FEDERALS STILL HOLDING TORREON AGAINST VILLA

Entrenched Within General Barracks Velasco's Men Are Making Last Stand Against Assaults Of Rebels Who Hold Rest Of City

VELASCO MAKES CAPITULATION PROPOSAL

Granted Request For Armistice At Which He Proposes Surrender If Villa Will Guarantee Lives Of Men And Officers

By Associated Press.
Juarez, April 1.—At one o'clock today General Carranza gave out a statement to the effect that the federals still hold the general barracks and two smaller barracks in Torreon. This indicated that there have been no material change in the situation at Torreon since last night.

Mexico City Denies Report

By Associated Press.
Washington, April 1.—The Mexican embassy today received a telegram from El Paso stating that reports which had reached him from Mexico City were to the effect that Torreon had not fallen.

Gen. Velasco Proposes Surrender

By Associated Press.
El Paso, April 1.—Dispatches from the American consul at Durango announce that the federal commander at Torreon has offered to surrender to General Villa, that a truce has been granted and that the federal and constitutionalist generals today are arranging the terms of capitulation.

General Velasco first called for a three hours' armistice and offered to surrender if the garrison could march out under honors and if Villa would parole officers and guarantee not to kill volunteers, according to the report. The dispatches announcing the truce and the offer of surrender have been transmitted to Washington. William T. Blocker, American consul at Piedras Negras, refused to divulge the contents of the message from Durango but admitted that the message had been received and forwarded to Washington.

According to information from authentic sources General Villa has taken the railroad station in Torreon and was working his way from house to house toward the center of the city. He is said to have already taken nearly half of the town with appalling loss of life to both sides.

Last night General Velasco sent out a white flag and asked for three hours' truce in which to present a proposal for surrender. The truce was granted, and the federal commander offered to turn over the city with all military stores, if the lives of all officers and men are guaranteed. It is understood Villa at first demurred to this saying that many of the garrison including General Orrego were traitors and must be executed.

It was said another armistice was arranged for this morning and that Villa would probably accept the terms of the capitulation. It is known that a federal column of reinforcements left Saltillo March 30, but as all railroad lines are cut it will require several days for the relieving force to reach Torreon.

By Associated Press.
Juarez, April 1.—Juarez waited today for definite news of General Villa's position in his attack on Torreon. Reports received by General Carranza last night indicated that fighting was still in progress. Carranza today expressed confidence that Villa would conquer the federals. The report that heavy reinforcements for the federal leader were approaching Torreon did not shake Carranza's confidence in the outcome. Both armies are said to be so worn and exhausted by continued fighting that the present action lacks the virility of the rebel conquest of Gomez Palacio.

The new column reported marching to the relief of General Velasco at Torreon was said to be under General Mena and to number 45,000 men. To news him it was reported that General Herrera was detailed with a force of about 3,500. An engagement between these two forces was expected hourly.

General Carranza today informed the American, British and German consuls here that reports of the fall of Torreon were premature.

WEATHER FORECAST

Tonight fair, probably frost; Thursday fair.

50,000 COAL MINERS THROWN OUT OF WORK

Failure of Representatives to Agree On New Contract Affects Bituminous Miners

By Associated Press.
Chicago, April 1.—Nearly 50,000 Ohio bituminous coal miners were forced into idleness today and 38,000 Pennsylvania miners may be thrown out of employment Friday because of the failure of the representatives of the mine owners and of the United Mine Workers of America to reach a new agreement in place of the one which expired last night. Coal miners in Indiana, Illinois and Iowa will continue at work.

Eastern Rail Rates Effective

Washington, April 1.—Rate increases by way of elimination of allowances to industrial lines went into effect today on eastern railways with approval of the Interstate Commerce Commission. The result of this ruling means millions of extra dollars to the steel and iron industry's Industrial Lines alone amounting to \$15,000,000 and the commission felt that by approving the elimination of this system it would be paving the way to increased revenues without making an immediate rate increase as requested. Further aid to railroads is likely to develop at an early date in the way of an authorization for increases on "import business." Herebefore the roads have charged higher rates for domestic business than for goods imported and transferred to rail carriers. This was done under the plea that it stimulated trade. Now American shippers are objecting because they face keener competition since the new tariff law went into effect. The Interstate Commerce Commission has indicated that it is rather agreeable to heeding requests from this source instead of allowing that increases on existing domestic rates.

GOETHALS BECOMES CIVIL GOVERNOR OF CANAL TODAY

Washington, March 31.—The Panama Canal enters upon another phase of progress today, when civil government will be established on Uncle Sam's ten mile strip from ocean to ocean. Col. George W. Goethals, who as chief engineer during construction of the big ditch has been in control of its administration is to be civil governor. Ever since the United States undertook building of the canal it has been technically under military rule. A commission form of government had actual administration authority, but practically all the commissioners were military officers. Colonel Goethals has been supreme in authority. During the building of the canal he has been often said that Goethals' administration was required if an employee wanted to requisition a pencil.

The new civil government comes automatically in effect today in pursuance with a proclamation issued two months ago by President Wilson. The Isthmian Canal Commission likewise dies. The Panama Canal law, approved August 24, 1912—the exemption from tolls clause of which is now under consideration in Congress—makes the president the real ruler of Panama through a governor and such other persons as he may elect. The president has told Goethals that he is to have a free hand in his administration, which is taken to mean that the civil governor will have nearly 2,500 jobs at his disposal. There is no civil service on the canal either.

In his new job Goethals' foremost duty is to make the canal ready for use. He was given the place because it has been his ambition when the canal was completed and the engineering and construction forces had done with their work, that he might actually have some hand in the starting of commerce through the waterway. Of course the task of rearranging the administration in the Zone is an enormous one, but that of drilling the canal employees in their work and of making the canal a success will from the start to finish be secondary. On his recent visit here, the colonel made it plain that he intends to go slowly in rearranging the Zone government. By law, all executive orders and regulations will be continued in force after tomorrow, so that the stich from a commission to a one-man government will be accomplished with no apparent wrench. Speculation was rife here today as to whether Goethals plans to continue the semi-socialistic, anti-capitalistic scheme of curbing canal employees under the new government. Heretofore the employees were furnished by the government with a residence, a school, while every effort was made to encourage establishment of the churches and recreation buildings. Needless to say, there were no taxes at all.

Goethals thinks the canal will be in running order by July 1—that it will be constructively complete. But the chief engineer wants his operating force, the men who handle the giant locks, the towing locomotives and other delicate machinery to be thoroughly drilled in their respective jobs before the canal is thrown open to the commerce of the world. That may take several months.

CHURCHILL AND LLOYD-GEORGE PROMINENT IN BRITISH ARMY SENSATION OVER RESIGNATIONS

WINSTON CHURCHILL, FIRST LORD OF ADMIRALTY, and DAVID LLOYD-GEORGE, CHANCELLOR OF EXCHEQUER.

London, April 1.—W. Churchill, first lord of the admiralty, took a hand in the row over the resignations of the army officers because of the Ulster trouble by summoning the Mediterranean fleet home under sealed orders. Churchill has been an ardent supporter of home rule. David Lloyd-George, chancellor of the exchequer, has also taken an active part in the meetings over the resignations of Sir John French, commander in chief of the army and others. Lloyd-George was in the Riviera when the storm broke and was summoned home forthwith.

LAFOLLOTTE DEMANDS THAT RULE BE FOLLOWED

Wisconsin Senator Declares He Will Present Evidence of Attempt to Influence I. C. C.

By Associated Press.
Washington, April 1.—Demanding that representations before the Interstate Commerce Commission should be made only in accordance with the rules of that body, Senator LaFollette announced today that he would speak in the Senate tomorrow presenting evidence of an attempt to influence the commission in connection with the Eastern railway rate case.

I desire to present some remarks upon the bill and some evidences of a proceeding that is under way in this country that I believe to be the most serious in its prejudicial effects upon the Interstate Commerce Commission of any that have yet been attempted since the organization of that body.

\$12,000 IS GOAL NOW SOUGHT BY COMMITTEE

\$9920 Pledged By Masonic Members In First Days Canvass For Temple Loan

A total of \$9,920 had been subscribed to the fund for the new Masonic building here up to last night, and while reports have not been received of the progress today, there is little doubt that the \$12,000 has been marked. The committee will keep at work with \$12,000 as their goal.

It is probable that the building will be three stories, instead of two as at first proposed and as a total of about \$40,000 will be required. It is desired to secure \$12,000 from among the local members. Those in charge feel much encouraged by the success that has attended their efforts.

Frank Collier, chairman of the committee, says that it has been impossible to see all the members of the lodge and if there are any who have not been seen who feel like making a loan, the committee will be glad to hear from them.

SAYERS DECLARES FOR TOM BALL

Austin, Texas, April 1.—J. B. Sayers, former governor of Texas and always an anti-prohibitionist, authorized the statement that he will vote for Thomas H. Ball for governor.

GAIN OF \$8,818.59 IN POSTAL RECEIPTS OF FISCAL YEAR

A gain of nearly \$9,000 or eighteen per cent, was shown, by Wichita Falls postoffice receipts for the year ending March 31, over the previous twelve months. The receipts for the year just ended totaled \$57,171.49, an increase of \$8,818.59 over the year ending March 31, 1913, when the receipts were \$48,352.90.

The totals for the year ending March 31 are taken by the postoffice department as a basis on which to allow additional clerks for the fiscal year which begins July 1. Postmaster Bacon's salary which is also figured on this basis, will not be increased; had the receipts gone to \$60,000 he would have received "a raise."

In spite of the substantial gain for the year, March receipts barely nosed out ahead of those of March, 1913. Last month's receipts were \$5,855.82, a gain of only \$126.57 over the same month last year. This is the smallest gain in two years. The receipts for the years ending March 31 in recent years follow:

1908	\$18,036.13
1909	23,306.58
1910	30,585.48
1911	35,114.87
1912	48,458.35
1913	47,352.90
1914	56,171.49

SOCIALISTS WANT EMBLEM ON BALLOT

COMMITTEE FILES PROTEST WITH CITY SECRETARY AGAINST BALLOT

By Associated Press.
Chicago, April 1.—A protest against the failure of the municipal election to show the party designations of the candidates, was filed with City Secretary McCarty this morning by a committee representing the local Socialist organization. This committee consisted of J. A. Baugh, E. J. Kelley and L. G. Teeters and the protest points out that the state law provides that party designations may go on the ballot.

Secretary McCarty after consulting local attorneys, decided that his duty was to follow the charter, which provides expressly that there shall be no party designations and advised the Socialists accordingly. Article 9 of Chapter 7 of the charter is said to cover this point and it reads as follows:

The provisions of this charter insofar as they may conflict with the state law shall be held to supersede the said law to that extent and shall not be held invalid on account of such conflict.

Arkansas Senator Would Allow His Colleges Only \$600 Free Postage Per Annum

By Associated Press.
Washington, April 1.—As an outgrowth of the fight in the Senate yesterday to cut off the free telegraph privileges accorded senators which failed, Senator Robinson of Arkansas today introduced a bill which would limit the mail franking privileges of members to \$600 annually.

RESOLUTION ASKS ABOUT ROCKEFELLER FOUNDATION

By Associated Press.
Washington, April 1.—Senator Kenyon introduced a resolution today calling on Secretary Houston of the department of agriculture for information concerning the relations of the department with the Rockefeller Foundation. It asked for a statement showing the names and positions of all employees of the department whose salaries are paid in full or in part from the funds of the Foundation; also the names and positions of officers and employees of the Foundation who receive pay or are in any way connected with the work of the department.

The resolution is based on a recent statement of Representative McLaughlin of Michigan, that 600 employees of the department were also in the pay of the Rockefeller Foundation.

NEGRO LYNCHED SUNDAY IN WYNN PARISH, LA

Natchez, Miss., April 1.—News of a lynching in a remote district of Wynn parish, La., Sunday night reached here today. Allen Turner, a negro, struck a white farmer with a hot iron inflicting serious wound. A constable arrested Turner and when taking him to jail was confronted by a band of farmers who seized and shot the negro to death.

VETERAN TELEPHONE MAN DIES IN DALLAS

Dallas, Texas, April 1.—Frank B. Knight Sr., a well known telephone man, died here today aged 64. He had been with the Southwestern Telephone Company since 1905, retiring recently on a pension. During the war he was one of the youngest telegraphers in the Union army, serving at Fort Monrue and on Grant's personal staff at the final siege about Richmond.

TERRELL TEXAS, APRIL 1.—Miss Anna Stoy, a trained nurse, became suddenly ill and died here Tuesday. She was attending her brother in a local sanitarium when she was stricken.

MARIETTA, TEXAS, APRIL 1.—Miss Mada Shattuck was killed when her father's store was wrecked during a storm Monday afternoon.

TOLL EXEMPTION NOW UP TO SENATE

CANVASS IN THAT BODY INDICATES REPEAL WILL HAVE A MAJORITY OF 16

By Associated Press.
Washington, April 1.—Gratified with the passage of the exemption repeal in the House President Wilson and his supporters turned their attention today to the Senate. The latest poll brought to the White House by an administration senator who canvassed his colleagues, who said he counted only those who had expressed themselves affirmatively, indicated that the president would have a majority of at least 16 republicans as well as democrats.

Senator Owen, the leader in the Senate canal committee, where the measure is now pending, conferred with the White House with Secretary Taft this morning. Owen said: "It is natural to assume that if the committee does not report promptly a motion will be made to discharge the measure from consideration of the committee. There is to be no effort at forcing unnecessarily but we want no dilatory tactics."

"A week with the committee would be a reasonable time for the consideration of the repeal."

He said it was expected that a majority of the committee did not favor the repeal.

SENATE HOUSE 248 TO 162

The Sims bill to repeal the toll exemption clause of the Panama canal act was passed by the house Tuesday, 248 to 162.

It was the crowning of President Wilson's work in the house to repeal the measure. Prior to the final vote the administration forces won a test vote on a motion for the engrossment and third reading of the bill by a vote of 247 to 159. It was freely predicted at this point that the final vote of the house would be even more emphatic in favor of the President. This test vote practically assured the passage of the bill in the house, even in the face of the masterful argument made against it by Speaker Clark.

Senator O'Gorman today said he would call the canal committee to meet Thursday. It was apparent that an effort would be made to amend the House bill with a clause asserting the sovereignty of the United States over the canal zone. Some senators who favor the repeal believe that an amendment would be considered in the light of a compromise.

The corrected count of the vote in the House yesterday repealing the Panama tolls exemption was announced in Congressional Record today as 247 for the repeal and 162 against it, a majority of 85 for the repeal. The count as announced last night was 161 against. The name of Representative Myer, republican of St. Louis, who voted against the repeal was omitted from the list last night.

CAPTAIN CRADDOCK HERE IN FERGUSON'S BEHALF

Says Friends of Bell County Man Are Much Gratiated With Reception Given Him

Capt. W. E. Craddock of Gatesville, was in Wichita Falls Wednesday in the interest of James E. Ferguson, of Temple, candidate for the democratic nomination for Governor.

"The friends of Mr. Ferguson are much gratified," said Mr. Craddock, "at the strength that he is developing all over the State. It is remarkable that a man who has never traveled with the politicians and never aspired to any office should come out for the high office of governor on a platform of principles so different from the average politician as to attract at once thousands to his standard. His promise of a business administration and the other plans on his platform and the fact that he is a demagogue without prefix or suffix have struck a responsive chord in the hearts of many voters."

Girls Taught Care of Babies.
Cleveland, O., April 1.—Students of twenty-three domestic science school centers here today took up the study of infant hygiene as part of the city's summer campaign against infant mortality.

Nurses from the municipal infant dispensary are aiding domestic science instructors in teaching eighth grade girls the sewing of sanitary outfits for needy babies; washing, dressing and feeding babies and the general care of infants. The subject today became a regular part of the school course for the first time.

AMERICAN MACHINE GUN MEN JOBLESS

MEXICAN WARFARE HAS DEVELOPED HANDLERS OF GUNS AMONG NATIVES

REBEL GENERALS AS FIGHTERS

They are Today—Most Experienced and Probably Best Army Leaders in World

Mexico City, April 1.—The bottom has fallen out of business for American adventures along the border. Tracy-Richardson, one of the star machine gun men in the Mexican revolution, developed this fact with great care and regret in a conversation with the staff correspondent of the United Press.

"The game's played out along the border," said Richardson, who has fought under Villa, Salazar and Orozco at different times. "In the early days of the Orozco revolution against Madero I got \$1,000 a week. It was when Orozco looked like a winner and some big American concerns were putting a lot of money to his cause, hoping that he would make so much trouble that the United States would have to wade the stars and stripes over Mexico. But, at the end of three weeks, Orozco had been licked three times by Madero's soldiers and my fine wages stopped. I've run machine guns in more South American revolutions than I care to tell about, but that was the highest salary I ever got."

"Today there are 2,000 young fellows along the Rio Grande who are crazy to handle machine guns for either side of the revolution. They don't want any wages. All they seek is glory, adventure and plenty to eat. It's the money we professional revolutionists are after. It's the moving pictures and two or three magazines of adventure that have killed our game. They make young fellows want to do desperate things. Of course, way down in the interior of Mexico, where there's hard fighting and where the American newspaper men can't see the young heroes at work, these young fellows could get plenty of jobs. But they want to stay near the Rio Grande where they're not too far from home and where they're under the eyes of the war correspondents."

"And what's more," continued Richardson, with regret, "these Mexicans have been fighting for about three years and they've developed some fine machine gunners among themselves. They were bound to learn, when they had the American machine gun men among them, so long."

I asked Richardson about the Mexicans as fighters. "Can't beat 'em," he said, "when they get started. They're the fiercest fighters in the world. Salazar, for instance, made a charge at Ojinaga and the American officers on the other side of the river who saw it, said it was one of the best planned and bravest charges they had ever seen."

"If you stop to think," said Richardson, "there are a few men—like Villa, Orozco, Salazar and Campa, who have been fighting continually for the past three years. Their experience has turned them into first class military men. You can't show me a country in the world whose generals have had as much actual experience in real warfare as these Mexican revolutionists have had. They're the real goods when it comes to military leadership. They haven't learned in

First Big Oil Strike At Electra Four Years Ago Today

Today is the fourth anniversary of the bringing in of the first big oil well at Electra on the Waggoner ranch. The news that oil had been struck first became public on April 1, 1910, although it had probably been brought in some little time before it was generally known. When the news reached Wichita Falls, many people believed it was an April fool joke and paid no attention to it. At that time the lonely derrick reared its head in the prairie west of Electra. Today the landscape is one big pin cushion of derricks stretching in every direction from Electra. In May, another derrick was erected and a second well struck. By the end of the year there were a dozen; then in 1911 came the

strikes that opened operations in earnest. Four years ago Electra had four or five hundred people, with a business district of about a block of wooden buildings. Today she has probably four thousand inhabitants, many substantial brick business houses, modern improvements of every sort and is the most important station, in point of amount of freight she originates, on the Denver railroad. Buckingham and Iowa Park have come in for their share of the oil since the strike at Electra, but the latter with a production of 26,000 barrels daily, is not apt to have her supremacy as an oil city questioned very soon.

Big Crowd Expected To Hear Ferguson Thursday Night

J. E. Ferguson of Temple, banker and candidate for governor, will address Wichita Falls voters tomorrow night at 8:30 at the court house. Mr. Ferguson is a stranger to most Wichitans, this being his first entry into state politics, and the attention which his declarations have attracted will probably result in a large crowd turning out to hear him. He is an undoubted well known choice of the "constructive democrats" as an opponent of Thomas Ball for the democratic nomination. Mr. Ferguson will be introduced by Judge A. H. Carrigan. He will be the first of the candidates to visit this city and it is expected that a large gathering will attend.

Building Permits For March Totaled \$44,800

Thirty-two permits issued, nearly all being for residences—two business buildings. Wichita Falls building permits, at a reaching a new low mark in February, picked up considerably in March, reaching the tidy total of \$44,800. Thirty-two permits were issued during the month, practically all of them being for residences. The largest individual permit was to H. L. Hunter for his new residence on Tenth street which will cost \$5,150. Permits for two new business buildings were issued. The Henderson-Bland building on Scott and the Fligo building near Tenth and Indiana.

school, but they have picked up some wonderful lessons in the field. "The talk turned to the grossness of war. 'You get over that,' said the gun man. 'When you get into a fight you don't stop to think that the other fellows are human beings with mothers and sisters, fathers and brothers just like you have. You feel like if they were only man killing animals, when you kill you don't kill them first.'"

"How many men have you killed?" was a question I slipped in hurriedly. "I've never killed a man in my life," he answered. "That's the answer these professional machine gun men always give. More than one American war correspondent has seen Richardson sitting at his machine gun 'breaking up the formation' of the enemy with a rain of 300 bullets a minute. But, breaking up formation is what Richardson calls it; you couldn't get him to admit that one of the men who took his dog tag rain had been killed by him. 'How does it feel to be shot?' I asked him. 'I've been shot eight times, mostly around the edges, and it felt different every time. The most pain I have ever had came from a little wound in my wrist. The bullet went under the skin and I squeezed it out myself with my thumb, but it hurt a nerve and I suffered to beat the band. Another time I was hit in the muscle of my leg and though it was only a small wound, I felt as if someone had rapped me across the thigh with a small sapling. The force of the bullet spun me around like a top. The worst wound I ever had hurt me the least. I was sitting at my machine gun. There were eighteen of us in a tight corner, I at one gun, and Sam Drebbin at another pumping away for our lives when suddenly I felt as if someone had touched me with an iron bar. That made me feel better, because I knew the bullet had gone through me and wouldn't have to be cut out by any surgeon. I didn't go to bed, even one day, though the bullet had gone through the center of my right lung. That was two years ago and I'm just as sound in the lungs as ever. Folks are wrong," concluded Richardson, "when they say that South American adventures are in the game because they love to kill. We're in it for the money alone. Sometimes we get lots, sometimes we get none and have to buy our way out. But there of us who wouldn't be ashamed to say that he had ever killed a man. It isn't in our code to admit a thing like that."

BALL PLAYERS ENJOY HOSPITALITY OF ELKS

Vaudeville Entertainment, Dutch Lunch and Oratory Much Enjoyed

Members of the Kansas City and Indianapolis Federal League teams and visiting Elks were the guests of the Wichita Falls Elks at a delightful smoker at the Elks club rooms Tuesday night. A feature of the entertainment was a "Dutch" lunch and oratory. This was preceded by a visit to the Lydia Margaret Theatre and was followed by oratory. City Attorney Bonner and A. E. Myles, exalted ruler elect of the local lodge, expressed the pleasure of Wichita Falls people in having the ball players here and how much the townspeople who had met the players personally liked them and extended an invitation to them to come back next season.

others of the players expressed their appreciation of the evening's entertainment and the hospitality of Wichita Falls folks generally.

The Waiting Courage. Sleep hath composed the anguish of my brain. And ere the dawn I will arise and sing. Strengthen me, heaven, and attune my lay. Into my better angel's clear refrain. For I can hear him in the night again. The breathless night, snow-smothered, happy, gray. With remembrance of a bound day— Singing a quiet carol to my pain.

Slowly, saith he, the April buds are growing. In the chill core of twigs all leafless now. Gently, beneath the weight of last night's snowing. Patient of winter's hands, the branches bow. Each buried seed lacks light as much as thou. Wait for the spring, brave heart; there is no knowing. —George Santayana

HOW TO SAVE YOUR EYES

Try This Free Prescription. Do your eyes give you trouble? Do you already wear eyeglasses or spectacles? Thousands of people wear these "windows" who might easily dispense with them. You may be one of these, and it is your duty to save your eyes before it is too late. The eyes are neglected more than any other organ of the entire body. After you finish your day's work you sit down and rest your muscles, but how about your eyes? Do you rest them? You know you do not. You read or do something else that keeps your eyes busy; you work your eyes until you go to bed. That is why so many have strained eyes and finally other eye troubles that threaten partial or total blindness. Eyeglasses are merely crutches; they never cure. This free prescription which has benefited the eyes of so many may work equal wonders for you. Use it a short time. Would you like your eye troubles to disappear as if by magic? Try this prescription: Go to the nearest wide-awake drug store and get a bottle of Optona tablets; fill a two ounce bottle with water; drop in one tablet and allow to thoroughly dissolve. With this liquid bathe the eyes two to four times daily. Just note how quickly your eyes clear up and how soon the inflammation will disappear. Don't be afraid to use it; it is absolutely harmless. Many who are now blind might have saved their eyes had they started to care for them in time. This is a simple treatment but remarkably effective in multitudes of cases. Now that you have been warned don't delay a day, but do what you can to save your eyes and you are likely to thank us as long as you live for publishing this prescription. (Adv.)

WRITING BASEBALL IN TERMS OF LUCRE

New York, April 1.—All the time they were talking about money. Not having as close an acquaintance with the director of the mint as some of those who are exuding huge sums of sentiment in the sport field, it is impossible to say here just how much money there is in the world. But most of it is surely being used for other things than backing "souless corporations" or conducting "wars in Mexico."

With the U. S. treasury put to shame by the Federal League in their claims to wealth the fight game has kicked in with a slight glitter to match the baseball Midas flash. Within a span of two months—April-Maytime, Willie—Ritchie will have hooked in \$26,000. This amount will represent just two fights. The lightweight champion received a paltry \$10,000 for ten rounds with Art Wagoner in Milwaukee recently. He has now accepted terms for another ten round tango with Jimmy Duffy. Loophole lightweight and is to receive a guarantee of \$10,000 for that engagement. From where we sit it is possible to add \$10,000 and \$10,000 and \$10,000 and \$10,000 must make \$26,000.

As just a little side-issue to the money being circulated through sports Ad Wolszt received \$12,000 for being licked by Ritchie at Milwaukee.

The Federals are still talking money in the baseball field and organized baseball has put up sisters-of-coin to keep stars from doing a Kayceeton to the outlaws. At the rate of dollars and cents has progressed in the race for a place where bats and fielding once roamed around, we may expect something new in the run of baseball within this season. For instance the stories of a game might read:

"The batteries in today's game were valued at \$75,000, the two pitchers drawing \$25,000 each and the catchers \$12,500. Grabber, \$18,000 second baseman, accepted ten chances without an error, but Manager Goinzky expressed his \$30,000 opinion that he might have taken care of a lot more and still not have injured his voice which is insured for \$5,000. The game was broken up in the tenth inning after \$15 worth of balls had been used and the umpire estimated that the damage to his voice in arguing with players was at least 30 cents. With two \$10,000 men on base and the \$10,000 insurance of the league trainers playing in close-whist recently from the bushes and receiving only \$1,000 a year surprised every one by pushing a double out of reach of a \$17,000 right fielder, there by scoring \$20,000 worth of runners and ending the game."

YOUR HAIR NEDDS PARISIAN SAGE

It Quickly Removes Dandruff. Just because your hair is full of dandruff, thin, straggly, dull and never will do up to look pretty, do not despair. Beautiful hair, thick, fluffy, lustrous and absolutely free from dandruff is only a matter of care. Parisian Sage frequently applied will work wonders. Just one application stops itching head, removes dandruff and all excessive oil. It goes right to the hair roots and furnishes the nourishment needed—the hair becomes soft, fluffy, abundant and radiant with life. Parisian Sage not only saves the hair but stimulates it to grow long and heavy. Get a 50 cent bottle from Fawcett's Lynch at once. There is no other just as good. (Adv.)

If you have an idea that veal loaf, beef loaf or chili is not too expensive, perhaps it is because you have not realized that you can use some of the cheaper meats in producing these dishes and still have as good quality and as thorough satisfaction as though you use some of the most expensive cuts.

Now, if you come and let me show you personally just what kind of meats can be used for these dishes and the different costs of them, I am sure that you'll find a pleasant surprise and that you'll be ready and glad to use some of these less expensive cuts in this way and thus save money.

Your account for April will be appreciated.

Wichita Falls, Texas, April 3, 1914

Mr. James E. Ferguson, candidate for governor, is to address the people of this city, and surrounding country tomorrow night at the court house, and he will receive a most cordial reception to our city. Wichita Falls people are of the right sort, and they always have a warm and hearty welcome for those who come among us without regard as to how they might think on matters of a political nature. Mr. Ferguson is one of the big men of Texas, and whether he is successful in his aspirations or not, we, all of us, want him to form as favorable opinion of us as those who know him best have formed of him.

Progress waits on no man. Therefore if there are those who have money to invest in Wichita Falls real estate values, and are only waiting for values to go down, they are doomed to disappointment, certain and sure. Wichita Falls, while she has been making some rapid strides during the past few years in the way of adding population and wealth, is in reality just starting to grow. Business property that could have been purchased a year ago for \$200 per front foot with no improvements is now selling for \$250 per front foot. That's a tolerably nice advance for one year, but five or six years ago this same property could have been acquired for \$25 per front foot.

At this hour hundreds of blind children of the blind institution at Austin are housed in buildings of highly inflammable material having no proper fire escapes, all of which would be completely destroyed within twenty minutes from the outbreak of a fire in the nighttime during the prevalence of a high wind. Is not this situation a shameful reproach to the boasted humanity and intelligence of civilized people?—Houston Post.

It certainly is, but who is to blame for such conditions? To us the matter is plain enough: Texas people should do one or two things. Either elect a majority of legislators who are in harmony with the governor on the question of prohibition, or elect a governor who thinks on that vexed and troublesome question with a majority of the legislators. So long as the people of the State do as they have been doing for the past two state elections, the interests of the state cannot but suffer. It will do no good whatever to argue that the question of prohibition should cut no figure in such matters. One might argue until he is black in the face in an effort to convince an audience of Texas voters that prohibition is not and should not be an issue in the present campaign, and at the end no one would be convinced but himself. In truth, more than half the political stump speakers who talk that way don't believe what they are saying, or are trying to get others to believe. So long as the governor of the state is on one side of that question and a majority of the legislators on the other, State taxes will continue to go higher and the tax monies gathered in frittered away without getting much in return. It is unfortunate, perhaps, that political conditions in Texas are such as they are at present, but to us it seems that one faction is about as much to blame as the other. For that reason it is not going to do any good to say that the question of prohibition is not to be considered in the selection of our next governor. If the antis succeed in electing their candidate as they have in the two last elections, and the pros elect a majority of the legislature, the opportunity for either

the legislature or the governor to do anything really worth while, or in a big way for Texas would be lost in wrangling over prohibition. The people of the State, or the majority of the Democrats at least, both pro and anti, have apparently about concluded about the best thing to do is to elect a governor whose views on that question will harmonize with the views of a majority of the members of the legislature, and that is one of the ideas that is making Col. Tom Ball, the candidate of the pro Democrats, so popular. They know he is big enough and broad-gauged enough to be the governor of a great State like that of Texas, and even though he is a prohibitionist in principle, if elected governor

is not going to allow his views on that matter to interfere in the least with the best interests of the people of Texas. If the Democratic primary election was to be held this month instead of July, and a full Democratic vote could be polled, it would be a conservative estimate to fix his majority over his opponent at something in the neighborhood of 100,000.

FARMER KUNTZ GIVES VIEWS ON GOOD ROADS BONDS

Iowa Park, Texas, March 31.—Editor Times: In your issue of March 26th you asked for expressions of views on road bond issues.

Last year the county commissioners raised the taxes two and one-half cents to be used for dragging the roads

which has given us good roads—that is the main road that is traveled most by the man with the auto. If we issue the \$500,000 bonds it will do the average farmer but very little good, for the man with the auto will constantly keep him in the ditch or be run over. As they would only build the main road from Wichita Falls, Electra and Burk Burnett. That would only help the farmers who live on this road, while the others would get but very little benefit.

Good roads will increase the value of your land so you can tax it at a higher rate but it will not increase its productivity. It is not a question of how much we can haul, but how much have we got to haul. I'm afraid that my friend, Mr. Hull, has not made so much in the last few years but what he could easily haul it over our present roads. Now if we are going to

vote the bonds let's vote a \$25.00 or \$30.00 tax on each auto a year, for the man who is able to own an auto is able to pay the tax. Statistics show that the autos are harder on the roads than other vehicles. If all property was taxed at the same rate that the farmer is taxed they probably would not object to the bond issue. Let precinct No. 1 vote bonds if they want them. Then if it is satisfactory we will probably do the same.

Why not work the penitentiary-contracts on our public roads. It is all right to vote bonds for road purposes provided the money is spent in the precinct from which it came. That would help all the farmers, while under the proposed system it would only benefit those who live on the main road, while all the others would help to pay the tax which I think is very unjust.

Now, if the Commissioners Court and Judge Felder really wish to do something for the farmer, let them offer a bounty on the jack rabbits. But I have been informed that they have not the authority. If so, let them see that they get the authority for this is a serious pest for they will eat from 5 to 10 per cent of the wheat in the county to say nothing of damage to other crops.

As a voter and tax payer of the county ask that the proper authorities take this up and pass laws that they may be exterminated and every farmer in this county will arise and call you blessed.

Yours truly, L. L. KUNTZ.

Two two reel features from the Special Exclusive General Film Co. service are showing today at the Empress. "Wild Animals at Large" a Vitagraph animal-comedy and a Lubin drama, "From Out the Flood." Both of these pictures are intensely interesting and are cleverly photographed.

Victoria. An unusual program is on for today at the Victoria. The first of "Our Mutual Girl" pictures where Margaret leaves her country home and goes to make her home with her wealthy aunt in New York City, her transformation from the little country maiden into a beautiful society girl and the wonderful places she visits and the beautiful clothes she purchases. The sixth of the series is also shown. In this picture Margaret meets Andrew Carnegie, the world's greatest iron master, she and her aunt visit one of the largest fur houses in the city and make an elaborate selection of costly furs. She meets again her country sweetheart and rushes into his arms to the amusement of the public and the consternation of her aunt. She runs away from her groom while she is taking a riding lesson in the park and causes several uneasy moments for the groom, her aunt and others. The picture closes with Margaret parking her clothes, determined to run away because of the way the aunt treats the country boy and also to attract attention the count forces upon her. In addition to the two "Mutual Girl" reels there is a two reel Thanhouser production, featuring James Cruze and Flo La Badie, "A Leak in the Foreign Office," taken from "The Adventures of a Diplomatic Free Lance," which ran some time ago in the Blue Book.

Gen. The Gem program today is an especially good one and one that will please all audiences. It consists of "The Shadow of Guilt," a Kalem special feature in two parts, featuring Larry Peyton, Wm. TUXEDO—It's a Regular Stampede

THE way Tuxedo is selling in Texas today is enough to take the breath out of a "Norther." Smokers of the Lone Star state have simply stampeded the supply on the shelves. Every Texan that is a lover of A-Number-One smoking is recommending Tuxedo right and left; and the result is that in the last few months Tuxedo sales in Texas have increased by hundreds of thousands of pounds.

Here's an endorsement and an encouragement that means business. They don't make any better judges of smoking tobacco than the Texan. And that means they don't make any better smoking tobacco than

Tuxedo The Perfect Tobacco for Pipe and Cigarette

One slamming big thing in Tuxedo's favor is—you can always get Tuxedo fresh. It's sent to Texas in frequent small shipments. Our inspectors check it up monthly to see that it is fresh. We take back any Tuxedo that might be getting dry and replace it with factory-fresh Tuxedo.

Tuxedo is made from the highest grade Kentucky Burley leaf, and is treated by the original "Tuxedo Process" which absolutely makes it impossible for Tuxedo to bite your tongue.

Because Tuxedo is mild, you can smoke it all day long. Tuxedo is to other "smokings" what Texas is to Rhode Island. Get Tuxedo today and join that big stampede.

Sixes or fours—the Mitchell-Lewis Motor Company makes both. Our idea is to suit the public taste. We are not trying to cram either down your throat.

You ought to know your own car even if you hire a driver. You ought to know it before you buy it. That definite process of acquiring information will often save you a lot of money and worlds of trouble.

We are asking prospective customers to buy Mitchells that way. We are asking them to drive the car themselves and get what is known as "the feel of the car."

Here is the Equipment for all the Mitchell Models Which is Included in the List Prices:

Electric self-starter and generator, electric lights, electric horn, electric magnetic exploring lamp, mirror top and dust cover, Tunstun valves, Jiffy-quick action side curtains, quick-action two-piece rain-slip wind-shield, demountable rims with one extra spare-winner, double extra tire carriers, Rain bow holders, license plate bracket, pump, jack and complete set of first-class tools.

ELECTRA JOVIAL, EVEN IF DRY, SAYS WITNESS Fort Worth, Texas, April 1.—A. V. Gibbs, proprietor of a shooting gallery at Electra, gave United States Judge Meek the latest questions on the alleged booze market of the lively but legally dry oil-city Tuesday afternoon.

Soda pop, he said, is 5 cents—a drink, cider 10 cents, whiskey 25, and a blend of whiskey and cider also 25 cents.

"Don't people come into Electra from Wichita Falls drunk?" asked Attorney John L. Bonner.

"I should say they do," Gibbs answered.

"How do you know they come in drunk," United States Attorney Wilson interposed.

"They come in acting awfully drunk," was the answer.

Poulter undertook to prove by the witness' answers that what he thought was a mixture of whiskey and cider was merely a mixture of two kinds of cider.

Ellis was found guilty by the jury. Sentence will be pronounced at the end of the present term.

Wichita Falls, Texas, April 1st, 1914.—To the Honorable W. A. McCarty, City Secretary of the City of Wichita Falls, Texas: We the Socialist political party of the city of Wichita Falls, Wichita County, Texas, by and through our Executive Committee by J. A. Baughn, E. P. Kelley, and L. G. Teeters do hereby file this our protest against the arrangement of the official ballot for the city election to be held in the City of Wichita Falls, Texas, on April 7th, 1914, in that said ballot is not prepared by the General Election Laws of the State of Texas, and we do respectfully request and demand that said ballot be prepared in such manner and order as to show the political affiliations of the respective candidates named on said ballot as is required by the General Election Laws of the State of Texas.

Very respectfully submitted, J. A. BAUGHN, E. P. KELLEY, L. G. TEETERS.

State of Texas, County of Wichita, I, W. A. McCarty, City Secretary of the City of Wichita Falls, Texas, hereby refer the above parties to the City Charter, adopted by the City of Wichita Falls on November 26th, 1913, and to Article 111 Election and Section thereof, and to the fact that I am abiding and complying with said election laws therein contained as to the city election ballot.

Given under my hand officially this 1st day of April, A. D. 1914. W. A. McCARTY, City Secretary of Wichita Falls, Texas. 76 1tc

How To Save Money

You can save from \$1 to \$2 on the gallon if you want to in buying the varnish for your new house, but save will have nothing to be proud of in the appearance of your floors, doors or other varnished surfaces after the first year's service.

My varnish is made of enduring materials without adulteration and for that reason retains its gloss for many years—does not crack, flake or powder off, it is waterproof and never will scratch or white. The Wichita Hardware Co. know all about it—ask them. CHI-NAMEL. (Advt.)

**Murchison Recital Tuesday
Night Thoroughly Enjoyed**

An evening of unusual enjoyment was in store for those who gathered at the Wichita Theatre Tuesday evening for the recital of Ivan Murchison, tenor. Mr. Murchison was assisted by Mrs. Walter S. Robertson, soprano, Miss Margelle Hart as reader and Miss Ona Bell as accompanist. The theatre was crowded for the occasion and the large audience evinced thorough appreciation of the excellent program that was presented. The selections were varied, being of a nature suited to those taking part, and making up a most attractive program.

Mr. Murchison's voice is one of natural richness, cultivated by years of training to a quality such as Wichitans seldom have the opportunity to hear. He sang with much expression and displayed his dramatic as well as his vocal abilities. In the "Syllabie" from "Carmen", "The Koven" and "Just Awaiting For You" (Gould) he pleased his audience best, although every number on his program found hearty favor. It was in the "Misere", however, that the excellence of his voice was brought out to best advantage, and those who have heard that wonderful piece of music on the operatic stage will testify that it suffered not at all in its rendition by Mr. Murchison and Mrs. Robertson.

This was Mr. Murchison's first appearance before a Wichita Falls audience and he undoubtedly established himself with the music lovers of this city.

Mrs. Walter S. Robertson, besides her part in the "If Trovatore" selection, sang a selection from "Les Huguenots" (Meyerbeer) in a way that pleased her hearers mightily. This was her second appearance on the local concert stage. Miss Margelle Hart of Weatherford delighted the audience with several readings, which included character and dialect selections. These were presented in a talented way that captivated her hearers. Miss Ona Bell, as accompanist for the singers, filled that position with rare skill and finesse. The evening was one to be remembered pleasantly by all who attended.

It Only Takes From \$350 to \$750 To Own Your Own Home Under Our Building Proposition in Southland Addition

To the first two buyers in each block in Southland Addition, who pay for the lot in cash, the Southland Addition will lend the amount of money needed to build your home and you can pay back the loan in monthly installments.

This is an unusual proposition to home builders, and you will never get another chance like it after the required number of applications are filed. Every lot in Southland Addition on the market has sidewalks, sewerage, on or near high pressure water mains, car service, protective restrictions that will prevent abuses against adjoining property, and ideal location. Lots range in price from \$350 to \$750, 50x150 feet. Now is the time to get your choice of location.

WE WANT YOU TO KNOW.....

That our store is a drug store. We have been in the game a long time and have been schooled from youth to believe in the ethical pharmacy. We can never bring our ideas of what a drug store should be to the point that we are willing to make prescriptions and drugs a side line. The mission of the druggist is to use his knowledge and skill in aiding the physician in bringing your sick ones back to health. We have no dry goods, no specialties, no jewelry, no furniture, but we do pride ourselves in the fact that we have prescriptionists whose skill in compounding will help your physician in getting the result he is trying to produce. Send your prescriptions to the drug store.

"I Consider It The Best Diamond In The City For The Money

We sold a diamond one day this week for \$550 to a man who had looked at every stock in the city, and had even gone to Fort Worth and Dallas to see if he could not get a better deal. After he had purchased the stone he told us how he had looked around, and the prices that had been made, and wound up with this very significant remark: "I consider this the best diamond in the city for the money."

That is the way all our customers talk, and it means a whole lot. It means that our prices must be right and our goods are equal, if not better, than others can show. All we ask of any buyer is comparison. Come in and compare. A word to the wise is sufficient.

WHY WE WENT INTO THE COFFEE ROASTING BUSINESS.....

We have been playing the game for twenty-five years and always paid particular attention to coffee.

Always had a great deal of trouble in getting blends to suit us and for years before we commenced to roast bought our different coffees roasted separately and blended them ourselves and always enjoyed a splendid coffee business but coffees don't blend perfectly except in the roaster where the different flavors can combine harmoniously.

Years ago we bought a hand power roaster and experimented on a small scale but our business soon outgrew this and we had to go back to the Roaster.

In 1909 we built a small building at the rear of our store and rigged up

the hand roaster with a motor and commenced to roast our coffee but did not let the public know we were doing so as we wished an unbiased verdict. Inside of ninety days our business had quadrupled and became too big to handle with our little plant so we ordered our coffees roasted again and went East to purchase a plant large enough to handle our increasing business. We bought the very best and up-to-date machinery obtainable and came back unafraid to ADVERTISE THE FACT THAT WE ROAST OUR OWN COFFEES, and since that time our business has increased faster than we dreamed. So we know we are right.

If you are using our FRESH ROASTED COFFEES there's nothing to say. If not, would be pleased to show you the difference.

"I HAD NO IDEA IT WAS MY EYES"

How often we hear that remark. It is amazing to note the many cases of stomach trouble and nervousness than can be traced directly to defective vision. The majority of headaches, tired nerves and muscles are due to eyestrain. Glasses rightly prescribed and made, relieve you of little ills that annoy you daily. We have the experience and ability to determine, by careful examination, whether glasses will improve your general health. Can you afford not to investigate? No "Drops." We Know How.
