### WOODMEN READY FOR LAKE PICNIC

FESTIVITIES START TOMORROW MORNING WITH PARADE DOWNTOWN

### MANY VISITORS EXPECTED

Competitive Drills To Be Feature of Occasion and Locals Hope To Win Prize

Tomorrow is the first of the big W. O. W. picnic days at Lake Wichita. Some visiting Woodmen from neighboring towns have arrived today and many more are expected tomorrow.

The local camp, under the supervision of John F. Stillwell, district organizer, have made elaborate arrangements for the entertainment of the visitors. There will be boating, bathing and fishing at the lake, ball games, competitive drills and a ball at night.

Drill teams to the number of five are expected to be here to participate in the contest. The local team has put in many hours in rehearsal, so that they now stand a fair chance of winning one of the prizes.

The program for tomorrow follows: 9 a. m.—Parade by band and uniform rank through business section.

9:45 a. m.—Band concert at Lake Wichita.

10 a. m.—Address of welcome by Mayor J. M. Bell, followed by music.

10:30 a. m.—Response to address of welcome by Rev. Coons of Vernon, followed by music.

11 a. m.—Praternal address by Judge Fitzgerald, followed by music.

12:30 p. m.—Dinner.

2:30 p. m.—Band concert.

3:30 p. m.—Drill contest by Woodmen of the World uniform rank.

4 p. m.—Baseball, Archer City vs. Olney.

8 p. m.—Dance at pavilion.

Friday's program will be announced tomorrow. The Woodmen are expecting from three to four thousand visitors here for the event, and many have arrived on this afternoon's trains, reduced rates being secured on the roads.

The ball game tomorrow between Olney and Archer City promises to be an interesting feature, as a local team will play the winning team on Friday.

Alleged Robbery of Some of the Guests Results in Arrests by Police

Through some clever work on the part of Night Officer Somerville, there is now every indication that a "higher up" will soon have to answer for some of his operations in Wichita Falls, and in which some innocents have become victims.

Suspecting some time ago that all was not as it should be in a downtown rooming house, Policeman Somerville began some investigations on his own hook and elicited a little outside aid to carry on his investigations.

As a result, when a "job" in the way of a high-handed robbery was pulled off not more than three days ago, Somerville not only had the "dope" on the guilty parties, but so managed his end of the business that he secured confessions from those who have been used as tools and implicating the man at the top.

The evidence he has in his possession and which was turned over to the district attorney this morning. It is said, will look mighty strong when laid before a jury.

The officers feel that Somerville's work has at least put a stop to the high-handed operations and with the information in their possession which today's case brought to light, they will be enabled to cope with any further attempts at such business in the same quarter.

Seeking Removal of Young County Sheriff

Judge Martin Will Hear Evidence at Newcastle July 2—Several Charges Made

Judge P. A. Martin will hear on July 2 the trial of Sterif A. H. Brown of Young county, who is charged with drunkenness, incompetency, and assaults upon citizens. His immediate removal is asked in the petition. The trial will be held at Newcastle.

If sufficient evidence to sustain the allegations is introduced, Judge Martin will remove the sheriff from office and appoint an officer to act until final disposition of the case.

HENRY CONFERS WITH WILSON ON CURRENCY

By Associated Press. Washington, June 25.—Representative Henry of Texas, who recently made a speech proposing that the money trust inquiry be renewed had a conference today with the president. Mr. Henry would not discuss his visit, but White House officials said he and the president had reached an understanding on the currency question.

CONSTITUTIONALISTS ON THEIR WAY TO LAREDO

By Associated Press. Eagle Pass, Texas, June 25.—Constitutionalist troops began moving south by train from Piedras Negras this morning, their destination ostensibly being Laredo. About 1500 men including an artillery battery will go from Piedras Negras. Later Governor Carranza will take personal command.

### PHONE SERVICE TO BE IMPROVED

DIVISION SUPERINTENDENT HENDERSON MAKES THAT PROMISE TODAY

### HAVE HAD MUCH TROUBLE

Says That Many Circumstances Have Combined to Impair Service Recently

"The telephone service in Wichita Falls will be improved at once. We have had much to contend with in the past three months. I do not say this in extenuation of any poor service the people of this city may have had, but I say it in explanation of the impaired service. We have now completed the major portion of the work which has been hampering us and I can promise a betterment of the service at once."

The above statement was made today by J. F. Henderson, division superintendent of the Southwestern Telephone Company. Mr. Henderson had come to Wichita Falls to confer with Councilman Bradley, who was recently appointed a committeeman of the council to make complaint to Mr. Henderson about the local telephone service.

Mr. Bradley had been called out of town and Mr. Henderson was unable to see him but said he would make another trip to this city in the near future and that he hoped to be able to satisfy the directors of the Chamber of Commerce and with councilmen at that time.

Mr. Henderson said that new cables had been laid recently, new and additional equipment added in the central station, and that the work of installing these improvements had necessarily impaired the service.

"The thing we have to contend with is this," said Mr. Henderson, "the average number of calls daily from each telephone is ten. That gives each subscriber ten opportunities a day to 'feel' the service. If the service is poor, yet he can never see past the telephone and understand the conditions under which we are striving to give good service. When a man goes into a restaurant and has to wait an hour for his order to be served, he can understand why the service is poor—he can see that every waiter is being rushed to the limit. If he has to wait three hours for a train, he takes it philosophically as he knows the bridge has been washed out.

"But, when he has trouble getting 'central' he cannot see how busy she is and what adverse conditions she is contending with. Hence he has no patience with poor telephone service. Since March 1 we have put in 300 new phones, have taken out 120, have moved 448, and have changed 56, making a total of 922 changes. Since May 1 we have put in 105 and so far in June have put in 59 new phones. All of this means work and a temporarily affected service. But the service will be improved from now on."

Has New Equipment

Mr. Henderson said that new cables had been laid recently, new and additional equipment added in the central station, and that the work of installing these improvements had necessarily impaired the service.

"The thing we have to contend with is this," said Mr. Henderson, "the average number of calls daily from each telephone is ten. That gives each subscriber ten opportunities a day to 'feel' the service. If the service is poor, yet he can never see past the telephone and understand the conditions under which we are striving to give good service. When a man goes into a restaurant and has to wait an hour for his order to be served, he can understand why the service is poor—he can see that every waiter is being rushed to the limit. If he has to wait three hours for a train, he takes it philosophically as he knows the bridge has been washed out.

"But, when he has trouble getting 'central' he cannot see how busy she is and what adverse conditions she is contending with. Hence he has no patience with poor telephone service. Since March 1 we have put in 300 new phones, have taken out 120, have moved 448, and have changed 56, making a total of 922 changes. Since May 1 we have put in 105 and so far in June have put in 59 new phones. All of this means work and a temporarily affected service. But the service will be improved from now on."

Close Early Saturday on Account New Law

Five Stores Announce Decision—Girls Not Allowed to Work Over 54 Hours a Week

In order to obey the new statute law which limits working hours for women employees, five of Wichita Falls' stores will begin Saturday night closing at 9 o'clock. To keep open later would force the women employees to work longer than fifty-four hours which the law forbids, which is effective July 1. The stores which have agreed to close at 9 o'clock are: W. B. McClurkan & Company, C. J. Barnard & Company, McGratton-Millsaps Company, Jones-Kennedy Company.

The stores usually keep their employees at work nine hours a day during the week, so that when Saturday arrives, forty-five hours of the fifty-four have already been taken up. The early closing on Saturday night will, by allowing the clerks some time off earlier in the day, enable the proprietors to keep within the law. This may result in some inconvenience to shoppers at first, but it is thought they will soon become accustomed to it.

The employees themselves have no choice in the matter and, even if they are willing to work more than fifty-four hours a week, their employer violates the law if he permits them to do so. The law is not effective until July 1, but the stores mentioned above will put the new plan into effect Saturday.

STAMPFLI FOUNTAIN OPENS; LITTLE FOLKS ARE GUESTS

Several hundred boys and girls were guests of Vic Stampfli at the Cream Bakery yesterday and each enjoyed a dish of ice cream or a drink from the soda fountain, as his boy fancy dictated. The occasion was the formal opening of the fountain for the little folks, and that they enjoyed the occasion was evidenced by the happy smiling faces that gathered around the soda fountain.

A little later, Mr. Stampfli expects to have an opening for the men and women of the city.

PRESIDENT'S NOMINATION OF NICHOLSON WITHDRAWN

Washington, June 25.—President Wilson will withdraw his nomination of Meredith Nicholson, the Indiana novelist, to be Minister to Portugal. When objections were raised to the nomination on the ground that Nicholson was not a "good democrat," the novelist urged the president to withdraw his name. If it embarrassed him politically, but the president decided to do so. Mr. Nicholson has insisted on the ground that he cannot take his family abroad.

RAILROADS MUST SHOW BOOKS TO COMMISSION

Washington, June 25.—Nothing short of actual book accounts of railroads receipts and expenditures in intrastate business will be accepted by the Supreme Court of the United States as a basis of annulling State rates as confiscatory...

Justice Hughes announced the mere decision of the court that the two-cent passenger rates in this State were not confiscatory on the court's last decision day, June 16 and has been engaged in writing the opinion in the cases since that day.

He pointed out the opinion that the railroads in attacking the rates failed to sustain their case because of too general methods employed in separating intrastate operations from interstate.

He also criticized the lower courts conclusion that intrastate freight traffic cost 20 per cent more on the Iron Mountain road and 250 per cent more on the St. Louis Southwestern than interstate traffic and the intrastate passenger service on the Iron Mountain cost 10 per cent more than the intrastate.

RESCUED PASSENGERS ARRIVE AT KETCHIKAN. Ketchikan, Alaska, June 25.—The United States survey boat Godney arrived here yesterday with eighty-five passengers and crew of the Pacific steamer, Curacoa, which was wrecked on the west coast of Prince of Wales Island Saturday.

The passengers will take passage for Seattle on the first southbound steamer.

McREYNOLDS SILENT ON RESIGNATION OF ATWELL

By Associated Press. Washington, June 25.—When asked about persistent reports that United States District Attorney W. H. Atwell had been asked to resign, Attorney General McReynolds today declined to discuss the question and said any announcement must come from Mr. Atwell.

CARLOAD OF MUNITIONS FOR CARRANZA STOPPED

New Orleans, June 25.—A carload of war munitions on its way from New York to Carranza is held here pending decision by the United States department of justice whether to permit it to cross the border. The consignment includes eighteen rapid-fire guns. It is said to be a part of a large contribution made by relatives of the late President Madero.

AUTHORITY OF SPECIAL DISTRICT COURTS UPHOLD

Austin, Texas, June 25.—The supreme court today in answering questions in the case of Mack Carter vs. Katy Railway Company of Texas from Grayson county held valid the act of the Legislature creating the special district courts. The court held that the Thirty-Third Legislature, in creating the special district court of Grayson county and in empowering the governor to appoint a special judge in that court, did not exceed its authority and that all the special district courts so created were legal.

MEXICO FINDS IT HARD TO BORROW ANY MONEY

French Bankers Offer to Loan Fifty Millions, But Under Impossible Conditions

San Antonio, Texas, June 25.—Under practically prohibitive conditions, French bankers have agreed to loan Huerta \$50,000,000, according to Juan Sanchez Azcona, the late President Francisco Madero's private secretary, who reached San Antonio today on his return from France.

The making of the loan, said Azcona, is contingent upon two onerous conditions. First, Huerta must make peace within six months; if he does so, he will receive half of the promised sum, or \$25,000,000. Second, Huerta is not to attempt to borrow money from any other Nation. If both conditions are fulfilled, according to the contract, detailed by Azcona, Huerta will receive the second half of the loan three months after he has received the first half.

Since Huerta has been deserted by Mondrago and de la Barra, and is surrounded with intrigues and disaffections, declared Azcona, "it is hardly within human possibility that he can make peace within six months. Consequently there is little likelihood that he will receive any part of the loan from the French bankers."

Azcona displayed a telegram saying that Huerta had purchased of a well-known New York firm 5,000 carbines of 30-30 caliber and 5,000,000 rounds of ammunition, to be shipped to the Mexican Federal troops via Vera Cruz.

Wichita Falls, Texas, July 25, 1913

"Whatever a man soweth, that shall he also reap" is as true today as it ever was. The father who thinks he can sow all manner of evil in his own peoples fields and not reap it in his own family is sadly mistaken. Our sowing generally comes back with interest. It is right that it should.—Abilene Reporter.

The Wichita Falls country is now enjoying some prosperity, not the least of which is a wheat crop—the best without a question of doubt since that of 1891, and which is threshing out all the way from 16 to 44 1/2 bushels per acre. In making this statement, the Times has taken precaution to give the lowest yield per acre so far made by any single crop, as well as the highest for a given number of acres, the highest being that of 12 acres on a farm that had 1,000 acres planted to wheat, which produced 44 1/2 bushels per acre. The average for the entire 1900 acre crop being fixed at 20 bushels per acre. This goes to prove that when farming is done right, and there is sufficient rainfall, there is no soil anywhere that will excel in crop producing than the farm lands of Wichita and adjoining counties.

Daily papers are to be given special attention by postoffice officials after first-class mail is handled. In other words Uncle Sam wants people who subscribe for daily papers to get them before they are a day old.—Ardmore Ardmore.

Good news, if true. There is certainly abundance of room for improvement. Just recently a subscriber to the Times who resides in Oklahoma City, complained bitterly he was not receiving his paper. His address appeared on our mailing gal. We made particular pains were taken to see that the paper was wrapped securely, labeled, and mailed. Yet he did not receive his paper. Finally he demanded a refund of the subscription price, and in the same mail that brought this letter brought a card from the efficient (?) postmaster at Oklahoma City stating that the paper addressed to the complaining subscriber was undelivered and uncalled for. We simply enclosed the post card in a letter to the complaining subscriber and made a note to the effect that we were supplying him with material with which he could build a slow fire under the efficient (?) postmaster and by the time he begins to smell the smoke he might conclude that it was a part of his duty to deliver second-class mail when called for. We have heard of no further complaints from that subscriber and suppose he is getting his paper.

BE CALM, BILL

Concluding some remarks and announcements concerning some oil companies and oil production including gas—in Texas, the Wichita Falls correspondent of the National Petroleum News (Cleveland, Ohio) says:

"Therefore for the last time I want to state most emphatically that this typewriter is mine, and I will tickle the keys and build the sentences that I choose, and I don't care ainker's tin what any man says. My name is Bill Long, and I live at 1104 Burnett street, Wichita Falls, Texas."

For goodness sake, Bill, what do you think the oil business is—a ring with a hat in it? For age, State Prizes last going to wake you up in the middle of the night at 1104 Burnett street to discuss this subject with you, but at this distance S. P. doesn't mind suggesting that when he comes to your town next year to attend the next meeting of the Texas Press Association he will take the matter up with you and see if something can be found that will cool you off inside. You carry on as if you were full of condensed capicum.—Dallas News.

McADOO'S PROMISE OF RELIEF

(Houston Post)

Secretary McAdoo's announcement that \$500,000,000 in emergency currency would be forthcoming if the banks needed it must have come as a surprise to the bankers and a very agreeable one, provided the secretary is authorized to do so. Just how this currency can be issued and distributed is a matter of detail to be worked out by the department, but assuming that the secretary can make good no doubt the bankers will feel greatly relieved.

The approach of the crop-moving season, with the attendant certainty of a tight money market caused by universal liquidation and monetary stagnation, has not been contemplated with much confidence or serenity by the bankers. For some weeks past there has been a heavy contraction of credit, with its attending hardships

BELLE OF WICHITA—IT'S BETTER

for business and industry. No other course of action seemed open to the bankers, confronted as they were by their obligations to their depositors and their responsibilities to the public and producers.

It is quite possible, as the reports from New York indicate, that the secretary's announcement will have the effect of giving immediate relief through the release of time money and other private boards which have sought seclusion since the commencement of the stringency. In the measure that this money comes into active use again will the necessity for emergency currency be diminished.

Of course, there is no lack of actual circulating medium now, but there is such a lack of confidence, due to well known causes, that the money in the country refuses to perform its function in a normal way. When it is considered how a vast structure of credit is resting upon the money supply, it is not surprising that scarcity, so-called, should manifest itself as the first appearance of danger. This is the logical consequence of ordinary prudence.

Emergency currency issued by the government will be more satisfactory in many ways than the clearing house certificate, although the device, illegitimate though it was, served a very useful purpose in a great crisis. Supposedly, banks utilizing this emergency currency will be required to deposit interest therefor, in which event it will be a safe innovation, since the interest or tax would insure its prompt retirement with the disappearance of the emergency.

This very plan is one of the vital features of the currency reform measure which it is understood the president will endeavor to induce congress to pass during the present session of congress. If it can be done without specific legislation, the wonder is that resort to such an issue has not been made before, since the small sums of public money deposited in the banks during times of stringency have never given the public ample relief.

No one will complain if the secretary of the treasury finds he can stretch a statute sufficiently to enable him to relieve a crisis and save the people the multiplied millions they use when a money famine overtakes the country. Of course, Wall street will have to be watched. Speculation may take a dangerous course if the tamblers feel that the secretary of the treasury will come to the relief of the situation when needed. He has made it plain that his proposal has nothing to do with Wall Street, but is designed to enable the banks to do their part in moving the crops so that the producers may not be the innocent victims of a money famine.

THE LADIES' AID

We are building a handsome church in our booming city town; The very latest design from foundation stone to the dome crown. The contract is thirty thousand, the finishing touches more; There will be stained glass windows and a brass mounted door; We agree to pay twenty-five thousand down—every member do his best; And the Ladies' Aid, God bless 'em, they promise to pay the rest.

Of course, we will put an organ in the church, finest in the land. With a hundred glittering pipes and the melody it will be grand. And, when we sit in our rich cushioned pews to hear the organist play. We'll imagine we are in Heavenly realms unnumbered miles away. The organ will cost three thousand, guaranteed for the hardest test. We will pay two thousand down, the Ladies' Aid will pay the rest.

The ladies will give chicken-pie dinners, sociables, cantatas, pink-teas. Will bake a thousand Angel cakes, a ton of ice cream they will freeze; They will beg, save, toil and perspire, twelve months or even more. Then start all over again to buy a plush carpet for the church floor; Brothers, you are required to put your hand in the pocket of your vest. When the Ladies' Aid get busy and say, that they will pay the rest.

You may frown and hesitate, then you can hush by any old excuse. But, in end you will shell out the cash; so Brothers, what's the use. For the church is going to be built, largely by the Ladies' Aid; As a free-will offering it will appear, but the men will have paid; And, I sometimes think, when we arrive in the Kingdom of the Heavens, The Good Lord will ask the Ladies' Aid to go and take a rest.

THE CANAL AND THE FLEET

(From the New York Sun) The most welcome information that Colonel George W. Goethals has to communicate about the Panama Canal on his present visit to the States is not that the battleship fleet might be got through the waterway in October in an emergency, but that the slides so often reported will not seriously interfere with the progress of or prevent the official opening. This assurance is worth a hundred speculations about the passage of battleships, and for two reasons: One is that the croakers have been hinting at the failure of the canal, and the other is that only war with an Asiatic Power would require the shift of the fleet to the Pacific, and there will be no war.

People who are nervous about the completion of the canal for war purposes have very short memories. In 1898 the battleship Oregon, whose best speed was only 17 knots, steamed from San Francisco to Jupiter Inlet, Florida, in five days more than two months. She sailed on March 19, and sighted Florida on May 24. It doesn't seem to occur to the timid ones that if there were a war, no larger than a man's hand on the horizon rim, a wise government would not wait until

the canal filled with water on October 1, but would start the fleet down the coast of South America to turn the Horn and head for San Francisco or Hawaii.

The voyage could be made in two months, and long before October the Atlantic fleet would be on the Pacific coast ready for any emergency. But the Navy Department is contemplating no such strategic move. The issue raised by the California alien land law is not pregnant with war, the Jingoism in Tokyo and San Francisco to the contrary notwithstanding.

MEDAL FOR WANAMAKER

(From the New York Sun) John Wanamaker was yesterday presented with a silver medal for "fifty years of original and progressive retailing" by the Dry Goods Economist. The presentation took place in Mr. Wanamaker's private offices. It is the second award made by this magazine for distinguished achievement in the dry goods field, the first having gone to Marshall Field & Co. five years ago.

In tendering it A. C. Pierson, manager of the paper, which has established itself as an authority in this field, said that Mr. Wanamaker was entitled to a place on the honor roll for the originality, foresight and practicality of his mercantile operations. He spoke of the Wanamaker modern and progressive spirit and the fine training for employees the stores offered.

"Mr. Wanamaker has infused his spirit in to the active operations of his business as has perhaps no other man," said Mr. Pierson. "There is not a counter in the store or an advertisement in the paper that is not permeated with your ideas and individuality, sir."

An editorial in the Economist says: "In the field of American retailing there is no single individual who has exerted so broad an influence upon the entire trade as John Wanamaker, and in consideration of the health, comfort and education afforded employees his establishments take rank among the leaders."

On the face of the medal is the figure of a woman with a spindle, representing the dry goods trade, and that of a man, typifying commerce in general.

NEGRO IS SENTENCED TO HANG AT DALLAS

Dallas, Texas, June 25.—Setting the date of the execution for Friday, August 1, Judge W. L. Crawford Jr., yesterday imposed the death sentence upon Floyd Stanton, negro, convicted last December of the murder of his

divorced wife, Naomi Stanton. The negro was called into the court room without comment to the formality of imposing the sentence, giving no reason why sentence should not be imposed when asked the question as required by law.

RAILROAD INTANGIBLE VALUES ARE INCREASED

Lines Entering This City, With Exception of Valley, Are Given Large Advances

Wichita Falls Railway—increased from \$475,940 to \$898,000. Wichita Falls & Northwestern—increased from \$171,000 to \$601,500. Fort Worth & Denver—increased from \$9,536,940 to \$9,991,080. Wichita Valley—decreased from \$1,445,161 to \$921,600.

The above changes in the intangible values of the railroads entering Wichita Falls have been announced by the State tax board. The Katy properties are heavily increased, the Denver slightly advanced and the Valley properties decreased. The increases and decreases are ordered as the net earnings of the roads gained or declined during last year.

The total intangible value of railroads of Texas is \$168,092,026, an increase of \$5,562,248. There were a number of roads whose values were decreased, but the most notable increase in the entire list being in the Northwestern and the Wichita Falls Railway, both Katy properties.

Timpon—A petition is now being circulated in this road precinct of Shelby county requesting the commissioners to call an election for the purpose of voting upon a good roads bond issue of \$287,000.

Waco—The average yield of oats in this county is estimated at from forty to forty-five bushels per acre. This is a little less than last year, but the quality is better.

Abilene—Sixteen silos have been sold in this county by one firm within the past thirty days. Three have been received and will be erected at once.

Mineral Wells—The commissioners of Palo Pinto county have set aside \$2,500 for post roads, making \$5,000 in all against \$5,000 raised by the city of Mineral Wells.

## DRILLERS LOSE WRETCHED GAME

DENISON HAS NO TROUBLE IN TAKING SECOND GAME OF SERIES

## SOX POUND JONES HARD

Errors Behind Contribute To Downfall—Only Five Hits Off Haislip's Delivery

Special to The Times.—Denison, Texas, June 25.—Denison made nine runs yesterday, which was several times enough to win. Wichita Falls, with Jones in the box offered little resistance, the chief yielding fourteen hits. Six errors behind him contributed to the wretchedness of Wichita Falls' exhibition. Workman made his first error of the season in left field, and his perfect scoring record is now fractured.

Jones seemed to have little that the Sox could not fathom and it was a case of everybody's doing it, when the hitting started.

Haislip yielded only five hits and both of Wichita Falls scores came on bobbles in the infield, although for the most part his support was good.

The score:

### WHAT DOES THE FIRE WHISTLE MEAN WHAT IT BLOWS?

When the "siren" whistle at the round house blows a fire alarm, it is supposed to blow according to a code of signals that would give the listener the approximate location of the fire. It is supposed to do that, but if anybody ever distinguished the signals, he kept it very secret. This matter came up at council meeting and Alderman John Young contended that the signals were correctly given, according to the code.

Monday night there was a fire and Alderman Bradley cocked his ear in an effort to find out whether it was "one long and two shorts" or something else. He couldn't tell and when Alderman Young appeared at the city hall, he sprang it on him.

"I couldn't tell anything about that whistle tonight," he said.

"Of course you couldn't," said Alderman Young, "the fire was outside the city limits." Investigation showed that the fire was really about ten feet from the corporation line; Alderman Bradley is still listening and Alderman Young is standing firm.

Lubbock—Shallowater will be the name of the first station on the Lubbock-Texico cut-off, which is located twelve miles out from Lubbock. A big picnic is planned for the opening day, June 26.

### QUININE AND IRON—THE MOST EFFECTUAL GENERAL TONIC

Grove's Tasteless Chill Tonic Combines both in Tasteless form. The Quinine drives out Malaria and the Iron builds up the System. For Adults and Children.

## PRETTY SOFT FOR EXPRESS AGENT

R. D. HORTON HAS OFFICE, DESK, SAFE AND SALARY, BUT NO WORK

## REPRESENTS THE EMPIRE

Company Whose Affairs Are Still in Litigation Keeps Him Here With Nothing To Do

The man who is absolutely satisfied with his job has been found. He is R. D. Horton of this city. He has his office in the rear of the Joline building.

Mr. Horton is local agent for the Empire Express Company, and he is getting paid for it.

The only work attached to Horton's job is the making out of his monthly report, and his monthly report reads like this: "Nothing doing all month—mail pay check to me at Joline building."

Horton has a brand new fireproof, burglar-proof safe in his office, with window shield, fender and self starting attachment. He doesn't even have to open that safe, and hasn't opened it since he opened his office on June 2.

Position, But No Work.  
Horton is not a lazy man, nor disloyal to his employers. If the boss had any business for him to look after he would look after it carefully and prayerfully. And he wouldn't knock down a cent, either. But Horton's boss—hasn't any business. They hope to have some day—but not yet.

The Empire Express Company was born in Dallas. It came near dying there. They wanted to do business over the Katy. The Katy had what they thought was a hog-tight exclusive contract with the American Express Company and paid no attention to the pleadings of the Empire Company. The Empire went into court with their entire assets and spent a lot of money. The Katy was finally ordered by the court to abrogate that exclusive contract with the American, or anybody else, and to give the Empire a look-in.

This provided that the Empire company with certain requirements. One of these requirements is that they get a chance to do any business with the Katy at all in Texas, that they would do at least \$10,000 worth per month. This \$10,000 has been put up by the Empire, but the Katy still has until the 25th of June to say what they are going to do about it. The Katy has, in the meantime appealed to the highest court that could be located in Austin, and asked for permission to appeal from the decision of some other court. So the affair is not yet entirely settled.

But in the meantime R. D. Horton is local agent, and he is drawing his salary, and he is whooping her up for the boss, but he isn't making any trains, nor delivering any packages.

And there are about 500 other men doing as much (or as little) for the Empire Express Company in Texas today. They are maintaining their offices so that they can do business legally and quickly if ever they get a chance.

### HARVESTS DEPOPULATE CONSTRUCTION CAMPS.

Chicago, June 25.—Hundreds of section hands and men employed in construction camps have quit to accept more lucrative jobs in the harvest fields of Kansas and Oklahoma. It was learned today at the offices of western railroads.

Many contractors had anticipated the stampede of their men to the fields and had placed electric pianos and dancing floors in camps, but this scheme has not stopped the exodus.

San Angelo—C. C. Andrews, publisher of the Merit Star at Mertzon for the past several years, has sold his publication to Will Kellis of Sterling City. Mr. Andrews will return to Van Alstyne, his former home and engage in the printing business.

## Opinion of the United States Supreme Court

### Rendered on Bank Overdrafts

"A usage to allow customers to overdraw and have their checks and notes charged up without present funds in the bank, stripped of all technical disguise, the usage and practice, thus attempted to be sanctioned, is a usage and practice to misapply the funds of the bank; and to connive at the withdrawal of same, without any security, in favor of certain privileged persons. Such a usage and practice is surely a manifest departure from the duty, both of the directors and cashier, as can not receive any countenance in a court of justice. It could not be supported by any vote of the directors, however formal; and therefore, whenever done by the cashier, is at his own peril and upon the responsibility of himself and his sureties. It is anything but well and truly executing his duties as cashier."

The above is an exact copy of decision of the United States Supreme Court.

We ask our customers and friends to be careful and not draw checks that will create overdrafts.

### 44 BUSHELS OF WHEAT PER ACRE

FARM NEAR CITY THRESHES THAT MUCH FROM 12-ACRE STRIP

### 1000 ACRES HARVESTED

Good Yield Attributed by Mr. Darden to Careful Preparation and Early Sowing

Forty-four and a half bushels to the acre is the wheat yield on what is known as the old Lynght farm, located on the northeast side of Lake Wichita, according to Mr. Darden of the Darden Land Company, who states that this was the average on twelve measured acres of this farm, where threshing is now in progress. On this farm, there are 1000 acres planted to wheat which is now being harvested, and Mr. Darden believes that the average for the thousand acres will be better than twenty bushels per acre. This would mean

at least 20,000 bushels of wheat from the one crop. This farm is not irrigated and Mr. Darden attributes the splendid yield on the twelve measured acres to thorough plowing, cross-plowing, harrowing and early sowing. The entire thousand acres was all sown to wheat before November 1 and all the land had been broken and prepared to receive the seed by the middle of September. Mr. Darden owns or controls thousands of acres of agricultural lands in Wichita, Clay and Archer counties and will not rent to tenants who will not prepare the land thorough and sow early. His experience with farming in this county has convinced him that such methods are essential to the best results. The fact that it will require a train of more than twenty box cars to move the wheat crop produced on this one farm of 1000 acres will probably convince most people that Mr. Darden knows how wheat should be handled.

### WATER AND LIGHT PLANT MAKING IMPROVEMENTS

New Engine is Now Being Installed—Putting in the New Street Lights

A new 350 horse power engine is being installed at the power house of the water plant. This will materially increase the water pressure, and the difference will be appreciated by those whose property may depend upon the fire pressure any day. Work of putting in the new ten inch water main on Travis street has begun. Also the work of installing the new street lights has also begun. The new power transmission line to the factory district, direct from the power house, is now almost ready for the turning on of the current. Mr. Lawton of the Light and Water Company, said this morning that the company is making many improvements to take care of the increased business of the company, both in the water and light departments.

Temple—The Santa Fe railway will spend \$40,000 here at once in improvements and enlargements of its roundhouse and machine shop facilities. Plans are now nearly complete for additions to the machine shops, estimated to cost \$45,000.

### WICHITA DELEGATES TO GOOD ROADS CONVENTION

Judge Felder Names This County's Representatives to Meeting at Corpus Christi

Wichita county's delegates to the Good Roads convention which has been called at Corpus Christi have been appointed by County Judge C. B. Felder, at the request of the officials of the association. The convention will be held next month and efforts are being made to have this county well represented.

D. P. Talley of Wichita Falls, M. K. Emmert of Wichita Falls, Hy Willis of Burkburnett, S. W. Parker of Iowa Park and Sanders Walker of Electra, were named as delegates. The members of the commissioners' court are delegates ex-officio and have been invited to attend the convention.

### WOOD PULP IMPORTERS GAIN CUSTOMS SUIT

Washington, June 25.—The United States will give up \$3,000,000 to importers of wood pulp and paper as a result of the treasury department's decision today to not appeal to the supreme court from the decision of the customs court that all countries having "favored nation" treaties with the United States were entitled to free wood pulp and paper, because that privilege was granted to Canada. The importations were made from France, Germany, Norway, Sweden, Denmark and other European countries.

### BUGGY IS OVERTURNED BUT NO ONE IS INJURED

Horse Run Away On Ninth, Throwing Woman and Children into Flower Bed

A runaway, remarkable for the fact that no one was seriously injured, occurred on Ninth street this morning. Mrs. A. Warmuth of Rural Route No. 3, accompanied by three small children, were in the buggy when the horse took fright as they drove down the hill on that street, and started to run. The buggy was overturned near the Reynolds rooming house at 806 Ninth. The woman and three children were all thrown into the flower bed in front of the boarding house, yet neither was injured except Mrs. Warmuth, who sustained a head cut on the head. Physicians were called, and Mrs. Warmuth was soon able to return home.

Mrs. Warmuth says the horse must have taken fright at his own speed as he came down the hill, for his sudden flight could not be accounted for in any other way. Mrs. Warmuth is a sister of Mrs. Oechner living at Ninth and Holliday streets, and some of the family witnessed the runaway.

### BIRD-DOG POISONER IS GETTING IN WORK AGAIN

Dr. Walker's Canines are First to Suffer, one of Them Succumbing to Strychnine

Two bird dogs belonging to Dr. Wade-Walker have been poisoned with strychnine, one of them dying and the other recovering after treatment by a veterinarian. It is not known who administered the poison, but Dr. Walker offers a reward of \$100 for the name of the perpetrator; he says he will do the rest, if some one will only furnish him the name of the poisoner.

Last year there were a number of cases of dog poisoning in this city and some fine canines were killed in this manner. The poison is believed to be "set out" by persons who consider dogs a nuisance and who have no appreciation of the fine points of a blooded canine.

### MANY BARTENDERS WILL SOON BE OUT OF WORK

One-Third of Those Now on Duty Can Lay Off When Early Closing Starts

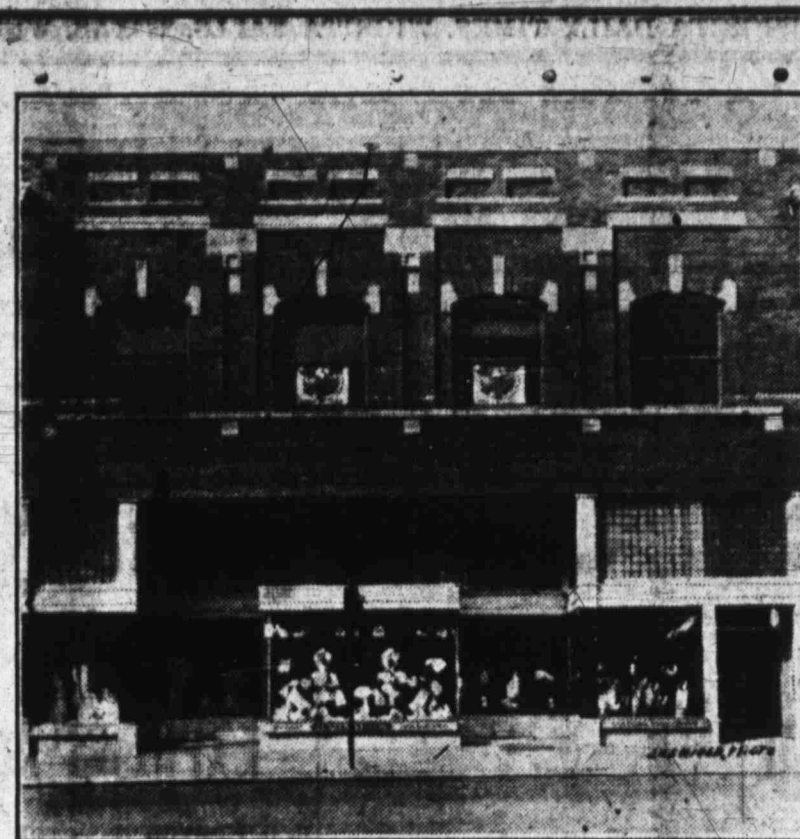

One bartender out of every three in Wichita Falls will lose his job next Tuesday. That is when the new state law regulating closing hours of saloons goes into effect.

As it is now, saloons open at 5 a. m., and remain open until midnight. Under the new law they will open at 6 a. m., and close at 9:30. The work of "tending bar" is now divided into three shifts, each saloon having three bartenders. Under the new closing hours, two bartenders can do the work, and still work only eight hours on a shift, even without the boss working a few minutes himself. Local bartenders are all attending strictly to their business nowadays, each in the hope that he will not be the one to go on July 1.

### FIRE HYDRANTS LOCATED BY COUNCIL COMMITTEE

Four New Ones to Be Installed in Western Part of City by the Water Company

The committee of city councilmen who yesterday made a trip over the city for the purpose of selecting locations for needed fire plugs, ordered fire hydrants in at the following locations: Eighth and Van Buren, Tenth and Van Buren, Filmore and Avenue B, Floral Heights, Fourteenth and Holliday. These new hydrants will be put in at once. Others will be located later.

### THIS IS CERTAIN

The Proof That Wichita Falls Readers Cannot Deny

What could furnish stronger evidence of the efficiency of any remedy than the test of time? Thousands of people testify that Doan's Kidney Pills have brought lasting results.

Home endorsement should prove undoubtedly the merit of this remedy. Years ago your friends and neighbors testified to the relief they had derived from the use of Doan's Kidney Pills. They now confirm their testimonials. They say time has completed the test.

E. W. No. 1100 Indiana St., Wichita Falls, Texas, says: "I got Doan's Kidney Pills at Harrington's Drug Store and was relieved of pains across my kidneys that had made every move one of misery. In the morning the trouble was worse. Doan's Kidney Pills relieved me and I consider them a fine remedy for regulating the kidney action and removing trouble with the kidney secretions. I willingly confirm the testimonial I gave some years ago." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

### WISHED SHE COULD DIE

#### And Be Free From Her Troubles, but Finds Better Way.

Columbia, Tenn.—"Many a time," says Mrs. Jessie Sharp, of this place, "I wished I would die and be relieved of my suffering from womanly troubles. I could not get up, without pulling at something to help me, and stayed in bed most of the time. I could not do my housework."

The least amount of work tired me out. My head would swim, and I would tremble for an hour or more. Finally I took Cardui, the woman's tonic, and I am not bothered with pains any more, and I don't have to go to bed. In fact, I am sound and well of all my troubles."

Cardui goes to all the weak spots and helps to make them strong. It acts with nature—not against her. It is for the tired, nervous, irritable women, who feel as if everything were wrong, and need something to quiet their nerves and strengthen the worn-out system.

If you are a woman, suffering from any of the numerous symptoms of womanly trouble, take Cardui. It will help you. At all druggists.

### GATO SELLS MAKES PLAIN QUARANTINE RULES.

Cleburne, Texas, June 25.—Judge Cato Sells, commissioner of Indian affairs, today gave out the following statement here:

"Some of the newspaper reports of my recent statement concerning the purchase of cattle for the Crow Indian reservation are not plain in their reference to quarantine restrictions which it should be understood must, under the law, be strictly regarded. The change now made is in this:

"That hereafter, breeding, rather than location, except as affected by quarantine lines, will be the determining factor and because of this construction for the first time in many years Northwestern Texas and New Mexico cattle will be acceptable in competition with cattle from other sections and under like specifications."

### AUTHORIZES \$258,166 PAYMENT OF INTEREST.

Greenville, Texas, June 25.—Judge William Pierson has authorized Receiver S. B. Brooks to pay interest due in July for the Magnolia and Corsicana Petroleum Oil companies on outstanding bonds, the amount of interest being \$258,166.

The Magnolia was the principal party to the application as it asked the right to pay interest on \$10,000,000 outstanding bonds, less \$3,000,000 unpaid. The interest amounts to \$252,500.

The Corsicana company owes interest on one \$500,000 note and on four \$100,000 notes, the interest amounting to \$23,866.

### SAILOR ENDS LIFE TO ESCAPE ARREST.

Savannah, Ga., June 25.—Rather than to submit to arrest for leaving the ship without permission, T. Eaton, a seaman of the United States cruiser Tacoma, now in port, ended his life while standing in a public square this morning.

Private Lee Woods and Master-at-Arms H. Italian and J. Dougherty were detailed to arrest Eaton. When they located him they saw the seaman was armed and called for a policeman. When they surrounded the sailor he drew a revolver.

"I'll kill myself before I'll return," Eaton cried. The next instant he pressed the revolver against his breast and fired. He died in a few minutes.

### HERE'S MOST DOLEFUL BENEDICT IN WORLD

Paterson, N. J., June 25.—In a suit to divorce his wife on the ground of desertion, Peter K. Hicks has gone on record in chancery court here as a most doleful husband. He testified yesterday that the alleged desertion of his wife made him so desolate that he got a job in a powder factory in the hope that the plant would blow up.

His prayer was answered a few months later when he was sent to the hospital with others injured in an explosion. However by the time he recovered he ceased to worry over his domestic troubles and decided that life was worth living.

### ELIMINATING OLD STYLE SLEEPING CAR NAMES.

Chicago, June 25.—Use of mythological and historical names in designating sleeping and private cars is being discontinued. Names of cities, states and towns are being substituted, especially by western railroads.

One Pacific coast line already has discarded Indian names pronounced with difficulty, for names of cities.

### ROCKEFELLER TO SPEND SUMMER IN CLEVELAND

Cleveland, Ohio, June 25.—John D. Rockefeller is in Cleveland once more to spend the summer at his Forest Hill home. He arrived early today accompanied by Mrs. Rockefeller and her sister, Miss Lucy Spelman.

Mrs. Rockefeller appeared feeble as her husband supported her from their private car to a waiting automobile.

### WILSONS OBSERVE 28TH WEDDING ANNIVERSARY.

Washington, June 25.—Tuesday was the twenty-eighth anniversary of the wedding day of President and Mrs. Wilson. No formal celebration marked the event, although a number of telegrams of congratulation were received at the White House.

The marriage of President and Mrs. Wilson took place June 24, 1885, in the home of Mrs. Wilson's grandfather, Rev. I. S. Axson, pastor of the Independent Presbyterian church of Savannah, Ga. Mr. Axson officiated at the ceremony and was assisted by Rev. J. R. Wilson, father of the President.

### NEW JAPANESE CONSUL DISCOUNTS WAR TALK.

San Francisco, June 25.—K. Iijima, newly appointed Japanese consul general at New York has arrived here and immediately began discounting alarmist discussion of relations between his country and the United States.

"All this war talk over the alien land bill is but the work of agitators," he said. "It does not express the true feeling. Japan believes that the United States will treat her fairly and is waiting with patience for a just and quiet settlement of the difficulty."

### DIVER SEEKS RECOVERY OF DROWNED ENGINEERS

Memphis, June 25.—A diver employed by Major Markham, in charge of the United States engineer's office here today began exploring the sunken wreck of the seamer, Beaver, which carried nine men to their death near New Madrid Sunday.

It is believed all the bodies except that of Chief engineer C. S. Williamson, which was recovered, were caught and held in the wreckage when the boat turned turtle.

The names of the two rodmen who were reported as unknown, were H. E. Estes and C. C. Brown. Both lived in the neighborhood of New Madrid.

### SYRIAN IMMIGRANT IS LEPROSY VICTIM

Cleveland, Ohio, June 25.—That the Syrian here who is under suspicion of being a leprosy victim is undoubtedly suffering from the disease was the statement of Health Officer Ford today. The man's name is Dohab Hifan.

He is said to have entered this country through New York in May, 1912, and to have been treated in Buffalo and Detroit hospitals for a presumed blood disease. Local health officials are planning a quarantine of 100 Syrians and Greeks who lived in the same crowded building with the Syrian.

### RAILROAD ENLARGES GALVESTON TERMINALS.

Galveston, Texas, June 25.—A deal has been consummated whereby the Southern Pacific Railroad company acquires property of the Merchants & Planters Compress Company, located in the western part of the city, comprising two and a half city blocks and adjoining the freight terminus of the railroad company, which will enable both steamship and rail lines to handle city freight much more economically than now.

The compress company has been desirous of securing more commodious quarters for some time. The deal involves \$200,000.

### PROHIBITIVE-OPIMUM TAX APPROVED BY THE HOUSE

Washington, June 25.—The Harrison bill to put the prohibitive tax of \$200 a pound on the manufacture of opium, and to prohibit the importation of the drug, except for medicinal purposes, was passed today by the house.

# TRUNKS TRUNKS

Your summer vacation trip will be more pleasant if you take along a good trunk
