### CARDEN INTERVIEW CAUSE OF REGRET

BRITISH AMBASSADOR SAYS  
CARDEN'S STATEMENT CON-  
TRARY TO INSTRUCTIONS

### WILL BE INVESTIGATED

Congratulatory Messages Pour In  
Upon President From Mex-  
ico

By Associated Press.  
Washington, Sept. 17.—Sir Cecil Spring Rice, the British ambassador, called at the state department today and formally expressed his regret for the publication of an interview attributed to Sir Lionel Carden, former British minister to Mexico, criticizing the United States for the withdrawal of troops from Vera Cruz. He said that the interview, if authentic, was in contradiction of instructions of the British foreign office and to diplomatic usage. As Sir Lionel sailed from New York before the interview was printed it had been impossible to determine whether it was authorized. A full report, the ambassador said, has been telegraphed the British foreign office and would be presented to Sir Lionel on his arrival.

### MEXICALI GRATEFUL FOR RELEASE OF TROOPS

By Associated Press.  
Washington, Sept. 17.—Congratulatory messages from Mexico and Mexicans poured in at the White House today on the withdrawal of American forces at Vera Cruz. Gen. Carranza expressed great satisfaction through American Consul William and said he would send a formal message later.

Administration officials did not think the statement attributed to Sir Lionel Carden reflected an official view of the Mexican situation but rather his personal attitude toward Carranza. They declared no complaint had been received from any foreign government, and the state of unrest described in the interview had not been reported from any other source.

### WILL RECOMMEND LAW LIMIT COTTON ACREAGE

Congressional Committee Convinced  
Such a Measure Would Be  
Constitutional

By Associated Press.  
Washington, Sept. 17.—Convinced after a search of supreme court records that the federal government has a right to curtail production of farm and other products a committee of senators and representatives will recommend to the congressional conference tonight two plans to limit the cotton acreage next year. One plan would tax ten cents a 50 per cent of the acreage this year. Another plan would levy a tax of \$20 an acre on total acreage planted in cotton in 1915 in excess of the acreage of 1914.

### WILSON NOT DISTURBED BY ALARMING PREDICTIONS

By Associated Press.  
Washington, Sept. 17.—President Wilson is not disturbed by reports that Americans and other foreigners will be in danger after the withdrawal of troops from Vera Cruz. Officials said today the president compared these predictions with those that wholesale killings would follow the entry of Carranza into Mexico City.

### A. & M. BOYS TO BE TAUGHT CHICKEN CULTURE

College Station, Texas, Sept. 17.—The study of poultry has been added to the curriculum of the A. & M. College here and the students will be taught brooding, feeding and general management of poultry as well as important phases of handling little "chicks."

### RUSSIANS CONTINUE TO SMITE ENEMY

FIRING ON REAR AND FLANK OF  
RETREATING AUSTRILIANS  
IN GALICIA.

### EVADE GERMAN IN PRUSSIA

Petrograd Reports Claim German Ef-  
forts to Surround Russians  
Have Been in Vain.

By Associated Press.  
London, Sept. 17.—In summing up recent Russian operations the Petrograd correspondent of the Times says: "The Russians have been successful in the fighting against the retreating Austrians along the whole front and news is continuously coming in of the capture of more prisoners and guns. On the left bank of the River San the Russians have successfully attacked the Austrians who are retreating."

In Eastern Prussia all German efforts to surround a portion of the Russian army have failed. Exodus of Germans. A Petrograd dispatch to the Daily Telegraph says: "The news of the Russian victory has caused a headlong flight among the Germans in Russian Poland. Long transports of munitions and stores are moving into Silesia. Russian patrols are constantly widening their radius of action. The inhabitants of Spuszkalowa, southeast of Kallaz have been given notice to evacuate the town in three days. It is to be fortified. A special train is being provided for those who wish to leave for Germany."

Russians Occupy Krudeck. A dispatch from Petrograd to the Reuter Telegraph Company gives this outline of the situation in Galicia: "The position of Krudeck occupied by the Russians is eighteen miles of Lemberg and is situated on the heights on which a chain of six hills in a connecting link stretches out toward the Russian frontier forming a natural defense for fourteen miles running north and south. The Austrians abandoned this position after the capture of Lemberg. Mischiska front to which the Russians have advanced is a little over forty miles west of Lemberg on the main line between Przemysl and Lemberg. The shattered Austrian army was evidently incapable of staying the Austrian advance and took refuge at Przemysl from which the Russians, according to the latest official reports, are only nineteen miles away."

Great Enthusiasm in Russia. "Great enthusiasm continues to prevail throughout Russia and all classes are doing their utmost to help in the present situation."

Another dispatch from Petrograd to the Times says: "According to the latest available information here the Germans realize the futility of the withdrawal of eight army corps from the western front are returning their reinforcements from East Prussia to the western arena."

Germany's Move Puzzling. Military writers here are still puzzled over the problem why Germany should have made the blunder of sending such an enormous army to East Prussia where it was certain to remain inactive or attempt an invasion of Russia with the almost complete certainty of sharing the fate of the Austrian forces in Galicia. The real explanation seems to be that nearly half the population of East Prussia stamped and fled to the west and Germany felt compelled to tranquility the population by the presence of a large number of soldiers.

### CANADA MAY DOUBLE HER WHEAT ACREAGE

Canadian Government Will Endeavor  
To Provide For Food Short-  
age In Europe.

By Associated Press.  
Ottawa, Ont., Sept. 17.—The Canadian government will endeavor to have the wheat acreage of Canada doubled next year. A conference has been held between the Dominion commissioner of agriculture and experts to provide means to enlarge the wheat acreage. Of Canada for the coming crop in order to supply the food shortage in Europe due to the war.

### DECIDING FACTOR IN TITANIC CONTEST MAY BE CROWN PRINCE ARMY NOW HARD PRESSED--TURKEY AND ITALY MAY COME IN

By Associated Press.  
London, Sept. 17.—The world has once more sent to the task of guessing how the terrific clash of armies in Northern France is progressing. Berlin claims that the attack of the allies has been repulsed and the German counter attacks have succeeded while it is asserted officially in London that the invaders are slowly giving way. Sympathizers with both sides are thus met with directly conflicting statements which can be reconciled only on the theory that the narrators are referring to different parts of the long extended battle line.

BATTLE LINE 150 MILES  
As the crow flies the front of the opposing armies which with the heavy reinforcements that have reached them probably total in the neighborhood of 3,000,000 men stretch for 110 miles, and making allowance for the diversions in the line, must be quite 150 miles long, so there is ample room for successes on one part of the field and reverses elsewhere.

### GERMANS CHANGE GENERALS IN WEST

GEN. EINEM REPLACES GEN. HAU-  
SEN AS COMMANDER OF  
SECOND ARMY.

### OTHER CHANGES ANNOUNCED

1800 Galician Traitors Await Sentence.  
Atrocities by Russians Are  
Charged.

By Associated Press.  
Berlin, by Wireless to Sayville, L. I., Sept. 17.—An official report given out at army headquarters at midnight says the French front remains unchanged. The French attack on a number of points Tuesday night and Wednesday were successfully repulsed by the Germans, who made a number of victorious counter attacks.

Owing to illness, General Von Hausen, former commander of the second army, has been replaced by General Einem, former minister of war. General Von Hausen is eighty-eight years old. Another change of leadership is in the fourteenth reserve corps, where General Schubert has been replaced by Quartermaster General Von Stein, the well known editor of the official war report and author of laconic war bulletins.

It is reported here from Vienna that 1800 Galician traitors have been brought in Gatz, Austria, where they are awaiting sentence. They are said to have been paid by Russia to signal the position of Austrian forces. Lieutenant Patemann found 21 German recruits lying helpless on a highway in East Prussia. Cossacks had seized their hands or feet and had cut their ears and noses. Accompanying Gendarmes captured a Russian officer who had a woman's finger with a ring on it in his pocket. The commander of the German eleventh army corps reports that the Russians cut the fingers from the hands of the German reservists. He found 20 German women with their breasts cut off. German officers have an order issued by the commander of the first French army which regrets the plundering of the French town of Rambervillers.

### ITALIAN RESERVISTS CALLED FOR SEPT. 28

Believed in Paris This Means Italy's  
Participation On Side  
Of Allies.

By Associated Press.  
London, Sept. 17.—In a dispatch from Paris the correspondent of the Daily Telegraph says the Italian reservists in the French capital have been called for September 28. It is believed, the correspondent says, that this means Italy's participation in the war has been decided upon.

The British and the French armies seem to be attempting to repeat on the Aisne the turning movement carried out so successfully on the Marne and in the present case they have the additional incentive of knowing that should the German right be turned there are no great defensive positions in which the enemy could fall back.

CROWN PRINCE RETREATING  
The position of the army of the German Crown Prince making its way toward the Stenay gap remains full of interest. The French army which barred the exit of the Crown Prince by way of Toul is still hurrying in pursuit of him. There is no confirmation of the reported abandonment of Liege but it would not be surprising to see the Germans quit Belgium altogether, if there is any truth in the report that the eastern arena of war has become the decisive position in the German eyes, and that Germany will be content for the present to maintain a defensive attitude in the west.

### FORT WORTH'S BOOSTERS HERE

SPECIAL TRAIN ARRIVED AT 2:35  
AND LIVELY PARADE FOL-  
LOWED

### ADVERTISE FAT STOCK SHOW

175 In Delegation Including Mayor  
Milam and Tallest Policeman  
In Captivity

About 175 "boosters" from Fort Worth arrived in Wichita Falls at 2:35 this afternoon, this being the terminus of a one-day trade trip to advertise Fort Worth in general and the fat stock show in particular. Accompanied by two bands, headed by an own mounted police and decked with badges and pennants, the Pantherites presented an imposing appearance.

They were met at the station by a reception committee, which was not as large as it would have been had not the train gotten in ahead of its schedule. A parade through the business section followed, then an automobile ride in local machines over the city. Enough cars were provided for all the visitors.

The Pantherites bought several bales of cotton here, and made similar purchases at every town they visited along the Denver. They distributed Fort Worth literature and made themselves and their town quite solid. They bought about fifteen bales on today's trip, all at ten cents per pound.

Mayor R. F. Milam of Fort Worth is with the party, but the delegation is really "headed" by Wash Montgomery, the only seven-foot cop in captivity. As if fearing that they would not be protected on their trip, the visitors brought three of Fort Worth's mounted police with them and these marched at the head of the parade. Two bands dispensed music to the strains of which quite a few of the visitors danced on the pavement. The style song, with Wichita Falls as its theme, was also sung.

The party will remain here until about seven o'clock this evening and will then leave on its special train for home. The excursionists bought six bales here, following the parade. Mayor Milam did the buying and disposed of each bale as it was offered from the wagons. He called a special session of the city commission of Fort Worth and it bought one bale. After he had finished, Mayor A. H. Britain mounted the improvised platform at the corner of Eighth and Ohio and told the visitors how glad Wichita Falls was to have them with her, bidding the Pantherites welcome in one of his characteristic happy talks. Following his speech, the automobile ride began.

hands freed and that Germany would be thrown entirely on her own resources to repel the Muscovite hosts. Italy seems to have called her reserves to the colors and to be on the point of occupying Avlona in order to safeguard her interests in the Adriatic.

Both sides have suffered enormously during the past week and the present pause undoubtedly is being used to bring up reinforcements and supplies.

### SPEAKER TERRELL CAUSES A STIR

DECLARES AGAINST ENACTMENT  
OF BANK BILL AT PRESENT  
SPECIAL SESSION

### QUOTES FROM PLATFORM

Seems Attempt Will Be Made To  
Rush Measure Through in Both  
Houses

By Associated Press.  
Austin, Texas, Sept. 17.—Just before the House recessed today Speaker Terrell created a decided stir when he read from a newspaper, purporting to represent the views of the governor, in which it was said the opposition to the bank bill were "witch burners and did not have the good of the State at heart."

The speaker read from the Democratic platform adopted at El Paso in which is a plank denouncing any attempt to change the financial status of the school fund and recommending that the funds be invested the same as at present. "And yet," he shouted the speaker, "we are now asked to strike down the platform and pass this bill within four days."

There was much applause when the speaker concluded and it was unanimously voted to have the speech printed in the Journal.

### ATTEMPT TO RUSH MEASURE THROUGH IS INDICATED

By Associated Press.  
Austin, Texas, Sept. 17.—The Senate was in session less than an hour this morning when recess was taken until this afternoon to allow senators to attend the State cotton conference. Most of the time in the Senate was consumed in discussing the future line of procedure.

It is understood that an effort is to be made in the House to rush through the Texas bank bill although the House banking committee has not as yet considered the bill. Chairman Finney of this committee said he would likely call the committee together tonight to consider the bill. As far as can be ascertained there are not over thirty members who are actively opposed to the measure. Should this prove to be the case there would be no difficulty in carrying out the plan to rush the measure through.

There is evidence of the same intention in the Senate, as last night the Senate judiciary committee No. 1 made a favorable report on the bill.

### FIGHTING EXTENDS ALONG 150 MILE BATTLE LINE

Germans Occupy Selected Positions  
And Allies' Attacks So Far Have  
Not Been Successful

By Associated Press.  
Paris, Sept. 17.—The official report issued in Paris this afternoon on the progress of the fighting northeast of the capital shows that the great battle is continuing without decisive results. The resistance of the Germans has not broken although at certain points they are described as giving back slightly. At other points they continue to fortify themselves. The French have repulsed a number of German counter attacks. The official report says:

"First—On our left wing the resistance of the enemy on the heights to the north of the river Aisne has continued in spite of the fact that the enemy gave back slightly at certain points.

"Second—On the center the situation shows no change. The enemy continues to fortify himself along the line previously intended. Between the Argonne and Meuse the Germans are entrenching themselves on Mont Soaucans. In the Wavre district we have come in contact with several detachments of the enemy between Entant and Phiacourt.

"Third—On our right wing in Lorraine and the Vosges there has been no change. The war office says that the French have not flinched at any point. This sounds as if they were on the defensive. This might be so in view of the strength of the position the Germans occupy.

The undermanned element in this fight is the allies' right wing which is in pursuit of the Crown Prince's army. All reports indicate that the latter is quite as demoralized as Von Kluck's army and is suffering equally from lack of ammunition and food, while Von Kluck has no doubt received what he needs in this respect.

The issue of the battle may depend on what condition the Crown Prince's forces are in when they reach the front and whether he can make a stand to prevent the allies from turning the German left wing.

The official report continues "The battle is being continued along the entire front between the river Aisne and the river Meuse. The Germans occupy positions organized for defense and are armed with heavy guns and our progress is of necessity slow, but our troops are animated by vigor and enthusiasm. They have repulsed with success the counter attacks undertaken by the enemy."

### TERRIBLE STORIES OF MARNE BATTLEFIELD TOLD

One Report Says Germans Built Bar-  
rier Six Feet High of Corpses  
of Comrades

By Associated Press.  
London, Sept. 17.—The correspondent of the Times at Paris sent this story of the fighting on the River Aisne:

"The enemy has found means to arrest his retreat for the time being and is offering a stubborn resistance on the line which runs north of the Aisne. He has received considerable reinforcements probably from Lorraine from where he seems to have withdrawn. "The fighting is hottest around Soissons where the British army is in action. "Terrible stories are reaching Paris of piles of dead and wounded which encumber the battlefield of Marne. At one side it is said the Germans erected a barrier six feet

### NON COMMITTAL ANSWER FROM PEACE INQUIRY

Evident President Expects Further  
Reply From German Impe-  
rial Chancellor.

By Associated Press.  
Washington, Sept. 17.—President Wilson announced today he had received from the Imperial Chancellor of Germany a non-committal reply to his inquiry whether the Emperor would discuss peace negotiations.

President Wilson said there was nothing to indicate whether the inquiry had been brought to the attention of Emperor William. The reply prevails in official circles a further reply is awaited by a president. high of corpses, and behind this attempted to make a stand. The French Turcos charged this embattlement finally carrying it leaving 750 killed on the field. The Red Cross is overwhelmed by the great number of wounded."

**The Wichita.**  
"The Man That God Forgot" a  
story of common everyday people,  
the laboring class of which there are  
so very many in this world, is the  
offering of the Gilson-Bradfield Stock  
Company tonight. The play carries  
a clean, wholesome appeal and will  
be liked by all. There are numer-  
ous of the inhabitants of this earth  
whom it would seem God had in very  
truth forgotten and concerning one  
of these this play is written. Last  
night the company put over very suc-  
cessfully that sparkling little comedy  
"A Bachelor's Honeymoon," one of  
the best light offerings in their  
repertoire.

Those who went to see "A Bache-  
lor's Honeymoon" at the Wichita  
Theatre last night expecting to see  
a high class comedy were certainly  
not disappointed. It is a bright  
satiric comedy and the audience  
in an uproar of laughter from start  
to finish. The play was well staged,  
with special scenery and the cos-  
tumes worn by the lady members of  
the company were simply beautiful.  
It hardly seems possible that such  
an excellent company as the Gilson-  
Bradfield Stock Company could play  
such high class plays as they have  
given us this week at popular prices.  
Leon Gilson, who played the part of  
a bachelor last night responds read-  
ily to the comedy requirements of the  
piece which are furnished by the se-  
rious complications into which he gets  
himself by marrying without the  
knowledge of relatives and especial-  
ly his twin daughters. His wife, a  
part played by Miss Alice DeLano,  
knows nothing of these relatives and  
her consternation when everything is  
unfolded furnishes one of the de-  
lightful climaxes of the play. The  
lack of space prevents giving every  
member of the company personal  
mention.

**The Empress.**  
"The Medicine Bag" is a stirring  
three part story of the frontier days  
when Indians and the whites were  
not on the friendliest of terms and  
when the stage coach was the means  
of transport. Dan, sweetheart of  
Anna, daughter of one of the set-  
tlers, was a coach guard and on one  
of the trips he befriended an Indian  
chief, Two Feathers. Out of the  
gratitude of his heart the Indian  
gave Dan his precious medicine bag,  
telling him that had luck will never  
come to him while it was in his  
possession. Dan gave the medicine  
bag to Anna as their betrothal  
pledge. A short while after the red-

skins took to the war path and the  
cabin of Anna and her father was  
raided. Two Feathers recognizes the  
medicine bag and saves her. Dan  
finds the ruins of the cabin and fears  
for the safety of Anna. He recog-  
nizes the gaudy scarf of Two Feath-  
ers and sets out to find the Indian.  
They are joyfully reunited and pledge  
themselves never to lose the medi-  
cine bag or to forget the kindness of  
Two Feathers. There are many  
tense and thrilling moments in this  
drama which it would take much time  
to dwell upon. Suffice it to say that  
it is one of the best and most in-  
teresting dramas of the early days in  
the West that has been seen in many  
a month.

**The Gem.**  
"Fog's Millions," a two part  
Vitagraph, featuring Van Dyke  
Brooke and Norma Talmadge is the  
chief picture here today.  
Old Peter Fog, uncle of William  
Fog, has a stroke of paralysis and  
is ordered to the seaside by Dr. Jack  
Manly, who is in love with Milly,  
William Fog's daughter. Milly,  
however, is in love with Loring, an  
adventurer, whom Jim Marvin, Wil-  
liam Fog's gardener, believes to be  
the man that eloped with his (Jim's)  
wife. The gardener tells Manly of  
his suspicions and swears vengeance  
should they prove to be true. Milly,  
horrified, overhears the conversation.  
Grace Marvin, an adventuress, hears  
of Peter Fog's millions, and  
scheming to get possession of them,  
scrapes up an acquaintance with the  
old man.

Grace's pretended kindness and  
affection win old Peter's love and he  
marries her. Loring, hearing his old  
friend and sweetheart, Grace, has  
married the Fog's Millions, at once  
ceases his attentions to Milly and  
hastens to the seaside to renew his  
acquaintance with Grace. Old Fog  
finds Loring and Grace in each other's  
arms, has an apoplectic stroke  
and drops dead, leaving Grace his  
sole heir. She and Loring return to  
town and announce their coming  
marriage. Meanwhile, Jim Marvin's  
suspicions concerning Loring are con-  
firmed and he visits the Fog home,  
with the intention of shooting his  
enemy. There he finds Grace is his  
former wife. He has Grace arrested  
for bigamy and frightens Loring so  
that he leaves the place forever.  
Milly marries Jack Manly and the  
Fog's Millions revert to the rightful  
heir.

**The Lamar Airdome.**  
Slims and Haley open tonight with  
their vaudeville act, "A comedy that  
is different." "Firelight" a picture  
that plays on the feelings and  
awakens questions in the mind of  
the onlooker is showing tonight.

### OVERALL FACTORY FOR THIS CITY

CHAMBER OF COMMERCE WILL  
BRING NEW INDUSTRY TO  
WICHITA FALLS

### CONCERN IS NOT LARGE

Will Employ About 20 Hands and  
Will Manufacture Overalls of  
Standard Grade

A new industry was secured for  
Wichita Falls Wednesday afternoon  
when the owners of an overall fac-  
tory now operating at another North  
Texas city agreed to move to Wich-  
ita Falls. The directors of the Cham-  
ber of Commerce agreed to a \$1000  
loan for the concern.

The plant will employ about twenty  
hands and will manufacture over-  
alls of standard grades, for which  
there is a staple demand. The  
overalls will be union made. The  
plant will represent a considerable  
investment in machinery, and will be  
installed in some conveniently locat-  
ed building.

The directors heard the proposi-  
tion explained by the owners of the  
plant and agreed to the proposition  
for a \$1000 loan. The plant, while  
not a large one, adds sufficiently to  
the payroll to be very desirable and  
the organization was ready to offer  
the usual encouragement and finan-  
cial support. The plant will be in  
operation here within a few weeks,  
it is promised.

John Marten is a millionaire twice  
over. He is money mad and a slave  
driver. He is chosen after the dol-  
lar—he has completely neglected his  
faithful wife and closed his heart to  
love; and the wife starves for at-  
tention and affection. After the years  
of money grabbing by her husband,  
is it too late for her to revive affec-  
tion again? This story argues that  
it is not—that "A man's a man for a  
thou'nd" might have gone on  
being the slave driver—the calculat-  
ing tight fisted financier without  
something to shift him from the rut;  
but that something was provided.  
How this regeneration came—the  
gladness it brought to a lot of over-  
worked laborers, and above all; the  
wife's realization of a dying dream,  
are parts of this play which makes  
it a story that remains in the mem-  
ory.

**The Majestic.**  
Another of the funny Slippery  
Slim comedies is showing here to-  
day. The Snakeville boys organize a  
regiment to protect Snakeville from  
the Mexicans. They have a whole  
regiment of fun and Slim is hailed  
as the conqueror.

"The Toll," another picture is also  
showing today, featuring James Mor-  
rison, George Cooper and Dorothy  
Kelly. Out of gratitude to a young  
girl, who saved him from the dread-  
ed hand of blackmailers, a man tries  
to save her from their vengeance.  
He brings her to America and em-  
ploys her as a maid in his home.  
His wife cannot understand their  
friendliness and leaves him. The  
avenger finds the girl and, stabs her  
and she kills him. Before the girl  
dies, she tells the wife's father the  
cause of his son-in-law's interest in  
her. The wife learns the truth. She  
is only too eager for the reconcilia-  
tion with her husband. This brief  
description is only an inkling of  
what the picture will tell.

**The Victoria.**  
Mae Marsh is featured in a two  
part Majestic production, "Moonshine  
Molly." Molly Boone's father has  
been sent to the prison after killing  
a revenue officer. Uriah Hudson, who  
suspects of having a hand in the  
sentencing of her father, is Molly's  
savior. A new school teacher comes  
to town and, Molly, though a grown  
girl, becomes one of his pupils.  
Lawson Keene, the teacher also be-  
comes Molly's suitor and Uriah, jeal-  
ous, tells the mountaineers that  
Keene is a revenue officer. Molly  
saves Keene from death. Later  
Keene proves Hudson committed  
the murder of the revenue officer  
while Molly's father was accused  
and when her father is released  
Keene and Molly are married.

**4 COTTON WAREHOUSES FOR WICHITA COUNTY**

Electra, Burk Burnett and Iowa Park Have Arranged For Buildings

Cotton warehouses will be erected at Electra, Burk Burnett and Iowa Park, to take care of the crop until the farmers are ready to sell it, and organizations have been formed by the business men and farmers of those communities. It had been hoped to make Wichita Falls the central storage point for this county and section, but the business men of the smaller towns thought their communities should be storage points also and took action accordingly.  
The contract for the warehouse here will probably be awarded early next week, the committee now being busy considering plans and specifications and getting figures. It will take a very short time to erect the building as soon as all points are settled, and by this time next week it is expected that the warehouse will be receiving cotton. There are several requirements, under the state laws and insurance regulations that must be complied with in the erection of a warehouse, as the structures must be fire and water proof.  
The first building will have 1000 bales capacity and additional buildings will be erected as fast as needed. With 1000 bales in storage at \$1.50 each, the sum of \$1500 will be available for additional buildings and it is hoped to be able to care for the extensions out of the revenue.

**PARDON REPORTS BEING WRITTEN IN LONGHAND**  
By Associated Press, Sept. 17.—Pardon reports at present have to be written mainly in longhand, because the last legislature failed to appropriate for a stenographer for the pardon board. This slow hand writing is asserted to have put the board behind in its work. Consideration of some pardon cases is said to have been delayed through lack of stenographic assistance.

**FORMER WICHITA BOY WEDS IN CHILDRESS**

Wednesday evening at the home of the bride's parents in Childress, Dunbar McDowell and Miss Willie Crews were united in marriage, the ceremony being performed by Dr. J. L. McKee, pastor of the First Presbyterian Church of this city. The elegant Crews' home was beautifully decorated for the occasion and the charming bride, in her wedding attire, followed by a number of hand-omely adorned girl attendants made a lovely picture and the unusually beautiful display of wedding gifts attested to the popularity of both of the young people. The gift of the bride's father was a charming little cottage home, completely furnished. The bride is the daughter of a prominent Childress banker and stockman and is among the most popular of the younger set. The groom is the son of Mr. and Mrs. Lee McDowell of this city and until a year or so ago made this city his home being practically reared here. He is now the employe of the Fort Worth & Denver at Childress and during his residence there he has made many warm friends. His many friends in this city will be glad to learn of his good fortune in winning such a charming and lovely young bride and will unite in extending the heartiest of congratulations. Those attending the ceremony from here were: Mr. and Mrs. Lee McDowell, parents of the groom, Miss Grace McDowell and Hugh McDowell, sister and brother of the groom, and Dr. J. L. McKee, officiating minister.

**WE WIDEA CLUB MEETS WITH MRS. E. V. FRIBERG**

The New Idea Club met in very pleasant session Wednesday afternoon with Mrs. E. V. Friberg as hostess. The afternoon was spent in the usual manner with the ever congenial pastime of needlework, while merry conversation was mixed at intervals. The hostess served home made cookies, peach, ice cream and cake. The members present were: Mesdames G. E. Friberg, Dellis Simon, Carey, Goodale, Dobson and the hostess. The club meets next week with Mr. R. J. Goodale and all members are urged to be present. Payment of the yearly dues will be in order.

**THE SILHOUETTE AS VIEWED FROM BACK**  
(Kansas City Star)

In the spring Madame Fashions declared herself in favor of a sudden and unexpected popularity of capes and cape effects and, being taken by surprise, confusion ensued among the ranks of her followers. There were those who found the cape a valuable addition to their wardrobes and forthwith adopted it completely and proceeded to wear it upon all possible occasions—the cape wrap for chilly mornings over a shopping costume, the sports cape for golf and for wear after heating outdoor exercise, the elaborate cape for calling and evening wear and even on frilly, fluffy houses there were capes and capelets of satin and lace reaching just to the shoulders.  
But those who adopted the cape did not have the field entirely to themselves, there being many adherents to the various other styles which were demanding and receiving attention of a flattering nature. Chief among those which are at present in vogue

The Maine election, the withdrawal of the progressive candidate in Pennsylvania, the results of the Oregon and other primaries, will probably mean that those who joined the progressive party for the leaves and fishes will vote with the republicans in the coming fall election. Even Roosevelt's proposed swing around the circle will not hold them in line. A lot of them flooded to the progressives with the hope that the progressives would sweep into power and into the offices. Now, that the hope seems long deferred, many of them will not have the conviction to stay with the party. They were republicans and to the republican party they will return. If the progressive party shows any great strength after this purifying and purging process there will be some hope for its future. If the party does not show more evidences of vitality in the coming elections than it has in the primaries it is a pretty safe guess that its girly leader will seek other political alignments before the 1916 campaign.

We commend the example of C. J. Shumake to the landowners of Texas. Mr. Shumake bought a bale of cotton from each of his six tenant farmers at ten cents a pound, paying cash, and made a transaction arranged with them to reduce their cotton acreage 25 per cent next year. He even went further, furnishing his tenants with seed wheat to sow the land held out of the cotton patch. That's the right kind of a spirit. Such co-operation between landlords and tenants would soon place Texas farmers on a much better basis. Mr. Shumake's plan, if generally adopted, would solve the problem of the cotton market. It would do much more. It would put the farmer on self-sustaining basis. That wheat is going to make pasturage this fall and winter for livestock. Livestock is the most finished product the farm factory can turn out. It's a cinch for the Texas farmer. Livestock is the raw material of the farm manufactured and assembled on the hoof in the finished state ready for delivery to the consumer with all unnecessary bulk eliminated, cutting out freight costs. But wheat next summer will bring cash. This is a good thing for a tenant farmer or anyone else to have. Unless there is a speedy conclusion of the great war that is gripping Europe, thousands and thousands of acres of the best wheat land in the world will go untillied while Russian peasants and German farmers are off on the battle lines. Wheat will bring a high price. The season is most favorable here to give the crop a good growing start. More landlords ought to furnish their tenants with seed wheat.

The reported statement of Sir Lionel Carden, bitterly criticizing the administration for the withdrawal of American troops from Vera Cruz, probably never was made. Sir Lionel is still in the English diplomatic service. It isn't the custom of English diplomats to talk promiscuously, especially in criticism of the policy of a great, friendly nation. Just now England isn't in a position where she would like to antagonize any great power. If Sir Lionel made the statement attributed to him he is certain to receive a reprimand that will be an example to English diplomats for years to come. The eruption of George Fred Williams, late ambassador to Greece, is a sort of minor disturbance compared with the big volcano of Carden's reported interview. Conditions are no doubt bad enough in Mexico, but even the Hearst press, in its bitter opposition to the administration, has not been able to picture such a situation of despair as was reported in the interview. While industry is at a standstill, Mexican railroads have resumed operations. Trains are being run practically over all lines in the republic. Even some effort is being made to repair the damage wrought in the years of civil strife. The Consti-

tutionalist leaders have proclaimed a plan that ought to result in the establishment of a stable government. President Wilson heretofore hasn't exhibited a disposition to determine upon a course of action upon insufficient data. Events have shown that he has been better informed than his critics. If conditions were as reported in the Carden statement in Mexico it is pretty certain that the troops would not be withdrawn. Again we guess that Carden never made the statement attributed to him.

A case that has occupied the county court this week, and is still going on as we go to press, is of unusual interest to both cotton growers and ginners. The case, in fact, is a mill company, owner of the gin at that place, by J. W. Trimble and others, claiming damages for alleged improper ginning and the addition of sand to the lint cotton during the baling process. Owing to this practice alleged, the ginner got 70 cents additional for the ginning of each 100 pounds of sand, and the owner of the cotton was muled heavily in the sale. In one instance, cotton that should have brought 12 cents, sold for six, and in other cases there were heavy dockings—one friend estimating his direct loss at \$200. The ginner was merely an employee of the company and his action seems to have been a matter of innate cussedness, operating against his employers, the gin patrons and himself. The people of Halsell and vicinity are indignant at the incidental community disgrace aside from the material damage, and the oil mill company members are now "on edge" at this surreptitious and outrageous action of the employee—Henrietta Review.

A VISION OF THE PAST. To The Times: Back through the vista of years, when mankind was content to live the simple life of God-fearing men and women; who were to each other true neighbors and friends, there loomed up in every community the stalwart minister of the Gospel; he of the ever-abiding faith in the fatherhood of God and the brotherhood of man. Strong and vigorous as the giant oak that grew in the forest along the mountain trails, over which he plodded winter and summer to keep his appointments at the old log school house, where people assembled to hear him expound the Scriptures, he stood forth a beacon light to warn the sinner, to abstain from evil deeds and turn to his noble thoughts.

His passing away leaves a void in every community that modern theology will never fill. His presence was always welcome; his coming brought a benediction to every family, and the souls of the members of his congregation received a new light from "the Father, Son and the Holy Ghost."

What cared these honest, simple folk for worldly display? They never dreamed of palatial church edifices of modern architecture; they never dreamed of huge piles of brick and mortar standing out in bold defiance against the blue dome of Heaven; they never dreamed of a roof of vast dimensions sheltering two score of rooms surrounding an auditorium gilded and frescoed in rich colors. These simple, honest, God-fearing people never conceived of a grand organ playing rag-time tunes to sacred music; they would have blushed with shame to have been accused of kneeling in prayer, and, at the same time, gratifying their curiosity by looking over the backs of their seats to see the latest creation in the millinery art.

No, these simple folk, our great-grandfathers and great-grandmothers, in their abiding faith in God and love for their minister, forgot their humble surroundings and lifted up their hearts in humble supplication to the Creator of the universe for his many blessings, strong in their faith, and trusting in His goodness and mercy. No, they took no thought of what ye shall eat, and where withal shall ye be clothed if they obeyed His commands.

When they entered the house given over for the time being to religious services, granddad and grandma walked with unassuming air to a convenient bench, one removing his hat and the other pushing back her sunbonnet that they might see the benign countenance of the minister as he lined the old-fashioned hymn, "Jesus Lover of My Soul."

Sunday was to them a sacred day; yes, when the hour of services arrived, and the solemn sound of the bell sent forth its invitation, fathers, mothers, sons and daughters journeyed in company to the "meeting" house. No one stopped to give an admiring glance at their figure in the glass and make the last touches to their fashionable attire. They were not privileged to wait until the voluntary was over, then rush out to their "buzz wagon" and speed down the road, violating the law and throwing dust in the eyes of respectable citizens.

tears must sometimes think that modern Churchianity has supplanted your old, simple faith in God. Especially, when we count the costs of the modern institutions in our great cities devoted to worship. Is this love of display and multiplied rules of formality necessary to save the poor, tottering sinner on the road to perdition? Or, rather, may it not be that we have turned our fashionable edifices into social clubs too ornate to admit the ragged wayfarer on life's highway?

One thing we do not suspect—that many a poor family is not able to pay the price of membership, and then to dress and comport themselves in harmony with their surroundings. And, but for the Salvation Army, might be tempted, like the prophet of old, "to curse God and die."

BAD ENOUGH OF THE LEGISLATURE.

The following is written by the auditor of Fannin county, and shows to some extent what the people (the taxpayers) pay for their folly in sending down to Austin to make our laws for us who are wholly incompetent.

"My attention has been called to a defect in two of the constitutional amendments to be submitted that would be termed in baseball parlance

"a bonehead" on the part of the Legislature. "Article 2910 of the 1911 Revised Statutes (and all former statutes for many years) fixes the dates of general elections as the 'first Tuesday in November.' This year the general election will fall on Nov. 3.

"Joint Resolution No. 25 reads that the amendment to increase the compensation of the members of the Legislature and to extend the length of the regular sessions in the Legislature, approved April 2, 1913, shall be voted on at the first general election to be held in this State. That is right.

"The amendment providing for the initiative and referendum is to be voted on at the regular election of officers to be held throughout the State on the second Tuesday in November, 1914. The second Tuesday in November this year is the 10th, and the law provides for no election on that date.

"Also, the amendment providing authority for counties bordering on the Gulf of Mexico to build sea walls is to be submitted at an election to be held throughout the State on the second Tuesday in November, 1914. The date for this election is just one week after the general election on November 3rd.

"It was manifestly the intention of the Legislature to have these amendments submitted at the general election in November, and save the counties the enormous expense of holding special elections, but it neglected to consult a calendar.

voted again the following week on constitutional amendments. It was thought then that such a blunder would never occur again.

"It costs Fannin county from \$800 to \$1200 to hold an election, and I think the commissioners' court of this county as well as the courts of other counties, should ignore and refuse to make arrangements for these second elections. This might teach future Legislatures to buy a few calendars and not so many daily newspapers, stamps and pen knives."

Governor Colquitt has given the people of Texas something to think and talk about. We have in mind, of course, his proposal for a state reserve bank, on a big scale. We await further information about the plan before venturing an opinion as to the practicability or wisdom of the project. Governor Colquitt may expect criticism, and of caustic nature, but it is only fair to hear more of the project and consider its probable helpfulness before condemning it as unwise. The fact that it is a big project does not necessarily invite suspicion. Nor are we inclined to give credence to the intimation that in proposing such a measure Governor Colquitt is merely playing for public favor. The Governor may be credited, as are other men, with sincere desire to promote the best interests of State and people, and he has right to ask that he be judged fairly. But, as said above, let us hear more of the details of this big project and consider whether it is permitted by the Texas constitution.—Waco Tribune.

If the proposed State or central bank is being created for an emergency purpose, such as now confronts our cotton farmers in order to advance them money at a low rate of interest and it can be figured out that it will accomplish that purpose and still not impair the credit of our State or wreck our State school fund, then it will be a good thing and it should be established with as little delay as possible, regardless of who is to take credit for it.

President Wilson will be a candidate for re-election. Vice President Marshall says so and the Vice President knows. The postoffices are all filled now and it won't get a fellow anything to be an original Wilson man, but if Woodrow will keep on keeping us out of war we'll keep on voting for him.—Honey Grove Signal.

The fact that the people of Europe know the value of cottonseed meal and use it as a feed should cause us to make better use of this home product. If Europeans can import cottonseed meal and find it profitable to feed, surely we could find it profitable in feeding our flocks and herds when it is manufactured and sold at home. It is said that Denmark, the famous dairy country, is the largest buyer of our cottonseed meal, using annually 235,000 tons; Germany next, consuming 245,000 tons annually; Great Britain 85,000 tons. With many of the European ports blockaded it may be some time before the foreign market will be in a position to use our surplus cotton-

seed meal, but that is no reason for dumping it on the market. And our cottonseed crushers are too intelligent to do this. The moral is for cotton growers to hold their cotton till prices are normal.—Farm and Ranch.

CLEBURNE VOTING ON NEW CHARTER TODAY

## No War Prices on Selz Fall Shoes

There is no doubt that shoes manufactured since the European war began will be higher in price both to the retailer and to the consumer, but Selz fall shoes were bought and on the retailers' shelves in August at normal prices.

You get a good illustration, at a time like this, of the advantage to you in buying goods that you know something about. The name of the maker is a safeguard to you, both as to quality and prices.

We have been making shoes for nearly fifty years; and Selz shoes are known to the public. The retail prices are widely known—\$3.00, \$3.50, \$4.00, \$4.50, \$5.00, \$6.00; the prices and the qualities have been extensively advertised.

If there ever was a time when the maker's name and guarantee on goods should be relied on, this is the time.

Every shoe we make has Selz stamped on the sole; you know exactly what you're getting when you see it.

There are 30,000 retailers now selling our shoes in this country, we believe every one of them agrees with our policy,—the maker's name a guarantee of quality and a fair price.

Chicago

Pittsburgh

We bought all of our fall shoes before the European war was thought of and had every pair on the shelves in August. We handle SELZ shoes exclusively because we know of no better shoes for the money, Selz is always last to advance the price. Cheap unbranded shoes that soon lose their shape or wear out by the time you get them broken is false economy. We sell Selz guaranteed shoes as cheap as any good shoe could have been bought before the war advanced the price of leather. We are content with our regular margin of profit and that as small as shoes can be sold and give you the advantage of our good fortune of having these shoes bought early and before the advance. Weigh this timely advice; see our windows for the new fall styles, come in and get our prices, compare them with others—we will sell you your fall shoes.

The Globe Clothing Company of this city has improved upon the plans of the "buy a bale" club, taking one bale from a farmer at twelve and a half cents per pound instead of the usual rate of ten cents. When it is considered that quite a few of Wichita Falls' merchants are not buying bales at any price, the act of Mr. Kleinman, in paying twenty-five per cent over the ten-cent mark, shines particularly bright. A meeting of the "Buy a Bale" club has been called for tomorrow

### Market Reports

Chicago Grain Futures. By Associated Press. Chicago, Sept. 17.—Wheat prices recovered today from an early dip that resulted from a selling drive by ship speculators. After opening from 1/2 up values declined all around and then made a recovery. Corn followed wheat.

Renewal of peace talk later brought about fresh weakening. Closing quotations: Wheat, Sept. 1.07 1/4; Dec. 1.10; May 1.16 3/4. Corn, Dec. 70 7/8; May 73 7/8. Oats, Dec. 49 1/2; May 52 3/8.

Fort Worth Livestock. By Associated Press. Fort Worth, Texas, Sept. 17.—Cattle receipts 2,500, steady to ten cents lower. Beaves \$5.50 to \$7.65. Hogs 2500, ten cents higher, \$8 to \$8.95. Sheep 600, steady; lambs \$7 to \$7.60.

Kansas City Grain. By Associated Press. Kansas City, Sept. 17.—Wheat No. 2 hard \$1.01 to \$1.02; No. 2 red \$1.02. Corn No. 2 mixed 74 Oats No. 2 white 47 1/2.

Texas Spot Quotations. By Associated Press. Chicago, Sept. 17.—Twenty-five bales of cotton were sold here today on a basis of 8 1/2 cents for middling cotton.

San Antonio, Sept. 17.—Middling was quoted at 7 7/8.

Dallas, Sept. 17.—Spot cotton, middling-basis 8 cents; sales 2,123 bales.

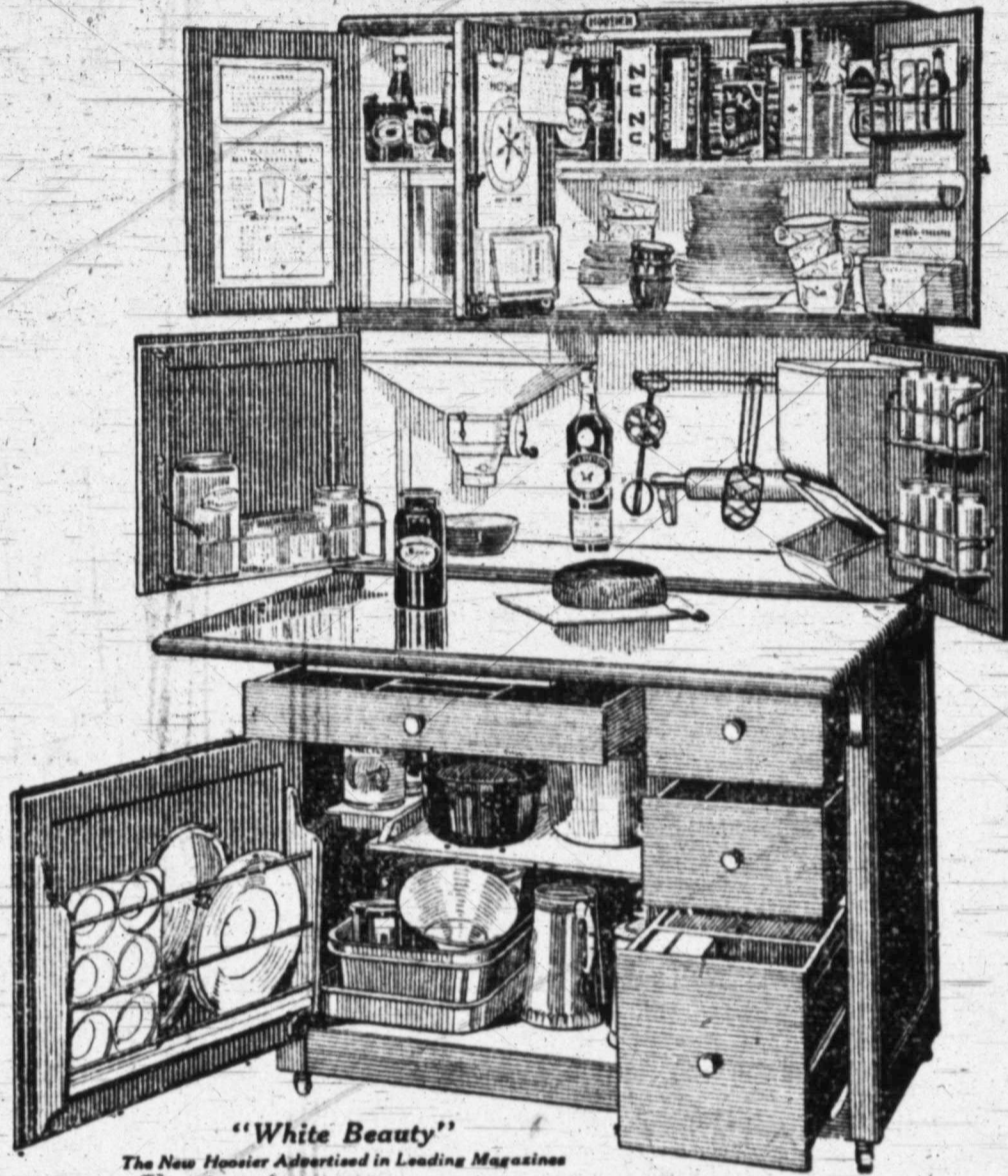

Houston, Sept. 17.—Additional sales of spot were reported today on a basis of 8 cents and slightly above.

Mark Walker, the enterprising real estate and insurance man, has awarded the contract for the construction of a foundation for a neat cottage in Floral Heights to E. H. Roberts, but the contractor says the weeds are so high and tall on the lot that he can't find where to begin the work, and is now demanding that the owner cut the weeds first. Mr. Walker has not yet decided what to do in the matter, but it is thought he will comply with the contractor's request and the work will proceed.

tion of the southern farmer from dependence on New York and Washington were the themes Gov. Colquitt and C. N. Cureton, assistant attorney general, before the State cotton conference here today. Mr. Cureton declared "we will continue to have special sessions as long as they are necessary to help the farmer." The governor advocated curtailment of the cotton crop but he was not certain what means would be constitutional.

### BUYERS OFFERING EIGHT CENTS IN LOCAL MARKET

Cotton was quoted at eight cents in the local market today, the tone of the market being slightly improved over yesterday. Cotton men are sending all tenant farmers who offer cotton to the Chamber of Commerce, but few bales were bought in the spot market. All cotton purchased was above grade and consequently brought more than eight cents.

## Between 130 And 140 Bales Pledged At Ten Cents

Up to noon today between 130 and 140 bales of cotton had been sold in Wichita Falls under the "buy a bale" plan, and the committee was still at work securing additional promises. While this showing will relieve the situation to a considerable extent, it is felt that it is not nearly as much as this city should do under the circumstances, and the committee is hopeful of disposing of many times that number before it gets through. Curiously enough, several of the merchants who would be most promptly and directly benefitted by the movement, have declined to buy

bales; these will be visited by the committee again, in the hope that they will take part in the plan. It is pointed out that the merchants will be the first to be helped when a bale of cotton is sold and that every storekeeper in this city should buy at least one bale. Thirty-five bales were disposed of yesterday, bringing the total to over 130, which does not include several bales bought independently. It is felt that 500 bales is the very least that Wichita Falls should contain herself with, and the committee hopes that the total will go even higher.

## WILSON TO CONSIDER BELGIUMS PROTEST

### TELLS COMMISSION SETTLEMENT MUST COME AT END OF THE WAR

### PUBLIC OPINION ARBITER

### President Addressing Commission Tells Them He is Glad They Came to U. S.

Washington, Sept. 17.—The Belgian commission which came to protest against alleged German atrocities in Belgium, was received in the East room of the White House by President Wilson. Addressing the commission, the president said: "Permit me to say with what sincere pleasure I receive you as representatives of the king of the Belgians, a people for whom the people of the United States feel so strong a friendship and admiration, a king for whom they entertain so sincere a respect, and express my hope that you may have opportunities of earning and deserving their regard. "You are not mistaken in believing that the people of this country love justice, seek the true paths of progress and have a passionate regard for the rights of humanity. "It is a matter of profound pride to me that I am permitted, for a time, to represent such a people, and to be their spokesman, and I am honored that your king should have turned to me in time of distress as to one who wishes on behalf of the people he represents to consider the claims to the impartial sympathy of mankind of a nation which deems itself wronged. "Will Consider Report. "I thank you for the document you have put in my hands containing the result of an investigation made by a judicial committee appointed by the Belgian government to look into the matter of which you have come to speak. It shall have my most attentive personal and my most thoughtful consideration. "You will, I am sure, not expect me to say more. Presently, I pray God, very soon this war will be over. The day of accounting will then come when I take it for granted, the nations of Europe will assemble to determine a settlement. When wrongs have been committed, their consequences and relative responsibilities involved will be assessed. "The nations of the world have, fortunately, by agreement, made a plan for such a reckoning settlement. What such a plan cannot compass, the opinion of mankind, the final arbiter in such matters, will supply. "It would be unwise, it would be premature, for a single government, however, fortunately separated from the present struggle, and it would be inconsistent with the neutral position of any nation which, like this, has no part in the contest; to form or express a final judgment. "I need not assure you that this conclusion, in which I instinctively

feel that you yourselves concur, is spoken frankly, because in warm friendship, and as the best means of perfect understanding between us, an understanding based upon mutual respect, admiration and cordiality. "You are most welcome, and we are greatly honored that you should have chosen us as the friends before whom you could lay any matter of vital consequence to yourselves in the confidence that your cause would be understood and met in the same spirit in which it was conceived and intended."

The Belgian Statement. The text of the statement of the Belgian high commission presented to President Wilson at the White House by Mr. Carton De Wiart was as follows: "Excelsency—His majesty, the king of the Belgians, has charged us with a special mission to the president of the United States. "Let me say to you how much we ourselves are honored to be called to express the sentiments of our king and of our whole nation to the illustrious statesman whom the American people have called to the highest dignity of the commonwealth. "As far as I am concerned, I have already been able, during a previous trip, to fully appreciate the noble virtues of the American nation, and I am happy to take this opportunity to express the admiration with which they inspired me. "Ever since her independence was first established, Belgium has been declared neutral in perpetuity. This neutrality, guaranteed by the powers has recently been violated by one of them. Had we consented to abandon our neutrality for the benefit of one of the belligerents, we would have betrayed our obligations toward the others, and it was the sense of our international obligations, as well as that of our dignity and honor, that has driven us to resistance. "The consequences suffered by the Belgian nation were not confined purely to the harm occasioned by the forced marches of an invading army. This army not only seized a great portion of our territory, but it committed incredible acts of violence, the nature of which is contrary to the rights of mankind. "Peaceful inhabitants were massacred, defenseless women and children were outraged, open and undefended religious monuments were reduced to dust, and the famous library of the University of Louvain was given to the flames. "Our government has appointed a judicial commission to make an official investigation, so as to thoroughly and impartially examine the facts

and to determine the responsibility therefore, and I will have the honor to hand over to you the proceedings of the inquiry. "In this frightful holocaust which was sweeping all over Europe, the United States has adopted a neutral attitude. And it is for this reason that your country, standing apart from either one of the belligerents, is in the best position to judge without bias and impartially the conditions under which the war is being waged. It was at your request, even at the initiative of the United States that civilized nations have formulated and adopted at The Hague a law regulating the rights and usages of war. "We refused to believe that war had abolished the family of civilized powers or the regulations to which they have freely consented. "See Americans as Friends. "The American people have always displayed respect for justice, its search for progress and an instructive attachment for the laws of humanity. Before it has won a moral influence that is recognized by the entire world: it is for this reason that Belgium, bound as it is to you by ties of commerce and increasing friendship, turns to the American people at this time to let it know the real truth of the present situation. It resolved to continue its unflinching defense of its sovereignty and independence; it deems it a duty to bring to the attention of the civilized world the innumerable grave breaches of the rights of mankind of which she has been a victim. "At the very moment we were leaving Belgium the king recalled to us his trip to the United States and the vivid and strong impression which your powerful and virile civilization left upon his mind. "Our faith in your fairness, your confidence in your justice, your spirit of generosity and sympathy—all these dictated our present mission."

### THE DEEPEST WELL IN TEXAS ABANDONED

Austin, Texas, Sept. 17.—The deepest hole ever bored in Texas soil is at Spur in Dickens county and extends into the ground for a distance of 4,459 feet, nearly one mile. The hole was bored by S. M. Swenson & Sons in search of a water supply for the city of Spur and as a ploy for the city of Spur and as a general exploration of the formations for the vicinity. It required five years and seven months to drill the hole and the experiment cost \$50,000. After encountering practically every formation known to geology, the project was abandoned last November, after losing a part of the drill in the hole. The project has attracted attention all over the nation and many experts of the United States government have investigated it. The University of Texas has prepared a bulletin dealing with the exploration in detail and it makes an excellent reference book as it contains first hand information on the stratigraphy of a section covering one-fifth the area of Texas.

### IS CONCRETE CEMENT AN OKLAHOMA QUESTION

By Associated Press. Oklahoma City, Sept. 17.—Until the attorney general's department decides whether "concrete" means "cement" bids for cement to be used in construction of Oklahoma's new capitol will not be awarded. When recently opened the lowest cement bid was made by a Kansas factory, \$800 lower than three Oklahoma firms whose bids were the same. A proviso in the law that all "stone crushed rock and concrete" shall be Oklahoma material prevented the Kansas man getting the contract until it is learned whether concrete means cement.

Buy A Farm where you can raise your own living and get on the selling end instead of buying end. The population of the United States doubles every 20 years. 1,000,000 foreigners have come to the United States this year up to May 1st. Some one has to feed these people and there is a good demand for all you can raise. The general European war is going to create an unprecedented boom in farming lands. While other nations destroy this country will produce. High priced living is driving the people from the cities and towns. You ought to buy a farm where you can apply your energy in the accumulation of wealth. If you haven't the money to purchase let us trade you a farm for your city property. HUEY & BLAND 608 Eighth Street Phone 1478

Phone 656. 8 3t c MISCELLANEOUS The Wichita Commercial School has more calls for first-class stenographer-bookkeepers than they can supply. Give that boy or girl a chance by trading a bale of cotton for a scholarship. Wichita Commercial School. 8 3t c LIVESTOCK WANTED—To buy a good well broke horse; not over six years old. Apply P. S. Tullis. 1 tf c LARGE DEPOSITS BRICK CLAY IN BOWIE COUNTY By Associated Press. Texarkana, Texas, Sept. 17.—Tests made at the instigation of the local Board of Trade have proved large deposits of brick clay in Bowie county, capable of producing 15,000,000 tons to the acre. There are several hundred acres of the deposit. The clay lies in three stratas, which tests showed to be widely different in texture and color. ATTENTION CALLED TO ALLEGED NEUTRALITY VIOLATIONS By Associated Press. Washington, Sept. 17.—The House foreign affairs committee had before it today a concurrent resolution calling attention to reports that American citizens abroad were drilling in preparation for entering the armies of the belligerents, and to the necessity of all American citizens and the press to maintain the strictest neutrality so long as the war lasts. The resolution was introduced by Representative Birkens of Texas. ANOTHER BUILDING FOR STATE FAIR GROUNDS By Associated Press. Dallas, Texas, Sept. 17.—Participation of Texas' thousands of school children and college students in the "buy a bale of cotton" movement may result in another handsome building for the State Fair of Texas if tentative suggestions are generally approved. It is proposed to collect the "school cotton" and later sell it, devoting the proceeds to the new fair building, as something which would benefit the entire State. A Garland Adair of Dallas, president of the Students' Association of the University of Texas is in charge of the movement.

A. C. REYNOLDS SHOT BY STEP-DAUGHTER

BULLET FLATTENED AGAINST SKULL AND INJURY SLIGHT. REYNOLDS ARRESTED.

FOUR SHOTS IN ALL FIRED

Strategic Retirement Followed First, But Advance Resumed and More Shots Followed.

A. C. Reynolds of 806 Ninth street, an engineer, is in the county jail with a bullet wound in his head and a charge of intoxication docketed against him, as a result of a near tragic occurrence Wednesday afternoon. The wound was inflicted by Mrs. Nannie Chaffee, Reynolds' step-daughter. No charge was filed against her.

According to Mrs. Chaffee's story, as told in justice court this morning, Mr. and Mrs. Reynolds were engaged in a domestic quarrel Wednesday morning, when she (Mrs. Chaffee) entered to ask Mrs. Reynolds to button her dress, Reynolds and she had some words and she alleges that Reynolds slapped her. She retired to her room, Reynolds following. When he entered she picked up her pistol and fired at him, the shot going wild. A strategic retirement by Reynolds followed, he going to his room.

Several hours later he reappeared and there was a renewal of hostilities. He attempted to enter Mrs. Chaffee's room and was warned by her not to attempt it. Disregarding this ultimatum, he opened the door, when Mrs. Chaffee fired three shots. Two of these missed, but the other struck Reynolds in the head, flattening against the skull and plowing under the scalp for several inches.

Mrs. Reynolds runs a rooming house at 806 Ninth and occupants of the place state that peace usually reigns there, except on the infrequent occasions when Reynolds comes home under the influence of liquor. Reynolds did not deny the story told by Mrs. Chaffee in court this morning. His wound is not serious. Mrs. Chaffee was not arrested and no charge was filed against her. She is seventeen years old.

GERMAN CITIES PREPARE FOR ATTACK BY ALLIES

Cologne, Duesseldorf, Wesel and Dursburg Are Strengthening Their Fortifications. After a consideration of the proposition for the past several weeks by the parties concerned, a contract was signed Monday by Bob Cook, oil expert of Electra, and J. W. Madden, J. R. Handy and Rees Owen, for the beginning of drilling operations on one of seven leases owned by the parties last named in the vicinity of Woodville Oklahoma. Mr. Cook, who is well known to the people of Denison, has returned to Electra, where he will assemble the rig and will make arrangements for the immediate shipment of machinery, tools and pipe to Denison. This is thought to be but the beginning of operations which will vindicate the judgment of many who have contended that there is much oil to be found in the vicinity of Denton. The parties signing the contract for drilling with Mr. Cook are prepared to make a thorough test of the matter. Mr. Cook is an oil man of long experience, having made a success of the business in the Electra and other fields, and is confident that material results will follow the plans now under way.

**THE WILL OF GOD.**

It seems to us quite a pretentious sacrifice for the rulers of Europe to make public the statement that it is the will of an all-wise, just God to be in harmony with such devastating carnage as the present conflict abrogates. Our belief in the wisdom and justice of God causes us to believe that the doings of such leaders is prompted by greed and avarice only, and the direct workings of his Satanic Majesty. This great nation of ours is an example of peace, harmony and prosperity, and in spite of the pessimist, we are going to receive our share of the blessings that these virtues always bring. We are always ready to contribute our share by bringing gladness to the hearts of those who have been made sad. Remember, we are always at your service.

**MEASURING THE HUMAN FORM**

Measuring is a fine art that has been mastered by few. The measurement must be figured to a mathematical certainty. The skilled mechanic who measures the parts of an intricate machine may seem to do wonders, but his work is not complicated at all, when compared with the work of the man who measures human bodies correctly. Machines are all the same, but the tailor who has laid the tape on thousands of men has never found two alike. Measuring a man is not merely a matter of the figures on the tape, but the contour and lines peculiar to individuals must be considered. To make a measurement that guarantees a fit requires the eye of an artist and a hand experienced. Tailoring is our business and we know no other. We do one thing and do it well. We can make your fall suit a satisfaction and a pleasure to you.
