## WILSON COMMUTES THREE SENTENCES

ALLEGED MEMBERS OF "DYNAMITE CONSPIRACY" TO GET THEIR LIBERTY

## CLEMENCY REFUSED OTHERS

Twenty Defendants Must Begin Serving Their Sentences at Leavenworth Tomorrow

By Associated Press. Washington, June 24.—President Wilson today commuted, to expire at once, the sentences imposed on Michael J. Hannon of Scranton, Pa., Frank Paynter of Omaha, Fred J. Mooney of Duluth, Minn., and William Shupe of Chicago, all convicted in the dynamite conspiracy cases. The other twenty defendants including the leaders, must begin serving their sentences tomorrow in Leavenworth penitentiary.

Clemency for John Barry and Paul J. Morris, both of St. Louis, was withheld while they have opportunity to submit separate petitions.

Played Minor Part. The four men whose sentences were commuted had a minor part in the conspiracy, the government charges.

Hannon was sentenced to three years, Paynter to two, Mooney and Shupe each got a year and a day. Barry got four years and Morris three years. Those whose applications for clemency were finally denied included Frank M. Ryan, head of the Iron Workers Union of Chicago, sentenced to seven years.

Petitions setting out individually the applications of the other two for executive clemency will be received. The twenty-four men who applied for pardons were convicted of conspiracy and the transportation of dynamite in interstate commerce, for the wrecking of buildings and other structures in a labor war between the Structural Iron Workers and the employers.

The noted cases grew directly out of the dynamiting of the Los Angeles Times building and the confession of the McNamara brothers. New trials have been granted and are pending for six of those first convicted, including Olaf A. Tveitome of San Francisco. No memorandum was given out accompanying the president's action, but it was understood the president followed closely the recommendation of Attorney General Reynolds.

## OWNERSHIP OF GROUND IS SUBJECT OF SUIT

Wichita Valley Claims Title and Wants Possession of Tract Near Mansion Hotel.

The suit of the Wichita Valley Real Estate Company vs. Charles Somerville et al for title and possession of a triangular strip of ground south of the Mansion Hotel is on trial before a jury in the district court. The ground in question has been under fence and taxes have been paid by Somerville on it for more than ten years.

Before this case was taken up at the morning session of the court judgment was entered against the South western Telephone Company for \$2300 in favor of the widow and son of R. A. Moore, the telephone lineman who was killed in a fall from a telephone pole at Iowa Park about six weeks ago. The judgment was by agreement and was for the amount of three years salary of the man who was killed. It was in conformity with the insurance plan inaugurated by the telephone company that the settlement was made.

## CONDITIONS IN HAITIEN REPUBLIC ARE SERIOUS.

By Associated Press. Washington, June 24.—Reports have been laid before the cabinet showing that revolutionary conditions in Haiti were serious and that no immediate solution was in sight. The difficulty of Haiti in meeting debts due to several European countries was discussed at length but cabinet members said there was no serious fear that France or Germany would seize the Haitian customs houses. The possibility of the United States intervening in some way in Haiti and seeking to bring about peace and the payment of debts was discussed but nothing definite was decided on.

## FALL OF ZACATECAS IS REMOVED.

Washington, June 24.—Semi-official dispatches from Tampico today said it was reported there on reliable sources that the constitutionalist general, Natera had taken Zacatecas on June 19 and that the troops were being hurried to San Luis Potosi. The report was not credited here.

## VILLA ORDERS ADVANCE ON ZACATECAS WHERE DESPERATE BATTLE IS EXPECTED

## FARMERS HOLD WHEAT FOR BETTER PRICES

ANOTHER DROP IN LOCAL QUOTATIONS IS ANNOUNCED TUESDAY.

## MORE GOOD YIELDS REPORTED

Some Burkburnett Farms Said to Have Made as High as 25 Bushels Per Acre.

Wheat prices took another drop late yesterday and today wagon wheat is bringing only seventy cents in the local market. The reduction follows heavy decline in July and September options in the Chicago board of trade the price here being governed by the September option.

Receipts fell off some day and reports from the country say that many farmers are storing their grain. A good many are buying grain tanks for this purpose. Farmers who are able to finance their crops without rushing their wheat to the market, feel that they are certain to profit by holding their crop.

Some yields as high as twenty-five bushels per acre were reported from the Burkburnett section while some crops in the Holliday Creek lowlands which were overflooded are threshing only six or seven bushels. Around Burkburnett and in the northern part of the county most of the crops so far threshed have turned out twenty bushels or better.

## ROOSEVELT DUE BACK TODAY FROM TRIP TO EUROPE.

New York, June 24.—Col. Roosevelt who attended the wedding of his son, Kermit, and Miss Belle Wyatt Willard in Madrid, was expected back here today. Upon his arrival or shortly after, the former president and leader of the Progressive party was expected to make some declaration of principles on the big issues which have developed since he left for his exploration tour in South America. Upon his return from Brazil and just before his departure for Madrid, the colonel declared he would not talk any kind of politics until his return here. An important matter which will be called upon to discuss will be the recent public announcement by Amos Pinchot to George W. Perkins, that the latter ought for the best interests of the Progressive party to resign as chairman of the National committee.

By Associated Press. Washington, June 24.—Tips to waiters and porters on trains and steam boats in interstate commerce would be prohibited by a bill introduced today by Senator Works. At the same time it would make it unlawful for an employer to pay such low wages that tips were necessary for the proper compensation of the employees.

## FIRE DAMAGE HEAVY IN MANCHESTER, NEW HAMPSHIRE

By Associated Press. Manchester, N. H., June 24.—A fire which for six hours today threatened to wipe out the retail district of this city was finally brought under control after it had destroyed two large commercial blocks with a loss of \$400,000. Nine firemen were hurt, but all will recover. The blaze was most spectacular and the peril of fighting it was increased by the inflammable nature of the stock in a hardware store which included gunpowder, chemicals, paints and oils.

## HIGHER COURT HOLDS ALLISON LAW VALID

CONSTITUTIONALITY OF MEASURE IS SUSTAINED IN DECISION TODAY

## APPEAL BY GAINESVILLE MAN

Court of Criminal Appeals Reverses and Remands Case of Dimmit Smuggler Today

By Associated Press. Austin, Texas, June 24.—The constitutionality of the Allison liquor law of the last legislature which prohibits interstate and intrastate shipments of liquors into prohibition districts was upheld today by the court of criminal appeals in affirming the case of ex-parole L. D. Muse from Cooke county, which came up on a writ of habeas corpus.

Muse was indicted on a charge of delivering intoxicating liquor into Gainesville and sued out a writ of habeas corpus to obtain his liberty, claiming that the liquor law was unconstitutional. The writ was granted but relief was denied, the court today holding that the act being constitutional it has no power to prevent the lower courts from trying the case.

"In our opinion," says the court, "the act is clearly constitutional and the indictment charges an attempt under this act."

The court of criminal appeals reversed and remanded the case of Leonardo L. Vasquez, from Bexar; appellant was given fifteen years in the penitentiary this being a companion case to that of Serato and others, being the Dimmit county smuggling cases; they were charged with killing Deputy Sheriff Ortiz. The case affirmed three cases but reversed the Vasquez case.

This was because the evidence disclosed that Vasquez was not in the conspiracy to kill Ortiz, although the appellant admitted he was in the conspiracy to gather arms and ammunition to invade Mexico. The appeals court held that the trial court erred in the Vasquez case in failing to submit appellant's defensive theory in any manner.

## NO OPINIONS HANDED DOWN BY SUPREME COURT TODAY

Twenty Motions For Rehearing Are Overruled, Including One in Winfield Scott Case.

By Associated Press. Austin, Texas, June 24.—No opinions were handed down today by the supreme court which confined itself to overruling motions for rehearing in twenty cases without writing any decision. In the cases for which motions for rehearing were overruled was that of Mrs. Elizabeth Scott et al vs. Mrs. Georgia Scott-Townsend from Tarrant county; this is the case in which is involved the Winfield Scott will disposing of an estate of about \$1,000,000. This court did not adjourn today but recessed until Friday. The court of criminal appeals also recessed until Friday. The supreme court did not act today on the oil lease case from Wichita county.

## ODD QUESTION ARISE UNDER WORKER'S LAW

San Francisco, June 24.—California's industrial accident board has been called on lately to answer several peculiar questions in connection with the comparatively new workmen's compensation law. Some of them with their answers were as follows:

Is the common law wife of a workman, killed at his work, entitled to compensation? No, because the board does not wish to encourage illicit relations between the sexes, but his illegitimate child is.

Is lead poisoning an industrial accident? No, it is an occupational disease.

Is compensation due to the relatives of a man killed defending his employer's store against a marauding Mexican band from across the border. Yes, that is an industrial accident.

Should a man suffering from a dislocated shoulder due to what was admittedly an industrial accident, receive additional compensation because his convalescence was retarded by the breaking of a pitcher on his head in a fight he engaged in? No, of course not.

## REPORTS OF SNIPING BEING INVESTIGATED

FEDERALS SAID TO BE SIDING FOR INTERVENTION AT VERA CRUZ.

## BRECEDA'S ARRIVAL AWAITED

Carranza's Agent Expected to Confer with Washington Officials as to Niagara Meeting.

By Associated Press. Washington, June 24.—Persistent reports of sniping by Mexican federalists on the American outposts at Vera Cruz and rumors of constitutionalist further advances toward Mexico City served today to stir interest in the Mexican situation. Although the war department will announce no reports from Gen. Funston regarding sniping on the Americans, it is known there has been an investigation of continued reports to that effect. There have been many instances that Huerta's forces were attempting to provoke a fight and force intervention. Patient waiting continued to be the attitude of the administration.

The coming of Alfred Breceda, Carranza's representative tomorrow was awaited with interest in official quarters where some knowledge of the nature of his mission was said to have been received from consular agents. That Breceda and his colleagues are coming to participate in conference with Washington officials is desired to be a fact, but whether they or other constitutionalists will go to Niagara to join the American and Huerta delegates in informal discussion of peace still seems problematical.

Administration leaders insisted that mediation prospects were hopeful.

## STRIKING LETTER CARRIERS IN PARIS RETURN TO WORK

Held Postoffice and Stopped All Mail Until Government Considered Demands.

By Associated Press. Paris, June 24.—The letter carriers strike in Paris which has threatened to result in scenes of violence and had struck a severe blow at business, ended today by a promise from Gaston Thomson, minister of commerce, posts and telegraph to make a searching inquiry into the men's grievances provided they return immediately to duty. A deputation from the men who had held possession of the central postoffice all night and prevented the distribution of the mail called on the minister and obtained his promise. A few hours later the postal service was again in full operation.

## WASHINGTON MEMORIAL TABLET IS DEDICATED.

New Brunswick, N. J., June 24.—With impressive ceremonies city officials and local members of the Sons of the American Revolution and other patriotic societies joined today in dedicating the tablet on the site where George Washington stopped here on his way to take command of the Continental army at Cambridge, Mass., 133 years ago. Three members of the Massachusetts chapter of the Sons of the American Revolution left Philadelphia two days ago to cover the route taken by Washington. A tablet will be unveiled at Elizabeth tomorrow.

## TODAY'S MARKET REPORT

**Wheat Continues Decline.**  
Chicago, June 24.—Notwithstanding that the wheat market has already advanced a virtual straightway break of 19 cents a bushel prices today suffered an additional smash. The decline was due chiefly to the growing realization of the immensity of the crop for the entire country. Trading during the first decline showed decided activity and considerable excitement. Opening prices which were a shade to 1-8 lower were followed by a moderate rally. Corn rose on account of the absence of selling. Shorts were free buyers. After starting unchanged to higher the market continued to ascend. Ideal harvest conditions in Nebraska where forty per cent of the crop will be ready by next Monday tended to keep the wheat market depressed. The close was steady. Reports of low price sales of Argentine corn led to a reaction in corn. The close was steady. Wheat, July 78 1-8; Sept. 78 7-8; corn, July 68 7-8; Sept. 67 1-8; oats, July 38 1/2; Sept. 37 3/4.

**PURPORTED DEMANDS OF U.S. MADE PUBLIC**

New Orleans, June 24.—What purported to be the demands of the Catholic church on General Carranza by which General Carranza would enter the mediation conference at Niagara Falls were given out here today by Alfred Breceda, head of the Liberal party in Mexico. Aside from the armistice feature, Aldora said the demands concerned disposal of religious questions and the time elements should take place greatly interested the constitutionalists.

According to the statement the Liberal party held the United States demanded that all property of the Catholic church confiscated by the constitutionalists should be returned to the church, that buildings destroyed should be paid for and that priests should be protected and those driven out of the country allowed to return. To this Carranza replied the constitutionalists should be returned to the states when needed and the priests must go. According to Breceda, Carranza refused to accede to the demands for elections as soon as the revolution is ended. Another demand according to the statement was that Huerta should be protected to which he reported Carranza replied that Huerta must die and refused to accede to the demand. That Carranza also refused to obligate the constitutionalists to pay debts incurred by the Huerta government was also reported.

**ANCIENT CITY OF THE INCAS**  
Ruins Discovered on the Summit of the Peruvian Andes May Reveal Much of History.

Visions of departed glory are conjured by the news that the ruins of an Inca city, hitherto unknown to archeologists, have been discovered on the summit of the Peruvian Andes. There is, perhaps, no more fascinating chapter in the history of the western hemisphere than that which deals with the remarkable civilization of this South American race.

Prof. Hiram Bingham, of Yale declares the ruins to be the largest, with the one exception of Cuzco, that have yet been discovered. They derive additional interest from the fact that they have remained unoccupied since they were deserted by their original inhabitants, and may thus be counted upon to tell a story unmarred by the vicissitudes of human design.

Archeologists think the Inca valley of Peru was settled by the Incas some 300 years before Pizarro landed on the coast. It was in 1527 he first cast envious eyes upon the wealth and glory of this new world empire. He returned to Spain with his story, and made a contract to conquer the empire. He paid the price of his life to gratify his ambition, but the Inca empire fell and the glories of a great people passed when Spain took possession.

The city of Machu Picchu escaped Spain's discovery, hidden in its mountain fastness, and we await with interest the revelations its undisturbed treasures may afford. Assuredly archeology will be enriched, and there is reason to hope that art may gain by exploration of the ruins.

### LABORERS ON NEW ELEVATOR ASK FOR INCREASE IN PAY

Walk Out When Demands Are Refused—About a Dozen Remain at Work

About twenty-five concrete mixers and layers and other laborers employed by the Burrell Construction Co., which has the contract for putting up the new elevator for the Wichita Mill and Elevator Company near the Wichita Valley tracks between Austin and Burnett streets, quit work in a body yesterday. They ask for an increase in wages from twenty to twenty-five cents per hour.

About ten or twelve men remained at work and a few others were employed yesterday to take the place of the strikers. Complaint was made to the sheriff's department late yesterday evening that some of the strikers were threatening the men at work with violence and were seeking to intimidate them. Deputy Sheriff Ed Carnes went out but found no trouble upon his arrival. The strikers are reported to have returned during the night and again made threats.

This morning a body of the strikers marched through the business section of the city and back to the scene of the work.

### America's Great Hot Weather Drink

Say what you will, go where you will, try what you will, there is hardly anything that you will find in the way of a summer table drink that will take the place of Welch's Grape Juice.

Now there are some physicians who claim that there is not very much nourishment in grape juice. Be that as it may, they do admit that it is a wonderful drink and there is enough nourishment in it to make it of extra value on the table.

It's simply full of health and ought to be used constantly in every home where good health is valued. Don't compare the single bottle price with the case price. It isn't fair to you or the grape juice. Let me quote you a price on a case of pints or quarts then you will realize why you can use it frequently.

Can Supply Either Welch's or Red Wing.

### NOW COMES GAINESVILLE, WANTS IN ON INTERURBAN

Meeting is Held Tuesday—Will Probably Send Committee To This City Friday

If the Dallas-Wichita Falls interurban is built Gainesville wants to be on the route. At a Chamber of Commerce luncheon Tuesday the matter was broached; the following is from the Gainesville Register:

"While the luncheon was in progress a number of subjects were discussed, the most important of which was the proposed interurban railway from Dallas to Wichita Falls, by way of Denton. Judge J. M. Lindsay was the first to discuss the interurban proposition, after first having read a number of letters he had received in regard to the matter. Judge Lindsay stated that he had been in communication with Messrs. Kemp and Kell of Wichita Falls as to whether or not the road would run through Gainesville, and they had replied that they would like to see the road run through this city, but could make no definite promise regarding the matter. Mr. J. C. Whaley is in Dallas today conferring with the Dallas Chamber of Commerce committee to learn what Gainesville's prospects are for getting the road. Judge Lindsay stated that he thought Gainesville stood a much better chance to make a deal with the Dallas Chamber of Commerce to extend the line from Fort Worth to Denton, (now being constructed) on to Gainesville. Mr. Lindsay exhibited quite a number of letters from different parties regarding this proposed extension and just as soon as Mr. Clifford, manager of the Stone and Webster interests, returns from Boston, something definite about the matter will be learned.

"Mr. Wm. Killgore was next called on and he delivered a very interesting talk, stating that he was ready to take stock any time in an interurban to Denton and thought that the best thing for Gainesville people to do, if they failed to get one of the proposed roads, is to build a line of their own to Denton, there making connections with both the Dallas and Fort Worth roads.

"Secretary Johnson read a letter he had received from the Dallas Chamber of Commerce in reply to one he had written, asking the committee to stop off at Gainesville for a day on their way to or from Wichita Falls, the committee being unable to stop on account of limited time. They stated, however, they would be glad to confer with any committee that could meet with them Friday in Wichita Falls. A move was made and seconded that President Garnett appoint a 'scouting committee' to meet the Dallas Chamber of Commerce committee in Wichita Falls Friday."

### SAYS TRADES COMMISSION WOULD SOLVE MANY PROBLEMS

Washington, June 24.—That a federal trade commission created at the time of the establishment of the interstate commerce commission would have prevented the development of industrial monopolies in the United States is one of the contentions in the report of Chairman Newland of the interstate commerce commission on the trades commission bill presented to the Senate.

"If this commission had been in existence," said the report, "we would not now have to deal with such organizations as the United States Steel corporation or the International Harvester Company or the American Sugar Refining Company. The American Tobacco Company would never have been organized and even the Standard Oil would not have survived the dissolution of the original Standard Oil trust in 1882.

"Such a commission would at least have left within limited bounds the activities of a multitude of price fixing associations in different branches of business which together with the great trusts have been potent causes of the present high cost of living."

### ALEXANDRA DAY TODAY IS OBSERVED IN LONDON.

London, June 24.—The wild rose was the only badge that enabled pedestrians to pass unmolested through London streets unconditionally to an army of 20,000 white robed flower sellers who waylaid the florally adorned and reminded them that it was Alexandra Day. Inaugurated a couple of years ago to celebrate the fiftieth anniversary of Queen Mother Alexandra's arrival in England, Alexandra Day has become an annual floral fete and the esteem in which King George's mother is held was shown by the unanimity with which Britishers donned her favorite flower.

In Wild Rose Time.  
I met you, love one glad June day,  
When the robins were calling over the way.

I met you, sweetheart mine,  
As you came to gather blossoms fair;  
By the broken stile—I found you there—  
In wild rose time.

I kissed you, dear in the twilight pale  
As we walked through the clover-scented vale  
I kissed you, sweetheart mine.  
You returned the carous with winsome grace,  
Near the self-same stile—our trysting place—  
In wild rose time.

I'll wed you, sweet, when roses away  
With the gentle breeze, as they did that day—  
I'll wed you, sweetheart mine,  
Some peaceful day, 'neath a cloudless sky.  
Life we'll start together, you and I,  
In wild rose time. —Table Talk.

### Hair Made Beautiful

Beautiful hair, thick, fluffy, lustrous and absolutely free from dandruff is not so much a gift of nature as a matter of care and proper nourishment. Hair is like a plant—it will not grow healthy and beautiful unless it has attention and proper nourishment.

Parisian Sage, daintily perfumed and easily applied, tones up and invigorates the roots of the hair and furnishes the necessary nourishment to not only save and beautify the hair, but also stimulate it to grow long, heavy, soft, fluffy and radiant with life.

When used frequently and rubbed into the scalp, it will simply work wonders. Just one application stops itching head, removes dandruff and cleanses the hair of all dust and excessive oil.

Since Parisian Sage, which can be obtained from Poochee & Lynch or at any drug store, never disappoints, it is no longer necessary for any woman to be humiliated because of thin, streaky, faded, lifeless or unattractive hair.

The Irish Lads covered themselves with glory Tuesday afternoon when they took a great game from the Liepolders and incidentally climbed into first place in the percentage column. The possibility of a tie for pennant honors is now large, as these two teams do not meet again this season. The Lads have one more game with the Black Cats as their opponents, while the Liepolders have two, one with the Cats and one with the Stammers. The Liepolders team win its remaining games, there would be a tie for the lead.

Smith pitched effective ball for the Lads, while Fligo who occupied the box for the Liepolders was pounded hard. The Liepolders rallied in the closing innings, but fell short of enough runs and the final score was six to two.

The Liepold-Black Cat game which was announced for this afternoon, will probably not be played until next week.

The straw vote taken at the court house Tuesday showed Ferguson to be the favorite of those who expressed themselves, by two or three votes, but not by any such proportion as 78 to 14 as was stated in yesterday's Times. The figures in The Times, taken at three o'clock, should have been: Ferguson 18, Ball 14. The final count showed Ferguson the favorite by about the same number of votes. Over half of those questioned did not commit themselves.

No matter who is elected governor of Texas—whether it be Ball or Ferguson—he will be unable to accomplish much in the way of fixing Texas as a sane, safe, sensible business administration unless the people elect men to the legislature who will go there for the purpose of doing something for the people instead of promoting their own political and financial interests. We can do this by cutting out the professional peanut politicians. They are unfit for law-makers, and the quicker the people cease to send them to Austin on such important work the better it will be for Texas.

It is also well for Democrats to remember that in addition to voting in the precinct primary elections on July 25th, precinct conventions will also be held in the afternoon or night of the same day of the precinct primary election, and at these conventions delegates to the county convention are to be selected. The county convention, composed of the delegates sent from the precinct conventions, selects the delegates to represent the county in the state convention to be held at El Paso in August. If the county should give a majority for Ball and a Ferguson delegation is sent to the state convention, it would be very embarrassing. On the other hand, should Ferguson secure a majority in the county and a Ball delegation selected for the state convention, it would be just as embarrassing for Ferguson. The Times believes it is the duty of the county Democratic chairman and the committeemen to issue due notice in advance of the holding of these conventions, the time and place where they will be held, and doubtless this will be done. All Democrats, however, should not fail to attend the primary conventions. It is important, perhaps just as much so, as it is for them to go to the polls and cast their ballots for their favorites.

SLEEP SLAUGHTER ON TENTH STREET.

Editor Times: 'Ev'ry night about half past eight, Comes a tap, tap, tappin' at the garden gate. It ain't no use to look under the chair, 'Cause the tap, tap, tappin' don't come from there.' We would like to paraphrase this old spook verse and remark that every morning, anywhere between 2 and 5, slumbering residents along Tenth street have their complacent dreams rapidly interrupted by shattering sounds that the reader may easily imitate by holding the tongue lightly against the roof of the mouth and blowing hard with the mouth about half ajar: the operation should be brief, as the original racket lasts but little more than a couple of seconds at a time. Motor cars, driven at probably their maximum speed, produce the sleep slaughter. There is always one of these swift boys on the job—often three or four. We ask through ignorance, what's the idea? Could it be, any chance be the milkman's brigade? If so, what make of truck could they

DR. E. M. HUGHES Physician and Surgeon Rooms 7-3, Moore-Bateman building Phone, office 89; res. 1709

possibly employ to make delivery along Tenth street going at a lick of presumably forty-odd per mile? Could it be an ambulance patrol transporting the same patient between hospitals each morning? May be the cars select the early hours in which to train for prospective race meets, or again it may not be unlikely that some belated brakeman is being blown through town to catch the tail-end of the caboose before the long-drag freight has time to get out of the yards. One has about as clear a chance of grasping the facts in the case as a ninety-year-old cripple climbing a greased pole. Do some autolists have to be put to the inconvenience of waiting until the speed cop is off duty before they can "enjoy" things? The special officer who takes care of speeders is a diligent, vigilant man and he is performing his particular duties most faithfully; no complaint is registered against him. The rough riding referred to is done at the hours when every human that isn't doing night work ought to be spread out on the sheet and absorbing nerve tonic through refreshing slumber—and permitting others to become inoculated by nature with the same brand of medicine. No doubt many residents of Tenth street sorter have a sneakin' curiosity along with us to know what's doing. Oh, very well—ish kabibble!

MAKE A RULE THAT WORKS BOTH WAYS.

It took Phil and me ten years to save up enough to buy our home. Then we had a chance to sell it and we put the money, \$1,500, in Lorimer's bank. It will be hard for us to start saving all over again, for Phil and I aren't as young as we used to be.

The speaker was Mrs. Philip Burke of Chicago, one of the many thousands of victims of political banking.

Last spring when congress was drafting the new federal banking law, somebody proposed to make banks insure the money of depositors.

Bankers objected. The safe and honest bankers claimed it wouldn't be fair to tax them to insure against the mistakes or crimes of unsafe or dishonest bankers.

"Let the person who wants to put the money in a bank pick out a safe bank," they said.

And so the deposit guaranty clause was stricken out.

Phil and Mrs. Burke thought they were picking out a safe bank. They never knew a sane person to put money in a bank he thought unsafe.

The Burkes didn't know. How could they know? Do you know, even today, wase as you may be?

If the Burkes had wanted to borrow on their home, you may be sure that Lorimer's bank wouldn't have loaned without insuring the loan. But when the shoe was on the other foot, the rule didn't work both ways.

What is true of Lorimer's bank in this respect is true of nearly every bank in the country—you must insure them if you want to borrow money; but they won't insure you if you want to deposit money.

Perhaps it may not be fair to tax the honest bankers to insure depositors against dishonest ones. But it would be as fair as to put all the tax on swindled depositors.

Private banking is a privilege, not a right. That being true, the power which confers the privilege should exact, as a condition, that money brokers must take no toll of profit until they have first secured the depositors with whose savings they deal.—Dallas Dispatch.

No banker or bank that exacts security for money loaned should object to making secure those who deposit money with them. All well conducted banks demand security. It is right they should, but when they make objections to securing depositors it shows bad faith. A big bank in Little Rock closed its doors the other day. It had just constructed and moved into a large sixteen-story building. The depositors were not secured and those in charge of the bank say the depositors cannot hope to get back more than fifty cents on the dollar of their money and that much will be paid in installments and will be a long time doing it. Every state in the union should have a law protecting bank depositors. It is not only best for depositors, but for the banks. We could not do business without banks, and the banks find it difficult to get along without depositors. There are dishonest men in all vocations of life, and the bankers—not all of them—are immune.

Announcement is made by A. W. Walker, manager of Col. Col. Ball will be the principal speaker on that occasion. The railroads are to make cheap rates.

CLIPPED FROM EXCHANGES.

Regardless of the effect the Lewis Radford letters may have on the election to occur July 25, there is no gain in the fact that they have contributed largely to the gaiety of the campaign.—Denison Herald.

Frank Putnam writes the Light to say he regrets that we did not see proper to give his late effusion a place in our columns. Really, Frank must excuse us. The Light deals in nothing but reliable information.—Waxahachie Light.

Frank Putnam came all the way from St. Louis to tell the people of Texas how to vote for governor—and his opposition to the Houston candidate will have a tendency to increase that gentleman's majority.—Kosse Cyclone.

HUERTA'S PICTURE.

For the life of us we can not see why the newspapers continue to give the picture of Huerta a first page position. He has not, so far as we have learned, been entered for the blue ribbon in any beauty contest.—Waxahachie Light.

Huerta is in the public eye, and even though he is not a prize beauty, his facial lineaments are (or were) interesting to readers of the public prints. Consider this matter personally. Suppose you were to accept an important military command under Woodrow Wilson, commander in chief, and, after a season of amity, rise up in the night and push him out of the presidential chair, have him arrested and locked up in the Potomac flats, then later in the night, make him run the gauntlet between two firing squads. Suppose that, after you had defied and reduced competition, you were to take charge of the whole works at Washington and send the senate and house of representatives to jail, jerk the supreme court bald-headed and hang to convenient telegraph poles and sundry politicians and newspaper correspondents, besides leaving orders at the offices of the Washington newspapers that they mustn't print anything you wouldn't like. Suppose all that, you Waxahachie coup 'estator, and say whether or not the Mexican newspapers would be justified in printing your picture frequently. Of course, in your case there would be some differences.—Old Man Huerta is a surly and an ugly old fellow, whereas you are handsome and urbane. Still, folks could get tired of seeing the likeness of even as likely a tyrant as you would be, and doubtless there would be critics to fuss at the newspapers for showing repeatedly just what you look like.—State Press in Dallas News.

NIAGARA MEETING AWAITS CONSTITUTIONALIST AGENTS

Report From New Orleans As To Carranza's Refusal Does Not Shake Confidence

By Associated Press. Niagara Falls, June 25.—Further discussion of those planks of the peace program which relate to international differences between the United States and the Huerta government occupied the mediators and delegates today while awaiting a definite understanding of instructions issued to constitutionalist agents who are expected to come here. It was said at least one of the planks would be framed as a protocol today and that the other would be agreed on by the end of the week.

If the purpose of the principals is fulfilled the international side of the controversy will be cleared up leaving the question of selecting a provisional president and other internal problems to the conference of representatives of constitutionalists and the Huerta government.

Notwithstanding reports from New Orleans quoting Carranza's spokesman as casting doubt on the probability of such a meeting, confidence prevails in American quarters that ultimately the factions would be brought together. It was understood the efforts of the Washington government were bent in that direction, although it was admitted here that arrangements have not yet been perfected justifying a public announcement from the mediators.

IMMENSE CROWD ATTENDS JONES-KENNEDY FIRE SALE

Waits On Sidewalk For Hours Before Store Opens and Enormous Business is Done

The opening of the fire sale at Jones-Kennedy's store this morning found between 1,000 and 1,500 shoppers lined on the sidewalk and in the street in front of the building and the crowd was so large that it was found necessary to admit them into the store in bunches and then shut the doors until this bunch was through and ready to leave the store. Then the doors would be opened again and another store full admitted. This was kept up throughout the morning and at noon some who had

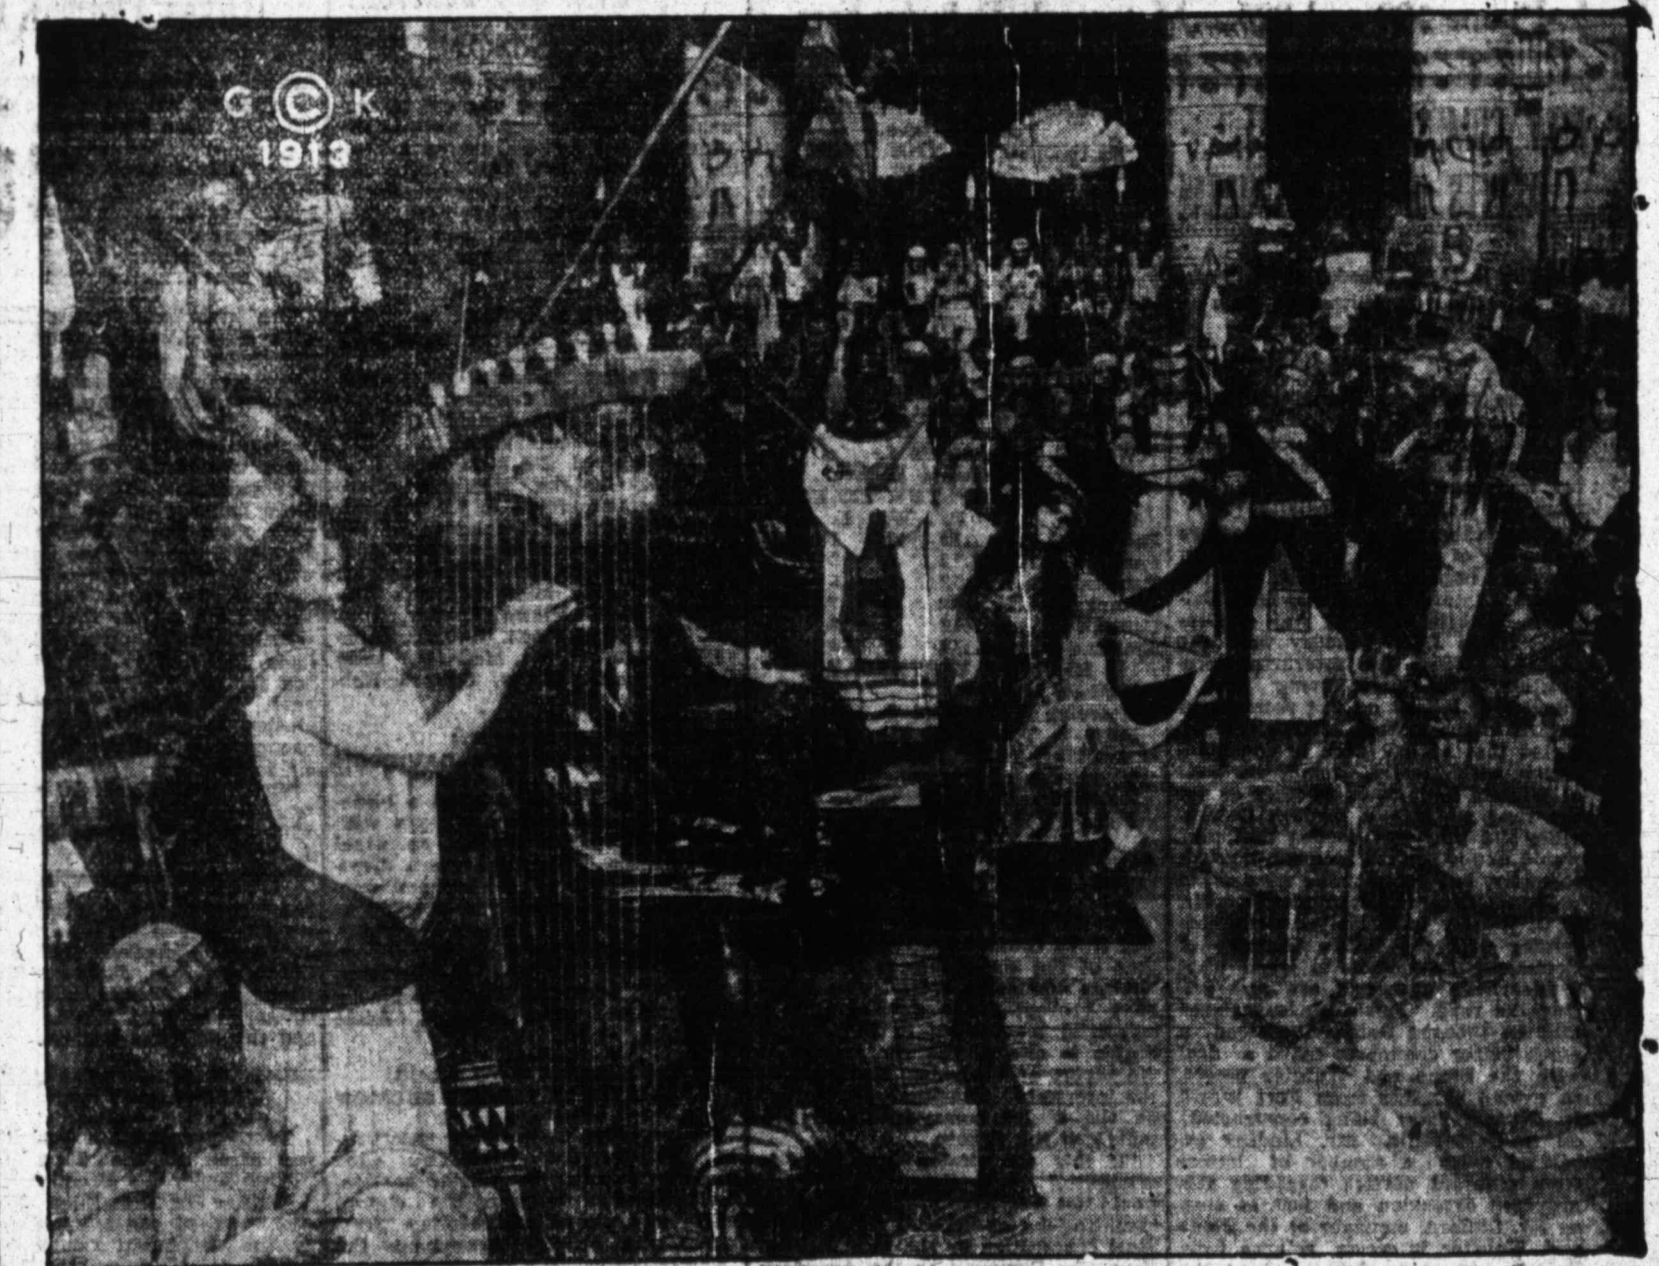

waited all morning were still waiting for admittance.

The crowd began to gather before 7 o'clock this morning and by 9 o'clock, the hour for the opening, it extended half a block down the sidewalk and overflowed into the street in front of the building.

Two policemen had difficulty in keeping the crowd from jamming those in front nearest the doors into insensibility. Several women fainted but none suffered serious consequences. A corps of forty clerks were awamped with work when the doors were opened.

WHAT WILL PEOPLE SAY?

By RUPERT HUGHES

A brilliant story of New York's mad dance after pleasure and wealth, through hotels and cabarets, ballrooms and country houses, by motor and on yachts, on the backs of blooded horses, eating, drinking, making love, beautiful young girls, women who still try to be young,

and the men of their gay set, follow each other in feverish haste, with no brake to hold them back except the fear of "what will people say?" But the piper waits to be paid.—Illustrated \$1.35.

"ANTONY AND CLEOPATRA" AT MAJESTIC THIS WEEK

An advance notice says: "Words fail to express with justice the manifold beauties of Geo. Kleins' latest photo drama success, 'Antony and Cleopatra.' It is one of those rare achievements that occur once in a life time, where every attribute meets the requirement of public fancy. Historically it is the most important production that has yet been presented in this country and the story has an equally powerful attraction to all readers and students. In point of spectacular beauty it has never been approached. Made by the Cines Company who made 'Quo Vadis' it has all the bigness that characterized that wonderful subject, coupled with the realization of dramatic romanticism afforded by Egypt and the famous love tragedy of Antony and Cleopatra."

This production will be seen in this city at the Majestic Thursday and Friday, June 25th and 26th.

TEAMS PRETTILY BUNCHED IN MAJOR LEAGUE CONTESTS

Athletics and Giants Maintain Their Leads—Indianapolis Now Heads Federals

By Associated Press

New York, June 23.—With the teams in the National League playing almost on a par during the week, while in the American League the Detroit pennant chasers took on a winning stride as the Washington team slumped, followers of Major League baseball had their attention directed to a great extent to the business nature of the game.

In the National League chief interest lay in the fight between the Champion Naps, Yorkers and the Cincinnati team under Charlie Herzog. The latter team played rather poor ball in the two games staged on the Polo grounds and for the time at least ended the rivalry.

Despite the fact that Hans Wagner failed to get a hit in the series with New York, the Pittsburgh club recovered from its recent slump. St. Louis fell off somewhat in playing at the Chicago, Philadelphia and Brooklyn. On the other hand, the Boston Braves struck a stride during the week that bids fair to enable them to leave last position in the race.

In the younger league the World's Champion Athletics have outdistanced Washington's spirited chase only to find another speedy competitor in the Detroit Tigers. Good pitching seemed mainly responsible for the improvement in Detroit's playing. However, if Ty Cobb, who again was injured Saturday, should be out of the game for a while, the Tigers would find it hard to keep the pace they set.

Cavaliers proved most effective for Detroit, winning two more shut-out games and bringing its record of consecutive innings pitched without being scored on, up to 51 2/3.

Until Walter Johnson beat Detroit Sunday the Senators apparently could not win a game. The mighty Johnson himself lost two games last week, while Boehling, Shaw and Ayres were as unsuccessful, and the team slid into fourth place.

St. Louis displayed poor work, while Chicago fared badly against Philadelphia, but took three out of four games from Boston. Cleveland and New York were to have played five games, and as they are fighting against last position, should have been of more than ordinary interest, but two games were rained out. Each won a game and the other two is scheduled for today.

In the Federal League four teams alternately held first place during the week. The Baltimore Terrapins led at the start, but their reverses allowed Buffalo to take first place. The "Buffs" held it not long, however, as Indianapolis then winning its ninth straight victory, and the "Chiefs" took the lead. Chicago's prominence was not destined to last any longer, for with Russell Ford pitching Buffalo defeated Chicago Saturday. Indianapolis, at the same time made its consecutive wins by trouncing Pittsburgh. In a double-header, and the Indians strove into the lead. Baltimore had held first place for quite a while, and the tumultuous changes added decided interest to the pennant race.

### ARE FORMULATING INTERURBAN OFFER

DALLAS CITIZENS ARE READY TO SUBMIT PROPOSITION FRIDAY

### LARGE DELEGATION IS COMING

Matter Will Be Taken Up With Local Citizens at First Hand When Party Arrives

The proposition for an interurban from Dallas to this city is now being formulated by the Dallas committee, which will come here Friday to submit the matter to the Chamber of Commerce. A large delegation will come here from Dallas according to the Dallas Times-Herald which says:

"Tuesday at noon the railroad committee of the Chamber of Commerce held a meeting for the purpose of outlining their activity at Wichita Falls on next Friday, where they go to hold a conference with the citizens of that city over the proposed Wichita Falls-Dallas interurban line. The exact program of the day together with the proposition that Dallas intends to make to Wichita Falls and the other cities to be benefited, was not disclosed following the meeting. This was not expected, as the committee has declared that so delicate are the plans of those interested, that premature public discussion might injure them.

"However, that Dallas will lay before the meeting of the citizens of Northwest Texas at Wichita Falls Friday a tangible proposition, from which the future prospects of line may be forecasted, is certain. This much was announced following the meeting.

"Dallas will send to the meeting a party of at least one hundred leading citizens. Since the call was made for the trip, volunteers have been numerous and it is expected that before Thursday night at 11 o'clock, when the train leaves for Wichita Falls, the register will show the most representative crowd that has ever gone out to secure an industrial enterprise for the city.

"Among those who have signed are: A. M. Matson, Edward Tliche, Louis Lipsitt, D. B. Waggoner, Oco Goodwin, J. V. Hughes, Alex Sanger, M. E. Martin, J. C. Duke, J. F. Strickland and others.

"From all up and down the proposed line and as far away as Gainesville, the people of the cities along the route are interested in the movement. They are showering the Chamber of Commerce with telegrams and letters, urging that the Dallas committee stop with them, if only for a few moments.

"Dallas is making this trip, to see for themselves just what are the prospects of the new line, said J. B. Babcock, secretary of the Chamber of Commerce. "We want to get on the ground and see what the proposition looks to be at close range.

"We are more than pleased to have Joseph Kemp, Wiley Blair and others working on the proposition from the Wichita Falls end, and we believe that we have the leader for the line in Mr. Kemp. His wide experience and good business judgment has manifested itself at Wichita Falls and we are sure that if Dallas and the other towns make him a definite proposition he will take up the work at once.

"Arrangements for the special train have all been made, and the Dallas party will leave for Wichita Falls at 11 o'clock Thursday night. They will return Saturday morning."

### WAS ONCE MISTAKEN FOR LINCOLN'S ASSASSIN

Shamokin, Pa., June 24.—Capt. J. W. Haas, commander of the Ninety-sixth Pennsylvania volunteers during the Civil War died here Tuesday. After the assassination of President Lincoln, Haas who bore a striking resemblance to J. ### BASEBALL REJECTED AS ONE OF WORLD'S OLYMPIC GAMES

Not Enough Nations Are Patrons of Game Yet—Length of Contests Is Lessened

Paris, June 24.—Baseball has been rejected as one of the sports at the Olympic games to be held in 1916 at Berlin. James E. Sullivan, head of the American delegates requested that baseball be included, but the president, Baron de Coubertin, reminded him that it was necessary in order to have baseball considered an international sport that six countries should play the game.

"Oh, there are six countries playing baseball," replied Mr. Sullivan and started to enumerate them as follows: "United States, Canada, England."

"But my dear sir," exclaimed one of the English delegates, "we don't play baseball in England."

### JOHN WANAMAKER'S VIEWS ON LABOR AND CAPITAL

Philadelphia, June 24.—"It is an insane thing not to recognize organizations of labor," said John Wanamaker Tuesday in giving further testimony before the United States commission on industrial relations. He made this statement in reply to a question whether employers should recognize labor unions. On the general question of socialism Mr. Wanamaker said he believed labor has suffered "rightfully" in the past because of poor leaders but added that he sees a better class of leadership coming in.

Mr. Wanamaker believes that the departments of commerce and labor should be courts of last resort in labor disputes. One of the things he found wrong in labor unions was limiting the number of those who want to learn trades. Speaking of capital Mr. Wanamaker said John D. Rockefeller Jr. made a great mistake when he put President Wilson in the position of sending troops to Colorado.

"I might be mistaken in this," he said, "but that is the way I feel about it." Contact with employees is a remedy for much misunderstanding, he said.

"There are labor unions which have no other purpose than to protect their wages," he said, "men who spend their time getting their salaries raised generally fail."

### GOOD ROADS MEETING IS HELD IN OKLAHOMA CITY

By Associated Press.

Okla. City, June 24.—Radical revision of road work through Oklahoma was one of the chief topics of discussion for a delegate convention called to meet here today in the interest of good roads. It has been proposed to abolish

township government and give the road work to the counties as units. Advocates of the plan claim this will make for greater efficiency and uniformity. It is said opposition has chiefly been made by township officers who would be eliminated under the plan.

Another proposal which is expected to meet both strong opposition and approval is a 50 per cent horse power tax on all automobiles and a consequent elimination of state taxes and city taxes on such vehicles, the tax to be used for road improvement.

Specifically today's meeting was called to discuss extension of the so-called Ozark Trails roads to include this city and points farther west, from a connection with other good roads at Tulsa.
