INTRODUCE BILL FOR FARM LOANS

RURAL CREDIT MEASURE IS PRESENTED IN HOUSES OF CONGRESS TODAY

CO-OPERATION IS PLANNED

Bill Would Establish Bureau of Farm Land Banks in Treasury Department

By Associated Press. Washington, Jan. 29.—Administration rural credit bills were introduced in the Senate and House today by Senator Fletcher of Florida and Representative Moss of Indiana, members of the commission which President Wilson sent abroad last summer to study the foreign system.

The bills today were for long term farm loans. Bills for short term farm loans will be introduced later. The introduction was a sequel to yesterday's conference at the White House.

Today's measure would establish in the treasury department a bureau of farm land banks under direction of a commissioner and would make provision for formation of such banks in any state under federal charter and federal inspection.

Any group of farmers within a state might organize co-operative farm land banks with power to issue bonds to raise funds from district money markets for farm development. Operation of individual banks would be confined within state lines, although supervision would be federal. This is due to the variety of state laws on land titles, taxation, foreclosure and like subjects. They would be strictly prohibited from doing a city business.

Loans to farmers might not exceed fifty per cent of the value of improved land, not extend more than thirty-five years. No institution could begin business without a foundation capital and double liability provided for national banks. The amount of long term business which might be undertaken could not exceed fifteen times the amount of paid up share capital and surplus.

The occasion will be marked by a national celebration. When he met his death Macauley had cast his lot with the native Colombians who were then in revolt against the parent state and his memory is cherished as that of a great liberator.

CURRENCY HEARINGS CONCLUDED TODAY IN COLORADO

Denver, Jan. 29.—Secretary of the Treasury McAdoo and Secretary of Agriculture Houston today expected to conclude the three-day hearings on whether one of the new regional banks under the recently enacted currency law should be established in Denver. Mr. Advo and Houston expect to leave here tonight for Seattle, Wash., where they will conduct hearings on January 31.

GROWTH OF CATHOLICS NOTED IN STATISTICS

Rome, Jan. 29.—The Vatican made public statistics today tending to demonstrate what it calls the "eternal youthfulness" of the Catholic church. The report states that during the ten years of Pope Pius' pontificate, he has founded eighteen new archdioceses; fifty-three dioceses; thirty-four prefectures; thirty-seven districts ruled by apostolic vicars and four districts governed by bishops.

This growth of the Catholic church is without precedent and to indicate the enormous amount of work which Pope Pius has accomplished.

POLLS GAINING ON 1913 TOTALS

BOTH CITY AND COUNTY WILL PASS LAST YEAR'S FIGURES TODAY

CITY, 1225; COUNTY, 2409

Receipts Issued Today and Tomorrow Will be Clear-Gain Over Totals for 1913

Last year's totals in poll tax receipts were passed by the city this afternoon, with indications that the county would do the same before night. This means that all the receipts issued on tomorrow and Saturday, the only days remaining on which citizens may qualify as voters, will be clear gain.

The city's total this afternoon was 1225 and the county's 2409.

Last year, the city issued a total of 1227 poll tax receipts, while the county's total was slightly in excess of 2500, so that both will probably go ahead of 1913 this afternoon.

County figures were increased today by the arrival of one or two large batches of powers of attorney from Burk Burnett and other places. Burk Burnett is making an excellent showing this year and the number of receipts issued there indicate a marginal increase in population. The figures by boxes follow:

1 City Hall	315
2 Court House	350
3 Allendale	25
4 Cashiers	53
5 Burk Burnett	224
6 Iowa Park	176
7 Denny	37
8 Beaver Creek	15
9 Clara	45
10 Electric	375
11 Bridge	111

Heavy Breakers Are Rolling Over Her Near Colon and Fears For Crew Entertained

By Associated Press. Colon, Jan. 29.—The yacht warrior belonging to Frederick W. Vanderbilt was in a bad position today and appeared likely to go to pieces at any moment. It is reported here the steamer Frutera is standing by but is helpless in the storm.

OKLAHOMA CONVICTS WHO MURDERED JUDGE AND THREE OFFICIALS; ONE VICTIM; GOVERNOR WHO PROMISES STATE PROBE

McAlester, Okla., Jan. 29.—A state probe of prison conditions is promised by Governor Lee Cruce as the result of the recent daring attempt of three convicts to escape from the state penitentiary here and which attempt resulted in the violent death of seven men. He will institute disciplinary methods that will prevent such a tragedy from occurring in future.

Judge John R. Thomas, former congressman from Illinois, federal judge in Indian Territory during territorial days, P. C. Oates, deputy warden; F. C. Godfrey, cell house sergeant and H. H. Drover, Bertillon expert, were killed by convicts Tom Lane, "China" Reed and Dave Koontz. The three convicts also were killed soon afterward while attempting to escape through the prison farm.

The three convicts had obtained a gun and holding up the turnkey, took the keys, made their way into the offices of the prison and in getting possession of Miss Mary Foster, stenographer, whom they used as a shield from the guards, killed the four men. While attempting to escape in a buggy which they seized the convicts were riddled with rifle bullets by the prison guards. Tom Lane was serving a six year term for forgery. He had a year and six months to serve. "China" Reed was convicted for horse stealing and offered for the second time on a prison sentence in the Oklahoma prison last December. Dave Koontz was serving a fifty year sentence for bank robbery.

"There are yet many details to pass through the crucible before we reach the stage of filing the decree."

He declined to give any details of the compromise until formal decree is filed. It is admitted the settlement will prove of great benefit to the State by way of extending by the Katy. It is understood also to be the administration's policy not to exact heavy penalties from the Katy if the proposed extensions meet the requirements.

The Katy will also be required, it is reported, to be divorced from the so-called Wichita Falls lines.

A verdict of not guilty in the district court this afternoon by the jury in the case of Sam Carter, charged with murder in connection with the death of Robert Cobb, last May. The case went to the jury at eleven o'clock this morning and the verdict was returned shortly after two o'clock this afternoon.

Cobb died as the result of injuries to his head, alleged to have been caused by blows from Carter's fists. The defense sought to show that the deceased had been injured previous to the attack by Carter and that the injuries were not necessarily due to the blows inflicted by the defendant.

VILLA TALKS OF REBELS OUTLOOK

SAYS THERE IS ONLY ONE REVOLUTIONARY MOVEMENT IN MEXICO

TO EXTERMINATE BANDITS

Question Is One of How Long Huerta Can Resist Decline of Loyalists to Carranza

By Associated Press. Juarez, Jan. 29.—How long the killing and looting by independent bands, destruction of property and prostration of business will continue in Mexico, General Villa said today, will depend on the resisting power of Huerta. He said:

"There is only one revolutionary movement. We are permitting the so-called independent bands to fight because they are helping our cause. Anything which embarrasses this usurper Huerta helps us, but when once we triumph there will be no excuse for any more fighting. If any bandits remain we will quickly exterminate them."

"I do not look for any opposition to the government of which Carranza probably will be the head."

Says Carranza is Leader.

He said that, although his victories against the Huerta forces at Ojinaga and Chihuahua had attracted attention to himself, he did not wish to overshadow Gen. Carranza, whom he recognized as the leader of the revolution.

"Should Gen. Carranza become President, he would receive my support and I would obey his commands," said Gen. Villa. "As proof of my loyalty and as evidence that I have no ambition to become President, I would leave the country if he ordered me to do so."

Gen. Villa's interview was given in his little plastered adobe house, where he went immediately on his arrival from Chihuahua. On the floor in the front room where he stood were six gun bags, each containing 10,000 Mexican dollars, and on the window sill were half a dozen newly purchased diamond rings still glittering in their push boxes. The coin was purchased from the banks in El Paso for use in Chihuahua, where silver has been scarce, and the diamonds were presented from various revolutionary commanders.

"I have never been in anything but the fullest accord with Gen. Carranza," said Gen. Villa. "I never had any personal ambition to reach high office. I am a fighting man only and I am fighting for the liberation of my country, not to elevate myself. I am only a soldier under command of my chief, and I shall obey him whatever his orders may be."

WOULD-BE WOMEN VOTERS MUST TELL THEIR AGES

Chicago, Jan. 29.—Women who desire to register on Feb. 3 in order to be able to vote at the aldermanic primaries must tell their exact ages, according to special instructions issued today by the board of election.

"Each woman must state her age in years," the instructions read. "This was not necessary in the case of applying for the position of judge or clerk of elections. There is sufficient to say of 'legal age,' but the law is positive in the case of registration that all must give their exact age."

"A woman's voting age, like a man's is twenty-one years, not eighteen, as is common law marriage. The difference is the common law exact age, has nothing to do with election law."

CONFUCIANISM IS TO BE CHINA'S STATE RELIGION

Bill To That Effect Is Passed Today By Administrative Council at Suggestion of President

By Associated Press. Peking, China, Jan. 29.—A bill prescribing the worship of heaven and of Confucius by the president of the Chinese republic was passed today by the administrative council which took the place of the Chinese Parliament recently dissolved by President Yuan Shai Kai. The measure was submitted to the council by Yuan Shai Kai himself.

It is understood, the president's idea is to set an example to the Chinese nation, which he thinks is in need of the influence of religion. He will worship annually at the temple of Confucius and heaven just as the Manchu emperors did, but without wearing the diadem. Wearing this diadem was proposed but was not adopted for fear it would be taken as an indication of Yuan Shai Kai's monarchical designs.

NATURAL COLOR PHOTOPLAYS AT THE WICHITA THEATRE

The Wichita Theatre will present tomorrow the first of their new series of natural color photoplays. A five-reel drama entitled "His Faithful Passion" is the subject in a story of civil engineering with a plot laid in a mining camp. During the action a whole mountain side is blown up, making a stirring picture of most exciting scenes. The entrance of natural colors into moving pictures marks a new epoch in photo dramatics, in that every scene or action is depicted in the actual, natural colors, and the very minutest details are illustrated. The invention is the work of two Frenchmen, former employees of the Pathe service, who conceived the idea and carried it out to such a successful conclusion that it is now the wonder of the photographic world. In addition to being in natural colors, the films are made of non-inflammable material, which is also a novelty in this country, but which are the only kind which the French government will allow to be used.

Whoever is right, the man who is unchivalrous to woman is wrong.

The permanence of American institutions depends upon patriotism.

What the spirit of liberty is in politics, that the spirit of purity is in religion.

Because of the abuses of power and wealth God keeps most human beings obscure and poor.

VAN WILLIAMS CASE ON TRIAL IN DISTRICT COURT

Defendant is Charged With Assault To Murder in Connection With Burk Burnett Shooting

The case of Van Williams, under indictment for assault to murder in connection with the shooting of J. T. Williams at Burk Burnett last night, is on trial in the district court this afternoon. A large number of witnesses from Burk Burnett and from Altus, the former home of the defendant, are here to testify. Selection of a jury began this morning and was completed at noon, the following being chosen: William Joehrandt, J. C. Pate, D. E. Hooks, Charles Priebe, Henry Schrader, J. W. Snow, Willis Holston, O. J. Schneider, P. A. Alverson, J. A. Miller, Leon Loeb, J. C. Keuhn. Williams is defended by Judge Garrett of Altus and by L. H. Mathis of this city.

J. T. Williams was shot late one night at Burk Burnett while he was out on the streets looking for an officer to eject Van Williams who roomed at his home from his house. The two men are not related. A short time before the shooting, according to testimony adduced at the examining trial, J. T. Williams, who is past middle age, had discovered Van Williams and Mrs. J. T. Williams together. Mrs. Williams was bound over to the grand jury in the case, but indictment was returned against her.

WOULD IRRIGATE LONDON DESERT

London, Jan. 28.—Work has been commenced on another great scheme to reclaim by irrigation vast tracts of desert in the Sudan. It is believed it can be made to add enormously to the cotton output of the British Empire.

The tract which is to be watered is known as the Giza territory. It lies between the Blue Nile and White Niles, below Khartoum and consists of 1,500,000 acres. The force and flow of the two rivers is sufficient to water the entire district when properly harnessed. The proposal is to build two dams south of Khartoum, one over each of the rivers. Thus the tract between the two rivers will be irrigated, while at the same time the force of the water flowing into Egypt will be controlled. At present the Blue Nile comes down in a raging flood and the White Nile, flowing in steadier fashion, combines with it to make a huge deluge. The damming of the two dams will enable the flow to be properly regulated and will practically mean the final harnessing of the Nile.

Countless Plans Exploration.

Countess Mattoni, of Russia, has drawn up plans for the conquest of Arabia from west to east, including the exploration of the Ruba al Khali Desert, a region of 600,000 square miles which no European has ever entered and which is probably the most mysterious and inaccessible region in the world. Her plans, containing as they do the remains of buried cities or whether the whole is nothing but arid sand, none can say. It is very doubtful whether even a native has crossed more than the outskirts of the desert. Countess Mattoni has already done considerable traveling alone in South West Africa.

"I intend," she said, "to travel alone, so far as Europeans are concerned, for I believe this to be the safest course. I shall dress and live as an Arab. My plans have been discussed with the Geographical Society, who admit the immense interest attached to the desert, but make no secret of the dangerous character of the journey.

"From Dalar I shall travel to Teima, the point from which several unsuccessful attempts have been made to get into the heart of the country. This part of the journey will involve a couple of weeks travel over mountains. My next objective will be Tamreh, three weeks' journey to the southward over difficult mountain country. Tamreh is the last point in the desert marked on the map and the relief beyond is a level of desert between that place and Muscat, is absolutely unknown. One of the greatest perils will be the absence of water, but I am arranging to travel in the spring when my she camels will have a plentiful supply of milk. Raising my rate of progress by camel at 40 miles daily, I should with luck, emerge at Muscat in May.

FATHER AND SON MOVEMENT GROWS THROUGHOUT COUNTRY

Cleveland, O., Jan. 29.—Robert E. Lewis, general secretary of the Central Y. M. C. A. announced today that close to 500 mayors of various cities throughout the United States and several governors had written heartily endorsing the "Father and Son Movement" designed to bring fathers and sons into closer relationship.

The committee promoting the movement recently wrote the mayors of five hundred cities and the governors of all the states urging them to join in pushing the movement and asking them to issue proclamations similar to the one of Mayor Newton D. Baker issued here, endorsing it and appealing to every citizen of the United States to join the movement. Mayor Baker in his proclamation outlined the object, stating that it was the purpose of the promoters to urge fathers and sons to begin a new fellowship and a new comradeship and to learn to enjoy each other in recreation and in counsel.

OFFICERS ELECTED BY FORUM WEDNESDAY NIGHT

Interesting Program is Carried Out by Organization—Joint Debate is Now Being Arranged

At a well attended meeting of the Young Men's Forum held last night in the Chamber of Commerce rooms in the city hall, officers were elected for the ensuing year as follows: Barton Stuyton, president; T. O. Sattler, vice president; Wiley Fuller, secretary-treasurer.

The debate for the evening was on the topic "Resolved, That Capital Punishment—Should Be Abolished." The negative won. The affirmative arguments were by Messrs. Sattler and Fuller and the negative by Messrs. Ertleman and Hull. Short talks on timely topics of the day were delivered by Messrs. Heiserman, Crowell and Stuyton. A challenge was received from the debating club at the high school and a committee appointed to make arrangements for a joint debate on Friday, February 6 on the compulsory education question.

The program for the next meeting next Monday evening will include a debate on subject "Resolved, That High School Training of the Present Day Fits a Young Man More for College Than it Does for Business." Messrs. Stuyton and Bonner will have the affirmative and Messrs. W. Yeager and Heiserman the negative. There will be brief talks by other members.

DALLAS-WICHITA FALLS INTERURBAN PROSPECTS

Arrangements Now Being Made To Finance the Road—Statements By Promoters

Dallas, Texas, Jan. 29.—In speaking of the construction of the interurban line of the Dallas Northwestern Traction Company, for which company a charter was awarded Monday at Austin, John T. Witt, one of the incorporators of the project, said that work would begin on the new line as soon as arrangements can be made for the issuance and sale of construction bonds.

It is proposed to run the line over the Trinity River at or near the Commerce street bridge and from there out the West Dallas pipe through West Dallas and northwest by way of Cement City. Franchisees have already been obtained from the commissioners' court of Dallas and Denton counties. Mr. Witt further said that two lines had already been surveyed between the two termini, points of the line, but that neither had been finally decided upon. The first terminal will be made at Krum from which point the road will later be constructed to Wichita Falls, its objective point.

E. F. Turner, one of the incorporators of the company and one of those most active in its development, was asked Tuesday morning as to what arrangements had already been made by the company, and gave out the following statement:

"The failure of the Banque Franco-Americain of Paris, France, has interfered somewhat with our financial arrangements, but I feel encouraged to believe that other arrangements will soon be made.

"It has been nearly impossible to place bonds of any kind in this country lately, but change seems to be coming fast and from my observations first class interurban bonds will soon be much sought after.

"We have completed two surveys to Denton and are now finishing estimates of the cost. These estimates will be placed before the board of directors at their next meeting, at which time the route will be finally decided upon.

"Krum, a station seven miles west of Denton on the Santa Fe, will be our first terminal. This will turn it Dallas one of the best trade territories, which is now tributary only to Fort Worth. I believe that only the Southwestern and Northwestern lines are of the utmost importance to this city, which has reached the point where interurban lines radiating in every direction from Dallas as a center are needed very much to insure her continued prosperity and wonderful growth. I believe that the people of the city and surrounding country will assist us by subscribing for the amount of preferred stock necessary to comply with the requirements of the road. The stock will soon be put on the market."

Counting the Cost.
Dear girl, if you would be content with cheaper cuts and treats in Dubuque,
Few gowns and just a modest rent. Why, I could love you very much! But you have an expensive taste! And I have not a cent to waste!

If you cared for a little flat—On some unfashionable street, If you'd trim your own winter hat. Our lives, dear, might be calm and sweet,
If you liked modest things like those. Then possibly I would propose!

The cost of luncheons that you eat and tickets to the matinee—Should keep us, love, a month in meat.
Or beans and bacon, anyway! Since you want luxuries like these My burning love for you must freeze.

Grand operas your thoughts engage. You must have jewels, hats and silk. And I have but a meager wage—For me like is plain bread and milk. I will admit you are a pearl. But I must find a cheaper girl!

"A LADY OF QUALITY" AT NEW MAJESTIC TOMORROW.

Another of the reels of the Famous Players Film Company will be presented tomorrow at the New Majestic, the title being "A Lady of Quality." This is from Francis Hodgson Burnett's novel of the same name and those who read it remember it as a story of striking interest from cover to cover. It deals with a girl who is reared almost as a boy would be but who in the end shows the refinement and power of her breeding. There are many dramatic situations in the production and the story preaches a powerful lesson that adds to its strength.

Wichita Falls, Texas, Jan. 29, 1914

There were 4,536 births and only 1,800 deaths in Texas during the month of December last. So much for sanitation and enforcement of health regulations.—San Antonio Express.

That is a mighty nice report for Texas, if true. But is it correct? It has been the observation of this paper that the law which requires that physicians shall make reports on monthly as to births and deaths is not being obeyed to any great extent, and if any attempt has been made to require them to do this it has passed unnoticed by the Times.

Only two more days left in which to pay your poll tax and qualify as a full-fledged voter in all elections to be held this year.

Colonel Goethals has been made an offer to resign his position as chief engineer of the Panama Canal, but he has said this is not desired. It will not be for the salary attached, but to try his hand at reforming the police department of New York City which, to say the least, is a problem that so far has baffled the wits of some of the very best men that could be found.

In an interview given out by Gen. Villa to an Associated Press reporter yesterday afternoon, he stated in a most emphatic way that it was not his desire or ambition to become president of Mexico, stating that he was in full accord with Gen. Carranza, and would obey his orders to the letter, even if Carranza should order him to leave the country.

Two years ago there was one pro candidate for governor, and only one anti, Judge Ramsey, a clean man politically, and a pro was defeated by Gov. Colquhoun, an anti, and who is now commended by many to be the most unpopular and the worst failure as a governor that Texas has had for many years, and his majority of 50,000 over Ramsey was given him, in the main, by counties in the blackland district that usually roll up the largest pro majorities. Just why this was true, the Times of course cannot explain, but the election returns show them to be cold facts. When the pro eliminators meet at Fort Worth on Feb. 21st they may be able to explain Ramsey's defeat, or why the pros refused to support him as their candidate, preferring instead a rank anti. It is possible, however, they may be able to pick a candidate who can carry with him the solid support of the pro element of the Democratic party, and in that event there is no question but that he will win the nomination. But it is evident now that Lane is not the man who can do the trick. Neither can Mayes or Thomas. It is also certain that unless Lane is endorsed or picked as the choice of the eliminators, he is sure to make the race at all hazards, and that means the nomination of an anti for governor, sure and certain. There is a considerable element of pro Democrats who will refuse, absolutely, to support Lane in the July primaries. It matters not who the opposite candidate might be. Therefore, if the three pronounced pro candidates—Thomas, Mayes, and Lane—really want to see a pro Democrat elected governor of Texas, the surest way to bring about such a result will be for all three of them to withdraw and name some man whom all pro Democrats can unite on. In the estimation of this paper, Tom Ball of Houston can come nearer pulling all these things any man yet named.

NO MORAL VALUE (Chicago, Tribune) The head of a large industrial concern, commenting on the Ford scheme of wage increases, said: "I should say that Mr. Ford was assuming an immense responsibility. He purposed to let a 2.45 man earn \$5.00. It is human nature to spend up to our incomes. The \$2.45 man will get the habit of spending \$5. If hard times of a king in good times comes along, he is apt to be unhappy and embarrassed because he will then be thrown back upon the reduced scale of living. There might be a disposition to smile at this as indicative of a theory that wages should be determined, not by what industry should and could afford to pay, but by the wages a man's discretion in spending. We assume the capitalist to be altogether sincere and honest in the conviction that low wages, regardless of the ability of an industry to make an equitable distribution of profits, cause a moral value. The position may be held in many quarters of industry. If so, it indicates a medievalism that has not had the spotlight. There were centuries which held the view that to promote general public education was to contribute to general public unappreciation and unrest. Berkeley, even in Virginia, would have no public school making the masses discontented. There ignorance had a 'moral value.'"

THE HEART OF A MAN On a Southern railway train recently there was a lady traveling who had a sweet baby boy who had long since wearied of his journey. He was not contented in any position or with anything the mother had to offer. The passengers near saw the trouble and some would have been glad to give the mother a few minutes rest, but none dared. Others thought the mother should have stayed at home. By and by a man with a kindly face got on the train and found a seat across the aisle from the fretful child. His attention was at once centered upon the two. He held his hands confidently for the little fellow but he refused. Then the gentlemen arose and approaching the child with a kindly smile, said "Let's see the train." The dumpled heads went out to meet him, as he said, "See the train." The two boys' friends. The man carried him to the end of the car where, to the delight and relief of the mother, and the admiration of most of the passengers, he held the child tenderly in his own language. The confidence gained he came back to his seat and held the child and let him play with his nose and mustache and pressed his chubby fingers against his chin. The train had reached his mother's destination and she took the child saying, "Thank you, kindly, Sir. I must put on his cloak now." The gentleman gave him up with a reverent bow and then took his seat. He sat pensively a little while and then covering his bow on the arm of the seat. He sat thus for some minutes and then in spite of his efforts at secrecy, was seen to take his handkerchief and blow his nose hard and incidentally wipe his eyes. The porter called his attention and he left the car. Two ladies sitting together looked at each other and one happened to know the man said, "Just about a year ago he lost his own baby when the age of this one." Christian Science Monitor.

CRANKS GENERALLY We come across them all the time, those persons whose unfortunate dispositions win for them the name of cranks. We see them and hear them so often that we come to regard them as an indispensable factor of society, accordingly we try to accept them with resignation. Crankiness, however, does not appear to be altogether a product of disposition; conditions have as much, if not more, to do with its presence, and while we are quick at time to call a person a crank and the world is never slow to find this out; but on the other hand, many persons who are really not in the least inclined that way by nature are, because of some temporary peculiarity, characterized as such and such characterization is hard to combat. Crankiness is hard to define in a few words, perhaps because it embraces so large a proportion of human gallage and it is for this reason, probably, that we find ourselves discovering many varieties of it. Crank then we imagined existed. If a man grows tiresome and monotonous in his conversation; if he harps on one subject indefinitely; if he holds unusual views on any question, he is called a crank.—Charleston News and Courier.

PEOPLE EXIST TOO FAST SAYS CLEVELAND DOCTOR

Lays Down Set of Rules by Which People Can Defeat Dr. Cleveland's Theory

How to Beat Oyster Theory. Eat red pepper. Eschew black pepper, tea and coffee. Do not "stuff." Drink a gallon of water every day. Breathe deeply. Keep out of doors as much as possible.

Cleveland, Jan. 28.—"Overating puts more people in the graveyard than overdrinking. This is the basis of the longevity rules of Dr. W. P. Horton, prominent Cleveland physician, who is sixty years old but looks forty. He says he feels thirty and on the old theory that woman, poor thing, is as old as she looks, but a man's just as young as he feels, he says he is sixty thirty. Dr. Horton is husky, clear eyed and the glow of health is reflected in his cheeks. "I have been making a study of folks for forty years," said Dr. Horton today. "The trouble with most of them is that they exist too fast. They don't live. They eat things we don't really eat. We swallow pre-digested foods. We drink tea, coffee and other stimulants in ever increasing quantities. We exist in over heated, steam heated atmosphere. We spend too much time in stuffy, unventilated rooms and not enough in the open air. Our children skate in indoor rinks; our men play pool and poker in smoke filled rooms; our women play bridge in close drawing rooms. If there was more walking to school by children; walking at least part of the way to work by men, and walking to market by the women, we would all be better off. This artificiality is telling on us. Instead of controlling our muscles and nerves, our muscles and nerves control us."

MYSTERIOUS PICTURE IS HIDDEN IN OKLAHOMA

(Dallas, Times Herald) Is there hidden away in the wilds of Oklahoma town an art gem of surpassing value? Can it be that the largest picture known to art has been packed away in a barn waiting for some one to come and rescue it? Such seems the case. There has come drifting from Oklahoma to Dallas a strange story of a picture painted there that to the natives has just appeared to be wonderful. Its real art value is unknown to them. Whether or not it would create a furor at an art salon is problematical. Yet the stage is set for something of the kind. The picture is "Christ Before Pilate" and measured twelve by nineteen feet. When one reckons this in picture it is something like our own western plains stacked up beside a New England farm. Its painting makes the tale worth telling. It was done in a small town in northern Oklahoma by an artist who is unknown. He did it without a model and without hope of reward or recognition. He must have loved his work, too, for he stuck valiantly to the task until it was done. The picture contains twenty-five full sized figures of those at the trial of Jesus, and must have been painted in the memory of some other picture drawn from a long cherished dream of its executor. He came to the town with just enough money and material to do the work he had laid out for himself. He hired a small cabin, strung the canvas along the wall and began his task. For many weeks, according to the story the artist toiled with the picture and as it gradually took shape it became a curiosity to the whole neighborhood. They would come many miles to see him work and when he had finished, they would come to see the picture. He had no money and food and kept him encouraged. He finally completed it and evidently feeling that he had completed a life work, he disappeared among the Indian reservations. He gave the picture to his friends before they told them to come well for it. That is all that is known of him. Where he came from, what his name was—in fact, anything at all about him was a blank. He has not been heard from since. His picture was packed away in a barn and for years before the picture was found again by accident. A farm hand, looking for a tarpaulin to cover hay, brought it to light and was struck with surprise. It was lucky that the said farm hand had been out of funds before the picture was recognized at once that he had in his hands a painting of worth. He hauled it out, dusted it and hung it where he could get a full view. He knew beyond all doubt then that the thing was unusual.

NEW VAUDEVILLE BILL AT LYDIA MARGARET THEATRE

The vaudeville bill at the Lydia Margaret for the last half of the week includes Miss Blanche Irwin, a pretty and talented comedienne, whose singing is said to be an exceptionally enjoyable feature. The other act presents the troubles of the well known "Happy Hooligan" by Datto Treese and Company; it was by mere chance that the Lydia Margaret was able to get this act, which is described as one of the classiest novelties on the road. These two acts, with a pleasing picture bill, make up a very entertaining program.

Blanche Irwin

Miss Irwin, with a winning smile and three stunning creations of the modiste, is the vocalist on the new bill at the Lydia Margaret today. She sings an Italian song in costume, follows it with a complete change of wardrobe and gives one of the "best sellers" in music and concludes with another elaborate display of wardrobe and a very delightful rendition of "Let Me Call You Sweetheart" which sets the audience going.

HERE'S A WAY TO BEAT MR. HIGH COST O' LIVIN'

Cleveland, O., Jan. 28.—"Don't keep a garbage can in any event. Chickens, if you have room for them, are the best substitutes." This is one of the ways to get the best of Mr. High Cost 'o Livin', according to Mrs. Susie E. Weber, who has made a lifelong study of domestic economy—how to save waste and work in the kitchen. She hopes some day to establish a school in which she will teach the results of her experience. Mrs. Weber recently delivered a lecture to normal school girls, who are seeking to learn how a family of five must live to get along on an income of \$10 a week.

"The chief thing is to save waste," said Mrs. Weber. "Let me tell you it is the leaks in the kitchen of many households that are not only partly to blame for the present high cost of living—but also the direct cause for not a few divorces. Save your greases, fats and suets off meats, out of which to render lard for cooking purposes. Grate your stale bread to use in place of flour in baking doughnuts, muffins and biscuits. Use one cupful of bread crumbs to every two cups of flour or cornmeal. Use celery leaves to make celery soup. Celery soup made this way is the finest. Celery ends make good celery salad. Eat lots of raw carrots if you wish

to keep your hair from becoming gray. As for coffee it all depends on its making. The highest grade does not always make the best coffee. It is care that makes good coffee. "When working in the kitchen try to find the most graceful way, because it is always the easiest. Do not hunch over when peeling potatoes. Bring the potatoes to yourself. You save much of the potatoes as well as yourself. Beat eggs on a platter; not in a bowl. You will get a greater quantity and better results. Have plenty of tools to work with and up to date ones. Keep chickens or a garden so as to use the waste you cannot otherwise prevent."

NEW BANK PLANS ARE MADE PUBLIC

WILL OPEN FOR BUSINESS IN APRIL IN THE WARD BUILDING

SECURES TEN YEAR LEASE

C. W. Reid of Muskogee to be President—Many Local People are Among the Stock Holders

Arrangements are rapidly being completed for the opening of Wichita Falls' new financial institution, the National Bank of Commerce, as it will open for business about April 1, according to an announcement by Charles W. Reid, the principal organizer, who is to be president of the new bank. While it has been known for several weeks that a new bank was in prospect for this city, it was quite recently that matters reached a stage where an announcement of plans might be made.

The bank will be located at the southwest corner of Eighth street and Ohio avenue in the Ward building, which it has a ten year lease. This building will be remodeled and rearranged and architects are now at work on the plans.

Mention was made recently of the application for organization made to the controller of the currency in Washington. This was signed by five of the stockholders, all residents of Wichita Falls, as the law requires. The bank's stock has been subscribed by twenty or more Wichitans and by Mr. Reid and N. Wagner of Muskogee. Mr. Reid will be president of the institution, it is probably, while Mr. Wagner will be assistant cashier. No cashier has yet been chosen and this position is still open; it is hoped to find a suitable man here in Wichita Falls.

To be Home Institution, "When the organization of the bank is completed," said Mr. Reid, "every dollar of the stock will be owned by Wichita Falls people." The bank's capital stock is \$100,000.

Mr. Reid is making arrangements to move his family here and would probably have done so before the present had he been able to find a suitable house. He is looking for one, but is meeting the same difficulties in this regard that seem to confront every newcomer. He is a native of Arkansas and seemed almost regretful of the fact that he was born on the Arkansas side of the line. For many years he was in the lumber business, moving to Muskogee eleven years ago to enter the banking business. He was president of the First State Bank of Muskogee and Vice president of the American National. Mr. Reid looks forward to becoming a Wichitan with considerable enthusiasm.

"I feel that the outlook is very promising here," he said, "Wichita Falls is right where Muskogee was three or four years ago and Muskogee doubled in population in three years, going from 15,000 to 30,000."

The Ward building is to be handsomely remodeled to suit the needs of the new bank. Marble and mahogany fixtures will be installed with tiled floor, making an attractive and convenient building in every particular. The location is considered almost ideal for banking purposes. As soon as the first meeting of the stockholders is held, their names will be made public; those signing the application for organization included: J. C. Ward, J. J. Lory, Linn Boyd, J. L. Jackson and G. D. Anderson; there are about twenty other Wichitans interested in the institution.

Mr. Reid expects to make other investments here as soon as he has disposed of his holdings at Muskogee. In addition, he says several other Muskogee people are looking toward Wichita Falls and he expects some of them to enter business here.

"SHEPHERD OF THE HILLS" TO BE HERE FEBRUARY 6

Harold Bell Wright's most popular novel, "The Shepherd of the Hills" of which a million copies have been sold, has been made into a play by its author with the assistance of Elabery W. Reynolds. The production of this play in this city will take place at the Wichita Theatre on Feb. 6th.

The play is practically a true narrative of life among the humble dwellers of the Ozarks. It touches all the emotions and its influence is wholesome and helpful, notwithstanding several rough characters that figure more or less prominently. The shepherd of the story is a cultured and rough stranger who comes into the hills, glad to escape from the vanities and conventionalities to which he has been accustomed. There is a flock needing a shepherd, and he thankfully accepts the lowly occupation of a sheep tender, but soon becomes shepherd of a human flock, the big hearted mountaineers, their families and all who need a friend and advisor. Among his most devoted followers are Old Mat and Young Mat, the giants of the hills, Sammy Lane, glorious in the beauty of young womanhood and Poor Pete, a deranged lad who understands the voices of nature and sees what others cannot see. There is a mystery of the hills that often terrifies, but at last the solution is brought about by Pete and the shepherd and it is the latter who is most deeply afflicted and concerned. It is hardly necessary to add that a pretty romance is woven into the humor, pathos and tragedy, for the play throughout is one of human interest with a conclusion that is thoroughly satisfactory to Young Mat and of course to the auditor.

Messrs. Gaskill and MacVitty, the producers, have given the play a superb scenic mounting and a cast that has been carefully selected for its fitness to each type.

RENT HOUSES ARE MUCH IN DEMAND

SCARCITY PREVAILS AT PRESENT WITH MANY APPLICANTS FOR VACANCIES

MANY NOW BEING BUILT

Lull Noticeable a Short Time Ago in Residence Building Circles no Longer Evident

Demand for rent houses containing from four to seven rooms is very strong here now. There is a scarcity of houses of this type and an advertisement in the paper will bring dozens of replies. One Wichita Falls man who put in a house for rent a few days ago had it taken out the next day after it appeared.

"The phone calls started pouring in before I knew the paper was out," he said. "Applicants called me from the supper table and the phone wouldn't even go to sleep. It started ringing the next morning before I got out of bed. I believe I could have rented that house fifty times." The lull in residence building that began to be noticeable along in the latter part of November and continued until the new year is now no longer evident. A dozen new residences have been started within the last two weeks and permits are now being taken out daily.

CHICAGO NICKEL HOTEL NEVER LACKS BUSINESS

A Bed, Bath, Shiner, Shave and Fumigation Provided for Only Five Cents

Chicago, Jan. 29.—The "price of a bed" will work wonders at the Rufus Dawes Memorial Hotel, recently opened to the public and a clientele made up largely of members of a great army of the unemployed. For a single nickel, you can get a bed for the night, a bath, a shiner, a shave and have your clothing fumigated. A night shirt is provided free of charge for every lodger.

In the hotel restaurant, another nickel will move the following assortment of food your way: A beef stew with potatoes and vegetables, a cup of coffee with milk and two fat rolls. If you want a change in menu, you can ask the gentlemanly waiter to bring you a bowl of soup instead of stew. For ten cents you can get a "private room," but according to W. D. Taylor, manager, few of the regular guests squander a dime on such a luxury unless the dormitory rooms are occupied.

The new hotel was built by Chas. G. Dawes, Chicago banker, as a memorial to his son, who lost his life on Lake Geneva, Wis. The original investment was \$100,000. Receipts thus far have run far below operating expenses, but Dawes said today he "guessed he could stand the drain." There are 95 private rooms in the new hotel and two dormitories, accommodating 164 men, giving the place a total capacity of 259 guests. Walls and floors are of concrete and are washed each day by powerful streams of water to prevent accumulation of dirt and vermin. The guest at the Dawes hotel plasters his name on the register with all the dignity of a guest at the Hotel La Salle. It deposits a dime for a private room.

SPRINGTIME VANISHES WHEN NORTHER ARRIVES

Sure Enough Cold Weather is Promised for Tonight—Shower and Cold Wind Last Night

Wichitans awoke this morning to find that spring was no longer lingering in the lap of winter. A brisk norther had come up during the night and the temperatures of sixty and some odd which prevailed yesterday afternoon were succeeded this morning by some only a few degrees above the freezing mark. The drop in temperature was preceded last night by a shower which served to lay the dust.

Much colder weather is promised for tonight, according to the official prophet, who offers temperatures of eighteen to twenty-four above zero. If this is anywhere near correct, Wichita Falls' long season of mid-winter springtime is at an end.

NEW VINTON FIELD GUSHER HOLDS UP AT GOOD RATE

Lake Charles, Jan. 29.—Reports from the Vinton oil field today say that the new 9000 barrel gusher which was brought in there Friday by Dr. Brown and his associates is still keeping up its record as a producer and promises to make one of the greatest records of any well ever found in the South. The well was found at a depth considerably deeper than other wells in this field and as it is 500 feet from the nearest proven well it means that the Vinton field has been considerably enlarged. The owners of the well are making preparations to put down other holes in that territory as rapidly as drilling rigs can be placed. The depth of this great gusher at a greater depth has caused many of the other companies to plan going deeper than they have been.

WAGO AUTOIST'S CLAIM IS DENIED BY WICHITA FALLS.

Wichita Falls will lose no time in refuting the statement made by a Wago autoist in the Dallas News of last Sunday; that his cycle car was the "first and only" to be built in Texas. It is not the first as one was finished here several months ago and it is certainly not the only one, as Wichita Falls can point to three, all home-made—and in regular service. One of these was made at the Overland Garage and the other two at the motor factory. In order to prevent anyone else getting Wichita Falls' distinctions in no rude a manner, Acting Secretary Thomas of the Chamber of Commerce has had a picture taken of one of the local cycle cars and will send it to the Dallas publication.

MOTHER'S COFFEE

You remember the cup of coffee your mother made way back yonder at the Homestead. In memory you still smell its delightful aroma, taste its rich mellow flavor and feel its exhilarating influence—a morning benediction. Mother didn't have as good coffee as you get now, as coffee at that time was in the hands of semi savage tribes and was poorly cultivated and handled. Mother made it in an old tin coffee pot. BUT MOTHER DID HAVE FRESH ROASTED COFFEE. She roasted it herself in the oven—a day's supply at a time. It

wasn't roasted in Boston, New York or Chicago. It didn't lay in dirty box cars and depots nor linger on the grocers' shelves for weeks and perhaps months before it reached your kitchen; so in spite of inferior coffee and inadequate apparatus mother made a dandy cup of coffee. You can make a better one if you buy your coffee of us for you will get the very best of fine old mild growths of coffee intelligently blended to get the best results in the cup and fresh roasted—in up to date roasting machinery.
