## 140 EDITORIAL VISITORS GUESTS OF WICHITA FALLS

### Trips To Electra And Burkburnett, Barbecue And Banquet Are Among The Day's Features

### HEAVY RAINFALL PREVENTS AUTOMOBILE TRIP

#### At Electra Visitors See 55,000 Barrel Oil Tank On Fire—Day One Of Marked Enjoyment.

Editors and publishers from every section of the United States—140 in number—were guests of Wichita Falls yesterday. Wichita Falls, Electra and Burkburnett and Lake Wichita were visited by the editorial contingent, the first national convention ever to be entertained by Wichita Falls.

While the weather prevented the carrying out of the original plans and interfered seriously with the day's program, it marred to only a slight extent the enjoyment of the visitors. Breakfast in Wichita Falls, a trip to Electra and a barbecue dinner there, a visit to Burkburnett, then back to Wichita Falls for a car ride to the Lake and a banquet at that resort—these were the day's features and there was not a dull moment for the throng.

The prize stunt of the day was provided by Electra, where one of the Texas Company's 55,000-barrel tanks, nearly full of oil, was ablaze. The awe-inspiring spectacle made an impression on the visitors that they will not soon forget. The barbecue was a culinary triumph, rivaled only by the banquet last night.

Early morning showers made the automobile trip across the county, planned as one of the stellar attractions of the day, out of the question and it was reluctantly abandoned and the trip made by train. The roads out of Electra were in such shape and none of the oil wells could be visited and the crowd gathered at the depot and heard speeches. There was much regret that the oil fields could not be visited, but the visitors said the day was full enough.

The train reached Wichita Falls forty minutes ahead of its schedule and as a result the reception committee was not ready when it arrived; a committee was hurriedly organized and escorted the editors to breakfast at downtown restaurants, where they were guests of the Chamber of Commerce for their morning meal. While they were eating, it rained some more.

Limited as was the opportunity of the editors to see Wichita Falls outside of the business section, what they did see made an impression on them that none will be apt to forget. On every hand were heard expressions of praise for the up-to-dateness of the city and the official "bulletin" issued by the editors' publicity committee says that "Wichita Falls is admitted to be the 'livest' town in Texas." And last night when the visitors entrained there was nothing but praise for what Wichita Falls had done.

The personnel of the party included editors from every part of the United States, members of the National Editorial Association, who were in Houston recently holding their annual convention. Since it adjourned the party has been touring the State on a special train visiting practically all the large cities.

Six days and nights of riding, banqueting, sight seeing and the like failed utterly to take the "pep" out of the editors and they were full of fun. All the way to Electra and on the ride back, they sang, while at Electra and at the banquet last night, they saw to it that there was not a dull moment.

The trip to Electra was started soon after nine o'clock and it was about eleven when the train reached the oil city. Representatives of the Electra Commercial Club met the party here and distributed cards that entitled the bearers to everything the city had, including free drinks at the drug stores and other courtesies. After a visit to the burning tank and a round of oratory, everyone repaired to a pasture a few blocks from the depot to attack the 3000 pounds of meat which had been barbecued there. About two o'clock the return trip was started.

About thirty Wichitans accompanied the party on the trip, but Wichita Falls' real share of the entertainment was not experienced until last night after the return from Burkburnett.

### BARBECUE DINNER SERVED AT ELECTRA

### BANQUET AT LAKE IS FINAL FESTIVITY

EDITORS ENJOY OUTDOOR FEAST BUT MUD PREVENTS TRIP TO OIL FIELDS

CROWD OF OVER 300 ATTENDS FEAST AT PAVILION—MANY SPEAKERS HEARD

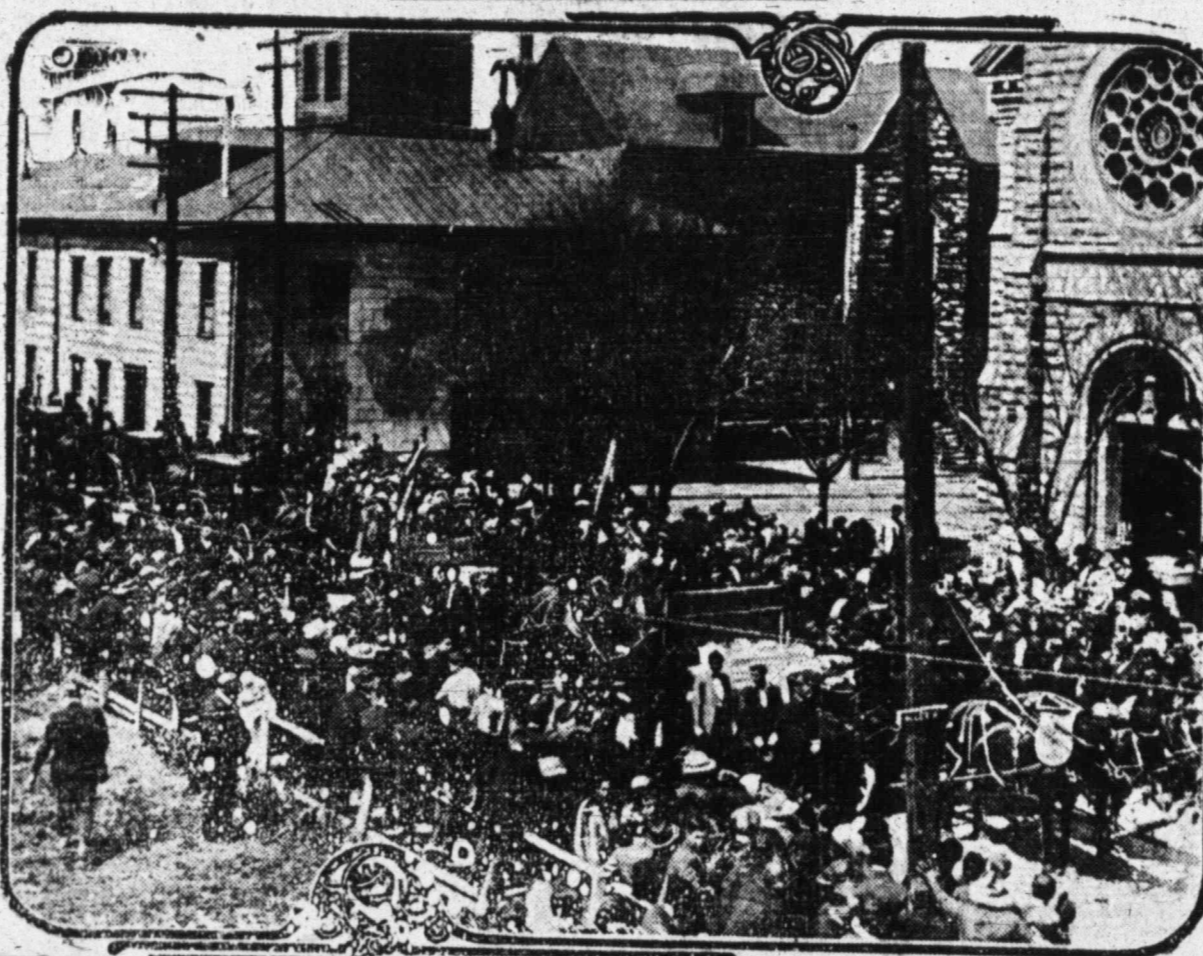

Electra was ready for the editors when they arrived yesterday and when Electra is ready there is usually something doing. The morning's rain had put all the roads to the oil field knee deep in mud and it was decided not to attempt to show any of the field to the visitors, other than what was to be seen from the train.

As the crowning event of their day in Wichita county the National Editorial Association party were the guests of the Wichita Falls Chamber of Commerce at a banquet at the Lake Wichita pavilion Saturday night. Joining the editors in the enjoyment of Wichita Falls hospitality were about forty delegates to the First Dis-

### MEXICANS ATTACK VERA CRUZ OUTPOST

FEW SCATTERING SHOTS ARE FIRED—DEMAND FOR SURRENDER IGNORED

### CITY'S SUPPLIES CUT OFF

Mexican Forces Prevent Garden Truck and Milk From Country From Reaching Town

By Associated Press.  
Vera Cruz, May 2.—A considerable force of Mexicans attacked the American outposts at the water plant nine miles out at eleven o'clock this morning, according to a wireless message received here, which asks for aid. Supporting troops were at once forwarded by train from Vera Cruz to El Teger, where the water works are situated. No intimation was given in the wireless message as to the size and identity of the attacking force.

What had promised to be the first fight between the United States army and the Mexican troops today ended with the exchange of not more than half a dozen shots. The Mexicans threatened to "attack immediately unless the Americans surrendered their position at the water house and El Teger within ten minutes," but failed to fulfill their threat.

The Mexicans are still holding a position beyond the water works station and the American troops have received no orders to advance.

At eleven o'clock this morning a Mexican force—estimated from 300 to 500 men—appeared a mile beyond the water works station. Major Russell of the marines had received orders not to assume the offensive. Suddenly a Mexican lieutenant, a non-commissioned officer, bearing a white flag, came forward and presented a demand for surrender within ten minutes.

Major Russell's reply was: "Hurry right back and do not waste any of the time your commanding officer has stipulated." Major Russell made preparations to resist any attack and at the same time sent a message to headquarters at Vera Cruz that his outposts were threatened.

At headquarters General Funston and his staff had been working at the details of the new government which the brigadier general had been instructed to establish. The wireless message from the waterworks station brought about a quick change from the comparatively prosaic

### HUERTA TO RESIGN? SAYS MILITIAMEN STARTED TENT FIRE

Mexico City, May 2.—An apparently well-founded report that the resignation of Provisional President Huerta might be expected at any moment was in circulation here tonight.

### THIS IS VERDICT OF CORONER'S JURY ON LUDLOW TRAGEDY OF APRIL 20

Says He Saw Soldier Apply Torch. Jury Returns Verdicts in All of Ludlow Cases

### RAILROAD MAN TESTIFIES

By Associated Press.  
Trinidad, Colo., May 2.—The fire that destroyed the Ludlow tent colony on the night of April 20 causing the death of thirteen women and children was started by the militia or mine guards or both, according to the verdict rendered by the coroner's jury today. D. J. Riley testified today that a man in a militia uniform put a torch to a tent in the Ludlow colony at 7:05 o'clock in the evening of April 20. Riley, a Colorado and Southern railroad fireman, said he was on the engine of a freight train which pulled up at the Ludlow station in the hottest of the battle. He said two tents already were in flames.

"I saw a man in a military uniform toss a blaze to a third tent," he said. He said he saw women and children on the railroad right of way, apparently trying to escape from the colony. When the train drew up at the station, Riley said several militia men put guns to the engineers head and ordered him to "pull out and do it quick."

S. S. Harriman, conductor of the same train, testified as the train pulled up to the station and passed the tent colony he heard women and children screaming and apparently trying to escape. He said that during this time the militia was firing into the colony. No responsibility for the killing of Louis Pikas was fixed by the jury which contends itself with finding that he, with seven other men, was shot in the battle. Strikers had charged that he received a blow which fractured his skull.

Verdicts are Returned  
The verdict in the cases of women and children was that they came to their death by asphyxiation or fire or both, caused by the burning of the tents of the Ludlow tent colony and that on fire on the tents was started by militiamen under Major Hamrock and Lieut. Lindenfelt or mine guards, or both on April 20. A separate verdict was rendered on the death of Alfred Mertin, a militiaman, Clemo Lassie, a non-combatant, Louis Pikas and four other strikers and Frank Snider, a twelve year old boy.

The jury found that they "came to their death by bullet wounds" in the battle between militiamen under Major Hamrock and Lieut. Lindenfelt and mine guards on one side and strikers on the other.

### ANTI-TRUST BILLS FAVORABLY REPORTED.

Washington, May 2.—The House judiciary committee ordered favorably reported today the omnibus anti-trust bill on which the committee has been engaged for many weeks. Representative Clayton, chairman of the committee, expects to bring the bill before the House at an early date.

### WOULD POSTPONE CANAL TOLLS ACTION.

Washington, May 2.—Senator Borah today offered a resolution in the Senate that would provide for the postponement of action on the Panama tolls question until it is practically voted upon in the November elections when practically a new House of representatives and 33 new senators are to be elected.

## JOHN D. JR., IS OBDURATE

CORRESPONDENCE AS TO HIS ATTITUDE ON STRIKE MADE PUBLIC

### MINERS ARE WILLING HANDLE ALL PHASES

Magnate Declares Company Officials Are "Only Ones Competent to Deal With Question"

By Associated Press.

Washington, May 2.—Messages telling the story of the so far futile efforts at Washington to bring about a settlement of the Colorado coal mine strike, including a telegram from John D. Rockefeller, Jr., saying mining company officials in Colorado were "the only ones competent to deal with the question" were made public today. Representative Foster, chairman of the House Mines committee who gave out the telegraphic correspondence, has been attempting to get Mr. Rockefeller, operator and officials and mines which the Rockefellers partly control and the strikers, together following a White House conference.

"In my conference with Mr. Rockefeller at his New York office," Mr. Foster announced, "I urged on him the importance of submitting the strike differences to a neutral board of arbitration, believing the trouble could be peacefully settled."

"I spent February in Colorado as chairman of the mines committee investigating conditions. Mr. Rockefeller has not been there in ten years. I have been over the property, and have examined men on both sides of the controversy. There is nothing in the differences which cannot be settled by arbitration."

"I understand from the statement of William Green, secretary-treasurer of the International Mine Workers Union, the demand that the union be recognized is not the issue. The great question now confronting the strikers and owners is, will you agree to submit the matter to arbitration? Mr. Rockefeller cannot evade his responsibility. He cannot set forth the excuse that he will not arbitrate the recognition of the union. The great anthracite strike in Pennsylvania and the recent West Virginia strike were settled by both men on both sides agreeing to abide by the decision of umpires."

"National sentiment and every instinct of humanity demand the prompt settlement of the Colorado strike. Nothing would prevent both strikers and Mr. Rockefeller from placing the case before a neutral board."

Foster To Rockefeller.  
Mr. Foster telegraphed Rockefeller last Wednesday, saying:

"William Green, secretary-treasurer of the Mine Workers Union, made public a statement that mine workers will waive any recognition of the union. Are you willing to enter into negotiations for settlement of the strike on that basis and stop the killing of men, women and children? I strongly urge you to do so and believe the fight can be ended without recognition of the union and all other differences can be amicably settled in my judgment it is your duty to do so."

Rockefeller To Foster.  
Mr. Rockefeller replying the next day, said:

"Your telegram of last night received. I am forwarding it to the officers of the Colorado Fuel & Iron Company at Denver, who with officials of other mining companies in Colorado are the only ones competent to deal with the question therein referred to."

Gets No Reply.  
Mr. Foster replied to this Thursday with a sharp message to Mr. Rockefeller which the latter up to tonight has not acknowledged. Mr. Foster's telegram was as follows: "Your telegram was somewhat a disappointment. We were in hopes that you would deem the situation so grave and important that you would devote your personal efforts to stop the killing of men, women and children and we still hope you will use your efforts and authority to this end."

## NEW PLAN OF ENVOYS

ASK UNITED STATES, HUERTA AND CARRANZA TO SEND EMISSARIES TO THEM

### HANDLE ALL PHASES

May Result In Settling of Mexico's Internal Strife As Well As Trouble With U. S.

By Associated Press.

Washington, May 2.—The three Pan-American envoys who have undertaken the task of pacifying Mexico by diplomacy today made another decisive move by requesting the United States government, General Huerta and General Carranza to appoint representatives to confer with them in Washington. Ambassador J. Gama of Brazil, and Ministers Maon and Suarez of Argentina and Chile, respectively, called on Secretary Bryan, asking him to designate the United States representatives. At the same time, they telegraphed their request to the head of the government in Mexico City as well as the Constitutionalists.

No announcements of the subjects to be considered by the representatives of the three parties to the mediation or of the functions of the new envoys was made, except for the following brief statement issued through the State department on the authority of the three diplomats: "The mediators have delivered to this government, and we are sending out to General Huerta and General Carranza, requests that representatives be appointed to confer with the mediators."

The proposal to bring about specially designated representatives was the result of an all-day session of the South American envoys. The suggestion had been made to them from various quarters that much time would be saved, and the problem of exchanging views simplified by such a process. While it is realized that representatives of all parties probably will not be given authority finally to pass on points brought up in the discussion with the mediators, they can sound out their superiors so that before formal proposals actually were made the mediators would have an idea of their probable reception.

The envoys felt confident tonight that the step they had taken would meet with favor from all concerned, believing there could be no objection to a move calculated chiefly to facilitate the progress of the work. Thus far, responses from General Huerta and General Carranza have not been clear as to whether the differences between the United States and Mexico, arising out of the Tampico incident, alone would be considered by them, or whether they would consent to a general discussion of the Mexican problem. By sending representatives here, it is pointed out, such difficulties would be bridged over for in an informal conference with the mediators everything pertaining to Mexico could be discussed and even informally submitted before the stage of formal proposals was reached.

To Cover Wide Scope.  
Incidentally it is known that the mediators intend to concentrate their attention on the broad subject of pacifying Mexico hoping that differences between the Huerta government and the United States may come secondary in view of a solution of the entire Mexican problem.

Names of persons who might be acceptable to all factions in Mexico for the position of provisional president, pending a rehabilitation of the national government in case the negotiations reach that stage are being suggested to the mediators. Meanwhile, although the United States and General Huerta have agreed to a cessation of hostilities, no word has come from either Huerta or Carranza in response to the proposals for armistice between the Mexican actions themselves. The mediator, however, is confident that the work can go ahead despite this obstacle. Should Gen. Huerta and Gen. Carranza decide to send special envoys, it may take at least ten days for

**BOTH SIDES SATISFIED WITH GARRISON'S ORDER.**  
By Associated Press.  
Denver, Colo., May 2.—Secretary Garrison's proclamation calling upon all citizens in the strike district under military service to surrender their arms elicited the following statement from J. F. Welborn, president of the Colorado Fuel and Iron Company: "It suits the operators perfectly." When shown the dispatch announcing the proclamation, E. L. Doyle, district secretary and treasurer of the United Mine Workers of America said: "We understand by this order mine guards, detectives, militiamen and strikers alike are to be disarmed. If this is the interpretation of the order, trouble in the strike zone is at an end. If the militia are allowed to retain their arms there will be trouble as a large proportion of them are under pay of the coal companies."

Waitts of Marshall was second with fifteen points in the high school events. Betts of Marlin did best with ten points. Harrell of Brownwood and Robertson of Marlin tied for second honors.

In the academy division, Marshall Training School scored 43 points; Coronado Institute of San Marcos was second with 36 points. Waxahachie Training School third with 21. St. Edwards of Austin scored 19 1/2 points and Brittons Training School 8 1/2 points. Coronado won the relay race. Marlin high school scored a total of 38 points in the high school division, winning the state championship. Other high school scores were: Brownwood 24 1/3 points; Houston, 20 1/2 points; San Antonio, 8 1/4 points; Waxahachie 7 1/4; Oak Cliff 6; Temple, 5; Fort Worth, 5; Jacksonville, 5; Garrison, 5; Nacogdoches 3 1/2; Austin, 2; Nocona, 2; Center half a point. Marlin won the relay event. Carr of Marlin lowered the state high school mile record, despite the heavy track; his time was 4:52 2/5. Worth broke the high school record, established by the state academy record for hammer throw, while Wentzel of Temple broke the same record in the high school class. Waitts hurled the lead 143 feet, five inches. Wentzel, 133 feet, three inches. Sharp of Fort Worth broke the high school record for the broad jump, going 21 feet, seven inches.

Every little shower makes just that much more wheat.

Peace suggestion: Teach the Mexicans the tango.

Now that he has been acquitted on the charge of arson Rev. J. Frank Norris can give his undivided attention to that big revival meeting over in Dallas.

What's in a name anyway? Campaign, Ill. has voted dry, and it's the second time in two years. The Southern Lumberman says that ought to make it "extra dry."

These rains are the making of good crops. Prosperous times are ahead of us, and again we pause just long enough to remark: "The water is fine." If you are a good swimmer, jump in.

We knew that Electra was prepared to pull off something spectacular for the entertainment of the National Editors but we didn't think about the burning of a 55,000 barrel oil tank. It's a safe bet that Electra and the oil industry are forever associated in the minds of those editors.

There have been 772 automobiles registered in Wichita county up to this date. Those who pretend to know say this is a sign of prosperity. If this thing keeps up it will be no safer awhile—we hope, that even newspaper men can own the gasoline wagons. So far they have to be content with an occasional street car ride.

Col. R. M. Johnson, editor of the Houston Post, has climbed in the Ball band wagon. He says that he differs with Col. Ball on the matter of statewide prohibition, and believes that he can consistently vote for Ball for governor and at the same time vote against submission, and says that if Ball is elected and submission is defeated the question will never come up again.

The National editors have come and gone, and their stay with us was made as joyous as possible, considering the gully washer and trash moving rain that fell shortly after they reached this city, which interfered with the carrying out of the program of the day. But editors are reasonable people. They did not complain in the least, or seem disappointed on account of the rain. Some of them had heard that it never rained in this country. They know better now. The country through which they passed was lined on both sides of the railroad track with waving fields of green wheat, cotton and corn, and the rain really was an advantage. They are a jolly lot of men and women, and the times feels quite sure that each and every one of them will have a good word to say of Wichita Falls, Electra and Burk Burnett, and this section of the state when they get back home.

**BARBECUE DINNER IS SERVED AT ELECTRA**

(Continued from Page 1)

As if by pre-arrangement, one of the Texas Company's 55,000 barrel tanks, west of the city, was ablaze and the special train was run to where the editors could get a full view of the wonderful sight. Flames were surging high into the air from the big steel receptacle, while dense clouds of black smoke darkened the sky. A number of Electra men had gotten on the train, and these were piled with questions as to the oil. Nothing that could have happened would have impressed more deeply upon the visitors that this is an oil country.

**Speeches Are Heard.**  
After seeing the fire, the editors were taken back to Electra, where a baggage truck on the station platform was pressed into service as a speaking platform and Bob Cook, the Silver-Tongued orator made his welcome in a short, ringing speech. Lee J. Rountree of Georgetown, who is master of ceremonies on the trip, introduced other speakers. Among those who responded were Mrs. H. C. Hotelling of Minnesota, Dietrick Lamade of Williamsport, Pa.; Edward Higgins of Avoca, N. Y.; Homer Harwood of Michigan; J. Ross Woodring of Indiana; Ed Albrought of Tennessee; F. M. Mills of South Dakota; Mrs. Laura Hart of Alaska; Will Harris of Dallas, and W. J. Sheldon of Electra.

As each speaker was introduced a number of the editors, lead by Mrs. Lee Rountree, would greet him with the "style song" and any brilliant utterance would be marred by the "We believe you" song. The volunteer chorus sang throughout the day, with little or no provocation and made a decided hit.

**Barbecue Served.**  
By noon the oratory was over and the crowd repaired several hundred yards southward to the barbecue. Vans were provided for the ladies, the others walking. At the pasture were laid long tables, each heaped with nickles, light bread, doughnuts and pies. The barbecued meat, smoking hot from the trenches, was brought to each visitor and as preparations had been made for a much larger gathering there was plenty to go around and they ate and drank until the savory beef and mutton until further eating was impossible, especially in view of the coming banquet in Wichita Falls.

Dinner over, the editors were brought back to the train and their numbers considerably augmented by Electra citizens, started for the ride to Burk Burnett. The train was run to the North Wichita yards and there transferred to the Northwestern for the Burk Burnett trip.

**Are Well Entertained.**  
Electra had made extensive preparations for entertaining the visitors and the citizens were much disappointed that they were unable to take the visitors to the oil fields. Committees of the Commercial Club had arranged for every feature of the entertainment and saw that nothing was lacking. When tables and benches had been set, the party broke up and the committee members were in charge. Mayor S. Walker, President Sheldon and Secretary Grever of the Commercial Club were the "ram rodders" but practically the entire citizenship, including the ladies, saw that the guests given a genuine Electra welcome.

**BRIEF BUT ENJOYABLE IS VISIT TO BURKBURNETT**  
As at Electra and Wichita Falls, the editors found deep mud at Burk Burnett and nothing in the way of a formal entertainment was attempted when the special train arrived there yesterday afternoon. A large company of citizens, reinforced by the band, was at the station when the train arrived and gave the editors a royal greeting. The editors dismounted and sang a number of songs, followed by some speeches along the same lines as those at Electra, which the crowd greatly enjoyed. Mayor Schweigler of Burk Burnett, spoke on behalf of the citizenship of that community, extending welcome to the visitors and expressing regret that the weather often had interfered with the plans. After some more jollification on the part of the tourists, they resumed their seats in the train and the trip to Wichita Falls was begun.

**PLAN TO SPEND TODAY AND TOMORROW AT DALLAS.**  
The editors left on their special train at 3 o'clock this morning for Dallas, where they will spend today and tomorrow, the party breaking up tomorrow night. There is no set program for today, but it is probable this morning that all of the party will attend church in a body at some Dallas house of worship. The various clubs of the city will be open to them throughout the day. Tomorrow there will be several entertainment features, including a banquet, which will conclude the festivities of the tour.

**Sagacious Dog Saves Master**  
Geneva, May 2.—Having been entombed in a huge avalanche, Joseph Moser, a young Swiss of Valais, owes his life to the sagacity of his dog. Both had been overwhelmed in the big slide but the dog managed to get free and guide his way to the Moser home where his sagacious behavior led his father to summon the neighbors and set out in search of the young man. Piloted by the dog the party reached the avalanche and after six hours succeeded in extracting the youth, who was unconscious and barely alive.

**Operators' Views Given.**  
The report of the Colorado mine operators was received from Denver the same day. It was signed by eighteen companies and recited what had happened in the strike zone since the attack on the militia April 20. The lawlessness, they said, was committed "with the tacit consent, active co-operation and under the personal direction and control of officers and paid agents of the United Mine Workers of America."

"The coal operators of this state," their telegram said, "now have in their employ about 10,000 men who are satisfied with the conditions of their employment. With the men we will always treat, but we cannot enter into negotiations with agents and officers of the United Mine Workers who alone are responsible for the terrible reign of disorder and bloodshed which has disgraced this State."

Chairman Foster replied to this yesterday, telegraphing the coal operators:

**Pleas For Arbitration.**  
"I am anxious for an arbitration, regardless of who is to blame," he told them it was their duty to submit to arbitration. At the same time a supplementary telegram was received from the mine operators calling attention to Governor Ammons' suggestion for ending the strike. The operators said they accepted the suggestion, but the strikers refused. Chairman Foster replied to this today in a telegram to President Wellborn of the Colorado Fuel & Iron Company saying:

"I always have understood that the reason the miners refused to accept the suggestion of settlement of the strike offered by the governor was because they did not provide a means whereby the miners could present their grievances."  
"William Green, secretary-treasurer of the United Mine Workers of America, in a signed published statement, says the question of unionizing the mines is not the issue. Why cannot all other questions be now submitted to arbitration regardless of failure to adjust differences in the past?"

**M'CLURE PRO DEMOCRAT CONTROLLER CANDIDATE**

**By Associated Press.**  
Dallas, Texas, May 2.—T. F. McClure of Stamford, will be the nominee of the prohibition democrats for controller. This was announced here today by A. J. Barton, one of the members of the committee whom was referred the matter of selecting the candidate from among the three prohibitionists who had announced for the office.

As soon as the decision of the committee was announced World S. Ray of Denton and Charles B. White who have been in the race for the nomination announced that they would support the selection made by the committee.

**Editors Take Leave.**  
The program of toastmaking closed with brief addresses by A. D. Moffett of Peru, Indiana, and Mrs. Buchanan of Fort Worth, one of the delegates to the Mothers Congress, and the reading of a poem dedicated to Wichita Falls by Mrs. Simms.

It was 11:30 when the crowd took the cars for town where the editors' special left at 12:30 for Dallas where the "circle" tour closes tomorrow.

**Steamship Rates Advances**  
New York, May 2.—The Eastern Steamship corporation today put into effect its advance rates for first-class passengers on all lines west of Boston, according to the plan adopted February 25. The plan included also the discontinuance of second class passage on all such boats. "Increased cost of doing business," was the reason given by Passenger Traffic Manager C. H. Taylor for the increased tariffs.

strict Texas Mothers Congress which adjourned a two days' session here yesterday afternoon. These with members of the reception committee and other guests brought the attendance at the banquet well above three hundred being one of the largest crowds ever served at the pavilion.

**Special Cars Provided.**  
Cars for the lake were in waiting when the editors' special train got in from Burk Burnett at about 6 o'clock. At 7:30 the banquet was served. The menu was as follows:  
Tomato Bullion  
Radishes Tomatoes Olives  
Tenderloin of trout Saratoga flakes

**Several Speakers Heard.**  
Judge R. E. Huff, president of the Chamber of Commerce, acted as toastmaster. He first introduced Mayor A. H. Brittan who welcomed the editors to Wichita Falls. He said that Wichita Falls had not only invited the editors to include Wichita Falls on the "circle tour" but had honored and bestowed the committee in charge to have the special routed through Wichita Falls. He spoke of the influence of the profession and of its work for the advancement for the cause of humanity. "We have stood for progress in Wichita Falls and in Wichita county and we expect to be better prepared for further progress as the result of your visit," he told the editors.

Lee J. Rountree of Georgetown, in responding to the welcome address, said that nowhere in the confines of Texas was there a more progressive citizenship than in Wichita Falls. He referred to the Mothers Clubs and the exalted work that organization is doing. In a pause in his speech the assembly took up the refrain: "Oh, how we love Rountree  
"Oh, how we love Rountree  
"Oh, how we love Rountree  
"Because we love him so."

Among the other speakers were E. P. Haney, who related a amusing story and Mrs. Hutson, State president of the Mothers Congress who expressed the appreciation of the mothers for the invitation.

**Magazine Editor Speaks.**  
Frank Kell said some facts about Texas production and of the opportunities for increase and mentioned particularly Wichita Falls part in the agricultural and manufacturing industries of the State showing how Wichita Falls products were being sold throughout the world. He invited the editors and their friends to come to Texas and, to the Wichita Falls, country declaring, "We expect to make ourselves heard all over the world."

With brilliant eloquence Joe Mitchell, Chappell of Boston, editor of the National Magazine, forecasted the future of Wichita Falls. He said that in future years in unfolding the record of 1914 in Texas, Wichita Falls page would stand forth in brilliant illumination. He termed the editors the "National Rating Association" and said that none of them had slept since entering the State. He said that as if to emphasize their welcome to Wichita county "a jove like bolt had fallen from heaven and in the clouds was flashed a welcome," referring to the burning of the great oil tank at Electra fired by a lightning bolt. The witchery of Wichita he said would be one of the pleasant remembrances of the trip. Kemp and Kell, he said, were known all over the country as two of the greatest town builders in America.

It will be remembered that Dr. Harle was held in prison in Mexico for several years and was finally pardoned upon the intercession of the United States government.

MEXICO CITY MOB MISTOOK HER FOR AN AMERICAN AND KILLED HER

**SHE WORE A GERMAN FLAG**  
Mob, However, Thought This An Attempt to Disguise Her Nationality

**By Associated Press.**  
Mexico City, May 2.—Mrs. Mary Beckmeyer, a German woman who according to a rumor was mistaken for an American, was killed by a mob on April 27th, is the news brought here today by refugees arriving from Mexico City. No confirmation of the incident has been received here.

Under the impression that trains were still in operation over the Inter-oceanic route the refugees went to the station of that line and had to make a run to the station of the Mexican National line the only one in operation to the coast so that the news of the killing of the woman did not spread among the American refugees.

Mrs. Beckmeyer was a widow. She wore a small German flag in her hair but the mob regarded this merely as an attempt to disguise her nationality and is said to have dragged her and so mistreated her that she died from the effects.

**Russian Espionage in Sweden**  
Stockholm, May 2.—That Russia is carrying on a well-organized campaign of espionage in Sweden is borne out by the frequent arrests of persons suspected of spying. Among those recently imprisoned is a young Swedish student named Malmberg. He is accused of selling valuable information to Russian agents, in complicity with a non-commissioned officer of the Swedish army and a government clerk, who were lately convicted and sentenced to five years' hard labor.

hem to get here and in the interim it is not believed vital points will be reached by the mediators. The interval elapsing will prove beneficial, some officials believe, in that it will give the war spirit in this country an opportunity to subside while the tension of the contending parties in Mexico will be affected by military developments there.

**Resignation of Rojas.**

While the mediators spent the day considering the proposals to bring representatives of all factions together, official Washington and diplomatic circles were interested in the resignation of Senor Lopez P. Y. Rojas, minister of foreign affairs in the Huerta government. It was variously interpreted, some seeing in it an indication of Huerta's intention to brook no suggestion for his own retirement. Senor Rojas was active in mediation preliminaries; others suggested that it might be the means of selecting the cabinet officer as a special representative of Huerta to confer with the Washington mediators. The appointment of Senor Esteve Ruiz, under-secretary of foreign affairs and a close friend of Senor Rojas, gave many officials here the impression that there was nothing ominous in the change so far as mediation was concerned and if Rojas was forced out of the cabinet, the incident was personal rather than political in significance.

**Huerta Seems Skeptical.**

In well posted diplomatic quarters, Ruiz appointment as Huerta's foreign minister was accepted as meaning that Huerta would take a stronger and more direct hand in the mediation negotiations, but not to the extent of letting mediation fail, as there was reason to believe Huerta had now come to recognize that a failure of mediation would carry him down with it. It was definitely known that as late as Wednesday, after Rojas had given Huerta's acceptance of mediation, Huerta held a conference with one of the European ministers in Mexico City at which Huerta expressed doubts of mediation and urged that European powers ought to get together in some plan.

His main desire was that they would bring about arbitration binding in both parties instead of mediation which is advisory. No action was taken, however, but Huerta's views, then expressed, indicated his skepticism toward mediation. Ruiz is a comparatively unknown in Mexican official life; he is thirty-eight years old, a lawyer and had about four years in minor branches of diplomatic service, besides one serving as consul at Havana. He is expected to remain in Mexico, where he is expected to be active in the mediation which while not strongly confident of what mediation can accomplish, is not likely to permit its failure.

**The Possible Personnel.**

Interest in the personnel of the representatives to advise with the mediators was aroused in diplomatic circles. For the United States the name of Counselor Robert Danahy of the state department was prominently mentioned as he has represented this government on many international commissions. In the past John Lind, personal representative of resident Wilson in Mexico, John Bassett Moore and Henry White, former ambassador to France, also were suggested in various quarters. For the constitutionalists it is thought probable that Rafael Zabala, Guatemalan who arrived here today to become confidential agent of Carranza at Washington, will be designated. He left Juarez before the offer of good offices was accepted by Carranza but it was expected that the constitutionalists' chief if he responds favorably to the last request of the South American envoys would send full instructions to his newly arrived agent here to participate in the proposed conferences. For General Huerta, Senor Jodoy, for many years secretary of the Mexican embassy, Senor Alvarez until recently charge d'affaires of the embassy here, Senor Francisco de la Barra, Mexican minister to France, also have been suggested.

**HIGH SCHOOL TEAM WINS FROM BURKBURNETT**

The Wichita Falls High School baseball team went to Burkburnett last Friday and played the Burkburnett team. Both teams played gilt edge ball, but the pitching of Charlie Nolen brought victory to the Wichita boys, the score being eight to twelve. Nolen struck out twelve men and allowed only three hits. Joe Carrigan hit for three bases in the ninth. Batteries, Wichita Falls, Nolen and Jungk; Burkburnett, Thomas, Morris and White. The Burkburnett team is scheduled to play the Wichita boys here next Friday afternoon.

### What Are Raisins?

That may seem to you a sort of foolish question, because you are so familiar with raisins that you probably think that you know all about them and probably you do. But bear in mind that the best raisins are simply the evaporated prize bunches of California grapes. Suppose you went out into one of the California vineyards during the grape season and picked some large luscious bunches of those delightful California grapes and sat down somewhere in a cool and shady spot and ate them, then imagine those same grapes lying out in the sun properly cared for until the water of the rich juice had all been evaporated, leaving nothing but the pulps and sugar then you would have a bunch of delicious raisins.

Now you know that grapes are a delightful and a wholesome and nutritious food, then remember that raisins are nothing more than these same grapes less the water and you can easily put that back in if you want to cook them, or eat them the same as they are. They make a delightful food.

Here's an excellent recipe for the use of raisins:

#### RAISIN PIE

Cook together three-fourth box of seeded raisins, 1-1/2 cups water, 1 cup sugar, 1 level-teaspoon flour, sift sugar and flour, butter size of an egg, pinch of salt. When-cool add 1 well beaten egg and bake with two crusts. Paste for pie: 1 cup flour well sifted, 2 table-spoons lard well rounded, 3-1/2 tablespoons cold water, pinch of salt.

### AMONG VISITING EDITORS

One of the most interesting members of the party is Mrs. Laura Hart a lady who has spent some time in Alaska engaged in government work. While there she was called upon to investigate oil possibilities in a neighborhood where there was a native cemetery on the side of a hill. After visiting the grave yard, where the exposed bodies of the dead in various stages of preservation and decomposition were to be seen, Mrs. Hart went down the hill and found, at the bottom, a pool of water the surface of which was covered with what appeared to be oil. Her guide, a native woman, at first could shed no light upon the source of the viscous fluid, but after pondering the subject deeply analyzed the situation. Pointing to the burying ground she said that there were many of her relatives, all "heavenly" (dead). Her relatives, she continued, had been quite fat and their bodies consequently quite productive of grease; hence the oil in the pool. Mrs. Hart will be in charge of the Transportation building at the San Francisco Exposition next year.

Joe Mitchell Chapple, editor of the National Magazine and one of the best known characters in the country, is with the party, accompanied by Mr. Chapple. Mr. Chapple has recently visited Mexico and had some interesting experiences in that strife-torn region.

Among the Texas editors on the tour is Jack H. Estes of Dallas, former editor of the Dallas News, now editor of the Texas and Pacific Monthly Magazine. Jack is a worker and a booster for everything in the Texas and Pacific country, but this was his first visit to Wichita Falls.

The editors have started a gubernatorial boom for Lee J. Rountree of Georgetown, one of the vice presidents of their organization, who was largely instrumental in bringing them to Texas. He has been dubbed "Governor" Rountree and some of the Texans on the tour say they hope the term will stick.

F. M. Mills of Sioux Falls, South Dakota, who is one of the editorial party, is from the same town as the Sheldons, who own most everything at Electra and it was like a reunion when he got to Electra yesterday morning.

Mrs. Lee Rountree is "choir leader" of the editorial party and the bunch seems willing to be led into song at every opportunity. The style song and the dirty story "see by believe you" are the favorites, but there are others.

J. Ross Woodruff of Indiana, the circus man of the crowd and, Jr. has a splat that he got the money from the pockets of a wooden Indian if a wooden Indian had any pocket and had any money in them. Woodruff almost shed tears when he got to Electra, because he said it reminded him of certain dry holes he drilled in the vicinity of Peru, Ind. where he resides.

A. Emmen, a native Turk from Constantinople, but later of New York, was among the visitors. He overlooked nothing, in spite of the fact that he seemed content to spend most of his time reading a Turkish paper with all sorts of hieroglyphics on it.

State of Ohio, City of Toledo, Lucas County, ss. Frank J. Cheney makes oath that he is senior partner of the firm of Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm was paid the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

### GEM THEATRE WILL ADD SMOKING ROOM

The management of the Gem Theatre announces that the house will be closed on Tuesday and Wednesday to undergo extensive alterations and improvements which will make it modern in every respect. The alterations contemplated will include the removal of the ceiling and floor of the second story, making an auditorium open clear to the roof. Around the sides and end a balcony will be built which will provide about one hundred additional seats, and this will be reserved for gentlemen who desire to "smoke." In the roof an opening will be made, which will permit of fresh air being circulated throughout the building. The curtain will be raised and enlarged to show a larger picture and will be draped with red plush and frame with gold moulding.

## Get the Personal Touch

When we ask a man to step into the Mitchell Car and feel its mechanical pulse through the steering wheel, we are ten times closer to a sale than we can possibly be through talk and advertising. Confidence is a plant of slow growth. In the sale of automobiles, there's only one way to win it, and that's the "personal touch" way.

Because we have followed such a plan this Spring, the Mitchell Car is better known today than it ever has been. All over America prospective purchasers have sat in the driver's seat and tested the car to their entire and ultimate satisfaction. So that when they became buyers, they knew almost as much about the car as we know. They bought with the distinct, personal knowledge that the car was even better than its advertising said it was.

And the invitation is open to you. If you don't know the Mitchell car, this is the way to get acquainted with it. If you have ever felt the slightest doubt that it is the best car at the price made in this country, why don't you go to your nearest Mitchell dealer and ask him to let you drive the car yourself? If the car doesn't prove its worthiness on this personal test, then all that we might say on the subject would be words and time thrown away.

After you have driven the car yourself and have gotten the personal touch—after you have found out how smoothly and silently it runs—after you have witnessed and felt its splendid action on all speeds and tested the resiliency of springs, we will give you the details of its manufacture if you want them. But we want you entirely satisfied with the appearance and action of the car and its mechanism before we tell you a solitary fact.

If the Mitchell doesn't behave well under your guidance, you don't want any details. But if its action pleases you and imparts the physical charm that we know it possesses, than you want to know more about it. We know ourselves just how it looks, just how it acts and just how it feels. But we have driven it. And that's what we want you to do, so you will know whether it is safe to invest your money in that particular car.

When the sale of a Mitchell is completed, there is nothing else to talk about. No element of chance or speculation enters into the transaction. You go away knowing just precisely what you have to expect, and amply guarded against uncertainties. You go away knowing that our friendship doesn't end with the payment of the price. You go away convinced of the splendid merits of the car and the service and honor behind it. It is an ideal business agreement, and there's never any disagreeable "come-back."

The "personal touch" brings about such ideal business conditions. Confidence begins at the beginning, and we want to say to you that your confidence in this concern and the car it makes can never be misplaced. We have served the American public faithfully and honorably for eighty years, and the Mitchell-Lewis Motor Company will go on for eighty years more, in just the same way.

Russian Justice is Slow  
St. Petersburg, May 2.—The "slow speed gear" under which the Supreme Court of the United States sometimes operates can scarcely compare in effectiveness with that attached to the wheels of justice in Russia. The senate, which is the Supreme Court of the Empire, after deliberating on the question for thirteen years, has just decided that a Jew named Vaxman may establish a photograph gallery at Kholm. It was in 1901 that the photographer, who was conducting a studio in

Kranostay Poland, asked the governor's permission to start a branch shop in the neighboring town of Kholm. The governor refused, on the ground that Kholm was "an important strategical and religious center where a Jew would be out of place."  
Vaxman appealed to the Senate, and both he and the governor filed voluminous briefs in support of their respective contentions. According to the belated decision, the governor acted illegally, and a mandate was issued

permitted Vaxman to begin business in Kholm at his pleasure.  
Court officials sent to serve the papers, however, have been unable to locate the photographer who long ago moved from Kranostay. Folks there do not even know whether he is alive.  
If those who have headaches only knew what relief the proper glasses would give them they wouldn't wait a minute in coming to us for an examination. We know how. Dr. DuVoy's Progressive Eye Specialist. \$1

**WILD WEST STUNTS AT LAKE WICHITA TODAY**

"Doc" Moss, who is one of the star riders in the Enis & Nichols show at Lake Wichita today, is a veteran in range work in Texas and one who has seen service in all the cow camps from the Rio Grande to the Kansas line. He has also had war service, having spent a year with the British army in South Africa. At the outbreak of the war in Africa he was in the horse business at San Angelo and his firm sold a large number of animals to the British war department. Mr. Moss was delegated to deliver the horses and on his arrival in South Africa, Hugo Strickland, another of the Enis & Nichols riders has won his prize in hard work. At the Dallas corn show last winter he won the \$1000 silver mounted saddle offered as the first prize for fancy riding.

The Enis & Nichols show is a new amusement enterprise made up of strictly of wild west stunts, which are said to be the equal of any of the nature seen in any of the big shows. It will put on a performance at the lake this afternoon of which a moving picture will be made of both the audience and the performers.

**OLD FOLKS FIND NEW REMEDY RELIEVES ALL KIDNEY AND BLADDER MISERIES**

Drives Rheumatic Pains Away, Relieves Backache and Bladder Disorders After A Few Doses Are Taken

Sleep disturbing bladder weaknesses, backache, rheumatism, and the many other kindred ailments which so commonly come with declining years, need no longer be a source of dread and misery to those who are past the middle age of life. The new discovery, Croxone, cures all such disorders because it removes the very cause of the trouble. It soaks right into the kidneys, through the walls and linings; cleans out the little filtering glands and cells, and gives the kidneys new strength to do their work properly. It neutralizes and dissolves the poisonous uric acid substances that lodge in the joints and muscles, causing rheumatism; and makes the kidneys filter and sift out all the poisonous waste matter from the blood and drive it out of the system.

It matters not how old you are or how long you have suffered, Croxone is so prepared that it is practically impossible to take it into the human system without results. You will find it different from all other remedies. There is nothing else on earth like it. It starts to work immediately and more than a few doses are seldom required to relieve even the most chronic, obstinate cases. It is the most wonderful remedy ever made for restoring the lifeless organs to health and strength and ridding the system of every particle of uric acid, and you can take it with the utmost confidence that nothing on earth will so quickly cure such conditions. You can obtain an original package of Croxone at trifling cost from any first-class druggist. All druggists are authorized to personally return the purchase price if Croxone should fail in a single case.

Strange Sentences in Sydney Sydney, N. S. W., May 2.—Criminologists in Australia are greatly interested in the experiment of Judge Eagleson, of the Melbourne county court, in prescribing a novel form of punishment for men whose offenses are due to drink. A young man who pleaded guilty to embezzlement was allowed his freedom on condition that he should make good within two months the amount stolen, and should abstain from drinking intoxicants and gambling "during the rest of his natural life." The slightest infraction would render him liable to a ten months' sentence. A laborer, found guilty of assault, was released under similar conditions.

**MOTHERS' CONGRESS  
HAS MEETING HERE**

DISTRICT CONVENTION IS HELD  
IN THIS CITY ON FRIDAY  
AND SATURDAY

**MANY TOPICS ARE DISCUSSED**

Delegates Are Guests at Two Banquets Saturday and Adopt Resolutions

With the passing of resolutions and the unanimous adoption of the report of the nominating committee, the annual meeting of the Mothers' Congress of Texas, which has yet been held, came to a close Saturday afternoon and the crowning treat of the whole convention was the trip to Lake Wichita and Banquet at the pavilion, at which the Mothers' Congress delegates were the guests of the Chamber of Commerce jointly with the National Editorial Association.

The rain in the morning Saturday did not deter the ladies from carrying out their program, some substitutions being made where it was deemed advisable. Reports were made by the officers of the First District, from the county chairmen and the individual clubs in the morning and some reports from the individual clubs in the afternoon. Music was enjoyed by the Congress at both sessions, those contributing to the program being the music pupils of the public schools of the city and Mrs. Wade Walker.

At the noon hour luncheon was served by the domestic science girls of the high school to the entire body. The girls, under the supervision of Miss Alder, instructor in domestic science prepared the entire luncheon, arranged the tables and served, all being as near perfection as it could possibly have been. The tables were decorated tastefully with cut flowers, ferns and potted plants and the menu served was as follows:

Domestic Science Luncheon.  
Steamed chicken in patty shells  
Bread and butter sandwiches  
Cream potatoes Olives  
Hot biscuits with butter  
Ice Tea

Waldorf salad with mayonnaise.  
Cream sherbet Assorted wafers

A splendid program was enjoyed at the afternoon session, unusually good talks being made on various phases of the work by Mrs. W. A. Thomas of Fort Worth, who spoke on "Child Study," Mrs. Ella Carman of Dallas, Prof. Geo. H. Carpenter of this city and Edgar P. Haney also of this city.

An interesting discussion was engaged in by Mesdames Farrell, Culbertson, Beal, Peck, Steve and others on "Child Study and Child Welfare." Mrs. C. W. Hutchinson, State president of the Texas Congress of Mothers spoke at length on the plan of work of the Texas Congress of Mothers.

**Resolutions Adopted.**  
Resolutions were then passed declaring that body to be unanimously in favor of the establishment of a girl's training school of the schools wherever possible purchasing a motion picture machine for use in the school of the agitation on foot for reform in dress and then expressed their thanks to the city, the mothers, the teachers, the school board, the citizens who so kindly opened their homes to the delegates, the Chamber of Commerce, the domestic science class and all others who in any way contributed to their entertainment.

The following set of officers were elected by acclamation for the following year, the report of the nominating committee being given by Mrs. J. W. Lee, President Mrs. Watters of Fort Worth, Vice President Mrs. Farrell of Vernon, Recording Secretary, Mrs. Chamberlain of Stephenville; Corresponding Secretary, Mrs. Morris of Chico; Treasurer, Mrs. Snider of Wichita Falls; Auditor, Mrs. Bell of Brownfield.

All of the ladies expressed their appreciation of the hospitalities that had been accorded them and declared this meeting to be the most successful one that the First District has ever held.

A list of the delegates registering was as follows:  
Miss Sue Buchanan, Miss Wingfield, Mesdames Dooley, Long, Hoyt, Thomas, Reeves, Sealing, Mathis, Hopkins, Kaykendall, Hutchinson, Rose, Glad Hall, Carlson, Newsome, Jack, Watters, all of Fort Worth; Mesdames Neath, Farrell of Vernon; Mesdames Beal and Bryan, Sweetwater; Mesdames Jacobs and Puckett, Henrietta; Mrs. Morris, Chico; Mrs. J. T. Posey, Haskell; Mrs. Chamberlain, Stephenville, Mesdames Dale Brown, C. H. Clark, Iowa Park; Miss Hawthorne, Claude; Mrs. Davenport, Lakeview.

**Opening Session Friday Afternoon.**  
The first session was held Friday afternoon in the high school auditorium. About forty-three delegates had registered at 4 o'clock and a number more were expected. After the preliminaries of registering were over with and homes had been assigned to the delegates the meeting was opened with Mrs. A. E. Watters, district president, presiding. The meeting of the board of managers which was to have been held preceding the afternoon's program was postponed.

The program for Friday afternoon consisted for the most part of informal discussions on the subject, "How to Have an Enthusiastic Mothers' Club." Among those who discussed this subject were Mesdames Brian, Posey, Chamberlain, Farrell, Carlson, Buchanan, Bernsey, Lee, Culbertson and C. W. Hutchinson, State president of the Texas Congress of Mothers. All of the speakers agreed that to have an enthusiastic Mothers Club the hearty co-operation of the teachers and school board was necessary and according to the testimony of a majority, refreshments were a powerful factor in obtaining a good attendance

Prominent Wichitans, It is Learned, Have Learned the Tango and the Maxixe

"One-two-three-dip, point, slide, turn one-two-three-four, glide, one-two-three-dip, etc."

You look on with an air of injured indifference; you are bored to death, but too polite to say so. You are witnessing the tango, or the hesitation or some of the new fangled dances and wondering what in creation there is about them to make people lose their heads so.

"There's nothing to it," you aver. "It's simply gliding and sliding and dipping and sliding to it. I've got my opinion of folks who haven't anything else to do."

Goldsmith in his "Deserted Village" tells of the sinners who went to church to scoff, but remained to pray. There are some folks here in Wichita Falls who furnish an apt analogy for these sinners. They went to laugh at the tango, and now they are tangoing themselves. Keep your seat, please; we're not going to call any names. But all the same, there are some prominent folks who did just that; they came to laugh and remained to dip. The modern version of the old nursery rhyme is:

"Miss Mary, quite contrary,  
How does that new step go?  
A slip and a slide and a dip and glide,  
And then four hops in a row.  
There are about two hundred different species and served, all being as near perfection as it could possibly have been. The tables were decorated tastefully with cut flowers, ferns and potted plants and the menu served was as follows:

Domestic Science Luncheon.  
Steamed chicken in patty shells  
Bread and butter sandwiches

but the most successful means of getting a large number of the mothers to attend the meetings was to have the children take part in the program. The place of meeting for the Mothers Club was also discussed and it was unanimously decided that the school building was the logical place for such meetings to be held.

Following the discussion Dr. Sampson of Fort Worth, executive secretary of the Texas Conference of Education, made the assembled parents and teachers a very interesting talk, commending their work and speaking of the object of the Texas Conference of Education. On the conclusion of Dr. Sampson's talk the convention adjourned for the afternoon and an informal reception was held in which all the delegates were afforded an opportunity to be present.

Occupying the platform during the afternoon session were the following: Mrs. C. W. Hutchinson, State president; Mrs. A. E. Watters, district president; Mrs. J. T. Posey of Haskell, vice president; Mrs. Joe Price, secretary; Mrs. Beal, acting secretary; Mrs. Newsome, district auditor; Mrs. Short, treasurer; Mrs. J. W. Lee, state auditor; Mrs. Carlson, Tarrant county organizer; Mrs. Farrell, Wilbarger county organizer; Mrs. J. W. Culbertson of this city and Mrs. Dale Brown of Iowa Park, Miss Ellen Fain of Friday Evening Session.

At the evening session Friday an unusually entertaining program was carried out and a large number of delegates, mothers and teachers, and others interested in the work of the Mothers' Congress assembled to enjoy the excellent program. Mrs. J. T. Posey, vice president, presided and the meeting was opened by an invocation by Dr. McKee. Mayor A. H. Britain welcomed the mothers in behalf of the city. Mrs. J. L. McKee gave a hearty welcome from the Mothers Clubs of the city. To these welcomes addresses Mrs. C. W. Hutchinson, president of the Texas Congress of Mothers responded. The principal speaker of the evening was Dr. Binzel, president of the College of Industrial Arts at Denton. Dr. Binzel discussed at length the sub-

ject of Child Welfare and Educational progress, bringing out many excellent points and helpful suggestions. An especially enjoyable feature of the program was the musical number by Mrs. G. Fred Thompson, a vocal solo and also a vocal number by Mr. Ivan Murchison. Rev. Walters closed the meeting with prayer.

**PROGRESSIVES WILL PUT OUT TICKET.**  
Chicago, May 2.—George W. Perkins of New York, voting the opinion of his colleagues on National executive committee of the Progressive party, in session here, said: "We intend to have Progressive party tickets up in each county throughout the country in the fall elections."  
Mr. Perkins said that the committee, which had decided to hold its regular monthly meeting here to receive reports of conditions in the

Middle West, was satisfied that the situation was encouraging.  
While the meeting was in progress a cablegram was received by Mr. Perkins from Col. Roosevelt, saying he was at Manaus, Brazil, and that in a few days he would make known what his further plans would be.

**LONE STAR COMPANY IS SPENDING HALF MILLION**  
Immense Compressing Station Will Be Built at Petrolia By Gas Pipe Line Co.  
Steps to insure good gas pressure for Wichita Falls and North Texas consumers are being taken at Petrolia by the Lone Star Gas Company, which is planning to spend more than half a million dollars for improvements there. The North Texas Gas Company, which supplies Wichita Falls and other North Texas towns, buys its gas from the Lone Star.  
The Lone Star Company will start work within the next few weeks on an immense compressing station which will operate to keep the pressure up to the mark of 300 pounds per inch.  
If, in years to come, the wells at Petrolia should play out and no other gas production be discovered in this section, the Lone Star Company will extend its pipe lines across to the Oklahoma gas fields and the consumers in neither Wichita Falls nor any other North Texas city will be inconvenienced.  
The compressing plant consists of a number of large engines, each connected with a gas well. If the rock pressure in a well has fallen to one hundred pounds to the square inch, the engine will send the gas into the mains at a pressure of three hundred pounds or better. It operates on the gas just as a fire engine takes water from the plug and increases its pressure at the nozzle.  
Many wells at Petrolia have a pressure of considerably over 300 pounds and this is lost hardly at all by the time it reaches Wichita Falls. A 300 pound pressure at Petrolia would be about 200 pounds in the mains here, but when it got to Dallas it would be 125 pounds or less. The company endeavors to maintain a pressure of 300 pounds to the inch.  
According to H. P. Hodge of the North Texas Company, Oklahoma's supply of gas will be available for North Texas when Clay county plays out and the officials of the company are looking to the future years—everybody hopes many years in the future—when Texas will have to look to Oklahoma. When that time comes, the Lone Star Company will extend its lines from Petrolia across Red River and to the fields. The Lone Star Company will spend approximately a million dollars in North Texas in improvements on its system.  
Work on the buildings will begin in time for the plant to be completed in the fall. Excavation has already started.

TACKY PARTY OF EPISCOPAL GUILD A GREAT SUCCESS.

The tacky party given Tuesday evening at the Kemp Kort dining room by the entertainment committee of the Guild of the Good Shepherd proved quite a success, both socially and financially. A large crowd was in attendance and the costumes were the cause of much merriment and amusement for some time. The costumes of years past were assumed for the occasion and every conceivable combination of colors was observed. A short musical program was carried out in the early part of the evening, Miss Gordon giving an instrumental selection, accompanied by Mr. Bradbury on the violin. Miss Simpson sang and Miss Sammons gave a piano number. Then to the strains of "Turkey in the Straw" played by Mrs. Inge, the "Grand March" commenced. Rev. Datson and Messrs. Bibb and Sammons were the judges to pass on the tackiest costumes and the couples passed by the judges stand in grand review. The ladies' prize was awarded to Miss Mabel Simpson and the gentlemen's to Mr. Inge. Following the awarding of the prizes the old-fashioned dances were indulged in, the Virginia Roll and others and some of the newest dances were introduced as well. The occasion was a very enjoyable one for all present, being free from any restraint and formality and the committee may

consider themselves capable entertainers.

CALL FOR FORMATION OF CLUBS IN RURAL DISTRICTS

The United Clubs wish to extend an invitation to the women in rural districts near Wichita Falls to join in the club work and form clubs and ask that all interested communicate with the United Clubs. An arrangement can be effected, whereby Wichita Falls would become the center of club interest for all the surrounding communities and an arrangement of this sort will prove of mutual benefit to both the town and rural club women. Clubs may be organized for literary, music and art study, also domestic science and the United Clubs are concerned with extensions along those above named lines. With the hearty co-operation of both town and country literary clubs much can be gained and Wichita Falls could be made a club center. The constitution of the United Clubs has a sufficiently wide scope to include in its membership clubs in the rural district and it is hoped that a number of clubs will be formed soon. The club women of the city are hoping for a large response to this call from the women of the rural districts.

of the class; in league with her daughter-in-law, and the honoree was invited to dine away from home by one in the secret, in order that plans could be carried out the more expeditiously. When all of the class and other guests were assembled the honoree was called home and her surprise on arriving home was complete. Mrs. Fairchild, in behalf of the class presented their beloved teacher with a set of pie forks, engraved with S. E. C's 14; and Mrs. J. J. Lory read a toast to the honoree, an original poem composed by herself, as follows: In eighteen hundred and forty-nine, The Fates did prove most kind, For in quaint old Lexington town, In Kentucky state 'way down A bright-eyed baby girl was born. This baby grew as babies will, To a girl of five, more wondrous still, Missouri then became her state - And there in 1859 she found her mate, The years sped on, as years will do, Bringing joys and sorrows too, But her heart was calm, her trust complete, She laid her all at Jesus' feet In eighteen hundred and eighty-eight, These chaste Texas as their state, Again the fates were kind, to us she came, Two score years ago we spoke her name, Our teacher dear, our hearts did cheer, And as she taught, her faithful life Inspired us all to live aright, She fed us from the "Bread of Life,"

Taught us to try and shun all strife, We listened to her as she told, Of the many lost ones out of the fold, Our hearts were touched, the longing grew, To serve our Christ, the tried and true, We come tonight our love to show, To keep your birth of long ago, If all of our wishes were in a row, They would most wondrous love show, Happiness, health, friends, love, Everything good from your Father above, This little gift will show in part, The place you hold within our hearts, Use them often, use them well, Let them to you of our love tell, As years roll on we wish you peace, And at life's end a sunset clear, And from your Master, the "Well Done" hear. Mrs. Clasbey was visibly touched by the gift and the reading and responded in a grateful little speech. For the remainder of the afternoon contests of a Biblical nature were held and a social time was enjoyed. Ice cream and angel food cake were served to the following: Mesdames Lory, Peeler, Brooks, Waggoner, Phy Taylor, Snider, Shumake, Hall, Fairchild, Moore, Parrish, Amison, Brown, Lawler, Clasbey, Carter, Shepherd, Cundiff, C. Taylor, Ponder, Farmer, Walker, Barnard, Savage, McGregor, McGinnis, Huff, Kemp, Anderson, Simmons, Burgess, Dillard and the honoree, Mrs. Clasbey.

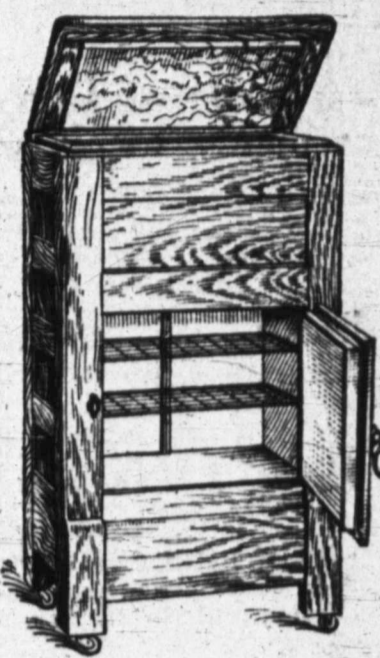

THE MISSES BACHMAN ENTERTAIN THE CRESCENT CIRCLE. The Crescent Circle met in regular session Tuesday afternoon with Misses Lillian and Ruby Bachman as hostesses. The afternoon was spent in the usual manner with needlework and pleasant conversation. Delicious refreshments of brown bread sandwiches, grape whip, devil's food cake and chocolate were served to the following: Misses Altra Friberg, Hazel Hunter, Mabel Byman, Leitha, Musgrave, Jessie Roberts, Mesdames Montfort, Duke, Birchard, Gibbs, M. S. Coe, George Friberg. UNITY CLUB HOSTESS TO CLUBS OF CITY SATURDAY. Saturday afternoon the literary and musical clubs of the city enjoyed the privilege of a lecture by Mrs. Margie Barry, vice president of the State Federation of Women's Clubs, the Unity Club acting as hostess for the occasion at the home of Mrs. J. A. Kemp. Mrs. Barry is head of the English department of Kild-Key College and a very fluent speaker, possessing the ability to portray any subject admirably and to hold the attention of her audience. Her discourse of Saturday afternoon was on Browning's "Ring and the Book." Preceding the lecture a short musical program was given by a trio of local artists, Mrs. Walter S. Robertson gave a vocal selection, Mrs. Bruce Greenwood gave a violin number and Mrs. G. Fred Thompson gave two vocal selections, choosing the

numbers from Browning's songs. Following the lecture a social hour was enjoyed, the members of the Unity Club serving punch and making very agreeable hostesses. The house was decorated for the occasion with a profusion of potted plants and quantities of the Unity Club's flowers, pink and white carnations. Quite a large number of the members of the various clubs of the city enjoyed this unusual pleasant hospitality and the excellent lecture by Mrs. Barry. MRS. FOSTER'S PUPILS GIVE RECITAL TUESDAY EVENING. On April 28th at 8:30 p. m., the senior members of Mrs. Foster's class gave a piano recital at the home of Mr. and Mrs. Von der Lippe, corner Thirteenth and Bluff. They were assisted by Mrs. E. L. Fulton whose excellent rendition of Fost's "Good Bye" and two "Little Japanese Songs" by Woodforde-Filden completely captivated the audience. The program was as follows: Consolation, Agnes Lecham; Love Song, Lucy Huggins; prelude Op. 28, No. 15, Amy Ellinger; song, Mrs. Fulton; Spring Song, Ila Cook; Song of Love, Amy Ellinger; Nocturne Op. 37, No. 1, Ila Cook; Song, Mrs. Fulton. The high class program speaks for itself and the manner in which the performers acquitted themselves may be best expressed by the remark of a musician among the audience: "But these are not only students, they are some future artists." The remarkable advancement that was noticeable in the

same pupils which took part in last year's recital will recommend Mrs. Foster as one of the leading piano teachers of our city. REV. AND MRS. CANNEDY CELEBRATE CHINA WEDDING. Wednesday evening Rev. T. E. Cannedy and wife celebrated their twentieth wedding anniversary with a large informal reception at their home, 805 Bluff. Unique cards for the affair had been issued bearing the name of Rev. Cannedy and his bride of twenty years ago, the date of the wedding, then the "at home" April 29, 1914. This being the china anniversary, the decorations were in keeping, a color scheme of gold and white being observed. In each of the reception rooms and the hall the chandeliers were entwined with white and gold with the two dates figuring in this celebration, 1894-1914. In the large arch between the two rooms were the names tastily arranged and decorated, Cannedy-McEldath. Wild primroses and the yellow and white daisies were much in evidence, as well as roses and foliage from the same yard where the bride's bouquet was obtained twenty years ago in Campbell, Texas. The idea of the china wedding was carried out in printed booklets, containing a floral wedding contest, with china illustrations, together with the dates and names of the host-and hostess. When a Wichita Falls citizen comes to the front, telling his friends and neighbors of his experience, you can rely on his sincerity. The statements of people residing in far away places do not command your confidence. Home endorsement is the kind that backs Doan's Kidney Pills. Such testimony is convincing. Investigation proves it true. Below is a statement of a Wichita Falls resident. No stronger proof of merit can be had.

Mrs. G. A. Swope, carpenter, 612 Burnett Street, Wichita Falls, Texas, says: "I had pains across the small of my back and in my sides and trouble with the kidney secretions. My ankles became swollen. A few boxes of Doan's Kidney Pills cured me. I seldom have occasion to use a kidney remedy now, but when I do, Doan's Kidney Pills always give fine results."

ADVENTURES OF KATHLYN

More of the Adventures of Kathlyn will be shown at the Majestic Monday. The story follows:

The chance shot fired by the villainous but keen-sighted Umballah, makes a bone bruise upon the fair arm of Kathlyn. This however, does not stop her flight, or militate against the escape of herself, her daring companion, Bruce, and her father, Col. Hare, who escaped from prison through the machinations of the clever Pundita and met them at the appointed rendezvous before the vengeful Prince and his creatures started in pursuit. Fortunately, the escaping party is accompanied by Ramabal and his faithful wife, Pundita, who are now Kathlyn's staunchest friends and of invaluable assistance in every emergency. Presently they emerge from the jungle and see far out on the plains the white towers and shining minarets standing silhouette against the sky—alhabad, the walled city of the desert. They approach the town and are received by sentinels at the gates and are conducted into the presence of the Rajah. This functionary, in addition to being commander of the city, has a more important office as keeper of the Sacred White Elephant, which is frequently sent on pilgrimage to nearby cities to be worshipped by the natives. It is one of the precious possessions of the place—hence the walled city and many savage guardians that look after its chiefest treasure.

The Sacred Elephant is presumably returning from a visitation where it has been the guest of honor, when a fierce band of brigands that inhabit the hills lying along the desert, decide to capture it and convey it to a rival Maharajah across the distant desert. Fortunately, the Sacred charge arrives within the walled city before the brigands attain its possession. They, however, are resourceful and have other means at their command, as they know the attendants of the Elephant are weak of their duties and will take to their favorite disipation of opium smoking.

Second Reel.

About this time Kathlyn and her entourage arrive in the city and the next morning are informed by the commotion, of the great loss. Bruce, through Ramabal, is put in touch with the situation, likewise, Kathlyn and they immediately offer assistance if reciprocal aid is given in the form of a military convoy, which is readily granted. Kathlyn is rushed out into the desert on the back of a wild camel, and from this gazebo sweeps the horizon with her binoculars. Following her is a large train led by Bruce, together with the savage soldiery picturesque in their Oriental accoutrements. Cleverly disposing the force, Kathlyn and a few of her followers go forward while the troops are concealed. They meet the brigands and pretend to be friendly, giving them quantities of opium as peace offerings. The brigands are disarmed by this kindness and soon stuffed into security through the influence of the narcotic. As they are helpless it is a comparatively easy matter to get the Sacred Elephant. On their way back to the walled city, they meet Umballah, who has been reinforced for the pursuit; but, he, in his superstitious fear, heeds neither Kathlyn and her party are allowed to proceed on their way. It is some time before Umballah, furious over the attitude of his men, rallies them and induces them to move forward, in haste they reach the gates of the city when they are denied entrance by the soldiers of the Rajah and Umballah returns sullenly to Allah in defeat. Kathlyn, her father and Bruce are tied to a tiger cart of the brigands. A few days later Umballah arrives with his silver but asks only for Col. Hare, as a prisoner, earnestly requesting that Bruce and Kathlyn be fed to the tigers.

How You May Throw Away Your Glasses

The statement is made that thousands wear eyeglasses who do not really need them. If you are one of these unfortunate, then these glasses may be ruining your eyes instead of helping them. Thousands who wear these "windows" may prove for themselves that they can dispense with glasses if they will get the following prescription filled at once. Go to any active drug store and get a bottle of Optonax; fill a two ounce bottle with water and drop in one Optonax tablet. With this harmless liquid solution bathe the eyes two or four times a day and you are likely to be astonished at the results right from the start. Many who have been told that they have astigmatism, eyestrain, cataract, sore eyelids, weak eyes, conjunctivitis and other eye disorders, report wonderful benefits from the use of this free prescription. Get this prescription filled and use it; you may so strengthen your eyes that glasses will not be necessary. Thousands who are blind or nearly so, or who wear glasses would never have required them if they had cared for their eyes in time. Save your eyes before it is too late! Do not become one of these victims of neglect. Eyeglasses are only like crutches and every few years they must be changed to fit the ever-increasing weakened condition, so better see if you can, like many others, get clear healthy, strong magnetic eyes through the prescription here given. (Advt)

FIRST CUTTING ALFALFA IS ALMOST READY.

(Frederick Leader) An agent from the industrial department of the Frisco railroad was here Saturday, for the purpose of making an estimate of the number of cars of alfalfa which would be shipped from Frederiek and Huffine's Switch from the first cutting. The estimate was placed at 175 cars. Alfalfa is nearly ready to cut. The first cutting promises to be a profitable one. With plenty of rain there will be two or three other cuttings and a seed crop.

(Continued From Page Five)

color scheme of gold and white was carried out further in the dainty cards, embossed in gold, bearing a cupid with bow and arrow and repeating the names and dates which were pinned on each guest in the dining room, for souvenirs of the occasion. The guests were received at the door by Mr. and Mrs. G. Roach, sister and brother-in-law of the hostess. Mesdames W. A. Henson and J. D. Peeler then ushered into the punch room where they were served refreshment by Misses Sodie Sasser and Echo Stengle. The name of each guest was then registered in the dainty guest book, presided over by Miss Gene Stengle. In the parlor the guests were received by Rev. and Mrs. Cannedy. A floral wedding contest was then enjoyed, followed by appropriate talks along humorous lines by Judge P. A. Martin, Prof. J. B. Jones and Deacon L. H. Lawler. Mrs. R. C. Smith gave a very interesting reading, "A Little Girl's Essay on Man" other readings being given by Mesdames Henson and Roach. Short talks were made by the following, telling why they did not get married: Misses Era Stratton, Mamie Boone, Gene Stengle, Lucy Smoot, Sodie Sasser, Vera Giles and G. A. Smoot, Oran Nicholson, Eugene Burdard, Fred Stengle, Homer King and Hudson Nicholson. YAQUI INDIANS WANT TO JOIN AMERICANS.

Nogales, Ariz., May 2.—Influenced by generous treatment they had received from Americans in Mexico, 100 Yaqui Indians, who recently deserted the rebels near Guaymas and took to the hills, yesterday sent a courier to the United States troops here with a

message saying they are "quite ready to join the American soldiers." "All Yaqui tribes ready join pale face," was the laconic statement of the Indian, who had shunned the railroad and reached the border after days of walking over the desert hills. The messenger said the Indians had deserted the rebels as soon as news reached them of the taking of Vera Cruz by the American marines. He said many more than 1,400 were waiting for the Americans to come.

With their bows and long arrows, the Yaquis have always been an important factor in Mexican revolutions. They are fearless and usually spread terror among those gallant whom they are arrayed. Their being armed recently with modern arms robbed them of some of their picturesque aspects.

Municipal Electricity in Cleveland Cleveland, May 2.—The city of Cleveland—home of three-cent street car-fares, and other progressive municipal advantages—today began furnishing its "customers," residents of Cleveland, with electricity at three cents the kilowatt hour. The regular

price charged by corporations is ten cents. At the start 40,000 "customers" can be supplied. Two big municipal electric-making plants turned their wheels today for the first time. Backers of the project are so confident it will mean private corporations must be forced down to the same price. The making of electricity for sale isn't new thing to Progressive Cleveland. For several years enough electricity has been made to supply 4,000 people. Eventually, city officials declared today, Cleveland will furnish electricity for every home in the city unless private corporations come down to Cleveland's three-cent charge.
