#### PROGRESSIVEISM JUSTIFIED

The guarantee of bank deposits law belongs in the class of "progressive measures." It is a new application of the co-operative principle and to the ultra conservative mind it was an unwarranted invasion of the field of individualism and an undue extension of the functions of government. When it was passed there was much shaking of heads and many prophesies of disaster. It was said that it would encourage irresponsible men to engage in the banking business; that it would rob careful and prudent bankers of the just reward of hard-earned erputation and generally, that it would upset and disturb the state banking system and drive many state banks

into the national system. After a brief experience all these ears have proven to have been without foundation. The law hits worked. successfully. Wildcat banking has not resulted, old and conservatively managed banks have not suffered, there have been no wholesale desertions

#### Americans Seize Inland Breastworks at Vera Cruz

By Associated Press.

Washington, April 23.—It was learned that the war and nevy departments early today had made plans for the early seizure of the railroad from Vera Crus to Mexico City. A reconnoitore by the marines, it was reported, discovered that two bridges, one ten miles and the other 18, from Vera Cruz were still intact.

Officers at Vera Cruz are of the opinion that the seizure must he prompt if Vera Cruz is to be used as a base because the bridges could not be readily rebuilt if destroyed.

Exercise is a splendid skin tonic. A brisk walk, no matter if in the rain, will freshen the complexion, even as it freshens the flowers, and a simple aperient will do wonders for a muddy skin. It remains for all women to preserve such beauty as they have and to cure the defects which are peculiar to them or that time was wrought. Every skin is different and must be treated accordingly, and it takes a reasoning woman to experiment carefully and find out the prop-

The Es peranza will then return for more. Admiral Badger will charter the steamer Mexico, and send her to Campico to transport other refugees to Galveston, and the Collier Cyclops also will, be employed to carry refuges away from Tampico. Eleven persons are said to have seen killed at Aguilar and a score are reported missing. roperty damage is set at \$200,000.
The time of the arrival of the state roops is indefinite and even their ar rival may not quell the uprising. arge bodies of armed men are re ported near the railroad approache n the Aguilar district and other arm ed bodies are reported moving toward Aguilar and Ludlow.

A crowd of nonunion miners with neir wives and children were driven horugh the town of Aguilar by 'the strikers, this informant declared and taken to the near-by tent colony, here they were held prisoners.

Strike leaders asserted that only ne of their fighting men had been illed during the day's battle and that we had been reported wounded. The men reached the station a few

ninutes before the train started and ined up near the track ready to shoot. or some reason, however, they left vithout molesting the soldiers. At union headquarters no explana

"If I should say that I had power

Labor Leader Is Reticent. Lawson said he had no definite reorts of the fighting at Delagua and emilar and that he did not know whether the men in both attacks were he same. Asked as to the fate of he men and women reported to have taken refuge in the Empire mine, he said: "That would be a bad place to seek safety. Even if the mouth of the mine were not blocked, persons the tipple were burned. "Is that your understanding of what

here is very indefinite." Lawson said he had no idea of how he fights at Delagua and Aguilar, tarted. "But that makes no differnce now," he added. "Anybody is ikely to start a fight any time. This a state of warfare. I can see no end to the present situation except he present fighting will continue il one side or the other gets licked. Lawson stated the union officers

ad urged the union miners in the 'olorado Springs district: who quit work and announced that they were oming to the strike zone to ight the militlamen to go back to work. "Those men were under contract to

work fo rtheir employers," he said, and we told them not to break their ontract, even for the sake of aiding s. I think we induced them to go ack to work.

The strike leaders asserted however hat the ranks of the unions army in he hills constantly were growing stronger

According to reports received by th nilitary authorities, the fighting at Aguilar, which followed that at Delaua, was participated in by the same oody of strikers.
