EMPHATIC NOTE TO CARRANZA

NOTICE SERVED BY WILSON **CONDITIONS MUST**

Situation Considered Most Serious Since Marines Were Landed At Vera Cruz

ANOTHER CRUISER SENT TO MEXICAN WATERS

Note Does Not Threaten Force But Points Out Possible Consequences If Conditions Conti ue

By Associated Press.

Washington, March 8.—New and urgent repre- sellor Lansing of the state depart sentations anounting to practically warning have been sent by the United States to General Carranza demanding an improvement of conditions in Mexico City. Diplomats familiar with the contents of the note which American Consul Silliman has been instructed to present to Carranza, interpret it as an entire change of policy on the part of the Washington government toward the soon as the safe is approved by the Mexican government.

The communication to Carranza, drafted after waterworks system since the rains conferences between President Wilson, Secretary, 1 usted to completion in a short time. Bryan and Counsellor Lansing was guarded with **secrecy pending** some word from Carranza as to his attitude. It was said by some officials to con- brick buildings will be erected here tain the strongest representations ever made to Carranza and indicates that the American gov ernment is rapidly losing patience with his indifference to the objectionable actions of General Obregon at Mexico City.

Those who know the contents of the communication said it did not threaten force and was not in the nature of an ultimatum, but pointed out in explicit language the serious consequences that FLAMES AGAIN THREATER might follow if the welfare of foreigners continued to be disregarded.

Early in the day Secretary Daniels said no additions were contemplated to the fleet in Mexican Inventor Discovers Fire and Gives waters but later it was learned that the cruiser Tacoma had been ordered from Port au Prince Br. Associated Press Haiti to Vera Cruz. Secretary Daniels was in consultation later with Secretary Bryan concerning the situation. Further movements of vessels may **be decided upon.** In diplomatic quarters there were more manifestations of concern over the Mexican situation than at any time since the American forces were landed at Vera Cruz.

READY FOR EVENTUALITIES. The foreign diplomats conferred among themselves and communicated to one another the latest developments as they heard them. Some of the diplomats declared themselves satisfied that the course of the American government would produce results. One of the ministers who had received word that the diplomatic corps would leave Mexico City, cabled his tegation there saying that after learning what serious steps the Am erican government had taken, he advised the corps to remain in the capi tal and await developments.

Just what move is contemplated now is known only to President Wil son and a few of his closest advisers but it was apparent from the attitude of officials that it was realized a now crisis was at hand which must be met with strong measures. The gen eral impression in official quarters was that even though the use of force had not been threatened the American government was prepared to meet eventualities and would here after pursue an insistent course to compel protection for foreigners and their interests.

CARRANZA AND OBREGON Secretary Bryan would say only tha conditions at Mexico City had no changed from their serious status of the last few days. He said no word had come directly from Carranza in the last two or three days. When asked whether Carranza and Obre gon were at odds and whether the former would control his Mexico City commander, Secretary Bryan replied that the state department had evi

denced that Obregon recognized Caranza as his superior officer, but ould not say definitely whether any riction had developed.

Secretary Bryan stated that the lacing of an embargo on all shipnents of munitions of war to Mexico ity had not been considered in the cresent situation. Scarcity of war nunttions, it is believed here, already one not touched by the conflagrawhite his forces have been making tion which nearly wined out the Edimore headway, according to official eports, than those of Carranza, a ossibility that neither faction will e able to gain a complete victory and that the situation will remain teadlocked indefinitely is known to ave influenced the administration to

The plight of Americans, however, as been an increasing concern for here are more citizens of the Unitd States in Mexico City than of any ther country. Obregon's repudiation f Villa's currency worked the first lardship because it made realthy folks penniless.

The poor rioted, clamoring for bread and Obregon, on published ar

or permission to undertake the tition to the state department described as of a most sensational character; Secretary Bryan constantly has declined to make it public, although apprised that the object of the com mittee in sending it was to give the statement publicity in the United States. Mr. Bryan believes that while the American government is bringing strong pressure to bear on Carranza not assist the plight of fo eigners in Mexico City if the state ment is published.

The petition is believed to have been one of the factors that influenced the Washington government to send its note of warning to Cafranza. although dispatches from the Brazil ian minister and other diplomath representatives at Mexico City have brought advices of a similar nature order to give his entire time to consideration of European and Mex ican questions, President Wilson wil see White House callers only for an hour Wednesday and Thursday dur ing the spring and summer. He wil be in almost constant communication with Secretary Bryan and Cour

BIG BATTLE IN EAST NEAR WARSAW IS BEING FOUGHT

Allies' Attack On Dardanelles Having Its Political Effect On Conditions In Near East

By Associated Press.

London, March 8.—The center of interest on the eastern front again has been shifted with the announcement from Petrograd that a great battle is developing on the left bank of the Vistula at a point west and also southwest of Warsaw. It is not yet clear, judging from messages reaching London, which side has taken the offensive but inspired sources both in Berlin and Petrograd have been hinting lately that vital operations might well be expected in this region.

Messages from the Russian capital have declared that the old field of action in the direction of Posen and Silesia alone could serve as the decisive battle ground, while Berlin has been predicting another briliant action in the direction of Warsaw by Field Marshal Von Hindenberg.

No great activity has been reported elsewhere on the eastern fronts except at Rawa to southwest of Warsaw where German army headquarters claim the capture of 3400 Russians. It is possible that this action may be a part of the great battle which Petrograd says is now under way.

Attacks and counter attacks have taken place as indicated from the text of both the Berlin and Paris official communications covering events on the western battlefront, but there is no indication of a decisive gain by either side Attempts by the allied fleet to force passage of the Dardanelles as caused a ferment in the near east which has reached the portion of a cabinet crisis in Greece.

No new cabinet has as yet been announced and King Constantine may have great difficulty forming a government with the popular former Premier Venizelos leading the opposition. There is no later news of the situation at the Dardanelles and the British public is awaiting with keen interest the next step in the business like operations marking the work of the storming fleet.

INTERVENTION BY GREECE NEAR, SOME CORRESPONDENTS BELIEVE

Rome, March 8.—Dispatch to Italian newspapers from Athens describe the situation in Greece as grave. Some correspondents think the present deadlock between King Constantine and many of his advisers regarding the country's intervention in the war is the result of antagonism which had arisen between the ruler and Premier Venizelos, in the cabinet which resigned Saturday, after its declaration in favor of joining the allies was frowned upon by the king.

Other correspondents think the intervention of Greece on the side of the allies already has been agreed upon and that the crisis now apparent is artificial having been arranged to make it easier for King Constantine to decide against Germany. to which he has felt under some obligations for family and political reasons.

In short it is the single tax upon land!

It is called the "Houston plan. Evidently this is not the "Houston plan" for under that plan improvements and buildings are taxed. No doubt the distinguished single tax advocate, Mr. Pastoriss, would be delighted to ex-tend the "Houston plan" to the single

The members of the legislature were elected by the Democratic party as Democrats. It will be interesting to watch developments just to see how many Democrats will vote for the sinrie tax theory as against the existing principle of equality and uniformity in taxation. The Statesman has diagnosed the

case quite accurately. The proponents of the measure, led by Mr. Pastoriza, have sought make the legislators believe that it is intended only to legalize what is snown as the 'Houston plan' of taxa-"flon, so that cities having special charters can by local option adopt the said

If niembers of the legislature will examine the amendment closely, they mest come to the same conclusion as that already reached by the Post, towit: That this is the initial movement looking to the inauguration in Texas -the entering wedge, so to speak-of the single tax doctrine of taxation. Effects of Change. Many men decide to do better and set about it to reform. The best way is to place the life in the hands of God and let him reform it. A man usually has a very tough time reforming himself but with the belp of God he can make a success of it. When one is changed old things pass away. he can make a success of it. When, one is changed old things pass away and all things become new. The worldly man wonders how he can enjoy a prayer-meeting. Rest assured that when tool changes a man he will enjoy a prayer-meeting more than a gambling table or pool hall or a saloon. His tastes will be different. He may be surprised but it will be so. I am inclined to think that the live Christian will enjoy a prayer. live Christian will enjoy a prayer-meeting better than a moving picture siow. I do not know how it would work as a test but usually we do the thing we most want to do, so if we pass by the prayer-meeting and go to some show or something of that sort we will most likely prove that we like the other place the better. Saul was at home among the religious though he had not thought he could be. The changed life puts God first. I Saul was changed in capacity. He was enlarged in life. From the narrowness of ed in life. From the narrowness of his youth, with home cares he turned to larger issues. From seeking his father's drove of straying asses he turned to seek the welfare of the people. We need to be changed by the power of God in this same way. We need to have our circle of interest broadened from the narrow confine of self to the borders of humanity. The life transformed under God will be a broad life. There will be room for somebody else in the life. There is no room for selfishness where God is. The Godfilled soul is a large soul. It can take in all humanity.

It can take in all humanity.

EXCUSES

Never pay dividends, neither do they mark the graves, or beautify your cemetery plots. Some are droning on the good folks of this town who take pride in trying to beautify our sacred burial grounds.

towards which all are drifting.

Is that excuse you made last year still on your lips? Have you forgotten that promise you made to a loved one? Has time brushed away the tears, and with it the dear sweet remembrance of those who loved you? Humanity is careless, and prone to err. but there is no excuse for you to not remember them with a suitable memorial. It is the least and last thing one can do. Let us help you and thus give lasting satisfaction.
