## DEMOCRATS IN TARIFF CAUCUS

**PRACTICALLY NO CHANGES MADE  
IN BILL AS REPORTED BY  
COMMITTEE**

## AUTOS AS NECESSITIES

**Lower Rates On Cheaper Grades of  
Cars Sought—Harmony Seems  
Assured**

Washington, June 21.—The Underwood-Simmons tariff revision bill, as agreed upon by the Senate Democrats, went through a full day's session of the Senate Democratic caucus today, with practically no change in the harmonious support for most of the alterations in the finance committee members had made in the original Underwood bill.

The tariff duties on chemicals, oils and paints on earthenware and glassware and on two-thirds of the articles comprised in metal and machinery schedules, had been disposed of when the caucus adjourned late this afternoon.

Democratic members of the finance committee met tonight to finish redrafting the income tax section of the bill. The important changes to be made in this section, reducing the exempted incomes from \$4000 to \$5000 probably will be completed Monday and the income tax and administrative features of the bill then will be turned over to the caucus for consideration.

**For Cheaper Automobiles.** Criticism of the tariff in the party conference was limited to a few specific rates and a half dozen of the items were sent back to the finance committee for further investigation and report. The committee report putting cement on the free list was sustained after some debate. The duties referred back to the finance committee were those proposed on certain carbons, on stained glass, sealed glasses, optical and surgical instruments and photographic lenses.

Cheap automobiles as necessities of business and farming life were debated a long time. The finance committee already had cut the rate of the Underwood bill from forty-five per cent ad valorem to thirty-five per cent ad valorem valued at less than \$1500. Several democratic senators urged a further cut and recommended that the tariff be only ten to fifteen per cent on machines valued at less than \$1000.

## MUCH DAMAGE CAUSED BY HAIL STORM IN FLORIDA.

Quincy, Fla., June 21.—Damage estimated at half a million dollars was done to growing crops by hail after Wednesday in Gadsden and adjoining counties in northern Florida and southern Georgia, delayed reports say. The worst damage was to the tobacco crop the hail cutting the growing plants to ribbons.

## MORE DAMAGE IN ENGLAND BY MILITANT SUFFRAGETTES.

London, June 21.—Militant suffragette "arson squads" were out last night at St. Andrews, Scotland and at South End on the lower Thames and caused considerable damage. At St. Andrews the east wing of the Gaiety Theatre was destroyed and many valuable instruments burned. At South End the Church of St. John but the damage was light.

## BALL BROTHERS FILE CHARTER AT CAPITAL.

Special to The Times. Austin, Texas, June 21.—Ball Brothers Glass Company of Muncie, Indiana, filed a charter with the Secretary of State this morning, to manufacture glass bottles for canning purposes, glasses and other glassware. The capital stock is \$50,000 and the business will be conducted at Wichita Falls. The incorporators, in addition to Ball Brothers, include Thomas B. Smock and Frank Blair of Wichita Falls.

## WHITE SLAVERY CASE IS HALTED

**MOREYNOULD'S ORDERS CAUSE  
FRISCO FEDERAL ATTORNEY  
TO RESIGN**

## AFFECTS PROMINENT MEN

**Members of Two Leading California  
Families Under Indictment For  
Alleged Mann Act Violation**

San Francisco, June 21.—United States District Attorney John L. McNab announced today he has resigned. In a long telegram to President Wilson, McNab said he felt forced to resign because of orders from the attorney general tying his hands in the prosecution of the Dicks-Caminitti white-slavery cases, and the indictments against officials of the Western Fuel Company.

Maury Dicks, a former state architect and Andrew Caminitti, son of former State Senator A. Caminitti, who recently was appointed commissioner of immigration by President Wilson, were indicted for their alleged violation of the Mann act.

**Attorney's Letter.** "I am ordered by the attorney general over my protest to postpone until autumn the trials of Maury Dicks and Andrew Caminitti indicted for a hideous crime which has ruined two girls and shocked the moral sense of California, and this after I have had advised the department of justice that attempts had been made to corrupt the government witnesses and friends of the defendants are publicly boasting that the wealth and political prominence of the defendant's relatives will cause my hands to be stayed through influence at Washington. In these cases, two girls were taken from cultured homes, bullied and frightened into going into a foreign State and were ruined and debauched by the defendants, who abandoned their wives to commit these acts."

## "I SHOULD WORRY" IS MOREYNOULD'S ATTITUDE.

Baltimore, June 21.—A Republican district attorney has resigned and I am shedding no tears, was the only comment Attorney General Moreynould would make when told of the San Francisco dispatch that United States District Attorney McNab had wired his resignation to President Wilson.

## BRUNDIDGE IN THE LEAD IN ARKANSAS PRIMARY.

Little Rock, Ark., June 21.—So close in the race between former Congressman Stephen Brundidge and Judge George W. Hays, for the democratic nomination for governor that the result of today's special primary election will not be known before tomorrow night.

Mr. Brundidge has a slight lead so far, but it is not large enough to inspire his followers with any degree of confidence. He swept northern and eastern Arkansas while Judge Hays has made an equally clean sweep in the south and west.

## COAST TO COAST STRIKE IS THREAT IN CHICAGO

Labor Leader Says Union Men in  
Many Cities Are Ready To  
Walk Out

Chicago, June 21.—Threats of a coast to coast strike in connection with the Chicago union men locked out by the Building Construction Employers' Association was made today by Simon Odonnell, president of the Building Trades' Council, who says union men in cities throughout the country are awaiting his word to tie up the construction work of the nation.

## DEATH COMES TO POLICE CAPTAIN WHO CONFESSED

Officer Whose Testimony Convicted  
Several Inspectors Succumbs  
To Illness

New York, June 21.—Thomas W. Walsh, ex-police captain whose confession led to the conviction for grafting of inspectors Martha, Thompson, Hussey and Sweeney, now serving time in the penitentiary, died at his home in Harlem early today. He had been in poor health for months and the fear of death was brought about by his confession. He rallied and was able to testify at the graft trials but never was himself again.

## AMERICAN TROOPS TURN EXTINGUISHED CRATER OF HAWAIIAN VOLCANO INTO A GIBRALTAR

## ROTHSCHILD'S IN WATERS-PIERCE?

ST. LOUIS REPORT SAYS IT IS RE-  
ORGANIZING WITH EURO-  
PEAN AID

St. Louis, June 21.—The Post-Dispatch says in a late edition today that the Waters-Pierce Oil Company is being reorganized, its capital being increased from \$400,000 to \$1,000,000. The European banking family of Rothschild is understood to have invested heavily in the organization and the new company is expected to become a rival of the Standard Oil Company in the United States.

## COAST TO COAST STRIKE IS THREAT IN CHICAGO

Labor Leader Says Union Men in  
Many Cities Are Ready To  
Walk Out

Chicago, June 21.—Threats of a coast to coast strike in connection with the Chicago union men locked out by the Building Construction Employers' Association was made today by Simon Odonnell, president of the Building Trades' Council, who says union men in cities throughout the country are awaiting his word to tie up the construction work of the nation.

## COST OF LIVING STILL CLIMBING

COMPARISON OF PRICES OF STA-  
PLES IN RECENT YEARS  
IS PRESENTED

Washington, June 21.—Of the fifteen staples representing approximately two-thirds of the expenditure for food by the averaging laboring family, every one except sugar showed a decided increase in retail price on February 15, 1913, compared with the ten year average from 1899 to 1909. Sugar was 4.5 per cent, smoked bacon 11.6 per cent higher. Increases in other foods were:

## SERVIANS AND GREEKS MAY ATTACK BULGARIANS.

Vienna, June 21.—An attack by Bulgarian troops on Servians and Greeks is expected on the River Vardar in Macedonia, according to Austrian newspapers. Co-operations of the Greek and Servian armies has been accomplished. The Servians are concentrating in fortified positions on the right bank of the river.

## NEGRO LYNCHED BY GEORGIA MOB

POLICE CHIEF SHOT AND BERI-  
LIOUSLY WOUNDED BY  
BLACK

Negro Taken From Jail and Hanged  
on Corner Near Scene of  
Crime

Americus, Ga., June 21.—William Redding a negro who shot and perhaps fatally wounded Chief of Police William C. Barrow when the latter was attempting to arrest him here tonight, was taken from the jail shortly afterward by a mob of five hundred men and hanged to a cable at a street corner, near the scene of a crime.

## DIVORCE IS REFUSED WIFE OF CONVICTED FORGER.

Chicago, June 21.—Holding that Mrs. Jessie R. Van Vliessen was cognizant of and profited by her husband's forgeries, a jury in Judge Pettit's court today declined to grant her a divorce. The defendant, Peter Van Vliessen is serving a prison term for forging aggregating over \$500,000. The woman sued on the ground that her husband was a felon. The defendant contended that she who was formerly his stenographer knew of his misdeeds before their marriage.

## AVIATOR HURLS BOMB IN BATTLE

AEROPLANE IS USED BY CONSTI-  
TUTIONALISTS IN BATTLE  
AT ORTIZ

## FIFTY-TWO MEN KILLED

Flight Which Started Thursday Is Re-  
sumed and Huerta Commander  
Cut Off

Douglas, Ariz., June 21.—An official message from Governor Pesqueira of Sonora today stated the battle of Ortiz begun Thursday, had been resumed.

The rebel war aeroplane piloted by Vidler Masson the French aviator did much execution among the federalists. Pesqueira asserted that the Huerta commander could not get away unless he cut through the rebel line.

Masson, according to the message, dropped one bomb that killed fifty-two men. These and a hundred other federal dead, together with seventy rebel dead and seventy wounded were brought to Hermosillo.

## AMERICAN HELD AS SPY RELEASED BY CARRANZA.

Eagle Pass, Texas, June 21.—A constitutional private soldier who was rude to Henry Crumpler, an American, arrested near Columbia, Mexico on suspicion that he was a Huerta spy and who was later released, was promptly executed by order of the rebel commander. Crumpler brought this report here today. He was discharged on Carranza's orders after United States Consul Ellsworth had made representations. A message to Ellsworth from the state department at Washington today said the lives of Americans are in grave danger and he was instructed to use every means to protect them.

## HUNGER STRIKE CAUSES RELEASE OF SUFFRAGETTE.

London, June 21.—Ill health caused by a "hunger strike" resulted today in the release of Miss Flora Lennon, formerly editor of the Suffragette who was sentenced to six months' imprisonment by the Central Criminal court on June 17 for conspiring to damage property.

## SPAIN ACCEPTS PLAN FOR INTERNATIONAL PEACE.

Washington, June 21.—Spain has accepted in principle Secretary Bryan's proposal for international peace. Eighteen nations now have accepted Mr. Bryan's invitation to consider his plan.

## WITH GUARDS AT DOORS PASS BILL OVER VETO

Tennessee Democrats Employ Secret  
Methods To Regain Control  
of Election Machinery

Nashville, Tenn., June 21.—In the Tennessee House of Representatives a number of extra sergeants-at-arms were appointed, the entrance guarded and the bill amending the election law called up and passed over the governor's veto, 54 to 18. The effort to pass the bill was undertaken by the "regular" democrats during the absence of a quorum in the House. The amendment in that shape is now pending in the supreme court.

## DAMAGE AND DEATHS IN SOFIA FROM EARTHQUAKE

Sofia, June 21.—Belated reports of the effect of the recent earthquake in Bulgaria show that hundreds were killed in the towns of Pirva and Gorna-Orohovitz. In the latter place many buildings were destroyed. The shocks continue.

## BANKERS OFFER CURRENCY VIEWS

COMMITTEE OF ASSOCIATION  
SUBMITS NUMBER OF  
SUGGESTIONS

## CENTRAL BANK FAVORED

General Plan Outlined by Aldrich Com-  
mission Seems to Meet With  
Approval

New York, June 21.—Methods which should be pursued in reforming the currency system of the country, according to the views of the American Bankers' Association, were outlined today in a detailed statement issued by the Currency Commission of that organization. The statement was prepared by a subcommittee of the committee on banking and currency of the United States Senate was prepared by the committee which recently conferred at Atlantic City.

The committee endorsed the currency plan devised by the National Monetary Commission of which Senator Aldrich of Rhode Island was chairman. It made no reference to the bill recently prepared at Washington with the cooperation of President Wilson. Its recommendations, in fact, were framed before the publication of the administration bill.

**Favors Central Institution.** The commission urges that whatever system is adopted shall be put out of politics. The committee made no attempt to formulate a complete currency system, its recommendations being guided by the questions put to it by the subcommittee of the Senate. If did state its belief, however, that a central banking institution should be established under government control. No reference was made as to methods to be employed in the regulation of such an institution or the appointment or election of its managing heads.

In expressing its ideas about the establishment of a central bank, the committee while not declaring for the creating of an institution similar to the great central banks of the principal European countries points out that "the experience of commercial nations is that results can be better accomplished by the creation of a privately owned Central organization dominated and controlled by the government as for instance, the Imperial Bank or the Bank of France, it serves to take the matter out of politics."

**Question of Branches.** In answer to the direct question whether there should be a central reserve association with branches, or a number of reserve associations with or without central control, the bankers replied: "In our opinion, one central reserve association, with branches, would best serve our present necessities. Failing that, a small number of regional reserve associations, also with branches, might be organized to serve the purpose. The smaller the number of reserve associations, the more effectively the reserve control. If there are to be a number of regional reserve associations, they should be under some kind of control in which both the government and the various associations should have representation."

The commission does not favor the continuance of bond secured currency, the objection being that the volume of currency is thus arbitrarily fixed by the bankers do not committee themselves to any definite statement whether there should be any changes in the present requirement of the law, that twenty-five per cent of deposits shall be held as reserve. The advisability of such a change in their opinion would depend upon the manner in which the reserves are to be controlled and protected.

**Favors Elastic Currency.** One of the most important recommendations is made in reply to the question, "Should an elastic currency be authorized by law?" The answer reads: "We believe that such a currency should be authorized by law, the amount to be controlled by the gold reserve against it. Such reserve should be ample, not less than fifty per cent as a recognized minimum. A special tax might be levied upon any deficiency of the reserve below a stipulated amount, this tax to be increased as the deficiency increases; such provision would, in our opinion, prevent over-expansion of the currency."

**Wool Prices Much Lower  
Than Those of Last Year.** San Angelo, Texas, June 21.—The balance of the spring clip of wool in warehouses here was sold today by commission men to eastern buyers. The prices paid were around 12 cents; this is from three to five cents under last year. The spring clip stored here totaled nearly 2,000,000 pounds.

DRILLERS DROP PAIR TO DURANT

VISITORS WIN FRIDAY AND SATURDAY IN EASY FASHION

FIFTEEN HITS, TEN RUNS

Morris Stays In Box For Full Route—Many Chances To Score Are Passed Up

Oh, it's easy enough to be pleasant, when the team has a ghost of a chance.

It oughtn't to be necessary to go into details. When a bunch like Durant, that used to be the duckiest kind of duck soup for the Drillers

Duke Morris elected to take the mound himself against the visitors, saying Brady for today and leaving Kane available for the Denison series.

Seven Hits, Three Runs. The Drillers got ten hits themselves, enough to get twice as many runs as were counted by them, but

Doctor, where is the pain?

The run that Durant made in the first was a fair sample of the other ten. With one out, Johns walked.

How They Scored. In the sixth an error by Nevitt and another lovely one by Phillips, put Herman and Hooper safe on second

Wichita Falls scored in the first when Nevitt singled, Brown sacrificed and Nicholson singled. In the fifth

Totals by innings: Durant 100 302 211—46 Wichita Falls 100 011 000—3

Summary—Stolen bases—Johns Edens, Speer 2, Nicholson, Workman, Phillips. Sacrifice hits—Speer

ONE BAD INNING GIVES FRIDAY'S GAME TO DURANT. One bad inning—the fourth—gave victory to Durant. Friday, a walk and five hits in that frame put the

LITTEKEN BROS. GENERAL CONTRACTORS of all kinds of Cement Work Phone 889 Corner Third and Seymour Streets

TEAM TO LEAVE MONDAY ON 18-DAY ROAD TRIP

Will Meet Every Team Except Andromore—Fans Hope To See Improvement

After today's game with Durant, the Drillers take to the road for a period of fifteen days, in which they will play at Denison, Durant, Texarkana, Paris, Bonham and Sherman

This promises to be one of the hardest road trips the team has taken and the fans hope to read of some marked improvement while the boys are in foreign lands.

The first game of the at-home stay were good baseball, even though the Drillers lost repeatedly. Of late, the article dispensed at City Park has been mediocre.

Waco, Texas, June 21.—Helm held Houston to one hit today and Waco won four to two. Errors were responsible for one of Houston's two scores.

TEXAS LEAGUE RESULTS.

Austin, Texas, June 21.—A recruit pitcher, Huggins, of San Antonio, went in and pitched San Antonio to a six to one victory over Austin today.

Fort Worth, Texas, June 21.—An error by McMahon of Beaumont in the ninth when with two out he booted a grounder allowing Wallace to score

Dallas, Texas, June 21.—With Ponder pitching a three hit game and getting perfect support in pinches

Cleveland, June 21.—Overcoming the six run lead which Detroit secured in the first inning, Cleveland won today's game, seven to six.

Washington, June 21.—By bunching hits, Washington took both games of today's double header from New York, four to one and six to nothing.

Cincinnati, June 21.—Errors by Pittsburg enabled Cincinnati to win from the visitors today; five to six.

St. Louis, June 21.—After St. Louis and Chicago had played three innings to a 0 to 0 tying tie the game was called on account of darkness.

New York, June 21.—Nap Rucker won a brilliant pitchers' battle from Rube Marquard, Brooklyn shutting out New York by a score of two to nothing.

Boston, June 21.—Philadelphia defeated Boston, five to four and five to two in a double header this afternoon.

As a result of a five handed fight at an ice cream social at the home of Abram Clark, six miles east of Wichita Falls Friday night, Loyd Rogers has a bad knife wound in his shoulder, his brother, Tom Rogers, paid a fine for fighting, and war rants have been issued for Oscar Lunsford, his son, Elmer, and the elder man's mother, Mrs. Lunsford.

### Cut Down Your Summer Baking

Phones 432 and 232

If there is one thing more than another that most women dislike in the summer time it is baking in a hot kitchen. Of course there are some things that you can't get out of but there are a lot that you can. I have for instance, a very select assortment of package crackers and cookies that you will find not only appetizing but very economical and I have such a wide variety that you will find it easy to serve something different most every day or two. They will keep beautifully and be fresh and crisp for several days.

Suppose you come in and let me help you select half a dozen different kinds as a trial.

### AUTOMOBILE FIGURES IN DISTRICT COURT TRIAL

#### Woman Who at First Refused To Testify Goes On Stand Against Defendant

After being out a little more than twenty-four hours, the jury in the E. J. Jones case was discharged without having reached an agreement. Jones was charged with pandering. Through it all, his father, R. W. Jones of Elk City, Okla., has stood by the son. The elder Jones was formerly a justice of the peace in Eastland county and later police judge in Cisco. The father is disappointed over the failure of his son to secure an acquittal. "This pandering law is new to me," said R. W. Jones, "and while my son may have been guilty of an offense in doing what he did do, the pandering law was not meant to cover such offenses as this."

"My son did no greater wrong than a petty offense and to think that his actions have been construed to be a violation of a penal code is a burden that is hard for both of us to bear."

The jury stood ten for acquittal and two for conviction, all the way through. The second trial of E. J. Jones charged with pandering, began yesterday morning in district court. Lillian Powell, the State's witness, was induced to take the stand this time, but her testimony was apparently unwillingly given although she made many admissions damaging to the defendant, and made points in his favor with other parts of her testimony.

She admitted that she had bought him an automobile, and had given him money for repairs on same, yet said that he had repeatedly struck her when they had quarrels. She said she and Jones came here from Fort Worth in company with a man named Robinson. A new jury was secured for this trial as it is the second trial, the jury disagreeing in the first trial.

Up to Friday night the evident purpose of Lillian Powell had been to stand by Jones until ice-covered the streets in Yuma, Ariz., but the night before the trial she went to Jones in his cell and asked him to sign a bill of sale transferring that automobile to her so that she could sell it and use the proceeds to redeem her diamonds which she had soaked in Fort Worth in order to get money with which to buy it.

When she asked Jones for this bill of sale, he told her certainly not. He even went so far as to tell her to go to Chihuahua. This she refused to do.

But Jones' refusal to let go of that automobile is thought by attorneys to have influenced her in her testimony yesterday afternoon. It has been wisely said by Theodore Roosevelt or somebody else, "that hell hath no fury like that of a woman scorned." Any woman has a right to believe she has been scorned when any man refuses to give her a bill of sale to an automobile, hence the opinion of attorneys that that automobile figured largely in Lillian Powell's evident opportunity purpose to swing things her own way on the witness stand, indifferent to the fact that the outcome of the trial meant either freedom or the penitentiary to the man who had once been her favorite.

Arguments to the jury began at 4:30. The defense offered no testimony. The State used Florence Hughes as a witness against Jones. During her testimony Jones whispered frequently to his attorneys and after each whispering came a question to Lillian that caused her smile to vanish or deepen as the answer seemed to demand as an accomplice.

At ten o'clock last night the jury in the E. J. Jones case had failed to reach an agreement and they were excused until 9 o'clock tomorrow morning.

### JURY IN ORTH CASE IS EXCUSED UNTIL MONDAY

#### Is Allowed To Go Home After Considering Case For An Hour, Without Verdict

The jury in the T. R. T. Orth case in which the defendant is charged with knowingly permitting a bawdy house to be operated on premises owned by him, had the case for an hour yesterday evening and were then excused by Judge Felder until Monday morning at nine o'clock.

At the time of their temporary discharge they stood four to two but it is against the rules for them to tell in which way the two were voting there is no way of knowing whether the majority were in favor of conviction or acquittal.

The jurors were excused with the usual injunctions to forget for the meantime who they were and not to discuss the case with anyone.

### MAINS NOW BEING LAID TO BUSINESS DISTRICT

Manager F. N. Lawton of the Water and Light Company, said yesterday that the new water mains had been laid along Tenth street, and that the remainder of the new ones to be extended to the business district would be laid as soon as possible.

Mr. Lawton also said that work would begin this week on the installation of the new street lights ordered some time ago by the city council.

### NEW PASSENGER SCHEDULE FOR RELLINGTON SHORTLY.

The passenger department of the Northwestern route is working out a new passenger schedule for the Wellington branch, but no announcement is to be made as to when it can be given out, as the work of rearrangement has not yet reached such a stage that any conclusions can be reached.

### PAST WEEK DULL IN OIL CIRCLES

#### FIVE COMPLETIONS RECORDED WITH TOTAL OF 480 BARRELS PRODUCTION

#### TOTAL STILL AT 26,000

#### Over Half Is By Producers Company - Observations On Drake Anniversary

(By W. G. Long)

The field has been very quiet for the past three weeks, trading in leases seems to be a thing of the past, and when the trading is quiet, it shows a disposition to get more grown. But its quietness has not affected the growth of the field; that is it has not affected the production. This particular feature of the Wichita county oil field has been baffling at a 500 clip for the past three months, until today it has run away beyond the fondest hopes of its most faithful adherents.

It is just fifty-three years ago, 27th of August, that the crazy man, Edwin D. Drake drilled in the first well. He had the same encouragement for his work that the pioneer of later days has, he was the butt of ridicule of the times. Marconi had the same thing to contend with with his wireless, what a page of so-called history has been written about both of these pioneers. But the later has made possible the flash of the S. O. S. out in the darkness to be heard when the great ship is in distress. Drake is the one man who made it possible for the touring car and to grab the eagle's highway and make the charted road for man. They will build Drake a monument, they are building him one now, and I think that every man who sells a barrel of crude petroleum should contribute to that fund. It is within the means of all oil producers, rig builders, drillers, tooldressers and lease men, as it is to be a popular subscription of not less than one dollar.

If the reader of these lines wants to subscribe can send their checks to Edwin C. Dell, trustee, Titusville, Pa. The business has grown in a life time from the few barrels that Drake produced in 1859 to the stupendous total of 345,512,185 barrels of forty-two gallons to the barrel. Sixty-four per cent of the world production of oil is produced in the United States. These figures should banish any fear of foreign competition, when President Wilson gets through with the high cost of living. But I am getting away from the Wichita county oil field.

They have completed the past week the following wells:

Producers, Waggoner No. 42; 177 barrels.  
Producers, Honaker No. 5; 40 barrels.  
Corsicana, Honaker No. 3; 25 barrels.

Forest, Marriott No. 11; 200 barrels.  
Forest, Marriott No. 3; 40 barrels.

Making the grand total for the week of 480 barrels.

New Locations—Head and Langford No. 1 Hiserman farm, Corsicana Petroleum Co., No. 2 Ramming.

One of the most important wells that has been drilled in since Riley well, was drilled by the Corsicana Petroleum Company known as their Ramming No. 1. This well showed the same formation that is found at 945 feet and is making forty barrels per day. This shows evidence that the shallower sands are in place at this point and will be productive. This being the only well at that depth having been found in the Burk Burnett district.

The wildcaters are having a hard time trying to locate another field like the Wichita county field. Miller and Puffenburg in Stephens county have a gas well that is a little problematical at this writing, but has some gas which is a feature that will be interesting to the future of comfortable home and fires for sometime to come.

The production still remains very close to the 26,000 barrel mark, as the following figures show:

	Barrels
Producers Oil Co.	12,225
Corsicana Petroleum Co.	7,000
J. M. Guffey Co.	1,000
Head & Langford	1,000
Interstate Oil Co.	120
Red River Oil Co.	825
W. McBride	400
Forest Oil Co.	340
Clint Woods and others	70
Five Rivers Oil Co.	155
Webb and Hardenburg	100
All others	615
Burk Burnett district	779
Petrolia district	1,400
Total	26,065

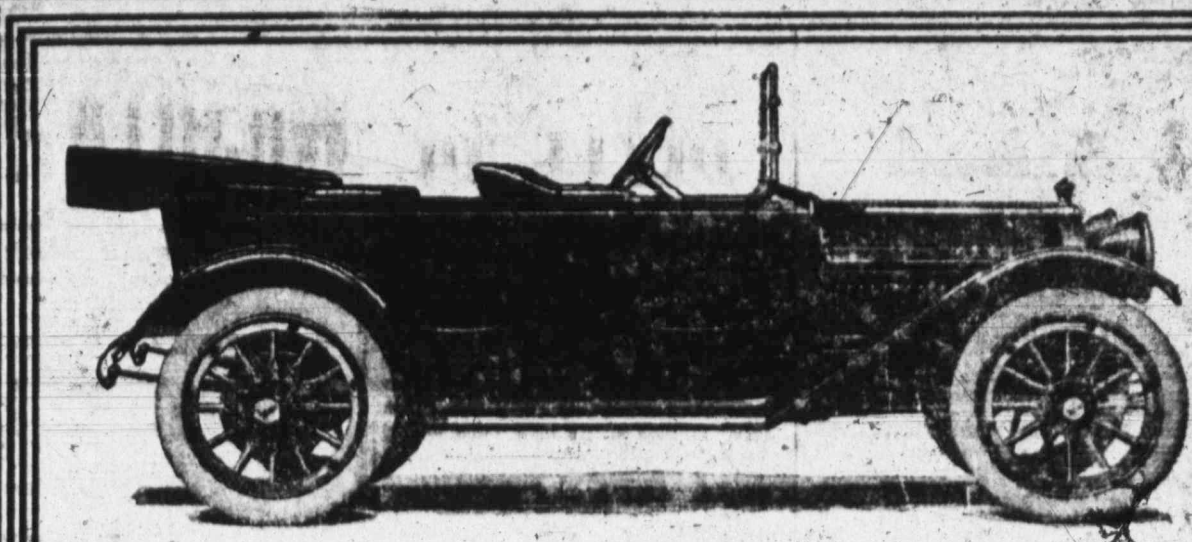

The Producers Oil Company is particularly well fortified in this field as they have the Big Waggoner tract that seems to produce oil from the grass roots to 2000 feet and there is no prophecy worth a cent as to the future of their production. Personally, I believe that they can within ninety days produce twenty thousand barrels of oil themselves.

### CATHOLIC SISTERS MAY LOCATE HOSPITAL HERE

#### Said To Be Considering Establishing Sanitarium—Inducements Are Offered

Negotiations are under way where by one of the orders of Catholic Sisters may establish a sanitarium in this city and while no definite agreement has been reached, it is considered quite likely that the sisters will come here. Inducements have been offered them and a site will probably be donated.

In view of the urgent need for more hospital facilities here, it is felt that a Catholic hospital would go far toward supplying the city's needs along this line.

## Imperial Comfort

The car that takes you to your destination and brings you back safely, does well; but the car that carries you safely and comfortably does better.

There can be little pleasure and no luxury without easy riding. Imperial automobiles are designed for comfort as well as power. The cars are large and roomy, seats wide and ample, upholstery deep, soft and luxurious.

Genuine curled hair is used over Rough Rider springs and finished with high grade pebble grained, dull finish leather. Thorough workmanship and good taste make Imperial upholstery one of the features of the line, while the long wheel base, large artillery wheels and sturdy frame instill a feeling of security without which real comfort is impossible.

## Imperial Safety

The consideration of safety is of prime importance in a successful automobile. The Imperial frame is made of channel sections of ample dimensions and of the very highest grade of pressed steel.

The new non-reversible steering gear with its ease of action together with the strength of the materials used in its manufacture, its self-adjusting qualities and correctness of design eliminates all chance for trouble in this important mechanism. Imperial axles of size commensurate to the total weight and power, large steering knuckles, powerful and quick acting brakes, wheels of second growth hickory, stock, extra heavy spokes and extra large hub, flanges specially bolted, are features of Imperial construction.

In addition to the line we are now carrying, we have secured the agency on the Cadillac cars in this territory. The announcement of the 1914 line will appear in the Saturday Evening Post of July 10, and we will have our demonstrator as soon after that date as possible. There are one or two 1913 models available in Texas for immediate sale. If a customer wants a 1913 car we will use our every effort to get it for him.

### I Want to Show You the Best Palm Beach Suits in the City for \$7.98

You'll see the same kind advertised in other stores for \$8.50, and they're worth it. But that is just my way of "selling for less." The suits are Priestley's, the greatest maker of light weight garments in the world, and the only line that any store can advertise and expect to sell. I have them in all sizes, made in the season's newest cuts, and just 52 cents cheaper than anyone else in town. That's only one item.

I also have a line of Priestly silk mohair suits in gray, blue, and black pin stripes. The coats made with double thickness shoulders, and lined sleeves. You'll find the price the world over is \$15.00. My price is

\$11.48

A line of black Alpaca coats at \$2.25 and \$3.25. Just the thing for the hot weather; where a coat is imperative.

A line of light wool two-piece suits in grays, blues, browns and tans. Suits that are the equal in style, cut, material and finish of any line of \$18- or \$20 suits in the city. My price is \$14.48

A line of beautiful blue serges in the new styles \$11.48 and up.

A line of men's and young men's suits in mixed goods, as low as \$4.98

Union made blue and striped overalls 87c

Union made cotton work pants 89c

A big line of Khaki pants, all union made, and one of the best lines in the country. Priced at 89c, 98c, \$1.19 and \$1.35

The nobby 75c kind of silk and linen hats, the hat for hot weather, at 48c

## Miller's Bargain Store

602 Seventh Street

### WHEAT WAGONS NOW COMING IN

#### SATURDAY'S RECEIPTS HEAVY EIGHTY-TWO GENTS BEING THE PRICE

### REPORTS OF GOOD YIELD

One Field Said To Have Made Twenty-Eight Bushels. Oats Not Making Much

Grain dealers' all report big receipts of wheat yesterday. The price paid was eighty-two cents. One grain dealer said that he had heard of one field of wheat that went twenty-eight bushels to the acre, and that the lowest report he had received was a yield

of twelve bushels per acre. The average yield seems to be about seventeen bushels. Threshing machines are running all over the country, and in most instances as soon as the wheat is threshed it is hauled to market.

The least said about the oats, the better, according to one grain dealer. The yield has been light in most fields, and many fields were never threshed, the two weeks of hot dry weather coming at a critical time ruined many fields of oats.

### LOCAL MASONIC LODGE ELECTS NEW OFFICERS

#### Old Heads Turn Reins Over To Younger Members, Who Are Chosen For Ensuing Term

Wichita Falls Lodge No. 635 A. F. & A. M. has elected new officers. Practically all of the officers are

young men, the older members having decided to turn the reins over to them for the ensuing year. This is the first time in the history of the lodge that this has been done. The new officers are:

J. O. Smith—Worshipful Master.  
N. M. Clifford—Senior Warden.  
W. Y. Hammock—Junior Warden.  
J. D. Avis—Treasurer.  
C. R. Fuller—Secretary.  
S. W. Joute—Tiler.  
W. A. McCarty—Senior Deacon.  
H. C. Dukes—Junior Deacon.  
J. W. Carruthers and Geo. Lawler, Stewards.  
Finance Committee—Frank Collier, L. C. Hinchley and J. W. Walkup.  
On Tuesday, June 24, there will be installation of officers in the Blue Lodge, Chapter and Council.

San Marcos—Twenty tons of broom corn were used by the San Marcos broom factory last year and from present indications the output this year will be doubled, as the sales to date are already equal to the total sales last season.

Wichita Falls, Texas, June 22, 1913

Temperature in Chicago last week ninety to ninety-five; in Wichita Falls eighty to ninety. And yet we hesitate to suggest advertising this city as a summer resort.

It would not make much difference which one of the dozen or more gubernatorial aspirants lands the Democratic nomination and is elected. It is hardly likely that a worse blunder can be made than has heretofore been made.

The Times has received a cross-section of the Congressional Record on titled "The Plot Behind Free Sugar," being an address by Senator Ransdell of Louisiana, and mailed under his franking privilege. The document would cost four cents postage if mailed by an ordinary human who could not call the government facilities to his assistance for nothing. The dear people pay that part of the expense of fighting the sugar bill and if the fight is successful, they pay the bounty on the sugar too.

The Wichita Times brags of the number of sanitariums in that city. Don't need many in this section of the state. And we are all glad we don't.—Mt. Pleasant Times-Review.

Turn the patient over on his back, doctor. He's getting dippy again. The Times was not bragging. It merely wants it understood that a city the size and importance of Wichita Falls should provide more facilities for the care of the sick and maimed than she now has. People will get hurt occasionally in a five, wide-awake commercial center. In some towns there is less danger. In fact, unless a tree happens to fall on them, they might never get hurt and live always, and then perhaps it might be necessary to shoot some of them on the day of judgement. Possibly Mt. Pleasant is that sort of health resort. If so, the Review should not hesitate to boom it along.

An estimate of 11,000,000 bushels is placed on the wheat crop in Texas this year.—Wichita Falls Times.

You are banking too heavy on the Chillicothe end of the line.—Chillicothe News.

In the Chillicothe country, the wheat and oat crops this year are very, very short, owing to a lack of moisture at the proper time, and Editor Hendricks is urging the farmers to plant more of their acreage to cotton, as it produces well, and can do with less moisture than almost any other crop. And it also pays better. Wichita county, however, expects to produce about 1,000,000 bushels of that 11,000,000 estimate made of the states' 1913 wheat crop besides a splendid corn and cotton crop. If the yield per acre in this county for this year for cotton should even equal that of last year, there is good reason to expect an 18,000 bale crop for the county, which would be an increase over last year's yield of a little more than 3,000 bales.

THE REPORTER.

Gregory T. Humes, a reporter for the New York World, was terribly injured in the wreck of the New Haven road Thursday night. But his first thought as he was dragged from the wreckage was that his newspaper should at once be called by telephone and informed of the accident. A few hours later he was dead.

This is the sort of devotion that the newspaper profession always has had the fortune to command. The reporter is the real maker of the newspaper. If his work is done well, then the paper as a whole is successful. If he fails, nothing can save the paper from being dull and uninteresting. The great newspaper man is the great reporter. Richard Harding Davis, Sam Hlythe, Will Irwin, Rudyard Kipling, have been the foremost reporters of their day.

The loyalty of the reporter always has been a cause of amazement to outsiders. His work is done anonymously. The money compensation is usually not so large as he might get in another profession. His duties are strenuous and exacting to the last degree. He is likely to be called on to go anywhere at any time. He has no time that he can call absolutely his own. The ethics of the profession require him to accept any assignment, no matter what danger or difficulty may attend it.

The correspondents kept at work in the City of Mexico in a building that was under bombardment. They hurried to the scene of the Ohio floods when other people were getting out.

BELLE OF WICHITA—IT'S BETTER

They take any risk to get the first news of any important event. Even when they are not on duty the newspaper instinct is uppermost, and their first thought when they stumble on a piece of news is to "let the office know." Humes of the New York World was a typical reporter. It is a tribute to the quality of newspaper service that everywhere it has built up this esprit de corps—this full measure of devotion among the men of the staff.—Kansas City Star.

EDITORIAL COMMENT

"Press Agents" in Washington. Boston Transcript: With Secretary Houston's scheme for a bureau of information in the Agricultural Department, presided over by an editor, whose duty it will be to translate into very-day English the scientific terminology and technical forms which now besprinkle so many of our government reports, no fault can be found. Rather it is a sensible and much needed reform, and if the newly appointed official should be given sufficient authority to enable him to use his blue pencil in the weed bed of useless and unnecessary verbiage which clutters up the average bulletin and causes so great an expense for composition and proof-reading at the government printing office, so much the better. Agricultural Department publications long have needed revision at the hands of some competent copy reader, the present practice of countless revisions at the hands of various authors having resulted in an extravagance that long has been crying for a remedy. The secretary also is to be commended for having avoided one of the dangers of the "press agent" system which has been growing up in the executive departments in Washington during the last few years. He expressly states that while the new office is to act as a clearing house for news, the various bureau chiefs are not to have curtailed in any way their privilege of talking personally to newspaper men. The placing of all publicity authority in the hands of a departmental "press agent" is dangerously close to a censorship. The Washington correspondents, who are men of exceptional ability and integrity, and occupy a position that is semi-official, have enjoyed for many years peculiarly confidential relations with public servants at the capital, have had free access to all matters affecting the public weal, and hence have been of inestimable value in serving the country and keeping it informed of exactly what is transpiring day by day at the seat of government. They have a right to go direct to any government official whom they may desire to consult for the purpose of obtaining information for the newspapers which they represent, and should by no means be compelled to seek such intelligence at the hands of an underling, whether his designation be "press agent," "publicity promoter," or the more high-sounding "chief of the bureau of information." Congress repeatedly has sought to discourage publicity agents in the departments, but not with entire success. Secretary Houston appears to recognize the evil. News from Washington should be facts as they are, not as some official would like to make them appear to be.

The Cost of Living and Why. Under the caption, "The Cost of Living," the June number of Cotton, Atlanta, Ga., presents an interesting article by William I. King, instructor in political economy at the University of Wisconsin. After discussing the different phases of this broad subject, the author sums up his conclusion as follows:

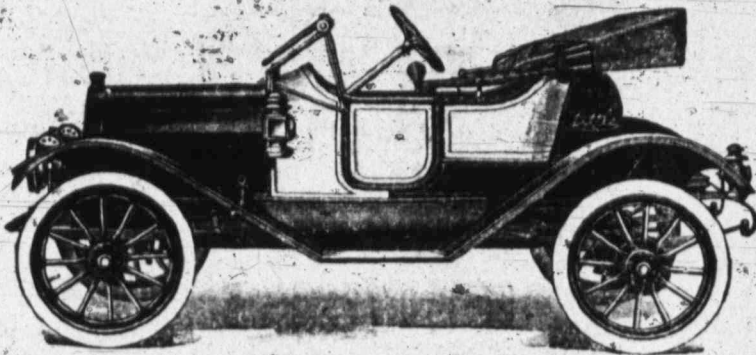

"The remedy then is evident. If we wish the cost of living to go on decreasing and general prosperity to keep on increasing as in the past century, we must limit our population so that we shall gain by invention and skill and not merely remain stationary, or worse yet, lose out in the race. With immigration shut out and the existing low American birth rate, we may anticipate a population soon becoming nearly stationary and a continued advance in the welfare of the masses of the American people. Without restrictions on the inflow of newcomers from over the sea, we can hope for nothing better than to see the American people slowly but surely reduced to an economic plane little if any higher than that of France or Germany."

"The question of the cost of living then resolves itself into a study of the ways and means of making our population conform to the supply of products inured out by our industries each year. The future well being of the nation must depend largely upon our immigration policy during the next quarter of a century. The preservation of our high standards demands prompt action. With immigrants shut out, the problem of the cost of living will gradually solve itself. With immigration continued in anything like the present proportions and the resulting rapid growth of population, the cost of living will continue indefinitely a burning issue in every campaign."

POSTMASTER BACON IS TAKING NO CHANCES NOW

Since Oklahoma Office Was Robbed By Two Women, He is Very Cautious

Since two masked women robbed a postoffice in Oklahoma in broad daylight, using the old-time holdup method, Postmaster Bacon here is taking no chances. Women wearing light veils are subjected to careful scrutiny. Those wearing black veils are kept under surveillance even after they leave the building. Women wearing heavy black pattern veils are not admitted at all. Postmaster Bacon does not propose to have the word go out that his postoffice has been stolen—nor under a Democratic administration.

NOT GUILTY IS VERDICT IN COTTON CONSPIRACY CASE.

By Associated Press. Guthrie, Okla., June 21.—The jury late this evening brought in a verdict of not guilty in the case of W. H. Coyte, who with others was charged with forming a pool to raise the price of cotton ginning in Oklahoma.

SYRACUSE VICTORIOUS IN COLLEGIATE REGATTA

By Associated Press. Poughkeepsie, N. Y., June 21.—The national character of college rowing in the United States was demonstrated here late this afternoon when the four mile race of the annual intercollegiate regatta was won by Syracuse. Cornell was second, barely ahead of two western crews, the University of Wisconsin and University of Washington. Columbia came next and Pennsylvania last.

Syracuse' time was nineteen minutes, 28 3/5 seconds, the fastest since 1909 and 25 1/5 behind the record made by Cornell in 1901.

HOUSTON POSTMASTERSHIP CONTEST IS NOW ON

Houston, Texas, June 21.—The threatened death of Postmaster Seth Strong last night has precipitated a lively fight for the place. E. M. House is said to be backing his Brother, T. W. House. This is the home of both Congressmen Eagle and Garrett and wires to Washington are being kept hot today. Strong has been postmaster twelve years and had been connected with the office for over thirty years.

Notice to Shriners. All Nobles of the Mystic Shrine in this and adjoining counties in this and adjoining counties are requested to meet at the St. James hotel Sunday afternoon at 5 o'clock for the purpose of arranging for a banquet and ball to be held at Lake Wichita some day next week. We urge all Nobles to pass this word along to others, so that we may have a big attendance.

Most Unkind Remark. "Stump speaking is the hardest work in the world," said Senator Beveridge. "It is especially hard," he continued, smiling, "when there are hecklers in the audience." "A friend of mine the other day was getting on famously in a stump speech."

An Aged Pensioner. A man 115 years old has asked for an increase of pension under the new law. He is a Mr. Wise, of Beaver Brook, N. Y. He has just been examined by a Port Jarvis physician on the application of Mr. Wise for an increase of pension. He is a veteran of the Mexican and the civil wars, and has reached the age of 115 years.

Not Entirely Unobservant. "I think that children are not so observing as they used to be," said a member of the school board to a district school teacher. "I haven't noticed it," replied the teacher. "Well, I'll prove it to you," answered the committeeman. "Turning to the class he said: 'Some one give me a number.' 'Thirty-seven,' said a little girl eagerly. He wrote '73' on the board. Nothing was said. 'Well, some one else give me a number.' 'Fifty-seven,' said another child. He wrote '75' on the board, and smiled knowingly at the teacher when nothing was said. He called for a third number and fairly gasped when a little urchin piped up: 'Seventy-seven, and see if you can change that.'"

Latest in Astronomy. Now let us examine the See theory, which the professor supports by much mathematical and observational data too technical to be rehearsed here. This is the exact opposite of Laplace's scheme, says Leslie's Weekly. Professor See holds, indeed, that the solar system was formed from a spiral nebula, but that instead of the planets having been detached from the sun by rotation they have been captured and added on from the outer parts of the nebula. All the satellites likewise have been captured by their several planets, and not one of them detached by rotation from the central bodies. This Doctor See calls the capture theory. The moon, likewise, he says, was originally a planet, but, bearing the earth, was captured and made a satellite. This is in direct contradiction to the previous most modern explanation of the origin of the moon, held by Dr. George Darwin.

One glass only can be the correct one for each of your eyes—all others are wrong. It isn't an easy matter to obtain the right ones, but you can be assured of them if fitted by us. We know how. Dr. DuVal, the Progressive Eye, Ear, Nose and Throat Specialist.

# "Don't Be in the Tread Mill Class"

**YOU'VE** seen the old fashioned tread mill—the horse is obliged to keep stepping every minute yet he doesn't get ahead an inch. Such is the case with those who don't spend their money economically. Why pay long prices for dry goods just for a few days time—If you pay after all, it's cash, isn't it? Then why help maintain a system "that keeps you on the tread mill"—Buy where your dollars go furthest. Ours is a system of economy, depending upon volume for results, for small profits often repeated is the foundation of modern business success. We're at your service ready to prove, we have the right merchandise for less money

**Hosiery to be good must stand "the rub of the tub and the rust of the heel and toe"**

When hose are worn they should wear well, and when they are washed, they should wash well; should keep their bright, black color and lustre. "That is where Holeproof hosiery shines" and the good feature is that you take no chance for every pair is guaranteed to wear.

**Men's, six pairs, for only . . . . . \$1.50**  
Guaranteed six months

**Ladies', six pairs, for only . . . . . \$2.00**  
Guaranteed six months

## La Resistista CORSETS

You just ought to try one pair of the La Resistista and you'll never wear any other corset. These life giving, flexible, pliant corsets are now on display at our store.

The spiral boning makes this corset delightful to wear. Just try a pair and see, and after four weeks if you don't think it, return the corset and get your money.

**Men's and Ladies' Footwear**

**THE MAN WHO KNOWS SHOES**—Who has an eye for style, who appreciates the "feel" of plump, even textured leather, who recognizes the little finishing touches which come only from the deft fingers of "natural born" shoe-makers, is the man we had in our mind's eye when we made Bostonian Shoes our leaders. We shall be proud to show you our new Fall styles. We can fit you in English Rubber sole shoes in tan and white. Priced at . . . . . **\$3 50**

**MEN'S WHITE OXFORDS**—A new shipment just received, button or lace styles, all sizes and every width last now in stock. Come and be fitted while size assortment is at its best. Prices \$1.50 to . . . . . **\$3 50**

### FINE ANIMALS - FINE FEED

JUST ORDINARY HORSE SENSE tells a man that he must be careful in feeding his stock if he wants to get the best results. But it is not always so easy to get the right kind of feed. We are Feed Specialists and not only know what your stock ought to have but have it on hand and all you have to do is to go to the telephone and when the operator has time she will connect you up with the best feed store that ever opened its doors to the public.

You can Fatten Your Horse Easy by using Cockey's Stock Tonic. Also Colic remedies and a sure and immediate cure for distemper. Come around and see what we have for your horse.

### STOCK MARKET PRICES TEND TO LOWER LEVELS

Interstate Commerce Commission Decision Makes New Law Resolutions For Week

By Associated Press. New York, June 21.—Quotations were scaled down generally today under an outburst of selling which in some cases forced stocks nearly to the low level touched in the severe break of last week. Trading was much more active than on recent days and the market was unsettled throughout the two hour session.

The chief cause of renewed selling was the Interstate Commerce Commission's refusal to reopen the freight rate cases on the petition of eastern railroads for a five per cent advance.

While this action of the commission was modified by the statement that it would conduct an inquiry on its own account into the matter of present rates the news had a disturbing influence. The market's burden was increased by a decline of American securities in London where securities fell to a new low record. Cables brought reports of serious conditions in the Balkans. Such stocks as Union Pacific, Northern Pacific, Reading, Steel, Amalgamated and Smeltling broke two to three points. Steel dropped to 59 7/8 within a point of last week's low and the Preferred at 102 1/2 equalled its previous low.

Bonds were heavy, total sales par value \$617,000.

Are You Handicapped?

Poor eyesight and an unattractive face are distinct handicaps in business. Neglected eyes affect your appearance and decrease your chances of success by destroying your capacity for long continued accurate work.

We can easily tell if you are handicapped with poor vision. If so, we can prescribe glasses which will improve your looks as well as your vision.

"No drops." We know how

A WOMAN'S BEAUTY

is largely of her own making and is her greatest asset and may be kept through life to old age if cared for. A man may be so ugly he is attractive, with a complexion like a crocodile and a shape that suggests sumptuous dining or starvation; with moustache stenciled all over him in letters a foot long and still be the center of social attraction and wife fall to see where Adonis had anything on him. But the woman with a complexion like a cheap cigar and a bunch of features that look like they were carelessly arranged does not cut any ice in very large hunks. Our line of Toilet Helps (modern toilet sets are mostly helps) is the most extensive in the city. We carry the products of the oldest perfumers both domestic and foreign. We have what you want in this line lets show you.

LOST—One President of the United States.

Wilson Goes Astray

By Associated Press. Washington, June 21.—President Wilson and his party returning from a trip to Baltimore today, lost their way a few miles north of Baltimore. Frank Primrose of Catonsville, who was motoring along with his family, volunteered, saying "I will tow you in." He warned the chauffeur not to attempt the route they had chosen, as the hills were muddy and dangerous. Primrose did not know that he was piloting the President of the United States, but discovered it later as he spied the American coat of arms on the President's car. "I helped Governor Warfield to get to town only yesterday," said Primrose proudly as he got the President's party on the right road and directed the mto Baltimore. Three big automobiles carrying the President, his family and secret service men, plowed through mud and water at a good clip. Once the rain was so heavy the party stopped under a covered bridge. The 120-mile ride was the longest the President had taken in an automobile since he came to Washington.

Lord Wears Kilts. The House Lords will receive a shock should the new Lord Ashbourne, formerly the Hon. William Gibson, decide to take his seat in that chamber. In the first place he is a Nationalist and Home Ruler, and secondly he invariably wears the national dress, a brown colored kilt. These garments will be more embarrassing in the House of Lords than Lord Ashbourne's nationalism. It was not long ago that an Irishman in kilts was refused admission to the strangers' gallery at the House of Commons, his costume being considered inappropriate. Lord Ashbourne speaks Irish fluently, is a frequent contributor to the magazines on Irish affairs, and is altogether an ardent Nationalist. His father, whom he succeeded was just as ardent a Conservative. Labor Unrest. Labor unrest prevails throughout the Black Country, that great industrial district of which Birmingham is the center. Over 40,000 workers, chiefly engaged in the tube and boiler trades, have been out on strike for some time for shorter hours, higher wages and better conditions generally, and the brickmakers, who have similar grievances, are threatening to join them. Unless the matters in dispute are speedily adjusted, all the Black Country soon will be idle. The men today are organizing marches throughout the country, including workers—who have not yet struck to join them. The tube and boiler workers complain that the system of fines and continual changing deprives them of an unfair portion of what they have to work hard to earn; that the wages are miserably low and conditions unbearable.

KING AND QUEEN CUT THEIR LIST

ONLY SIX THOUSAND INVITED TO PANAMA GARDEN PARTY AT WINDSOR

WHEN IS MAN AT BEST?

Liberal Government Decides That Forty is Prime—Labor Troubles Loom Large

By Associated Press. London, June 21.—The King and Queen have reduced by almost half the number of invitations issued for the annual Garden Party at Windsor Castle, which this year is held June 21. A year ago 10,000 invitations were issued. This year the number is only 6,000, so several thousand people will be disappointed in their hopes of receiving the "Royal Command." The explanation is that last year there was too great a crush, and those who did attend were inconvenienced. While the Garden Party is more democratic than the usual court affairs, all the members of Parliament, for example, receiving invitations the cards of admission are greatly sought after. It was inaugurated by the late King Edward, to enable him to get into closer touch with his subjects. Of recent years many foreigners and colonialists have attended the occasion, but as the number of tickets allotted to the embassies likewise has been reduced this year, many American and other visitors are among those doomed to disappointment.

Special trains take the guests to Windsor, and there royal carriages await the more distinguished. For the rest, all sorts of conveyances are requisitioned. The party is held on the great lawn at the foot of the East Terrace. Gaily decorated marquees dot the grass, the two royal tents occupying prominent positions. Of these the Indian Shamianna, rich in beaten silver and gold and crimson hangings, is used for reception purposes, while the other is reserved for the serving of their Majesties' tea. Here the Queen entertains the royalties present, a few personal friends and prominent personages. The Prince of Wales, now approaching his nineteenth birthday, is beginning to take his part in occasions of this kind, and this year he invited a number of his school friends from Oxford to be present.

Lord Wears Kilts. The House Lords will receive a shock should the new Lord Ashbourne, formerly the Hon. William Gibson, decide to take his seat in that chamber. In the first place he is a Nationalist and Home Ruler, and secondly he invariably wears the national dress, a brown colored kilt. These garments will be more embarrassing in the House of Lords than Lord Ashbourne's nationalism. It was not long ago that an Irishman in kilts was refused admission to the strangers' gallery at the House of Commons, his costume being considered inappropriate. Lord Ashbourne speaks Irish fluently, is a frequent contributor to the magazines on Irish affairs, and is altogether an ardent Nationalist. His father, whom he succeeded was just as ardent a Conservative. Labor Unrest. Labor unrest prevails throughout the Black Country, that great industrial district of which Birmingham is the center. Over 40,000 workers, chiefly engaged in the tube and boiler trades, have been out on strike for some time for shorter hours, higher wages and better conditions generally, and the brickmakers, who have similar grievances, are threatening to join them. Unless the matters in dispute are speedily adjusted, all the Black Country soon will be idle. The men today are organizing marches throughout the country, including workers—who have not yet struck to join them. The tube and boiler workers complain that the system of fines and continual changing deprives them of an unfair portion of what they have to work hard to earn; that the wages are miserably low and conditions unbearable.

SERVICE

Good business in any line is only service. We exchange service with our neighbors and friends for a numeral sum that we may obtain the service of some one else.

This exchange of service brings about business, and the more exchanges the better the business. The banker, the merchant, the day laborer, or the farmer, in fact the human race is one mighty family, where each has his or her chance to assist in this beautiful happy game of life.

We are playing our part in this great game to the very best of our ability. We have the best plant of its kind in the state, our employees are all faithful and efficient, and we are here to serve those who may need any service we can give.

Lest you forget, your cemetery plot needs beautifying. We are leaders and are always at your service.

## IN THE SPHERE OF WOMANKIND

### WEDDING ANNOUNCEMENT OF MUCH INTEREST MADE.

The young ladies' sewing club and a few friends were delightfully entertained Saturday afternoon at the hospitable Goraline home on Travis street. Some time was spent in fancy stitching and gay persiflage, after which delicious refreshments were served, *à la fresco*. Beneath the attractive dainties were unique cards, with tell-tale wedding decorations and bearing the following announcement:

"The Goraline home has been burglarized, sustaining a loss of \$1,600, 000: Father was the heaviest coser, being robbed of a heart of gold set in diamonds. Walter, Daugherty of Newsville, Indiana, has been placed under arrest for the theft and will be brought to Wichita Falls July 10 to pay the penalty."

As the full purport of this "story" dawned upon those present, much excitement reigned and the strains of familiar wedding music added to the jubilation. The hostess was assured that the surprise was a complete one, and was showered with congratulations and best wishes. The marked popularity of the bride-to-be with the novelty of her announcement, made the news of much interest. Those present at the gathering were Misses Agnes Reid, Eddie Carver, Carrie Kell, Willie Mae Kell, Pryor of San Antonio, Mabel Simpson, Jewel Kemp, Kathryn Hindman, Mesdames Ralph Darnell, Mark Walker, J. T. Montgomery and E. B. Goraline.

### FIVE HUNDRED CLUB WITH MRS. W. H. WALKER THURSDAY

Mrs. Wade Walker was hostess to the Five Hundred Club at its session Thursday, there being five tables of members and guests on hand to enjoy the hospitality of the Walker home. The afternoon's souvenir went to Mrs. J. T. Montgomery, being a cold meat fork. After the usual number of games, the hostess served a salad course. Those present included Mesdames O. F. Bacon, T. T. Reese, J. W. Dwyer, Eugene Sherrill, Bruce Smith, J. C. Berney, R. L. Miller, H. O. Craven, Ralph Darnell, Allen Darnell, J. T. Montgomery, Wiley Blair, Everett Jones, Dan Boone, S. H. Burnside, Reese Allen, W. B. Shepperd, Misses Lucile Sherrill, Ethel Chamberlain, Arty and Howard.

### PHILATHEAS GUESTS IN AUTO PARTY AT LAKE

The Baraca young men of the First M. E. Sunday school numbering twenty entertained the Philathea ladies and some of their friends at the lake Friday night. Six autos loaded to the limit gathered at the parsonage from which place the start was made. The night was ideal and the crowd was in the mood to have a jolly time. Some weeks ago the Philathea entertained the Baracas, and this was their return party. The sales president, Harrison Bachman, was master of ceremonies. A sumptuous lunch was spread out on the pier, which had been prepared and was served by the social committee consisting of Ray Anderson and Floyd Frisberg. The guests expressed their appreciation for the enjoyable evening and declared the Baracas to be royal entertainers.

### STUDENTS RETURNING HOME FROM OUT OF TOWN SCHOOLS

Wichita Falls girls who have been away attending school during the past year have nearly all returned for the summer vacation and their homecoming has contributed not a little to the summer gaieties. Several affairs have already been given and others are planned for the coming weeks. Miss Kathleen Blair was accompanied home by Miss Olive Edwards, who will be remembered as a guest at the Blair home at Christmas and who has many friends among the young people here. Miss Blanche Kahn was accompanied home by her room-mate, Miss Dorothy Trenholm, the trip from Minnesota being in the private car of Miss Trenholm's father; Miss Trenholm will remain here several weeks. Miss Anne Carrigan who returned last week from the State University at Austin, attended a house party at Tyler before coming home. An unusually active round of affairs was given for the members of the Tyler party, which was made up mostly of University people.

### PARTY OF YOUNG PEOPLE ENJOY EVENING AT LAKE

Summer is making its presence felt more and more as the days go by and the arrival of this season of the year brings with it forms of amusement and entertainment that can be enjoyed to the utmost at no other time. Chief among the methods of spending a carefree evening is a picnic at Lake Wichita where the breezes are always cool and the atmosphere delightful. The popularity of that resort is therefore daily increasing in the same proportion as the weather grows warmer. Three or four pleasure parties can now be discovered at the lake every night and those who go once always return and bring others with them. One of the most enjoyable of these affairs that has yet been held this summer was a picnic and supper Monday evening participated in by a few

young people, most of whom have been away from town attending school for the last year and have only recently arrived home to spend the holidays. Mrs. Murchison and Miss Foster acted as chaperones, and the party was composed of a few of the friends of Miss Olive Edwards of New York, who is in the city as the guest of her schoolmate, Miss Kathleen Blair. A sumptuous supper was spread upstairs in the pavilion about 9:30 and after supper the time was pleasantly spent in dancing and other forms of entertainments. Those present included Mrs. Murchison and Miss Foster, the chaperones, Misses Olive Edwards, Kathleen Blair, Bess Kell, Bertha May Kemp, Mabelle Jackson, Anne Frearer, Lillian McGregor and Messrs. Robert Huff, Jerome Stone, Carter McGregor, Joe Hatcher, Ben Bell, Julette Bonner, Jake Avis.

### RECEPTION AT THE ACADEMY FOR MISS ROSE HOWARD

The reception at the Academy of Music and Art Monday evening for Miss Rose Howard, who arrived recently from Fort Worth, was largely attended and proved a very pleasant occasion. In the receiving line were Mesdames J. L. McKee, J. C. Berney, Wiley Blair and Misses Rose Howard and Helen Ritchie. Those who assisted during the evening included Mesdames H. B. Patterson, J. G. Culbertson, J. T. Montgomery, A. H. Carrigan, T. J. Leichman. A large number called during the evening.

### OLD MAIDS' AID MEETING WITH MISS KATHRYNE HINDMAN

Tuesday's session of the "Old Maids' Aid" was held at the home of Mrs. H. J. Fenton on Brook street, with Miss Kathryn Hindman as hostess. In addition to the club members in attendance there were several of the members "little sisters" as guests for the occasion and a very enjoyable evening was spent with the usual round of sewing and conversation, followed by refreshments. The next meeting will be with Miss Eddie Carver. Those present were Mesdames Agnes Reid, Carrie Kell, Jewel Kemp, Eddie Carver, Mabel Simpson, Bertha Mae Kemp, Bess Kell, Edith Mathis, Genevieve Carver, Mrs. H. J. Fenton, Mrs. Jesse Dolman.

### NUMBER OF YOUNG PEOPLE ENJOY OUTING AT LAKE

A number of young people enjoyed a picnic and dance at Lake Wichita Monday evening, going out on the cars and whiling away the evening hours with dancing a delightful lunch. Mrs. J. W. Stone and Mrs. J. L. Jackson chaperoned the party, which included Mesdames Andrey Adickes, Lillian Bell, Bernice Jackson, Lillian Fain, Thelma Kahn, Ruby Moore, Gladys Herron, Elizabeth Youngblood, Helen Stone, Marie Shelton, Beryl Murph, Messrs. Clyde Smith, Leslie Millican, William Robertson, Joseph Kell, Alfred Carrigan, Luther Robertson, Austin Self, Ralph Pond, N. Harrison of Chickasha, J. Atwood of Comanche, Charles and J. Barnard.

### TUESDAY PRISCILLA CLUB WITH MRS. J. MILT ERWIN

Mrs. Milton Erwin was hostess to the Priscilla Club Tuesday, for the customary session of sewing, reading and refreshments, the gathering being small but pleasant. The next meeting will be with Mrs. Mark H. Moore. Present were Mesdames Fridgen, Moore, Erwin, Eagle, Quinn, Ashmore, Miss Steever.

### HANKS-MAHONEY WEDDING IS WEDNESDAY MORNING EVENT

Mr. Henry Hanks and Miss Helen Mahoney were united in marriage Wednesday morning at the home of the bride's mother, Mrs. C. O. Mahoney at 606 Leg street, the ceremony being performed by Rev. J. P. Boone. The wedding was a quiet one, only the close friends and relatives of the contracting parties being present. Mr. and Mrs. Hanks left this afternoon for Gateville, where they will visit for a time before returning to make their home at 2305 Ninth street. The groom is a popular young business man of this city and has resided here for some time; the bride is a young woman of unusual beauty and of much personal charm. Both enjoy the friendship of a wide circle, whose best wishes are extended them in their new estate.

### AID SOCIETY ENTERTAINS AT THE CARRIGAN HOME

One of the most pleasant church affairs in some time was the social given Thursday evening by the Aid Society of the First Presbyterian Church at the home of Judge and Mrs. A. H. Carrigan. The recent rains made it inadvisable to have the lawn party that was at first planned, but the gallery and interior of the Carrigan home were employed to good advantage. There was a "house party" consisting of a number of members of the church of both sexes, whose duty it was to assist in entertaining. Musical numbers were provided including a piano solo by Miss Edith Stuten, a vocal solo by Miss Ritchie, a vocal quartette by Mesdames Heavers, Carpenter, Walker and I. D. McKee and a violin solo by Mrs. Bruce Greenwood; all were

### AT THE CHURCHES

#### CIPHER CLUB'S DANCE AT LAKE LARGELY ATTENDED.

The Cipher Club gave another of its delightful dances at Lake Wichita Thursday evening, the young people's ranks being swelled by those who have recently returned from school. The cool weather made dancing an unusually enjoyable diversion Thursday evening and the couples took full advantage of it.

#### D. OF R. COMPLETE SCHOLARSHIP FUND.

The Daughters of the American Revolution of Texas have established a fund of \$4000, the interest on which will finance a scholarship for girls in the University of Texas. The interest amounts to \$240 annually and applications for the session of 1913-14 are now in order. The committee on selection includes Mrs. M. E. Hyman of San Antonio, State regent; Mrs. Nell Carothers, chairman of the scholarship committee; and President Mezes of the University. In the selection of the beneficiary, scholarship and earnestness of purpose will be among the points considered. The scholarship have been accumulated since November, 1909, when it became the chosen work of the Andrew Carothers Chapter, a chapter composed exclusively of University girls and ex-students. The other twenty-five chapters of the State conference have co-operated and their generosity and enthusiasm have made possible the speedy accomplishment of this important undertaking. Liberal contributions have also been made by prominent men and women over the State, who are not members of the organization. The splendid committee having charge of the fund includes: Mrs. Nell Carothers, chairman; Miss Bettie Ballinger of Galveston, Miss Eleanor Brackenridge of San Antonio, Mesdames Ira H. Evans, John D. Claybrook and H. A. Wroe of Austin, Mrs. A. V. Lane of Dallas, Hampton Gary of Tyler, A. R. Howard of Ft. Worth, Edward Botan of Waco, J. L. Smith of Amarillo, Louis J. Wortham of Fort Worth. Applications with written recommendations should be made to Mrs. Nell Carothers, Austin, Texas. A selection will be made as early in the summer as possible.

#### NEW IDEA CLUB HOLDS SEASON'S LAST MEETING.

The last meeting for the season of the New Idea Club was held at the home of Mrs. H. J. Bachman on Thursday afternoon. The time was very pleasantly spent by the ladies on their needle work. The husbands were invited for the evening and a bountiful supper served on the spacious lawn which was greatly enjoyed by all present. The club will be discontinued until the first of September. Those present Thursday evening were Rev. and Mrs. Coe, Messrs. and Mesdames Goodale, Dobson, H. J. Bachman, Simon, Homer Little, Mesdames Coe, Scott, Shaw, Frisberg, Carey, Misses Cora Lee Waggoner, Tula Stokes, Florence Burgett, Hazel Jones and Annette Coffield.

#### HOUSE PARTY AT ELECTRA, WICHITA GIRLS AS GUESTS.

A number of Wichita Falls girls returned Tuesday from Electra, where for a week they had been the house party guests of Mrs. C. A. Martin, formerly Miss Jones of this city. Diversions of various kinds were provided for the members of the party and their stay in Electra was one long round of enjoyment. Those taking part were Mesdames Marion Crabtree, Cora Lee Waggoner, Tula Stokes, Florence Burgett, Hazel Jones and Annette Coffield.

#### MRS. MACK THOMAS HOSTESS COMPLEMENTING HER MOTHER

Mrs. Mack Thomas entertained Friday afternoon from three to six o'clock in honor of her mother, whose home is in Sulphur Springs. The guests were met at the door by Mrs. Thomas and escorted to the dining room where punch was served and then to the parlor. Refreshments were served by little Miss Madeline Thomas; among the diversions were piano selections by Mesdames Thomas and Fields. Each guest was presented with a carnation and fern, planned on by Mrs. Fields, as a memento of the occasion. At the conclusion of the pleasant session, Mr. Thomas showed the size of his heart by taking each of the guests home in his automobile. The hospitality of Mrs. Thomas and the opportunity for the pleasant gathering were greatly enjoyed by those present, who included Mesdames Fields, Childers, Little, Hartscock, Huff, Whitney, Smith, Minter and Richards.

#### ARCHER CITY GETS FIRST LOAD OF 1913 WHEAT.

(Archer Dispatch)

The first load of new wheat was received by Archer City Monday evening and sold for eighty-two cents, the same price being given for the entire crop of some 1,000 bushels. The wheat was grown by Ben Hull on W. E. Forgy's place just south of town and was bought by J. W. Seals who is buying for Hunt's elevator at Wichita Falls. W. T. Metcalf's threshing was moved to the Hull crop Sunday and Monday threshed only twenty-eight bushels on account of the rain. Considering the fact that the separator is a new one a good run was made Tuesday, but they have been unable to do anything at all since on account of rain.

#### First Baptist Church (Corner Austin and Tenth)

Hon. R. E. Taylor, a prominent layman from Henrietta, will speak at 11 a. m. The men of the church and community are cordially invited to be present. The pastor will preach at 8:15 p. m. ## This is The Longest Day of the Year And Daylight is Pleasant

Today is the longest day of the year, and if it is hot it will seem even longer. Coming as it does, on Sunday, you will get the maximum of rest with the minimum of loss through idleness. Today the sun will rise sometime before daylight and will remain in such state until late in the evening at which time it will set, or go down, as it is sometimes called. This prediction is based primarily upon precedent, but is not thought to be faulty. The shortest day of the year is in December, and comes during the Christmas shopping rush. Some of those who have been working on threshing machines during the recent hot weather thought that last Friday or yesterday was the longest day of the year, especially that part of the day which elapsed between noon and supper time. "A Wife's Devotion Surmounts all His Difficulties" Wichita Theatre-June 23. Admission 10, 20 and 30 cents.

## W. O. W. PICNIC

### At Lake Wichita, June 26 and 27

Wichita Falls Camp No. 3001 will hold its annual picnic and ball at Lake Wichita, June 26 and 27. All invited to come to Wichita and have a good time. There will be good music, ball game, rowing, motoring, fishing, bathing and dancing. Among other attractions will be a contest for cash between Company E, Reg. 101 Uniform Rank W. O. W. 3001, vs. Henrietta Uniform Rank W. O. W. Special rates on all railroads. Everybody come and enjoy the day. Ball from 8 to 12 p. m. Don't forget the time and place,

Wichita Falls, Texas, June 26 and 27

## THE WICHITA SOUTHERN LIFE INSURANCE CO.

WICHITA FALLS, TEXAS

Solicits Business from the Insuring Public on the Following Grounds:

- 1st. We are in a position to furnish sound protection for those who need it.
- 2d. The protection furnished by the WICHITA SOUTHERN is equal to the best furnished by the United States.
- 3d. The company is required by law to carry the same amount of reserve in proportion to amount of insurance in force as the largest company in the world.
- 4th. We find by comparison that our assets in proportion to liabilities, which is the real test of strength, are much greater than many of the companies who are much older and larger.
- 5th. The company loans its funds in the communities from which it receives its business, and in the ordinary channels of business drifts back to you.
- 6th. If you are not directly interested in the company, many of your associates are. If you are a professional man, banker, merchant or farmer, many of your patrons and friends are doubtless stockholders in the company.
- 7th. YOUR FAMILY NEEDS THE PROTECTION WE HAVE TO OFFER.

### HOW SOIL IS MAINTAINED

Systematic and Scientific Upbuilding of Farms is Kept Up and Results Are Evident

Naples, May 19.—In my first article, I showed how the farmers of Italy enjoyed better markets for their wheat, corn, potatoes and other products of their farms, than we of Texas, and I described a small Raiffeisen Credit Association, commonly called a rural bank.

The lands of Italy average better than ours, due to methodic and continuous upbuilding of the soils. This practice is universal throughout the country. Ninety per cent of the lands are cultivated. Hill and mountain sides and narrow valleys are cultivated the same as the broad level black lands and are made to yield as bountifully. As lands are valuable, it is cheaper to build and rebuild soils than to purchase other lands. This is true of Texas lands, but our people do not realize it yet. When our people shall have learned how to farm, and at the same time build up their soils, Texas lands will excel those of Italy by greater odds than do the lands of Italy now excel our Texas lands. But Texas lands will not be properly farmed under present conditions. Two things stand in the way, namely, our system of tenantry and the credit system of our farmers. No man, whether Italian or Texan, is going to conserve, build and rebuild soil to which he has the right of occupancy from only year to year. It requires means to farm properly and profitably. There must be well thought out plans in order to farm successfully, but what is the use to make the plans when there is not the means available with which to execute them?

The Italian people have solved these problems, and there may be a good lesson in the methods pursued here.

#### Country Has Changed.

But first let me say the Italy of today is not the Italy of twenty years ago. The farmers of Italy produce almost six hundred per cent more now than twenty years ago. You ask what brought this change? Several things, but the one that lies at the base and is the most potent of all was and is co-operative credit. The Raiffeisen and the Schulze-Delitsch system of credit had their origins in Germany about fifty years ago. After they gained popularity among the people of Germany, they were adopted by the farmers of northern Italy in 1883. In time these institutions spread and became established throughout the northern portion of Italy—which is close to Germany—and proved of such excellent benefit to that section, regenerating and accelerating farming operations and quickening all lines of business, that efforts were made to introduce them in southern Italy by the government. For this purpose, the State began in 1897 to enact a series of laws to assist in establishing these credit associations and rural banks in south Italy and the islands. It first authorized the savings bank of the Bank of Naples to engage in the rural credit business in the southern provinces of Italy and in Sardinia, and in 1906 an act was passed creating a special rural credit section of the Bank of Sicily. These banks are very large and powerful financial institutions. They send out men to organize local rural credit banks, assist in organizing and starting the bank right, and then examine them from time to time and lend them money on their paper at four per cent—which the local rural banks are required to lend at six per cent. The difference of two per cent builds up a surplus in the local banks sufficient to more than protect against losses, after paying all operating expenses.

The officials of these big banks informed us that the loans for agricultural purposes at four per cent, a rate fixed by law, in no way affected the rate of interest on loans for commercial and other purposes, which are controlled by the money market as formerly. This, they said, was due to the fact that their rural banking department made loans only to farmers, and to them only for agricultural purposes. So we see that these rural banks are strictly charitable institutions and are not for charity. If a farmer wishes to purchase seed, fertilizers, farm machinery or cattle he may have a loan, but not so because he may have had bad luck and needs money to buy food, clothing, medicines, etc. Again, loans will only be made within certain prescribed limits as to both amount and time. The farmer may borrow \$200 on three years' time for cultivation, harvesting and the purchasing of seeds, manure and fertilizers; he may borrow \$400 on three years' time to buy livestock; and \$600 on three years' time for the acquisition of farm machinery.

The Three Types. This completes the three types of

One of the new Selz models for women.

**YOU** will realize, the minute you step into this shoe store, that it's a different kind of a store from any you've seen; you'll say it's your kind of a store.

In the first place, the shoes you see in our windows are the shoes you buy in the store; in the second place, you're just as welcome if you come only to look, as if you come to buy; in the third place, if you do buy our shoes, you get a guarantee of satisfaction that really means what it says. We're here to serve you; to fit you right; and to give you full value in shoe-service for every dollar you spend here.

You ought to see the new styles just in from the Selz factories; the styles that are making good in all the leading cities of the country; styles for the particular man or woman who dresses well and wants good looking shoes. Some better-than-usual children's shoes.

Whenever you are interested in shoes, to look at them, or to buy, we'll be glad to show you what we have.

**Ralph Hines' "Selz Royal Blue" Store**  
515 Eighth Street

rural banks of Italy, one the rural bank which is usually of the Raiffeisen type, the other the people's banks of both the city and rural districts, known as the Schulze-Delitsch type, and the state bank which loans money to these small banks on the paper of their members.

It must be borne in mind that what I have written is the merest outline of these rural credit associations. The details of organization are not numerous, but their manner of making loans to members, associating themselves together for mutual aid and support are quite full of detail, and the telling points require a paper of greater length and exactness than is possible at present. When I have more time to devote to writing, I shall probably prepare a report for the Texas Farm Life Commission, which will give exhaustive detail.

**A Good Show.** The Franklin Stock Company opened a week's engagement at the Princess Air Dome last night, their opening bill being a beautiful production of a "Wife's Devotion," which was handled in a way that pleased the large audience and was an evidence that the company is deserving of a good liberal patronage. The specialties were sparkling with wit and humor, bright and new, and the quartet was as good as ever appeared in our city. We feel justified in recom-

mending this company to our people and believe they will continue to grow in favor each appearance. These sweet singers that could make good before any audience will appear in new songs and this feature alone is well worth the price of admission. Every minute from the time the curtain went up last night, until it lowered on the last act, was filled with pleasure.—Alva, (Okla.) Review Courier.

The Franklin Stock Company will appear here at the Wichita Theatre Monday night, opening for a week's engagement. The program will be changed each night with productions of standard comedies and dramas.

**ALTUS MAYOR DECLARES WAR ON THE GAMBLERS.** (Wellington Leader) The mayor of Altus makes a novel announcement to the tinhorn gamblers of that place, to-wit: "Owing to the short crop of wheat and oats and alfalfa and an unusual amount of grasshoppers, and I see the tillers of the soil are making a great effort to rid the country of these pests, I

feel it my duty to rid Altus of the parasites that are seeking to extract all of the green substance out of the pocket books of any one whom they may devour. The number of these 'tinhorn' crooks have been reduced to the minimum by the sheriff of this county and it can be kept that way by ridding the town of these oily-fingered pests that only stay in town long enough to fleece the boys in the forks of the creek and then hunt greener fields. Therefore, take due notice and govern your speed accordingly."

**A TEXAS WONDER.** The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women. Regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment and seldom fails to perfect a cure. Send for Texas Testimonials. Dr. E. W. Hall, 2825 Olive St., St. Louis, Mo. Sold by all druggists. (Advertisement)

#### FREDERICK DEPUTY AND LAWYER COME TO BLOWS.

(Frederick Leader) While the mills of justice were grinding away in the district court room Thursday afternoon an entirely different kind of mill was taking place between Deputy Sheriff L. W. Lynch and Attorney S. B. Tant, in the hall on the outside of the court room. Lynch became angered at Tant and struck him, following which there was a brief display of the manly art, which ended in the belligerents being separated. Deputy Lynch, who is also the jailor, was bringing Henry Petty into court Wednesday and was met at the head of the steps by Mr. Tant, who was one of Petty's attorneys, and who, unknown to Mr. Lynch, had obtained permission to consult with Mr. Petty. Tant shoved Petty into Judge Lukenbill's library and locked the door. Deputy Lynch, having been told to hurry with the prisoner, was at a loss to understand why Petty had been grabbed away from him, and says when he demanded to know when Tant reappeared, why he had

done so, Tant answered, "We know what we are doing." This angered Lynch, but it was not until the next day that he struck Tant, knocking him down. Tant, according to Lynch's statement, then came at him with a broomstick and he knocked the attorney down again, and jumped onto him prepared to administer further punishment, when others interfered. When the separation occurred Lynch was on top of Tant, according to those who were present.

#### WILBARGER VALUATIONS SHOW GAIN OF \$710,000.

(Vernon Record) County Assessor A. P. Mason has totalled the assessments of Wilbarger county for the year 1913 and has forwarded them to the State comptroller. This year's figures of \$11,460,000 represent a gain over last year of nearly three-quarters of a million—\$710,000 to be exact. This gain, according to Mr. Mason, is almost wholly due to the enhancement of land on account of oil developments in certain portions of the county.

Prices range \$3.00 to \$5.50

### Clothes Special--The Personalities of Dress

All clothes are outer symbols of men that wear them, yet no more than half the people realize this fact. So many people buy clothes as the new rich man bought his library, by the bigness of the volumes and the color and costliness of the bindings. Dressing well is an art by any man or woman. Rushing into the costumes and dashing out with a word to a favorite sales person, saying send this one home, I think it will answer is not doing justice to yourself or to the store. We have patience, enough, if you have the time and a great desire, besides to show you our new things, and we have people to serve you whose business it is to be well educated in matters of dress. Under their chief's directions they are obliged to help you get the proper article, or lose a sale in preference to selling the wrong thing. Visit our clothing and furnishing department. This week we

are showing all high-grade lines from the world's best makers, in all new styles and patterns, at a great saving.  
 All \$15.00 suits, this week special ..... \$12 95

# Opinion of the United States Supreme Court

Rendered on Bank Overdrafts

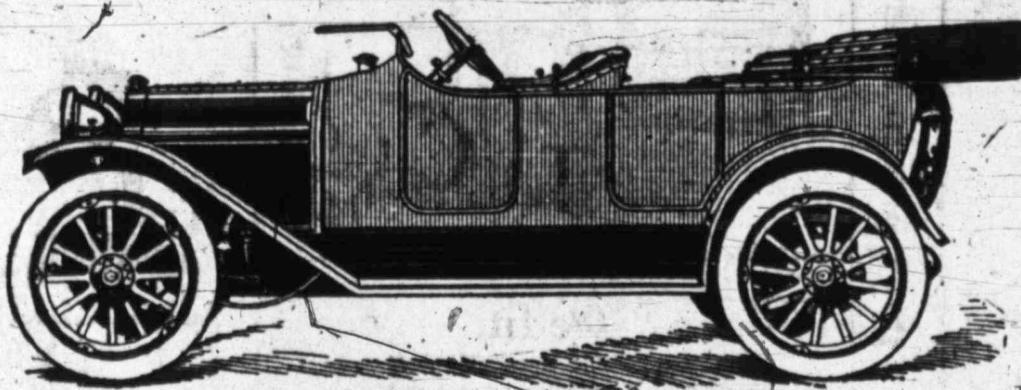

"A usage to allow customers to overdraw and have their checks and notes charged up without present funds in the bank, stripped of all technical disguise, the usage and practice, thus attempted to be sanctioned, is a usage and practice to misapply the funds of the bank; and to connive at the withdrawal of same, without any security, in favor of certain privileged persons. Such a usage and practice is surely a manifest departure from the duty, both of the directors and cashier, as can not receive any countenance in a court of justice. It could not be supported by any vote of the directors, however formal; and therefore, whenever done by the cashier, is at his own peril and upon the responsibility of himself and his sureties. It is anything but 'well and truly executing his duties as cashier.'"

The above is an exact copy of decision of the United States Supreme Court.

We ask our customers and friends to be careful and not draw checks that will create overdrafts.

## Kimono Styles for Summer Are Tasteful and Varied

New York, June 21.—A new influence, that of the Japanese, is gradually supplanting the glorious color riot ushered in by Balkans, Futurists, Cubists and Post-Impressionists. Not only are colors becoming softer in tone, but many characteristic details of this artistic Oriental country are being introduced. As yet, perhaps the sash is the one most in favor. This sash is very wide and deep, coming well over the skirt in abbreviated-

drresses are worn with wide sashes and broad brimmed Leghorn hats with long streamers of velvet or satin ribbon, or with great white daisies for trimming, the entire appearance is most charming.

Drapery, though very popular, is not seen nevertheless, in many of the most pleasing summer models. The attractive frock of the second figure has a pleated inset section in the front instead. The skirt is stylishly cutaway above this section and trimmed for the waist.

Since low necked waists have come into vogue the problem before the designer has been how to overcome the ungainly appearance which the bare neck against the coat collar presents. The most novel innovation, and one of the most pleasing means of finishing the neck, not only of the jacket but of the one piece frock or waist, is a new version of the Medici collar, so fashionable a year ago. This consists of a graduated wired frill of lace or pleated lace ruching, which is highest in the back and flares away at the sides, outlining the neck without fitting it snugly. An unwired frill of lace frequently finishes the neck of waist and frock. When the coat is donned, the frill is turned up over the collar on the outside. But this Medici frill,

tunic effect. It is of satin in an preferred shade, and richly embroidered in Japanese characters. Tied in one wide loop at the center back, in true obi fashion, it falls well over the skirt in two loose ends. This style of sash is effective with any kind of costume and is frequently its sole trimming. The V-shaped neck opening is another feature of the Japanese mode now widely adopted. The waist is fashioned simply with kimono sleeves. The dainty batiste or lace frills, filling in the V-space, has a pretty softening effect upon the face. But not alone in dress is Japanese influence felt. To be in a mode the walk must no longer be natural. Mincing gait, with drooping shoulders, inflected knee and curiously turned out heel, after the manner of the black-haired, diamond-eyed woman of the remote East, is now the correct attitude among the ultra-fashionable.

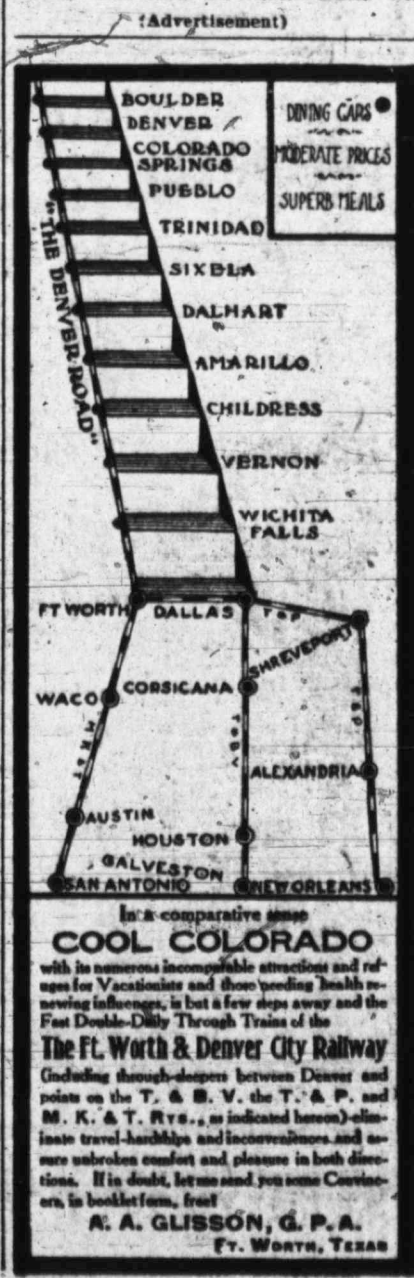

But notwithstanding the intrusion of this far-fetched influence, the sash tied in front has not lost favor, and is a notable detail of the frock of the first illustration. It was made of Gobelin-blue messaline, matching in shade the floral motif of the frock of white cotton crepe. The waist has side-closing blouse-effect back and front and sleeves of elbow length. The skirt has inverted pleat or habit back, as preferred and closely fitted flares at the hem. Buttons of blue satin give a smart finish to the charming midsummer costume.

Cotton materials have never been so beautiful as this season, nor has dress-making ever been so easy, nor the effect produced, with as little work so attractive. From this time until the end of the season, odds and ends of these lovely fabrics may be had at a third of the former price. As July and August are the two months of the year when the world and his wife take vacation, there is no reason why any number of charming frocks may not be added to what already seems a wardrobe replete. Besides lovely sheer batiste which, by insertions of lace, may be made a framework of beauty, there are charming cotton voiles, and crepe strewn with leaves, sprays of gay posies, beautiful rough fabrics which make handsome outlining and business frocks and suits, and, notwithstanding the arrival of summer weather, silks, soft and pliable, which continue to hold the attention with wonderful persistence. Nor will the interest in these beautiful new weaves cease as warmer days advance. The knowledge that the silk frock will be equally good style for cold weather days aids in establishing its demand. In this particular, silk has the advantage over lingerie frocks, as these are no longer considered smart even for indoor fall or winter wear.

Summer models made from these quaintly flowered materials are in keeping with the unique motifs, and are so new that they are very old, the kind of frock associated with village street, sheltered lawn, country lane and broad veranda by the sea. Many are fashioned on Directoire lines, while others are outstanding Empire. Flounces, double or triple, characterize some, while a few are effectively trimmed with tucks run about the lower edge or midway on skirt and waist. When these lovely

so-called, may appear too elaborate for ordinary wear. In this event, a sailor collar with an appended jabot may be worn. This may be made large enough to cover the entire coat collar. Revers are sometimes attached to the collar and cuffs similar in design and material.

**NEW MOTORCYCLE GETS ITS RIDER INTO TROUBLE**

Speed Test is Interrupted When Officer Appears in Path and Makes Arrest

The friends of B. O. Lange are now calling him "Motorcycle Mike," but those who are not intimate friends of Mr. Lange had better not attempt it. Two weeks ago Mr. Lange ordered a motorcycle from a Fort Worth house. The salesman said the thing had never been seen on the streets of Wichita Falls. He said it would maintain this high speed just so long as the driver didn't throw it out of gear. Mr. Lange gave the order for the machine, and asked that the shipment be rushed. The thing finally came. The freight on the machine was a little more than Mr. Lange thought it should have been, but what was the difference, so long as it had the speed? He had the motorcycle delivered and unpacked and told his friends about the greyhound he had purchased.

That night he mounted his new possession, and pressed the button. The thing did just like the salesman said it would. It fairly flew up the street. Finally about a half mile ahead he saw somebody waving at him to stop. By pulling all the levers at once Mr. Lange finally got the thing stopped right in front of the gesticulating man. The gesticulating man was an officer who arrested Mr. Lange for speeding.

**LOCAL EATING HOUSES CAPACITY BEING TESTED**

With Two Restaurants Put Out of Business By Fire, Others Are Kept Busy

It's an ill wind that blows nobody good. Even the pessimists have conceded this, long ago, but it was demonstrated very forcibly when the recent fire in Wichita Falls put two of the leading restaurants of the city out of business. As a result of this removal of competition one restaurant on Ohio street, occupying a room about as big as the aisle of a church is feeding 500 people per day and sometimes 600 in a day.

This little restaurant is running to its fullest capacity and the proprietor this morning said that if he had the room and facilities for handling the business he would now be feeding 800 people per day. Before the fire his average day's business was 300 or 400 customers per day. In the small space occupied by this restaurant there are now two cooks and three waiters employed, and when a customer has to wait for his order until he has gotten over the idea of eating. The proprietor of this place said this morning that the numerous second rate restaurants in town which had hitherto been having a struggle to look the landlord in the face on the first of the month are now doing all they can handle.

The two restaurants put out of business by the fire were the City Cafe and the Metropolitan, both popular eating houses.

Eyes-strain and headache result from structural defects of the eyes or from age or both, and relief is obtained by the timely use of proper glasses—the kind we make and guarantee. We know how. Dr. DuVal, the Progressive Eye, Ear, Nose and Throat Specialist.

**ILLEGAL CATCHING OF FISH AT LAKE WICHITA.**

In order to stop the illegal catching of fish in Lake Wichita, the Wichita Falls Traction Company enlists the co-operation of every one that end. The fish in the lake are stocked and fostered for the sport and pleasure of the general public and fishing privileges with hook and line in a legal and sportsmanlike manner are free to every one, but catching them by any illegal means as seining, dynamiting, etc., is an offense to the general public as well as to the traction company and to stop this practice the Wichita Falls Traction Company offers \$25 reward to anyone furnishing information necessary to convict such offenders.

**EX-WICHITAN IN HAWAII ISLANDS**

O. J. PICKLE WRITES INTERESTINGLY OF HIS EXPERIENCES

**AMERICANS IN MINORITY**

Japanese Question and Sugar Tariff Are Problems in the Islands. He Says

An interesting letter on conditions in Hawaii, written by Oda J. Pickle, former manager here for the Western Union, appears below. It was written to Judge Edgar Rye and follows: Dear Mr. Rye: It has been my intention ever since I landed in the "south-sea islands" to write you a letter and will do so this morning. I did not get it but you goodby before I left which I wanted to do but was so busy in my hurry to get away. We left Wichita Falls last part of November and went to Kansas for a visit with my people, and while there I accepted the management of this concern for the Hawaiian Islands.

On Elk City, Kansas, January third and took the northern route via Pueblo, Salt Lake and Feather River Canyon to San Francisco. I never experienced so much cold weather and snow in all my life as on that trip and so lonesome. Travel west during the winter months is high and you may be surprised to know that we were the only occupants of the sleeper from Wichita, Kansas, to Pueblo, then we took on two more people at that place but at Salt Lake the car was filled through to Frisco. We were to stop off at Salt Lake and take in the Temple, etc., but when I looked out and saw snow knee deep in the town without water on account of freeze-up we decided to spend the extra time in California.

If you ever decide to go to California go to Pueblo and take the Salt Lake and Feather River Canyon route. It is the most picturesque of any line I ever traveled and service is splendid. We came down into California just when they were having their awful freeze and while it was cold to the Californians it was really pleasant to us. It was foggy and misty all the time we were in Frisco and we did not enjoy much of its scenery and took in most of the shows.

On January 15th we sailed on the Wilhelmina for this place and arrived here one week later. We had a passenger list of some 170 people and twenty-three steerage, and after getting accustomed to keeping our balance enjoyed ourselves very much. Mr. Gamont, son of the moving picture concern of Paris was on board and took several pictures of deck games, etc.

Experiences On Board. We never passed a boat of any kind the entire trip over and just gazed at water the whole time. One old German lady from Milwaukee was coming over to see the flower parade and had a deck chair next to ours. She was the only amusement I had and I surely enjoyed her chatter. We were sitting on deck one morning after breakfast and I said water was getting mighty monotonous to me and she said, "Yas, Joost vater, vater, I want to see in flower old Milwaukee Joost onct again." I told her they had a small Milwaukee on board the boat where she could get all the Milwaukee brew she wanted and she said, "Vell, I know et but I cannot hold it down, Joost wasting money."

Coming into harbor here we saw thousands of flying fish and our first mate was of the Chinese fishermen catching them in their unique way. Presume you are aware how they catch them without bait but use a mirror and it takes two boats to fish for them.

After passing quarantine and having the doctors examine us to see that we were all right I told him we were all right that we were from Texas and he replied that we might have "boll weevil" but we passed of course, and next stop was customs officers who went through our luggage looking for opium. It was first time I knew that the U. S. government enforced inspection between two of its territories, but opium smuggling has been so bad it had to be enforced.

We arrived in Honolulu during the tourist season and everything in the way of accommodations were taxed to their limit. We had to move to Klamuki, a suburb six miles out until the rush was over and are now domiciled two blocks from the Palace in a room furnished house which we get for thirty dollars per month. This place reminds me so much of Colorado Springs and other tourist points in that during the season tourists prices prevail and during the lull you can get rooms, board and everything accordingly at cheaper rates than on the mainland. The season here is from September 1 to April 1 and is mostly patronized by northeners who come to escape the cold winters. Several rich Canadians have winter homes here and make their winter residence here. In fact the Canadian-Australian steamers bring in as many tourists as the American lines.

On account of this being a good stopover we are treated to quite a number of high class shows on route to and from Australia, Orient, etc. Its quite a place for the wealthier people to come and rest also. We had the Wannamakers, Young Armour and family of Chicago, Secretary Mrs. Knox, Secretary and Mrs. Wickersham who stopped en route to the Orient, Mr. and Mrs. Wigley, the Chicago millionaire chewing gum man, the Kellerstrass family of Kansas City who raises fine chickens and who sold Paderwiski six for ten thousand dollars, Clara Butt, the noted English soprano, paid us a visit, as well as the Lombardi circus Opera Company and Nordica is due here this month en route to Japan.

Has Been Homesick. If you ever take another vacation

and do not hike back to old Kentucky again it would pay you to come out here. The climate is ideal, the range for last ten years being from 55 to 85 but since we have been here it's only been around from 81 to 85. The mountains here afford excellent climbing and very exciting as some of the trails take you up where you can look down some 2000 feet and just stand on a small path about a foot and half wide. The beaches here afford the best bathing year around and the surf board riding and canoeing is a sight you will never forget.

We have had spells of genuine homesickness for Wichita Falls and expect in time will come back to Texas even if not to dear old Wichita. However, we are getting more accustomed to the place and being young can adjust ourselves much easier than an older person but our greatest drawback is the schools. We have such a motley of Orientals and they predominate in business, schools, public gatherings, etc., until the place takes on an Oriental look.

Being California is agitating the anti-alien law I might give you a few pointers what the people of the west are up against. The Hawaiian Islands have a total population of 200,000 and out of this there are over 85,000 Japs. Governor Frear's last report gives the following: Japanese pupils now form the most numerous element in the Hawaiian schools and they are increasing at a more rapid rate than any other race. The Japanese now have a considerable lead in the school population, with over thirty-one per cent of the total. Portuguese follow with a little less than seventeen per cent; the Hawaiians come next with fourteen per cent; part Hawaiians comprise fourteen per cent; Chinese eleven per cent and all other nations and races twelve per cent.

In the last percentage the Americans are in the minority as it includes Germans, Irish, Filipinos, Austrians, etc. So from my observation Uncle Sam is doing sort of a missionary stunt over here or the people's school tax is helping to educate the Japs who in turn will probably turn around and give us a good run for our money. To my notion California is doing just right and if Wilson and Bryan will take the stand they are now doing, California will escape the Orientalism that is now overruning these islands. Opinion is greatly divided over here as the main industry is sugar which is controlled by a few big interests and they want this Oriental labor and of course

and do not hike back to old Kentucky again it would pay you to come out here. The climate is ideal, the range for last ten years being from 55 to 85 but since we have been here it's only been around from 81 to 85. The mountains here afford excellent climbing and very exciting as some of the trails take you up where you can look down some 2000 feet and just stand on a small path about a foot and half wide. The beaches here afford the best bathing year around and the surf board riding and canoeing is a sight you will never forget.

You can count on your fingers the number of Americans in business here and I had no idea we were getting into such an Asiatic country. The Japs are hard competition, in fact Americans cannot compete with them on account of their crafty methods; cheaper cost of living and on the job day and night, Sundays and holidays. They are pretty cute all right in that they will buy a piece of property in a good neighborhood and age either bought out at a big profit in order to get rid of them or else everyone adjacent sells out at their price and move out which is generally done.

Queen Lil Living. We still have an abundance of old time royalty around us. Old Queen Lil lives here on a good pension which each legislature appropriates for her upkeep. She is now getting old and stays at home most of the time but most all of the noted visitors to the islands pay her a visit. Quite a number of former Princes, Princesses, Dukes, etc., all live here and some have intermarried with whites and others stuck to their own race. The Hawaiians are a pretty good race and in fact it is to their goodness and open heartedness that they are not in poverty of their own land. They are fast dying of and tuberculosis is making inroads among them and in a few years a full blood Hawaiian will be more of a curiosity than an Indian in America.

Well Judge, I will not consume any more of your time, but have given you an idea of the islands. While my ideas may be somewhat biased they are given as seen from the eyes of an adopted Texan and who will always consider Texas as home for although born north of the Mason-Dixon line. I will never forget our many pleasant little chats and arguments we had in the little office of the Waters Union on Seventh street when I was the whole cheese and you were the Dallas News correspondent. Neither have I forgotten the time I covered the "negro shooting" for you and we wondered why it didn't appear in the Dallas sheet but afterwards found out that L'fallen to state the nigger was arrested. That ended my career as a correspondent and I felt quite peeved to think the Dallas News did not consider my efforts worth publishing. Have often thought of my arrival

in Wichita Falls and the eight years of my residence there with the many acquaintances made and feel as though I missed it in leaving, but there's always a satisfaction of knowing you can "come back" if you want to. Trust this finds you enjoying the best of health and doing well. Mrs. Pickle joins me in very best regards to you and our other friends.

**WHEAT THRESHERS BUSY IN THE GRANDFIELD COUNTRY.**

(Grandfield Enterprise) Wheat threshing in the Grandfield country was just getting in full swing when checked by gentle showers which continued throughout the day Wednesday. The rain was not needed, there being already a fine season in the ground, but nobody is kicking as it will put further stiffening in the backbone of corn and cotton to meet a possible dry spell in July. Wheat, though known to be fine, is turning out beyond the wildest expectations. Many have been fooled in their estimate of the yield because of the short straw, but grain is heavy and the heads are large. Wheat that was estimated to yield ten bushels is running twenty-five bushels to the acre. This was late planting and not much was expected of it. Some tremendous yields will no doubt be reported when the separators get further into the crop. Corn and cotton could not look better, and is ahead of any section heard from. Dr. Price, who has just returned from a visit to Alabama, says he passed through six States and that the Big Pasture has the best crops he saw on the trip.

**PROMISING CROP OUTLOOK IN WILBARGER COUNTY.**

(Vernon Record) In talking with farmers from practically all parts of the county we gain the information that crop conditions at this time are very far above the normal. As a matter of fact corn and cotton could not present a more promising prospect, save in a few instances in which the recent heavy winds destroyed the stand of cotton. But these have all been planted and of course there is yet plenty of time for cotton to come up and make a crop. Summing up all the reports, the county has never before had so perfect a stand of cotton. Mr. E. M. Gillis is pretty well in touch with the Colony end of the county and in discussing the matter, he stated that if conditions are at all favorable for the remainder of the season, Wilbarger county should exceed her largest crop, which was 40,000 bales.

**It Hardly Seems Our Business To Apologize For COFFEE**  
But simply to place the truth before people and let them act as they see fit.

That easily explains the cause of many a coffee drinker's disturbance of heart, stomach, liver and nerves. It's a good idea when the body begins to show disturbances, to quit coffee and use

**INSTANT POSTUM**

This pure food-drink, sold by grocers everywhere, is warranted pure and absolutely free from the coffee drug, caffeine. It feeds and nourishes where coffee destroys the tissues.

Instant Postum is made of prime wheat and the juice of sugar-cane, roasted and blended to produce a flavour much resembling high-grade Java.

A level teaspoonful of Instant Postum in an ordinary cup of hot water dissolves instantly, and makes it right for most persons.

A big cup requires more and some people who like strong things put in a heaping spoonful and temper it with a large supply of cream.

Experiment until you know the amount that pleases your palate and have it served that way in the future.

Postum comes in two forms. Regular Postum (must be boiled). Instant Postum doesn't require boiling, but is prepared instantly by stirring a level teaspoonful in a cup of hot water.

**"There's a Reason" for POSTUM**

PEOPLE'S ICE COMPANY  
NEW PLANT NOW GOING

Fifteen Wagons Are Operated—Cleanliness Is Paramount At the Factory

One of the big concerns that increased its interests in Wichita Falls recently, without making much ado about it, although the investment in the business is heavy, is the Peoples Ice Company, of which Morris and Abe Marcus are the managers. Both of these gentlemen have made Wichita Falls their home for a quarter of a century, but their acquaintance is not their sole claim for business.

Two months ago they completed one of the most modern ice plants in the State. Two points were the governing idea in selecting the equipment for this plant. These were sanitation and efficiency. The water used in the manufacturing of ice is filtered four times before it reaches the ice making department. And even before going through this filtering process the water has gone through a water treating plant which removes all mineral and all vegetable matter, leaving the water absolutely chemically pure.

Ice manufactured by this concern has been submitted to tests that demonstrate its transparency to the point that a newspaper can be read through a hundred pound cake of it. Modern car icing machinery, including a conveyor operated by electric power, has been installed, and it is possible to ice a car in five minutes at this plant.

Fifteen wagons run from the plant. There are twenty-five men employed on the wagons. And these men say that they will get a quicker job of getting some dirt in the ice wagon than they would for killing one of the mules.

There are five men employed in the office work, and ten men in the operation of the plant. This does not include the extra force of twelve men engaged in still putting finishing touches and improvements about the plant. The carload shipments of ice run from two to four per day.

The firm has done a big business from the start and with the business methods employed there is reason to believe that the growth of the business will warrant the big investment the Marcus brothers have made in their plant.

WATERMELONS ARE HERE  
SELLING BY THE POUND

First of Season Arrive From East  
Retail at Three and a Half Cents a Pound

"Spring watermelons" are on the local market. They are shipped from East Texas. They are big and are said to contain very little cholera morbus. They retail at three and a half cents per pound. They sell them by the pound so that you can't tell how much they are going to cost until after you have ordered one and had it plugged and it is too late to back out. The kind that are on the market here, selling at the pound rate, make them cost about one dollar apiece. The size that sell for a dollar are big enough for one meal for a family living in a two-room house.

THIS IS CERTAIN  
The Proof That Wichita Falls Residents Cannot Deny

What could furnish stronger evidence of the efficiency of any remedy than the test of time? Thousands of people testify that Doan's Kidney Pills have brought lasting results.

Home endorsement should prove undoubtedly the merit of this remedy. Years ago your friends and neighbors testified to the relief they had derived from the use of Doan's Kidney Pills. They now confirm their testimonials. They say time has completed the test.

P. W. Nolen, 1100 Indiana St., Wichita Falls, Texas, says: "I got Doan's Kidney Pills at Harrington's Drug Store and was relieved of pains across my kidneys that had made every move one of misery. In the morning the trouble was worse. Doan's Kidney Pills relieved me and I consider them a fine remedy for regulating the kidney action and removing trouble with the kidney secretions. I willingly confirm the testimonial I gave some years ago."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

VISITING BOY SCOUTS  
TO CAMP AT THE LAKE

Patrols From Decatur and Bowie Will Be Here Next Month. Local Boys May Join

Boy Scouts from Bowie and Decatur will probably be in camp at Lake Wichita part of next month, plans being under way bringing a number of them to the resort. They will be joined by as many of the local Scouts as are not working and will get a taste of real out-door life, not too far from electric lights and the discomforts of home.

Last summer Boy Scouts from Fort Worth were here, spending a very profitable two weeks at the lake. The Decatur Scouts will "hike" up here from home, and will be joined at Bowie, if the program is carried out, by the Scouts of that city. A number of the Wichita Scouts will join them. The local Scouts have done little this summer, awaiting the completion of their new quarters in Floral Heights, but a number of them will be able to take part in the camp. The Scouts will enjoy swimming,

# "We Open for Business Monday"

Morning bright and early, with a complete up-to-the-minute stock of Furniture, Carpets, Rugs, Linoleums and Home Furnishings. Everything bright, spank and new. This stock has been personally selected by our buyer, Mr. M. A. Brin, and from the foremost furniture factories in the United States. Spot cash purchases brought us sixteen solid car loads of furniture at a sure-enough low price.

**SPECIAL, IMPORTANT**—No matter what price is quoted on furniture by any one, we will positively name you a lower one, for these two facts: Our expenses are practically nothing; our buying department buys it for 25 per cent less. See us last; you will profit by it.

## OUR OPENING BARGAIN SPECIAL

The Famous O-Cedar  
Mops

\$1.50 kind, special tomorrow

**\$1.19**

### Makes Hard Work Easy!

DUSTING, cleaning and polishing hardwood floors is hard, back-breaking work. An almost never ending task and seldom satisfactory the old way. But it is easy, quick and satisfactory the new way—using the O-Cedar Polish Mop. With it you can spend a few minutes doing what it now takes you almost half a day. You simply pass the O-Cedar Polish Mop over the floor and every particle of dust and dirt is taken up and held. The floor is given a hard, durable, lasting polish and finish.

Makes it Easy to Clean Those Hard-to-Get-At Places

O-Cedar Polish Mop

It is also used for the dusting and cleaning of the tops of high furniture, between the balusters of the stairs and is so made that you can get to the far corner under the bed, beneath the radiator and other hard-to-get-at places.

It can be used with both hands.

Don't put up with the old-fashioned hard way when you can get an O-Cedar Polish Mop for only \$1.50.

Satisfaction Guaranteed or Money Refunded

Try an O-Cedar Polish Mop for two days at our risk. You'll see every way for two days! If you are not satisfied with it we will give you a full refund of your money.

### 45 MILES OF ROADS IN THIS PRECINCT DRAGGED

Recent Rains Give Opportunity and Private Parties Aid Officials in the Work

The use of the drag in improving roads after a rain has been developed to a marked degree in commissioners' precinct No. 1 of this county and since the rains of last week, a total of forty-five miles in this precinct have been dragged. The result is, that as the earth dried, the roadways were in better condition than they were before the rain.

Commissioner J. P. Jackson put as many teams as were available on this work after the rain, and the county's teams dragged a total of thirty-five miles in this precinct. The remaining ten miles was dragged by individuals, including some Iowa Park citizens who gave their time to this work. Their names were not learned, but Commissioner Jackson is proud of them.

It is believed that with the consistent use of the drag in this manner, road conditions in this county can be kept much better than in any other way, and at an outlay that is small compared with the results attained.

### QUANAH SOON TO HAVE NEW BAPTIST STRUCTURE.

(Quanah Tribune-Chief)

Architect Taylor of Taylor & Wolf of Fort Worth, was here last week to consult the Baptist building committee in regard to their proposed \$25,000 structure on Main street. Mr. Taylor has the plans of the building about ready and an advertisement for bids will be inserted in the daily papers probably next week. The contractor will be given four months time to complete the job, and it is hoped that the building will be ready for occupancy about the first of January. The plans call for a building, partly two-story, 81x84 feet, of buff or gray brick facing north and west. The auditorium and Sunday school room are separated by a movable

partition and will have a combined seating capacity of 876. Besides the pastor's study, there will be a ladies' parlor upstairs, 28x44 feet, large enough for banquets and other social affairs. The building will be heated by a hot air plant and furnished with a \$2500 pipe organ.

DENIES HE MADE HIM THAT KIND OF PROPOSITION.

The other day in Justice Howard's court the prosecuting witness was a man who could not speak English very well, and who was having about his first experience in court. He had made complaint that the defendant had called him a liar.

Upon examination by Attorney Fulton he was asked, "Did this man call you a liar?" "Yes sir."

"Did he call you a liar?" "No, I didn't hear him make that proposition," replied the witness.

### CLAY COUNTY WHEAT IS BETTER THAN EXPECTED.

(Hemphill People's Review)

The thresher test discloses the fact that wheat is better than had been expected, the grain running from fifty-eight to sixty-two pounds to measured bushel. Another rain at the right time would have made its quality "out of sight." Wheat is coming to market but slowly, so far only about 2,000 bushels having shown up.

### LIGHTING FACILITIES AT ELECTRA ARE IMPROVED.

(Electra News)

The Electra Electric Company are busily engaged in installing new machinery at their power plant in order to meet the increased call for electric light service and power. A new 100 h. p. De Laverage oil engine, a seventy-five kilowatt generator and a new switchboard are on the ground and the installation will be completed about July 1. This will give the company's patrons day service and no doubt a large number of electric fans and other utensils will be demanded.

### Marriage Licenses Issued.

Jeff A. Pirtle, Dallas, Maud Lightsey, Chillicothe; H. C. Fair, Electra, Lena Dunagan, Electra; Clarence Sanders, Whitewright, Ida Fine, Wichita Falls; George Hall, Oran, Ella Gorland, Oran.

### FOR THE WOMAN WHO HAS VERY PRETTY HANDS

VELVET TRIMMED BLOUSE

Soft and effective was the blouse illustrated here. The material used was ivory white crepe de chine, trimmed with ecru guipure lace and narrow bands of black ribbon, velvet with groups of fancy buttons sewed on them. This design might also be carried out in satin charmeuse with vest and bands of metal embroidery. The cuffs with the black velvet bands show off a pretty hand to advantage.

### ORDER OF ST. MARY TO CELEBRATE ANNIVERSARY.

Some time in August of this year the anniversary of the founding of the Order of St. Mary will be observed by the Academy of Mary Immaculate. Not even the date has been decided upon, nor no arrangements made as yet for the celebration. The anniversary observance will be known as the Golden Jubilee. All of the Sisters of the Academy of Mary Immaculate are now in Fort Worth, the occasion being the annual retreat.

### The postal receipts at the Wichita Falls postoffice for the twenty days

in June of this year were \$3,325.16. For the corresponding period of last year the receipts were \$2,978.56, an increase of 1246.61.
