Guadalajara is the key to the Villa troops, according to a telegram received. Villa also told of the execution at Guadalajara by the Carranza troops of several priests.

By Associated Press.  
San Antonio, Texas, Feb. 13.—Three men walked into the Merchants and Mechanics bank at 11:30 o'clock today, secured \$1,000 and \$1,100 and escaped in an automobile which they had stolen a short time previously.

Posses of deputy sheriffs are scouring the counties, one of them going out the Blanco road which is said to have been taken by the robbers. The president says the three men entered together and immediately two drew pistols commanding him to throw up his hands. He did so and the third man walked behind the railing where the president stood and then drew his pistol. This robber ordered him toward the back of the building where he forced him into a closet, locking the door.

The houses in the province were decorated with tri-color flags which had been hidden in Alsace since 1870. ## NEUTRAL SHIPS NOT EXEMPTED

GERMAN CRITIC SAYS VESSELS WILL ENTER IN SEA AT OWN RISK

## HIS ATTITUDE VERY DEFIANT

Says Americans Fool Themselves if They Think They Can Handle Germany

By Associated Press.  
Berlin, Feb. 13.—V. Koelnische Zeitung has republished from the Tages Zeitung an article by Count Von Reventlow, the naval critic. He refers to the report that the Washington government intended to ask how Germany proposed to make neutral shipping in these waters, and says: "This marine war zone was announced by the German government for the very reason, that safety of navigation therein cannot be guaranteed. The vessels of neutrals enter upon this war zone only at their own risk. This condition of affairs and the consequences it may bring after February 18 cannot be overestimated by any representative or demands from Washington. It is equally out of the question that the identity of every ship with a neutral flag be ascertained. A submarine mine cannot learn this identity and such a course is equally impossible for a submarine boat."

## ATTEMPT BRITISH AIRMEN TO REACH BRUSSELS FAIL

By Associated Press.  
Berlin, Feb. 13.—Repeated attempts have been made of late by British and French airmen to reach Brussels. On Thursday of this week an English aeroplane approached the city. A German aeroplane ascended and a fierce fight ensued ending in a victory for the German, the British machine suddenly crashing to the ground and its two occupants being killed.

## GERMANY AGAIN WARNS NEUTRALS

ADVISES SHIPPING TO STAY OUT OF BRITISH WATERS AFTER FEBRUARY 18.

## WILL NOT BE RESPONSIBLE

Neutral Shipping in War Zone Will Bring Risks Which Germany Not Accountable.

By Associated Press.  
The Hague, Feb. 13.—The German legation again has warned neutral vessels against entering the war zone around the British Isles, as defined by the German admiralty and to the original note adds the following: "Since Germany, following the example of Great Britain, declared as a war zone, on and after February 18, English and Irish waters, the British have declared all the ports of England war ports and have justified the use of neutral flags on merchant vessels. Moreover, according to a reliable source, a great number of British merchantmen have been armed in order to destroy German submarines by shells or by ramming them. Therefore these ships lose their character as merchant ships and become war vessels. Germany therefore is again obliged urgently to warn all neutral ships against entering English coast waters after February 18 as from that date the German admiralty will prosecute the war with all means at its disposal against British war ports and British-armed merchant ships. Neutral vessels which are then within the zone will run the same risks as if they pursued a course through sea battles between England and Germany, of which the date and place could not have been made known, and will bring risks upon themselves for which Germany cannot take the responsibility. The route across the north of Scotland, owing to the depth of the water, cannot be endangered by mines there, as well as in the waters of the North Sea, with the exception of British waters, and Germany Bay, neutral shipping will not be endangered by the measures the German admiralty is adopting."

## TWO BRITISH STEAMERS BELIEVED TORPEDOED

By Associated Press.  
Havre, via Paris, Feb. 13.—Shipping circles here now consider it virtually certain that the British steamers, Oriole and London Trader, were torpedoed and sunk by a German submarine. The last time the vessels were known to have been seen was January 30, near Dungeness. A telegram from Rouen says James Cullen, a survivor of the Trader was landed there by the Steamer Poland, the captain of which stated another vessel whose name he could not give, had saved three other sailors from the Trader.

In concluding his article the Count says: "The German declaration in itself must furnish proof to Americans that the possible destruction of Americans after February 18 cannot afford the Washington government any grounds for complaint of any nature against the German government, but that the American government and the shippers themselves must bear the responsibility if they permit their vessels to enter this war zone. We gather the impression here from expressions reaching Germany from across the water that if the American people believe they can handle the German government, as they desire, by threats and pressure, they will fool themselves."

## FOREIGNERS EXPELLED FROM UPPER ALSACE

Bombardment of Thann Continued With Greater Intensity and Destruction Great

By Associated Press.  
Geneva, Feb. 1.—(By mail.)—The reported repulsion of all foreigners from that part of upper Alsace still occupied by the Germans has been confirmed and it also is stated a complete evacuation by the civilian population has commenced. All young boys already have been sent across the Rhine and now the old men, women and children are leaving, many crossing the Swiss frontier at Basel and other points where special relief committees have been organized to take care of them. The bombardment of Thann greatly increased in intensity in the last ten days, and in spite of the deep fall of snow the flames continue their ravages. The large cotton spinning mills and weaving sheds constituting the most important industry of the town, are now only heaps of stone. Germany also virtually has been destroyed. About Altkirch the artillery has been particularly active. The guns on both sides are hidden under the snow to conceal them from reconnoitering air craft constantly cruising over this part of Alsace.

## DEMOCRATS WILL FORCE SHIP BILL

AT CAUCUS LAST NIGHT THEY AGREE TO AMEND SENATE RULES.

## DEBATES TO BE LIMITED

House Democratic Leaders Also Consider Plan to Put Bill Through.

By Associated Press.  
Washington, Feb. 13.—Senate democrats in caucus tonight unanimously agreed to support an amendment to the Senate rule which limits debate. No specific closure plan was approved, although a special rule for the shipping bill and various general amendments have been offered. The seven insurgent democrats who have voted with the republicans on the shipping bill did not attend the caucus and no binding vote was taken. "The caucus unanimously resolved," said Senator Kern, the democratic leader, "to press a closure rule. No vote was taken, but that was the unanimous expression of opinion and would be binding on all democrats except those who bolt."

In the House preparations were made to rush a compromise bill through under special rule after it has been approved by a caucus of House democrats Monday night. The caucus petition was circulated today and it was said some democrats refused to sign it. "It's a five to one shot there will be an extra session of Congress," was Senator Clark's comment on the situation tonight.

In the Senate the Norris closure bill was still under debate and Senator Burton occupied the floor virtually the entire session. His discussion ranged from criticism of alleged interference with legislation to the merits of various projects in the waterways bill. Democratic leaders discussed the general subject of closure tonight, without any decision and resumed the conference tonight. Under Representative Padgett's proposed special rule the House could dispose of the bill at one sitting. It includes the completed administration compromise embracing the Weeks auxiliary bill, the Gore shipping bill and an amendment concerning the two and would prohibit present utter amendments.

The caucus Monday night is expected to bind the democratic majority to support the bill as a party measure. The first democratic speech against the ship purchase bill in the House was made by Representative Dism of Texas who assailed as Socialistic and paternalistic.

"I do not want to see this Congress stampeded in this hour into the Sea of Socialism," he said, "and I shall not vote for it."

## ALARMING REPORTS FROM MEXICO CITY

ZAPATA FORCES DESTROY WATERWORKS AND FOOD FAMINE IMMINENT

## POPULACE IS RESTLESS

Washington Officials Fear Mexican Capital May Be Left to State of Anarchy

By Associated Press.  
Washington, Feb. 13.—Zapata forces have destroyed the water works in Mexico City. The food famine has become more critical and indications are that Carranza forces may soon evacuate, official advices to the American government today said. Officials here are much concerned over the reports which have been coming for the last three days. With lack of food and unrest among the population, and the fact that Mexico City is of no great strategic importance, diplomats in Mexico City fear the place may be left without semblance of authority at any moment. Advice to the state department from Piedras Negras report that on Thursday Villa troops evacuated Monclova and moved south, the Carranza forces under General Luis Guiterres occupying the town without resistance. The Spanish minister who was expelled from Mexico City by General Carranza went aboard the battleship Delaware as a guest of Captain Rogers but will sail for Havana February 16 on a Spanish steamer.

## 4,000 BALES FOR BREMEN TO LEAVE GALVESTON TODAY

Galveston, Texas, Feb. 13.—The American steamship Oliver J. Olsen cleared today for Bremen with 4,000 bales of cotton. The steamer will go via Hampton Roads. The steamer Lellanaw, recently purchased by a local cotton exporting firm, cleared today for Bremen with 6,000 bales of cotton. She is expected to sail some time tomorrow.

Chicago, Feb. 13.—Illinois will undertake to contribute a ship load of food for the starving women and children of Belgium, it was announced today.

## GERMANY CELEBRATING OVER EASTERN BATTLE—ENGLAND ELATED OVER AIR RAIDS

By Associated Press.  
London, Feb. 13.—Berlin is celebrating the evacuation of East Prussia by the Russians, which is held at the German capital as another great victory for Field Marshal Von Hindenberg.

England is not attempting to hide her elation at the success of her airmen in the raid on the German positions in Belgium and all Europe is eagerly discussing the American note to Great Britain and Germany and contemplating what the replies will be. Great Britain already has intimated that British ships have been advised to use neutral flags only in cases of emergency and that no general use of such flags is expected. The German minister at The Hague has issued another warning to neutrals to the effect, that in view of the alleged declaration of all the British ports as war ports and the use of neutral flags by British ships, it would be dangerous for neutral merchantmen to visit the prescribed waters after February 8.

So far as the East Prussian situation is concerned the Russian official report indicates that the Russians, having evacuated the greater part of the German provinces are making a stand on or near their frontier, whether for a pitched battle or only to delay the German advance, it will take a few days to tell. On the last occasion that Von Hindenberg drove them from East Prussia the Russians fell back on their fortified lines between Nieman and the German frontier where they defeated the Germans. On this occasion, however, they have had more time to prepare their positions and may give battle before the fortifications are reached. The Russians already claim to have repulsed one German attack near Lyck.

Throughout Poland, where fierce fighting has occurred during the past week, the battles now consist of artillery engagements while in the Carpathians fighting of more or less severity continues. The Germans are making repeated terrific attacks in an effort to capture the heights of Koziouwka in Tukholka Pass, which they won and lost twice since last Sunday. They are now entrenched within 40 paces of the Russian positions and despite their heavy losses apparently are hopeful of capturing them. On the rest of the Carpathian front the Russians seemingly are making progress.

The Egyptian army has just placed to its credit a brilliant feat of annihilating a force of 200 Turks and Arabs, officered by Germans who were preparing to attack Tor at the entrance of the Gulf of Suez.

In view of the British experts, the air-raid on Belgium proves that the British air-men are superior to the Germans and have a great advantage in the possession of a base on the continent as well as in England, for while the British, if they are unable to return, can land in France the Germans must make the round trip across the sea. In France, Flanders and Alsace there has been little or no fighting of importance. That is, so far as the official reports disclose.

It is announced that the leaders in the South African rebellion are to be put on trial for treason, and addition to other punishment, may be sued for looting and for damage done by themselves and their followers, while the men of means will lose all their property. Meanwhile the government has announced its intention of pushing with vigor the campaign against German Southwest Africa. As a result of Premier Asquith's announcement that wheat would fall in price it sold at Southampton today at 58 shillings, a quarter decline of two shillings.

### GERMANS STOP AMERICAN MAIL

#### MILITARY AUTHORITIES REFUSE TO TREAT CONSULAR AGENT'S ACCOUNT.

**RETURNED TO THE AGENT**

Offense Second of That Nature and Has Been Protested by the State Department.

By Associated Press. Luxembourg, Feb. 13.—German military authorities have refused to transmit a package containing American consular agent's account because it was stated in a despatch addressed to the state department at Washington. The package, under instructions from the commandant, was returned unopened to the agent.

Interference by the German authorities with American official correspondence already has brought a protest from the state department at Washington based on an appeal that was contained in a telegram forwarded by Henry Van Dyke, the American minister to the Netherlands and Luxembourg, who complained that the military commander at Trier, refused to allow official messages to pass from the minister to the government of the Duchy. Secretary Bryan on Friday sent a note of protest to Ambassador Gerard at Berlin for delivery to the foreign office. The German office was reminded of the fact that Dr. Van Dyke was minister to Luxembourg as well as to the Netherlands; that he has been rendered incommunicado so far as his relations with Luxembourg are concerned, and the state expressed confidence that the action of the military commander was not sanctioned by the imperial government.

### MINE OPERATOR SHOT TO DEATH BY ROBBERS

Carrying Payroll to Mine in Automobile Colorado Man Victim of Robbers.

By Associated Press. Walsenburg, Colo., Feb. 13.—W.H. Dick, a mine operator, was killed by robbers in an attempt to secure \$6500 which he was taking to the Oak View mine to pay the men off today.

The news of the killing of Dick was brought to Sheriff J.P. Fox by Gabriel Murphy, liveryman, who was driving an automobile half a mile to the rear of Dick's mine, and who witnessed the killing. According to Murphy, two men came from under an irrigation bridge five miles from the mine, opened a machine gun and fired on Dick when the latter's machine was a distance of 50 yards away. After rifling the pockets of the dead official and taking \$6500 in currency locked in a compartment in the machine, the men fled. Fox went in pursuit of the men.

### THE LUSITANIA STARTS ACROSS IRISH SEA

Canard-Liner Flew British Flag Out of Liverpool and Carried Many Passengers

By Associated Press. Liverpool, Feb. 13.—The Canard liner steamer, Lusitania, the vessel which flew the American flag across the Irish sea on her last trip as a measure of protection from German submarines, sailed from Liverpool for New York at her usual hour today under the British flag. Whether or not those emblems will still be flying when the Lusitania reaches the Irish Sea was a question to which the keenly interested passengers found it impossible to obtain an answer. The Lusitania carried a large list of passengers, including many Americans. There were 200 American consulars at the last moment, being transferred to the American liner steamer, St. Paul which also sailed today.

### BRITISH STEAMERS ARE GUARDED BY DESTROYERS

Extra Precautions Being Taken to Guard British Ships From Submarine Attack

By Associated Press. New York, Feb. 13.—Passengers arriving today on the British steamer, Magnesia, from Liverpool said that extra precautions were being taken to protect shipping in and out of English ports from torpedo or submarine attack. Charles A. Nelson of Ulton, New York, said the Magnesia leaving Liverpool at 4 p. m. February 3 was closely guarded by destroyers until she was well clear of the channel.

"It appeared as if we were going through a line of war vessels," said Mr. Nelson. "The destroyers were out at anchor, but were moving back and forth rapidly sweeping over the waters of the channel."

### ENGLAND WANTS BIDS ON 1,000,000 SMELLS

### MINE GUARD SHOT BY LADDER LEADER IS DEAD

#### Officers at Butte, Montana, However, Believe There is Little Likelihood of Trouble

By Associated Press. Butte, Montana, Feb. 13.—Thomas Munroe, the special mine guard shot last night by Harry Robinson, a labor leader died late today.

Because of the feeling prevailing tonight over Munroe's death Robinson was spirited out of Butte and lodged in jail in some nearby town, the name of which was not divulged.

There is little likelihood of a revival of the labor troubles of last year, according to the authorities. The shooting of Munroe, they say, apparently is the culmination of bad blood between mine workers and mine guards. There has been no relaxation in the vigilance of guarding the mines where miners are employed, and the searchlights still sweep the approaches. The coroner's inquest on the shooting has been set for Wednesday.

### WATCH FOR "WAVING WILLIE"

Yeoman Master Ujigawa Method of Talking Lays of His Girl Mas Attracted Attention

He's been talking on Juliet for many, many months. Not that the neighborhood objects to that. A lot of them come and go up that way. The girls give them all a tryout, but it would seem as if this one had earned a regular place. The best part of the show occurs when "Willie" says "good night." We presume the real good night is enacted in the reception hall or dark corner of the vestibule—but that's another story.

The fable concerns what Willie does after he goes. The stay-at-homes in the section have been accustomed to see each man fade into the darkness the moment he rumbles away from his girl's side. But if remained for Willie to avoid the innovation. He got away with it for a month before the neighborhood got wise. Now everybody stays up till he takes his departure, and watches.

He proceeds up the street until under an arc light 20 yards away. Turning with a graceful motion he lifts one delicate arm and waves a farewell to his love. He played football once at high school, too. He advances five yards, perhaps, right. Then he turns again and waves once more. One night he wafted a kiss on the evening breeze. And so it goes, until he is out of sight. The neighborhood enjoys it hugely. So the latest indoor sport is sitting up for "Waving Willie."—Brooklyn Enterprise.

### MAN ARRESTED ACCUSED LOS ANGELES DYNAMITING

#### New York, Feb. 13.—Matthew A. Schmidt, forty-four years old, was arrested here tonight as a fugitive from justice on an indictment found in Los Angeles in October 1910, charging him with having been implicated in dynamiting the Los Angeles Times building.

The arrest was made on Upper Broadway where detectives had traced him after a search of four years.

### WAR PRISONER ALLOWED TO SEE DYING MOTHER

German Emperor Grants French Prisoners Permission to Return to France.

By Associated Press. Berlin, Feb. 13.—Raoul Davidot, a French prisoner of war, returned to Germany today from a visit to his home in France, where he was permitted to see his dying mother.

The Frenchman wrote direct to the Emperor his request to be allowed to visit his mother, pledging his word of honor to return March 1. The Emperor granted the request and Davidot went by Switzerland. After the death of his mother he returned to the detention camp.

### THREE DEFICIENCY ITEMS HELD UP BY CONTROLLER

By Associated Press. Austin, Texas, Feb. 13.—Controller F. B. Egan today has held up three items in the deficiency bill approved by the governor yesterday because the items were not correctly stated in the bill. The bill carries an appropriation of \$154,000 for the Capitol City Normal when there is no such institution. It should have been for the West Texas State Normal; another item provided for an appropriation for the "state library" for contingent expenses; this appropriation was originally for the state library. The third item is one of the \$300 for "store-keeper and accountant" but the name of the institution is not given. The controller says this is evidently intended for the state insane asylum. In order that the matter may be straightened out the controller has recommended the passage of a concurrent resolution authorizing him to pay these items to the institutions for which they were intended.

By Associated Press. London, Feb. 13.—Emperor William received Field Marshal Von Hindenburg on the morning of the 13th today and it was decided to make a renewed dash for Warsaw next week, according to a dispatch from Rotterdam today. The emperor, the message says, is anxious that the Polish capital be taken before the next meeting of the Reichstag in order to induce the House to vote a new war loan without opposition.

### Russian Minister Says Markets Closed To Germans Forever

By Associated Press. Paris, Feb. 13.—"The meeting of the finance ministers of the Triple Entente was not merely to organize for an economic victory," declared P. Bark, the Russian minister of finance, in an interview with the Matin. "We must not be obliged some day after the war to indemnify the Germans by leaving open to them a means of reconquering and enriching themselves at our expense in our own markets. Germany having demolished the factories in Belgium, Poland and northern France perhaps thinks to force us to buy from her goods we cannot make ourselves. Let her be quite sure our markets are closed to her forever."

### CONTROLLE RWANTS INJUNCTION CASE DECIDED

Austin, Texas, Feb. 13.—"Not that I have any personal interest in the matter, but I want to see this question determined as quickly as possible," said Controller Ferrell today, discussing the injunction which has been issued against him in the 33rd district court restraining him from issuing warrants for the children asked, such and items in the deficiency bill. He said he had not as yet determined whom he will set to represent him. No date has been set for a hearing on the injunction.

### UNIVERSITY MATTER NOT YET SETTLED

HOUSE COMMITTEE FAILS TO SUBMIT REPORT ON RESOLUTION SATURDAY

### SUIT FOR INSURANCE TAXES

Resolution Authorizing Attorney General To Act Is Reported Favorably in Senate

By Associated Press. Austin, Texas, Feb. 13.—After spending the entire morning considering the resolutions for separation of the University and A. & M. College the committee on constitutional amendments in the House adjourned without having gained any ground for a report to the House. Chairman Blalock will call the committee again Monday morning.

The committee on common carriers in the House held a hearing on the Spradley bill for the redemption of unused excursion tickets on common carriers; the hearing will be continued Monday morning. The committee has not arrived at any report on the bill placing telegraph and telephone companies under jurisdiction of the railroad commission and will continue hearings on it Wednesday morning. The following bills were reported favorably this morning by the House committee on civil procedure:

The Holland bill providing for speedy trials in justice of the peace courts where suit is brought for the payment of laborers' personal services rendered. Holland's bill permitting constables in large cities to appoint deputies. Crudington's bill relating to appeals in injunction cases.

Smith's bill permitting new party defendants when proper or necessary to be made in the courts to which cases from inferior courts have been appealed.

Jones' bill permitting justices of the peace to issue attachments in certain cases.

### Senate Committee Busy

Reporting favorably the concurrent resolution introduced by Senator Bradford which authorizes and directs Attorney General Looney to institute suits against the nineteen foreign insurance companies who withdrew from the state in 1907 and to collect over a million dollars in accrued taxes, the Senate committee on state affairs this morning paved the way for the settlement of the controversy centering around the Gibson bill which would repeal the Robertson law. Lieutenant Governor Hobby appeared before the committee and defended the Bradford resolution.

This same committee after considerable debate postponed indefinitely the Townsend resolution providing that the Senate hold night sessions for the consideration of redistricting measures. A favorable report was given the bill by McNeal making it a misdemeanor to defraud hotel keepers; also favorably reported his measure creating a board of architects for the licensing of architects.

Women's Suffrage Again. In order that quick action might be taken on the proposition Senator Lattimore changed his concurrent resolution introduced a few days ago to authorize the women of the State to vote at a special election to be held next June on the question of whether or not there shall be an amendment submitted on woman's suffrage. This bill was today considered by Senate committee on commerce and manufactures and given a favorable report. This committee also reported favorably the following bills:

Lattimore's bill to prevent discrimination in making service connections by gas and electric light, water and power companies.

Lattimore's bill permitting service on jurors by telephone.

Lattimore's bill reducing the minimum charter fee for a foreign corporation doing a building and loan business leading money in Texas from \$250 to \$100.

The House bill giving the right of

eminent domain to aerial tramways. Pure Sugar Bill Favored. Senate Judiciary committee No. 2 today made a favorable report on the Wiley sugar bill; also a favorable report on Connors bill which authorizes the appointment of deputy constables in towns over 1500 inhabitants and Senator Hall's bill which prohibits deer-calling devices to be used in hunting. An unfavorable report was given the bill introduced by Senator Bee authorizing municipal judges and justices of the peace to try pistol carrying cases. The bill he brought out on a minority favorable report.

### CABARET'S LURE TOO MUCH FOR DALLAS MARRIED MEN

Boys and Young Women Also Becoming Habitues and Such Resorts May Be Closed

Dallas, Texas, Feb. 13.—That the lure of local cabarets is too strong for many Dallas married men and that boys and girls in their teens puff cigarettes and sip beer in certain Dallas restaurants is the statement of Mrs. Reed Finley, of the Dallas board of censors. Mrs. Finley says that she is going after some of the Dallas cabaret shows with a view of either closing them up or of having them strictly regulated.

"Certain Dallas married ladies have telephoned to me and asked me to aid in closing up the cabarets," she says. "They say that the bright lights are too strong a temptation for their husbands and that they stay downtown in cabaret restaurants when they ought to be at home."

"Another thing which is reported to me is that young boys and young girls are allowed to sit at tables together and drink beer and smoke cigarettes in some places. Vaudeville performances in cabaret restaurants come under the jurisdiction of the board of censors. If certain moving pictures are classified as demoralizing, I think that we should also reckon with the cabaret shows. I am going to make an inspection trip and see just what is going on."

Chief of Police Ryan has also gone on record as not being entirely in favor of the cabaret system. On his recommendation all special police commissions granted cabaret employees were revoked.

Mrs. Finley, when asked whether the police could prevent the alleged sale of liquor to girls, said that in Dallas it was pretty hard to tell the age of a young woman.

"A girl might be sixteen and declare she was twenty-two and get away with it," Mrs. Finley says. Dallas has a special type of girl. The boys call them "chickens." I class them merely as a type. Any person who is observant knows this type of girl, which, I think, is more or less peculiar to Dallas. She is a slim girl, with a low cut dress, her hair bunched up underneath a perky little hat, with low shoes and silk stockings. You see them everywhere, in the shows, restaurants and on the streets. It would be hard to guess ages of the Dallas type—they may be sixteen or they may be thirty."

### THRILLING AERIAL FLIGHT IN FRANCE IS DESCRIBED

German Machine Is Finally Brought To Earth By Two French Aviators

By Associated Press. Dunkirk, France, Feb. 13.—A fight between two French aeroplanes and one of the new German monoplane, a type which has only recently begun to appear on the northwestern front, is described in a letter from a French officer. He says: "For half an hour the black Taube had been describing infernal circles over our lines, while our men crouched in their trenches, covering with their bodies beyond and above everything else whose glittering surface might betray their position. I alone stood up, observing the enemy through my field glasses."

"Suddenly a French airman emerged from a cloud above the Taube. The dry bark of a mitrailleur announced that the Frenchman was attacking. The Taube turned tail without replying, but only to return to the battle. Then the two great birds charged head-on. From below it seemed that they must meet in a terrible shock. Nothing of the sort; the German passed a little above the Frenchman, the machine gun spoke. Carried apart by the speed of their charge, like knights in a tourney, they swept about in great circles to renew the combat."

"The Frenchman hovered and waited; the adversary returned quickly with clever manoeuvres, flying above, then below the Frenchman, firing when he could, while the Frenchman seeming to remain almost stationary, replied with ease."

"In the trenches our red pantalooned soldiers and the spike helmeted Germans alike suspended sniping operations and followed that death struggle with equal emotion. An involuntary 'Ah' broke from a thousand throats as a biplane emerged from the same cloud that had hidden the French monoplane and the Taube turned to flee."

"Again the French monoplane returned to the charge. Flying high over its adversary, it suddenly dived headlong upon it, seemed to touch it and then—mounted again gracefully in the air."

"At a dizzy speed the Taube, mortally wounded, fell almost vertically into the German lines."

### SERVICE MEDALS TO BE AWARDED PANAMA EMPLOYEES

By Associated Press. Panama, Feb. 13.—Canal service medals are to be awarded Panama Canal employees in the course of the next few weeks. Orders have just been received from the war office that the list of those who are entitled to medals and service bars must be in Washington not later than February 8.

It is estimated that this year 700 employees will be entitled to medals while more than 1,000 service bars will be given to those who have received medals already. Up to December 1913 more than 7,000 service medals had been given canal employees.

### SOLDIER SKETCHED PANAMA CANAL LOCKS

PRIVATE HILL TRIED BY COURT MARTIAL FOR DRAWING SKETCH OF LOCKS

### TWO OTHERS ARE WATCHED

Foreign Tourists Who Have Been Taking Photographs on Canal Under Surveillance

By Associated Press. Panama, Feb. 13.—Private Charles H. Hill of the Tenth Infantry, U. S. Army, who has been doing lock guard duty at Miraflores, was tried this morning by a court martial on the charge of having made sketches of the locks, taken notes and drawing a few unimportant maps. The sketches, notes and maps were meager. He had a letter addressed to the Japanese charge at Panama, but Japan is not represented on the Isthmus.

The decision of the court martial has not been announced. Hill says he was using this means for getting out of the service. Two foreign tourists who have been taking photographs of the Panama canal locks and other works as well as the governor's residence, have been under surveillance for several days. The case is not thought to be of importance and though the tourists have been under surveillance no other action has been taken.

According to the police communications have been received stating that there are persons on the isthmus who apparently are seeking information, the exact nature of which is not divulged. A company of the Tenth Infantry left here this morning for the Juan Diaz country ostensibly on a practice hike.

Thus far it is understood that no connection had been established between Private Hill and any one else and the authorities express the opinion that Hill's escapade was merely to get out of the service. Officials also state that they believe that the two people who have been taking photographs are inoffensive tourists. Hill was arrested nearly two months ago and was brought to trial only today.

### PRESIDENT WILL MAKE SPEECHES

WILSON WILL DISCUSS RECORD OF ADMINISTRATION ON WAY TO FRISCO.

### PREPARATIONS FOR 1916

Members of National Democratic Committee Held Conference at White House.

By Associated Press. Washington, Feb. 13.—President Wilson discussed his plans for political speeches during the spring and summer, tonight at a white house conference with members of the executive campaign committee of the national democratic committee, which outlined during the day its preparations for the 1916 campaign.

The president, it was said, undoubtedly will make a number of political addresses on the way to and from the San Francisco exposition. Even should he be kept from attending the exposition in March, as now planned, by an extra session of Congress, it was said that he would make the trip later.

The question of Mr. Wilson's candidacy, it was said tonight, was not discussed, although it was agreed that much of the material for the campaign will be based on his record. It was made clear that the committee would not work for any particular candidate, but for the success of any one nominated.

A statement given out by the committee said the party was in a flourishing condition and that the "action is centering upon the most prosperous period in its history." It was stated a decision had been reached to continue the work of the permanent headquarters of the party here. The meeting was attended by Representative Mitchell Palmer, chairman of the committee, Fred B. Lynch of Minnesota, Homer S. Cummins of Connecticut, and Cato Sells of Texas. Written reports from other members of the national committee were read.

### HOCH DER KAISER! WITH BEER PRICES GOING UP

Berlin Cafes Close at 1 A. M. and Guests Must Bring Their Own Bread.

By Associated Press. Berlin, Feb. 13.—Restaurant guests must bring their bread with them and the price of beer has gone up. Now that the pleasures of Berliners again have been diminished by the news that hereafter all restaurants and cafes and cabarets must close at one o'clock. This order was issued by the military authorities who found that despite the war night life in Berlin again was coming into bloom and displaying certain characteristics "incompatible with the serious spirit of the times."

### WAR BULLETINS

#### GERMAN

By Associated Press. Berlin, Feb. 13.—The German official statement tonight reads: "German East Africa is now completely cleared of the enemy. German troops have entered Uganda, British East Africa."

#### RUSSIAN

By Associated Press. Petrograd, Feb. 13.—The following general staff official communication was issued tonight: "On the Nieman-Vistula front, fighting has taken place to the west of Jurburg in the region of Lyck near Kadzido and to the east of Peretz. In the region of Lyck we successfully repulsed the German attacks and inflicted on the enemy heavy losses. On the left bank of the Vistula our artillery successfully bombarded the enemy's columns moving in various directions. "In the Carpathians our troops occupied the fortified heights in the region of Swidnik and also those between the Lupkow Pass and the upper San, where we captured about 1000 prisoners. On the front between the Ujck and Tuchla passes we forced the Germans to fall back a little from the Kozluwka heights. The enemy is entrenched about forty feet from our trenches at Wyzkow. We repulsed a stubborn attack by the enemy."

#### AUSTRIAN

By Associated Press. Vienna, Feb. 13.—The following official statement was given out here tonight: "In Western Poland and Western Galicia nothing noteworthy has occurred. The situation along the Carpathian front in the western and middle sections is unchanged. The strong Russian counter attacks in the vicinity of Dula pass are becoming rarer. In the eastern section we have progressed. Simultaneously with the successful advance in Bukowina our troops, after repelling the enemy near Korcecesse, crossed Jablonica Pass and the passage on both sides of this road. Our forces in the upper region of the River Pruth won their way out of the mountain valleys and reached Winitz, Kutv, Kosow, Delatyn and Tassicha. The number of Russian prisoners of war taken in the present series of battles now amounts to 29,000."

#### FRENCH

By Associated Press. Paris, Feb. 13.—The French official statement tonight reads: "In Belgium there have been artillery actions. At LaBoiselle we blew up a series of mines occupying the excavations. Before Dantiers, southwest of Peronne, the explosion of one of our mines took by surprise Bavarian sappers at work. The enemy has bombarded the village of Bathy and Tracy-Leval. Our heavy artillery has reached the railway station at Noyon. In the Champagne district in the region of Souain one of our battalions was subsequently successful in taking possession of a position in front of a wood, but was not able to maintain its position before a counter-attack by superior force. A violent snow storm has prevented the artillery from rendering efficacious support."

#### FRANCE CAN'T UNDERSTAND LACK OF ENGLISH TROOPS

People Not Informed As To How Many Soldiers England Has Put Into Field

By Associated Press. London, Feb. 13.—For the first time since the outbreak of the war the British press is admitting that the French people are a little puzzled about the slowness of Great Britain in throwing men into the fighting line. A vigorous campaign of education to promote mutual understanding is what is needed, according to the Paris correspondent of the Times; and he hints that the recent visit to England of M. Millerand, the French minister of war, "will be an encouragement in this direction."

"It is hard," says this writer, "to explain to the Frenchman in the street the many difficulties England has had to contend with in the formation of her new armies. A great many Frenchmen are under the impression that in England we have obligatory service. A still greater number believe, in the absence of news to the contrary, that we have but the original one hundred thousand men in France. They are all ignorant and informed—frank and generous in their admiration of our troops, but they cannot prevent a certain wistful envy from arising at them, when they read of our normal lives at home."

"Much useful work is now done by several of the large newspapers which have for some days past been explaining the extent of the effort we are making. More work of the same nature can be done both in England and France, and M. Millerand's visit will be an encouragement to all efforts in this direction."

The vessel and her cargo are a total loss. The wheat was valued at \$170,000.

THE ROBERTSON LAW VS. THE GIBSON BILL

Editor Times:

A great deal has been said since the convening of the present legislature about the repeal of the Robertson insurance law...

The total amount of taxes assessed in Wichita County for the year 1914 amounted to \$192,166.46. Of this amount \$166,177.53 had been collected up to Saturday, the 13th.

Why is it that those who are outlaws have by far a greater fear of federal laws than state laws? At first glance one would conclude that an offender of a state law had no greater chance of escape by having his case tried in a state court than in a federal court...

It might be interesting to those who have not had the time for reflection to investigate the facts pertaining to the case of the late bank officer...

pany had been here doing business more than twenty years and taking all of them together, from eight to twelve-million dollars annually from our state and investing it mainly in stocks and bonds of Eastern corporations...

Suppose the taxpayers say to the government: remove your requirements that I shall pay a tax and I will voluntarily pay it...

Then, there is another phase of this question, which has been so well discussed and is so plain on the face of it that it hardly admits of discussion...

Now, to remove their obligation to pay this tax would be simply hiring these companies to return to our state, when all the local companies of Texas have voluntarily and cheerfully paid their taxes...

What the Gibson Bill Proposes. Briefly stated, the Robertson insurance law requires life insurance companies doing business in this state to invest 75 per cent of the reserve on Texas policies in Texas securities...

INTERESTING TALK ON GARDENING

W. H. DOWNING, 29 YEARS A GARDENER HERE, TELLS WHAT TO PLANT

Give List of Varieties of Vegetables Adapted to Conditions Here

An interesting talk on market gardening by W. H. Downing, who probably knows more about the subject than anybody else in Wichita county was a feature of the meeting of the Farmers Marketing and Diversification Saturday afternoon...

Plant black seeded Simpson, Grand Rapids or almost any of the loose leaf kinds. The heading varieties do not seem to do so well.

Plant pumpkin yam and the vine-less pumpkin yam, buckskin, southern queen and Nancy Jane.

Plant almost any of the common kind. But they must be planted early. Spinach. Plant victoria, long season's and bloomless.

Plant early white bush scallion and giant summer crooked neck. Tomatoes. Plant Sparks eastland, dwarf stone and dwarf champion.

Plant early white bush scallion and giant summer crooked neck. Turnips. For early spring plant purple top strap leaf.

What Not to Plant. I hardly think that it pays to fool with such things as celery, egg-plant, cauliflower, parsnips and cavalets.

Fire at the residence of Julius Kuehn on Twelfth street caused small damage yesterday morning. It originated from a defective fuse, but the fire department arrived before the flames had spread much. A hen, which Fire Chief McClure bought several days ago for his Sunday dinner, and which had been kept in the engine room, rode out on the hose.

## PETER RADFORD IS GIVEN STATE JOB

F. C. WEINERT AND PETER RADFORD NAMED AS WAREHOUSE MANAGERS

### NEW LAW NOW IN EFFECT

Emergency Warehouse Measure Has Passed out of Legislature—Board Organized

Special to The Times, Feb. 13.—As a result of the first meeting of the board of warehouse supervisors created under the permanent warehouse law held this afternoon, the emergency warehouse law passed out of existence and its operations were merged into the permanent warehouse law. This board of supervisors is composed of Governor Ferguson, Commissioner of Agriculture Davis and Commissioner of Insurance and Banking Patterson.

The board elected warehouse managers, F. C. Weinert, who held the position of general manager under the previous administration, and Peter Radford of Parker county, former president of the Farmers Union. The election of Mr. Radford did not come as a surprise as it had been generally known that he was scheduled for a position on this board. He takes the place of E. A. Calvin, of Houston, who was a warehouse manager under the previous administration. In order to qualify as a warehouse manager, it will be necessary for Mr. Radford to resign his membership on the board of regents of the Four White State Normal schools to which place he was appointed by Governor Colquhoun.

The board of supervisors was also reorganized at the meeting this afternoon by the election of Commissioner Davis as chairman, Commissioner Patterson as vice president and treasurer, and Governor Ferguson as secretary, the latter without compensation. The governor said there was no necessity at this time for the services of a paid secretary, while his stenographer would look after the keeping of the minutes.

### LECTURE HERE ON WHITE SLAVERY THIS AFTERNOON

J. H. Woodroof Will Speak To Men Only at M. E. Church, South, at Three O'clock

"A Final Struggle, or The Lost Girl," is the subject of an address which will be delivered this afternoon at three o'clock at the M. E. Church, South, by J. H. Woodroof, president of the International White Slave association. The address will be for men only, in order that the phases of the white slave question may be more fully discussed. Mr. Woodroof, who hails originally from Hill county, Texas, has been at the head of the organization for a number of years and is seeking to arouse the public mind to the extent of the white slave traffic and the necessity for at once combating it. His address is said to be an exceptionally interesting presentation of the matter.

### TURKS' COMMANDER PUTS ONE OVER ON ENGLISHMAN

By Clever Ruse Saves City From Bombardment by British Cruiser

By Associated Press, Feb. 10.—A correspondent of the Taswir-Ekhar sends a number of interesting episodes from the bombardment of the Turkish coast north of the city of Alexandria. The most interesting of these is how the threatened bombardment of the city itself was averted.

After shelling the railroad line near Pajaz a British cruiser appeared before Alexandria, where, meanwhile the two locomotives of a train which had been partly demolished by British shelling, were stranded. The commander of the British vessel demanded the surrender of the garrison of Alexandria and the transfer of all arms in the city within eighteen hours under penalty of bombardment of all public buildings.

The reply made by the Turkish commander was that for each Turk killed he would hang an Englishman. In the end it was arranged that the blowing up of the two locomotives which had escaped the bombardment at Pajaz would settle the matter. The correspondent speaks of the locomotives as "culpable" but does not explain the reason why he uses this term.

Later in the day the Turkish commander sent word to the British cruiser that he could not find any dynamite for the blowing up of the locomotives. All dynamite had been sent to Damascus, he asserted. The commander of the British cruiser then offered to supply enough explosive for the destruction of the two locomotives.

While these negotiations were in progress a Turkish locomotive's engine hooked his engine to the party demolished, still mobile train, and this made off in the direction of Merzina. When the English heard of this they made the two locomotives in Alexandria useless and then steamed back to Pajaz. The late hour, to reach the train with their guns.

### RUSSIAN TRIBUTE PAID TO GERMAN ARTILLERYMEN

Stick To Their Guns in Face of Severe Fire Until All Have Been Killed

By Associated Press, Petrograd, Feb. 13.—Tribute is paid to the German artillerymen in an account of a minor incident during the fighting west of Warsaw.

"The Russians were on the defensive, with the Germans opening up a wide attack on their positions. A German battery of six guns was moved out into the open field to shell the Russian trenches.

"But those artillerymen had been given their orders, and their bravery was dauntless. The survivors, after a short interval, returned to their single remaining gun, and kept it going until another Russian shell laid it low."

THERE WAS A JAY VILLAGE on the Kerpene circuit whose municipal holdings consisted of a water tank, a ladies' aid society and a make-believe Chamber of Commerce with seven members including the section hands. The purpose of the latter organization was to put Chicago on the eternal blink and slide Kansas City into second place as a market for "Hawks." One day there showed up in city limits a wise looking gazabo with a face full of gladness, wearing two hundred dollars worth of tailoring and a blue steel shiner about the size of a walnut who represented large lumber interests. He interested the citizens in a saw mill right in town. He sold them beautiful stock with gold seals and got away with thirteen thousand dollars in real money. ### VALENTINE PARTY FOR EPWORTH LEAGUE FRIDAY

The hospitable home of Mr. and Mrs. T. B. Noble, 800 Burnett, was opened to the Epworth League of the M. E. Church, South, Friday evening, the occasion being in the nature of a Valentine social. The day of the lovers' patron saint furnished the idea for the decorations, the library, music room and dining room being affectively embellished with festoons of red hearts in varying sizes conveyed from the corners of the rooms to the center light fixtures. Tables were arranged for the games of forty-two and hearts and partners for the games were found in a highly original manner. Hearts were passed to the young ladies, from which a key had been cut, all of the keys varying in size and shape, while the young men were given the keys and told to find the girl whose heart they had the key to. Score was kept on red heart-shaped cards and a series of five or six games was played. Partners for supper were indicated on tiny red hearts passed to the young men and a refreshment course was served in the dining room, the heart motif of red being repeated in the cherry ice and individual heart cakes. In this manner a most delightful evening was passed by the young people, thanks to the efforts of the entertainment committee and of Mr. and Mrs. Noble and Dr. and Mrs. A. L. Andrews, who entered most heartily into the spirit of the occasion and removed any hint of formality that might have existed. Instrumental selections by Miss Virginia Andrews and others were much enjoyed. Those enjoying the evening's entertainment included Mr. and Mrs. T. B. Noble, acting host and hostess, Dr. and Mrs. Andrews, Misses Virginia Andrews, Nina Barwise, Iva Bullard, Kathleen Coffield, Mary Coffield, Ethel Pries, Rhea Gardner, Anna Belle King, Pauline Mears, Beryl Murph, Hazel Robson, Marie Shelton, Edith Statten, Willie Stafford, Leonard Vance, Helen Peterson, Ada Ridenhower, Maude Irwin, Carrie McClaren, Adah Anderson, Annetta Coffield, Tula Stokes, Florence Barrier, Messrs. Adickes provided a treat for both the members and guests; the program, a combination of Federation Day and the equal suffrage program being unusually interesting. Smyre; "Purposes and Results of General Federation," Mrs. D. C.

Whitney; "Woman and the International Peace Movement," Mrs. R. P. Watta. Mrs. Burnside also spoke briefly on the good derived from attendance on the Federation meetings. As a parting token the Circle presented Mrs. Richardson with a handsome floor pillow in Yeomen colors and emblem of the order. 78 SEPARATE WOUNDS RECEIVED BY ONE MAN

By Associated Press. Paris, Feb. 13.—The record of 78 wounds received by an army surgeon has been broken by Rene Vidal, reservist of Raincy. While in the trenches a shell exploded immediately behind him and the lower part of his body and limbs were riddled with shrapnel. From eight in the morning until evening he lay in the trench without even first aid. When he arrived at the auxiliary hospital a thorough examination showed traces of 78 separate and distinct wounds. His case was considered desperate as he had lost an extraordinary quantity of blood, but he is now able to get about on crutches.

NORTH TEXAS FRUIT CROP ENDANGERED BY WEATHER Trees Will Soon Be Budding, Making Loss Almost Certain When Cold Snaps Come. (Dallas Journal) The fruit crop in the vicinity of Dallas is in grave danger of complete destruction or very great damage, Dallas nurserymen declare that if the unusually warm weather of the last several days continues for another week fruit trees will put out their tender buds to be doomed when the cold snaps of March hit them. Dr. J. L. Cline, observer in charge of the United States weather bureau station at Dallas said that indications point to a continuation of warm weather. The comparative figures for the lowest temperature in March for the last twenty-two years as kept by Volunter Weather Observer Eisenhour, show that in eighteen out of twenty-two years Dallas has been visited by freezing weather in March. Judging the future by the past, March, 1915 will bring some temperature that would mean ruin to the luscious Elberta and the enticing Jonathan. The Lang Floral Company said: "A week more of this weather would make the fruit trees bud. We hope for a cold spell in time to save them. We really expect that there will be cold weather in the next few days, although we have lived a long time in Texas and we are not weather prophets. If the trees bud, they will be damaged by March frosts." The Brown-Dawson Company said: "A week more will bring out fruit tree buds. We are afraid that the crop will be ruined if we don't get some cold weather within the next few days. If buds stay like they are for a week and the cold comes, the crop will be saved." "The conditions now should make fruit growers prepare themselves with smudge pots for artificial heating of their orchards if the trees should bud within the next few days." "The peach and apricot trees are more likely to bud during this spell of warm weather than the apple and plum." The McKinney Nursery said: "A week or ten days more of this weather will bring out the fruit tree buds. We expect a cold snap any day and feel that we shall have some cold weather in plenty of time to save us. Warm rains would be very likely to bring out the buds. If we can get a cold spell to hold back the buds until March 5 to 10, the crop will be saved." Real Estate Transfers. F. F. Knotts to M. Staniforth, lots 17 and 18, block 106, Electra; \$1000. F. F. **TWO For A QUARTER**  
—Of One Hundred Dollars—  
*"There's A Reason"*

**TWO**  
Tailored Suits  
FOR  
**\$25.00**

Our Tailoring House, as is their custom, bought in advance of the season their stock of Woolens to supply a big demand; at the time of buying prospects were unusually bright for a large season's business; they bought woolens accordingly—unusually heavy.

### YOU KNOW THE REST

The unusual, even the normal demand failed to materialize. Conditions in our country of which you are well aware have not warranted the free spending of money; people have held back, they have been slow to buy, and prudently too—but now conditions are becoming better, farm products are selling more readily and for better prices—money is more plentiful.

### THEY MUST UNLOAD

The season is too far advanced for a large tailoring house to hope to close out an unusually large stock of woolens at normal prices.

### They Must Create An Unusual Demand

They must offer something unusual for your money. They do this by offering to tailor two suits to one measurement for only \$25.00. Think of two tailored suits, regular \$20 to \$25 suits for \$25. Think of it—\$12.50 a suit.

### HOW CAN THEY DO IT?

They require two suit orders for each measurement, though you may select different woolens for each suit; in doing this they save time of their cutters, who are extra-high priced men. Instead of having to cut two sets of patterns, then two sets of woolens and trimmings, the cutter cuts one set of patterns and two sets of woolens and trimmings at one cutting—a big labor-saving is made. They give us this saving; they give us the benefit of their earlier before-the-war quantity purchasing power; they give us the benefit of their loss in moving a large stock quickly.

### By Giving You Two Suits For the Price of One

We don't know what they make, or what they lose, but we know this is the BIGGEST TAILORED SUIT VALUE it has ever been our pleasure to offer. These suits are guaranteed all-wool, guaranteed to fit, and guaranteed to please, OR YOUR MONEY BACK. Sale lasts until these woolens are gone—no longer. Early buyers will get the best to select from—everybody will get their money's worth.

These Garments are Hand Tailored by Harry R. Clancey, Wholesale Specialty Tailors, Chicago.—You can order your suit now and take them out at your convenience. Only \$5.00 deposit required to send in with order.

## The Air of the Thoroughbred

Is ever present with the discriminating man or woman who wants things just right. The most appreciated customer in the world to us is the man or woman who knows when a thing is done right. Such customers recognize merit and appreciate effort. They are satisfied with nothing short of the best. Not so many years ago a man bought a suit of clothes and wore it out without cleaning or pressing it. This was not the man's fault, there were no cleaners and pressers then. Today cleaning fabrics and cleaning clothes are vocation—that require skill and experience. The perfect fitting garment that conforms to the curves and natural lines of the body must be pressed right or it is a misfit and brings reproach upon the judgment of the wearer and the ability of the maker when really it is the fault of a presser who does not know his business. We know the pressing game from A to Z and we know it for our customers benefit. We get the business because we know the game and we do not know anything about the cleaning and pressing business that we do not give our customers the benefit of. When you send your work to my shop you don't have to worry about it. You can rest assured that it will be a little better than you can get it done elsewhere and that it will be back in your home when you want it. We study our business and our service every day. We study these things to be able to give you more for your dollar than you expected. We have no competition. There are other shops but I am running mine and so far as my work and service is concerned it is the only one in the world. I want your dollar and I will get it if you will take a hundred cents worth of service for it.

### BULGARIA'S STORY ONE LONG STRUGGLE

OPRESSED BY TURKEY MORE THAN ANY OTHER BALKAN STATE

### BECOME INURED TO WARFARE

National Geographic Society Gives Out Interesting Sketch of This Young Country

Washington, Feb. 14.—The history of the Bulgarian nation has been that of a long and bitter struggle, and the Bulgars have become inured to trouble and at their best when confronted by such crisis as that which now seems to lie before them. Their whole life as a people has been a continuous succession of struggles against the odds, and in which they have never failed to show a sublime steadfastness and endurance, according to a study of this youngest of kingdoms prepared for the National Geographic Society by James D. Bourchier.

Bulgaria, probably more than any other Balkan land, this writer says, has felt the weight of Turkish misrule and oppression. It lies in the central part of the Balkan peninsula, near the reach of the great Turkish empire, under the yoke of the Turk, and embraces a rich agricultural country from which the Ottoman overlords have drawn heavy returns. Due to this value of its soils and to its handy position, Bulgaria has been held more firmly under the yoke of the Turk than any other Christian nation in this ill-fated territory.

The Bulgarians were the last to recover from the Turkish oblivion into which they had been sunk for hundreds of years by their Asiatic conquerors. Mr. Bourchier continues, and in their efforts to find political freedom and union for their race, they have found themselves not only confronted by the power of Islam, but with the hostility of all surrounding states. During the years of their writings under Turkish heel, the Greeks added religious oppression and economic oppressions to the efforts of the Turks. Russia has repeatedly loomed threatening on their horizon while Roumania and Servia—both earlier free of the Islamic domination—have added to the persistent little nation's troubles.

Out of their centuries of suffering and dogged efforts the Bulgarians have developed a fine determination, a heroic love of race and country which shows no limit of individual sacrifice in its behalf. They have, tactically, they have shrewdness, and they have a familiarity with desperate situations, which, if it has not bred contempt, at least has bred a courage for whatever trouble Fate may have in store.

It was not until 1885 that Eastern Roumelia, revolted under Turkish rule and united with Northern Bulgaria as an independent kingdom. Thirty years passed after the Bulgarian war for independence before their freedom was officially recognized in Europe. Virile, laborious, thrifty, courageous and anxious for progress, the Bulgarians dream for their little country, and today, as ever, their immediate future seems to be beset by all manner of difficulties.

### ENGLISHMAN MAKES SAFE JOURNEY INTO AUSTRIA

By Associated Press. That it is not impossible for English people to make their way through Germany and Austria is shown by the return to London of Mr. and Mrs. A. L. Lantay after a business trip to Vienna. Mr. Lantay had important business interests in Austria, which two months after the war began, demanded his presence in Vienna. He made the trip so often in times of peace that he scoffed at his friends' warnings of the likelihood of imprisonment and possible death as a spy. He took his wife with him, and proceeded in his accustomed manner across Germany. They were not molested and remained in Vienna nearly three months, making no particular effort to conceal themselves. Their return was made by another route, but was accomplished without accident. Mrs. Lantay thus described her adventures:

"Of course we did not report ourselves, but simply lived in Vienna. We would have got into trouble, no doubt, if the authorities had known the circumstances, but my husband, being of Austrian parentage, although a naturalized Englishman, was able to carry things through."  
"It is really remarkable the kindness with which English people are treated in Vienna. In the shops, I found it possible to do my trading in English, which almost all the attendants speak fluently. The feeling among the people whom I met seemed to be friendly toward the English and an English lady who is teaching in the schools told me that she notices no diminution in the number of pupils studying the English language."  
"Within the past two or three weeks, the military authorities in Vienna have begun to tighten the restrictions surrounding aliens. At present, I believe, no alien enemy is allowed to go out after 3 o'clock in the evening; they are not allowed to enter theatres and coffee houses and violations of the alien enemy restrictions are punishable with a fine of \$400."  
"Vienna has begun to feel the pressure of the war very severely. The city is one huge hospital and in many sections the children cannot go to school because the buildings are required for hospital purposes. The

### TREASURY DEPARTMENT WASHINGTON

COMPTROLLER OF THE CURRENCY

January 28th, 1915.

To the Board of Directors.

Gentlemen:

The granting by some banks of accommodations in the form of OVERDRAFTS is objectionable and cannot be countenanced by this office.

This practice should cease entirely. To facilitate the accomplishment of this result, the subject has been taken up by this office with the banking departments of various states, and these authorities have generally agreed to take the necessary action to secure the effective cooperation of State banks in attaining the end desired.

You are requested to adopt a resolution directing that no officer or employee of your bank shall pay or charge to the account of any depositor any check of such depositor when there are not sufficient funds on deposit to the credit of the drawer of the check.

Please forward a certified copy of the resolution to this office as soon as it has been adopted. Let the resolution show the names of the directors present at the meeting.

Please acknowledge receipt without delay.

Respectfully,

JNO. SKELTON WILLIAMS,  
Comptroller.

The above is an exact copy of letter received from the Comptroller of the Currency. We are going to be required by our respective Banking Departments to live up to this policy and we are going to ask our customers to help us fulfill the above requirements by keeping track of their Bank account, and not issuing checks until they have the funds on deposit to pay same, as we will be compelled to refuse to pay overdrafts.

It is embarrassing to your Banker to have to return checks. However, we feel that we cannot do otherwise unless you have funds on deposit with which to pay your checks.  
This will be effective March 1st, 1915.

university buildings and the Parliament house are also being used for hospitals. In the streets one sees hardly anything but wounded soldiers and civilians in mourning.  
"The prices of everyday commodities are rising rapidly and the supply is being so safeguarded that it is impossible to obtain any more than a supply for a day or two. The big loaf of bread which used to be sold for a cent or two has dwindled in size until it is barely three inches around, and the price is four cents. Meat is very expensive and petroleum is six cents for a half-pint. Dress materials, which Vienna used to obtain mostly from London are scarcely obtainable at any price."  
"The town is full of small pox, and long lines of people are seen waiting outside the public physicians' offices for vaccination. The scarcity of men laborers is being met by the use of women and cripples for such work as street cleaning and house building. A short time ago there was a heavy fall of snow which blocked the streets; a large force of women was employed to pile it up and clear a path for wagons along the principal thoroughfares. There are many women earning good wages as carpenters."

## NEW BILL OPENS AT LYDIA MARGARET MONDAY

The Lydia Margaret has a splendid program for Monday, both in pictures and the vaudeville bill. A beautiful Rex two part drama "Star of the Sea" is the feature offering with an L-Ko comedy, "Through a Knot Hole" as the laugh to finish the program. The new acts are Grace and Jean Forrest, in a musical and dancing act and "The Fashion Plate Girls" Pearl and Irene Sans. A notice says: "Pearl and Irene Sans call their act, 'The Fashion Plate Girls' which title is attractive and appropriate, and the act likewise. The rising curtain discloses an open fashion book with at least two of the figures on the page living models, who step down as the lights go up. This most unusual offering will be seen at the Lydia Margaret the first half of this week. These two girls sing a number of songs and change their costumes. They carry another act, a water-scape, which is also new and attractive and close their offering with the fashion book scene, which will leave happy thoughts in the vaudeville line. Their costumes are stunning in every sense of the word and the wearers are in harmony with the same; the younger of the two women resembles the daughter of President Wilson a great deal. To miss this offering would be to make a mistake."

## LILLIAN RUSSELL AT THE EMPRESS THEATER WEDNESDAY

Lillian Russell, for a quarter of a century the most famous beauty of two continents, has now returned to the field of motion pictures with the World Film Corporation, and will be seen in "Wildfire," a play that she long ago made famous, at the Empress Theater next Wednesday. For years Miss Russell has conducted beauty columns in a number of the daily papers telling how to retain youthful beauty even at an advanced age, and those who have seen the picture state that she has taken her own advice. A synopsis of the great racing story, "Wildfire," is as follows:

Bob Barrington conducts a racing stable on Long Island. Through the knowledge of his daughter, Henrietta and Myrtle, Barrington is traveling in the west and meets John Keefe, a gambler. They play cards alone and Keefe kills Barrington and steals the bill of sale to his racing stable, leaving a sheet of the inventory on the floor, together with a curious cigarette holder. John Garrison, the sheriff, gives a verdict of suicide. Gorman, a pal of Keefe's, is the only person who knows the truth.

Keefe comes east and claims the stable, but Matt Donovan, the trainer, suspects foul play. Keefe changes his name to Duffy and becomes infatuated with Henrietta. John Garrison comes east and sees Henrietta and thinks he recognizes in her a striking resemblance to the picture found in the watch of the dead man. Keefe and Garrison meet at the home of Henrietta. Keefe denies his identity, but betrays himself. Garrison sends word for the watch and for the missing sheet of the bill of sale. He loses the watch and it is found by a street beggar and pawned. Henrietta is attracted by it in the pawn shop window and buys it. She overhears Keefe tell Donovan that he bought the stable of her father and confronts him with the watch and picture. While playing tennis with Henrietta the missing sheet of the bill of sale falls from the pocket of Garrison and she finds it and the mystery deepens. She overhears a conversation between Keefe and Gorman and finds the complete bill of sale and compares it with the missing sheet.

Ralph Woodhurst, the fiancé of Myrtle, has been induced by Keefe to bet large sums at his pool room. The day of the big handicap is approaching and "Wildfire," in the Keefe stable, is being backed to win. Keefe sends Donovan to rob Henrietta of the missing sheet, but fails. Henrietta on the day of the big race, seeks out John Garrison, and accuses him of being in

collusion with Keefe or Duffy. She shows Garrison her proofs. Keefe realizes that he must flee the country. He backs another horse to win. Chippy Raster, the rider of Wildfire, to use the whip on the mare to cause her to sulk. Henrietta overhears the plot and goes to the office where she has a terrible struggle with Keefe. She succeeds in pulling down Henrietta in the arms of her lover, Wildfire having won the race.

## "THE PRICE OF SILENCE" AT THE GEM MONDAY

Tom Plank, owner of a manufacturing plant—Guy Coombs. Barbara Ragan, a factory hand—Alice Joyce. John Ragan, her father—James B. Ross. Bill Leets, Barbara's sweetheart—Jere Austin. Trouble fostered by Bill Leets, in the secret employ of a business rival, results in a strike which ruins Tom Plank, head of an industrial plant. Upon learning that the boy has lost his wealth, Clara, his fiancée, returns his ring. Leets loves Barbara Ragan. Before the crash, Tom had become interested in the girl. Shortly afterward, the girl's father encounters Hegel, formerly the factory foreman. Deadly hatred exists between the two. Tom, who chafes to pass, sees Ragan slay his foe. Tom follows the murderer home. Knowledge that his crime is known fills the old man with terror. Tom then learns that Barbara is Leets's sweetheart. Believing the girl to have had a hand in bringing about his ruin, he announces that the price of his silence is that Barbara wed him and share the poverty she had brought upon him. Although Leets is frantic, Barbara, to save her father, consents. Husband and wife live in sullen silence, although each secretly grows to love the other. Fortune smiles upon Tom and he regains his former wealth. Shortly afterward, Barbara's father is killed in an explosion. Tom's hold upon her is thus removed. Leets believes that Barbara still loves him. The man boldly enters the Plank mansion while Tom is giving a dinner to some friends. Believing that her husband hates her, Barbara announces her intention of departing with Leets. Just as she is about to leave the house the enormity of the offense dawns upon the wife and she shrinks back to her room, where she finds Tom with head buried in his arms. Then, for the first time the two realize the depths of each other's love.

## "MASTER KEY" NO. 6 AT THE MAJESTIC WEDNESDAY

In the filming of the latest installment of "The Master Key" John Fleming Wilson, the author of the series, and Robert Leonard, the producing director, encountered much opposition from the San Francisco Chinese, who feared that white slave investigators were about to take pictures of Chinatown resorts for use in a campaign to secure the expulsion of the colony. When the Rex Company arrived in San Francisco from the Hollywood studios they made their way to Chinatown and started work. Almost immediately scores of Chinese gathered about the camera operators and actors. None of them offered the slightest opposition to Director Leonard, but all steadily gathered closer and closer until it was impossible for the cameramen to film the scenes. It was finally discovered, through an interpreter, that the Chinese had organized to prevent any pictures of their colony being taken. It developed that a short time before a moving picture company had "shot" a number of scenes in Chinatown which were afterward used in films dealing with the white slave traffic. Following the exhibition of the film the police had become unusually and annoyingly active in Chinatown. Leonard was advised to see the

# AUTOMOBILE GOSSIP

The above is a portion of a fleet of Maxwell Cars used by the Motor Transport Corps of the British Army at Beaufort during the recent rebellion under the label DeWet. This fleet played a most important part in the suppression of the rebellion, the fighting of which took place in the rougher section of South Africa under British rule. No harder work was ever attempted by pleasure cars, especially as most of the country over which they traveled was without roads. The cars covered over 100,000 miles and were in constant use. The pictures given were testimony. The wonderful way that the Maxwell cars went through the entire campaign without trouble of any nature showed their durability and power and the high praise of the Corp drivers is still the talk throughout South Africa.

The big green car which attracted so much attention on the streets here last week belongs to Dr. LeGear of Austin, a manufacturer of stock foods. He does almost all of his traveling in this machine, which is a National roadster. It was designed by the doctor himself to suit his own particular needs and was built by the National company as a special order.

Local automobile owners are taking advantage of the recent cut in tire prices, the quotations being now lower than for many months past. When the European war started one of the big tire companies laid in an immense supply of rubber from South America, fearing that the war would cut off the supply. The war has not interfered with South American trade and as a result rubber may be secured from Brazil in large quantities. To dispose of the large stock on hand the company in question put its prices down and other companies followed suit. The cut not only takes away the advance which was announced when the war started, amounting to about 50 per cent, but even goes under the old prices.

The first air-cooling Franklin has made its appearance in this city, being now the property of P. S. Tullis. The machine is conspicuous for the shape of its hood, which has a decided slope to the front. No water is required for keeping the engine cool, the cooling system consisting of a number of small fans which play on all parts that tend to get hot. The car is said to be very popular in the north where extremely cold weather makes it troublesome to keep water in the machine.

The first shipment of the new Dodge car is expected within a few weeks.

In the interim, Sing Wah escapes with Ruth from the cylindrical trap room and takes her down to the bay. Dore and the police return quickly and raid the opium den. Drake evades the police and returns to the lodging house, where he reports his failure to secure the papers. Dore and the detective are trapped in the cylindrical room by a Chinese woman, who pulls a trap and drops them into the water underneath the den. They swim to a rowboat and thus pass through the underground canal into the bay. They come upon Sing Wah with Ruth and an exciting chase follows ending with the rescue of Ruth.

## UNCEASING MISERY

Get Little Rest or Comfort There is little sleep, little rest, little peace for many a sufferer from kidney trouble. Life is one continual round of pain. You can't rest at night when there's kidney backache. You suffer twinges and "stabs" of pain, annoying urinary disorders, lameness and nervousness. You can't be comfortable at work with darting pains and blinding dizzy spells. Neglect these ailments and serious trouble may follow. Begin using Doan's Kidney Pills at the first sign of disorder. Thousands have testified to their merit. C. N. Harrison, 1925 Eighth street, Wichita Falls, Texas, says: "About two years ago I had great trouble from my kidneys. Doan's Kidney Pills had been used in my father's family and proved reliable for removing kidney annoyances, so I used them. They removed the lameness across my back and other troubles, caused by my kidneys." Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same as Mr. Harrison had. Foster-Milburn Co., Props., Buffalo, N. Y. (Adv.)

## MOTOR LABORATORY IS PART OF ARMY EQUIPMENT

London, Feb. 13—England has just put into the field a scientific novelty—a motor bacteriological laboratory, fully equipped the gift of a wealthy man who wishes to remain anonymous. In a few days the car and equipment will be taken to the front in France, where, in charge of a medical officer, it is to be the headquarters for advanced experiments and tests relative to the many contagious and infectious diseases to which troops always are subject. A motorcycle attached to the outfit will make trips to and from the trenches and hospitals, bringing back to the laboratory cultures for examination.

## The Outline That Does Not Affect The Head

Because of its tonic and invigorating effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness or tingling in head. Remember the full name and look for the signature of Dr. W. GEORGE, M.D.
