Quick Capture By Germans Indicate Feeling Adverse to Allies Among

Associated Press. London, Aug. 25.—It is announced officially that Namur, capital of the province of Namur, 34 miles south-Brussels and strongly fortified has fallen before the Germans.

Commenting on the fall of Namur the military expert of the Times says it is one of those inexplicable events which makes war the gamble that it is. That Namur has fallen in two days will require a deal of explana-tion, the Times adds.

The Times military expert says it too early to say that the line of e Muses south of Mextres must be andered but the outlook is not worship and the development of

## ALLIES SEEKING COVER OF FRENCH FORTIFICATIONS

Rapid Advance Of Russians In Russia And Destruction Of Austrian Fortress Reported

Namur, the Belgian fortress, has fallen into German hands according to an announcement made by the official press bureau in London. Details of the fighting around the fortress were not given out. The English newspaper regard the fall of the fortress as an important German victory. Berlin dispatches say five of the forts of Namur and the city itself have fallen and the capture of the remaining four forts is imminent.

A reverse to the forces of the allies is generally admitted by the English and French newspapers which say today "The news is decidedly bad." While calmly expressing disappointment they declare the retrograde movement toward the lines of strongly defensive forts near the frontier has been carried out in good order.

It is assumed the allies are falling back to the first line of defensive fortifications running by of Mauburg in a southerly direction by way of Hiron, Mezzierers, Verdun, Toul and Apinal, all of which are strong fortresses and are interspersed with smaller works such as Ayeville, Jebicourt, Troyon, Gironville and Joy-Fous-Les- Coutef. Behind these lies another strong line of fortifications from St. Quertain in the north through Loan and Reims to the great entrenched camp at Cha-

The English and French newspapers declare that both the English and Russians are determined to fight to a finish "whatever the outlook may be at present." They say the possession of Namur was vital for Germany and it was a fine stroke for the Germans to have rushed the place under the eyes of the allied armies.

In other parts of Belgium fighting still is in progress and a report from Ostend says 30,000 Germans have attacked Malines, thirteen miles from Antwerp. Charleroi has also been the scene of hot fighting, this time between the French and German troops, and a fresh encounter is believed to have begun there today.

Twenty-five thousand Germans have been surrounded between Courti and Absegam, according to an Ostend dispatch.

Russian reports relate to the advance of the Russian armies in eastern Prussia and the surprisingly rapid advance of their army into Prussia. Russian officials, however, caution against feeling too great elation pointing out that the German territory about the Vistula is strongly fortified along the line of the Russian advance.

Dispatches from the Servian provisional capital Nish record the victorious offensive movement of the Servians and Montenegrins against the Austrians, who are said to have suffered very severely.

A German dirigible balloon which had flown over Antwerp yesterday was brought down by the Belgian artillery and fifteen of the occupants taken prisoners, according to a newspaper dispatch from that place. Another telegram says bombs dropped from the balloon caused several deaths and one of the bombs struck a hospital but exploded without killing any of the occupants.

Unconfirmed reports have reached London that the Austrian fortified naval base of Catarro, Dalmatia, has been reduced by the French and

English fleets.

They did not give an inch, but counter-attacked by the russian guard, were obliged to retire, only, bowever, after inflicting enormous losses. The Prussian guard iffered especially heavy.

"On order of Gen. Joffre our troops and the British troops withdrew to the covering positions. Our troops are intact, our cavalry has in no way suffered and our artillery has affirm ed its superiority. Our officers and soldiers are in the best of condition norally and physically.

"As a result of the orders which have been issued the aspect of the struggle will change for a few days The French army will remain for time on the defensive, but at the right moment, to be decided upon by the commander in chief, it will reume a vigorous offensive.

"Our losses are heavy; it would b premature to enumerate those of the Germans, who suffered so heavily they were obliged to abandon their counter-attacks and establish themelves in fresh positions in Lorraine. It is to be regretted that the offensive operaurpose, as a result of difficulties imossible to foresee. It would have hortened the war, but our defense already weakened enemy.

CHAMBER OF COMMERCE LEGISLATION ON

State Official Presents to Director the Many Advantages of Municipal Slaughter House

of Commerce this morning the committee appointed at the last meeting to devise a plan for warehousing cotton reported that it had some correspondence in the mat-ter and had secured a number of plans for buildings, etc., but that it had taken no action for the reason that it was thought best to wait and see what, if any, action the legisla ture would take in the matter. The committee felt that this would be the better plan in view of the fact that the State would probably make ar rangements for financing the crop as well as warehousing it.

A request was received from governor's office asking that Chamber of Commerce send \$500 as its contribution to the building of a Texas building at the Panama Exposition. Director Henderson was authorized to forward \$200 previously appropriated for that purpose.

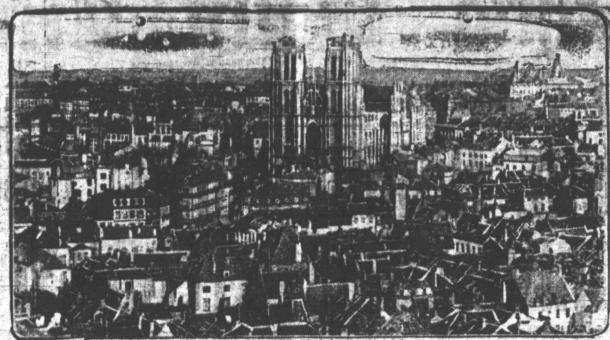

E. H. Golaz, chemist and assistant in the food and drug department of the state, addressed the directors on the value of a municipal abatter and asked that the body use every effort to promote the plan.

## Leaves Cabinet for U. S. Supreme Court

The appointment of James O. Mc-Reynolds, United States attorney general to the United States supreme court will add to that tribunal a lawyer who is known to have pronounced and advanced ideas in regard to the Sherman anti-trust law. Mr. McReynolds before he became attorney general had had large experience in the enforcement of the anti-trust laws, especialy in the prosecution of the tobacco trust and the so-called anthracite trust. As special counsel in the tobacco trust case he differed from Attorney General Wickersham as to the form of the dissolution decree. Mr. McReynolds con-tended in the tobacco trust case and has since applied the same theory as attorney general that in any dissolution proceeding the constitutent parts of the trust should be disposed of to indepenent shareholders.

Not only rouge but various ready-made beautifiers will be inder the ban until the war is over No longer will my lady, in preparation for the coming of the favored swain, betake her to her boudoir, whatever the atelier might be called and there implant the bloom of youth on the face that saw its youthful days when the Spanish-American war ras

Cheap prices mean cheap value. Service is the main feature to be considered when the eyes need attention. Without competent service the best glass in the world is useless. Skill, experience and knowledge are

necessary to render satisfactory ser vice. These are obtained at the ex pense of time, labor and money. Those who profess to give service free have little science to give. Do you want your eyes-the most delicate organ of the body-taken care of by one whose service is of value, or by one who thinks so little of its value that he gives it away?

Anyone can merely fit glasses, but evperience and knowledge are required to do it correctly, or to tell when glasses are not required. We have both these qualities. Let us prove it

WE HAVE NOTICED that those who were careless or indifferent about their homes or business were doubly so when it came to taking care of their dead. Should you want to read character, go to the cemetery. You can tell every class without a microscope. There are a few people in Wichita Falls, beautiful in character, homes beatutiful, and the last resting place of their loved ones well cared for. The regular visitor to the cemetery knows them.

## ANNOUNCEMENT

We have decided to close out our Greery business, in order to open in Wichita Falls an up-to-date exclusive Coffee, Tea and Spice House. you are probably aware we have been roasting coffee in connection with our grocery business for several years and have arrived at the conclusion that the town will justify an exclusive establishment of this character.

We are not quitting the grocery business on account of lack of success, on the contrary believe we have been more than an average success in this line, but our coffee business has grown to where we feel that by giving it our entire attention we can obtain better results both for ourselves and patrons. On September first we will close our books and on September the

third we will inaugurate a cash closing out sale on every article in our

stock, with the exception of coffee and mineral waters, at cost and less, and as we want to convert our goods into cash in the shortest possible time, will sell at prices that will move them regardless of our cost. As prices of all food stuff are advancing rapidly it will pay you to take advantage of this sale and anticipate your wants for some time.

We wish to take this opportunity to thank you for your patronage in the past and assure you of our appreciation, and trust we will have the pleasure of serving you in our new line.

Anneuncement of the location and opening date of the new business will be made later.
