TOTAL, 8,835,913 BALES

Reports up to November 1 Show Only Few Thousand Bales Less Than Previous Year

By Associated Press.
New Orleans, Nov. 8.—Cotton broke in a sensational manner this morning on the census ginnings report. It was 100,000 bales larger than generally expected and 200,000 bales larger than the bulls looked for. It caused a loss in prices of almost two dollars a bale.

Heavy Selling in New York.
New York, Nov. 8.—A break of two dollars a bale followed publication of ginning figures in cotton today. January contracts touched 12.93 under heavy general selling, much of which came from southern sources.

INDUSTRIAL UNIONISM AMONG METAL WORKERS.

By Associated Press.
Seattle, Wash., Nov. 8.—Industrial unionism won a victory today in the meeting of the metal trades department of the American Federation of Labor which adopted a resolution offered by delegates of the Machinists' Union providing that strikes may be called on a vote of seventy-five per cent of the members involved, was adopted. The resolution provides that no single union can reach an agreement until all the unions involved have secured a settlement.

CRITICISM FROM QUESTIONABLE SOURCE

Henry Lane Wilson Again Shows Smallness of Caliber By Criticism

By Associated Press.
Cleveland, Nov. 8.—Henry Lane Wilson, whose resignation as ambassador to Mexico was accepted by President Wilson, criticized the administration's Mexican policy in an address before the Union Club here tonight.

"I believe that had Huerta been accorded diplomatic courtesies, peace would have been brought nearer," said the former ambassador, "no one will say that Huerta is an ideal head for any government, yet under the conditions that obtain in Mexico, I insist that with him as the internationally recognized head of the government the purposes of peace and order and the protection of the property and lives of Americans would have been conserved far better than they have been."

Intervention Means War.

He quoted the administration as having announced that the testimony of American investors in Mexico would not be heeded in solving the Mexican problem. He asked: "Whose testimony should be re-interested in Mexico? Mr. Wilson concluded with the inquiry: "By what course of reasoning can there be an insistence from Washington that an Anglo-Saxon system of government can be established in Mexico, where ninety per cent of the population cannot read or write. American intervention means war."

FELKER HONORS REQUISITION

THAW'S CASE NOW AUTOMATICALLY TURNED OVER TO THE FEDERAL COURT

HOPE IS NOT GIVEN UP

Vermont Decision on Indictment Returned Against Mattlewan Fugitive for Conspiracy

By Associated Press.
Concord, N. H., Nov. 8.—Gov. Felker today honored the requisition of the State of New York for the extradition of Harry K. Thaw. The case is now transferred automatically to the federal court, where a writ of habeas corpus on behalf of Thaw is pending. The governor based his decision on the indictment returned against Thaw in New York City, which charged him with conspiracy to escape from the Matteawan asylum. Thaw made his sensational flight on August 17.

Thaw's attorneys announced that they would immediately file an amendment to their petition for a writ of habeas corpus, application for which was made soon after Thaw was deported. The original petition was based on the allegation that Thaw was indicted by the Dutchess county grand jury and was suspended pending the governor's decision.

Thaw was not present when Governor Felker announced his decision. He will remain here in custody of United States Marshal Nute and Sheriff Drew, pending the federal proceeding. Thaw said that he would make no comment upon the governor's decision and the probable future course of the case. His mother issued a statement in which she said that the governor's decision was not a shock to her, although it was a disappointment.

DEADLOCK ON CURRENCY BILL

CONFERENCE ON MEASURE BY SENATE DEMOCRATS CALLED FOR MONDAY

TWO SENATORS OBDURATE

Reed and Hitchcock Vote With Republicans in Fight Against Eight Regional Banks

By Associated Press.
Washington, Nov. 8.—With the Senate banking and currency committee deadlocked in its consideration of the administration currency bill, a call was issued tonight for a conference of Senate democrats next Wednesday to discuss the measure. The call was issued by Senator Swanson of Virginia on authority from Leader Kern, who is out of the city. All day long, the committee wrangled without result over the question of fixing the number of regional banks to administer the new currency system.

Half a dozen votes were taken on various propositions fixing the number of banks from four to eight. Each vote disclosed a tie, Senator Hitchcock voting with the five Republicans against the six remaining Democrats. In vain administration senators declared that the president was determined to have at least eight regional banks.

Reed and Hitchcock Obdurate.
When the committee had adjourned, Democratic members went into session. The four administration supporters argued with Senators Hitchcock, Reed, and O'Gorman, although the latter two had swung into line with the administration on several propositions. An attempt was made to secure a compromise by which the administration supporters would yield on other points to assure eight regional banks, but the effort failed.

No Comment at White House.
Senator Swanson and his conference call then came into the situation. The petition for the call was signed by twenty-three Democratic senators. No comment was made at the White House regarding the situation. Republicans members of the committee tonight expressed the intention of working for a minority currency bill, based on a publicly-owned, publicly-controlled system of regional banks, of which there would not be more than four. In many respects the bill would follow the Glass administration bill.

The administration Democrats in the committee are at work on a report which probably will be laid before the conference Wednesday.

ANOTHER GOVERNATORIAL CANDIDATE ANNOUNCES

By Associated Press.
Austin, Texas, Nov. 8.—William F. Robertson of Dallas, in letters to friends here, today announced his intention of becoming a candidate for governor. Formal announcement will be made later, the letters said.

DALLAS WOMAN IS EXONERATED

MRS. ELLIS M. LAKE ABSOLVED FROM ALL CONNECTION WITH MURDER OF MISS BROWN

IS NO LONGER IN CUSTODY

Meade Barr Declines to Tell Why He Implicated an Innocent Woman

By Associated Press.
Dallas, Texas, Nov. 8.—Mrs. Ellis M. Lake was completely exonerated of any connection with the murder of Miss Florence Brown here last July and was released from custody late this afternoon on habeas corpus proceedings. Meade Barr, whose confession to the grand jury implicated the woman told the court that so far as he knew, Mrs. Lake had absolutely nothing to do with the crime. "Why did you implicate this woman?" County Attorney McCutcheon, but Barr refused to answer. Barr answered but one question concerning his own alleged connection with the death of Miss Brown. "Did you kill Florence Brown?" he was asked. "I did not," he replied.

The release of Mrs. Lake adds another puzzling feature to the mystery that has baffled the efforts of many detectives since July 28. It was rumored in court circles today that Barr might soon be returned to the Indiana state reformatory, where he was an inmate when his first "confession" was made.

INDIANAPOLIS CARS ARE AGAIN RUNNING

Old Motormen and Conductors in Charge—Receivership Suit is Postponed

By Associated Press.
Indianapolis, Nov. 8.—For the first time in seven days the people of Indianapolis heard the hum of motors and clang of bells of street cars today as the service interrupted by the strike of employees was resumed. Old motormen and conductors were in charge of the cars.

A suit asking that a receiver be appointed for the street railway company and that the Indianapolis Traction and Terminal charter be cancelled, was indefinitely postponed.

SUPPLY SHIP CULGOA TO BE PROVISIONED

Meats and Other Supplies Will be Carried to Ships in Mexican Waters

By Associated Press.
Washington, Nov. 8.—The navy department today ordered the supply ship Culgoa, now at Norfolk, to steam to New York to take board meats and other provisions for the fleet at Vera Cruz and Tampico. It was explained that this action was in line with the navy department's policy to make the American squadron, so far as possible, independent of supplies from shore. It appears that the second division of the fleet allowed its stores of provisions to run very low, expecting to leave Mexican waters earlier in the week to go home upon the arrival of the third division. The order from Secretary Daniels, detaining the second division indefinitely in Mexican waters, consequently makes it necessary to rush supplies to the ships.

GREAT LAKES SWEEP BY A HEAVY GALE

Several Vessels Grounded and Loss of Life Indicated in the Early Reports

By Associated Press.
Detroit, Mich., Nov. 8.—The gale which swept the Great Lakes today resulted in the grounding of at least two vessels near here and the drowning of Frank C. Foster, first mate on the whalerback steamer, Samuel Mather. Reports reached here tonight that an unidentified steamer was pounding to pieces on the rocks off Point Pelee in Lake Erie.

The Louisiana On Rocks.

By Associated Press.
Cleveland, Nov. 8.—The steamer Louisiana went on the rocks near Port Washington in Lake Michigan early today and began pounding to pieces, according to word the owners received here late today. While the crew of twelve were working to free her, she broke out and the crew took to the boats, landing safely.

VIOLENCE MARKS MINERS STRIKE

ONE MINER AND THREE GUARDS KILLED ON LAVETA—ANOTHER KILLED AT AGUILAR

GOVERNOR IS STIRRED

Governor Orders Militia to Round up and Imprison Men Who Shot From Ambush

By Associated Press.
Laveta, Colo., Nov. 8.—One miner and three guards from the Oakview mine near here were killed late today when they were ambushed while returning to the mine. The miner had come to Laveta this afternoon to visit a dentist. When he started to return to the mine, he was surrounded by strikers but managed to summon aid. Three guards came to Laveta and rescued the miner and started for the mine in an automobile. The party was attacked and in the exchange of shots, all the occupants of the automobile were killed.

Shot Down From Ambush.
Trinidad, Colo., Nov. 8.—Pedro Armijo, a miner, who has been working at Aguilar, was killed today by a shot fired from an ambush while being escorted out of town by a marshal. The marshal just rescued Armijo from a crowd of strikers.

Governor Ammons Acts.
Denver, Nov. 8.—Adjutant General Chase was ordered today by Governor Ammons to round up and imprison under martial guard the men who today ambushed and killed a non-union miner and those who late today ambushed and killed three mining guards and a non-union miner near Laveta. The governor declared if he could find a way to try the men under martial law, he would order General Chase to proceed with their trial.

INDIAN TROUBLE STILL FEARED

By Associated Press.
Durango, Colo., Nov. 8.—Possessing the Navajo and Arapaho, New Mexico and Ariz. Colorado, for orders from Superintendent W. P. Shelton of the Navajo Indian reservation at Shiprock, New Mexico, to proceed to his assistance in quelling what threatens to be an Indian uprising as the result of several hundred Indians, United States Marshal Hudspeth, with his deputies, should arrive at Shiprock from Santa Fe some time tonight.

ARBITRATION TREATY WITH DENMARK

One Now Being Considered for Arbitration of All Questions Even of National Honor

By Associated Press.
Washington, Nov. 8.—Secretary Bryan announced today that he was negotiating with Denmark a treaty for arbitration of all questions arising including those of national honor. The negotiations were undertaken at the initiative of Constantine Brun, Danish minister here. The proposed treaty is understood to be even broader in its terms than the Knox treaties with Great Britain and France, which were so radically amended by the Senate as to be practically devitalized. The Knox treaties proposed arbitration of all questions, even including those of honor, but to conserve the treaty making powers of the Senate provision was made for a joint commission to determine questions subject to the Senate's approval.

FIRST SHIPLOAD OF ARGENTINE CORN ARRIVES TODAY.

Galveston, Texas, Nov. 8.—What is believed to be the first cargo of corn to be imported into the United States since the adoption of the new tariff law, placing corn on the free list, reached Galveston this afternoon on the French steamer, Carroll, from Buenos Ayres, Argentina. The cargo consists of 4800 tons of corn, which will be sent to a grain company at Wichita Falls.

MONDAY NIGHT MAY SEE CRISIS IN THE SITUATION IN MEXICO

FORCE OF REBELS IS ANNIHILATED

TWELVE HUNDRED SONORA SOLDIERS TRAPPED BY A FEDERAL FORCE OF 700

CHIHUAHUA HOLDS OUT

Federals Still in Possession of City Despite Savage Attack of General Villa's Force

By Associated Press.
El Paso, Texas, Nov. 8.—Twelve hundred Sonora rebels under Julio Acosta were trapped by General Jose Luis Salazar's command of seven hundred federal volunteers and were annihilated by the federals, according to official messages received tonight in Juarez.

Salazar Lost Heavily.
The rebels were hurrying to Chihuahua to reinforce General Pancho Villa, who has been assaulting Chihuahua. The message stated that Salazar lost a large number of men. Salazar has been in the Santa Clara canyon for several days awaiting the approach of the rebels. Federal troops were placed in charge of the telegraph offices in Juarez today and all news from the south was closely guarded.

Chihuahua Still Holds Out.
Information of conditions in Chihuahua which rebels claim to have taken, is being withheld, but federals deny this. The dispatch says Villa has seven thousand men and it leaves the impression that the fighting continues.

WANTS \$100,000 FOR MAKING AFFADAVIT

George W. Speer, Trainer of Major Delmar, Claims Lou Dillon, Owner Owes Him

By Associated Press.
New York, Nov. 8.—The sum of \$100,000 for making an affidavit in the investigation of the defeat of Lou Dillon the famous trotting mare, by Major Delmar at Memphis, in 1904, is demanded by George W. Speer, Major Delmar's trainer, in a suit filed today against Cornelius K. G. Billings, Lou Dillon's owner.

Speer alleges that he made affidavit that a conspiracy existed between the trainer of Lou Dillon and the trainers of Major Delmar, owned by E. E. Smathers, providing that Lou Dillon should be beaten. After the race Billings claimed his mare had been tampered with and substantiated his claims with Speer's affidavit. Speer alleges that he made the affidavit only after Billings had agreed to make good any loss Speer might sustain by being black-listed by the National Trotting Association. From May, 1906 until May, 1913 Speer alleges the association refused to permit him to train or drive horses. Because of this and other restrictions, Speer charges he has sustained \$100,000 damages. Billings he charges, has paid him nothing.

LORD COWDRAY SUPPLIES MONEY

HEAD OF BRITISH OIL SYNDICATE IS ANGEL OF BANKRUPT HUERTA REGIME

OIL CONCESSIONS LURE

Provisional President Secures Sufficient Funds to Operate Government Temporarily

By Associated Press.
Mexico City, Nov. 8.—Provisional President Huerta, it was learned in authoritative circles here today, has secured sufficient British capital to operate the Mexican government, at least, until the end of the present month. The funds are said to have been secured through the efforts of Lord Cowdray, head of the Pearson syndicate.

The financial situation changed slightly for the better today. Some banks are putting out silver.

FIRM EVEN TO POINT OF WAR

HUERTA SHOWS NO INDICATION HE WILL COMPLY WITH AMERICAN DEMANDS

BREAKS WITH CABINET

Admits Financial Weakness But Hopes to Get Money to Keep Up Campaign

By Associated Press.
Mexico City, Nov. 8.—General Huerta has shown no indication that he will comply with the American demands for his resignation. On the contrary those who profess to have his confidence say his program includes the continued occupancy of the presidency until some time late in the year 1914 and that he intends to carry out his plan of organizing the new congress and defying Washington, even to the point of war.

Many Rumors Afloat.
One persistent report today was that Huerta had turned the government over to Senor Moseno, the foreign minister, and had gone to Vera Cruz. Another was that he had intended to commit suicide. That Huerta has begun to break with certain members of his latest cabinet is indicated by the reported resignation of General Blanquet, minister of war. There is some basis for believing the United States has served on Huerta a supplementary notice that his official career must be brought to an end by Monday night.

Admits Financial Weakness.
It was reported today that John Lind was the medium employed by Washington. Mr. Lind and Mexican officials deny this. The rumor originated in the national palace. Those who insist that Huerta will resist all overtures say he admits financial weakness, but is convinced that from time to time, he can get enough money to keep up a dogged intermittent campaign against the rebels. According to this informant, General Huerta does not expect to bring about pacification for many months, but until it is accomplished, he will not resign. They add that he is still determined that the new Congress must meet and he expects it to annul the recent elections, leaving him in the provisional presidency until new elections are held at his call.

Congress Must Not Meet.
That the new Mexican Congress must not meet is a point insisted upon by the United States, since it was the belief in Washington that one of the first acts of that body would be to legalize certain concessions that are not considered desirable. Mr. Lind and Sir Lionel Carden, the British minister, conferred again today. It was learned that their ideas regarding a solution of the situation are still far apart.

General Blanquet denied tonight that he had presented his resignation.

URGE CHRISTIANS TO UNITE ON CANDIDATE

By Associated Press.
Temple, Texas, Nov. 8.—The department of temperance of the Central Texas Methodist Conference, in session here today, presented a resolution recommending that all Christians unite on a single candidate for governor and that statewide prohibition be favored at the earliest possible date for an election on that issue. The report has not been acted upon.

HUERTA MUST GO FIXED DECISION

HIS ELIMINATION WILL BE ACCOMPLISHED ONE WAY OR ANOTHER SAYS OFFICIALS

CONFERENCE IS CALLED

President Talks With Foreign Relations Committee—U. S. Agents Investigate Constitutionals

By Associated Press.
Washington, Nov. 8.—Notwithstanding intimations that President Huerta would refuse to resign, administration officials asserted tonight that his elimination would be accomplished "in one way or another." They declared that every opportunity would be given him to retire peacefully and that drastic steps would be avoided if possible.

Conference Called.
The chief development of the day was a call sent by President Wilson for members of the Senate foreign relations committee; republicans as well as democrats. He had Senators Stone and Swanson with him for an hour and expects to discuss the subject individually with other members within the next two or three days. His is in constant communication with Senator Bacon, chairman of the committee who early in the day had a long conference with Secretary Bryan.

Elimination Fixed Purpose.
Mr. Bacon tonight thought that while he was not at liberty to discuss his talk with Mr. Bryan in detail, he could state that there had been no change in the fixed purpose of the United States to have Huerta eliminated and that it would be done, though every effort would be made to avoid extreme action. In the view of many officials who anticipate a flat rejection by Huerta of American demands, only two courses are open to the United States; either to compose the situation directly, or to throw its moral support behind the constitutionalists. That there is a strong disposition to adopt the latter course was evident in many quarters today. Lifting the embargo on arms is the method by which many senators believe the situation can be met.

Investigate Federal Plans.
It is believed that before the Washington government takes any steps, an understanding through unofficial channels may be reached as to the exact purpose of the constitutionalists, so that any act of sympathy toward their cause might be predicated on assurances of a very definite character. To this end, it is reported, agents of this government are gathering information along the border on the strength of the constitutionalists and the program which they have mapped out. The president is said to be impressing upon all those who discuss the situation with him that it is the duty of the United States to see to it that the arbitrary assumption of power by Huerta should not be permitted to ripen into a permanent Latin-American. Absolutely no official comment was forthcoming tonight on the dispatches from Mexico City, announcing that Huerta would be aided by English financial interests in meeting immediate expenses.

Peasants' Activity Known.
Information on this is said to have been in possession of the United States government for some time, and persons in the confidence of President Wilson declared he had this phase in mind when in his Mobile speech he attacked the influence of material interests of foreign nations in the political affairs of Central and South American republics.

IMPEACHMENT EXPENSES EXCEED APPROPRIATION.
By Associated Press.
Albany, Nov. 8.—Bills for expenses incurred at the impeachment trial of former Governor Sulzer not including counsel fees, already total \$50,000 more than the \$75,000 originally appropriated to cover costs of the trial. Practically all of the original appropriation was spent for salaries of members and employees of the court. One of the largest single items is for salaries and expenses of detectives. One New York agency head drew \$8960 for himself and employees. Although members of the board of managers did not meet every day between August 30 and October 10, they received ten dollars a day including Saturdays throughout that time.

CUSTOMS INSPECTOR SERIOUSLY WOUNDED.
San Diego, Cal., Nov. 8.—W. B. Evans, United States customs inspector, was shot and seriously wounded early today at National City by one of a trio of Mexican opium smugglers. One smuggler was wounded and captured and the other two escaped.

HENRIETTA AGAIN IS DEFEATED

WICHITA FALLS HIGH SCHOOL WINS GAME THERE FRIDAY BY 12 TO 5

LOOKED BAD AT THE START

Wichitans Scoreless First Half but Scored in Third and Fourth Quarters of Contest

Wichita Falls high school football eleven repeated the dose on Henrietta Friday afternoon at Henrietta winning by a score of twelve to six. Considering that several Wichita Falls players were disqualified by faculty rules and that the use of several substitutes was necessary, the Wichitans made a good showing.

Henrietta scored in the first quarter and held the Wichita Falls eleven safe until the end of the first half, when things were looking bad for the visitors. Wichita Falls got busy in the second half and began opening up the Henrietta line for good gains. One touchdown in the third quarter and another in the fourth quarter, put the Wichitans safely in the lead. Conners and Ben Powell carried the ball over the line for the two touchdowns.

In a game here, earlier in the season, Wichita Falls won decisively from Henrietta and Friday's result put Henrietta out of the running so far as championship aspirations are concerned. The Wichita Falls lineup was as follows:

Dugan and Skeen, ends; Lawler and Anglin, tackles; Bugg and Cooper, guards; Hawthorne, center; Trotter, quarterback; Tavis, Taylor and Powell, half backs; Conner, full back; Seagriff, referee; Smith, umpire.

COLBURN ELEVEN DEFEATS WILLIAMS TEAM 12 TO 6

Thursday afternoon in an interesting game the Colburn football eleven was defeated by the Williams team by a score of twelve to six. This was the third game between the two teams. The lineup was as follows:

Colburn team—Nelson, right end; Barnard, right tackle; Noble, right guard; Jackson, center; Meade, left guard; Clonist, left tackle; Colburn, left end; Warner, quarter; Christensen, right half; Walkup, full back; Meade, left half.

Williams team—Bushman, right end; Weaver, right tackle; Carter, right guard; Taylor, center; Hackney, left guard; Davis, left tackle; Taylor, left end; Williams, quarter; Boone, right half; Wheeler, full back; McConnell, left half.

KING INDICTED IN CLAY COUNTY

Grand Jury There Finds Bill Against Byers Young Man After Wichita Jury Failed to Indict

Milton King of Byers, was indicted by the Clay county grand jury at Henrietta late Friday in connection with the death of a young Wichita Falls girl, more than a year ago.

King was placed under arrest soon after the indictment was returned and gave bond. His case has been set for trial for the sixth week of the term of the Clay county court, which falls on Monday, Dec. 1st. Judge Martin fixed the bond of defendant at \$5,000 which was given readily.

Charges against King were investigated by the Wichita county grand jury last June and the investigation failed to discover grounds on which an indictment could be based. After the grand jury here had failed to indict him King filed suit against Dr. G. A. Foote and Dr. Reed, two Byers physicians, demanding \$50,000 damages for slander. The case was set for trial at Henrietta during the present term of court but non-suit was taken in the case when it was called for trial. King is a member of a prominent Clay county family and has been at the head of a Byers mercantile firm.

HARVARD WINS FROM PRINCETON

GOAL FROM FIELD GIVES HARVARD TEAM ONLY SCORE IN CONTEST

FIELD WAS A SEA OF MUD

Rival Teams Wallowed About Waiting for Error to Give Chance to Score

By Associated Press. Princeton, Nov. 8.—Harvard shattered an ancient football tradition here this afternoon by defeating Princeton on her own ground by a score of three to nothing. The credit for the victory goes in great part to Charles Brickly, whose solitary goal from the field gave the Cambridge eleven the three points scored in the game.

Played on a field deep in mud, the finer points were absolutely lost and the rival teams wallowed and slid about the gridiron waiting for an error to give them opportunity to score. Harvard's chance came in the second quarter when a punt by Law was blocked. When the ball was finally secured after slipping down the muddy field, it was a pair of mud covered Crimson covered arms that held it and Princeton's doom was sealed. With the ball on the twelve yard line, Harvard tried two line plunges. The orange and black held firm and Brickly's toe was resorted to. He responded with a goal.

EGGS 75 CENTS A DOZEN IN NEW YORK CITY

By Associated Press. New York, Nov. 8.—Eggs are so scarce in New York that dealers have put the retail price up to seventy-five cents a dozen for the best quality and the outlook is that they will go from three to five cents a dozen higher. Failure of hens to lay and a shortage of cold storage supply are given as reasons for the scarcity.

WILSON LIKELY TO NAME MALONE FOR COLLECTOR

DUDLEY FIELD MALONE

Washington, Nov. 8.—It is predicted here that President Wilson will appoint Dudley Field Malone of New York collector of the port of New York to succeed John Purroy Mitchell, who was elected mayor. Mr. Malone is now assistant secretary of state and is a son-in-law of United States Senator O'Gorman.

DALLAS MASONS COMING MONDAY

LOCAL LODGE WILL ENTERTAIN MANY OUT OF TOWN VISITORS TOMORROW

CONFER MASTER DEGREE

Sam P. Cochran, Highest Ranking Mason in State Will be one of the Guests

Wichita Falls Masons are ready to entertain a large number of members of the order from out of town lodges tomorrow, the occasion being the conferring of the third degree by a party of Dallas Masons, mostly of the thirty-third degree, headed by Sam P. Cochran, the highest ranking Mason in the State.

Invitations were sent out last week to practically every lodge in this part of the State and acceptances up to last night indicated that many will be here for the occasion. The Dallas contingent, numbering about forty, will arrive early Monday morning and during the day will be entertained by a reception committee of local Masons. This committee will take the visitors to all points of interest in and around the city and otherwise see that they are well entertained. Other committees will meet all trains and make the visitors from nearby lodges comfortable.

In the afternoon the Royal Arch Degree will be conferred and promptly at 7 o'clock in the evening will begin the conferring of the Master's Degree. This work will be exemplified almost altogether by thirty-third degree Masons. Later in the evening a buffet luncheon will be served.

Masons of this city have prepared for an elaborate occasion and the number and prominence of the visiting brethren will serve to make the day a memorable one.

CALIFORNIA MEN WILL OPERATE HERE

Advance Guard of Golden State Oil Interests Already on Ground Taking Leases

Although definite information on the subject is not available at this time, it is learned that California interests are preparing to enter the Northwest Texas oil field on an extensive scale and some of the concerns involved already have representatives here. This advance guard includes several geologists, who are studying formations and surface indications in the field.

J. C. Laney, for some time an operator in the California field, moved here some weeks ago and has taken a number of leases. Another Californian arrival is T. J. Peterson, representing the Peerless Oil Company.

It was reported recently that one company with considerable production in this field was soon to sell its holdings to California concerns, but no confirmation can be obtained. There is little doubt, however, that some of the concerns now operating in California will soon extend their activities to Texas.

FORMER PUPILS ENTERTAINED IN HONOR OF MISS CONNELLEY

The third grade of 1912 of the Alamo school gave Miss Hattie Connelley, their teacher of that year, 1908 to be a bride, a miscellaneous shower Saturday afternoon at the home of Mrs. J. B. Marlow, 2101 Sixth street.

The afternoon was spent by the young folks in playing games dear to the childish heart. Their games were pleasantly interrupted by delightful refreshments of cream, wafers and grape juice. Mrs. Marlow was assisted by her son, Joe, Mr. Marlow's sister, Mrs. M. McLemore and Miss Johnson. The table was artistically decorated with beautiful flowers. In the center of the table was a heart formed of ferns and pink and white carnations. The favors were bunches and violets which marked the places. Many beautiful presents were found by the bride-elect. These were viewed by those present and the children were delighted to see their gifts and best wishes received by the teacher so dear to their heart. Those present were: Alice Downing, Tina Guthrie, Irma Schelle, Mae Craig, Josephine Bullock, Sybil Thornberry, Louise Hines, Ruth Crowell, Phyllis Campbell, Laura Marlow, Charles McClure, Berrie Lee, Kettie Milvin, Reting Clifford Somers and Joe Marlow.

YOUNG MEN SHOW SUFFRAGISTS TO UP IN CABINET OPEN CAMPAIGN

ENGLANDS NEW ATTORNEY GENERAL ONLY FORTY, BUT CAREER IS BRILLIANT

TO SELL SHOES TO U. S.

English Manufacturers Plan Campaign to Introduce Their Goods on this Side of Water

London, Nov. 8.—The young bloods of the cabinet, Messrs. Winston Churchill and Lloyd George, will have to look to their laurels now that Sir John Simon has reached cabinet rank at Attorney-General.

Sir John is one year older than Winston Churchill, who is now thirty-nine but is much younger in appearance and spirits, and there is no man in the country who is looked to to go further than he is. He has one advantage over most of his fellow members of his cabinet in that he is popular both on his own side of the House and among his opponents, and never has a promotion been more generally approved than was his. In fact, Sir John had the distinction which has seldom fallen to a Liberal minister since Home rule was first taken up by the party, of being approved by an Ulster newspaper.

The new attorney general has had an astonishingly brilliant and rapid career of success, and he is often spoken of as a possible successor to Mr. Asquith as leader of the Liberal party. He is a staunch radical, but preaches his doctrines in a way which while effective, does not offend his opponents. At Oxford, where he was a brilliant member of the Union, his chief opponent was E. S. Smith, an equally brilliant Unionist lawyer, and in the House of Commons they are always pitted against each other. Unlike the most great lawyers, he is as effective on the platform as at the bar, and besides, has accomplished what many of them have failed to do—attain the "House of Commons manner," a quiet conversational way of speaking which holds the audience without any attempts at flights of oratory.

Sir John is as fearless as he is brilliant. After having fought three elections in one year in Westminster and making the seat a safe one for himself, he has quietly announced his intention of resigning at the next general election to fight Northwest Manchester, one of the most uncertain constituencies in the country. It was Northwest Manchester that rejected Mr. Balfour in 1906; chose Winston Churchill later on in the same year only to reject him two years later; reverted to Liberalism in 1910, when Home Rule sought the suffrage of the constituency and, at a bye-election last year elected Sir John Handerson, a Unionist, however. Sir John Simon is a Manchester man, and besides he is the chief apostle of Free Trade. For the government nothing is more important than to keep the manufacturing centres in the Free Trade fold.

Want American Trade. The best and the worst of England, who have organized a campaign to capture some of the trade of America, now that the duty has been abolished on their goods, realize that in one way they are handicapped. This handicap took off the duty on hosiery, stockings and the like, and near Eastern lands; but these are of cheaper varieties and do not count much in the war for trade in high-class goods that the English boot maker is preparing to wage against his American competitor.

The appointment of Major John N. Merrill, Jr., of Skowhegan, Maine, to organize and command a force of 1,000 gendarmes at Shiraz, Persia, for the Governor-General of Persia, is independent of the Swedish gendarmerie, but to co-operate with it when required is a distinct victory for American methods and for that young American officer.

Major Merrill, who is only a little over thirty years of age, went to Persia with Morgan Shuster when that gentleman was appointed to reorganize the finances of the country. When Shuster left, Major Merrill was the only one of his American staff to remain. His force was incorporated in the regular gendarmerie, but he was given little or nothing to do. Now he is practically given charge of that portion of Southern Persia which has a worse reputation than probably any country in the world. The district is overrun with outlaws and the British Government, within whose sphere of influence it is included, long ago gave up the attempt to police it.

WILL MAKE THEIR FIGHT ON CABINET MEMBERS WHO OPPOSE THEM

BUDGET OF LONDON NEWS

Marked Contrast Between Queen Mary and Alexandra is Cause of Some Comment

By Associated Press

London, Nov. 8.—The opening gun of the busy autumn campaign of the National Union of Women's Suffrage Societies, the constitutional organization of the suffragists, will be fired in November in the form of a concerted attack on the constituencies of the cabinet members who oppose woman's enfranchisement.

This preliminary attack will take the form of political support of certain labor candidates who expect to oppose the present cabinet members at the next general election. The government is being attacked because, although it has a majority in favor of women's suffrage, it refuses to make their enfranchisement a government measure. The Labor party will be hastened because it is, so far, the only party which has placed woman's suffrage in its political platform. The Union itself is non-partisan, embracing members from all the parties, but it is the considered opinion of the suffragists that the hand of the government should be forced by opposing its anti-suffrage adherents.

The educational side of the campaign is to be concentrated on an effort to show the public quite clearly the real reasons why the government desires the enfranchisement of women. This reason will be expressed in terms of the welfare of the children. A program has been arranged under the general title of "The Child and the State." The campaign will be carried on under the various heads of infant mortality, children in the schools, defective children, delinquent children, state children, employment of children and the legal position of children.

The police have been subjected to considerable criticism for the small number of arrests they made at the recent Bow Baths riot in the East end, when Sylvia Pankhurst was rescued by her followers, but modestly prevented the London policemen from coming forward with a perfectly adequate excuse for his small suffragette bag.

The story of the newest form of military strategy might never have been known to the public had not some of the various suffragettes boasted about it to their friends. According to these chatterers every time a policeman grasps a suffragette one of her comrades called off for that purpose, would rip the officer's coat and cut his suspenders. To be sure, between conflicting cases of duty and modesty the constable had to sacrifice his capture of his dignity, and everyone who knows the London "bobby" will guess that the prisoner escaped.

The troubles of the much-abused police did not end with the escape of their prisoners, for when they were lined up before the inspector to report on their duty, they got a rating for their failure to stand at attention with hands at their sides. The chaffing of their comrades in the station house,

when they discovered the cause for this slackness, did not add to their happiness.

It is said that when Miss Pankhurst was arrested the next night at Poplar Hall, her captors had provided for a repetition of the attack by snatching their trousers so securely that a mere slipping of suspenders did not cause them any concern.

Never was a greater contrast between two queens afforded than the presence together of Queen Mary and Alexandra at the marriage of Prince Arthur of Connaught and the Duchess of Fife.

Although common reports say the two women are not on the most friendly terms, custom demands that at many functions they appear together, and at the marriage at St. James Palace they both entered and left the chapel hand in hand. Of the two, in

fact at least, Queen Alexandra, who will be sixty-nine on December 1 next, and is therefore twenty-three years older than her daughter-in-law, appears the younger, but when she walks her age is more apparent. Her face, too, is always brightened by a smile, which no doubt accounts for her never wanting popularity with the general public who always cheer her more heartily than any members of the royal family, with the possible exception of the Duke of Connaught, with whom she divides honors in this respect.

Leaving the chapel the other day it was noticed that the Queen Mother with the King's wife, both she and King Edward were famous, lingered to bow to all present, so that none might feel slighted. In fact she was so persistent in this that Queen Mary had more than once to gently urge her forward.

Yachtsmen who followed the races around British Isles and in continental waters during the past season tell an incident which emphasizes the thoroughness which Charles Nicholson, the designer of the new America cup challenger, carries out everything he undertakes.

It occurred aboard the "Istria," which won the 15 metre race at Kiel last year. Nicholson not only designed and built her, but also skippered the "Istria" in her big races. On the occasion mentioned the yacht was late in getting under way for the starting point and a friendly steam yacht gave her a lift. Those on the steam yacht soon learned the cause of the "Istria's" lateness. Perched above the cross-trees was Nicholson, the designer, builder and skipper, making sure that some bolts were quite right before the race started.

Wichita Falls, Texas, Nov. 9, 1913

Still there are some people in Wichita Falls who don't know that a one-cent stamp won't deliver a letter to a Wichita Falls address. A newspaper probably pays as much "postage due" on this class of mail as any other institution in the city.

Enfranchised women are said to have placed eighteen out of twenty-four municipalities voting on the liquor issue in Illinois Tuesday in the dry column. No wonder the average anti-liquor enthusiast for woman suffrage.

The Houston Chronicle suggests that one way to settle the Mexican trouble would be to allow the new battleship Texas to engage in target practice off the Mexican coast for a week or two.

The Times would repeat that the community can't get very far in the solution of certain vice problems so long as their regulation or attempted suppression is made a source of revenue—revenue to the city, the county, or the state, or the officers thereof.

It pays to advertise. Proof of this is the fact that an Oklahoma girl advertised for a husband, got desired results, and after paying for the ad had \$8.75 left with which to pay for her wedding outfit. The husband secured by the little ad had his life insured for \$11,000. The face of the policy made payable to his wife at his death. He died within a year of his marriage. Still there are people who are skeptical as to advertising.

An ex-police chief of Houston was found guilty the other day and assessed a fine of \$100 and given 60 days in jail on a charge of pistol totting. On the same day he was acquitted on a charge of assault upon a Houston news-paper reporter. In this case the judge wouldn't let the case go to the jury, but instructed a verdict of acquittal. The judge may have taken the same view often jokingly expressed by a good friend of ours who tells us that

every man ought to have the right to kill at least one newspaper man. On the pistol totting charges the ex-chief was convicted notwithstanding he introduced in evidence his deputization as a deputy sheriff of Fort Bend county, a county near Harris county, in which he is alleged to have carried a pistol illegally.

Wichita Falls now needs and needs badly another fire station and additional fire equipment and within less than two years must face the problem of building a sewerage disposal plant to conform to the state law prohibiting the dumping of sewerage into streams. The last named undertaking will cost \$50,000 at the most conservative estimate and will likely cost much more. The city needs more firemen, and more of everything required by a growing city. These necessities cannot be provided on a 65 cent tax rate to which we are now limited. The tax rate must be raised and bonds issued. Under the present charter only a few thousand dollars more bonds can be voted. The new charter provides for a larger maximum tax rate and will allow more bonds to be voted for permanent improvements. The duty of the citizen-voter seems plain.

Recent rains have made the best turnip crop ever grown in Wichita county, and some farmers have more turnips than they know how to dispose of. Joe Smith, who owns a farm five miles west of town Park, brought to the city Friday a wagon load of turnips, and they were readily disposed of. The Times knows whereof it speaks when it asserts the turnips were good and of a fine variety for the very good reason that Mr. Smith was thoughtful enough to leave a good big bunch at its office. He has about one acre in turnips, the finest he has ever raised in this or any other county, he says. Mr. Smith also has in 100 acres of wheat that is up and looking fine, and has ground prepared to put in 200 acres more just as soon as he can get in the field with his plow. He also has 150 acres of volunteer oats that are now high enough to hide a jack rabbit, and that's some date. Come to Wichita county.

NOT ALL CORPORATIONS SOUL-LESS

In these days when so much is being said of the sordid side of business it is pleasing to record a word of appreciation from the Frederick Leader for the help extended by the Wichita Falls and Northwestern in the recent disaster at Frederick when the city fell caved in killing five men. The railroad company on learning of the situation at once loaded a pump and a car load of material at Wichita Falls and hurriedly dispatched them to Frederick, where railroad employees took a prominent part in the recovery of the bodies. The Leader in voicing the appreciation of the Frederick people says:

"And while there are many who helped that we do not know, we would not forget the good and efficient work done by the men from Mangum, Snyder and Wichita Falls, and in this connection may be permitted to say that there may be soulless corporations somewhere, but it now seems to us that the Wichita Falls and Northwestern people have a man higher up directing their affairs that has a heart of gold."

Speaking of Temple Houston recalls a speech made by him, or rather an appeal for one of the scarlet sisters, some twelve or fourteen years ago. Temple Houston was a brilliant advocate and he had a heart. Just before he died he went into a police court somewhere in Oklahoma to defend a public prostitute. The case against her was complete. Houston made no legal defense in her behalf. He did make one of the prettiest appeals that was ever set to language. It was published in an Oklahoma paper and its exquisite simplicity made a deep impression upon all who read it. That appeal should be resurrected and reprinted. It would be very timely now, as there is a bitter crusade going on against these unfortunate women throughout the state. The writer has forgotten in what town Temple Houston died, but his eloquent appeal for the unfortunate Magdalen appeared in one of the papers in the place where he spent his last hours and near where his dust is sleeping—Fort Worth Record.

That certainly was a most eloquent appeal, but if it has had the effect of touching the hearts of the foe-grabbers

is not very noticeable in several Texas cities. Houston's appeal for the scarlet woman was based on the words of the Savior, "Go, and sin no more." Now it seems more like this: "Go, and sin until you earn enough money with which to settle."

EUROPEAN AIRS FOR WASHINGTON

CAFES NOW PULLING OFF STUNT SIMILAR TO THOSE IN PARIS AND ELSEWHERE

TEA DANCE IS POPULAR

Other News of Washington—Garrison Succeeds Wickersham in Disfavor With Reporters

(By Burton K. Standish) Washington, Nov. 8.—Well, they're here at last, after long months of hopeless waiting. "They" are the "tea dansants," like they have in those dashing cafes in New York, and the "quartier Latin," just like Paris or Berlin and the other up-to-date continental capitals. And are they popular? To answer that question all one has to do, is to take a little jaunt to the local scenes of activity. At the Shoreham Hotel where the management has inaugurated the afternoon fishwalk thing allied with tea eating and occasional highball for the dining, can be found Washington's society bunch. Young and old, official and unofficial, they're all wiggling and wagging merrily to the strains of ragtime music, in their best afternoon clothes. Street some wise young real estate advertiser re modeled letter in active operation and hung out a sign: "Studio Fall." He also threw in a lot of window some queer looking rooms and fireplace, and the activity was on. Within three weeks, about every vacant house and barn in the neighborhood was being transformed into studios and today only a couple of months after the craze started, there are no less than two dozen studios, housing every sort of painter, sculptor, teacher of the new aesthetic and un-aesthetic dances.

But the "tea dansant" is the one great stunt. The first "afternoon" occurred early in the week, and the management sent out very formal invitations. Not that invitations are necessary, but it made it look classy. Army folks, congressional folks, and the usual mob of well-dressed men who decorate the embassies were there in polite turkey trotting droves. Nice little tea tables were scattered about the edge of the ball-room, with nice little menus for each one, at the bottom of which were innocent announcements that dinners could be had in the dining rooms.

So much successful have the first few afternoons been that other hotels are sitting up and taking notice, and it is rumored that two more will soon

begin the afternoon dance thing, with some novel innovations. And a New York cafe proprietor is in Washington seeking a site for a cabaret cafe, where one can dance in between courses—and the tables.

Washington seems to be entering its most feverish season of waddle steps. Last winter the craze appeared in a nice little nature form, but from the announcements of dancing "art lists" who are flocking here, it looks as if about every second person in town would be teaching dancing lessons or taking dancing lessons pretty soon.

An interview with Secretary of War Garrison is just about as successful (unless a formal red-tape appointment is made) as it used to be for the White House reporters to interview former Attorney General Wickersham. When that worthy was leaving a cabinet meeting.

In those days, to interview the then Attorney General Wickersham, a reporter or staff correspondent, had to have the speed of a deer, the adroitness of the king-fisher, and the snap of a taut rubber band suddenly let loose, in putting questions. A streak of lightning was as a turtle to a hare in comparison to Wickersham flitting from cabinet meetings to his waiting automobile.

Invariably, when a reporter is admitted for an impromptu interview into Garrison's office, the latter is found with a mountainous monument of manuscripts on his desk before him. Garrison always beats a man to it with the first question, "What can I do for you?" Then he lights a cigarette and says, "I'll give you as long as it takes to finish this smoke"—and he starts to puff rapidly.

Enveloped by a rapidly thickening volume of smoke the reporter puts his questions—and sometimes gets an answer. Before the reporter is halfway through Garrison finishes his smoke, throws the "butt" away, bids him good-afternoon, and turns to that pile of papers. The reporter hasn't had time to take a note.

ATHLETIC MEET HELD IN GERMANY

NATION'S FIRST INTERCOLLEGIATE CONTEST IS FEATURE OF CENTENNIAL FESTIVITIES

LITTLE INTEREST IS SHOWN

Disagreement Between Emperor Wilhelm and His Son Draws Comment from German Press

By Associated Press. Berlin, Nov. 8.—The first intercollegiate athletic meet ever held in Germany took place at Leipzig during the recent festivities connected with the centennial of the "Battle of Nations."

Dr. Alvin C. Kraenzlein, the old American hurdler and high jumper, now in charge of the development of German athletics for Olympic Games here in 1916, was present, but if he hoped to discover any hidden talent for the German team in 1916 he was disappointed. All the events on the short program, except the high jump, were won by athletes already well known in the student sections of the regular athletic clubs, and judging by the performances of a team picked from all the talent at the meeting would stand little show of winning at an average dual meet between leading American colleges.

The events and performances were as follows, the performances at the Stockholm games being inserted in parenthesis for the purposes of comparison: 100 meter dash, Kern of Munich, time 16.4-5 seconds (Lippencott America, 16.5-5); 400 meters, Hermann of Berlin, time 53 seconds (Reidpath America, 48.1-5); 1,500 metre run, Hoffmann of Charlottenburg, time 4.17.4-5 (Jackson, England, 3.56.4-5); 110 meter hurdles, Halt, Munich, time 17.2-5 seconds (Welly, America, 15 seconds); high jump, Leberich of Stuttgart, 5 feet 7.1-3 inches (Richards, America, 5 feet 4 inches); broad jump, Hagan of Charlottenburg, 22 feet 1.2 inches (Gutterson, America, 24 feet 11.1-5 inches); pole vault, Pohlmann of Charlottenburg, 10 feet 6 inches; discus throw, Buchgeister, of Charlottenburg, 132 feet 4.1-2 inches (Taipale, Finland, 148 feet 4 inches).

Only a comparative handful of the thousands of university students in Germany competed, and there were only a few hundred spectators, these including Prince Johann George of Saxony, and the rector of the University of Leipzig. Several of the winners in this first meet, notably Kern, Hagen and Buchgeister, may be expected to develop Olympic class in Dr. Kraenzlein's hands. The American trainer is devoting himself with energy to the building up of a system to make the most of the admittedly good German raw material in the short two and a half years before the games. At a meeting of the German committee on athletics held during the Leipzig meet, he declared that German efforts must be directed first toward bringing out and developing latent talent, and secondly toward inducing promising athletes to specialize instead of scattering their energies over a dozen events in as many different sports.

Next year will be devoted to finding and assembling many candidates for the team as possible, who will be brought to Berlin during the summer at the expense of the committee, lodged at the Stadium, fed at a regular American "training table" and put through a regular course of training similar to that of an American college athlete. The program for the year stars with cross-country club runs April 5, held in every city in which the club has 48 other athletic clubs, followed on May 3 by similar simultaneous competitions for novices. Olympic elimination meets will be held May 24, the athletics thus selected will compete at provincial or sectional meets during June which Dr. Kraenzlein will attend to pick his candidates for the course of training at the Stadium.

"Emperor William should arrest his son, the Crown Prince, and shut him up in a fortress," is the drastic remedy suggested by a Berlin weekly as the best solution of the situation created by the Crown Prince in taking a stand against the Emperor in the matter of the accession of Prince Ernest August of Cumberland to the throne of Brunswick.

The editor's suggestion recalls the fact that Frederick the Great, when Crown Prince, was actually arrested and kept under strict surveillance by his father, King Frederick William I, and that the old Emperor, William I, wished to send his son, late Emperor Frederick, to a fortress cell. The present conflict between father and son is, in fact, an old Hohenzollern tradition that has been handed down with striking regularity from one generation of the dynasty to the next. These conflicts have, however, lost much of their sharpness. Nevertheless, it is only sixty-three years since the old Emperor William, at a time when he was still heir apparent to the throne of Prussia, flung his sword to the ground before his brother, King Frederick William IV, with the bitter remark, "No one can honorably serve longer under you." Hardly ten years had elapsed when William himself, then king of Prussia, found his own son, afterwards Emperor Frederick, at variance with him and siding with the Diet in refusing to make heavy military appropriations. It is a well-known fact that the present Emperor himself was during the hundred days reign of his dying father, vigorously opposed to many of his measures, and William did not hesitate to show this by a complete change of policies as soon as he ascended the throne. All things considered, therefore, the present conflict between the Emperor and the Crown Prince is but a mild repetition of the old Hohenzollern tradition.

Spread of Socialism. Socialism continues to spread in Germany, despite attacks from within and dissensions within the party. Figures just published for 1913 of the number of Socialists in city councils, boards of aldermen, township boards and other organs of local government show such a remarkable increase that the Crown Prince may well fear to see realized in his reign Herr Hebel's prophecy that he would live to reign over a nation in which the Socialists will be in a majority. On March 31, 1912, there were 10,442 Socialists distributed in the various local government organizations; a year later the number had jumped to 12,901, an increase of 1,559, or nearly 15 per cent. These numbers would be far higher were a straight manhood suffrage substituted in Prussia for the present Prussian class franchise. It is figured that the number of Socialists aldermen would then be almost doubled, and that many of the big cities of Prussia would be in the hands of Socialist councils, as several of the Prussian towns in Germany already are.

LEGALITIES OF CALIFORNIA WOMEN JURIES QUESTIONED
By Associated Press.
San Francisco, Nov. 8.—Judge William T. Lawler of the superior court in refusing today to issue a special venire for a jury of women in a criminal libel case, said it was not the province of his court "to allow fantastical methods in the administration of justice" and held that the state law made no provision for the qualification of women as jurors.
"The code of civil procedure," said the judge, "provides distinctly that the juries shall be composed of men, and the granting of the voting franchise to women did not give them the right to sit on juries." The judges ruling has caused much discussion, as it is said to open the way to attacks on a large number of decisions rendered by juries composed wholly or in part of women.

THE TRAFFIC PROVES POWERFUL DRAMA
Underworld Conditions and Their Causes Portrayed Without Any Veneering
"The Traffic," a play based on underworld conditions, was presented last night at the Wichita Theatre. The production is one of the strongest ever presented here, dealing with the white slave business, and its portrayal of the horrors of the traffic is forceful and impressive. Conditions are pictured without any veneering and the excellent company gives the lesson which the production aims to teach, an added force. There are many dramatic situations, some of them tense and gripping, others pathetic. The play presents a lesson that cannot be misunderstood and is worth seeing.

CONFERENCE OF METRIC SYSTEM

PROBLEM OF INTERNATIONALIZATION OF WEIGHTS AND MEASURES DISCUSSED AT PARIS

ARE FLOWERS SENSITIVE?

Scientists Submit Evidence That They Feel Pain—Other Recent Events in France

Special to the Times.

Paris, Nov. 8.—The problem of internationalizing weights and measures was discussed at the fifth General Conference of the Metric System, which has just finished its sittings in Paris. Since the last conference four years ago some dozen important countries have adopted the compulsory use of the metric system. Among these are Denmark, China, Japan, the five republics of Central America, Bulgaria, Chili, Uruguay and Siam. Other countries seem inclined to follow, and in the opinion of M. C. E. Guillaume, of the Directorate of the French Bureau of Weights and Measures, "there is no doubt that the universal adoption of the metric system is its entirety is only a question of years."

Modern industrial methods have completely revolutionized the work of the Metric Conference. Whereas formerly it was chiefly concerned with the length unit, it has now widened its scope to include all the measures used in science and industry resulting from the discovery and application of electricity, wireless telegraphy and the general use in industry of delicate scientific processes of all descriptions. Samuel A. Stratton, Director of the National Bureau of Standards, at Washington and member of the International Committee of the Metric Conference, said: "The importance of the work of the conference lies not so much in the system of measurements adopted, but in the general agreement of what is meant by any given measurement. Unless this agreement is arrived at it is impossible to reproduce, internationally or nationally, processes which have been once established. For instance, how ever accurately a given length unit is cut, it will vary with the temperature and it is of supreme importance in reproducing a delicate process to know whether the given length unit is to be used at zero degrees or at the ordinary working temperature."

"It is also imperative that an agreement be reached as to exactly what is meant by a heat measurement as applied to different metals and other substances. A third important work undertaken by the International Bureau is the establishment of gauges for measuring heat and cold far above the ordinary temperatures, necessitated by the use of electricity and liquid air. It is of great importance to be able to measure as far as 170 degrees below and some 2,000 degrees above zero, and these measurements doubtless will have to be greatly increased. One American electrical firm has already asked me to establish an accurate means of measuring heat up to 2,500 degrees."

Do Flowers Feel Hurt. This is a question to which French physiologists are giving much attention at the present time. M. L. Chassaigne believes that they can and do. His opinion is based on interesting experiments. Taking a mimosa plant, he exposed it to the action of heat and cold far above the ordinary temperatures, and he found that the plant reacts in a peculiar way. A simple mechanical effect, say the scientists, a proof of sensibility says M. Chassaigne, since it does not take place if the mimosa is anesthetized. If the vase containing the mimosa is placed in a glass globe with a piece of cotton impregnated with chloroform or any other volatile anesthetic for half an hour the foliage becomes wilted and the plant has all the appearances of being in a deep sleep. If it is now subjected to the action of heat it remains unaffected. The plant no longer suffers.

M. Chassaigne has repeated the same experiment with many different kinds of plants, but always with the same result. "It is maintained," he says, "that plants do not suffer pain because they have no nerves. But modern physiologists are beginning to ask what exactly are nerves. Many of them hold that nerves are but the extension of protoplasm, modified and adapted to fulfill the required function. Hence the protoplasm of plants can perfectly well act as a rudimentary nervous system, and I am continuing my experiments with the object of establishing this beyond doubt."

Poincare Visits Fabre. President Poincare, returning from Spain, visited Henri Fabre at Serignan. The aged naturalist sat in his garden. The president, standing, called him beloved and great master, and said: "You have given so passionate attention to the study of the humblest creatures that in the smallest things you have shown us very great ones, and at every page of your work we feel a sensation of looking into the infinite." Fabre was so moved that he could not reply. His nephew thanked the president for him.

M. Poincare also visited Frederic Mistral, the famous poet of Provence, living at the village of Maillane. The poet read an address to the president, who in replying, quoted Lamartine, who fifty years ago acclaimed Mistral as another Homer. Both Mistral and his wife wept, and when the president finished, Mistral threw himself into M. Poincare's arms and embraced him.

M. Clementel, the French Minister of Agriculture, has decided to institute a motor agricultural competition lasting three years, which is to determine the merits of the various French agricultural machines run by steam, oil or other engines. The competition will take place at the Agricultural School at Grignon and will be judged by a jury of agricultural experts from the French agricultural societies. A detailed report will be drawn up from the point of view of economy, as well as results, which is likely to give impetus to the movements in favor of motor agriculture in France. The use of motor machines is especially marked in the neighborhood of Meaux and Soissons, where fourteen sections of the district are using motor machines on the co-operative system.

STARS OF STAGE CAN COME BACK

ETHEL BARRYMORE MAKES TREMENDOUS HIT AFTER ABSENCE OF TWO YEARS

MANAGERS ALSO RETURN

Wagenhals and Kemper Demonstrate Their Ability—Other Doings in Theatrical Circles

(By Beau Blake)

New York, Nov. 8.—They can come back. Broadway has just been treated to two demonstrations that theatrical folk, "back" and "front" can turn from obscurity. Then demonstrators were Ethel Barrymore, actress, and Wagenhals & Kemper, producing managers. After an absence of two years, Miss Barrymore returned to the Empire State Theatre, traditional home of the Drews, under Frohman management, for one of her old time triumphs. The play is "Tante," C. Hadson Chamber, dramatic version of Mrs. Sedgwick's novel. Miss Barrymore scored a tremendous hit.

First-nighters became enthusiastic and said that the actress was far better than in "The Twelve Pound Look," her vaudeville venture, and "Mid-Channel," her last play; better than even in the days of "Alice-Sit-By-Fire" and "Her Sister." Miss Barrymore, by her illuminating impersonation of the highly interesting if not wholly sympathetic pianiste, Madam Craska, known to her intimates as "Tante," fully justified the enthusiasm of her audience. She was to be especially appreciated for not yielding to the temptation, an obvious one, to make her part "sympathetic." And the woman's pose and poise, her cynical good-humor and her evident self-appreciation were admirably portrayed.

All in all, the premiere of "Tante," was a Barrymore night that made the "regulars" sit up and take notice. The day gave promise of revealing the fate of Miss Barrymore's uncle, John Drew, who appeared twice at the Empire this season. Drew's "Much Ado About Nothing" was closed and his battle play took to the road. The comeback of Miss Barrymore, who in private life is Mrs. Russell Griswold Holt, is the more remarkable when it is remembered that she is the mother of three husky children, with a Long Island home life that is very attractive.

Wagenhals & Kemper, too, were "away" two years. When they produced "The Greyhound," they announced that they would retire from the managerial field, and devote their time to "farming out" their old plays. They could not stay out, though, and came back with "After Five," a delightful comedy by William Al Brady and Cecil DeMille, playwrights on the staff of David Belasco. The piece was put on at the Fulton Theatre and from the start promised to "change the luck" of that playhouse, which had not sheltered a success since the "Yellow Jacket" of last season.

Forrest Winnant, formerly leading man in "The Family Cupboard," had been leading role in "After Five." A piece of excitement was given to the chorus of the piece by a battle for Miss Anna's services between Wagenhals & Kemper and William Al Brady, who declared that he held the actor's contract. To avoid a lawsuit, the rival managers left the matter to Winnant and he cast his vote for "After Five."

The "Great White Way" today was a hubbub of excitement by the old Joe Weber Music Hall will be re-opened with Joe Howard's "A Broadway Honymoon," and that the best seats will cost only a dollar. The niece is now playing in Chicago and Emma Carus is playing in the leading role. The idea is to organize another company or New York with Tricie Frigiana at its head. Mabel McCane has been selected to head a western company. The lolly idea does not agitate Broadway as much as the natural question, "Have Lew Fields and Joe Weber split again?"

The two great comedians who worked together so profitably for many years, broke their partnership several years ago, and remained apart until last season, when the new Weber Music Hall in Forty-fourth Street was opened with great eclat. Much was made of the event, as the reconciliation of the two, and they appeared together for a part of the season. A few days ago, however, Lew Fields opened his own music hall in Forty-fourth Street, and do mention was made of Weber. Now comes the talk of Weber's Music Hall reopening.

Some playgoers say that John Mason is a martyr. They base their ascription on the fact that Mason, in spite of failures and near-failures, is always ready to try an Augustus Thomas play. He opened recently in "Indian Summer," a new Thomas drama, and if it "gets by" it will be due solely to Mason. Critics agree that Mason was the only man who could have made plausible the pistol episode in "The Witching Hour." This was proved when a No. 2 company took the piece on the road and failed. Then came "As a Man Thinks," which was really nothing but strings of talk. Mason made that go in New York. "Indian Summer" is a mass of platitudinous talk, split up into acts, with but one strong scene.

Thomas seems to have hit a string of hard luck. His two plays of last season, "The Model" and "Mere Man" failed. "Indian Summer" probably will last a while, thanks to John Mason.

Conservative Gowns At Autumn Weddings

New York, Nov. 8.—Much interest has recently focused upon several fashionable weddings. It has become the custom to linger later and later out of town each season, and the scene of these notable functions was a well known country estate. Nature is truly at her best in early November, and the house parties attendant upon these events were in every instance voted a big success. The air had just enough snap to it to make the glowing wood fire a magnet, and to render appropriate the wearing of smart autumn toilettes.

The gowning, while extremely elegant, was on the whole marked by conservatism. It is an acknowledged fact that the well bred woman does not except in isolated instances, accept literally the extremes of fashion; rather, she modifies and individualizes the most pronounced features. Once in a while one encounters someone on type of Mrs. Arthur Scott Burdett, perhaps, who possesses the stature and personality to wear striking gowns without being

chance caller. To the first class belong sets of boudoir jacket, cap and petticoat of gossamer muslin, embroidered in pink and blue forget-me-nots, and trimmed with exquisite Valenciennes lace. Cretonne breakfast jackets are another novelty. One we saw recently showed a gay pompadour design, cut on the lines of the loose Balkan jackets we have had this summer. It was belted below the waist with black ribbon-velvet, and had a narrow black velvet band outlining the V-shaped neck.

A peignoir, which in its effective simplicity evidenced a stroke of genius, was out after the fashion of a choir boy's surplice. It was made of shimmering ivory satin, high in the neck but with sleeves, as in the surplises, coming just to the elbow. The only ornamentation was a wreath of small, many colored, make silk roses, with their green leaves encircling the neck.

Of more formal garments for interior wear the novelty of the season is the so-called "smoking gown," and many women, who, from motives of morals or manners frown upon the cigarette, do not hesitate to include in their wardrobes an effective toilette of this kind. The smoking gown is not unlike the bridge gown of several seasons past. Ordinarily, it is made of some rather striking fabric of supple texture, such as printed crepe or silk brocade. An interesting model was of the former fabric show-

over conspicuous; but such exceptions only prove the rule.

On the majority of women known for their good taste in dress we now see drapery, voluminous, many times; but, owing to the softness of the material in which it is expressed, seldom bulky; tunics frequently full and a little flaring, but not blue exaggerated; panniers more times simulated by the folds of the skirt than actually an over-drapery.

A very effective black velvet toilette was worn by an attractive Western woman. It is shown in our first sketch. The jacket was very short in front, but came down long in the back. Its folds were held in place for three-quarters of the circumference of the waist by a loose, drooping belt. Collar and cuffs were made of one of the prettiest novelty velvets we have yet seen. The ground was changeable blue and green, on which appeared splashes of gray-orange, dull green and red, so arranged as to form an indefinite plaid.

The scant, three piece skirt of black velvet was trimmed with two wide blue bands of the plaid. With this skirt was worn a very charming hat having a soft "tam" crown and flaring side brims of tarnished silver lace. A dull green and orange feather fancy was posed at the right side back. Quite "in the picture" was her big black velvet bag, swung by a heavy silver quimp.

Another interesting costume, less dressy in type, is shown in the second sketch. Soft putty colored duvetyne striped with royal blue was the body fabric. It had a little black satin waist coat and a flat collar of squirrel dyed royal blue to match the stripe in the fabric. The hat was of the duvetyne, with a band of the blue and putty-colored stick-up posed jauntily at the left side. With this was worn a delicate vest of pleated net and cream-colored Valenciennes lace. The skirt was a simple four-gored affair, quite innocent of drapery work with a crushed kirtle of the black satin.

Speaking of weddings, one naturally reverts to the ipsemeaux, and this calls to mind some of the wonderfully lovely headpieces brought out this season. Two distinct types are noticeable in these more intimate garments of the feminine wardrobe. First, the fairy like robes for strictly boudoir wear, which are the ultimate of exquisite daintiness, and then the somewhat daring gowns in which mid-lady slips her toes or entertains a

ing a bold design in old blue against an olive background. Over a somewhat scantily cut shirt was hung a semi-fitted jacket extending almost to the knee. It was long of sleeve, high of neck, but collarless, and untrimmable save for an old gold quimp outlining the neck, sleeve edge, and front closing, which was fastened with gold cloth buttons and loops. A Cosack cap of the crepe, finished with a dull gilt tassel, went with the outfit.

In lingerie, too, a number of interesting innovations have appeared, all designed along the line of elimination. It really seems as though the final stage had been reached in a novelty just brought out, "the garter skirt." It is made up in its entirety of a single pleated chiffon ruffle, sometimes with an overlay of lace and sometimes without, attached to the "common or sarden variety" of round silk garter. This, if you please, in lieu of the petticoat!

FEDERATION OF LABOR MEETING

SEATTLE IS MECCA OF UNION REPRESENTATIVES FROM OVER THE COUNTRY

MAY FORM LABOR PARTY

Movement May be Crystallized at This Session—To be Opposition to Gompers

Seattle, Wash., Nov. 8.—The advance guard of what is expected to be the largest and most important gathering of labor leaders the country ever has known, is assembling in Seattle today. The occasion is the thirty-third annual convention of the American Federation of Labor, which will be opened here Monday morning with President Samuel Gompers presiding. Nearly one thousand delegates, representing more than two and a half million skilled workers of the United States and Canada are expected to be in their seats when President Gompers calls the great meeting to order. More than one hundred and twenty-five great national and international labor organizations consisting of about 21,000 local unions will be represented.

The coming meeting is fraught with deep significance toward both laboring men of the country and the great political parties. One undercurrent which may break above the surface is a proposition to form a labor party in this country. Many are clamoring for this to be done immediately. Others, and they appear to be in the majority, expressed themselves today in formally, as being more inclined to hold back this year to give the Wilson administration a chance to show what it is going to do. However, the matter has advanced so far that there has been much talk of appointing a committee to confer with the Socialists on the subject of a labor party. The Socialists, it was understood today would unanimously favor such a proposition, provided, of course, that it would not mean elimination of the

individuality of the Socialist party.

That the old fight against the so-called "ultra conservative policies" of Gompers will again materialize, and that Gompers will again be opposed for re-election by some member of the group which believes in more direct and more radical political action for unionism, was openly asserted today in the radical camp. Max Hayes, who polled 5,900 votes as a candidate for president last year against the 21,000 given to Gompers, declared today that he will not run again this year. But he intimated that when the right man is chosen to oppose Gompers, he will work tooth and nail for him. The turning of one big union against Gompers, in the opinion of Hayes, will constitute the present incumbent for re-election. While the Socialists who are leading the opposition to Gompers, are far from being sanguine of success as to electing their choice for president, they do believe that in the matter of minor offices and representation on the executive council, their chances are good.

A hot fight, it was declared today, is looked for over the proposition to combine a number of the big international unions. The radical wing, supported by many who oppose them in other matters, will urge the amalgamation of internationals of journeymen-tailors, ladies garment workers, men garment workers, hat-makers and neck wear workers into one big international. There is a sharp division of opinion on this matter, and it is much evidence that some bitterness will develop when it is brought formally before the convention.

One matter which no doubt will have the solid backing of all factions will be the proposition to back up the big strikes of the coal miners in Colorado and of the Western Federation of miners who are on strike in Calumet, Mich. Money undoubtedly will be appropriated for the immediate aid of the Calumet copper miners. A big idea that Max Hayes will bring, according to information here today, is a proposition that the American Federation of Labor give financial aid to the 30,000 or 40,000 strikers in Dublin. The strike started with the car men some two months ago. It has spread to other trades and the fight is to the death because the employers have repeatedly refused to arbitrate. The strikers according to Hayes, are in dire straits, as

they have never received enough wages to pile up much money for such emergencies as the present. Individual unions affiliated with the American Federation of Labor have contributed generously to the Dublin strikers, but Hayes will urge a general labor fund to be raised from workers all over the United States and Canada.

ERROR IN REPORT OF CLOSING ARGUMENT

In the Times' account of the closing argument in the Cox trial at Henrietta the statement was made that Mrs. Morris, widow of the slain man, interposed objection to statements by Attorney Weeks "concerning the habits and disposition of her husband and that Judge Martin instructed the attorney not to repeat the statements. Upon further investigation the Times finds the facts to be that while Mr. Weeks was arguing that Mr. Morris himself was responsible for his own death Mrs. Morris arose and asked "Do you think he killed himself?" This was the extent of her objection expressed. Later Judge Martin suggested that profanity which was introduced in testimony not be repeated by the attorneys where not essential to the argument on account of the presence of ladies in the court room.

London, Nov. 8.—Sir Thomas Van Sittart Bowater, chosen Lord Mayor of London, to succeed Sir David Barnett, will be introduced into office tomorrow with all the usual pomp and ceremony which has always been rigidly observed on this occasion for the past 200 years. **CHRYSANTHEMUM SHOW
HIGHLY SUCCESSFUL**

Display of Beautiful Specimens and
Chicken Dinner Combined by
Church Women

The chrysanthemum show held yester-
day and Friday in the Moore-Bate-
man building by the ladies of the
Christian Church was one of the most
successful affairs of the kind this
city has ever witnessed. Large
quantities of the flowers were pur-
chased and many took advantage of
the opportunity to view the splendid
array of flowers. The exhibit was
that of Mrs. Philpott of Bowie, who
is one of the most successful chry-
santhemum growers in the State.

A great many of the large, beauti-
ful blooms were sold during the show
and the financial success of the af-
fair was further enhanced yesterday
when a chicken dinner was served
and liberally patronized.

**JOY RIDING EXPENSIVE
UNDER THE NEW TARIFF**

Everything That Goes to Make the
Night Gay Will be Admitted at
Higher Rates

Washington, Nov. 8.—Up a notch
higher, under the new tariff law goes
the cost of high living. It's going to
cost more—and a lot more at that—
to keep up the reputation of being a
"spender." From booze to bank bal-
ances, the new law hits the pocket-
books of the giddy, gay, gadabouts.
Sprees it is declared will cost as much
more again, or more while the income
tax makes the bank balances and the
better-than-average incomes.

"Joy riding" may be some slight bit
cheaper for the man who prefers for-
eign built cars. But there are mighty
few spots in the new law which offer
solace and cheer for the chasers of
the bright light.

For the man who likes his "licker"
the new law promises no financial re-
lief at the bar. It is confidently be-
lieved that the bars where you can
now get 'em two for a quarter will
sell 'em fifteen cents straight. The
new law retains a gallon on many items
increase the duty. The former rate
of \$2.60 a gallon on brandy, whisky,
absinthe, cordials and liquors is re-
tained. So is the former duty of
eighty cents a quart on champagne.
So also is the old indirect tax of
forty-five cents a gallon on imported
beers, ale, porter and stout. On still
wines, the import tax, which the con-
sumer will have to pay, is slightly
increased in some instances. About
the only thing that sounds like an
intoxiant and which doesn't carry the
same, or higher, tax is "bibulous pe-
per," and that is not a thirst
quencher, but a stereotyping com-
modity. The democrats did decrease
the duty on sponges, though, from
twenty to fifteen per cent. No it's
not that kind of a sponge.

But the friendly "bar keep" may
have to economize in keeping the lit-
tle china dish at the end of the ma-
hogany filled with the "breath destroy-
ers" for clothes will cost two cents a
pound more, if the new import tax
is tacked on to the retail price, which
it probably will be.

There's one chance, however, slight
for the thirsty man, who doesn't have
to have red-eye or kindred strong's.
By drinking cider, it might be pos-
sible to save as much as one-tenth
of a cent off a glass, provided you
buy it in gallon lots and drink it at
home, for the tariff on imported cider
has been cut from five to two cents
a gallon. But who wants to do their
drinking at home?

But pity the poor millionaires. In
addition to plastering a fat income tax
on his purse, the new law, in intent
at least, boozes-nearly everything on
the high living plane. Diamonds are
up ten per cent. Jewelry is up five
per cent. Silks are up considerably
and so it goes.

The jolly "joy riders" have one
consolation in the reduction by fifteen
per cent of the duty on cheap foreign
bicycles, which cost less than
\$10. It also provides no tax on
them. Some more consolation is
that the poor millionaire is a horse
fancier, he can still import thorough-
bred for his breeding stables with-
out one penny of tariff cost.

CORSETS

The one essential and most important article in a woman's wardrobe. Ever since the beginning of all forms of dress away back in Ancient Egyptian history the thought uppermost in the feminine mind has been "figure." Then it may have been just a matter of choice. But today style and fashion both demand that you give the utmost care and attention to the selection of your corset.

You must have just the certain style exactly suited to your particular figure, and when you are seeking new ideas for the season's gowns you must not overlook the foundation—"The Corset." No matter what style or make of suit or gown you may select it will not have that desired look unless you are properly corseted. And you can't be that unless you get the proper make and style. Perhaps you know already just the style you should wear, perhaps you don't, more likely the latter. That's just where we can help you. Our corsetiere can show you, yes, fit you. Why not call for a trial fitting, it involves no obligation on your part to buy. You may have a preference so we have stocked both. We say both as there are only two really good corsets, The Modart and the Cabo. We can fit any form in either.

Our "Modart models" range in price from \$3.50 to . . . \$8 50
Our immense line of "Cabo" models enables you to select your style at from \$1.00 to . . . \$5 00

CITATION BY PUBLICATION

The State of Texas. To the Sheriff or any Constable of Wichita county—Greeting: You are hereby commanded to summon Bessie Jackson by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the district court of Wichita County, to be holden at the Court House thereof, in Wichita Falls, Texas, on the first Monday in December, A. D. 1913, the same being the first Monday in December, A. D. 1913, then and there to answer a petition filed in said Court on the 10th day of October, A. D. 1913, in a suit numbered on the docket of said Court No. 4750, wherein Mack Jackson is plaintiff and Bessie Jackson is defendant, and said petition alleging that on about the 8th day of December, 1908, in Denton County, Texas, plaintiff and defendant were lawfully married to each other and lived together about one and a half years when defendant left plaintiff without cause on his part; that after about 3 or 4 weeks plaintiff persuaded defendant to return and live with him. That plaintiff and defendant lived together as man and wife after this until about March 6th, 1910, when defendant, without any cause on part of plaintiff, abandoned plaintiff, since which time they have not lived together as husband and wife, and plaintiff has not heard from defendant since June, 1910. That by reason of the three years abandonment of plaintiff by defendant their further living together has been rendered insupportable. Wherefore plaintiff prays that defendant be cited in terms of law to appear at the next regular term of this court and answer herein, for judgment dissolving the bonds of matrimony now-existing between plaintiff and defendant, costs of suit and general and special relief, and that plaintiff be restored to the status of a single man. Herein fall not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, this 11th day of October, A. D. 1913.

"RELIABLE"

FREDERICK CONSIDERING QUESTION OF DAMAGES.

The city of Frederick may yet use the water well in which five men were crushed to death in a cave-in. The city is now considering the settlement of damages to the families of the men who lost their lives. The Frederick Leader says: "The mayor and city council have come to no conclusion as to what course shall be taken relative to the well where the tragedy occurred—whether an attempt shall be made to save it, or a new well be sunk. An informal discussion of the matter was held Tuesday and it was decided that the best thing to be done was to get experts to view the well and decide what was best to be done. If this well could be saved, Frederick's water supply would be settled for a long time to come."

The Question of Damages.
The matter of the payment of damages to the families of those who perished in the well, and to those who were injured, has been a subject of much speculation on the part of many citizens. It is impossible yet to say what will be done. A representative of the Maryland Casualty Company, with which company the city carried an indemnity bond of \$10,000, was here Friday, and visited the well and conferred with city officials. It is hoped that a settlement may be effected whereby an agreement can be made between the city authorities and those to whom damages are due, without any law suits being filed. Law suits necessarily would mean long delay and perhaps would in the end net the families and the injured less than they would be able to realize by a direct agreement with the city and the bonding company.

Condition of Injured.
"Alvah Dean and O. H. Brewer, who were removed alive from the well wreck, are recovering rapidly. Mr. Brewer no longer needs the daily care of a physician and Alvah Dean's injuries are healing well, although he is still in much pain."

You had better go without glasses until you can consult us and have a thoroughly accurate examination made of your eyes and glasses fitted properly. We know how. Dr. DuVal, the Progressive Eye Specialist. 54 1tc

ANNIVERSARY OF PENN'S LANDING IS CELEBRATED.

Philadelphia, Nov. 8.—Philadelphians and especially Quakers today celebrated with appropriate ceremonies the 230th anniversary of the landing of William Penn on the shores of Boek Creek, known today as Front and Dock streets. The City of Brotherly Love on the day the band of Quakers set foot on Pennsylvania soil, consisted of only three or four cottages which had been erected by Swedes. Today it ranks third in population and first in manufacturing of the cities of this country.

DRAMATIC CLUB FORMED BY HIGH SCHOOL STUDENTS.

A High School Dramatic Club has been formed. The students belonging are being trained by Miss Elizabeth Jordan, the expression instructor at the College of Music and Art. There are a number of high school pupils interested in the club and the work bids fair to be very profitable and entertaining. The club meets every Wednesday afternoon in the high school auditorium. Miss Jordan is now training the members in comedy. During winter the different stages of expression and varieties of plays will be worked up and the Shakespearean dramas will be studied at the close of the year.

ART LITERATURE CLUB HAS VERY ENJOYABLE SESSION

The Art Literature club had one of the most interesting and delightful meetings of the season Wednesday afternoon, at the home of Mrs. E. O. Pilgo, planned for the comfort and enjoyment of the members and the program was so unusually interesting and well carried out that the meeting was one long to be remembered. Mrs. Carlthurs was leader for the afternoon, the Stoddard lesson was on Jerusalem and the Bayview lesson on the land of Martin Luther. The members answered roll call with sacred spots in Jerusalem. An especially interesting paper was read by Mrs. Rountree, on a visit to Jerusalem. An excellent impromptu talk on the Reformation was

given by the leader, Mrs. D. J. Carlthurs, followed by an open discussion and query on the lesson, which showed deep thought and careful study on the part of the members. In the business session, Mrs. E. O. Pilgo was elected corresponding secretary to fill the unexpired term of Miss Childers. The club was favored with special music, some vocal and instrumental selections by Miss Laura Bell. An elaborate salad course was served by the hostess, assisted by Mesdames Arthur and William Huff to the following members: Mesdames Blankenship, Bolding, H. L. Baker, G. W. Pilgo, E. M. Harris, Rountree, Gebhardt and Carlthurs. The club guests were Mesdames Long, Arthur Huff, William Huff and Miss Laura Bell.

MRS. MONTGOMERY HOSTESS TO NEW CENTURY CLUB

On account of the bad weather the New Century met with Mrs. Montgomery instead of with Mrs. Gardner as planned. The roll call was answered to with famous orators. Mrs. Adams furnished music. A paper was written by Mrs. Snider on the Two Houses of Congress and on the Powers of Congress by Mrs. Walker. Mrs. Smith had as her subject America's greatest orators and Mrs. Watts read Patrick Henry's oration of 1775. After the program the hostess served unusually delightful refreshments of nut syllabub and cake.

MRS. SAMMONS HOSTESS AT AUCTION BRIDGE WEDNESDAY

THROW AWAY YOUR GLASSES.

A Free Prescription—You Can Have Filled and Use at Home. Do you wear glasses? Are you a victim of eyestrain or other eye weakness. If so, you will be glad to know that there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. Here is the man saying after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle. The man says after using it: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes, so as to be spared the trouble and expense of every getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rule. Here is the prescription: Go to any active drug store and get a bottle of Optona, fill a two-ounce bottle with warm water, drop in one Optona tablet, and allow to dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you even a little take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time. (Adv.)

WICHITA FALLS BOOZE IS SEIZED AT CHICKASHA.

Chickasha, Okla., Nov. 8.—One of the largest whiskey hauls that has been made in many moons was pulled off by the sheriff's force and the deputy United States marshal, when the home of John Tucker, west of Chickasha, was searched and three barrels of whiskey located. Information came to the officials that a wagon load of booze was due to arrive at Tucker's from Wichita Falls, Texas, on Friday night, but there being devious ways by which the Tucker home may be reached and quite impossible to watch them all, it was decided to wait until Saturday and search the premises.

Deputy Thompson meandered into the smoke house and was making a final search there, when he discovered what appeared to be fresh earth. With his suspicions aroused, he procured an iron rod and began probing the smoke house floor. Presently he discovered a section that was loose and soft, but which from the surface bore the same appearance as the other parts of the floor. With pick and shovel the officers dug some five feet beneath the surface, where they found six barrels, three of which were filled with whiskey, a total of about 156 gallons.

The plant was given up to be the smoothest affair of the kind ever found by the officers. Protruding upward, out of each barrel to a distance of a foot under the ground, was an iron pipe, covered by a tightly fitting cap that screwed on after the fashion of a tap or nut. The theory is that the whiskey was brought to the smoke house, the covering of earth removed and the pipes, the caps screwed off and the contents of the incoming cargo emptied into the underground barrels by means of a rubber hose connected with the two barrels. Several feet of rubber hose and a pump, with attachments, were found which tools were used in drawing the whiskey from the plant under the ground. The whiskey and other requisites of

the plant were brought to Chickasha and placed in the vault of the federal building for safe keeping. No action has as yet been filed against Tucker, as there seems to be some question as to the best method of handling the case, it being out of the federal district represented by the federal officers at Chickasha.

ARRESTED FOR SPEEDING, BOND MAY BE FORFEITED

In the city court Friday morning a citation was issued for J. D. Horton and a warrant was issued for the arrest of "Jack" Culbertson when the latter failed to put in an appearance to answer a complaint charging violation of the speeding ordinance. When Mr. Culbertson was taken to the city hall several days ago after he was alleged to have violated the speeding ordinance Mr. Horton signed his bond for appearance in the city court Saturday morning.

The citation for Mr. Horton summons him "To show cause why judgment shall not be made final as surety in the forfeiture of the appearance bond of one Jack Culbertson, dated Nov. 3, 1913, in which said Jack Culbertson stands charged with the offense of speeding to-wit: Did drive an automobile upon the streets of said city faster than ten miles per hour in the built up portion of said city not being a speedway. Said appearance bond was forfeited in the corporation court of said city for the sum of \$25 on the eighth day of November, 1913." (Advertisement)

IT HAPPENED IN WICHITA FALLS And is Happening to Wichita Falls People Every Week

The case told below is not an uncommon thing. The same occurs frequently and will continue to happen as long as folks have kidneys and overtax the kidneys.

Mrs. Mary Beck, 712 Seventh St., Wichita Falls, Texas, says: "For years I suffered from kidney trouble, having pains in my back and side and irregular action of the kidneys. I steadily grew worse and about three years ago the trouble reached a climax, when I had to take to my bed. For three months I was helpless and six local physicians said that I had Bright's Disease. I was discouraged. A friend suggested that I try Doan's Kidney Pills and I took them. I began to improve and by the time I had taken the first box, I was much better. Four boxes cured me."
