By Associated Press.
Mexico City, April 11.—The united

attack on Torreon, according to dis-
patches today. Dispatches say the
federals have succeeded in cutting
rail lines between Gomez Palacios
and Torreon.

REPORT OF A BATTLE HEARD AT JUAREZ.

By Associated Press.
Juarez, April 11.—Gen. Carranza,
his military staff, members of his
cabinet and a large number of clerks
started today for Chihuahua. A re-
port from Torreon said that three re-
giments under Generals Benavides,
Herrera and Coos had engaged
Gen. Velasco at Terrasas. There were
no details.

AMERICAN SOLDIERS CROSS RIO GRANDE; ARRESTED.

By Associated Press.
Eagle Pass, Texas, April 11.—Ar-
rested last night by Mexican fed-
erals in Piedras Negras, opposite Eagle
Pass, three soldiers of the United
States army, U. S. Army, were sur-
rendered this afternoon to American
officers upon demand of United States
Consul William P. Blocker of Piedras
Negras.

The three American soldiers who
entered the Mexican town in civilian
clothing were placed in the guard-
house here and will be court-mar-
shaled for alleged disobedience of orders.
All soldiers have been instructed, it
is said, to remain away from the
Mexican side of the Rio Grande.

Their release was effected after a
personal conference between Consul
Blocker and Federal General Jardo-
His formal request for the release
of the men was refused, at the per-
sonal conference. Consul Blocker de-
manded immediate release of the men,
who were later surrendered to the
American army officers.

ONLY VAGUE REPORTS FROM FRONT REACH JUAREZ.

By Associated Press.
Juarez, April 11.—General Carranza,
his staff and the personnel of the
executive offices, left Juarez to-
day for Chihuahua. Knowledge of the
situation east of Torreon remained
vague today. The federal evacuation
of San Pedro was confirmed and Gen.
Velasco was reported still at Torreon.

There were rumors of fighting but it
could not be learned whether the fed-
erals really were in that city in force
or merely occupied the town with a re-
guard left while the main body of
the troops which Velasco took to
Torreon made good their retreat to
Saltillo.

of Torreon, but does not indicate the
result.

SUFFRAGETTE THREW PAPER BALL AT MAGISTRATE

Five Policemen, However, Held Her Long Enough for Him to Go Through Formalities

By Associated Press.
London, April 11.—May Stewart,
the militant suffragette, who with a
colleague, tried to demolish a statue of
valuable porcelain in a museum April
9, created such a disturbance when
arrested today that the police mag-
istrate was compelled to adjourn her
trial for some time. She shouted, "I
have not come here to listen to you
today." She threw a ball of paper at
the magistrate. A few hours after
her first appearance she reentered
the prisoner's enclosure with two po-
licemen holding her arms. Several
other policemen were held in reserve
in the court. She created another
uproarious scene, but the magistrate
was able to take the necessary formal-
ities and then committed her
to the workhouse.

VARIED WEATHER FOR DIFFERENT SECTIONS

By Associated Press.
Washington, April 11.—A rainy
Easter morning for North and South
Atlantic coasts and many Gulf states,
but bright skies for the rest of the
country was the final judgment to-
night of weather bureau forecasters
on the vexing problem common to
all the land. Low pressure continues
in the northeast, but the southwestern
storm area had shifted into Eastern
Texas.

FOUR GUNMEN'S LAST HOPE IS BLASTED

JUSTICE GOFF DENIES NEW TRIAL TO MEN CONDEMNED TO DIE TOMORROW

GLYNN WILL NOT INTERFERE

New Witnesses Fail to Convince Judge that Justice Miscarried in Con- viction of the Four

By Associated Press.
New York, April 11.—The last hope
of the four gunmen condemned to die
Monday for the murder of Herman
Rosenthal, the gambler, seemingly
was blasted tonight when Supreme
Court Justice Goff, to whom a final
appeal for a new trial had been made,
declined to reopen their case.

At a prolonged hearing today, Jus-
tice, who was the presiding judge at
the gun men's trial, listened to the
testimony of new witnesses produced
at the last moment by the men's
counsel. Late in the afternoon, after
District Attorney Whitman had given
his opportunity to offset the new-
ly discovered evidence with testi-
mony of witnesses of his own. Jus-
tice Goff took the case under advisement, announcing that he would ren-
der a decision tonight. For more than
four hours the justice toiled over the
records of the day's proceedings. Then
shortly before ten o'clock he appear-
ed, and briefly and quietly announced
to the waiting crowd of newspaper-
men that he had denied the appeal
for a new trial. He stated that his
opinion would be given out as soon
as copies of it could be prepared.

Governor Forecasts Attitude

Earlier in the day the governor had
forecast his attitude by saying he
believed the case should rest entirely
in the hands of the court. The gov-
ernor displayed the keenest interest
in the hearing today. He kept in
touch with the different steps through
local and New York sources, digesting
eagerly every new phase of the testi-
mony, as was presented. Asked if
he would have anything to say about
the decision when the full text was
received, the governor said he prob-
ably would not. This was taken to
indicate that the last hope for the
gunmen had passed and they must
die Monday.

ELECTRICIAN PREPARES CHAIR OF DEATH IN PRISON

By Associated Press.
Ossining, N. Y., April 11.—While fu-
tile effort were being made in New
York City today to prevent the execu-
tion early next Monday of the four
gunmen convicted of the murder of
Herman Rosenthal, Electrician Davis
who directs the mechanical phase of
electrocutions arrived here to prepare
for the task before him.

A dramatic event marked his ar-
rival. Just as Jacob Rosenberg, father
of Lefty Louis, one of the quar-
termen in the prison, was about
clutching a petition from Rabbi Gold-
stein asking for the postponement of
the execution until next Thursday,
met Mr. Davis. When told who the
man was the gunman's father mut-
tered under his breath and rushed into
the prison. Mr. Rosenberg saw his
son for a few minutes. Later he was
told that his petition would be use-
less until it should be presented to Supt.
of State Prisons Riley, who had just left
for Albany.

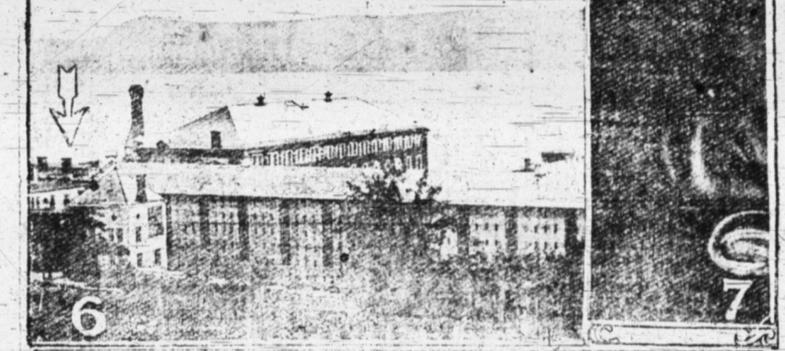

The arrival of Davis seemingly put
the seal of finality on the fate of the
four men. The rumor that Supt.
Riley had in his hand a full confes-
sion from "Dago Frank" Crocif with
whom he had a long conversation be-
fore leaving the prison was disposed
of tonight by a clear statement from
Father Caslin, prison chaplain, who
explained that "Dago Frank" in whom
Supt. Riley had taken special inter-
est in his visit to the prison, had dic-
tated three pages of comment on his
own case, as distinct from the others.
While the exact text of the statement
is not known, it is understood it is
not a confession.

The other gunmen reiterated today
their persistent declaration that "Dago
Frank" was not present at the time of
the murder. The prisoners were
kept in ignorance of the progress of
the hearing before Justice Goff and got
what comfort they could from this
last hope, but the belief in an eleven-
hour deliverance today collapsed. The
gunmen are sure they are going to
die, it is said.

PROHIBITION STEERING COMMITTEE IN SESSION

By Associated Press.
Dallas, Texas, April 11.—The pro-
hibition steering committee of twenty-
five met here today. Cullen Thomas
of Dallas was chosen chairman and
Charles B. Collins of Lufkin secre-
tary. The entire morning session was
consumed in discussing campaign mat-
ters said to be of minor importance.
Mr. Thomas declined to discuss the
matters talked of at the morning ses-
sion, saying there was nothing to
report. He said none of the candi-
dates for congressman at large
or controller were discussed and de-
clined to say whether the committee
would eliminate candidates for these
positions. It was not learned how the
committee stood concerning the claims
of the various candidates whose names
are to be acted upon by the commit-
tee.

Four Gun Men Who Die April 13. Judge Who Sentenced Them And District Attorney Who Avenged The Murder Of His Witness

1. WHITEY LEWIS 2. DAGO FRANK 3. LEFTY LOUIS 4. GIP THE BLOOD
5. Judge Goff 6. District Attorney Whitman

By Associated Press.
Ossining, N. Y., April 11.—Warden
Cecily of Sing Sing prison today re-
ceived a telephone message from
Rabbi Goldstein, Jewish chaplain of
the New York Tombs, asking him to
postpone the execution of the four
gunmen until Thursday, but not later
as Friday and Saturday were the most
holy days in the Passover. Upon the
rabbi's refusal, he asked that the
request be made of Superintendent of
Prisons Riley. "The latter declined to
honor the rabbi's request. The gun-
men today exhibited little trace of the
high spirits which they last night
showed.

Albany, N. Y., April 11.—Governor
Glynn has denied the application of
the four gunmen in the Becker case
for a commutation of sentence or
death or for a reprieve. The men—
Francis Crocif (Dago Frank), Louis
Rosenberg (Lefty Louis), Harry Hor-
witz (Gip the Blood) and Jacob
Seldensimer (Whitey Lewis)—will go
to the electric chair at Sing Sing
prison at sunrise on Monday, April
13.

KANSAS COURT UPHOLDS THE WEBB KENYON LAW

As Result of Decision State Author- ities Will Take Charge of an Liquor Shipped

By Associated Press.
Topeka, Kan., April 11.—The Webb-
Kenyon law which gives the state
control over liquor shipments was up-
held by the Kansas supreme court
today. As a result of the decision,
Kansas will take charge of all liquor
shipped into the state. The case was
that of a St. Louis brewery company
appealing from a decision of a dis-
trict court. The company sent a
load of beer to Corona, Kan. State
officials confiscated it under the Webb
law and the company sought reim-
bursement.

"Without this law, no state has any
more control over liquor than it has
over the shipments of wheat and
corn," said Justice R. A. Birch, who
wrote today's opinion. "We believe
that the liquor traffic can be made
subject to the same regulations as
absentee literature and white slavery
and that Congress has sufficient pow-
er to regulate the shipments of liquor
as it has to prohibit transportation of
white slaves."

When the court of appeals pass-
ed upon the judgment of the court
imposing the sentence the date orig-
inally fixed for their execution had
passed. Therefore it became neces-
sary upon the court of appeals to set
a new date for execution and it nam-
ed the week beginning April 13. The
only avenue of hope then left open
to the four condemned men was ex-
ecutive clemency and the governor
was appealed to. At first he was in-
clined to grant a reprieve, but after
asking for advice from prominent
criminal lawyers he took up the read-
ing of the testimony given at their
trial and from that time a decided
change was noticed in his attitude.
Frank is twenty-eight. Gip twenty-
five. Louis is twenty-six. The
crime for which they are to be pun-
ished was the shooting of Herman
Rosenthal at 2 o'clock in the morning
of July 16, 1912 at the front door of
the Hotel Metropole, on Forty-third
street, a seat hundred feet off bril-
liantly lighted Broadway. District

Attorney Charles S. Whitman proved
that the four had been enticed by
Jack Rose, Bridgie Weber and Harry
Valton to kill Rosenthal, before he
could get to the district attorney that
morning and "speed" on Lieutenant
Becker, who was accused of grafting
and extortion. The three turned
up evidence which was on their
testimony that the four were convict-
ed and that Becker was found guilty
of having instigated the crime. Dis-
trict Attorney Whitman's quick ac-
tion in the case is believed to have
been responsible for the conviction of
the four gunmen and Lieutenant
Becker. He took personal charge of
the case before sunrise a few min-
utes after the murder occurred and
in spite of the opposition and poor
memories of various members of the
metropolitan police he carried the
case through to a successful conclu-
sion. The men were tried before and
sentenced by Judge Goff. The arrow
in the accompanying prison picture

Sing.

WILSON'S VIEWS IN 1879 ARE QUOTED IN HOUSE

By Associated Press.
Washington, April 11.—The views
of Thomas Woodrow Wilson on the
structure of the American govern-
ment were expressed in a magazine
article published in 1879 and present-
ed to the House today by Represen-
tative Johnson of Washington, who
explained that the writer was the
present president of the United
States.

Thomas W. Wilson said the
senator, referring to the article,
"says that Congress is a body in
which there is little deliberation and
a legislative body in which there is
little discussion. He says that under
the cabinet form of government, that
broken promises will end in broken
power."

"Who is this Thomas W. Wilson?"
Progressive Leader Murdock asked.

"He is Woodrow Wilson, the pres-
ent president, who is leading on this
gradual overthrow of representative
government," Johnson replied.

When the court of appeals pass-
ed upon the judgment of the court
imposing the sentence the date orig-
inally fixed for their execution had

ARE REUFF IS ELIGIBLE TO IMMEDIATE PAROLE

By Associated Press.
San Francisco, April 11.—By a de-
cision today of the state supreme
court, Abraham Reuff, former political
boss of San Francisco, who is serv-
ing fourteen years at Barbary, becomes
eligible for immediate parole. The de-
cision, however, although making it
mandatory that his application be
considered by the board of prison di-
rectors, in no way directs them to
grant it. Since the law establishing
paroles went into effect the board of
directors has ruled that no applica-
tion would be considered by it until
the applicant had served at least one
half of his term. The court held
today that this regulation is in viola-
tion of the statute and that any pris-
oner becomes eligible to apply for
parole who has served one year. Reuff
already has served a little more than
three years.

The construction of the statute also
makes eligible John J. McNamara, for-
mer secretary of the International
Brotherhood of Bridge and Structural
Iron Workers, convicted in Los An-
geles for attempting to dynamite the
plant of the Liberty Iron Works.
His brother, James J. McNamara, who
wrecked the Los Angeles Times build-
ing, with a loss of twenty-one lives,
was sent to San Quentin for life and
is not eligible for parole.

When the court of appeals pass-
ed upon the judgment of the court

DAYLIGHT HOLDUP PASSENGER TRAIN

ONE NEGRO PASSENGER DEAD, ANOTHER SERIOUSLY HURT IN ATTEMPTED HOLDUP

ROBBERS AFTER A PAY ROLL

Negro Jumps Through Window and Is Ground To Death—Grappled —Robber and Was Shot

By Associated Press.
Anita, Ia., April 11.—An attempted
daylight holdup of passengers in a
negro coach on the Illinois Central
near here resulted in the death of
one negro and the serious injury of
another. When Lede Anderson saw
two masked men enter the car and
demand hands up, he went through a
window of the car and was ground
to death by the rapidly moving train.
Allen was shot in the stomach by
one of the robbers who then jumped
from the train before they had reaped
any benefit from the holdup. The
two men who wore handkerchiefs over
their faces appeared at the negro
coach door and ordered all hands up.
As the command was given Allen
grappled with one robber, who fired
point blank at him. When Allen fell,
a robber pulled the bell cord and
as the train slowed down both jumped
several passengers opened fire on
the robbers as they fled but it is
not believed any of the bullets took
effect.

Presses tonight surrounded Davy
Swamp near here where the two
white men who today attempted the
holdup the negro believed to be
convicted. It was expected that the
men would be captured before morn-
ing, as one of them was said to be
limping from a wound received when
passengers fired on the bandits as
they left the train. The holdup was
followed by a robbery of the train
but were baffled by a sudden down-
pour of rain.

It is believed that the robbers ex-
pected to secure large sums from
paymasters of lumber companies in
this section, who are usually mes-
sengers on this train on Saturday,
the weekly pay day.

By Associated Press.
Austin, Texas, April 11.—Gov. Col-
quhoun disapproves of the plan of the
constructive Democrats to go ahead
with the elimination conference at
Fort Worth next Tuesday when it is
proposed to nominate a candidate for
governor. This attitude of the gov-
ernor was contained in a letter ad-
dressed to Col. J. Sheb Williams of
Paris, made public today and is in
reply to a letter to the governor on
the political situation from Col. Wil-
liams.

The governor declares he regrets
he cannot follow Col. Williams in
this sort of a movement. He says
"You know from conversations with
me, that I have never approved of the
methods and plan adopted by the pro-
gressive prohibitionists. I have never
endorsed the constructive Demo-
crats to follow the example of the
progressive prohibitionists. Continu-
ing the governor writes.

"As you know, I was ready to do
all in my power to nominate Judge
Nelson Phillips (George Ouster), for
governor. Nelson, should either of the
gentlemen be aspirants for the nomi-
nation and if they were not candi-
dates I was ready to put my shoulder
to the wheel and help nominate either
Sam Sparks, or Ferguson in the
primary to be held under the primary
election law in July.

"Now that there are none of these
gentlemen aspiring or asking for the
nomination, it seems to me the height
of political folly for a section or
friends to get together in conference
and nominate another man at this
time to further confuse the situa-
tion."

The governor also pointed out that
it is understood Mr. Ferguson is not
a Bailey man and that a Bailey anti-
prohibitionist should be nominated
next Tuesday, the Bailey issue will
be sharply drawn into the campaign.
As to Ferguson's candidacy the gov-
ernor says
"I am not committed to Mr. Ferguson
in point of ability, is the equal of
Mr. Ball and his views on many ques-
tions are certainly preferable. To
put out another man at this late date
for the purpose of defeating Fergu-
son and electing Ball in my opinion
would be inexcusable and suicidal."

ANOTHER CRISIS HAS PASSED OVER

AMERICAN GOVT. APPARENTLY SATISFIED WITH HUERTA'S APOLOGY

INVESTIGATION IS AWAITED

Authorities Accept Huerta's Apology For Arrest of American Marines at Tampico

By Associated Press.
Washington, April 11.—Another
threatened crisis in the Mexican
situation this time over the arrest of
American marines at Tampico appar-
ently has passed over with the ap-
ology of the man and an apology
from Huerta who promised punishment for
any federal officer found guilty of
offense. The state department today
said that Charles D. Hughes had
expressed to the Mexican foreign
office the seriousness of the situa-
tion growing out of the detention of
United States marines by Mexican
troops at Tampico.

Personal explanation of the severity
of the situation was made by Mr.
O'Shaughnessy to President Huerta,
who said that an investigation would
be made to establish the responsi-
bility of Col. Hinojosa and that if
the investigation should develop a
greater responsibility on the part of
this colonel, the president wishes
to the case will be imposed on him.

Officials at the state and navy de-
partments considered Huerta's state-
ment full and frank General Huerta's
good faith was accepted apparently
without reservation and it was con-
sidered that it was fair to await
the result of the promised investiga-
tion and discipline of the Mexican
officer responsible for the humiliation
of the American navy. The navy de-
partment, it was said, has issued no
instructions to Rear Admiral Mayo,
directing either the withdrawal or en-
forcement of his demand for a salute.
Officials here are disposed to rely on
the official discretion and are cer-
tainly he has been informed of the un-
qualified terms of Gen. Huerta's ex-
planation.

Some doubt was expressed as to
whether the salute could be demand-
ed for what was termed an "insuper-
able act" by a subordinate officer,
especially in view of the prompt
apology from Huerta. One official,
an authority on naval precedents,
said he knew of no instance in which
a salute had been given in the Ameri-
can colors in like circumstances.

This office, delving into archives
for a precedent, found nothing more
closely resembling the Tampico case
than a Civil War incident in which
a British man-of-war enforced a
salute from a Confederate shore bat-
tery and then declined to return the
courtesy for fear such action should
be construed as recognition of the
Confederacy.

Constitutionalist headquarters in a
statement here tonight defended the
expulsion of certain Spanish residents
as an act in accordance with the
Mexican situation and supported by
international law. The statement in-
cludes, however, that not all Spanish
residents of the district involved are
expelled, the order applying only to
those whom constitutionalist authori-
ties had reason to believe were in
league with the fedrals. The state-
ment reproduces reports from Mexi-
can federal sources that Villa and
his men are bottled up in Torreon, it
declares that "Federal soldiers
deserted the constitutionalist army in
the San Pedro battle which ended
Thursday with a complete victory
for Villa's troops."

CHILDLESS WOMEN SUFFER FROM BREAST DISEASES

By Associated Press.
New York, April 11.—Childless wo-
men suffer more from diseases of the
breast which may lead to cancer than
do women who have borne children.
This statement was made by J. M. P.
Finley of Baltimore, before the Ameri-
can Surgical Association today.

"The disease is a protest against
modern civilization," said Dr. Finley.
It is most prevalent among childless
women and again, among women who
have had one or two children but
did not nurse them. Mothers who
have reared four or five children and
have nursed them all rarely have it.

The Times in receipt of copies of Honolulu papers telling of the stay of the North Texas oil men at that port. One of the papers contains a photograph of the men together with that of O. D. Pickle, a former Wichitan now manager for the Federal Wireless Company at Honolulu. From all accounts the oil men were well entertained and were as sorry to leave Honolulu as Mr. Pickle was to see them go. The paper containing the photograph had the following to say:

"Twenty of the picked experts of the Standard Oil Company are on their way through Honolulu on the steamer Shinyo Maru yesterday, en route to the Orient to begin the active development of China's supposed oil. The second part of a number which is a second diary of a number which are to be sent by the great oil company to the Far East in the work of developing a concession that bids fair to become one of the great industries of that long dormant country. They come from the oil fields of Texas and California, brown and tanned with a world of experience and much knowledge of the places and the manner in which an oil well should be drilled. They are to the oil industry and the Standard Oil Co. what the hardy prospectors of a decade or so ago were to the mining industry of Colorado, Idaho, Montana and Nevada and what the pioneers of Alaska were to the opening up of the mining resources of the Far North. Only one of the twenty men, all of them comparatively young, is accompanied by his wife.

"We are going in to pioneer the mine, and incidentally teach the Chinese and others of the Far East how to use an oil lamp," said E. W. Morgan, leader of the party, yesterday arriving at Yokohama. The party will be divided. Some will go to Hongkong, others to Shanghai and still others to Batavia, Java. Well drilling machinery and all other equipment necessary to carrying on the work, the party will undertake is aboard the Shinyo Maru, and no time will be lost in beginning operations. It is understood that the plan of the Standard Oil Company is not only to employ Americans in developing the Chinese oil fields, but to use Americans in all other branches of the work possible. Chinese will be employed where skill and experience are not required and as fast as Chinese can be educated into the workings of the oil business they will be given a chance.

"Mr. Morgan, head of the party, places no credence in the report that the younger Chinese of China oppose the granting of the oil concession to the Standard Oil Company, for it was mainly through the younger Chinese or supporters of the new Republic that the Standard Oil Company received encouragement to go into the oil fields of the long dormant country.

During their brief stay in Honolulu the members of the party were the guests of O. J. Pickle, manager of the Federal Wireless Telegraph Company. One division of the party is from Wichita Falls, Texas. The vision consists of Mr. Pickle, this division consists of Mr. Morgan, C. W. W. Dancy, Fred Kiskaddon, Steve Cowbig, V. L. Conaghan, Lester Holman, Joseph Quinn, and Harry Shinholt and wife. They will make their headquarters at Shanghai.

EASTER

April 12, 1914

Behold 'tis morn—the night has gone,
And angels hail the risen Son
The stone has rolled away;
Behold 'tis morn—the night has gone,
And angels hail the risen Son
As on that Easter day,
When first the world in rapture stood
Baptized in truth and love;
When first it knew that God was good,
And that He reigned above.

Since then the centuries have passed,
The weeks, the months, the years,
No day so fair, or sad, may last,
No joy no bitter tears,
When each sweet spring its wonders brings,
We watch for Easter day,
For then it is that nature sings
Of joy and life alway.

And as we bow before high heaven
With hope and faith and prayer,
We know the watch to us is given
For loved ones "Over there."
We know our lily buds of pearl,
Beyond the closed tomb,
Are still our own wee boy and girl,
And in God's garden bloom.

We know the tired hands and feet
Of those grown old below,
Are rested now and roam the street
Where'er nought save flowers grow;
Where life's clear waters meet the sands
Of gold upon the shore;
Where the redeemed from all lands
Shout praises evermore.

So lift your heads—no longer mourn,
The very Easter air
Is fraught with message gently borne
By bloom and song and prayer.
Oh bring unto the Lord your grief,
Then turn and leave it there,
'Twill die to live again in leaf,
In flower and fruitage fair.

—Alice Brown.

City Divided Into Districts

For Clean Up April 28-29

The Civic League is progressing nicely with its plans for the clean-up April 28th and 29th. The boys and girls are taking great interest in the prizes offered for the biggest cities of cans and from present indications there will be no dearth of contestants. Members of the League are receiving inquiries daily about the conditions of the contest and on back lots have been already growing, promising to reach wammoth proportions by the time for the awarding of the prizes on April 30.

The grown-ups, too, have evinced an interest in the clean-up that grows with every day. Many of them, on their own initiative, have already begun work.

The Civic League is perfecting its organization for the clean-up. Saturday the city was divided into districts for the work and a special committee has been appointed to look after the work in each alley. It must be known that the alleys are to be the points of attack in the clean-up movement. Districts and committees were announced as follows:

Alley between Lamar and Ohio avenues—Mesdames W. W. Robertson and Frank Kell.

Alley between Ohio and Indiana—Mesdames Richott, Zundelovitz and Langford.

Alley between Indiana and Scott—Mesdames Pond, Scheerer and Nolen.

Alley between Scott and Lamar—Mesdames Snider, Stone and Gardner.

Alley between Lamar and Travis—Mesdames Fleming, Mathis and T. J. Taylor.

Alley between Travis and Austin—Mesdames Adickes, Ferguson and Fauntleroy.

Alley between Austin and Burnett—Mesdames Heavers and Howard.

Alley between Burnett and Huff—Mesdames Craven and Cullinan.

Alley between Huff and Broad—Mesdames Perham and Shaw.

Alley between Broad and Holliday—Mesdames Bell and Coleman.

Alley between Holliday and Grace—Mesdames Boger and Huff.

Alley between Brook and Harrison—Mesdames Baker and Brown.

From the railroad tracks to the outskirts of the city between the river on the north and Tenth street on the south—Mesdames Gaffney, Anderson and Brooks.

Floral Heights west of Harrison—Mesdames Kemp, Fisher and Brown.

AMERICAN PEOPLE WILL

FIND CUPBOARD BARE

Congressman Summers Says Government Must Create Sales Dept. or Marketing Bureau

Washington, April 11.—"One of these days the American people are going to be disappointed to find that there is nothing for breakfast." That is the prediction, supported by a mass meeting of government statisticians, made by Representative H. W. Summers, congressman at large from Texas.

"The present increase of prices does not indicate improved economic conditions surrounding agriculture," he said. "It is instead the herald of coming hunger widespread."

Toward Low Level.

"We are working toward a lower food supply level because a small crop brings more money to the farmer than a big one, and just a little surplus knocks the bottom out of prices. Take the 1910 cotton crop situation. That year southern farmers produced 12,000,000 bales of cotton. The world sold it was not enough. Next year they produced 16,000,000 bales. The world showed its appreciation by penalizing the farmers \$125,000,000. Is it any wonder that the country boy quits in disgust when a 16,000,000 bale crop brings \$125,000,000 less than a 12,000,000 bale crop? The corn crop of 1912 was considerably larger than 1911 crop, yet it brought \$50,000,000 less money.

"We must ourselves pay more for what we consume or we must help

our farmers to get a larger part of what we pay.

Need Sales Dept.
The government must create a sales department, or marketing bureau, perhaps a part of the agricultural department, but having close working relations with the department of commerce, the consular service and the treasury department.

"It should be a clearing house of information available to the seller and to the buyer. It should afford a facility in making sales similar to that which a real produce exchange could afford. Through its agency these products could be standardized. Sales could then be effected at the point of origin and the congestion of some markets, while others are unsupplied, could be avoided."

Demonstration Monday.

Mrs. E. B. Teeple who has been demonstrating Mexican dishes at Sherrod & Company's the past week, has been requested to remain over after Easter to show the goods to those who did not wish to partake of them during Lent, and on Monday she will again show the ladies of Wichita Falls the very many delicacies that the company is offering made after the style of the Mexican dishes. Mrs. Teeple has shown to many ladies that these dishes can be made by an American much better than the Mexicans can make them. Monday will be the last day she will be here and those who have not already sampled these lines should do so by all means on that day.

WILL MEET AGAIN IN WICHITA FALLS

NORTHWEST TEXAS TEACHERS
AGAIN SELECT WICHITA FOR
PLACE OF MEETING

WEISNER MADE PRESIDENT

Teachers Declare For Election of
County Superintendents By
Resolutions

After electing officers and again selecting Wichita Falls as their meeting place, the Northwest Texas Teachers' Association ended its session here Saturday and adjourned. This city was chosen for the 1915 meeting without opposition, the visitors feeling that Wichita Falls was the logical place for the convention. The officers elected are:

A. R. Weisner of Bowie, president; C. F. Walker, Vernon, first vice president; W. C. Roddy, Vernon, second vice president; A. B. Corder, Electra, third vice president; Miss Vera Rutherford, Bowie, secretary; W. K. Niles, Wichita Falls, transportation secretary; Ross Campbell, Nocona, treasurer.

The final program was carried out yesterday morning, the feature being an address by Dr. W. H. Bruce of the Denton Normal on "The Danger of Mechanics." On Friday evening there was a pleasing lecture by Dr. H. A. Boaz, president of Polytechnic College of Fort Worth on "Fools."

Favor Compulsory Education

Before adjournment yesterday the teachers adopted resolutions declaring for a law for the election of county superintendents by county boards of education, and for a compulsory education law. Other resolutions were adopted—thanking Prof. Carpenter for his services as president, thanking the Chamber of Commerce for its entertainment and thanking the special speakers at the meeting, who included Dr. J. B. Vance and Dr. W. H. Bruce of Denton, Prof. Musselman of Dallas, Dr. Boaz of Fort Worth.

Saturday morning's program included a talk by Prof. J. B. Jones of Wichita Falls on "Retardation, and Its Causes," a paper by Prof. E. L. Vance on the work of the debating and declamation league and one by Mrs. Grace Ballack of Petrolia on "Proper Reading for Children." A. B. Corder of Electra, discussed "Aids to Teaching History."

The address of Dr. Bruce of Denton dealt with the dangers attending mechanics in one's work and it was considered one of the most timely and interesting addresses of the meeting. At the opening of the session the invocation was delivered by Dr. J. L. McKee; music by the pupils of the third grade of the Austin school followed.

Friday Night's Session

A very interesting session was held Friday night, at which Dr. H. A. Boaz of Fort Worth spoke on "Fools." His talk was preceded by several musical features, there being choral members of the pupils of the first grade of the Alamo school, the fifth grade of the Alamo and the sixth grade of the San Jacinto school. Two vocal selections by Mrs. G. Fred Thompson, with Mrs. A. Huff as accompanist, were a pleasing feature. Dr. Boaz in his lecture enumerated several kinds of fools and made a very humorous talk on them. He said Adam and Eve were the first fools and mentioned among other varieties, the city boy in the country, the pessimist and the man who goes through life without every seeing anything. He closed with a reminder to the teachers of the importance of

Easter Bonnet

The new Easter hat is a dream, but wear an umbrella over it; the new Easter dress is a scream, but keep a raincoat handy and carry your fur. As a fitting climax to a week that has seen the mercury range all the way from freezing to eighty in the shade, with rain, norther and dust storms on the side a norther sprang up yesterday, as per government forecast and made things look bad for the Easter vanities.

The cold weather the past week has broken all records for April low temperatures, so far as available records show. There have been two northers and some other weather besides. Friday was clear and fairly warm and yesterday opened with promise of behaving itself, but dinner time found quite a disagreement between January and April as to which was running this outfit; at last accounts January had April backed into a corner and hollering for assistance.

Saturday afternoon Texline reported a temperature of 32 degrees. At Amarillo the mercury loitered around 24 and at Childress was down around the same mark.

their work and the opportunity they had of shaming the lives with which they had to deal. The meeting was followed by the reception of the Mothers' Clubs.

Music By Pupils

The music by the pupils proved a very enjoyable feature of the convention; they seemed to be well trained and their selections always won hearty favor. Those who participated in the program on Friday night included:

First grade—Zelita Whitaker, Evelyn Hawthorne, Faye Fisher, Margaret Kennedy, Helen Grisham, Elizabeth Greenwood, Marion Newton, Nimon Yeager, Marie Soule, Eddie Ulrich, Ben Friend, Clifford Farmer, Richard Coleman, Fremont Spalding, Frank Curtis, Don Wiley, Wright Cox.

None of the Youngsters Need Hang Around Waiting For Our New Fire Marshal's Job

Philosophers tell us that Youth must be served. But I want to emphatically state, If Youth sits down to wait for Chief Joe.

She's in for a blank of a wait. The face shown on this page, inspiration for this rhyme, is that of Joseph L. McClure, Irishman, fire chief, fire marshal and good Indian. He has been chief only a few days, being elected at the meeting of the local department earlier in the month, but chief's cap shown in the picture fits just like he had worn it always. And that may be explained by the fact that Joe has been fighting fires in Wichita Falls for over seven years. When he began it, there was only a overgrown village to protect, today he is in charge of the fire-fighting forces of a budding city. When he first joined the department seven years ago, there was 800 feet of hose, two reels and no horses at all. About a year later the city moved into its new city hall, a horse drawn cart was installed and McClure was appointed driver. Ever since then he has been actively connected with the department.

In those days none of the firemen slept at the city hall and when there was a night alarm, Joe was the department all by his lonesome self. On more than one occasion he jumped out of bed into his boots, hitched his team, drove to the fire, laid the line of hose by himself and fought the fire single-handed. It wasn't any joke, being a fireman in those primitive days, for all they were only five or six years ago. The same team of horses that Joe first broke into service is still on the job. Tom and George; they are soon to be supplanted, however, by a pair of youngsters. But no one need to hang around waiting for Joe's job. Joe's method of breaking Tom and George to leave their stalls and run

under the hanging collars was a novel one. He rigged up a sort of windlass that was attached to whips in the stalls. When he pulled a rope this windlass brought the whips down on the horses' backs and they went out the stall doors, whence ropes guided them to their places under the harness.

About four years ago when the city bought the "bubble" the present chief was appointed as its chauffeur, serving for several years. Until he was appointed fire marshal. Lately he has been driving the team again when occasion requires, Joe Habern being chauffeur of the machine. He has seen seven years of hard, varied service in the local department and is still very much on the job, for all that he is two times a grandpa.

"Go forth ye radiant things of scent and bloom Who know not toil or spinning—Brighten with life My risen Son's Clef of Tomb The Easter Triumph Winning"

Lester B. Colby, staff correspondent of the Houston Chronicle, persists in saying that if Gov. Colquitt becomes convinced that he can't be elected to the Senate he will try for a third term as governor.

A few days ago there was a bank failure at Amarillo. It was a State guarantee bank, however, and the depositors will not lose one cent.

There is this much in favor of Candidate James E. Ferguson, who is seeking to be the governor of Texas. He sees the evil of depopulating the country in order to seek a place where the children of farmers can secure a common education, and offers as a remedy the establishing of graded schools in country districts.

Congressman John H. Stephens, it appears is not thoroughly in accord with the views of President Wilson on the Panama Canal toll matter.

The treaty of February 22, 1902, known as the Hay-Pauncefote treaty, says that: "The canal shall be free and open to the vessels of commerce and war of all nations observing these rules on terms of entire equality."

Mr. Speaker, the term "all nations" as here used does not in my judgment, include the United States, but does include all other nations except the United States.

to prevent its control by any foreign power? Did we perform this, the greatest of all human undertakings, for the benefit of all other countries or for our own? This question answers itself. England, and, unfortunately, our President, seems to think that we built it for all other countries and not for ourselves.

A SUGGESTION FOR FERGUSON. G. F. Tindall of Sarita, Wilacy County, is the author of a rather nipping letter on the subject of land rents and Ferguson. After calling attention to the fact that Mr. Ferguson would regulate share rentals to one-fourth of the cotton crop and one-third of the grain crop and making any excess of this proportion usury, he asks: "Will he also pass a bill making all land of the same fertility, so that the renter can make a bale of cotton to the acre with the same amount of labor performed?"

CLARK AND UNDERWOOD Wilson and Bryan make a great team—when they pull together. At Baltimore they measured political strength with the Clark-Underwood and Harmon forces and defeated them.

JACKSBORO BOY WINS DECLAMATION PRIZE

LEONARD GASKIN RECEIVES 1ST PRIZE OF \$60 AND CHAS. BUTTS SECOND OF \$40

LOCAL DEBATERS WINNERS

Clay and Montague County Representatives Win in Junior District Declamation Contest

In the district interscholastic debating and declamation contest at the High School auditorium Saturday night the Wichita Falls team was winner of the first place in the debating contest and the Wichita Falls representative won second place in the declamation contest. Leonard Gaskin of Jacksboro won first place in the senior declamation contest.

The Clay and Montague county representatives were winners respectively of first and second places in the junior declamation contest.

Saturday morning an elimination of the debaters and declaimers took place and the two best were selected to compete at the evening session. Those taking part in the morning's contest were, in the Junior declamation contest, Ross Bassinger of Wichita county; Lester Hickman, Knox county; Carl Slagg, Montague county; Hubert Skiles, Archer county; and Crispier Gown, Clay county. In the Senior contest the contestants were: Chas. Butts, Wichita Falls, Vincent Stine, Clay; Jack Younger, Montague; Ralph Crowell, Archer; Joe Dunagin, Young; Leonard Gaskin, Jack, and Tommy Glover, Knox.

In the debating contest Jacksboro was represented by Peyton Jones and Howard Timberlake; Nocona by Robert Crain and Lon Roberson; Archer by Paul Conner and Sprull Cook; Wichita, by Otis Nelson and Brennan Gillespie; Clay county was also represented.

The winners in the Junior contest were Carl Slagg of Montague, first place, and Lester Hickman of Knox second place.

The senior contest was rendered more interesting by the fact that \$100 was offered in prizes, \$60 to go to the winner of first place and \$40 to the winner of the second place. The declamations in this division of the contest were to be on some phase of the International Peace question and prizes were offered by the Chamber of Commerce. Leonard Gaskin of Jacksboro, was winner of first place and Chas. Butts of this city, winner of second place. Both of the contestants in this division were especially good in point of delivery and but a margin point of difference, if any, could be observed.

As a result of the morning's elimination the team representing Wichita county, Otis Nelson and Brennan Gillespie, and the Jacksboro team, composed of Peyton Jones and Howard Timberlake, were chosen to debate at night. In the evening's contest the Wichita team was successful. The subject for the debate was "Resolved: that the Texas legislature at their next regular session should adopt a law compelling every child in the state between the ages of 6 and 14 to attend some school for at least six months of the scholastic year." The winning side took the negative of the question. The argument on both sides was good but the Wichita boys had the others bested in both argument and point of delivery. The decision of the judges being unanimous for the negative. The winners in these contests will represent this district at the State Meet to be held soon at Austin.

BANDEAU HATS ARE QUITE THE THING

SIDE TILT GENERAL FAVORITE WITH THIS MODEL—FLAT TOPS A FLOWER GARDEN

BEAUTY SPOT, SICHLE LOCK

With These Adornments You Can't Possibly Fail to Look Piquant—You Simply Can't

To be on the right side of Polly

Means left when we go out to walk. For when I see one eye, an eyebrow, An ear and some face when we talk, But when I'm in bud I am exiled To right 'tis a sad plight at that For there's nothing left there of Polly She's wearing a new bandeau hat. New York, April 19.—It's quite appropriate that a moonfaced lady should effect a bandeau hat for certainly causes a total eclipse of the right hand side of her countenance. These things of coral, pearl and crystal are set at a jaunty angle on a deep ribbon trimmed bandeau which sets on the left side of the head. Their

flat tops are almost universally a garden of exquisite blossoms, but one fascinating model glimpsed at the daisies was of black hemp and unadorned save for the half of a tiny gold straw shop her dress basket filled with wee pink rose buds, forget-me-nots and violets set low on the face revealing right edge. The bandeau disclosed a huge flat bow of black moire.

The side tilt is a general favorite of the bandeau hat but the Niblets launched last season is still popular with their slant straight up from the back.

The tendency to turn up on the side is not confined to the head by any means this season. A novelty dancing frock of taffeta flounces on a chiffon foundation has a hoop on the right side only. This gives a bias effect which seems to prove the wearer not quite on the level.

Skirting the question of hoops and backing away from bustles, for they are now an old story, it cannot escape comment, however, that a resurround of present day fashions is like turning the time stained pages of a Godey Lady's Book.

MOTHERS CONFERENCE HERE ON MAY 24TH

Annual Meeting of First District of Mothers and Parent Teachers' Association

The first district of the Texas Congress of Mothers and Parent Teachers' Associations of which Mrs. A. E. Watters of Fort Worth is president, will hold its annual Child Welfare Conference in this city from May 2 to May 4. While this date is later than usual date for the annual district meeting it was determined on because of the International Child Welfare Conference the latter part of April, where many of the Texas mothers are expected to be in attendance.

The first district, including very nearly ninety counties, covers one of the most thickly populated sections of Texas, and there are very few of the school communities of this section but what have a mothers club or parent-teachers' association in connection with their schools. Under Mrs. Watters' guidance, active and interested mothers have organized the work well in their communities and an earnest body of women are expected to be in attendance.

On the program of the two days' session, will appear the names of Dr. Buzzell, president of the College of Industrial Arts, Mrs. J. N. Fortney, founder and honorary president and a life member of the executive board of the Texas Congress of Mothers; Mrs. Chalmers W. Hutchinson, now president of the State organization, and Prof. Cantrell, superintendent of public schools, Fort Worth.

The Mothers Clubs of the city have charge of the local arrangements for the entertainment of the delegates.

DAVIS GOES TO WACO OFFICE, NAT'L BISCUIT CO.

Will be Manager of Branch There—Friends Here Give Popular Manager, Farewell Banquet

A. A. Davis, manager of the local branch of the National Biscuit Company for the past year and a half, leaves today for Waco, where he will assume the management of the company's branch. Mrs. Davis will leave in the course of the next few

days and the couple will make their home in Waco in the future.

In leaving Wichita Falls Mr. Davis or "Parson" as he is known to his host of friends, goes to a position of much more responsibility and one that is a stepping stone to the highest position which his company has to offer in the State. The Waco branch is considered the largest branch of the National Biscuit Com-

pany in Texas. It employs nine travelling men, executive or the manager and three office men and the position as manager of the work there comes to Mr. Davis solely as a result of the good work he has done in Wichita Falls. Since coming here he has been the recipient of two loving cups, given by his company as prizes for the greatest increase in sales in the southern territory.

Last night at the St. James, a number of his friends gathered to express their appreciation of his good fellowship and to demonstrate the esteem in which he is held by those who know him best. Reluctant to see him go, they vied with each other in wishing a prosperous time in his new position and in speech and song wished him a long life and a happy one.

Mr. Davis' place here will be taken by J. J. Sanders who came here from Amarillo, who will be assisted by W. B. McGannon who is transferred from the company's store at Corsicana. See our ad for Monday specials, 85c

CITY INSPECTOR'S HORSE KILLED IN RUNAWAY

Dashed Into Automobile, and Fell
Breaking Legs, Making Execu-
tion Necessary

A horse belonging to C. H. Mont-
gomery, city plumbing inspector, ran
away Saturday afternoon and col-
lided with an automobile sustaining in-
juries which made it necessary to
kill the animal. The horse was run-
ning down Eleventh street at full tilt
when it struck the automobile stand-
ing near the curb. The impact caus-
ed the horse to fall, breaking one of
its legs and making its destruction
necessary. The auto was standing
still when the horse struck it.

BONNER URGED TO MAKE RACE FOR LEGISLATURE

City Attorney's Friends Trying to In-

The friends of City Attorney Wil-
liam N. Bonner are earnestly urging
him to make the race for representa-
tive of this, the first legislative dis-
trict and considerable pressure is be-
ing brought to bear to get his consent
for placing his name on the ticket.
As yet however, he has failed to com-
mit himself either way, but will prob-
ably give his friends an answer in
the near future.

W. A. CHATTERTON IS NOW FULL FLEDGED WICHITAN

W. A. Chatterton, traveling sales-
man, booster and erstwhile candidate
for governor, is now a full fledged
Wichitan, having moved his family
here and located in this city. He
comes here from Waco, where he has
resided for some years past.

There is only one W. A. Chatterton
in the universe. If there were more
than one, the solar system couldn't
stand the strain and would disinte-
grate with a dull sickening thud.
He has one of the best mottoes in
existence. It is, "Do it yourself" and
he lives up to it. A while back he
decided that the State of Texas
wasn't doing so right, so he came
out for governor on a business plat-
form, ready to run the State himself.
When the Young Men's Business
League of Waco went out after new
members "Chat" didn't merely stand
on the sidewalk and applaud the pro-
cession as it went by, he sailed in
and landed more members than any
other one man—and the Y. M. B. L.
at Waco is the strongest organization
of the kind in Texas.

"Chat" hopes to be as good a work-
er for Wichita Falls as he was in
Waco and he is already planning an
Ad Club in this city. He believes
in advertising and is probably one of
the best advertised individuals any-
where around. He has his peculiarities
and his idiosyncrasies, several of
which. No man without them would
have lived in Waco as long as he did
when he could move to Wichita Falls.

MONTAGUE WON IN THE JUNIOR TRACK MEET

Scored 67 Points Over Bowie With
41—Weather a Handicap to
Contestants

A junior track meet was held Sat-
urday at the city ball park. Montague
and Bowie were the only teams that
participated in the event. Montague
won the meet by scoring 67 points
while Bowie only scored 41. The win-
ners were as follows: The 50 and
100 yard dash, Hathcock of Montague.
Pole vault, Hoster, Bowie. 440 yard
run, Tisworth, Montague. Standing
hop, step and jump, Hathcock, Mon-
tagne, distance 23 feet and 9 inches.
Running high jump, Tisworth, Mon-
tagne, distance 4 feet and 8 inches.
220-yard run, Hathcock, Montague.
Chinning the bar, Hoster, Bowie, 45
times. Running broad jump, 10
inches. Montague, 14 feet and 10
inches. The half mile relay was won
by the Montague school the time be-
ing 2 minutes and 29 seconds. The
worth of Montague won the base ball
throw and the tug of war was award-
ed to Montague by default.
All men on each side were in good
condition but the weather was too
disagreeable toward the last for any
of them to do as good work as they
could had the weather been more fav-
orable.

COLLEGE BALL PLAYER NOW CENTER OF INTEREST

Professional Scouts and College Al-
umni Alike Will Follow His
Record Closely

By Associated Press.
New York, April 11.—During the
next three months the college base-
ball player will hold a prominent po-
sition in the sporting program.
His record will be followed closely
by university alumni and with even
closer scrutiny by the professional
scout for major league club man-
agers are fully aware that occasion-
ally a star may be plucked from the
varsity diamond. Players of the calibre
of Eddie Collins and Christy
Mathewson are found but infrequent-
ly. There always exists, however,
the possibility of securing players
who, if not capable of major league
speed at the outset of their profes-
sional careers, can quickly be coach-
ed and trained to the point where
they are a decided acquisition to a
big circuit club.
Under professional coaching the
standard of play in college baseball
has risen rapidly during the past few
years. Veteran big leaguers have
aided the natural player by advice
and instruction. Little hints on how
to bat; take the ball for a quick
throw and other points of technique

in the game quickly bring players
with natural qualifications within the
range of major league possibilities.
All those connected with the profes-
sional game today realize that the
college baseball team offers one of
the best recruiting grounds at the
disposal of the big league manager.
"Hilly Evans, the American League
major league manager looked on the
observer of every angle of baseball,
said recently in discussing this phase
of the game.
"The college ball player has be-
come a big factor in the major
leagues. Ten years ago major league
scouts, in search of promising mat-
erial gave the college games very
little consideration. At a big game
last summer between two strong col-
lege teams, exactly twelve major
league scouts were in attendance.
Quite a testimonial to the value placed
on the college player by the men
whose duty it is to pick up future
big league stars.
"Lonnie Mack is the pioneer in the
exploiting of the college player. The
resourceful leader of the world's
champions saw the worth of the col-
lege player long before any other
major league manager looked on the
varsity athlete seriously. I once asked
Mack why he has always so anx-
ious to look over the promising col-
lege players. His reply was brief,
but characteristic of the famous lead-
er of the Athletics. "I like players
who can think. Four years of study
certainly ought to improve a fel-
low's intelligence. If it hasn't, it
doesn't take me very long to discover

THEN and NOW

Our forefathers were not bothered with the high cost of living because they did not live high. They got all they paid for. It costs more to live now because it is worth more. The best valued thing our forefathers possessed was time. Today the most valued thing given to mankind is time. The man who wastes time in this age is either a sluggard or a fool and will contribute nothing to the world's progress. The people of a score of years ago spent time to save money. We spend money to save time. A commercial service that does not save time is a back number and ought to go to the scrap heap before competition puts it there. Our mission on earth is to make life easier for you with a service that gets close to perfection. We have eliminated the word-WAIT. We are "NEVER JUST WITH A CAR COMING." We have the goods and they go by a fast messenger. Try us in emergencies.

"THE HARVESTER" NOW 50c Gene Stratton-Porter's Newest and Best Book Reduced from \$1.50 to 50c The author of "Freckles," "A Girl of the Limberlost," etc., has lavished upon "The Harvester" all the wealth of nature lore and nature love from her years of patient, enthusiastic study. "The Harvester," David Langston, is a man of the woods and fields, who draws his living from the prodigal hand of mother Nature herself—selling the medicinal roots and herbs and barks, the wild mushrooms and so on, which are his for the gathering. If the book had nothing in it but the splendid figure of this man, with his sure grip on life, his superb optimism, and his almost miraculous knowledge of nature secrets, it would be notable. But when the girl comes to his "Medicine Woods," and the Harvester's whole sound, healthy, large outdoor being realizes that this is the highest point of life which has come to him—there begins a romance, troubled and interrupted, yet of the rarest idyllic quality. WHY WE WENT INTO THE COFFEE ROASTING BUSINESS We have been playing the game for twenty-five years and always paid particular attention to coffee. Always had a great deal of trouble in getting blends to suit us and for years before we commenced to roast bought our different coffees roasted separately and blended them ourselves and always enjoyed a splendid coffee business but coffees don't blend perfectly except in the roaster where the different flavors can combine harmoniously. Years ago we bought a hand power roaster and experimented on a small scale but our business soon outgrew this and we had to go back to the Roaster. In 1909 we built a small building at the rear of our store and rigged up the hand roaster with a motor and commenced to roast our coffee but did not let the public know we were doing so as we wished an unbiased verdict. Inside of ninety days our business had quadrupled and become too big to handle with our little plant so we ordered our coffees roasted again and went East to purchase a plant large enough to handle our increasing business. We bought the very best and up-to-date machinery obtainable and came back unafraid to ADVERTISE THE FACT THAT WE ROAST OUR OWN COFFEES, and since that time our business has increased faster than we dreamed. So we know we are right. If you are using our FRESH ROASTED COFFEES there's nothing to say. If not, would be pleased to show you the difference. 608-610 Ohio Ave. O. W. CLEAN-UP WEEK IN WASHINGTON TOMORROW

Washington, April 11—The nation's capital is booked for a clean-up beginning tomorrow. Under the lead of civic organizations backed by patriotic and social bodies, and school children on vacation next week, the Clean City Week idea proposes to make Washington a veritable spotless town.

Business men have been giving the plan a boost by putting on their stationery "Don't forget that it is unlawful to throw this in the street," and the Daughters of the Revolution have lent a hand by distributing "clean city" tickets. Boy Scouts and school children have consented to make special efforts during the Easter week vacation to see that Washington is as spick and span as any city in the world.

Odessa, April 12—"Ritualomania" is becoming epidemic in Southern Russia. Since the trial and conviction of Mendel Beilis on the charge of ritual murder, scarcely a week has passed but what a similar case has been rumored. If a Russian child of either sex in village or town is missing from its home for more than a few hours, a report of a mysteriously circled and blood-stained rug, the usual threat of excommunication of the Jews. It was hoped, however, that the case would clear the fanatical suspicion among the ignorant Jewish classes against the ritual blood accusers. It had not their racial prejudice had been tested by the Beilis case and anti-Semitism. For instance, a Jew, a merchant, named Tagan, was pronounced guilty from Tagan, but with his arrival at his residence, he was arrested and taken to the Taganrok. He was, however, a few hours later released. A messenger had suspected that the Jew was a Christian, and was playing him. The Jew was playing him.

A Tremendous Success!

One-third discount on jewelry was an irresistible lode-stone that attracted a tremendous buying crowd to our store yesterday. The inclement weather was very much against us, but the general knowledge of the superb quality of our stock, priced always at less than others, and reduced now to just two-thirds, made jewelry buyers gape in wonder and hurry to take advantage of the wonderful opportunity. And the sale goes on.

Jewelry at One-Third Discount, Cut Glass at One-Third Discount, Diamonds at 7 Per Cent Discount, Watches (except the Howards) at One-Third Off, Trunks and Hand-Bags at Two-Thirds Their Value,

All these things go to make this the greatest opportunity for buyers ever offered in Wichita Falls. We don't expect to make money off these goods. Our profit will come in the rise in value in the real estate we bought, and we are sacrificing the goods to pay for the real estate.

HE GOT OUR GOAT

We have a good supply of that virtue called patience, but a man came into our store with the idea in his "noodle" that we would try to skin him and he tried to beat us to it.

I'll tell you he got our Goat. We didn't say so to him, however; we just made a draft on our patience, preached him a good clothes sermon and succeeded in converting him along the Clothing line.

Do you know that sucker went away perfectly happy?

And why shouldn't he be?

He had a clean conscience, because he failed in skinning us.

He knew we hadn't skinned him for he had on his back a suit made by the Tailors for forty bucks, and it had only set him back

We want to know the name, age, of what church a member, what Bible school attended, those who have church letters applied, the church choice of every man, woman and child in this city. Our intentions are to help the individual in the home and the church in our home city. All names will be turned over at once to the church of the person's choice by our soliciting committee, so the several pastors can benefit by the canvass. We ask the kindly support in the matter by the homes themselves, please remain at home in the morning of the 22 of April and give full information to the man or woman coming to your door on this mission in behalf of Christ. CITY NATIONAL BANK IN STALLING SAVINGS DEPT. To meet the demand for the constantly increasing business of this kind, the City National Bank of this city is installing a savings department. A special window will be provided for savings customers and their business handled in the same systematic and satisfactory manner as that of the commercial depositors. A beautiful registering metal bank will be supplied free of charge to all those opening an account. The customer merely deposits one dollar and they are loaned the safe. The bank keeps the key and opens the safe when the deposits are made. The self-registering safe shows at all times exactly how much it contains. In order to serve those who would like to secure one of these little home banks, the City National states that in the near future they will have several personal solicitors in the field who will call upon their friends and patrons and explain anything about a savings account that they do not understand. A four per cent interest, compounded quarterly, will be paid on all savings accounts. A great volume of business of this kind is expected, the little metal bank alone being a constant reminder and incentive to save and have.

Persons contemplating the starting of a savings account will find it to their advantage to investigate the quality of service this bank renders all of their customers. Acts Chap. VII, verse 44, recognizes woman's ruling passion, "she permits them, to make it according to the fashion. But Isa. Chap. III, verse 16, warns them to be circumspect. For the daughters are haughty and walk with stretched-out necks." And in Jer. Chap. VIII, verse 6, "every one turned, to behold." And Ecc. Chap. 11, verse 12 says, "I turned myself to behold." Acts XIII, verse 45 says, "they were filled with envy, and Christianity." Ecc. I, verse 2 says, "vanity of vanities, said the preacher, all is vanity." "The whole church speaks in tongues," says I Cor. Chap. 2, verse 23. And in Isa. I, verse 1, "where is the bill?" said He. Respectfully referred to the Ladies' Aid Society.

This figure represents the number of Cadillac cars manufactured and distributed during the calendar year of 1913.

It represents in retail selling value more than thirty-four millions (\$34,000,000) of dollars.

It represents a value of cars which, we believe, exceeds the sale, during the same period, of all other high grade American cars combined, selling at or more than the Cadillac price.

This figure represents the number of 1914 Cadillac cars which have already been manufactured and distributed.

It represents in retail selling value more than twenty-two millions (\$22,000,000) of dollars.

It represents a volume of cars which, we believe exceeds the deliveries of all other 1914 high grade American cars combined, selling at or more than the Cadillac price.

It is an unparalleled endorsement of the 1914 Cadillac.

There should be no question in your mind as to the car which dominates the high grade field.

ROBERT H. MILLER IS NEW SECRETARY

ELECTED BY CHAMBER OF COMMERCE DIRECTORS AT SESSION SATURDAY

NOMINATED BY COMMITTEE

Experience in Manufacturing Circles Thought to Equip Him Well for Position Here

Robert H. Miller, who has been connected with the Texas Bottle Manufacturing Company here for some time, was Saturday morning elected secretary of the Chamber of Commerce. His election took place at a called session of the directors, having been recommended by the special committee appointed to select a secretary.

Mr. Miller will assume his duties not later than May 1; he is to receive \$200 monthly. This will be the first experience as secretary of a commercial organization, but the committee which recommended him feels that his wide experience in manufacturing affairs and his extensive acquaintance in manufacturing circles, equip him well for the position, especially with relation to the securing of new industries. He is especially well acquainted with manufacturers who are interested in natural gas and who would be attracted to this city on that account.

The secretary committee of the directors included Frank Kell, Wiley Blair, N. Henderson and C. Dean A number of possibilities were considered for the place before a decision was reached.

Archer City Society Notes.
Archer City, Texas, April 11.—The Woman's Club met at the residence of Mrs. H. K. Dyens Friday afternoon, April 3 with only ten members present on account of the inclement weather. The president, Miss Ella Powers, occupied the chair and gave an interesting talk on civic improvement, suggesting that the club select some particular place and beautify it as a monument to the city work. Acting on this suggestion the school yard was selected. The chairman of the library committee made a good report, stating that plans were being made for a public opening. Mrs. Pearson, chairman of the school committee, made a report and suggestion in reference to the school trustees, the suggestion being made in the form of a motion which was adopted. The chairman of the health committee, Mrs. Lindsay, read portions of the advisory law on cleanliness and civic work. Mrs. Deves, chairman of the civic committee, made a report and stated that clean-up day had been postponed until

April 18 in order that the citizens might be better prepared. The chairman of the ways and means committee reported \$34 proceeds from the play, "Fun On the Podunk Limited," given in benefit of the public library and also reported that another play was under way. The treasurer, Miss Shelton reported \$40.55 in the treasury. Mrs. Monzie Moore favored the club with a solo which was enjoyed by all. Rev. Carter then addressed the club on the feasibility of the club taking the noon work in charge. The program for the next meeting will be on the life and writings of Joel Chandler Harris, "Uncle Remus" and the meeting will be held with Miss Sallie Shelton, April 17.

James Clark and wife autoed over from Wichita Sunday.

Mr. and Mrs. A. S. Fonville of Wichita and Mr. and Mrs. John Tuggle of Denver, and Mrs. Marion Anderson of Walters, Okla., visited P. M. Power and family Sunday. They motored over and returned Monday.

The Women's Club is very much pleased over the progress the public library committee has made with their work. They were organized Feb. 20, 1914 and at the present time have a reading room and library furnished and three hundred volumes in the library. The following magazines are on the reading table: McClure's, Cosmopolitan, Everybody's, Physical Culture, Ladies Home Journal, Woman's Home Companion and Pictorial Review and the Wichita Daily Times. A public opening of the library has been arranged for April 16.

NEW VOLCANIC ISLAND IS STILL UNCHASTENED

Tokio, April 11.—The baby island of the Bouin group which came into existence following the eruption of Sakurajima has not yet been christened. As the island appeared during the coronation year of the present emperor, there were many suggestions that it should be given his name, Taisho. But it has been found that the new island occupies the exact position of a similar island which appeared several years ago and has since disappeared, so official circles have decided that it would be better to wait until it shows some signs of permanence. It is considered that it would be very inauspicious for an island bearing the emperor's name to sink into the sea.

The island covers several square miles and appears to be composed of lava and sulphur. Though an official expedition has reported on its appearance no one has landed on it, owing to the fact that it is still hot and subject to frequent earthquakes.

It Only Takes From \$350 to \$750 To Own Your Own Home Under Our Building Proposition in Southland Addition

To the first two buyers in each block in Southland Addition, who pay for the lot in cash, the Southland Addition will lend the amount of money needed to build your home and you can pay back the loan in monthly installments.

This is an unusual proposition to home builders and you will never get another chance like it after the required number of applications are filed. Every lot in Southland Addition on the market has sidewalks, sewerage, on or near high pressure water mains, car service, protective restrictions that will prevent abuses against adjoining property, and ideal location. Lots range in price from \$350 to \$750, 50x150 feet. Now is the time to get your choice of location.

ARE YOU Out of Work?

If so, use the columns of the Times free of charge.

We will Find You a Place

For some time the publisher of the Times has been considering a plan whereby the paper could be made more valuable to those seeking employment. Many people find it necessary to curtail even the small expense of advertising for a place when out of work and for this reason have after the last columns of the paper will be free to any person who is seeking a position, and who is out of work at the time. This does not apply to any person who has a position, and seeks a change. If you are out of work, bring your ad to the Times office. It will be run free of charge for one week. All other than situation wanted ads in the classified columns of the paper will be at the same rate of 1 cent a word for the first issue, and one-half cent per word for each succeeding issue.

NOW PENDING IN CONGRESS

Committee Named To See That This City's Claims For Place Are Properly Presented

A determined effort to have a federal court located in this city, in case there is a redistricting of the State, will be made by the Chamber of Commerce. This matter, which has received more or less attention at the hands of Wichitians for several years, is now approaching a stage where decisive action is necessary and the first definite steps in the campaign for such a court here were taken yesterday when Judges A. H. Carrigan, J. T. Montgomery and P. A. Martin were appointed a committee of the Chamber of Commerce to look into the matter.

The reorganization of the Texas districts is now hanging fire in Congress and final action is likely to be taken within a short time. The Smith bill proposes to establish a new district in West Texas, with sessions of the court in Wichita Falls, Amarillo, Plainview, El Paso and Abilene. There is considerable opposition to this bill from Texas and the outcome is still in doubt. On the belief that whatever action is taken now will most likely be permanent, the Chamber of Commerce is now planning definite action and will seek to enlist the aid of the other West Texas cities affected.

Congressman Stephens is known to be favorable to the establishment of a federal court here and his support for the plan has been promised. It is not likely that when the matter again comes up at Washington, a

NEGROES ARE BOUND OVER IN SUM OF \$1500 EACH

Preliminary Hearing Fails To Develop Which of Them Inflicted Wound That Killed Foreman

J. J. Dickerson and Clarence Dickerson, the two negroes held in connection with the death of John Foreman, another negro who was killed Thursday night, were ordered bound over to the grand jury in the sum of \$1500 each at the conclusion of their preliminary hearing before Justice Howard Friday afternoon. Neither was able to furnish bond. The preliminary hearing failed to develop with any degree of certainty which of the two accused men actually killed Foreman. The latter was found to have been shot twice and stabbed three times. An examination of the body this morning located a third knife wound in the left eye. The manner in which Clarence Dickerson received a bullet wound in the leg was also not ascertained.

The body of the dead negro was sent to the former home at Denton Saturday afternoon for burial.

ENTERTAINMENT PROGRAM FOR NATIONAL EDITORS

Barbecue at Electra Planned in Connection With Visit to the Oil Fields

A trip to the oil fields, a barbecue feast at Electra, an automobile ride back to Wichita Falls by way of Burkburnett, a visit to the factories and the lake, and a banquet on the pavilion pier—these have been tentatively decided upon as the features of the entertainment of the National Editorial Association on its visit here May 2. The Chamber of Commerce committee in charge of the affair decided upon this program yesterday morning and it will be carried out provided Electra agrees to her end of it.

This entertainment is as liberal as that provided by any Texas city and it will be of a nature that will fully sustain this city's reputation in such matters. The train will arrive from Fort Worth about 7:30 a. m. and after breakfast here will proceed to Electra, where it is planned to have automobiles from Electra, Burkburnett and Wichita Falls in waiting. There will be a trip to points of interest around the oil field, followed by the barbecue. Then those who wish to return here on the train will do so; the others to be brought home in automobiles by way of Burkburnett.

The festivities here will depend upon how much time remains; if possible there will be a visit to the factories and an automobile ride through the city. Late in the evening the banquet will be spread on the pier, marking the conclusion of the entertainment here.

Wichita Falls will give the editors their only sight of Texas oil fields, this city being selected over Beaumont for that privilege.
