#### "WINNING OF BARBARA WORTH" IS SEEN BY LARGE CROWD

The dramatization of Harold Bell Wright's well known novel "The Winning of Barbara Worth" was presented to a large crowd at the Wichita Theatre last night and proved to be quite an entertaining production. It was well presented and excellently staged and included enough of comedy and human interest to make it a very interesting presentation. As a vehicle for the message that Harold Wright sought to convey in his book, however, it was somewhat lacking. This was a fault not of the company but of the playwright, who seemed to be hampered too much by the limitations of legitimate drama. As presenting a few of the dramatic incidents of the book the play served well, but Harold Bell Wright's books are of a sort that are not easily featured. The company was an excellent one, with a weak place in the cast, and there were many places where anything but excellent acting would have fallen very flat indeed. The comical side of the production was very pleasingly presented and there was a store of humor that was most refreshing.

#### The Majestic.

The next to the last installment of "The Tray of Hearts" is showing here today and two reels of scenic material and interest tell an unusual bit of this most unusual picture. The interest in the picture has been maintained throughout the series in a way that seems wonderful and there has not been a single installment that has fallen flat. One week from today the thrilling climax will be revealed and while the last will be viewed with as much interest as the first, all will regret when Alan Law and Judith and Rose Trine make their final flicker on the screen. A George Ade comedy, "The Fable of How Uncle Brewster was too Shifty for the Taxpayer," also a Selig drama, "The Tragedy that Lived" is on the program.

#### The Empress.

The special attraction at the Empress, the picture of Mexico in all of its phases was enjoyed by large audiences yesterday and will be shown again today. All of the pictures are worth while from the scenes in the royal palaces to the battlefields strewn with dead and wounded, and those scenes that could scarcely be called entertaining are instructive. Irene Hunt and Robert Burns are featured in a two part Reliance drama of newspaper life, "The Floating Call." The boys in the office of the "Daily Blade" are jealous of Hill who is in favor with the managing editor through her excellent work and send her on a false scent. But Hill was with her and following that false scent she comes upon a real one and turns the laugh on the boys. Hill got the story and tracked down a gang of counterfeiters makes two thousand feet of thrill. A Keystone comedy is also on the program.

#### The Lydia Margaret.

The vendetta bill for the first time in the history of the world. Both numbers have proven very acceptable and pleasing. Today's program features a two part Kalem drama, "The Girl in the Red Coat" and a comedy, "The Girl in the Red Coat."

#### The Gem.

Headline today's program is a two part Lubin drama, "Her Mother was Laidy" written by Shannon Fife, the Dallas boy who has given the scenario writer, The Moving Picture World says: Shannon Fife, the unassuming college boy writer of the Lubin staff, has told a dainty story which makes Cupid a hero and past master of his art. A young business man whose mother is socially ambitious and trying to wish him onto a society bid, falls in love with a little Irish girl who tends table at a railway lunch house. The boy finds it hard to oppose his mother, but love wins out and it proves to be the best of all parties. John Lane has given the play an excellent cast and himself takes a part that will be remembered by the fans.

Suits have been filed in the district court as follows: Waldo Milam vs Pearl Milam, divorce; exparte Everett Hamilton, to remove disability as a minor.

### OKLAHOMA LOAN SHARKS ARE PROMISED TROUBLE

Measures Are To Be Introduced at Coming Session of Legislature on Subject

Special to The Times. Oklahoma City, Dec. 30.—Loan sharks in this State are promised trouble at the coming session of the legislature, and bills are to be introduced which would put them out of business if passed. E. E. Glasco, who introduced some anti-usury measures at the last session, plans further efforts in that line.

"The usury law of Oklahoma as it stands at present is a nullity," said Mr. Glasco. "There is no remedy against the usurer save by bringing suit for recovery of what must first be paid to him on the usurious contract before the suit can be brought. The result of this condition is seen in the widespread and heedless practice of usury in practically every section of the State. In the cities it is the wage earner who is the victim and the shylock who is the usurer. In the country it is the bank that ought to have three gilded globes in front of the door. There are too many of these banks in this State. The multiplicity of little banks in towns that have no need of banks shows the character of business that is being done. There are banks with the usual expenses in small towns that are carrying only \$25,000 or \$30,000 in deposits. These must practice usury in order to get along at all. The fact that they pay dividends in proof that they are usurers. But better proof is available in every neighborhood that is thus situated.

"Loan sharks are flourishing in Oklahoma as they do in all States that do not properly control their business. The remedy for the loan shark is not difficult to apply. In the case of the salary it will be found in a law that makes void all transfers or assignments of unearned wages. In the other cases it will be covered by the usury law that I propose which will make usurious contracts unenforceable, afford ample protection for the debtor before payment, and make it mandatory for any money lender to make an affidavit that a contract for payment of money is not usurious before it shall be admitted to record without which record it would be void as a lien. I would punish usury by a fine and imprisonment. These bills which I have for presentation to the Fifth legislature are popular with the people who have been exploited by the unscrupulous changers of several varieties and they will probably be enacted into law, for the people are going to demand them."

Mr. Glasco has been studying the usury situation, the loan shark and the victim of both. He is equipped with information and data in behalf of the remedies that he will propose which he considers of sufficient force and sound sense to carry the bills through both houses and past the executive.

"The producers of the wealth of the country are the persons who count more than any other," said the Purcell man. "It is their welfare that ought to be the chief object of legislation. In seeking to secure laws that will protect them from exploitation by unscrupulous money lenders to serve the State and the law-abiding people of it."

Allendale Notes. The farmers of this community are not only rejoicing that it is Christmas time but also that there is a very deep season in the ground which will be very good on grain crops in late winter and spring. There is a large amount of wheat sown and a good stand is reported on most all ground. There has been but few oats planted as yet, on account of the disagreeable season for preparing the land but we now have one of the finest seasons ever known for sowing spring oats and if seasons continues so there will be a large acreage sowed. Farmers are not contemplating planting but very few acres of cotton but a large crop of feed and grain.

About one inch of snow fell Thursday night and disagreeable weather caused the postponement of our Christmas tree at the M. E. Church, South, until Friday night. An interesting program was carried out and a nice time was reported by all. Claude Guinn and wife, also Miss Dora and Fitz Taylor are spending the holidays at Coleman, Texas. Clarence Knight has returned from West Texas where he has been picking cotton for some time.

### REPRESENTATIVE HARDY HAS REPLY TO COLQUITT

Special to The Times. Washington, Dec. 30.—"Political hydrophobia" was Congressman Hardy's designation of the recent outbreak of Governor Colquitt of Texas attacking President Wilson. ### HELPLESS AS BABY

Down in Mind Unable to Work, and What Helped Her.

Summit Point, W. Va.—Mrs. Ann Belle Emery, of this place, says: "I suffered for 15 years with an awful pain in my right side, caused from womanly trouble, and doctored lots for it, but without success. I suffered so very much, that I became down in mind, and as helpless as a baby. I was in the worst kind of shape. Was unable to do any work. I began taking Cardui, the woman's tonic, and got relief from the very first dose. By the time I had taken 12 bottles, my health was completely restored. I am now 48 years years old, but feel as good as I did when only 16. Cardui certainly saved me from losing my mind, and I feel it my duty to speak in its favor. I wish I had some power over poor, suffering women, and could make them know the good it would do them."

New Year's Resolutions We make them and we break them but there is one resolution that we should make and keep and that is to trade at home. Every merchant and business man living in the city of Wichita Falls is dependent upon you for patronage. Without you they could not exist. Without them you could not have the fine city that you do. In trading at home, however, you must demand equal value, dollar for dollar, that you would get in Dallas or St. Louis. With a fair comparison I will guarantee you are getting that or should for the business men of your city can buy just as cheap in Eastern markets as Dallas men can and the business man here can operate with much less expense than the big city house does. Now the holiday season is over. Many of you received photographs from friends at a distance. It is up to you to reciprocate in kind. We can assure you just as fine work in our studio as you can get in Dallas or Fort Worth and we do not have the heavy operating expense the city studios have, consequently we divide the profits with you. Give us a trial. We will convince you and when we succeed we will all be happy. Call and see us. It costs you nothing. The photos of your friends speak for themselves. Remember the place.

Business Office 167 Editorial Room 167 Wichita Falls, Texas, December 30

Here's just hoping that all other senatorial aspirants for Culberson's seat will withdraw but Governor Colquitt and leave the race between the Governor and Senator Culberson. It will be the best way we know of letting our Governor know just how high he stands in the estimation of Texas Democrats.

Newspapers generally over the State will sympathize sincerely with Editor Edwards of the Denton Record and Chronicle, whose newspaper plant was destroyed by fire Monday night, entailing a loss of \$12,000.

The reports from Wichita county ginners show that up to December 13, 12,161 bales of cotton had been ginned, which is just 6,345 more bales than had been ginned up to that date last year. Early in the spring The Times report as to the acreage planted to cotton justified the estimate of 15,000 bales for the county. It now looks as if the total will be a little short of that amount.

Friends of the various aspirants for the seat Senator Culberson is now holding in the United States Senate are persistently circulating the report to the effect that at the proper time Senator Culberson will withdraw, or rather decline to become a candidate for re-election. This report, it seems, has reached Senator Culberson and yesterday he issued the following statement from Washington:

"Information comes to me that statements are being made in Texas that certain parties have assurance from me that I will not be a candidate for the Senate in 1916. There is absolutely no foundation for such statements and no such assurances have been given to any one by me or on my authority. I am in the habit of speaking to the Democrats of Texas directly and over my own signature as to my purposes, and at the proper time I will do so respecting the Senatorship."

Now, those fellows who have been waiting for Culberson to "croak" in order that one of them might stand some sort of a shot at filling his shoes can get ready to pull down their lightning rods. If reports of Culberson's falling health could have killed him he would have been dead three or four years ago.

During the past few days cotton has advanced a few points in price perhaps as much as one-eighth of a cent, and during the same time a million or so bales have left the hands of the producers. Maybe by the time all or nearly all of it is sold, or gets into the hands of the middlemen, the price will advance to about where it should be now—10 cents per pound.—Wichita Daily Times.

The reason that the staple has not advanced more is due in a large measure to the general movement of the crop. The farmers started out to hold their cotton from the market for the purpose of increasing the price. It was a contest between the producer on one side and the speculator and spinner on the other. The producer, as he usually goes, yielded at the time when he should have stood firm. Result, cotton is still below cost of production. The South can never hope to attain its own nor occupy the place it should in the agricultural and commercial world until a sensible and practical marketing system is established and adhered to by those who produce the wealth of the country.—Denison Herald.

It is the intention of the Chamber of Commerce to raise about \$2,000 per month during the year 1915 to be used for the purpose of bringing to Wichita Falls more people, more capital and more manufacturing enterprises, and with this end in view soliciting committees have been appointed at a meeting of the directors held this morning, whose duty it will be to call on every enterprising citizen of this city tomorrow for the express purpose of soliciting membership to the Chamber of Commerce, together with the amounts such members will obligate themselves to pay each month towards the maintenance of the organization, and after the list has been made up it will be published, together with the amount each member agrees to contribute. To those of our citizens who have kept a close watch on the workings of our Chamber of Commerce there is not the least doubt but that without the efforts put forth by it during the past six or seven years Wichita Falls would now be in the class of villages and towns, or with only about one-half her present population and wealth. That mistakes have been

By R. B. Humphrey) I have promised the editor of this paper an occasional letter on matters of public interest in the capitol city, particularly while the legislature is in session and may as well explain now what the factors are which wholly upon my own responsibility and without any financial compensation whatever. This statement is made because "special correspondence" from Austin is generally financed by some special interest with the hidden purpose of influencing public sentiment for or against certain public measures and it is desired that no such suspicion shall attach to the origin of these communications. The 34th legislature convenes at noon Tuesday, January 13 and on Tuesday of the following week Mr. Ferguson is inaugurated governor. Ferguson is inaugurated governor. Always a keen interest of statewide dimensions, attaches to these biennial ceremonies and this year no apprehension is felt that the public attention will slacken. Particularly it is believed the new governor will remain in the center of the limelight; that his meteoric career has just begun. In January, 1914 he was unknown in the state's politics; in January, 1915 he is the state's chief executive officer. Who before him could pluck such a record? It is one of those things that serve to remind us of the everlasting democracy of our racial life. If a boy beginning life with nothing but his bare hands can at the age of forty-four be governor of the greatest State in the Union, no other boy now or in the future, need feel that anything is impossible for him to achieve. The new governor has shown himself a master politician; the people of Texas hope and believe he will show himself a master statesman. He is bright, young, hearty and entirely a good fellow. "Breathes there the man with soul so dead as not to wish him success." On the day of the governor's inauguration the heads of the various departments are sworn in, the only new ones this year being Commissioner of Agriculture Davis and Controller Terrell. Davis is a recent arrival, while Terrell has been a familiar figure for fifteen years. Also on the same date the new lieutenant-governor, W. F. Hobby of Beaumont, takes the oath of office. Like Mr.

made and will be again there is no doubt. That is no more than could be expected. But as a whole, the good work accomplished by our splendid Chamber of Commerce during the past six or seven years is commendable. Without its aid this city could not have made the rapid progress it has, and it is therefore, to the interest of every citizen to give to the Chamber of Commerce its earnest support during the year 1915, together with just as much financial support as he can afford. The Times trusts that the membership for 1915 will be larger than for any previous year. There remains much to be done for the upbuilding of Wichita Falls, and unless the lead is taken by the Chamber of Commerce or some such organized body, experience has taught us that little or nothing can be accomplished. When the gentlemen composing the various soliciting committees call on you tomorrow don't allow them to leave without enrolling your name.

FINANCING THE WAR.

(From the Abilene Reporter.) The first statements concerning the financing of the European war are reaching America and the sums that have been spent up to this time are beyond power of the human mind to comprehend. No longer do millions answer to denote the vast sums, but hundreds of millions, even billions, are required to indicate the expense. Not many people in the United States have yet realized what this war means. The mind is not capable of grasping the situation. Germany alone has more than 1000 armies in the field larger than was the army of Alexander the Great. France and Russia have armies equally as large, to say nothing of Austria, Turkey and England. Millions of horses are to be taken care of, while automobiles, flying machines, etc., come in for their part in the great conflict. Truly the world has never known anything like it, and the end no man can see, as much as some people feel that they know when and how the end will come.

The Republic lends its sympathies to Alderman Chapa, in his earnest efforts to find some street or alley in this city that is willing to bear the name of Colquitt; but, at the same time, its sympathies go out to those upon whose homes he proposes to cast this affliction. The Republic fully realizes the great value of the honors that Colquitt has given to Alderman Chapa. It thinks of the gold lace, the stunning epaulet, and the title of "Kürpel." It knows that but for Colquitt, Alderman Chapa might have remained one of the plain people—one of the common herd, like ourselves. But for Colquitt, he might be known today as "Mr. Chapa," the proprietor of a drug store, while under the Governor's favor, he has become a military chieftain who, if he has never smelled powder, at least dispenses the odor of medicine. The Republic therefore thinks that Alderman Chapa is fully justified in searching for some spot that is willing to sacrifice itself in a vain attempt to perpetuate Colquitt's memory; but it honestly doubts if such a spot can be found in this State.—Texas Republic.

MORE ACTIVITY IN OIL FIELDS NOTED

SOME WILDCAT WELLS ARE BEING WATCHED WITH INTEREST OPERATIONS IN MORAN DISTRICT

Burkburnett Territory Also Shows Considerable Important Work at Present Time

Considerable activity, including some important test work is noted in the Northwest Texas field in the report to the Oil and Gas Journal by W. Whitney. The report follows: Since the Texas Panhandle fields were last reviewed there is very little of an encouraging nature to be reported, although considerable new work is being planned which is important as to location. Some activity is noted in the number of sections, but it is mostly located inside of the defined limits and for that reason attracts but passing attention. The Burkburnett pool, in Wichita county is the sole topic of interest in the local pools at the present time and shows prospects of the ordinary type common in paying producers they will extend the pool to a considerable distance to the west. Weather conditions have been somewhat better the past 10 days and the operators are rushing the drill in an effort to complete as much work as possible before the cold winter sets in. In the counties adjacent to Wichita there is a large amount of important test work being carried on. Wildcaters are looking with considerable favor at Tom Green, Grayson and Shackelford counties. CLAIMS HE WAS ROBBED AFTER WINNING AT POKER

Several Charges Have Been Filed. Examining Trials Are Held in Justice Court

At a preliminary hearing before Justice Jones yesterday Hiney Voss was bound over to the grand jury on a complaint charging theft from the person. His bond was set at \$750. T. J. Colburn, charged in a complaint with robbery waived preliminary hearing and was bound over to the grand jury under \$500 bond. Jack Porter, charged with robbery has not yet been given a hearing. D. Ray is in jail awaiting a hearing on a charge of perjury. The last three cases grow out of a poker game at which Ray claimed after winning some money he was robbed at the point of a revolver. The complaint against Ray results from his testimony in the city court.

DO IT NOW

Wichita Falls People Should Not Wait Until It Is Too Late The appalling death rate from kidney disease is due largely to the fact that the little kidney troubles are usually neglected until they become serious. The slight symptoms often give place to chronic disorders and the sufferer may slip gradually into some serious form of kidney complaint. If you suffer from backache, headaches, dizzy spells; if the kidney secretions are irregular of passage and unnatural in appearance, do not delay. Help the kidneys at once. Doan's Kidney Pills are especially for kidney disorders—they act where others fail. Over one hundred thousand people have recommended them. Here's a case at home: F. McEnnis, carpenter, 1108 Scott St., Wichita Falls, Tex., says: "I suffered from pains across the small of my back and in my sides. I also had to get up frequently during the night to pass the kidney secretions. Seeing Doan's Kidney Pills so highly recommended I got a box and used them as directed. In a short time I was cured." Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the name that Mr. McEnnis had, Foster-McBarn Co. Props., Buffalo, N. Y. (Adv.)

REPORT THAT BURLESON MAY SEEK SENATORSHIP

Special to The Times. Austin, Texas, Dec. 30.—An interesting rumor is in circulation here that Postmaster General A. S. Burleson is planning to enter the lists for the United States senatorship in 1916 when a successor to Charles A. Culberson will be chosen.

MARK THE PERFECT MAN

As you stand aloof from the surging crowd, your mind points out the more perfect men. The man who wins in this great, beautiful world of ours, he is brave and manly, keen of sight, and clear of conception. Proud without ostentation, kind and considerate to those about him, ready to play or to work; he will reach out a helping hand, by spending his money to educate, and relieve, by giving employment to those who are worthy. He turns his face toward the rising sun as he sets his feet firmly to stem the tides of opposition and failure that beset his path. He remembers his loved ones, both living and dead, and the joys of life radiate from him in benign rays of love and sympathy. There is no joy that he cannot share, no sorrow that he will not stoop to bear his part. I am glad I see so many perfect ones. Do you? When you want me to help you remember loved ones, phone me.
