FIGHTING FACTIONS TO MEET AT NIAGARA

REBELS ARRIVAL WILL FURNISH NEW MATERIAL

ACTION NOT TO BE FORMAL

Carranza Agents Will Be Given Full Opportunity However, To Present Demands

By Associated Press.
Niagara Falls, June 22.—Actual negotiations between representatives of the two fighting factions in Mexico, in an effort to agree on an individual for the provisional presidency is the latest plan which the mediators have evolved for the solution of the Mexican problem. It became known that a strong pressure is being brought to bear on General Carranza through the American government and that the mediators had persuaded the Huerta government to come into the plan. Informal parleys between representatives of the two factions, outside of the formal mediation proceedings, but with the advice of the American delegates, is the object of the new plan. This move was adopted as a last resort. Every effort to get the constitutionalists to agree to an armistice as desired by the mediators had failed.

The appeal, which is said to have influenced both factions, is that the Mexicans themselves must save their country from further spoliation and bloodshed by each making certain sacrifices, but neither side will be asked to abandon the principles for which they have been contending. It will be several days before the plans will materialize and constitutional delegates can arrive. In the meantime the mediators and the Huerta and the American delegates will continue their discussion of other points in the general peace plan other than those on which they have been deadlocked.

Separate conversations with the Huerta and American delegates were set for today. Determination seems to be to leave the question of a provisional president to the two Mexican factions to decide. Any agreement they can reach will be sanctioned by the American government and the result of the negotiations would later be incorporated in the mediation proceedings for final agreement.

The advantage of the new plan, it is said, is that conferences will be continued while the situation in northern Mexico is developing. Fernando I. Calderon, leader of the Liberal party in Mexico, is understood to be the head of the delegation appointed by Carranza to attend the formal conferences here. He is en route now from Saltillo to Washington. The Huerta delegates are understood to have consulted their government and secured permission to deal with the constitutionalists. After the conference between the American delegates and the mediators, Justice Lamar said he had not been authorized to make any statement. He indicated, however, that the proceedings would be considerably prolonged. No inkling was given as to what had been discussed. A few minutes later the Mexican delegation was summoned for a conference with the mediators.

CONSTITUTIONALIST MONEY NOT ACCEPTED AT TAMPICO

By Associated Press.
Washington, June 22.—Local authorities have refused to accept payment of taxes by oil companies in constitutionalist currency with the exception of first payments. Consul Miller reports that oil taxes now must be paid in gold. Consul Hostetter reported from Nogales that Thos. Fernandez and all Americans imprisoned by the federals at Tepic were released by the constitutionalist Generals Obregon and Nueña when Tepic was taken. Consul Hanna reported that order had been restored at Monterey. Churches have reopened, banking has been resumed and merchants report improvement.

Believe Situation Now Nearer Solution—All Phases Are To Be Considered

By Associated Press.
Washington, June 22.—Indications were today that the coming of the three new representatives of the constitutionalist movement would open the way for informal negotiations between those forces and the South American mediators at Niagara Falls. That the mediators themselves would welcome anything the American delegates can do with the constitutionalists was assured here in official quarters. The three new delegates en route here, said to have the approval of Gen. Carranza and Gen. Villa, are: Fernando Caldeon, who has been in conference with Carranza at Saltillo; Alfred Breceda, aide to Carranza; and Leopoldo Espinosa, a member of congress during the Madero administration.

It is believed here that Caldeon will succeed as chief representative of the constitutionalists here. The three men are expected Wednesday. Whether Luis Cabrera, another of the constitutionalist agents now in Washington, would remain here, was not disclosed.

Jose Vasconcelos, who has been in New York several days, on a mission for the constitutionalists, returned here today, but will go back to New York within a few days.

Another message from General Carranza to the mediators has been forwarded from Washington to Niagara Falls. In that communication the constitutionalists' first chief is reported to have discussed probable informal negotiations as to a provisional government through the American commissioners.

YOUNG LIONS EAT KEEPER WHEN HE FALLS IN CAGE

Five Nearly Grown Cubs, Owned By Vaudeville Actress, May Have To Be Destroyed

By Associated Press.
Chicago, June 22.—A squad of police armed with rifles had charge today of the five young lions and their mother who blast night killed and partly devoured their keeper, Emerson Dietrich, football player and son of a Brooklyn architect. The animals are the property of Miss Adgie Castillo, a vaudeville performer who exhibited them. She employed Dietrich as her assistant and said they were engaged to be married. Whether the animals will be destroyed will be decided after an inquiry into the tragedy. Tribby, the mother was a tame old lion. The five young ones were not quite grown, born in captivity, bottle fed and considered harmless. Dietrich was knocked down accidentally, it is thought but as soon as the beasts smelt his blood they were transformed from playful cubs to jungle man-eaters. The cage was in a freight car in the railroad yards.

F. AUGUSTUS HEINZE, COPPER MAGNATE, IS REPORTED NEAR END

New York, June 22.—F. Augustus Heinze, copper magnate, and formerly a power in the financial world, is seriously ill in his home here. His counsel, William Travers Jerome, asked for the reopening of a case where a judgment for \$25,000 had been found against Heinze. Jerome reported his client as dying. The judgment was in favor of William Nelson Cromwell, Edwin Gould and others, who held Heinze's promissory note for that amount, given in payment for 13,000 shares of the Mercantile National Bank on Jan. 8, 1907. When Heinze failed to defend the action the verdict was declared against him by default.

DECLARES PIPE LINE IS COMMON CARRIER

SUPREME COURT TODAY UP-HOLDS ACT OF 1906 COVERING OIL LINES

UNCLE SAM COMPANY EXEMPT

Five Lender Defendants Doing Interstate Business Are Affected By Today's Ruling

By Associated Press.
Washington, June 22.—The supreme court today upheld the pipe line act of 1906 placing all interstate oil pipe lines under Interstate Commerce Commission regulations, as constitutional, but not applicable to the Uncle Sam Oil Company.

The pipe line amendment to the Hepburn rate law of 1906 was the result of investigation by the bureau of corporations into the affairs of the Standard Oil Company. When the bureau through President Roosevelt informed Congress that the Standard's control of pipe lines in the United States was one of its chief sources of power as a monopoly, Senator Lodge moved to amend the rate law, then before Congress so as to place pipe lines under the regulation of the Interstate Commerce Commission.

Senator Foraker of Ohio, began a fight against the Lodge amendment, contending that it would be unconstitutional unless it placed under the commission only those lines which held themselves out as common carriers. The amendment as finally passed read:

Text of Amendment.
"That the provisions of this act shall apply to any corporation or any person or persons engaged in the transportation of oil or other commodity, except water and except natural or artificial gas, by means of pipe lines or partly by pipe lines and partly by railroad or partly by pipe lines and partly by water who shall be considered and held to be common carriers within the meaning and purpose of this act."

When the Interstate Commerce Commission began to enforce the law it called upon the pipe line companies to file rates. Of the twenty-eight principal pipe lines in the United States, six refused to comply. These were the Ohio Oil company, the Standard Oil company, the Standard Oil company of Louisiana, the Prairie Oil and Gas company, the Uncle Sam Oil company and the Tidewater Pipe company, limited, carrying oil from the Appalachian field covering New York, Pennsylvania, W. Virginia, Kentucky and Tennessee; the Illinois-Indiana-Ohio field; the midcontinent field, covering Kansas and Oklahoma, and the Gulf field, covering Louisiana and Texas.

LATEST PICTURE OF TAMMANY LEADER, WHO FACES FALL FIGHT

New York, June 22.—Charles F. Murphy, leader of Tammany Hall, faces once again a fight to retain his power in the city and state. The great Democratic organization is split and it remains to be seen how badly. The anti-hope to oust Murphy, Murphy hopes to down his enemies. Fences have already been built for the fall campaign. Murphy's claim is that his leadership has been fair and impartial and for the good of the party supporters.

Rebacci had figured in other crimes and on his promise, after being convicted, to expose the work of the "murder syndicate," Governor Glynn granted him a six months reprieve.

GOVERNMENT WINS INTERMOUNTAIN CASE

IMPORTANT RATE DECISION IS HANDED DOWN BY SUPREME COURT TODAY

VALIDITY OF LAW IS INVOLVED

Ruling Sustains Act Forbidding Greater Charge For Short Haul Than For Long One

By Associated Press.
Washington, June 22.—The supreme court today reversed the decision of the commerce court and upheld the "intermountain" rate order of the Interstate Commerce Commission. This is a victory for the government.

The case involves the constitutionality of the act of Congress prohibiting the charging more for a short haul than a long haul. Under the terms of this act, the commission had ordered a general rate reduction to the "intermountain" cities, being those located between the coast range and the Rock Mountains, as these cities were having to pay higher rates than those farther west which got the benefit of "through" or "terminal" rates.

The fight was started by Spokane, which sought to show that higher freight was paid on shipments from the east to Spokane, Reno, Phoenix and other intermountain cities than was paid on shipments to San Francisco, Portland and Seattle, cities several hundred miles further from the shipping point.

The railroads contended that the difference in rates was justified by water competition. They also attacked the constitutionality of the act.

LEGISLATURE DELAYS ACTION

Fails To Pass Bill Authorizing Sale of Boston and Maine Stock By Holding Company

By Associated Press.
Washington, June 22.—President Wilson and Attorney General McReynolds are agreed that the dissolution suits against the New Haven railroad must go forward unless the Massachusetts legislature empowers the holding company to sell its Boston and Maine stock. President Wilson told inquirers today that unless the legislature acted in line with the suggestions of the attorney general and Governor Walsh the only course left open to the department of justice would be to go ahead with the Sherman law suit, which has been held up according to the agreement between Chairman Elliott and Mr. McReynolds.

Negotiations for the peaceful dissolution of the New Haven merger approached a point several weeks ago where a settlement without a protracted contest in the court seemed assured, Attorney General McReynolds agreeing to the action of the Massachusetts legislature. The content of that body is necessary before the holding company may sell its Boston and Maine stock. This disposition of these holdings is one of the government's foremost demands. Officials of the New Haven agreed to it and Governor Walsh recommended that the legislature pass a bill necessary to that end.

Last week the legislature referred the bill to a recess committee and a delay until after Christmas was threatened. Officials here expect to see the suit filed before the expiration of the time limit set by Mr. McReynolds unless the legislature takes the action recommended.

PRESIDENT'S ATTITUDE AS TO ARTIFICIAL CAMPAIGN

Doesn't Want To Keep Any Person or Business From Expressing Opinions on Business

By Associated Press.
Washington, June 22.—Discussing the so-called "psychological business depression" today President Wilson declared he had no quarrel with any person or corporation who desired to express either to him or to Congress their own opinion on business conditions and anti-trust legislation, but he contended that systematic circulation of form letters and telegrams protesting against new legislation was "certainly open to criticism."

The president said all he wanted was a square deal and that every thing should be open and above board. Telegrams and letters sent broadcast to be signed and forwarded to government officials constituted an artificial campaign he believed.

BIG SUIT WON BY RAILROADS

SUPREME COURT GIVES THEM TITLE TO OIL LAND WORTH \$700,000,000

PATENT NOT REGULAR

Clause To Prevent Land To Government Is Declared By Court To Be Invalid

By Associated Press.
Washington, June 22.—Transcontinental railways won their fight for title to \$700,000,000 worth of oil lands when the supreme court today held void the clause in the patents making the land revert to the government. The courts held that the patents were irregular, but that they could not be attacked collaterally by other claimants but could only be set aside through a direct attack of the government.

Justice Vanderventer for the court, incidentally emphasized the claim that the government's time in which it could attack the patent, expired in 1900 or 1901. The land officials decided in favor of the government, that oil lands were mineral lands.

Upholds Roads' Contentions.
"In every case before this court," said Justice Vanderventer, "we have held that where the law says that only mineral or homestead lands are to be granted, by the land officials the officials must do their duty of ascertaining whether that land came within the law and that they could not perform their duty by inserting exceptions that the land should not pass if found later not to be within the law."

This was precisely the contention of the attorneys for the railroads. Justice Vanderventer pointed out that all the land patents granted to railroads since 1866 contained a clause declaring the land should not pass from the government if later it was found to contain minerals.

"Let us see what this would mean in the case of the Northern Pacific," he said, "the Northern Pacific got every alternate section of land in a forty mile wide strip from Duluth to the Pacific. Should these clauses be held valid, the question would arise as to whether those who long ago purchased from the railroads and created farms, ranches and towns upon them had any rights."

Shouldn't Have Issued Patent.
The company contended that evidence could not be presented at this day to show that the lands were mineral lands and that the issuance of the patent was conclusive proof that they were not. It also argued that the exception was void. Justice Vanderventer held that a general statute made it the duty of the secretary of the interior to inquire whether the lands were of the class for which a patent could be issued. Referring to the practice of the land office, Justice Vanderventer said it had been the uniform practice to decide whether the land was within the limits of the application when the application was made and before the issuing of the patent.

The government has a separate suit distinguished from the case today, to cancel the patents to oil lands, held by transcontinental carriers. The recovery of lands exceeding in value seven times all the gold coin in the United States and more than all the personal property and real estate taxed in Louisiana, Rhode Island, Virginia, North Carolina or Nebraska was involved in the case.

GRAYSON COUNTY SHOOTING CASE SET FOR TRIAL TODAY

By Associated Press.
Sherman, Texas, June 22.—Set for trial today at a special term of the Grayson county court, was the charge of assault to murder against Lee McAfee, former sheriff, a case which has stirred North Texas and excited general interest throughout the State.

McAfee and Claude Eatherly, who was jailer when McAfee was sheriff, were arrested May 10 last in connection with an attempt to kill the present sheriff, Lee Simmons on the night of Nov. 2, 1913. Simmons was called from his house and shot by a woman from a closed carriage. He recovered Pearl Forrester, a white woman who had been confined in the county jail on a theft charge, was convicted of the shooting and sentenced to the penitentiary. Later she was called before a grand jury. She had since been paroled.

At the time of the shooting McAfee was sheriff and Simmons was the Democratic nominee for that office, having defeated McAfee in the primaries. When the case was called it was announced that the charge against Eatherly had been dismissed. Both sides in the McAfee case the announced ready and the task of securing a jury was still in progress late today.

This was precisely the contention of the attorneys for the railroads. Justice Vanderventer pointed out that all the land patents granted to railroads since 1866 contained a clause declaring the land should not pass from the government if later it was found to contain minerals.

"Let us see what this would mean in the case of the Northern Pacific," he said, "the Northern Pacific got every alternate section of land in a forty mile wide strip from Duluth to the Pacific. Should these clauses be held valid, the question would arise as to whether those who long ago purchased from the railroads and created farms, ranches and towns upon them had any rights."

Shouldn't Have Issued Patent. The company contended that evidence could not be presented at this day to show that the lands were mineral lands and that the issuance of the patent was conclusive proof that they were not. It also argued that the exception was void. Justice Vanderventer held that a general statute made it the duty of the secretary of the interior to inquire whether the lands were of the class for which a patent could be issued. Referring to the practice of the land office, Justice Vanderventer said it had been the uniform practice to decide whether the land was within the limits of the application when the application was made and before the issuing of the patent.

The government has a separate suit distinguished from the case today, to cancel the patents to oil lands, held by transcontinental carriers. The recovery of lands exceeding in value seven times all the gold coin in the United States and more than all the personal property and real estate taxed in Louisiana, Rhode Island, Virginia, North Carolina or Nebraska was involved in the case.

GRAYSON COUNTY SHOOTING CASE SET FOR TRIAL TODAY

By Associated Press. Sherman, Texas, June 22.—Set for trial today at a special term of the Grayson county court, was the charge of assault to murder against Lee McAfee, former sheriff, a case which has stirred North Texas and excited general interest throughout the State.

McAfee and Claude Eatherly, who was jailer when McAfee was sheriff, were arrested May 10 last in connection with an attempt to kill the present sheriff, Lee Simmons on the night of Nov. 2, 1912. Simmons was called from his house and shot by a woman from a closed carriage. He recovered. Pearl Forrester, a white woman who had been confined in the county jail on a theft charge, was convicted of the shooting and sentenced to the penitentiary. Later she was called before a grand jury. She had since been paroled.

At the time of the shooting McAfee was sheriff and Simmons was the Democratic nominee for that office, having defeated McAfee in the primaries. When the case was called it was announced that the charge against Eatherly had been dismissed. Both sides in the McAfee case the announced ready and the task of securing a jury was still in progress late today.

A tender romance of the Long Island Sand Dunes is one of the few modern novels worth a second reading. It's the kind of a book you'll want to recommend to others. The breath of the sea is in it and the freedom of the dunes. It's by Harriet Comstock whose "Joyce of the North Woods" was so good that 100,000 copies were sold in less than a year. LESSON IN FARM MARKETING

How One Producer Raised the Price and Made a Sale, Which His Opponent Lost.

Two farm wagons stood in a market, both loaded with bags of potatoes. A woman stopped before the first.

"How much are potatoes today," she asked.

"Ninety cents a bushel," said the owner.

"Oh, my!" exclaimed the woman. "That seems high; I paid only 60 cents for the last."

"That's very good," said the owner. "I raise the kind with small eyes, so there'll be no waste in peeling—potatoes are too high now; adays to peel away. Then I sort them by sizes. In each bag you'll find a large size for boiling, frying, and fancy shapes and a medium size for baking. The baking size cooks quickly, all done at the same time, and saves coal or gas, whichever you use. We wash all our potatoes clean at home, so you could put one of these bags into your parlor and not soil the carpet, and you don't have to pay me for any dirt. I'm getting \$1 a bushel for them."

He sold her three bags.—Country Gentleman.

MADE GOOD DANCING MUSIC

Convivial Party Had Reasons for Desiring Further Rendering of "Watch on the Rhine."

The following story comes from Germany, and pretends to recite facts—only facts. Diagonally across the street from my lodging, says the taller of it, there is a restaurant, which has two dining-rooms set side by side, both very much frequented of a Sunday evening. One room is the chosen resort of the Society for the Encouragement of Patriotic Music. The other room is used by the Candy-makers' Social club. Last Sunday the musical society gave a concert in its room, while the confectioners had a ladies' evening in theirs. Naturally the patriotic musicians rendered the "Watch on the Rhine"—without the least suspicion that in the next room the gentlemen confectioners and their ladies were dancing to the music thus provided gratis.

When the patriots had done "The Watch on the Rhine" twice over to their entire satisfaction there was a pause. Then the door—the door leading into the next room—popped open and one of the confectioners—an enthusiastic dancer—poked in his head.

"Play that bully two-step once again for us, please," he cried.—New York Saturday Post.

Cheese From Trees

A German traveler reports that the negroes of the Kamerun country, in Africa, make a cheese of which they are very fond from the seeds of a tree known as Treulia Africana. They cook the seeds, and then shell and crush them into a semiliquid mass. After favoring the mass with pepper, and pouring of the liquid, they mold it into cakes of a grayish-white color that at first do not taste at all like cheese. The pembe, as the natives call the stuff, has to ripen just like ordinary cheese. To this end, the natives expose the cakes to the air. The color gradually changes from gray to yellow, and finally to brown. During the process the cakes smell like cheese, but later have a distinctly sour odor. When ripe, they taste like strong cheese; and, in fact, as they are formed by the same bacterial changes that give flavor to our own cheeses, it is quite correct to call this native delicacy cheese from a tree.—Youth's Companion.

Plans Trees of Canada

Not least among trees which have become celebrated are two giant trees at Canada, near Ragusa, that "peer of the Adriatic." Within three hours' walk of Ragusa, on an elevation above the tideless sea, lies the famous garden of Count Gouze. From a primitive landing place a path leads up between oives and pomegranates, myrtles and oleanders to the level spot where the two colossal trees have stood from time immemorial. The effect of the larger tree upon a spectator standing beneath it is positively overwhelming. It takes twenty-five paces merely to walk closely round the trunk, while the spreading branches reach horizontally for from thirty to forty paces, and then bend upward and fork. A good-sized public meeting could be held in the shade of either of these immense trees.—Wide World Magazine.

Sherlock Holmes on Love

Doctor Watson has just told Sherlock Holmes of his impending marriage, and having received the great detective's good wishes, he says: "Thank you, Holmes! Some of these days, I hope, I shall be congratulating you!"

Holmes—No marriage without love, Watson!

Watson—Then, why not love?

Holmes—Absurd, Watson! Absurd! I am not for love, nor love for me! It would disturb my reason—unbalance my faculties! Love is like a saw in the crystal, and in the clock-work, from near the magnet! No! No! I have other work in the world!—From "The Speckled Band."

ANOTHER LETTER IN KATY CONTROVERSY

RAILROAD COMMISSIONER WILL STATE REASONS FOR RECENT CRITICISMS

ENORMOUS LEASE DIVIDENDS

History of Lease of Wichita Falls Railway Is Set Forth to Show Why State Took Action

Another contribution to the controversy between Railroad Commissioner Williams and Judge Hiram Glass, following the former's attack on the Katy's lease of the Wichita Falls Railway, has been made by the commissioner, replying to Judge Glass' recent letter.

A feature of this letter is the set of figures showing the enormous dividends paid by the seventeen-mile stretch of road. Judge Williams seeks to reply to some criticisms of himself. His letter follows:

The original lease contract between the Missouri, Kansas & Texas Railway Company of Texas and the Wichita Falls Railway Company is dated June 12, 1894. It is to take effect upon the completion of the railroad from Wichita Falls to Henrietta, and was then to continue in force for ten years.

The railroad was completed in 1895 so that the contract would expire, according to its terms in 1905.

Before that time, the contract was renewed for approximately twenty-nine years, to expire Jan. 1, 1930.

The consolidation act of 1911 did not put an end to the lease, as has been stated by some of those who are most vigorous in criticizing my position. On the contrary, the act of the legislature authorized the contract to be carried out in full. No new contract and no cancellation of the old contract has been filed in the office of the railroad commissioner up to this date, June 12, 1914, nor has the commission any official notification on the subject.

Recent inquiries made outside of the office show that the attorney general, in the course of the settlement of the suit by the State against the Texas Katy, insisted that an end must be made to the payment of such extraordinary and exorbitant sums and that the lease was abandoned under this compulsion.

Income Received From Lease

The first intelligible report made by the Wichita Falls Railway Company was for the year ending June 30, 1897 and shows \$29,184.21 as the income which it received from this lease for the preceding twelve months.

Subsequent years show the income from the same source as follows: For 1898, \$50,554.01; for 1899, \$36,680.66; for 1900, \$45,401.48; for 1901, \$63,667.04; for 1902, \$70,161.05; for 1903, \$66,883.46; for 1904, \$59,837.33; for 1905, \$27,256.92; for 1906, \$33,028.08; for 1907, \$47,125.86; for 1908, \$87,826.89; for 1909, \$104,487.90; for 1910, \$114,091.97; for 1911, \$120,015.60; for 1912, \$83,540.77; for 1913, \$239,961.25.

During the same period the company paid dividends to its stockholders as follows: For 1898, 108.7 per cent; for 1899, 43.96 per cent; for 1900, 58.16 per cent; for 1901, 93.66 per cent; for 1902, 82.36 per cent; for 1903, 91.8 per cent; for 1904, 109.56 per cent; for 1905, 45.23 per cent; for 1906, 79.71 per cent; for 1907, 228.26 per cent; for 1908, 360 per cent; for 1909, 420 per cent; for 1910, 161 per cent; for 1911, 1912 and 1913 nothing the entire profits for each of those years having been carried to the surplus fund.

During the same years, it took out of its profits and set aside as a fund plus fund an additional sum of \$452,037.86. This is 23.10 per cent of its total capital, and, if it has been used with good judgment it has added at least that much to the value of its shares of stock.

Stockholders Profited

These figures show that at the end of three years after operation began on this railroad, the Wichita Falls Company, out of the income from its lease, paid back in cash to its stockholders 8.7 per cent more than their entire investment, and that, afterwards during the next twelve years, the stockholders, having all their money in their own pockets, received 1667.4 per cent as profits on an investment which had already ceased to exist, retaining all the time their rights as stockholders unimpaired.

The figures show further that this company, owning less than eighteen miles of the main line track, having no special or peculiar value, laboring under the disadvantage of running for its entire length through an already occupied territory, parallel to and within rifle shot of the Fort Worth & Denver, paid out in cash to its stockholders as dividends \$1,776.10 for every \$100 share of stock and added \$2,300 more to the value of the same share.

The figures show an average profit of \$226.40 per year, and a total profit in eighteen years of \$4,076.10 on every \$100 originally paid in. They show an average net profit for each of the last five years, ending June 30, of 586 per cent, being an average of \$586 profit each year on every \$100 of capital stock at par value. They show further that at no time during this period did the Wichita Falls Co. have any income save from its contract with the Texas Katy and that this was the sole source of its profits.

State Tax a Hand

And at the expiration of the eighteen years the compelling hand of the State had to be extended to bring this contract to an end.

The exhibition of details does not improve the appearance of this transaction.

These are the figures as shown by

the sworn reports of the Wichita Falls Railway Company. They make a story which reads like a fair yale. They are amazing and well nigh incredible, yet they are the plain prose of American methods of railroad finance in days which have not yet entirely departed.

In the meantime many things had happened. The lease was becoming more valuable every year to the stockholders of the Wichita Falls Company. It would not expire for sixteen years, during which period it could reasonably be expected to produce an income of more than \$2,500,000 nine-tenths of which would be profit. The accumulated surplus amounted at that time to \$2,300 for every \$100 share.

Assuming good faith all around, there was no reason for the owners to sell out for less than the value of that which they owned. I do not know how to estimate that value correctly, but it seems to me that fifty to one is below the proper figure. Part of this, twenty-three to one, was already on hand. The remainder, twenty-seven to one, was yet to be earned, but the income certain to accrue under the lease could not reasonably be expected to bring in less than double that amount and probably much more in clear profit.

Did Stockholders Suffer?

Yet, at the demand of the State, this value which I have put at \$27 for every \$1 invested, is said to have been utterly annihilated. It has vanished, we are told. It is today as if it had never existed.

Did the stockholders really suffer this loss? If so, why were they willing to do it?

Texas railroad companies are required to report the names of their stockholders, but they are not required to, and they do not, report the selling value of their shares or any details of sales and purchases. The capital stock of the Wichita Falls and Northwestern Railway Co., an Oklahoma corporation, is owned by the Missouri, Kansas & Texas of Kansas, which also owns the capital stock of the Missouri, Kansas & Texas of Texas. The Wichita Falls and Northwestern of Oklahoma owns the capital stock of the Wichita Falls Railway Company, which in turn owns this enormously profitable lease with the Texas Katy.

But, according to the reports made under oath to this office, the Wichita Falls and Northwestern of Oklahoma did not become the owner of the capital stock of the Wichita Falls Company and the Kansas Katy did not get hold of both ends of the lease until some time during the fiscal year

ending June 3, 1913. All prior reports show individual stockholders, who do not appear to have been holding as trustees to any branch of the Katy system.

Records Are Incomplete.

This is as far as I can go, for it is as far as the records go. I can not answer what the Katy system paid for the stock of the Wichita Falls Company, or how it has charged off any loss it may have incurred on the purchase. Neither can I tell how much, if any, of the stock value which is said to have been destroyed by the abrogation of the lease contract which had already been capitalized and added a permanent charge against transportation over the system lines of railroad.

This much at least is obvious, that, if anything additional was paid for the stock because of the existence of the lease, then the amount so paid is gone forever out of the corporate treasury, and the loss must show in the final figures and must either be disallowed by regulatory commissions or it must be paid out of charges for transportation.

Commands New Officials.

The Texas Katy is under a new management, which inherited these and many other troubles and which

If We Knew.
Suppose we knew at twenty-five.
What we shall know if we survive
To man's full age
Do you suppose we'd work and strive
To fill life's page?

Would Hope, his torch a-kindling, cry:
"The mountain top is far and high,
And small the gale;
But lo! 'tis worth while to try
Tho' toil be vain?"

Or would Joy, crowned with crimson
flowers
A-smiling lead to fragrant bowers
And murmur: "Why
Not sing and dance through fleeting
hours
Before we die?"

I think that if we knew in youth
Life's bitter sweet of lies and truth,
We still would climb—
Through all the woe and pain and
ruth
To heights sublime.

ladies of the Texas Press Association.
Shortly before 7 the guests enjoyed
an auto ride over the city, returning
at 8 to the Addicks home where they
found a delicious breakfast awaiting
them, the tables being set under the
trees on the spacious lawn. A four
course menu was served, the ladies
lingering long until they were forced
regretfully to depart. The visit
of the charming ladies of the T. P. A.
will long be remembered by all who
met them and much regret was ex-

**HUGHES-WATKINS NUPTIALS
TAKE PLACE SUNDAY**

A very prettily appointed home
wedding was solemnized Sunday af-
ternoon at 4 o'clock when Miss Ethel
Lee Watkins of Elberta became the
bride of James R. Hughes of this
city, formerly of the Wheeler and
Hughes Business College. The wed-
ding took place at the home of the
groom's parents on Scott avenue. The
bride wore white lace and chiffon,
carrying an arm bouquet of pink roses.
The groom wore conventional black.
The maid of honor, sister of the bride,
wore white over pink carrying an
arm bouquet of daisies. Rev. J. L.
McKee officiated. The parlor was
tastefully decorated in festoons of
white hearts, ferns and roses, the din-
ing room being festooned in pink
hearts. The bridal party marched
down the long hall to the strains of
"Here Comes the Bride," through the
dining room meeting the minister un-
der an arch of white and pink hearts
where the words were spoken which
made the happy couple man and wife.
Mrs. Stewart presided at the piano.
Little Wansaret and Estelle, sisters
of the groom flower girls, preceded
the bride and groom, strewn the
way with roses. Delicious ices car-
ried out in the pink and white hearts,
cakes and fruit-punch were served to
the guests after the ceremony. A
number of pretty and useful gifts were
received. The happy couple will go
to Galveston for a few days, after
which they expect to return to Wich-
ita Falls to make their home. Those
present were: Messrs. and Mesdames

Judge William F. Robinson of Dallas has withdrawn from the gubernatorial contest. That puts the list down to three, the third candidate being Leopold Morris of Victoria.

Straw votes are now being taken, but it will not do to rely on them too much. For instance, a straw vote was taken at Salado, Bell county, the other day on the governor's race, and this is the result: Ferguson, 32; Hall, 88.

San Angelo, Texas, is said to be the greatest wool market in the United States, and it is nothing unusual for the sheep men to market a million pounds, for which they are receiving from 14 to 20 cents, and the price exceeds that which was being paid before Wilson was elected president.

Los Angeles, Calif., June 17.—Editor Times, Dear Sir: I want to thank you for the good service I have had in receiving my paper. Since I left Wichita Falls I have made several changes in my address.

Editor's Note—In regard to that picture, The Times most respectfully refuses to enter into the controversy, but will allow a former Wichitan, now a resident of Long Beach, and another gentleman of this city whose face appeared in a group with a string of fish in the back ground as long as a wagon tongue, all the space they might want to defend themselves against the soft impeachment.

London, June 22.—King George is officially celebrating his 49th birthday today, although as a matter of fact he is already nineteen days into his fiftieth year.

There were many military parades, the most important being the brilliant ceremony known as "Trooping the Color" which was performed on the Horse Guards Parade, St. James Park in the presence of the King, Queen and all the members of the royal family at present in London.

Queen Mary, with her daughter and the younger princes drove to the parade ground with a cavalry escort, and took up positions in the royal box just above the saluting base.

Great crowds assembled for this popular ceremony and their majesties were heartily cheered during their progress to and from the Palace.

On the Horse Guards Parade the troops were drawn up in a hollow square with drums and colors facing the saluting base.

Hurrah! for the Fourth of July

The greatest celebration ever pulled off in Wichita Falls will be held in the Scotland Park on the Fourth of July. Scotland Park, consisting of 42 acres of land covered with beautiful native timber, will be dedicated to the City by Hon. A. H. Britain, Mayor. Everything possible will be done to make this one of the most memorable days in the history of this city. All the City and County Officials, the Chamber of Commerce and the Railroad Companies are co-operating with us and we want every citizen in this entire country to assist us in making this one of the really great events that will long be remembered. Everybody is urged to bring well filled baskets and stay all day. Barbecued meat furnished free. Amusements of all kinds, plenty of music and public speaking. Excursions on all railroads.

Scotland Park is close in to the business district just four blocks from the new Scotland Bridge on Burnett street, and is an ideal place for an outing. Make your arrangements to come to Wichita Falls on the Fourth of July as thousands of people will be here.

June Wedding Feasts

Birthdays, graduations, and weddings are three very important events in the lives of young people—events that are looked ahead to and frequently planned ahead for months.

Weddings, especially those where a breakfast, dinner or luncheon is served are the subject of the most careful thought and selection of materials.

The best only is good enough. Frequently something rare or unusual is wanted.

If you have such a spread to plan and prepare for, let me help you. I have or will get quickly get exactly what you want.

Ask me for information. If I don't know I will try to find out for you.

A CONFESSION

Hopes Her Statement, Made Public, will Help Other Women.

Hines, Ala.—"I must confess," says Mrs. Enla Mae Reid, of this place, "that Cardui, the woman's tonic, has done me a great deal of good."

Before I commenced using Cardui, I would spit up everything I ate. I had a tired, sleepy feeling all the time, and was irregular. I could hardly drag around, and would have severe headaches continuously.

Since taking Cardui, I have entirely quit spitting up what I eat. Everything seems to digest all right, and I have gained 10 pounds in weight.

If you are a victim of any of the numerous ills so common to your sex, it is worth your while to try Cardui.

For half a century, Cardui has been relieving just such ills, as is proven by the thousands of letters, similar to the above, which pour into our office, year by year.

Cardui is successful because it is composed of ingredients which act specifically on the womanly constitution, and help build the weakened organs back to health and strength.

Cardui has helped others, and will help you, too. Get a bottle today. You won't regret it. Your druggist sells it.

Let Every One Boost

It is now almost absolutely sure that Texas is going to have an era of unparalleled prosperity this summer and fall, and especially Wichita County which has one of the largest wheat crops ever seen in this country. Money will soon be plentiful and times will be good.

Through all the hard years of crop failures Wichita Falls has been progressing nicely, growing faster than any city of similar size in the United States. Every month new industries and new enterprises are locating and being built in this city. With contracts already let and in sight the month of July will witness over a half million dollars of improvements under construction. With good crops and plenty of money in the country Wichita Falls will go forward with leaps and bounds.

The rapid growth of Wichita Falls means that property values will double and treble. Now is the time to make some investments. Let us show you some bargains.

ENGLAND'S SUPERIORITY IN BOAT RACES THREATENED

Crews Not Up To Former Standard To Meet Invasions By Foreign Powers

By Associated Press. London, June 22.—English oarsmen are seriously concerned over the "foreign invasion" of Henley. The coming of crews from America, Canada and Germany to row for the Grand Challenge Cup in the first week of July has set them to figuring as to what they can depend upon to defend English prowess, which in this event has only four times lowered its flag to the foreigner.

The first foreign victory was in 1906 when the Belgians won the cup. They repeated the victory in 1907, and again in 1909 while an Australian crew took the cup in 1912. However, this year the oarsmen are watching the Americans more closely, remembering how near the Vesper Boat Club of Philadelphia came to winning in 1905.

With all this competition, England this year finds herself sadly lacking in first class material. The Leander Club, which in previous years could be depended upon to put a strong crew on the river, has not been receiving so many rowing recruits lately. Formerly it was the usual thing for rowing men from all the universities and colleges to join Leander on graduating and to keep up their rowing for some years afterwards. Now more men from the universities go into business and have not the time to devote to training or else they go abroad.

Only recently the Leander Club lost its captain, Stanley Gartin, and this position has fallen to A. F. R. Wiggin, a former president of the Oxford University Boating Club. He will have the assistance of R. L. Bourne, who stroked Oxford and still strokes Leander; Scrutton an Eton captain; C. S. Clark, a Cambridge blue and Horsfall, another university oarsman. Where the others are to come from has not yet been disclosed.

What Oxford and Cambridge will do in the way of crews cannot yet be stated as their summer races come very late this year and until they are over no crews will be made up.

The foreign entries which had to be in by June 1 follow: Grand Challenge Cup—Ruder Verrein, Mayence, Germany; Harvard Athletic Association Boat Club; U. S. A.; Union Boat Club, Boston; Winnipeg Rowing Club, Canada. Thames Challenge Cup—Royal Club Nautique, Ghent, Belgium. Stewards Challenge Cup—Grasshopper Club, Zurich; Ruder Verrein, Mayence.

INTERNATIONAL CONVENTION OF ROTARY CLUBS BEGINS

Houston Is Scene of Gathering of Representatives From America and Europe

By Associated Press. Houston, Texas, June 22.—Representatives from many sections of the United States and a large delegation from Scotland were present this morning for the opening of the International Convention of Rotary Clubs. Thomas H. Stephenson, heading the Scots and C. R. Perry, secretary of the national organization, were among the first visitors to arrive.

An interesting three days program of business sessions and social entertainments was provided by the local Rotary Club. President Wilson had been asked to speak but was unable to attend. Members of Rotary Clubs are drawn one from each business in the town where the club is located and they work to assist each other in business and recreative ways.

HOME ECONOMICS PROMINENT IN NEW SCHOOL CURRICULA. Madison, Wis., June 22.—A notable increase in courses offered in home economics, agriculture, manual training and physical education marked the opening today of the summer sessions of the University of Wisconsin. The home economics courses are considerably expanded and an interesting line of work will be offered in courses of public speaking, argumentation and speech composition.

The entire staff of the department of education will be kept busy during the summer sessions, and teachers will find courses in this department specially adapted to meet the practical problems that confront them in their every day work. Provisions are being made by the university to take care of the recreation side of summer session life and a special playground will be established for the benefit of summer students.

Our Soda Drinks are Better
