## THOROUGH INVESTIGATION OF BENTON'S DEATH BY U. S. Feared That Discussion of Mexican Affairs Can No Longer Be Restrained In Senate

By Associated Press.

Washington, Feb. 21.—Secretary Bryan has ordered a far-reaching investigation of the killing of William S. Benton, the British subject at Juarez. He announced today that until all facts in the case had been gathered, no opinion would be expressed by the state department. All information will be transmitted to the British government. Explanations made by General Villa to Thomas D. Edwards and George C. Carothers, the American consular representatives at Juarez, together with the court martial record, are to be supplemented by further information.

Instructions went forth to American Consul Letcher at Chihuahua to get additional details from Villa, and it is understood that inquiry through independent sources will be carried on at Juarez. Advice received by the State department up to late today, giving Villa's version of the affair, were that Benton was armed, had personally quarreled with Villa, had been disarmed, tried by court-martial, and executed on the charge of attempting the life of Villa.

Villa's explanation, telegraphed to the rebel agency here, was unofficially exhibited to the State department, but brought no comment. Army officers took particular interest in the reference to Benton as an "armed prowler" and as such not entitled to the protection of the rules of war.

### EVIDENCE OF ASSAULT WANTING

"The armed prowler" described in order "100" of the American army is essentially a guerrilla, they explained, and one who is caught within military lines with arms, either engaged in the wanton destruction of property or as part of an invading force. It is generally admitted that if Benton made a murderous assault on Villa with a weapon, he might have been subject to the death penalty; but on that point, evidence is wanting and army officers are reserving judgment.

One result of the Benton incident has been to create a feeling of apprehension in diplomatic circles as to safety of the foreign element in Mexico. So far, resident diplomats have reacted content in the belief that the undertaking by the American State department to look after the welfare of their people in Mexico would be sufficient to insure protection guaranteed the rules of civilized warfare. Despite the efforts of the administration to keep the lid on Mexican affairs, so far as the Senate is concerned, there is a growing uneasiness, and fears were expressed tonight that some senators would be restrained no longer from discussing the situation on the floor of the open Senate.

### ARMENIAN BOYS KILL "IN DEFENSE OF CROSS."

Watertown, Mass., Feb. 21.—In defense of the cross, two Armenian boys, Nisan Ahranlian, sixteen years old and M. Garabedian, aged seventeen, killed Sunlu Xada, a Turk, on Tuesday, according to a confession given out by the police. The boys, who were arrested, had been taken to Turkey to fight for their faith and had taken an oath to defend the cross. The Turk, they said, cursed the cross, and believing it his duty to kill him, they stabbed him to death.

### EVIDENCES OF MURDER ON BODY FOUND AT WACO.

Waco, Texas, Feb. 21.—With his head almost severed from his body, the wound having been inflicted with either a very sharp knife, or a razor, the body of an unknown white man, aged about fifty, was found half a mile south of here this morning. There was nothing on his person by which he could be identified. There were evidences of a terrific struggle.

### DEPRESSION AND PROSPERITY PICTURED

Republican and Democratic Congressmen in Word Painting Contest Saturday

By Associated Press.  
Washington, Feb. 21.—Prosperity and depression were pictured again in the House today by democratic and republican word painters. Representative Humphrey, republican, of Washington, arraigned claims of beneficial effects of the tariff law. "Since the present democratic tariff went into effect," he said, "the foreigner has captured our markets and the balance of trade has been against us for the first time since the old Wilson law went into effect."

Representative Fitzgerald, democrat, of New York, replied that under the Republican tariff law, there was a deficit registered at one time of the year because of inadequate customs receipts and added that by June 1 payments aggregating \$80,000,000 or \$90,000,000 for the ten months of the last calendar year would begin to be paid under the income tax.

Mr. Humphries charged that Secretary of Commerce Redfield had prepared and submitted a report on the lumber industry in Washington with conclusions directly contrary to evidence on which they were based. Mr. Underwood and Mr. Fitzgerald resented the charge and declared it inconceivable that it could be substantiated.

### THEN

One hundred and thirty years ago Newport, R. I., celebrated Washington's birthday with the ringing of church bells, firing of cannon and decoration of houses and ships. So far as known, this was the first civic celebration of the 22nd as Washington's birthday. He was born, according to the old calendar, Feb. 11, 1732 and he himself observed that date, until his death in 1799.

### NOW

Today every State in the Union is following the recommendation of Congress at the time of Washington's death that his countrymen meet on February 22nd and do honor to his memory with fitting ceremonies. Washington is the only American whose birthday is recognized as a legal holiday in all of the States and the District of Columbia, Porto Rico and Alaska.

### MURPHY OUT OF CHICAGO NATIONALS

Resigns Presidency of Club, Sells Stock and Severs Connection With League

By Associated Press.  
Cincinnati, Feb. 21.—As a sequel to the recent departure of John Murphy as manager of the Chicago National League club, Charles W. Murphy, president of the club today resigned as president, sold his stock and severed his connection with the club. His holdings have been purchased by Charles F. Taft. The resignation of Murphy from National League baseball was announced following a meeting today between Governor John K. Tener of Pennsylvania, president of the National League, Charles F. Taft of this city, Harry Ackerman of Pittsburgh, a stockholder of the Chicago club, and A. T. Tolan, a director of the Boston National League club, and legal adviser of the National League.

Events Leading up to Climax.  
At the time Murphy obtained Henry O'Day to manage his club, he made an agreement with James Gaffney of the Boston club whereby Evers was to go to Boston in exchange for Pitcher Ferde and infielder Sweeney. When Evers heard of the trade, he refused to go to Boston. If Murphy was benefited, after a promise had been obtained from the National League that Murphy was not benefited, he agreed to play with Gaffney's team, it was then that steps were taken which led up to the sensational climax at today's conference.

The amount of money that will change hands in the deal was not announced. The retirement of Murphy means that he is not only out of the Chicago club, but also out of organized baseball insofar as the major leagues are concerned.

### HUERTA GOVERNMENT WATCHES DEVELOPMENTS

Mexico City Officials Reported Apprehensive of International Complication from Execution

By Associated Press.  
Mexico City, Feb. 21.—Government officials continued to be worried over the possible result of the execution of W. F. Benton by the Rebel General Villa. They fear it may bring international complications and President Huerta's agents at Juarez, Washington and London are keeping him closely advised as to developments.

The only comment by an official was that tonight of Ignacio Alcocer, minister of the interior, which may be regarded as representing the views of the president. He said: "Villa's action merely will serve to show that the rebel leaders are nothing but murderers and it will convince the civilized world that Huerta's government is the only one that can give foreign residents protection."

The minister said the government regretted the "barbarous murder" of Benton, and added: "Of course, this government is not responsible for the crime, since it was committed in territory now controlled by rebels."

### ROCKEFELLER MAY ESCAPE OHIO TAX

Change of Law May Put \$900,000,000 in Securities Out of Assessor's Reach

By Associated Press.  
Cleveland, Ohio, Feb. 21.—Tax Commissioners John Fackler and William Agnew, who have been trying to list \$900,000,000 of John D. Rockefeller's stocks and bonds on the personal property list of Cuyahoga county, discovered today that the amendment by the legislature of the tax law this week at Columbus probably has exempted Rockefeller's millions from the Ohio law. The amended statute makes April 1 tax day instead of February 1. It provides that a taxpayer must have resided the greater portion of the previous twelve months in this state.

Rockefeller had been in Cleveland more than six of the twelve months preceding February 1, but by his departure two weeks ago for New York he will not have been in Cleveland during six months prior to April 1. The tax commissioners will urge Gov. Cox to hurry home from Florida, where he is on a vacation and veto the amended tax law.

### PEACE TREATIES ARE RATIFIED

Five-Year Arbitration Agreements with Many Nations Renewed by Senate's Action

By Associated Press.  
Washington, Feb. 21.—General arbitration treaties, ratified by the Senate today, renewed for five years agreements with Great Britain, Japan, Italy, Spain, Norway, Sweden, Portugal and Switzerland and marked the first step in the policy of President Wilson to place the United States in a more advantageous position in the world of nations. Amendments to the treaties having been rejected Friday, debate closed within a few minutes after the Senate went into executive session and ratifications were adopted, one after another, without roll-call.

The treaties, briefly, provide for reference to the Hague tribunal of legal differences and questions relating to the interpretation of other existing treaties which cannot be settled by diplomacy. They are not of themselves far-reaching, but in view of the long delay in their ratification, the feeling among the senators is that the action today will serve to place the United States on a firmer confidential basis with the powers.

Toll Question Exempted.  
Although the majority for the ratification of the treaties was overwhelming and the amendment to exempt from arbitration the Panama canal tolls question was rejected by more than a two-thirds vote, senators who urge repeal of the attitude of the Senate on the tolls issue. The Senate is looking to the president for some initiative action in the tolls matter and several senators averred today that the issue would be a matter of party caucus.

That some democrats would refuse to enter such a caucus has been reported for several days.

### VALIDITY OF TEXAS STATUTE INVOLVED

Four Dollars Worth of Broom Corn Form Basis of Suit in Supreme Court

By Associated Press.  
Washington, Feb. 21.—Four dollars worth of broom-corn seed forms the basis of a suit which will bring some of the most prominent railroad attorneys from the middle west to Washington next week. The case has been appealed from a justice of the peace in Hopkins county, Texas to the supreme court. The railroads are interested because the suit involves the validity of the Texas statute allowing attorneys' fees in suits on claims less than \$200 against railroads and not settled within thirty days.

In his case, the justice allowed \$10 attorneys' fees in addition to the four dollars for the broom-corn seed, against the M. K. & T. railway. The case is one of the rare instances in which suits are brought direct from a justice court to the supreme court. The amount involved made it impossible to appeal to a higher Texas court, but because of the point that the attorneys' fees, according to the railroads' lawyers, violated the constitution, the case was brought to the supreme court.

By Associated Press.  
Fort Smith, Ark., Feb. 21.—One Stewart, under arrest at Huntsville, Madison county, Arkansas, today confessed that Katherine Winters kidnapped at Newcastle, Indiana last March, is with him. A special telegram to the Southwest American received today follows:

"Editor Southwest American:—We are holding man about fifty years old and one little girl supposed to be Katherine Winters advertised by your paper. Answer with instructions. (Signed) M. H. Shuster, Sheriff Madison county."

Stewart and the little girl will be brought here Sunday and the child turned over to the Southwest American. With Stewart at the time of his arrest was little Katherine, greatly altered in appearance, with her hair bobbed like a boy's and garbed in male attire. She acknowledged her identity to Sheriff Shuster and Stewart acknowledged to the sheriff that she is the long-sought child. She told Sheriff Shuster she married Dr. Winter's first wife, divorced by the physician. He has not told why he kidnapped the child.

## BALL ENDORSED BY ACCLAMATION BY PRO DEMOCRATS AT FT. WORTH

### ANTI LEADERS MEET IN DALLAS

PURPOSE OF CONFERENCE SAID TO BE TO UNITE ON A CANDIDATE

### RESULT NOT ANNOUNCED

Jake Wolters, J. Sheb Williams, Chester Terrell and J. E. Ferguson in Attendance

By Associated Press.  
Dallas, Texas, Feb. 21.—While prohibitionists were engaged in Fort Worth today selecting and uniting on a candidate for governor, several leaders of the anti-prohibition forces in Texas met here for the purpose, it was reported, of deciding on the best man from their ranks to oppose the prohibition candidate for governor. Among the anti leaders here were J. Sheb Williams of Houston, Alvin Ousley of Denton, A. M. Kennedy, campaign manager for Chester Terrell, Judge C. B. Birkhead of San Antonio, T. H. McGregor of Austin and others.

### LEADERS ARE PRESENT

James E. Ferguson, candidate for governor, was here for a short time, but denied his visit had any connection with the anti meeting. The anti leaders declined positively to discuss their plans, and several of them denied that any meeting with the view to selecting the strongest man available, was to be held. Local anti leaders said the conference here was the result of a call sent out by a prominent North Texas anti shortly after the elimination of Controller Lane from the race for the prohibition nomination.

According to the general belief here, anti leaders, realizing that Tom Ball will be the pro choice and that that faction will be united to the polls in the primary, have decided that it will take a strong man to make a successful race against Ball. Just who this man might be no one at the meeting professed to know. It is said another meeting will be held soon.

### CALIFORNIA STORM CAUSES HEAVY DAMAGE

Seven Lives Lost and \$4,500,000 Damage Reported in Southern Part of State

By Associated Press.  
Los Angeles, Feb. 21.—With a loss of probably more than \$4,500,000 and a toll of seven lives since last Wednesday, southern California began tonight to recover from the effects of the worst storm in its history. While nearly all towns affected remained isolated tonight, progress was made toward establishing wire and rail communication. It is estimated that Los Angeles was damaged at least \$1,500,000. Of this \$1,500,000 represented the damage to city streets alone. The balance represented losses of railroads and citizens whose homes were swept away.

Young Orange Grove Hurt.  
Except in the vicinity of Pomona, this county, where young groves suffered severely, orange growers reported comparatively little damage. The flood situation about this city became acute early last night. Weakened by the rush of waters, poles and towers carrying power lines and telegraph wires went down and with railroads and trolley lines steady out of commission, there was complete prostration.

100 Homes Destroyed.  
Railroads report the collapse of big bridges over the Los Angeles river, and it was uncertain when traffic could be resumed. More than 100 homes were destroyed in Los Angeles alone. Long Beach was surrounded by flood waters and its ocean front was lashed by wind-whipped surf. The floods inundated a big salt works and 20,000 tons of salt were washed back into the sea.

## OVER 4,000 DELEGATES ATTEND THE MEETING

### Houston Man Accepts Candidacy And Convention Pledges \$16,000 For His Campaign Fund

By Associated Press.

Fort Worth, Texas, Feb. 21.—Thomas H. Ball of Houston was nominated by acclamation as the prohibition democratic candidate in the July primaries at the "elimination" convention here late this afternoon. Ball accepted the nomination in a brief speech of appreciation. There was no attempt to make other nominations and the idea of a full state ticket was abandoned when the delegates began to leave.

### \$16,000 CAMPAIGN FUND PLEDGED

However, the past record of Lieutenant Governor Will H. Mayes, candidate for the gubernatorial endorsement, and Controller W. P. Lane, who withdrew from the race several days ago, were endorsed by the convention. A campaign fund was authorized on the basis of one dollar for each delegate to which each county was entitled in the convention. This will provide approximately \$16,000. A collection was taken to pay the expense of A. W. Walker in the present movement and the expense of the committee seeking to get submission on the ballots.

Wild enthusiasm greeted the decision of the convention, which showed that the prohibition forces had united on a single candidate to present a solid front in the forthcoming contest. When a standing vote was called on Ball's nomination, the entire convention, estimated to number 4,000 people rose, and hats and handkerchiefs were thrown into the air, the delegates cheering many minutes.

Mr. Ball was brought forward by Cullen Thomas, chairman of the meeting and briefly accepted the nomination.

MAYES LEAVES FOR BROWNWOOD

Before leaving for Brownwood tonight Will H. Mayes stated that he had not decided whether or not he will run for lieutenant governor. Lane left also without making an expression on running for comptroller. His son-in-law, Walter Terrell, however, said that Lane was not even decided about accepting a renomination as comptroller if tendered by the conference.

Cone Johnson's absence from the conference was commented upon considerably.

Col. Ball's name was placed in nomination by W. P. Lane.

Church Wouldn't Hold Crowd.  
The convention was called to order by A. W. Walker, state chairman. The church, in which were 200 seats, was packed by ten o'clock, and by the time the session began a thousand more were standing in the building. Judge Ramsey's appearance on the platform was greeted with loud cheers. O. S. Lattimore nominated Cullen F. Thomas for permanent chairman. As he reached Thomas' name, it was cheered loudly and when Thomas came to the front, the convention rose in a body waving hats and handkerchiefs. No other names were offered and the general satisfaction with the choice was accentuated by a single "NO" that was heard faintly when the vote was taken.

"There are some," said Thomas in accepting, "who say our action will tend to disrupt the Democratic party. Our intent is not to destroy but to build up. If the Democratic party depends for its life on the saloon interests, the Democratic party deserves to die." Wild applause greeted this utterance.

Not One Idea's Convention.  
Thomas declared the convention was not called with one idea, prohibition, but to advance all the principles of the progressive democracy. Among the principles he said the progressives favored was conservation of the rights of the common man and the sanctity of the ballot box. Thomas declared the will of the people had been trampled under foot in the last prohibition election and hordes of foreigners had been brought across the Rio Grande to invade the ballot box.

"The progressives, he said, favored a revision of the election laws, to prevent such scandalous debauchery of the people's will."

"Blight of Colquittism."  
"We want to rid the state of the blight of Colquittism," he said "we are for the encouragement of honest enterprise, the encouragement of honest capital. We are for the growth and glory of the State we love, but we are not for turning that State loose. We favor a business administration, but not in favor of any class."

The speaker referred sarcastically to what he termed "pronouncements" from officials of the Farmers Union, "declaring themselves against prohibition for the sake of the farmers."

"We are for prohibition and the quieting. He then said: Shouts of Play Ball.

R. B. Humphries of Trockmorton was elected secretary of the convention by acclamation. Shouts of "Play Ball" calls for Ball, and one or two calls for Brooks created an uproar which the chairman had difficulty in quieting. He then said:

"The chair will recognize Thomas H. Ball of Houston. Ball's appearance was greeted with wild applause. "I believe," Ball began "this assemblage will be recognized at least

as representative. Ball declared for submission in 1915, compulsory education, separation of the A. & M. and denied that he would seek repeal of the Robertson insurance law, declaring for a penitentiary system with a single man at his head on sufficient pay and board not all-removable at one time.

He pledged an end to the fire trap conditions at the Blind Asylum, care for Confederate soldiers and widows and promised that at the end of his first administration there would not be a single inmate in a county jail in Texas. Asked about taxes, he asserted that he would promise the people they would get their money's worth, but every legitimate need would be provided for. He announced he will campaign the whole state and closed with a reference to Gov. Hogg, with years in his eyes, asserting that it was infamous to be charged with heaping insolence upon him who had been so close a friend.

"When I am Governor."  
Ball's statement, "when I am governor" was the signal for a storm of applause. The attitude of Lane and Mayes was apparent when they came to the front to congratulate Ball, they being among the first in the crowd to speak to him.

Lane was first, but it is significant that Mayes was drawn ahead of him and introduced. The morning session continued until two o'clock when an hour's recess was taken. W. P. Lane was the last speaker of the morning. He concluded with a dramatic reference to Thomas H. Ball as "our next governor."

### POLICY OF PATIENCE DECLARED LACKING

London Times in Speaking of Benton's Death Criticizes U. S. Mexican Policy

By Associated Press.  
London, Feb. 21.—The Sunday Times in an editorial on the execution at Juarez of William Benton, says:

"It is evident that some other policy than that of patience and moral influence, supplemented by replenishing rebel ammunition, must be adopted by President Wilson."

Directors—Charles W. Reid, J. L. Jackson, J. C. Ward, A. A. Hughes, J. J. Lory, N. T. Wagner, A. W. McCoy, Lann A. Boyd, L. N. Lockridge, Hugh Reilly, Reese S. Allen.

It was announced that the capital stock of the new bank, \$100,000 has been fully subscribed and paid in. Charles W. Reid, president of the new bank, came in from Muskogee late Friday and attended yesterday's meeting, returning home again last night to get his family. They will occupy the Fields place at the corner of Tenth and Burnett. Mr. Wagner of Muskogee, one of the organizers who is to be assistant cashier, will also have here next week with his family.

No cashier has yet been selected for the bank; it is probable that some Wichitaan will be selected, but this place is yet to be filled.

### BOTTLE PLANT'S NEW MACHINERY

PURCHASE HAS BEEN MADE AND EQUIPMENT BEING TESTED AT MUNCIE

OPENING NOW INDEFINITE

New Type of Jar Being Made at Ball Bros. Plant—Zinc Mill Soon to Start

Machinery for the bottle factory, purchased from the Ball Brothers, has been completed and is now being tested in the Ball plant at Muncie, Indiana. After receiving a thorough test there, it will be sent here for installation in the plant of his city. The opening date of the plant cannot be fixed at present, it is stated, as it will require some time to install the new equipment.

New Jar Being Made. At the jar plant, Ball Brothers last week began the manufacture of a new variety of quart jar, known as the "Sure Seal." This differs from the other quart jars in that its cap is jammed with a patent wire clamp, without having to be screwed on.

It will not be very long before the rolling mill in which the zinc caps are manufactured, will be in operation. At present the local plant obtains its supply at Muncie, but the building for this part of the plant here has been completed and the machinery will soon be installed. The local plant receives the cap in a partially finished stage, and the finishing is done here. When every part of the plant here is completed, the entire cap, including the porcelain lining, will be made in Wichita Falls.

May Use Grayson Sand. Ball Brothers will probably use Grayson sand at the plant here in the near future, although definite arrangements have not been completed. The sand is said to be of exceptionally fine grade.

The shipping season will soon start at the jar plant. Although thousands upon thousands of fruit jars have been manufactured since the firm began operations here, not a jar has been shipped out, all being stored in the immense warehouses. Early in the spring, shipping will start and Texas housewives next summer will for the first time put up their supply of jam in Texas-made jars.

### FORMER WICHITANS PARTIES IN DOUBLE WEDDING.

An Orland California paper gives an account of the marriage of Miss Alma Carrico and J. Edward Carrico, well known here where they formerly lived. These former Wichitans were contracting parties in a double wedding. The Orland paper gives the following account of the double wedding:

In the presence of relatives and intimate friends, four young people of this city were united in marriage at nine o'clock yesterday morning in St. Dominic's Catholic church. The contracting parties were Marcus Q. Masterson and Miss Alma Carrico, J. Edward Carrico and Miss Frances Hepler. The affair, which was the first double wedding in Orland for several years, was marked by extreme simplicity. The decoration scheme used in the church carried out the same note of simplicity. Rev. Father Grealy performed the ceremony, which was followed by the nuptial mass.

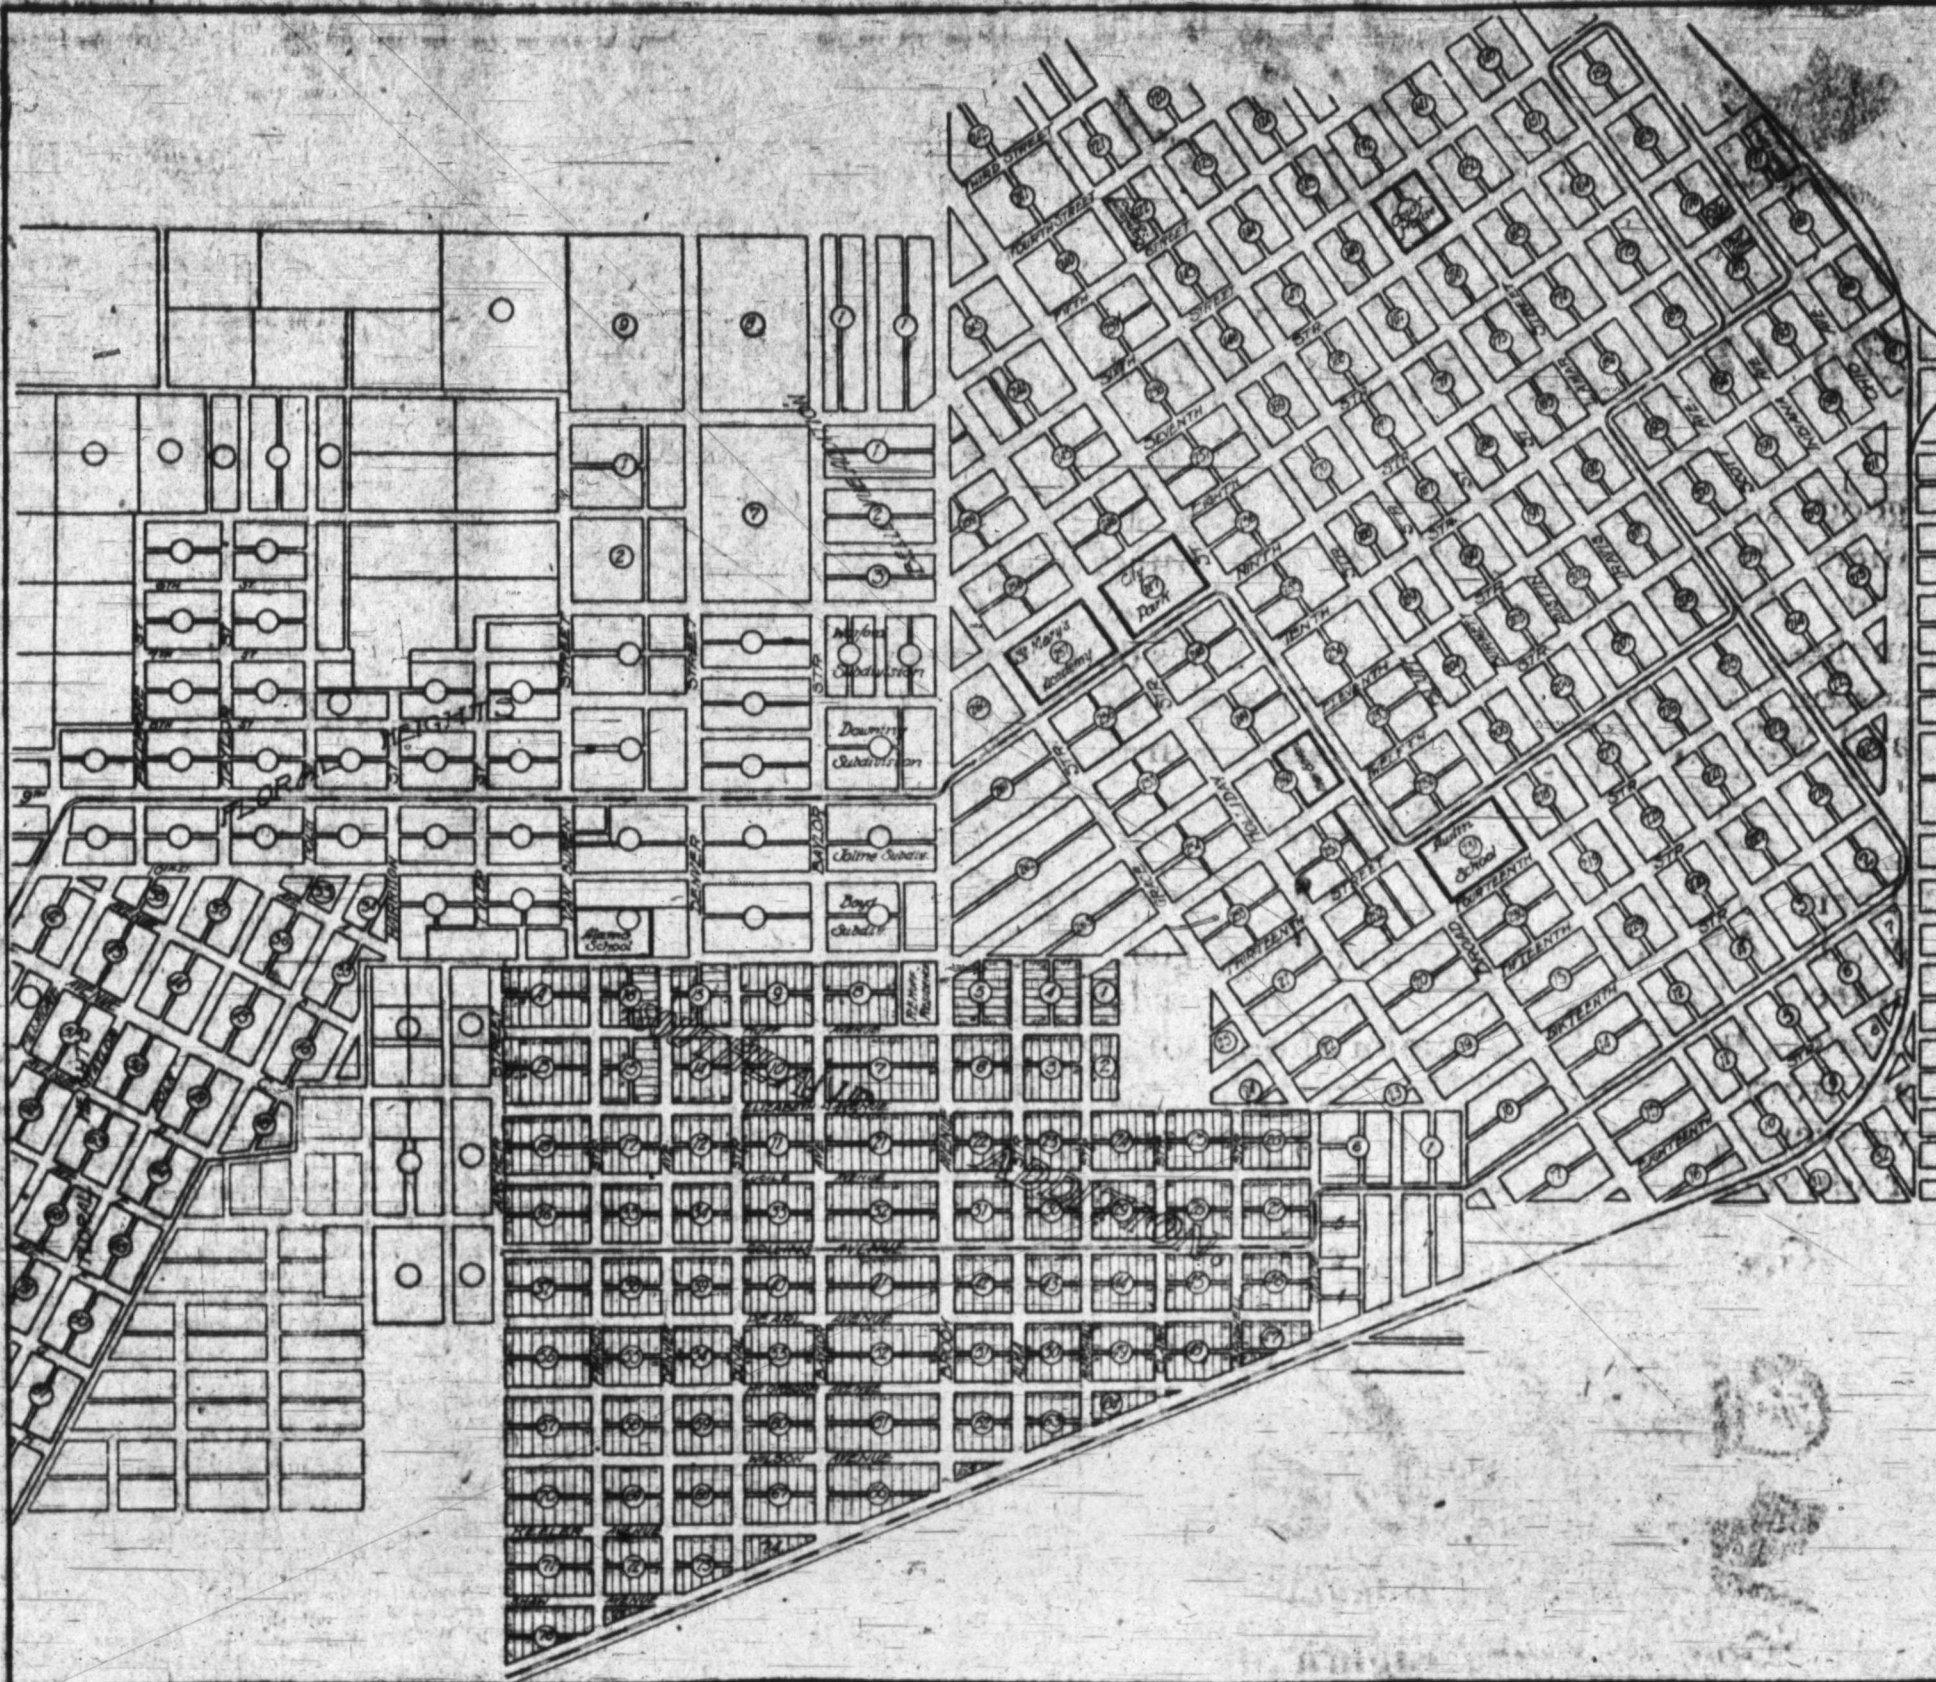

At nine o'clock, to the strains of the wedding march played by Miss Mary Masterson, the bridal party entered the church. The two brides were becomingly attired in dainty gowns of white silk crepe de chine, with white lace bridal bonnets and coats to match. Miss Kate Carrico, the bridesmaid, wore a beautiful dress of blue silk crepe de chine with blue cap and white coat trimmed with fur. Edward Masterson, brother of Marcus, acted as best man.

The marriage of Mr. Masterson and Miss Carrico united one of Orland's pioneer families to one of the most prominent of the newcomers. The groom is the son of Mr. and Mrs. James Masterson of south Orland, and was born and raised in this vicinity. The Mastersons are connected with a number of the most prominent pioneer families in the Sacramento valley. The bride is the daughter of Mr. and Mrs. J. B. Carrico, also of south Orland. The family came here a few years ago from New Mexico. Mr. and Mrs. Masterson are already established in the pretty bungalow erected this winter by the groom in south Orland.

Edward Carrico is a brother of Mrs. Masterson, while his bride, formerly Miss Hepler, comes to Orland from Loving, New Mexico. The wedding yesterday is the culmination of a romance begun in the southland. Mr. and Mrs. Carrico will start house-keeping at once on the ranch of Mr. Carrico south of Iowa.

### REPRESENTATIVES FOR CONTEST CHOSEN

Charles Butts and Ross Bassinger Will Represent H. S. in Public Speaking Contest

The Wichita Falls High School Literary Society met last night in the high school auditorium. An interesting debate on the compulsory education question was held. Messrs. Carney and Beggs represented the affirmative while their opponents, Messrs. Nelson and Gillespie. The judges rendered their decision in favor of the negative. The feature of the evening was the declamation contest, in which Ross Bassinger and Homer Gentry won what are second places respectively in the junior contest, while Chas. Butts and Ivan Lawler won first and second places in the senior department.

A large number were present at last night's meeting and the Society hopes to have a much larger attendance next time. Next Wednesday evening, the High School Team will debate the negative side of the above stated question with the team of Wheeler-Hughes Commercial College. The general public is invited out.

Charles Butts and Ross Bassinger, the winners in the declamation contest, will represent the school in the county contest, which will take place March seventh. The winners in the county contest will take part in the district contest later in the Spring.

manche county the latter part of last week told the Leader Friday that they believed that the number of cattle and horses sent from other counties to this, now being grazed on the pasture here, would amount to fifty 12,000. The grazers are mostly south, east and west of Frederick. Ten thousand are said to be within twelve miles of this city. More grazers are being fattened in this county than in any other county in the state for the reason that the wheat fields here are greater and better than in any other Oklahoma county.

### DEVELOPERS GET ANOTHER GOOD WELL

No. 10 Drilled in Saturday Starts off at 300 Barrels or Better—Sand Uniform

Another good producer was brought in late yesterday by the Developers Oil company at Petrolia, when No. 10 was drilled in, starting off at the estimated rate of 300 barrels per day; some of those present believe it will do considerably better. The well has nineteen feet of sand; from 1772 to 1791, this being the same depth as the other wells. No. 10 is the first well to be completed in the third tier of locations on the Developers tract, being 1650 feet from the north line of the tract. The uniformity of the sand gives promise of other good ones to the southward.

Work will be started tomorrow on No. 11, which will be 500 feet north of yesterday's completion and some distance to the eastward. The American Oil and Gas company is down 850 feet with its first well; this is on fee land, mapped as the Lochridge.

Washington, Feb. 20.—Decision on charges against Judge Spear of Georgia will be decided shortly by the House Judiciary subcommittee. The time for impeachment action expired today and the committee expected to get down to work immediately now that it has all the evidence in hand. Indications point to clean slating the judge on the count charging use of drugs but the disposal of the other counts now stands in a more or less speculative position.

## THIS MAN HEARS HARD LUCK YARNS

HE IS INCOME TAX COLLECTOR FOR TEXAS—SAD STORIES

## ASK FOOLISH QUESTIONS

Chief Difficulty Lies in Failure of Many People To Keep Books On Incomes

(R. Beddick)  
Austin, Texas, Feb. 21.—A person interested in collecting hard luck stories would naturally hang around the office of the United Charities, or the county jail, or the charity hospital, or some such place; but since the establishment in Austin of the central office of the income tax in Texas, this room 6 in the federal building offers a richer source for the absorption of such material than any of the institutions above mentioned. Here the hard luck story is idealized, touched with the imagination of the well-to-do, and relieved of the revolting realism of downright fact. The hard luck story of the income tax-payer is picturesque, detailed, personal, and Nemesias is usually there with that dramatic element worked overtime by all the leading playwrights.

**Woes of the Well-to-Do**  
A. E. Pritchard, deputy in charge of income tax in the Austin office, addressing the Austin University alumni association the other day, furnished several instances in point. "One man writes," he said "that he has been married 47 years, and desires to know the specific exemption allowable in his case. Another man writes an autobiography, stating in conclusion that thirteen years ago he got into a real estate deal with three men, who swindled him out of half of what he had, and since that time that he had kept no books, having lost all interest in such matters, and desires to know how he should render an income tax return under the circumstances. Still another states that he is a butcher, and wants to know what his income tax will be."

Others plead sheer mental incapacity, as the following letter exemplifies: "Hon. A. S. Walker, Austin, Texas. Dear Sir: Find enclosed report of my annual income; it may not be made out in proper form, but my feeble mental capacity was not built for puzzles or legal conundrums, and in the interest of simple humanity, I ask you to apply to the Nat. government for a simple form to make such reports on."

**Reports Coming Slowly**  
Reports of incomes are due March 1, and payable June 30. While approximately twelve or fifteen thousand reports are due by March 1, only about three thousand have been filed so far. Comparatively few pay at the time of filing, only 250 having done so of the number mentioned above. It is estimated that Uncle Sam will receive from Texas an income tax about \$700,000, bringing the direct federal revenue

in Texas from all sources up to \$1,500,000. It is quite likely, judging from the way that the reports are coming in, that there will be an additional sum collected as penalties. There is a direct and specified penalty of fifty per cent assessed against all those who do not make report by March 1st, and no delinquent can escape this. In addition to this unpleasant feature, there is a statutory penalty of from \$20 to \$1000 if it can be shown that the delinquent is negligent or is withholding his report with fraudulent intent. This matter, of course, has to be decided in the federal court. It is not known just how strict the department will be in enforcing these penalties, a compromise being discretionary with the department.

**Encourages Bookkeeping**  
Nine out of ten people making reports state that they do not keep books, and are consequently at a loss to know just how much their incomes are. Upon this point, Mr. Pritchard in his remarks to the alumni association, said: "The average taxpayer is not essentially a liar, as has been claimed, and neither do I believe that the income tax will make of us a nation of liars, in numberless instances, people who have never kept books before, have opened books, showing a bona fide intention of complying with the spirit of the law."

**Elusive Incomes**  
In the opinion of the authorities here, the incomes of the stockman and farmer are the most difficult to determine accurately. In the case of the farmer, for instance, the preliminary expense of his crop incurred in November and December cannot be figured, as the law became operative in March of last year. In the case of the stockman, there is the very obvious difficulty in figuring profits on the sale of stock, by reason of the fact that he is not allowed under the ruling of the department to estimate the value of the grass that went into the production of his cattle. A seeming inconsistency emerges here, as the stockman who leases grass-land may deduct the amount so paid from the gross profits, but the man who grows his own grass-land is allowed to make no such deduction.

Of course, any system of general application must have its flaws and cases of individual injustice; but the noise that is being made by the down-trodden subjects of this tax must be taken along with the consideration that they are in a position to create a larger stir about a small matter than is the average taxpayer.

## KATY PASSENGER TRAINS MAY BE TAKEN OFF

Discontinuance of the two night trains on the Katy between Wichita Falls and Dallas is scheduled for March 1, it was learned yesterday. No definite announcement to this effect has been made, but it is practically certain that the trains will be taken off. This will of course cut out the slower between Wichita Falls and Dallas.

The trains affected are those arriving at 3 a. m. and departing at 11:30 p. m. in connection with the taking off of these trains, it is understood there are to be several trains taken off on the main line where business has not justified them.

## PROMOTION FOR WOMAN CAPTAIN

DANISH WOMAN WILL NOW BE IN COMMAND OF STEAMER RUNNING TO U. S.

## DANISH FOLK DANCES

Americas Teachers Study Them With View of Substituting Them For Gymnastics

(By Associated Press.)  
Copenhagen, Feb. 21.—Promotion to a steamer in the American service has been promised to Mrs. von Bauditz, Denmark's only woman sea captain who is now commanding a vessel running between Russia and England.

Mrs. von Bauditz who is the wife of a physician, was for a long time interested in yachting as a sport and after passing an examination for a master's license she took up the sea as a profession. So adept did she prove herself that a local shipping company soon gave her command of one of its largest steamers. Captain von Bauditz wears a natty uniform with square cut coat and skirt of the same material. She is the first female captain in Denmark and she claims to be the only real feminine master mariner in the world.

Several American teachers are here studying the old Danish folk dances with the idea of substituting them for gymnastics in girls schools in America. In this city a big society has been formed for the preservation and promotion of Danish national dances. The movement was so widespread that it attracted the attention of Americans visiting here and resulted in the visit of the American teachers, who express themselves as delighted with the quaint dances. The teachers complain that gymnastics become very tiresome and boring to girls and they believe that the dances will confer all of the benefits of the gymnastics and at the same time be a great source of pleasure to the students.

Anton Rosen, a local architect has finished plans for the building which will be erected at the San Francisco Exposition from a fund collected by Danish Americans. The building will be modeled on the famous castle of Hamlet's town, Elsinore, and, like its historical prototype, will be situated on the sea. The building will not be used to house exhibits which will be placed in another structure erected by the Danish government, but will be used as a headquarters for Danish Americans and their friends visiting the exposition. The structure will contain a big recital hall, reception rooms and offices. For the official Danish exhibition a splendid site has been procured and it is planned to make the exhibit small but typical of the very best of Danish art and industry.

Wichita Falls, Texas, Feb. 22, 1914

Recent dispatches tell of an earthquake shock at Reno. We're glad to learn that something could shock Reno.

The Oklahoma Corporation Commission has restored three cent fares on the Wichita Falls and Northwestern and the Federal Board of Arbitration has ruled against an increase in wages demanded by the employes of an eastern railroad. We call attention to these facts merely to cite some of our readers instances in which the corporations haven't suffered at the hands of state and federal commissions and boards.

Elimination conventions and conferences which recently draw forth so much criticism are now becoming quite popular. While the prohibition masses were in session at Fort Worth Saturday a conference of anti leaders was being held at Dallas. As the result the political situation in Texas is likely to be much clarified for the campaign now begun. One Cullen Thomas was the principal agent in the clarifying process; don't forget that.

The new city charter provides that in signing a petition for one candidate for city office you must make oath that you have not signed the petition of another candidate for the same office. The question now arises can a man sign more than one petition for aldermen. All the aldermen are elected at large and the charter fails to make any special provision about petitions to get their names on the ballot. If there were as many candidates for alderman as there are for some other city offices it might be difficult to obtain the requisite fifty signatures for each one if the clause on petitions in the new charter is construed to mean that a voter can sign a petition for only one candidate. The Times doesn't pretend to answer the question but respectfully refers it to the city attorney.

The governor has named Edgar Scurry for district judge of the Wichita Falls district. It will be remembered that Scurry was chairman of the arrangement committee that prepared for Colquitt's first opening speech in his race for governor four years ago. An election will have to be held this fall in the district and the people will perhaps do as they did with Decker in this district two years ago—Hall County Herald. Without desiring to take any more interest in the district judgeship campaign than a long friendship and high regard for one candidate, and an equal high regard for the other would induce, the Times would ask, if having anything to do with Governor Colquitt's speeches is considered of importance, what would be the Hall County editor's advice if he had learned that Judge Scurry's opponent in the race had introduced Governor Colquitt to several Young county auditors in the last campaign. In asking this question, too, the Times wants to understand that it holds nothing against Judge Scurry's opponent for his acts of courtesy.

More than once, after a political contest, especially have we had to eat crow. It does not taste good, but we can eat it if we have to. There is a dish of crow now for Waco, Austin, the capital city, set out that dish. Waco basted Austin on the matter of poll tax registration, offering to give up \$500,000 if Waco did not come out ahead. Austin was not game and hesitated. It is the figures, the results, that constitute the dish of crow—for Austin is more than 1,000 votes ahead

DR. THOS. D. BUGG Practices Limited to EYE, EAR, NOSE AND THROAT 710-1-2 Indiana Avenue Successor to Drs. Hale and Bugg

of Waco. We did not believe it possible, but it is so. And there is naught to do but acknowledge the corn graciously, congratulate Austin on her splendid showing—be a cheerful loser. Next year, well, well—next year we'll see how it goes. But who would have thought it?—Waco Semi-Weekly Tribune.

One of them down. Now let us hear from Wichita Falls that got up on the fence and defied the world. Has anybody heard from Wichita Falls?—Temple Telegram. Wichita Falls waited patiently to hear from some of the other Texas cities, when she made that offer, but the longer we waited the more pronounced the silence got. We haven't had time to figure up whether we would have won or not if anybody had called us, and it doesn't matter now. The offer was open to everybody and Temple wasn't barred.

The Electra News, in urging the organization of a commercial club at Electra, complains that Wichita Falls is getting all of the advertising out of the oil field, without having any oil, while Electra, Burkburnett and Iowa Park, with all their production, don't break into the headlines. The Times, for one, has never claimed the oil field as Wichita Falls' own, but has referred to it as the Northwest Texas field, which seems proper enough. That many of the dispatches about oil field operations are sent out under Wichita Falls date lines, is only to be expected, as this city is certainly the center of all the oil activities, even if her production, as the Electra News says, is "0." Wichita Falls wants to see Electra, Burkburnett, Iowa Park, Petrolia and every other community in Northwest Texas, prosper until prosperity doesn't express it and these places may rest assured that she won't claim any glory that she isn't fully entitled to.

### THE MAN ENDORSED SATURDAY.

The following editorial of Tom Ball, endorsed by the prohibition Democrats at Fort Worth Saturday, appeared several days ago in the Waco Times-Herald: "Tom Ball was born and raised in Huntsville. To be raised in Huntsville is no mean distinction; anyhow, it relieves one of the necessity of being sent there. He clerked in a general merchandise store—not an apartment store, but one of these old-fashioned country stores where you can buy everything from a can of oysters to a sewing machine. It's excellent education; it sharpens one's wits and it enlarges one's knowledge of human nature. Young Ball got ambitious to go on the road—to get out into Polk and San Jacinto and Houston and other counties and sell goods to the merchants. The Blums of Galveston gratified this ambition, and thus Tom Ball got somewhat broadened out, which isn't saying anything against Huntsville, but it's a fact travel broadens the man who isn't a fool to start with, and no one ever accused Ball of being a fool. He kept this up—his traveling for Blum—for several years; in the meantime, he was getting acquainted with Coke and Blackstone and other legal luminaries. Then the office bee got in his bonnet and he ran for Mayor of Huntsville and was elected. Here was a distinction that meant something, for it was a stepping stone to a congressional career—a trick that Mayor Milam of Fort Worth is seeking to turn. Having served in the Congress to his heart's content, Mr. Ball dropped out and took up the practice of law in dead earnest. He has been a successful practitioner, his firm being Ball, Andrews and Streetman, with a large clientele. In the Statewide prohibition contest of three years ago, Mr. Ball was the chairman of the prohibition forces and his conduct of the campaign gave him great popularity among the adherents of the "dry" cause. Incidentally, those who attended the Waco convention of 1900 will recall that Mr. Ball locked horns with Jim Blum and other cynics and named means to the state constitution. It was at this convention that an attempt was made to howl Hogg down, and Coss Johnson led the Hog forces on the floor of the convention. When Coss Johnson was pitted against Joe Bailey for delegate-at-large to the Denver convention, Mr. Ball was a Bailey supporter, and it is this fact that makes him possibly more available as the designee for Governor than would be either Thomas or Johnson, for the Bailey men have never quite forgiven Coss and Cullen for the part they then played. In last Saturday's meetings, participated in by prohibition Democrats only, Mr. Ball, though not a candidate, swept the field, and he will be the designee of the Fort Worth convention for governor, which means that he will have the united support of all the prohibition Democrats in the July primary election. If he is selected governor, and there's a legislature in sympathy with him, it is likely that we will have statutory statewide prohibition, to be followed by an election for constitutional prohibition. Tom Ball is a clean man, a good lawyer and fairly conservative in all save his views as to the liquor traffic. He is the antithesis of Comptroller Lane, and he doesn't worship at the shrine of William Jennings Bryan as does Cullen Thomas. Outside of this one question of prohibition, he would be the man whom the Houston Post would likely prefer for Governor.

## NEW BRITISH MEXICO MINISTER

IF TRADITION IS FOLLOWED MARLING WILL NOT REMAIN LONG.

### IS MAN OF EXPERIENCE

Has Served His Government in the Balkans and Turkey Twenty-five Years

By Associated Press. London, Feb. 21.—Charles Murray Marling, the prospective British Minister to Mexico, is not likely to be kept long in the British diplomatic traditions are followed. It is considered that one term in Latin America is the usual service unless a man happens to have chosen that part of the world as his special sphere, and such is not Mr. Marling's case. His liking has been the Near East and it is no secret that he does not relish the idea of going to Mexico, but like all officials in the diplomatic service he cannot very well decline a promotion to be minister when it is offered. If he finds troublous times in Mexico, however, he will not suffer from inexperience. For nearly 25 years he has served in the Balkans and Turkey. He is a careful diplomat, and the foreign office feels safe in sending him anywhere. While he has not attained any very high office and is still a councillor of embassy at the age of 51 years, he has scored many successes.

A Cambridge graduate, he entered the diplomatic services as an attaché in 1888 and in the following year was off to Athens, the first of his foreign appointments. Later in Constantinople, where most of his career has been spent, he acquired such a knowledge of the Turkish people and their language that the foreign office awarded him a special allowance and gave a round of duties at Rio Janeiro and at Paris, for a few years, as a sort of holiday.

When the Cretan question became acute and the powers had to step in to prevent Crete from leaving the Ottoman Empire and joining her fortunes with Greece, which was only accomplished after the recent war, Mr. Marling was sent to Athens as charge d'affaires and when each power sent a representative to Crete he went there as consul-general.

Still, more delicate duties awaited him concerning the Anglo-Russian negotiations in regard to the spheres of influence in Persia. The British policy, as decided upon by Sir Edward Grey, did not meet with the approval of the British diplomats. To give Russia a hold on Northern Persia, instead of keeping that country with Afghanistan as buffer states between Russia proper and India, a treaty was signed which gave Russia an open road to India, according to these officials. It was hard to find a diplomat who would go to Teheran. Mr. Marling was chosen

for the post, the duties of which were neither easy nor pleasant. He had to deal with a Russian minister, who all Britons in Persia and the nearby countries believed was getting the better of their country and who they believed under the cloak of the Anglo-Russian treaty was trying to get possession of Teheran, and eventually Russify the whole of Northern Persia. It was a delicate situation but Mr. Marling came out of it well. The Russian troops never got to the capital, the way was smoothed for the British Minister and Mr. Marling was rewarded with a special allowance for his knowledge of Persia, a promotion to a councillorship of embassy and made a Companion of the Order of St. Michael and St. George.

Street Accidents Increase An increasing number of street accidents has caused the London County Council to be swamped with demands that the antiquated ambulance service of the metropolis be improved. With the exception of the one square mile under the jurisdiction of the City of London, the English capital has no wheeled ambulances of any kind. At certain street corners throughout the various boroughs stretchers are kept in boxes, the keys to which are in the possession of the nearest patrolman. In case of accident the victims must walk until sufficient bearers can be secured to carry him to a hospital. When no hospital is within walking distance, the police may commandeer a cab. These primitive measures since the advent of the motorbus jigger, have involved the death of several victims, who might have been saved if they could have been rushed to the hospital in a wheeled ambulance.

The failure of the County Council to act sooner in the matter has been denounced as a scandal by some of its members because authority to institute a good ambulance service was granted by Parliament in 1909. Government Ownership Question. The dominions Royal Commission which is holding hearings on the proposition of a state owned Atlantic cable has written into its report the testimony of experts who take issue with the opinion held by Postmaster General Herbert Samuel that such an enterprise would not pay. These witnesses, who gave their evidence in Australia, New Zealand and London, point to the success of the state owned Pacific cable and argue that an Atlantic line would be just as successful and would give the British empire a route which would never enter foreign territory or come under foreign control.

The Pacific cable between Canada, Australia and New Zealand, completed in 1902 cost \$10,000,000 which was supplied by the dominions named in conjunction with the imperial government. As the cost will have been paid off in 1920, the cable will then be able to rely solely upon its earnings and rates, to Australia which have already been reduced from \$250 a word to 75c will probably be still further reduced.

Some of the witnesses declared that so long as the control of messages between Great Britain and Canada was in the hands of foreign companies the fact constituted a serious menace to the prosperity and welfare of the British race. It was estimated that the

cost of a cable to link up the British empire would cost \$5,500,000 and that the working expenses, including repairs, would be but under \$400,000 against which there would be earnings of over \$700,000. It was figured that a sinking fund for repayment in fifty years of a \$5,000,000 capital and interest would be about \$200,000 leaving a substantial balance.

Some Peculiar Bargains A peculiar bargain is being struck by some local governments in England for the prevention of the spread of disease. The Manchester city government has just agreed to grant a pension to a woman carrier of enteric germs in return for which she has given her promise to give up the keeping of a lodging house. According to reports physicians attached to the local government board the landlady was responsible for an epidemic of enteric fever among her lodgers, and it was decided to buy her off with a weekly pension.

A more serious case is reported from the West Riding of Yorkshire where a woman employed as housekeeper at various farms is declared to be the source of sixty cases of enteric fever, six of which have proven fatal. For three years after her discharge from the hospital where she was treated for the fever she lived with her parents and no cases of infection were traced to her. She took up work as temporary housekeeper in the country and the enteric fever epidemic followed her from farm to farm. The local government board inspectors ordered her to the home of her parents and soon the epidemic in the country ceased. The woman will be paid by the local government to remain at home.

In the British army a new regulation provides that a known carrier of enteric germs may be discharged when his condition refuses to respond to treatment and he is allowed a pension if he permits the fact that he is a carrier to be disclosed in his discharge papers.

An epidemic of mumps has become so serious in London that lively business is being done in buying business men against the disease. Mumps is not on the list of notifiable contagious diseases and the result has been that during the present period of cold and weather the epidemic has gone like wildfire through the office district of the city.

One physician has written to the papers protesting against the levity with which the outbreak has been treated by the press. He asserts that the only funny thing about the disease is its name and concludes that since there are no specifics against the mumps once acquired, strong preventive measures should be taken.

Advertisement for Frolaset Corset. Includes illustrations of a woman in a corset and a close-up of the corset. Text: 'The Frolaset Corset. At Once The Latest & Best. What type of figure is yours? Are you a slender and rather tall woman who must be corsetted to give the effect of more plumpness? or Are you short and slender, and need a corset to give the effect of increased height? or Are you short and stout and need a corset to reduce the figure below the waistline? or Are you tall and stout and desire to present a more youthful appearance than you now present? It is possible to do much with a corset. In fact, the corset is an item of dress to which you should pay a high degree of attention. The Frolaset Corset is a garment that we highly recommend. We do so because we know its merits. We have fitted many women with this front-laced corset and have seen the change that a properly fitted Frolaset effects. But the corset itself is only one element of corset satisfaction; it must be correctly fitted. A proper model must be selected. You cannot ask for a certain size and then expect to be pleased. The next time you buy a corset ask for a Frolaset and ask to be fitted. All fittings are made without charge.'

MANY ATTEND MILLINERY OPENING SATURDAY.

The first showing of the new spring tailored hats by Mrs. Jon Dickson was quite a success. A large crowd was in attendance, the streets being thronged with shoppers, taking advantage of the spring like weather. The shop is beautifully appointed, and the gracious proprietor made all the callers welcome. The hats themselves were much admired, a large number being on exhibition. All of the newest concepts, feminine headgear, the tiny hats covered with jet, the maline hat, and all of the latest straws in the most chic shapes and combined with the smartest trimmings. Between three and four hundred ladies called during the opening hours, and were presented with a bouquiere of cherries and foliage, suggestive of Washington's birthday. The shop, its contents and its owner seemed to make a decided hit with Wichita ladies.

OIL MILL ACCIDENT IS FATAL TO SEYMOUR MAN

(Seymour Banner) Monday afternoon about 2 o'clock J. P. Adkins and Mr. Cooper were working in the oil mill seed-house shovelling seed into the conveyor. They were working in the "dog house" and it was very dusty there. Suddenly seed quit coming into the conveyor and Mr. Adkins was misled. It was easily surmised that he had stepped out from the protecting walls set down against a bank of seed which had slid down on him. All hands worked furiously in getting the seed away but as there were several tons in the pile and they kept sliding down it was some thirty minutes before the unfortunate man was found. He was discovered in a slitting posture with life extinct. Doctors were called immediately but all resuscitation methods failed. Funeral services were conducted at the cemetery Tuesday evening about 5 o'clock by Rev. Stanley.

Style Hints For Early Spring; Simplicity Keynote For Brides

New York, Feb. 21.—Two extremes were evidenced at a recent wedding in one of New York's Four Hundred; a simplicity of dress for brides, bridesmaids and flower girls, while the presents were elaborate and costly.

of embroidered net over yellow charmeuse, one of which I show in the first illustration. The surplice waist is daintily edged with a frill of lace. The tunic of net and the yellow charmeuse skirt have the sanctioned up tilt in front. Yellow stockings and bronze slippers are worn with this frock.

exposed. A shower bouquet of lilies of the valley completed the costume. The little dress which is pictured in a window of a prominent Fifth avenue shop as a suggestion for a bridesmaid's dress or a debutante's frock. The simple bodice of allover lace is unadorned, except for the dainty chiffon apple blossoms which outline the edge of the neck and front-closing. Two wide ruffles, placed diagonally from above one hip to below the other, accentuates the bouffant silhouette of the apple green crepe de Chine skirt. A wide cashmere apple blossom silk knots at one side and the ends fall gracefully to the knees. On the head is worn a Castle hat of lace to match the face of the bodice and trimmed with the apple blossom pink and green ribbon.

and the line of the waist is accentuated by a wide girde of satin or velvet ribbon, into which is tucked a vivid bunch of flowers. Besides being pretty and graceful, this style conforms well with the up to date silhouette which we are affecting, and which shows no indication of changing. Many new-shirt waists are being shown in the shops. The favorite

one seems to be of white chiffon cloth, a transparent fabric considerably heavier than chiffon but with its soft and clinging qualities. The waist is made large and blousy and the fullness at the neck is gathered upon a large silk cord, which ties loosely in the front. The sleeves are long and have turn back cuffs. The tiny buttons are of black jet.

Two thicknesses of net make another charming waist, which is fastened with pearl buttons as large as a twenty-five cent piece. The turn-over cuffs are fastened with two of these buttons, used as links, joined together with a tiny silk cord.

White serge skirts are worn with homespun jackets of brilliant and varied hues. Little soft-hats of the same material in approved styles, add distinction to this costume, so suitable to the health and vitality of our modern young woman.

A noticeable feature of spring styles is the tendency toward the circular rippling effect of godet flounces. Circular tunics are short in front, cut that they may ripple down the full length. The lining is almost as much in evidence as any outside portion of the dress.

Short coats have these godet flounces graduated from front to back, so full that the waistline is entirely lost in the undulations of the ruffle. While the craze for narrow skirts was at its height, Redfern laughed people looked and except for a few devoted clients, turned their backs. He persisted and this year pleats are to be seen in almost every conceivable form. Do not be deluded into thinking this means greater width at the hem of the skirt for it does not. If they are put in the lower part of the skirt, they are laid flat and caught with a rubber or tape to keep them from being misplaced.

Accordion pleated tunics are finished with a double box pleated ruffle of ribbon or pinked silk and they stand out conservatively and only slightly resemble the lamp shade tunics Paul Poiret accidentally but successfully launched last fall.

The high standing collars which go by the name of L'Algon, Medici and Romney are worn by the majority of women, but they do not look well upon all. The slim or large hemstitched square of sheer linen or chiffon cloth is much more becoming to the majority of faces. The wired collar of lace is still very popular. Its newest guise is in linen, starched, stiffly to stay erect without the aid of boning.

There is a difference between a woman who is well dressed and a woman who is entirely chic. The former may have up to date clothes of the finest materials, but the latter keeps an eye upon all the dainty accessories cost not an inconsiderable sum and may be the latest word to day and a bygone fad tomorrow.

GASOLINE LAUNCH CLEW TO ROBBERS

Believed Men Who Held Up Express and Killed Three Beyond Capture Bellingham, Wash., Feb. 21.—Armed possums patrolling the country near the scene of the Great Northern passenger train robbery last night, in which three passengers were killed, today discovered that a gasoline launch put in at Chuckanut Bay two miles north of the scene of the robbery, just before the train was due and left a few minutes after the train passed. From this, it was believed the robbers escaped to one of the islands of the San Juan group where it is next to impossible to conduct a successful search. The reward offered by the Great Northern was increased today from \$15,000 to \$20,000.

LIFE IS RESTORED

Electrical Device Used in Effort to Save Hero.

Man's Heart Beats For Two Hours After Being Pronounced Dead From Drowning, by Use of Instrument.

New York.—For two hours after he had been declared dead from drowning the young wife and other relatives of Edgar Manjo watched spellbound around him at Babylon, L. I., as Dr. D. W. Wynkoop slowly brought him back to life, forcing his heart to beat with an electrical device. For long it was believed the young man would be saved, but suddenly respiration ceased and could not again be restored.

Manjo, who was only twenty, was a son of Lewis Manjo, a retired export broker, well known on Wall street and son-in-law of Commodore Searle of the Babylon Yacht club. With his wife he was spending the holiday at her parents' home and went bathing with his little niece, Susan Searle.

A few minutes after they had started the child burst, sobbing, into the Searle house, crying "Uncle is drowned!" When she grew calm enough to tell her story it was evident that Manjo gave his life to save hers.

The two had waded out into the river hand-in-hand. Apparently they had stepped unexpectedly into a deep hole, or off a ledge of ground. Manjo realizing that he could not swim, had with a last desperate effort thrown his niece back into the shallow, safe water as he himself went under.

Dr. Wynkoop, a local physician, was summoned. He got two short lengths of wire and placed one at the base of Manjo's tongue, and the other against his diaphragm and connected the free ends with an electrode. Manjo had been pronounced dead more than two hours when Dr. Wynkoop began his treatment.

An hour after the electrical machine resumed its operation the ayeed spectators started back in astonishment. There were signs of returning life. First came a scarcely perceptible movement of the heart. Then slowly that organ resumed its functions and respiration was restored.

For two hours the heart beat regularly and respiration continued. The young wife hung over her husband praying that he might be restored to her and waiting for the return of consciousness. But consciousness did not return and suddenly both respiration and heart stopped and could not be re-started.

Dr. Wynkoop said he was greatly grieved his efforts had failed. It was the first time, he said, his treatment had been applied to a human being. He had been experimenting with animals some time and had revived many after death, an ordinarily understood, had taken place. He believed that had it been possible for him to begin earlier he would have saved Manjo's life. He explained that he turned the current on twenty times to the minute.

London.—Lord Kitchener of Khartoum, British agent in Egypt, is home for a vacation to which his wonderful work during the last three years in

His way of ignoring his official superiors in the imperial government and even the king is without precedent and would not be tolerated in anybody else. He has now been at his home in Brookme Hall, Kent, ten days, yet has never condescended even to notify the foreign secretary of his return, much less to call upon him, as is the custom.

Resolutions of Respect. To the officers and members of Wichita Camp 456 Woodmen of the World. We, your committee appointed to draft resolutions of respect in the memory of our deceased Sovereign, P. H. Douglas beg leave to submit the following:

Whereas on the 21st day of January, 1914 it pleased Almighty God in his wisdom and love to take from our midst Sovereign P. H. Douglas to his home in view of this common lot of all it brings to bear on our minds that we soon must all pay the same great penalty and his absence from our midst brings to our memory the sad thought that all is born must die.

As we miss him as a good citizen, who was a true husband and a kind father, we can only cherish the hope that we may meet where the All Seeing eye of God will continue to watch over the unbroken fraternity. Therefore, be it resolved, that we extend to the bereaved family and relatives our sincere and heartfelt sympathy and pledge to them our fidelity and continued friendship. That a copy of these resolutions be spread on the Camp records and a copy be furnished the Daily Times and to the bereaved family a copy under seal of Camp.

Done by order of Wichita Camp 456 W. O. W. in regular session on this February 20th, 1914.

## WATER AND LIGHT PLANT IMPROVEMENTS

Installation of Pumps and Other Machinery at Plant Here Almost Completed Steady progress is being made at the water and light plant, where new pumps and other equipment are being installed. The new building which is to house the pumps and other machinery is practically completed and Manager F. N. Lawton stated yesterday that he expected the machines to be ready for use for April 15, in ample time to care for the additional drains upon the supply caused by warm weather. The improvements will bring the

pumping capacity of the plant to about three times what it is at present and will, it is believed, enable the plant to care for five years increase in population. They are part of the scheduled improvements undertaken by the new company when it entered into possession of the properties here and which have materially increased the efficiency of the local plant.

YOUNG MAN AT GUANAH TRIES TO END HIS LIFE Guanah Tribune Chief. Daniels had just returned from Amarillo and went to see his

wife, nee Miss Connell, lived a few miles east of town with her father, who had given notice that he would bring suit for divorce. Dan tried to persuade her to live with him again. Upon her refusal, he wished a goodbye, saying that he would be dead within half an hour, and drawing a revolver, placed the muzzle on his left breast, and began snapping the gun. At the third pull the bullet went off, and the bullet ploughed its way under the skin went through the flesh, and came out behind his shoulder. The Tribune Chief was alerted the shooting, examined the gunshot which was a cheap make and poorly constructed. There were six cartridges in it, one of which had been discharged, and two others showed marks where the plunger had hit their rim. Daniels is now at the home of his brother and doing well.

# AN EXHIBITION of New and Attractive Spring Models

All are invited to pay our garment section a visit Monday or one day this week and take a look at our advance showing of suits, dresses and skirts.

## New Spring Suits

This being a season of Fancy Suits, the plain tailored effects being little in evidence, a woman has the privilege of selecting styles of individuality. And here you will find a great assortment to choose from. The coats are, of course, very short, many of them only reaching to the waist line, and the skirts are peg-top and those with modified draperies at the hips. See our window.

## New Spring Skirts

Separate skirts for this season promise to be unusually popular. These are made up in all the newest effects, more elaborately draped than has been the case for several seasons. Ask to see them.

**Resolutions of Respect**

To the officers and members of Wichita Falls Camp 456 Woodmen of the World.

We, your committee appointed to draft resolutions of respect in memory of our deceased Sovereign J. M. Bell beg leave to submit the following:

Whereas on the 4th day of February, 1914 it pleased the Great Ruler of the Universe to take from our midst our beloved Sovereign J. M. Bell to his home and this reminds us that we are born to die.

As we miss him as a true citizen, an ever willing worker in Woodcraft, a true husband and a kind and loving

father, we can but express our loss and bow to the will of our Creator. Our hearts are sad and every impulse of our soul is that of sympathy for those who loved our silent Sovereign best. They will look for his coming but he comes not; they will sigh for his voice, but this silence continues forever. And yet Sovereigns he should not be forgotten. His kind acts and his pleasant words should be treasured up as priceless gems, upon which our mind will love to dwell in the fondest and most sacred recollections. He has fulfilled his earthly destiny. The stern hard battle of life has been bravely fought and like a true Wood-

man he has never surrendered to any obstacle in the way of his duty and care for his family and himself, except to the relentless but ofttime merciful hand of death. Life is the flower that blows, Death is the withered leaf; Life is the grain that grows, Death is the garnered sheaf. Therefore, be it resolved, that we extend to the bereaved family and relatives our sincere and heartfelt sympathy and pledge to them our fidelity and continued friendship. That a copy of these resolutions be spread on our minutes and a copy to the bereaved family and a copy

be furnished the press of the city for publication.

Done by order of Wichita Camp 456 W. O. W. in regular session on this 20th day of February, 1914.

DECIDE YOURSELF

The Opportunity is Here, Backed By Wichita Falls Testimony. Don't take our word for it. Don't depend on a stranger's statement. Read Wichita Falls endorsement. Read the statements of Wichita Falls citizens. And decide for yourself. Here is one case of it. John Glep, shoemaker, 712 Seventh street, Wichita Falls, Texas, says: "For many years I had various troubles caused by my kidneys and bladder. I had pains in my back and side and was troubled by irregular passages of the kidney secretions. Seeing Doan's Kidney Pills so highly recommended, I tried them and found them even better than represented. They cured me and now I seldom need a kidney remedy. When I do I take Doan's Kidney Pills and they always benefit me." Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Glen had. ANOTHER FEDERAL TEAM IS COMING

WORD RECEIVED SATURDAY INDIANAPOLIS TEAM WOULD TRAIN HERE

WILL ARRIVE MARCH 5

Ball Players, Newspaper Men and Officials Will Number Nearly Hundred

Wichita Falls was written on the baseball map in yet larger letters than before yesterday when the announcement came from Indianapolis that the Federal League club of that city had followed Kansas City's example and selected Wichita Falls as the site for its training camp this spring. The squad will arrive about March 5, a day or two before the Kansas City team shows up. This city was selected largely through the good offices of George Stovall, manager of the Kansas City Federals, who saw Wichita Falls' advantages as a training camp and got the Indianapolis management to agree to come here. When he left here, it was known that he was urging the Pittsburgh Federals to train here, and it is presumed that the Pittsburghers had selected a camp elsewhere. The selection of Wichita Falls as

a training camp by two major league teams is a distinction that is seldom conferred upon any city, and speaks well of what this city has to offer. Cities and towns throughout the South and Southeast every year make a strong bid for the big league teams, yet Wichita Falls, Houston and Martins are the only Texas towns to be thus favored. Two Parks Available. Just what arrangements will be made between the Indianapolis and Kansas City teams for the use of the parks is not known. Both the city and lake parks are available, but it is considered probable that both teams will want to remain at the lake and use the park there. It is not unlikely that the Kansas City team will remain at the lake, using the park there, while the Indianapolis team will stop at a downtown hotel and use the city park. Arrangements can easily be made by which both can use the park at the lake, without interfering with one another. Each club will bring about twenty-five players, while club officials, trainers and newspaper men will increase the number of men to thirty-five, many of these will be accompanied by their wives and it is estimated that each team will bring at least fifty people to remain here for a month. Sporting writers for each of the papers will accompany the teams, as a matter of course, and during the entire training season, Wichita Falls will be a frequent date line in the sporting columns not only of the Kansas City and Indianapolis papers but throughout the country. The fact that two clubs have selected this city for their camp, this being a unique distinction in baseball

annals, will be sent to newspapers throughout the country. Acting Secretary Thomas of the Chamber of Commerce yesterday sent out new letters announcing the fact to newspapers in every town in the country that has a league baseball team. The value of the advertising that Wichita Falls will secure as a result of the selection can hardly be estimated. Coupled with the announcement will be a concise statement of the other advantages of the city. Much Publicity Will Result. Pictures and literature, descriptive of Wichita Falls have been requested of the Chamber of Commerce by Indianapolis and Kansas City newspapers and needless to state the request is being promptly and fully complied with. One feature of marked interest to local fans is the fact that it assures them a number of games of first class ball. While teams from the Texas and Texas-Oklahoma leagues will not be permitted to play the Federals, the latter being "outlaws" the Indianapolis and Kansas City nines are expected to engage in frequent practice games that should be a source of much interest to local fans. NOTICE—I will sell at public sale, between the hours of 10 a. m. and 4 p. m. on the 28th day of February, 1914 in the town of Burkburnett, Texas as trustee for Charles Wood for the rateable benefit of his creditors, all the restaurant fixtures, confectionery goods, notes, accounts and bills receivable to the highest bidder for cash, invoiced at \$1042.13. H. NUTT, Trustee. 39 50.

How You May Throw Away Your Glasses

The statement is made that thousands wear eyeglasses who do not really need them. If you are one of these unfortunates, then these glasses may be ruining your eyes instead of helping them. Thousands who wear these "windows" may prove for themselves that they can dispense with glasses if they will get the following prescription filled at once. Go to any active drug store and get a bottle of Optona; fill a two ounce bottle with water and drop in one Optona tablet. With this harmless liquid solution bathe the eyes two to four times a day and you are likely to be astonished at the results right from the start. Many who have been told that they have astigmatism, eyestrain, cataract, sore eyelids, weak eyes, conjunctivitis and other eye disorders, report wonderful benefits from the use of this free prescription. Get this prescription filled and use it; you may so strengthen your eyes that glasses will not be necessary. Thousands who are blind or nearly so, or who wear glasses would never have required them if they had cared for their eyes in time. Save your eyes before it is too late! Do not become one of these victims of neglect. Eyeglasses are only like crutches and every few years they must be changed to fit the ever-increasing weakened condition, so better see if you can, like many others, get clear healthy, strong magnetic eyes through the prescription here given. (Adv.) Save the pieces of your broken lenses and I will grind another while you wait. A. S. Foville, Mfg. Optician, Phone 31, 708 Ohio. 42 10

COTTON SEED FOR PLANTING

The question of a supply of a reliable planting seed to insure a cotton crop for next season is a serious one. The seed produced in this section from start to finish this season were more or less damaged by either drought or wet weather. Good crops cannot be produced from seed of low germinating power. We earnestly call the attention of all bankers, merchants, land-owners, ginners and farmers who are at all interested in planters making a good cotton crop to the fact that it is to the interest of all to join in an effort to induce the planters to secure some good seed outside this section. Some people will contend that some of the seed raised this season are good enough, but we insist that it is dangerous to risk planting this drought stricken seed. PURE SELECTED ROWDEN SEED—Two years ago we imported a car of selected Rowden Seed, some of which we have sold each year, but still have on hand about 250 bushels of these, put up in sacks of 3 1-2 bushels to the sack which we will sell at what they stand us on our books—\$1.00 per bushel. SECOND YEAR, FAIRLY STRAIGHT MEBANE—We recently purchased from a reliable concern in Central Texas a car of fairly straight, second year Mebane seed. Next month we will run these through our cleaning machinery, then through our linting machines to take off the lint, thus making them absolutely clean and with lint removed they should germinate quicker. We have about 1200 bushels of these, put up in sacks of 2 bushels each. These we will sell at cost—70c per bushel. GOOD, CLEAN, PLAIN SEED—Last May we shipped in from Oklahoma a car of first class, plain seed for planting, out of which we carried over 1200 bushels. These we run through our cleaning machinery and the linting machines, hence are absolutely clean and lint removed. They are in sacks of 2 bushels each, and will be sold at what they stand on our books—65c a bushel. If the planters do not care to buy any of the above we still urge them to send away somewhere and get some good seed not grown in this drought section. Wichita Cotton Oil Co., Wichita Falls

ANNA PAVLOVA

**AMUSEMENTS**

**"THE LITTLE MILLIONAIRE"**  
 ONE OF MR. COHAN'S BEST.

An advance notice says: "The Little Millionaire," with Bert Leigh and Hazel Burgess, fascinating songs, smart dialogue and accelerated speed, are the superstructural attributes that combine to make Geo. M. Cohan's pen products the appealing entertainments they are invariably found to be, and "The Little Millionaire," his latest musical composition, which comes to the Wichita Theatre March 17, is no exception to the rule. When Geo. M. Cohan started to write "The Little Millionaire," he intended it to be a straight comedy. As the story progressed, however, it developed unusual situations, and he decided to put in some musical numbers with the result that the finished product presents a musical farce in Cohan's best style.

This particular musical farce must have furnished a tonic-like appeal to New Yorkers, judging by the way they flocked to the Cohan Theatre for an entire season.

"The Little Millionaire" is in three acts, and from all accounts it will out-musical and out-speed in rapidity of action, dialogue and funny situations anything this gifted young man has so offered the amusement lovers of America. In the play "The Little Millionaire" is Robert Spooner, the neurotic well-won of a wealthy father, who, after exhausting the frivolities of a life spent on careless pleasures, suddenly resolves to turn over a new leaf and lead a more purposeful life.

The difficulties he encounters in shaking off his erstwhile bohemian companions—one, a wine agent, in particular, forms the nucleus of a well defined plot. Of course, there is a love story; two of them in fact, woven through the three acts in which "The Little Millionaire" is written.

**HISTORY OF TURKEY TROT AND THE GAVOLTE PAVLOVA**

An advance notice says: "The Gavotte Pavlova," which will be one of the features of the brilliant program to be given at the Wichita Theatre on Saturday night, by the world's greatest dancer and her many assisting artists, is designed to give the death blow to the turkey trot, because it is neither beautiful nor graceful, and is apt to be unbecomingly. And as Pavlova herself is responsible for the turkey trot, having spread all over the Continent, the divinity of the dance feels particularly beholden to her. The Gavotte Pavlova, which has been seized upon by the dancing sets wherever Pavlova has performed it this season, shows folks how really beautiful modern steps can be. As for Pavlova causing the spread of the trot, it came about in this way:

tion of the art of dancing, Pavlova included San Francisco in her route. Her Frisco's "Barbary Coast" was the original home of the "Turkey Trot." Pavlova heard of it. She never misses an opportunity to see a new kind of dance. So she was escorted on a little slumming trip along the Barbary Coast. In one dance hall the famous ballarina herself mounted the stage and did the Turkey Trot. And the Turkey Trot was made. The story was carried on the wire all over America, and Sunday sections told of the trot, and showed sketches of Pavlova doing it. About a month later Barbary Coast scene, with the trot, was featured, was introduced at a roof garden in New York City. But Pavlova, much to her later regret, gave the dance its first national impetus. That's why she feels impelled to fight it.

The trot-throttling Gavotte Pavlova is a sort of sublimated combination of tango and hesitation waltz. It will be just one of her many features of the alluring program to be presented at the Wichita Theatre coming among the diversions, or shorter dances, of which seven others are to be done here. The main features of the program will be the rustic force in the dance, "The Magic Flute," and a dance drama of "love's young dancer," "The Invitation to the Dance."

**PROGRAM FOR RECITAL TUESDAY NIGHT ANNOUNCED**

Harry Evans, the renowned English Cathedral singer and Otto Fischer, America's celebrated pianist and composer, have selected a program for Wichita Falls that contains a big variety including some of the greatest masterpieces in musical literature and it is a program that is indeed interesting. Below is a copy of the program that will be given at the Wichita Theatre at 8:30 Tuesday evening, February 24th: Recit. & Air, "Thus Saith the Lord," and "But Who May Abide" (Messiah), Handel—Harry Evans; Polonaise, Op. 9, Chopin; study Op. 10, No. 8, Chopin; Serenade, Fischer; St. Francis of Paul, walking upon the waters, Liszt—Otto Fischer.

English ballads: "The River," Loder; "The Arrow and the Song," Falke; "The Sands of Dee," Clay; "Three for Jack," Squitieri—Harry Evans; "The Wind, Alkan; Sixth Rhapsody, Liszt—Otto Fischer; Songs: "The Monotonous—Cornelius; "Mother o' Mine"—Tours; "The Earl King"—Schubert; "Tommy Lad"—Margeson.

**FEATURES AT MAJESTIC MONDAY AND TUESDAY**

The first of a series of thrilling pictures showing "The Adventures of Kathlyn" will be shown at the New Majestic Monday. The famous 120 acre Selig zoo at Los Angeles, California, is the scene of these pictures. This zoo has seventy lions, tigers, leopards, elephants and scores of other beasts. These animals take their parts so seriously and realistically that many moving picture actors and actresses playing with them have barely escaped with their lives.

The beautiful Kathlyn Williams is the leading lady of the Selig Polyscope Co. She is willing to dare anything to produce a perfect film, risking her life scores of times and always depending on her wonderful magnetism and her understanding of animal nature to get her out of the tightest places.

Following the Adventures of Kathlyn on Monday a double feature will be shown at the New Majestic on Tuesday. One will be Alice Joyce and Tom Moore in a two reel feature "An Unseen Hand." The other will be Cyril Scott in "The Day of Days." This is the story of a young bookkeeper named Perceval, who has led an uneventful life until fate chooses him as the central figure in one of the strangest plots ever woven about the life of the metropolis. Perceval finds himself in the midst of a series of thrilling episodes that take him from the lowly earth to the high peaks of romance.

Louis Joseph Vance based his exciting novel on Oriental fatalism, which assigns to every man his day of days, wherein he shall range the skies and plumb the abyss of his destiny, alternately its lord and slave.

In the course of the story, Perceval becomes the hero of a chain of fantastic and fascinating adventures. He aids an heiress to escape a villain, finds a card in the villain's hat that sends him to a notorious gambling house, where he breaks the bank, and where, later, an attempt to rob him is frustrated by a timely raid. He effects his escape from the gambling house in the clothes of one of the officers, finds himself in a woman's bedroom, explains his presence by telling her he is after a burglar, his uniform corroborating the story, breaks away and turns up again in a secret dive of the underworld, escapes in time to discover the villain's plot to abduct the heiress, confronts the villain in disguise at a fancy ball, rescues the heiress a second time, becomes involved in a fight with the villain's hired gunman, forces his way into a garage, dashes through the garage doors with the heiress in his arms, makes his way to an automobile and liberty, and in the final chapter thwarts the villain's schemes by marrying the heiress, just as the clock denotes the end of his "Day of Days." The story gets down to the heart of New York, and feels the pulse of the metropolis throughout.

Messrs. F. Ray Comstock and Morris Geest, the managing directors of the famous American tour of Gertrude Hoffman, Miss Polaire and Lady Con-

rounded by a company of seventy-five in "Marianne," a musical divertissement by Maurice Volny, at Wichita Theatre on Monday, March 16th. This will be the only opportunity the local theatre-goers will have of seeing this clever little woman in the artistic performance that has been the sensation of London and New York for the past six months. A number of American and European novelties are also introduced.

**LES MISERABLES PLEASES WICHITA FALLS AUDIENCES.**

Hundreds of Wichitans turned out Friday and Friday night to see the pictorial presentation of Les Miserables at the Wichita Theatre. All were satisfied and deeply impressed with this splendid production and many compliments were heard for the enterprise of Manager Earle in bringing this picture to Wichita Falls.

**AT THE MOVIES MONDAY.**

The last of the ever popular "Mary" series was played at the New Majestic to large crowds on Saturday. The program for Monday is a very good one and is up to the usual standard. The Adventures of Kathlyn will be featured.

Old Doc Yak will be at the Gem again Monday, in "Doc Yak's Christmas." "The Great Game," an 8 and a special feature, in two reels and one other picture completes their program.

The "Mutual Movie" house will show a Majestic film, "The Lacker," an Apollo, "The Swell Dish," and a Kay Bee, "The Secret Code."

**STEEL SIGNS WILL MARK COLORADO-GULF HIGHWAY**

Secretary Ben Brothers of the Chamber of Commerce yesterday received first steel signs which will be put on substantial 3 by 10's every five miles from Quanah to Childress. These signs are markers on the Colorado to Gulf Highway. The posts will be set firmly in the ground; the signs, which are of steel about 80 by 10 inches, are blue and white enameled, very durable and easy to read. They are intended to mark the road from Denver to Childress.

In connection with this highway, a bill will be introduced in Congress in a few days, wherein the National Old Trail's Association asks for an extension of the proposed appropriation for a national road system to cover the Colorado to the Gulf Highway. This makes it a part of the trunk lines which will connect every city of more than 20,000 inhabitants and every state capital. The Colorado to Gulf Highway would mean a perfect road connection between the winter resorts of Texas and New Mexico, and the summer resorts of Colorado. It would be the logical outlet for the great number of tourists from Texas, Arkansas, and Louisiana who will yearly to health

resort scenery in the world. There are numerous thriving towns along the way, some of them large enough to be called population centers and widely known on account of the hospitality. The highway extends from Denver to Galveston, passing through Colorado Springs, Pueblo, Walsenburg and Trinidad, Colorado; Ratof and Clayton, New Mexico; Dalhart to Amarillo, Texas, where the road divides. The western lines goes through Plainview, Lubbock, Sweetwater, San Angelo, San Antonio, and terminates at Corpus Christi. The eastern continues from

Amarillo through Memphis, Quanah, Wichita Falls, Bowie, Fort Worth, Dallas, Corsicana, Houston and Galveston.

**BAND OF WHITE CAPPERS SEVERELY HANDLE VICTIM**

Gainesville, Texas, Feb. 20.—John Walker is in a serious condition at his home near Woodbine as the result of a severe mauling by a band of white caps. He was dragged from his house a few nights ago by a crowd of disguised men who beat him with long leather straps. His

flesh is cut and bruised from head to foot. After beating him the white caps tied him in a cotton sack and hurled him back into his yard. He warned him not to shout under threat of death. His body was stripped of clothing before his whipping was administered. He is unable to say who his assailants were.

W.F.N.W.R.Y. BACK TO 3 CENT RATE

OKLA. CORPORATION GRANTS PERMISSION TO RE-INSTATE 3 CENT FARES

BIG LOSSES INDICATED

Losses of \$26,000 Reported Since October When 2 Cent Fares Introduced

The Wichita Falls & Northwestern after operating on a two-cent basis for about four months, has been granted permission by the corporation commission of Oklahoma to return to the old three-cent basis. The management of the Northwestern was able to convince the commission that operations on a two-cent basis had been very unprofitable and the commission granted the petition. C. C. Huff and Frank Kell of this city attended the hearing of the commission at Oklahoma City, returning yesterday morning. They presented figures to show that on a two-cent fare, the Northwestern operated at a loss of approximately \$6000 in October, \$16,000 in November, \$6000 in December and \$3000 in January. The commission was convinced of the injustice of the reduction and issued the required order. When the two-cent fare law was enacted in Oklahoma, there was a proviso that where a road could not operate profitably at this rate, it should be exempted from the law and permitted to charge three cents per mile. The Northwestern was for some time exempted, under this feature of the law but last year, after lengthy hearings the corporation commission decided that it should reduce its rates, making an agreement however, that if the road showed, after a six months' test, that a two-cent rate was unprofitable, it should be permitted to return to the three-cent fare. Low Fares Unprofitable. Much of the passenger traffic of the Northwestern is purely local in its nature, it handling very little trans-state business in spite of the fact that it extends all the way across the state. Had the road handled a considerable amount of through passenger business, it might have done so profitably on a two-cent basis, but the local nature of the traffic made it impossible. Mr. Huff and Mr. Kell convinced the commission of these conditions and that body after fair and courteous consideration of the matter, issued its order as follows: "The period of time having expired by which it was understood between the commission and the Wichita Falls and Northwestern Railway Company that it should charge the two-cent passenger rate on its line for a test period, and the passenger earnings of the company not being sufficient to pay that proportional part of the expenses which should be borne by the passenger service and the proper maintenance of the property. "The order requiring the Wichita Falls and Northwestern Railway Company to charge the two-cent passenger fare is hereby set aside and the order heretofore made by the Commission exempting that company from the operation of the two-cent law is reinstated.

CORPORATION COMMISSION, By J. E. Love, Chairman.

Byers Notes.

Byers, Texas, Feb. 19.—Dr. Carr from Toron, Mexico has been visiting Dr. Reed this week. Dr. Carr has been living in Mexico twenty-three years and can tell a lot of interesting tales about the trouble in Mexico.

Miss Velva Blankenship who has been very low with pneumonia is improving at this writing. Clarence Tucker came in yesterday from Arkansas to make this place his home. His family has been here since Christmas.

Mrs. House from Oklahoma, was over yesterday visiting her father. On account of the hard freeze, wheat was looking bad but since the rain and a few warm days it is looking nicely again.

Mrs. T. H. Wright left yesterday to visit her father in Winters, Texas. Grandma Ward died a few days ago. She was ninety-six years old. She was buried in the Byers cemetery.

Grandma Bates die and was buried at Byers this week.

Miss Margaret Brockman is visiting her sister here.

Osteopathy.

Osteopathy is superior to all other forms of treatment. When dangerous sickness in the very extremes of life, the osteopath (proper workings of organs), and if it is within the limits of human possibility, long after all other agencies are futile, the osteopath with precision and certainty removes the cause and coaxes nature to restorative work. for arrogance. He could exhibit pride without vanity, courage without bravado, pity without fanaticism and earnestness of all purity without effeminate; for he had the nerve of steel and could have carried the flags of Napoleon or led the charge of the Light Brigade. "In his matchless character there was a symmetrical harmonious blending of all that was pure and beautiful in woman, and all that is noble and lofty in man. His finely tuned sympathetic nature caught the vibration and responded to every note of human suffering; where some would bestow charities with great action, fearful lest an unworthy object might be the recipient, he gave with a lavish hand, as though it were a pleasure and blessed privilege to give. "My friends all of us cannot rise upon the wings of faith, nor can we all achieve distinction; have marble tablets perpetuate our names, nor splendid mausoleums to tell where the journey ends. But in the twilight and darkness where sorrow broods in

silence and the angel of death stands waiting if we faithfully fulfil our holy mission we can have our images embalmed in grateful hearts and after our last call is made let us hope, above our humble resting place some loving gentle hands will plant with tears the myrtle and the rose. The vast flood of waters that pour over the falls of Niagara before they reach the base are dashed and dissolved into a cloud of mist and vapor, but the sunbeams winding their rays of rose, violet and vermilion through the silvery mist weave rainbows of beauty to span the abyss. "When you my friends, reach the border of that greater falls, when the Niagara, that unexplored canyon between time and eternity, and the surging currents of existence, is dashed and dissolved into ethereal mist, may the sunlight shen of noble lives weave for each of you as it did for Dr. Bell a glorious rainbow of hope and promise."

WICHITAN AT SCENE OF TUNNEL HOLOCAUST

Karl Hammond is Undertaker in Charge of Bodies Recovered at Madero A letter was received Saturday from Karl Hammond, dated Feb. 13 at Madero, Mexico, which will be of interest to his friends in this city. Mr. Hammond is employed with an undertaker at El Paso. Mention was made in the papers at the time of the happening how Costello set fire to the stock train near Madero and a passenger train ran into the burning train in a tunnel, the two trains with passengers, crew and stock burning in the tunnel. Mr. Hammond was sent by his company to take care of the bodies as they were brought out. He states in his letter

that so far very few bodies have been recovered, the wreck and its surroundings presenting a very gruesome spectacle. The bodies which have been taken from the ruins are scarcely recognizable. Karl was a graduate of the class of '13 of the Wichita Falls high school. MRS. SUSAN SULLINS SUCCEUMS TO LA GRIPPE Mrs. Susan Sullins, wife of Joe Sullins, residing at 1719 Sixth street, died Saturday morning at 7 o'clock, death following a severe attack of la grippe. The deceased was sixty-four years of age and is survived by a husband and two children, a daughter, Mrs. Addie Reno, living at Prescott, Ariz., and a son, Lewis Sullins of this city. The funeral will take place this afternoon at 3 o'clock from the family residence, services to be in charge of Rev. Goughly of the Nazarene Church.

E. L. McCollgin, new secretary of the Chamber of Commerce, is expected to reach Wichita Falls sometime this week, ready to assume his duties on March 1. Advice received from him recently were that he would leave Virginia early this week and it is thought that he will reach here in time to establish himself in his new home before his duties as secretary begin. With the arrival of Mr. McCollgin, John W. In the latter capacity he will be assisted by W. M. Fuller who has been connected with the office for several months.
