ENGLAND AWAITS EFFORTS OF U. S.

LEAVES ACTION IN BENTON CASE UP TO JUDGEMENT OF UNCLE SAM

PRONOUNCEMENT IS MADE

Sir Edward Gray Addresses Commons Says England Reserves Right To Secure Reparation

By Associated Press.
London, March 3.—The British government's view that no immediate action could be taken by it in connection with the deadlock over the investigation into the death of Baroness von Helldorf, the British subject, was made quite plain today in the House of Commons by Sir Edward Gray, the British foreign secretary. Sir Edward was, however, equally explicit in pointing out that if Great Britain fails to secure satisfaction through the United States the British government reserves to itself the right to secure reparation when it can do so.

The proposed pronouncement on the Mexican situation from the foreign secretary had been anxiously awaited and was delivered before a keenly interested gathering. Resentment has been displayed throughout the British Isles over what is regarded as the attempt on the part of Venustiano Carranza, the Constitutional leader, to throw discord between England and the United States, and also over the repeated delay of the investigation in the death of Benton.

"So far the United States has shown at least as much interest in the death in Mexico of a British subject as it has in the case of outrage on American citizens," Sir Edward said, "and the United States has shown every desire to use its influence to secure protection for British subjects in the Mexican territory controlled by the Constitutionalists. I would sum up the situation by saying, if the United States thinks it is proper to take further steps either on the behalf of British subjects or of its own citizens, we will gladly await results, but if for reasons of its own the United States does not think it desirable to take any steps in this direction we must of course reserve to ourselves the right to secure reparation whenever it is in the power of this government to do so."

CASE ARGUED BY LINCOLN 50 YEARS AGO HAS HEARING

Chicago, March 3.—A question that was argued by Abraham Lincoln fifty years ago as counsel for the Illinois Central railroad, was heard again here today before Special Commissioner Paterbaugh, representing the supreme court. Walter B. Horton, general attorney for the road, stood in Lincoln's place and argued against taxation of \$160,000,000 of the road's bonds. The case was on appeal to the supreme court of Illinois and the state was represented by Attorney General Lucy. The road contends that the state cannot tax bonds on property already

CATTLEMAN GATHERING AT OKLAHOMA CITY.

SUNDAY FARM WELL MAKING 50 BARRELS

Starting at Eight Barrels Production Reported Gradually Increasing

The oil well on the J. P. Sunday farm northwest of Iowa Park, which was drilled in at 750 feet, several weeks ago, making an eight barrel pumper at that depth, has been increasing steadily in production since that time and is now making fifty barrels a day, according to a report received here today.

The well is also making some gas and there is little question that it is a much better producer than was at first estimated.

GRAY'S ADDRESS SLACKS TENSION

PRESIDENT READS BRITISH SECRETARY'S PRONOUNCEMENT BEFORE CABINET

THE KILLING OF BAUCH ARE FOREVER BARRED

This Incident, However, Still Leaves Grave Situation For United States

By Associated Press.
Washington, March 3.—Sir Edward Gray's statement to the House of Commons as received here in news dispatches was read by President Wilson to his cabinet at a meeting today and was generally regarded as breaking the tension over the possibility of extreme pressure being entered upon the United States by England for a drastic course in connection with Benton's death.

The killing of Gustav Bauch, an American, reported from Chihuahua, did not remove, however, the gravity of the situation as viewed by United States. No definite word had been received from General Carranza up to the time of the cabinet meeting as to what the Constitutionalists intended to do about the killing of Bauch, the investigation of Benton's death and the denial of the right of the United States to solicit protection for foreigners in territory controlled by them notwithstanding their governments had given recognition to Huerta.

Friends of Carranza here had telegrams saying the Constitutional cabinet was in session considering all phases of the situation and that there was hope for satisfactory outcome.

RIGID DIVORCE LAW INEFFECTIVE

New Yorkers Restrained by Own State Simply Go Elsewhere

New York, March 3.—All that glitters is not gold and by the same token much that has the outward resemblance of benevolence is sometimes quite the contrary. The Empire State's rigid divorce law, admitting of legal separations only on statutory ground at first glance appears to be a far sighted humanitarian provision to safeguard the sacredness of matrimony but in fact it is the question now agitating the lawyers of New York.

A camel may pass through the eye of a needle with more ease than a New Yorker may obtain a divorce in his own State without besmirching the name and all the consequences of matrimony. But divorce is so easily obtained that New York's bar bluster is no deterrent. It merely causes yoked-together Gothams to go to other places for freedom and New York lawyers lose the fees. Where millionaires would pay thousands to their regular solicitors for a comfortable divorce at home, if such were possible, they go abroad and pay larger fees to strange lawyers. The New York restrictions do not restrict divorce, but they do carry New York divorce money into other States and foreign countries.

Divorce may be an evil. There may be too much of it. That is a debatable question and this is not a debating medium. But it is patent to the most casual observer that one State alone cannot curb the divorce habit, so long as her sister States make no such attempt. It is like Don Quixote tilting at windmills for New York to fight divorce by having a drastically prohibitive divorce statute while in other States one may obtain succor from domesticity by all legal means that his mate has cold feet which she puts in the small of his back at night or that one's husband is temperamental or that the fatly smokes cigarettes in bed, thereby raising the risk of the fire insurance. All it takes to get around Father Knickerbocker's legal complications to protect the home and fire-side is a little money—car fare and attorney's fees. And New York does not get the money.

Take the case of the millionaires secret divorce in France that electrical society folk when finally it leaked out. It was known for months that the pair were at outs. Married for sixteen years and the parents of three children, they could no longer live together in harmony and agreed to separate. They divided their property equally and took up separate residences. The children, by mutual consent, went with the father. Those people were determined on a divorce and all the efforts of relatives and friends failed to dissuade them. Arguments fell on deaf ears with no more effect than water on a duck's back.

Did the ugly divorce law of New York restrain them? It did not, because they have plenty of money and a trip around the world meant nothing to them. They were determined to sever the tie that bound them, because they had come to the parting of the ways. The wife of another man had prepared a million-dollar alienation suit against the million-

JACKSONVILLE NAMED FOR "OLD HICKORY"

Coming Reunion of Confederate Veterans Recalls Services of "Old Hickory"

Special to the Times.
Jacksonville, Fla., March 3.—Confederate soldiers, the world over, rever the name of Andrew Jackson and in view of the fact that their next reunion is to be held in the only city in the South that was named in honor of that great and brave man, his services in freeing Florida from the blight of Indian barbarism will be of interest.

Jacksonville was named for Gen. Andrew Jackson as a compliment and mark of appreciation for services he rendered to civilization in the Seminole war. There could have been no progress or civilization in Florida but for the work of Andrew Jackson. Conditions in this territory in 1818, nearly a hundred years ago, demanded the services of a brave and resolute man. Gen. Jackson was selected by the government as the one man above all others to head the movement against the Seminoles in Florida, who had been terrorizing the territory for several years and committing atrocities of the most brutal character.

In March, 1818, Gen. Jackson was ordered to the site of the Seminole war. He invaded East Florida and in a campaign of less than six weeks crushed these Indians. It is related by historians that in one village, not far removed from Jacksonville, he found 300 scalps of men, women and children, many of them still fresh, hanging on a war pole. Gen. Jackson knew that the Spaniards were in sympathy with the Indians in their attacks on American settlers. After cleaning up a number of Indian villages he captured the Spanish post of St. Marks. For his act he was severely commended by his government. However, the naked fact is that "Old Hickory" was more courageous than the men who were conducting the affairs of State at Washington.

Early in May, 1818 Gen. Jackson closed his campaign against the Seminoles in East Florida. He had completely broken their power and run them out of the territory. They caused no more serious trouble. During his campaign in East Florida, Gen. Jackson obtained satisfactory evidence that Spanish officers at Pensacola were in sympathy with the Indians. He promptly decided to march against them and teach them a lesson. The Spanish governor of West Florida learning of Gen. Jackson's purpose, sent him a written protest against his invasion. This protest is now on file among the Jackson documents in charge of the Tennessee Historical Society at Nashville. The protest was delivered to Gen. Jackson near Pensacola on May 23, but it had no effect on that determined man. In reply, he sent a peremptory demand for the immediate surrender of Pensacola and Barancas. Jackson advanced immediately on Pensacola and possessed it. Two days later the Barancas garrison capitulated, were received as prisoners of war and sent to Havana.

Having thus snatched both East and West Florida from the Indians and Spaniards, Gen. Jackson at once proceeded to establish a provisional government under the stars and stripes. Having accomplished this he returned to Tennessee then his home.

Without censuring Gen. Jackson, the government restored Pensacola and St. Marks to Spain and the Spaniards were put in possession. Shortly thereafter, however, Florida was ceded to the United States and Gen. Jackson was made provisional governor. He served a little more than a year and was succeeded upon the establishment of a territorial government by Wm. P. DuVal as governor.

RELIEF FOR NEW YORK

Food Supplies and Milk Reach City On Trains Delayed By Snow Drifts

By Associated Press.
New York, March 3.—With some moderation in the weather condition here today were better after the storm. The weather was fair and the temperature rising.

Fresh food supplies and milk from delayed trains which nosed their way through the snow drifts, restoration of the fire alarm service and above all sunshine brought cheer to New Yorkers who have suffered in the blizzard that started Sunday night and continued all day Monday.

The total death list is twelve. No more deaths have been reported and at noon the mercury stood at 39 above.

Relief schedules were vastly improved today. While city railroad and private employers are endeavoring to hire men, meetings of unemployed workmen are being held in different parts of the city. Unemployed men were offered 20 cents an hour, but are demanding 30 cents an hour and an eight hour day. Last night many of the churches in the city were opened giving the homeless places to sleep. The property loss in this city and vicinity will probably run into millions of dollars.

Of the eight barges drift off the Fire Island pier were being towed for New York today. This quieted fears for the safety of 32 men aboard them from New Port News.

Vice President Marshall was marooned on a train in a snowbank near New Brunswick, N. J., all of Monday night. The Vice President said it was the first time in 20 years that he had been separated from his wife over night.

FARMERS FAVOR ROAD BOND ISSUE

MANY OF THEM, HOWEVER, DOUBT WISDOM OF \$500,000 AS THE AMOUNT

THINK SUM TOO LARGE

Some Favor Precinct Issues and Others Want County Issue of Smaller Amount

Before adjournment this afternoon the Good Roads Association called meetings at the following places:

Burk Burnett—Saturday, March 7.
Electra—Saturday, March 14.
Iowa Park—Saturday, March 21.
Wichita Falls—Saturday, March 28.

The association went on record as favoring a bond issue of \$500,000 by the entire county.

Permanent officers were elected as follows: R. E. Eds of Burk Burnett, president; Frank Boyd of Iowa Park, vice president; Sanders Walker of Electra, second vice president; Walter Ibbid, secretary.

That the farmers of Wichita county generally favor a bond issue for road improvement, but that many of them are doubtful as to the wisdom of a \$500,000 issue, such as is proposed was brought out this afternoon at the court house when the second meeting of the good roads association was held.

Reports were received from the first, second and third precincts that had weather prevented a large attendance and it was said that a number of automobile parties that had planned to come had changed their plans when the weather became threatening.

J. E. Head was elected chairman and Walter Reid, secretary. Leo Prescott, reporting for the first precinct, said that the land bottom held a number of farmers and found much sentiment favorable to a bond issue. Mr. Bets of the Burk Burnett precinct said that in his part of the county many were in favor of a bond issue but that some wanted a precinct issue and that some farmers, among them a few of the Texas land owners, would be opposed to an issue in any such amount as \$500,000.

R. L. Eds, former county commissioner, spoke along the same line, saying he believed a \$250,000 bond issue would receive general support. Mr. Lochner, reporting for the Iowa Park precinct, suggested postponing action until there could be a more general discussion, saying that the weather had prevented many from attending who had planned to do so. Mr. Boyd of Iowa Park said sentiment there was in accord with the bond issue idea, but he was not sure about as large an issue as \$500,000. Mrs. Parker of Iowa Park suggested that if a \$500,000 issue was too large for the county to swallow, it could be taken in broken doses. Dr. Denby said that in his section of the county he had found many supporters of the bond issue plan.

Mr. Head said he believed that a comprehensive road improvement plan covering the county would require \$500,000 and he cited the experience of other Texas counties. A letter from D. P. Talley, chairman of the good roads committee of the Chamber of Commerce was then read.

CURATIVE VALUE MINERAL WATER

CHAMBER OF COMMERCE DE CIDES TO MAKE INVESTIGATION CLAIM MADE

SANITARIUM IS POSSIBLE

Wichita Falls Waters Said To Be Very Efficacious With Certain Diseases

That Wichita Falls has mineral waters of curative value sufficient to attract health seekers to this city is the claim which the Chamber of Commerce directors this morning at their weekly session decided to investigate. The matter was brought up by Myles O'Reilly who quoted to city physicians to the effect that the mineral waters to be secured in this city had decided curative properties equal to any in the Southwest.

A committee consisting of J. A. Kemp, Myles O'Reilly and J. B. Marlow was named to look into the matter. Mr. O'Reilly's statements as to the properties of the water and the physicians' estimates of its value, interested the directors decidedly and the opinion was expressed that if it were found that the proposition were feasible, a sanitarium company could be formed. It was felt that the matter should be thoroughly investigated.

Won't Let Long Go.

The directors refused to accept the resignation of W. G. Long as a member of the board, the others taking the stand that Mr. Long should be kept at work as long as he remains in this city.

An appropriation of \$50 was made for help pay for a bridge being erected near Halsell in Clay county, opening up the road from that place to this city. It was represented that the merchants there would do the righting from Wichita Falls when the bridge was completed, this city having already assisted in its construction.

The matter of hiring a secretary for the race meet to be held here in June was brought up by J. B. Marlow but was laid over pending further investigation by him.

Mr. Beard said that nothing has been done as yet to get the ball ready for the Indianapolis team and agreed that steps be taken at once upon suggestion of Mr. Marlow that subscription list was started at once. \$140 being raised in a short time. A total of \$400 is needed to defray the expenses of erecting the ball house at the park. The director then adjourned. Those present were Messrs. Marlow, Blair, Pennington Huey, Hines, Gardner, Kemp, Henderson, Smith, Hardy, C. W. Bean, Boyd Kell, Long, Huff.

ENTERTAINMENT PLANS FOR NATIONAL EDITORS

Electra and Burkburnett Will Co-operate With This City in the Matter

Further plans for entertaining the members of the National Editors' Association on their visit here about May 4 are being made with the promise of the co-operation of Burkburnett and Electra for that occasion. Through the efforts of J. B. Marlow and Electra and Burkburnett have promised twenty-five automobiles each for the editors, and it is thought that at least fifty or sixty can be obtained in this city for the trip through the oil fields.

The cars will meet the special train at Electra and go through the field there and across the country to Burkburnett, thence to this city. It is possible to have a town Park will be included. Plans for the entertainment in this city depend upon the time of arrival here. If the auto trip ends in time the editors will be taken to the factories and over the city; if not, they will go direct to Lake Wichita on the barge.

A change has been made in the itinerary of the special train and it will come here direct from Fort Worth. Stamford has been dropped from the itinerary.

It was thought best to take the visitors through the oil fields by reason of the fact that Wichita Falls promise to do this secured here a place in the itinerary; Beaumont was defeated for this honor.

RESIGNATION OF C.S. SUMMERVILLE

POLICEMAN RESIGNS AND TELLS REASONS FOR HIS ACTION

SURRENDERS HIS BADGE

Intimates Willingness To Give Information To Investigators Caused Estrangement

Intimating that his willingness to give information to those who have been making an investigation into the city police department has made him unpopular with his fellow-officers and with some of his superiors, Charles S. Summerville, one of the policemen who was requested a few days ago to sign a written resignation, today filed with Mayor Pro Tem Bradley a letter of resignation and at the same time surrendered his badge.

He accompanied his written resignation with a letter from J. C. Yancy, the oil man who is understood to have started the investigation. The investigation was presented to Mr. Summerville for his signature which he refused to sign, his own written resignation and the letter from Mr. Yancy follow in the order named.

He Refused To Sign This.

HOW AN IOWA TOWN GOT BETTER ROADS

In the March American Magazine H. C. Beard, Iowa's state highway commissioner, tells how the town of Mt. Ayr in Iowa got better roads. A banquet was given to a representative body of farmers living near the town when the talking was concluded, the president of the commercial club announced that the merchants of the town had decided to offer \$250 in five cash prizes to the organizations of farmers who best improved certain portion of roads leading into the town. The organizations were to choose their own road for improvement and to elect officers and to do the work. Mr. Beard goes on as follows:

"Seven road clubs were organized before the banquet had been deserted, and in a few days the principal thought and topic of conversation around Mt. Ayr was improving the road to Mt. Ayr. Work was performed at all times when farm work was not demanding attention. Road tools became a premium. In one township it became necessary for the ones in possession of a road grader to take the wheels from it at night and lock them in caves, to prevent the grader from joining another road club in the night time.

"Highways that had been but neglected by paths, were converted into good roads here the time for final judgment was to be done. Brains were combined with labor to get the results. Men working in the daytime would meet at a convenient home in the evening and discuss methods for working the roads. One road copied the work of another, and as a result uniform methods of road building were worked out. And now the new Iowa State Highway Commission has followed many of their methods in improving the roads of the state.

"Business followed the better roads, and the trade territory of the town has more than doubled in the four years the plan has been followed. Men striving to learn how to get interest in road-making aroused have come

many miles to see what has been done and who are doing it. Farmers, merchants, commercial clubs and farmers' clubs have sent delegations in autos to see the work and learn from the workers. Merchants, trade journals and automobile journals have told of the scheme to every corner of the country. The town has been advertised and the work has been copied until Mt. Ayr thinks its business men and the farmers near it have a great part in the greater better-roads movement that is sweeping the country."

DECISION WILL AFFECT CATHOLIC ORGANIZATIONS

Every Brotherhood and Sisterhood in United States Concerned in Case at Issue

Washington, March 3.—Upon decision of the supreme court in a case to be considered this week may rest the future of every brotherhood and sisterhood of the Catholic Church in the United States. The court would be called upon to decide whether the vow of poverty, in these orders, is against public policy as recently decided by the United States circuit court of appeals of the eighth district.

The case in question arose out of the death of Father Wirth, a member of the St. Benedict, in 1910. At the time of his death in 1901 he was in charge of the German Catholic church at Springfield, Minn. Nearly fifty years before his death he took the vow of the Benedictine Society of Chastity, poverty and obedience. He was then 25 years old. The effect of the vow of poverty was that all right of possessing property on his part became obliged to educate, maintain and support him or his life.

Father Wirth became a member of the St. Vincent mission of Westmoreland county, Pa., in 1846. Later he was made prior of monastery in Kansas and about 1897 went to Minnesota. During his life he had become such an honored member that his superior permitted him to retain in his possession certain property. At the time of his death he was in possession of some \$5,000 in addition to royalties from books he had written.

The probate court of Brown county, Minn., recognized his heirs as entitled to the property. After a series of contests with the order, the heirs succeeded in getting a decision from the United States circuit court to the effect that the vow of poverty was against public policy and was therefore void. The heirs were held entitled to the property.

Approximately 50,000 priests, brothers and nuns will be affected by the decision, as it is probable that the title of the orders to their churches, colleges, school houses, hospitals and asylums in practically every State of the Union may be drawn into question.

Mrs. Tucker's Shortening

THE fat you use for cooking can make or mar the whole meal. Lard is too greasy and indigestible and often imparts an undesirable taste. The cost of butter of dependable quality makes it prohibitive for cooking purposes. Most women are abandoning both lard and butter for Mrs. Tucker's Shortening because it is pure, wholesome, economical, highly digestible. It never varies—is always fresh. Lacks lard's greasiness—has butter richness. Fries meats, fish, potatoes, etc., to a fine, crisp brown. Most economical, too; you use less of this shortening. It has

TWO CORPORATIONS FILE THEIR REPORTS

North Texas Gas Co. Shows Expenses Far Greater Than Income—Other an Even Break

Two of the public service corporations in this city have filed their annual reports for 1913 with the mayor as required by law; neither of the reports indicated a very profitable year, the companies being the North Texas Gas Company and the Citizens Light and Power Company. The former's earnings were far less than its expenses, while the latter showed only an even break. The law requires these reports to be filed every year.

The Citizens Light and Power Company's capital stock is \$21,000 which amount is also the value of its property. During 1913 its earnings were \$795.70 and its expenses were exactly the same amount.

The North Texas Gas Company's

cost of operation last year was \$112,564.83 its report shows, the principal item being that of interest, \$85,724.15, extensions cost \$89,757.77 and labor \$42,847. The gross earnings for the year totaled \$89,581.51. The company's capital stock is \$500,000. The book value of its visible tangible property is placed at \$83,102.43, of which \$9492.56 is in bills payable and \$73,745.32 in equipment. The actual cost of the properties is given as \$134,971.75 with a total book value at time of purchase of \$181,696.98; since then the report says depreciation has reduced this to \$45.95 making the present book value \$129,251.43.

"SPIRIT MESSAGES" SAYS BROTHER UNDER ARREST.

Los Angeles, Cal., March 2.—When Charles Stubbard, a former merchant of Canton, S. D., was found dead in an apartment today with his brother, Christian, keeping vigil beside the body, Christian was arrested and held pending an investigation into his story that Charles had opened his neck arteries with a pair of knives.

Three notes which Christian admitted having written were found. They constituted a brief "script" on death, the first reading: "Will he die of kidney trouble?" The second: "When will he die?" and the third: "In what year?" Christian asserted that these questions were written at a spiritualistic seance.

A fourth note signed by Charles was found. It read: "We have been using our own money. I do not know what I am suspected of but I have done nothing."

The two men came here recently in search of land. Charles had a bank book showing deposits of \$3,000.

Soak one-fourth package of gelatin in one-half cup of cold water. When the gelatin is thoroughly soaked pour on it one cup of boiling water. Stir in the grated rind and juice of one lemon and two-thirds of a cup of sugar. Set aside to cool. Beat the whites of four eggs to a stiff froth, add to the gelatin when cool, beating as you do so. Whip to a foam, beating from twenty to thirty minutes. Chill and serve with bottled custard made of the yolks of eggs, one pint of milk and one-half cup of sugar. Scald the custard but do not boil, flavor with vanilla. Fresh fruit can be added to the gelatin.

DODSON'S GUARANTEE EXPLAINED BY DODSON

Read What Dodson Says About His Liver Tone to You Who Suffer From Constipation.

"Dodson's Liver Tone takes the place of calomel. Instead of being dangerous, it is harmless and works easily and naturally without bad after-effects. I have authorized your druggist to refund purchase price (50c) to you instantly without question if you are in any way dissatisfied with it. If Dodson's Liver Tone can't help you, I don't want your money."

That's how Dodson feels about this pleasant-tasting vegetable-liquid liver regulator and reliever of constipation and biliousness.

The lives of so many people have been brightened and bettered by this great remedy that leading druggists now recommend it and seven of America's most prominent physicians O. K.'d it, after thorough analysis of its ingredients and effects.

It is generally known that calomel, being a poison, is a peril to many. It stays in the system, and while it may seem to give you a temporary relief, often "knocks you out" for several days.

With Dodson's Liver Tone you are set right without ache or cramps and with no bad results to interfere in the slightest way with your regular occupation and habits. So great a number of former sufferers from constipation and inactive liver have been vastly benefited by Dodson's Liver Tone that it would seem wise for you to give it a trial now—Children like it and it does wonders for them. Something About Canned Goods—Prices and Values

710 Ninth

Once in a while a customer asks me if it isn't possible to get canned vegetables for instance for a little less per can than the price of my best brands and I have to answer them something like this: "Yes, I can get you a fairly good grade at a little less per can than my Cream of Orchard Brand will cost you BUT you can't get my Cream of Orchard Brand value for a cent less."

"Now you may be fairly well pleased with the average can of cheaper goods, but when it comes to every can being first-class and giving you perfect satisfaction, then you can't afford to pay less than my Cream of Orchard Brand will cost you."

"I wouldn't care personally to guarantee a brand that might cost you 1c or 2c less per can. You might never come back and ask me for a refund and yet you might and I'd know and so would you. But with Cream of Orchard Brand I have no hesitation in guaranteeing a perfectly good refund on anything that isn't just right. Therefore for real value Cream of Orchard Brand is the only kind for you to use."

I have the following: Peaches, Pears, Apricots, Cherries, Blackberries, Strawberries, Grapes, Plums and Prunes.

Home Rule democrats claim bed and board? "Mills and Coke and Hogg and Lubbock and Clark and Pendleton and Ireland and Roberts and Sayers were just as much opposed to county-wide prohibition as they were statewide prohibition."

Of all the real big men in Texas who managed the Wilson campaign and sent a solid delegation to the Baltimore convention, none are entitled to more credit than Cone Johnson of Tyler. That the President has not recognized this fact is a disappointment to Texas Democrats generally, who were for Wilson for president.

Col. Ball, pro-Democratic candidate for governor, according to an interview given out at Dallas last night, has not fully determined whether he will make his opening speech of the campaign for the governorship at Greenville or Brownwood. He has, however, fixed the date of his opening speech as April 21.

Grayson county is soon to vote on the question of whether the saloons shall reopen again. At present the county is dry. The petition for this election was circulated by those who favor the open saloon.

Ex-candidate Mayes is getting lots of sympathy for having his political aspirations so effectively flattened by the steam roller process, but he is replying to all letters of condolence that, he believes, the experience was worth the price. Just whether that reply is enigmatical or not he fails to enlighten his friends.

Under the above caption the estimated Waco Times-Herald, a consistent Democratic newspaper, but inclined to take the anti-side of the prohibition question in Texas, has the following to say as to who are and who are not Texas Democrats:

"Jacob Wolters should play the game according to the rules. 'Col. Wolters holds that the prohibition democrats have taken their selves out of the democratic party.' 'That seems to us to be a strained construction of what took place at Fort Worth.'"

"Has not Col. Wolters on more than one occasion conferred with brother democrats as to certain candidates? 'Since for the prohibitionist goose should be sauce for the anti-prohibitionist gander. 'Now we are free to say that the prohibitionist do not rightfully belong in the same political organization.'"

"While on this subject, how does it come that Col. Wolters is so put out by what the prohibition democrats have done? 'For the Colonel is himself something of a prohibition democrat. He calls himself a Home Ruler, and that is prohibition by counties rather than by states. 'If the prohibition democrats have no standing in the party, how can the

COMMON SENSE AND JUSTICE PRACTICED

A Kansas Jurist Who Has Swept Cobwebs From Court House Statute

There had been such a figure on the Russell County, Kansas, court house, the statue of Justice would have clapped her stone hands in acclaim seven years ago when Jacob C. Ruppenthal ascended the bench as Judge of the Twenty-Third Judicial District. In the process of clapping her stone hands the statue of Justice probably would have dropped her stone scales, causing a slight disarrangement of these proverbial balances.

Some Judicial Repairs He has found that if an "it" is not dotted in a legal paper the court house will not necessarily blow up with a deafening detonation.

He has found that if a "t" has not been crossed in an information containing 1386 words it does not necessarily follow that the writer thereof was making an earnest effort to undermine our institutions. He has found in the preparation of legal paper that if the author has used only eighty or ninety words when he might have used eight or nine hundred he should not be compelled to face a firing squad.

He has found, too, it is not incompatible with his dignity to write mimeograph letters from time to time to the clerks and court officials of his district, calling their attention to methods by which the administration of justice may be expedited, cheaper and surer. He has written scores of these letters and has not been indicted for misuse of the mails.

He has simplified the practice of drawing juries, at a considerable saving to the taxpayers, not through any specific authorization in the law, but because there was nothing in the law against it, and he still lives, moves and has his being.

In fact, he has done most of the things that Honorable and Ancient Precedent has declared couldn't be done, and has found that Precedent has been laboring under a misapprehension for at least a thousand years. They say in Russell that this new kind of a Judge is not popular among the lawyers of his district. But he is so popular among the people of Russell, Ellis, Trego, Groves, Logan and Wallace Counties that, while when he ran for judge the first time in 1907 as a democrat in a republican district in a contest with a sitting Judge against whom there was the usual objection, he received a majority of only nine votes, when he made the second race in 1911 with a stronger candidate against him his majority was 1,600. So much for the frequently decried influence of the voters.—Kansas City Star.

MISSOURI WOMEN ARE CONFIDENT

HAVE NEARLY ENOUGH SIGNATURES FOR SUFFRAGE AMENDMENT VOTE

ORGANIZE FOR CAMPAIGN

National Speakers Will be Brought in to State and Fight Carried on Vigorously

Columbia, Mo., March 3.—Within a few days, according to Mrs. Walter McNab Miller, president of the Missouri Equal Suffrage Association, the 23,000 signatures necessary on petitions for a vote on an equal suffrage amendment to the constitution will have been secured. Nearly half of that number had been secured on January 28, after several weeks of work throughout the state.

"We are not entering the work as a 'fad' or for gain," said Mrs. Miller. "Every worker from the state president to a ward captain is a voluntary officer. The members of the organization are students of social life. They see that modern conditions are leaving some women with too much leisure while others have none. We cannot spend our time in bridge and parties or gossip. Yet modern improvements have lightened our house work and other duties. We must have something to do. On the other hand, we see women who never know a moment's rest. We believe that much or all of this is due to social conditions, which we propose to help correct. We want to help make sweat shops impossible and child labor unknown."

"Every argument raised against equal suffrage has been raised against every step which has been made in woman's progress. We expect to show by all our conduct in attempting to secure the ballot that we can use it wisely when we get it. The number of college women in our association is an example of the type of women in the movement." The organization of a Woman Suffrage Party is being made all over the state in anticipation of the submission of the initiative. The party will be non-political and non-dues paying. There will be county and township chairmen, ward and precinct captains. In some places this organization has been organized already and is securing signatures to the initiative petitions by a house-to-house canvass. Elsewhere they are planning "whirlwind" campaigns for one day in which they will concentrate their efforts.

When the petition has been accepted by the Secretary of State and officially submitted to the people the real work of the planning is being directed toward the big campaign because the women are sure that they can get enough signatures to have the initiative submitted. They say that they are having little trouble getting men to sign, because to sign does not mean that the person is in favor of women's suffrage, but is in favor of having it brought to a vote.

National speakers will be brought to Missouri. Many Illinois and Kansas speakers will come across the borders to help their sister state. Exhibit booths will be placed in every county fair. There will be many automobile campaigns.

Organizations of all kinds will be asked to endorse the movement. The Progressive and Socialist parties, the Federation of Labor and the Farmers' Educational Alliance have done so already. The W. C. T. U. has long had its suffrage department.

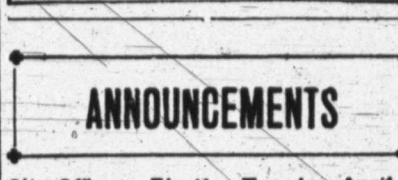

There are three organizations in St. Louis alone, the Business Women's League, St. Louis Equal Suffrage League and the Junior Suffrage League. Kansas City has four similar leagues. A College Women's League is being proposed now on a state-wide scale. There are several unassociated local leagues.

The Missouri Equal Suffrage League Association, which is made up of all these leagues, recently has been organized. This was made necessary by the removal from the state of several leading officers. Mrs. McNab Miller, is president. Other officers are: Vice president-at-large, Dr. Mrs. Morrison-Fuller of Glasgow; vice president, Dr. Dora Green Wilson, of Kansas City; recording secretary, Miss Matilda Dalmeyer of Jefferson City; corresponding secretary, Mrs. C. K. Burdick of Columbia; treasurer, Mrs. William D. Rusk of St. Joseph; auditor, Miss Mary E. Buckley of St. Louis; chairman press committee, Mrs. Emily Norwell Blair of Carthage.

Mrs. Blair is president of the Missouri Women's Press Association. Miss Ruth White of Kansas City, whose exhibit at the child welfare conference there several years ago attracted national notice, is chairman of the literature committee. "A traveling library" is one of the important features of the association. \$1,000,000 for Recreation. Cleveland, March 3.—A referendum vote on the proposition of a bond issue to raise \$1,000,000 for public recreation buildings will be voted on here soon. It was announced today. Brilliantly lighted playgrounds for use at night for those who work during the day is part of the plan. Each playground would be supplied with a gymnasium.

RIGID DIVORCE LAW INEFFECTIVE

(Continued from Page 1)

aire's wife. But being people of refinement both man and woman shrank from the mutually scolding testimony that would have to be given if they were separated by the law of their own State. They could not endure that sort of a character butchery and its attendant notoriety. So they turned to France.—The wife went to Paris and established a residence. Then she filed a suit for divorce charging her extravagantly rich husband with desertion. He followed her to France and filed a counter suit, making a similar charge. The French court as is the custom, complacently asked the warring pair if a reconciliation were impossible. Both declared an agreement was out of the question. Just so, said the court and handed down divorce decrees to both. The man and the woman shared the doubtful honor of cutting the matrimonial knot. Both were left free with no stigma attached to them and both were at liberty to marry again. Their own State denied them legal separation except for extreme cause. Were that law an absolute preventive of divorce except for statutory ground, it would be an unquestionable benefit, but when it is evaded every day by those with money enough to get out of town its beneficence is doubtful.

WOMEN OF ULSTER BACKING UP MEN

ULSTER WOMEN'S UNIONIST ASSOCIATION NUMBERS 140,000 MILITANT MEMBERS

PREPARATIONS FOR WAR

Nursing and Ambulance Corps Organized and Other Preparations Made to Aid Ulster Men

BY ED L. KEEN.
(London correspondent for the United Press.)

London, March 2.—(U. P.)—We women are doing all we can in every possible way to help the 100,000 men whom Ulster has armed and drilled in order to remain an integral part of the United Kingdom. Just as the American Civil War was fought to keep the states together, so we are striving against separation.

In a statement made today to the Belfast correspondent of the United Press, the Marchioness of Londonderry, President of the Ulster Women's Unionist Council, thus summed up the feminine attitude in the North of Ireland on the Home Rule question. Her husband, who, with Sir Edward Carson, was one of the organizers of the "Ulster Provisional Government," is president of the men's Ulster Unionist Council.

"Such a change in the constitution of these islands as is proposed in the Home Rule bill," said Lady Londonderry, "would not be allowed to be passed in other civilized countries unless by a two-thirds majority, or some other definite and unquestioned expression of the popular will had been shown in support of the alteration. Why, then, should this bill be smuggled through without an appeal to the people. It is a curious fact that the Radical party, which professes to believe in democracy, should decline to consult the democracy. The question of the separation of Ireland from Great Britain is one that concerns Great Britain as much as it concerns Ireland. We owe allegiance to the same King, and we fly the same flag as Great Britain, and we will not allow this crime to be perpetuated. That His Majesty's army should be sent against the most loyal of loyal populations in Great Britain at the bidding of the Irish Nationalist party is unthinkable. Ulster is more determined than she has ever been that she will not consent to be dominated by, or even to acknowledge in any way, a parliament and an executive in Dublin. The government seems to forget that it is up against not merely a political organization, but a whole population. If the Radical party holds to the belief that a country cannot be governed without the consent of the governed, the men of Ulster and we women backing them up, will show how steadfast is our resolve to continue to be governed as now, within the union, and to remain under the Imperial Parliament and nothing else."

The enthusiasm of the anti-Home Rule women of Ulster and the practical methods they have adopted for "backing up" their men folk constitute at present the most interesting development in the preparations that province is making to resist the authority of the proposed Dublin parliament. Of the 234,000 women who signed the feminist edition of the Ulster Covenant a year ago, 140,000 have become contributing members of the Ulster Women's Unionist Association, and in the past few months have raised \$20,000 for the Ulster defense fund. In every town and in almost every village sewing circles have been formed for the making of bandages, pajamas, sheets pillow slips, and other articles that would be required in war hospitals, while members not engaged in needle work are canvassing their communities for the donation of still other articles of hospital equipment.

A large nursing and ambulance corps has been organized along the lines of the Red Cross under the direction of the chief medical officer of the Ulster Volunteer Force, Col. Davis. Lete of the Indian Medical Service, in Belfast alone 700 women have passed examinations in first aid and in nursing and 400 more are under instruction, while still others who have volunteered for this service have been unable as yet, owing to lack of teachers, to take the required lessons. Of these a large number have enrolled as cooks and even laundry women for "as they may not attain proficiency in nursing before hostilities begin." Special detachment of nurses has been organized by an Ulster woman of titles among the students in Belfast University. A hospital ship has been

"QUO VADIS" PLEASED MANY HUNDREDS HERE.

The great picture "Quo Vadis" was shown at the New Majestic yesterday afternoon and evening, attracting large crowds at each showing. Those who attended were highly pleased with the picture and deeply impressed. The excellent pipe organ music, selections being made appropriate to the scenes, added quite a good deal to the attraction of the picture.

The story of the picture follows the book by the same name very closely having but few variations. The setting of the various scenes are

plendid, the Roman palaces being portrayed to a remarkable degree of accuracy. The riotous luxury of the Roman empire at the time of Nero is pictured in all of its brilliant beauty and voluptuous splendor. The banquets given in the royal palaces are but pictures of the descriptions of these revels as given by the ancient historians. The thread of "Christianity and the pure lives of the early followers of the Apostle Peter are woven into the picture in such a manner that they stand out brightly against the dark background of the bestial lives of Nero and his courtiers. The gathering of the Christians in the chapel is shown, with the Apostle Peter speaking to the multitude.

The burning of Rome is perhaps one of the most impressive parts of the picture. The emperor gives the command to burn the city and the terrible scenes that ensue are realistically pictured. The animals in the amphitheatre grow restless as the flames and smoke approach the place of their confinement, the flames rush over the city and the frenzied populace surge madly back and forth, trying to escape. And on a high terrace Nero stands and calmly surveys the scene playing and singing.

Other impressive scenes are the fight of Ursus with the wild beast in the amphitheatre, the gladiatorial combats and throwing of the Christians to the lions. All throughout the story runs a love story, the love of a patrician for a beautiful slave girl, how this love brings out the best that is in him and causes him to embrace "Christianity" is told in this fascinating picture. "Quo Vadis."

A pure, healthful, Cream of Tartar Baking Powder

When buying an article of food you are entitled to know exactly what you are buying—its quality and ingredients.

If this information is refused don't buy it. Some of the low grade baking powders are advertised, but the ingredients of the powders are scrupulously concealed.

A housekeeper would not use a baking powder containing alum if she knew it.

It is well when buying to examine the label on the can. Unless it shows the ingredient cream of tartar, don't buy it. Dr. Price's baking powder is absolutely free from alum.

SONGS AND UNIVERSITY YELLS ENLIVEN BANQUET OF TEXAS EXES MONDAY NIGHT

TEXAS INDEPENDENCE DAY

Observed by Former State University Students—Many Respond to Toasts

"Texas Exes" to the number of thirty-five from Wichita Falls and neighboring points gathered at the Kemp Kort last night for a banquet; at the same hour similar banquets were being held at about twenty other points in Texas by the "Exes" such affairs taking place annually on May 2, anniversary of Texas Independence.

Songs and University yells enlivened last evening's affair and gave an atmosphere of University days that was almost homesickness. In the toasts memories of Austin were revived and stories were told on the readiness of some of the leading citizens in their freshman days to an extent that would not have seemed possible. The volunteer sextette which rendered the songs appeared to be out of training, but everybody knew what they were singing about when they started.

"Don't send my boy to Baylor. A dying mother said. Don't send my boy to T. C. U. I'd rather see him dead."

And everybody joined in on the University's battle song, "Love Nobody but You." Gracie Bullington presided as toastmaster and after the speech had been done full justice called on a number of those present for responses. Harvey Harris of Turkburnett was the first, his subject being "D. Hall," the nickname for Brackbridge Hall, the male dormitory. E. P. Haney of this city told "What the Next Legislature is Going to Do." He said that the present condition of the University was due not to the legislature, but to the governor, as the law-makers had done their part. Luchian W. Foyrich a Henrietta told "The Good Old Days," also uttering some fervent hopes for the days to come. S. A. L. Morgan of Vernon discussed "Preparations," and he joined in the hope that the future meant still better days for the University. Miss Katherine Bell told "Why is a C. Ed?" shedding some new light upon the female of the species. Prof. E. L. Vance spoke on "How the Exes Can Help." Why We Married Them" was told by Mrs. T. B. Greenwood but she did not make it entirely clear. Dr. Everett Jones told "How a Medico Feels About It," giving more interesting observations from the medical students' view point.

The affair was enjoyed by all present and the hope was expressed that it would become an annual affair in this city. Present were: Misses Katherine Bell, Katherine Wells, Bess Kell, Willie Mae Kell, Messrs. I. H. Davenport, Harvey Harris, E. H. Edleman, P. O. Settle, W. M. Fuller, Johnfield, S. Hyster, G. Shaw, C. G. McGee, E. L. Vance, Messrs. and Messames E. P. Haney, Cecil Storey of Vernon, C. N. Alexander, Everett Jones, S. A. L. Morgan of Vernon, Orville Bullington, E. G. Fulton, E. G. Hill.

WILSON WANTS CONVERT TO CANCEL TOLL POLICY

Washington, March 3.—Announcing his support of President Wilson's policy to repeal the provision of the Panama canal act exempting American coastwise shipping from tolls, Senator Thornton, Democrat of Louisiana, in a statement today, said the President had informed him that in his judgment the repeal of the exemption clause is necessary for the continuance of our present friendly relations with foreign powers and the success of our foreign policy.

Senator Thornton is a member of the interoceanic canal committee which urged toll exemption, and is one of several Democratic members of the committee who have told the President they would reverse their position. present situation, I feel it my public duty to assist the President in carrying out his wishes in this matter."

Administration leaders in the senate believe that the repeal will carry a substantial majority despite some party opposition and it is also believed that the matter will be up for action within two weeks. Representative Adamson expects to introduce a repeal bill in a few days.

NEW BOOKINGS MADE HIT AT LYDIA, MARGARET.

Last night at the Lydia Margaret show the first bill scored through the new booking corporation with which Wren and Berry have made affiliation and future attractions are as pleasing as the numbers shown last night. Lydia Margaret and Wren and Berry van' consider themselves fortunate in the new arrangement.

So many came out to see the opening bill that it was necessary for many to stand at both the night performances.

Leon and Adeline Sisters in a pantomime novelty act were the headliners of the bill but they were of more pleasing than "Harvey and Wilson in ragtime dancing, singing, banjo, guitar and mandolin playing. Both acts were novel and were cleverly presented by actors whose personality was as pleasing as the numbers they presented.

WOMEN OF ULSTER BACKING UP MEN (Continued From Page Five)

offered by another Ulster woman, an English woman sympathizer has promised to bring over a complete field hospital in 48 hours' notice, and several wealthy women of the province have agreed to turn their residences into temporary hospitals or convalescent homes. A unique feature of the Ulster women's activities has been the formation of a corps of signallers, telegraphers, and postal clerks. Designed primarily to maintain communication between various divisions and detachments of the Volunteer Force in the event of war, this corps is now prepared to operate a complete postal system, should the British government carry out its threat of cutting off from the Imperial postal and telegraph service. In 40 towns of the province "post-houses," distinct from government post-offices, have already been established. The head "post-house," at the Unionist headquarters in Belfast, is doing business regularly, and so are these in some of the other larger towns, but for the present the smaller "post-houses" are used only for occasional testing purposes. The entire staff in these houses is composed of women—twelve in the larger towns and six in the smaller. Boy bicycle cadets make local deliveries, and country messages or letters are delivered by motor-cyclists attached to the Ulster Despatch Riding Corps, who are pledged to turn out at any time of day or night when called upon.
