## ALLIES ARE WAITING UNDER GUNS OF PARIS FOR ONCOMING GERMANS

### BERLIN IS FLAG BEDECKED CELEBRATING VICTORIES

*Confidence Prevails There Nothing Can Now Stop The Victorious Advance Of Germans*

By Associated Press.

Berlin, Wireless to Associated Press by Sayville, L. I., Sept. 4.—Berlin is bedecked with flags. Confidence prevails that nothing can stop the victorious advance of the western armies. The Tageblatt military expert expects the armies of the Crown Prince and Duke Albrecht soon will reach Chalons and Verdun which he says can be easily masked without delaying the advance. These towns have lost their strategic importance.

Toul and Epinal, capital of the department of Vosges, may delay the armies of Prince Ruprecht and General Von Herringen but this is unimportant. Radis in upper Alsace are to be expected, while Belfort remains in French hands, but it is asserted this has no significance on the General results.

Another paper points out that the taking of Lafare and Laon, almost without a blow means the capture of positions on the line, which the English papers received here said would hold out long against the Germans.

It is now known that Austrian motor batteries, each consisting of four 12-inch guns have been cooperating with the German heavy artillery in reducing the northern forts. The mobility and accuracy of these Austrian guns is highly praised.

### GERMAN GENERAL AND COMMAND TAKE REFUGE IN SWITZERLAND

By Associated Press.

Rome, Sept. 4.—Reports from Switzerland which are unconfirmed say that a German general and his command have crossed into Switzerland to avoid capture.

### RUSSIAN TROOPS SPREADING OVER ENTIRE PROVINCE OF GALICIA

By Associated Press.

London, Sept. 4.—A news dispatch from St. Petersburg says that the Russian commander in chief reports that since the capture of the Lemberg forts the Russians have engaged other Austrian forces near Lublin. The dispatch adds that the complete disruption of the Austrian armies seems to be certain.

The operations extended over a front of 200 miles and probably a million and a half men were engaged.

The army of General Rusky is spreading both north and south of Lemberg and is said to have dealt the heaviest blow to the Austrians in the Galician campaign.

### Big Decrease In Texas Railroad Revenue in 12-Months

By Associated Press.  
Austin, Sept. 4.—The net income from Texas railroads decreased in round numbers \$6,300,000 or 24.89 per cent for the twelve months ending June 30, compared with the previous year.

The railroad commission announced these figures today. Freight revenue decreased 8.40 per cent, while passenger revenue decreased 10.78 per cent. Operating expenses decreased 1.02 per cent.

### WITH MILLIONS OF MEN FIGHTING IN FOUR GREAT BATTLES WORLD IS WITHOUT NEWS OF THE OUTCOME

By Associated Press.

London, Sept. 4.—The armies of Germany, Austria, Russia and France and Great Britain are still at desperate conflicts in four colossal battles.

Two brief bulletins convey all the important facts the people of Europe know about the war. Late news dispatches from Europe describe the German right at the rear of the retreating French Creils, Enlins and Crety-Enval in four colossal battles.

Recruiting in England now shows a great impetus and men are enlisted to form ten or twelve new divisions. English newspapers in lack of definite battle news are filled with stories of wounded soldiers who saw some part of the great conflict and with reports of correspondents far behind the scene of actual battle.

The election of the Pope yesterday obtained a few lines on the inner pages of London papers while an interview with a wounded British officer who said the allies within twenty-four hours had forced back the Germans was read with eager interest.

Although the last twenty-four hours yielded no definite news of the battle in North France the public is prepared to learn that the German advance has continued to the Austrian province of Galicia in the Austrian province of Galicia has been amply confirmed. In addition to the battle of Lemberg in which the flower of six Austrian army corps were destroyed it is evident there has been a simultaneous defeat of the Austrians at Tomaszow, a town of some importance thirty miles southeast of Lodz in Russian Poland. It seems evident that not only has the Austrian offensive through Russian Poland which has planned to affect a junction with German army corps from East Prussia failed, but that the blow has been so severe that Galicia virtually is in control of the Russians.

Lemberg is not only the capital of an enormous territory sympathizing with Russia but is also an important strategic point, being the center of eight railroads. If the Russian successes have been as complete as Russian reports indicate Austrians will be driven out of Russian Poland in a few days.

If the Russian reports are anywhere near correct it is scarcely possible to exaggerate the importance of their victories. If the Austrians are as badly crushed in Galicia as Russian reports say the Russian general staff soon can expect for an offensive movement directly toward Berlin.

The meager German reports indicate that the Germans are more than holding their own on the border of East Prussia but the Russian general staff, according to views here, does not seem greatly concerned over the situation in that territory, evidently being willing to await the outcome of movements further eastward before throwing Russia's full strength against the Germans in East Prussia.

There is no evidence at hand to show that the Germans' persistent advance toward Paris has been appreciably checked. A correspondent of the London Telegraph writing on Wednesday from a point 25 miles northeast of Roen says:

"The allies are compelled by sheer weight and numbers to continue falling back. It is an orderly retirement but it is not a retreat. The German army has gradually narrowed in principal point of attack until it has become a narrow head pointing directly for Paris. When I left the scene the southern end of the enemy's advance was near Creil less than four hours run from Paris by train. In front of the enemy was river with its bridges waiting to be destroyed and still further west the army ready for a stubborn fight. On the enemy's flank were other units smaller in numbers but full of fighting spirit."

Another correspondent reports an engagement at Compaigne on Sunday in which the British took a part. The allies left was swung around to the southward, on Monday. On Tuesday the left wing was still well to the north and it has since closed in still more on the German arrowhead of advance.

On Sunday there was a British

fight at St. Quentin. On the British right the French under General Pau scored a distinct success on Sunday and Monday the Germans were hotly pressed near Gies. The French hammering demoralized them. The German losses were very heavy. A wounded French captain said of the engagement:

"The British forces are still intact and inflicting immense damage on the enemy. The British bear the strain of continual fighting even better than the French. They appear to be an army of athletes in top form."

One of the British wounded officers said:

"These Germans seem to have an inexhaustible supply of troops. We mow them down and still they come on. It is impossible to successfully oppose such a mass of troops unless you have heavy support."

One of the most striking things in the cheerful optimism of the French troops notwithstanding the fact that they have had some very hard times.

The correspondent of the London Times wires that in yesterday's fighting the Germans passed through Creil and Senlis and that the cannonading in that vicinity broke windows in Chantilly, which is only seventeen miles north of Paris. The Germans are also near Soissons. Another dispatch to the Times says that the Germans entered Clermont, 35 miles from Paris at seven o'clock Wednesday morning.

From Switzerland comes a report that nearly 100,000 Austrians are being taken west on trains to support the left wing of the Germans operating against France.

An Athens correspondent contradicts the report that Austria is withdrawing troops from the Serbian frontier to meet the Russians. He says Austria is sending re-inforcements to Serbia to prevent Serbians from invading Bosnia.

The allies hope is that Paris may be defended as the base of a chain of armies across the country and that therefore its investment will be impossible. The German plan according to popular speculation is not to besiege Paris but to attempt to force a breach in the chain of fortresses with their newest Krupp guns and gain entrance to the capital as they did at Liege and Namur.

### ARMIES TAKING POSITION FOR BATTLE NEAR PARIS

*French Claim Germans Checked At Verdun And French Successful In The Vosges*

By Associated Press.

Paris, Sept. 4.—It is officially announced that the opposing armies around Paris have not come in contact. They continue their movements taking position. The statement adds the Germans have been checked at Verdun. The French are successful in Lorraine and the Vosges. The situation is not changed.

### IF OUTER LINE OF PARIS DEFENSES BROKEN CITY WILL BE SURRENDERED

By Associated Press.

London, Sept. 4.—A Chronicle correspondent at Paris says he has learned French authorities are considering the surrender of Paris to the Germans to avoid destruction of property and loss of lives of non-combatants.

This will only be done in case the outer line of Paris defenses are broken through.

### FOREIGNERS ARE WRANED TO LEAVE OSTEND WITHIN TWENTY-FOUR HOURS

By Associated Press.

London, Sept. 4.—An Ostend dispatch says all foreigners in that city have been warned by the consuls to leave within twenty-four hours and that Austrians have been ordered out of the city.

A dispatch from Ghent says the people there are in a panic over the expected advance of Germans who are about sixteen miles east of Ghent. The Belgians have flooded the district near Malines to retard the progress of German artillery.

### LONDON REPORT SAYS GERMANY HAS SENT ULTIMATUM TO HOLLAND

By Associated Press.

New York, Sept. 4.—Dow-Jones and Co. today published the following item on their tickers: "London—It is reported at Lloyds that Germany has sent an ultimatum to Holland. There is no confirmation."

### ENGLISH HAVE LOST ONLY 10,000 TO DATE

By Associated Press.

London, Sept. 3.—In addition to the first expedition Australia is sending more infantry and light horse to help the British. The British losses in France and Belgium to date are given as 10,000 in killed, wounded and missing.

### FIFTEEN TRAINS CARRY CIVILIANS FROM PARIS

By Associated Press.

Paris, Sept. 4.—The French troops have been passing through Paris for the last three days, headed for the battle line which protects Paris from the German advance.

The resumption of the German offensive is awaited any moment. The French confidence has strengthened. It is felt the strategic move for the allies is to select the right plan and right moment for a counter offensive.

Tens of thousands of Parisians, principally women and children, have left Paris on the free trains furnished by the government. The government wanted to clear Paris as far as possible of all civilians who might hamper military operations.

The government offered the use of 15 trains of 25 cars each.

### WILSON APPEARS BEFORE CONGRESS

URGES MEASURES TO RAISE \$100,000,000 ADDITIONAL REVENUE

### ADVISES AGAINST LOANS

Would Not Divert Money From Sources Where Badly Needed. Steady Supply Wanted

By Associated Press.

Washington, Sept. 4.—President Wilson today personally addressed a joint session of congress urging measures to raise \$100,000,000 additional revenues to meet a deficit threatened by falling customs receipts.

He said that although the treasury can get along for a considerable time on its present surplus, emergency revenue measures were necessary. He pointed out the danger of the government's withdrawing from National banks the treasury deposits now in those institutions. He advised against the government borrowing money or selling bonds because such steps would make an unjustifiable demand upon those financial sources. He appealed to an intelligent and profoundly patriotic citizenship to bear the burden of a special tax for this emergency.

Immediately after the message ended the legislative machinery of the House was set in motion to carry out his recommendations. Chairman Underwood called a meeting of the ways and means committee to perfect an internal revenue measure. A bill will

be introduced as soon as possible. In his message, the President said that during August there had been a falling off of more than \$10,000,000 in customs revenues from the previous August.

He said at another point that: "The occasion is not of our own making. We had no part in it. It affects us as directly almost as if we were participants in the circumstances which gave rise to it. We must expect the inevitable with calm judgment. We shall pay the bill although we did not deliberately incur it."

As to the means of raising the revenue, he said: "The only suggestion I take the liberty of making is that such a source of revenue be chosen as will begin to yield at once and will yield with certain and constant flow."

\*\*\*\*\*

### GERMANY MUST REPAY WITH INTEREST.

Copenhagen, Sept. 4.—The Emperor of Russia in a letter to a relative here says that all the money that Belgium has been made to pay to Germany, the latter country will be forced to pay with interest in East Prussia.

### HOUSE BILL BEFORE THE SENATE TODAY

By Associated Press.

Austin, Texas, Sept. 4.—The Senate today cleared the way to take up this afternoon the house emergency bonded warehouse bill. When this bill reached the senate this morning Senator Whaley moved to take it up and in order to expedite business, to substitute for it the senate's own emergency warehouse bill and to pass the senate's substitute. Then the house would either accept the senate bill or call for a conference and by this plan on Monday the emergency bill would probably be finally enacted.

Senator McNealus moved for an adjournment until Monday morning to permit time to study the house bill, but on motion of Senator Townsend the senate recessed until 3 this afternoon, meanwhile referring the house bill to the committee for consideration. This committee after short deliberation decided to report the house public warehouse emergency bill favorably before the senate at 3 o'clock this afternoon.

### GERMAN ARMY CORPS HURRIED TO GALICIA

By Associated Press.

Rome, Italy, Sept. 4.—News is received from Vienna that a German army corps was hurriedly sent to Galicia to aid the Austrians against the Russian attack before Lemberg.

Just Received

HAWKES CUT GLASS

Will Be Pleased to Show You the Line. Will include a few attractive pieces in our Monday Dollar Sale.

No piece without this Trade Mark on it is genuine.

Table Talk

A bit of Hawkes Cut Glass on your table furnishes an unendingly brilliant topic. Guests may apologize for "speaking of it," but they rarely fail to remark its extraordinary beauty.

HAWKES CUT GLASS

Has all the qualities that charm the connoisseur. The dazzling "colorless" color—the opulent cutting and the grace of suave design. Our present collection of this most artistic glass fascinates woman's love of lovely ware. May we show it to you?

IN THE SPHERE OF WOMANKIND

An Old Battle Field. The softest whispers of the scented south, And rife and roses in the cannon's mouth; And, where the thunders of the fight were born, The wind's sweet tepor in the standing corn; With songs of larks, low lingering in the loam, And blue skies bending over love and home.

Recipe for Cream Cake. (By Miss Tula Stokes) Layers—One-half cup of butter, one cup of sugar, whites of three eggs, well beaten, two and one-half cups of flour, two level teaspoons of baking powder, one small cup of milk. Cream Filling: One and one-half cups of sugar, three-fourths cup of cream or rich milk. Cook until it becomes creamy, take from fire, add a tablespoon of rich cream or butter and beat until a soft cream. Add nuts if desired and spread between layers and on top. (Recipes are solicited. Phone 1671 or send to Times).

MRS. PRESSLEY HOSTESS TO THURSDAY SEWING CIRCLE

Thursday afternoon the Thursday Sewing Circle met in social session with Mrs. Judd Pressley as hostess. Sewing was the chief occupation for the club members during the afternoon and the hostess served a delicious light luncheon, consisting of sandwiches, pickles, ice tea and cake. Mrs. Lyons was the guest of the afternoon. The members present were: Mesdames Bell, Murph, Montgomery, Miss Rhea Gardner and the hostess. The Circle will meet next week with Mrs. T. J. Waggoner.

LITTLE GIRLS SEWING CLUB WITH MISS MADELINE THOMAS

Miss Madeline Thomas entertained the Little Girls Sewing Club Thursday afternoon at her home on Tenth street. In addition to the usual needlework and conversation the little girls enjoyed an interesting mingles word contest. This was the occasion of a great deal of fun and the conclusion of the contest found Miss Leona Maricle winner of the prize, a comical clown doll. Refreshments consisting of iced punch and an ice cream were served and as the final treat in this most delightful afternoon there was an auto ride for all the guests after the club had adjourned. The hostess was assisted in entertaining by her sister, Miss Mary Lou. Those present were: Misses Madeline Bassford, Louise and Leona Maricle, Helen Salder, Veda and Velma Walters and Bernice Gohlke.

According to the Dry Goods Economist, a feature of many of the new suits is number of Redingote and basque coats that are being shown. Modifications of the Russian blouse are another style which has been brought out recently and which is well thought of by the trade. In the majority of cases the long coats are made in two sections and joined at the waistline or several inches below, the latter giving the Moyné age effect.

The Dry Goods Economist say that practically all of the manufacturers and importers are agreed that metal laces will come in strongly for winter distribution. Gold, silver, steel and gemmetal effects are all shown in great profusion. Steel, however, is considered the best bet. Metal and colored embroideries are effectively combined in some of the new net tops. Usually these designs are very dainty in character and are especially successful in scalloped effects. Novel hem ideas are featured.

LOSERS IN YOEMEN CONTEST ENTERTAIN WINNERS

Thursday after the business session of the Yoeman Lodge, Mrs. Richardson, captain of the greens together with the team, entertained Mrs. South, captain of the Reds, and her team with a delicious lunch served in the Yoeman's Lodge rooms and to say that Mrs. Richardson with her team know how to be good losers would be saying something which every one realizes who was present and enjoyed the lunch last night. About sixty days ago a contest was instituted in the Yoeman Lodge between teams chosen by Mrs. Richardson and Mrs. South, the one securing the largest number of members in the sixty days to be entertained by the other team. The teams took different colors, Mrs. Richardson taking the green and Mrs. South the red. The red's secured twenty-five members and the greens seventeen, and the greens showed themselves to be good losers and on last night entertained. We certainly appreciate Mrs. Richardson's efforts to win but feel in a measure glad she lost after enjoying the lunch.

BAPTIST REVIVAL WILL CLOSE SUNDAY NIGHT

No Services Will Be Held Saturday or Saturday Night—Services Tonight

Last night's service at the Baptist revival was attended by the usual congregation with some new faces present. It was announced that there would be no service Saturday or Sunday night, but Sunday's program would consist of the usual morning Sunday school and preaching and Sunday night at 8 o'clock the last sermon of the revival would be preached. It was urged that every one join to make the ending of the revival one of the greatest nights of the entire meeting.

S. L. Raborn produced excellent results from the choir and congregation last night in the way of inspiring music. The music, in fact, is one of the drawing features of this revival. Just before Rev. Miller began his sermon, Mr. Raborn sang a solo.

Rev. Miller's sermon was a general one last night and was spoken in his clear, masterly way that creates a deep impression upon all thoughtful listeners. At the last he devoted a special plea to those not saved to believe on Christ as their Savior and trust Him to save. He urged that they do it right then and not put off until it was too late. Several persons responded to his call and united with God, but no additions were made to the church.

MINISTERIAL ASSOCIATION TO MEET MONDAY AT 10 A. M.

The Ministerial Association will hold its opening fall meeting next Monday morning, September 7, at ten o'clock. The meeting will be held in the study of the First Christian church. F. L. McFADDEN, President.

YOUNG-OLD MEN'S ASSOCIATION IS ORGANIZED AT DALLAS

By Associated Press. Dallas, Texas, Sept. 4.—To keep the rising generation from crowding out of their jobs the older men, a branch of the Young-Old Men's Association of America has been formed here. About 250 men of middle age from every industry have been enrolled. The association aims to demonstrate that a man's fortieth birthday does not mean he has passed the time of usefulness to his employer, even if younger, but inexperienced, workers can be secured for less money.

ACCIDENTAL SHOT KILLS ELECTRA MAN

FRED G. MCCORMICK, MANAGER FOR FRICK-REID COMPANY WAS THE VICTIM.

GUN STRUCK BUGGY WHEEL

Load Tore Hole Through McCormick's Body—His Mother Coming From Chicago.

Fred G. McCormick, aged about 25 years, manager of Electra for the Frick-Reid Supply Company, was instantly killed yesterday afternoon when a shot gun fell against the wheel of the buggy in which he was riding while out hunting and was discharged. The load entered Mr. McCormick's left side, tearing a hole through his body and tearing away the lower part of his heart. Death was instantaneous.

McCormick was hunting with Fred Barron, a driller. They were near Fowlkes Station when the accident happened. Barron had killed a bird from the buggy and had jumped out to pick it up. McCormick drove on slowly while Barron ran to the fallen bird. Barron has gone some distance when he heard the report of a gun. He turned to see McCormick's body lurch forward against the dashboard. When he reached the buggy McCormick was dead. The gun had fallen through the wheel and the muzzle was resting against the single-tree.

Barron drove hurriedly to Electra with the body, and after examination the coroner it was taken to Austin's undertaking parlors where it was embalmed.

McCormick's mother in Chicago was notified this morning a message was received from her saying that she was starting for Electra and ordering the body to be held there until her arrival.

PRIESTS ORDERED FROM THE STATE OF JALAPA

Veracruz, Sept. 4.—The Constitutional Governor of the State of Veracruz has issued an edict at Jalapa closing all Catholic schools and ordering the priests and nuns to leave the State.

The Governor of the State of Guanaajuato has issued a proclamation that owners of farms, big and little, pay their employees 75 centavos daily wages hereafter, instead of 25 centavos, which they have been receiving. The proclamation says that all farmers refusing to pay the new wages on any pretext will lose their farm property, as the State will take over the farms and operate them for the benefit of the hands employed on them.

It is believed the purpose of the proclamation is to gain the support of the people for the Constitutional government.

### TO DECIDE ON TIME FOR OPENING RESERVE BANKS

Board Will Take Delegates Into Confidence and Discuss Proposed Amendments to Law.

Washington, Sept. 4.—The time for opening the new Federal banking system, probably will be determined today at a conference here between the representatives of the clearing house associations in twenty large cities.

Members of the board, it is known, believe that the new system can be put into actual operation within a short time, without financial danger or market inconvenience to banks or to business generally. Bankers, however, have expressed views at variance with this and at the conference today board members hope to convince the bankers that an early opening is to be desired.

There is no apparent desire on the part of the board to hasten the opening of the system, but they have reached the conclusion that the transfer from the present national banking system with its corollary of the Aldrich-Vreeland act can be accomplished with little friction and practically no inconvenience.

The conference will take up also the question of the foreign indebtedness of the American merchants, hoping to find a solution without paying out a large amount of gold. No exact figures are at hand, but the clearing house associations were asked several days ago to collect all available information on the amount involved.

It is probable the board will take the bankers into its confidence tomorrow and discuss proposed amendments to the new banking act. Continuous discussion by the board has narrowed the field down to less than half a dozen amendments, and these were ordered favorably reported today by the Senate committee. They are still before the House committee.

Delegates elected to attend the conference include:

Dallas—J. Howard Ardrey and Nathan Adams.

Kansas City—G. S. Hovey and J. Z. Miller and possibly E. F. Swinney and J. W. Perry.

New Orleans—Sol Wexler.

St. Louis—F. L. Watts or W. H. Lee, Nat. National banks; N. H. McMillan or N. W. McLeod, for State banks; W. W. Hoxton.

**300,000 ENGLISHMEN HAVE ALREADY ENLISTED**

By Associated Press. London, Sept. 4.—Premier Asquith in starting the crusade for enlistments in Great Britain today said that up to today nearly 300,000 have already responded to the call for recruits.

### ONE MILLION AND THREE QUARTERS MEN IN BATTLE

Only German Claim of Victory Has Come From Historic Fight on Rheim-Verdum Line.

By Associated Press. London, Sept. 3.—Reference to the struggle between the Germans and French which took place between Rheim and Verdum Wednesday was made again today from Berlin.

If the Berlin statement was correct that one and three-quarter million troops were fighting in that region Wednesday in the greatest battle of history, it would explain much of what has been happening in the western line.

To bring the troops in that region to 750,000 enormous French forces must have been concentrated at the expense of the French left flank, where the Germans have been making progress.

Earlier Berlin messages claim the battle on the Rheim-Verdum line as a German victory. That nothing further concerning such a historic fight has come from any source, even when all information is under censorship, is considered strange.

French official communications continue to show utter absence of pessimism and declare the allies situation is still hopeful.

### IRISH LADS HAVE BIG LEAD TWILIGHT LEAGUE

Clubs	P.	W.	L.	Pct.
Irish Lads	13	10	3	.769
Liepolders	11	7	4	.636
Rams	11	4	7	.363
Black Cats	12	2	10	.166

Wednesday the Rams defeated the Liepolders by a score of 2 to 1. This was one of the most exciting games of the season. Moore of the Rams saved the game twice by running catches when the bases were full and two men out.

Batteries—(Rams), Minnerly and Moore; (Liepolders), Wheeler, Courtney, Delaney and Trotter.

Thursday the Irish Lads defeated the Rams by the score of 6 to 2. The game was won by bunched hits and by the Rams' errors. Nunn was touched for five hits, while Smith allowed only two.

Batteries—Lads: Smith and Quill and Yeager. Rams: Nunn and Taylor. This evening's game between the Black Cats and Liepolders will be the last game played after six o'clock. There will be a double bill on Monday, Labor Day, at the Lake park—Liepolders vs. Irish Lads; Rams vs. Black Cats.

### UNITED STATES TREATY WITH PANAMA IS SIGNED

Panama, Sept. 4.—A treaty by which the United States gains control of the waters of the harbors of Colon and Ancon, together with other valuable rights, was signed here yesterday by William Jennings Price, the American minister, and Ernesto T. Lefevre, Panama secretary of foreign relations.

The new convention has been under negotiation for four years. Early last year negotiations were broken off by Panama because it then seemed impossible to bring the two governments into accord. The instrument replaces what has been known as the Davis agreement of June 15, 1914, in which the boundaries of the canal zone were tentatively fixed with the understanding that a future formal treaty would fix the limitation permanently. It also amplifies the Panama Canal treaty of Nov. 18, 1903, under which the canal zone was acquired from Panama.

Panama, by provisions of the convention for the first time will be placed in direct physical connection with the remainder of the country. Hitherto the capital has been cut off by the canal zone. A large tract of fertile land called "Las Sabanas," or the Savannahs, was ceded to Panama. In this territory, are located many of the handsome country estates of wealthy Panamanians.

The United States acquires absolute control over the waters of Colon and Ancon harbors and in addition two small islands lying in Ancon harbor, which are to be used for observation and light stations by the coast artillery. One of these islands will be fortified. The site of Battery Hancock, on the Colon water front, is given to the United States, as also is control of all piers at the north entrance of the canal, costing approximately \$2,500,000.

It is especially stipulated in the treaty that no railway shall be built across the Sabanas without the consent of the United States and that the United States may retake and occupy a portion or all of these lands if needed for the protection and defense of the canal or its approaches.

Treaty now will be sent to the Washington and Panama Senates for ratification.

Miss Lona Dyer, aged sixteen, died this morning at 4 o'clock after a three weeks illness following a stroke of paralysis. Deceased was formerly a clerk at the Kress store and made her home with a married sister who was in charge of the rooms over the Water and Light Company's office on Indiana avenue. The body was shipped to Vernon today at noon by the R. G. Hill Undertaking establish.

### RECOGNIZES CARRANZA ONLY AS FIRST CHIEF

American Forces at Vera Cruz Will Probably Remain Until After General Election.

Washington, Sept. 4.—So far as the United States is concerned, General Venustiano Carranza is not provisional president of Mexico, but "first chief of the constitutional army," in temporary charge of the executive power of the Republic.

President Wilson himself so explained the status of the Mexican executive in discussing Mexican affairs with callers today. Mr. Wilson said that so far as he had been informed Carranza did not style himself "provisional president."

The significance of the president's explanation lies in the fact that Gen. Villa informed the United States that during the conference at Torreon, when the first Villa-Carranza break was adjusted, an agreement was reached for a convention of all generals and representatives of the army in the City of Mexico to designate a provisional president.

Villa made it clear that if Carranza were selected he could not, under the constitution, be elected to succeed himself in the general election. If Carranza wished to enter the race, Villa insisted that he must relinquish his present position as first chief in favor of a provisional president acceptable to all factions who would conduct an election.

That the followers of Carranza now have accepted the program was indicated by the news that Carranza admitted not having assumed the title of provisional president.

It is considered likely in official circles that when a provisional president is chosen recognition will be extended, though American forces probably will not be withdrawn from Vera Cruz until after an election is held.

### Campaign Against Open Pickle Keg and Prune Box

By Associated Press. Fort Worth, Texas, Sept. 4.—The open pickle box and prune keg are said to be the especial objects of a campaign for better sanitation in city groceries in the handling and display of foodstuffs just started by the City Federation of Women's Clubs. Every member has been asked to consider herself a committee of one to wage the campaign which will be educational and not antagonistic in nature.

### GERMAN AMBASSADOR CLAIMS A VIOLATION OF NEUTRALITY

New York, Sept. 4.—The German ambassador announced today he has positive information that two British cruisers within ten miles of New York had received coal and provisions from a vessel flying an American flag.

### BRITISH SUBMARINE RESCUES GERMAN AIRMAN

Harwic, Sept. 4.—A British submarine has brought in a German airman and his mechanic whom they found floating in the sea having fallen from their aeroplane sixty miles off the coast. After rescuing the men the submarine sunk the aircraft.

### ABOUT THE NEW CAPITAL OF FRANCE

Bordeaux is the capital of Gironde, France, and is situated on the Garonne river, 60 miles from the sea and 359 miles from Paris. It is the headquarters of the eighteenth army corps. The harbor will accommodate 1,000 vessels, and has a depth of 20 feet. The population is 261,878.

The history of the city includes the birth of Richard II. of England, Magdeline, Joseph Black, Ross Bonheur and Deszee. The principal industries are the building of railway coaches, cooper, bottle and cork making.

### LUMBER BUSINESS SUFFERS FROM EUROPEAN WAR

By Associated Press. Orange, Texas, Sept. 4.—Curtailed of the export trade due to the European war is seriously affecting the lumber industry, according to leading southwestern lumbermen. Operations in a number of Texas and Louisiana mills, it is said, have been cut down.

### FACTS AND FANCIES

Any form of torture is preferable to that inflicted by the rustic seat.

Hero is another inviolable rule: No boy preacher knows much about sin.

Some men are born that way. Others grow round shouldered carrying life insurance.

The trouble with the amateur show is that two or more performances nearly always are given.

One husband is as good as a college education, yet some women insist upon a postgraduate course.

A hero may also be described as a man who has taken the precaution to establish friendly relations with the reporters.

The recent charge that George Ade isn't funny can also be substantiated in the case of any other citizen against whom it may be brought.

### FROM "BECAUSE OF JANE"

"There are but two classes of people in the world—the born getters and the born givers."

"The young at heart will always like to see a fat man sit down suddenly on the floor. Verbal witticisms are no use to them."

"The ladies talk together about clothes, and characters, and complaints, and children—the four c's which comprise the whole polite female after-dinner conversation."

### FEDERAL RESERVE ACT AMENDMENTS AGREED TO

Currency Law Will Be Liberalized if Recommended Amendments Are Adopted.

Washington, Sept. 4.—Amendments to liberalize the Federal Reserve Act were ordered favorably reported today by the Senate Banking committee.

They would permit the Federal Reserve Board to postpone payment of the second and subsequent installments of stock subscription of member banks and postpone for not more than four months reserve requirements for member banks. They would permit member banks to carry in the Federal reserve banks any portion of their reserves now required to be held in their own vaults, and allow them to count as part of their lawful reserves, Federal reserve notes up to five per cent of their net demand deposits.

Other amendments would permit member banks to incur additional liabilities on account of indorsement of foreign bills of exchange, "two name" commercial paper indorsed by a member bank and such acceptances as are permitted under rules of the board, not to exceed twice the unimpaired capital and surplus of the bank.

They would also permit bills bought in the open market to be used as a basis for the issue of Federal reserve notes and authorize the Secretary of the Treasury to designate the Federal reserve banks as agents of the United States and of member banks in the redemption of bank notes in circulation including the Aldrich-Vreeland currency notes. The amendments provide also for a system of clearance between the Treasury, Federal reserve banks and the member banks.

An unusual number of applicants for enlistment in the U. S. Navy have passed within the last month. Out of twenty-four examined, seventeen have passed the physical examination and five that have been sent out of the training school at Norfolk, Va. The other twelve who passed are being kept back on account of the lack of an age certificate, which the government demands that all applicants furnish. They have written to their parents and it is expected that most of them will be sent to training school soon. There are eight others who are under age and must wait for the consent of their parents. Those who have been sent to the training school are: Eugene Davis, Olney; Paul W. Miller, Iowa Park; William Peeler, Iowa Park; James Andrews and William DeFor, Wichita Falls.

### AUSTRIAN STEAMER SUNK BY A BRITISH CRUISER

London, Sept. 4.—The sinking of the Austrian steamer Bathori by a British cruiser in the Bay of Biscay was reported this afternoon.

TIMES PUBLISHING CO., ED HOWARD, Manager.

By a vote of twenty to nine, the Texas State Senate declared its opposition to moratorium legislation.

What has become of the farmer who proclaimed that he was going to sell his wheat when the price got to a dollar a bushel?

Brethren beloved, this European war started in Europe and there let it be fought or settled. All we should do is simply to sit tight and don't rock the boat. Everything in the end will come our way after a short time.

The life of the average man is said to be valued at \$10,000. When this European war is over, at that estimate, there will hardly be enough money in the world to pay for the lives lost.

It is quite interesting to learn each day from official sources that the Germans and Austrians have defeated the Russians; also that the Russians have defeated the Germans and Austrians. Such dispatches are highly informative and calculated to impress the reader with the truthfulness of government officials on each side.—Austin Statesman.

The war news coming from Europe is not satisfying to many people. It is not to be relied on. The newspapers are permitted to print only the news that European government officials are willing to let pass, and they let none pass of any consequence that does not show their respective governments in favorable light. In this day of aerial navigation and wireless telegraphy one would naturally suppose that the news would come quickly, direct and correct. But it does not. The strictest kind of censorship prevails in Europe and the news we get is doctored up to suit the government that permits it to go out.

Things in the ocean shipping line seem to be clearing up rapidly. The New York Tribune of Saturday says:

"Harber & Co. are sending ships to Havre, the Philippines and Argentina. Norton, Lily & Co. announce Australian and African sailings. Finck, Edva & Co. advertise sailings to Pacific ocean ports, and the Prince Line to South American and African ports. Mediterranean service will soon be fully resumed. The Holland American line, flying a neutral ensign, continues its service, as do the Scandinavian American and Norwegian American lines, for the same reason. The next three weeks will see this port practically cleared of every one of the 125 steamers, outside of the German and Austrian boats, it is believed. And the Philadelphia Record remarks: "And so far as wheat and cotton are concerned it must be remembered that their movement is more essential to England and France than to us. We need not worry about marketing articles that Western Europe must have at all hazards."

THE BELGIAN PROTEST.

The Belgian commission which is coming to the United States to pour out its tale of complaint against the Germans will doubtless interest Americans because of the nature of the commentary on war in general. But the Belgians cannot prejudice us against the German people. We live with them here in America. They are one with us. We know them as peaceful, orderly, cultured, industrious. Above all else we know them as not given to excesses of passion which would lead to the sort of acts complained of. Whatever is proved against them by the Belgians we shall charge to war in general. We know ourselves as fairly well civilized people and we know that our Civil War record is not clean of outrages.

It is difficult to see in the same people who have been so uniformly kind to stranded Americans the same terrible barbarians described by the Belgians. With this story comes in full as it will with the arrival of the Belgians in New York, let us charge much of it to exaggeration, a part of it to the general nature of war, and remember that Germany has a little chance to reply. Let us write Germany's reply by recalling the conduct of the Germans we know.—Austin Statesman.

It is generally thought that the demand for wheat products will be far

greater next year than at the present time, and that being true, it stands to reason that the greater the demand the better the prices. Looking at the matter from that viewpoint, the farmers of Wichita and adjoining counties will sow a much larger acreage to wheat this coming fall than ever before. As for cotton, that seems uncertain. People will have to be told whether they wear many clothes or not, and considering that the government's estimate of the cotton crop of the United States this year is close to sixteen million bales, which is by far the largest crop that has ever been produced for several years, or perhaps in the entire history of the country, it might be that there is more than enough cotton to supply the demand for the next year or more, and in the localities where little but cotton is grown as a rule, they are urging diversification of crops in order to cut down the acreage usually planted to cotton. Considering that all of Europe is at war and that those warring nations will not be able to produce sufficient wheat to feed them for the next year or so, there is good reason to expect a greater demand and a better price for American wheat next year. If reports from the country are to be relied on, the acreage planted to wheat in Wichita county this year will be at least one-third more than that of last year.

STAR SPANGLED BANNER'S 100TH ANNIVERSARY SOON

(Gustav Kobbe in Womens World for September.) It was September 14, one hundred years ago, that Francis Scott Key, a gentleman and patriot, under circumstances as thrilling as any that ever inspired a poem, wrote "The Star Spangled Banner." It was on the morning following the unsuccessful British attack on Fort Mifflin, which defended Baltimore, that Key saw the stars and stripes flying from the cupola of the fort; and it will, therefore, be in Baltimore that elaborate centennial exercises will be held during the week beginning September 6. But it is expected that the event will be celebrated with more or less formality all over the country and in our foreign possessions.

Not only did "The Star Spangled Banner" come straight from the heart of a patriot, but the circumstances that inspired it were thrilling—as dramatic, indeed, as would be the climax of a great drama of national significance. That shortly before the attack on Baltimore an British force under Ross had been landed from Admiral Cockburn's fleet, had taken Washington and burned the public buildings, is history. The Americans had been defeated at Bladensburg, where some of the regiments, but for whom as will transpire "The Star Spangled Banner" probably never would have been written. Several officers put up at his house and, though they were unwelcome guests and enemies, Beanes entertained them.

FARMERS UNION WANTS ONE COMMISSIONER

Delegation of 100 Union Members at Austin Where Warehouse Bill Under Consideration

By Associated Press. Austin, Sept. 4.—B. F. Shropshire, central sales agent of the Farmers' Union, talked to the House warehouse committee today when it considered the permanent warehouse bill. He said the Farmers' Union does not want the commissioners to have charge of the state warehouse, as the bill provides.

He said the farmers favored only one responsible commissioner. This seemed this morning to be the main point of contention in the committee on the measure. The hearing developed that some members of the Farmers' Union opposed the Williams-Ousley warehouse bill which was defeated at the last called session, but Mr. Shropshire claims that the present bill, which is considerably like the Ousley-Williams bill, is satisfactory.

He said the bill now under consideration was endorsed at the Farmers' Union meeting recently held at Fort Worth. Representative Hunter Lane, of Tarrant county, favored the proposal for three commissioners and cited the railroad commission, the higher courts and other cases where three men administered important powers. Mr. Shropshire favored one commissioner at a salary of \$3,000, with the commissioner of insurance and banking and the commissioner of agriculture as advisors at salaries of \$750 each. A delegation of 100 Farmers' Union members was present at the House today while the committee debated on the question of one or three commissioners. The House did not meet until 2:30 this afternoon.

HENDERSON COUNTY WILL REMAIN DRY

Athens, Henderson County, Texas, Sept. 4.—In a prohibition election held in Henderson County Wednesday, the result was in favor of prohibition as follows: For prohibition, 1,940; against prohibition, 1,366. A separate election was held on the same question in the town of Athens, resulting in favor of the prohibitionists, with the following vote: For prohibition, 1,171; against prohibition, 782.

CONSTANTINOPLE IS KEY OF TWO CONTINENTS

City Founded By Constantine Has Been Prize Sought in Many Years

(Uncle Dudley in the Boston Globe.) Of all the events of Constantine's life, says Dean Stanley, his selection of Constantinople (then called Byzantium) to be the capital of the Roman Empire in the east is the most convincing and enduring proof of his real genius.

Situated where Europe and Asia are parted by a channel never more than five miles across, and sometimes less than half a mile wide, placed at a point commanding the great waterway between the Mediterranean and the Black Sea, its position affords immense scope for commercial enterprise and political action in rich and varied regions of the world.

The least a city so located can claim as its appropriate sphere of influence, according to Dr. Van Millingen, professor of history at Robert College, is the vast domain extending from the Adriatic to the Persian Gulf, and from the Danube to the eastern Mediterranean.

A Refuge in the Hour of Defeat. Moreover, the site constitutes a natural citadel, difficult to approach or to invest, and almost impregnable refuge in the hour of defeat, within which broken forces may rally to retrieve disaster.

Geography and topography alone are sufficient to explain why the city on the Bosphorus—prize of prizes—has been the breeding place of bloody war for ages.

Constantine founded Constantinople (wiping Byzantium off the map) in the year 33 A. D.

Since then, though besieged thirty-one times, it has been captured only by the Latin crusaders (1203-4) and by Mahomet II (1453).

Among the most memorable sieges may be mentioned that by the Goths in 379; by the Arabs and Persians in 616-26; and by the Arabs themselves in 672-73, and also 717-18; by the Bulgarians in 813 and 843; by the Russians in 845 (who also made attacks in 944, 951 and 1043); by Bayezid in 1391-98; and by Murad in 1422.

Mahomet Would Not Be Deterred. When Mahomet II ascended the Ottoman throne the conquest of Constantinople was the first object on which his thoughts were fixed. The resolution with which he had formed this purpose expressed itself in his stern reply to the ambassadors who came to him, offering much money if he would renounce the project of building a fort on the European shore of the Bosphorus which would give him the command of the Black Sea. He ordered the envoys to retire and threatened to enslave any one who should dare to bring him a similar message again.

The fort was finished in three months and garrisoned with janizaries; a tribute was exacted of all vessels that passed, and war was formally declared by the sultan.

After many furious assaults the Turks entered and pillaged the city May 29, 1453, slaughtering forty thousand of the inhabitants and reducing fifty thousand others, men, women and children, to slavery.

Today, after a lapse of more than four and a half centuries, the flag with the crescent still floats there, by the

LOCAL INSTITUTION HAS OPENING DAYS

DeLuxe Dry Cleaning Plant Being Visited and Admired By Many People

The formal opening of the DeLuxe Dry Cleaning plant at 214 Scott avenue for three days, beginning yesterday afternoon is proving a success in point of attendance and is providing a very agreeable surprise to those who are looking through the new plant for the first time.

All during the afternoon yesterday visitors called to inspect the plant and a very courteous reception was extended. Last evening the crowd increased in number until when closing time had arrived several hundred had acquainted themselves with the plant and had enjoyed the hospitality of the members, and a splendid musical program was provided by Katz' orchestra, while flowers were given to the ladies and cigars to the men.

The plant which is owned by C. D. Robson and E. M. Bloom, and but recently constructed, is one of the most complete and modern in the State. The building, an attractive one story brick, was constructed especially for the business, the steam plant and work room of like material, being separated from the main structure and located at the rear.

The machinery throughout is modern in every respect, entirely new when installed and of sufficient capacity to promptly care for all the business possible to command. It also makes it possible for the firm to clean everything, as announced in their advertising matter.

Associated with the firm as advertising manager is Charles E. Parrott, who has contributed largely to the campaign of publicity in connection with the establishment of the institution, culminating in the very successful crowning event now in progress. Mr. Parrott is a great believer in newspaper advertising and has in newspaper advertising a great business.

Those who have not yet visited the plant are invited to call today or tomorrow. Those in attendance will take pleasure in showing you through the building and punch, flowers and cigars will be served their guests.

A select crowd attended the opening ball given by Prof. Sercks at the Moose hall last night under the management of the Moose Club. Early in the evening couples began to arrive, some having motored over from Burkburnett to attend. They were received at the door by Monsieur Sercks, who ushered them in and gave them a welcoming greeting. The professor introduced many new dances which have never been practiced in this city before. In his opening address, the conductor of the dance announced that he had leased the Moose hall for the winter and would give a dance every Thursday and Saturday evening throughout the winter. He also announced that no improper steps would be tolerated while the hall was under his management and asked that the patrons kindly keep within bounds. The affair ended at 12 with "Home, Sweet Home."

H. C. Bollington and son of Bowie, who are making the trip from that place to Holliday in their touring car, stopped over in the city a while today to get repairs for the gasoline tank, which sprung a leak about three miles from town this morning. According to Mr. Bollington, they narrowly escaped a very dangerous explosion when the tank began to leak. Fortunately, they noticed it and stopped the car before it had an opportunity to ignite. While it was leaking the driver of the car was afraid to start the machine, consequently all of the gasoline vanished and they were left stranded out on the open prairie without one drop of motor driving fluid. Some time later they were hauled into town by a passing farmer with a team, had their tank repaired and left about noon for their destination, Holliday.

Notice by Publication of Final Account

The State of Texas, To the Sheriff or any Constable of Wichita County, Greeting: J. S. Fore, executor of the estate of Ennie Phillips Bowles, deceased, having filed in our County Court his final account of the condition of the estate of said Ennie Phillips Bowles, deceased, together with an application to be discharged from said administration, you are hereby commanded, that by publication of this writ for twenty days in a newspaper regularly published in the County of Wichita you give due notice to all persons interested in the account for final settlement of said estate, to file their objections thereto, if any they have, on or before the October term, 1914, of said county court, commencing and to be held at the court house of said county, in the city of Wichita Falls, on the 5th day in October, 1914, A. D. when said account and application will be considered by said Court.

Witness, E. P. Walsh, Clerk of the County Court of Wichita County, you are hereby commanded, that by publication of this writ for twenty days in a newspaper regularly published in the County of Wichita you give due notice to all persons interested in the account for final settlement of said estate, to file their objections thereto, if any they have, on or before the October term, 1914, of said county court, commencing and to be held at the court house of said county, in the city of Wichita Falls, on the 5th day in October, 1914, A. D. when said account and application will be considered by said Court.

E. P. WALSH, Clerk County Court Wichita County. M. P. Yeager, Deputy. A true copy, I certify. E. L. RANDOLPH, Sheriff Wichita County. By A. J. Tucker, Deputy Sheriff. 98-104-110.

One's Character

Is determined by the lines of the face, the clothes and the way they keep their places of abode. Beautiful, well kept homes bespeak thrift and energy; neglected ones, carelessness, idleness and indifference.

WE HAVE NOTICED that those who were careless or indifferent about their homes or business were doubly so when it came to taking care of their dead. Should you want to read character, go to the cemetery. You can tell every class without a microscope. There are a few people in Wichita Falls, beautiful in character, homes beautiful, and the last resting place of their loved ones well cared for. The regular visitor to the cemetery knows them.

J. E. FERGUSON DISOWNS NEW PRISON BOARD

Austin, Texas, Sept. 4.—James E. Ferguson, in a statement issued Thursday afternoon, stated he did not see why his administration should have the responsibility of a prison system which had lost more than \$3,000,000 under the Colquitt administration thrust upon it.

He said he was opposed to the confirmation of the commissioners named by Governor Colquitt on the grounds that their terms would last through his administration and he would be powerless to inaugurate the reforms in prison management he had pledged in his platform.

He would make no further statement beyond denying the published statement that he and Colquitt had held a conference and that they had agreed to the following: Ferguson would withdraw opposition to the confirmation of these commissioners at this time if they would resign. Immediately after he was inaugurated as governor, Governor Colquitt also presented this intimation and said he had no conference and would not have one on this subject. He said he had made the appointments in good faith and because he believed in the ability of the men he had

Vanity Fair and Bon Ton Received

MACK TAYLOR'S DRUG STORE Phones 484-882 820 Ohio Avenue

chosen to handle the situation.

Colquitt embodied these statements in a message to the Senate submitting certain names for confirmation and withdrawing the names of the board of water engineers because they were confirmed at the last called session of the Thirty-third legislature.

SOME TIMELY HINTS FOR THE HOME LAUNDRESS

Now is the season when we are beginning to think of washing out the summer blankets and putting them away for the winter.

Here is a suggestion from a woman whose fluff blankets are a delight: Wash out your blankets in the sudsy water of some good, pure soap, when they are thoroughly clean, change the water and rinse the blanket in water filled with clean soap suds, do not rinse them again in fresh water, but hang them out, as they are, and they will be white and fluff when dried.

The cotton corduroys that are so attractive for early autumn suitings should always be shrunk before they

THE SATISFACTION

You get for the money you pay a tailor does not depend on the building he is in, what his name is or where he came from, nor the amount of warm atmosphere he peddles. You get your satisfaction from the way the suit looks, hangs and fits. Amateur cleaners and pressers make a suit look as though you had cleaned it in a rain and pressed it by sleeping with it on. Our work is guaranteed to please you. We make suits that fit. We have laid the tape on every different shape of human being from the animated bean pole to the living tub who is wider than he is tall. Ladies and Men's Suits Cleaned and Pressed \$1.00.

"OUR WAGON WILL PASS YOUR HOME TODAY"

GUPTON The Tailor

Union Shop Phone 1067

are made up. If this is done they will wash without shrinking, and may be dried without ironing. Stockings should be turned inside out when they are put with the general laundry to avoid the lint from the other clothes. It is better, however, to wash the stockings separately as, unless the dyes are good, they are apt to run and stain the light clothes. If this should happen the stocking dye may be removed from the white garments if they are taken out and boiled immediately. Silk stockings and shirts should never be ironed, as the heat is apt to crack and rot the silk. If you wish to dry and iron a blouse in a few minutes, wring it thoroughly and then wrap it in a dry towel and twist the ends in the opposite direction; this will wring the water out so that the blouse will be sufficiently dry to iron immediately. Dr. DuVal, Eyes. We know how. 96 31 c

We Will Be Closed

**Winter Feed And Cover Crops**

With the present outlook the pros-  
pects for high prices for foodstuffs of  
all kinds during the coming winter  
and spring were never more certain.  
To those who will have to buy them  
this is not a very cheering prospect,  
but there is no reason why the farm-  
ers should not reap a rich profit from  
these conditions. The crop year about  
to close, upon the whole, has not been  
a bad one for the production of feed  
for man and beast, and with the sum-  
mer and fall rains that have fallen  
there is no reason why the farmer  
should not take advantage of our mild  
winter in making his land continue to  
produce more crops in order to meet  
the increasing demand. The farmer  
who fully appreciates the advantage  
that these high prices will be to him  
will let no opportunity pass to sow  
some of the many winter feeds with  
which our country is so blessed, to  
the end that he may not only have  
feed for sale, but also that he may be  
able to raise more livestock, for it is  
a well recognized fact that as the  
value of feed crops goes up so must  
the value of livestock of all kinds.  
Again, the same conditions that assure  
high prices for feed also insure an in-  
creased demand for livestock of all

our creeks and rivers and is lost to us  
forever. In this way the soils of the  
South actually lose as much or more  
fertility than is taken out of them by  
growing crops. The advantage that  
our climate gives us becomes a source  
of loss by reason of its neglect. If  
the crops were kept growing upon  
these lands during the winter as well  
as in summer the lands not only would  
not deteriorate so rapidly as they now  
do, but would actually improve and at  
the same time products of our farms  
would almost be doubled.

There is still another and very im-  
portant reason why all farmers should  
take steps to insure the growing of  
crops upon their lands during the win-  
ter, because it is intimately associated  
with the preservation and improvement  
of the soil's fertility. While we boast  
that our soils and climate are such  
that we can produce crops twelve  
months in the year, as a matter of  
fact, most of our lands are idle for a  
period fully as long as that in less fa-  
vored sections further north. But in  
such sections, while the soils are not  
producing anything they are inactive  
and are not undergoing deterioration,  
as what-plant food they contain is  
locked up and remains until the next  
spring. With us, however, soil activ-  
ity is rarely interrupted for any length  
of time, even during the winter. This  
means that plant food is constantly  
being rendered available at a time  
when the rains heaviest. As there  
are no plants actively benefitting by  
this available food it is leached out of  
the soil by the rains and carried down

This plant is a first cousin to the cab-  
bage and while it is of little value for  
dry feed, it is one of the most valuable  
green feeds that can well be grown  
during winter by reason of the fact  
that it is very succulent, is of quick  
growth and makes an immense amount  
of winter pasture. It should only be  
sown, however, upon poor land. A  
patch of one or two acres of this plant  
upon the best soil, within easy reach  
of all livestock, will be found of in-  
estimable value.

If the proper attention is given dur-  
ing the fall to the planting of feed  
crops and the raising of livestock to  
convert these crops into more valuable  
food products the farmers of the  
South have it within their power to not  
only reimburse themselves for any  
probable loss on cotton, but at the  
same time to insure that their lands  
will be in better condition and far  
more fertile next spring.—Crop Bul-  
letin No. 13, Texas Industrial Congress.

**IN MEMORY OF BABY  
CLEO ALFRED ELLIOTT**

Sleep took upon its arm  
An infant's lovely form,  
Imprinted kiss on rosy lips,  
A kiss as sweet as morn's.

Tired eyes were gently curstained,  
Little hands folded sweet;  
And away to happy dreamland  
Sped the tiny baby feet.

Knocking by the little cradle with  
A smile of love unguessed,  
Was the mother softly praying  
To the Shepherd of the field.

Death glided after sleep  
And took upon its arm  
The same infant sleep careens,  
The same fair baby form.

Imprinted kiss on rosy lips  
As chilling as the snow,  
Folded hands so mute, so still,  
And laid the sweet form low.

Strange, so strange to that mother,  
This answer to her prayer,  
She had craved a blessing  
For her little one so fair.

And is death a blessing?  
Baby lips can not tell  
But the gentle shepherd answers  
All is well, all is well.

Yes, 'tis well, ye lonely mother,  
The little one you miss today  
Is safe within the mansions  
Where no tiny feet can stray.

A FRIEND.

**"Gets-It" 2 Drops  
Corn Vanishes!**

The Only Sure Ender of All Corns.  
Desperate, are you, over trying to  
get rid of corns? Quit using old  
formulas under new names, bandages,  
winding tapes and cotton rings that  
make a fat little package out of

This is the Grip of the Happy Cornless  
Footwear of "GETS-IT."

your toe. Quit punishing your feet  
by using toe eating salves and oint-  
ments.

To use knives, files, scissors and  
razors, slicing and hacking at a corn,  
only make it grow faster and bigger.  
It also brings danger of bleeding  
and blood poison. The new way, the  
new principle never known before  
in corn history, is GETS IT. It's a  
liquid—two drops on a corn does the  
work. Pain goes, the corn begins to  
shrivel and out it comes! You apply  
it in two seconds. Nothing to stick,  
nothing to hurt, and it never fails.

Try GETS IT tonight on corns,  
calluses, warts or bunions. GETS IT  
is sold by druggists everywhere. See  
a bottle or sent direct by E. Law-  
rence & Co., Chicago.

GETS IT is sold in Wichita Falls  
by the Wichita Drug House and the  
Palace Drug Store. (Adv't)

**PORT ARTHUR MAN FINDS HEALTH  
IN WONDERFUL STOMACH REMEDY**

markable Gain in Weight on  
Few Dozes

J. F. Stoneburner of Port Arthur,  
Texas, suffered from stomach ail-  
ments for a long time. He fell off in  
weight and took treatment without  
apparent benefit. He tried physician  
after physician until he almost lost  
hope.

He took Mayr's Wonderful Stomach  
Remedy, then wrote:

"I have taken all of your wonder-  
ful stomach remedy and got good re-  
sults from it. I have gained in weight  
since starting on your remedy—twen-  
ty-one pounds so far. I was under  
the care of five doctors for about six  
months before I got your medicine.  
I am entirely well."

Mr. Stoneburner's experience is  
typical of that of the thousands who  
have taken Mayr's Wonderful Stomach  
Remedy. Thousands of letters

from people who have appreciated its  
wonderful benefits come from all parts  
of the country.

Mayr's Wonderful Stomach Remedy  
clears the digestive tract of mucoid  
accretions and removes poisonous mat-  
ter. It brings swift relief to sufferers  
from stomach, liver and bowel trou-  
bles. Many say that it has saved  
them from dangerous operations and  
many are sure it saved their lives.

The remarkable success of this  
remedy has caused many imitators,  
so be cautious. Be sure it's Mayr's.  
Probably it is known among your own  
neighbors. Ask them. Go to Footslee  
& Lynch and ask about the wonderful  
results it has been accomplishing. In  
cases they know—or send to Geo. H.  
Mayr, Mfg. Chemist, 154-156 Whiting  
St., Chicago, Ill., for free book on  
stomach ailments and many grateful  
letters from people who have been  
restored. Any druggist will tell you  
its wonderful effects. (Adv't)

SYRUP CHEAPER THAN SUGAR

A great many people have taken advantage of my special offer in KARO SYRUP and sales have been very heavy this week.

This syrup is of the same good quality that you will always find in 'Karo.'

Come and get a good supply of it and see what a saving it will make on your sugar bill.

Children especially enjoy it. Let them have all they want of it and keep them healthy and happy.

30c per 5 pound tin  
60c per 10 pound tin.

Pertinent Advice to American Belongers
(From the Cincinnati Times-Star.)

This war will be settled in Europe. Don't start one here.

There is not only good sense in that injunction, but good humor. And good humor will help all of us to get through a situation which to many is strained and uncomfortable.
