OKLAHOMA CITY MAN ADDRESSES MEETING

TELLS STARTLING STORY OF AL-
LEGED MISRULE, INEFFICIEN-
CY AND CORRUPTION

OTHER SPEAKERS

Judge Felder Talks and City Attorney
Bonner Replies to Commission
Speakers

An astounding story of corruption, misrule, extravagance, inefficiency, throwing of the people's wishes and demands, and of unsavory relations between the government and the people in Oklahoma City under the commission form of government was told to a large audience at the Wichita theatre Tuesday night.

Mr. Ruth backed up his charges with documentary evidence taken from the reports of the city commission, affidavits and newspaper accounts of the investigation and the indictment, arrest and conviction of city officials, and showed a condition of affairs in the capital of the new state that was fairly appalling, if true. Mr. Ruth spoke for nearly two hours and held the intense interest of his audience.

A crowd that filled nearly every seat of the first floor of the theatre heard the speakers of the evening, who included Judge C. B. Felder, City Attorney W. N. Bonner and Mr. Ruth. The band played before the meeting was called to order. Another meeting of the adherents of aldermanic government was announced for Thursday night. A number of citizens sat on the stage.

Judge Felder Presides
Judge Felder presided at the meeting. He said that it was gratifying to see the awakened interest in the political subjects under discussion and declared that the developments of the last few days showed that the people of Wichita Falls were alive and keenly capable of electing their own officers.

Discussing a pamphlet distributed at a meeting of the commission adherents he said:
"There is some talk of the short ballot. Is that argument applicable to our city? Has it reached the point where you are unable to select the ten or twelve officers required to man our city government, and must leave this a commission? They talk about a long ballot and a short ballot. I tell you we have nothing but a short ballot in Wichita Falls."

He said he believed those behind the movement for the commission government, if they had thought it could city manager down our throats.

Referring to a statement at the commission meeting that many of the aldermanic leaders were either office holders, ex-officio holders or those seeking office, Judge Felder said that he was proud that he was an officer of the government.

W. N. Bonner Speaks
"He is not only handsome but he is on with the truth," were words used by Judge Felder in introducing City Attorney W. N. Bonner. Mr. Bonner's speech was in reply to statements and arguments advanced at the commission meeting on the previous night. He injected much humor into his reply, which was well received by the audience. He referred in the outset to the "silk stocking, stand pat, commission form of government" and characterized the arguments of the commission men on the previous night as "wholly general and partly in impropriety."

A member of his law firm as city attorney under that commission form of government," he asked. "And did not those emoluments and salaries for one month amount to more than the salary I receive for four months? Who would want to be elected to office, when they could get that kind of an appointment?"

The speaker said the fact that he was city attorney had nothing to do with his support of the aldermanic form, and said that even if a commission charter was adopted he might apply for the job anyway, and that if he did not there were other offices for which, if he wanted, he could ask the suffrage of the people.

He referred to the increased interest of the people in the city government when the officers were elected as indicated in a comparison of the number of votes cast when the commission and the aldermanic governments were in effect in Wichita Falls.

When they had a quasi commission government in Wichita Falls," he declared, "for six years to my knowledge and maybe longer a mandatory statute was totally and wholly ignored but when an aldermanic government went into power and the officers became elective the very first year a very full, complete and detailed statement of the city's receipts and expenditures was published as required by law."

He ridiculed the arguments advanced by the "third" speaker at the commission government declaring that they "were instructive from the point of ignorance alone." He said the "third" speaker had had a great deal to say about the ward system and seemed not to know that there wasn't a line in Wichita Falls defining eastward and that it would be possible to elect all the aldermen from one house. He said that the speaker referred to had never attended a single meeting of the city council so far as he had been able to learn, and that he must have learned all he knew about city government from books and that as there had never been any books written about the city government or great in Wichita Falls, he declared the ignorance of the speaker could be accounted for.

"So many free schools and yet so much ignorance," exclaimed Mr. Bonner when he referred to the injunction of the "third" speaker to be sure to vote for the charter in Saturday's election. He said the speaker seemed not to even know that the charter was not to be voted upon at that election but would be passed upon at a later election.

Mr. Bonner introduced Mr. Ruth who delivered the principal address of the meeting. Mr. Ruth in opening said he wanted to thank the advocates of the commission form for this strife they had stirred up in Wichita Falls as it gave him an opportunity to visit the city. He said, "I was hoping," he said, "that my taxes would be cut down to such a point that I could get enough money to make a visit to Wichita Falls, but I had come to realize that under a commission form of government in Oklahoma City I would never have enough for car fare to come after my taxes were paid."

Judge R. E. Huff Replies To Aldermanic Speakers

TO THE CITIZENS OF WICHITA FALLS, TEXAS:

I was an interested listener to the aldermanic speakers at the opera house last night. The first speaker handed himself the usual bouquet of assumption that he is the protector of the liberties of the people, and that all who differ with him are wicked conspirators who lie awake at night planning to enslave them. The Judge takes himself too seriously. The liberties of the people are safe, no matter which side wins and the attitude of no one man or set of men on either side will cut any figure on that score.

The second speaker, our handsome city attorney, still insists that "the horse is seventeen hands high" and that because he had seen a cancelled pencil memorandum on the original draft of the commission charter, that it reads as he contended it did.

For the information of the citizens of Wichita Falls, I quote in full sections "A" and "B" of Section No. 2 Chapter 4 of the commission charter:

(a) Appointments. The board of commissioners shall appoint the officers enumerated above as vacancies may occur, after this charter becomes effective, who shall hold office until the next regular election, and at the first meeting thereafter shall appoint them and they shall hold such office for two years from the date of their appointments, unless sooner removed by the board of commissioners.

(b) Removal. Any inefficiency, disregard of duties, or active misconduct shall constitute sufficient cause for removal of any such officer and the board of commissioners shall have the power by ordinance to regulate the method of removal.

Now read that carefully and see wherein the board of commissioners has any power to remove, except for the causes stated. There is not a line in any portion of the commission charter that bears out Mr. Bonner's contention, and he should be too fair to insist on it further.

In addition to this charge the statement of Mr. Bonner that the mayor will have anything whatever to do with saying what the commissioners do or do not, or changing the commissioners from one place to another, but each man elected by the people under this charter, will fill the place to which he has been elected. It would be as absurd to say that one of the commissioners could usurp the mayor's power as to state that the mayor could assign to any commissioner his duties.

As to his statements of past history of the administration of the city department, I know nothing and will leave those who have a division of time when we heard you had a gentleman from Dallas was to be here to discuss the commission form of government. Your reply to me on Sept. 22nd was as follows: "Mr. J. L. Jackson, chairman aldermanic committee, Dear Sir: Your challenge for a joint discussion tonight reached me late Saturday evening by mail. Our committee does not meet until this evening at 5 o'clock, too late to make any arrangement for a joint discussion. If they should be willing to do it, I will state frankly, however, that my own individual judgment is against having a joint discussion on this subject. The only matter at issue is as to what is to be the best interest of the city of Wichita Falls. A joint discussion is very apt to make partisans more excited and probably engender some bitterness between our citizens, which I think would be unfortunate and therefore my advise to our committee would be against any joint discussion. Show me that they differ with me I will advise with you. Yours respectfully, R. E. HUFF, Chairman Commission Committee."

Now, at this late date you have asked us for a joint discussion and I will agree with your letter of Sept. 22nd, that I do not think it is good policy to antagonize our citizens as it might cause some strife. We all want to pull together on any form of government we decide on. Yours very truly, "J. L. JACKSON, Chairman Aldermanic Committee."

Terrell—Two new engines have been purchased by the Texas Midland railroad to be used in freight service between this point and Paris. The new locomotives weigh 347,500 pounds each and are capable of pulling 20,000 tons.

St. Louis aldermen of having been bribed.

Commission advocates do not claim that the mere calling of men, commissioners instead of aldermen, effects a change in human nature and renders men either inflexible or incorrupt. Our contention is that having the people elect fewer officials will result in their paying more attention to the elections and usually get better men and that those men so elected in the glare of publicity will give better administrations because of the responsibility which is imposed upon them.

The commission system may not have worked well in Oklahoma City, but I would require more evidence than that of the gentleman who states that the people "kicked him out" before I would render a verdict of conviction. His uncalculated slur upon the Chamber of Commerce of that city and upon a former citizen of Wichita Falls, G. B. Stone, weakens his whole statement.

George Stone made no claim of being a saint, but both at Wichita Falls and Oklahoma City has ever been an active energetic worker for the upbuilding of his home city. His optimistic nature may lead him to overestimate the future advancement in value of real estate to prospective purchasers before I would render a verdict of conviction. His uncalculated slur upon the Chamber of Commerce of that city and upon a former citizen of Wichita Falls, G. B. Stone, weakens his whole statement.

We have no fears of a repetition of Oklahoma City's alleged corrupt record here. Not knowing until yesterday the name of the speaker or that they would have one from Oklahoma City, we have made no investigation of conditions, but I doubt seriously if there is any real foundation for any of the gentleman's charges, but if true it proved nothing except the general conditions of corruption in that city.

Why should not the gentleman have obtained some one who knows, from some Texas city that has tried the commission form of government.

Although while time is short we have arranged for Hon. Warren K. Snyder of Oklahoma City, and Hon. Whit N. Grant, Mayor of that City to address the people Thursday night at 8 p. m. and all citizens are invited to attend and hear a further discussion of this subject.

Believing that the ladies of the city are interested in this question we would be glad to see them out on this occasion.

R. E. HUFF.

THERE WILL BE NO JOINT DISCUSSION.

September 24. Hon. R. E. Huff, chairman commission campaign committee, Wichita Falls, Texas. Dear Sir: On Sept. 21st our committee requested you to give us a division of time when we heard you had a gentleman from Dallas was to be here to discuss the commission form of government. REBEKAH LODGE CELEBRATES ANNIVERSARY.

The Rebekah Lodge I. O. O. F. held their regular meeting Tuesday night at the Odd Fellow's Hall. An unusually large number of members were in attendance and three candidates were initiated and several "more in view." Refreshments of ice cream and cake were served and a pleasant social hour was enjoyed. After the business meeting a number of visitors from Iowa Park and Oklamona City were present. This meeting celebrated the sixty-second anniversary of Rebekah Odd Fellowship.

The following concerning the origin and history of the Rebekah is taken from an exchange: The three links, the emblem of the Odd Fellows, direct our attention to the greatest fraternal organization in existence, the largest numerically, the strongest financially and unlimited in its power for good among mankind. WHENEVER YOU NEED A GENERAL TONIC - TAKE GROVE'S

The Old Standard Grove's Tasteless chill Tonic is Equally Valuable as a General Tonic because it Acts on the Liver, Drives Out Malaria, Enriches the Blood and Builds up the Whole System. For Grown People and Children.

You know what you are taking when you take Grove's Tasteless chill Tonic as the formula is printed on every label showing that it contains the well known tonic properties of QUININE and IRON. It is as strong as the strongest bitter tonic and is in Tasteless Form. It has no equal for Malaria, Chills and Fever, Weakness, general debility and loss of appetite. Gives life and vigor to Nursing Mothers and Pale, Sickly Children. Removes Biliousness without purging. Relieves nervous depression and low spirits. Arouses the liver to action and purifies the blood. A True Tonic and Sure Appetizer. A Complete Strengthening. No family should be without it. Guaranteed by your Druggist. We mean it. 50c.

more, Md., April 26, 1819, Thomas Willey instituted Washington Lodge No. 1, with five charter members. This was the first lodge of the independent Order of Odd Fellows in America. From this has developed over fifty-five grand lodges in this country and Canada, fifteen grand lodges in foreign countries (these are composed of 12,972 subordinate lodges), fifty-two grand encampments, formed out of 2,760 encampments; forty Rebekah assemblies, composed of 5,760 Rebekah lodges and thirty patriarch militant departments, made up of 250 cantons.

An institution that represents such beneficent principles, counsels and commends elevating doctrines, encourages high and lofty motives, must ever be a dominant factor in the universal uplift of mankind. It must and does command the profound respect, the sincere and expressed gratitude of a civilized world. Its purposes are as broad as the needs of humanity and its work will endure as long as troubles beset our pathway and sorrow and sadness wring tears from our hearts. The foundation upon which it stands is as deep as life itself. The spirit of a true Rebekah is that of religion made practical. To see a service of humanity that needs to be done, and to do it without hope of human praise or reward, is as high an aim as could inspire a noble heart.

Basic Principles.
The basic principles of the Rebekah degree have existed since before the time of Christ, hence are not new, but founded upon the teachings of the Bible.

It is not so much what we get out of the order that especially benefits us, as it is what we put into it of personal effort and sacrifice. No person can visit the sick and minister to the suffering without being benefited thereby. The flower carried to the sick room is not only a cause of pleasure to the sufferer, but rebounds in the form of a blessing on the giver, and when we see the practical work of the order illustrated in the home where the elderly brother or sister may pass their declining years comfortably and happily, or the little orphan babe taken in from the cold world, protected from the rough storms of life, educated and given every assistance and encouragement to develop all the good there is within that young mind, we feel a just and worthy pride in our work.

To Make Better Men.
The teachings of Odd Fellowship serve to make men and women better, because they inculcate the principles of benevolence and charity, of fraternity and humanity. We are commanded to visit the sick, relieve the distressed, bury the dead and educate the orphan, than which no greater humanitarian ethics were ever written in history or enacted into statutes.

Youth, the Arbiter of Fashions

The fastidious young bloods of Athens set the tonic styles of ancient Greece. The luxurious young patriars of Rome decreed the cut of the stately toga. A generation ago America's elite-dressers slavishly followed the fashion dictates of the

aristocracy of London and Paris. With the development of the clothing industry to the highest point of tailoring skill ever achieved, the foremost manufacturing tailors of America have naturally become the censors and creators of style.

Stein-Bloch Smart Clothes

have always held to the highest precepts of good taste. They reflect the best thought from the style centers of the world, modified to meet the dictates of American men. Into these garments is tailored that sense of refinement and culture that everywhere distinguishes a gentleman.

Stein-Bloch models both for high-voltage young fellows and men of more serious years are at once accepted by the more thoughtful dressers.

Behind Stein-Bloch Smart Clothes is the responsibility of the Stein-Bloch label, sewn in each coat—the certificate of "Fifty Nine Years Of Knowing How."

You Benefit By Our Good Judgment

Day after day we have the fact demonstrated that thoughtful dressers are finding that Stein-Bloch principles of superior tailoring and good taste in styles mean clothes satisfaction.

We want to serve you best, so we have brought here for you, ready to put on, the smartest and most perfect clothes we know of.

We have the right to claim good judgment in the selection of these world-known clothes as the right clothes for you to buy.

Wichita Falls, Texas, Sept. 24, 1913

One of the elements that has contributed largely to the growth and prosperity of Wichita Falls is that it is a city that is as free from graft as any in the United States.

Inasmuch as the legality of the election to be held next Saturday has been questioned, and in order that the result shall be accepted as final by both sides, it might be a very good idea for the two campaign committees to get together and decide upon a plan as to when the polls are to open and close.

The count of the ballots on the amendments have at last been finished. Thirty-three counties failed to report, among them being Harris, Tarrant and McLennan. It is known, however, that elections were held in these three counties, but why the vote was not reported has not been explained.

A BRIEF REPLY TO JUDGES HUFF AND BRITAIN

Editor Times: I am sorry to see my friends, Huff and Britain, use the stock argument, and time worn expression always used by commission men when speaking of their opponents, "they are good fellows but not informed" and they do not lead in the city's upbuilding and have let the procession get by them.

that is doubtless true, but it strikes us "moses" that you are hard up for argument and that you might be partially wrong.

I am now as I always have been an ardent supporter of President Wilson but in that any reason why I should be for commission government? Bankers in this city, who are Wilson men do not altogether agree with the currency bill advocated by the administration, as they have a right to do.

The idea of electing school teachers who apply from everywhere, and whom we do not know, by a vote of the people, is so ridiculous as to turn the joke on Huff and Britain who took time to expall it as one of the things aldermanic folks might want.

I still insist that under the commission form of government "the commissioners can perpetuate themselves, or their friends in office" through the appointing power.

Every man who will investigate will find every statement made in my form or latter absolutely true.

Gentlemen why not stick to the issue, which is "shall the people or the bosses rule?"

ber of Commerce and the ticket paid for the first election under the aldermanic form. He pointed some of these black that we cannot reproduce his language.

Referring to the city records he said that the last two years under the aldermanic government had cost the city for maintenance \$44,107.16. He quoted from the report of the city commission showing that the first two years under commission government had cost \$1,448,118.81, \$603,000 more than the last two years under the aldermanic form.

Under the last year of the aldermanic form in 1910 the water department of the city had been conducted at a total cost of \$48,000. Under the first year of the aldermanic form it had cost \$88,460, and not one more gallon of water had been pumped.

He told of a fireman who had been injured in a collision with a street car. In the same collision fire apparatus valued at \$5,000 had been destroyed.

der the thumb of the mayor and the commissioners. He is unanswerable only to them. If elected he would be answerable to the people.

None of the Public's Business. He said it had been argued against the aldermanic form that what was everybody's business was nobody's business.

As an instance he said during the last year of the aldermanic form of government in Oklahoma City the city had purchased a house on a condemned right of way, paying \$1500 therefor.

He said he had found an employment of the water works department in stabling and feeding two horses and a cow at the city's expense.

Other Corruption Hinted. He said he was in possession of evidence that would send a number of city officials and employees to the penitentiary.

He said that through the influence of the Chamber of Commerce an election had been called and \$250,000 bonds voted to aid certain men to build a railroad from Oklahoma City through Northwestern Oklahoma.

Financial Stress Comes. He said that finances had reached such a stress that the Chamber of Commerce had appointed an "efficiency commission."

He charged many other irregularities and much corruption and said he had found the conditions so odious that "I fumigate myself every night when I go home."

34 Percent Sign Petition. He said that recently he had printed petitions for an election to vote for the abolition of the commission form of government.

He said that he had printed petitions for an election to vote for the abolition of the commission form of government preparatory to a return to the aldermanic form.

Oooooo! Help! Please get me out of here! Oooooo! The doleful sounds seem to be coming from the very inside of the earth itself.

Oooooo! Why doesn't somebody dig us out!

The passerby stopped and listened and more frantic appeals smote his ear. Horrors! Somebody buried under the sidewalk and starving to death by inches, while his wife and little ones waited in vain at home, etc., etc.

Came newboys, barbers, bartenders, druggists, clerks, merchants, even policemen to the rescue. Then somebody got thoughtful and began to see where the pipe extended to.

SOUTH GETS HUGE NEW CIGARETTE FACTORY

Manufacturers of Sovereign Cigarettes Open New Plant at Durham, N. C., to Supply Southern Market

Besides being of importance to the South commercially, the opening of a big, new Sovereign Cigarette factory at Durham, N. C., has a special significance for all Southern tobacco growers. It is a clear indication that the domestic leaf, prepared so as to bring out all its sweetness and mildness, is rapidly increasing its lead in popular favor over the more pungent imported tobacco. Sovereign Cigarettes, distinctly a Southern product, are the best the tobacco growing districts of this country have to offer. And the unparalleled growth in popular favor of these cigarettes is the best evidence in the world that the majority of smokers in this country prefer the best American leaf to any other. In order to encourage a trial of this typically American cigarette by every smoker in Wichita Falls, the makers of Sovereign, through prominent local dealers, have arranged to give, free this week, with a 5c package of Sovereign Cigarettes, a handsome "Lucky Blue Bird" Brooch Pin. These pins are in such good taste that they are sure to win the approval of every woman who receives one.

WILLIAM CLIFT DIED HERE TUESDAY NIGHT

Wm. Clift, aged seventy-three years, died at his home here last night. He came to Wichita Falls in the latter eighties from England, and was well and favorably known. Two children survive, Miss Nellie Clift and Mrs. Anna Price, wife of Chas. T. Price. Walter Clift was an adopted son. Decease had been in ill health for several years and his death was not unexpected. Heart trouble was the cause of death.

DREAMERS

Men and women who do things, have always been dreamers. They dream of something nearer the ideal, than the other fellow than they get busy and do it. The populace say "they are a genius," but they are only ordinary folks that make day dreaming a habit, that must come true.

Dreamers in every line, if they develop their ideas, make a hit. They are listed on this mundane sphere as Electricians, mechanics, bankers, lawyers, doctors and preachers, the farmer and the day laborer, battling with adversities.

In our own little place, "the best kept secret in the science of our craft is not enough." A better plant and studio, a truer conception of harmony both in subjects and surroundings, telling the story of life today in all of its fullness that the children of tomorrow may rest, your life, your thoughts and dream of your great love for those who passed before you, and in so doing be made better for the thought. Our memorials to your loved ones are everlasting. Its not a duty, but a glorious privilege.

CHURCHMEN HEAR BALD JACK ROSE

NOTED GUNMAN DELIVERS LECTURE IN EPISCOPAL CHURCH RECENTLY

MRS. THAW IN LIMELIGHT

Husband's Recent Doings Have Served to Advertise Her—Other News of New York

New York, Sept. 24.—Popularity rests on astonishing foundations in these bizarre days when all roads of crime, misfortune and adventure seem to lead to the vaudeville stage or the lecture platform which are first cousins.

The other night they had a lecture in the Episcopal Church at South Norwalk, and policemen guarded all the entrances, though the affair was under the auspices of clergymen. The reason? "Bald Jack" Rose, the New York gambler, chief "squealer" of the Herman Rosenthal murder case was the lecturer and he professed to be afraid that some of the New York gunmen would try to "get him" as he occupied the church pulpit.

"What makes up the underworld" was the shabby pated crook's topic and the lecture was listened to by 500 of the churchmen, their wives, daughters and sons. The lecture was to raise money to pay off the church debt, and Bald Jack Rose donated his services. Gambler Herman Rosenthal was assassinated in Forty-third street in the glare of Broadway in June of 1912, and the killing started a police graft scandal that is still festering. On the testimony of Rose that he hired the four gunmen who shot Rosenthal and escaped in a touring car, that he transmitted to them the plans for the murder and that he paid them for the butchery, Police Lieut. Charles Becker and the four gangsters, "Lefty Louie," "Gyp the Blood," "Whitely Lewis" and "Dago Frank" are now on the life side of the little green door in the Sing Sing death house, awaiting electrocution.

Rose went scot free and has been a hero ever since. He has lectured in New York and surrounding towns. A serial story by him, telling of his sordid life as a gambler and thug of the underworld took up two whole pages every Sunday for weeks in one of the New York newspapers. It was Jack Rose's own refusal and not the fault of the sensational managers that the "squealer" did not go on the vaudeville stage.

Another scintillating example of amazing popularity is Mrs. Evelyn Nesbit. "White Light" resorts and thrilling fight for liberty in Canada and New England has been of intense public interest more than a month. For weeks Mrs. Thaw has been the headliner at Hammerstein's vaudeville roof garden in a dainty turn and her popularity is entirely due to Thaw's doings.

Even the most lenient critics admit that Mrs. Thaw is only a mediocre dancer, and that her partner, Jack Clifford guides her through all the steps and that if she were other than the "heroine" of the Stanford White murder, she could not play the big time in vaudeville. The public had almost forgotten Mrs. Thaw until her husband made his melodramatic escape from the asylum but her press agent was quick to seize the opportunity and the public stood for it.

Thinking people could see no possible legitimate connection between Thaw's doings and those of his estranged wife, Mrs. Thaw's press agent gave out pages of interviews and the roof garden turned 'em away nightly. Such is fame.

Indications of a tilting of "the lid" lately has delighted those Gothamites who trail Broadway. When the late Mayor Gaynor left for Europe the acting mayor immediately granted 23 all night dramshop licenses to Coney Island restaurants for Mardi Gras week. When the late Mayor Gaynor was appealed to for such licenses, he refused them, remarking that those "who could not guzzle enough before 1 a. m., would better not guzzle at all."

About the same time at least two of the White Light resorts near Congress Square which were forced to close for lack of business during Police Inspector Dwyer's rigid enforcement of the 1 a. m. closing law, reopened for business.

The managers, when they closed, explained that the early evening patronage was not sufficient to enable them to continue and their reopening gave the impression that the vigilance of the police has been somewhat relaxed.

Rumors of several other reopenings of night restaurants have been current in the "upper tennerlin" since Mayor Gaynor's death. Formerly the police were under strict orders to keep people moving on Broadway in the neighborhood of the 40's and so well did they carry out their orders that for a time men were not allowed to stand in front of hotels and on several occasions "standees" were arrested and fined a dollar in the Men's Night Court, but nowadays men may be seen as thick as flies, standing along the curbs and around hotel and restaurant entrances from Thirty-fifth to Forty-sixth streets.

The police have even abandoned their perfunctory "You'll have to keep moving, gents." Altogether the Great White Wayfarers see a ray of hope.

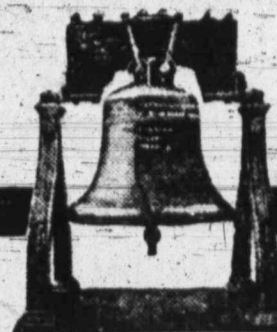

A Mammoth Auto Show at Texas State Fair.

Dallas, Texas, Sept. 24.—A mammoth automobile show will be one of the many interesting features of the Texas State Fair, which opens in this October 18th and closes November 2nd. Practically every make of car and auto truck sold in Texas will be exhibited in the new automobile building at Fair Park. The officials of the different automobile manufacturing concerns in Detroit and other northern points are making tentative plans for a special train to leave Detroit at an early date, so as to arrive here in ample time for the opening of the fair.

Mademoiselle Ruth will give the Wichita audience a chance to approve of some of her high class classic dancing at Lamar Airdome tonight. Mlle. Ruth gives her spring time dance in a very beautiful manner and in her postures one might fancy her pulling the blossoms from the trees plucking the tiny violet or reaching to the early lark as it carols its springtime song. Really she is clever. Her attire is very much the picture in coloring in pink caught up with apple blossoms. The draperies are arranged in a way that the popular slit skirt is brought to mind for the skirt alluringly separates at one side. Mr. Armond has a number of new song hits, both grave and gay. His singing has won him a warm spot in the hearts of the nat-chez fans.

Make Your Children's School Work A Pleasure This Fall

Imagine, if you please, your own discomfort in trying to work in an ill-fitting pair of shoes. Your children exert themselves very strenuously, especially at school. As a rule boys and girls don't grow about foot trouble. Their fancy begins and ends with exterior appearance of shoes. Therein lies the danger. A shoe salesman bent on selling, regardless, might do permanent injury to a child's feet.

Selz Waukenphast and Liberty Bell shoes for boys and girls are manufactured over foot form lasts by skilled workmen, using the same effort and care that characterizes Selz as a positive leader in the shoe manufacturing industry of the world. They are sold exclusively in this store and fitted by men who know how. This appeals to most people who give such matters serious thought.

VALE OPENS FOOT.
New Haven, Conn., Sept. 24.—Yale University opens her 1913 football schedule here today in the annual try-out against Connecticut Wesleyan University. It was the first appearance of both teams on the gridiron this season in a formal contest, and the Blue, as usual, expected little trouble in disposing of the Middletown eleven. For the many years that Yale and Wesleyan have opened their respective seasons with the "Wednesday game" the times have been rare when Wesleyan has even scored.

ARE LEAVING IT ALL TO WOODROW

PEOPLE LOOKING WITH STRONG FAITH TO WILSON AND TO BRYAN

CONGRESSMEN ARE WILLING

None Have Found any Real Cause to Fight Administration Legislative Program

BY BURTON K. STANDISH. (Written for the United Press.) Washington, Sept. 24.—Leaving it all to Wilson is about the easiest road to popularity for democrats in congress just now. If the future of their advice from home be a safe guide. The folks back in Oregon and up in New Hampshire and away down in Texas are for once in their lives forgetting to complain. If they write or wire to "their congressman" at all it is to ask for their farm bulletin or a cook book or seeds. They have "passed the politics up to Woodrow."

When the newspapers were fairly bursting with headlines and black face type on the Mexican peril, one of the leading democratic senators from a northern industrial district, confided that he had received just three letters on the Mexican question during the summer. Another had heard about it from a constituent who wanted to get a consular job on the border. Comparing notes in the clubhouse the senators discovered they need not "view Mexico with alarm." They could let Wilson do that.

Blind to Pictured Danger. Before the Huerta unpleasantness there was the tariff tragedy. Wise politicians in congress, and especially those whose political faith was founded on the dire results they believed would follow letting down the high tariff bars, prepared to receive a few hundred letters of protest each morning, and a sheaf of telegrams at lunch. But the lobby inquiry stopped the sugar letters, and the ordinary folk back home evidently forgot to write a line. Tariffs went down like wheat before a six-horse reaper, but there were no loud yells nor sounds of sobbing in the form of increase in the letters in the congressional mail. Except in a few cases, which looked suspiciously like the small boy who, fretful as a hornet, tries to cry but can't squeeze out the necessary and alibi tears, the people whom the tariff orators pictured as being outrageously sandbagged, sobbed, insulted and driven to the poorhouse gates, were apparently blind to their pictured danger.

Some democrats were suspicious of this public unresponsiveness at first. They wanted to get a lot of notes from home applauding them if none came condemning them. But by and by they came to the conclusion that the folks back home had a method in their trustful silence. Congress figured that the back home folks were holding Wilson and Bryan responsible. All right! Congress was glad to oblige. If the home folks wanted to saddle this responsibility and trustfulness on Woodrow, why, their servants on Capitol Hill had no objections.

Watching Spotlight Characters. And in this same spirit many a democrat who knows he knows very little about the currency question is joining the debate on that subject with a profound and peaceful calm. Wilson is on the job. Bryan is at hand. The people are watching the spotlight characters, and they are too busy to write. Besides, there's still a chance that either the Gladston or Athletic will be beaten out of the pennant in their respective leagues, and the fight between Cleveland and Washington for second place in the American League is a real thriller. Opposition parties are fighting each other with one eye on Wilson. It's really queer, but it's an admitted fact that many of the democrats whooped the mood or what they think is a real cause to fight Woodrow's policy.

So up and down the corridors of the Capitol and the two big white office buildings that flank Capitol Row runs the password to official and congressional peace: "Put it up to Wilson; the home folks have."

Critics Point Out Errors. Captious critics are finding fault with the Capitol now. Most of them are peevish at the great oil paintings that adorn the walls of the rotunda of the legislative house. Out of the eight great allegorical paintings which hang there, it is now pointed out that five are defective either in technique or in regard to nature or historical fact. Here are some of the mistakes which have been pointed out by the guides: The figure of a girl in office has three hands.

The figure of an Indian chief has a foot on which are six toes.

Flags on Columbus' boat are blowing in three different ways.

General Washington is shown at the surrender of Cornwallis at Yorktown which he wasn't.

The signing of the Declaration of Independence is given as July 4, 1776, when as a matter of fact it wasn't signed until August 2, 1776.

So far no official notice has been taken of these apparent defects in the great paintings which are one of the big show features for Washington visitors. They have all hung in the great Rotunda so long every one is waiting for some one else to start the ball rolling.

ITALIAN ROAD MENDER'S GREAT AMBITION

Son of Sunny Italy Wants to Sing and Play Before Presidents Family

Windsor, Vt., Sept. 24.—Phillippo Garzone, a road mender, who came from Italy three months ago, bringing the family accordion and a sweet voice, has just developed a great ambition. Already Phillippo has played and sung to many of the rich summer residents hereabout, trudging up the hills to his home when his day's work is done, and trudging back again after he has amused his listeners.

Phillippo came to Boston from Italy three months ago. He was sent to Windsor to work on "Wilson road," named in honor of the president. It is the road over which the Wilson family must always pass when they go to and from town. In the meantime he is singing his way into the hearts of the summer residents, and laying by the money he is earning to "learn de Eng-

lish." For Phillippo has other ambitions. His father and his father's father were musicians and Phillippo wants to play in an orchestra.
