TEXAN INVOLVED IN LOBBY PROBE

FORMER PRESIDENT BOWEN OF FARMERS' UNION IS MENTIONED

OTHER OFFICIALS HEARD

Work of Union Against Supposedly Adverse Legislation is Subject of Testimony

Washington, July 9.—A. B. Baldwin, a Cleveland, Ohio, attorney, testified before the Senate lobby committee today that while he was in Washington talking to congressmen about the sugar tariff, he re-remembered Alexander S. Baldwin of New York, and received \$30 per day for his services.

A. S. Smith of Georgia, president of the state branch of the Farmers' Union, was questioned about a meeting of the committee of the national union at New Orleans last spring, at which a plan to increase the consumption of sugar was discussed.

He testified that his expenses there were paid by R. E. Bowen, president of the Texas branch of the Union.

H. H. Mobley of Prairie Grove, Ark., president of the State Farmers' Union, said he was at the New Orleans meeting, called by Bowen. He signed a telegram to the Arkansas senators at Bowen's dictation, and a hearing for Arkansas cotton interests.

"I'm slow to make accusations," said Mobley, "but I have come to know that at all our meetings, state and national, we are surrounded by men who want us to do something for their interests."

Some side lights on the operations of the opponents of free wool were furnished yesterday when S. W. McClure, secretary of the National Wool Growers Association, told the committee how the wool people worked to keep a duty on wool. He said the association represented almost all the sheep men in the United States and that he spent much time in Washington.

His association, witness said, expended no money on the tariff except for his personal expenses, and his total account, "chargeable to the tariff" had been \$500 since April.

The wool growers, McClure explained, did not get out literature, though some letters had been sent to senators about the tariff. He said the association collected about \$7,000 for the first six months this year; had a membership of 42,000 and had never co-operated with the woolen manufacturers.

W. L. Bass, a retired sugar planter from San Domingo, told the committee his occupation was "trying to free the United States Government from the grasp of the American Refining Company." He said he was not working for any interests, but that he had common cause with sugar men from Cuba, San Domingo and Porto Rico.

"Since 1906," he said, "I have received two contributions of \$100. I pay my own expenses."

Bass said that his total expenses this year had been between \$800 and \$1000 a month. He had issued many circulars and paid for some newspaper advertisements.

"If you remove the duty on sugar, you won't keep it off more than twenty-four months," Bass told the committee.

NEWLYWEDS WHO TOOK POISON MAY RECOVER

Englewood, N. J., July 9.—Physicians at the Englewood hospital were hopeful today for the ultimate recovery of John L. Peltrowski and the young woman he says is his bride, both of whom are suffering from a slow poison taken yesterday with suicidal intent.

They were dependent because the young man's father had cut off his allowance, and were fearful of separation. The girl bride says she was Barbara H. Ackerman of Baltimore before her marriage. Her statement was borne out by her sister.

MILITANCY IN ENGLAND IS BELIEVED NEAR END

That Branch of Suffragettes Declared To Have Practically Ceased Its Operations

London, July 9.—Organized militancy among the suffragettes has been broken up, according to the Daily Mail, which publishes a review of the six months of "terrorism" and compares it with the present order of things, since the recent passage of the "cat-and-mouse law."

The Mail, which opposed the law when it was first proposed, gives to it the credit of having broken up militant "conspiracies." The law now requires that when a suffragette who has been sentenced to prison falls ill through a hunger strike, she shall be released only long enough to recover her strength and then be returned to jail to continue her sentence.

Mrs. Emmeline Pankhurst, who is claiming to have made a special inquiry and that the organization is reduced to a few disabled women, and the organization crippled financially.

Subscriptions to the militant cause have been greatly checked by the official warning that subscribers are liable to prosecution. The sporadic suffragette crimes are attributed to a few isolated fanatics.

The Niagara's rigging has been reproduced so that it is historically correct. The sails are of flax and the rope hemp, both of which are said to have disappeared from Great Lakes shipping more than half a century ago. Not a particle of metal, except the armament, is above the decks.

WHEAT THRESHING NOW BEING RAPIDLY PUSHED

Four-Fifths of Wichita County's Crop Expected to be in Sacks by End of Week

With continued fair weather for the next three days the last of the week will see nearly four-fifths of the wheat crop in this section threshed. While the days have been hot the weather otherwise has been ideal for threshing this week and the crop is being put through the machines rapidly.

A week or more ago the crop was coming into the local elevators at the rate of ten thousand bushels or more a day. The receipts have now fallen to a little more than five thousand bushels and is expected to keep up at this rate for a week or ten days yet.

Local elevator men are paying 30 cents per bushel for wheat. The oats crop was practically a failure and very few wagon oats have been offered for sale.

Marriage licenses were issued this afternoon to Harry A. McCarty to Miss Beas Mays and Leon L. Deaton to Miss Marjorie Mays. Other marriage licenses issued today were S. H. Clark and Miss Annie Brookshire and Dan Warren of Boyd to Alta Raper of Bridgeport.

BANK'S AFFAIRS WILL BE PROBED

SECRETARY McADOO SAYS HE WILL ASK FOR INQUIRY AT PITTSBURG

SITUATION IS NOW QUIET

Other Banks in City Declared To Be in Good Condition—Investigation Promised At Once

Washington, July 9.—Secretary McAdoo expects before the close of today to ask Attorney General McReynolds to investigate alleged irregularities in connection with the closing of the First National Bank of Pittsburgh and determine whether the national bank act has been violated.

Sufficient facts have been developed, it is said, to warrant immediate intervention by the department of justice. Thomas P. Kane, acting controller, who returned today from Pittsburgh where he closed the First-Second National Bank, declared that the First National Bank of that city should have been "cleaned up or closed up" at the time of its merger with the Second National several months ago. The merger was authorized by Lawrence O. Murray, former comptroller of the currency. At that time, Mr. Kane declared today, the national bank's capital was badly impaired and the bank was notified last December that its impaired capital must be restored.

The closing of the bank cleared the banking and financial atmosphere in Pittsburgh and outside of this institution the banking conditions there are excellent and here is no cause for further alarm. Mr. Kane said details of the causes which induced the Treasury department to close the bank Monday became known today. Mr. Kane declared that information concerning the surveillance of the bank leaked out and one depositor withdrew \$200,000 last Saturday. Government officials then learned that other big depositors contemplated heavy withdrawals Monday. To prevent the large depositors from gaining advantage of saving their deposits at the expense of little depositors who were not aware of the circumstances, the government refused to let the bank open.

The meeting was called by Mayor Bell who declared the situation demanded action. Residents of Floral Heights who were without water from noon until after midnight yesterday reported that they had no water again this morning. On the upper floors of residences and business houses and office buildings also it was very difficult to secure water.

MELLEN ROAD SCORED BY INTERSTATE COMMISSION

Financial Operations of New York, New Haven & Hartford Criticized in Report

Washington, July 9.—Financial operations of the New York, New Haven & Hartford, its ownership of trolley lines and control of allied-railroad are bitterly condemned by the Interstate Commerce Commission in its report of its investigation, made public today.

That the "outside financial management has been wasteful in the extreme" and that had the New Haven confined itself to actual railroad activities under the same conditions that prevailed in other respects it could have made a dividend of eight per cent for 1912 and had a surplus of \$930,000, the report said. The report mentioned favorably the manner in which the road's traps were run.

ALLISON LAW IS CAUSE OF ARREST

WICHITA FALLS SALOON MAN CHARGED WITH VIOLATION OF STATUTE

COMPLAINT BY OLNEY MAN

is Said to Have Given a Bottle of Whiskey to Party to be Delivered in Young County

Lewis Valentine, one of the proprietors of a Wichita Falls saloon was placed under arrest last night on a complaint made by S. J. Dinmore, city marshal at Olney, Texas, charging him with violation of the new Allison law prohibiting the transportation of intoxicants into dry territory.

Mr. Valentine gave bond for his appearance at a hearing at Olney and was released. It is understood that Mr. Valentine is charged with giving an Olney man a bottle of whiskey for another Olney man. Mr. Valentine was greatly surprised when informed of the charge against him and told the officers that he had no knowledge of the alleged transaction. He went to Olney today.

The penalty upon conviction for violations of the Allison law are from one to three years in the state prison. Wichita Falls saloon men generally have been using extreme caution to avoid violations of this law.

IMPORTATION OF FOREIGN MADE CARS DECREASES

New York, July 9.—The United States treasury has been enriched during the past decade to the extent of \$10,125,437 in duties upon foreign built automobiles brought into this port. In the period named \$774 machines of all classes were imported here, aggregating \$25,507,615 in appraised foreign value, subject to a duty of 45 per cent.

FREDERICO GAMBOA TO TAKE LA BARRA'S PLACE

Has Been Tendered Portfolio of Foreign Affairs by Huerta, Following Resignation

Mexico City, July 9.—The portfolio of foreign affairs has been offered by provisional President Huerta to Frederico Gamboa. Francisco de la Barra resigned the post yesterday. Senator Gamboa was head secretary of foreign affairs during the administration of Porfirio Diaz. It was generally expected he would accept.

La Barra may go abroad, as he announced some weeks ago, but it is possible that he may return to Toluca, capital of the State of Mexico, to complete his term as governor, in which office he was elected early in the year.

Senor de la Barra, who recently spent several days at Toluca, declared that he would leave the State government in other hands, but it is reported that President Huerta may insist upon his remaining there instead of absenting himself from the country.

U. S. W. STRIKE LEADER STARTS PEN SENTENCE

Paterson, N. J., July 9.—Patrick Quinlan was taken to state's prison to serve not less than two years nor more than seven for inciting a riot among silk mill workers. The court yesterday granted a writ of error, but Quinlan was unable to raise the bail demanded.

He is the first of the Industrial Workers of the World leaders to be convicted of inciting riot. Indictments stand against William D. Hayward and others.

Tentative plans were announced by a citizens' committee today, calling for the appointment of a committee of fifteen to go to Washington and place the strike situation before congress.

WILSON SHELVES DISPUTES ABROAD

AT PRESIDENT'S REQUEST BRYAN HOLDS UP FOREIGN RELATIONS MATTER

JAPS PROVE INSISTANT

Would Also Ignore This Controversy if Pressure Could Be Lessened a Bit

Washington, D. C., July 9.—The failure of the Wilson administration to make even the slightest progress toward disposing of the numerous vexatious matters of foreign relations confronting this government is due to the desire of the president to concentrate his labors on his ambitious program of tariff revision and currency reform legislation at this extra session of congress.

Consequently he has practically ignored the vast amount of business which matters of foreign relations more than is absolutely necessary, and that as far as possible settlement of existing controversies be deferred until congress is safely out of the way and the chief features of the administration domestic program satisfactorily disposed of.

WILL Exercise Guiding Hand

The president, it is understood, is not content to let Mr. Bryan go ahead with such matters as the Panama canal dispute with Great Britain. That is, Mr. Wilson is determined to go to such matters of foreign relations himself. His determination to exercise the guiding hand in the conduct of the foreign relations of the United States was revealed early in his administration, when he wrote with his own hand and issued from the White House the statement regarding the Latin-American policy and the withdrawal of the United States from the extricable loan negotiations with China.

Also, it was the president who wrote the first note in reply to the Japanese protest against the California alien land law.

If it were possible, the president would advise congress to exercise authority among those matters which are to be laid on the shelf until tariff and currency are out of the way. Only the strong pressure from the Japanese government prevents this being done.

The Panama canal controversy has already been laid on the shelf, however. It is understood that Great Britain has been informed that its case has been tabled for the present, and that it can not expect any proceedings toward a settlement until the tariff and the currency bills are passed by congress.

It is admitted at the state department, though the administration has been in power more than four months, that the Panama canal correspondence has not been taken out of the files.

The British demand for arbitration of the controversy has been absolutely ignored and will continue to be ignored while congress is in session.

The Columbian government's controversy with the United States over Panama is likewise rolled up in moth balls and will probably not see the light of the day in Mr. Bryan's office until cold weather has arrived.

Another issue that has been stored away in the archives is the matter of restoring treaty relations with Russia and the question of the treatment of American Jews by the czar's government.

Latin-American Problems Huge.

Perhaps more important than all the single questions, however, is the broad problem of the Latin-American relations.

Nothing is known of the intentions of the administration regarding the southern republics, except the general and oft-expressed desire to win their confidence by absolute fairness and helpfulness.

The most pressing question in Latin-America today is the Mexican situation, of course. This situation, however, is being handled solely on a day-to-day basis, without definite purpose beyond that of conserving the interests of the United States by application of the most ordinary rules of diplomacy and international relationship.

Consideration of the Mexican situation as a problem demanding a permanent solution has hardly been thought of. It has been definitely determined, according to the understanding here, that nothing is to be done in this matter, as in other questions of foreign relations, until congress has done the administration bidding with the tariff and currency.

U. S. W. STRIKE LEADER STARTS PEN SENTENCE.

Paterson, N. J., July 9.—Patrick Quinlan was taken to state's prison to serve not less than two years nor more than seven for inciting a riot among silk mill workers. The court yesterday granted a writ of error, but Quinlan was unable to raise the bail demanded.

PERSISTENT LOITERER IS ARRESTED BY POLICE

Found Too Often in One Vicinity, According to Complaint, But is Released

A man found loitering on Tenth street last night was taken into custody by the police following complaints made by a woman resident in that neighborhood for several weeks. The woman was asked to appear as a witness but failed to show up when the case was called for trial this morning. The man explained that he was in that vicinity to keep an engagement and showed that he was employed at a trade in the city and the case was dismissed.

FOUNDRY IS INSTALLING CARLOAD OF MACHINERY

The Wichita Falls Foundry and Machine Company is installing a carload of new machinery just received from St. Louis.

Included in the new machinery is a 19-inch lathe with a bed 18 feet long and a milling machine for the making of gear wheels. The latter will equip the shop for the making of wheels of almost any size.

The shop and foundry departments are now working about forty men.

A CONFESSION

Hines, Ala.—"I must confess," says Mrs. Edna Mac Reid, of this place, "that Cardui, the woman's tonic, has done me a great deal of good."

Before I commenced using Cardui I would spit up everything I ate. I had a tired, sleepy feeling all the time, and was irregular. I could hardly drag around, and would have severe headaches continuously.

Since taking Cardui, I have entirely quit spitting up what I eat. Everything seems to digest all right, and I have gained 10 pounds in weight.

If you are a victim of any of the numerous ills so common to your sex, it is worth trying Cardui.

For half a century, Cardui has been relieving just such ills as is proven by the thousands of letters, similar to the above, which pour into our office, year by year.

Cardui is successful because it is composed of ingredients which act specifically on the womanly constitution, and helps build the weakened organs back to health and strength.

Cardui has helped others, and will help you, too. Get a bottle today. You won't regret it. Your druggist sells it.

DESPERATE FIGHTING WITH MOROS DESCRIBED.
Washington, July 9.—Full reports of Brigadier General Pershing's campaign to disarm the Moros, which culminated in the battle of Bagsak, received at the war department today, give accounts of the conduct of American troops fighting in the mountain fastnesses with savages sometimes numbering between 5,000 and 10,000.

Hand to hand combats with Moros armed with barongs and spears were frequent in which not a savage surrendered and the encounters were ended only by escape or death.

Present statistics show that there is a wonderful increase in the number of people who depend on glasses for good vision. Take enlightenment in the "Hub," for instance. There are more people wearing Specs there than in any other city of its size. Where learning and progress are, you will find most people wearing glasses. Are you going to stay behind till you have to have them and then find you have waited too long—that some small trouble has grown till Glasses won't remedy it.

If You Don't Need 'Em We Tell You.

No "drops." We know how.

SAVINGS DEPARTMENT IN THE FIRST STATE BANK

New Feature Will Be Added About August 1—Directors Declare Dividend

At a meeting of the directors of the First State Bank and Trust Company a resolution was passed to create a savings department of the bank. Deposits in this department will draw interest at the rate of four per cent per annum, payable semi-annually. The accounts will not be subject to check and must remain in the bank six months to draw interest. They can be withdrawn at any time, however, by surrender of the bank book and the forfeiture of the accumulated interest for the portion of the interest period.

The bank has been considering the inauguration of this department for some time and has already secured the authority from the State. The growth of the city and the fact that here are so many salary workers who desire to put away a portion of their income where it will draw interest has convinced the directors that such a department would not only be a success so far as the bank was concerned, but is also a prime necessity for the people.

The directors of the bank also declared a five per cent semi-annual dividend to the stockholders and reserved \$500 for taxes next year. In addition to this \$2000 was passed to the surplus account and a substantial amount was carried to the undivided profits account.

The savings department will open about August 1. It will keep open late hours on Saturdays to accommodate those who receive their pay checks weekly.

N. Y. EDUCATION BOARD WON'T DISTRIBUTE COIN.

New York, July 9.—The general education board announced today that reports to the effect that a sum of money is to be contributed by the board to the southern farmers are entirely without foundation in fact.

Similar reports that money will be contributed to boys and girls for their education also were repudiated.

In Business for Our Health

Work is a great tonic. It relieves all the ills of man, and insures decided increase in his grocery bills.

There is a difference though in working and being worked. A salesman from a large city comes along with a cat and dried talk that sounds like Dan Patch on a hard track and while you listen, you dream of the yellow coin being handed you in big packages. Where is it dreams come true?

We are in business for our health, and yours too. Drug stores, hotels, churches and fine private residences use our Floor, Wall and Mantle Tiling. Mr. Contractor, why go elsewhere to buy? Your customer can come to our office and make selection on anything. We have the samples, the cuts and designs from which to select. We are also able to fill our contracts completely and satisfactorily.

YEAR'S HOTTEST WEATHER IS RECORDED TUESDAY

Thermometer Touches 101 Mark At Three O'clock But Drops To 80 During Night

It seemed cooler than eighty degrees when you pulled up the cover at about 4:30 this morning, but that's as low as the thermometer recorded. Probably the contrast from yesterday's high mark of 101 made the 80 degree mark seem chilly. A good breeze helped this feeling along.

Tuesday was the hottest day of the year, the mercury touching 101 shortly after three o'clock. The temperature remained above the century mark from 3 to 7 p. m., and then began to drop steadily until 4:30 a. m. At 9 last night it had dropped to 95, at midnight to 88 and from 4:30 to 6:30 this morning it stood at 80.

At the latter hour the mercury began to climb again but cloudy skies and good breezes made it improbable that yesterday's mark would be approached.

FEDERAL GAME LAW SWEEPING

PROTECTS MANY BIRDS NOT HITHERTO INCLUDED IN STATE'S GAME STATUTE

DUCK SHOOTING LIMITED

May Not Be Killed Between January 16 and October 1—Many Other New Provisions

Wichita Falls migrators must be more particular in what they shoot at hereafter since congress enacted what was known as the McLean bill at the last session, and the Federal Government has undertaken to protect the migratory birds—that is, all birds which are not native to any particular State. It is stated that the new law is based upon the presumption that the birds have a very distinct value apart from the food value.

In the past the birds have had two values, the greatest being as articles of food and the other as targets for sports.

Texas is placed in zone 2, which comprises those states where the migratory birds pass all or a portion of the winter. The McLean law provides that ducks and geese may not be shot between January 16 and October 1. Hereafter the practice has been to shoot ducks and geese just as long as they remained in the state, and several promising breeding places for mallards and black ducks have been broken up by summer shooting. To state the proposition differently the open season will open October 1 and will close January 16, giving three and a half months for shooting.

Rails have heretofore had no protection. Hereafter they may be shot only between September 1 and December 1, or three months.

One Month for Woodcock
Woodcock may be shot only during the month of December. Inasmuch as it often happens that the woodcock do not come to Texas in any numbers until January, it practically closes the season on them.

Snipe and plover may be shot only between September 1 and December 16. As the plover have passed on their fall flight by September 1 and do not come back until March, there is practically a closed season for Texas on the plover. The Wilson snipe get along in February, so there will be practically no shooting of them except for a short time in October, while they are on their way south. The jacks begin to come in October, but heretofore the best of the snipe shooting has been

No! A remarkable one—for you have spent the smallest sum that will buy a package of good food; and the grocer has sold you the most nutritious food made from flour—as clean and crisp and delicious as it was when it came from the oven.

NATIONAL BISCUIT COMPANY

ONE DOLLAR FOR CONSCIENCE FUND

MAN WHO PICKED UP PIECE OF IRON ON TRACK PAYS RAILROAD

"DIDN'T MEAN TO STEAL"

Moves To South Texas and Remembers That Property Isn't His and Sends Money For It

The "conscience fund" has been increased by one dollar. That amount has been received by Mr. Fontaine, general passenger and freight agent of the Wichita Falls & Northwestern, in payment for a piece of iron which the conscience-stricken man found on the Northwestern's right of way near Carter, Okla. A. C. Hare, formerly of Carter, but now of San Benito, found the piece of iron and appropriated it to his own use "unthoughtedly" as his letter states. Later, apparently, his conscience got busy, with the result that he sent the following letter to Mr. Fontaine:

"Peace be unto thee. Mr. C. L. Fontaine, Dear Sir: I have been a matter to discuss with you and to explain the best I can. Sometime ago, before I left Carter, Okla., the Wichita Falls & Northwestern railroad ran through papa's place, adjoining the Carter townsite on the south side. That big levee was on papa's place just as you go into town from the south side.

"So, one day as I was coming from town, I believe it was, I found two very big coil springs, and also two pieces of iron: each piece was about one and a half inches thick and about six by eight inches wide and six inches long; these were between the two rails, so I threw them down off the track in fear of a wreck. So some time after that, as nobody didn't take them, I thought how good they would be for braiding harness and to use for different purposes. So I got those two pieces of flat iron to use.

"Although I didn't mean to steal them or nothing like that, it seems like I taken them unthoughtedly. So as I came down here I began to think about it, that they wasn't mine. So I will send pay for them. I guess those springs are still there yet, but those others I got. So may the Lord bless you and yours more thoughtedly. So I will send you one dollar to pay for them. I trust that you won't think hard of me for that wrongful deed that I did. So please pardon me. As ever, your friend in Jesus."

VEHICLE OWNERS MUST OBEY LAW

AUTOISTS, MOTORCYCLISTS AND BICYCLISTS ARE GIVEN NOTICE

EFFECTIVE NEXT MONDAY

Bicyclists Must Have Machines Numbered—All Ordinances Are To Be Strictly Enforced

The Times is authorized by Mayor Bell to say that beginning Monday morning, July 14th bicyclists, motorcyclists, and auto owners and drivers will be required to comply strictly to the letter of the law in the running of their machines, both as to the speed law and other regulations, such as riding on sidewalks, keeping lights burning at night when machines are in use, providing machines with numbers, horns and whistles, etc.

Those who have bicycles are requested to call at the city hall and get numbers between now and Monday provided their wheels are not already numbered, for which no charge will be made. Under no circumstances will any rider of a bicycle be permitted to ride on the sidewalks in any part of the city after Sunday.

The speed limit within the fire limits is fixed at twelve miles per hour, and for all other parts of the city eighteen miles per hour.

The mayor says that some few additions will be made to the police force, beginning Monday, whose special duty it will be to see that the ordinance regulating the running of bicycles, motorcycles and automobiles is strictly enforced and owners can take this as fair warning.

Beginning June 29, Mrs. J. P. Smith will serve meals at 706 3/4th street.

HIGH PRICES FOUGHT

BY GOTHAM ICE TRUST.

New York, July 9.—War between wholesale ice dealers has created a situation without precedent in New York. A so-called ice trust is fighting for lower prices. The company—the Knickerbocker—is selling wholesale at \$4 a ton; competitors are charging \$5 and \$6. As a result, the Knickerbocker is swamped by demands and faces a shortage. The president has issued a statement appealing to the other companies to reduce their prices to attract the business the Knickerbocker cannot handle.

GALVESTON COTTON EXPORTS FOR JUNE

Movement Was 49,772 Bales Valued at \$3,256,463—Record Breaking Year Ahead

Galveston, Texas, July 9.—That the recent heavy rains in North Texas will not seriously deter cotton exports through Galveston for the current year is the opinion of local cotton men. For the first five months of 1913 a new record was set for cotton exports at this port. For June the cotton exports were valued at \$3,256,463, involving 49,772 bales.

It is pointed out that though cotton crops in North Texas should be seriously hurt by the heavy rains, the margin already established over exports of 1912 will enable Galveston to once more establish a new record in cotton exports for the year. Local handlers of cotton are preparing in every way possible to handle the largest cotton crop ever handled through Galveston. This is true not only of cotton, but of all other exports.

FLORAL HEIGHTS WITHOUT WATER

RESIDENTS TURN FAUCETS IN VAIN—NO PRESSURE UNTIL MIDNIGHT

GO TO BED BATHLESS

Water Comes Late at Night and Many Fill Tubs and Barrels So As to be Prepared

Many residents of Floral Heights went to bed last night without baths and their irons and lawns went unwatered because the faucets wouldn't even exude a dribble. Water, however, came on before midnight and many got up to catch a supply in tubs and other vessels in anticipation of another drought today.

The water company has promised better service in Floral Heights, but the residents there want it this summer before the trees and the grass die.

There was good pressure in most other parts of the city yesterday and last night but Floral Heights being higher and the mains inadequate the service leaves much to be desired.

The company is making extensive improvements which is most pleasing but haste is the demand of the residents of the short water supply districts.

Causeway For Rockport, Rockport, Texas, July 9.—A bond issue of \$155,000 is being promoted to build a causeway across Capano Bay as to connect Live Oak Peninsula with this city. The bridge will give this city a chance to grow to the north and will open an excellent residence and business site.
