## RUMORS IN MEXICO CITY

CHANGES IN CABINET IN NEAR FUTURE SAID TO BE PLANNED

## THREAT BY VILLA

Residents of Capital Believe He and Carranza are to be Feared Huerta's Friends Penalistic

By Associated Press.

Mexico City, Jan. 17.—There was a rumor here tonight that Federico Gamboa will be recalled to the foreign office and that Senor Moheno will be appointed minister of finance, succeeding Adolfo de la Llama who recently resigned because of General Huerta's repudiation of interest payments. The report has not been confirmed. Many rumors are current in Mexico City. One fact stands out, however; friends of President Huerta are convinced the end is not far away, and have renewed their efforts to bring about his resignation. Few of these have had the temerity to suggest directly to Huerta that he quit, but are endeavoring to bring about his elimination by indirect methods.

American Charge O'Shaughnessy, who has continued to cultivate close personal relations with the president, again has brought up the subject of his resignation and again has been assured by Huerta that he would not resign.

## THE REBELS' THREAT

Some of Huerta's friends still believe he may be willing to carry out the New Year's Day suggestion that he leave the presidency for the field. Even the most loyal no longer conceal from themselves the increasing strength of the rebels. They know Villa's announcement that he and Carranza will join in a campaign upon the capital is not to be laughed at.

Another rumor which affected the international situation was that representations had been made to President Huerta by certain diplomats that unless he resigned, they were in a position to assure him that an early blockade of the port would result.

## INTERCOASTAL CANAL FREIGHT SERVICE PLANNED

By Associated Press.  
Galveston, Texas, Jan. 17.—Business men in twelve towns on the intercoastal canal from Galveston to Corpus Christi met here today and discussed plans for establishing a regular freight service over the canal. Each city rendered a statement of the amount of merchandise handled. Boatmen already have proposed to establish the service if enough traffic is offered. Most of the delegates arrived here by boat through the canal.

## MANY CITIES IN FRANCE ARE NOW FACING FAMINE

Heavy Snowfall Blocks Railroad Traffic, Cutting Off Supplies From Several Towns

By Associated Press.

Paris, Jan. 17.—Many cities of France are facing famine owing to cutting off of traffic by heavy snowfall. Bread and fuel are almost exhausted at Toulon, Toulouse, Nîmes, Pau and other places. Butter, eggs, poultry and flour are running short in some cities. Branch railroad lines are blocked over nearly all France. There is no railway communication between Paris and Bordeaux.

More than 1500 travelers are held at Carbone and it has been almost impossible to find food and accommodations for them. Ice has stopped navigation on canals and rivers. Postal service has been suspended between France and Algeria. It is reported the temperature in northern Africa has dropped to freezing.

## 10,000 LIVES MAY HAVE BEEN LOST

THAT MANY INHABITANTS OF KAGOSHIMA, JAPANESE CITY, REPORTED MISSING

## ERUPTION NOT YET OVER

Further Disturbances Reported—Ashes Cloud Air Until Darkness of Midnight Prevails

By Associated Press.

Kagoshima, Japan, Jan. 17.—That thousands of lives were lost as a result of the eruption of Sakurajima is indicated by official estimates here. It is believed that fully 10,000 inhabitants of this city are missing.

Two further violent eruptions of the volcano Sakurajima accompanied by a severe earthquake last night caused the collapse of many more buildings. Many inhabitants of this city who had returned again fled. The sun today, through ashes, looked like a ball of blood. It gave practically no light and night signals were used on the railroads.

So thick was the dust that pedestrians had to cover their mouths and noses with towels and handkerchiefs to prevent suffocation. The sea in the Gulf of Kagoshima seemed to be boiling.

The quantity of floating pumice stones was so great that it prevented navigation. Blue jackets from the Japanese fleet today discovered a native craft containing sixteen starving refugees who had been unable to steer their boat for three days because of the floating masses of pumice stone and high seas. The stones resemble ice floes. The blue jackets reached the refugees by using a wedge shaped raft.

Lava was today flowing steadily down the volcano's side increasing the island's area where it touched the water. Four hundred houses in one village alone are known to be buried under this lava.

Many refugees are reported insane from terror.

A woman was seen on the shore of the island of Sakurajima, but when a rescuer spoke to her she fled wildly into the interior. Horses, cattle, dogs and cats were seen alive on the island.

Huge molten rocks formed a range from the volcano into the sea and practically blocked the bay from the island across to Osumi. Some of the pumice stones thrown up were three to five feet in diameter. Some of the lava mounds are forty feet high. Refugees who escaped from the island said the Japanese umbrellas shriveled in a few minutes after their flight began and that they saved themselves by being roasted alive by holding thick boards over their heads. Of the 2000 houses on the island, probably 1500 are buried.

## DOUBLE SUICIDE PROVES PUZZLE

SAN FRANCISCO TRAGEDY SAID TO INVOLVE EXTREMIST SUPREME JUDGE

## NIECE ALSO KILLS SELF

Much Mystrary Surrounds Case, Man's Act Prompted by Loss of Money and Friends

By Associated Press.

San Francisco, Jan. 17.—The double suicide today of a young woman and a man known as her uncle, A. B. Wood, said to have been formerly a member of the Tennessee supreme court, is puzzling the police. The young woman was known as Blanche Wood. The double tragedy occurred in a local hotel while Miss Wood and a friend of Wood, Edward Roberts were trying to dissuade him from carrying out a threat to kill himself.

Roberts said Wood was an assumed name, but he was unable to say what his friend's real name was. He said Wood left Tennessee two years ago because of political trouble and came to California. Before the tragedy, Wood went to a picture show with Roberts.

Roberts left Wood at the latter's hotel and went to his own home, where he found Miss Wood hysterical. She had a note from her uncle saying he had decided to kill himself and as he had lost his money and his friends had deserted him. Roberts and Miss Wood hurried to the hotel where they burst into on Wood and Miss Wood upbraided him for what she termed a "ghastly joke."

Suddenly she took a pistol from a bureau drawer and shot herself through the heart. Wood leaped across her body, snatched the pistol and shot himself through the heart. Both died in a few minutes.

In San Francisco Wood had engaged in the restaurant business, but sold this business six months ago. Roberts said the niece had literary aspirations and wrote short stories and motion picture plays.

## HAVOC CAUSED IN JAPAN BY AN ERUPTION OF SAKURASHIMA VOLCANO, WHICH KILLED 80,000 PEOPLE; DEATH ZONE MAP

1 WHAT HAPPENED IN JAPAN IN PAST ERUPTION 2 VOLCANO IN ACTION

Tokio, Jan. 17.—The city of Kagoshima, with 64,000 inhabitants, was totally destroyed by a flood of fire from the Sakurajima volcano, which burst into activity on Jan. 11. The three villages on the island of Sakurajima were bottled out by the molten lava which poured from the crater and 16,000 persons are believed to have perished there. Many thousands of persons are feared to be dead. While

the fact that millions of people were suffering the agonies of hunger and thousands were dying of starvation has been regarded here with comparative indifference, the people were galvanized into excitement by the disaster in the south, which, because of its spectacular character, awakened the imagination. Hundreds of earthquake shocks were felt all through

the island. Railroads, telegraph lines and telephone lines were destroyed and nothing like an adequate account of the disaster has yet been received here. The accompanying illustration shows devastation and death caused by this deadly volcano in a former eruption and a map of the territory affected by it, as well as nearby cities.

## FUTILE SEARCH FOR SUBMARINE

BRITISH VESSEL WHICH SANK SUDDENLY FRIDAY IS LOST WITH CREW

## ADVANCE MANY THEORIES

Commander Member of Prominent English Family and Recently Inherited Large Fortune

By Associated Press.

Plymouth, Eng., Jan. 17.—An all day search of White's Bay by torpedo boats failed to locate the sunken British submarine, A-7. When darkness fell the commanding officer reluctantly ordered the searching vessels to return to their moorings. Although hope of any of the crew being alive has been given up, search will be resumed at daylight.

This search was made more difficult because the buoy placed when the submarine sank had drifted. The submarine itself probably lies at a depth of thirty-seven fathoms. Many theories have been put forward to account for the accident.

The A-7 with the A-3 had been ordered to attack a destroyer with torpedoes. A-3 fired her torpedo but A-7 did not. Nothing has been heard of A-7 since. Lieut. Gilbert Moleworth Wellman, commanding A-7 was a nephew to Lady Moleworth who died from the sting of a wasp last September. He inherited her Cornwall estate.

## FOUR PERSONS KILLED IN MASSACHUSETTS FIRE

By Associated Press.  
Brockton, Mass., Jan. 17.—Four persons lost their lives in an apartment house fire here today. Five others were injured by jumping from upper stories. Two of the injured probably will die. The burned structure was a three story brick building on North Main street.

## NEW IDEAS ARE URGED

DEMOCRATS DECLINE TO CREATE STANDING COMMITTEE ON THIS SUBJECT

## TO READ MESSAGE

Both Pro and Anti-Suffrage Factions Active in Fight—Committee Says Time Not Ripe

By Associated Press.

Washington, Jan. 17.—President Wilson today announced he would read his anti-trust message to a joint session of Congress Monday. The president has left to Congress the task of framing detailed remedies, in addition to the provision for an interstate trade commission, the prohibition of interlocking directorates and reduction of the debatable area of the Sherman law, three important unannounced features of the president's recommendations are:

- (1) Prohibition of holding companies; corporations would be forbidden to own or hold shares or be interested in the business of actual competitors; the acquisition of a stock or interest in non-competitive concerns would be possible only with the consent of the interstate commerce commission or the proposed interstate trade commission.
  - (2) Empowering the interstate commerce commission to regulate and supervise the issuance of railroad securities so the public would exercise, through the commission, a certain control over the future use to which the money obtained from the issue of stocks or bonds would be put.
  - (3) Wherever at the instance of the government, either in civil or criminal proceedings, the courts have rendered judgment on the "unlawfulness" of a business.

## SUFFRAGE FAILS IN HOUSE FIGHT

THREE UNANNOUNCED FEATURES OF ANTI-TRUST PLAN ARE MADE PUBLIC

## ACTION CAUSES FURORE

President Will Deliver It At Joint Session of Both Houses Tomorrow Morning

By Associated Press.

Washington, Jan. 17.—Democrats of the House rules committee today refused to report a rule to create a standing committee on woman's suffrage in the House. After long discussion they concluded it was not time for creation of a separate committee on the subject.

The action comes after a long campaign of woman's suffragists in which the anti-suffrage organization made a spirited fight. Women from every part of the country appeared at recent hearings and a delegation visited President Wilson. The president replied he had no authority to represent the Democratic party in such a matter.

The decision landed like a bombshell in the ranks of national suffrage leaders gathered here. Both the congressional committee of the National American Women's Suffrage Association and the Congressional Union for Women's Suffrage have been pressing the matter, but a radical difference of opinion between these organizations was indicated by tonight's comments.

Hold Indignation Meeting.  
The Congressional Union, at a hurriedly called meeting adopted unanimously a resolution declaring the meeting regarded with indignation. Mrs. Antonette Sunk, lobby leader of the Suffrage association, took exception to the attitude of the Congressional Union. She said:

"I am fearful lest the avowed policy of the Union to strike at the Democratic party as a whole may have contributed to this most regrettable situation. It is the intention of our committee to remain entirely non-partisan and to support at primaries and elections national officers who show a friendly disposition toward us and never to oppose any candidate unless he has ignored a well defined sentiment for suffrage among his constituents."

Ottawa, Ill., Jan. 17.—William Cullen, aged eighty-seven, former Illinois congressman, and one of the organizers of the Republican party died here today.

## POLICE SHARED BURGLARS' LOOT

NEW YORK CITY OFFICERS ARE IMPLICATED IN CONFESSION BY PRISONER

## WATCHMEN ARE INVOLVED

District Attorney's Office Announces Sufficient Evidence Has Been Obtained For Conviction

By Associated Press.

New York, Jan. 17.—Members of the police force and private watchmen in New York have worked together with burglars and then shared the spoils, according to a confession today by Samuel Coen, a prisoner in the Tombs held on a charge of burglary. As one result of the confession Samuel Herma was arrested charged with having stolen goods in his possession.

The district attorney's office announced Coen's confession had given sufficient evidence to convict several policemen and watchmen. The case will be submitted to the grand jury. It is said, policemen picked the places to be robbed and saw to it that those arrested were freed because of insufficient evidence.

## EDITOR TOLD TRUTH BUT IS FINED FOR SLANDER

By Associated Press.  
Cologne, Germany, Jan. 17.—A fine of \$125 for slandering the police was imposed today on Herr Sollmann, editor of the Rhenish Gazette, who published articles accusing the police of accepting money for concessions and police favors. The judge said although Sollmann had proved his charges against a number of policemen, including officers up to the rank of inspectors, he must be convicted because "his articles had been written in a style meant to be insulting." The articles, he said, were laudable, but exceeded the bounds of permissible criticism.

## EVIDENCE IS BEING TAKEN

STATE BEGINS ITS CASE IN TRIAL OF REV. FRANK MORRIS FOR ARSON

## EX-DEACON HEARD

Tells of Conversation With Pastor—Crowd Applauds Defense Attorney and is Rebuked

Special to the Times.

Fort Worth, Texas, Jan. 17.—Taking of evidence began in the Rev. J. Frank Norris trial this morning on the accusation of burning his church, the First Baptist, Feb. 5, 1912. The jury was completed last night at six o'clock after five days. County Clerk Lon Beavers was the first witness. He testified as to the church building, its entrances, the grave of the late Dr. Morgan Wells and the situation of the church with reference to the Alta Vista dairy. He said he was a trustee of the church at the time of the fire and that the trustees had control of the property.

The defense interposed at this point, announcing they would not admit the control of the property was in the trustees, as the indictment alleged. The state announced they would argue this point as a matter of law.

Fire Chief Bodeker was the only other witness of the morning session. The defense objected strongly to any testimony tending to show that the fire at the church on January 11 was incendiary and took a bill of exception when Judge Swayne ruled the state might show an incendiary fire at that time, just as it would be permissible to show attempts previously to kill a man if his body were found. CUMMINGS IS APPLAUDED

Judge Swayne threatened to clear the court room in the Norris trial this afternoon if any further demonstrations occurred when applause met the statement of defense Attorney Cummings that the state would never be able to prove its case as outlined.

J. W. St. Clair, mail clerk on the Denver road, and former deacon of the church was the principal afternoon witness. He retold the story he gave at the examining trial to the effect that after the first fire Norris pointed out a place where the fire would have destroyed the building, if started there, and that the floor joists at that place were totally burned in the second fire.

He also testified that he told Norris eleven hours before the fire that \$4000 of the insurance on the church would be cancelled in a few days. He said that Norris asked if he had put a watchman at the church and he said he had not been notified to do so. Norris said the Board had ordered it done.

On cross examination St. Clair said other parts of the church, as well as the joists at the point designated, were completely destroyed, including the organ near which there was a window opening on the south. The defense brought out, too, that Norris gave him his first notice about employing a watchman.

## EVIDENCE ABOUT SHOOTING

The defense secured a ruling barring evidence about the shooting at the church between the fires. Swayne heard the

## 125 NAMES ARE ADDED TO ROLL

RESULT OF WEEK'S MEMBERSHIP CAMPAIGN BY CHAMBER OF COMMERCE

## MEANS INCREASED INCOME

Organization is Now Stronger Numerically Than at Any Previous Time in History

A total of 125 new members and an additional monthly revenue of approximately \$200 per month are the results of the membership campaign waged by the Chamber of Commerce during the past week, beginning last Wednesday. This brings the total numerical strength of the organization to the highest point in its history, it now having 460 names.

The campaign is not yet over and it is expected to continue to add new members for some time yet. In all previous membership campaigns the members and committees had the assistance of Mr. O'Reilly, but he was out of the city during the past week and did not aid in the work as formerly. There were many other loyal workers, however, and the results speak for themselves.

All the returns are not yet in, some of the committees having failed far to report. It is believed that these will swell the totals still further.

### WHEAT PROSPECTS GOOD IN WESTERN OKLAHOMA

From the Kansas line across Western Oklahoma to Texas is just one big wheat field, according to J. C. Mytinger of this city, who returned last week from a trip up the Wichita Falls & Northwestern. Mr. Mytinger says that the fields are looking splendid and that the prospects for a big 1914 crop in that section are excellent. A number of the farmers, he says, have already realized more from past years on their wheat fields than they got from the entire harvested crop in other years.

## CANVAS GLOVES NOW MADE HERE

HILBURN BROTHERS FACTORY HAS BEEN IN OPERATION DURING PAST WEEK

## IS INTERESTING PROCESS

Plant Just Getting Under Way But Will Employ Big Force When Running Capacity

Canvas gloves, such as are used by workmen in many lines of industry, are now being manufactured in Wichita Falls. The plant of Hilburn Brothers has now been in operation a week and it is turning out gloves at a fairly rapid rate from the ten machines which it is operating. The plant is located on the second floor of the Crescent Candy factory building, where fifty machines have been installed. These will be put into operation as rapidly as girls can be trained to use them.

The plant begins operations on a basis that gives it a high rank among the smaller manufacturing plants in this city and if the plans of its backers are eventually carried out, it will become one of Wichita Falls' big industries. The making of the glove begins with the "slicing" of the raw canvas. The bolts of canvas are kept in a large bin on the second floor of the building. The cloth is pulled out in layers over an adjacent table where the slicing is done. A large knife is used to cut the fabric down to workable sizes and the cut pieces go to the cutting machines.

How Gloves Are Made Five pieces of canvas are used in making up the glove and these are cut by means of a die which goes through dozens of layers of the cloth in one motion, being a motor driven machine. The palm and fore-finger are cut on one piece, while the thumb, second, third and fourth fingers are cut separately. The "waste" or odd pieces of cloth are saved and are sold to an Omaha concern which uses them in the manufacture of paper, so that nothing is lost.

After being cut the pieces of canvas go to the stitching machines. There is an unmistakable relationship of the familiar sewing machines; they are motor driven and the speed of the machines is regulated by a pedal. At present while the girls are new to the work, little speed is made; later they will go considerably faster and save more money than at present. The speed of the sewing machines ranges from 2200 to 3500 stitches per minute.

After a sufficiently large number of girls has been trained in the work, the sewing process will be systematized so that much more work can be turned out. One girl sews up the main piece, and the thumb and finger pieces are sewed on each by a different girl. There are other machines not yet in operation which do such work as putting in fancy stitches here and there.

The sewing process completed, the glove goes to an ingenious machine which turns it right side out. Then it goes to the finishing table where it is slipped over a contrivance by which a resemblance to a large metal band. This metal is heated by electricity, which gives the finishing touch to the glove. The entire process is an interesting one and includes many ingenious features.

Buyers Canvas in East. "We had hoped," said Mr. Hilburn, "to buy our canvas in Texas so that we could advertise a Texas product through and through. We hope some day to buy our canvas from a mill here in Wichita Falls. But at the present time there is not a mill west of the Mississippi that can give us what we want and we have to buy in the East. Texas furnishes the cotton and I hope to soon see the day when she will manufacture the cloth as well."

The canvas glove is almost as simple an article as a shoe, and readily made in all manufacturing and farming centers. It is made in three general sizes, one for men, one for boys and women and a children's size. There are no numbered sizes as in leather or rubber shoes. The girls who operate the machines are paid by the amount of work they turn out and at first are able to earn comparatively little. Later when skill and confidence come to them, many of them will earn \$15 a week. Mr. Hilburn has made arrangements for the comfort and convenience of his employees and they work in well lighted and well heated quarters.

The plant is at present running one-fifth capacity. As soon as more girls can be trained, more machines will be put into operation until all fifty of those installed are in operation. When this time comes a total of seventy-five employees will be required.

## PUBLIC SCHOOL PUPILS UNDERGO EXAMINATIONS

This is examination week in the Wichita Falls public schools and the mid-year tests will be undergone by the pupils of the high school and in some of the lower grades. Since becoming superintendent, Prof. Carpenter has inaugurated the mid-year promotion system, which is in vogue in practically every city in the country and it has been installed here as far as the second grade. Formerly each year or grade was a unit in itself and a pupil who failed at the end of the year had to repeat the entire course. Under the new system a pupil who "falls" in the work for the half year will have it to do over again, but will not lose an entire year as formerly.

Within a few years this system will apply in all the grades through the high school, but the change from the full year to the half year plan cannot be made all at once.

## TEACHERS' INSTITUTE IN SESSION SATURDAY

Instructions Are Issued For Examinations To Be Held This Week in the City Schools

The teachers of the city schools held their regular monthly meeting yesterday at the high school. After the reading of the roll and the minutes for the last meeting by Miss Trimble some preliminary matters were discussed. Superintendent Carpenter gave instructions concerning the examinations which are to be held this week. The promotion cards will be given out on Thursday, Jan. 23. The test of promotion is whether the pupil is capable of doing the work of the next higher grades. The regular program rendered is as follows:

- Mr. Settle—"Self organized group work in the lower grades."
  - Miss Stratton—"Self organized group work in the higher grades."
  - Mr. Brant—"Self organized group work in history."
  - Miss Hineckley—"Group work in science."
  - Miss McClaren—"Markings and examinations."
  - Miss Gretton—"Criticism."
  - Miss Burgess—"Changes Needed."
  - Miss Potts—"Democracy and its ideals."
  - Miss Boone—"Who are the educators?"
  - Miss Drosser—"What education is best for the child?"
  - Miss Ellidge—"Tuning forks."
  - Miss Thomas—"One-sided training."
  - Miss Huestage—"Review of educational values."
- Some of the principal thoughts developed during the discussion were: "Group work develops self-responsibility on the part of the pupils. It is the experience of the children that must be considered as well as the personality of the teacher. Such work develops the individuality of the pupil. Pupils should be taught to realize that work done in this group is just as worth while as that done at home or in business. Group work develops a degree of interest and enthusiasm in the subject matter not possible in individual work as well as a spirit of self-confidence or such a co-operative spirit is created. One of the most difficult problems with which the teacher has to deal is that of keeping the pupil from working for a mere mark in a subject rather than for knowledge of the subject. Pupils should realize that marks and grades are not the good for which they should strive, but are only evidence of progress in the subject. Mr. Smith says that to educate properly all the children of all the people the public school course is too dogmatic and fixed in its nature. It should be remodelled and made more flexible and elastic so as to yield to the current demands of present day situations. We need to extend the elective system in more of the secondary schools as it has proved so successful in the higher institutions of learning. We should teach that manual labor is honorable."

## JURY DECIDES ONE WELL CANNOT HOLD OIL LEASE

If Decision is Sustained Will Be of Far Reaching Importance in Local Oil Fields

If the higher courts sustain a contention in a case in the district court this week, oil companies and oil operators will not be able to hold a lease in Wichita county merely by drilling one well on it. The case in question has been appealed to the higher court, however.

The case was that of J. I. Staley et al of Burkburnett vs. J. M. Guffey Petroleum Company, involving a lease on about eighty acres near Burkburnett. The defendant company had drilled one producing well on this lease, but the plaintiff set up that this did not constitute the beginning of operations, as called for in the lease. This contention was sustained by the jury and if the jury's verdict is affirmed in the higher courts it will mean that oil companies to hold a lease will have to drill on every few acres instead of protecting their lease with one well. Judge C. B. Feltner represented the plaintiffs in the case.

## Visitor Recalls Story of Pioneer Days Here: First Visit Since 1901

Mr. Nunn of Montgomery & Nunn, merchants of Temple, Okla., and Archer City, Texas, was here Saturday en route home from a visit to the store at Archer City. Mr. Nunn was many years ago a traveling man and made Wichita Falls regularly but his last visit here until Saturday was in 1901 and he hardly recognized the place. "On one of my visits," said Mr. Nunn, "a circus elephant had run amuck and had to be killed. A switch engine being used in the execution. A saloon man agreed to dispose of the corpse for the privilege of skinning the pachyderm. The job cost him about \$500 and after the skin was stuffed it hardened until a winchester bullet would scarcely have made an impression on it."

## Intimate Details Of Dress Include Some Pleasing Features

New York, Jan. 17.—There are women who like to dress for the gaze of the multitude but when it comes to the privacy of their own apartments, think that "any old thing" will do. But there is another kind who like to feel the well being—the solidity—of being well dressed at all times. It is this last kind of woman who might be termed a "well-balanced" good dresser. The first loves good clothes for the sake of those who may admire her and the other loves them for her own sake. By this one the construction of a proper dress for morning wear is given as much consideration as the dress she wears to the exclusive reception. Her lingerie may be selected upon as being dainty and beautiful, but more practical than her neighbor's who buys for show alone, regardless of wearing qualities.

The cotton fabrics used for house dresses are being shown in a wider variety, as the stores are commencing

of these wares, as they are great labor savers, needing no starching or ironing.

Chemise and combination suits are made of softest batiste, with a tiny embroidered figure in pale pink, blue or lavender. One extremely pretty chemise is trimmed at the bottom with several not ruffles about two inches wide. This is called the tango chemise, because of the slashes on either side, as it is too narrow to dance in otherwise.

In the tiny shops on side streets, just off Fifth Avenue, are the places where ultra effects in lingerie may be seen. The conservative woman rather gasps at some of the things displayed, and the absurdity of chiffon nightgowns trimmed with strips of fur for an instant strikes her humor rather than the enjoyment of the pretty effect. Last year swan's down was the nearest approach to fur, but this year silk, skunk, marten and fox are seen even upon muslin nightgowns. They are also now quite necessary for trimming our negligees.

It is strange that even our chemises and nightgowns are feeling the effects of certain phases of fashion. It was quite natural that close fitting gowns should bring the princess ally, but that is now being discarded for a chemise of softest crepe de Chine or Italian silk, having a ribbon drawn through the hem and confining it closely to the knees. And, will you believe it, another form of pantalettes is having quite a vogue. They are supposed to take the place of a petti-

to exhibit the materials for the Southern resorts, and incidentally for our own practical needs.

Raincoats and crepes hold the principal place and are to be found in numerous guises—or perhaps, it might be termed, disguises.

Brocaded effects are seen in everything from cotton flannel to velvet broche voile. Linen fabrics, with a design not unlike that upon our domestic tablecloth, are shown in all the popular colors.

Nota Bene: If you have a linen tablecloth you are not using, just dip it into the dye pot and you will have a most up to date material for a dress, especially if you make it up with the border around the bottom of the skirt.

One extremely pretty cotton house dress is pictured in Figure 1. The material is a novelty madras, which looks like a firm though loosely woven lawn, with alternating ruffled stripes of black and lavender. The waist has raglan sleeves, with the tucks on the waist ending at the line of the sleeve. The collar and cuffs are of plain lavender linen. The skirt is very simple, as befits the woman who does a good deal of her own housework, two pleats in the front being the only relief, and causing a little puff at the hips, which give just a slight touch of the popular bouffant silhouette. And why not? Surely, utility and style may be combined with a little thought.

Another dress, seen in Figure 2, is of blue linen crepe, with tiny red flowers having green stems thrown stiffly across it. The waist is very simple—a broad tuck on either shoulder gives breadth and fullness, while a tab closing lifts it from the shoulders of the ordinary shirt waist. The four gored skirt is also plain, but relieved by a tab corresponding to the one on the waist. Around the waist is a crushed girde of black satin and a simple little bow finishes the plain blue collar. These last accessories make it a dress suitable for afternoon wear at home, but it is well plain enough for the dress for morning wear.

For the now stylish separate waists, voile continues to be very popular and is seen with a wide variety of decoration. One very pretty piece was plaided in quarter inch squares, with a fine red cord. Another very pretty fabric, called echlin, has long and short drawn work bars scattered in groups of three over the voile background.

White crepes and crinklettes are being used a great deal to make up lingerie, especially for the traveler or business woman, but the housekeeper should not fail to see the advantages

## A MUSICAL EVENT FOR ALL TEXANS

### CHICAGO GRAND OPERA COMPANY IN DALLAS IN MARCH.

#### WONDERFUL ORCHESTRA.

Cleofonte Campanini, Famous Musical Director, in Charge of All-Star Productions.

Dallas, Texas.—With the entire strength of the Chicago Grand Opera Company, including artists, musicians, productions, chorus and ballet participating, the March season of operas in this city assured for Dallas and the Southwest the very best of musical entertainment. It means further that those who in the past have been forced to make the journey to New York and Chicago to enjoy grand opera will in the spring of 1914 have brought to their own section all the principal stars, surrounded by all the productions in their entirety, exactly as seen in the eastern cities.

Cleofonte Campanini, one of the greatest figures in the contemporary musical world, has arranged a repertoire including the greatest success of the Philadelphia and Chicago seasons. Associated with Maestro Campanini in the direction of the orchestra will be Ettore Panofini and Giuseppe Sturani, both well known in Europe and the East.

Many famous artists have been engaged for the Dallas season, among the more prominent being the famous Mary Garden, and the eminent Italian baritone, Titta Ruffo, the first of Philadelphia and Chicago opera stars. Ruffo is acknowledged to be the world's greatest baritone. His incomparable vocal and dramatic art is the possession of the present opera season in the East. He will be heard in "Rigoletto" and in "Pagliacci," roles necessitating dramatic interpretation of an exacting degree. Mary Garden, whose fame as the greatest living exponent

CLEOFONTE CAMPANINI.

of modern French opera in international fame, will sing the same role of "Tosca," "Carolina White," the most brilliant dramatic soprano of the present, who achieved phenomenal success at the Verdi Centenary at Parma, will be heard in "Aida."

The repertoire for the March season includes "Aida," "Tosca," "Rigoletto," "Cavalleria Rusticana," "La Boheme" and "Pagliacci." The dainty and fascinating Rosina Galli is the premiere dramatic soprano of the corps de ballet. The feminine confidence of the chorus body, which is composed almost entirely of Americans, has been trained in repertoire by N. B. Zimmerman.

PRODUCTION IN ENTIRETY.

Original Casts and Scenic Investiture Feature Dallas Grand Opera Week.

Dallas, Texas.—Cleofonte Campanini, the famous musical director, will direct the presentation of Pagliacci, Tosca, La Boheme, Rigoletto, Cavalleria Rusticana, Aida, in this city next March, under the management of the Chicago Grand Opera Company. The Chicago company's original casts and the productions in their entirety as seen in the eastern cities make the Dallas engagement March 4, 5, 6, 7, 1914, at Fair Park Coliseum one of rare interest to music lovers. Mary Garden, Titta Ruffo, Carolina White, Amadeo Bassi and other illustrious artists will sing the leading roles. Special round-trip rates will apply to Dallas from all points in the Southwest during grand opera week. The Grand Opera committee of Dallas is in charge of the ticket sale and other details of the engagement.

ALL STAR CAST.

Take Part in Chicago Opera Company Productions in March.

Dallas, Texas.—Every part in the opera "Rigoletto" to be presented in this city next March by the Chicago Grand Opera Company will be taken by a singer of world-wide fame. This announcement is made by Cleofonte Campanini, director of the Chicago company, who is looking forward to his visit to the Southwest with great interest. With casts containing the greatest stars of the age, a wonderful orchestra, a superb chorus and a corps de ballet, the dainty and fascinating Rosina Galli as the premiere dramatic soprano, the coming engagement of the Chicago company promises to be one of the most brilliant musical events in the history of the South. Titta Ruffo, two thousand dollars a night baritone, will sing the title role in Rigoletto. Associated with him in this production will be an all-star cast, including Aristodemo Giorgini, the wonderful tenor; Florence Macbeth, the brilliant American soprano; Henri Scott, the soprano and gifted basso; and Margaret Keve, the charming Aragonese artist. Rigoletto, Pagliacci, Aida, Tosca, Cavalleria Rusticana and La Boheme will be presented during grand opera week. Under the direction of the grand opera committee of Dallas the sale of season tickets is meeting with wonderful success.

Wichita Falls, Texas, Jan. 18, 1914

The old-time bustle is coming back. If it interferes with the wearing of the skirts that fit so tightly at the bottom (and it is understood that it will) we favor the idea.

Every year for the past seven has been a record breaker for Wichita Falls in point of increase in population and wealth. Lets not break the record, but make 1914 the best ever.

So far less than one-third of the voters of Wichita county have paid their poll tax. Consisting of Sunday, but twelve more days remain in which to qualify as voters in elections—city, county and state, to be held in 1914.

The Farmers Union in session at Fort Worth has, it seems, decided to enter into the political game as far as possible by electing as many of its members as possible to the legislature, and it is not at all a bad idea. Wichita and Wilbarger compose one of the legislative districts. Both are agricultural counties, or at least depend mainly on what is produced from the soil for the support of the country. There are quite a number of farmers, who actually farm for a living, residing in the district who would make good legislative material.

"Santa Claus is Coming" is the caption of an article on the front page of one of our esteemed exchanges, the Henrietta Review, of date January 16, 1914. It's just as we suspected. The old fellow forgot there was such a place on the map, and now is going to make a return visit.

The President is being asked to receive a delegation of 1,000 women representing the various trades in which women are employed, and the plans for the meeting is in the hands of the National Woman's Suffrage Association, and the date is for January 31st. The President has not yet decided whether he will receive them.

Among the new industries that are almost assured for Wichita Falls for the year 1914, are an oil refinery with a 200-barrel capacity, and a large refrigerating plant. Everything helps to make Wichita Falls grow, and that is what most of us want to see.

Up to 6 o'clock yesterday afternoon City Tax Collector Harry Robertson reported that 449 poll tax receipts had been paid. Same date last year the records show that only 334 had been paid, a net gain of 115. This is doing nicely, but it is expected to gain as much in poll tax receipts over 1913 as we did school taxes we will have to get busy and keep busy until up to February 1st. January 31st is positively the last day you can pay your poll tax and still qualify as a voter. Bear this in mind.

The remnant of the Republican party is keenly disappointed that a panic did not follow the election of a Demo-

LOVE ON EIGHT DOLLARS A WEEK

A news item contains the interesting bit of information that a certain young man and his wife, whom it is not necessary to mention by name, find themselves able to live, love and be happy on eight dollars.

Love on eight dollars a week! Sounds rather hopeless, doesn't it, particularly to the fortunate man who earns eighteen and spends twenty?

Love on eight dollars a week! Good-bye to the picture shows and oyster suppers!

Love on eight dollars a week! Farewell to the romantic dreams and air castles of childhood!

The gold-tinted visions of youth shrivel away into the bare, unadorned walls of a tiny room at the back end of some second-rate lodging house where nobodies exist.

The prince's eyes grow weary with much forward looking, and the prince's hair becomes straight and long for want of the barber's attention.

The princess grows numb with dismay at the discovery of so many broken idols and shattered ideals.

The harvest moon, beneath whose silvery radiance they whispered the fascinating foolishness of fate into each other's eager ears, shrinks to the dimensions of a yellow, old-fashioned electric bulb that burns to the tune of an implacable meter over which the lynx-eyed landlady keeps scrupulous watch.

The boisterous winds which once blew vigor into their warm young hearts now wall coldly about the cracks at windows and doors when the thermometer is low and there is no fire in the grate.

Close in the background lingers the memory of father and mother, thrice bitter now that it is beyond recall.

Grim in the foreground looms the cold, forbidding future, gaunt with meager possibilities.

Love on eight dollars a week! Ye gods! And there are people worrying about a tax which only affects incomes above \$4000!

Such is the eight-dollar side of it. But what about the love—the fountain-head of creation, the great intangible power of attraction by which Nature perpetuates herself?

It is so bad, after all! Is the situation quite so hopeless when measured by the indomitable passion as it seems when measured in dollars and cents?

There will be no silk dresses and card parties for the wife, no clubs and excursions for the husband. But these things are essential to Fate's demand for self-preservation and reproduction?

Suppose it were love on eight thousand dollars a week—what then? Would Providence look upon a new being with a more kindly eye?

With eight dollars a week a wife is compelled to sympathize with the husband in his discouraging struggle, and the husband is tight compassion for the wife in her deprivations. The two are perchance drawn a little closer together and Nature's bond is thus forged of heavier and unbreakable substance.

With eight thousand dollars a week there is little community of interest. The husband goes his way and the wife hers. The one does not have to depend upon the other, and after all dependence is the kingbolt of the home.

Life is at best a thorny road, and the feet of the travelers are bound to be pierced and cut. About the only possible consolation and vouchsafed us is the sympathy of those close by, and perhaps it is just as well to begin under such conditions as shall make that sympathy indispensable.—Nonsensical Chronicle.

CHILDRESS MAN GETS A SADDLE BY PARCELS POST

Last week J. J. Pigott received a rush order for a saddle by telephone from Dodsonville. The order called for the saddle by express, but finding that it would go considerably cheaper by parcel post, Mr. Pigott shipped it that way. It weighed forty-eight pounds and cost \$60 by mail. This is the first shipment of this kind through the Childress office.

PATENT INSIDES NOW BEING PROBED

USE OF THEM BY CANADIAN GOVERNMENT IS CHARGED AT WASHINGTON

TO ATTRACT AMERICANS

Charge is Made Before Lobby Committee By President of the American Press Association

By Associated Press. Washington, Jan. 17.—Testimony today that the Canadian government had been paying for the circulation of news articles in patented insides of newspapers to induce Americans to go to Canada, led the Senate lobby committee off on a new line of investigation.

The statement of the action of the Canadian government was made by Courtland S. Smith of New York, president of the American Press Association. The committee decided to call George Joslyn, president of the Western Newspaper Union of Omaha.

Mr. Smith said that he had sent out for the United States Beet Sugar industry with headquarters in Washington to weekly papers, proof sheets for a page of material dealing with that industry. He said the beet sugar people paid him \$150 for each paper printing that material.

NEW IDEAS ARE URGED

ness of any combination, individuals or concerns aggrieved through this combination would have the benefit of such adjudication and not be required in their suits to prove again the illegality of the combination.

Wants Public Hearings. The president has dealt with those general principles on which he believes public sentiment is agreed. He has emphasized that the spirit of friendliness should characterize the method of approaching the work of reform. To this end, the president himself, it was learned today, is behind the announced program of public hearings on the proposed bills. He has made it plain that the business world should be given full opportunity to express its views.

He is anxious, also, that ample time be given in the legislation for all business to adjust itself to new conditions, even to a period of from one to two years. He considers the prohibition of holding companies, a vital part of the program. He believes that beginning with the decision by the United States supreme court in the Northern Securities case, holding companies have come under the ban of public disapproval.

Proposed New Features. While Governor of New Jersey, he obtained legislation prohibiting holding companies in that state and permitting only such mergers of non-competitive concerns as were sanctioned by the public utilities commission.

The supervision of the issuance of railroad securities is to be recommended by the administration in the belief that railroad capitalization and the issuance of stocks and securities is closely involved with increases or decreases in rates and that through the interstate commerce commission the public would be safeguarded.

Railroad Stock Issues. Close scrutiny of bills aimed to cover this point is intended so that discrimination in price fixing practice, the position of sponsor for stock issues. It has become apparent that the president is determined, the Sherman anti-trust law must remain unaltered and that new laws shall strengthen it in certain particulars.

Reducing the debatable area of the Sherman law now is understood in administration circles as meshing the specific prohibition of written, oral or secret trade agreements by which output is limited, territory is divided for monopolistic control or other the government may not be placed in an awkward position.

Former State Treasurer Said To Be Planning To Enter Race Today, Hanger May Quit

By Associated Press. Austin, Texas, Jan. 17.—Sam Sparks, former state treasurer, will announce his candidacy for governor tomorrow, it became known here today. At the same time it was rumored that W. A. Hanger of Fort Worth is about to announce his withdrawal from the race.

In his announcement, Sparks says: "Conditions in Texas are, as most people know, unsettled and the Democratic party within our own party are not working in harmony for the welfare of the state nor of the party and I believe that with my experience as a public officer and after a close study of governmental affairs of the State and my knowledge of different departments of our state government, that I can as a governor be of service to the State."

PALESTINE WINS CASE FOR OFFICES OF I. & G. N.

Overhand Blow at Base of Brain May Cause Death of California Fighter

By Associated Press. Santa Rosa, Cal., Jan. 17.—Phil Shindler, a Santa Rosa pugilist who last night was knocked out by Chas. Kirby of Canada, was believed to be dying tonight. Kirby struck him an overhand chop on the base of the brain as he was reeling from an uppercut to the jaw. Kirby is in jail.

DR. J. L. GASTON FOR CITY HEALTH OFFICER

Under the new city charter the office of city health officer is made elective instead of appointive, as heretofore and in today's paper the Times is authorized to announce Dr. J. L. Gaston as a candidate for that office. Dr. Gaston has resided in this city for a sufficient length of time to become well acquainted with our people and therefore needs no introduction at the hands of this paper. If elected, the Times has no hesitancy in saying that, from its acquaintance with him, he will discharge the duties of the office well and faithfully.

J. A. BURTON FOR CITY MARSHAL

The Times is authorized to announce J. A. Burton as a candidate for city marshal at the coming April election. Mr. Burton has been a resident of this city since 1904, during which time he has worked at his trade at the Wichita Falls broom factory. For five years he was superintendent of that institution. He is a married man, sober, industrious and well qualified to fill the office he seeks. The Times respectfully submits his candidacy for this responsible office for the careful consideration of the voters of the city.

A. C. MCKEAN FOR THE LEGISLATURE

The Times today announces A. C. McKean as a candidate for membership in the legislature from the counties of Wichita and Wilbarger. Mr. McKean or "Pap" as he is generally known, has been a resident of Wichita Falls something like two years and a resident of Texas practically all of his life. He was born in Houston 47 years ago and was raised in Waco, where his father was a prominent merchant. For a number of years he was first lieutenant of the Galveston Sharpshooters, his company being a part of the First Texas Regiment in the Spanish-American war. He also held a number of important positions in civil life. He came to Wichita Falls as organizer for the Loyal Order of Moose and made such a success of his work that the lodge now numbers over 900 members. He is an organizer in every sense of the word and his entrance into the political game will mean an

CHAS. F. SOMMERVILLE FOR CONSTABLE

Chas. F. Sommerville for Constable. Chas. F. Sommerville announces in today's issue of the Times as a candidate for constable for precinct No. 1, Wichita county, subject to the action of the Democratic primary. Mr. Sommerville has for the last eighteen months been on the local police force and has proven himself to be an efficient officer. He has been a resident of Wichita county for more than fourteen years. Mr. Sommerville has seen Wichita Falls grow from a country town to a city. He knows everybody and everybody knows him. His residence in the city and experience as an officer has qualified him for the position that he aspires to and he takes this opportunity of asking the support of every voter in the precinct knowing that he can fill the office as well as any man in the county.

Suits filed recently in the district court are: Wichita Mill & Elevator Company vs. N. W. Pratt, debt; N. B. Oberst et al vs. debt.

Osteopathy vs. La Grippe. Case No. 1. A lady came to me recently, saying, I am taking in grippe just as I did last winter. I feel just as I did then the second day. Can you do anything for me? Last winter I was in bed two weeks though I had very careful medical attention. For two or three days I was very uneasy lest I should die. Oh, how I suffered, she says. A friend told me to try osteopathy for la grippe. She had fever and every symptom but after the second treatment, dismissed herself as cured.

Case No. 2. A business man gave almost identical history and expected to have high fever, severe backache, chilliness, bad taste. His time was valuable and he did not know what to do. He put himself under my care and the third day pronounced himself well-time lost, none. Suffering the whole time would not compare with what he suffered in one day last year. He had the best medical attention this city afforded last year. What I have done in these two instances, osteopaths are doing every where all the time. I have in many instances aborted pneumonia by a single treatment. When you are sick you need an osteopath, that is if you desire a correct diagnosis and scientific treatment. If interested in health consult an osteopath. No one knows what an osteopath can do but an osteopath. Dr. Farris. K. & K. Bldg. 13 1/2 ct

QUIPS ON SUFFRAGETTES

Recently an advertising agency offered cash prizes for the best epigrammatic definitions of a suffragette. Here are some of the results:

A suffragette is a woman who thinks she has been devoted long enough.

Not satisfied with the last word, she also wants the first.

She is the corset needed to reduce the government waste.

She is a woman who needs the "poll" for her raucous ambition.

A suffragette is a stilet of beauty and a jawer forever.

A woman who would rather break windows than clean them.

A woman whose troubles are certainly not "little ones."

One who spends more time stringing her views than visiting her heirs.

"Count the First"

The monkey who made a man of himself

Prof. Harry De Rossa

Presents Count the First, a Living Proof of the Darwin Theory.

FUGITIVE'S BROTHER IN PLOT TO CAPTURE HIM

Man Who is Defying Posses May Be Trapped or Killed Today if Plan is Successful

By Associated Press. Mayville, N. Y., Jan. 17.—Shielded from an attack by a woman and nine children in the house, Edward Bradley, who for five days has defied the authorities to capture him, passed an undisturbed day in his shack near Summerville. A heavy snow fell all day but smoke from the chimney told that Bradley still had fire wood and is known to have a three days supply of food. Sheriff Anderson tonight planned a decisive move to surround noon to get Bradley dead or alive. The success of this move depends on what influence Carl Bradley of Jamestown, a brother, as with the outlaw.

Sometime tomorrow morning Carl will drive to his brother's house with one or two friends of Edward Bradley. They will be followed by deputy sheriffs who will wait behind the rest of the last hill commanding the house. Carl and his two companions will walk to the window and parley with the outlaw. An effort will be made to induce him to step outside his door. Then if they are unable to take Bradley a prisoner, a sharpshooter stationed in the woods opposite the shack will shoot the man with his rifle.

The sheriff said today he would not relax his efforts to capture the outlaw cause the death of any of the children.

Disease Germs Used By German Murderer to Finish His Victims

By Associated Press. Frankfurt-on-Main, Germany, Jan. 17.—Death sentence was pronounced today on Carl Hops, charged with murdering his first wife and attempting to murder four other persons. His favorite weapons were solutions containing the bacilli of diseases such as cholera, typhus and diphtheria. The prosecutor described him as a mad, dangerous and unscrupulous scientific murderer in history.

ATTEMPTS TO DRINK POISON IS PREVENTED BY WIFE.

A. L. Williams, a bricklayer residing at 304 Fifth street was taken into custody by the police late last night at his residence after he had attempted to drink some carbolic acid. He was placed in jail at his wife's request. Williams did not swallow any of the poison but took a quantity of it into his mouth. His tongue and lips were badly burned and blistered. Williams was prevented from carrying out what appears to have been suicidal intention by his wife, who knocked the bottle of poison from his hand.

"Count the First" at the Lydia Margaret Theatre, Monday. The Monkey who made a man of himself. A living proof of the Darwin Theory. His table manners are splendid, eats with knife and fork as a human. Rides a bicycle like a man, an expert on roller skates, reads the newest of books, undresses himself and retires to bed like a gentleman. Count the First is one of America's greatest forefathers.

New York City's Greatest Aqueduct In Country Big Engineering Feat

SCENE AT COMPLETION OF NEW YORK CITY'S \$152,000,000 AQUEDUCT

New York, Jan. 16.—New York's great \$152,000,000 aqueduct, the largest of its kind in the country and one of the greatest engineering feats in certain respects outside of the Panama canal, is at least completed. The final dynamic blast was set off by Mayor Mitchell after workmen had prepared everything for the completing explosion at the New York end of the big waterway. The water will be carried in the fifteen foot tube from the Ashkan reservoir in the Catskill mountains ninety-six miles to this city. It will provide 500,000,000 gallons of fresh, pure mountain water a day, more than enough for the needs of the city for many years to come. Seventy-five thousand men have been employed on the work since its inception and over 4,000 have been killed or injured.

### WANT GOVERNMENT TO TAKE OVER COPPER MINES

By Associated Press. Boston, Jan. 17.—Resolutions demanding that "the United States government shall at once take possession of the Michigan copper mines and run them under conditions or better" were adopted tonight by a mass meeting under the auspices of Socialist party clubs in Massachusetts.

### GOOD ROADS DELEGATES ARE TO BE SELECTED

Near 1000 Mark in County and Nearly Half That Many in City—Twelve Days Remain

Steps will be taken this week to secure adequate representation from Wichita county at the annual meeting of the Texas Good Roads Association to be held at Fort Worth on January 26, 27 and 28. It is expected that the Chamber of Commerce will send one or more delegates.

D. P. Talley said yesterday that he hoped to have a large delegation from Wichita Falls. "Myself and Walter Reid were delegates to the convention at Corpus Christi last year," said Mr. Talley, "and we heard a splendid program. There was a school of instruction in road building and the federal government had demonstrators there. On every side you could hear delegates say 'Every county commissioner in Texas ought to be here,' and I hope the Wichita county commissioners will be able to attend the Fort Worth meeting."

The Fort Worth program will include a demonstration by a representative of the federal department of agriculture, and a school of instruction by Prof. R. J. Potts of A. & M. The full program for the meeting will appear in a later issue of The Times. Mr. Talley has been chosen vice president from this senatorial district of the Texas Convict Bull Highways Association, recently organized in Dallas.

### WHEAT FROM ARGENTINE IS NOW ADMITTED FREE

South American Republic Complies With Tariff Law and Can Send Grain in Without Duty

By Associated Press. Washington, Jan. 17.—Argentine wheat is at last on the free list and can enter the United States without payment of duty. Assistant Secretary of the Treasury, Hamilton, in charge of customs, today informed Secretary Bryan that Argentine had taken the last step to comply with the new tariff act. To comply with the American tariff, Argentine recently removed the duty she imposed on imported semolina, a product of wheat.

### CASE OF TYPHUS FEVER IS FOUND IN STEERAGE

By Associated Press. New York, Jan. 17.—After a steerage passenger on the steamship Belvidera from Trieste was found today to be suffering from typhus fever, the health officer of the port, Dr. J. J. O'Connell said: "We are likely to meet with typhus in our Mediterranean immigration for some time to come." The typhus is said to be an aftermath of the Balkan war. It is one of the diseases dreaded by health officials.

testimony with the jury out. This was the same as in the preliminary trial about finding a cartridge which was pointed out by Norris where St. Clair was sure he had looked carefully before.

He said if the same bullet made the lower hole in the church window and the lower hole in the study wall it would have hit Norris sitting at the desk but that if the bullet that went lowest through the window made the upper mark in the wall it would not have hit Norris.

Judge Swayne asked if it were not possible that Norris dodged after the upper shot and the witness said it was possible. He said if he examined later and could see the outline of the desk at which Norris said he saw through the window plainly.

"I could have hit a man if I had been shooting at him," he testified.

Swayne announced the evidence excluded only for the time. He asked both sides to submit authorities on its admissibility Monday.

Mrs. K. K. Taylor, star witness in the perjury trial was called to the stand but court adjourned without her testimony being begun.

There were many wrangles among counsels during the day.

### POLL TAX PAYMENTS ARE CLIMBING RAPIDLY

State Convention Will Be Held in Ft. Worth This Month. Will Send Representatives

Yesterday was a brisk day in the payment of both city and county poll taxes and the former was near the 500 mark last night with the latter climbing toward the 1000 notch. City payments are ahead of last year, being 449 up to last night or 115 ahead of the showing at the same time last year.

In the county, exact figures were not available last night, but the total is not far from 1000. Just twelve more days remain in which Wichitians may qualify as citizens. Two weeks from last night the time for poll tax payments will expire and those who have not secured their receipts by that time will be disfranchised.

County receipts at the close of business Friday had reached a total of \$87, with the Electra box still in the lead. The figures by boxes follow: City hall ..... 72 Court house ..... 105 Allendale ..... 16 Cahoon ..... 19 Burk Burnett ..... 80 Iowa Park ..... 111 Denny ..... 22 Beaver Creek ..... 7 Clara ..... 17 Electra ..... 164 Bridge box ..... 40 Car barns ..... 113 Box No. 13 ..... 121

### RACING CIRCUIT ORGANIZED HERE

TEN NORTH TEXAS TOWNS REPRESENTED AT MEETING SATURDAY AFTERNOON

### OPENING DATE NOT FIXED

Wichita Falls Make Strong Bid To Be Starting Point—Officers Are Elected

Organization of the Texas Short Ship racing circuit was perfected here yesterday afternoon when about twenty representatives of racing and fair associations from ten Texas towns met at the Chamber of Commerce rooms in response to a call sent out several weeks ago by T. J. Jeffries of Childress.

All of the towns represented became members of the association and it is hoped to increase the number to fifteen. Those represented, either in person or by proxy were: Wichita Falls, Bonham, Clarksville, Vernon, Childress, Quanah, Amarillo, Hillsboro, Mart and Clarendon.

No definite date for the opening of the circuit was agreed upon, most of those present desiring to get additional instructions from their home associations. Judging from the preferences expressed by some of the delegates there will be many conflicts.

### Bid From This City

J. B. Marlow, speaking for Wichita Falls, put in a strong bid to have the circuit start from this city in June and to make his offer good, he said that Wichita Falls would add \$100 to each purse. This offer, in view of the fact that not a single one of the other towns was willing to accept a date in June, made a decided impression on those present, but the plan to have the horses visit the southern end of the circuit after leaving Wichita Falls met with determined opposition, so that it was finally decided to let this go over until later. There is considerable opposition to starting the circuit here, but it is believed this city's offer will eventually be accepted.

The association perfected its organization by electing officers as follows: C. W. Mitchell of Childress, president; T. J. Jeffries of Childress, secretary-treasurer; advisory committee, C. W. Mitchell and T. J. Jeffries of Childress, J. E. Wiley of Quanah, J. F. McGregor of Amarillo, H. G. Taylor of Hillsboro, W. O. Foote of Bonham and William Mc-Masters of Clarksville.

It is hoped to have at least fifteen towns in the circuit and the completed list will probably include Tyler, Pittsburg, Marlin, Waco, Gainesville and Mineral Wells. There is a possibility that the circuit will extend even further south than any of the towns mentioned.

The meeting was presided over by Frank B. Letts of Clarendon who was chosen chairman. T. J. Jeffries of Childress serving as secretary. The election of officers was first disposed of and the question of having a board of directors was then argued at some length. It was finally voted down on the theory that the president and secretary were able better to handle any matters that might come up by themselves. The proposition would not down, however and later bobbed up again in the form of an advisory board which was agreed to.

### Purses Are Fixed

Much of the time of the meeting was given over to discussion of details each minor question being threshed out thoroughly. Jeffries had prepared a tentative list of purses which was adopted by the circuit after some discussion. It was as follows: Free for all pace—\$400. 2:11 pace—\$400. 2:25 pace—\$300. 2:17 pace—\$400. Three year olds and under pace—\$200. 2:05 trot—\$400. 2:18 trot—\$300. 2:14 trot—\$400. Three Year olds and under trot—\$200.

It was decided that entries might be reopened and reclosed after the circuit had been in five towns also that more than one horse might be started in an event from the same stable. There was a lengthy discussion over the question of having harness events three heats or best three in five and the long argument resulted in this matter being referred back to the associations represented, to express their preferences.

The question of opening the circuit provoked a long argument before it, too, was referred back to the folks at home. J. B. Marlow in urging the claims of this city for the opening dates, pointed out that there were facilities in the way of stables and pasture at Lake Wichita, that no other town in the circuit could offer. In this city, he said, it was not a question of waiting for crops, as other things made this unnecessary. It was not a question with him, he declared, of standing up for his home town, as much as it was saving the circuit opened in the logical place.

Discuss Many Matters. Dr. Williams of Clarendon opposed opening in Wichita Falls and Mr. Weslow of Childress thought some town further south should be selected. Mr. Foote of Bonham wanted to know if any other town in the meeting was willing to open with a meet in June and there was no response. It was finally decided to ask for further instructions from the home associations.

The delegates discussed a number of matters of lesser importance, going over the situation in detail. A very interesting talk and some excellent advice was given by Dr. J. C. Slack of Clayton, New Mexico, one of the old timers in the racing game. Those present at the meeting were: W. O. Foote, Bonham; William

**CHAMBER OF COMMERCE ORGANIZED AT NOCONA.**  
(Nocona News)  
At a meeting Wednesday evening at J. H. Cone's Hardware store the business men of Nocona went into a permanent organization to be known as the Nocona Chamber of Commerce. Dr. Humphreys was elected as temporary chairman and T. R. Stump as temporary secretary. After discussion a motion that a permanent organization be effected was carried without a dissenting vote. J. A. Fooshee was elected permanent president by acclamation and T. R. Stump, secretary-treasurer by acclamation. A committee on constitution and by-laws was appointed by the president to report at the next regular meeting.

**MCLENNAN COUNTY TO VOTE UPON POOL HALLS.**  
(Waco Tribune)  
McLennan county will soon have a county-wide election on the proposition of abolishing the pool halls, though the exact date was not fixed by the commissioners court Monday morning when petitions containing a total of 1,349 signatures were presented to that body. The commissioners decided to wait and see what date might be best for the proposed election on the bond issue for good roads and then fix a date for the pool hall election that would not conflict with that on good roads bonds.

The Scotland Investment Company will give a \$200 lot away on opening day—tomorrow the 19th. It will pay you to go over today and look the property over. 13 ltc

## When Visitors Are Shown Over the City They Are Taken First to

# Highland Heights

Why? Because it is the very center of the industrial enterprises. Because it lies so high that all of the city can be seen from it. Because the wonderful growth and development is a source of wonder to everyone who see it. And yet in spite of all these advantages the prices of lots are as low as in any other section.

## From \$200 to \$325

Many choice lots on easy monthly payments. Others one-third cash, balance in one and two years.

There is logic in looking at Highland.

THIS is a day when the delusions by which one has held for years are gradually being swept away by those superlatively clever people who know everything. One such delusion, in which we all believed, was that to read while in a recumbent position was injurious to the eyes. We now know that if the light be good, and the type of the printed page clear, we may safely indulge in the luxury of lying down and reading at the same time. Unless one has unusually strong eyes, they must get read when extremely weary. Exhaustion and fatigue effect all the nerves of the body, and the optic nerve is so sensitive that it should receive particular consideration. Not should one ever be guilty of carelessness of reading or writing, facing a window. This, too, is a cruel strain on the sight.

When we consider how we neglect our eyes by using them by fading daylight and insufficient artificial light, by forcing them to do work when they are weary, and by denying them the rest for which they long, we have cause to wonder not that they sometimes become multiplex, and refuse to fulfill our demands, but that they are ever faithful to us as we are to them.

Miss Monkey at Lydia Margaret. There have been lots of men who made monkeys of themselves but the first monkey who made a man of himself will be seen at the Lydia Margaret Theatre Monday. He is Count the First, a real live baboon, who has acquired many of the accomplishments of a real live man. He can ride a bicycle, smoke a cigarette, dress and undress himself and do a lot of other things that tend to make a person believe in the Darwin theory. Count the First makes his first appearance on the southern vaudeville stage at Wichita Falls, coming here from Omaha, Neb., after a tour of the leading houses of the north. He will be at the Lydia Margaret for three days.

The grand jury was to have reconvened on January 5, but the district attorney was busy at that time with cases in the district court and another recess was taken. One killing, several burglaries and several other felony cases have developed since the last indictments were returned and there is quite a bit of work awaiting the action of the investigators.

**NINE MARRIAGE LICENSES ARE TAKEN OUT SATURDAY.**  
What is believed to be a record for this time of the year in the marriage license business was established yesterday at the county clerk's office when a total of nine couples received official permission of Wichita county to get married. While this number has been exceeded on days immediately preceding Christmas, it is an unusual showing for January and is without apparent cause. Most of the brides and grooms were from neighboring towns, there being only two Wichita Falls couples in the bunch.

**MOTHER'S COFFEE**  
You remember the cup of coffee your mother made way back yonder at the Homestead. In memory you still smell its delightful aroma, taste its rich mellow flavor and feel its exhilarating influence—a morning benediction.  
Mother didn't have as good coffee as you get now, as coffee at that time was in the hands of semi savage tribes and was poorly cultivated and handled. Mother made it in an old tin coffee pot. BUT MOTHER DID HAVE FRESH ROASTED COFFEE. She roasted it herself in the oven—a day's supply at a time. It wasn't roasted in Boston, New York or Chicago. It didn't lay in dirty box cars and depots nor linger on the grocers' shelves for weeks and perhaps months before it reached your kitchen, so in spite of inferior coffee and inadequate apparatus mother made a dandy cup of coffee. You can make a better one if you buy your coffee of us for you will get the very best of fine old mild growths of coffee intelligently blended to get the best results in the cup and fresh roasted—in up to date roasting machinery.

## NOTES AND PERSONALS.

Miss Fanny Ferguson has returned to her home in Electra after a week's visit with friends and relatives here. Mrs. W. N. Connelly and Mrs. J. H. Carithers left Thursday night for Denton, where they were called by the serious illness of Mrs. Connelly's father.

Miss Kate Sebring of Alvin, Texas, arrived in the city this week, to become a student in the College of Music and Art.

Mrs. Mary Emmert, Mrs. Mary Carr and George Geyer all of Donovan, Ill., are the guests of Mrs. Mary Friberg and family at 2300 Ninth.

Mrs. C. M. Hoch and little son who have been visiting at the home of Mrs. J. H. Carithers returned to their home in La Grange.

Mrs. Florence Thompson of Sioux City, Iowa, is here to spend the remainder of the winter as the guest of her daughter, Mrs. J. M. Bannison.

Mrs. M. McClintey has returned from Mineral Wells, where she visited friends and relatives.

Miss Ruth Christal of Decatur is visiting her aunt, Mrs. T. W. Roberts, 1500 Burnett.

The many friends of Miss Bernice Millican will regret to learn that she is seriously ill at her home on Eighth street.

The Alamo Mothers Club met Friday afternoon with an unusually good attendance of sixty members. An excellent address was given by Dr. L. Mackechnie and after a business session the club adjourned.

Miss Ethel Colburn and Paul Rutledge have issued cards for Friday, January 23.

Mrs. E. P. Greenwood was called to Sulphur Springs Friday by the death of her brother.

The San Jacinto Mothers Club will meet Wednesday 21st at 3:30. A program will be rendered.

Mrs. W. E. Turner entertained a few friends with a very pretty dinner Friday. The decorations in the dining room bore traces of the holiday season it past. The color scheme carried out was red and green. A delightful dinner was served in six courses, covers being laid for six, including Mesdames Hartsook, Hutton, C. E. Carter, T. P. Adams, Shamburger and the hostess.

Mr. and Mrs. J. A. Kemp, Miss Bertha Mae Kemp and Miss Bess Kell will leave this week for San Francisco, taking a boat there for the Hawaiian Islands. They expect to be away about a month.

delighted with the new work. Rehearsals will be held every week and the public performance will be given as soon as possible. The club is receiving additions to its membership at every meeting and is aspiring to be the best organization of its kind in North Texas. The club will meet for practice at the College of Music and Art Saturday afternoon at 2:30, Jan. 24. The next regular meeting of the club will be held Thursday, Jan. 29 at Mrs. Richolt's.

### MAYFLOWER FORTY-TWO CLUB MEETS WITH MRS. LANGFORD.

Mrs. W. M. Langford entertained the Mayflower Forty-two Club Thursday afternoon at the home of Mrs. George Hurst. Five tables of players enjoyed the game for some time, Mrs. Allen and Mrs. Dobson tying for high score. A delightful two course luncheon was served by the hostess, assisted by her daughter, Miss Pauline and Miss Hazel Hurst. Those present were: Mesdames Yates, Dellis, Williamson, Hagin, Hurst, Hutton, Page, Williamson, Thompson, Allen, Stearns, Bradshaw, Gress, Walker, Dobson. The visitors were: Mesdames Simon, Stewart, Son, Perdue and Bryant.

### MEETING OF NEW CENTURY CLUB WITH MRS. CARRIGAN.

The New Century Club met in regular session with Mrs. A. H. Carrigan Friday afternoon. The members answered roll call with items of interest and the lesson for the afternoon was read by Mrs. Young. The meeting interest was shown in the usual and they adjourned to meet next week with Mrs. J. C. Hunt.

### YOUNG LADIES ORGANIZE PATHFINDER STUDY CLUB.

On Friday, Jan. 9 a new club was organized. Mrs. S. H. Burnside invited a number of young ladies to meet at her house for the purpose of forming a study club. The general arrangements for the club were made that afternoon and the organization was perfected last Friday afternoon when the club met with Miss Helen Elder. The club is to be called the Pathfinder and is to meet every week and study art, literature and science. At the next meeting, which is to be held with Miss Ethel Frieze the study of the American poet, Longfellow, will be taken up. Friday in addition to completing the organization the following program was carried out: instrumental solo, Miss Theresa Smith; vocal solo, Miss Alice Burnside; reading, Miss Edith Mathis. The hostess served dainty refreshments and the club adjourned. Those present Friday were: Misses Stokes, Mathis, Frieze, Burnside, Jackson, Nolen, Emma and Theresa Smith and Thompson.

### "BEN HUR" SEAT SALE TO OPEN TOMORROW MORNING

The advance sale of seats for "Ben Hur" will begin tomorrow morning at 9 o'clock at the Rexall Drug Store. Acting under instructions from Klaw & Erlanger, the Wichita Theatre management will insist that each purchaser pay for his seats as he selects them. This means that no seats can be laid aside by phone and that only the cash will talk when the seats go on sale. An advance notice says: Without exception Klaw & Erlanger's international production "Ben Hur" the offering at the Wichita Theatre Monday and Tuesday evenings and including a matinee on Tuesday, Jan. 26 and 27, is the greatest dramatic spectacle ever placed upon a stage in the whole world.

This fine romance with all the brilliant pageantry, the barbarity and intense religious enthusiasm of that period of the world's history, when put into dramatic form raised a wave of admiration from the Atlantic to the Pacific. It is a fascinating and masterly creation that ought to be seen at least once; most people want to see it more than once, for it interests the eye, touches the intellect and moves the heart.

Artistically, this season's production is greater than ever. From the prelude with its mystic charm to the just awe-inspiring scene on the Mount of Olives, it is pictorially magnificent. Its story is interesting and its accompanying music most satisfying. Into places of strange customs, strange people and strange beauty the auditors are led and the return

to the accustomed environment and habits comes almost as a shock after three hours of fascinating wandering and spiritual exaltation. A clearer idea of the Holy Land and its inhabitants and of the influence of the Nazarene while on earth is obtained from this one drama that can be had from reading countless books upon the subject. Such a drama as "Ben Hur" is not only absorbingly interesting but in the highest degree instructive as well.

### BATTLE OF WATERLOO AT WICHITA MONDAY

The Battle of Waterloo comes to the Wichita Theatre for one day, Monday, January 19th, complete in five reels. It is the Parsival Motion Pictures taken by the British Colonial Company on the exact ground where this famous struggle took place.

There are over 8000 soldiers, 600 horses and 500 cannon in this complete production. It is so vividly reproduced you will say when you see it "War is Hell" as Gen. Sherman quoted.

### MOTOR CAR SERVICE TO ELECTRA IS PROPOSED

Rumored That Denver Will Adopt It To Supply Demand For More Adequate Facilities

Motor car service between Electra and Wichita Falls, as a solution of the problem of better service, is likely to be adopted by the Fort Worth & Denver, according to unofficial advice. When Vice President and General Manager Keeler was here Thursday a committee from the Merchants' Association put the question of better service strongly up to him and he promised to see that it received careful consideration.

It is hoped to have a train from Electra reaching here early in the morning and returning to the oil city late in the evening. With a motor car in operation, this could be easily arranged and could be operated on a schedule to replace that of the "Coal Oil Johnny" as the present oil train has been dubbed. Under the present arrangement, the trains run very conveniently for Wichitans who wish to make a brief visit to Electra, but much less conveniently for Electra folks who want to spend a few hours here.

Another suggestion in the premises is that a motor car be put into service here, could be used to improve the service between Wichita Falls and Petrolia and this feature may also be considered.

### Wanted—100 Husbands Won't Have Any Work. Do Nothing Except Loaf

San Francisco, Jan. 16.—Major Frank Pooley, British army officer, retired, is the busiest man in San Francisco. One hundred dusky belles of Easter Island in the South Sea want as many white men for husbands and Major Pooley is here today to get them and arrange for their transportation.  
"Men of the desirable kind," said Major Pooley in an advertisement inserted in a San Francisco newspaper, "are scarce in Easter Island. The women outnumber the men three to one. The women want husbands and I am here to get them. I represent one hundred of the best looking women on the island. They are very wealthy. Their husbands will not have to work. They will live in ease and comfort for the rest of their days."

The next day more than 500 men appeared at Major Pooley's headquarters in the Alaska Pacific Steamship Company offices to qualify as South Sea bridegrooms. It was estimated today that more than 5,000 white men volunteered since the advertisement was first inserted.  
Some of the would be husbands are fat. Others are lean. Dozens are short and others are tall. A youth of nineteen weighing about 90 pounds was anxious to know if the Easter Island belles are slight and slender creatures. He nearly went when told that the average weight was not less than 175 pounds. Hundreds of letters from other applicants have been received by Major Pooley. One signed A. Tenner and A. Mossum read: "We are both young and handsome but we are too lazy to work." Another signed by John Hunter read: "I am the very finest specimen of manhood to be found in the United States. I am 33 years old, 6 feet 1 inch tall and weigh 290 pounds. I know I can lie around all day and be contented. Just give me the proper instruction and I'll soon be on my way."

### IT HAPPENED IN WICHITA FALLS And is Happening to Wichita Falls People Every Week

The case told below is not an uncommon thing. The same occurs frequently and will continue to happen as long as folks have kidneys and overtax the kidneys.

Mrs. Mary Beck, 712 Seventh St., Wichita Falls, Texas, says: "For years I suffered from kidney trouble, having pains in my back and side and irregular action of the kidneys. I steadily grew worse and about three years ago the trouble reached a climax, when I had to take to my bed. For three months I was helpless and six local physicians said that I had Bright's Disease. I was discouraged. A friend suggested that I try Doan's Kidney Pills and I took them. I began to improve and by the time I had taken the first box, I was much better. Four boxes cured me."

collected by Major Pooley. One signed A. Tenner and A. Mossum read: "We are both young and handsome but we are too lazy to work." Another signed by John Hunter read: "I am the very finest specimen of manhood to be found in the United States. I am 33 years old, 6 feet 1 inch tall and weigh 290 pounds. I know I can lie around all day and be contented. Just give me the proper instruction and I'll soon be on my way."

Major Pooley is a particular person and is determined that only the best types of men shall go to the South Seas. Out of the hundreds who

have applied, only 40 names were placed among the possibilities. "I shall take about a week longer for this registration," said Major Pooley. "By that time I expect to have the names of 300 physically perfect men. Two-thirds of these will be then eliminated in the final selection. I have the money furnished by the women to pay all transportation. The men accepted will travel first class."

**QUANAH'S ORIGINAL WAY OF DEALING WITH TRAMPS.**  
(Quanah Observer)  
Last Friday night three young men

faces, their coats on wrongside out, and each having a good sized stick, with handkerchiefs tied over their eyes, went into the Q. A. & P. roundhouse and took out a tramp who had been sleeping there. The roundhouse employes thought a joke was being sprung, but when the party disappeared across the Denver track they became alarmed and sent word to the city. Sheriff Walker, City Marshal Wardlaw and others made a search for the party but did not find them. About an hour later the tramp returned to the roundhouse, but told little of his experience. Next morn-

ing Sheriff Walker had him come to his office, where he stated that the three men struck him a few times with a strap and told him that he must go away from Quanah. Sheriff Walker told the tramp that he certainly did not approve of the methods of the self appointed "regulators" but he added that Mister Tramp must take the first opportunity to get out of Quanah or be vagged and jailed. The tramp went out of the city that morning. Sheriff Walker believes he knows the names of those who took the tramp from the roundhouse.

### WHERE DO YOU BUY YOUR LIFE INSURANCE?

The above statement shows that the Wichita Southern Life Insurance Company is not an experiment, but a successful growing institution. We have met every requirement of the Texas laws, both as to Standard provision of policies and as to setting aside the full amount of Reserve necessary to thoroughly protect every Policy Holder, and the Reserve carried by this Company to protect its Policy Holders is exactly the same amount carried by the largest companies in the world, in proportion to the business in force. We issue Non-Participating Policies, therefore, our rates are from \$6 to \$10 per thousand lower than those Companies which pay dividends to Policy Holders. We let you keep your dividend in your pocket, then you know how much it is, and you have it.

### CHILDRESS' SECRETARY IS AFTER NEW RAILROAD

Believes Line Will Be Built From Childress North into Oklahoma—Sees Oil Prospects

Childress, with prospects of an oil field and a new railroad is coming to the front, according to Secretary Weslow of the Commercial Club of that place, who was here yesterday to attend the meeting of secretaries' meeting yesterday afternoon. Mr. Weslow will leave here tomorrow for Oklahoma City and will go from there to Chicago on matters in connection with the proposed new railroad. Mr. Weslow said:

"We have every reason to believe that a railroad will be built from Childress to Mangum thence to Oklahoma City. Such a road would mean much to the development of the territory between Mangum and Childress and would mean a great deal to Oklahoma City, giving that point a new trade outlet. The backers of this road, who are men with money, are making overtures for the survey run by the Rock Island several years ago; if they are unsuccessful in securing the use of this survey, a force will be placed in the field for a new survey."

"If Childress had the bunch of men that you have in Wichita Falls, she would make a city of 25,000 people, but she will get there and so will Wichita Falls. Childress has been called the 'chosen city of the Denver' because the Denver shops, employing about 400 men, are located there. Everything that is developed from Texline to Fort Worth will help Wichita Falls and it behooves Wichita Falls to pull for every enterprise and municipality on the Denver road. 'If Wichita Falls and The Times could do something to secure the cooperation of the Denver road in advertising the opportunities along the line, it would be a great help in securing more publicity for Northwest Texas and the Panhandle. I don't think the Denver has been helping as it should.'"

Mr. Weslow had with him a sample of oil, secured at a depth of 1200 feet near Childress. One hole has been drilled to a depth of 2000 feet and other rigs are to be started soon, he says. He also had a number of pictures of Childress scenes that were of interest. Before becoming secretary at Childress, Mr. Weslow was at Mexia, Texas, and did much to secure publicity for that place.

MEMBER OF FIRM OF BALL BROS. OF MUNICIE IS VISITOR HERE

The plant of the Wichita Falls Pottery Company, which was destroyed by fire last fall, is now being rebuilt and operations will be resumed probably in February. The new building is on the site of the one which was destroyed in the factory district. The fire which put the plant out of commission did not damage the kiln or oven, which is the most important part of the plant.

Messrs. Donaldson and Turner, owners of the plant, began arrangements for rebuilding as soon as their first plant was destroyed and work was started a short time ago on the new building. It will be completed within a few weeks and operations will be resumed as soon as possible.

How You May Throw Away Your Glasses

The statement is made that thousands wear eyeglasses who do not really need them. If you are one of these unfortunates, then these glasses may be ruining your eyes instead of helping them. Thousands who wear these "windows" may prove for themselves that they can dispense with glasses if they will get the following prescription filled at once. Go to any active drug store and get a bottle of Optons; fill a two ounce bottle with water and drop in one Opton tablet. With this harmless liquid solution bathe the eyes two to four times a day and you are likely to be astonished at the results right from the start. Many who have been told that they have astigmatism, eyestrain, cataract, sore eyelids, weak eyes, conjunctivitis and other eye disorders, report wonderful benefits from the use of this free prescription. Get this prescription filled and use it; you may not strengthen your eyes that glasses will not be necessary. Thousands who are blind or nearly so, or who wear glasses would never have required them if they had cared for their eyes in time. Save your eyes before it is too late! Do not become one of these victims of neglect. Eyeglasses are only like crutches and every few years they must be changed to fit the ever-increasing weakened condition; so better see if you can, like many others, get clear healthy, strong magnetic eyes through the prescription here given. (Adv.)

### A TEXAS WONDER

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women. Regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment and seldom fails to perfect a cure. Send for Texas Testimonials. Dr. E. W. Hall, 1525 Olive St., St. Louis, Mo. Sold by all druggists. (Adv.)

### RENTROP WINNER IN MAT CONTEST

DEFEATS ALOIS SVOBODA IN TWO FALLS OUT OF THREE FRIDAY NIGHT

### MORE MATCHES PROMISED

Two Challenges Are Accepted By Winner, Svoboda Calling For Return Match Next Week

Germany triumphed over Bohemia Friday night when Charles Rentrop overcame Alois Svoboda in two falls out of three, on the wrestling mat at the Moose hall before a large crowd of spectators. Rentrop claims the light heavyweight championship of Germany and Svoboda claims the same title in Bohemia, his native land.

Prospects of other contests in the near future are good. Three challenges were read before last night's match started and after it was over Svoboda challenged Rentrop for a return match and was accepted; Chas. Hansen, a tall blonde from Omaha, also challenged Rentrop and was accepted.

Friday night's match was an interesting one in many respects. It was the first ever held in this city that had to go three falls to a finish. It took Rentrop twenty-five minutes to get Svoboda down the first time, using a head scissor and loopy hold. In just three minutes, Svoboda won the second fall, bringing the German down with a head scissor and bar arm. After the two had wrestled ten minutes for the third fall, Rentrop secured a toe hold and Svoboda surrendered the evening's honors without going to a fall. There was some question about the first fall in the mind of Svoboda and also in the minds of some of the spectators, it being claimed that one shoulder never touched the mat.

#### To Have Other Matches.

Svoboda was the crowd's favorite, apparently and was roundly cheered when he brought Rentrop down in three minutes for the second fall. The German had his following, however, and as usual kept his good humor. He is due to meet Svoboda again, probably next week and will also meet Hansen on the local mat. One mat preliminary was staged, being between Charles Vernon and Earl Finley both of this city. The two rolled each other around on the mat for ten minutes before Vernon secured a hold sufficiently firm to secure a fall.

The principals for the main bout were next presented. Before the match started, Timekeeper Leopold read challenges for Rentrop from "Texas Terror" Lewis of Houston and Carl Anderson of Del Rio. Bill Cabin of Fort Worth, challenged the winner of the evening's match, a letter from him being read. Svoboda's weight was announced as 169 pounds and Rentrop's as 165.

The head scissor was a favorite hold during the evening and both wrestlers used it extensively. Svoboda seemed the stronger of the two, but Rentrop moved with lightning quickness and undoubtedly evinced a better knowledge of the game. They started with the head scissor and each was forced to break one of these holds; then each tried the toe-hold with little success. Svoboda then secured a full nelson that looked promising, but Rentrop jerked loose. He then secured a hard and fast head scissor and it looked like a certain fall, but Svoboda broke away and was heartily applauded; a moment later he got away from a combination head scissor and arm-wrestling arm hold by getting a hold and retreating by getting a leg from the mat. Rentrop kept the German busy for the next few minutes, using a body scissor and nelson and a full nelson in succession without getting near a fall.

#### First Fall For Rentrop

Rentrop then began to carry the match to the other, trying several times for a nelson and then changing to a head scissor. Several times he seemed to have Svoboda due for a fall, but the Bohemian's superior strength pulled him out of bad holes. He was kept on the defensive almost continually but suddenly became the aggressor and obtained a full-nelson that Rentrop and some trouble in wriggling out of. A moment later Rentrop got a head scissor and body hold and forced Svoboda's shoulders back. His left shoulder clearly touched the mat and Referee Buchanan thought his right one did too, giving the fall to Rentrop.

The second fall was quick and sure. Svoboda seemed to catch Rentrop napping and before the round had fairly started the German was in the middle of a head scissor and bar arm that all his strength and agility could not break. In three minutes after the start his shoulders rubbed the mat and Svoboda's adherents were joyful.

Rentrop was the aggressor in the third fall and kept Svoboda on the defensive for practically all of the ten minutes. He tried head and body scissors without results and then again found himself in danger when Svoboda secured a wicked head and arm hold. Rentrop wrenched himself free after an unpleasant half a minute and a few seconds later, while Svoboda was lying on his stomach, Rentrop set his foot for the dreaded toe-hold. Svoboda was apparently in no condition to stand the punishment and gave up.

The match was watched by a large crowd, which seemed to enjoy it greatly. There was some roughness and some unusually punishing holds were used, but it was considered a very pleasing exhibition. Among the spectators were a number of the gentleman who seemed to enjoy the contest as much as the men folk.

### TWENTY-FOUR BLOCKS OF PAVING NOW COMPLETED

Holiday street and the street has been graded to Brook, so that another Sunday will probably see the work completed that far out. This work added to the downtown pavement, gives this city a total of twenty-four paved blocks.

Wooden blocks have been laid on Tenth between Ohio and Michigan and the work is well under way on Ohio between Tenth and Eleventh.

Plans are under way for paving the alley between Michigan and Ohio, in the business district. The railroad company is to pave its portion of the alley and an effort will be made to line up the property owners on the remainder of the alley so that all the work may be done at one time.

### CATARH sufferers

Get immediate and effective relief by using Hyomel

Hyomel is nature's true remedy for catarrh. There is no stomach dosing—no breathable it.

When using this treatment you breathe healing balsams and effectively reach the most remote air cells of the throat, nose and lungs, the catarrhal germs are destroyed—quick and sure relief results. Hyomel often restores health to chronic cases that had given up all hope of recovery. Its best action is at the start of the disease when the breath is becoming offensive, and constant sniffing, discharges from the nose, droppings in the throat, or that choked up feeling begin to make life a burden. At the first symptoms of catarrhal trouble, surely use Hyomel. Ask Foosebe & Lynch for the complete outfit, \$1. They will refund the money if it does not give satisfaction. (Advt.)

### SEEDS KEPT IN FIRE PROOF SAFE

ARE THE ONLY ONES OF THEIR KIND IN WORLD—DEVELOPED BY BURBANK

### ARE TO REPLACE WHEAT

New Food Plant, Which Originated in South America, to Be Introduced to United States

San Francisco, Jan. 1—When planting time comes next spring there is one crop for which the seeds will be taken from a "burbank" and fire-proof vault in San Francisco.

These seeds represent more than a quarter of a century of work by Luther Burbank. If lost or destroyed they could not be duplicated, at any rate for years, and it was to guard against this that the Luther Burbank Company recently stored them in the strong-arms of the Union Trust Company and the Seaboard National Bank.

One seed is a new kind of flax, from the oil of which artists will make their paint. Another is a cereal known as quino to take the place of wheat, barley or oatmeal. Painters have long complained that the oil of which artists will make their paint is not neutral because of the variability of the flaxseed from which it is made, and consequently that it often

gives unexpected and sometimes unsatisfactory effects. Burbank began gathering every kind of flax from all parts of the world years ago, selected a certain seed as his ideal and began developing the plant to grow only this type. Year after year the seed was planted, and when it was ripe only those were kept that year of the type desired. Finally a point has been reached where the variety seems to be become fixed. Burbank declares that the oil it produces is absolutely neutral.

The quino plant is designed to take the place of cereal foods made from different grains. The seed resembles a small hominy and the plant looks like a wild mustard. It is claimed to have all the food values of other grains and is much cheaper. Moreover, in making cracked wheat, rolled oats or barley much of the grain is wasted. The entire seed of the new plant is utilized. Originally it came from South America, but its development and climatic adaptation to California soil and weather conditions have taken years of study and experiment. Of the quino seeds of the type Burbank has produced there is not a peck in the world.

"We have put the seeds in safe deposit vaults," said President James R. Edwards of the Luther Burbank Company, "because if they are destroyed they would never be reproduced. There are no more like them, and I doubt if Burbank would live long enough to develop them again. It will be several years before we shall be able to raise a sufficient quantity of either seed or be placed upon the market."
