON TO BOTH BRANCHES

PROBABLY NEXT MONDAY

President Says Bill to Be Introduced in From Common Council of Reform Advocates

By Associated Press. Washington, June 16.—President Wilson probably will read his currency message personally to both branches of Congress assembled in the hall of the House as he did his tariff message. He finished writing the message today. It is about 1200 words long and urges immediate revision of the banking and currency laws. The president expects the currency bill to be launched in both Houses of Congress some time this week.

It represents the administration views and according to Mr. Wilson himself will be "no man's bill," but the results of common council among currency reform advocates. The president expects that the bill will be introduced in both Houses by Wednesday or Thursday and the president will pronounce his views to Congress about June 23.

The president declared today there were no essential variations among the leading Democrats with whom he had consulted concerning currency re-

NO GRADUATED TAX ON TOBACCO

SENATE COMMITTEE VOTES DOWN PROPOSED AMENDMENT TO TARIFF

FREE CATTLE AND GRAIN

Countervailing Duty is Provided, Except Oats Which Carries Ten Cent Rate

By Associated Press. Washington, June 16.—A graduated tax on tobacco as an amendment to the tariff bill was unanimously rejected by majority members of the Senate finance committee today, who voted down Senator Hitchcock's amendment suggested by Attorney General McReynolds.

The committee approved placing livestock and grain on the free list with a countervailing duty, except oats, which remains dutiable at ten cents a bushel. Citrus fruits were unchanged. The committee voted to take bananas placed on the free list and impose a duty, but how much was not decided.

MINING PROBE TO CLOSE TONIGHT

SENATORS HEAR OPERATORS' SIDE OF WEST VIRGINIA TROUBLE

MANY WORKMEN QUITTING

Fears of Fresh Outbreak in Hills are Present, But Outlook is Hopeful

By Associated Press. Charleston, W. Va., June 17.—The United States Senate committee investigating mining conditions in this State will finish taking testimony here tonight.

Today's testimony was given over to the operators. Senator Swanson, chairman of the committee, said today it was absolutely necessary for members of the committee to be back in Washington this week; News of the critical condition in the hills continued to come into Charleston today.

Although union officials declared they were doing their best to keep their men on Paint and Cabin Creek at work, many men were quitting the mines. Operators said they were having no difficulty running their plants.

Strike Reports Meager. The committee faces a more serious situation than heretofore in view of the declaration that really amounts to another strike in the Paint Creek and Cabin Creek districts. To what extent the districts will be affected by this latest action of the miners was not made known in meager reports received from the mine regions today.

Word from the isolated sections that the strike was on again drifted into Charleston from half a dozen sources and representatives of miners, miners and state officials sought in vain for definite word from the little camps along the creeks.

Union Camps Quiet. The union attorneys before the committee declared they were certain that the men had declined to go back to work today, at meetings held yesterday, but they were unable to make any estimates of the strikers. There were comparatively few union men in the field, they said, but they believed both union and non-union men decided to quit.

With the New River district, a few miles away from the creeks, awaiting only the match to set off a conflagration of excitement, the state officials today watched the situation with fear and trembling. For days the New River miners, numbering 15,000, have threatened trouble and it was feared the new outbreak on Paint and Cabin Creeks would precipitate the struggle.

First Safety, Then Service

We give to our customers. No one has ever lost a dollar in a Guaranty Funk Bank in Texas.

We extend every accommodation consistent with safe banking.

This is a bank for depositors, because your money is safe and also a bank for borrowers as we help our customers in every way we can. Their interests are our interests.

WILL EXEMPT REFUGEES FROM QUARANTINE RULES

Austin, Texas, June 14.—American refugees from Mexico will be permitted to land at Galveston without spending four days in quarantine as required by state regulations, provided they have proper health certificates issued by the federal authorities at Tampico, the point of embarkation. This was the message sent by Gov. Colquhoun today to Secretary Bryan at Washington, replying to Bryan's request that the state regulations be suspended.

The governor was advised that the Red Cross, acting in conjunction with the State Department, is trying to remove to the United States American refugees who are in desperate circumstances, many of whom are citizens of Texas, and that the steamship Mexicano, due to sail from Tampico today, had refused to accept any of these refugees for passage to Galveston on account of what was called the arbitrary and unjust regulation of the state quarantine department.

Lorens.—The Business Men's Club and Women's Club are co-operating in a keep-clean town campaign, and the improvement resulting from their activities is already noted. These organizations will also co-operate on all matters of interest to the town along sanitary and civic lines.

EFFORTS AT CLEMENCY FOR BANKER UNAVAILING

Houston, Texas, June 14.—Friends of F. E. Pye, former president of the Central Bank & Trust Company of this city, who was convicted at Brazos and sentenced to five years imprisonment on a charge of forgery, were advised today that the legislative committee, the state pardon board and Governor Colquhoun had all decided against interfering with the sentence. This means that Pye must serve his term. It was intimated, however, that a further move in his behalf will be made before Monday when it is expected to send him to the penitentiary. He was convicted at Bryan on a charge of venue from Houston. An appeal from this verdict is pending at Austin.

DR. CHARLES S. AKED IS NOW AMERICAN CITIZEN.

San Francisco, June 14.—Rev. Dr. Charles S. Aked, a clergyman of international repute, foregoes his allegiance to King George of England and became a citizen of the United States. Dr. Aked came to this country six years ago to be pastor of the Fifth Avenue Baptist Church in New York which is attended by John D. Rockefeller. In 1911 he became pastor of the First Congregational church here.

RATE MAKING POWERS OF STATES AGAIN SUSTAINED

Supreme Court Decisions Today Spell Further Defeat For The Railroads. Court Adjourns

By Associated Press. Washington, June 16.—Decisions handed down today by the supreme court upheld the rate-making power of the states, including two-cent freight rates in nearly every state.

At 2:15 o'clock the supreme court announced a decision in the application for a review of the G. Application for a rehearing of that day.

Partial Victory For Missouri. The decision is a partial victory for Missouri, as the lower courts had held the rates confiscatory on all the roads.

Missouri Decisions. In the Missouri rate cases the supreme court held the rates confiscatory on the St. Louis and Hannibal, Kansas City, Clinton and Springfield and Chicago Great Western railroad.

The court also sustained the rates of the Missouri law as to the Chicago and Quincy, the Atchison, Topeka & Santa Fe, the Kansas City Southern, Missouri, Kansas & Texas, Chicago Rock Island & Pacific, and the St. Louis & San Francisco.

Other Decisions. In each of these cases the decree of the lower court in favor of the railroads was reversed.

The Arkansas maximum freight rate law was upheld as valid. The West Virginia two-cent passenger law was upheld which affirms the supreme court of appeals of West Virginia.

The court upheld as valid rates imposed by the Oregon railroads commission thus affirming the federal courts of that state.

Anged down today by the supreme of commissions and legislatures of are measures in some instances. The case upon which the court passed...

As to the limitation from the capitol that currency legislation was not desired at this session, the president declared no such information had been conveyed to him.

The arbitration treaties sent in some time ago extending existing agreements with Great Britain and the other countries have not been touched in the Senate for nearly ten days.

FIERY ORATORY BY SUFFRAGETTE

WOMAN ON TRIAL FOR CONSPIRACY SPEAKS IN OWN DEFENSE

MILITANCY IS JUSTIFIED

Says Trickery and Treachery of Cabinet Ministers Have Given Ample Cause

By Associated Press. London, June 17.—An impassioned speech in defense of the outrages committed by militant suffragettes was delivered today in Central Court by Miss Annie Kinney, on trial for conspiracy.

"If I have got to die to get the vote," she said, "I will die willingly, whatever the verdict of the jury today."

Greater interest was taken in today's proceedings than in any previous stage of the trial. Miss Kinney asserted that the action of the cabinet ministers who she said had asserted that the unfranchised were justified in rebelling to get their grievances remedied, furnished ample warrant for militancy.

"If further justification were necessary," she said, "the trickery and treachery of cabinet ministers supplied it. The present government has treated the aspirations of the women more abominably than any British government since 1867."

Six of the most prominent leaders of the militant suffragette organization and one of their more supporters were today found guilty of conspiring to commit malicious damage to property.

The women, officials of the Women's Social and Political Union, are Miss Harriet Kerr, Miss Agnes Lask, Miss Rachel Barrett, Mrs. Beatrice Saunders, Miss Annie Kinney and Miss Laura Lennox.

STORY OF WEST VIRGINIA WAR TOLD

MEN SHOT FROM ARMORED TRAIN

"DEATH SPECIAL" EMPLOYED IN RIFLE FIGHT ON MINING CAMP

COMMITTEE IS STARTLED

Men and Women Tell How Peaceful Community Became Veritable War Theatre

By Associated Press. Charleston, W. Va., June 14.—Today's inquiry by the Senate committee investigating the coal mine strike centered about a single battle in the Paint and Cabin Creek districts.

The committee was astonished at the testimony of Lee Calvin an ex-mine guard, who was one of the men in the armored train when the strikers' camp was fired upon.

After relating that he had been a chief guard on Cabin Creek and had left the district because of the shooting there, he said that Sheriff Bonner Hill and Quinn Morton, a mine operator, had prevailed upon him to join in the party going up Cabin Creek Valley. He said:

"There were ten or twelve men in the armored car and when we got to Paint Creek junction all of them began getting rifles ready. They tried to give me a rifle, but I told them I had no shooting to do. The brakeman came through the train and turned down the lights. He told us to get into the windows but to shoot right through the windows. I was leaning out of an open window and as we came up to Holly Grove I saw a stream of fire from the baggage car where the machine guns were mounted.

"The stream kept up as we went through Holly Grove. As we passed I saw three or four flashes of fire from the tents."

"The witness did not see any shots from the tent before the shooting began from the train. He said: First Shots From Train. 'I just heard the engine's whistle blow 'trot, trot' and the shooting from the train began. I am positive the shooting first began from the baggage car."

"The witness said Quinn Morton was on the train. When the train had passed the miners' camp at Holly Grove, he said Morton came running back through the car and shouted, 'Back up the train and we will give them another round.'"

"I think the sheriff told him something about there being women and children up in those tents, and he wouldn't shoot." At this statement Senator Martine of New Jersey, also leaped from his chair and shouted:

"What sort of a man is this Paul Morton?—mean Quinn Morton? Is he an ordinary American citizen that he could order such a thing? Attorneys for the coal operators were on their feet and in a moment the committee room was in confusion. Attorney Jackson shouted:

"Mr. Morton will be brought before your committee and you will see him and talk with him. 'God help me, then,' remarked Senator Martine. 'The senator ought not to say that,' said Mr. Jackson. 'I just can't help it,' said Martine. 'Under examination by another attorney, the witness repeated the statement that Quinn Morton came through the car bolting back up the train and we will give them another round.' He said when the train reached Mucklow, just above Holly Grove, the men in the armored car remained there three days until after the last night of Mucklow. Calvin said he wanted the company bookkeeper named Bobbett, who was killed in the battle, not to go up the hills that day. Witnesses said:

"I was there when they brought him back on a stretcher, him and the others who were shot in the battle." The witness declared Chesapeake and Ohio railroad detectives had slugged him in a Charleston hotel because he had quit the company.

Women and men who showed traces of years of arduous toil digging coal from West Virginia mountains told the committee their side of the controversy. It was a tale of a peaceful community of happy, contented people trans and talk with him. Five hundred laborers assembled in an effort to die out the buried men. There appears no hope that any of the men have escaped death.

Two injured men were rescued, but one of them probably will die. Five hundred laborers assembled in an effort to die out the buried men. There appears no hope that any of the men have escaped death.

Senate committee now in West Virginia hills investigating the civil war which attended the strike of the miners in the Paint and Cabin Creek districts last winter. The investigation was ordered following reports of conditions bordering on Cossackism.

at Holly Grove, when the armored train made its appearance. She said she had been shot through the limbs, and the bullet had gone through the Bible and hymn book on her parlor table.

"Shoot To Kill." W. B. Bizzard told the committee that a man with whom he was talking on a Cabin Creek train was shot from a closet on the car after an argument with a mine guard. No criminal action ever resulted from the shooting, so far as he knew. Harvey S. Kimball, a former special agent of the Chesapeake and Ohio railroad, said he had ridden on the "Bull Moose" train and had been ordered to shoot if stones were thrown at the train. He said: "If you shoot, shoot to kill, was our orders."

Romeo Bennett, another special agent, gave similar testimony.

ELLEN PROBABLY DEAD IN UNDER GROUND CAVE-IN

New York Subway Becomes Tomb of Workmen Eighty Feet Below Surface

By Associated Press. New York, June 14.—Eleven lives are believed to have been lost in a disastrous cave-in eighty feet underground on the new subway under construction at Fifty-Sixth street and Lexington avenue this afternoon when thirty-two men of a crew of thirty-two drillers and laborers were entombed. At 10:30 six bodies had been recovered and five were still buried under many tons of rock and earth.

Two injured men were rescued, but one of them probably will die. Five hundred laborers assembled in an effort to die out the buried men. There appears no hope that any of the men have escaped death.

IRON AND STEEL GO ON FREE LIST

RAW MATERIALS BECOME NON-DUTYABLE BY ACTION OF COMMITTEE

\$2,000,000 IN REVENUE

Finished Products' Rates Cut to Compensatory Basis—Debate May Start Wednesday

By Associated Press. Washington, June 14.—The transfer to the free list of tariff bill of iron and steel raw materials with an estimated dutiable value of more than \$600,000,000 a year, was approved today by the majority members of the Senate finance committee. This increased the Senate's additions to the Underwood free list to an aggregate annual loss of \$2,000,000 in revenue; making the total annual revenue loss from the free list about \$27,000,000.

After an entire day spent on the subcommittee's report of the metal schedules, Chairman Simmons announced it had been widely cut. Nearly every item of the schedule was reduced. To the free list were added pig iron, corrugated steel blooms, slabs and billets. On all finished steel products an average reduction of ten per cent was made from the Underwood rates. Lead, zinc, aluminum were left to be disposed of Monday. Aluminum will be changed from an ad valorem to a specific tariff basis and the duty will be reduced but will not be transferred to the free list as many advocated.

Administrative Features. Aluminum experts will be called in Monday to look over the committee's proposed specific rates. All structural steel which was made dutiable at twelve per cent in the Underwood bill, has been reduced, compensatory to the free listing of raw materials, the average rates being about ten per cent ad valorem. The raw materials were placed on the free list largely because they are controlled by the United States Steel corporation.

Senator Simmons said the administrative features of the bill, which he presented such a problem, would be acted upon Monday or Tuesday, and that the bill would be ready for the caucus by Wednesday or Thursday. It was agreed by many of the democratic senators that it would have been well had there been no attempt at this session to revise the tariff administrative regulations. Inasmuch as the House bill has many changes and the Senate has considered the subject for many weeks, it finally was determined that the revision task should be completed.

All democrats of the finance committee make it secret on their wish that it would have been possible to retain the Payne-Aldrich administrative provisions until a commission could make a thorough study of the subject. On Monday the committee will take up the agricultural and sundries schedules and the free list. It is predicted the caucus will make few changes and that debate on the measures can begin in the Senate by Wednesday, June 25.

STOCK MARKET RECOVERS FROM RECENT DEPRESSION

By Associated Press. New York, June 14.—The advance in stocks which came after the violent break earlier in the week went unchanged today. Virtually every important stock traded in shared the day's rise, which substantially amounted to the largest gains achieved since the upturn began. Many stocks were carried above their prices a week ago, having sustained a complete recovery from the downward plunge after reaction of the Minnesota rate decision. Operations for the long account were carried on more confidently today, bull traders being encouraged by yesterday's firmness in the market.

Concrete efforts were made to drive in the short interest, which was forced to retreat. The advance continued throughout the half day session. Growing ease in money rates was an important factor in the broadening speculation for the long account. A large cash gain by the banks for the week was shown by the banks' statement. It totaled approximately eleven million dollars. The week's liquidation in securities was reflected in a scaling down of loans and nearly nine million dollars in excess of cash reserves. In the weekly trade review emphasis was laid on various favorably features of the week, including the good crop report the better tone in the money market and lessening of tension in trade schedules.

JAPAN WANTS TO RENEW ARBITRATION TREATY

Ambassador Notifies United States—Other Treaties Will Go Through, Bryan Predicts

By Associated Press. Washington, June 14.—Japanese Ambassador Chinda today advised Secretary Bryan that Japan is willing to renew another period of five years her arbitration treaty with the United States which expires by limitation August 24. Secretary Bryan said today he expected the Senate will ratify the new arbitration treaty signed with Great Britain and other countries, notwithstanding the opposition against them.

TRAIN HITS AUTO, TWO MEET DEATH

F. A. RYAN AND WIFE OF DALLAS KILLED IN SMASH-UP

Auto is Hurled Eighty or Ninety Feet and Occupants Live But Short Time

By Associated Press. Waxahachie, Texas, June 14.—Mr. F. A. Ryan and wife of Dallas, Texas, were struck by a southbound Katy passenger train near Forrester early today while riding in their automobile. Mrs. Ryan died in a few minutes and Mr. Ryan in a few hours. They were going to Galveston in the machine to spend their vacation. They stopped at Waxahachie for breakfast.

Mrs. Ryan was unconscious when picked up, but Mr. Ryan was still conscious. The train stopped, backed up and took them aboard, carrying them to Italy. The auto was struck broadside and hurled eighty or ninety feet along the right of way and turned upside down on the fence. Both the auto and the train were going down-grade at the time. Some parts of the machine were thrown three hundred feet.

Mrs. Ryan was thrown 145 feet, landing on the west side of the track. Mr. Ryan was picked up about 130 feet from the crossing on the east side of the track. The pile runs parallel to the railroad about a hundred yards and crosses at a sharp angle. A sharp wind which was blowing possibly prevented Mr. Ryan from hearing the train.

LABOR EXEMPTION FROM ANTI TRUST LAW OPPOSED

Chamber of Commerce of United States Takes Referendum Vote on Subject

By Associated Press. Washington, June 14.—By a large majority of its constituent members, the Chamber of Commerce of the United States in referendum voted today to oppose the exemption of labor and agricultural organizations from prosecution under the anti-trust law as provided in the sundry civil bill and favored, practically unanimously, for the establishment of a permanent tariff commission. The appropriation in the sundry civil bill for enforcement of the anti-trust law is made with the prohibition that none of the funds shall be used for prosecution of labor or agricultural combinations.

The bill is about to go to President Wilson for signature and the result of the business men's vote on this subject will reach him about the time the bill does. The referendum had been forty-five days in process of development.

CIVIL SERVICE PLAN FOR CONSULAR VACANCIES

By Associated Press. Washington, June 16.—Secretary Bryan upon authority of President Wilson issued a statement today announcing the purpose of the administration to maintaining the civil service principle in the consular service. Vacancies are to be filled from outside the service only when the administration holds they cannot be properly filled from within.

O. S. Williams of Bowie

COLORADO-GULF PARTY ARRIVES

REACHES CITY LATE MONDAY, LEAVES THIS MORNING FOR BOWIE

MERIDIAN ROUTE MATTER

Question of Road to be Taken From Here to Fort Worth Will Be Settled

The "Colorado-to-Gulf" party which has been making a trip down the Denver road, reached Wichita Falls late yesterday afternoon and after spending last night here, departed this morning for Fort Worth by way of Bowie. The party included O. I. Williams of Bowie, president of the Panhandle division of the Colorado-to-Gulf Highway Association; M. F. Leonard, engineer of the highway, and Horian Dadds of the Blue Boy association.

Mr. Dadds, on this trip will settle, probably for good and forever, the question of whether the Bowie route or the Jackson-Minor Wells route from Wichita Falls to Fort Worth shall constitute part of the Meridian road. There has been much rivalry between the towns along the two routes and Mr. Dadds will settle the question on this trip.

President Williams said that while two bad places were found in this county, one just north of Iowa Park and one right here in the city limits of Wichita Falls, on the south approach to the Wichita River bridges, the roads in this county were in good condition. There was more evidence of new work between Wichita Falls and Electra, he declared, than in any dozen counties along the line. Mr. Williams was very optimistic over the proposed highway and believes the towns along the Denver will win over the other proposed routes.

A large committee of Wichitans met the party at Electra and escorted them to this city. The visitors were taken to Lake Wichita last night and were otherwise entertained during their stay in this city.

POULITSA' BIZOU'S WAGE FEATURE IN RIOT CASE. Ipswich, Mass., June 17.—Judge C. A. Sayward, at the resumption of the case of nineteen persons charged with rioting during the strike disturbances last week, had examined a mill record indicating that during January, February and March, a maximum of \$8.42 and a minimum of \$6.59 in wages for a full week of fifty-four hours were paid Poulitza Bizou, a young Greek girl. She testified Saturday that during a year and a half in the mill, she received about two and a half dollars a week.

UNIVERSITY ALUMNI WILL HOLD MEETING JUNE 24

To Gather at Dallas to Take Steps for Adoption of Joint Resolution No. 18

By Associated Press. Dallas, Texas, June 17.—A meeting of alumni of Texas University in all parts of Texas will be held at various organizations throughout the State was called today to be held in this city Tuesday night, June 24, to launch a campaign for the adoption of Senate Joint Resolution No. 18.

The meeting was called by the Dallas association of the alumni. President Moses of the State University and State Superintendent of Public Instruction F. M. Bralley will speak.

MANY ENTRIES IN RACE MEET MADE

LISTS OF SEVERAL HARNESS EVENTS CLOSED ON JUNE 15

ALL EVENTS NOT CLOSED

Some Will Remain Open Until July 26 and Others Until Opening of Meet

Entries for several of the harness events in the race meet to be held in August closed June 15 and the list was made public today. Secretary Jeffries has arrived and assumed his duties.

The entries with the name and address of the owner and the name of the driver where the latter has been selected, are as follows:

2:35 Pace.

No. 1—2:35 pace, closed June 15th Baby Eunice—J. W. Albert, Chil dress, McCloud.

Willie Watt—W. P. Parker, Wichita Falls.

Fred Lock—C. E. Mickens, Wichita Falls.

Josie B. and Dixie Hal—J. T. Patton, Clarendon, Waller.

Manjou—P. Sneed, Vernon, Crawford.

Allator—M. F. Stone, Elk City, Okla.

Al Onward—W. S. Pike, Lake Charles, La.

Rex, Jr.—Dr. Slack, Clayton, N. M. G. W. Felger.

Symbol G—Frank Johnson, Lawton, Okla. Chas. Harigers.

Johnnie Patch—A. E. Selinger, Clovis, N. M. Selinger.

Baby Doot—John Simpson, Quanah, Texas. Rainey.

Twincyle—W. H. Spalding, Center, Texas.

Honest Boy—T. T. Wood, San Marcos, Texas.

Louise and Albertson—W. T. Munger, Lampasas, Texas.

Etta Green—Jno Breezley, Phoenix, Arizona. Breezley.

Robin Parole—S. H. Sterner, El Centro, Colo. Breezley.

Bill Tatt—W. J. French, Sulphur, Okla.

2:14 Pace.

No. 3—2:14 pace, closed June 15. Baby Eunice—J. W. Albert, Chil dress, McCloud.

Mary Malone and Lora Greenfield—T. J. Jeffries, Childress, McCloud.

Symbol Seal—Robt. Nichols, Dickens, Texas. Anderson.

Willie Watt—W. P. Parker, Wichita Falls.

Fred Lock—C. E. Mickens, Wichita Falls.

Mattie Onward—Jno. Betts, Weldon, Texas.

Rex, Jr.—Dr. Slack, Clayton, N. M. Felger.

Douglas and Joe Bailey—C. A. & T. H. Wade, Roscoe, Texas. Wade.

Triste Dunham—W. A. Johnson, Lawton, Rogers.

Bargain in Glasses

You can't afford to buy glasses on the basis of price. If you do, you'll not get any more than you pay for—probably less.

A bargain in glasses is not determined by their cheapness but by the satisfaction they give.

Our examination of the eyes is thorough and authoritative, and the glasses we furnish are made especially for your eyes and guaranteed to be correct.

"No drops." We know how

Dr. J. W. DuVal

Eye, Ear, Nose, Throat

ANOTHER NEGRO PASTOR IS UNDER ARREST HERE

Rev. D. J. Jones, pastor of the Mount Pleasant Baptist Church, colored, of this city, was arrested last night on a charge preferred by Mrs. J. W. Williams, a member of Rev. Jones' flock.

The alleged offense was yesterday afternoon about 3:30, J. W. Williams gives this account of the affair: "Yesterday afternoon while my wife was at home alone someone knocked at the door and before my wife thought she said, 'come in,' and this Rev. Jones, our pastor, came in. He said, 'Mrs. Williams, I have come to ask you to be my friend, and my wife says, 'Why, Rev. Jones, I should say not—you is my pastor, and my husband is a good hard working man who always treats me right, and besides I have a lot of housework to do before supper time.'"

"Rev. Jones then asks once more will my wife be his friend, and she starts to run, but Rev. Jones locks the door and grabs her by the neck. My wife has been taking treatment for a long time for yellow jaundice and for nervous prostration, but she sure despised Rev. Jones, and yelled for help. Mrs. Florida Moore lives next door and she heard my wife holler, and she says, 'What is the matter, Liverlip?—Everybody calls me Liverlip, and they calls my wife the same thing. When Mrs. Moore called that way, Rev. Jones jumped up and ran from the house, but he left his hat and umbrella.

"Has Pastor Arrested." "As Rev. Jones left the house he says to my wife, 'Don't you try to make a case in court out of this. When my wife told me I had Rev. Jones arrested.'"

"Rev. Jones' version of the affair differs in many of the details from that of Williams'. He said: 'I came home yesterday from Fort Worth, and as I passed Jim Williams' house, Mrs. Williams called to me and said, 'Come in.' I said no, I can't come in for I am tired and I haven't got time. But she asked me some more to come in, so I said, 'Well, I will come in and shake hands.' I went in to shake hands and had been there only about twenty minutes, when another woman came in and so I got up and went away. I then went over to Brother Gibbs' where I roomed and I went to sleep. When I went to church last night this Jim Williams tried to hit me twice with a billiard cue, and would have killed me if I had not run on to the church. I did not know what was the matter, but I know Jim was sore at me, and knew that this is all a frame-up. When I came here from Fort Worth two years ago to take charge of this church I threw Jim Williams and thirty-three others out of the church because of their wickedness. They was not living the right kind of lives. This made Jim mad and then when we had some additional built to the church I gave the job to some one else when Jim wanted it, and that made him mad again.

"Arrested Once Before." "This is all a frame, because when I went on to the church last night, I sent word to the law to come and get Jim for trying to hit me with that billiard cue. When the law came down looking for him, he and his wife framed up this story that they now tell. I never have done what they said I did at the Williams' house.

"About two years ago I was arrested for something like this, and I didn't want to stay all night in jail so I pleaded guilty. That coming about this way, I was out making some collections for the association, and where I stopped at one place the woman was in bed, and I was sitting on the side of the bed, when the law came in and got me. I know I pleaded guilty just to stay out of jail, for I was a pastor and knew it would be wrong for me to stay all night in jail when I was in charge of the church here."

The officers, however, say that Rev. Jones has been taking a chance at trouble for some time, and his relations have kept the colored people of this section of town in a broil all the time. He has been accused of going to church before the bell rung on several occasions.

Rev. Jones was bound over to district court for trial on a state charge. His bail was fixed at \$1,000, but he has so far been unable to secure and is now in the county jail.

Eight running races with entries to close on the day before the race have no entries to date.

Entries Yet to Close. The following entries to close July 26. No. 4—Free for all pace. Mary Malone—T. J. Jeffries, Childress, Texas. McCloud.

YALE-HARVARD REGATTA TODAY

ANCIENT COLLEGIATE RIVALS MEET AT NEW LONDON TODAY

FOR FORTY-SEVENTH TIME

Race is One of Country's Oldest and Most Famous Athletic Institutions

PRELIMINARY EVENTS WON BY HARVARD

By Associated Press. Regatta Course, New London, Conn., June 20.—Harvard won an easy victory over Yale today in the four-oared race the Crimson crossing the finish line five lengths ahead of the Yale oarsmen. The race was on hard rain. Harvard won the Freshman eight race by a length and a half.

By Associated Press. New London, June 20.—The crews of both Yale and Harvard Universities are, figuratively speaking, resting on their oars this morning for this afternoon the rival eight oars teams will meet in the forty-seventh annual regatta of the two New England colleges. In point of competition these crew races hold precedence over all other forms of dual sports in which the teams of Harvard and Yale are accustomed to match skill and endurance. Stretching back to the autumn of 1822 the history of the inter-varsity races shows that with but a few exceptions, during the infancy of the sport, the oarsmen have tested stroke and stamina each year.

In point of antiquity, tradition and prominence these regattas yield to no college contest in American sporting annals. Amongst the football, baseball and track meets now a part of the annual athletic curriculum, the boat races are in fact only overshadowed by the historic series between the crews of Oxford and Cambridge which began in 1814. Added interest is also given the regatta of the day because of the fact that the winning crew will break the tie of victories now existing as a result of the forty-six races that have already become a part of the boating history of Harvard and Yale.

Since the first race was rowed on Lake Wampanoag on August 3, 1852, the oarsmen of Yale and Harvard have matched speed and strength forty-six times and the total number of wins for each university is twenty-three, showing how evenly matched the two universities have proved during the period of sixty-one years. Victories, however, have not been so evenly apportioned in the matter of years for both Harvard and Yale have won and lost races in groups of three or more as a rule. Harvard, opening with a victory in the initial contest, appeared to have the experience during the first twenty-three races Harvard won fifteen to Yale's eight. The Elis turned the tide in 1886, and from that year until 1908 the regatta on the Thames, so far as the varsity eight oared crews were concerned, saw the blue-tipped oars finishing first every year except in 1891, 1899 and 1906. Then the pendulum swung to the Crimson again and for the past five years Harvard has led the way across the finish line.

English Plan Adopted. As a result of this string of defeats Yale rowing authorities decided that a new system was needed. It was determined to go back to England for stroke and coaches, and begin all over again. Consequently on the eve of the regatta Yale is found with an English shell, an English stroke, and two advisory English coaches in the persons of J. R. Kirby and Harcourt Gold, both well known Oxford University oarsmen. The Eli undergraduates and alumni are hoping that the change in system will develop a winner tomorrow for the Blue. But above victory they place faith in the methods now in vogue, and believe that by going back to the fountain head of rowing a successful coaching system will be evolved in the near future, if not in 1913.

It will be seen therefore, that the two university crews came to New London this year after training seasons of radically different character. Yale has not been tested in an intercollegiate contest this season. The rowing activities of New Haven have been devoted chiefly to learning the so-called English stroke. Whether the resultant greater backward swing and long recover in the Yale shell will bring to the Blue her first victory in six years has been a subject for animated discussion among the crewmen both amateur and professional. Since the season's training began there have been many shifts in both crews. Although the changes in the Crimson's boat were the more numerous and radical, Harvard will have more veteran oarsmen than Yale in tomorrow's contest.

PARKER ESTATE CASE IS DECIDED

MRS. BARBARA PARKER WINS IN FEDERAL COURT AT DALLAS

SUIT INVOLVES \$300,000

Validity of Divorce Decree Secured by Parker in Missouri is Attached in Petition

A community right in the \$300,000 estate of Walter Parker, deceased, goes to Mrs. Barbara Parker by the terms of a federal court decree filed with the county clerk here today. This litigation has been in process for some time, a decision being handed down in the federal court at Dallas recently. The suit was brought against Leonard Cecil Parker et al.

The estate includes farm lands in this county, Wichita Falls and Vernon city property and securities and cash, totalling about \$300,000. Judge A. H. Carrigan is made master in chancery.

The suit was brought by Mrs. Parker who made numerous allegations in her petition, the case hinging largely upon the validity of the divorce decree which Parker claims to have secured in Missouri. This suit, it was alleged, was brought in one Missouri county while Parker was a resident of another. Mrs. Parker, whose maiden name was Barbara Kraemer, was married to Parker at Anaheim, California, in 1873 and her petition alleged that Parker deserted her in 1877, shortly before the birth of a daughter, Eleanor.

Was Left Penniless. The marriage, it was alleged, was the cause of a family disagreement on the Kraemer side of the house, resulting in Mrs. Parker's parents being divorced. The divorce was secured in Illinois, where there is no community property statute, consequently all the property of the elder Kraemer was retained by him.

This state of affairs ended what ever hopes Mrs. Parker may have had of ever gaining possession of her parents' property, as her father publicly disinherited his daughter when he secured his divorce, the petition alleged. Consequently, when Mrs. Parker was deserted by her husband she was left penniless and dependent upon her impoverished mother. Soon after Parker left his wife, it was charged, the daughter was born.

Remembers Daughter in Will. In his Missouri suit for divorce, Parker, it is alleged, denied the legitimacy of the child and made charges against his wife. Two months before his death, however, he made a will in which he bequeathed certain property to the daughter, Eleanor, and the wording of the will being such, the decree states that it was undeniable recognition of the child as his own.

By the terms of the decree, Barbara Parker sustained practically every point upon which she based her contention, securing a half interest in the community property. The suit will be taken to the supreme court of the United States, it is said, by the dissatisfied parties.

ONE KILLED, ONE HURT IN AEROPLANE ACCIDENT

Mississippi Ensign Meets Death When His Machine Collapses Near Annapolis

By Associated Press. Washington, June 20.—W. D. Billingsley of Mississippi was killed and one other man hurt by the collapse of their aeroplane while flying Chesapeake bay near Annapolis this morning.

The two officers started early today from the naval academy in a hydro-aeroplane for Clearborne. When from five to seven miles from Annapolis the aeroplane capsized about 1600 feet in the air. Billingsley fell after his machine had dropped 1000 feet; his body had not been recovered. Lieut. Towers remained in the machine and fell with it into Chesapeake Bay, where he was rescued and hurried to the naval academy hospital, injured although it is not known how seriously.

The death of Ensign Billingsley makes a total of nine fatalities in the government's service since the army began experimenting with Fort Myer in 1908. His death is the first in the aviation corps of the navy.

NEW JERSEY AUTOIST IS GIVEN PRISON SENTENCE

By Associated Press. Trenton, N. J., June 20.—The supreme court today affirmed the conviction of Daniel A. Dugan, Jr., of manslaughter. While driving his automobile on Christmas day, 1911, he ran down and killed Leo McDermitt, a boy. Dugan's sentence to prison at hard labor for not over ten years or less than five stands unless there is an appeal. Dugan is son of Judge Daniel A. Dugan of the Orange district court, a personal friend of President Wilson who appointed him to the judgeship about a year ago.

REVELATIONS FOLLOWING STAMFORD, (CONN.) WRECK STARTLE PUBLIC; ENGINEER ON STAND

With federal and state inquiries into the fatal wreck on the New York, New Haven & Hartford railroad at Stamford, Conn., under way, the revelations made at the coroner's inquest into the fatality were important to everybody who rides on railroads. Charles J. Dougherty, engineer of section two of the Boston to New York express, who ran into the rear Pullman, Skyark, of section one of the same train, is shown here as he appeared telling his story to Coroner J. J. Phelan. He freely acknowledged his inexperience. The public wondered why he was allowed such an important duty and why the air brakes were faulty, as he charged. The diagram shows where wrecks have occurred on the line within a little over two years.

PERKINS TELLS OF HIS "DEALS"

IS WITNESS IN HARVESTER HEARING AT CHICAGO TODAY

IGNORANCE OF ATTORNEY

Says Federal Prosecutor Evidently Does Not Know Much About Such Deals

By Associated Press. Chicago, June 20.—As George W. Perkins, former law partner of the J. P. Morgan viewed it from the witness stand in the International Harvester company anti-trust hearing today, Edward T. Grosvenor for the government, knows but little of "deals." The particular "deal" in question was incidental to the formation of the International Harvester company, a project fathered by Mr. Perkins, particularly with regard to the witness efforts to purchase the McCormick, Deering, Osborne and Milwaukee harvest companies.

Mr. Perkins, under cross examination stood by his testimony that these concerns were under consideration but not these alone. The government lawyer said four contracts were signed July 28, 1902, and Mr. Perkins explained that a deal might be completed without anything being put on a paper, that that was a formality.

"Didn't you get all the men together and discuss the proposition?" asked Mr. Grosvenor. "That," replied the witness with emphasis "would have been the last thing in the world I would have done. You cannot know much about deals to suggest such a thing. I was particularly interested in keeping the men apart. Had they come together they would have known I was trying to get the four or five firms and they would have advanced their prices on me."

SENTENCES OF STRIKERS PASSED BUT SUSPENDED.

Patterson, N. J., June 20.—Thirty-one striking mill workers, members of the Industrial Workers of the World, convicted recently of unlawful assemblage to serve three months in jail. Court suspended sentence subject to good behavior.

SAYS AMERICAN TROOPS ON BORDER ARE LAWLESS

Merchant from Texas Town Will Complain to Secretary of War Garrison

By Associated Press. Washington, June 20.—Charges that American soldiers on the Mexican border are as lawless as the roving bands across the land were to be laid before Secretary of War Garrison by J. J. Kilpatrick, a merchant of Candelaria, Texas. Mr. Kilpatrick was prepared to assert that the American soldiers are unruly and that they fall to afford protection to Americans. Candelaria is a border town of about 500 inhabitants virtually all of whom are Mexicans. Mr. Kilpatrick said members of his family are said to be the only Americans in the place.

DEMOCRATIC SENATORS IN CAUCUS ON TARIFF

By Associated Press. Washington, June 20.—Democratic senators caucused today on the tariff bill as revised by the majority of the finance committee. Only the income tax feature was held back for revision. The committee expects to meet Monday to complete that work.

EAGLE PASS MERCHANT PLACED UNDER ARREST

Charged With Intending to Smuggle Munitions of War into Mexico

By Associated Press. Eagle Pass, Texas, June 20.—On instructions from the United States district attorney at San Antonio, J. B. Garcia to whom were assigned a lot of khaki suits alleged to be intended for use as uniforms by the constitutionalists and which were seized yesterday, was arrested and held today under \$500 bond to appear before the U. S. Commissioner June 25. The charge is intent to smuggle munitions of war into Mexico.

JURY IN JONES CASE HAS NOT REACHED VERDICT.

The jury in the E. J. Jones case was out all night last night and up to late today without having reached an agreement. The jury stands ten to two as those who followed the case believe that this means ten in favor of acquittal and two for conviction.

There is very little hope of them reaching an agreement. Jones was charged with pandering, and the case has come into some prominence because of the refusal of the State's chief witness, one Lillian Powell, to testify, and her frantic effort to get out of town, the chase ending with her standing on a car step and roughing it with an officer who was heading off her escape. Jones is a barber who came here from Fort Worth.

MASKED WOMEN HOLD UP OKLAHOMA POSTMASTER

Placards Found Nearby Demand Release of Suffragettes Now in Prison

By Associated Press. Guthrie, Oklahoma, June 20.—Two women wearing masks entered the postoffice at Guthrie, Oklahoma, early today, covered the postmaster with automatic guns and looted his till. They yanked \$75 in currency, a bag containing two thousand pennies and two gold watches. The bandits then told the postmaster to sit down.

"Now you keep quiet until we beat it from this burg or we will plug you," said one. The women walked out mounted horses, and rode away. No attempt at pursuit was made.

WEATHER FORECAST
Tonight and Saturday, unsettled.

EBIE FINISHES HIS TESTIMONY

STOPPING OF GASOLINE SALES TO PIERCE-FORDYCE IS PROBED

LETTERS AND PICTURES

Much Documentary Evidence is Identified—Pierce-Fordyce Contracts Photographed

By Associated Press. Dallas, Texas, June 20.—Picking up the unfinished ends of testimony from several witnesses and identifying hundreds of documents occupied this morning's session of the Texas \$95,000,000 oil penalty suit. The circumstances under which the Magnolia Petroleum Company stopped supplying gasoline and naphtha to the Pierce-Fordyce Oil Association on July 1, 1912 were taken up by the State today at the resumption of the hearing.

A. C. Ebie, the Magnolia sales manager, was on the stand, under direct examination. The Magnolia on June 29 notified the Pierce-Fordyce that on July 11, when its contract with the Magnolia ended, no more gasoline or naphtha would be delivered at the price of the contract. Mr. Maury for the State asked Ebie:

"Under the contract there were 12,628 barrels of gasoline coming to the Pierce-Fordyce Association after all orders previous to July 1 had been filled?"

Ebie replied yes, but contended that the contract did not call for the delivery of any of this oil after July 1. Under the circumstances he said though the Magnolia did not send undelivered to Pierce-Fordyce. The defense objected to Maury's questioning on the ground that the Pierce-Fordyce right to get these oils expired July 1. Mr. Maury admitted this was the effect of the contract. The State has contended that although the Magnolia did not send Pierce-Fordyce any more gasoline or naphtha after July 1, 1912, it did sell it to some other concern. Under Mr. Sweeton's questioning, Mr. Ebie testified the Magnolia does not refuse to sell fuel oil to companies which refuse to contract also for lubricating oil.

Under searching questions Ebie retreated that he knew of instances of such practice. The defense took Ebie on record examination. He explained a photograph of a Pierce-Fordyce invoice found in the Magnolia files.

He said after the federal indictment of the Magnolia last summer, "I instructed our managers to secure as much evidence as they could in an honorable way showing prices offered other companies had made and were making." In some cases, he added, Magnolia customers had freely given their invoices from other companies but had requested their return. In such cases the invoices were photographed, Ebie said. The Magnolia had pictures thus obtained of other companies invoices to Pierce-Fordyce. He was excused after being on the stand more than two days.

PLAN INVESTIGATION OF HOT SPRINGS LYNCHING

Negro Strung Up on Business Corner Following Death of Young Woman

By Associated Press. Hot Springs, Ark., June 20.—This city is quiet today following the excitement last night which resulted in the lynching of Will Norman the negro who attacked and killed four teen year old Garland Huff, daughter of Judge E. T. Huff.

An investigation has been ordered by city and county authorities. The negro, Norman was captured in the mountains near here at eight o'clock last night after a search in which bloodhounds and posse took part. Thirty minutes later he was hanged by a mob which included thousands of citizens, the body being strung up to a telephone pole on the most prominent business corner in the town.

The body was stripped of its clothing and punctured by hundreds of bullets as it hung under an arched light for more than an hour, after which it was cut down and burned near the scene. Miss Huff died with out regaining consciousness at seven o'clock last night.

ARSON SQUAD DESTROYS UNOCCUPIED RESIDENCE

Get \$75 in Currency and Twenty Dollars in Pennies—No Pursuit Attempted

By Associated Press. Birmingham, England, June 20.—A large unoccupied mansion at Solihull was burned by an "arson squad" of militant suffragettes today. A number of suffragette placards were found in the vicinity. One of them demanded the release of women suffragists in prison for the cause. Another was addressed to Sir Walter Phillips, who sentenced six suffragette leaders to prison. It reads: "Judge that ye be not judged."

HUNGARIAN PLAN OF RURAL CREDIT

AMERICAN COMMISSION INVESTIGATING SYSTEM IN THAT COUNTRY

RESEMBLES THIS NATION

Government Has Helped Build up Rural Credit System But It Is Far From Perfect

By Associated Press. Budapest, Hungary, June 20.—In a special train provided by the Hungarian Government the American Commission on Agricultural Cooperation was brought here from Fiume, the principal Hungarian seaport. The agriculture of Hungary lacks the extreme intensiveness which was marked in Italy, probably because of insufficient labor. Rural Hungary more closely resembles rural America than any other country of Europe.

In years past Hungary, like the United States, resorted to foreign immigration to increase her population. But wars and the too rapid increase of foreign peoples prevented any assimilation and today in Hungary there are Magyars, Germans, Slovaks, Romanians, Ruthenians, Croats, Servians, Saxons and what not, all clinging to their languages and fighting against race extinction. Every attempt made to further the agricultural interests of the country these conditions had to be taken into consideration. The big estates owned by the nobility complicated matters. The serfs were given their freedom just at the time when the landed nobility was financially in the worst condition.

Hungary Helps. But despite these handicaps the Hungarian government has constructed a system of agricultural credit both for mortgage loans and short time credit needs of the farmers which has proven of the greatest value. Government aid has played an important part in the work.

The mortgage credit institutions of Hungary are neither purely cooperative nor strictly private. The oldest and most important mortgage bank of Hungary is the Hungarian Land Mortgage Institute, founded in 1863. The government borrowed \$200,000 of the capital stock of the company and the balance was subscribed by "founders" who, however, were only required to pay in 10 per cent of the amount of the stock for which they subscribed. These founders receive a dividend limited to 5 per cent of their subscriptions. Besides the founders, every landowner who placed a mortgage with the bank is a member of the bank. Only mortgagors who have a mortgage indebtedness to the bank of at least \$20,000 have any personal voice in the affairs of the bank. The other members may elect representatives to the general assembly. Of course, as soon as a farmer's mortgage expires his membership in the bank ends.

Some Evils Result. Under this form of organization the Hungarians attempted to secure the cooperative principle of representation of the borrowers, farmers, who at the same time placing the greater part of the power in the hands of the founders. Only the founders have the power to elect the president and board of control. The management has fallen into the hands of a few men who, however, have so managed its affairs for the public good that it has satisfactorily met the demands of Hungarian landowners, with the fault, however, that its business is carried on almost exclusively with large landowners. The process of securing money to lend landowners is that of selling bonds equal in amount to the mortgage placed with the bank and secured by the mortgages and, secondly, by the capital and reserve funds of the bank.

The failure of the Hungarian Land Mortgage Institute to meet the demands of small farmers led to organization of the Hungarian National Small Holdings Mortgage Institute, upon lines similar to the Hungarian Land Mortgage Institute, but with the provision in its charter that it should not grant loans to large landowners until the demands of small owners had been satisfied. This bank also grants loans to peasant farmers when a big estate is sub-divided among many holders. Mortgage loans are granted for only 50 per cent of the value of the land in Hungary, but it has been found that when any big estate is sub-divided the income from the land is so increased that it is entirely safe to loan up to two-thirds of the value. In the way the peasant farmers are able to buy big estates.

One fact of special interest to the American Commission was developed in its study of the Hungarian mortgage system: It is frequently the practice of the banks of deposit to loan money on mortgages, and to turn these mortgages over to the mortgage banks, who in turn issue bonds based upon the mortgages. In such instances the bank of deposit appraises the property, makes the loan, guarantees the mortgage which it turns over to the mortgage bank, and often collects the payments of interest and principal. For this service the mortgage bank allows the local bank a small percentage.

Personal Credit. Personal credit of Hungarian farmers is granted through cooperative societies which are united in the Hungarian Central Credit Cooperative so-

ENOUGH OWNERS HAVE SIGNED UP

MORE THAN 75 PER CENT WANT PAVING ON TENTH STREET

HINCKLEY CHECKS NAMES

At Least Half of Property on Each Block Included—Unanimous on Some

Enough property owners on Tenth street between Ohio and Brook streets have signed the petition to make this improvement possible, there being just thirty-two more than the required seventy-five per cent. City Engineer Hinckley made this report to the council last night.

While the paving plans provide for work all the way to the Kemp residence, Brook street will probably be the limit of the first contract, the city having money enough to go only that far. By the time that work is done, the city will probably be able to extend the paving still further west as property owners beyond Brook are almost unanimous for paving.

City Engineer Hinckley's figures show that on two blocks every property owner has signed and that there is not a block on which at least half of the property owners do not want the paving.

Block	Sign	Unsign
Ohio-Indiana	450	150
Indiana-Scott	494	106

IRISHMAN SHOWS FIGHT WHEN OFFICERS ARRIVE

Gives Pugilistic Demonstration on Policemen Graves and Humphreys—Fined \$20.00

There must have been something in the air yesterday that made 'em fight. After three fights had been pulled off within twenty-four hours, the police ran into a Tarrar in the person of an Irishman, who demonstrated that he possessed all the combative qualities attributed to the denizens of the Emerald Isle.

Officer Graves attempted to arrest the man on a charge of intoxication. Before the arrest was accomplished both men were covered with blood, and one or two bystanders who had attempted to assist the officer had been knocked down. Then as the Irishman was being taken into the jail he took one farewell knock at Night Officer Humphreys and knocked him down. Theilarity cost twenty dollars when he pleaded guilty in police court this morning.

Other offenders who pleaded guilty to various offenses this morning added \$35 to the city's treasury in fines.

HARD LUCK IS PURSUING WICHITA FALLS FAMILY

Four months ago Mr. and Mrs. A. J. Mooney, now at 1404 Scott avenue were running a hotel at Wilburton, Okla. One day Mr. Mooney decided to clean out the flue of the furnace. He piled some wood in the furnace, poured some coal oil on it, and set it on fire, the hotel being damaged in the blaze that followed. The insurance companies are holding off on the payment of the policy because of that coal oil.

Mr. and Mrs. Mooney came to Wichita Falls where Mr. Mooney was taken sick and was in bed for two weeks. Shortly after his recovery Mrs. Mooney became ill and was in bed ten days. Mooney finally got a job as driver for a local lumber company. One day his wagon collided with a street car and he was thrown to the pavement and quite severely hurt. He has now recovered, but every time he hears an unusual noise he shudders, for fear it is more hard luck coming his way.

Read What the Press Says. The biggest crowd for the space occupied ever assembled in Paris turned out last night to attend A. G. Allen's Minstrels. There were fully 2,000 persons present and the only reason that there were not more was that they could not be packed and jammed any tighter inside the tent.

Most persons who patronize minstrel shows prefer burnt cork artists because they portray the old-time plantation darkey to better advantage than the black man himself. In the entertainment last night, however, the negro character was portrayed faithfully by the negroes themselves. The show was quite up to date and that it was clean and refined was attested by the fact that it was attended by many of the most prominent theatre-goers in the city, all of whom appeared to be pleased. Paris News will appear in Wichita Falls tomorrow.

JOHN THOMAS TO ATTEND CONVENTION OF RETAILERS.

Secretary Thomas leaves today to attend the meeting of the State Retailers' Association at Beaumont. Mr. Thomas is on the program for a speech on "How to Conduct the Business of a Commercial Club and a Retailers' Association Under One Head."

R. J. Bean and Leon Loeb will leave Sunday to attend the meeting. Mr. Bean is a director of the State Association and Mr. Loeb is a director of the local association.

CITY COUNCIL TO ASK BETTER PHONE SERVICE

Will Take Complaint to Division Superintendent Henderson at Fort Worth

On behalf of the city council, a request for better telephone service will be conveyed to J. F. Henderson of Fort Worth, division superintendent of the Southwestern Telegraph & Telephone Company. The complaint will be made in person by J. W. Bradley, councilman, to whom the necessary authority was given by the council at its session last night.

The council's complaint is a general one and while not put in writing, it takes in what the council considers unsatisfactory conditions. Particular reference will be made, however, to the difficulty in turning in fire alarms and the opinion was expressed at last night's meeting that the alarm for the recent big fire was delayed longer than it should have been. Councilmen also complained of delay in getting central and it was felt that some action should be taken to secure better service.

H. P. Phillips, local manager of the Southwestern Telephone Company was informed this morning of the action of the city council last night. He said that the main trouble lay in the inability of the telephone company to keep experienced and competent operators on the exchange.

"At the first of the month we had forty-three girls in our employ as operators," said Mr. Phillips, "and of this number many of them do not have to work to support themselves, and consequently as soon as warm weather comes or working conditions become the least bit unpleasant they quit their jobs and we have to fill in their places with inexperienced help. We are doing all we can to remedy the service."

"We pay the average operators from \$20 to \$40 per month. They are supposed to work only eight hours per day."

"I will see the councilman who has been appointed to make the kick and see what can be done about it."

DANGEROUS CALOMEL GOING OUT OF USE.

A Safer, More Reliable Remedy Has Taken Its Place in the Drug Store and in the Home

A few years ago, men, women and children took calomel for a sluggish liver and for constipation. They took risks when they did so, for calomel is a dangerous drug. Your family doctor will be the first to tell you this if he discovers you dosing yourself with calomel.

But the drug trade has found a safer, more pleasant remedy than calomel in Dodson's Liver Tone.

Miller Drug Store tell us that their drug store sells Dodson's Liver Tone in practically every case of biliousness and liver trouble where calomel used to be taken. Dodson's Liver Tone is a vegetable liver tonic that is absolutely harmless to children and grown people. It sells for 50 cents a bottle and is guaranteed to be entirely satisfactory by Miller Drug Store who will refund your money with a smile if it does not give quick, gentle relief without any of calomel's unpleasant after-effects.

Resolutions of Respect.

Whereas, it has pleased the Grand Exalted Ruler of the Universe to call from our midst to the Golden-Lodge Lodge No. 1 of our most efficient and laborers in the enforcement of his divine precepts. Now Therefore, as an expression of our deep and sincere regret, so far as words may be adequate to this expression which we feel in view of his death, Wichita Falls Lodge No. 1105 Benevolent and Protective Order of Elks, place upon this sheet our individual and united voice, the following resolution:

Resolved, That we sincerely deplore the untimely death of our beloved Brother W. Thomas Wadlington, which occurred at Cadiz, Ky., on the 3rd day of April, 1913.

Resolved, That we who knew our brother well for a long time as a citizen and Brother Elk during his residence in this city, bear cheerful testimony of his unblemished and blameless character, in the one, his keen sense of honor, and true application of his fraternal duties in the other.

Resolved, That a copy of these resolutions be spread upon the minutes of this meeting, a copy be given the press of the city and that the secretary be instructed to send a copy of these resolutions to the bereaved family of our late beloved brother, as a token to them, that they mourn not alone.

Resolved, That in contemplating the life and death of the deceased, we are more than ever impressed with the beauty, force and truth of the inspired declaration: "A good name is rather to be sought than great riches, and loving favors rather than silver and gold."

Adopted this 17th day of June, 1913 in open lodge.

Wm. N. BONNER, A. L. HURY, Committee.

Cut Down Your Summer Baking

Phones 432 and 232

If there is one thing more than another that most women dislike in the summer time it is baking in a hot kitchen. Of course there are some things that you can't get out of but there are a lot that you can. I have for instance, a very select assortment of package crackers and cookies that you will find not only appetizing but very economical and I have such a wide variety that you will find it easy to serve something different most every day or two. They will keep beautifully and be fresh and crisp for several days.

Suppose you come in and let me help you select half a dozen different kinds as a trial.

The Cry of the Dreamer,
I am tired of planning and toiling
In the crowded lives of men;
Heart weary of building and spoiling
And spoiling and building again;
And I long for the dear old river
Where I dreamed my youth away,
For a dreamer lives forever,
And a toiler dies in a day.

I am sick of the showy seeming
Of a life that is half a lie;
Of the faces lined with scheming
In the throng that hurries by;
From the sleepless thought's endeavor
I would go where the children play,
For a dreamer lives forever,
And a thinker dies in a day.

I can feel no pride, but pity,
For the burdens the rich endure;
There is nothing sweet in the city
But the patient lives of the poor.
Oh, the little hands too skillful,
The child mind choked with weeds;
The daughter's heart grows willful,
And the father's heart that bleeds

Ah, no! from the street's rude bustle,
From trophies of mart and stage,
I would fly to the woods' low rustic
And the meadow's kindly page.
Let me dream as of old by the river,
And be loved for the dream always;
For a dreamer lives for ever,
And a toiler dies in a day!

—John Boyle O'Reilly.

AID SOCIETY ENTERTAINS AT THE CARRIGAN HOME.

One of the most pleasant church affairs in some time was the social given Thursday evening by the Aid Society of the First Presbyterian Church at the home of Judge and Mrs. A. H. Carrigan. The recent rains made it inadvisable to have the lawn party that was at first planned, but the gallery and interior of the Carrigan home were employed to good advantage. There was a "house party" consisting of a number of members of the church of both sexes, whose duty it was to assist in entertaining. Musical numbers were provided including a piano solo by Miss Edith Slaten, a vocal solo by Miss Ritchie, a vocal quartette by Messdames Beavers, Carpenter, Walker and I. D. McKee and a violin solo by Mrs. Bruce Greenwood; all were greatly enjoyed. Ice cream and cake were served to those present.

CIPHER CLUB'S DANCE AT LAKE LARGELY ATTENDED.

The Cipher Club gave another of its delightful dances at Lake Wichita Thursday evening, the young people's ranks being swelled by those who have recently returned from school. The cool weather made dancing an unusually enjoyable diversion Thursday evening and the couples took full advantage of it.

Mrs. Jim Young and Miss St. Clair will entertain the Just-So Club Saturday afternoon from three to five, in the basement of the M. E. Church, South. All members are urged to be present.

LOCAL SHRINE NOBLES PLAN BANQUET AT LAKE

Will Meet at St. James Sunday Afternoon to Arrange for Details of Affair

A number of Nobles of the Mystic Shrine have been discussing the question of a banquet and ball to be held at Lake Wichita in the near future. A. S. Fonville and M. D. Rowe are a committee which has called a meeting of the Shriners of this city and vicinity for Sunday afternoon at 3 o'clock at the St. James Hotel, where the date will be set and the committee on arrangements appointed. It is planned to have the affair exclusively for members of the order and their lady friends and no effort will be spared to have it one of the most elaborate social functions of the season.

A CONFESSION

Hopes Her Statement, Made Public, will Help Other Women.

Hines, Ala.—"I must confess," says Mrs. Edna Mae Reid, of this place, "that Cardui, the woman's tonic, has done me a great deal of good."

Before I commenced using Cardui, I would spit up everything I ate. I had a tired, sleepy feeling all the time, and was irregular. I could hardly drag around, and would have severe headaches continuously.

Since taking Cardui, I have entirely quit spitting up what I eat. Everything seems to digest all right, and I have gained 10 pounds in weight."

If you are a victim of any of the numerous ills so common to your sex, it is wrong to suffer.

For half a century, Cardui has been relieving just such ills, as is proven by the thousands of letters, similar to the above, which pour into our office, year by year.

Cardui is successful because it is composed of ingredients which act specifically on the woman's constitution, and help build the weakened organs back to health and strength.

Cardui has helped others, and will help you, too. Get a bottle today. You won't regret it. Your druggist sells it.

COUNCIL TAKES ACTION ON PETITIONS FOR SEWER

Contract for Work in Huff Addition to be Awarded Next Monday Night

The city council last night took action upon several sewer extension matters, the most important being the Southland addition contract. The special committee recommended the acceptance of a bid by Leonard Baldwin, and a contract with Mr. Baldwin will be signed next Monday, at a called meeting. Mr. Baldwin is to do the ditching and the city will furnish the pipe.

A petition from the "Phillipine" section asking for sewer extensions there amounting to about 1900 feet, was received and referred to the city engineer.

A committee of Fifteenth street property owners, G. C. Raley, R. F. Redin and J. B. Smith presented a petition for sidewalks on that street saying that a non-resident property owner had failed to pick up sidewalk walks, thereby preventing them from

getting mail delivery. This was referred to the city attorney. The petition for sewer extensions in the southeastern part of the city will probably not be granted at present, as to comply with it, the city would have to lay a sewer all the way from the river along the east side of the railroad tracks, which is deemed inexpedient. No final action has been taken, however.

EMANCIPATION DAY IS CELEBRATED BY NEGROES

Barbecue, Parade, Ball Game and Dance are Among Anniversary Festivities

The colored people of the city observed Emancipation Day yesterday, with a big barbecue, parade, ball game and dance. The affair was gotten up under the auspices of the Porter and Walters Benefit Club, of which Henry Tumbler is president and A. W. Maxwell is secretary. The committee in charge of part of the arrangements was: Pross Newton, Chas. Saunders and Ed Pointer.

Wichita Falls Route Via Olney (The New Route)

In connection with G. T. & W. Ry. Is the Short Line to Mineral Wells.

Round-Trip Fare **\$4.60**—Limit Ninety Days
No Change of Cars

Leave Wichita Falls 2:30 p. m. arrive Mineral Wells 7:50 p. m.
Leave Mineral Wells 6:40 a. m. Arrive Wichita Falls 12:05 Noon.
Why not spend Saturday night, Sunday and Sunday night at Mineral Wells?

G. L. FONTAINE, G. F. A.,
Wichita Falls, Texas.

The barbecue was held at the old ball park and there was an abundance of everything to eat, and many there to eat it.

A big parade through the Flats preceded the barbecue. At the lake there was a ball game between colored teams of Frederick and Wichita. The home team won by a score of 6 to 4. The ball was held at night in the hall over the Last Chance Cafe.

A. G. Allen's Big Minstrel Show, those who have seen it are its biggest boosters. Will show here tonight.

Now, if it will only stop raining for eight or ten days in order to give our farmers a chance to finish cutting wheat and oats, everything will be all right. It is not often that we out here are bothered with too much of a good thing.

The question of prohibition should not be allowed to enter into the next gubernatorial campaign, but it has already done that, and as usual there are just about four-pro aspirants to one seat, which, if all of them enter the campaign and stay to the finish, practically insures the selection of one of the two or three anti aspirants.

A mother at Monticello, N. Y., in attempting to spank her son, a good undertaking within itself in many instances, upset an oil stove, whereby a fire was started that destroyed her own home and those of three of her neighbors and twelve business houses, causing a loss of \$100,000. While spanking should not become a forgotten art, to make it more effective in its purpose and less dangerous, mothers who resort to it as a means of discipline should allow their anger to cool before administering it to their offspring. The poet says: "To be wroth with one we love, doth work like madness in the brain." In the instance cited it appears to have had that effect in the consequences that resulted. —Houston Post.

Some one who has more time to devote to such matters has figured it out that every quail a farmer permits to be slaughtered on his premises means a loss to him of from three to five dollars. That's placing a pretty high value on quail as a destroyer of bugs and various kind of insects that destroy crops, and we doubt very much whether there is no doubt but that the fewer birds we have in this section of country the more numerous are grasshoppers and other crop destroying bugs and insects, and the farmer who does not post his premises in order to give protection to the few birds that are left is deserving of but little sympathy when the grasshoppers and bugs come and destroy his growing crops. There should be no open season for the killing of birds of any kind in Texas for at least ten years.

The little six-year-old boy of Mr. and Mrs. Harry Bragg of this city was killed yesterday by the reckless hand of a six-shooter in the hands of an officer at Paragould, Ark. This incident, not particularly because the innocent victim in this instance happens to be the child of one of our fellow citizens, calls to mind the apparent carelessness in which officers generally are inclined to shoot on the slightest provocation regardless of the safety of others. Of course, they do not intend that the bullets discharged from their guns shall find lodgment in the body of any one other than the ones they are in pursuit of, but appear to think they have the right and authority to discharge fire-arms at any time and under any conditions. A few convictions where such recklessness results in the death of innocent bystanders might have a tendency to compel a more wholesome respect on the part of officers for the safety of others when in the discharge of their duties.

CROPS AND PRISONS

Atlanta Constitution. In order to allow them to "make a summer crop," President Wilson has just commuted the fines of two Kentucky mountaineers. They were sentenced to sixty days imprisonment and a \$100 fine for illicit whiskey selling. It was represented to the president unless the two men were released by June 21 they could not make a crop. He reduced their sentences by remitting the imprisonment, providing the fine is paid.

Several values attach to the president's action, and argue for it as a precedent in the proper cases. In the first place it is probable the purposes of the law will be served just as well by the fining as by the imprisonment of these men. In the second their families will not have to suffer throughout the year, as they would if they were deprived of the course of their annual livelihood. In the third, while the government would get only sixty days' time from these farmers, it would absorb the equivalent of a year's work, a principle that is essentially unfair. And in the fourth, it is likely the culprits are much less likely to repeat their offense than had their gov-

AVIATOR FALLS INTO LAKE AT CLEVELAND

Cleveland, June 20.—While making a flight from the East Fortieth street pier over the lake to Euclid beach, a distance of six miles, in his hydro aeroplane, late today, Aviator Wellington B. Cooke and his machine fell into the water and did not come up. Life-savers were called to search for him.

APPEAL IS GRANTED FOR LABOR LEDTERS

Washington, June 20.—Chief Justice White granted an appeal to the Supreme court for Samuel Gompers, John Mitchell and Frank Morrison, labor leaders convicted of contempt of court in the noted Buck Stove & Range case. The appeal will be heard after October.

INDIANA CONCERN GIVES DEMONSTRATION OF PAVING

C. O. Geary of Houston, representing the Southern Westrumite Company gave a demonstration of the Westrumite paving material before a committee of councilmen this morning. Mr. Geary produced samples taken from a street in an Indiana town which had stood the wear for six years. This paving is guaranteed for five years by this concern. They claim for it that it is better than any other asphalt paving, that it won't crack or creep up on the curbing, that it won't blister, and that it will stick to any stone, either wet or dry. They claim it is the only cold laid asphalt paving.

Mr. Geary's concern will bid on the eleven blocks of paving to be put down on Tenth street, as soon as bids can be advertising for and one accepted.

WICHITAN ACCIDENTALLY SHOT BY ARK., OFFICER

Harry Bragg, chief clerk to Supt. Sullivan of the Northwestern received a message yesterday stating that his young son had been accidentally shot and killed by the sheriff at Paragould, Ark. Mr. Bragg left at once for the Arkansas town.

The message did not give any details of the sad affair, but it conveyed enough information to lead to the belief that the officer was in pursuit of some criminal, and one of the bullets fired at the fugitive missed its mark and brought death to the little boy.

Mr. Bragg's son was about nine years of age. Mrs. Bragg and the boy had been visiting in Paragould for about two weeks. The boy was a great favorite among his elders and will be greatly missed.

The remains will no doubt be brought back to Wichita Falls for interment.

The Dallas News of today contains the following:

Paragould, Ark., June 19.—Harry Bragg, Jr., son of Mr. and Mrs. Harry Bragg of Wichita Falls, Texas, and grandson of Mr. and Mrs. C. W. Reiney one of Paragould's most prominent families was shot and instantly killed in Paragould at 1:30 this afternoon by Foster Sims, Deputy Sheriff.

Sims was escorting a prisoner to the county jail when his man made a dash for liberty, running down the pavement on Second street. Sims was in pursuit, calling to his prisoner to halt. As the latter went to turn into an alley the officer fired, the ball passing the fleeing man and striking

young Bragg in the breast as he was coming toward the officer.

Sims says he did not see the boy because the prisoner was between them. He continued in pursuit of the prisoner and did not know he had hit the lad until several minutes later. The boy lived only a short time.

GIN IS TO BE MOVED ON NORTH SIDE OF RIVER.

At the annual meeting of the Wichita Cotton Oil Company held here last month the general manager was instructed to either sell or move the cotton gin now located near the foundry to a site across the Wichita River bridge in North Wichita. This has been deemed advisable for two years so as to more equally distribute the three gins here in better proportion to the cotton coming from different directions and thus better accommodate farmers. But for the short crop of 1911-12 this gin would have been moved then. It is said that there is more than ample gin machinery in this city for handling all the cotton that is likely to be ginned here for several years, there being eighteen gin stands in the three plants, equal to a little more than four ordinary gins, but they have not been well enough scattered for prompt handling during the busy season of the wagons coming in over various roads.

A. D. Terrill, who was in the gin and cotton business here in 1907-08 and for the past four years manager of the Farms Gin at Henrietta, has been here for several days and today closed a deal with the oil mill for this gin and will operate the same himself. He will begin moving it within a week to a site just north of the bridge. He ordered from the factory the latest make huller gins

DEFENSE HAS INNING IN CASE OF T. R. T. ORTH.

The defense is now offering testimony in the case of T. R. T. Orth, charged with knowingly permitting a bawdy house to be conducted on premises owned by him. The case is being tried in Judge Felder's court.

In district court this afternoon the case of E. M. Card, charged with theft from the person is on trial. The jury in the E. J. Jones case is still out, having had the case now for nearly twenty-four hours.

At Lamar Airdome.

One of the vaudeville hits of the season is Miss D'Anton and Miss DeLeon at the Lamar Airdome this week. Miss D'Anton in a Greek gown of white silk and gauze scarf, gave the statue poses. The facial expressions showing the transition from one mental state to another; the rhythmic, undulating movements were all a beautiful exemplification of what nature can do when guided by art. She makes the body a perfect medium for the expression of the soul.

Fitzgerald and Lorenz are another good team and in an exceptionally clever series of singing, dancing and whistling numbers, entertained the audience in a most happy manner.

CALLED HIM A LIAR AND SAID HE COULD PROVE IT.

In Judge Howard's court the defendant was charged with using abusive language. The prosecuting witness claimed that the defendant had called him a blanketly blank liar. The defendant pleaded not guilty and demanded a jury.

He took the stand in his own behalf and in the course of his remarks to the jury he said, "I called him a damned liar, and he is a damned liar. I can prove it."

The jury brought in a verdict of guilty, and the defendant wanted to appeal the case.

CITY OF CINCINNATI GOES INTO THE ICE BUSINESS

By Associated Press. Cincinnati, June 20.—The city of Cincinnati went into the ice business today when it established depots at all of the fire stations. Families were

supplied who could not obtain ice from their regular dealers on account of the strike of wagon drivers, helpers and ice plant engineers. The mayor today telegraphed the mayors of other cities to ship as much ice as possible to Cincinnati.

CONSUMER ENTITLED TO KNOW WHAT HE EATS.

Mobile, Ala., June 20.—Disputing the claim that butter and oleomargarine were equally good, George Flanders of New York, assistant superintendent of the department of

agriculture, read a paper before the convention of American dairy, food and drug officials. Consumers of food, Mr. Flanders said, were "entitled to know what that food" was composed of and no substitution should be practiced upon anyone."

DENISON SPLITS WITH DRILLERS

DOUBLE HEADER IS DIVIDED, WITH TWO INTERESTING GAMES

HOME RUNS ARE FEATURE

Four in Seven Innings in Second Game—Two Coming in Time to Give Visitors Victory

The Drillers took the first act of a double bill yesterday, but realizing that to take both games was no way to treat visitors, they presented Denison with the second, by means of the old reliable blow-up in the final frame. The scores were: First game, Wichita Falls 5, Denison 2; second game, Denison 6, Wichita Falls 4.

The locals came from behind and won the first and then saw Denison do the same thing in the second. It took a pair of home runs to turn the trick, but the homers were delivered and the Blue Sox walked off with the second game and incidentally the healthy end of the series of three games.

The field was soggy from the recent rains and the belding was not of the stately variety taken as a whole; there were times when it approached the sensational, but such times were few and far between.

Denison was entitled to the first game and Wichita Falls should have had the second. Such are the fortunes of baseball.

Denison had a lead of two runs in the first game, when the Drillers got busy. The locals started in the seventh, scoring two runs on an error and two hits. Two errors and two hits in the eighth netted three more tallies and put the game in cold storage.

The visitors went to bat in the ninth with the score four to two in favor of the locals. With one out, there came in rapid succession a hit, an error, a walk then a pair of home runs. In the Drillers half, Nevitt reached third on an error but Brown had delivered two pinch hits that, afternoon and refused to come across with a third one.

Nicholson did the nifty work for the first score, slapping a drive to deep center with two out. The ball was fielded in time to nail him at the plate, but he dodged past Gierhart and was safe. Denison tied the score in the second when Brooks lifted over the left field fence. In the third Hornbuckle waited for wide ones and got four, being sacrificed to second by Mathews. Nevitt's clean single to left scored him. Nevitt taking second on the throw; a passed ball put him on third and Brown's Texas league, scored him. Another was scored in the sixth when Nicholson and Phillips walked and Dupuy singled. Denison scored his second run in the fourth when Dupuy's bad peg put Wakefield on second; he scoring on Gordon's three bagger; there was only one out at the time, but Gordon died on third.

Win in Last Innings.
In the seventh with one out, Hallip singled and was forced at second by Merritt, who batted for Adams. In trying to complete the double Phillips made a bad throw that put Merritt on second. Kerr walked and then Harper came across with a drive that looked like it would reach the big Wichita. Wakefield, feeling that it so many homers were to be had in a seven inning game he should have one too, punched a nice one over left field fence also. Duke Morris came in from right field and took the box, yielding one hit and then retiring the side.

Workman was out of the game yesterday, being sick with the pip, and Lawson held things down in left Hornbuckle catching. Hornbuckle caught an excellent game, considering his condition.

First Game is Fast.
There were many calls for Scoggins when Mathews began to warm up for the second game, but Morris went to Mathews to the box. He did well until that fatal seventh inning and it looked for a while as if he would win. His slow delivery made the game drag and while the first game of nine innings was played in an hour and twenty minutes, it took twenty minutes longer to complete the second game, which went only seven innings.

Adams, who was an easy victim the last time he pitched here for Durant, held Wichita Falls to four hits in the second game, being taken out in the seventh to let in a pinch hitter. Scoggins was used as a pinch hitter by Morris, going to the after after one strike had been called on Hornbuckle.

Both games were hard enough fought to be very interesting and between the variety of baseball that was staged, the reprieve of his umps and other things, it was a good session.

WILL NOT SPLIT LEAGUE SEASON

TEXAS OKLAHOMA DIRECTORS DECIDE AGAINST IT AT MEETING

HOME RUNS ARE FEATURE TO PLAY OUT SCHEDULE

Local Fans Who Had Hoped to See Season Divided Are Disappointed

The Texas-Oklahoma league season will be played out to the bitter end, without a split, it was decided at a meeting of the league directors in Sherman yesterday. Some of the clubs wanted to divide the season, but these were in the minority.

Joe Art did not attend the meeting, but sent his proxy favoring a split in the season. He started for Sherman in an auto, but was forced to turn back on account of the rain.

Local fans had hoped that the season would be split, as that would give Wichita Falls a much better chance for pennant honors than she now has. If the string is to be played out, nothing but a most remarkable series of victories can put the Drillers even in the running.

It had been expected that the directors would split the season so as to start the second half today; but this was not done. That would have left Texarkana and Paris tied for first place.

At the directors meeting the Wichita Falls club was fined \$50 for forfeiting a game to Bonham early in the season. It was decided that each home team should get the first \$25 of the receipts on the Fourth of July for expenses and that the remainder of the receipts of that day be divided equally between the clubs of the league.

SECOND GAME:

PHILADELPHIA NATIONALS AFTER CLARENCE COVINGTON

(Denison Herald)
Charles S. Dooin, manager of the Philadelphia National baseball club wired from Chicago, where his team is playing a series of games, asking about Clarence Covington, first sacker for the Denison team. Dooin wired to John Callahan, a Katy conductor on the south end and a former pitcher who has been in the big show. The message asked if they could get a ten days' written option on Covington, and to answer at once. An answer was given and inquiries were made as to the price that Dooin would give. Several scouts have looked Covington over and many inquiries have come to Denison about him. In fact, there are several players on the local team that have a chance to go higher up, but at the present time Covington is the most sought of any local players.

BOBBY MYERS MAKES DEBUT WITH THE TOLEDO CLUB

Bobby Myers, hit of the Drillers was sent into the box as a relief pitcher for Toledo last Monday in a game with Louisville. Just how well lobbly himself fared was not learned, the Louisville team got a total of seventeen hits during the game, and it is presumed that Myers was sent in to show what he could do, after the first pitcher had lost the status. The Drillers' management will receive \$500 from Toledo for Myers, as soon as the necessary formalities can be gone through with.

HUNGARIAN PLAN OF RURAL CREDIT

(Continued from Page 1)

The principal lesson to the American Commission from its study of these banks was in the value of a concentration of the credit reserves, that is, that through the Central Society the weaker local societies in times of stress could draw support, first, from stronger local societies, and then from the Austro-Hungarian bank. All of the local societies deposit their surplus funds with the Central Society, which lends to other societies in need of funds.

Experts from the government and from the institutions appeared before the American Commission to give testimony as to the operations of these systems of agricultural credit. The commission was taken around Budapest to investigate all of the institutions, and several pamphlets were prepared by the government for the special guidance of the Americans.

Two official banquets were tendered the commission during its stay in Budapest, at which Dr. Clarence J. Owens, managing director of the Southern Commercial Congress, which organized the commission, and Dr. Kenyon L. Butterfield, member of the Federal Commission appointed by President Wilson, spoke.

YALE-HARVARD REGATTA TODAY

(Continued from Page 1)

Faster Than Thames—Because of the sluggish tide, the Thames course is slow as compared Poughkeepsie. The time of twenty minutes, ten seconds, made by Yale in 1888, still stands as the Thames record, while the record for four miles lane on the Hudson River is eighteen minutes, fifty-three and one-fifth seconds, made by Cornell in 1901.

As a marine picture, the Harvard and Yale regatta on the lower reaches of the Thames probably surpasses anything of its kind in this country. Because of the proximity of the Thames course to Long Island Sound, hundreds of steam, motor and sailing yachts are able to obtain good observation anchorages near the finish line, where for a day or two they are attired with crimson and blue banners and with signal flags. Large excursion steamers thronged with spectators crowd in behind the steam yachts; and observation trains on either bank keep other thousands abreast of the contest.

LODGE DIRECTORY

Bargain in Glasses

You can't afford to buy glasses on the basis of price. If you do, you'll not get any more than you pay for—probably less. A bargain in glasses is not determined by their cheapness but by the satisfaction they give. Our examination of the eyes is thorough and authoritative, and the glasses we furnish are made especially for your eyes and guaranteed to be correct.

BULLARD HAS ASPIRATIONS SAYS MCKINNEY-NEWSPAPER.

Going away from home to get the news, The Times republishes the following from the McKinney Courier Gazette:

"B. M. Bullard, deputy tax collector of Wichita County, Texas, arrived today to join his wife and two little sons, Yemas and Mauris, who have been visiting relatives here and at Princeton for a few days. Mrs. Bullard is a sister of N. A. Burton of McKinney, W. J. Burton of New Life, Mrs. G. D. Lowe, Mrs. George Johnson and Miss Lulu Burton all of Princeton. Mr. Bullard was field man for our weekly seven or eight years ago for a period of two years and has numerous old acquaintances in McKinney and throughout the county who remember him with the utmost esteem. No more honorable or worthy young man ever lived in our city. We are pleased to note his success at Wichita Falls, where he has held his present position for five years as deputy tax collector of that county. From reports coming from out there, it is pretty well assured that Mr. Bullard is destined to become principal in that office after next election day as his friends say that from every standpoint—qualification, fidelity to duty in the past and integrity of character, he is worthy and entitled to the office and they are going to award it to him. Here's hoping you may win in a walk B. M. Wish we were allowed a vote in Wichita county. These papers, from devil down to chief editor, would vote and work for you."

COMMISSIONER ABBOTT IS HONORED AT MOBILE

By Associated Press. Austin, Texas, June 20.—The pure food and drug department was today advised by wire from P. E. Johnson, chemist, who is attending the meeting of the association of American Dairy and Drug officials in Mobile, Alabama, that Commissioner J. S. Abbott has been honored with the election as vice-president of the association. Dr. Abbott is also attending the convention.

FRECKLES

Now is the Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription ointment—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of ointment—double strength—from any first class druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure and ask for double strength ointment as this is sold under guarantee of money-back if it fails to remove freckles.

NINETY PER CENT of the people who take medicine do not know whether Phenacetine is made in Germany or grows wild in Kansas. They do not know whether Chloroform is indicated in Typho-Malaria or a specific for disappointed affections. They do not know whether Homatrophine is worth fifty cents a grain or two dollars a barrel. They do not know these things and will never know, because it takes half of a lifetime to learn them! So you are at the mercy of the man who fills your prescriptions, both as to quality and price. However we think the man who would take advantage of your not knowing to charge you too much or give you inferior drugs in your prescriptions would take your purse if opportunity offered. Our prescription department the pride of the business and is on the square. Give us a chance to show you.

Phone 341 Only the Best Free Delivery

Everything for the Office DESKS, Chairs, Typewriter Stands, Book Cases, Vertical Files, Card Drawers, Wood and Steel Office Furniture, Stationery and Supplies—the most complete in the city. We can meet every requirement of the modern office including the most approved of fire resisting, filing devices.

THE SAFE-CABINET

(1913 MODEL)

Built under the supervision of the National Board of Fire Underwriters and bearing the label of inspection of the Underwriters' Laboratories.

Combines the largest measure of convenience and capacity with proven ability to protect its contents in actual conflagrations. Essential to the fire-proof building no less than to the old-fashioned structure. Ask for the record of fire tests.

Wilsons & Woods

The Modern Office Outfitter

Greatest Ink Saver Ever Invented—The Eclipse Pneumatic inkwell. The only inkwell that absolutely eliminates all evaporation, dust and lint. Guaranteed to reduce ink bills 75 per cent or more—all glass, but almost indestructible—easy to fill and clean—no valves or rubber to corrode and clog—only one pen dip of ink at a time, no more, no less—no waste—no ink pen-holders, stained fingers or blotting—only requires filling once in three to six months—pay for itself over and over in the saving of ink alone, without considering many other great advantages. Take it. Try it. It not satisfy, return it.

DIVINE ATTRIBUTES Love and respect for those who have departed this life are two of the higher attributes that distinguish us from the lower animals. We erect beautiful and lasting MEMORIALS to commemorate the life and death of those we hold dear, because of this DIVINE emotion we are pleased to call LOVE, yet no words in any of the love or dead languages can encompass or express the things of the heart, or the thoughts and emotions that make of us more than beings of less intelligence. There is a distinction between frailty and robust health, between wisdom and ignorance, between morality and immorality, but there is no distinction between LOVE and MEMORY. That which clothes in a mantle of charity and wreathes in forget-me-nots. We express these divine emotions as nearly as the human hand and loving hearts can, with our LASTING MEMORIALS. Wichita Marble and Granite Works Phone 440 A. G. DEATHERAGE, Prop.

Some Say, "Swat the Fly!"

We say buy our screen doors, and use our hydrated lime, and you will not have the flies to contend with.

Comfort and Beauty

It is only natural that a powder which soothes and refreshes your skin will bring comfort and beauty.

No housewife would think of paying the same price for every baking powder on the market. There is just as much difference in talcum powders, but few people know it, and all powders sell at about the same price.

You owe it to yourself to be careful what you put on your face. It is just as important as what you eat.

The talcum we sell is made from the purest and best materials. It costs us more than the other kind but it DOESN'T COST YOU ANY MORE. If it pays us to sell this kind on a far smaller margin of profit, it stands to reason that it pays you to buy it.
