## STREET PAVING BIDS RECEIVED

WIDE VARIETY OF MATERIALS AT VARIOUS PRICES OFFERED FOR PAVING HERE

## THREE BIDS CONSIDERED

Committee Will Meet Again Tonight With View of Choosing Between Bids

For the paving of Tenth street seven bids were opened by the city council last night in a session that lasted nearly till midnight. As a result of the council the bids were reduced to three that were worthy of consideration and these three will be considered further at a meeting called for tonight at 8 o'clock. The three bids are based on three different kinds of material and the question before the council tonight will be to decide which of the three materials is the more desirable and more economical. The bids received last night were as follows:

L. H. Roberts of this city offered to lay 4 1/2 inch concrete paving for \$1.10 per square yard, with a charge of 60 cents per lineal foot for curbing.

The R. D. Moxley Company offered a 2 1/2 inch asphalt macadam without maintenance at \$2.58 per yard and with a five year maintenance guarantee at \$1.23 1/2 per yard. The same with a concrete base at \$1.39 per yard, with a charge of 63 cents per foot for curbing.

The Crockett Wood Block Paving Company offered a 3 inch wood block without maintenance at \$2.58 per yard and with a five year maintenance at \$2.59 per yard with a charge of 65 cents per foot for curbing and gutters.

The Southern Weststrite Company offered 8 inch Weststrite with a five year maintenance at \$1.77 1/2 per yard, or the same on a 5 inch concrete base at \$1.90 per yard.

The Roach Madigan Company offered creosoted wood blocks, 4 inches in depth at \$2.78 and the General Construction Company offered the same at \$2.75 per yard. The Municipal Paving Company offered Uvalde rock without maintenance at \$1.80 per yard. The last four bids were rejected as being too high.

The three bids retained for further consideration embrace all of the materials which have been considered, and which the specifications called for. The price on each of them is considered reasonable by members of the council and which will be employed is simply a matter of the individual choice of the aldermen. The Crockett Wood Block Paving Company is the same concern which put down the paving in the business section and which seems to give pretty general satisfaction. Mr. Roberts proposes to put down just the same kind of paving as he laid in the alley between Ohio and Indiana, and which he claims is endorsed by some of the best paving engineers and writers on matters of street paving in the country.

The asphalt macadam paving, bids which were submitted by the R. D. Moxley Company is used in many of the largest cities and especially for residence streets is said to be a very desirable paving material.

Three bids were opened last night the council went into executive session to consider the various propositions. Along with their bid, the Southern Weststrite Company filed a petition containing the names of fifty-five property owners on Tenth street asking for Weststrite paving and agreeing to pay \$2 per yard for same. Among these was the traction company and several of the leading business men of the city.

Society Gives Mother Goose Dance Newport, R. I., Aug. 1.—Dressed as Jack and Jill, the Giant Killer, Little Red Riding Hood, Bluebeard, and his wife and Old Mother Hubbard, members of Newport's ultra exclusive society circles this evening will attend a dance given by Mrs. Stuyvesant Fish at her beautiful summer home, the Crossways. Five thousand dollars will be spent in favors for the dancers and nearly that much again will be spent in floral decorations.

## BUILDING PERMITS FOR JULY \$97,170

This Was the Aggregate of 27 Permits Issued During This Month

Building permits in Wichita Falls for July totaled 197,170, which is considered a good showing for a mid-summer month. Only twenty-seven permits were issued during the month, which is probably the smallest number issued in any single month since the enactment of building permits ordinance last October. In June the permits totaled \$75,235.

While the number of permits granted in the last two months has been small the unfinished buildings for which permits were granted earlier in the year have made great activity in the building line.

## TO FIND MAN TO SUCCEED HUERTA

THIS IS PROBLEM NOW BEFORE THOSE TRYING TO NEGOTIATE PEACE IN MEXICO

## MAY SELECT A DIPLOMAT

Secretary Bryan Issues Denial to Report U. S. is Being Pushed to Act

By Associated Press. Washington, Aug. 1.—After a conference with President Wilson this morning Secretary Bryan declared that the United States was in no manner being crowded for action in Mexico by any European power. He said: "The statement which appeared in certain morning papers to the effect that European governments were bringing pressure to bear upon the United States to commence aggressive action in Mexico is entirely without foundation."

It is known that the administration is pleased to observe the reports from Mexico that a reform element in the Chamber of Deputies is planning to submit peace proposals to both factions. So far as is now known it will be the policy of the American government to await the outcome of these negotiations before taking any action. The chief difficulty in the negotiations, it is admitted by Mexicans of all factions, is the selection of a non-partisan provisional president to succeed Huerta. The suggestion was made today by some prominent Mexicans who had not taken part in one side or the other in the Mexican troubles, it may be expedient to select one of the veteran diplomats now representing Mexico in posts abroad. Men of such character have had no political affiliations at home which could disqualify them and would give the situation the benefit of their diplomatic experiences.

Japanese to Buy Texas Cotton Austin, Texas, Aug. 1.—K. Onouji, accompanied by his wife, C. Kilgosa and K. Fujita, arrived here today direct from Japan, with a view of buying a large quantity of Texas cotton, which will be shipped to the Orient. They say the growth of cotton mills in Japan has caused them to see more raw material in Texas this year than ever before.

Katy Relaying Track With Heavier Steel Temple, Texas, Aug. 1.—Seventy miles of eight-five pound steel has been laid between Waco and Hoxie, by the Missouri, Kansas & Texas railroad, to replace the sixty-five pound rail. The heavy-duty crews are busy on the stretch of road between Waco and Hoxie, and soon this track will be in first class condition.

## THE KATY HEARING HERE IS POSTPONED

Illness of Attorney C. C. Huff Causes Indefinite Postponement of Anti-Trust Hearing

By Associated Press. Dallas, Aug. 1.—Hearings in the state's anti-trust suit against the Katy and its Texas subsidiaries were adjourned this morning until August 7 when matters relating to the Texas Central will be taken up in a hearing at Waco. The Wichita Falls hearing has been postponed indefinitely owing to the illness of Charles C. Huff, general attorney for the Wichita Falls and Northwestern.

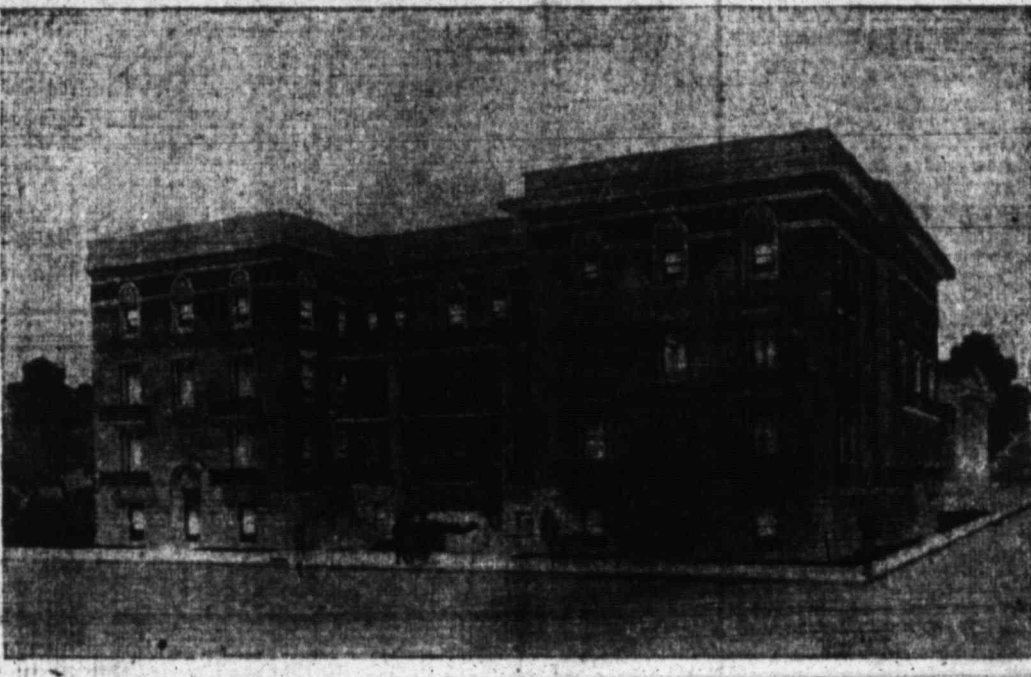

General Manager W. A. Webb of the Texas lines of the Katy and the Katy lines north of Red River was recalled to the stand to testify that before the consolidation bill authorizing the consolidation he also held the same position with the Katy of Texas and six allied lines named in the suit, and that he received one voucher in payment for his services.

In answer to a direct question from Assistant Attorney General Nichols Mr. Webb said he was not a member of the Commercial Secretaries and Business Men's Association of Texas and declared that so far as he knew the Katy had never contributed a cent to the funds of the association. The hearing adjourned without any light being thrown on the purpose of the questions relating to the Secretaries' Association.

\$13,000,000 Subway Loop Completed New York, Aug. 1.—The New York-Brooklyn subway loop constructed at a cost of \$13,000,000 was formally opened for operation today. After today it will be possible to ride without change of cars, for a single 5-cent fare, from Chambers street, Manhattan, to and across the Williamsburg Bridge to Carnarrie by way of the Carnarrie-broadway elevated line of the Brooklyn Rapid Transit company. When another section of the city's new subway is completed sometime next winter, trains will run all the way through to Coney Island.

STANDARD OIL SECURES CONCESSIONS IN ROUMANIA By Associated Press. Berlin, Aug. 1.—It is reported that the Standard Oil Company has acquired a two year lease on 2,000 acres and other important concessions in Roumania.

## KEMP APARTMENT BUILDING AT CORNER OF TENTH AND TRAVIS

The accompanying cut shows the apartment building under construction at the corner of Travis and Tenth street and owned by J. A. Kemp. This is one of the finest apartment buildings in the entire Southwest and when completed will cost \$65,000. It contains 19 three, four and five room apartments and the third

floor is in single rooms and in double rooms ensuite. The rooms are exceptionally large and nicely furnished. The apartment also has a large basement and dining room. A room at the northeast corner of the building will probably be used for a drug store. The Gross Construction Company of

Oklahoma City are the contractors. Field and Clarkson of Fort Worth are the architects. The building will be completed within a few weeks and will be opened November 1 under the management of Mrs. Gaffney, who has already rented every apartment and has five applicants on the waiting list.

## COTTON BELOW 10 YEAR AVERAGE

CONDITION OF GROWING CROP JULY 25 WAS 79.5 PER CENT OF NORMAL

## IN TEXAS 81 PER CENT

Third Cotton Condition Report Was Issued at Washington This Morning

By Associated Press. Washington, Aug. 1.—The condition of the growing cotton crop of the United States on July 25 was 79.5 per cent of a normal, compared with 81.8 per cent on June 25, 1913, 78.5 per cent on July 25, 1912, 89.1 per cent on July 25, 1911, and 80.0 per cent, the average on July 25 of the past ten years, according to the third cotton condition report of the season issued at noon today by the crop reporting board, bureau of statistics, department of agriculture, and estimated from reports of its correspondents and agents.

The area planted to cotton this year, as previously reported by the department of agriculture in its preliminary estimate, is about 35,622,000 acres or 2.5 per cent more than the 34,766,000 acres planted last year.

Comparisons of condition by States with the percentage of last year's acreage planted, this year in each state follow:

State	1913	1912	1911	10-yr. av.
Alabama	81	85	102	82
Arkansas	77	80	87	80
California	87	74	71	86
Florida	76	68	95	80
Georgia	82	75	95	83
Illinois	79	73	94	79
Indiana	71	68	86	78
Iowa	79	76	84	77
Kansas	81	84	86	81
Mississippi	87	74	94	80
Missouri	80	77	82	80
Nebraska	86	75	96	83
Oklahoma	81	80	88	81
Texas	100	99	99	100

For the purpose of comparison, the condition of the cotton crop in the United States monthly and the estimated yield per acre for the past ten years are given below:

Yr.	May	June	July	Aug	Sept
1913	79.1	81.8	79.5	78.5	78.5
1912	78.9	80.4	76.5	74.8	69.6
1911	87.8	88.2	89.1	73.2	71.1
1910	82.0	80.7	75.5	72.1	65.9
1909	81.1	74.6	71.8	62.7	58.5
1908	79.7	81.2	83.0	76.1	63.7
1907	70.5	72.0	75.0	72.7	67.1
1906	84.6	83.3	82.9	77.3	71.6
1905	77.2	77.0	74.9	73.1	71.2
1904	83.0	88.0	81.6	84.1	75.8
1903	74.1	77.1	79.7	81.2	65.1
Average	79.8	80.5	80.0	74.7	68.9

## FELIX DIAZ NOT GOING TO JAPAN

He Makes This Announcement at Los Angeles After Receiving Message

By Associated Press. Los Angeles, Cal., Aug. 1.—Felix Diaz who arrived here Wednesday presumably on his way as a special envoy from Mexico to Japan, said today that he might not go to the Orient. He said: "Certain circumstances have arisen that make it impossible now to say what I shall do. I do not know where I am going."

General Diaz made this statement after he had received a cable message from the City of Mexico. He declined to say what the message contained.

Deputy Sheriff George Hawkins went up to Electra and served a warrant on G. E. Jackson indicted on a charge with assault to murder. Jackson is a contractor in the oil field. He was permitted bond in the sum of \$1,000.

Negro Hanged in Dallas. Dallas, Texas, Aug. 1.—Floyd Stanton, a negro, was hanged in the county jail here today for the murder of a white man last December. The negro went to the gallows without a tremor.

## OIL FIELD NEWS

Williams and Kelly are moving a rig down from Electra, onto the Dr. W. H. Walker near old-Thornberry where they will start drilling as soon as they can get the rig up. The location is one mile west of the test put down by Benson and Little over a year ago. In the Benson and Little well a good sand was found at 480 feet but this was not developed as the owners were after softer stuff. Messrs. Williams and Kelly have 784 acres leased in a body at this location comprised of the following: 100 acres from George Musgrave, 100 acres from Lank Thornberry, 100 acres from D. E. Bentley, 100 acres from Dr. W. H. Walker, 144 acres from Eugene Linaker, 150 acres from Mr. Parrish, and 60 acres from L. B. Hansard.

The Avis Oil Co. has resumed drilling southeast of the city. This well was drilled to a depth of about 1800 feet over a year ago when drilling was stopped. A short time ago it was decided to drill deeper and work was started July 26.

Walter Priddy, H. A. Allen and Mrs. M. M. Addicks have started a test well on their land northeast of Powken Station. They will drill to the shallow sand only, and expect to strike it at about 500 feet.

## APPROPRIATION OF \$100,000 IS ASKED

Bryan Asks This Amount to Care of Destitute Americans in Mexico

By Associated Press. Washington, Aug. 1.—Secretary Bryan today asked the House to appropriate \$100,000 to care for destitute Americans in Mexico who may find it necessary for their safety to leave Mexico and who are unable to pay their transportation.

## FELIX DIAZ NOT GOING TO JAPAN

He Makes This Announcement at Los Angeles After Receiving Message

By Associated Press. Los Angeles, Cal., Aug. 1.—Felix Diaz who arrived here Wednesday presumably on his way as a special envoy from Mexico to Japan, said today that he might not go to the Orient. He said: "Certain circumstances have arisen that make it impossible now to say what I shall do. I do not know where I am going."

General Diaz made this statement after he had received a cable message from the City of Mexico. He declined to say what the message contained.

Deputy Sheriff George Hawkins went up to Electra and served a warrant on G. E. Jackson indicted on a charge with assault to murder. Jackson is a contractor in the oil field. He was permitted bond in the sum of \$1,000.

Negro Hanged in Dallas. Dallas, Texas, Aug. 1.—Floyd Stanton, a negro, was hanged in the county jail here today for the murder of a white man last December. The negro went to the gallows without a tremor.

## AN ARREST IN A SHORT TIME

POLICE AND RELATIVES OF MISS BROWN CONFIDENT IN THEIR PREDICTIONS

## ROBINSON'S STATEMENT

Says No One Connected With Real Estate Firm is Under Suspicion

By Associated Press. Dallas, Texas, Aug. 1.—That the murderer of Miss Florence Brown would be arrested in the next few hours was the confident and emphatic statement not only of the police, but relatives of the murdered girl as well.

The entire Dallas county grand jury went through the Robinson & Stryon offices and checked up the contents of the safe today. They reported upon their findings in such a way that any rumor of robbery or attempts to rob were completely discounted.

Jeff V. Robinson, uncle of Miss Brown issued the following statement: "I feel certain that I know the motive for the crime. I had my own theory as to who killed Florence before I arrived and I find all the evidence collected by the police and detectives coincides with my views and I feel certain that an arrest will be made in a short time. I wish to state that no one in the Robinson & Stryon firm is under suspicion. Florence was surrounded by congenial associates who would have died to protect her. The girl had no enemy especially in the office. My mind is made up in regard to the matter. The police hold my views and I am confident the murderer will be caught in a short time."

Arrival of Daughter Awaited. The body of Amos Steelmith, the oil man who died at Electra last night after he had been crushed beneath a falling oil derrick, was brought down to his home here this afternoon by Undertaker Hill. The funeral arrangements have not been announced but it will not be held until after arrival of Mr. Steelmith's daughter from New York. A meeting of oil men will be held at the Westland Hotel tonight to make arrangements for attending the funeral in a body.

STATE BANK ORGANIZED TODAY. Waxahachie, Texas, Aug. 1.—The Waxahachie State Bank was organized here today with a capital of \$150,000. The institution will open for business September 1.

## KATY WILL SUSPEND ALL IMPROVEMENTS

Hostile Attitude of Attorney General's Department is Given as Cause

By Associated Press. Dallas, Texas, Aug. 1.—President C. E. Schaaf of the Missouri, Kansas and Texas Railway was asked what effect the recent action of the Attorney General in instituting suit against his companies for penalties exceeding \$100,000,000 for alleged violations of the anti-trust and general office statutes of Texas would have on his plans for developing the Missouri, Kansas and Texas Railway of Texas and its allied lines.

He said that all work of improvement and extension would necessarily have to be suspended, as the officials and directors could not afford to take the responsibility of expending additional money for improving and extending railroad property in Texas in the face of the hostile attitude of the state administration manifested by this litigation. Since taking charge of the Katy Mr. Schaaf has devoted his energies especially to the upbuilding of the Texas lines, applying modern methods and standards in developing the property in order to furnish adequate and satisfactory service to the public. His efforts in this direction have been continued during a time of great financial stringency and in spite of the fact that the Texas lines are operated at a loss, but his faith in the future of Texas and the fairness of her people has prompted this course.

"The overwhelming demand from the people in all sections of the state for the passage of the so-called Missouri, Kansas and Texas lease bill at the last session of the legislature was very encouraging," he said. "The action of the Governor and Attorney General in preventing the Missouri, Kansas and Texas of Texas from availing itself of that legislation, and the more recent action of the Attorney General in seeking to collect penalties in an amount largely exceeding the Railroad commission's valuation of the Katy's lines in Texas, have been most discouraging and have made it impossible to proceed with further betterment or extension until the company's rights have been determined in the courts."

## WOULD PROBE ALLEGED HARD COAL TRUST

By Associated Press. Washington, Aug. 1.—Investigation of the hard coal trust was proposed in a resolution introduced by Representative Murray of Massachusetts today. It calls on the secretary of commerce, the secretary of labor and the Interstate Commerce Commission for information as to the ownership of anthracite coal lands by railroads and about the cost of production.

## COMMITTEE PASSES UPON A. & M. APPROPRIATIONS.

By Associated Press. Austin, Texas, Aug. 1.—The Senate finance committee today began work on the A. & M. College appropriation. The salary items were approved after Senator Johnson's attempt to reduce them to the same figures as two years ago plus the deficiency which has accumulated since failed. The items totaled \$135,000 for the first year and \$150,000 for the second year.

## NEWSPAPERS HAVE RIGHT TO DECLINE ADVERTISING.

St. Paul, Minn., Aug. 1.—That newspapers have a right to decline advertising when they deem it objectionable, even if it is submitted to them under a yearly contract, is the effect of a decision handed down today in the district court here. The case came up when a local department store was sued by a newspaper to recover money due under a yearly contract which the store management had declared void because certain portions of its advertising copy had been rejected by the paper.

## SUBMISSION OF BOND ISSUE

KENNEDY'S RESOLUTION ASK GOVERNOR TO SUBMIT \$3,000,000 ISSUE TO LEGISLATURE

## DEBATE ELECTION BILL

Representative Patrick Henry Introduces Bill for Government of Gatesville Reformatory

By Associated Press. Austin, Texas, Aug. 1.—With the Mexican legislation out of the way the House this morning began the consideration of bills for the election of senators by a direct vote of the people. The fight over the Kennedy bill assumed a much stronger form when the Kirby bill was offered as a substitute. The difference between the two measures lies in the fact that the Kennedy bill demands a majority of all votes cast in the election of a senator. The Kirby bill merely provides for a plurality.

Early in the session a resolution was offered by Kennedy asking Gov. Colquitt to submit to the legislature the matter of the sale of \$3,000,000 state bonds to be re-invested in county, school, irrigation and other improvements, bonds bearing five per cent interest. Governor Colquitt in a statement in the bond amendment campaign said that the state bonds could be sold at a twenty per cent premium.

A new penitentiary bill was introduced by Humphreys appropriating \$2,000,000 to liquidate the penitentiary system indebtedness and \$1,500,000 for maintenance in 1914 and 1915. Representative Henry of Wichita introduced a bill for the regulation of the state institution for the training of juveniles at Gatesville.

The House spent the remainder of the morning session in debate over the direct election of senator's bills. The arguments were protracted. After a short session this morning the Senate adjourned to allow the Senate finance committee an opportunity to work. An adjournment until next Monday was at first considered but it was decided to reconvene at five o'clock this evening to allow Senator Oliver from the first district to take the oath of office.

Power Company in Court. Denver, Colo., Aug. 1.—The right of the government to control power sites and water rights and to force individuals and corporations to bow to its will in the matter of taking out permits and paying fees for the use of government lands, will be fought out in a case which began in the United States district court here today. The government is trying to force the Central Colorado Power Company to take out permits from the forestry service before it can use the forest lands. It is alleged that Colorado is rapidly drifting into "the arms of the power octopus" and that the state, through its law officers, is unwittingly aiding and abetting the great eastern power concerns by intervening in the case and asking to be heard against the government.

The entire issue will be fought and state's rights will be involved before the case is finished and if the government is successful it is understood that similar court proceedings will be immediately instituted in a half dozen other western states. The government contends that it is merely acting as a protector of the state and the individuals and that it is trying to prevent a monopoly of natural resources from which the state of Colorado should receive a huge annual income. The state has come into the case, it is alleged through the influence of politicians who are favorable to the monopolist power concerns.

## WOULD PROBE ALLEGED HARD COAL TRUST

By Associated Press. Washington, Aug. 1.—Investigation of the hard coal trust was proposed in a resolution introduced by Representative Murray of Massachusetts today. It calls on the secretary of commerce, the secretary of labor and the Interstate Commerce Commission for information as to the ownership of anthracite coal lands by railroads and about the cost of production.

## WHERE CURRENCY BILL HITS YOU

TOM, DICK AND HARRY VITALLY INTERESTED IN PROPOSED LEGISLATION

### IT AFFECTS EVERYBODY

Write Money You Need in Business is Refused You it Goes to Speculators

"What is the use of getting all worked up and sweating over a new currency law? Inquires the Man in the Street, which is the present alias for our old friend, Mr. Ultimate Consumer.

"If we could find some way to provide by law for a nice bunch of money for everybody there would be some sense to this disturbance. But I give up long ago any idea of gaining profit by legislation. The currency seems to be perfectly good so far as it goes. I never have any trouble with it when I can get some. So why should Congress be disturbed about it?"

This is what several million Men in the Street say to themselves when they read the papers about Congress wrestling with the currency bill. In the course of years they have become schooled in the intricacies of the tariff, at least to the extent of knowing that there is such a thing as an ad valorem duty, which isn't the same as a specific duty. But the currency proposition with its red-tape counts and reserves and such—well, it's all hot air to them.

They don't see what stake they have in currency legislation. The banks might be concerned. But why should anybody else.

The Trouble in 1907.

Well, other people were in 1907. Ask your merchant friends about it. The average merchant does a good share of his business on borrowed money. If he can borrow from the bank at 6 per cent and make 15 per cent on the money that he uses, it is obviously a profitable way to conduct his affairs.

Moreover, banks like to lend on commercial paper. It is what they call a "liquid asset." That is, the merchant who borrows to buy goods is going to be able to pay just as soon as the goods are sold. He doesn't ask for long time loans. So money lent to him is coming in again shortly.

That is what a bank desires, for it always likes to have money coming in with which it can pay depositors if they should happen to want their money. A savings bank can require its depositors to give sixty days' notice before withdrawing deposits. A commercial bank must pay depositors on demand. So it is essential that it keep its investments where it can get hold of them in short order.

Now, then, with this situation in mind, consider what happened in 1907 when everybody got cold feet and the banks were taking in money as fast as they could to guard themselves against the effects of possible runs. A merchant, for instance, would call on his banker to see about renewing a \$25,000 loan.

"Can't you get along with \$20,000 Mr. Jimpson?" the banker would ask. "We are simply up against it. Our country correspondents are calling for currency, and we must curtail our loans."

If Mr. Jimpson could persuade the banker that he absolutely couldn't pay \$5,000 on his note and that he must have the full \$25,000, he got it. Otherwise, he didn't. Everywhere banks were doing the same thing.

There was a banker who sent word to a customer that he wanted to see him. "We have your note for \$30,000," said the banker. "We want you to be prepared to take it up."

"But isn't the security all right?" the customer protested. "Have you any doubt about it?"

"None in the world," the banker replied. "But we've got to get money to know you can pay if you have to. A lot of our customers can't. So I'm looking to you for the money."

The borrower compromised finally on a payment of \$15,000.

One Merchant's Experience.

This condition existed all over the country. A famous case was that of one of the biggest merchants in New York City, with a nation-wide reputation, who suddenly found himself unable to borrow money. The banks, who were the usual purchasers of his notes, absolutely weren't in the market. They had no money to spare. He had the security, but it was with the greatest difficulty that he managed to pull through.

A story is told of a friend of this merchant who happened to make some lucky speculations on the stock exchange at this time, which was before the panic broke. He was a man whose credit was good and he had telephoned his original order from somewhere out in the country, so that he did not happen to put up the customary margin. His stock moved in the favorable direction so rapidly that his profits provided the margin for a series of speculations, all of which turned out well.

He called at his broker's office one day to see his account. The broker showed him that he was borrowing a million dollars or more from the banks to finance his transactions.

"Heaven help us," he exclaimed. "Here I am borrowing a million dollars on a 35-cent long distance telephone call for speculation, while my merchant friend can't borrow money on one of the biggest stocks of merchandise in the country!"

His remark was a humorous exaggeration. But it served to emphasize the fact that under the existing system money can be had in Wall Street for speculation at times when men doing the necessary business of the country may be cramped and hampered.

The first electric street railway system in Central America was inaugurated today in Panama City. There are ten miles of track. It was built by New Yorkers.

## AT THE CHURCHES

Lutheran Church (Mo. Synod) (Corner Eleventh and Holliday) Sunday school (German and English) classes at 9:00 a. m. Bible class at 9:45 a. m. German morning worship at 10:30 a. m. There will be no English services at night. A special meeting of the voting members of congregation will take place at 2:00 p. m. Ladies Aid at 2:30 p. m. Choir practice at 8:00 p. m. C. M. BEYER, Pastor.

First M. E. Church, South (Corner Tenth and Lamar) Preaching at 11 a. m. by the pastor, in line to fill the pulpit. At 8:30 p. m. here will be a lecture by one of the National Workers in the "Anti White Slave Movement." This latter hour is set apart for a general rally for all the churches of the city. Every man and every woman in the city should hear this lecture. The Epworth League and the Sunday school meet at the usual hours. During the pastor's absence at the State Epworth League at Epworth-by-the-Sea, Dr. McKee will have charge of the pulpit, and will have pastoral oversight of this as well as of his own congregation. Any Methodist needing pastoral assistance will be free to apply to Dr. McKee. J. W. HILL, Pastor.

First Church Evangelical Association (Corner Fifteenth and Broad) Sunday school at 9 a. m. German preaching service at 11 a. m. At 7:45 we will hold an echo meeting of our S. S. and Y. P. A. convention which was held at Brownwood Texas some time ago. Several of the best papers prepared for the convention, will be read including one paper of the Women's Missionary Society. All of these papers are in the English language. All are cordially invited to attend these services. C. ERMEL, Pastor.

Free Methodist Church Sister Wright will preach Sunday morning at 11; also at 8 p. m. Sunday school at 9:45 a. m. Everybody cordially invited. J. A. RAWLS, Pastor.

Lutheran Trinity Church (Corner Fourteenth and Bluff) Sunday school at 9 a. m. Morning worship at 10:30. Luther League meeting at 4 p. m. Choir practice Monday at 8 p. m. A cordial invitation to all. F. A. BRACHER, Pastor.

First Baptist Church (Corner Austin and Tenth) Special attention is called to the line of the services. Sunday school at 1:15. Preaching by the pastor at 10:30 a. m. The congregation will join in the special service at the Methodist church at the evening hour under the direction of the Anti-White Slave Association. Dr. S. E. Betts will speak to women only at 3 o'clock on the white slave traffic. Sunbeams at 4. Mrs. J. B. Jones, leader. Volunteers at 6:30. Mrs. Mary Brown, leader. B. Y. P. U. Division A at 7:00. B. Y. P. U. Division B at 7:05. The ordinance of Baptism will be administered at 7:30 p. m. Strangers and friends are cordially invited to worship with us.

### MONEY REFUNDED WITH A SMILE.

Leading Drug Store Will Give Money Back Should There Ever Be a Case Where Dodson's Liver Tonic Fails

Dodson's Liver Tonic is a mild vegetable Liver Tonic which operates so successfully in cases of constipation; torpid liver or biliousness that it has practically taken the place of 'calomel'—the drug which is so often dangerous. Miller Drug Store, who sell Dodson's Liver Tonic, recommend it as a reliever of constipation, sour stomach, biliousness and sluggish liver. It works gently, surely and harmlessly. If a bottle should ever fail to give satisfaction Miller Drug Store will refund the price paid without question.

The price of Dodson's Liver Tonic is 50 cents per bottle. Be sure you get Dodson's Liver Tonic and not some medicine put up in imitation that is not backed up by a guarantee and that may contain harmful drugs.

### Her Description.

Of all "aptitudes," the mechanical is least likely to manifest itself in a feminine brain. The young woman whose visit to a locomotive works is described in Young's Magazine was doubtless interested in what she saw, but her account of the processes observed leaves the reader to doubt her entire understanding of them.

"You pour," she told a friend, "a lot of sand into a lot of boxes and you throw old stove lids and things into a furnace and then you turn the red hot steam into a hole in the sand and everybody yells and shouts."

"Then you pour it out, let it cool and pound it, and then you put in a thing that bores holes in it. Then you screw it together and paint it and they take it to a drafting-room and make a blue print of it."

"But one thing I forgot—they have to make a boiler. One man gets inside and one gets outside and they pound frightfully and then they tie it to the other thing and you ought to see it go!"

### Materials the Mississippi Conveys.

From a large number of analyses of the waters of the Mississippi river it is estimated that the great stream carries annually into the sea during the average year 136,400,000 tons of dissolved salts and 340,000,000 tons of sand and other suspended matter, a total of 476,400,000 tons of material extracted by the rocks and soils of its drainage basin—Scientific American.

### Rather Ambiguous.

New Roads for Missouri Jefferson City, Mo., Aug. 1.—Governor Major announced today that he will, within the next few days submit a plan for road construction which he believes will receive the indorsement of the legislature when it next meets. Even if the legislature does not approve the plan, Governor Major believes the residents of Missouri will follow it out. It is the Missouri governor's idea to have the men of the state spend ten days working on the roads in their respective communities. Recently the people of Boone county did this and it worked beautifully. The governor believes at least 250,000 men with teams will give over two days to road building.

Wichita Falls, Texas, Aug. 1, 1913

Probably every man who is elected to a state legislature thinks he is on his way to congress.

No. He has an idea that his election to that body qualifies him to be a speaker. After that, he is generally undecided whether to ask for gubernatorial or senatorial honors.

Chas. Mills of Corsicana, another son of a great man, has announced that he will be a candidate for the governorship. That makes the third—Lane, Hanger and Mills.

Baffled in their own efforts to find a clue to the fiend who murdered Miss Brown at Dallas on the 28th, the police authorities of that city have finally concluded to send for William J. Burns, the noted detective.

The Times is glad to note that Rufus W. Riddles has been appointed postmaster at Electra. Mr. Riddles made his home in Wichita Falls for several years, during which time he made friends rapidly.

In speaking of a Constitutional Convention, the Dallas Times-Herald is of the opinion that Texas had best let well enough alone rather than trust the making of a new constitution to the present bunch of politicians who now seem to have full swing of affairs po-

litical in the state. And there is more to the Times-Herald's contentions than one might think for. There are good reasons to be advanced why a State Constitutional Convention should be called, but if such a convention should be dominated by the same influences that have dominated our state nominating conventions for the past few years, Texas had best wiggle along with the old worn out document for a while longer rather than take chances on getting a substitute that would mean nothing and everything at the same time.

Ambassador Wilson recommends "restricted recognition" for the Huerta government in Mexico, and President Wilson has recommended "the rest cure" for Ambassador Wilson. That is about all one can gather from the Washington dispatches. The chances are, however, that the Ambassador's recommendations will be ignored, as they should be. It was in his power, had he chosen to use it, to have saved the life of Madero. Instead of doing that, it looks just as if he had shown the yellow streak in him, and conspired with Huerta and Diaz in planning the assassination of the president of Mexico. It would be a disgrace to show him to go back to represent the United States in Mexico after showing such cowardice.

Regardless of whom it is aimed at, or whether it is, in fact, aimed at anybody, that "majority election" clause of the direct election bill is one that should be written into the law when it is finally adopted. Plurality elections may favor all of us at times, but majority elections are basically correct, and there would be less factionalism in Texas today had majorities been necessary within democratic primaries.—Deuton Record and Chronicle.

There is little doubt but that if nominees were required to receive a majority vote of the party making the nomination the public would be the gainer. In the humble judgment of this paper, the man or candidate for office who is against "majority rule" is the man for the majority to leave severely alone. It is quite possible for majority rule to make mistakes, but not quite so many or often as are made when minority candidates are named.

WHAT BECOMES OF THE BABIES About two and a half million babies

are born in the United States each year. Nearly half a million die in their first year, while half of all that live boys will marry before they reach the age of twenty-three. Of the one and a quarter million who live, a certain proportion will become industrious citizens of average ability, and the smaller proportion will be the leaders of men, the doers of deeds, while there will be a very definite proportion that will, by reason of their heredity, become criminals, epileptics, paupers, alcoholics. The other more healthy and able people of the United States have to support these incapable ones. There are about half a million insane and epileptic, feeble minded, blind and deaf; there are 80,000 prisoners and 100,000 paupers—all of whom cost the United States over a hundred million dollars a year.—Pediatrics.

Miss Pearl St. Clair and W. J. Garner, both of this city were united in marriage by Rev. J. W. Hill at the First M. E. Church, South, this morning.

Papa's postal got here first and that's the reason why a Faxon, Oklahoma, couple didn't get a marriage license yesterday. The postal came in the morning's mail and the couple arrived in person at noon. The postal from the young man's father said he wasn't of age and instructed Clerk Walsh not to issue him a marriage license. The young man claimed he was 21 and that his bride to be, a young widow, was 17, but with papa's postal before him Deputy Clerk Walkup was compelled to decline to issue the license which he hid in his most sympathetic manner. The youth protested that he was 21 all right and that the "old man" just didn't want him to marry the widow. He left expressing the belief that he would find a clerk somewhere whom papa's postal cards had not reached.

### AMOS STEELSMITH FATALLY HURT

PROMINENT OIL MAN CRUSHED  
BENEATH FALLING DERRICK  
NEAR ELECTRA

### DIES FEW HOURS LATER

Necessary to Chop and Saw Timbers  
ON His Body—Sketch of Ca-  
reer

Amos Steelsmith, one of the best known figures in the oil business in the entire country, died at Electra last night a few hours after he had been crushed beneath a falling derrick.

At the time of the fatal accident Mr. Steelsmith was helping his son, Charles Steelsmith, pull the casing from a hole on the Fisher lease east of Electra. The casing was stuck hard and fast in the hole and the power exerted to loosen it pulled down the derrick. Mr. Steelsmith was in the engine room when the derrick started to come down and ran out. When he did so he ran right under the falling timbers. He was crushed to the ground and pinned there and it was necessary to saw and chop the timbers away before he could be released.

He was taken to Electra where an examination showed a severe wound in the back of his head, a double fracture of his left arm and his right leg crushed from the hip down. The time of the accident was about five o'clock and he lived until nearly 8 o'clock. News of the accident was telephoned into Wichita Falls and Dr. Everett Jones, accompanied by Mrs. Steelsmith went up to Electra in an automobile arriving before his death.

Mr. Steelsmith was 62 years of age and was a native of Pennsylvania. He had been in the oil business for about thirty-five years and at one time was one of the largest operators in the Pennsylvania and Ohio Trenton rock fields. He was also one of the earliest operators in the Oklahoma fields.

He came to Electra more than two years ago and most of the time had been employed with the Corsicana Petroleum Company, and was in charge of all that company's drilling in Archer county.

He had property of his own in Oklahoma and Louisiana which recent developments had made valuable and a short time ago he had resigned his position with the Corsicana company to look after his own interests.

Mr. Steelsmith's home was at 804 Brook street in this city. He leaves a widow and two children, Mrs. Sadie Braun, whose home is in New York and Charles Steelsmith, a drilling contractor who operates in this district. The funeral arrangements had not been perfected this morning.

Mr. Steelsmith was a man of high character and was very popular among the oil fraternity and with the citizens, who knew him, and news of the accident, followed a short time later by word of his death, cast a gloom over the oil men who are gathered here.

A Tribute From W. G. Long.  
W. G. Long pays the following tribute to the deceased.  
A long and honorable life came to

a tragic end yesterday when Amos Steelsmith was killed by the wrecking of a derrick while gulling casing on the Fisher well.

Mr. Steelsmith, at the time of his death was between 65 and 70 years of age. A big whole-souled lovable man and a patriarch among the oil men. Where it was that he entered the oil business I do not know, but thirty-six years ago in 1883 he was a prominent and wealthy oil producer in Warren county, Pennsylvania.

He was one of the pioneers in the Trenton rock fields of Ohio, and was among its most successful operators. But it remained for Pennsylvania to open up her treasure to Amos Steelsmith. In 1890 in Butler county, he was the largest independent oil producer in Western Pennsylvania, and was rated at that time as a millionaire.

It was there he reached the zenith of his financial success. During his success in Butler county he became interested in the Indian Territory now Oklahoma, and drilled the second well that was ever drilled up to that time. This was in 1893. Between the years 1900 and 1905 he had some financial troubles. Since that time the oil men of the West, Southwest and the Middle West have had an example of patience and fortitude that was foremost and pathetic. Having all his life been used to all that money could buy, and at an age when most men are retiring from the activity of the oil field, he found it necessary to start all over again. He came to Texas when the Electra field was young, and was employed by the Corsicana Petroleum Company up to a few days ago when he resigned to go to Oklahoma. The trip had been deferred for some reason and it was while helping his son, Charles Steelsmith, that the fatal accident occurred.

He was one of the few—the blazers of the way—who never would doubt's handage on his eyes—he would starve and chill and hurt, but hold to courage and to hope, because he knew that there was proof of truth if he did but try.

Amos Steelsmith was a man, a big, frank, open hearted, honest man. His ledger did not tell what he was, or what he was worth. I'd rather count what is in a man, than what is on him. I have seen Amos Steelsmith in flush of dollars. I have seen him again when the shadows had grown long and the sun of life had begun to go down behind the hill broken in purple. I have seen him tried by fire and when he emerged from the crucible he emerged a big broad-gauged man, happy in his pursuits. There was many an eye that had been a stranger to tears in Wichita Falls last night, that did not turn their heads to hide them for they were many tears, shed for a friend and brother. And when he was taken from the debris, twisted broken and bleeding, he was cared for by the boys that he loved, and was in turn loved by them. He died as he told me a few days prior to the accident the way he wanted to die. He said: "I want to wear out, not rust out and with my hand on the throttle."

And now that the book of life is closed and the balance will be struck I feel and know that it is well with Amos Steelsmith, for he was too big to be little, too lovable to stoop to any thing small.

### CREAMY WHITE WIGS THE VOGUE

LIKE WRAITHS FROM THE EIGH-  
TEENTH CENTURY SNOWY  
LOCKS OF WINTER  
RETURN

### IS INDEED HAIRROWING

Big Hat Still Struggles Desperately  
for Supremacy Despite Cocky  
Little Shaps

(By Margaret Mason, written for the United Press.)  
Because all's fair in love and war. No doubt's the reason why instead of having dusky locks Brunettes would rather dye. But golden locks no longer shine Supreme in fashion's light. They must be silver to be chic. A shining silver white.

"This said a fright will turn your hair to white just over night. Hence fashion famed for turning heads. Sometimes is dubbed a fright."

New York, Aug. 1.—Hairrowing though it may be Madame La Mode has decreed that you must get a wiggle on and get a wig on. Like wraiths from the eighteenth century creamy white wigs are all the vogue. Woman's crowning glory has now become woman's crowning hoary and the snowy locks of winter now top springtime faces. There is joy in the hearts of the hair manufacturers erstwhile so downcast with the casting down of all false tresses.

Should my lady still stay to the lure of the peruke however there are yet left two ways by which she can be true to her own locks and fashion at the same time. They are the powder route and the route of the chemical whitening.

The softness of youth that a well powdered coiffure lends to the most hardened countenance is bound to make this method of whitening the hair immensely popular. Especially attractive powder for the hair comes in the most delicious and subtle odors and a head dusting of sweet scented oils is a final quaint touch to the finished toilette of a 1913 belle.

French Hair Dresser's Invention.  
Over in Paris where the rage for the "coiffure blanche" has had its birth the hair dressers have perfected a bleaching process whereby a diamond's tresses, no matter what their pristine hue, may become silvery as a lake in the moonlight. A beautiful New York model who has posed for many famous national statues had her hair turned this way several years ago but it is a rather hazardous and strenuous proceeding to change your hair for each whimsy of fickle fashion. It is not to be denied that the effect of snowy hair framing a youthful face set off with a black Niniche hat tied under a decidedly décolleté throat with a chou of midnight tulle is worthy the brush of a 1913 Boucher.

The big hat still struggles desperately for supremacy but the cocky little polk and Niniche shapes, with their fluff of malines or demure swathing of velvet refuse to be put down. Some of the Niniche hats are worn over mob caps of net and lace

for all the world like a Watteau shepherdess.

Frocks Are Turning Green.  
As if from jealousy of the charming hats the frocks are turning all shades of green—sage, emerald, Nile and willow. The green gowns are as much in evidence as if it were a perpetual seventeenth of March and the erstwhile red tones have burned up in their own recent popularity. Velvet and vivid tones of blue are also to the fore but a simple frock of white chiffon is the chaste idol of the hour.

One lovely white chiffon model is made with the skirt slit and draped up in front to simulate Turkish trousers. The baby waist is banded by a picot ribbon of Natter blue just through the bust line and is girdled with the same. Over this is worn a little lace coat of white Chantilly cut exactly like a matinee or bouclair jacket.

Another full white chiffon frock has a straight full skirt falling from a semi-strut waist. An inverted ruffle of frilled tulle flares around the bottom of the skirt and bands the elbow sleeves. Above this ruffle both on the skirt and the sleeves a prim row of art nouveau roses in tones of pink and green are applied in a flat border.

Black and White is the Thing.  
The stunning black and white lingerie frocks with their heavy white embroidered and lace bodices and puffed sleeves, in a word, contrast over the skirts of black satin and underbodices of black net, are French indeed and, together with the popular all black satin and black crepe frocks relieved only by Medici ruffs and frills of white net, go to prove that however tempting other color schemes may become, to have it down in black and white is the thing. Instead of boutonnieres and corsage-bouquets of artificial flowers that have delighted Fashion's fancy up to now, quaint little fruit bunches are the newest-fad worn at your belt or bosom. They adapt themselves beautifully to the fast approaching harvest days of Autumn. What endless possibilities this fussy fashion presents as adapted to personalities.

We respectfully submit a few suggestions as follows: A boutonnere of grapes for William Jennings Bryan, with perchance a bunch of dates. Apples for a daughter of Eve. Peaches for Vincent Astor. Some permission for a Tammany chief. Melons will not be popular this season with New Haven railroad officials.

### FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots.  
How to Remove Easily.

Here's a chance, Miss Freckle-Face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles, while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of othine—double strength—from any first-class drug-gist, and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine; as this is the prescription sold under guarantee of money back if it fails to remove the freckles.

### LIBERAL SUPPORT FAVORED BY FARMERS

Ten Representatives of Farmers' Con-  
gress Urge Legislature to Make  
Liquor Legislation

Austin, Texas, Aug. 1.—Saying that the progressive farmers of Texas were not afraid of high taxes, ten representatives of the Texas Farmers' Congress pleaded Thursday before a joint meeting of the house appropriation committee and the senate finance committee for more liberal support of the State's educational institutions in general and the Agricultural and Mechanical College in particular.

"We realize that education is expensive," said one of the visitors. "In fact I don't know of but one thing that is more expensive and that is ignorance. For our part we and the 2,000 farmers in session at College station are willing to pay the necessary increase in taxes."

Headed by J. S. Kerr, the delegation was headed by J. S. Kerr of Grayson county, who introduced in turn William Ganzler of Denton county, who asked that the \$200,000 item for an agricultural building be not reduced. H. M. Ferguson of Foard county, who spoke for veterinary training and the stock interests; J. E. Boog Scott, organizer of "Baby Beef" Boys' clubs; A. M. Ferguson, who made a comparison of Texas' educational facilities with those of several other states recently visited by him and Fitz Englehardt, a truck grower of Colorado county; J. C. Dibrell of Coleman county, who declared our country schools are the poorest in the world and who wanted them and all the higher institutions of agriculture to be placed on a par with those of several other states recently visited by him and Fitz Englehardt, a truck grower of Colorado county; J. C. Dibrell of Coleman county, who declared our country schools are the poorest in the world and who wanted them and all the higher institutions of agriculture to be placed on a par with those of several other states recently visited by him and Fitz Englehardt, a truck grower of Colorado county.

Call On Governor.  
The delegation likewise called on Governor Colquitt to urge liberality for the state institutions and likewise the Agricultural and Mechanical College. When Governor Colquitt, in accordance with Thursday night's dispatches, outlined to the committee the possibility of a 22 1/2 cent state tax rate increase, each of his eight children might secure just the education suited to it; T. P. Robertson of Bartlett, a bee-keeper; D. B. Matthews of Austin, who spoke of the farmers' demonstration work and K. McGinnis of Terrell who asked an appropriation of \$10,000 to enable the experiment stations to prepare suitable exhibits for the National Corn show, which meets next February in Dallas.

The delegation likewise called on Governor Colquitt to urge liberality for the state institutions and likewise the Agricultural and Mechanical College. When Governor Colquitt, in accordance with Thursday night's dispatches, outlined to the committee the possibility of a 22 1/2 cent state tax rate increase, each of his eight children might secure just the education suited to it; T. P. Robertson of Bartlett, a bee-keeper; D. B. Matthews of Austin, who spoke of the farmers' demonstration work and K. McGinnis of Terrell who asked an appropriation of \$10,000 to enable the experiment stations to prepare suitable exhibits for the National Corn show, which meets next February in Dallas.

"But you are city farmers," rejoined the governor. "The tenant farmers and farmers that live in the country, some 60 per cent in all, would have a mighty big objection to paying any such tax rate," he insisted.

Will Swing the Ax.  
His demeanor rather indicated that there is going to be some big slicing done to keep the tax rate from going as high as he believes the appropriations made by the legislature would force it, if they were allowed to stand.

With regard to the Agricultural and Mechanical College, he told the

delegation that in two years of his administration he has allowed \$924,450 for the Agricultural and Mechanical College; that in eight years of the Campbell and Lanham administrations only \$354,924 was given the institutions, and therefore he has in two years allowed it only \$579,467 less than it was given by two of his predecessors.

The whole information was put into a letter to Hugh Nugent Fitzgerald of the Fort Worth Record, showing that in Lanham's first term, Agricultural and Mechanical College received \$230,911; in the second \$199,001; in Campbell's first term \$256,005; in the second \$209,005.

Liquor Legislation.

Representative Allison has gone on the assumption that Governor Colquitt is to submit the matter of making the Webb bill effective by preventing interstate shipments. He had a conference with the governor before preparing the bill. It provides that any man who ships into or carries into dry territory interstate shipments of liquor shall be sent to the penitentiary for one to three years. Corporations may be fined \$500 and express companies are liable for interstate shipments. Liquors for sacramental uses are not exempted though drug stores with registered pharmacists may get alcohol for medicinal use and educational and oleomargarine institutions may get it for medicinal or scientific purposes. There is nothing to prevent a man carrying in liquor for the use of his family.

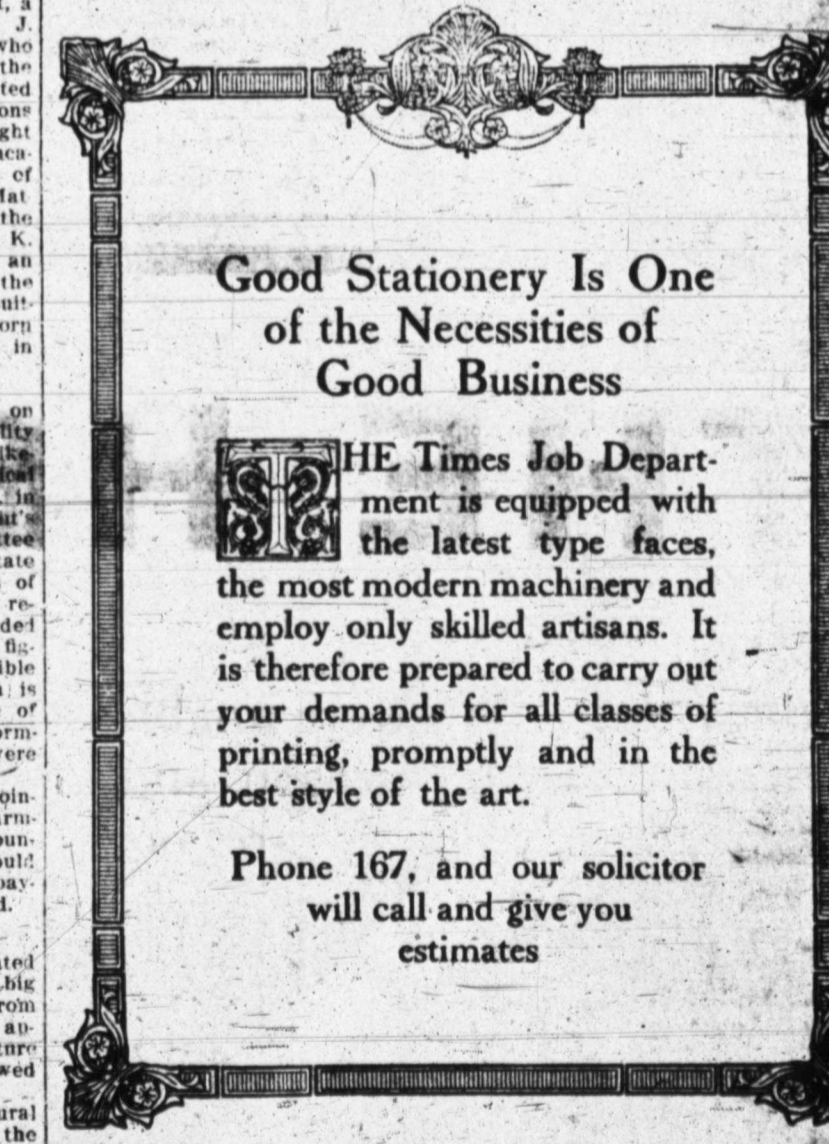

The Senate wrangled all day over the adoption of the "lost convict" in-

vestigation committee report. Colquitt had offered a resolution indorsing the findings and recommending pardon in the 400 cases reported to Governor Colquitt by the committee.

New York Taxi Rates Cheaper

New York, Aug. 1.—Starting today you can hop into a tax in New York City and ride a considerable distance without having to give the chauffeur your watch, rings and a mortgage on the old homestead for payment. Sweeping reductions in the rates are included in the new law which went into effect today. One part of the new regulations prohibits the use of "unit racks and irresponsible drivers." An entirely new system of registering for licenses by prospective chauffeurs and drivers becomes effective. By the new system the taxi patron may feel assured that he is not being "chauffeured" by a thug, yeggman, pickpocket or escaped convict—which he couldn't be certain of before today. All taximeters will be inspected regularly, in some instances daily, and the chauffeur who "runs up" his indicator on a customer, is liable to heavy fine or a jail penalty or both. Because of the frequency with which dishonest chauffeurs formerly got patrons, inebriated and otherwise, to ride on the front seat with them under various pretenses, and then rob them, both the passengers and chauffeur are liable to fine if the former rides outside with the driver.

A little imagination will sometimes blossom into a great actuality.

**Good Stationery Is One of the Necessities of Good Business**

**THE Times Job Department is equipped with the latest type faces, the most modern machinery and employ only skilled artisans. It is therefore prepared to carry out your demands for all classes of printing, promptly and in the best style of the art.**

FINE RACES AT VERNON THURSDAY

Feature Event Was the 2:35 Pace Won by Bill Taft—Best Time 26 1-4

Special to the Times. Vernon, Texas, Aug. 1.—The third day of the Vernon race meet was probably the most successful from every point of view of the season in the Texas-Oklahoma short-harp circuit. The races were spirited contests and the crowd filling the grandstand and the bleachers to overflowing. The people here are enthused over the meet and many will follow the horses to the big meet in Wichita Falls next week.

Again today the Texas-Oklahoma Oklahoma track record was lowered one second. This time by Bill Taft in the 2:35 pace. This was a wonderful record for horses of this class. They finished the first quarter in 32 1-2, were at the half in 1:05; they slowed on the third quarter but came to the stretch in one of the prettiest bursts of speed that could be imagined. The last quarter was paced in 32 seconds. Bill Taft is making a wonderful showing in this circuit and those who have seen him pace are going to watch the papers when he gets on the big circuits later in the season.

Many of the horses are leaving today for Wichita Falls where the big, best meet of the circuit is expected next week. Yesterday's results follow:

- 2:35 pace, purse \$300. Bill Taft, Brewer, 1 1 1; Johnnie Patch, Seignor, 2 2 2; Dixie Hal, Hodges, 3 3 3; Allator and Al Onward distancer. Time 2:18 1-4; 2:20 1-4; 2:26 1-4.
- 2:20 special trot, purse \$100. Loom Up, Wood, 1 1; Daisy, Hodges, 2 2; Buster B., Miller, 3 3; Fay Harriman, Holcomb, 4 4; Floyd Togo, Black, 4 5. Time 2:25 1-2; 2:24 1-4.
- Three-eighths mile dash, purse \$75. El Molind, 109, Hamilton, first; Billy Sunday, 169, Moore, second; Catch Bird, 109, Walker, third; Blue Devil also ran. Time 0:37.
- Special five and half furlongs, purse \$100. Wild Irish, 107, Hawkins, first; College Widow, 107, Walker, second; Recover, 107, Hamilton, third; Avena Rose also ran. Time 1:10.
- Slow mule race. Coppeland, Regel, first; Ivy, Gilliland, second. Weekly also ran. Time 7:12.
- Fat man's race. B. F. Vaughn first, John Carr, second, Si Bailey, third. Time 9 seconds.

ANTI-WHITE SLAVERY MEETING ARRANGEMENTS

Separate Meetings for Men and Women Sunday Afternoon—Mass Meeting at Night

Details of the arrangements for the lectures here Sunday by Dr. F. H. Essert and Dr. S. E. [unclear] of the International Anti-White Slave Association have been closed and are announced as follows: At 3 p. m. Dr. Essert will speak to men only at the First M. E. Church, South, on "A National Peril." At the same hour Dr. Betts will speak to women only taking as his subject "The Horrors of the White Slave Traffic." At 8 p. m. Dr. Essert will address a mass meeting at the First M. E. Church, South on "The Blackest Criminal in History." These men are lecturing under the auspices of the international anti-white slavery organization and will come here vouchered. Their addresses will be a plain presentation of the facts in white slavery and will be as devoid of sensationalism as it is possible to make a statement of the facts in connection with this evil.

Is Wiser Than Solomon. London, Aug. 1.—Dispatches from Bangkok, capital of Siam, carry the report that the present king will shatter all traditions of his ancestors and have only one wife. Left a legacy of 600 widows and the right as heir to the throne to have as many wives as his father before him had, the present king, who was educated at Oxford, England, will not indulge in that doubtful pleasure of having more than one helpmeet. Siam, the dispatches tell, is experiencing a radical change in government and social life. The young king has inaugurated at least one custom that is making a great hit with his subjects in building theatres in several large cities of his kingdom, which are being run by the government. No attempt will be made to make money on the project, the cost of admissions being kept at a figure which will assure the permanency of the drama. The king has adapted a number of English and French plays and operas to Siam. One of the king's theatrical companies is now rehearsing a Siamese translation of one of George Bernard Shaw's plays. Later on, the king will open negotiations with several French and American moving picture companies with the idea of establishing a moving picture theatre in his kingdom. The king's personal life is more than any other of his subjects.

### FROM LOS ANGELES TO WASHINGTON

Party Traveling on Burros Extolling Merits of Tubercular "Cure" Stop Here

Tramping overland from Los Angeles, New York and carrying a message to President Wilson to be delivered at Washington, a party of five, three men and two women are in Wichita Falls today. The party consists of Carrie Van Gansbeck, Mabel Clark Ackerman, N. A. Clarkson, J. T. Price and Al Berger and they represent "Tuberclecid," a Los Angeles treatment for consumption. Three of the party claim to have been cured by the treatment and the object of the long tramp is to interest the public and especially the government at Washington in the treatment. The party left Los Angeles on April 8 and have traveled 1975 miles. They have with them three burros, packed with camping equipment and every step of the distance has been made on foot. The party averages twenty miles a day and camp wherever night overtakes them. Only one night have they slept in a hotel. J. T. Price, the oldest member of the party is 69 years of age and claims to be the second oldest man who has ever undertaken the task of tramping across the continent. Three years ago he says he was given up to die from consumption, but he doesn't look it now. Although he is thin and bony, he is brown as a nut. The whole party in fact, are tanned like Mexicans from the trip across the desert and over the plains, but every one looks the picture of health. The two young ladies in the party, one of whom a short time ago was in a far stage of consumption are especially healthy looking and seem to stand the strain of the long hike even better than the men do. The party will remain in Wichita Falls on Sunday and will go from here along the Denver to Henrietta and thence to Ringgold and into Oklahoma.

Denver Entertains Daniels  
Denver, Aug. 1.—Secretary of the Navy Josephus Daniels was the guest of Democratic leaders and state officials here today. A program of speeches and a luncheon had been planned for the secretary when he stopped off here on his way back to Washington from the Pacific coast.

We have for sale immediate acceptance a new 5-room house one block of car line in Floral Heights at \$1300. This is on HIGH ground and cool. Remember we write insurance of all kinds and "write it right." FRIEZE & PEERY  
Office over First National Bank

"Office Hours Always"

Palestine—The peach crop in this vicinity is extremely short there being only 25 cars shipped to date compared with several hundred for an average year. The quality is fine and the growers are getting better prices than last year.

### The Floral Heights Realty Company

Has changed its location, but not its policy. The policy of this company has been to give the best bargains in real estate for the least money. This policy will still be carried out. There is only one FLORAL HEIGHTS ADDITION. There will be no other. Of course, the city will continue to grow; there will be lots of other additions put on the market, but Nature has only provided one Floral Heights Addition. It has all the requirements, being high, beautiful, commanding, picturesque, cool and cheap. What more could you ask for your money? You can still purchase

Beautiful Lots from \$250.00 to \$500.00

And now is the time to buy, as they are sure to advance this fall. See

Mrs. H. B. Patterson and daughter and Miss Mammie Eppler left this afternoon for Amarillo to spend several days with friends.

Clarence Dodge will leave for Denver tonight to spend his vacation.

Tom Petty and wife of Fort Worth, are the guests of William Jorshut and family.

Millard Scovell has given up his position with Blair-Hughes Company and has gone to Houston where he takes a place with W. D. Cleveland & Company, cotton factors.

Chas. R. Fuller who has been in the office of Carroll-Brough-Robinson-Gates Co. for some time, has been appointed to the position with the Blair-Hughes Co.

Mr. and Mrs. Phil Kleinman returned today from their bridal tour. For the present they will make their home at the Jolina apartments.

Mr. and Mrs. J. B. Newland left this morning for a few days visit with friends in Amarillo.

Of the many causes that produce headaches, eyestrain is, perhaps, the most common and the most important. Headaches from eyestrain are extremely persistent, and are productive of many derangements of the general system. Any disturbance of the relation between the anatomical structure of the muscles of the eyes and its curved, transparent surfaces would cause the act of seeing to be attended by great strain, either in the organ of vision or at the center of the nerve supply. Nature does her best to remedy this strain by exerting an additional amount of muscular effort, which results in fullness of the blood vessels of the head. This causes the brain to become irritated and dull, and headache is the natural consequence. No amount of drugging will alleviate this condition, since the cause resides in the visual organs, and unless the disturbance is corrected by properly fitted glasses the headache will continue. Let us remove that eyestrain.

No "drops." We know how

**GOOD WELL NEAR FOWLKES' TOWNSITE**  
Oil Sand Struck at Depth of 822 Feet On B. B. Cockran Tract Thursday

A new well is reported on the B. B. Cockran land, close to Fowlkes townsite and midway between Iowa, Park and Electra. The land lies about 400 yards from the hole drilled by H. B. Hines and is said to be producing over 50 barrels. The oil was struck at a depth of 822 feet.

Levi Gambill of Amarillo has opened a grocery store in the building at the corner of Eighth street and Indiana avenue. Mr. Gambill comes to Wichita Falls with years of experience in the grocery business and with his location should make a great success.

Fort Worth—The Texas Grain Dealers Association estimates that the 1913 yield of oats will exceed the demand by 10 million bushels in this state.

Corpus Christi—The line of the San Antonio and Gulf Railway is expected to be completed and trains running into this city by December this year. The line is practically completed to Mathis, 40 miles from here, and trains will be established by the first of September.

**MILLIE AND LILLIE**  
A pair of twin song birds doing a klek and scream act with the Frizzly Chicken Dramatic Company which was the most brilliant aggregation of murderers of the histrionic art on the tall grass circuit once breezed into a pill emporium to start something in the perfumery department. The entire force of pill mixers dropped everything surrounded these waspy waisted peroxide confections and showed them everything from HOYTS GERMAN TO MARY GARDEN. They gave them more attention than is usually accorded a new colored minister while the natives stuck around and walked on each others corns begging for a chance to put a hot box on the cash register but failed to qualify for attention until the Dolly Grays were gone. Now we do business just like this only DIFFERENT. Our programme is to treat everybody right and that means to treat everybody alike. There are no amateurs in our store. We have gazed across the plate glass at passing humanity until we can tell whether you want to buy a dime worth of safety pins or four dollars worth of glad smelling joy water with blinders on. We give you what you ask for. We know you can tell perfume from fly chaser and that you know what you want.

TODAY'S MARKET REPORT

New York Cotton.  
By Associated Press. New York, Aug. 1.—Spot cotton closed quiet and 10 points up. Middling upland 12.10; middling gulf 12.35. No sales. Cotton futures closed barely steady. Sept. 11.79 to 80; October 11.24 to 35; December 11.32 to 33; January 11.24 to 25; March 11.33 to 34.

Fort Worth Livestock.  
By Associated Press. Fort Worth, Texas, Aug. 1.—Cattle receipts today were 1300 head. The market was strong. Steers brought from \$6.50 to \$7.40. Hog receipts 100. Market higher; tops \$9.00.

Mercedes—The harvest of the 1913 cotton and corn crop is in full sway and large yields are expected. Heretofore this valley has produced truck exclusively but a number of farmers have planted feed crops and are raising dairy cows and hogs. Several silos are under construction in this vicinity.

**LOVE—LIFE—HOME**  
"Dust thou art, and unto dust returneth Was not spoken of the soul."  
How strong and faithfully does every good and noble life bear out the above sentiment from the Poet's Pen. Man and woman pass through this life battling with conditions and yielding to environments as nothing else does. Each have their circle of friends and loved ones. Each their joys and their sorrows; each their creeds and desires while playing an important part in our actions comes greed, avarice, misfortune and penury.  
What emotions fill the human breast as varied as life itself. So thrilling that no hand however skilled can picture it; so tragic that no human tongue however voluble can express the heart rending emotions that wring bitter tears from human eyes. So full of hope that we place angel wings on human form and halos of light around their mortal head.  
All thanks to Pandora! Hope points above where weeping loved ones see the way to a brighter and better life beyond.  
Our MEMORIALS tell the full story of LOVE, LIFE, HOME, COMPLETELY and EVERLASTINGLY.
