EXEMPTIONS IN CIVIL SERVICE

PRESIDENT AFFIXES SIGNATURE TO URGENT DEFICIENCY BILL THIS MORNING

DISCUSSES LAW'S INTENT

Does Not Believe Deputy Collectors and Deputy Marshals Were Meant to be Included

By Associated Press.
Washington, Oct. 22.—President Wilson today signed the urgent deficiency bill carrying exemptions from the civil service of deputy United States marshals and deputy internal revenue collectors. The president gave out the following memorandum: "I am convinced, after a careful examination of the facts, that the offices of deputy collectors and deputy marshals were never intended to be included under the ordinary provisions of the civil service law. The control of the whole method and spirit of the administration of the proviso of this bill, is no less entirely in my hands now than it was before the bill became a law. My warm advocacy and support, both of the principle and of the practice of civil service reform is known to the whole country, and there is no danger that the spirit principle will creep in, with my approval or connivance."

UNITED STATES LOSING SOUTH-AMERICAN TRADE

Lack of Publicity and Banking Facilities is Cause, According to Prominent Official

Washington, Oct. 22.—The United States is losing out in the world race for the South American trade chiefly because of the lack of an American banking system and the lack of proper news service between the two continents, in the opinion of Charles Lyon Chandler, a consular official now stationed in Washington.

Mr. Chandler also believes the Panama canal will result in a great aggrandizing influence in South America. This influence will be largely to the immigrants coming through it to South America and wholly to increased commercial activities. There are many barriers against American trade expansion in South America, Mr. Chandler says, in a report printed by order of the Senate, "and many handicaps which American investors today have to overcome. But perhaps the most important are these: We need in South America, American banks, American young men, a better informed press, and our investors there need better labor—that is, cheap, dependable labor. There is now no American bank south of Panama. England, France, Germany and Holland have banks which have been established as long as fifty years. He says of the news service:

"Another of the greatest handicaps against the American in South America is, I think, the lack of good news service between the two continents and of sound knowledge of South American history and economic conditions."

FUNERAL OF AL BOARD HELD THIS AFTERNOON

Aftermath of Double Tragedy at Seymour—Burial Sent to Eastland County

Special to The Times.
Seymour, Texas, Oct. 22.—All Seymour and Baylor counties are in mourning today on account of the tragic and untimely death of one of her most honored citizens. No occurrence in the history of the town has been more keenly felt and universally regretted.

Funeral services were conducted at 2 o'clock this afternoon at the family residence in North Seymour by Rev. Ben Hardy. Mr. Board was a Civil War veteran and a member of the Masons. Relatives from Loving, Jack county, came in last night and the others are expected today. The body of Mr. Board has been prepared for shipment and will be sent to Ranger, Eastland county for interment. On his person among other papers was found a note instructing that in case of death to embalm his body and ship to that point and that his wife and the Woodmen of the World lodge would defray all expenses. This note was addressed to the W. O. W. lodge but at no particular place. Parties from Ranger came in this morning to take charge of his remains and will leave with it on the afternoon train for that point.

Sheriff Ellis rested well last night and the physicians are very hopeful of his recovery.

PRINCETON HAS REALIZED DREAM

GRADUATE COLLEGE AND GROVER CLEVELAND TOWER ARE DEDICATED TODAY

EX--PRESIDENT'S TRIBUTE

Taft Has Much to Say in Praise of Cleveland—\$2,850,000 in Gifts Make Idea a Possibility

By Associated Press.
Princeton, N. J., Oct. 22.—Princeton University's graduate college and the Grover Cleveland tower were dedicated here today. Gifts amounting to \$2,850,000 for the erection and endowment of the college enabled Princeton to realize an idea conceived twenty years ago, the housing of graduate students in a body. The tower was presented to the university by the Cleveland Monument Association. William H. Taft delivered the memorial address on Grover Cleveland. His estimate of Cleveland was:

"Mr. Cleveland was not a great lawyer; he was not a great economist; he was not a great orator, but he was a great president and a great man, and he was these, because of his strong mind, clear intelligence and wide knowledge of affairs. He had the character, honesty, courage and a sense of public duty, which enabled him to meet great and critical issues without regard to personal consequences.

"He was a partisan and believed in parties, as everyone must who wishes popular government to succeed, but he looked upon the party as an instrument of good government and when it was made an instrument to accomplish purposes disastrous to the public weal, he refused to follow it."

WOMEN CAUSE DOWNFALL OF ALLEGED SMUGGLER

Man Soon To Be Tried at San Francisco Owing His Arrest To His Fickle Heart

San Francisco, Oct. 22.—If George Poole, alias Moore and several other names had not been so susceptible to feminine beauty, federal officials here say they would probably not be getting ready to try him on the charge that he has superintended practically all the opium smuggling that has been going on up and down the Pacific coast and across the Canadian and Mexican borders for some time past.

The authorities do not contend that Poole did all the actual smuggling but they maintain that he was the financial standing of the members of the city syndicate with branches in China, Mexico, Canada and many important American cities. They add that he made a fortune out of the business and that many of his alleged assistants did not do badly at it from a financial standpoint. The authorities expect to show that the syndicate included Thomas Murphy, alias Andrews, Charles Taylor, Chung Chow, a Chinese and nine local customs inspectors, all under arrest, and a man known as Charles Benton, for whom they are still looking.

Taylor, it will be charged at the trial, attended to getting opium from trans-Pacific liners and through the customs inspectors' hands to Benton and Murphy, who will be accused of attending to its transfer to Chung Chow and other local Chinese, not yet identified for distribution and sale.

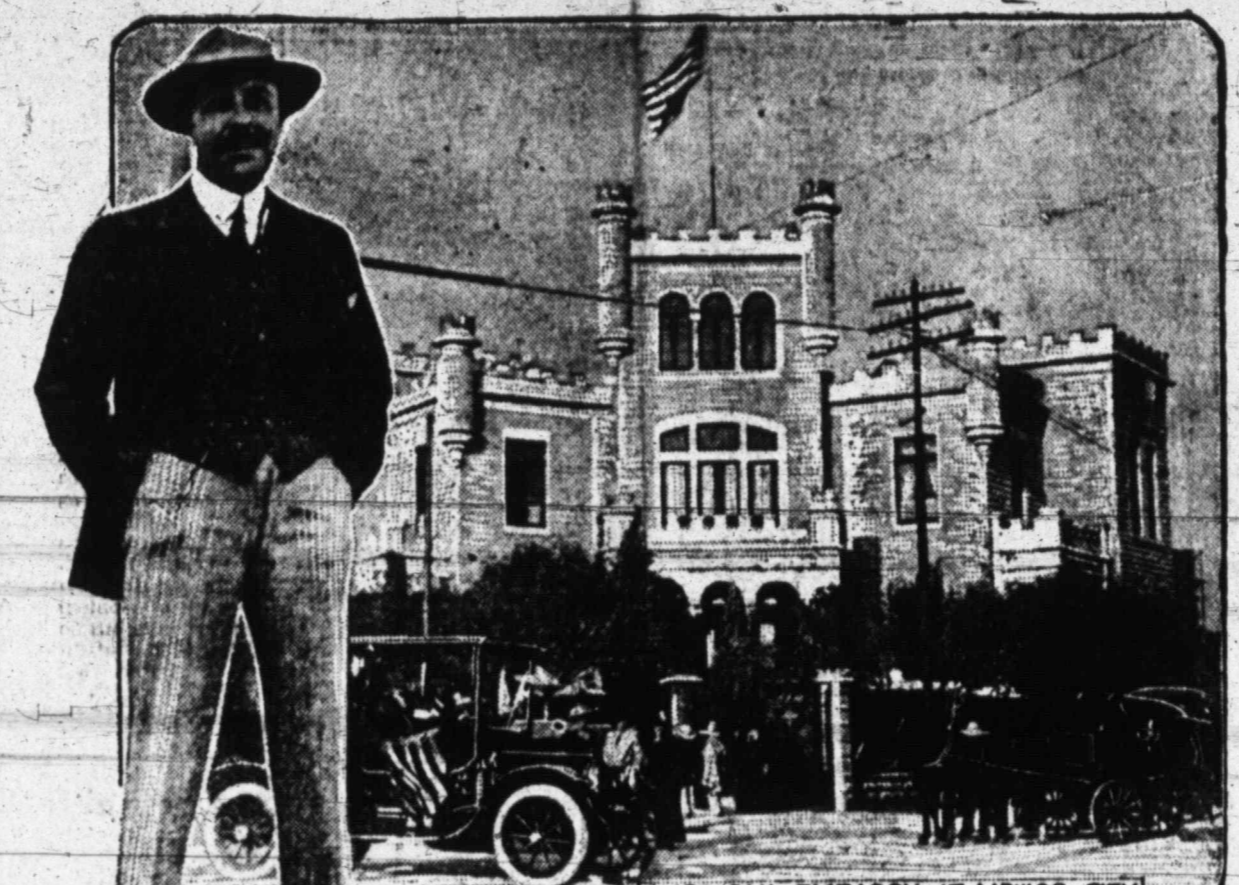

Poole first appeared in San Francisco about a year ago and attracted decided attention by his immaculate dress and somewhat too conspicuous jewelry. He professed to be a Mexican revolutionary agent.

He became acquainted with Miss Agnes Bernier, a pretty brunette, and was very attentive to her until he met Miss Maude Fay, after which he divided his attention for a time between the two women. Later he practically dropped their acquaintance for that of Miss Louise Lorraine, a singer. This annoyed Miss Bernier so much that when federal agents who were trying to learn more of Poole, asked her concerning him she was quite willing to tell all that she knew. She had no knowledge of the offenses he was alleged to have committed but she furnished such clues that the agents found out for themselves—or thought they did—what they wanted to learn.

When the time came to make an arrest, however, Poole turned up missing. In this dilemma the agents thought themselves of watching Miss Lorraine's mail and soon intercepted a letter from Poole, written in Los Angeles but stating that the writer would soon be in El Paso. In El Paso the agents kept a sharp lookout and in due season arrested him, attempting to cross the river into Mexico.

Whether he was on a trip after opium, was trying to escape or had some other reason for his journey they did not know. At all events, they had him. He will soon be tried in the federal court here.

28 INDICTED IN EAST ST. LOUIS

GRAFT INVESTIGATIONS FOLLOWED BY LARGE NUMBER OF TRUE BILLS

EX-MAYOR AMONG NUMBER

Sixteen Former Councilmen Also Included—Alleged Frauds Involved Aggregate \$100,000

By Associated Press.
St. Louis, Oct. 22.—Wholesale indictments against most of the members of the city administration of East St. Louis, which went out of office last spring, were returned today by the grand jury, which has been investigating charges of municipal irregularities.

Twenty-eight persons were indicted, including twenty-four former city officials. These included former Mayor Lambert, former City Treasurer Jerrald, and fourteen out of sixteen former councilmen.

Most of the indictments charge conspiracy to defraud the city of various sums of money. The frauds aggregated, it is alleged, about \$100,000.

WILLIAMS' PRELIMINARY TRIAL THIS AFTERNOON

Burk Burnett Shooting Case is Being Aired Today in Justice Howard's Court

A preliminary hearing for Mrs. Annie Williams is in progress before Justice Howard this afternoon and a number of Burk Burnett people are in to testify. Mrs. Williams is represented by Attorney John Kay. Judge Garrett of Altus, is participating in the case in the interest of Van Williams who is charged with having done the actual shooting.

T. J. Williams for whose shooting Van Williams, Mrs. Annie Williams and B. H. Summers are being held, was one of the "witnesses" for the state. Mr. Williams, who is about sixty years of age, is still weak from the results of the gunshot wound. On the witness stand this afternoon he told the story of the shooting and the events leading up to it.

THREE SOLDIERS KILLED BY BOLT OF LIGHTNING

Members of Sixth United States Cavalry Struck This Morning Near Galveston

By Associated Press.
Houston, Texas, Oct. 22.—A bolt of lightning struck a marching column of the Sixth United States Cavalry this morning, instantly killing Private Monroe, George Morris and John Zimmer. Veterinary Surgeon Devine was injured, but not seriously. Several troopers were unhorsed, but not otherwise injured. Several horses and mules were killed.

The regiment broke camp early and was en route to Galveston for target practice. The lightning struck the wagon train with which the dead men were detailed. Scores of animals were knocked flat by the bolts but only three horses were killed.

OVER SEVEN INCHES OF RAINFALL IN GALVESTON

Streets Flooded and Street Car Traffic Temporarily Suspended by Downpour Today

By Associated Press.
Galveston, Texas, Oct. 22.—Seven and twenty-two hundredths inches of rain fell here from 7:30 o'clock a. m. until 12:30 p. m. Streets are flooded and street car traffic was suspended temporarily.

REMARK BY NEGRO IS FOLLOWED BY LYNCHING

Insulting Language Used Toward a White Woman Cause Summary Action at Monroe

By Associated Press.
Monroe, La., Oct. 22.—Warren Eaton, a negro who made an insulting remark to a white woman here Monday was taken from the jail early this morning by a mob and hanged to a nearby telegraph pole.

SAYS NEW CURRENCY BILL IS DEFICIENT IN DETAIL

By Associated Press.
Washington, Oct. 22.—Alexander Gilbert, president of the Market and Fulton National Bank of New York, while endorsing the general principles of the administration currency bill, told the Senate banking committee today that the details had not been worked out. He said: "You gentlemen don't understand this bill. Time is not an essential element. It will pay you gentlemen, and it will pay the country, to work out the details of the bill, to an absolute certainty."

WASHINGTON AROUSED OVER GREAT BRITAIN'S ATTITUDE

INBROGLIO WITH ENGLAND FEARED

GREAT BRITAIN'S MEXICAN ATTITUDE LIKELY TO MEAN FURTHER NEGOTIATIONS

CONCERN IN WASHINGTON

Sentiment is That this Country Should be Allowed Free Hand in the Mexican Situation

By Associated Press.
Washington, Oct. 22.—Diplomatic exchanges between Ambassador Page and the British foreign office with regard to Great Britain's foreign attitude in Mexico are likely to continue. Indications that Sir Lionel Carden, British minister to Mexico, does not hold views in sympathy with the American policy, has caused concern to the Washington government.

It was made plain today that officials here do not desire that any foreign factor should be injected into the situation at present, which would in any way impede the efforts of the United States to deal with the Mexican problem.

The American government takes the view that as the "nearest neighbor" to Mexico, the United States should have a free hand in trying to bring about pacification. Diplomatic circles today took increased interest in the situation and many diplomats predicted that the outcome might influence the American policy toward Great Britain in other quarters pending.

The views of the British government as made known in the United States through the Associated Press reports have not been published here.

The London Globe declares that a grave mistake was made by the British foreign office in over hasty recognition of Huerta.

SULZER OPENS OFFICES; IS READY FOR CAMPAIGN

Fusionists in New York Mayorality Race Make no Secret of Their Joy Over His Candidacy

By Associated Press.
New York, Oct. 22.—William Sulzer opened headquarters at a Broadway hotel today for his campaign to establish himself at the state capital. From today until the election, November 4, he planned to conduct an organized campaign with Chester Flat, his private secretary, as campaign manager.

The entry of the deposed governor into the local campaign, which is already at a high pitch of excitement to make the next two weeks most stirring in a political way.

Fusionists seeking the election of John Furroy Mitchell as mayor make no secret of the satisfaction over the fight which Mr. Sulzer has declared against Tammany Hall.

PERSONAL INJURY CAUSE OF \$15,000 DAMAGE SUIT

S. M. Smith Files Suit Against Wichita Falls and Northwestern, Following Accident

S. M. Smith has filed suit against the Wichita Falls & Northwestern for damages for personal injuries demanding \$15,000. Smith was employed at the Northwestern shops and claims that while pushing a wheelbarrow through a doorway he stepped upon a bolt negligently left lying there and as a result fell forward onto the wheelbarrow. One of the handles of the barrow struck him in the groin causing severe and permanent injuries, it is alleged.

SETTLERS PETITION CONGRESS TO REMIT PAYMENTS ON LAND

Washington, Oct. 22.—Hundreds of settlers on the Cheyenne and Standing Rock Indian reservations in South Dakota petitioned congress today through Senator Sterling for relief from further payments on their lands.

Four years of drought and poor crops, they said, had put them on the verge of ruin and that they would be compelled to leave their lands and lose their homestead rights unless relieved. The cases will be taken up by the public lands committee.

COUNTY OFFICIALS LAUNCH RETRENCHMENT CAMPAIGN

McAlester, Okla., Oct. 22.—The county commissioners today adopted a resolution offered two weeks ago putting off a number of deputies in the county offices and reducing the salaries of others. Some of the officials gave notice of appeal from the action of the board.

UNCLE AND BROTHER OF MADERO UNDER ARREST

Charged With Complicity in Plot to Turn City of Monterey Over to Rebel Forces

By Associated Press.
Mexico City, Oct. 22.—Daniel Madero, an uncle and Evaristo Madero, a brother of the late president, have been arrested at Monterey, charged with complicity in a plot to turn over that city to rebels, according to newspaper reports here. The two Maderos are said to have been compromised by documents taken from dead rebels after a fight near Monterey.

27 KILLED IN GERMAN AIRSHIP WRECK

BURNED TO DEATH IN MIDAIR FIRE

ACCIDENT OCCURS WHILE NEW DIRIGIBLE "L-11" IS BEING GIVEN FIRST TEST

HIGH OFFICIALS KILLED

Members of German Admiralty Board Among Dead—Only One Survivor, Also Injured

Berlin, Oct. 17.—The newest and largest of the Zeppelin airships, the "L-11," was destroyed in mid air by an explosion at 10:15 p.m. today morning. All but one of the twenty-seven military men on board including the entire German admiralty staff and the entire crew were killed.

The disaster occurred at Johannes, near here, while the dirigible, 500 feet long, was making a trial preliminary to its acceptance as a flying corps. The airship's pilot was Capt. Gland a veteran steersman. Naval Constructors Newman and Pletzier and Naval Engineer Busch were among the victims.

Coming so shortly after the destruction of the "L-10" in a hurricane in the North Sea on September 9, when fifteen men were killed, today's disaster gives rise to a feeling of consternation in Berlin. Everything apparently was in good order when the trial began. The airship was gradually getting up speed when suddenly an explosion was heard, evidently in one of the motors of the center gondola. There was a flash of flame and the next instant the whole ship was afire, plunging downward. In a second a more violent explosion was then heard, the fire having reached the gasoline tanks, filled with a ton of liquid fuel. Passengers fled with axes hacked away two hours at the wreckage before they extricated the last body. The six inmates of the central gondola had been blown through the sides of the car by the first explosion and their bodies fell a quarter of a mile from the wreck of the balloon, which was traveling forty miles an hour when the explosion occurred.

The commander and members of the admiralty trial board were seated in the officers' quarters when the fire broke out there they were caged and grilled to death inside a net work of red hot girders. The one survivor, Lieut. Baron von Vuel, is desperately injured. His eyes were burned out. He urged rescuers to kill him. Engineers of the Zeppelin company had expressed confidence that when the airship was completed she would be able to cross the Atlantic ocean.

ARMY AVIATORS ALSO MEET DEATH IN ACCIDENTS TODAY

Berlin, Oct. 17.—Not only the German navy, but the army as well suffered from air accidents today. Three army officers belonging to the flying corps were killed in this morning's aeroplane accidents. They were Capt. Heesler, Lieut. Koch and Sergeant Mante. Lieut. Koch and Sergeant Mante fell with their aeroplane near Würzburg and both were instantly killed. Captain Heesler was killed when his airplane tank of his aeroplane exploded.

NIMRODS IN QUANDRY OVER FEDERAL LAW

Few Bold Enough to Take Chance that Duck Shooting Now is Proscribed

Restrained by a doubt and a ball conviction that the open season for ducks in Texas will not begin until November 1st and impelled by the honking of the lowly migrating waterfowl and a hope that the federal game law permits the shooting of wild ducks and geese after October 1, Wichita Falls Nimrods are in a state of expanding irresolution.

Some have opted up their fowling guns only to lose courage at the last moment and determine not to take any chances of going against the fowl's Sam's decrees, and have postponed their hunting trip until they learn something definite concerning the exact dates of the open season as prescribed by the federal game law. While others have quietly gone out and killed a bag of ducks.

In the meantime letters and telegrams have been sent to the department of agriculture to learn just what the law means. This is fine duck shooting weather and it is hoped to learn definitely concerning the provisions of the law before the ducks continue their migration southward.

At a mass meeting held in Dallas, Friday the view that the federal law limits the open season from Nov. 1 to Feb. 1 was evidently accepted without question. At that meeting a protest against the change in the law from an open season from Oct. 1 to Jan. 15th was voted. Telegrams and letters to Texas senators, congressmen and department of agriculture officials urging a change in the law were ordered sent.

The following message was sent to Hon. David F. Houston, secretary of agriculture, at Washington:

"The recent ruling of the depart-

ment of agriculture, changing the open season on ducks from Oct. 1 to Nov. 1 will work great hardship upon North Texas and the citizens of North Texas in mass meetings assembled at Dallas today, passed a resolution respectfully urging you to restore the date of the open season as originally published in circular ninety-two, beginning Oct. 1. An immediate ruling to this effect will be appreciated by all of North Texas." Signed by J. M. Miller, chairman; George Aldredge, secretary.

Captain Barr Led Rescue Fleet At Volturno Tragedy

Captain James C. Barr of the Curran-Heeser-Carranada in charge of the work of rescuing the passengers from the Volturno, which was burned at sea. He was the first to answer the calls for help and the first to reach the vessel, but he could do nothing at first because of the storm. However, when the other ships arrived, Captain Barr was in charge of the fleet and directed the work of rescue.

WICHITA TRUCKS TO GO TO ITALY

ARRANGEMENTS BEING MADE TO SEND FIRST SHIPMENT ACROSS THE ATLANTIC

LOCAL FACTORY BUSY

Export Business is Steadily Expanding—The Trucks in Use in Central and South America

Motor trucks made in Wichita Falls will soon be in use in Italy, and probably in other countries of the Old World, according to announcements made by the foreign sales department of the Wichita Falls Motor Company, A. G. Savelli, formerly of Milan, Italy, who is in charge of this department of the company here, not only expects to ship trucks soon to Italy, but even to India.

Wichita Falls trucks are already in use throughout the Western Hemisphere there being a number sold in Central and South America and Porto Rico. As yet none have crossed the water, but there is every reason to believe that some will be shipped across the Atlantic very soon. Mr. Savelli is in correspondence with several European houses and generously offered to let the Times man read his correspondence, all of which was in foreign languages, only a few of which the Times man is familiar with.

General Manager Jack Culbertson said that the plant was running full capacity, but that it was still behind with its orders. Among the new cars now being turned out are three more moving picture overhead trucks for a South Texas man. The local plant built two such trucks not long ago and they "took" so well that other were ordered. These machines are used to transport moving picture machines, film, tents, seats and all the paraphernalia of a traveling picture show. The plant has just shipped its sixth truck to the Magnolia Petroleum Company, for use in Dallas, Fort Worth and Houston. This concern is buying practically all of its delivery trucks in this State.

YARDMASTER OF KATY USES GUN

C. L. WILSON IS WOUNDED AND W. R. DUKE ARRESTED IN DIFFICULTY

THREE SHOTS ARE FIRED

Trouble Said To Have Originated When Injured Man Was Employed As Katy Switchman

C. L. Wilson, proprietor of a restaurant located near the Wichita Valley saloon and formerly a switchman employed by the Katy, was shot three times and seriously wounded late yesterday by W. R. Duke, Katy yardmaster here. The shooting took place on one of the switch tracks west of the Wichita Mill & Elevator Company at about five o'clock.

One bullet went through the flesh of Wilson's right thigh. The other struck in the left breast and was deflected through the flesh of the left shoulder and another struck in the back just below and to the right of the left shoulder and ranged downward. The bullet had not been located and is one which is giving Wilson's friends and his physicians the most concern.

After the shooting Wilson ran to the Wichita Valley saloon and was later carried to the Chickadee hospital, and Duke walked to the court house where he gave himself up to Deputy Constable McDonald and was placed in jail.

An examining trial was in progress this afternoon. One witness was R. L. Hendricks, engineer on the switch engine which was at work on the switch where the shooting took place. He was the first witness. His examination was of the morning session.

The shooting was done with a small calibre automatic revolver and the bullets were steel coated.

At the hearing this morning Hendricks testified that he was switching the mill tracks when the shooting took place. He had first seen Wilson, he said, when cutting a crossing on Tenth street. At that time Wilson was standing at the end of the street car spur on Tenth street with one of the passengers of a traveling picture truck in the street. After this Hendricks rode his engine up to the twelfth street end of the switch while Duke had gone to the mill, probably to get some instructions about cars to be switched.

Engineer in Witness.

- Hendricks said as he backed down to the mill again he saw Wilson standing on the right side of the track and Duke crossing from the mill side. He said Duke walked clear around Wilson and that he could hear him talking. Duke walked around Wilson and came back toward the engine. When he got back he told Hendricks to stop the engine, which was then moving slowly. He said he heard Wilson call Duke a vile name and say "I'll kill you now" and then reach his right hand back toward his hip. Then he said he saw Duke raise his right arm and several small cartridges advanced and then flash out in succession.

Hendricks was examined closely by County Attorney Dan Boone and attorney Fred Weeks who has been retained to assist in the prosecution as to whether or not Wilson had not turned around and had his back to Duke when the last shot or shots were fired. Hendricks declared that the shots came in such rapid succession that he did not believe Wilson either had turned around or that he had turned his back to Duke when the last shot was fired until the last. He said that Wilson was advancing toward Duke and was cursing and had thrown his right hand back to his hip when Duke had told Wilson several times to "stop" and to "go on and leave me alone" before he fired. He said if Wilson had a revolver he did not see it.

Wilson was within fifteen or twenty feet of Duke, he said, when the shots were fired.

Previous Difficulties.

- Duke is represented by W. Lindsey Bibb and C. C. Huff. The examination of Hendricks was concluded at 12 o'clock and Justice Howard before whom the examination is being conducted announced a recess until 1:30 when it was understood the state would begin the examination of Mr. Duke, the defendant in the new case.

The defendants' attorneys asked that Duke be given bond at the adjournment of the morning session but County Attorney Boone would agree to no bond under \$5,000 and the amount was not acceptable to the defendant.

The trouble last night is said to have been the result of previous difficulties. Wilson and other switchmen had been given the alternative of resigning or being discharged several months ago. Petitions had once been presented to Superintendent Sullivan signed by some of the switchmen asking that Duke be discharged and one of the yard crew given the position in his place. Officers had previously been appealed to on account of the trouble.

Duke's Bond Placed at \$6,000.

At the conclusion of the examining trial this afternoon Justice Howard placed Duke's bond for appearance before the grand jury at \$6,000. His attorneys argued against a bond in such a large sum. Justice Howard declared that if the bond was too high their recourse would be to take the matter before the district judge.

Duke's bond was filed with twenty minutes after Justice Howard had set it with the following signers: J. W. Pond, W. F. Warfield, L. Mackecheby, C. C. Huff, W. G. Swenson, George W. Thorburn and W. Lindsey Bibb.

The defendant introduced no witnesses but his attorneys stated that they would show that Wilson had more than once threatened Duke's life and that Duke had tried to resign several times giving as his reason that he feared that Wilson would carry out his threats.

The witnesses at the afternoon session were Jack Hayes, a member of the switch crew, Fireman Johnson who was on the engine with Hendricks and Dr. Amason.

Jack Hayes testified. He was talking with Wilson when Duke passed and that Wilson addressed Duke saying "Hello Stais, How are you?" and that Duke replied "Hello Wilson, I'm all right." Duke, he said, went on toward the mill while he, Hayes, went to spot a car. He was about 150 feet from the spot where the shooting took place. He said he saw Duke come from around the engine and walk past Wilson. He could see Wilson's hand when the shooting started. He said it was in the air and that it held no pistol. He said that when the first shot was fired that Wilson turned or at least had turned before Duke stopped shooting. He said the last four shots were fired from the spot where the shooting took place. He said he heard five shots in all were fired.

Fireman Johnson who was in the cab with Hendricks said he had heard the men talking. He said Duke had been riding on the footboard and got up when they reached Wilson. He heard Wilson curse Duke and heard the latter say "Don't come any nearer." He said he could see Wilson's hands but did not see him make any move toward his hip. He said that after the shooting Duke walked past the cab and addressing Hendricks said "You saw him make that move toward his hip pocket, didn't you?" and then told Hendricks that he was going to hunt an officer to give himself up.

SULZER GIVEN DEMONSTRATION

RED FIRE, ORATORY AND MUSIC ACCOMPANYING PRESENTATION OF LOVING CUP

SULZER MAKES A SPEECH

Letter From Roosevelt Read—Ex-Governor Receives Flattering Offers for Lectures

By Associated Press.

- Albany, N. Y., Oct. 18.—There was red fire, oratory and music by a brass band at the executive mansion to night when several hundred admirers of William Sulzer called to present him with a loving cup. Rain fell while the marchers were en route to the mansion. Sulzer started to shake hands with all his callers but never completed the task. They crowded around him and refused to move. Someone called a few words of consolation to him only to be interrupted by Mrs. Sulzer.

"The action of the committee is at least of our troubles," she said as the crowd began to cheer.

"We'll have you back here," one man yelled. "Another of this kind of crowd." "Burrall for the next president of the United States," whereupon there was much cheering.

Murphy's Name Brings Hisses.

- Chester C. Platt, Sulzer's secretary read a speech, assuring Sulzer that he had been removed because he would not obey the bosses. Mention of the name of Charles F. Murphy brought hisses.

"Lynch him," shouted one man, at the mention of the name of an assemblyman.

The cup presented Sulzer was inscribed "To William Sulzer, a victim of corrupt bossism, October 17, 1913. Sulzer in a speech said:

"Had I obeyed the bosses instead of my oath of office I would still be the governor and the organization would be patting me on the back and telling the people that I was a set off Andrew Jackson. My condemnation by the boss is intended to serve as a warning and a precedent to all who may follow me of what will happen to them if they do not 'obey orders,' but I believe my fate will have a good effect in the end and do more than any single thing I could do to forever destroy the terror of bossism in the State of New York."

Roosevelt's Letter Made Public.

- A letter which Col. Roosevelt wrote Sulzer October 3 last was given out in response to one from Sulzer telling Roosevelt that on advice of counsel Sulzer could not permit a letter he wrote the former president regarding the impeachment to be made public. The letter said:

"I thank you for your letter, and am sorry that I have to leave before your defense is made public—I wish it had been possible for you to write me the letter of which you wrote giving me the definite facts as to the effort by Mr. Murphy to bend you to his interests, against the cause of honesty and decency in popular government and the promise of immortality to you from impeachment if you would cease your attacks on the man who gave your attack on misconduct in public office, and if you would cease demands for direct primaries."

Flattering Offers to Sulzer.

- Platt also gave out copies of several telegrams Sulzer had received offering him lecture dates. A Kansas City man bid \$10,000 for one lecture; a New Yorker bid \$20,000 for ten lectures; another New Yorker \$50,000 for fifty; and a Chicago promoter topped the list with \$100,000 for a season. As yet Sulzer has closed no contracts. This was the latest offer.

REPUBLICANS ARE CALLED IN

PRESIDENT WILSON DISCUSSES CURRENCY BILL WITH SENATOR NELSON AND OTHERS

UNANIMOUS AGREEMENT

This is Hope of Democratic Leaders Efforts to Bring About Recess Have Abated

By Associated Press.

- Washington, Oct. 18.—President Wilson has further cleared the path for currency reform in the Senate through conferences opened today with the Republicans on the Senate committee now in charge of the currency bill. As a result of a conference with Senator Nelson, which it is believed will be followed by talks with other Republicans, the president has received assurances that Republican members are not holding up legislation nor trying to impede action on the bill in the Senate.

Democrat leaders expressed confidence today that the Senate committee would be able to come to such an agreement upon the necessary legislation as would insure its unanimous support by both Republicans and Democrats. The opening of negotiation with Republican senators was decided on by the president because of suggestions from outside sources that they were endeavoring to delay action in committee.

Efforts to bring about a recess of Congress appear to have abated somewhat and House leaders apparently have given up hope of getting away from Washington for any stated period.

STATE FAIR IS OPENED AT DALLAS

Twenty-Eighth Annual Exposition Formally Opened by Acting Governor Mayes

By Associated Press.

- Dallas, Texas, Oct. 18.—The State Fair of Texas swung open its gates for its twenty-eighth annual exposition here today. The opening address was delivered by Acting Governor Will H. Mayes, following a civic parade, in which he rode with his official staff and members of the supreme court of Texas.

The most brief addresses by Mayor Holland and President Eckford of the Fair Association. The first day was Children's Day. In his address Acting Governor Mayes said:

"I would stress the fact that, after all, the real purpose of a great exposition is to stimulate the happiness and prosperity of the people and I would emphasize the fact that the fair is an opportunity for the people of this State to see the best of the country."

"The action of the committee is at least of our troubles," she said as the crowd began to cheer.

IMPRESSIVE SCENE OF JOY WITNESSED

Another Presented With Children Whom She Believed Lost on the Volturno

By Associated Press.

- New York, Oct. 18.—The arrival today of eleven women saved from the Volturno by the freighter Rappanock was the signal for the most impressive scene of joy witnessed here since the rescuing fleet began bringing in their cargoes of survivors. Ten of them were mere girls. The eleventh was Mrs. T. A. Polack and the scene on the dock as she set her three children whom she had given up for lost, brought tears to the eyes of the immigration officers.

Mrs. Polack was the last woman to leave the Volturno. Believing her three children were in the boat, she attempted to spring into the water when she found they were not there. In New York, for the first time, she learned that the children were saved by a boat from the Kronland, they were at the dock with their mother when she arrived.

LOW PEGOUO GOT IDEA FOR INVERTED FLYING

Dropped From Aeroplane in Parachute and Saw that it Could Go Upside Down

Paris, Oct. 20.—It has just leaked out here how Aviator Pegoud got his idea for flying upside down in a monoplane. Pegoud, flying a Heriot machine, had volunteered to test a parachute designed for aviators by M. Bonnet. He was to rise to a certain height then abandon his aeroplane and come to earth with the parachute. He accomplished this at all right, but while en route to the ground he actually observed the behavior of the hotless monoplane. It at first rose to a steep angle then plunged head-first toward the earth. Then it turned completely over head on and sailed along upside down until quietly descended along upside down. Pegoud then, when it made another vertical curve, lighting itself automatically and, but or a hay-stack, against which a wing collided, it would have landed as gently as though obeying the commands of a skilled pilot.

ONE YEAR'S BUILDING PERMITS

Total In This City, \$1,071,938

Just a year ago today the first building permits were issued by the city of Wichita Falls and the total for the twelve months has reached the stupendous total of \$1,071,938.

It is believed that this record exceeds that of any other city in the country, population considered and it is showing that more than substantiates Wichita Falls' claim to being the "Busiest and Best Built City in Texas." The figures follow:

October, 1912 (15 days)	\$102,565
November	84,350
December	66,826
January, 1913	92,505
February	67,935
March	106,690
April	175,142
May	78,790
June	72,225
July	97,170
August	53,245
September	27,820
October, 1913, (16 days)	37,675

Jonathan Lane of Houston is out in an article of two or three columns length advising the people of Texas who to elect as their governor. This is not the first time he has presumed to offer advice along that line.

That splendid paper, the Democrat Record and Chronicle, to the Times way of thinking, sizes up the Sulzer matter just about as it appears at this distance.

Wilson, mischief maker. Let us hasten to say, right here in the first sentence, that we refer to Henry Lane Wilson, former ambassador to Mexico, and not to our president.

In a speech at Spokane, Washington, Henry Lane Wilson criticized, rather severely, President Wilson, Secretary Bryan and the American government, saying among other things that Huerta was just as legally the president of Mexico after the assassination of Madero, as was Roosevelt the President of the United States after the assassination of McKinley.

organization has heretofore gone the same way. When you see it published abroad that in every controversy that the corporations are having the Farmers Union through some attorney, or leader, is taking sides with them, it is then time for the Farmers Union to look about for a new set of leaders, or sing the Long Metro doxology and be dismissed forever.

HOW ABOUT OUR CIVIC PRIDE? As one who has felt no little interest in the progress of Wichita Falls, the writer wonders if the citizens of this enterprising city are losing their well earned civic pride.

So far the prohibition Democrats, or rather Democrats who vote prohibition, show disloyalty to the Democratic organization, are rather slow in taking up Dr. C. C. Rankin and Rev. Campbell's plan of holding a preferential or eliminating primary for the purpose of determining which of the several Democratic candidates for governor who are pros are the strongest.

school superintendent, and they are generally accorded this courtesy. If it is a matter upon which they are in a far better position to pass upon than the rest of us. But that is as far as they, as an organized body, should dip into the political game.

They tied the can to Sulzer, not for being guilty of "high crimes and misdemeanors" but for not totting fair, with the gang, and when the deposed governor likens his treatment to a "political lynching" he seems to forget that even a lynching may have some elements of justice about it.

Harper's Weekly says "the prophet of evil, just now, is neither a philosopher nor a patriot." Doubtless that was meant for the fellows who imagined because they had piles of money to loan out at a good rate of interest, and the country is in good shape, and getting better every minute. It is true, crops are a little short, there is plenty of work at good wages for every man who wants to work, and even the fellows who threatened the country with a panic seem willing enough to loan their money on the same securities as before the election.

CURRENCY PLANS PLEASE WILSON

BELIEVES BILL WILL BE REPORTED TO THE SENATE EARLY IN NOVEMBER

EXPECTS EARLY PASSAGE

In Letter To Majority Leader Underwood in House, Takes Very Optimistic View

By Associated Press. Washington, Oct. 20.—President Wilson wrote Majority Leader Underwood today expressing the opinion that the currency bill would be reported to the Senate not later than the first week in November and passed after two or three weeks debate.

The president is confident of considerable non-partisan support for the bill and said today he did not expect any change affecting any fundamental part of the bill, but rather had found an unexpected agreement on the fundamentals.

Senator Weeks, Republican of the banking committee, observed that the letter "disclosed more optimism than the facts warranted."

Will Hold Conferences. Conferences between President Wilson and Republican members of the Senate banking and currency committee, with a view toward making the pending currency bill a non-partisan measure, will be held within the next few days at the White House.

The president has been assured that not only a report from the committee is possible by Nov. 10, but that the legislation can be enacted before the December session, provided Republicans and Democrats reach a common agreement on the bill.

Hearings before the Senate committee are to be continued until Oct. 26, but the coming week may see the beginning of preliminary work on a night on the bill itself, changes in the amendments about which it is felt there is already unanimity being in contemplation so as to leave as few disputed points as possible for next week.

The president told his friends that his talk with Senator Nelson (Rep.) on the currency situation was most satisfactory and encouraged him to discuss the subject further with other Republicans.

Wants It Party Measure. From the first, it was said, the president has not been desirous of making the bill a party measure though he feels that the responsibility for whatever law is framed, the idea that Mr. Wilson was uncompromisingly committed to the House bill largely to that impression, but with in the last few days he has made it known that if the Senate will keep the main essentials which the administration desires, changes in harmony with the fundamentals will be acceptable.

In this spirit the president will confer with Republicans and he is greatly encouraged over the possibility of getting a unanimous report from the committee. This, he said, would mean that debate on the floor of the Senate will be much shorter than was the case with the tariff.

The president will discuss with Representative Underwood, majority leader exactly what should be done by the House while the Senate committee is dealing with the currency. Mr. Underwood has called attention to the restlessness of House members and recent conferences with Republicans and Democrats on the Senate committee have given the president a basis for a reply on just what program can be followed.

The Ellis Island board's order of deportation was reversed today after President Wilson had conferred on the celebrated case with Secretary Wilson and a hearing had been concluded before Immigration Commissioner Camanetti.

Secretary Wilson announced after the conference that Mrs. Pankhurst would be admitted upon her own recognition with the understanding that she would depart at the end of her lecture engagements. No bond was exacted.

President Wilson felt that the law had a flexible interpretation, so that it was largely a question of policy. Commissioner Camanetti's decision was in strict accordance with the laws of President Wilson and the secretary of labor.

Spends Sunday in Detention. Sunday Mrs. Pankhurst waited on Ellis Island, and not without some impatience, word from Washington as to whether she would be permitted to land under bond to carry out her lecture tour or whether she must go back to France whence she came here.

"Have there been any dispatches from Washington on my case?" she frequently asked.

When word finally was received that Commissioner Camanetti had declined today to admit her to bail, Mrs. Pankhurst prepared again to sleep at the immigration station tonight.

Mrs. Pankhurst kept to her decision not to begin a "hunger strike" while the prospects seemed favorable for an early decision of her case.

Her appetite was good and she appeared to enjoy each of the free meals sent to her room. For breakfast she ate grapefruit, toast and coffee. For luncheon she was served with two broiled lamb chops, French fried potatoes, lettuce, buttered toast and strong coffee. She ate heartily. She said she has given up for the moment maintaining that coffee is more strengthening.

Up Early Sunday. Mrs. Pankhurst rose at 8 o'clock Sunday morning and declared she felt refreshed as the result of a good night's sleep. Donning a long gray kimono and slippers, she went to the roof of the building for exercise before breakfast. She spent nearly half an hour on the roof, gazing through her mist at the Statue of Liberty and the skyscraping office buildings in Lower Manhattan.

At 9 o'clock Mrs. Blatch, Mrs. John Rodgers, Jr., and Miss Alice Perkins were admitted to Mrs. Pankhurst's room. The militant leader was resting upon her bed, propped up with pillows. Each of the visitors was kissed on the cheek.

"I am a prisoner, don't forget that," he said by way of introduction. "I have never submitted to unjust imprisonment in England," said Mrs. Pankhurst, "and I will not submit to it here."

"If the steamer La Provence carries me from New York next Thursday as the result of an order issued by the immigration authorities in Washington, the steamer will carry me to my berth. I feel that I can not last long here on a hunger strike—not more than twenty-four hours—if I enter upon a seventh day."

SULPHUR SPRINGS RETAINS REV. BASSETT

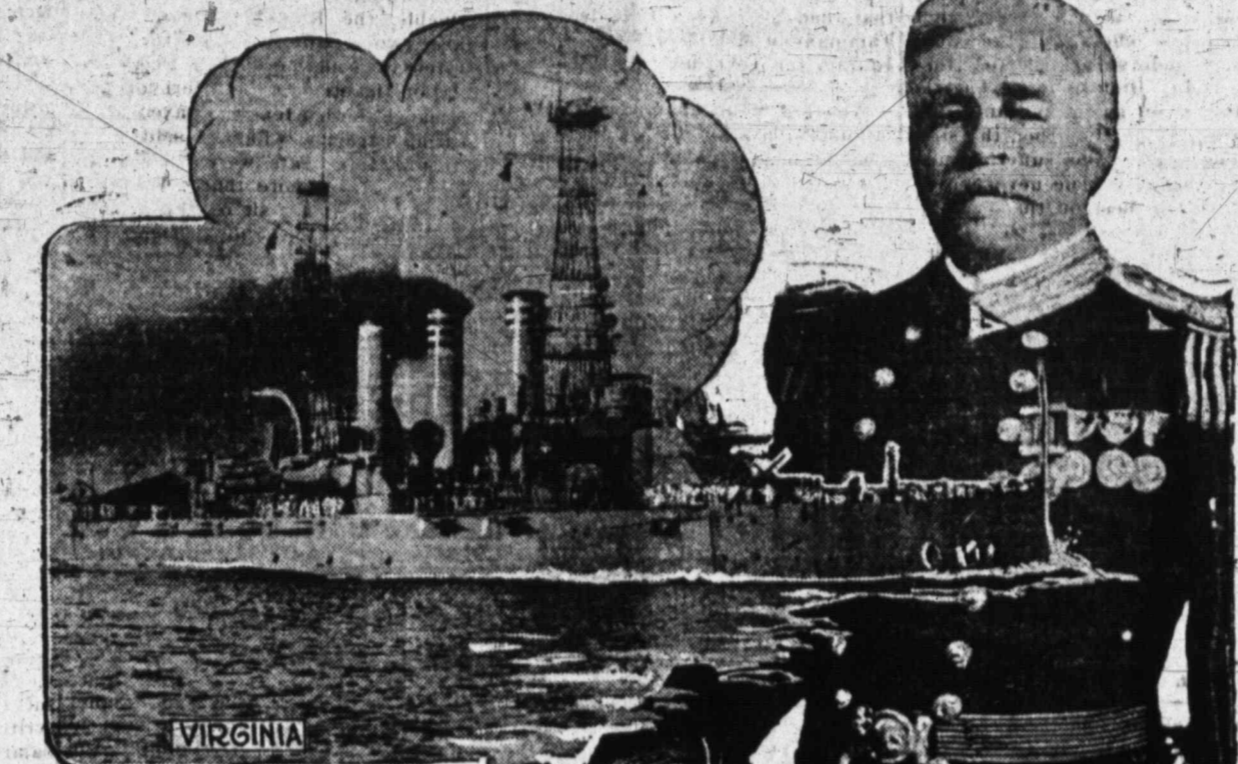

Pastor To Whom Call Was Extended By First Baptist Church Here Does Not Accept

Rev. Wallace Bassett of Sulphur Springs to whom a call had been extended by the First Baptist Church here has written the committee from the local church announcing that he has accepted the call. The announcement is a disappointment to the church here whose congregation was strongly hoping that Rev. Bassett would accept their call.

TELEGRAPH LOCKOUT ON KATY CHARGED

Dallas, Texas, Oct. 20.—A lockout of telegraph operators on the M. K. & T. railroad system is being put in operation by that road according to J. J. Dermody, vice president of the Order of Railroad Telegraphers, who said today he had a copy of a contract which new telegraphers were required to sign.

UNCLE SAM SENDS NEW BATTLESHIPS TO MEXICAN WATERS TO FOIL HUERTA'S MOVE

Washington, Oct. 20.—If the American battleships now in Mexican waters are not removed by Oct. 27, the day on which will expire the six months' permission granted by the Mexican congress for their presence in Mexican waters, President Huerta may find himself obliged to adopt drastic measures.

The administration has already prepared for the expiration of the special six months' permission granted by the Mexican congress to the American ships. The government purposes to take from Huerta all technical ground for complaint by changing the date under Rear Admiral Boush and replace the vessels of the fourth division. Thus the letter of the Mexican law will be observed which forbids warships of any nation to remain in Mexican waters for more than thirty days.

Final Decision in Matter Said To Rest With Her—Friends Assure Him of Support

By Associated Press. Albany, Oct. 20.—The question whether William Sulzer, deposed governor of New York, will receive the nomination for member of the assembly in the sixth district of this city, will be decided at a meeting of the Progressive Party tonight. Reports from Albany were that Mr. Sulzer viewed favorably overtures made to him and planned to confer today with Progressive leaders.

DISCUSSES MATTERS WITH HIS POLITICAL ADVISERS

By Associated Press. Albany, Oct. 20.—William Sulzer and several of his political advisers today discussed the advisability of his running for assemblyman from the Sixth New York district. Many assured him there was no doubt of his election, but the former governor refused to agree positively to make the race.

PICTURE SHOWS TO PAY CITY OCCUPATION TAX

Wichita Falls may secure a municipal motion picture show. Chief of Police Gowan was instructed this morning to go out and collect occupation taxes from two of the motion picture houses and if he failed to get the tax to take possession of the shows. The tax amounts to \$12.50 per annum and it is not believed the owners will surrender their establishments for such a trivial amount.

WATER COMPANY WORKMEN ARE STILL OUT TODAY

It was stated this morning that the strike of the water company employees for an eight hour day was still on and that the company had refused the request of the men. C. R. Colley of the workmen says that a few men were secured this morning and went to work, but that as soon as they learned a strike was in progress they quit work and have not returned.

New York, Oct. 20.—Apprehension of serious damage to the crop, caused a big advance in the cotton market this morning. The wild rise brought selling orders and the market reacted fifteen to sixteen points, but fear that great damage would result to the crop in Atlantic States as the cold wave works eastward put the prices back to about the highest level.

THIRTY FIVE MAY BE DEAD IN TROOP TRAIN WRECK

Twenty Six Bodies Taken Out Wreckage Already And Others Not Yet Reached

Meridian, Miss., Oct. 20.—At ten o'clock this morning twenty six bodies had been taken from the Mobile and Ohio troop train wreck near Stalene, Mississippi, according to a telephone report reaching this city. This report said all bodies had not been taken out.

While the Mobile and Ohio railroad officials say the death list is seventeen, telephone reports from the wreck, reaching here, place the number of dead as high as thirty-five.

It is said that many arms, legs and other parts of bodies lying picked up separately and this may have led to exaggeration of the number killed.

It is reported that an unrecognizable mass of parts of 14 bodies is accumulating at the wreck scene.

Parts Of Maimed Bodies Found In Morgue—Steward Is Hurt

Mobile, Alabama, Oct. 20.—A total of eighteen bodies, killed in the wreck of the special troop train on the Mobile and Ohio road near Buckatunna, Mississippi, Sunday afternoon at 10 o'clock when the engine and express car and three wooden passenger coaches crashed through the Rube Boroughs trestle, four miles from this city, have arrived in Mobile today and several more are reported in the debris.

A total of seventy-one are in the various Mobile hospitals conducting the wreck of the special troop train on the Mobile and Ohio road near Buckatunna, Mississippi, Sunday afternoon at 10 o'clock when the engine and express car and three wooden passenger coaches crashed through the Rube Boroughs trestle, four miles from this city, have arrived in Mobile today and several more are reported in the debris.

The scene at the morgue this morning resembled more a battlefield than it did a death house, parts of bodies being strewn on floors and tables. The correct and full names of some of the dead will not be obtainable until they are properly prepared.

Sergeant Beasley, hospital steward, who was with the company, was the only one of the occasion. Alone and unassisted, he attended the wounded, giving each one some attention before the arrival of the relief train which did not reach the scene before dark. The train carried a total of 179 officers and men. The first coach was occupied by the thirty-ninth company, the second by the 170th company and the third by the band from the eighth company.

The majority of those killed were in the second coach, which telescoped the first. The wooden coaches were reduced to kindling wood. The soldiers were members of the United States coast artillery companies and were on their way to Meridian, Mississippi, to take part in the State Fair.

QUEER CASES IN SUPREME COURT

SOME UNIQUE MATTERS ARE PRESENTED TO TRIBUNAL FOR ADJUDICATION

NEGRO'S RIGHTS FIGURE

Several Questions Deal With Their Constitutional Prerogatives, Including Grandfather Clause

Washington, Oct. 20.—Some of the most extraordinarily unique cases in history today are awaiting decision of the supreme court of the United States. Approximately seven hundred mooted questions are before the highest judicial body on the eve of its October term.

Whether negroes may call upon their constitutional prerogatives to force the right to bury members of their race in cemeteries reserved for whites; whether the U. S. army must pay for business damage through fear of shrieking shells from its big guns; determining the rightful mother of an incubator baby; and to determine the constitutionality of the "grandfather clauses" of Oklahoma and Maryland, designed against voting privileges of negroes whose grandfathers were not voters are but few of the singular questions the court is called upon to pass on.

DUCK-HUNTING SEASON TO OPEN NOVEMBER 1

Although the federal law plainly says that the duck season in Texas opens October 1, there seems to be little doubt, from reading hunting magazines and other authorities, that the department of agriculture has changed the regulations as they apply to Texas and local birders, when they feel called upon to go out after the web-footed birds before November 1, may understand that they yield to the longing in violation of the law.

Year: WILL TRY TO "GET EVEN"

Jonathan L. Albany, N. Y., Oct. 21.—What will be the outcome of William Sulzer's candidacy for the Legislature was forecasted by the minds of politicians about the

capitol today. It was generally agreed that he will make a great deal of trouble for the organization in New York.

His fire will be directed especially against Aaron J. Levy, who is a candidate for municipal judge and Alfred B. Smith, speaker of the assembly, who seeks to succeed him.

Sulzer intends to attempt to square accounts with them for the active part they took in his impeachment, even Sulzer's worst political foes practically conceded today his victory in his own assembly district.

Constable Bickers in the meantime had opened fire, having walked to the middle of the street. Three bullets took effect in Bruce's body.

Whether or not Bruce contemplated the shooting when he came here is not known. He is said to be a member of a peculiar religious sect, but beyond that little is known of him. A letter to his wife and children, undated and unaddressed, was found on his body after the shooting. It follows:

is Released on Charge of Having Sent Obscene Matter in Magazine Through Mails

By Associated Press.

Augusta, Ga., Oct. 21.—The trial of Thomas E. Watson, former presidential candidate, charged with sending obscene matter through the mails, ended abruptly at noon today when Federal Judge Post sustained the motion of the defense to quash the indictment against Watson. Watson addressed the federal court in his own behalf. He argued that the statutes under which he was prosecuted were aimed at persons sending literature dealing with vicious and degrading use of drugs and not papers in the nature of his magazine.

TWO KILLED AT SEYMOUR AND SHERIFF IS WOUNDED

EX-SHERIFF BOARD WELL KNOWN IN WICHITA FALLS.

A. L. Board, one of the victims in Tuesday morning's shooting at Seymour, is known to a number of the old time residents of this city. Attorney J. T. Montgomery who formerly lived at Seymour knew him well and says he was one of the best citizens of Baylor county.

Mr. Montgomery was attorney for Board, then sheriff of Baylor county and his deputy, S. Suttlemeyer, when they were charged with murder for the killing of one of the Bruce brothers in about 1902.

"As I remember it," said Mr. Montgomery, "word was brought to Seymour that the Bruce brothers and probably some others had been disturbing a meeting. Sheriff Board and Suttlemeyer started out to arrest the Bruce brothers. They overtook them at or just over the line in Throckmorton county. When the officers came up one of the brothers pulled out a Winchester rifle and threatened to shoot. If the officers came nearer. After several times commanding that the gun be put down Suttlemeyer shot killing one of the brothers.

IR EDWARD GREY'S VIEWS

He Believes Matters Should Be Left Alone But Declines To Bind the English Government

By Associated Press.

London, Oct. 21.—In his discussion of Mexican affairs with American Ambassador Walter H. Page yesterday, Sir Edward Grey declined to bind the British government to any particular policy after the elections in Mexico. In this respect, therefore, the policy of the British government differs from that of the United States. The British attitude, according to Sir Edward, is that matters should be left alone until after the election and that future action should be based on their result. The conversation between the two statesmen, other views brought out the fact that the views of the British and United States governments largely coincided and that both were anxious to bring about permanent peace in Mexico.

HUERTA'S RESIGNATION RUMORS NOT CONFIRMED

HUERETA DENIES HAS RESIGNED

DECLARES HE HAS NO INTENTION OF ABDICATING OR LEAVING THE COUNTRY

CLAIMS TO HAVE MONEY REPORT IS NOT CREDITED

Says When He Resigns It Will Be in Resting Place Six Feet in Soil

Washington, Oct. 23.—Provisional President Huerta has not resigned nor has he fled from the capital. When asked at the national palace at five o'clock this afternoon he said he had no intention of doing either.

"When I resign," said General Huerta, "I will be to seek a resting place six feet in the soil. When I flee the capital, it will be shoulder rifle and take my place in the ranks to fight the rebels."

This was President Huerta's answer to questions as to whether there was any foundation for reports which have been freely circulated in the capital and have found their way to the United States. General Huerta looked the picture of health and energy.

"So it is reported that I have fled," he said, "you can see for yourself that I am here at my post. To say that I have resigned or that I intend to resign is an absolute falsehood. I have no intention of resigning. Should the election which will be held as I promised, indicate another for the president, I will step aside. Until that time, you will find me here, complying with my promises to the nation, which are to reestablish peace within the law if possible, but to reestablish peace."

Has Money for Requirements

"I have money for my requirements. Don't think I haven't. Where did I get it? My secret, but I have it," he responded.

On the question of pacification, he declared that before the end of the month the government would have taken Torreon and made headway toward the pacification of the State of Durango.

"I have eight thousand men at Hipolito," said the president, "moving on Torreon and two thousand men are proceeding from the south." In reply to a suggestion that further rumors were afloat that a troop train proceeding to Torreon had been blown up, he explained:

"More lies; nothing of the kind has occurred."

In the opinion of President Huerta, the sensational rumors have originated at the capital and elsewhere for the effect that they would have with the constitutionalists. General Huerta is working fifteen to eighteen hours daily, sleeping at odd times when fatigue overtakes him.

By Associated Press.

Mexico City, Oct. 18.—The rumor of President Huerta's resignation and flight caused a sensation in the capital. Many believed it, finding circumstances to bolster up the story, such as the departure of several individuals close to the president and difficulty in finding any permanent minister.

Few remembered having seen Gen. Huerta for a day or two, in connection with his report that Americans had declared that he had not and would not resign. Gen. Huerta also denied the report that Americans have been ordered to leave the capital. In response to a question on this subject, Gen. Huerta made a gesture of disgust.

"What nonsense," he said, "as I have repeatedly said, since I came to the presidency, from riotous to the most enlightened have received and will continue to receive, every guarantee. Mexicans likewise, who obey the law have nothing to fear from me. Transgressors, must watch out. They shall be punished through every means the law affords."

Americans Not Ordered to Leave Mexico

By Associated Press.

Mexico City, Oct. 18.—There is no truth in the report that Americans have been ordered out of Mexico. A number of American residents have received recently cablegrams from relatives asking them to leave. These have given rise to various disquieting rumors.

Many Innovations Planned For This Fall's Fashions

New York, Oct. 18.—New York has been most interested recently in the fall openings of the big shops. Most of the more important pieces injected into this occasion more or less of a social element. Elaborate settings are prepared and invitations extended to patrons, either by letter or newspaper announcement, to attend at specified hours, when the costumes are displayed upon living models.

A round of the various exhibitions gives one a very good idea of the new modes which will be brought out in the metropolis. Of course, the more extreme styles are most conspicuous in displays of this kind, as they are bound to depend more or less upon the spectacular for their appeal. However, as modifications of these advanced ideas will be seen throughout the country, a study of the costumes presented is very interesting.

Two distinct styles seem to be struggling for supremacy—clinging, ultralike upstanding frill at the front, which is most becoming.

The tiara and other types of Russian jewelry will, they tell us, be much worn at formal functions this season. Buckles, girdles, bracelets and other articles of jewelry in more general use are shown in the intricately wrought designs set with dark, semi-precious jewels characteristic of this semi-barbaric country.

The top boot is another extreme novelty which has recently been imported from Russia. This was shown at the fashion openings, not only in black but in brilliant red and green leathers. Whether or not it will be taken up to any appreciable degree, it is impossible to say at this early day. One fact may unhesitatingly be stated however, and that is that we are to have a revival of fancy street footwear. The vogue of hoisery of a contrasting color worn with pumps, which was noted during the summer, has been transferred to a call for shoes with vari-colored tops. Broche silk in gray, brown, terra cotta, blue and Russian green is being used in the uppers of shoes of dull and muted tint made by a prominent boot-maker.

In evening footwear, sandal effects are strong and slippers with novel trimmings. Our second illustration shows a little gold lace butterfly ornamenting the slipper and in the first the girl's black suede pump has a very smart finish in the form of a single crystal button. This picture shows the practical and popular sports coat used as an evening wrap. It seems anomalous that a garment originally intended for outdoor, sporting events should now be worn with frilly evening garb, yet such is the case.

Attending the theatres any evening one notes numbers of young girls wearing these smart little coats over lace and chiffon gowns. Sometimes they are in strong colors, such as cerise, hunter's green and orange and very frequently also in white. The coat which is a new and attractive member of the chicinella family. Bearcloth has a very high pile, or nap, but is supple to the final degree. It is warm and hangs in beautiful folds, and promises to be very popular.

Driller From East Couldn't Take Offer of Western Wages as a Serious Proposition

The National Petroleum News this month contains a lot of interesting matter under Wichita Falls date line. One of the stories follows:

Wichita Falls, Texas, Oct. 3.—Out in Northwest Texas there is an oil field. It is bounded on the north by the Red River, on the east by Clay county, on the west God knows where, and ditto on the south. It is some oil field, and its magnitude depends on the man who is telling about it. We have almost every language that is written spoken in this field and some that are not written, for it is oil country English and understood by oil men only. There is the Texas who calls for "Hon. Bro.", the Irishman who wants "best job", the Englishman who must have his "awful" and "haw", and the old Pennsylvania oil man who drinks the whole business when he can get it.

But the ratio of good fellows is larger than the ratio of bad fellows controlled by the big game. Among this class of good fellows was one named Morgan. Morgan is that is not his name but it will do as I do not wish to get personal. He was one of those princely fellows who wore overalls and kiki with distinction, in fact he looked better in a kiki suit than some men do in a Prince Albert. He was liberal to a fault and was chosen full of enthusiasm over his work, which was that of a contractor.

One day he took his Buick "Gad-about" and started for Electra. He felt like a two-year-old throughout. The purr of the motor business is larger than the purr of his work, which was that of a contractor.

WINTER WEATHER IS DUE FOR COMING FEW DAYS

Forecast For Week Is For Chilly Temperatures East of the Rock Mountains

Washington, Oct. 23.—Wintery weather is predicted for the next few days in the greater part of the country east of the Rocky Mountains. "It is probable," said the weekly bulletin Sunday "that general frosts will occur in the first half of the week in the great central valleys, the Eastern States and the interior of the South. Normal temperatures will prevail in the Pacific slope. There will be rains Monday in the Eastern States, the Upper Ohio Valley and the Great Lake region. Otherwise the next several days will be generally fair east of the Rocky Mountains."

The next disturbance of importance to cross the country will appear in the Northwest Tuesday or Wednesday move eastward and cross the great central valleys Thursday and Friday and the Eastern States near the end of the week. This disturbance will be preceded by a general change to light temperature, be attended by rains in the Southern and Middle States east of the Rocky Mountains and rains and snows along the Northern borders. It will be followed by colder weather which will appear in the Northwest about Thursday.

"There are no indications of a disturbance in the West Indies."

MAY HAVE WICHITAN TO WRITE CHURCH HISTORY

Dr. J. W. Hill Is Being Considered For Important Work Which Would Require Two Years

A Wichitan may be chosen by those in authority in the M. E. Church, South, to write a history of that church, according to a statement made yesterday by Rev. Frank Gordon, who has been conducting the special services here. Mr. Gordon told his congregation yesterday morning that it was possible that Dr. Hill would be chosen to write a history of the church because of his familiarity with the subject, and the fact that he had been "considering" writing Dr. Hill two years time a which to do this work.

Dr. Hill has delivered lectures on church history and doctrine at a number of places since becoming pastor here and is known to be well versed in such matters. In making the statement about Dr. Hill, Mr. Gordon took occasion to pay him a marked tribute, and he urged Dr. Hill and Dr. McKee to stop on their way "white" and a few things to be considered. He said a few words of hearty welcome praise for both pastors and urged support and cooperation for them in the work they were doing in this city.

"BATTLE OF NATIONS" MONUMENT DEDICATED

Is Unveiled on Spot Where Napoleon the Great Was Defeated By United Armies

Leipzig, Germany, Oct. 23.—In the presence of Emperor William, the Crown Prince, and his five brothers, the Kings of Saxony and Wurtemberg, Prince-Lieutenant Ludwig of Bavaria, Archduke Ferdinand, heir to the throne of Austria, with a suite of fifty persons, a special delegation from the Czar of Russia and virtually all of the rulers of the German states, the massive monument commemorating the "Battle of Nations" fought at Leipzig in 1813, was dedicated with elaborate ceremonies.

The monument, which is the work of the sculptor, Ernst Rietschel, is a masterpiece of art. It is a massive structure of granite, containing a ball of fame with four heroic sized figures representing the spirit of bravery, artificial willfulness and faith of the German peoples. Each of the four figures about the ball of fame weigh 20,000 pounds.

ROBIN HOOD MASTERPIECE OF LIGHT OPERA STAGE

The de Koven Opera Company Is Responsible for the Festival of "Robin Hood" at the Wichita Theatre Friday

The de Koven Opera Company is responsible for the festival of "Robin Hood" at the Wichita Theatre Friday. This organization has been formed for the purpose of reviving an interest in the masterpieces of the light opera stage. The first work selected for this purpose was the little classic that Reginald de Koven composed over twenty years ago, and which still maintains its freshness despite the flight of time. In fact it is safe to predict that generations yet unborn will enjoy the score and book of "Robin Hood" in the years to come. Originally written for the Bostonians and produced by them only because of the lack of other available material, this work of Reginald de Koven's found an immediate success and has been performed over 5,000 times. It is safe to say, however, that no revival of "Robin Hood" has ever attained the dignity of the present one. For the cast the best singers from the grand opera stage were engaged. The keynote of the entire production has been artistic simplicity without over elaboration. The scenes are faithful reproductions of old England when Robin and his merry men roamed through Sherwood Forest. The costumes are in keeping with the period of the opera. In the list of singers who will be heard in "Robin Hood" the one dominant figure is Enrica Dilli, a dramatic soprano, with "muscular" timbre; a range of two and a half octaves, each note of an equal force and value. She was secured by Mr. de Koven from the Royal Opera at Genoa, and she speaks perfect English. Another importation is that of Misha Ferozov, who will be heard in the title role. He is a graduate of the Imperial Opera at St. Petersburg, and has sung in "Robin Hood" for two seasons. George Frothingham, the original Friar Tuck of the famous Bostonians, has been engaged to recreate his favorite part, and he has played it upward of five thousand times.

Others in the cast are Jerome Daley as the armorer, Joseph Parsons as Little John, Sara Maxon as the jealous Alana a Dail, Helena Morrill as Annabel, who teases him; Willie Senger as an huxton; Dame Durden; Phil Branson as the Wiley Sheriff of Nottingham.

The scenery, which is very elaborate, shows the market place at Nottingham, the edge of Sherwood Forest, with a stream flowing across the stage and the court yard of the sheriff's palace. The forest scene, with the eighty choristers clothed in Lincoln green tights and brown leather jerkins, never-falls of a round of applause. There is a happy out of doors atmosphere about Robin Hood that seems to take us back to our childhood days.

Houston—The city council of this place has authorized the laying of more storm and sanitary sewers in the residence district of this city. The work will cost approximately \$15,000 and will be started within a short time.

New York, Oct. 23.—Joseph Weeks, who lived for a year with a broken neck, died at Babylon, Long Island, last night. He broke his neck when he dived into shallow water while bathing.

WICHITA FALLS COTTON SEED PRICES COMPARE FAVORABLY

After Monday's sensational advances cotton prices dropped back today. The price in Wichita Falls was from 13 1/4 to 13 1/2.

Cotton seed is selling at \$22 per ton here. Only two points in the state, Sherman and Brownwood, reported higher prices than Wichita Falls for cotton seed. At Sherman \$24.40 per ton was paid farmers yesterday and at Brownwood \$23 was the quotation. Prices in other towns ranged from \$13 to \$22 per ton.

FIND BABY UPON THEIR DOORSTEP

INDIANA AVENUE FAMILY DISCOVERS INFANT AT DOOR EARLY TODAY

LETTER FROM ITS MOTHER

"Papa So Mean He Won't Stay at Home" Says Message—Home is Sought For Foundling

THE MOTHER'S LETTER.
"Please take care of my darling little baby, don't let him cry, he sweet little baby on earth, but I can't keep it, am not able to support him but I love him better than anything on earth. I would rather die than give up my fresh baby. Please don't ever whip him but love him to be nice."
"It sure is awful to give up your little baby, but Lord I want to give this one up, his papa is so mean that he won't stay at home any and I am not able to make my living and his to. Now dear, who ever get my darling little baby for God sake don't let him cry and take good care of him. Please do."

C. G. Storms and wife of 1308 Indiana avenue were awakened at about 2:30 o'clock Wednesday morning by the wall of an infant apparently coming from their front door. Mr. Storms got up to investigate and found baby wrapped in a small blanket lying on the front door step of his home. The child was brought into the house and cared for and the authorities were notified.

The baby is apparently three or four months old and is a large, fat, healthy boy with lustrous dark brown eyes. After a hearty meal this morning he was cooling contentedly and appeared just as much at home as Mr. and Mrs. Storms' own baby of about the same age.

Seek Home For It

Having a young baby of their own Mr. and Mrs. Storms do not want to keep the foundling but just the same Mrs. Storms isn't going to let him go until she is satisfied that he is going into good hands, so she told Police Chief Gwinn this morning. The right of discovery, she believes, allows her to exercise that much authority in the disposal of the baby.

A letter was pinned to the baby's dress begging the finder to give it a good home and to treat it kindly saying that the mother loved it dearly but was unable to support it, and herself too, and that the father would not stay at home and was mean.

The police believe the mother of

the child to be a young woman who had been working in an Ohio avenue boarding house and who disappeared with her baby last night. The woman came to the boarding house about three weeks ago carrying the child which she said was only three weeks old, and was given work.

Mother Not Located

She was about nineteen years of age and is described as a rather tall, dark, complexioned and good looking young woman. She had said nothing about leaving but this morning she and her baby were found missing. Later it was learned the woman had bought a ticket for Fort Worth but whether she went to that place the police have been unable to learn this morning. The young woman told another young woman at the boarding house that her husband was employed in a bank at Fort Worth.

At the Boarding House It Was Stated

that she did not do her work well and was evidently not accustomed to such work and was retained only because her employer did not wish to discharge her when she knew she had no other place to go with the little baby.

IF WOMEN ONLY KNEW

What a Heap of Happiness It Would Bring to Wichita Falls Homes. Hard to do housework with an aching back. Brings you hours of misery at leisure or at work. If women only knew the cause—that Backache pains often come from weak kidneys. 'Twould save much needless woe. Doan's Kidney Pills are for weak kidneys. Read what a Wichita Falls citizen says: Mrs. W. M. Langford, 309 Lee St. Wichita Falls, Texas, says: "I have used Doan's Kidney Pills for several years and I am glad to join others in recommending them, as they did such fine work. There were times when my back was so painful that I could not sleep. I had pains in my sides and when I got up in the morning, I was more tired than when I went to bed. My kidneys were weak. Doan's Kidney Pills promptly relieved all the pains and strengthened my kidneys. Since then I have taken a box of Doan's Kidney Pills occasionally and they have kept my kidneys in good working order."

FOREST OIL COMPANY GETS GOOD PRODUCER

Number Eleven on Marriott Comes in For 300 Barrels—Other News in the Oil Fields

The Forest Oil Company brought in their No. 11 on the Marriott lease in the Electra field Tuesday afternoon and according to officials of the company in this city, it is good for 300 barrels. The sand was reached at 1550 feet, there being twenty-four feet of pay. Oil spouted over the derrick. The Forest Oil Company has been unusually successful since it began business here, taking over the Owen & Wilson properties. Since the company was organized last March it has drilled eighteen wells, all producers, and yesterday's completion brings its daily production above the 1000 barrel mark. The company has one well down 1000 feet and another 1100 feet, on the Marriott and one down 500 feet on the Douglas. This company was organized in March of this year with a capital of \$300,000 with W. W. Johnson of Strawn and Gordon, Texas, as president.

W. Lawrence Baker, geologist, representing the Rio Bravo Oil Company, is now in this city looking the field over and making some investigations. The Rio Bravo company is controlled by Southern Pacific railroad interests and has extensive holdings in the Southeast Texas field.

LONG DISTANCE WALKER IN CITY

VISITOR HERE EXPECTS TO HIKE AROUND THE WORLD BY MARCH 1, 1916

IS TRAVELING ON WAGER

Was in Wichita Falls Once Before When There Was Practically Nothing Here

To win two bets—one for \$25,000 and one for his life—Dr. Arnold de Palaise is endeavoring to walk all the way around the world before March 1, 1916. He reached Wichita Falls today from Henrietta and will remain here a day or two before pushing westward towards San Francisco.

The \$25,000 bet is with the New York Medical Club; the other bet is with himself. Dr. Palaise contracted tuberculosis while engaged in laboratory work, being a physician by profession, and he has adopted the long distance walking plan as the best way of curing himself. When he left New York last March 1, he weighed 104 pounds while today he tips the beam at 141 pounds.

Dr. Palaise represents the New York Herald and the New York World on his travels and serves as correspondent for them on his long and tedious trip around the globe. Leaving New York last March he came through St. Shreveport, thence to Houston, Texas; Temple, Waco, Fort Worth and then up the line of the Fort Worth and Denver he will walk up the route since then. From here he will walk up the Denver to Colorado Springs, Salt Lake City, Reno, San Francisco, Texas; Shreveport, thence to Houston, Texas; Temple, Waco, Fort Worth and then up the line of the Fort Worth and Denver he will walk up the route since then. From here he will walk up the Denver to Colorado Springs, Salt Lake City, Reno, San Francisco, Texas; Shreveport, thence to Houston, Texas; Temple, Waco, Fort Worth and then up the line of the Fort Worth and Denver he will walk up the route since then.

20,000 Miles to be Walked

The walking part of the trip totals 20,000 miles and Dr. Palaise is ahead of his schedule now. It was the original agreement that he should complete the trip by September, 1915, two and a half years from the time started. But a short time ago at Lompas, Texas, he took an overcast of nine by mistake for a while it looked as if he would do no more walking at all; but he recovered and was able to resume his journey. The incident, however, secured for him a six months extension of time. He expects to be in San Francisco by the first of next year, which gives him about seventy days to go the distance in.

Dr. Palaise travels "light," shipping his baggage and effects to the next town where he expects to stop, and carrying only such things as he is apt to require along the road. He is forty years old, but doesn't look it. He is of French parentage, but was born in Washington. He spent eleven years in study abroad and attended Johns Hopkins University in this country and Heidelberg and Paris institutions in Europe.

Not First Visit Here

This isn't the first visit of Dr. Palaise to this neck of the woods. More than a quarter of a century ago he visited a ranch near Matador, in which his father was interested. "To think that I camped right here where Wichita Falls is today," he said this morning, "why, there wasn't anything here then. It's wonderful how things have changed since that time."

Dr. Palaise will remain in this city several days before proceeding on his northward journey. He makes many friends on his travels, and sends back letters to his family. W. E. Rather, of Beaumont, head of the Guffey's geological department, is also a visitor here today.

Stamford parties will soon enter

the Wichita county field, their charter having just been approved. It was for the purpose of looking into the value of their holdings that Secretary of State F. C. Weinert visited this city recently. The Stamford company has holdings in Haskell and Jones county, also.

STRIKE ON KATY BELIEVED NEAR

TELEGRAPHERS' TROUBLES ARE THOUGHT TO BE RAPIDLY NEARING CLIMAX

The trouble between the Katy and its telegraph operators is reported to be near a climax and the men are said to be preparing to walk out after several days of talk and threats. The railroad is said to have drawn up a contract which it is requiring all new applicants for positions as telegraphers to sign. It is also reported that the company will require all its present operators to sign this contract. J. J. Donnelly, vice president of the Order of Railway Telegraphers claims to be in possession of one of these contracts which he has given to the press and which follows:

"I hereby make application for employment as railroad telegraph operator with the Missouri, Kansas & Texas Railway Company and represent myself to be an experienced, capable man in that capacity. In accepting employment with the Missouri, Kansas & Texas Railway Company I understand I am to be assigned to station where labor union telegraph operators have been working and in event of strike being called by the telegraph operators I agree to remain at the station where I am assigned and faithfully perform my duties for the said railroad company."

"I am to be governed by the said railway company's rules and regulations at all times, which they now have or may place in effect from time to time.

"In accepting this position as telegraph operator, for the Missouri, Kansas & Texas Railway Company it is understood that I am to be paid a salary of not less than sixty dollars per month and I am to receive a salary in excess of said amount in accordance with my ability.

"I am to be furnished transportation from Kansas City to the point where I am assigned work. It is also agreed that I am to be given ready employment provided I faithfully perform my duties.

"I agree to refrain from the excessive use of all intoxicating liquors while in the employ of said Missouri, Kansas & Texas Railway Company.

"I agree while in the employ of the Missouri, Kansas & Texas Railway Company not to join any labor union organization. Furthermore, I will do all in my power to prevent any labor trouble along the company's line."

15,000,000 FOOT GASSER COMES IN AT PETROLIA

Lone Star Company Gets Good Well. Slide Interests Are Reported To Have Been Sold Out

The Lone Star Gas Company is reported to have brought in a new gas well at Petrolia producing 15,000,000 feet daily. The new well is located near the Slade well.

It is currently reported at Petrolia that S. J. Slade and his associates at Amarillo have sold their interests in the gas company which recently built a pipe line to Henrietta. The price is said to have been \$100,000.

On an early train this morning, Mr. Onderdonk left for Mexico, which he will endeavor to re-enter and resume his duties. Once ordered to leave that dangerous clime by the board under whose direction he works, he has decided that his duty lies there, and will make an effort to get back. Even should he succeed in reaching his post at Guadalupe he would still be subjected to many dangers and he is returning upon his own initiative, the board feeling that it was a matter for him to order himself. On his way, Mr. Onderdonk will stop at Georgetown and San Marcos to visit his daughters, who are in school at the points named.

Yesterday morning's topic was "Home," while the subject last night was "The Irreparable Past." There were five additions to the church during the day, making a total of thirty during the three weeks. Members of both the Methodist and Presbyterian congregations feel that much good has resulted from the services. Dr. Hill said that while some of the Presbyterians might feel that they had "outstayed their welcome" in holding joint services with the Methodists while the new church is being built, but he hastened to assure them that it was the desire of the entire Methodist congregation that the present plan of holding joint services continue until the new edifice was ready for occupancy.

The next few weeks will see much new work started at Petrolia. The Producers Company has made locations for four new wells. One of these locations is 500 feet north of Byers No. 17; another is 500 feet east of Byers No. 9, the third is on what is known as the Brotherton plot out of the Matlock and the fourth on the Jackson plot out of the Matlock.

DRY FARMING CONGRESS OPENS AT TULSA TODAY

Thirty-Three Foreign Countries Are Represented by Exhibits—Large Attendance Expected

Tulsa, Okla., Oct. 22.—Thirty-three foreign countries, together with the United States and Canada were represented by exhibits today when the eighth annual international Dry Farming Congress opened to continue through November 1. The premium lists aggregated approximately \$15,000.

The last session Congress appropriated \$20,000 for a complete exhibit by the United States department of agriculture, particularly with reference to work in the Western States. Governors of twenty states have accepted invitations and President Wilson and the governor general of Canada were invited to attend.

Tulsa has made arrangements to entertain 10,000 accredited delegates and 100,000 visitors during the eleven days of the exhibition. Several new hotels were erected to accommodate the influx of delegates and visitors. All Oklahoma has rallied to the support of Tulsa in handling the big exposition and nearly every county in the state today is participating in the event.

China has an exhibit under the supervision of Minister of Agriculture Ashan, and Russia, South Africa, Australia, Turkey and several other foreign countries named special delegates to take charge of the respective exhibits.

The Farm Women's Congress is being held here in conjunction with the exposition. Matters of deep interest to farmers' wives will be discussed during the sessions which are being attended by women from all farm sections of the country.

UNABLE TO GET QUORUM

By Associated Press. Washington, Oct. 21.—Demands that senators either resign or go to work that absent members be brought back to Washington by the use of "any force that may be necessary," and that the "miserable pretense" of trying to do business without a quorum be ended, marked the opening of today's session of the Senate. Leaders on both sides joined in the demand that "fences" of recent Senate proceedings be ended.

Senator LaFollette began the attack on Senate absentees, but it was taken up and vigorously indorsed by Senator Kern, democratic leader and by Senators Borah, Cummins and others. A double roll call brought in only forty-five senators and sergeants-at-arms began to seek absentees. Telegrams were sent out to all absent senators.

Government Issues Eugenic Certificates To Man and His Bride

By Associated Press. Washington, Oct. 21.—Homer D. Terrill, a government architect, today got the first eugenic certificate issued by the United States public health board.

Terrill, about to be married, went to Surgeon General Blue and asked for the examination. The physicians put Terrill through the most approved line of investigation known to the modern science of eugenics, and pronounced him fit. Terrill's fiancée previously had taken a similar examination by her own physician.

MINE RESCUERS BELIEVED DEAD

TWO MEMBERS OF LIFE-SAVING GANG THOUGHT TO BE KILLED AT DAWSON

220 MEN STILL ENTOMBED

Twenty-three Rescued Alive and Thirty-eight Dead Recovered, According to Latest Figures

By Associated Press.
Dawson, N. M., Oct. 24.—Two members of the helmeted rescue gang in Stag Canyon Mine No. 2 were lost in the workings today and are believed to be dead. Two others who accompanied them were brought out safely alive.

These men were of a crew of ten that entered the mine this morning. Two of them, James Lurdy and William Polas, were walking ahead when rocks began to fall. Buried in the cave, their fellows pulled them out of the rocks when Lurdy and Polas are said to have become frightened and removed their helmets.

Their rescuers then removed their helmets and dashed for the entrance where they were overcome by poisonous gases and rescued more dead than alive.

Two hundred and twenty men still were entombed in the mine today; twenty-three miners have been taken out alive, and thirty-eight dead recovered, according to revised figures.

Henry P. McShane, son of Mrs. E. P. McShane of New York City, widow of a former heavy stockholder in the mine, is among the known dead. McShane, who was but 19 years old, had come to the mine, in which his father's estate still holds an interest, to learn mining from practical experience.

J. C. Roberts, chief of the United States Mine Rescue Bureau in this district, is in charge of the rescue work. Mr. Roberts said it was impossible to tell what caused the explosion, but that it was of such violence as to cause him to lose hope for the rescue alive of any more of the entombed men.

204 Men Were In Mine.
In the mine at the time of the explosion were 204 miners, and it is believed that will reach so great a figure is attributed to the fact that the great fans which kept the air circulating within the mine were rendered useless by the force of the explosion. Not until four hours after the explosion were the fans repaired.

Some of the rescue parties declared they believe that a party of the entombed miners had reached a room that had sealed it in time to keep the gas from overtopping them.

Dr. S. P. Morris, representative in this district of the American Red Cross Society, reached here and at once made preparations to relieve the families of the victims.

Director General Ernest Bicknell of the Red Cross in Washington wired Gov. McDonald to draw on the society for \$1,000 with which to allow the suffering of miners' families here, but Gov. McDonald replied that the mine officials had given him assurance that the destitute would be provided for, and that the company would defray the expenses of all funerals.

Orders on the company's store for an indefinite length of time have been issued to the families of the entombed miners. The mine was supposed to have been a model one, and that such a disaster could befall the men had been considered impossible. Two days before the explosion State Mine Inspector Biddow had examined the property and pronounced it in excellent condition.

AUTOMOBILE STRUCK BY STREET CAR AND DAMAGED

An automobile was struck by a street car at Fifteenth and Lamar streets this morning. The automobile was one being towed out of a garage and was being towed behind another machine. The driver of the first machine evidently thought he could clear the track with both cars but failed to do so. The second car was struck and considerably damaged.

DENVER BANDIT SHOTS TWO, HOLDS UP FIVE

Runs Wild in Heart of City Early Today—One of Victims Dead, Another May Die

By Associated Press.
Denver, Colo., Oct. 24.—A bandit running wild near the heart of the city today held up five pedestrians within a few blocks and shot dead T. J. Chase of Palmer Lake, Colorado, probably mortally wounded E. A. Clark of Denver and escaped. The shooting began when the bandit held up Antonio Fuenria, a street sweeper.

A few minutes later Clark started staggering into a drug store with a bullet through his right lung. Chase met his death four blocks away. Without a word the bandit shot him through the heart. He held up and robbed two others without shooting them.

Vote on Temperance is Decisive Despite His Opposition to National Prohibition

By Associated Press.
Kansas City, Oct. 24.—By a vote of 517 to fourteen today, the National Council of Congregational Churches went on record in favor of temperance. The vote defeated a movement headed by Gov. Simeon Baldwin of Connecticut who opposed the report of the temperance committee which favored an amendment to the federal constitution prohibiting the manufacture and sale of liquor in this country.

UNITED STATES FORCES MEXICO TO RELEASE BOAT SHE SEIZED

FELIX DIAZ NOT TO BE MOLESTED

OTHERS ARRESTED BECAUSE THEY DISOBEYED ORDERS OF WAR DEPARTMENT

MAY GO TO MEXICO CITY

Candidate Free to Travel Where He Chooses, According to Foreign Minister of Mexico

By Associated Press.
Mexico City, Oct. 24.—There is no intention on the part of the government to molest General Felix Diaz, according to Querido-Moheno, minister of foreign affairs. Moheno said today that General Diaz was at liberty to come to the capital when he chooses.

The fact that General Diaz was officially relieved from his mission in Japan by the foreign office after he had completed his assignment from the war department in France, relieves him of any charge of insubordination according to officers here. Members of the embassy who accompanied to Europe on the way to Japan were arrested for disobeying orders, the government had sent them at Havana, to return to Paris as soon as possible.

This was the explanation given for arrests of Diaz companions today. Whether General Felix Diaz would come at once to the federal capital or remain in Vera Cruz after the presidential election appears to be a matter of doubt in the minds of the most prominent adherents here today. Jose E. Reguina, candidate for vice president on the Diaz ticket, said he believed that his leader was likely to come here today or tomorrow.

Senor Reguina confirmed reports of the arrest at Vera Cruz of a number of Diaz followers on charges which he regarded as inventions. He declared that the action of the authorities there had been taken for the purpose of intimidating voters. He said, when asked whether he feared that General Diaz would be arrested or prevented from leaving Vera Cruz, that such a thing was possible and added:

"The government has power to do these things, and it is easy to find a pretext."
Senor Reguina today declared his campaign had cost over \$250,000.

LATEST SALOON RULING MAY BE DISREGARDED

Proprietors Contend They Have Right to Remain in Their Places After Nine Thirty

The most recent ruling of the attorney general with regard to the 9:30 closing law, will not be followed too strictly by local saloon men, it is believed. The opinion, as set forth in yesterday's Austin dispatches to The Times, held that a saloon must be entirely deserted by 9:30, but attorneys for local saloon men declare there is nothing in the law that would prevent bartenders, porters or proprietors from remaining after 9:30 to clean up, post their books or do other things.

At present, it is the custom to stop selling liquor and close the doors at 9:30, employes frequently remaining half an hour or more after that time to do their work. It is contended that this does not violate the law, though the attorney general holds that it does. The opinion also held that "both the saloon and such other place or places of business so connected would be required to be closing during the prohibited hours."

This latter applies to liquor dealers who have grocery establishments, but it is contended that news stands, cigar stands and any character of business which during lawful hours are used as a complement or in connection with the saloon.

"It is not a closing of the bar with curtains to be drawn around the bar, even though they are securely buttoned and fastened to the floor and no express or ingress is permitted to the bar. The saloon must have a permanent and substantial closing, and it is not sufficient even if the bar should be separated by curtains or other temporary partition from the rest of the house."

RECENT EVENTS INDICATE GRAVITY OF THE SITUATION

Washington Maintains Silence—Actions of Felix Diaz May Play Important Part In Development

By Associated Press.

Washington, Oct. 24.—Developments of a few hours today in the relations between the United States and Mexico emphasized a gravity of affairs more ominous than at any time since President Wilson's administration began. Absolute silence was the order in officials quarters.

The release of the Ward liner Morro Castle at Vera Cruz, after peremptory demands by the United States, terminated a delicate situation.

Orders were in preparation to the commander of the American warships lying off Vera Cruz to insist on her release.

The Morro Castle, with Mrs. John Lind aboard was to have left Vera Cruz yesterday when a court order was issued calling for the testimony in connection with the flight from Mexico of Dr. Francisco Gomez, aboard that vessel. A statement was in preparation today by Secretary Bryan and Counsellor John Bassett Moore.

There was every reason to believe that before many hours there would be proclaimed a notice by the United States that it would not brook interference by the warships dispatched to Mexican waters by the various foreign governments.

It is understood also that the United States will reiterate the American policy that only governments founded on constitutional law and order will be recognized in the western hemisphere.

The gravity of the situation, it was apparent, would be increased by General Felix Diaz taking refuge in the American consulate at Vera Cruz. The possibility that Huerta might demand his release and provoke another emergency was fully realized.

That the United States may be required to back up measures and policies is being taken into consideration by administration officials and there is unmistakable evidence that high officials are prepared for any eventuality.

Administration officials divulged no information today as to their course toward Mexico but it was apparent there was no let up in the tension caused by developments of the last twenty-four hours. There were intimations that strong pronouncements of policy affecting not only the course of the United States towards Mexico, but defining to some extent the desire of the United States to have a free hand and continue unembarrassed by foreign governments in relation to affairs in this hemisphere would be forthcoming.

Coincidentally many inquiries as to whether any assurances had been given to Great Britain on the settlement of the Panama tolls question, were met with a flat denial at the White House, that any agreement had been reached.

GARDEU INTERVIEW IS DISCREDITED IN LONDON

Not a Word Has Been Heard Officially, However, Regarding His Alleged Utterances

London, Oct. 24.—Not a word has been heard here officially in regard to the alleged interview given by Sir Lionel Carden, British minister to Mexico, to which dispatches from Washington say that the United States government has taken exception.

No action will be taken in this direction unless the British government's attention is drawn to the matter officially.

Diplomatic circles can not believe that a man of the experience of Sir Lionel Carden publicly would criticize the policy of another government.

The greatest confidence is imposed in him by the government here. In fact, he was sent to Mexico because of his long experience there as consul and because of the success he achieved as British minister to Central America, resident in Guatemala. Should the United States object to what he is credited with saying, the usual course would be for Washington to inquire from the American representative in Mexico as to the accuracy of the report before making representations to this country.

Sir Edward Grey, the British foreign secretary, has gone to the country for a brief vacation, and this is taken as an indication that he does not consider the situation serious.

\$15,000 LOOT SECURED IN POSTOFFICE ROBBERY

Ohio Office is Blown and Large Amount of Private Funds Secured by Bandits

By Associated Press.
Chicago Junction, O., Oct. 24.—Robbers early today blew the safe of the postoffice at Attica, Ohio, seven miles from here and escaped with plunder estimated at \$15,000. The loot represented not only funds and stamps of the office, but large sums of cash belonging to the Seneca County Fair Association and other organizations of which Postmaster W. F. Uhler was secretary.

FIRE MARSHAL WANTED: CITY LOOKING FOR MAN

J. C. Ward Resigns and No Successor
is Named—Salary is \$10.00
Per Month

Wanted—Man for fire marshal. Must keep merchants from throwing trash in wrong places, see that building ordinances are enforced, take a lot of cursing and the blame for everything that goes wrong; salary, \$10 per month. Apply at city hall. The job is open and applicants may get busy. J. C. Ward, who has been attending to the fire marshal's duties for several months, has found that it requires much more time than he can give to it and has resigned. The fire marshal must be a salaried officer under the state law, and his job is mainly to prevent fire damage by

reducing the "hazard" as much as possible. If he does his work right, he will earn his \$10 per month.

COUNCIL MAKES CHANGE IN TENTH STREET PAVING PLANS

The city council last night ordered a change in the Tenth street paving plans, and the block between Scott and Lamar will be paved with "macadam" asphalt, instead of with wooden blocks as originally planned. The change was made to accommodate the property owners in that block. Steps were taken for paving the un-paved half-blocks on Seventh and Eighth and Ninth between Indiana and Scott, also at last night's meeting.

The council ordered the printing of the proposed new charter as required by law. Every voter is to receive a copy of this charter through the mail, so that he may familiarize himself with its provisions. The Times Publishing Company received the contract for the printing.

AUTO LOG PARTY FINDS BAD ROADS

HIGHWAYS IN ARCHER COUNTY
CAUSE LONG DELAY TO
MACHINES THURSDAY

VISITORS TAKEN THROUGH

D. P. Talley Escorts Messrs. Williams
and Dodd to Baylor County, Over
Proposed New Line

"Horrible" is the term used by D. P. Talley in describing the condition of the part of the Seymour road lying in Archer county. Mr. Talley got back this morning at 11 o'clock after having piloted O. L. Williams of the Colorado to the Gulf and Marcus Dodd of the Automobile Blue Book to Seymour yesterday. Mr. Talley was due here yesterday evening and the "horrible" state of the road through Archer county is responsible for the delay. Going down to Seymour Mr. Talley and his party got through the mud after considerable difficulty. This was early in the day and the roads were still damp.

When he attempted to come back over the same route in the afternoon sun had dried up some of the moisture leaving the mud of a sticky consistency and Mr. Talley's automobile got hung up in one of the mud-holes and he wasn't able to negotiate the rest of the route until this morning after the dew's last night had tumbled up the sticky mud.

The Seymour delegation did not meet the logging party at the country line as had been planned and Talley accompanied the loggers on into Seymour. He says that the Baylor county people are getting their roads into excellent shape but that the Archer county roads are abominable. Something will have to be done to improve the streets of road that lie in Archer county before any automobile route to Bellinger can be established from Wichita Falls, he says. A meeting has been called at Dundee to take some action. This meeting will be held on Nov. 10th.

After a stay in Seymour Mr. Dodd and Mr. Williams accompanied by an escort of Seymour people continued their trip southward.

MEETING OF AUTO CLUB PREPARES FOR ACTIVITY

Will Employ Paid Assistant to Secretary—Wants Observance of
Good Roads Days

Affiliation with the Texas and the American Automobile Association and the employment of a paid assistant to the secretary were authorized at the meeting of the directors of the Wichita County Automobile Association when W. L. Williams, president of the Texas division of the Colorado to the Gulf Highway and Marcus Dodd of the Blue Book of the American Automobile Association were present.

C. W. Sinder was appointed secretary and was given authority to employ an assistant preparatory to enlivening the organization which has been dormant for several months.

It was also decided to ask the Chamber of Commerce to co-operate in the observance of the road working days recently proclaimed by the governor. The matter will be laid before the directors of the Chamber of Commerce at their meeting next Tuesday.

UNITED STATES LEADING FRANCE IN AUTO TRADE.

Paris, Oct. 24.—The United States has taken the lead over France in the automobile trade between the two countries, according to statistics officially given out today. Leading dealers fear that the lead is a permanent one. During the first six months of this year France sent \$147,869 worth of autos to the United States and the United States shipped to France \$331,200 worth. During 1912 France exported to the United States \$375,738 worth of cars, importing in the same ships only \$285,200 worth. Thus for the six months ending with June the United States led France by about \$185,000, while the entire year of 1912 France led the United States by about \$90,000.

"O PROMISE ME" ONE OF ROBIN HOOD'S LONG HITS

"Oh, promise me that some day you and I will take our love together to some sky. Where we can be alone and faith renewed. And find the hollows where those flowers grew. Those first sweet violets of early spring. Which come in whisp'ers, thrill is to be. Oh, promise me. Oh, promise me. This famous old song is known to every one who has ever heard "Robin Hood" sung, but what they do not all know, is that it had no place in the original score of the opera, but was an interpolation like "The Last Rose

of Summer in Martha. While Mr. de Koven wrote the beautiful melody to which it is sung, his collaborator, Harry B. Smith, did not write the lyrics. The words were written a number of years ago by Clement Scott, the famous English critic and were first read at a luncheon in London, when Mrs. Kendal, the great actress, took pride in the fact that the author had dedicated the sentimental verses to her, and read them aloud. Imagine her chagrin when the Countess of Warwick unfolded a paper with the identical verses on it, which Scott had dedicated to her fair self. "Before the luncheon was over, two-thirds of the fair sex present had exhibited similar proof of chivalric attention. The song was first interpolated in the opera by Jessie Bartlett Davis,

the original Alan-a-Dale of the Bostonians, and ever since has had an honored place in the second act. "Oh, promise me that you will take my hand, The most unworthy in this lonely land, And let me sit beside you, in your eyes. Seeing the vision of our paradise, Hearing God's message while the organ rolls. Its mighty music to our very souls. No love less perfect than a life with thee. Oh, promise me. Oh, promise me. —Clement Scott. I am now located at Dr. J. G. Kearby's office, over Morris Drug Store. Phone 4-3. J. S. NELSON, Dentist.

When She Comes Home.
When she comes home against a thousand ways I fashion; to myself, the tenderness of my glad welcome; I shall tremble—yes;
And touch her, as when first in the old days I touched her girlish hand, nor dared upgrade
Mine eyes, such was my faint heart's sweet distress.
Then silence; and the perfume of her dress;
The room will sway a little, and a haze
Cloy eyesight—soulight, even—for a space;
And tears—yes; and the ache here in the throat.
To know that I so ill deserve the place
Her arms make for me; and the sobbing note
Again is hidden in the old embrace.
—James Whitcomb Riley.

A CONFESSION

Hopes Her Statement, Made Public, will Help Other Women.

Hines, Ala.—"I must confess," says Mrs. Eula Mae Reid, of this place, "that Cardui, the woman's tonic, has done me a great deal of good."

Before I commenced using Cardui, I would spit up everything I ate. I had a lined, sleepy feeling during the winter, irregular, could hardly drag around, and would have severe headaches continuously.

Since taking Cardui, I have entirely quit spitting up what I eat. Everything seems to digest all right, and I have gained 10 pounds in weight.

If you are a victim of any of the numerous ills so common to your sex, it is wrong to suffer.

For half a century, Cardui has been relieving just such ills, as is proven by the thousands of letters, similar to the above, which pour into our office, year by year. Cardui is successful because it is composed of ingredients which act specifically on the womanly constitution, and helps build the weakened organs back to health and strength.

Cardui has helped others, and will help you, too. Get a bottle today. You won't regret it. Your druggist sells it.

TRAFFIC ORDINANCE IS PROPOSED BY COUNCIL.

Regulation of Downtown Vehicles is Sought and Stricter Rules May be Provided

A traffic ordinance that will more thoroughly regulate the passage of vehicles downtown and eliminate some of the dangers that attend crowded conditions is soon to become part of the city code, it was decided at the 1st council meeting last night. At present the only traffic regulation provided that the driver must keep to the right and it is said that the observance of that is not so pronounced as to be called habitual.

Incidentally, it is probable that one of the policemen will be detailed as a regular "traffic cop" with instructions to see that all traffic regulations are enforced. Regular policemen who attempt to pay much attention to traffic matters, it is said, soon find that they haven't time to do anything else. The new ordinance will be planned to regulate Eighth street traffic in particular, as that thoroughfare between Indiana and Ohio is frequently lined with vehicles that is difficult to get through. Whether the ordinance is to cover such things as unlicensed automobiles and motorcycles, delivery wagon drivers who think they can let the team drive, self-smart-aleck boys on bicycles, and other folks who are unlicensed ways, has not yet been determined. There will be a new traffic ordinance, however, and with it there is likely to be a new traffic cop.

\$50,000 SLANDER SUIT SET FOR TRIAL MONDAY

Defendant is Byers Physician and the Case Will be Tried in District Court at Henrietta

The suit of Milton King vs. Dr. G. A. Foote and Dr. Reed of Byers, alleging slander, and asking \$50,000 damages is set for trial at Henrietta next Monday. The case grows out of a charge that King was responsible for the death of a young girl. The case was investigated by the grand jury here but no bill was returned against King. It is reported that the record in the civil trial at Henrietta will be submitted to the Clay county grand jury.

WAY OF BILL COUNTERFEITER PROVES TO BE VERY HARD

Washington, Oct. 24.—Secret service operators of the government have given fresh evidence that counterfeit printing is not altogether profitable. It was announced today by Chief W. J. Flynn that persons who sought to reproduce copies of the \$50, \$20, \$5 and \$1 notes, against which the public recently was warned, all had been apprehended. Both the counterfeiters and those responsible for the circulation of the counterfeit, according to Chief Flynn, are now in the hands of the government.

At the same time, the secret service issued notices of its discovery of still another counterfeit \$10 gold certificate. It is reported not to be highly dangerous, however, for the workmanship is poor, the coloring bad and its general make-up such that it should be to a glance.

Wichita Falls, Texas, Oct. 24, 1913

Since the Mann law, better known as "the white slave act," has been in operation 603 persons prosecuted under the law have been convicted and are now serving terms in penitentiaries. Jack Johnson, the negro pugilist, who was being prosecuted under that law, was allowed to forfeit his bond and make his escape to a foreign country, but so long as he remains away the country is better off.

It is now feared that the paving fund will be exhausted by the fifth Tenth street is paved from Ohio avenue west to Broad street. The reason for this is said to be that the cost of removing the dirt and grading the street to receive the paving is costing a great deal more than any estimates submitted had fixed the cost of this work. The original intention or plan of the city council was to pave west on 10th as far as Denver avenue.

With a quarter of a million dollars invested here in printing business in Austin, and contributing in taxes to the public schools, inquiry is natural as to why the school report cards bear the imprint of a Michigan printing house.—Austin Tribune.

No use to fret about a little thing like that. Nearly every tax receipt the Times has received in payment of its city and county taxes for the past twenty years bears the stamp and imprint of some printer who does not pay one cent city or county taxes and in many instances, none to the state. It's just a habit that has been formed.

The City Council, at a meeting held last night, decided to submit the proposed new city charter to be voted on Nov. 27th in pamphlet form, and each qualified voter is supposed to receive a copy through the mail at least 30 days before election. The copy for the charter is now in the hands of the printer, and by Monday at the latest, must be in the postoffice for delivery to the voters. If the Charter is adopted, and the Times believes it should be, the city government will then be in a position to keep up with the progress and growth of the city. If defeated, it means a step backward, and Wichita Falls cannot afford to take any backward steps.

It seems that in Oklahoma those who bring suits for damages and secure judgments are required by law to pay taxes on the judgments whether it is a good one or not. An insurance company was the first to find this out. It obtained a \$10,000 judgment against the editor of the Jet Visitor, but as the law exempted the printing plant and the editor's home from debt of that character, the insurance company finds that it is unable to collect the judgment, and the tax assessor having been tipped off by the editor against whom the judgment was obtained, is insisting that the insurance

WHAT EUGENIST IS TRYING TO DO

MICHIGAN UNIVERSITY PROFESSOR ANSWERS ATTACK ON RACE BETTERMENT IDEA

EXPLAINS ITS PURPOSES

First, to Prevent Reproduction of Bad Stock, Second to Encourage Reproduction of Good

The Terms of thirty United States Senators are to expire March 2, 1915. Their successors are to be elected in the 1914 campaign. At the present time, the Democratic majority in the upper branch of Congress is only six, and in order to make it that much the two senators from Louisiana, who voted with the Republicans on the tariff question, have to be included. That is a rather small majority, but is ample if it can be maintained. Among the states that are to elect new senators are Texas. Mr. Culberson's term will expire in 1914. His health is bad, it is said, but not near so bad as some people make believe. He is yet an able, brainy man, and a Democrat who has stood the test and will stand hatched. Texas people can hardly afford to turn down a man who has made a record like that of Culberson and substitute for him any one of the several aspiring statesmen of more or less prominence, and Texas won't do it either. That honor should go to Culberson as long as he wants it. He is an honor to Texas.

The Young Men's Booster Club of Abilene are planning to give \$1,000 away in prizes to farmers in the Abilene trade territory who raise the best crops next year. It's not altogether a bad idea. The worst trouble will be that which will follow the awarding of the prizes, it matters not how fair it might be conducted.

MURDERED BY SON AND WIFE

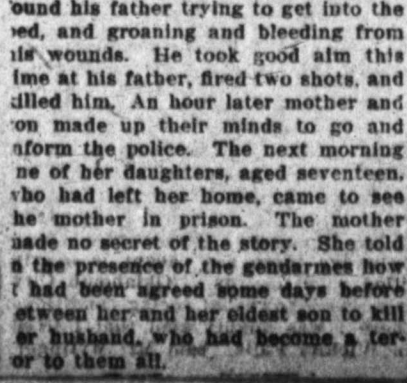

'Suppression' of the Idle, Drunken Head of the Family Was Decided On.

Paris.—A small commune near Creil has been the scene of a savage crime. It is true, but nevertheless, father of a family of five children, has been murdered by his son and wife. The man was a workman, and lived with his family at Villiers Saint Paul. His eldest son was nineteen. He had four other children.

Two daughters, still under age, had left their home because of the alleged cruelty and bad conduct of their father. He drank heavily, worked little, and terrorized his wife and children. His wife and eldest son seem to have come to the conclusion between them that it was best to "suppress" him. The son bought a revolver and 25 cartridges. He was prepared to "finish his father off," on the occasion of his first fresh quarrel.

The occasion was not long in coming. The father returned in a bad humor at 8 o'clock in the evening, and he quarrel began, and it had done often before, over some trifle. The father threatened to punch the head of his son, and the latter thereupon drew his weapon and discharged six shots at him. The mother ran out of the house, and the wounded man dragged himself into the bedroom. The son walked out of the house and said to his mother, "He is done for now," that instant the man inside was heard to groan. "He is not dead at all, go and finish him," said the mother.

The son went into the room and found his father trying to get into the bed, and groaning and bleeding from his wounds. He took good aim this time at his father, fired two shots, and killed him. An hour later mother and son made up their minds to go and inform the police. The next morning one of her daughters, aged seventeen, who had left her home, came to see her mother in prison. The mother made no secret of the story. She told the presence of the gendarmes how she had been agreed some days before to marry her and her oldest son to kill or to turn him.

born into this world save from good stock. However, "good stock" needs some explanation. By good stock the eugenist means one relatively free from undesirable unit characters and the most important of these are alcoholism, feeble-mindedness, pauperism, epilepsy, insanity and criminality. All these classes should be excluded from the list of those to whom is granted the privilege of exercising the highest, most important function of the race—the parenthood.

The eugenist does not propose that marriage selections shall be determined by statute, but it does propose to educate the young that selections shall be made on more rational grounds than at present. The eugenist does not intend to denounce or abolish the institution of marriage but does aim to inculcate the idea that marriage is the highest and holiest of institutions—so holy that he who dishonors it shall be contented worse than an infidel. It is a free-love scheme for that would lead to physical, mental and moral debasement.

The eugenist will endeavor to induce the State to aid in the evolution of the superman by restricting the reproduction of the obviously unstable. It is even now a crime by statute in the State of Michigan for an individual of one sex to infect one of the other with a venereal disease whether the relations between the two be that of husband and wife or otherwise. However, such a statute is at present without other than educational value. Inasmuch as the prevention of crime is much wiser than permitting and then punishing it, the state will go further and demand that marriage be permitted only to those free from these diseases.

It will come to pass that every wise man and woman will undergo a medical examination once or oftener each year to ascertain whether they are sound or not. In working out this problem the state must supply expert medical advice, because this opportunity must be given to point out "live" forms of a basis for our eugenist. Certain classes under certain restrictions have been legalized in eight states, and in one the operation has been performed on more than 700 individuals. The state has a right to protect its honest citizens against those who are evil. In order to secure protection against the evil doer, the state may and does often take his life; may it not therefore render him incompetent to reproduce his kind?

For many reasons, segregation is better than sterilization, the chief ob-

COTTOLENE

CONTAINS NO HOG FAT USE 1/3 LESS

Here is what Marion Harland said in 1906 about **Cottolene**

"Many years ago, I discontinued the use of lard in my kitchen and substituted for it, as an experiment, Cottolene, then comparatively a new product. Since my first trial of it I can truly say that it has given complete satisfaction. I honestly believe it to be the very best thing of its kind ever offered to the American housekeeper."

MARION HARLAND.

Cottolene makes biscuits that are tender when they are cold—that is a sure test of a good shortening. Try it yourself. Make the biscuits like this:

BAKING POWDER BISCUITS
2 cups flour, 3 teaspoons baking powder, 1 teaspoon salt, 4 tablespoons Cottolene, 3/4 cup milk. Mix flour, salt and baking powder together; rub in Cottolene; mix lightly and quickly; mixture should not be dry; roll out on board, cut into small biscuits, bake ten to fifteen minutes in hot oven. To make biscuits richer, mix with cream. Whole wheat, graham or rye biscuit may be made in the same way.—Edith L. Cliff.

SON OF GARIBALDI IS CANDIDATE IN ITALY

Rome, Oct. 24.—Ricciotti Garibaldi today announced his candidacy for parliament at the October elections. He is the son of Giuseppe Garibaldi, the liberator of Italy, and father of Beppino Garibaldi who fought under Madero in the Mexican uprising when Diaz was deposed.

Later the two fought together with the Greeks in the recent Balkan War against the Turks. Garibaldi has seven opponents for parliament in his district but his name and popularity are expected to sweep away all opposition.

REVIVAL SERVICES TO BE HELD IN NOVEMBER

Rev. J. E. Cox of First M. E. Church Arranges for Series of Meetings Beginning June 2

While at the recent conference Rev. J. E. Cox began negotiations with the Rev. Charles Van Marsten of Oregon, to come and hold revival services in the First M. E. church. The best possible date upon which he could come was Nov. 2. At the board of trustees meeting held Thursday a unanimous call was given him to come and hold such meetings and word has been received stating that he would be on hand at that date.

He has held some very fine meetings and is considered a strong, sane preacher, and a fine spirited man in every way. His wife is a cultured musician, being both a solo singer, and a fine pianist. The church is looking forward to a good meeting under his leadership. Every one is cordially invited to attend the meetings which will begin Sunday, Nov. 2.

WICHITA COUNTY EXHIBIT AT FAIR

NONE OF PRIZES ARE CAPTURED, BUT DISPLAY OCCASIONS MUCH COMMENT

PRODUCTS OF FACTORIES

Wichita Falls Exports Take First Prize Dallas Paper Comments Upon the Exhibit

Wichita county failed to capture any prizes with their exhibit at the State Fair at Dallas, but the display won much favorable comment, according to the Dallas News which says:

One of the exhibits which attracts much favorable comment is that of Wichita county. J. T. Young, of Wichita Falls who is in charge, is an enthusiastic booster for his city and county and backs up his statements in regard to how good that portion of Texas is by pointing to the varied products embraced in the exhibit.

An immense white arch covers the entrance to the display, bearing the insulating words, "Wichita County" in gold letters. In the immediate foreground is a display of flour made in Wichita Falls. This is manufactured at one of the largest mills and elevators in the State.

There are forty different manufacturing plants in Wichita county, according to Mr. Young, and the finished products from many of them are shown in the booth. At each corner of the booth is a mounted coyote adorned with a necklace of red peppers.

There is a beautiful display of wool from Lincolnshire sheep, owned by a Wichita county rancher, and there are many fine specimens of cotton, showing that plenty of raw clothing material can be raised by the farmers of this county.

Among the products of the factories is the bunch of brooms which has taken the blue ribbon at the present State Fair. There are also samples from the three brick and tile plants, sixty-two different varieties of bottles from the bottle making plant, window glass, fruit jars, fine finished pottery and literature, sash and door, auto truck and other factories and the cotton oil mill and gins.

"We have one of the biggest oil fields in the State," said Mr. Young. "And we not only have plenty of petroleum, but a bountiful supply of natural gas. Some of our natural gas is used in Dallas. Lake Wichita gives us plenty of water and it is used abundantly for irrigation purposes. We grow almost anything that is grown in this part of the world."

The last statement looks to be correct, judging by the many products of the soil on display. Corn, cotton and wheat occupy the foreground, but a large quantity of kafir corn and milo maize is shown and a goodly amount of smaller grains. Hand-some sheaves of millet and oats are shown, extending from the tops of some of the red tiles, manufactured at Wichita Falls, presenting an unusual appearance, to say the least.

Garden products are shown in abundance and there are many fine varieties of fruit. The booth is a large one, and it is completely filled with handsomely prepared exhibits. Although Wichita county did not receive one of the grand prizes, the showing made was extremely creditable, and many of the individual entries are already adorned with the coveted blue ribbons.

"Wichita county raised over a million bushels of wheat this year," said Mr. Young. "Our farmers averaged fifteen bushels to the acre, although some got as high as forty bushels to the acre. We have 5,000 acres under irrigation, and truck farming in our vicinity is becoming more and more important every year."

WHY 7000 DRUGGISTS

Guarantee and Recommend Vinol. If any one should know the value of a medicine it is the retail druggist who sells it. Therefore, when over seven thousand of the best retail druggists in the country recommend Vinol, our delicious cod-liver and iron tonic, without oil, as the greatest tonic re-constructer and strength creator they have ever sold, it must indicate the value of Vinol.

We could publish columns of such testimony as the following: J. C. Brady, druggist of Fall River, Mass., says: "In cases where cod liver oil, emulsions and other tonics fail, Vinol will heal, strengthen and cure."

C. A. Potterfield, druggist, of Charleston, W. Va., says: "It is a pleasure to sell Vinol as it gives such universal satisfaction." Hunter & McGee, druggists, of Jackson, Miss., say: "We have great confidence in the strength creating and curative value of Vinol."

We lack every run-down, nervous, debilitated, aged or weak person or any person suffering from chronic coughs, colds or bronchitis, to try a bottle of Vinol with the understanding that their money will be returned if it does not do all we claim. For sale by Miller Drug Store. For itching, burning skin try our Sazo Salve. We guarantee it.

Attention Knights Templars. Stated Conclave to-night at 7:30 p. m. All members are requested to be present. Drill team will hold first practice. Visitors invited. J. A. RICHLT, Commander. A. F. KERR, Recorder.

BAPTIST ASSOCIATION TO MEET NEXT TUESDAY

Session Will be Held at Iowa Park and Program for Occasion is Announced

The first meeting of the workers of the Wichita County Baptist Association of the new associational year will be held at Iowa Park next Tuesday. The afternoon session will be given over to the women's work.

4:05 p. m. Business meeting.

LIVER GETTING LAZY? DON'T STOP WORKING TAKE DODSON'S LIVER TONE AND GO ABOUT YOUR BUSINESS. IT WILL LIVE YOU UP

A bilious attack or constipation can be relieved in a short while by a spoonful of Dodson's Liver Tone—the mild, vegetable remedy that every druggist guarantees.

Just ask Stonecipher & Smith about Dodson's Liver Tone. They know that it is a harmless preparation of the past season and where she was the idol of New York's smartest society.

"The Merry Countess" is bright and sparkling. Piquant strains gladden the sense of hearing so persistently throughout the performance of this exquisite play that one begins to think its composer, John Strauss, must have impoverished every other worth of his to favor this particular score. He has been assisted by Gladys Unger, who wrote the story, and Arthur Anderson, who furnished the lyrics.

"The Merry Countess" was quickly taken up during its run in the Metropolis by Gotham's smartest society and enjoyed the most successful run of any musical comedy produced during the past season.

The score of "The Merry Countess" is acknowledged to be the most exquisite exposition of the old-fashioned Viennese school ever given in this country. In order the Strauss' intoxicating music might be fittingly interpreted, a veritable army of clever dancers have been engaged and appear in the great ball room scene.

In addition to the large chorus of bewitching beauties, the following cast of principals will appear: Mabel Baker, the well-known prima donna; Dale Winter, May Field, Arthur Clough, Carl Hayden, Paule Ripple, Harry Carter, Charles Udell, Jack Henderson, Pauline Semple, Fred Harnden, Harry McCoy, E. F. Taylor and Veta Lorenz.

FAULTY DIGESTION Quickly Shatters the Nervous System—Immediate Action Necessary—Try Mions

When you feel irritable, tired and despondent—when you have nervous "wickets," specks before the eyes, headaches, sour stomach, heartburn, indigestion and pains in the colon and bowels—you suffer from indigestion, which soon develops into dyspepsia—the chief cause of nerve exhaustion—you need Mions at once.

Mions is not a cure-all, but a stomachic remedy that surely ends stomach misery. It builds up and strengthens the stomach walls and glands, improves quickly the digestive system. Then the vital force and nerve energy is restored, imparting strength and good spirits to the discouraged, run-down and weak.

Do not suffer another day. Get a fifty cent box of Mions Tablets at Poochsee & Lynch. (Adv't)

REPORTS OF COMMITTEES MADE AT W. C. T. U. MEETING.

New York, Oct. 24.—Reports of the committees showing the results of a world movement against intemperance, and a large increase in membership, were the important matters discussed at today's sessions of the World's Convention of the Women's Christian Temperance Union, which convened here yesterday to remain in session six days. Another important feature of today's meetings was a discussion of the successful cam-

paigu for membership and the fight against the spread of the sale of intoxicating liquor in New Zealand and Australia.

The 500 delegates today informally discussed a world-wide campaign which, if plans do not miscarry, will be instituted in every country in the world where liquors are sold, some time during the ensuing year. This fight will be carried into more than fifty countries and nations.

PERSONAL MENTION

H. Mitchell of Seymour, is in the city on business. V. Stephens of Austin, is a visitor here. Miss Mabel Simpson left this afternoon for Dallas to attend the Fair. Mrs. J. W. Culbertson is expected to return tonight from Pittsburg, Mo. where she spent the summer. M. C. Parker, an architect of Dallas, has come to Wichita Falls, and will open an office here. C. Jackson, curator of the Moose lodge here, left for Bowie this afternoon where he will assist in the issuance of a log class tonight. Edward Wilson, the well known Archer county cattleman, was through town today on his way to the Dallas Fair.

J. and Ira J. White went to Seymour this morning in response to a message announcing the critical illness of a sister there. R. C. Harris of Fort Worth, general organizer of the United Brotherhood of Carpenters and Joiners of America, was here today.

Mr. and Mrs. C. R. Hine and two sons who have been in San Antonio since last July returned this afternoon and will be located here permanently again.

Judge Martin, District Attorney Scurry and Court Steenographer Eugene Sherrod are home from Houston, the district court having recessed until Monday.

A large number of Archer county people were here today on their way to the State Fair. Included in the number were L. C. Garvey, Miss Laura Threest, Mrs. Lindley and Mrs. James Clark.

J. P. Dibrell of Seguin, Texas, is here on a short business trip and visit to friends. Mr. Dibrell was formerly in the real estate business here and has many friends who will be glad to see him.

Rev. F. P. Walters and Rev. William Pearn left for Vernon by auto this afternoon to attend the district convention of the Christian Endeavor. Rev. Mr. Walters will deliver the opening address in the convention this evening.

Sam Sprules was called to Plano, Texas, this afternoon by a message announcing that his mother who is sixty-seven years of age was about to undergo an operation for appendicitis. Small hope is held out for her recovery.

Wiley Blair, president of the Blair-Rhodes Company, Frank Blair, manager of the Wichita Falls house and about a dozen salesmen and heads of departments of the Wichita Falls house left last night for Dallas, where the annual meeting will be held today and tomorrow. A feature of the meeting will be a banquet at the Hotel Adolphus tonight.

Mr. and Mrs. E. L. Bartholomew of Sturgis, Michigan, arrived in the city yesterday and will spend the winter with their son, Ray Bartholomew, one of the proprietors of the new Metropolitan Cafe. Mr. and Mrs. Bartholomew spent several months here last winter and made many friends during their stay who will be glad to welcome their return.

WEARING THE WRONG GLASSES

May prove more injurious to your eyes than wearing no glasses at all. Many who come to use are wearing glasses totally unfit to their needs. We tell such people so and show them why. Not every one who calls himself OCUList OR OPTICIAN is competent to fit glasses, yet mistakes are liable to occur unavoidably. If your glasses are not perfectly satisfactory you should know why, and we urgently request even those whom we have fitted to consult us freely if at any time there is intimation of discomfort. No "drops." We know how.

INDIVIDUALISM

Did you ever stop to think what it was that made your friend Jones or who ever it happened to be the kind of a character he was. Every time you think of him you remember some distinct characteristic. What is it? You don't know and you never will, unless the Creator gives you a better vision in the next world, but the human brain is such a wonderful thing that it looks and at once perceives the varied characteristics that go to make up the different individual.

No other business calls for individualism like the one in which we are engaged. Our customers seek out times to reflect the most marked characteristics, and we thus record history for future generations to consider.

We always try to reflect the life of the individual, as near as possible, using marble, granite or bronze and the English language.

WE KNOW

We have the newest creations in Jewelry. Our long experience in this business causes us to know where to buy and get the best and latest.

We call your attention to our Hat Pins which cannot be found elsewhere. They are beauties and worth your time to examine. Besides this we have some of the newest La-Valiers which I dare say cannot be found west of Fort Worth. One more thing I wish to call your special attention to is the French Ivory. This we import direct from France. Our large buying enables us to get rock bottom prices, saving you 25 per cent. We can show you a large assortment to select from. We have just unpacked a very beautiful assortment of varieties in plated and sterling, ranging in popular prices. They are all like my stock—right up to now.

We claim to know the jewelry business, having pleased the most critical for years. We only ask you to compare our goods in quality and this alone.

Not the cheapest, but the best. Over ten years in Wichita Falls.
