BRYAN CANCELS ENGAGEMENT

Will Not Leave Washington at This Time—Reports of Huerta's Plans Followed

By Associated Press.
Washington, May 27.—Official dispatches sent from Mexico City and received here today say the "withdrawal" of Huerta is "possible" and adds that it is being delayed by the necessity for arrangements to permit the dictator to abdicate with dignity.
Secretary Bryan has cancelled his engagement to speak before the arbitration conference at Lake Mohonk because, he said today, he did not feel he ought to be away from Washington at this time.

Recurring published reports of the impending abdication of Huerta received much attention in official circles and in the diplomatic corps. Admittedly that is one of the next developments in the Mexican situation which is generally expected.

ROOSEVELT PLEASUED WITH RECEPTION AT WASHINGTON

Spends Today in Editorial Offices at New York—Formally Announces Discovery of River

By Associated Press.
New York, May 27.—"If anybody doubts the existence of that river now, his sincerity is open to question." This was the comment of Col. Roosevelt today on his return here from Washington in the lecture he delivered there last night before the National Geographic Society in which he officially announced the discovery of a heretofore unknown river in Brazil.
He planned to remain here today, spending the time at his editorial offices where it was arranged to take his testimony in the suit brought in 1903 by Attorney Alexander Wales of Hingham, New York against John Mitchell, the president of the United Mine Workers of America and later transferred to John P. White, present head of the miners' organization. Mr. Wales is suing for fees he alleges are due the part he took in settlement of the Pennsylvania coal strike in 1904.
Col. Roosevelt expected to return to his home in Oyster Bay late in the day. Col. Roosevelt was highly elated at the reception accorded him at Washington and was pleased at having been able to meet again so many friends and acquaintances.

SILLIMAN DECLINES TO DISCUSS HIS ADVENTURES

By Associated Press.
Vera Cruz, May 27.—John R. Silliman, American vice consul at Saltillo, arrived Tuesday from Mexico City. He declined to discuss his experiences during his imprisonment until after he had made his official report to Washington.

J. J. HILL SOUNDS NOTE OF WARNING

SAYS UNITED STATES CANNOT SUCCESSFULLY COMPETE IN WORLD'S MARKETS

COST OF LABOR IS TOO HIGH

Points to Germany's Cheap Labor As Factor in Her Attaining Present Standing

By Associated Press.
Washington, May 27.—James J. Hill, discussing "the future of our foreign trade" in a paper read at the National Foreign Trade Convention here today, intimated the United States might be in danger of running into such a widespread industrial distress as England now finds herself, "from attempts to hold markets against competitors while maintaining a wage scale that does not permit her to meet their prices and does not offer to capital any inducement to enter into new fields of development."

"The power of the English trades unions, because particularly arbitrary in fixing wages, hours and general working conditions," he said, "Germany found that with a more advantageous wage scale she could go into the world's market and compete at prices which England could not meet. Hence the enormous growth of German exports, hence a competition which the United States itself cannot meet in many lines and which it could not meet at all did not with immense and accessible natural resources and in certain lines of manufacture the use of highly skilled labor and highly complicated machines which cheaper labor is not competent to handle, give us a temporary advantage; but that advantage like every other exceptional local condition in the world's trade, tends to be equalized and disappears."

He said it would seem that rational conduct might save the day, "but a burden placed by unwise, unrestricted legislation and unnecessary taxation upon business in the United States are producing their natural result here also. Just such mistakes as Great Britain has made in making any confront the American working man with a lost job and empty cupboard and no younger and more promising land to which he can emigrate."

GENERAL USE OF PARCEL POST ADVOCATED BY BURLESON

Explains How Postmasters May Aid Farmers in Building Up Market For Products

By Associated Press.
Austin, Texas, May 27.—Postmaster General Burleson's "exchange list" plan under which postmasters are to become more active in bringing together producer and consumer through the operation of the parcel post was explained this morning to the Texas postmasters by Daniel C. Roper, first assistant postmaster general under this plan. Mr. Roper said postmasters are to make lists of farmers having produce to sell by parcels post and furnish these lists to city patrons.
Postmasters also will be expected to identify themselves more closely with the business life of their cities. Mr. Roper suggested that they should form shipping clubs, deliver addresses in public schools on the proper use of the mails and keep active in touch with Chambers of Commerce.

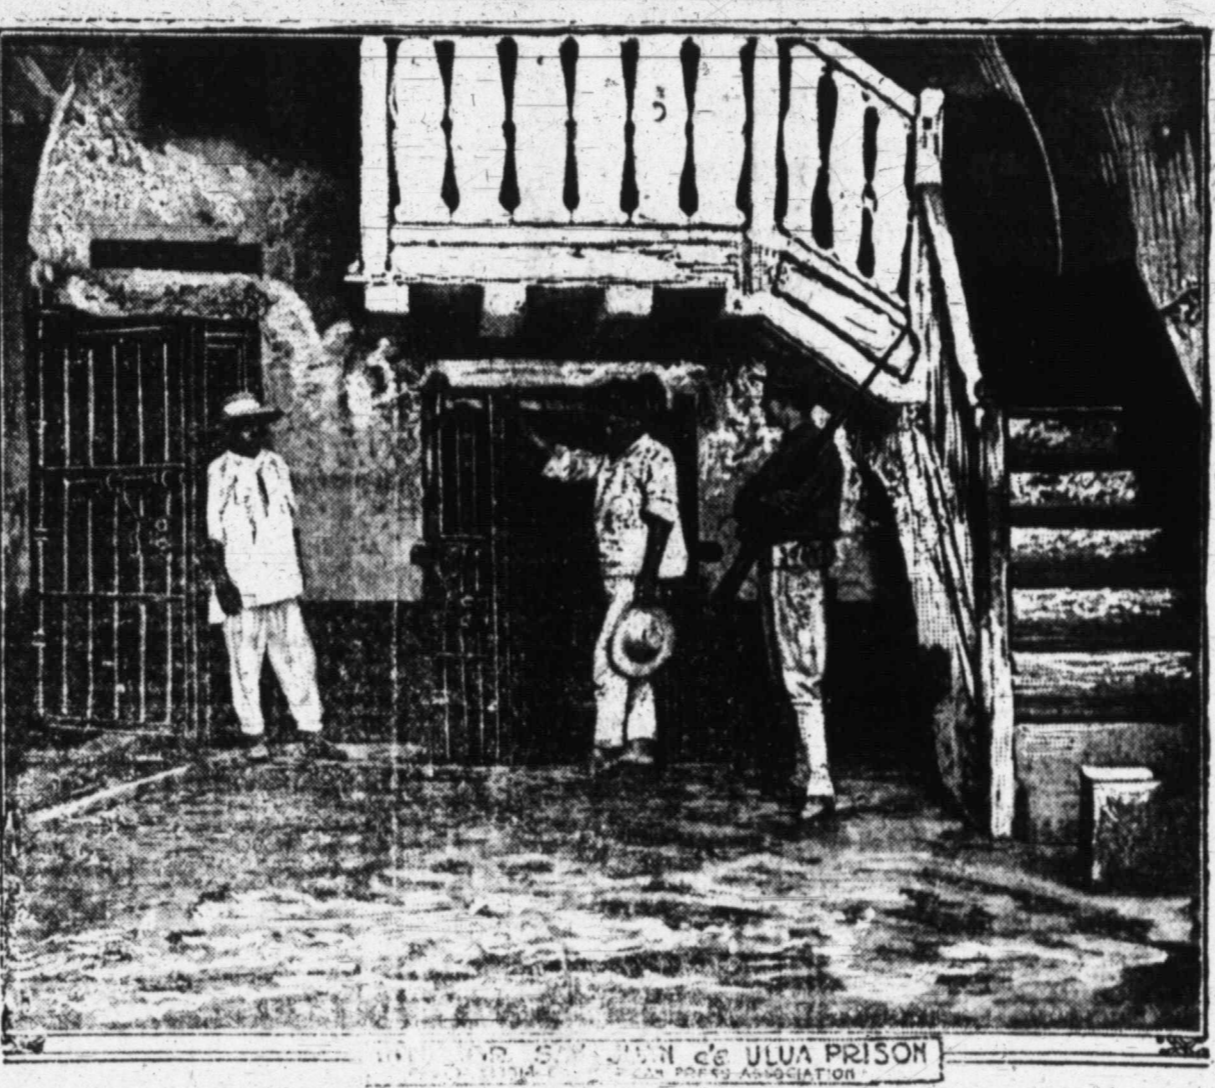

TOM BALL CLUB BEING ORGANIZED BY SUPPORTERS

Eight o'clock in the evening is the time that has been set for Col. Ball's speech here next Wednesday. This announcement was made by Judge Carrigan today. It is probable that the meeting will be held at the court house although this has not been definitely determined.
A Tom Ball Club is being organized here. About seventy-five members have already been enrolled.

BODY OF EMPRESS OF JAPAN PLACED IN TOMB

By Associated Press.
Kioto, Japan, May 27.—With ancient rites the coffin containing the body of the late Empress Dowager Empress Haruko was placed today in a grave at the Imperial mausoleum. The burial place is near that of Emperor of Mutsuhito. Many thousands knelt in prayer during the ceremony. Fulfilling imperial tradition, four clay figures representing guardian warriors were buried with the coffin.

REBEL DELEGATE QUESTION REOPENED

NOT BELIEVED REPRESENTATIVES CAN BE GIVEN SUFFICIENT AUTHORITY

SEVERAL CONFERENCES HELD

No Reason is Assigned For Sudden Change in Constitutional Attitude On Matter

TODAY'S MARKET REPORT

By Associated Press.
Washington, May 27.—Representatives of the constitutionalists here today to reopen the question of representation at the Niagara Falls mediation conference. John Lind and C. A. Douglas, legal representatives of the constitutionalists, said what was termed a neutral conference here today and later went to the state department to take up the subject with Secretary Bryan who had gone to the capital to confer with senators of the foreign relations committee.
Their proposed conference with Secretary Bryan on that account was deferred until later in the day. Neither Mr. Lind nor Mr. Douglas would disclose under what conditions the constitutionalists were willing to participate but the opinion was revised that the powers of a Carranza representative would be very limited and only for the purpose of furnishing information.
What sudden turn in the negotiations has brought about the attitude of the Carranza group was not disclosed.
Several Names Mentioned.
Today's development which undoubtedly was one direct outcome of long conferences Gen. Carranza has been holding over a special telegraph wire with Emilio Zubaran, his minister of interior in charge of the constitutionalist agency here, was colored out as justifying the optimism of the last day or two in official circles where it repeatedly has been said the negotiations "were progressing satisfactorily." Jose Vasconcelos one of the Carranza agents who has been mentioned as a probable choice to represent General Carranza at Niagara Falls is still in the city. Luis Cabrera, another agent, arrived at New York today from Europe. Francisco J. Calderon, a third constitutionalist representative, is in El Paso.
It has been said that General Carranza sent representatives to the Niagara conferences, these three most probably would be selected. What ever might be the first condition upon which Carranza would send representatives to the mediation conference the fact that he may be willing to send them all is generally regarded here as a very favorable indication.

Southbound Katy Freight Runs Into Washout—Engine and Four Cars overturned

By Associated Press.
Smithville, Texas, May 27.—A Missouri, Kansas & Texas local freight train southbound ran into a washout near West Point early this morning. The engine and four box cars turned over, catching William McIlroy, engineer and B. Jenkins, fireman under the wreckage killing both. Both engineers resided in Smithville and are survived by families. No trains are expected from the south before tonight.

READY TO USE ARMY TO END 1902 STRIKE

ROOSEVELT FURNISHES INTERESTING CHAPTER OF HISTORY IN N. Y. TODAY

DIDN'T FEAR IMPEACHMENT

Only Wanted to Get the Army in There and I'd Take Care of Situation" He Says

By Associated Press.
New York, May 27.—Theodore Roosevelt as president was ready to take measures "equivalent in time of war" to end the great strike in the anthracite mines in 1902. He was determined to take action even though an effort would be made later to impeach him for it. Mr. Roosevelt so testified today in giving testimony here before a referee in the suit of Alexander Wales, a lawyer of Hingham, New York against John P. White, president of the United Mine Workers of America for fees he alleged are due him for the part he took in settling the strike.
"In September," said Mr. Roosevelt, "the situation began to grow acute; it was a situation full of menace to the South. I asked permission to appear before the representatives of the operators and miners. I regarded the attitude of John Mitchell, then head of the miners as reasonable and the attitude of the operators as unreasonable and offensive."

After telling of his efforts to settle the strike through a committee of arbitration which Grover Cleveland consented to head, he continued: "I made up my mind that I would have to take drastic action unless the operators and miners got together. I intended to send in the United States army. I only wanted to get it in there and I'd take care of the situation. I told Senator Quay of Pennsylvania I'd act and I'd guarantee that the people of the eastern seaboard would have coal and have it right away. I told him that if he would help me he could vote to impeach me later if he wished."

"I asked Quay to arrange to have Gov. Stone of Pennsylvania, when I notified the governors to send word to me that he was unable to control the situation and then I would send in the army."

BANKING HOUSE SUBMITS TO SCRUTINY OF RECORDS BY COMMISSION'S MEN

ROCKEFELLER IS STILL ILL

Insists He is Not Able To Give Testimony and Considers the Effort An "Annoyance"

By Associated Press.
New York, May 27.—Joseph W. Folk, chief counsel for the Interstate Commerce Commission, arrived in New York today from Washington for a conference with Francis Lind Stetson, representing J. P. Morgan & Company. The conference was arranged for the purpose of making plans or an examination of the books of the Morgan firm and the personal papers and accounts of the late J. Pierpont Morgan. So far as they relate to New Haven railroad transactions.
The conference was suggested in a telegram from the Morgan firm last night in answer to a message from the commission, according to J. P. Morgan's offer to submit the books for examination. Mr. Stetson said the conference would be private. Mr. Folk was accompanied by four men who were ready to begin on the books at once.
"We don't want one book or two books," he said, "we want them all."
William Rockefeller Returns.
William Rockefeller has returned to Tarrytown from Fairfield, Conn. Through friends it was said today that Mr. Rockefeller insists he is not positive able to testify before the Interstate Commerce Commission and he considers attempts to gain his testimony an annoyance. If any one is to be subpoenaed for the New York, New Haven and Hartford, Mr. Rockefeller believes it should be the auditors and bookkeepers who know the details on the questions under inquiry by the commission.
Judge Ben B. Lindsey of Denver, who came here recently to see John D. Rockefeller Jr., in the interest of the movement for remedial measures to prevent further strikes in the Colorado coal mines today announced that he felt certain the interview would be arranged. Judge Lindsey postponed his return trip to Denver until tonight in the belief that Rockefeller probably would arrange to meet him today.

RAIN PREVENTS CAPTURE OF NEGRO BY POSSEMEN

Storm Comes Up Just As Pursuers Are Closing In On Man Wanted For Killing

By Associated Press.
Fairfield, Texas, May 27.—Rain last night saved Lloyd Thomas, the negro fugitive from the posse of about 100 men who have closed about him in the woods near here. Thomas was recognized about supper time by a woman who saw him enter the house of a negro tenant near here for food. She saw the fugitive as he was leaving and notified nearby members of the posse who arrived to take up the fresh trail within seven minutes. Just then the storm blew up. Today it was still going on, interfering with the work of the posse which, however continues, according to reports reaching here. The point where Thomas was seen last night is about a mile and a half from here. He is accused of killing James Casey Sunday afternoon. Five other negroes, including Thomas' father are in jail here in connection with the crime.

GUADALAJARA GOES OUT FROM ALL COMMUNICATION

By Associated Press.
On Board U. S. S. California Magat, Mexico, via wireless to San Diego, May 27.—The first stage of the siege of Guadalajara has been accomplished by the constitutionalists with the interruption of all communication between that city and the capital. Information reached the American fleet today that the constitutionalists had cut the railroad and telegraph lines at Durango.

LINDSEY IS TRYING TO SEE JOHN ROCKEFELLER JR.

By Associated Press.
New York, May 27.—Judge Ben B. Lindsey of Denver, who with two women from the Ludlow, Colorado coal district is in New York seeking at mass meetings as a protest against the policy adopted by the Rockefeller interests in the Colorado strike trouble, expects to succeed in his attempt to interview John D. Rockefeller Jr., Judge Lindsey explained that the telegrams he sent to John D. Rockefeller Jr., reached Mr. Rockefeller Sr., and because of this mistake he hoped to arrange for a meeting today.

ONLY AMERICAN ENTRY IN ENGLISH DERBY VICTORIOUS

Durjar II, Owned by H. B. Duryea, Captures Classic—First U. S. Winner Since 1907

By Associated Press.
Epsom, Eng., May 27.—Durjar II, belonging to H. B. Duryea, the only American entry, won the derby here today. Durjar II won by three lengths. The last American race horse owner to win the English derby was Richard Croker who carried off the classic race with Orby in 1907.
The Derby, proudly called by Englishmen the "blue ribbon of the world's turf," was run today over the historic course which for more than a century has been the scene of the annual battle for equine supremacy. The race was for three year olds, colts carrying 126 pounds and fillies 123 pounds and was worth \$2,500 to the winner, \$2,000 to the second and \$1,000 to the third. The exact distance is one mile, four furlongs, twenty-nine yards and the record time achieved in 1910 by Lemberg, with Bernard Dillon up, two minutes and 35.15 seconds.
Having in mind the tragic suffrage interference which last year's Derby when Miss Emily Wilding Davison ran out in front of the King's horse Amner at Tattenham corner, was knocked down and received injuries from which she died two days later, while jockey Herbert received a broken hip, the stewards had arranged for a largely increased number of police to guard the course today.
The only betting was comparatively light because of the uncertain field. The scratching of Dermot McCalmont's phenomenon, the grey, the Tetrarch, after this month was a great blow to the racing public. The only other horse seriously considered was Sir Thursty's Kenmare, winner of the 2004 Guinea a month ago and who in the Tetrarch's absence was reckoned a tolerably good thing.

100 MILES PER HOUR BY INDIANAPOLIS AUTO RACER

By Associated Press.
Indianapolis, May 27.—Automobile racing records continued to fall today at the Indianapolis motor speedway where elimination trials for the 500 mile race Saturday are being held. George Bellott in a French car drove a 2 1/2 mile lap in a minute and 30.12 seconds at the rate of a fraction less than 100 miles an hour.

WIKI SMITH OF OKLAHOMA IS OUT FOR LEGISLATURE

Prominent Wilbarger County Farmer Will Make Race From This District in Priorities

W. M. Smith of Oklahoma, Wilbarger county, was here today and announced his intention of running for the legislature from the 11th district in the fall. Mr. Smith has been a resident of Wilbarger county for many years and is the owner of a large farm near Oklahoma. He will be kept busy nearly up to the time of the primary with the harvest of his wheat and oats crop, having about 2500 acres in those crops but will try to visit every community in the district before the date of the primary.

The following announcement is taken from the Vernon Call:

"W. M. Smith of Oklahoma authorizes the Call to announce to the voters of the 11th representative district, which is composed of Wilbarger and Wichita counties, that he is a candidate for the Legislature, subject to the July primary election. Mr. Smith has been solicited for several years to allow his name to be used as a candidate for this important office, but only recently decided to enter the contest. About 25 years ago he came to Wilbarger county from Kentucky, and with his wife and family settled near Oklahoma. His capital then consisted of energy and progressive industry, but by hard work and good management he is one of the best known successful stock farmers in Northwest Texas. The time has come in Texas that a business legislature is needed to enact some wholesome laws, to protect those honestly trying to secure homes and those who are now tenants and at the same time maintain conservative business methods in dealing with city, county and state public affairs. Mr. Smith has made a study of needed public improvements that calls for conservative state laws to meet these emergencies. He has indomitable energy and will, if elected, see that this portion of Texas has her proportional representation in the state senate and in congress which we have not at this time, on account of the redistricting bill failing to pass the last legislature. His interest is all in this portion of Texas and if elected he will devote his time and talent in having such laws enacted as will be of benefit not only to this section but to all of Texas. He says he has a large crop of wheat to harvest and will not be able to make a house to house campaign but will try to attend most of the places of public speaking in this district. He will if elected do all in his power to have laws passed that will be of benefit to all of the people in this section of the state and not for any favorite class to the detriment of the many." (Adv.)

CONGRESSMEN FIGHT SHY OF PROHIBITION QUESTION

Everybody Born at Judiciary Committee for Reporting Amendment as It Did

Washington, May 27.—No public question in years has haunted congressmen like the proposed prohibition amendment to the federal constitution. They take the task every time they call in their members of the House judiciary committee for reporting out the prohibition amendment. It is becoming the customary style in the lower body to see any afternoon groups of three or five representatives gathered around a committee room, protesting that the prohibition question should not have been brought out so boldly and put up on the members in a way that they cannot avoid being recorded.

Some members of course, whose attitude on the question is well known, spare no pains in laughing at their "brothers in predicament." Representative Dies of Texas, struck the first note in a debate in which he said: "I shall discuss Mexico, the Colorado strike, woman suffrage and I have time, I shall take up national and international prohibition. Dies voiced the opinion of a large number of congressmen, however, when he declared as his belief that prohibition was a state question and should not be injected into national politics. When he made that statement in the House his additional remarks were dropped by applause.

Congressmen who are on the fence if those who desire the country to argue to stay wet but those constituents wish them to be dry are making all kinds of "soundings" and pleadings to senators, hoping that if the amendment passes the House the Senate will table it. There is a growing feeling in Washington, however, that national public officials will have to face the liquor prohibition question either in the next presidential campaign or two years later. Evasion, it is believed, will no longer be possible.

Soldiers Expense Heavy.
Leaders in the House are planning today to cut down the time required to call the roll of members on important bills from forty-five minutes to two minutes by installing an electric voting device. During the last few years as the membership of that body has gradually increased it has taken from three to four hours to call the roll. If two or three roll calls are taken off the day's session it is possible for the new device will make it possible for each member to vote aye or no on any bill by pressing a button on his seat. The cost is estimated at \$20,000 and is favored by Speaker Clark and Majority Leader Underwood.

Uncle Sam will have to pay more than \$5,000,000 to move his soldiers from Galveston by water to Vera Cruz according to estimates at the war department today. The transfer by water of the first fleet army alone will require fifty transports. Some of this expense has been accruing for some time. Because of the uncertainty of the Mexican situation it has been necessary for the war department to keep four transports under charter at Galveston at a cost of \$38,000 a month.

While this five million represents only the cost of transportation by water the railroad fares of soldiers and of loads will run into the millions if a more aggressive policy is adopted by this government south of the Rio Grande.

AFTER FIVE YEARS
Winthrop Child Was Restored To Five Years Ago—our little girl had a severe attack of diphtheria which left her subject to bronchitis and stomach trouble. She has been almost constantly under medical treatment. I have tried also two or three remedies containing cod liver oil but found her stomach rebelled against the oil. Reading your description of Vinol I decided to try it and did so with most astonishing results. I cannot begin to tell you how she has improved because you do not know what a little sufferer she was for five years. She has gained ten pounds since she commenced to take Vinol, and the story of what Vinol has done for her is only half told in this letter." Mrs. Adelaide Mulloy, Winthrop, Mass.

Vinol contains all the healing curative properties of cod liver oil, without the oil and tonic iron added. That is why it helped this little girl after other remedies had failed.

We ask mothers of weak, sickly children to try Vinol on our offer to give back your money if it fails to help them. Miller Drug Store.

"NO QUARTER" SAYS LYON, BLACK FLAG TO BE HOISTED

By Associated Press.
Austin, Texas, May 27.—Col. Cecil Lyon of Sherman, friend of the Roosevelt and commander of the Fourth Texas Infantry of the Texas National Guard who was here this week conferring with Adjutant General Hutchings on guard matters, announced that the Progressive party will wage an active campaign in the next general election. He said that the black flag was hoisted and no quarter would be shown; that it was the purpose of the Progressives to put out a candidate in every possible place and for all the larger offices that can possibly be done.

FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With Theodor's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, with sick headache, and stomach trouble. I tried many remedies but they did me no good. I was told to try Theodor's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

"I keep Black-Draught on hand all the time now, and when my children feel a little bad, they get one or two doses, and they feel much better than any medicine they ever tried."

"We never have a long spell of sickness in our family, since we commenced using Black-Draught."

Theodor's Black-Draught is purely vegetable, and has been found to relieve sick headache, cold, wind, nausea, indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package 10-day.

MANY OIL FIELD WORKERS WILL GO TO SOUTH TEXAS

Farmers Depending on Them for Harvest Help Will Have to Look Elsewhere

Farmers who have been depending on idle workers in the oil fields for harvest help may have to look elsewhere. Just now there is a boom in the South Texas oil fields that is taking many men from the North Texas fields. Frank Cullinan, manager here for the Producers Oil Co., told the directors of the Chamber of Commerce yesterday that he believed fully fifty men were leaving El Paso and Burkburnett this week for South Texas and that more would follow.

RECEPTION IS HELD AT NAT'L BANK OF COMMERCE

The quarters of the new National Bank of Commerce were open to the public for an informal reception Tuesday evening and a large number availed themselves of the opportunity to visit the institution. Music was provided by Katz orchestra and souvenirs were distributed in the form of Hungarian artificial roses. Cigars were passed for the men. The officers of the bank saw that every courtesy was extended the many visitors, being assisted by Mesdames C. W. Held, J. L. Jackson, Nait T. Wagner and J. J. Lary. Misses Bernice Jackson, Helen Stone and Audrey Adickes distributed the souvenirs. Officers of the bank stated that the business of yesterday and today was far above their expectations and they feel very optimistic over their prospects.

How to Beautify the Hair

A Simple and Inexpensive Home Method

If your hair is not pretty, if it is losing its color, too dry, falling out, or if the scalp itches and burns, you can overcome all of these conditions by using Parisian Sage, which supplies every hair need. It soaks right in to the hair roots, stimulating them and furnishing the nourishment that is needed for the hair to grow not only long and heavy, but fluffy, soft, lustrous and gloriously radiant.

You can get a bottle of this inexpensive, yet delightful and helpful hair tonic from Fooseh & Lynch or at any drug store. Improvement begins with the very first application. Besides stopping the scalp irritation it removes every bit of dandruff. The use of this unequalled hair tonic will surely give your hair new life and beauty. (Adv.)

POSTOFFICE AND BANKS TO HAVE HOLIDAY SATURDAY

Holiday hours will be observed at the postoffice Saturday and there will be no delivery of mail on the rural routes on account of Decoration Day. In the city there will be no collection, and one delivery of mail and the general delivery window will be open from 9 to 10 a. m.

The banks will also observe the holiday and will be closed all day.

What Does Good Meat Service Mean to You?

Perhaps I ought to put it this way, "What do you expect when somebody offers you good meat service?"

The reason I ask this is that I want to find out more fully just what you and the other housekeepers in town expect when you order a piece of meat. Now I am sure that you have certain ideas as to what you ought to get and I believe that my meat service comes pretty close to being exactly what you expect. If not, I don't think it would take very much to make it such and then perhaps we could do business.

Suppose you visit my meat department and let's have a little talk about this meat question, especially for the hot summer months. It won't cost you anything to try it and it may result in your getting something better in meat service than you have been accustomed to. Call for Mr. Morgan personally when you come.

In Love's Garden,
This is the old time garden, still fair,
Where the fair can be,
Where the fair of the bright eyes,
Shook her shaly curls at me;
The same sweet walks and places,
Although long years have gone,
Since, in the starlight at the gate she
Pinned the violets on.

Lives, they may sever,
Nevermore to meet,
But Love lives forever,
And Memory is sweet.

The twilight bells are ringing even
Now across the hills,
And still I hear the calling of the
Hidden whippoorwills;
They're singing now as sweetly as in
The Maytime lands
Where, once we knew the first sweet
Joy that comes of holding
Hands.

Lives, they sever,
But hearts faithful beat;
Love lives forever,
And Memory is sweet.

Oh, days that passed in music, you
Come with light again,
And in our hearts the loves dwell
While eyes are dimmed with
Rain;
And memories, like roses, still in our
Pathway throng,
And sorrow for a lost dream is ten-
Der sweet with song.

Lives, they may sever,
Nevermore to meet,
But Love lives forever,
And Memory is sweet.

weather the attendance was rather
limited, but in spite of this fact a
most delightful afternoon was spent.
Crocheting was engaged in as is cus-
tomary and various topics of interest
were discussed. The gracious hos-
tess served a dainty luncheon con-
sisting of sandwiches, pickles, cake
and refreshing fruit punch late in the
afternoon. The members present
were: Mesdames Dobb, Nix, Thomp-
son, Ross and the hostess.

WHAT AMERICA MEANS

(By Dr. Frank Crane in Houston Chronicle)

The spectacle of the navy of the United States speeding to Mexican waters, and of the army of the United States occupying Vera Cruz is more magnificent than we realize.

We are too close to these events to see their grandeur, eager to appreciate its majesty.

That which makes wonderful the advance upon Mexico is the fact that these trained soldiers and sailors of the greatest nation of earth are not going down to their feeble neighbor to fight the people there, to pillage or to oppress them.

Everybody knows that we covet not a foot of Mexican soil, wouldn't have it as a gift, and that in case of war we should establish the country in independence, even as we did with Cuba, and as we shall one day do with the Philippines.

The wars of the old world have been wars of subjugation, Caesar bled his legions to wield the conquered provinces into one great empire. The armies of Charlemagne and Napoleon, of England, and of the Mohammedans were instruments of the same proud and selfish dream of dominancy.

The battle power of the United States is the friend of the people of any nation it approaches. It has no aim but their advancement in civilization and commercial prosperity, no method but their own autonomy.

This attitude of our country is the most amazing thing in Christendom; the proudest flower of the twentieth century.

Europe does not grasp it. The eyes of the French, the Germans and the English, blinded by the long darkness of militarism, astigmatized by the inheritance of feudal hates, cannot see the significance of what we do. Their criticisms of our policy are petty and captious.

Our invasion of Mexico is an imposing gesture of democracy. It means the rescue of a people from their corrupt masters.

Behind "the far flung battle line" of our boys in blue there advance other armies, the real armies of occupation; they are the army of schoolmasters, erecting not forts but school houses, not plundering, but teaching; and the army of sanitary experts attacking the century-old pests of fever and small-pox; the army of railway builders, opening the mastered wilderness to progress.

At the present rate of increase it will be but a few generations until the United States will outstrip Europe both in population and in wealth. This country will dominate the world. And the least of the nations shall not fear. For to us the days of conquest and annexation are past, pray God.

There is no time like the present for the American youth to glow with reasonable patriotism, and to learn by heart those fine lines of John Milton, applying them to this country:

"Methinks I see in my mind a noble and puissant nation rousing herself like a strong man after sleep, and shaking her invincible locks; methinks I see her as an eagle mewing her mighty youth, and kindling her undazzled eyes at the full midday beam; purging and unsealing her long-abused sight at the fountain itself of heavenly radiance; while the whole noise of timorous and flocking birds, with those also that love the twilight, flutter about, amazed at what she means."

THE TIMES LOSES A SUBSCRIBER

Writing from Honolulu, Hawaii, under date of May 14th, O. J. Pickle, who has been manager of the Federal Telegraph Company at that place for the past eighteen months, and who was

formerly manager for the Western Union in this city, says he has decided to quit his job and return to the States. His letter is as follows:

"Immediately upon receipt of this letter I wish you would discontinue the Times for a short period as we leave in a few days for the mainland.

"After an eighteen months South Sea Island residence we have concluded we were not cut out for any place but a white man's country, so are returning via a smattering of Jap, talk, Chinese lingo, Hawaiian chatterboxes, and enough knowledge of Pig English to spoil us for all time to come.

"We are undecided just where we will locate but nevertheless wherever our future home will be, we will want the Times again. With best wishes to yourself and our many friends, will close."

Arrangements are being made to have a special Pullman from this section to Wichita Falls for the purpose of conveying the members of the Gulf Coast Press Association to the State Press Association which meets in the above named city June 18-21. Corpus Christi is in due line for the 1915 meeting and with this in view we urge every member who can possibly do so to attend the state meeting and make arrangements to go in the special car. —Bishop News.

Corpus put up a strong fight for the 1914 State Press Convention, but when the count showed that Wichita Falls had won by a little better than 400 to one, she gracefully fell in line and immediately made the announcement that she was a candidate for the 1915 convention. She's a good loser, and that counts in the winning of favors.

"This will go down in history as the year of elimination. The press showed it by eliminating Mayes and Lane. Then Ferguson eliminated his competitors on the anti side, and Tom Ball practically eliminated the prohibition question in his Greenville speech. About the only "old issue" in the race is the Bailey issue, and it is well under the surface. Bailey and his chief lieutenants are supporting Ball and Robert Vance Davidson and his chief lieutenants are supporting Ferguson. Come Johnson is enjoying the flesh pots of Washington and Cullen Thomas is enjoying his own elimination from the gubernatorial and senatorial arena. On with the elimination!—Marlin Democrat.

In a letter received here on yesterday from Judge A. W. Walker, campaign manager for Col. Thos. H. Ball, candidate for governor, it is definitely announced that Col. Ball will speak in Wichita Falls on next Wednesday night, June 3rd, at 8 o'clock. The place where the speaking will take place and who will introduce Col. Ball, and all the details will be announced later. It is expected that a very large crowd from this section will be on hand, as Col. Ball is a man well known all over Texas, and in other states of the Union. Col. Ball is principally remembered by the fact that he ably led the prohibition forces in the election for statewide prohibition in 1911.

MAKE THE ATLANTA ROAD CONGRESS THE BIGGEST EVER HELD

Every county and State official in the South interested in any way in the building or maintenance of roads or streets ought to be making plans to attend the American Road Congress, which will meet in Atlanta next November. This ought to be made the greatest gathering of men interested in road building ever held in this country.

There is no other section of the country more vitally interested in the building and maintenance of roads. There are a thousand questions which must constantly present themselves to every county commissioner and to every road engineer, and many of them are difficult to answer.

What kind of material shall be used? How shall it be used? Under what conditions shall roads be built or repaired? What will be the best material for road making? Will it be brick, will it be concrete, will it be macadam, will it be sand-clay, or will a county in some cases be justified in having merely well-made good dirt roads? Which kind of road will give the best service and in the long run prove the cheapest? Will it be less expensive to the county to issue bonds and build thoroughly good roads of the highest type of material, or will it be better to drag along slowly and potter away, doing little work here and a little work there, and trying to so patch up the roads as to make them at least passable? What engineering will be required? Are the officials now in office equal to supervising, laying out, building and maintaining roads? Are the roads being used for political purposes in order to give jobs to supporters or to day laborers? What are the influences that are being brought to bear to induce the use of this material or that? What are the influences that are being brought to bear to induce the use of that material or this? What has been the effect of road building elsewhere on material, educational and religious progress? These are a few of the many questions that must confront every man holding any official position in any way holding any road or street work. At the Atlanta Road Congress there will be the opportunity of studying these questions. Every phase of road building will be intelligently presented by experts. Probably every important line of machinery used in road building and every variety of material will be on exhibition. Hundreds of engineers and contractors and machinery makers will be there to study every phase of highway improvements. It behooves the people of the South to see that every county is

ARGENTINA'S CORN'S CONTROL OF MARKET

SUCH IS FEAR EXPRESSED AT NATIONAL FOREIGN TRADE CONVENTION TODAY

SOUTH'S TRADE ABROAD GROWS

Cotton Goods Being Shipped to Many Parts of World—Convention in Session

By Associated Press. Washington, May 27.—The Argentine may soon actually dominate the price of corn in the United States, as it is now practically doing, according to fears set forth by H. G. Herget, president of the Illinois Manufacturers Association in an address today before the National Foreign Trade convention here. He said: "With a crop little more than one-tenth of ours, Argentina possesses a surplus which has a price fixing potentiality equal to our own. This condition will not improve but the range will widen and it would seem that within a few years Argentina will actually dominate the price of corn in this country as it is now doing. Land values and the higher plane of living in the Central States will not admit of competition with Argentina in the growing of wheat and oats. There must be some readjustment of values or else foreign markets must be found as an outlet for our crops. This will require systematic and continuous advertising to the end that foreign countries will learn that our corn contains more nourishment per pound and per cost than any other."

South's Foreign Trade. "Commercial conditions in Southern States with special reference to foreign trade," were reported upon by Ellison A. Smyth, president of the Cotton Manufacturers Association of South Carolina in an address today before the National Foreign Trade Convention.

With three times as large a production of cotton as in 1869 and with a selling price which has doubled, the Southern States are in a particularly advantageous position for the development of foreign trade, the speaker declared.

Aside from shipments of raw cotton there was a constantly widening field for export of cotton fabrics—a world's trade which amounts to some \$1,200,000,000 annually, he said. The United States with twenty-two per cent of the raw material was cutting into this huge trade to the extent of only five per cent annually.

He pointed to Africa and the Philippines as the "most promising" for present development of export trade from the Southern States. "Africa," he said, "with a population of 170,000,000 or more than that of North and South America combined, promises to be one of the largest markets for cotton goods in the world."—particular climatic conditions make cotton the principal material for clothing, and the development of natural resources of the country is so rapidly enhancing the purchasing power of the natives, "it is a field," he added, "well worth the attention of American cotton manufacturers."

"Our exports in cotton goods to the Philippines during the past year have increased 100 per cent," he continued, "a trade in which the Southern cotton mills hold a commanding position."

The situation of our export trade, however," he concluded, "calls for a co-operative and well organized campaign to not only hold the business we now have but to enlarge it and the Southern cotton mills who are now prepared to cater to the export trade are not only willing but anxious to join in any effort that will lead to greater development and greater volume of the export trade. We believe that the export trade of the markets abroad should not be regarded as a dumping ground for goods that could not be sold at home, but we should realize that our mills exceed now the consumptive capacity of the home trade and every effort should be made to extend our export trade in all productions and in all directions."

represented by men of integrity who have an earnest desire to study every phase of this road question.

In advance of the meeting of the Congress all of these subjects should be actively discussed by the people of every county. They should be inquiring of their officials what answers they are prepared to make to these questions and how far they have studied them.

If the people of Atlanta want to do a great work for the South and for themselves, they ought to carry on in the near future an active campaign to induce the county officials of the South to come to this congress. They ought to induce counties that have made progress in road building to any marked extent to show what they have done and how they have done it. The backward counties that have not yet accomplished much ought to be stimulated to send their officials in order that they may catch the spirit of highway improvement.—Manufacturers Record, May 21.

There should be less peanut politics. The best way to bring about such a good result is to have fewer peanut or "professional" politicians to make our laws for us. Texas has suffered more from peanut politics and professional politicians than from all her droughts. They are a pest, and the people at the coming election, regardless of whether these peanut or professional politicians are anti-prohibitionists or prohibition Democrats, who are ever and eternally trying to "save the country" should wipe them from the face of the earth. Texas' law-making body should be composed for the most or greater part of intelligent, industrious and successful farmers, and of business men with intelligence enough to enact sensible and sane laws that will be of benefit to the people who produce the wealth of the state.

Tuxedo is the Mildest, Sweetest, Most Pleasant Smoke in the World, Because

First—No one but the makers of Tuxedo is willing to spend the money necessary to buy the mildest, sweetest, most thoroughly aged, selected Burley tobacco.

Second—No one but the makers of Tuxedo knows how to treat this Burley tobacco so that every bit of pleasantness and goodness remains in the tobacco and every bit of unpleasantness and harshness is taken out.

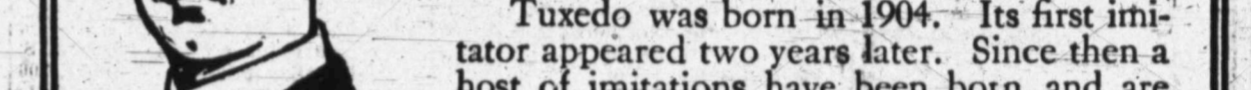

Tuxedo goes with me wherever I go.

Why shouldn't a man be willing to recommend a tobacco which gives as cool, sweet and satisfying a smoke as Tuxedo?

Fill my pipe with Tuxedo and I'm content. You can't beat Tuxedo for mildness and purity.

An Important Matter Requiring Attention

To be sure you can neglect this matter just the same as you can any other but the neglect costs you prestige among your fellows.

The matter I refer to is the matter of clothes.

And the opinions of your associates assist in either making or breaking you.

You cannot afford to wear anything but the best, no matter what they cost.

But we can furnish the best clothes made at a very moderate price on the price.

Because

we handle the fine hand tailored undelivered clothing made by some of the best tailors in the business.

And because we guarantee to take all of these unclaimed clothing we get them at prices that enables us to sell them at hand-me-down prices.

You can buy the best for \$15 and \$18 Per Suit

Now don't neglect this matter until we are compelled to speak to your wife about you.

You know how she hates to have to remind you about your duties.

Albert Gwinn of the Allendale community was in the city today. He has 125 acres in wheat, and is the best crop he has ever made in his twenty-four years residence in Wichita county. Questioned as to the best average yield he had heretofore made Mr. Gwinn placed it at 28 bushels per acre. He thinks, however, that the country over will not make an average of over fifteen bushels to the acre. The continued wet weather, together with rust, is causing the stalks to weaken and many fields are now lying almost flat on the ground. This will cause considerable loss, as much of it will not straighten up again, and therefore cannot be harvested.

Public Notice All persons interested will please take notice that the undersigned is no longer connected with the Wichita Well Works of Wichita Falls, Texas, and will not be liable for any debts or demands due by said concern to any person whomsoever. J. F. Immler. 10 5tc

BIBLE'S IMPORTANCE SUBJECT OF SERMON

"TAKE IT AWAY AND WHAT WOULD BE LEFT" IS DR. SCOVILLE'S THEME

RAIL AFFECTS ATTENDANCE 600-22

Small audience at First Christian Church

"Take away the Bible and what would be left" was the subject of Evangelist Scoville's address last night when he delivered one of the most convincing sermons yet heard in the revival meetings at the First Christian Church.

"Take away the Bible," Dr. Scoville said, "and belief in God would remain. He pointed out that there was an inherent belief in the human race in a supreme being but that the conception of God outside the Bible was a terrible God and spoke of Hindu and other houses of worship as 'temples of terror.'"

Speaking of the scriptures, Dr. Scoville said, "The scriptures of today had lost sight of too much of this aspect. People today will quote the Scripture 'God so loved the world' and become so enraptured when they get that far that they stop right there," he said.

"People today will quote the Scripture 'God so loved the world' and become so enraptured when they get that far that they stop right there," he said. Dr. Scoville then called upon the congregation to quote the remainder of the verse, "that whosoever believeth on Him might not perish but have everlasting life."

"There comes a time," the speaker said, "when love must be met with justice."

Says Sin Would Remain. Sin will remain the speaker said, if we take away the Bible by the sin-bearer who bore the sins of the world would be lost. Death too would remain.

Dr. Scoville referred to the scoffers and to the men who stand on the streets downtown and knock on the church and on the pastor and on the evangelist. He advised them to go and get where there are no churches for awhile, where there were no Bibles and no Sunday schools.

Dr. Scoville showed that there had been hope for immortality outside the Bible but that no place outside the Bible was there the assurance of immortality. "You were born for two worlds," he said, "take away the Bible and the home of the soul will be closed to men."

ONE DIVORCE TO EVERY ELEVEN MARRIAGES TODAY

Only Japan Surpassed United States, According To Report of Presbyterian Committee

By Associated Press. Chicago, May 26.—"One out of eleven marriages in this country ends in divorce," says a report issued by the Presbyterian general assembly in session here, published in a report on marriage and divorce made to the assembly by a committee of the assembly.

"Certainly no earnest man can be quiet and satisfied under such conditions," the report read: "No doubt, some will say that we must call a conference, pass resolutions and organize a new society. Such proposals only add a new aggravation. Full publicity has been given. Resolutions have been passed. Congress and conferences composed of the highest abilities have been called and have issued their findings and advice. Surely, nothing more is needed in the way of theory. More is needed in the way of action and results. The two legal bodies provided for no executive agency to carry their plans into effect."

"Now we should act. The Presbyterian Church is in a position to take steps for an advance. It has in its Confession of Faith a Chapter on Marriage and Divorce. The Synods and Presbyteries are closely related in the states to legislatures that should now be approached with definite proposals for reform. Our ministers and elders might easily invite in other denominations, and together might hope to secure the passage of improved laws on this behalf."

Reforms are Suggested. "The Committee would hereby recommend that this General Assembly approve of the following particulars as desirable for incorporation in an improved State code or new law on Marriage and Divorce: 'The requirement of a residence of at least two years in the State where the application for divorce is to be entered. The requirement of a period of at least one year after granting of the decree before the same shall take effect. The following proviso concerning evasion of law as to marriage and divorce to wit: 'That if any person or persons being resident of this State shall go into another state or country with intent to evade or violate any of the laws of this state pertaining to marriage or divorce, and there contract a marriage or obtain a divorce, prohibited by the said laws of this State, and then return to this state, such marriage or such divorce shall be null and void for all purposes in this State, with the same effect as though such prohibited marriage or divorce had been entered into this state.'

The committee called the attention to the fact that none of its suggestions had to do with offering to promote any legislation on the matter of uniform codes for divorce.

Net Loss in Members. A net loss of members to the Presbyterian Church averaging more than 43,000 a year for the six years since 1908 was regretfully announced to the session of the Presbyterian general assembly here today. This loss was stated to be through the single item of absenteeism. In 1913, 59,927 members were dropped from the rolls and 7,206 were restored.

These figures, however, take no account of the yearly additions to the church members, children, converts, etc. The loss, as given above, was stated to be due both to what is termed "absenteeism" and to notify their churches of change of address. The statement was given in the report of the committee on the Suspended Roll.

It is certainly lamentable that there should be such a steady net loss to the church," the report stated. "It makes the situation yet more the cause for serious thought when it is understood that this return is made by only 2,417 churches while 6,474 churches submitted no figures. Twenty-nine per cent of these suspensions were made by 136 churches, each of which dropped more than fifty members during the past year."

Six Years' Figures. Following are the figures for six years submitted to the committee:

Table with 2 columns: Year, Suspended, Restored. Rows for 1908, 1909, 1910, 1911, 1912, 1913.

Total 369,304 37,493. The statement is the highest record for loss of membership was Pennsylvania with 24 churches that lost more than 50, and a loss of 11,298 members from 1,204 churches. New York was next with 22 churches, losing more than 50 members and a loss of 7,573 from 114 churches. Illinois lost 47 churches, 48,959 members, each of which dropped more than fifty members during the past year."

While the committee on the suspended roll did not give as a set off against these figures a statement of the annual growth of the Presbyterian Church it stated that the member gain of such gravity that a conference should be arranged with the permanent committee on evangelism to take action on the subject and authority for such a meeting was requested.

SAYS PENAL SYSTEM FAILS TO ACCOMPLISH PURPOSE

Chicago, May 26.—"Government is not doing as a whole what is forbidden to its members. We find nothing in the teaching of Christ which authorizes or suggests the sort of government to revenge itself on its delinquent members."

With the same basis for principle the Presbyterian general assembly in session here, published a report on the operation of the penal system in this country. The entire structure is erected on the fallacy that a prison is a place of punishment, the report declared, stating further that the best outlook at present is through the extension of probation and honor systems.

"Courts err," the report read. "It is a practical impossibility for government to punish offenders in such a way as to be just and equitable to all. Money and influence are decided advantages in defending against criminal prosecutions. There is, moreover, great variance among judges in their severity or leniency, and the particular humor in which a judge happens to be, often determines the penalty."

The conclusions of the committee concerning prisons were thus stated: "As might naturally be expected of a system based upon a wrong principle, our penal system has utterly failed to accomplish the purpose for which it was intended."

"It has not reduced crime or lawlessness. Both appear to be constantly increasing. Our penal institutions by compelling their inmates to live unnatural lives, separated from every influence which naturally tends to elevate and improve men, are little calculated to normalize those who are abnormal or subnormal."

Through the operation of the professional and the untrained lawless men, for some time past, have been increasing in number and are thus self-perpetuating. It has increased disease and poverty. Through the depression and natural influences of the jail, men become easy victims of disease, especially tuberculosis. Ex-convicts are less able to earn a livelihood for themselves or their families. In its recommendations the committee urged the support of the Presbyterian denomination for the plan of probation for ordinary casual offenders and imprisonment for life of violent and incorrigible criminals. We disapprove," it read, "of the practice of imprisonment of persons merely because of their inability to pay fines, deeming such a practice an unjust discrimination against the poor."

"We condemn unqualifiedly the prison contract system and call upon every State to abolish it. We approve the honor system in use in many of our States, under which convicts are employed upon outdoor work."

BAD EYES

Eye-strain dwarfs the mental powers.
 A child suffering from it is seriously handicapped and his efficiency is far below normal.
 The symptoms are headache, nervousness, twitching of the eyes and face and often sick stomach is caused.
 Proper glasses placed the eyes on a normal basis and give free, easy vision and increased ability for work or study.

TOO LATE

For a lasting token of remembrance by Memorial Day. You are going along in the same old way, careless and indifferent. Better let us do that work for you and make it easier for the cemetery officials to beautify our sacred burial grounds.
 We are on the job every day in the year. Phone us. Phone No. 440.
