ROYAL WEDDING CEREMONY TODAY

PRINCE ARTHUR OF CONNAUGHT AND PRINCESS ALEXANDER VICTORIA WED

IS VERY BRILLIANT AFFAIR

Ruling Houses of Europe Are Nearly All Represented at Marriage of Royal Pair

By Associated Press. London, Oct. 15.—Prince Arthur of Connaught, son of the Duke of Connaught, governor-general of Canada today wed Princess Alexandra Victoria, Duchess of Fife, eldest daughter of the widowed princess royal Louise.

The brilliant ceremony took place in the ancient chapel of St. James Palace.

Remarkable simplicity for a royal ceremony characterized the wedding of Prince Arthur of Connaught and the Duchess of Fife in the Chapel Royal of St. James's Palace today. With such a setting of ornate decorations and richly painted ceiling as the quaint old room presents, with the uniforms of the royal household and court officials, and the jewels worn by the ladies, the ceremony itself must have a tinge of the spectacular. But compared with the recent wedding of the daughter of Emperor William, and devoid of all processions and military display, the ceremony was as simple as adherence to traditions will permit.

Partly because of mourning for the recent death of the Duke of Fife, whose fatal illness was brought about by hardships suffered in being shipwrecked on the coast of Morocco, and partly because both the bride and groom are constitutionally averse to display, it was decided to have the wedding a family affair. There was a large group of royalties from other countries present, including the king and queen of Denmark and Norway, Prince Henry of Prussia, the Dowager Empress Marie of Russia, and the crown prince and princess of Sweden, but attended as relatives and there were no guests of state from abroad.

The king gave away the bride, while the princess royal, mother of the bride, also supported her at the altar. The bridegroom's supporters were his father, the Duke of Connaught, and the Prince of Wales.

The Archbishop of Canterbury, the highest dignitary of the Church of England, conducted the marriage service, assisted by the Bishop of London and Canon Edgar Sheppard, who are dean and sub-dean of the Chapel Royal. During the ceremony the king and queen occupied gilded chairs on a raised dais directly facing the altar and close behind the bride and bridegroom.

St. James's Chapel is a small room, accommodating about 300 people. The ceremony began at noon and was finished before 1 o'clock. Prince Arthur and other persons were driven from their palaces and residences in royal carriages, and the whole company, including ambassadors and ministers of foreign powers were called to their seats by high state officials in their regalia.

Every step of a royal function is timed to the minute. Prince Arthur arrived at five minutes before 12, wearing his uniform as a captain of the Royal Scot Greys and the ribbon of the Garter, the highest order of nobility in Europe. The uniform of the Prince of Wales will be that of a lieutenant of the navy, while the Duke of Saxe-Coburg will wear the kilts and tartan of the Seaforth Highlanders, of which he is colonel-in-chief.

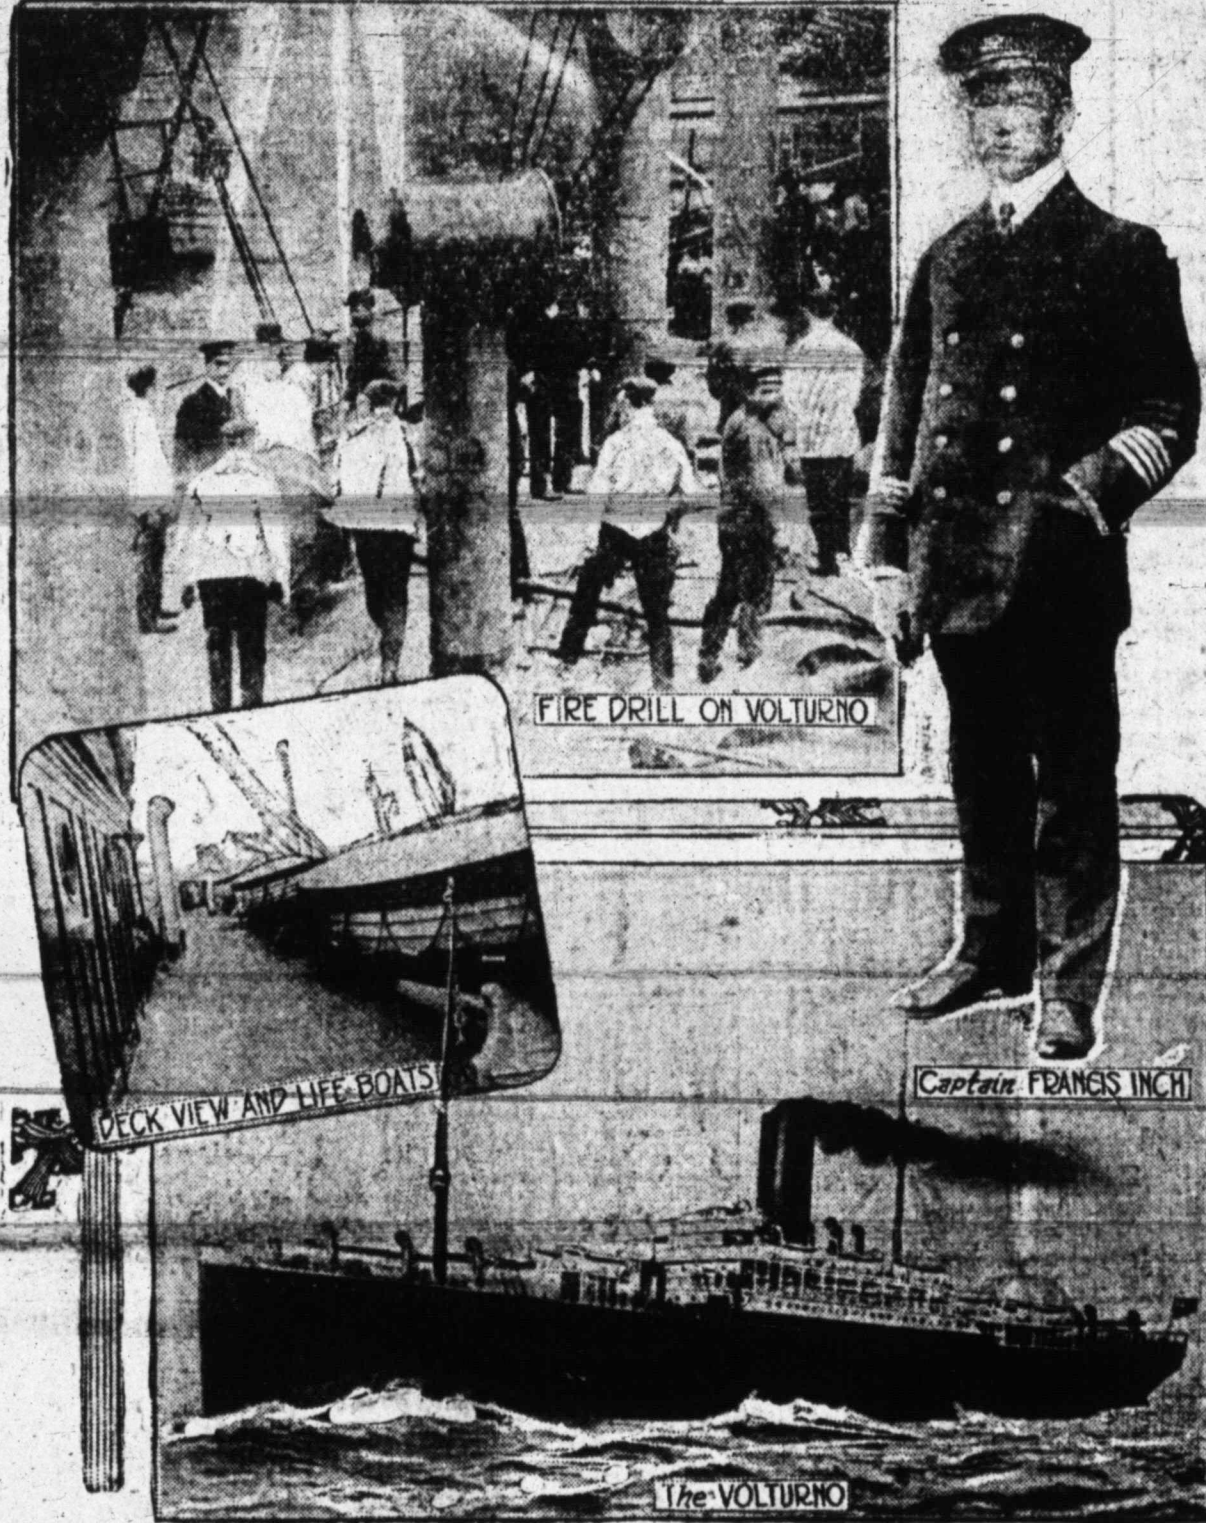

There were three semi-state processions from St. James's Palace to the chapel, by way of the state apartments and the grand staircase into Colour Court. These processions were composed of the clergy, the bridegroom with his suite and the bridesmaid with her supporters, bridesmaids and supporters, bridesmaids and pages. When the three processions had taken their stand before the altar railing the young Duchess entered, supported by the King and Queen of Norway, followed by five bridesmaids and a bevy of pages. The bridesmaids were Princess Mary, daughter of the king and queen; Princess Maud, only sister of the bride; Princess Victoria and Princess Helena of Teck, daughters of the Duke and Duchess of Teck, and Princess Mary, the little daughter of Prince and Princess Alexander of Teck.

The pages will include Prince John, the King's youngest son; and Prince Olaf of Norway. After the bride enters an interesting procession of royal relatives, foremost among them Queen Alexandra walking with the Princess Royal, the Duke and Duchess of Connaught, and last of all the King and Queen with the officials of the household around them. The King wore the uniform of a Field Marshal as the groom is attached to the army, and the Duke of Connaught and other royal participants who are entitled to wear military uniforms did so. Each of the leading personages, including the Queen and Queen Alexandra wore the broad blue sash of the Order of the Garter.

The simple service of the Church of England was performed, beginning at

ILL FATED VOLTURNO, HER CAPTAIN, VIEW OF LIFEBOATS AND FIRE DRILL ABOARD SHIP

The steamship Voltorno, of the Uranium line, which caught fire at sea on its way from Rotterdam to Halifax and New York, resulting in the worst sea tragedy of years, with the exception of the Titanic disaster, was a twin screw boat about 400 feet

long and forty feet wide, with rooms for only twenty-four cabin passengers but with plenty of space for steerage passengers. Captain Francis Inch of the Voltorno was an experienced navigator. He was rescued with some

of his officers by the Kroonland. A fire drill on the Voltorno is also shown here, but the sailors were unable to keep the flames down when the fire at sea occurred. The Voltorno carried the allotted number of lifeboats as the deck view shows.

FATAL ACCIDENT NEAR ELECTRA

W. B. CHAPMAN OF TEXAS CO., THROWN FROM MOTORCYCLE, DIES TODAY

FALL FRACTURES SKULL

Is Brought To This City On Oil Train. Dies At Local Sanitarium At Noon

W. B. Chapman, aged about thirty-eight, an engineer employed by the Texas Company at Electra in its pumping department, died at a local sanitarium following an accident at Electra Tuesday afternoon when he was thrown headlong from a motor cycle while running at high speed.

Chapman's skull was fractured in the fall and he sustained other injuries and did not recover consciousness before dying. The accident happened in front of the Texas Company's main pumping station a mile west of Electra at about 4 o'clock Tuesday afternoon. Chapman who had just been granted a vacation was riding over the oil field and was accompanied by another man riding another motorcycle. His companion had gotten ahead of him when they neared the pumping station and Chapman was riding at high speed to catch up. Just before reaching the station a small bridge was crossed. On both sides the road bed was uneven and in crossing Chapman appeared to have lost control of his machine and after running a few yards was thrown headlong into the roadbed.

Employees at the pumping station witnessed the accident and ran to his assistance. He was picked up and carried to the station and Doctors Ogden and Gault, summoned by telephone. After bandaging the fracture they brought the injured man to Wichita Falls Tuesday evening on the oil train. A postmortem examination showed that pieces of his skull had been driven into the brain tissue and it is considered almost

CRITICISM FOR CURRENCY BILL

NATIONAL CONFERENCE ON CURRENCY REFORM MEETS IN NEW YORK TODAY

CALLS IT "UNSCIENTIFIC"

One Professor Says Bill Is Contrary To Fundamental Principles of Science

New York, Oct. 15.—The Glass-Steagall currency bill was attacked as dangerous and unscientific at today's session of the National Conference on currency reform. Prof. E. R. A. Venderlip, president of the National City Bank and Professor Joseph Frank Johnson, dean of New York University school of Commerce lead the assault.

Prof. Venderlip said that the great banking system of Europe were framed, not by politicians, but by the joint efforts of bankers and theorists and for that reason they were a generation ahead of this country. "The bill sins in a glaring way against some of the fundamental principles of science," he said.

Wilson's Terse And Emphatic Message To Mexican Ruler

"The president is shocked at the lawlessness of the methods employed by General Huerta and as a sincere friend of Mexico is deeply distressed at the situation which has arisen.

"He finds it impossible to regard otherwise an act of bad faith toward the United States Huerta's course in dissolving the congress and arresting the deputies.

"It is not only a violation of constitutional guarantees, but destroys all probability of free and fair election. The president would not feel justified in accepting the results of such an election or in recognizing the president so chosen."

General Maass Is Arrested At San Antonio This Morning

By Associated Press.

San Antonio, Texas, Oct. 15.—Gen. Joaquin Maass, en route from Eagle Pass to Laredo by virtue of permission issued by Secretary of State Bryan, was arrested and taken off his special train here this afternoon at 1:50 o'clock.

The arrest was made by Chief Deputy United States Marshall Dibrell on a warrant based on complaint signed by Willard L. Simpson and charging that General Maass was conducting and setting on foot a military expedition from the United States against the constitutionalists, a contending faction, in the Republic of Mexico.

The warrant is the first of its kind ever issued in the United States. General Maass was taken before United States Commissioner Edwards where he gave bond in the sum of \$5,000 and was released. He and his staff of eighteen men left later for Laredo.

Third Officer of Ship Rescues New York and Tells Story of Recent Sea Disaster

By Associated Press.

New York, Oct. 15.—Between eighty and ninety passengers on the Voltorno were trapped in compartment No. 1 by the first explosion on the vessel Thursday and others perished at once or were burned alive.

This news was brought to port today by the third officer of the Voltorno with the docking of the steamer Grosserkurfurst bearing 105 survivors of the disaster.

The cause of the fire, according to Third Officer Diefelman, was established as an explosion of a drum containing chemicals or oil in the forward part of the vessel.

"I was just going on the bridge," he said, "when the first explosion occurred. The Voltorno trembled as if she had been struck by a heavy shell. Almost immediately other drums began to explode. There was a rapid fire of explosions that sounded like cannonading and the flames rushed out of the hatchway."

DIPLOMATS WILL MEET

FOREIGN REPRESENTATIVE IN MEXICO CITY ARE CALLED TO MEET TODAY

PRESIDENTS NOTE

Message Attracts Wide Attention—Naval Policy Also Holds Interest of White House

By Associated Press.

Washington, Oct. 15.—The Mexican situation today was regarded by officials here as drifting toward a crisis with the United States awaiting Huerta's next move. The commanding feature of the day was the Spanish minister in Mexico City calling a meeting of the diplomatic corps to discuss Huerta's assumption of a practical dictatorship.

Administration officials attach deep significance to that because of the Spanish minister's friendship for former Ambassador Henry Lane Wilson, and because the minister has supported the policy of the United States.

Chairman Bacon of the Foreign Relations committee, after a talk with the president, expressed the view that even had the United States recognized Huerta, his assumption of the role of dictator would have been sufficient cause for withdrawal of recognition.

Plans for keeping an American naval force in Mexican waters commanded almost equal attention. It was made plain that the Washington government was determined to have a naval representation ready for any emergency and some believed the next step toward a culmination of the situation might be forced over that point.

Publication of President Wilson's latest note to Huerta attracted wide attention for its brevity and forcefulness. The Mexican government's reply was awaited with keenest interest.

The Spanish minister to Mexico has called a conference today of the entire diplomatic corps in the Mexican capital to discuss Huerta's decree of dictatorship and the situation generally. Advises to that effect reached the state department today from Charge O'Shaughnessy. The instructions delivered by O'Shaughnessy to the authorities at Mexico City defining the attitude of the United States towards Huerta's assumption of dictatorship were made public today.

Mackay for alleged alienation of Dr. Blake's affections. Mrs. Mackay was served with papers in the suit some time ago.

RABBIS REFUTE STORY OF GRESHOME RITUAL

Chicago, Oct. 15.—Members of the Chicago Rabbinical Association, stirred by the trial of Mendel Beilis in Kiev, testified in a resolution yesterday that there is no basis in the Jewish faith for a charge of ritual murder. "We do solemnly and sacredly declare that neither the Jewish people at large nor any sect thereof ever used Christian blood for ritual purposes," the resolution reads, "and in the long history and literature of Israel there is absolutely no basis for a charge of ritual murder."

ANSWERS ALLEGATIONS IN \$1,000,000 SUIT FOR ALIENATION OF AFFECTIONS

SAYS MRS. LAKE JEALOUS

Accuses Plaintiff of Ungovernable Temper and Jealous Disposition, Among Other Things

By Associated Press.

New York, Oct. 15.—Mrs. Clarence H. Mackay, suffrage leader and wife of the head of the Postal Telegraph Cable Company, broke her silence today regarding the \$1,000,000 suit filed against her by Catherine K. Lake for alleged alienation of the affections of her husband, Dr. Joseph A. Lake an eminent surgeon.

Mrs. Mackay denies all of Mrs. Lake's allegations in a formal answer filed in the supreme court and characterizes Mrs. Lake as one who has a "jealous disposition and ungovernable temper" and "no affection or love for her husband," who at one time, it is alleged, she threatened to kill. Mrs. Mackay says she did not meet Blake until 1909, long after the breach had come between him and his wife, and she prays therefore, that the suit against her be dismissed. Mrs. Lake's suit for separation against the doctor is pending in the courts.

IMMENSE CROWD HERE FOR CIRCUS

RINGLING BROS. SHOW BRINGS UNUSUALLY LARGE THROUG TO THIS CITY.

PARADE DURING MORNING

Afternoon Performance Begins at Two O'Clock and is Attended by Big Crowd.

With hundreds coming in on every train and with thousands from this city and from neighboring country on hand, circus day in Wichita Falls is proving an occasion to be remembered. One of the largest throngs if not the largest, that ever gathered on the streets of Wichita Falls witnessed the street parade this morning.

Included in the immense crowd here for the occasion are hundreds who came in automobiles, many from as far distant as Des Moines, Dubuque and points far south on the Wichita Valley. At noon the restaurants had all they could handle and many were forced to content their interiors with hamburger or something similar.

When the sun arose this morning it found plenty of spectators in the railroad yards where Ringling Bros. trains were unloading all of their red and golden circus. Four trains brought the big show into the city with 86 cars bringing 1,300 people, more than 800 horses, herds of elephants and the famous harness team of camels and zebras. No alarm clocks were needed to get the small boy out of bed this morning for he was down at the tracks before dawn waiting for the first glimpse of the circus and there was with this youthful throng a large majority of those red blooded boys who never grow up and are always Peter Pan when the circus comes to town and just as eager to lead the spotted ponies to water.

The first section brought the commissary department and long before the parade had been lighted in the home kitchen there was a pleasant aroma of coffee and ham and eggs coming across the meadows from the cook house. With wonderful rapidity the stewards well had this breakfast in full blast and as fast as the waiting men arrived they were served a hot breakfast. And if anybody thinks it is an easy task to feed 1,300 people think of having to do this three times a day and each day in a different town. The second and third sections brought the equipment and parade wagons, while on the last were all of the performers and the long string of sleeping cars with the dancing girls of the Joan of Arc ballet which this season is an added feature of the show.

Circus day had hardly dawned when people began coming into the city. All railroads and country roads led to the blue pennanted canvas city. All of the railroads brought in excursions on special trains and long before the parade reached downtown the streets were thronged with people. The Ringling Bros. have always kept their promises and their loudly heralded street pageant was another proof that their word is good. No more glittering and brilliant display has ever been made in this city. The parade nearly three miles in length was one unending array of novelties, light and color. The famous Ringling horses, both in the teams and the caudales, mounted by men and women in the gorgeous costumes of the time of Charles the Seventh made a splendid showing. Pretty and effective pictures were made by the tableaux cars which were filled with girls in gay garb. There was plenty of music and the brilliant display of clowns, received a welcome equal to a congressman coming home with a job for every office hunter.

The afternoon performance began at 2 o'clock and the big tent was crowded. Opening the bill came the spectacle of Joan of Arc in which more than 1,000 characters appear telling in pantomime the dramatic story of the Maid of Orleans who went forth to battle for country and over King. Nothing so richly costumed and so effectively presented has ever been given here before. The opening pageant, the ballet of dance.

FIRE DESTROYS POTTERY PLANT

BLAZE IN FACTORY ADDITION RESULTS IN DESTRUCTION OF BUILDING.

TO BE REBUILT AT ONCE

Loss is Estimated at \$5,000. With \$2,600 Insurance—Sparks From Engine Believed Cause.

Fire Tuesday destroyed the plant of the Wichita Pottery Company in the factory district causing a loss of about \$5,000. The flames are believed to have been started by a spark from a switch engine. Some men employed at the automobile factory about a hundred yards north of the pottery plant saw sparks fall on the building and a moment later flames burst forth. They ran to the building and when they arrived the blaze was so small that if they had had a bucket of water or a hand fire extinguisher they could have put it out. Before they could get water or an extinguisher, however, the flames had gained such headway that these weapons were ineffective.

The buildings, which was a two story frame structure, was completely destroyed together with the machinery used in the manufacture of pottery products. Just a few days before the kiln had been filled with all the unbaked pottery and this, of course, was saved. Several hundred dollars worth of jars and pitchers finished within the last few days were destroyed with the building.

The Wichita Pottery Company is owned by P. H. Turner and J. P. Donaldson who have been doing a thriving business here in the manufacture of jars, churas, flower pots, crocks, jugs and other products. They announced last night that they would rebuild immediately but at the best they do not hope to have their plant in operation again before sixty or ninety days.

Twenty-six hundred dollars insurance was carried on the plant.

Love in the Moonlight At Twenty-Five
The moonlight shimmers through the swaying leaves!
What dainty webs of tapestry it weaves
Upon the silent lawn, where you and I
Together pledged a love that shall not die!

See, sweetheart, how the shadow, come and go,
Twining and twisting through the moon's warm glow;
But all the central field is white and clear;
I think our life should be like that my dear.

And if perhaps the moonlight is obscured
And gloomy shadows hold our work immersed,
We'll trust ourselves to Love's undimmed light,
Knowing that morning cometh after night.

CHRISTIAN ENDEAVOR SOCIETY LESSON FOR NEXT SUNDAY

The lesson of the Christian Endeavor Society for next Sunday will appear weekly in the Times. How to Make This Year's Society Best Year—Phil. 3:7-17.

Daily Readings.
By humility—Rom. 12:3-10.
By co-operation—1 Cor. 3:5-11.
By faithfulness—John. 12:20-26.
By following Christ—1 Pet. 2:21-25.
By hard work—1 Tim. 4:1-16.
By self-winning—Acts 2:40-47.

Special Features

One of the ways to see folks as his meeting will be by a motto on his wall. Get some good printer to copy in very large and black letter these sentences—Phillips Book signing his name at the end. "We must go forth and leave our past. Let us go forth nobly. Let us go as those whom greater thoughts and greater deeds await beyond—Phillips Book.

Question Spurs

1. How will humility help make the best year?
2. How will co-operation help the society do best?
3. How will faithfulness help the society do best?
4. How will following Christ help make the best?
5. How will soul winning help the society?
6. What special work can we do this year?
7. What can we do personally to insure success?
8. How may the work of our society be improved?
9. What can the prayer-meeting committee do, the lookout committee, the social committee, others?

Thoughts by the Wayside

1. Try each day to live on a high plane.
2. Be faithful in attendance at all religious services.
3. Associate much with other Christians.
4. Read good books. You will not be troubled with ennui if you get acquainted with the best literature.

Do all the good you can, and forget it.

5. Do all the good you can, and forget it.
6. Don't try to make it appear you work harder and have more trouble than other people.
7. If you have a ray of happiness in you, don't try to keep it; give it to those around you, a kind word or a smile they'll be glad to have.
8. Learn the art of doing without and making the most of what you have.
9. Do not accumulate debts. Be wisely economical, and you will not regret wasted time, material or opportunity.

The Result of Tithing

An Endeavor of the Hadden Heights, New Jersey, Baptist society recently began to set aside the tenth of his income for the Lord's work. Shortly afterwards he increased his contribution by one hundred and fifty per cent. He was not giving such a small amount in the first place—C. E. North.

Message From President Henry

To the Endeavors of Texas: The wholesome spirit of fellowship and the opportunity of real personal service, accounts for one of the many reasons why Christian Endeavor is one of the most powerful agencies working to the union of God's people, and because of the soundness of its over will increase much more rapidly in the future. We should all feel particularly favored to be a definite part of this powerful unit, and renew our efforts to a more consecrated service as is anticipated in the C. E. pledge. This means, loyalty to the regular services of your church including prayer meetings, Bible school, teaching service, C. E. Society and every other activity in your church, set us all labor to one end only; that be Lord might be glorified through our efforts.—Patrick Henry, Fort Worth.

MACON, GA., CHILD

Made Strong and Well By Vinol
When we tell you that Vinol is the best remedy in our whole stock for making weak, puny, ailing children strong, robust and rosy we are only telling you what has been proved by hundreds of mothers.

J. L. Fickling, Macon, Ga., says: My child was very thin and delicate, no appetite, nervous and did not sleep well. Doctors did not help her. Vinol was recommended and the change after a fair trial was wonderful. She sleeps soundly all night, has a splendid appetite and has gained in weight. I wish every mother knew what Vinol will do for delicate children.

What Vinol did for this little girl will do for every weak and ailing child because sickly children need the strengthening cod liver elements and the tonic from that Vinol contains—that is why Vinol builds them up quickly and gives them a fine healthy color. It is pleasant to take and we guarantee that the results will satisfy you—money back if they do not. For sale by Miller Drug Store. (Advt)

Is Mrs. Eaton Guilty Of Murder? Here Are Principals In Great Poison Trial, Starting October 14

Plymouth, Mass., Oct. 15.—Is Mrs. Jennie M. Eaton guilty of murder? Did she poison her husband, the late Rear Admiral Joseph Miles Eaton, to death at their home at Assinippi, Mass., on March 8 last? What part did her two pretty daughters of a previous marriage play in the family tragedy? These and other interesting questions will be answered at the trial of Mrs. Eaton on a charge of slaying her husband, which starts here on Oct. 14. The case last March was a country wide sensation because of the high standing of the rear admiral. The trial excites equal interest now. Chief Justice Aiken presides and Prosecutor Albert Barker conducts the case against the widow. One of the most important witnesses is Miss Dorothy Ainsworth, the pretty seventeen-year-old daughter of Mrs. Eaton.

Wichita Falls, Texas, Oct. 15, 1913.

The political game is going to prove a most interesting one next year. If you want to take part in it, you must have a poll tax receipt for the year 1913, and you must do this before February 1st, 1914.

Thanksgiving usually falls on the fourth Thursday of November, which is the 27th day. Our Charter election has been ordered for the 26th of November, which is the day before.

It is real sweet of Gov. Colquitt to leave the state for a short time in order to allow the lieutenant governor to issue proclamations—and in other ways show the kind of governor he proposes to make Texas. One good turn deserves another.

THE INITIATIVE, REFERENDUM AND RECALL.

In speaking of the initiative, referendum and recall, the Houston Chronicle has the following to say to those who oppose it in that city.

"The arguments with which the initiative, referendum and recall are being assailed smack of an unwholesome distrust in popular sovereignty and a yellow streak that fears the white light of open methods.

"Either the people of this city are capable of local self-government or they are not. If they are, there is no reason to dread the initiative, referendum and recall. If they are, then it were better to abandon progressive legislation and retreat toward oligarchy and paternalism.

"What is the cause for all these hysterical outbursts, these warnings and tremulous forebodings, that fritter away like the maddling whimpers of a delirious spinster?

"Suppose a number of qualified voters, equal to 10 per cent of the number voting at the last preceding democratic primary, can invoke the referendum; does it follow that the whole community is going to be manhandled and served up in cold stew every fifteen minutes? Certainly not. The amendment provides that only one special election of this character can be held in a period of six months, which should be a sufficient check to satisfy the most conservative citizen.

"There would be no sense in adopting methods of direct legislation and then surrounding them with impassable barriers. If the referendum is to be invoked at all, its invocation should be made decently easy, and the fact that it could be invoked only once in six months seems sufficiently restrictive.

"Suppose a number of qualified voters equal to 15 per cent of the number voting at the last preceding democratic primary can invoke the initiative. Does it follow that the city is to be pickled in direct legislation? And suppose a number equal to 25 per cent can invoke the recall. Does it follow that anarchy is going to reign supreme, and that we will all perish in one fell swoop beneath the wreckage of the municipality?

"The initiative does not imply that every ordinance shall originate with the people, or that it will be necessary to call a special election in order to get equitable laws enacted.

"The referendum does not imply that every act of the city council must be passed upon by the voters at large in order to become valid.

"The recall does not imply that every official is going to be pitched out of his job because some disgruntled voter may have taken a whimsical offense at something he did or did not do.

"No one is going to humiliate himself by trying to invoke the initiative unless reasonably sure that a certain ordinance is likely to meet with approval, nor the referendum unless reasonably confident that a certain ordinance is likely to be rejected. No one cares to court failure, especially in public, and the initiative and referendum are fairly public methods.

"No one is going to advocate the recall of an official unless he has good grounds for believing that the said official is due to go out, for otherwise the result would not be very gratifying to contemplate.

call merely give the people a chance to remedy conditions in an emergency. They are not experimental. "They have all been tried and have been found conveniently workable. "Once adopted by a community or a state they have in no case been abandoned, which should be a sufficient guaranty of their effectiveness and advisability. "Where put into operation they have caused neither ruin nor calamity. Switzerland has been using them for a number of years, and the Swiss are a people not liable to go off half-cocked.

"The disgraceful proceedings in New York with reference to the Sulzer impeachment should be a convincing argument in favor of the recall at least, which had it been in force, would have saved the state time, money and much disagreeable publicity.

Washington looks upon Provisional President Huerta of Mexico as an usurper and murderer, and has officially notified him that the United States will never recognize Mexico, it matters not who is to be elected or proclaimed elected by Huerta at the election in that country on October 26th. That sounds more like business, and if Washington sticks to that conclusion, Huerta's finish is in sight. In the meantime, the 110 members of the Mexican Congress are in prison, and they may be murdered at any time.

ROYAL WEDDING CEREMONY TODAY

(Continued from Page 1)

noon, and the Archbishop's address to the young couple was very brief. Upon the Prince of Wales devolved the important duty of carrying the wedding ring, which was of twenty-two carat gold from the mountains of Wales.

The ceremony was finished within three-quarters of an hour. Then the royal procession was reformed, with the King and Queen directly after the wedded couple, and withdrew to the historic picture gallery of St. James's Palace, where the register was signed by all the royal witnesses, the clergy and the principal members of the cabinet.

It was originally planned to have a wedding breakfast of three hundred covers in the banquet hall, but this was abandoned.

After the reception the young couple were escorted to their carriage by the King and Prince of Wales. An escort of the Scots Greys, Prince Arthur's regiment, was drawn up outside the palace, and escorted the carriage to Portman Square. This is the only military display connected with the wedding. The couple left later in the afternoon for their honeymoon, but motored from town and their destination is a secret.

The trossau of the bride was British made and of British materials, so far as possible. The gifts include some very valuable and rare Irish lace, some of it family heirlooms. Much fine embroidery has been done in Scotland and some of the gowns are of silk from Spitalfields. The Duchess of Fife is devoted to sport, and a number of homespun gowns, coats and skirts were made from materials woven by the peasants of her home district. Pearls have been her favorite gems, and the family gifts include some very valuable ones.

For their London residence the royal couple have leased a large house recently built for the Earl of Plymouth on Mount Street in the most fashionable quarter of the West End. The Prince and Princess will not take up their residence there until December, and in the meantime the house will be wholly refitted and furnished.

WILEY WYATT PLANNING THREE-STORY BUILDING

Expects To Erect Large Structure on Present Site of the Alamo Theatre

Wiley Wyatt is preparing plans for a three story store and office building on Indiana avenue, on the site now occupied by the Alamo Theatre. The building will have an arcade through the center. Mr. Wyatt hopes to have everything in readiness to start work on the building the first of next year.

ELECTRICAL EXPOSITION BEGINS IN NEW YORK

New York, Oct. 15.—Manufacture of real-United States money; milking of cows; operation of a miniature Panama Canal, with boats passing through the locks and the steering of a man-o-war and firing of its tiny guns—all by use of electricity, are some of the modern marvels that were to be seen on display today when the annual Electrical Exposition opened at Grand Central Palace. The money will be made by employees brought here from the U. S. mint at Philadelphia. The Panama Canal model through which miniature boats will pass, has been on private view at the White House. To demonstrate electric milking devices several blooded cows are on view. The "farmer" adjusts the milkers, presses a button and some back to bed. These are merely a few of the many electrical wonders on view.

IMPRESSIVE SERVICE AT M.E. CHURCH SOUTH

Many Give Testimony at Inspiring Meeting—Rev. Frank Onderdonk Delivers Sermon.

An inspiring and soul-stirring service was held at the M. E. Church, South, last night by Rev. Frank Onderdonk, who is conducting the series of meetings in that edifice. Mr. Onderdonk said at the conclusion that he felt that a great victory had been won and those who were present shared in this sentiment.

Before the sermon was delivered, Mr. Onderdonk called on those present who felt that they had something to praise God for to stand up and tell about it. Hesitatingly at first, but less so later on, one after one arose and told of blessings that had come to him. Many spoke with tears in their eyes and more than one choked over the lump in his throat as he tried to speak.

"I feel like a sermon is superfluous after that," said Brother Onderdonk. He drew his lesson for the evening from the saying "For what doth it profit a man to gain the whole world and lose his own soul?" He showed the folly of a man gathering in this world's goods year after year, when he could not take one tiny portion of it with him into eternity. The soul, he said, was not a tiny something inside of a man, but was the man himself and the body that encased it when that would be left behind when death came.

He pointed out how a man's soul was worth more to him than all the world possibly could be, because the world was passing away while the soul would endure forever. Brother Onderdonk illustrated his talk with many incidents and quotations and drew a lesson that was compelling and convicting. At its conclusion a number of the members of both the Methodist and Presbyterian churches joined in personal appeals to the unsaved ones who were present.

The services will continue twice daily, at ten a. m., and 7:30 p. m., throughout this week.

Several More Are Given Out in Connection With the Contests Held Last Saturday

CHINAMAN HOLDS HE HAS RIGHT TO SMOKE

Washington, Oct. 15.—Assistant Attorney General Denison will file in the supreme court today the government's brief in the case of Chino Lee against the United States, involving the constitutionality of a Philippine law which makes the mere possession of opium for private use a crime. Lee contends that such illegally restricts his personal liberty. The government's brief argued that the statute was within the explicit scope of power given the government of the islands by congress, that the act was constitutional and that the conviction of Lee was valid.

COMMERCIALIZED VICE AT AN END IN DETROIT

Detroit, Mich., Oct. 15.—Commercialized vice officially went out of existence in Detroit today. By order of Police Commissioner John Gillespie, every resort in the city was forced to close and its inmates either leave Detroit, or find some lawful means of support. It is estimated that 2,000 women are affected by the order. After several months careful study and investigation of conditions in other cities, the police commissioner determined upon abolition rather than segregation of vice in Detroit. However, he has openly announced that the police department will not concern itself with what becomes of the women who are thus forced to abandon their profession.

The work of reformation has been undertaken by a committee made up of members of the Detroit Chamber of Commerce, church organizations and other societies interested in the subject. This committee has arranged to feed, clothe and educate in a local institution, all former resort inmates who may come to it for aid, until such a time as they are physically and morally fitted to go into the world and earn a lawful living. As an alternative, the committee has offered to furnish railroad transportation to all former resort inmates who may desire to go to their homes.

SOME ENTOMBED MINERS SURVIVE

RESCUERS HAVE HOPES THAT CARDIFF DEATH LIST IS SMALL

FIND TWENTY-NINE MORE

Party of Men is Located in One of Galleries, Shut in—Searchers Still At Work

By Associated Press. Cardiff, Wales, Oct. 15.—Rescuing parties searching for 400 miners still entombed in the Universal Colliery got in touch today with a party of twenty-nine men shut in one of the galleries. About 500 of the 931 men were rescued today and today's discovery of more living gave rise to hopes that the fatalities would not be so numerous as was feared.

INJURED IN INTERURBAN WRECK WILL RECOVER

Believed No Further Fatalities Will Result From Smash Near Dallas Last Night

By Associated Press. Dallas, Texas, Oct. 15.—All of the eight persons taken to a local hospital following the fatal wreck on the Dallas-Waco interurban in which a motorman and three passengers were killed near this city last night will recover, according to information from the hospital today.

Last night it was feared that injuries to R. B. Baskow of Dallas, A. T. Martin of Waco and John Orr of Red Oak would prove fatal. The wreck occurred about 8:50 o'clock. A flat car loaded with ties, which had been uncoupled from the work car, crashed head-on into a southbound interurban on a trestle three miles south of here. The dead: WALTER O. SEAY, of Dallas, aged about 36, motorman.

WALTER R. HULBERT, Lancaster, Texas. JAMES S. PEY, city marshall of Waxahachie, aged about 40. J. CARPENTER, Waxahachie. The Waco-bound car left Dallas at 8:30. About 8:45 o'clock a work car with flat car trailer loaded with ties, was switching at Wortham, two miles south of the Santa Fe viaduct, where the accident occurred. The flat car became uncoupled from the work car and ran over the switch from the siding onto the main line.

From that point there is a steady two-mile down grade to the Santa Fe viaduct. In a moment the flat car was running down that decline and by the force of gravity was gaining speed with every minute. The two men on the work car switched themselves onto the main line and, turning on full speed, began a desperate chase of the wild car seeking to overtake it, establish coupling, stop, and reverse, in order to prevent the catastrophe which otherwise they knew to be unavoidable.

They were unable to overtake the wild car, however, although remaining close behind it for the two-mile stretch, and being not 150 yards behind when the fatal crash came. The Dallas-Waco interurban car was running up grade and taking a curve as it came upon the Santa Fe viaduct, and it is believed that these circumstances threw the headlight at such an angle, both up and to side, that Motorman Seay did not see the wild flat car until it was directly upon him.

CANAL CELEBRATION BY COMMERCIAL CONGRESS

President Issues Proclamation to Members to Be Present Farmers' Day, October 22

Washington, D. C., Oct. 15.—Hon. John Barrett, director general of the Pan-American Union, and Dr. C. J. Owens, managing director of the Southern Commercial Congress, have returned to Washington after touring the South to arouse interest in the opening of the Panama Canal and the 5th annual convention of the Southern Commercial Congress, to be held at Mobile, Alabama, October 27-29, this convention being an international celebration of the opening of the canal to world commerce. The absence of the convention will be the relation of the Panama Canal to the United States to Latin America and to world commerce.

Mr. Barrett and Dr. Owens visited every principal city of the South and were greeted with unusual audiences and great enthusiasm. The South is fully awake to the possibilities of the great trade extension that will follow the opening of the canal, declared Mr. Barrett today. Dr. Owens said that in every southern city the business men are preparing to take advantage of the expansion which will occur when the canal opens, and that thousands of these business leaders will attend the Mobile convention.

Governors of the various states visited at most of the mass meetings held in the capital cities of the sixteen Southern States, and the addresses of Mr. Barrett and Dr. Owens were heard by great audiences throughout the South. The speakers left Washington on September 16th and returned here October 6th. They visited Richmond, Raleigh, Columbia, Atlanta, Jacksonville, Birmingham, Montgomery, Mobile, Jacksonville, Houston, Galveston, and Jacksonville.

NEW MAJESTIC TO OPEN TOMORROW

LATEST ADDITION TO LOCAL AMUSEMENT HOUSES SOON IN OPERATION

TO SEAT EIGHT HUNDRED

Will Show Motion Pictures Exclusively—Is Managed By Messrs. Wren and Berry

The New Majestic Theatre, the exclusive motion picture theatre owned by Wren and Berry, owners of the Lydia Margaret and the Lamar Air-domes, will be opened tomorrow, beginning at 12 o'clock. The new theatre is one of the largest and handsomest motion picture houses in the South and Messrs. Wren and Berry announce that they have closed exclusive contracts for some of the best films made. The house will seat 800 spectators. It has a platform of raised seats at both sides. Special attention has been given to ventilation and sanitary details and the new theatre combines the latest ideas in the business.

Music will be furnished by a six thousand dollar Wuritzer unit orchestra and pipe organ, the second of its kind ever installed in the South. This organ is equipped with what are known as vox humana pipes which give the effect of a chorus of human voices. It is an orchestra of pipes, drums, bells, cymbals, violins, cornets and other instruments in one.

The pictures will be thrown on a gold fibre curtain bringing out the details most effectively and with restfulness to the eyes. The New Majestic will be opened at 12 o'clock each week day and the performances will be continuous until 5 o'clock in the afternoon. The night performances will start at 7 p. m., and will continue as long as the people come.

The Lydia Margaret will continue as a vaudeville and motion picture house, the vaudeville feature being made prominent.

NATURE'S WARNING

Wichita Falls People Must Recognize and Heed It

Kidney ills come mysteriously. But nature generally warns you. Notice the kidney secretions. See if the color is unhealthy. If there are settlements and sediment. Passages frequent, scanty, painful. It's time to fear serious kidney trouble.

It's time to use Doan's Kidney Pills. Doan's have done great work in Wichita Falls. John Glen, shoemaker, 712 Seventh street, Wichita Falls, Texas, says: "For many years I had various troubles caused by my kidneys and bladder and the only remedy I have ever found that will cure me is Doan's Kidney Pills. I had pains in my back and side and was troubled by irregular passages of the kidney secretions. Seeing Doan's Kidney Pills so highly recommended, I tried them and found them even better than represented. They cured me and now I seldom need a kidney remedy. When I do, I take Doan's Kidney Pills and they always benefit me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other. (Advertisement)

D. 1913, the same being the first day of December, A. D. 1913; and there to answer a petition filed in said court on the 17th day of April A. D. 1913 in a suit numbered on the docket of said court No. 4576, wherein Ora P. Scott is plaintiff and Sam T. PHILADELPHIA WINS

Because Connie Mack has a team of the hardest hitters that the baseball world has ever known. There is one thing that must be done if we ever win the game. We must hit the ball. A team of fancy grandstanders never won a game. We have been hitting the ball a long time and we propose to handle any drug store fly that is batted up to us and wham it in home in time to head off the runner. We could have a drug store full of good looking bone-heads, but we haven't. Our team hits the ball and we play the game every minute. No recess or vacations. Our game is called at 6 in the morning until 12 midnight. Two telephones and a fast messenger make our service "NOW" service. WE HIT THE BALL.

FAIR AUDIENCE WITNESSES

PRODUCTION OF MARY'S LAMB "Mary's Lamb" a musical comedy was presented at the Wichita Theatre last night to a fair audience. While the production contained many pleasing features that found favor with the audience and was well supplied with laughs, there were other features that took only with the uppermost part of the house, the "root." The production itself is undoubtedly one of much merit and

the leading part was well filled; but a chorus of eight girls, none very good looking and none very tuneful cannot support a play of that kind for any length of time. However, there was some really good music, including well rendered old time favorites such as "The Last Rose of Summer." The plot brings in many amusing situations and there seemed to be little lacking so far as the comedy end of the performance was concerned.

TEN PASSENGERS KILLED IN WRECK AT LIVERPOOL

By Associated Press. Liverpool, Oct. 15.—Ten passengers were killed and several injured in a collision here today between a local train and the Manchester Express.

SIR EDWARD GREY HAS HARD TASK ON HANDS.

London, Oct. 15.—Sir Richard McBride, premier of British Columbia, has imposed on Sir Edward Grey, British secretary of state for foreign affairs, the task of reconciling Great Britain's pro-Japanese policies with British Columbia's determination to enforce its decision to exclude Asiatics from its territory. The Japanese government insistently has been protesting against the attitude taken in Canada, especially dwelling on the Japanese being barred from cutting lumber and excluded from the fisheries.

Don Stearns, who was operated on at the Wichita Sanitarium several days ago for peritonitis and the removal of gall stones, is much better today and is believed to be out of danger. When operated upon, his condition was considered critical in the extreme.

A RECORD

We opened our doors for business on September 29th, 1889, have been under the same roof selling groceries ever since. It's a "CINCH" we wouldn't be here today, if we hadn't been about right. Don't you think so? We've got lots of customers we started with, and think more of that than we do of any financial success we may have made. We're still here at the old stand, and would like an opportunity to show you just why we have been able to stay. In the language of Battle Creek, "There's a Reason"
