BITTER ATTACK ON WILSON'S POLICY

SENATOR JONES CHARGES PRESIDENT WITH SUBMISSION TO GREAT BRITAIN'S WISHES

INFORMATION IS DEMANDED

Senator Introduces Resolution Asking President to Make Known Foreign Negotiations

By Associated Press.
Washington, March 18.—The broad charge that President Wilson determined to ask Congress to repeal the Panama toll exemption as a consequence of his recent conference with Sir Lionel Carden, British ambassador to Mexico, and that the president's action was the culmination of negotiations with Great Britain for the preservation of the Monroe Doctrine threatened by the Mexican situation, was made in the Senate today by Senator Jones, Republican of Washington. He was speaking on his resolution calling on the president for full information on the negotiations with Great Britain. Senator Jones intimated that the repeal of the Panama toll exemption was the price of non-interference in Mexico by foreign powers.

He further declared, "It is reported as one of the conditions that Great Britain will seek reparation on its losses through Confederate bonds issued during the Civil War, a plan sanctioned by this government, which by the burden of reparation will fall on the Southern States." For that report Senator Jones maintained developments had shown ample grounds for belief. Senator Jones asked: "What is the foreign policy of this government that demands such craven submission to the demands of a foreign country? What are the delicate matters that demand this humiliating price? Have we become so inert, so weak, so servile that the Monroe doctrine must be sustained and enforced by the very power which it was invoked? Are we so weak and so entangled in our foreign policy that the demand of England, based upon the selfish interest of the Canadian Pacific Railroad Company, must be granted right or wrong? Has any nation besides England objected to the legislation exempting American coastwise vessels from tolls through an American canal?"

Senator Jones quoted from President Wilson's pre-election speeches in an effort to show that he then approved of the tolls exemption legislation.

He argued that a repeal would be a great economic blunder and that it would benefit the Canadian Pacific Railroad Canadian interests and the transcontinental railroads, while in injury, more or less, would result to every other interest in this country.

Evans, Survivor Of Scott Expedition, Visits America

EDWARD EVANS

Washington, March 18.—Commander Edward R. G. R. Evans, one of the survivors of the Scott expedition to the south pole, is in America to make a lecture tour of two months in this country. Despite the suffering and exhaustion endured during his long fight with polar ice Commander Evans did not look a day older than his twenty-nine years. "When I parted from Captain Scott," he said, "he told me to return for him in about a year. We had prepared a great celebration for the meeting. The ship was decorated with bunting, and a banquet was prepared in the saloon. When we dropped anchor in McMurdoch sound off Cape Evans I saw some of the party on shore. Try as I would through the glass from the bridge I could not make out Scott. This made me uneasy, so I megaphoned ashore. 'Are you all right?' Then came back the answer that made us hush in our bunting and forget our banquet. Lieutenant Campbell replied: 'Captain Scott and party reached the pole in January last year, but were all lost on the homeward march. We have the records.'

BATTLE REPORTED RAGING AT ESCALON

FEDERALS SAID TO HAVE MET VILLAS FORCES 100 MILES NORTH OF TORREON

NO WORD AT WASHINGTON

Dispatches To State Department Both From Federal and Rebel Camps Silent

NO REFERENCE TO PENDING BATTLE REPORTED

Washington, March 18.—No reference to the pending battle near Torreon was contained in any dispatches reaching the state department today either from Mexico City or from Chihuahua.

Juarez, Mexico, March 18.—Heavy fighting with the constitutionalists had pressed was reported here. A force of federals is said to have met Villa's army at Escalon, an important railroad town 100 miles north of Torreon, and both sides have been reinforced. The battle is said to have raged fiercely all day.

The railroad from Torreon runs north through Escalon, Jimenez and Chihuahua to Juarez. On each side of the road from Torreon to Jimenez are mountains. These, for ten miles, are marked with rifle pits dug in previous revolutions. It is reported that the federals moved out of Torreon in two detachments, pursuant to orders from Provisional President Huerta.

One detachment is said to have moved west of the railroad with mountains between it and the road, while the main body went directly by rail to Escalon. The eastern detachment evidently was trying to get in Villa's rear, as it was moving in the direction of Jimenez, fifty-five miles north of Escalon.

Strategy Forecast.
Gen. Urbana of the constitutionalists, however, had been posted at Rosario, guard against such strategy and last Saturday is said to have encountered the federal advance guard at or near that city, which is about 110 miles west of Jimenez. He is said to have been outnumbered and to have telegraphed for reinforcements.

The main battle at Escalon, apparently nicely timed by Gen. Velasco, the federal commander, to occur after reinforcements had been detached to assist Urbana, is believed to have begun. No details are available. The bare facts of an engagement were contained in a fifteen word telegram. The Zaragoza brigade of 1,300 veterans under Gen. Aguirre Benavides encountered the federals at Escalon and is reported to have been pressed back yesterday. This is believed to account for the sudden departure from Chihuahua of Gen. Francisco Villa, constitutionalist commander in chief. He gave his staff one hour's notice and then departed on a special train. It is assumed that Villa brought up reinforcements today and that the battle was renewed with increased vigor.

The constitutionalist troops have been moving south from Juarez to Chihuahua and closing in from other directions for a month. Constitutional leaders have laid claim to as high as 25,000 men. 12,000 is regarded as a closer estimate. Refugees from Torreon have placed the federal force under Gen. Velasco at 7,000 to 9,000, adding that he rapidly was being reinforced.

CANAL ZONE CONTRACTS BEING INVESTIGATED

By Associated Press.
New York, March 18.—The grand jury investigation which has been conducted into the accounts of the chief clerk of the Panama Railroad Company is much wider in scope than this phrasing implies, was learned today at the office of the United States district attorney.

The suspended clerk is charged with having accepted bonuses from companies which were awarded contracts for supplies. It is now hinted that the investigation will end either in the exonerated of the clerk or the indictment of other zone officials and contractors.

Governor Ammons refused to make any statement as to the policy of the state in case Mrs. Jones went back to Trinidad.

CHILD LABOR LAWS BELOW STANDARD

SOUTH CAROLINA MAN DENOUNCES SOUTHERN MILL OWNERS EMPLOYING CHILDREN

VERY SCATHING DENUNCIATION

Speaker Says Southerners Seem to Feel That There is No Difference in Children

New Orleans, March 18.—A scathing denunciation by a fellow Southerner of southern mill owners who employ children was the separation of today's sessions of the tenth annual National Child Labor Conference here.

Wiley H. Swift of Greensboro, N. C., taking for his theme, "Why It is Hard to Get Child Labor Laws in the South," regarded the successful struggle to the civilization fifty years ago, we feel that there is a difference in children, that the poor child was born to toil and should be set at it early. Explaining that he referred especially to North and South Carolina, regarding child labor laws, he said: "The South is 'far below the standard in its child labor laws,' the speaker said.

"Our people have always been kind and charitable but they have never been just. The children of the poor have been allowed to work because we have known or thought little of absolute human rights. Furthermore we do not properly understand the laws of community progress or know just what we are doing. We have no reliable data because there has been no investigation or untold because we have received any suggestion that we needed to learn. We of the South have been peculiarly jealous of our reputation and have in many cases hid our eyes lest we see things that were not good. Walter Page's speech on 'The Forgotten Man' was loud, sweet, Dr. Stiles said, and he said, 'The signs are hopeful. Our educational forces are now hunting for the forgotten man and as a result of the investigation carried on through Rockefeller institute, hook worms is almost everywhere, and we are beginning to see the light. Up to this time we have allowed ourselves to be deluded because our manufacturers have said things were all right and we have respect for men of influence and wealth. If we have cried out against the bad rich, it has been because in our opinion the rich have had rich live next to Wall street and certainly north of the Mason-Dixon line. To appoint an inspector for our mill villages would be a reflection upon the word and character of good men. But above all, the reason child labor continues is that the manufacturer wants the child in his mill. Since this manufacturer considers child labor of such vital importance that he is willing to go to the legislature to fight for the right to work a child, you need not be surprised that we still permit a large percentage of our children to be taken from school and placed at work and that on any work day in the cotton mills, week in and week out, hundreds of girls in short dresses may be found standing eleven hours."

Prof. Frank M. Leavitt, president of the National Association of Manufacturers, Chicago University, speaking today on "Co-operation of the Schools in Reducing Child Labor," scored the present day school system as contributing "both to child labor and child idleness." Hordes of children leave school, he said, because of its "uncongenial and unsympathetic atmosphere and because it lacks any important relation to the child's social and economic environment." A somewhat opposite view was held on the same subject by Ed N. Clopper, Ph. D., who declared that the children and their parents were in the main responsible for their leaving schools. Prof. Clopper said there is danger of "jumping from the academic extreme to the vocational extreme."

PARIS PREPARING FOR A REVOLUTION

ARMED DETACHMENTS OF REPUBLICAN GUARDS STATIONED AT STRATEGIC POINTS

MINOR OUTBREAKS OCCUR

Royalist Leaders Active and May Attempt to Overthrow Republican Government

By Associated Press.
Paris, March 18.—The appearance of armed detachments of republican guards posted at strategic points in Paris today aroused anxious interest. There have been several minor outbreaks but no serious riots have occurred.

Throughout the day Tuesday large crowds assembled around the Callaux residence, the Figaro office and St. Lazare prison, where Mme. Callaux occupies a cell. For the most part the crowds comprised curious spectators, although rowdies attempted hostile demonstrations. The police had no difficulty in handling them, however, and made many arrests.

Late last night the Royalist Association was called out by Leon Daudet, the leader. He mounted a table outside a well known boulevard cafe and attacked M. Callaux in violent terms to the accompaniment of shouts of "Down with the assassin, Callaux!"

M. Hennion, prefect of Paris, commanding a large body of police, barred the manifestants up and down the boulevard and finally scattered them, the royalists fleeing with shouts of "Down with the Republic! Long live the King!" A score were arrested and many were bruised in the scuffles.

Daudet made a second attempt to organize a demonstration with the assistance of another royalist leader, Maurice Pujo, outside the Opera Comique and the two men were arrested.

Earlier in the evening half a dozen mobs assembled and endeavored to make their way to the Chamber of Deputies.

DECREASED FATALITIES FROM RAILROAD ACCIDENTS

An increase of 123 killed and 1,994 injured was shown in "other than train accidents," including accidents to employes while at work, to passengers getting on or off cars, to trespassers and others, the total being 2,850 killed and 19,753 injured.

PLAN TO MAKE FIRST MONDAY BARGAIN DAY

Plans to make "First Monday" still more of an event in this city are being considered by the Chamber of Commerce which may ask merchants to offer special bargains on those occasions. The offering of prizes for those who come the longest distance is also being considered.

The "First Monday" plan was started some time ago and has taken care of itself ever since. On the first Monday in each month this city is the rendezvous for horse traders and the like from many miles around and farmers by the dozen make visits to town on that occasion. It is believed that by giving some publicity to the occasion and making it more attractive, still larger crowds could be secured.

WILL USE TELEPHONE IN HOSPITAL BOND CAMPAIGN

Members of Aid Societies in Churches Will Phone Voters Friday Night and Saturday

Every property-owner in Wichita Falls will be reminded by telephone next Friday night to vote for the hospital bond issues at Saturday's election. The members of the aid societies of the several churches have agreed to do the telephoning and will call every taxpayer who can be reached in this manner. It is probable that the phones will be employed again Saturday morning to remind those who could not be reached Friday night.

It became known today that opposition to the bond issues will be more pronounced than was heretofore supposed and the indications are that those who will be decided vote against it in some quarters. While sentiment is understood to be decidedly in favor of the issues, everyone who wants to see the hospital will have to go to the polls to insure the carrying of the bonds.

HOG WADDLE GIVEN AT SAN BENITO TUESDAY

San Benito, Texas, March 18.—With news that the largest crowd that ever gathered in this city, a thousand hogs parading in a long line through the streets Tuesday ushered in San Benito's second annual cabbage day and hog waddle. In every respect the occasion equaled the most optimistic expectations of the local citizenship.

Show windows and sidewalk were lined with cabbage heads and leaves, while telephone poles and awnings were attached large heads of the same vegetable. More than a carload of cabbage were used for decorations alone.

The number of hogs for the hog waddle exceeded the most sanguine expectations, there being nearly a thousand available. In this number was included representatives of every kind of swine known to the lower Rio Grande Valley.

This was the second annual celebration in this city in honor of the first attempt last year being largely an experiment, but the unqualified success of yesterday's celebration renders it certain that March 17 will be a gala day in the valley every year.

ARGENTINE BEEF NOT AN IMPORTANT FACTOR

Bulletin Issued By Department of Agriculture Shows Americans Control Industry

By Associated Press.
Washington, March 18.—How Argentine beef industry under the new tariff law, is dominated by Chicago packing and slaughtering interests "which do by far the major portion of the business" is described in a bulletin issued today by the department of agriculture.

That Argentine beef has caused a reduction in the price of meat in the United States has been generally supposed but the bulletin declares "that it is not assumed that the American-controlled companies will ship beef into the United States to beat down the prices of their Chicago packing houses."

In the summarized conclusions of the bulletin it is stated that the Argentine importations are slightly over one per cent of the National supply of the United States. According to the bulletin about 9,000,000 pounds of beef is imported into the United States monthly.

THROW AWAY YOUR GLASSES.
A Free Prescription—You Can Have
Filled and Use at Home

Do you wear glasses? Are you a
victim of eyestrain or other eye weak-
ness. If so, you will be glad to know
that there is real hope for you. Many
whose eyes were failing say they
have had their eyes restored through
the principle of this wonderful free
prescription. One man says after
trying it: "It was almost blind; could
not see to read at all. Now I can
read everything without any glasses,
and my eyes do not water any more.
At night they would pain dreadfully;
now they feel fine all the time. It
was like a miracle to me." A lady
who used it says: "The atmosphere
seemed hazy with or without glasses,
but after using this prescription for
fifteen days everything seems clear.
I can even read fine print without
glasses." It is believed that thou-
sands who wear glasses can now dis-
card them in a reasonable time and
multitudes more will be able to
strengthen their eyes, so as to be
spared the trouble and expense of
ever getting glasses. Eye troubles of
many descriptions may be wonder-
fully benefited by following the sim-
ple rules. Here is the prescription:
To any active drug store and get
a bottle of Opionol, fill a two-ounce
bottle with warm water, drop in one
Optona tablet, and allow to dissolve.
With this liquid bathe the eyes two
to four times daily. You should
notice your eyes clear up perceptibly
right from the start and inflamma-
tion will quickly disappear. If your
eyes are bothering you even a little
take steps to save them now before
it is too late. Many hopelessly blind
might have been saved if they had
acted for their eyes in time. (Advt.)

**ANOTHER COMMUNICATION ON
STATE POLITICS FROM FARM-
ERS UNION MEN**

SILENT CONTEMPT URGED

Union Officials Advise Farmers to Pay
No Attention to Eliminating
Movements

Fort Worth, Texas, March 18.—We
want to say to the Dallas convention
of so-called constructionists: "Back to
the bar room with the representatives
of the liquor interests who are in
your midst" and we want to warn the
farmers to give that movement the
same silent contempt they gave the
prohibition conventions. That move-
ment, to justify consideration of the
farmers, must purge itself of those
who are or have been on the pay roll
of the liquor interests in any ca-
pacity. An anti for revenue and a
prohibitionist for fame are twin
urses that have been riding this
State like a pestilence for the past
decade and peace can only be secur-
ed by eliminating these battle scar-
red veterans of the pro-anti arena
from public affairs.

The liquor question cannot be side-
tracked unless we first side track pro-
and anti leaders. That a majority in
the legislature of either pro or anti
will not suppress strife, has been ab-
solutely demonstrated. The leaders
must be struck down by the bludgeon
of public wrath. Nothing else will
stop them from fighting.

Vote For Sally and the Babies.
The suggestion that the liquor
question can be easily settled is a
myth. We will have it as long as we
have a civilization, but we think
there are other issues of greater im-
portance at this time.

The prohibition question, in one
form or another, has been a whirl-
wind of political discussion in Texas
for the past quarter of a century. It
was voted upon in 1911 was the para-
mount issue in the gubernatorial
campaign four years ago and again
two years ago and did the leaders,
either pro or anti abide by the re-
sults?

Recent legislatures have done prac-
tically nothing, but wrangle over the
liquor question, and whenever it
comes up for consideration they will
do something at future sessions. Shall
we wage another battle at the
"table of the bosses?" In the name of
the Farmers' Union we raise a flag
at once and insist upon a cessation
of hostilities until we forage a while
for Sally and the babies.

The Farmers' Union For Peace.

The platform of principles given to
the press by Peter Radford was
unanimously adopted by the State
convention of the Farmers' Union at
Fort Worth, January 14-15 attended
by six hundred delegates, represent-
ing approximately a quarter of a mil-
lion members and its provisions be-
came the authorized policy of the
Farmers' Union. This platform con-
templated a cessation of strife dur-
ing the next administration in order
that constructive legislation for the
farmers may be secured. No effort
has been or will be made to commit
the Farmers' Union for or against
either pro or anti candidates, but all
candidates are urged to support only
candidates in the July primary who
endorse the elimination of the liquor
question from this campaign and to
make agricultural legislation para-
mount in importance to all other is-
sues.

Conventions Slaughter Pens.

We deplore the return to the con-
vention method of selecting candi-
dates. These conventions, as usually
conducted, are scarcely more than
slaughter pens where the bosses
butcher the "undesirables" and they
are offensive to true democracy and
a nuisance to good government. They
are in direct violation of the spirit
of the Terrell election law and are
political bandits that should be ban-
ished from free government.

These conventions are called, ac-
cording to the confession of some of
the leaders, to eliminate small men
and to call a great warrior to lead
the battle. But why all this hue and
cry about great men needed to run

**Hopes Her Statement, Made Public,
will Help Other Women.**

Primes, Ala.—"I must confess," says
Mrs. Eula Mae Reid, of this place, "that
Cardui, the woman's tonic, has done me
a great deal of good."
Before I commenced using Cardui, I
would spit up everything I ate. I had a
direct, sleepy feeling all the time, and was
irregular. I could hardly drag around,
and would have severe headaches con-
tinuously.
Since taking Cardui, I have eatfreely
quit spitting up what I eat. Everything
seems to digest all right, and I have
gained 10 pounds in weight.
If you are a victim of any of the numer-
ous ills so common to your sex, it is
wrong to suffer.

For half a century, Cardui has been re-
lieving just such ills, as is proven by the
thousands of letters, similar to the above,
which pour into our office, year by year.
Cardui is successful because it is com-
posed of ingredients which act specifically
on the womanly constitution, and help
build the weakened organs back to health
and strength.

Cardui has helped others, and will help
you, too. Get a bottle today. You
won't regret it. Your druggist sells it.

for Governor? We have had great
run running government for a long
time and is any one satisfied with the
result? In the sight of the bosses, a
common man seems vulgar, but we
think a little horse sense is more
needed in government today than any
other substance and that well know
element is the property of the com-
mon people.
Then we object to politicians round-
ing up aspirants for public office and
leehorning them of ambition, snatching
off their patriotism and winking their
grauding lion of greatness. Has it
come to pass that the man who plows
a tender no service to government
except to pay taxes and vote? Is the
man who toils incapable of serving
his country except in time of war?
Is a common man a dangerous thing?
May we inquire of what substance
creatures in made and who is the au-
thorized custodian? Can it no longer
or thrive on the hearthstone of the
common people and must we teach
our children to search for it only in
six offices?

Too Many Lawyers.
The Farmers' Union in its last
state convention passed a resolution
suggesting that too many lawyers
were at the helm in governmental
affairs and asking farmers who create
the wealth and business men who
conserve it to run for office. The
political lawyers, least upon strife,
drive upon misunderstanding, and
prosper upon ignorance and they
more than any other influence, are
responsible for the present state of
affairs. Their profession requires de-
struction of conscience and they are
the only class of people to whom
civilization has legated a term to
sell their opinions. They produce
nothing and know only one way to
make money and that is to get yours.
The fewer we have of them in gov-

ernment the better it will be for the
common people.
To the leaders of strife, both pro
and anti, we want to say we will meet
you at Phillips. The July primaries
are in the hands of the voters and
the farmers who have become distrust-
ed-fighting battles made to order by
men who fatten upon dissension and
who depend upon the fortunes of war
for a livelihood, will register their
disapproval at the ballot box.
Fortunately for the common people,
the constitution wisely provides for
electing members of the legislature
in a manner that cannot be control-
led by machine rule and it is in the
power of the farmers to send to the
legislature men who favor a tempo-
rary cessation of strife. The Farm-
ers' Union as an organization, will
endorse no candidate for any office,
but through the local unions every
candidate who announces for the leg-
islature will be asked to publicly en-
dorse the Radford platform and if
that he politics then make the most
of it.

DANIEL O'REILLY DIES AT MARLIN SPRINGS

Veteran Brick Mason and Contractor Succumbed to Liver Troubles There Tuesday

Daniel O'Reilly died at Marlin Springs at 2 p. m., Tuesday. News of his death reached this city in a telegram received by Reverend Father Doljo from Myles O'Reilly, brother of the dead man. The body is now en route to this city and is expected to arrive over the Fort Worth & Denver at about 3:30 a. m., tomorrow.

The funeral will take place from the Catholic Church at 8 o'clock Thursday morning, reverend Father Doljo officiating. Burial will be in the Catholic cemetery.

Was Native of Ireland. Mr. O'Reilly had been a resident of Wichita Falls for many years. He was a native of Ireland coming to America at about the same time as his brother, Myles. He was a brick mason and helped build many of the older structures of the city. In later years he engaged in contracting being associated with his brother.

He was a man of sterling integrity and his work always was characterized by loyalty and optimism so generally attributed to Irishmen. Between him and his brother, Myles there was an affection and tender

solitude seldom seen even between brothers.

Mr. O'Reilly had been in poor health for several years. About two months ago he was taken by his brother first to Hot Springs and then to Marlin, but the treatment at neither of these places gave relief to liver troubles from which he suffered. Mr. O'Reilly always remembered the "old sod" with affection and the co-incidence of his death on the anniversary of the birth of Ireland's patron saint is marked.

RUN DOWN WOMEN

Find Health in a Simple Tonic. How many women do you know who are perfectly well, strong and healthy as a woman should be? They may not be sick enough to lie in bed—but they are run down, thin, nervous, tired and devalitized. Women are so active nowadays, and so much is expected of them that they constantly overdo and suffer from headache, backache, nervousness and kindred ills. Such women need Vinol, our delicious cod liver and iron tonic without oil which will create an appetite, tone up the digestive organs, make pure blood and create strength. Mrs. Walter Price, Biloxi, Miss., says: "I was in a run down condition for months. I had taken several medicines but they seemed to do me no good. Finally Vinol was recommended and from the first bottle I began to improve, until I am strong and well as ever."

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. Miller Drug Store.

P. S. For pimples and blotches try our Saxo Salve. We guarantee it. (Adv.)

The Holy Tide

The days are sad, it is the holy tide. The winter morn is short the night is long. So let the hours be glorified with deathless thoughts and echoed in sweet songs. And through the sunset of this purple cup They will resume the roses of their prime. And the old dead will hear us and wake up. Pass with dim smiles and make our hearts sublime.

Sharp as the spear that pierced His sacred side, Red as the drops upon His thorny crown; No hazard Passion and no lawless Mirth Fight off the solemn Muse—tell sweet old tales. Sing songs as we sit brooding o'er the hearth. Till the lamp flickers, and the memory falls— Frederick Tenykon.

TEXAS AND THE BORDER There has never been a day since the flag of the Lone Star floated gracefully from its staff that Texas has not felt amply able to care for herself and the rest of the world.

In Washington the Department of State is as seriously worried over the situation as it is over the situation in Mexico. Texas is now as big as the German Empire in territory, is fully as great in ambition, and is greater in the ability to secure what is most desired.

It would not surprise the rest of the country in the least if on some bright moonlight night Texas crossed the Rio Grande and annexed Mexico. Strange as it may seem, this is just what the Mexicans are afraid of.

Ask any subject of Mexico whether identified with Huerta or with the revolutionists what he thinks of the situation and he will frankly admit that if Texas would only remain neutral Mexico could easily defeat the rest of the United States.

Texas is the largest state in the Union and is proud of it. Texas feels that it is the right arm of the government and is entitled to feel this way. Texas is ambitious, like all other-governments, Texas is tired of the Mexican situation, and so is the rest of the country.

Au Revoir To Wichita Falls From W. G. (Bill) Long

W. G. (Bill) Long, for the past three years an oil man, poet, and loyal citizen of Wichita Falls, is soon to leave Wichita Falls to make Tulsa his home.

I have done well in many ways. I have grown to be a broader and bigger man. It has been my home, and as such I have loved it and was always sorry that I could not do more for its upbuilding.

So with the completion of these letters, I want to say to many many friends I have made here and whom I have known in the past, and who have borne with my many whims, "Au Revoir." It is no easy matter for one who has become impregnated with the Wichita Falls spirit.

Alaska Contains Much Valuable Farming Land

Washington, March 18.—So far as topography, soil and climate determine the matter, Alaska has probably 100,000 square miles of area on which there are possibilities for farming and grazing.

The federal homestead laws extend to Alaska, excepting that instead of 160 acres, 320 may be filed upon. Very little of the available land has been surveyed, but that work is now in progress.

That Seattle, Wash., is nearer Maine than it is to the extreme western point of Alaska; that the mean annual temperature of Sitka is about the same as that of Washington, D. C.

The fire department this morning responded to an alarm from the corner of Fourth and Indiana, where a small blaze had been extinguished before the department arrived. Just as the hose wagon was leaving the station the harness broke; it was quickly repaired with a piece of rope, but the truck snagged up the street in a manner that might have resulted seriously.

INTERESTING SPOT OF LONDON

Whispering Gallery of St. Paul's Cathedral Has Many Things to Interest the Visitor to the City.

The famous whispering gallery of St. Paul's Cathedral, London, is reached by a flight of 260 steps from the library. This gallery, which is about 210 feet above the cathedral floor, is noted for a curious echo, and is so named because a whisper uttered near the wall on one side of it is distinctly audible to a person standing on the other side, a distance of 108 feet in a straight line. From this point a good view is obtained of the church interior, the tessellated pavement of which looks like a minute chessboard, but it is liable to cause dizziness to anyone not used to heights. It also commands the best view of Thornhill's paintings and of the cathedral generally. From the whispering gallery 118 steps lead up to the stone gallery, an outer gallery with a stone parapet running round the base of the dome. Here in the clear sky of early morning may often be obtained a wonderful view of London, a view which is still more extensive from the golden gallery above the dome. From this point the lantern may be ascended by a spiral staircase to the golden ball, where six persons may stand at once.

WHALE STEAK

So insistent is the demand of the Japanese people for whale meat that there is great danger of a scarcity of whales in that part of the Pacific near the Flowery Kingdom.

So obvious is this state of affairs that the Japanese government permits only 30 ships to operate for whale-hunting purposes, but the number of whales captured is not restricted in the least.

The Japanese greatly prefer whale steak to beefsteak, the best cuts of the former selling there for 12 cents a pound. It is said to be very much coarser than beefsteak and to have somewhat the same taste as venison.

The methods of preparing it resemble those used for beefsteak, the favorite methods being broiling, frying and baking.

The tail of the whale is considered especially delicious by our almond-eyed brethren.

UNCLE SAM READY TO INVADE MEXICO

ARMY AND NAVY WELL PREPARED TO COPE WITH TROUBLE IF IT COMES

20,000 SOLDIERS ON BORDER

American Warships Could Blockade Every Port on Gulf of Mexico in 24 Hours

Galveston, Texas, March 18.—Just at this time when so many fresh difficulties are springing up in Mexico, a situation there are perhaps few citizens of the nation who do not wonder how well our army is prepared for actual warfare—for it would be actual warfare to try intervention in Mexico. The United States army is now composed of approximately 81,000 officers and enlisted men, of which number 20,000 are on duty outside of the United States while the remaining 60,000 are at home stations, mostly on border duty at the large government posts. One third of the quickly available standing army is now mobilized at Galveston and Texas City while there are scattered along the Texas border many companies of infantry and cavalry. At Fort Sam Houston, the second largest army post in the United States there is a brigade of the Texas National Guard, ready at a moment's notice, numbers 15,000 men. The entire second division is mobilized here and has been under canvas for one year.

In case of actual warfare approximately 40,000 men can be immediately thrown into action in the field, according to figures obtained here. The militia furnishes better fighters than volunteers, but the militiamen cannot be counted on for it would require perhaps three months to get them in proper fighting trim. That section of the regular army mustered at Galveston, now is the finest kind of fighting condition. Living in the open, under canvas, for one year the officers and men have faced summer heat and winter cold alike and are hardened to the maximum point, while tedious and brilliant maneuvers that are constantly being held have kept all of the battalions on their toes until they are up to the latest war tactics. Every effort of the generals and commanders here during these maneuvers has been directed toward simplification, efficiency and effectiveness and perhaps there is nowhere in the world today a better trained and more alert army division than that now here.

Great advances have been made by army officials. For instance the rifle now in use is a range of 2500 yards, more than one and one-half miles, and it has the necessary wind-gauges for various winds. The militia, regular infantrymen and the navy have the same style and model guns, whereas during the Spanish-American war the navy had one kind, the army another kind and the army men were supplied with a half dozen different model and caliber guns. Various size cartridges had to be supplied with a half dozen different model and caliber guns and one department could not use the same ammunition as the other, resulting in a great amount of confusion which is now completely done away with.

Naval Equipment. Our navy now has 29 modern battleships and nine old battleships, fifteen first class cruisers, three second class cruisers, fourteen third class cruisers, twenty-one gunboats, forty-nine destroyers, thirty-two torpedo boats and thirty-five submarines. The best part of this force could be quickly mobilized to effectively blockade all Mexican ports. Soldiers of the regular army and the militia have been given thorough practice in handling and firing their rifles; the amount of rifle practice now given each man being more than double what it was a few years ago, so that the men are all familiar with their arms and ninety per cent of their men are given stationary and moving targets, for all kinds of surprises firing has been lately introduced. The heaviest obtainable type of automobile trucks that can carry several tons of provisions, arms, ammunition, etc., have added much to the speed with which supplies and consequently troops can be moved overland. These trucks are capable of making twenty miles an hour if such speed were necessary. Motorcycles have been furnished members of the aviation and other squads which need to make trips about the field or post, and these have greatly shortened the time required for establishing wireless camps, signal service camps and caring for aviators and aeroplanes. So many automobiles, trucks and motorcycles have been already put into use, that it is certain that in the event of war with a foreign country the automobile would play a considerable part but the horse and the mule would not be eliminated.

Field Batteries Lacking. The army at present is sadly lacking in field artillery batteries, that being its most striking deficiency. FALLING HAIR AND ITCHING SCALP. Needles—Use Parisian Sage. Now that Parisian Sage can be had at any drug counter it is certainly needless to have thin, brittle matted, stringy or faded hair. No matter how unsightly the hair, how badly it is falling, or how much dandruff, Parisian Sage is all that is needed. Frequent applications and well rubbed into the scalp will do wonders—It acts like magic. The hair roots are nourished and stimulated, to grow new hair, itching scalp, dandruff and falling hair cease—your head feels fine. Best of all, the hair becomes soft, fluffy, abundant and radiant with life and beauty. You will be surprised and delighted with Parisian Sage. Try at least one fifty cent bottle from Footsue & Lyden. They will refund the purchase price if you are not satisfied. (Adv't)

HUNDREDS VISIT EXHIBIT TRAIN

AGRICULTURAL TRAIN HERE WEDNESDAY MORNING; ALSO EXHIBITS AT BURKBURNETT

FOUR CAR LOADS OF EXHIBITS

Household Economy, Farm Equipment and Machinery and Livestock are Subjects

The agricultural train operated by the Katy and Wichita Falls lines, in connection with the A. & M. College and College of Industrial Arts, arrived in Wichita Falls late last night and was open this morning for the inspection of Wichitans.

Hundreds of school children, farmers and business men availed themselves of the opportunity to witness this unusual exhibit and all found it a decidedly interesting display. The car remained here until 10:30 when it went to Burkburnett, returning at 1:30 and leaving again this afternoon for Newcastle, where a meeting will be held tonight. Tomorrow it will return up the Southern and leave over the Katy for points on the Henrietta division. The car came in last night over the Wichita Valley form Stamford.

To date more than 35,000 people have visited the car. The exhibit is contained in four cars. The train includes eight cars, two being audience cars for use of the speakers in bad weather and two being private cars for the accommodation of those in charge of the exhibit.

Industrial Arts Car. One car is given to an exhibit of the work of the College of Industrial Arts at Denton, furnishing an excellent idea of the scope and extent of that institution's work. Miss Floris Culver is in charge of this part of the exhibit. One feature of the display includes a number of home improvement photographs, showing how planting of flowers, grass, painting and other adornment improves the looks of a home. There is a display of modeling and art work, showing specimens in clay.

Most of this exhibit, however, is intensely practical. For instance, there are a number of fake weights and measures and Miss Culver in her lectures shows how unscrupulous dealers impose on their customers in this way. A stove is part of the equipment and Miss Culver uses it to cook within her demonstrations of food values; food values are studied at length at the College and the balancing of rations for human diet is a feature. The use of the bonnet in making buttons, also the evolution of wool from the shears to the sewing machine.

The house garden is not overlooked and there is a miniature garden in a glass case with an irrigation system. Examples of photography, dress-making, drawing and painting, architecture and designing complete this interesting exhibit.

Farm Equipment. Much variety is to be noted in the car devoted to A. & M.'s exhibit. There is a good roads display, with models showing the methods of construction, drainage and the like. The car contains specimens of the latest farm machinery, including a septic tank for disposal of farm sewage, a cheese making plant, cream separator and large lighting plant. The last mentioned apparatus furnishes the current for the entire train; it costs about \$400 and is said to be easily adaptable for farm and home uses.

Balancing of cattle rations is demonstrated in a very forcible way and considerable attention is paid to silage. There are six silage models on the train and considerable emphasis is laid upon the value of silage. Model pens for keeping hogs and hens are shown in this car and there is an apparatus for testing the butter fat properties of milk. A canning exhibit, work of the canning clubs of

the State, is also shown. Fruit tree grafting is demonstrated. Live Stock Exhibits. The two remaining cars are given to the live stock exhibit. There are six specimens on board, three Jersey and three Holstein the cars showing only the dairy breeds. Model stalls with stanchions and litter carriers are provided and there is also a good sized silo, filled with ensilage.

T. L. Peeler of Dallas, industrial commissioner of the Katy, is with the train as is also W. W. Evans of Dallas, agricultural agent for the Katy. Mr. Evans lectures on "A Permanent System of Agriculture," urging the building up of the soil by fertilizers and crop rotation. Prof. C. M. Evans, superintendent of college extension work at A. & M., is another member of the party. He lectures on "Dairy Farm Management and Truck Growing."

Prof. C. N. Kennedy, instructor in animal husbandry at the College, J. I. Thomas, federal dairy expert, D. T. Stevens of A. & M. in charge of the boys and girls club work, J. W. Ridgway, professor of dairy husbandry are others from College Station who are with the train. Ike Ashburn, publicity agent at the College will join the train here tomorrow. The College of Industrial Arts is represented by C. A. Tripp, who is in charge of the extension work and Miss Floris Culver, demonstrator.

Tuxedo—The Perfect Smoke for Health and Happiness

TWO things the citizens of Texas are noted for—their energy and their optimism. Wherever you find a Texan, you find a sunny face, a sound mind and a pair of capable hands. With such a grand old state—really an empire in itself—at his back, no wonder the Texan is full of cheerfulness and hardy vigor.

That's why Tuxedo is the popular favorite in Texas—Tuxedo is a tobacco primarily made for the energetic and sunny-minded man. Tuxedo's two partners are Mr. Health and Mr. Happiness.

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Here's a tobacco that is so mild you can smoke pipeful after pipeful, cigarette after cigarette, of it all day long, with increasing enjoyment—and yet it has a richness and fullness to it that satisfies a man's tobacco-hunger and satisfies it completely.

Made from fine, ripe old Kentucky Burley—mellow and fragrant—treated by the original Tuxedo process so that it cannot bite your tongue.

And you're sure it's fresh. Tuxedo is sent to Texas in frequent shipments—factory-fresh. The stock is inspected monthly and whenever an inspector finds any Tuxedo he thinks might be getting dry, he replaces it with fresh Tuxedo.

For cool, moist tobacco-satisfaction you can't beat Tuxedo anywhere in the States. Try Tuxedo today in your pipe; or roll a cigarette with it. No "hoo-rah" about it: You can't beat Tuxedo.

It Only Takes From \$350 to \$750 To Own Your Own Home Under Our Building Proposition in Southland Addition

To the first two buyers in each block in Southland Addition, who pay for the lot-in-cash, the Southland Addition will lead the amount of money needed to build your home and you can pay back the loan in monthly installments.

This is an unusual proposition to home builders and you will never get another chance like it after the required number of applications are filed. Every lot in Southland Addition on the market has sidewalks, sewerage, on or near high pressure water mains, car service, protective restrictions that will prevent abuses against adjoining property, and ideal location. Lots range in price from \$350 to \$750, 50x150 feet. Now is the time to get your choice of location.

JUST ONE LOOK WILL CONVINCE YOU

that the restricted district of Floral Heights is destined to be the non-ton residence section of Wichita Falls for all time to come. It will be impossible to have any other restricted property like it. It is a charming property, ideally located. Situated on the car line with the highest elevation between the city and Lake Wichita, the view in all directions is one of magnitude of stretching landscape as far as the eye can see. You don't have to be rich to own a home in this district. The restrictions are modest and simple, as follows: No residence shall be constructed in this restricted district in excess of one residence to two whole lots and no residence shall cost less than \$3000.00. Just think; you can purchase a pair of these lots for \$660.00, one-third cash, balance on or before one and two years at 8 per cent interest. The Company only has a few of these lots left, and there is no limit to the prices you will see these lots sell for in the future. Two of the finest homes in the city are in this restricted district. Come to our office today and let us show you these beautiful lots.

A SHORT HISTORY OF THE COFFEE ROASTING INDUSTRY

In the early days all coffee was shipped from Brazil and other producing countries in sailing vessels. These vessels were subject to severe storms and often the cargoes were badly damaged by salt water. This damaged coffee was piled on the wharves and there sprouted and rotted, and had to be hauled away at much expense.

Charles and John Arbuckle were engaged in the wholesale grocery business in Pittsburg, Penn., and made frequent pilgrimages to New York in behalf of their business. Being Scotch, this waste of coffee bothered them, and Charles, who was of an inventive turn of mind, set about to solve the problem, and built the first commercial coffee roaster, which consisted of simply a large iron cylinder revolved by steam power. They bought this damaged coffee at practically their own price and roasted it before it had time to sprout and put on the market the first coffee sold in a roasted state. This was in the early sixties and since that time the business has grown to gigantic proportions and now involved the investment of millions of dollars and practically all coffee is sold in the roasted state. This method of course saves the house wife lots of trouble and annoyance, but, as most of the coffee so far has been roasted in the large sea-port cities, it has been the cause of much stale coffee being used and has not tended to make coffee as popular

a beverage as it should be. But now the trend is in the direction of localizing the coffee roasting business and selling the bean freshly roasted direct to the consumer. That is as it should be as it eliminates all waste and middlemen's profits, traveling salesman's expenses. But best of all, gives the consumer freshly roasted goods.

Green coffee is a commodity like wheat, corn, cotton, etc., and is sold in the open market and can be bought by all at the same price. The minute it is roasted, however it becomes a proprietary article and becomes subject to heavy advertising expense, traveling salesman's expenses, fancy labels, and if shipped a distance expensive tin cans, which only to a very small extent prevent deterioration.

In order to give the people of Wichita Falls and vicinity the very best coffee at a minimum price we have established a thoroughly up-to-date Roasting Plant and can serve you with the very best goods, scientifically blended and fresh roasted. We invite your inspection of our plant and methods and trust to be favored with your coffee business.

Coffee is the best beverage given mankind. In its brew there is health, in its aroma a fragrance as delightful as the rose, a nectar, rarer and diviner than grape ever distilled into wine—VIVE LA CAPE.
