SLOW PROGRESS GETTING JURORS FOR FRY TRIAL

SEVEN ACCEPTED AT 3 P. M. TODAY

SECOND VENUE OF 100 TALES- MEN ON HAND THIS AFTERNOON

MAY NEED THIRD VENUE

Second Special Venues Half Through With Five Jurors Yet to be Secured

It's a long, long way to get a jury in the Fry et al. case. At 3 o'clock this afternoon seven had been accepted by both sides and the court was well into the second venire of 100 men which was ordered summoned late yesterday after the first panel was exhausted, only five jurors being secured from it.

Jurors chosen this afternoon were W. L. Price, who is employed at the Denver round house here, and C. V. Regadale, a farmer residing east of the city. Late yesterday E. M. James, a farmer residing near Cashin and D. C. Holcomb, a grocer at Iowa Park were accepted. Previous to that time H. Beascham, public weigher at Burk Burnett; Robert Dutton, hardware dealer at Burk Burnett and J. M. Shaw, a farmer living in the northern part of the county, had been accepted.

When the first venire was exhausted, another was ordered, returnable at 1:30 this afternoon. The sheriff's department got busy and had slightly more than the required number on hand. There was no session of the court this morning.

Twenty-one Excused. Practically all of the 100 special talesmen summoned to their names, and presented excuses which were held valid; most of these had already done sufficient service in the past six months. Those excused were C. Elliott, George Ruffner, Doc Guthrie, F. C. Wolfe, E. L. Noey, C. M. Dodgen, C. D. W. Richardson, J. F. Warr, Dr. A. Allen, G. R. Kelly, Lee Prescott, D. W. Richards, J. F. Warren, W. L. Cowlen, H. R. Whitaker, E. V. Friberg, J. L. Hunter, R. C. Priebe, S. L. Williams and W. P. Wyatt.

Fines of \$25 were ordered assessed against J. G. Burrus and J. B. Parker, absent veniremen. The examination of the talesmen proceeded as follows: J. B. Parker opposed to death penalty, excused. H. C. Fitzgerald opposed to death penalty, excused. H. A. Fine accepted by the State but challenged by defense for Pete Fry.

W. L. Price was accepted by both sides. He is employed at the Denver round house, and is unmarried. Charles Word opposed to death penalty, excused. G. J. Bohatsch accepted by State, challenged by defense for Pete Fry. G. V. Regadale was accepted by defense on account of an opinion of C. V. Regadale was accepted by both sides; he is a farmer living just east of town and has a family. H. H. Presley challenged by the State. L. D. Oehrman challenged by the State.

First Venire Exhausted. When the court adjourned at 3:45 Wednesday the special venire had been exhausted, with only five jurors accepted by both sides. A total of 28 veniremen declared themselves opposed to the death penalty; the unusually large number was in part due to the fact that while the veniremen were waiting in their room, they engaged in a lively informal discussion of the subject of the death penalty, as one of them admitted on the stand. Judge Nicholson decided to order another special venire of 100 members and at first fixed Friday morning as the return date, but it was suggested that enough could be reached this morning to allow the attorneys to resume examination of the talesmen this afternoon, consequently the earlier hour was fixed. Sheriff Hawkins and Deputies Jeraigan and McFall were sworn to serve the talesmen.

When court reconvened after a brief recess at 3 o'clock Wednesday afternoon, W. S. Denton was the first talesman examined. He was opposed to the death penalty and was excused. W. W. Graham, a lumber dealer of Burk Burnett was accepted by the State, but the defense used one of its challenges against him. R. L. Gebhart was challenged for cause, as was J. A. Grady. R. C. Giehrst was challenged for cause when he said he had an opinion; the challenge was sustained. W. A. Martin was accepted by the State but challenged by the defense for Pete Fry. E. M. James of six miles north of this city was accepted by both sides. He is an Odd Fellow, a W. O. W. and a Methodist and has a family.

MORE THAN HUNDRED DOCTORS EXPECTED

AUTO RIDE AND BANQUET

Will Be Features of Entertainment Program For Two Days Session Announced

The Northwest Texas Medical Association will convene in this city on next Tuesday and Wednesday, the 13th and 14th, and preparation is being made for their entertainment. The meetings will be held in the Moose Hall on Ohio avenue, and while the program arranged will consume much of the time, the visiting doctors will, nevertheless, be provided with some entertainment. They will be taken for a drive Tuesday at 6 p. m., visiting the principal points of interest in the city and the lake, after which a light banquet will be served, to be followed with a vaudeville program with a number of novel features. About 100 physicians are expected to attend the meeting.

The session will open Tuesday morning at 10 o'clock with invocation by Rev. F. T. Dutton. Mayor Britain will welcome the visitors to the city and Dr. Joe E. Daniel will deliver the address of welcome on behalf of the Wichita County Medical Association. Dr. H. F. Leach, president of the Northwest Texas Medical Association will respond. Following is the program:

Section on Surgery—Dr. J. T. Lawson, Bowie, chairman; Dr. C. B. Gann, Graham, secretary. 1 p. m. to 6 p. m. Chairman's address—"Surgical Treatment of Hemorrhoids." "The Cystoscope and Why It Should Be Used More by the General Practitioner"—Dr. A. I. Folsom, Dallas. "The Modern Treatment of Gonorrhea and Dislocation of the Hip"—Dr. J. E. Davis, Dallas. "Pre-Operative Diagnosis"—Dr. C. O. Harper, Fort Worth. "A Plea for an Early Diagnosis and Surgical Treatment for Infected Gall Bladder"—Dr. Wade H. Walker, Wichita Falls. ELEVEN LABOR MEASURES ADOPTED BY LEGISLATURE By Associated Press. Austin, Texas, April 8.—Eleven measures advocated by the labor interests of Texas in the Thirty-fourth legislature were enacted into laws, which is a record, never before surpassed, according to T. C. Jennings, chairman of the legislative committee of the Texas Federation of Labor. These bills were: Twice-a-month pay bill, the compulsory education law, the mechanics' lien law, a bill extending the scope of the inspector of masonry, the Texas hook bill, the \$4 hour law for woman workers, the so-called loan shark bill, local option free text book bill, a bill regulating state employment agencies, the fire escape law, and a bill requiring mine operators and owners to equip the entrance of mines with bathing facilities for miners. Two bills important to labor which failed of passage were the full crew bill and the car shed bill.

CREW OF EITEL GIVEN FREEDOM OF NORFOLK By Associated Press. Denton, Texas, April 8.—Secretary Daniels today ordered Admiralty Board to take charge of the interned Prinz Eitel Freidrich. To what extent the vessel will be dismantled is not yet known but it is probable that only the breech locks of the guns will be removed and the connecting rods of her engines detached. Her crew will be given the freedom of Norfolk and later the officers at least, will be given unrestricted liberty on their promise not to violate the neutrality of the United States.

B. R. GREENLEE CASE DOCKETED AT DENTON By Associated Press. Denton, Texas, April 8.—The case of the State of Texas versus B. R. Greenlee, indicted in connection with the fatal stabbing of Tom Pippin, near here last September, was docketed for trial in the sixteenth district court here today. Defendant is a pioneer citizen of Denton and has been at liberty under \$2,000 bond. A venire of 100 men has been summoned as prospective jurors.

Saul Lebenon has purchased the stock of the Strange-White Shoe Co. and the store is closed to inventory. As soon as this is completed Mr. Lebenon will continue the business at the same location until the goods are disposed of.

RUSSIAN DRIVE WEDGE BETWEEN AUSTRIAN ARMIES

RUSSIANS CLAIM VICTORY AT SMOLNIK CUTTING AUSTRIAN FORCES IN TWO PARTS

PROHIBITION ORDER DELAYED

English Cabinet Falls to Reach Decision and Question Left to Parliament

By Associated Press. Petrograd, April 8.—Russian official statement: "The advance of the Russians in the Carpathians has cut the Austrian army under Gen. Borsodikt in two places. The eastern wing of this army is in a precarious position. The Russian took Smolnik east of the Lubkov Pass. The Russians also have thrown back the Austrian force at Bartseld. In the district of Lubkov, having advanced through the Rostock Pass, the Russian army has wedged between the Austrian armies. Smolnik controls the only road through the Beskid mountains between Mezslaboroz and Uesok, a distance of 60 miles.

The western wing of the Austrian army has its base at Uesok and its communications along the roads opening into Hungary are not menaced. The eastern wing to the contrary is joined with the forces operating around Uesok by which they are threatened with attack. It is regarded as likely that these Austrian troops will be compelled to retreat and attempt to reach other Austrian forces located at Numacks or else accept battle at Uesok handicapped by lack of roads. In either case they are likely to be cut off entirely from the forces under General Bourvetch and his German reinforcements. The Russians have crossed the crest of the Beskid mountains and apparently have a clear road to the plains of Hungary.

By Associated Press. The cabinet meeting came to no decision on the drink question no settlement is in sight until the convening of Parliament next week. The impression is growing that the government will content itself with bringing in a measure prohibiting the sale of intoxicants instead of total prohibition. Even prohibition in the traffic of liquors is not likely to be adopted. Opposition to the suppression of the use of spirits is in some degree sectional, Scotland consuming three times proportionately as much as England and half as much as Ireland. The vested interests are united in opposition to prohibition and are believed to have sufficient strength to defeat any proposal to total prohibition.

IN THE CARPATHIANS. The fighting in the Carpathians is proceeding bitterly and both sides are claiming the advantage, but it is evident that the Austrians have been unable to make effective a counter stroke from Bukovina and therefore their hope must again center on the Germans who may be able to attack the Russians and drive them out of Hungary as they did on the first invasion. This time, however, the Russian forces are in much greater numbers and are strongly entrenched in strategic positions in the Carpathians, from which they can be driven only with great losses to the forces attacking them.

Petrograd reports that the Russian troops are pushing forward rapidly and that the road to the plains of Hungary lies open. According to Petrograd the Russians have been successful at Smolnik east of the Lubkov Pass and have driven a wedge between the western and the eastern wings of the Austrian army placing the eastern wing in a precarious situation.

ITALY'S DELAY. Advice from Rome indicates that even should Italy enter the war she would not strike for some time. It is believed there that the nations now at war will not enter into decisive campaigns until early in the summer, which would allow Italy a considerable interval in which to decide upon her course while gathering strength in the meantime.

A Rome newspaper estimates the losses of men of all the combatants during the first six months of fighting at 5,400,000. The cost of the war in the same period is estimated at \$8,400,000,000.

W. O. W. CAMP 3001 FOR PROPOSED CONSOLIDATION Vote Taken and Committee Named To Arrange Details With Camp 456 At a largely attended meeting of W. O. W. Camp, No. 3001, held last evening, it was decided by a practically unanimous vote to consolidate with Camp No. 456, which organization was represented at the meeting by a committee composed of J. L. McConkey, T. F. Hunter and S. T. Taylor. The plan was presented to the meeting by Mr. McConkey and after some discussion a favorable vote was taken. The following committee was appointed to confer with the committee from Camp No. 456 in arranging the details of the consolidation: E. E. Stinson, E. L. Noey and O. W. Hines. The two committees will consider such matters as will be of interest to both organizations and outline a plan of action in formally perfecting the arrangements. It is expected that the details of the consolidation will be ready to report within a week or ten days, when the two camps will be merged into one with a combined membership of about 425. The two groves representing the ladies' auxiliaries of the order, also planning a consolidation, which is understood to be favorable, which will be ready to report within a week or ten days, when the two camps will be merged into one with a combined membership of about 425. GENERAL PAU BELIEVES ALLIES WILL FORCE STRAITS By Associated Press. Naples, April 8.—General Paul of the French army who has been on a trip to Russia for a conference with Russian military authorities has arrived here on his way to Rome and Paris, when asked by an interviewer whether it were true that Russia, Serbia and Montenegro were planning a fierce simultaneous attack to crush the German and Austrian forces refused to make an answer. Referring, however, to the Dardanelles attack he expressed the belief that the Anglo-French fleet would force a passage as soon as preparations for a combined land and water attack were completed.

By Associated Press. London, April 8.—The Belgian legation has received a telegram from the Belgian minister of war dated yesterday which reads: "The western side of the Yser Canal in the direction of Gregrachen has been completely freed of the enemy by Belgian troops. The Germans fled in disorder leaving behind them machine guns and ammunition. Today passed off quietly, the hostile artillery being silent."

By Associated Press. Berlin, April 8.—The Berlin newspapers are unanimous in declaring the fact that the British Admiralty has not yet made public the details of the sinking of the submarine U-29 is very suspicious. The Tages-Zeitung says that although the British made their first report March 28 nothing has been given out as to the time, place or manner of the event and declares a belief that this is so because the methods employed in the destruction of the submarine were reprehensible. They can imagine no other reason and advance the theory that the submarine was surprised while rescuing the crew of a steamer. Other papers make similar statements, one advancing the theory that the submarine was the victim of a merchantman flying the colors of a neutral country.

AN OIL TRUST EVEN IN TIME OF THE BIBLE

People Then Had Many Things That Go With Life of Present Day

Philadelphia, April 8.—The palace of Nero had three elevators. In the year 80 A. D. an income tax was established in Rome on all incomes in excess of \$4,000. The hobble skirt was of Dame Fashion's decree in the days of Moses.

These and many other interesting facts going to show that life among the ancients was not so different from that of today were brought out by Prof. Casdian M. Coburn, explorer and archeologist in his lectures at the Arch Street Methodist church.

Short-hand in Biblical Times

Prof. Coburn pointed out that the Jews had three different systems of shorthand reporting in the first century and that in every Jewish court a shorthand reporter or clerk sat on each side of the judge. Many of the Roman aristocrats took stenographers with them upon their travels.

Some of the other advantages enjoyed by the ancients, according to Prof. Coburn follow:

In St. Paul's time there were seventy labor unions in Rome, hence a struggle between capital and labor must have been waged even then.

There were several monopolies in the first century, the greatest of all being the oil business, although no mention of Rockefeller appears on the papyrus examined by the American scholar. The "trial" had not corrected keratosis, which was unknown at that period, but dealt in olive oil and the like.

New Yorkers Pickers

As to homes, the ancients made the New York millionaires look like "pickers." Prof. Coburn says he has read in manuscripts dug from ancient tombs the houses of a Roman who spent \$12,000,000 upon decorations for his house. Another plutocrat spent \$30,000,000 in one year. Even Nero was no slouch when it came to burning money. On one occasion he spent \$175,000 for roses on his banquet tables. The roses were brought from Egypt.

PULLMAN CONDUCTOR'S JOB NOT AN EASY ONE

Chicago, April 7.—E. W. Bell, a former Pullman conductor, now secretary of the conductors' organization, told the federal commission on industrial relations of conductors being on duty sixteen hours, sometimes eighteen, out of twenty-four; of the company's system of splitting of inspection, of "docking" all for a salary varying from \$10 to \$90 a month. As part of this salary, he said, the conductor must live while he is on the road, besides keeping up his family expenses at home.

Bell, who was discharged, he said, when he became too active in the interests of the conductors' organization, was a conductor for three years, at varying periods. He read into the records of the commission letters from conductors protesting against the long runs, the hours and the attitude of the company.

Conductors, he said, ate their meals on the road in the dining car, for which they paid their own money. On a long run, he said, the company required the conductor to be on duty until 3 a. m. Then they were allowed to sleep until 7 a. m., when they resumed their duties. Under questioning by Commissioner Garretson, Bell told the commission that he had worked thirty-one nights a month at times. He was supposed, he said, to get one night off a month. For this extra night, he said, he got no pay, but that if a conductor was off more than one night a month he was "docked."

BESSARABIA RUSSIA'S GREAT FARM PROVINCE
Country Which Austrians Trying To Invade One of Richest in World

Washington, April 8.—"Bessarabia, the Moscovite province beyond the South, which the Austrians are now trying to occupy, is one of those wonderful Russian farms of which the world knows but little because the Russians have never thought to advertise," says a statement issued today by the National Geographic Society. "It is an immense farm of 16,181 square miles, with deep, black, fertile soil, and worked by some 2,000,000 farmers. The climate of Bessarabia is that of the United States, extremely cold in winter and extremely hot in summer, and, due to its sharp summer season, the province raises fruits that vie with American fancy fruits in all the best markets of Europe. All of the domestic animals, grains and grapes are also raised. Bessarabia produces 17,000,000 gallons of wine yearly, which, blended with and named for 'Europe's best,' are known in every land.

"The population is very heterogeneous. It numbered 2,490,000 in 1911, and of this number only about 300,000 were classed as urban folk. CNY people are neither known nor appreciated in this part of the world, and are rarely seen other than at the capital of the province, its largest town, with about 130,000 people. Richness comes from foreign buyers and the foreign government officials. The original inhabitants of Bessarabia are said to have been Cimmerians. In the course of centuries, all kinds of people have been added to the 'original,' until the Russian province

might well dispute the so-called 'milk pot' honors with the United States, Moldavians, Little Russians, Poles, Rumanians, Magyars, Ruthenians, Bulgarians, Jews, Greeks, Circassians, Armenians, Tartars and Slovaks are some of the leading elements of its population.

"Most of Bessarabia is flatland, though offshoots of the Carpathians enter it from the northwest, and certain of its central portions are hilly. Parts of the province are well-timbered, though, in the main, farm lands are only interrupted by pastures. There is no industry in the province to be destroyed. A few insignificant cloth mills, iron works, soap works and tanneries complete the list of its manufactures. Export commerce in particular is large. In considerable commercial minerals have been uncovered. Most important among these are salt, saltpetre and marble."

GREAT ITALIAN FLEET IS BEING CONCENTRATED

On the Italian Frontier, April 8, via Paris.—The warships of the Italian fleet departed suddenly from the Mediterranean naval stations at Spezia, Gaeta and Maddalena Island. They concentrated at Augusta, Sicily, and at Taranto. They are thus within a few hours of the Adriatic.

The departure of these warships caused a profound impression, particularly at Spezia, where until last Sunday the harbor was crowded with dreadnaughts, cruisers and torpedo boat destroyers, while the town was filled with officers and sailors.

Italy now has the finest fleet in her history. It is headed by several new dreadnaughts, of which the most formidable is the Conte Di Cavour,

which corresponds to the British navy to Great Britain's Queen Elizabeth.

The future movements of this fleet are veiled with absolute secrecy. It is asserted that only the staff and one or two of the highest government officials are acquainted with the plans decided upon.

Is Something That Will Stop Headache

If headache develops while shopping or at business, just step in any good drug store and ask for the fountain pen for HICK'S CAPSULE, which is so successful in relieving headache because it removes the cause, whether from cold, heat, nervousness or grow. It is liquid and pleasant to take. Don't ever suffer with headache when this pen is with you. It is so simple to use. Take a capsule, swallow it, and the headache is gone.

CHILD WELFARE CONFERENCE AT STEPHENVILLE APRIL 16-17

Denton, April 8.—The Child Welfare Conference of the First District of the Texas Congress of Mothers and Parent-Teacher Association will hold its annual meeting in Stephenville, April 1 and 17. Mrs. E. A. Walters of Fort Worth is president of this district, and other women prominent in Child Welfare work, including Mrs. F. W. McAllister, who is president of the State organization, will attend the meeting and appear on the program.

MISS MARY L. WATKINS, STATE ORGANIZING SECRETARY, WILL HAVE A NUMBER OF NEW AND INTERESTING PLANS FOR THE WORK OF THE EXTENSION DEPARTMENT TO DISCUSS BEFORE THE CONGRESS.

Miss Watkins has been in Denton for the past two months, supervising a course of study with the assistance of the College of Industrial Arts faculty members, which will be known as the Home Makers course and will be arranged in convenient lesson form for use by the Parent-Teacher Association who have membership with the Texas Congress of Mothers and Parent-Teacher Association. The Congress of Mothers plans to offer for the coming year three free courses of study to these clubs. The plans for the courses will be presented at the First District meeting and will be of interest to all women who seriously consider the profession of home making.

The subjects of home economics and home school gardens will fill a prominent place on the program and will be handled in an efficient manner by experts from the College of Industrial Arts and the A. M. College. By attending the district meeting a better understanding of the general aim and scope of Child Welfare work in Texas will be gained. There will be rates on all railroads and free entertainment for all delegates. Every club in the ninety counties of this district is urged to send delegates and every county chairman is especially requested to be present.

An interesting and helpful program is being arranged and will soon be ready for publication.

MRS. J. G. QUINN HOSTESS FOR 99 CROCHET CLUB

Owing to the sudden shower the attendance on the Double Nine Crochet Club meeting Wednesday afternoon was somewhat limited. Mrs. J. G. TO ARRANGE FOR OPENING OF NEW FIRE STATION

J. L. Lea, Jr., J. W. Bradley and J. F. Reed, councilmen-elect, will not be sworn in until next week's meeting of the city council. The charter provides that five days must elapse before the returns can be canvassed and this period will not have elapsed tonight.

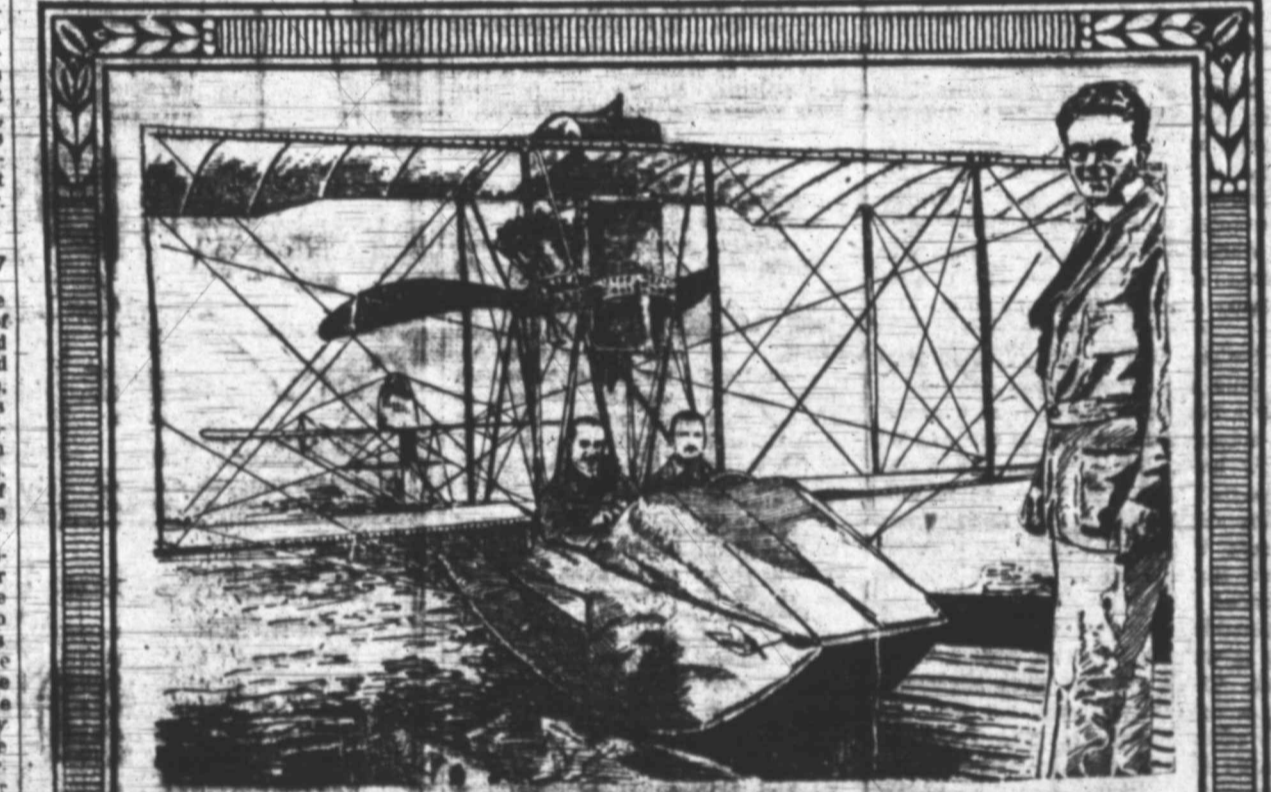

One of the first things to be done when the council is reorganized will be the adoption of the budget for the ensuing twelve months. The old members of the council are now preparing the budgets for their departments and will probably submit them next week.

At tonight's meeting of the council,

it is expected that arrangements will be made for the opening of the new fire station. Two paid men will be placed at this station and a number of volunteers will have sleeping quarters there, the same plan being adopted there as at the downtown station where there are three paid men and a number of volunteers.

HOW TO GIVE QUININE TO CHILDREN

WICHITA PUBLISHING CO., ED HOWARD, Manager

Now that the election is over, let's all take a fresh grip and pull together for the building of a better and more substantial Wichita Falls.

Germany has officially announced that she has one of her submarines, the U-29, there are yet eleven more to be accounted for, according to English and French reports.

The city council should see to it that Wichita Falls gets a first class fire alarm system. The one we now have is but little better than nothing at all. Two or three thousand dollars expended for an up-to-date fire alarm system will be money well spent.

Now let's get an oil refinery for Wichita Falls. That such an institution will pay, it is only necessary to investigate the one operating daily at Iowa Park. Those in a position to know say that the net profits for one year will more than pay for that enterprise.

Champion Willard has announced that he will never fight another negro, and in that he has the correct idea. Such occurrences are only calculated to fatten race prejudice. No negro should offer to contend with a white man for pugilistic honors, or honors of any kind, even though such honors are of a doubtful nature.

Perhaps this is just about as good a time as any to begin the agitation for a new court house or at least for a substantial addition to the one we now have. If there are those who disagree with The Times as to this, they should pay a visit to the court house while court is in session. A new court house is perhaps what is needed and even if it should cost something like \$150,000, Wichita county is well able to own such a building. There will be some opposition to a new court house, but that can be easily overcome. The Times believes that a great majority of the tax-paying citizens of Wichita county will favor it.

Senator Charles A. Culberson is writing letters to members of Congress concerning rural credits bills and calling attention to the Texas Homestead laws which might make it impossible for farmers in the State of Texas to comply with certain of the provisions of the proposed bills. Furthermore, copies of the letters which Senator Culberson is writing are going out to the newspapers of the State. Signs of the times would indicate that the Senator from Texas has not retired from the Senate half as quickly as some of the candidates for his place have retired him and that up to this good hour, he has this all important question of his candidacy next year under consideration to say the very least.—Austin Statesman.

THE EXTINCTION OF JACK JOHNSON. The gold tooth of Jack Johnson will flash no more golden smiles from the ring. When the cowboy Willard laid ed flush on his jaw he not only knocked the negro out but he knocked him "down and out." We cannot see how Johnson, an old man as prize fighters' ages go, can ever again be a drawing card in a prize fight. He will retire to France, he says. Let

him go; America is well rid of him. The noble art of punching a man's face for pay is not one that particularly appeals to us. But if prize fights are to continue they ought to be at least so classed as not to tolerate a criminal in the ring. Jack Johnson is a criminal. He has been convicted in the United States courts of a most serious crime, one particularly shocking to the sensibilities of the white race. It may be just as well that the various "white hopes" kept hammering away at the big black brute until one of them finally sent in the home blow. As long as Johnson was champion he came in for publicity, a publicity which was not the healthiest and imaginable for the American people to stomach. Now that he has taken the coast it is likely that the papers are done with him forever. Which is a consummation that all good citizens most devoutly desire.

To us there has always been something very repugnant in the spectacle of any white man putting on the gloves against a negro. We believe the effect of such a spectacle is distinctly bad. We know, for example, that Johnson's defeat of Jeffries was followed in some part of the country by race troubles, some of them of a rather serious nature. Now that Mr. Willard has won we congratulate him, not for having fought a negro, but for having removed from the public gaze the sight of a grinning scamp who ought to be in jail. From this time on no white man ever ought to fight a negro.—Dallas Times-Herald.

AUSTRIAN TYROL NOTED FOR HEALTHFUL CLIMATE

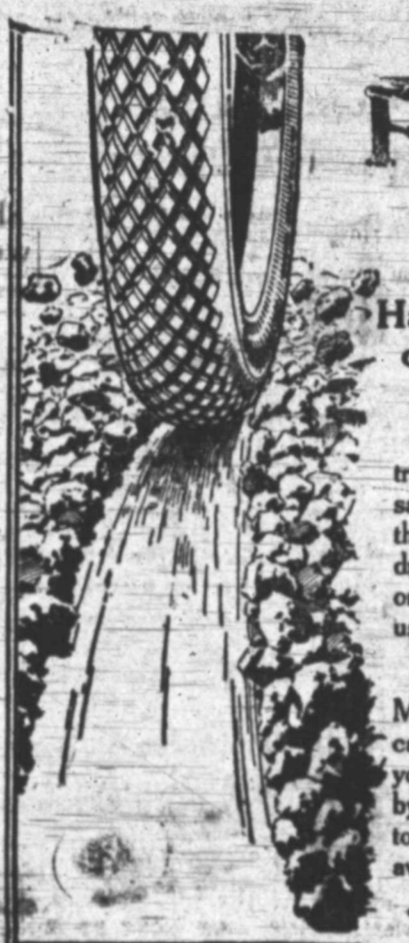

Now in Public Eye One of Most Beautiful Sections in World

Washington, April 8.—Austrian Tyrol, which is today in the public eye because of the strained relations between Italy and Austria, forms the subject of today's lesson in war geography issued by the National Geographic Society. It says: "Austrian Tyrol is one of Europe's healthiest provinces. In the northern parts the air drifts pure and cool, from the haunts of the glacier and urgent with fir and pine; and in the south it is soft with Mediterranean sunshine and fragrant with orange and lemon. This land of a wonderfully close woven texture of mountains, valleys and rock needles is taking the world's interest during these days of rumors of war as a possible addition to the already vast rear serving as theatre of war.

"Though Tyrol is a land of deserts, of the artist, the sportsman, the actionist, and the mentally or physically ailing; though it is a country where Nature has been overlavish with beauty, where the timbered mountain shoulders are filled with pine, where dangerous ascents may be made without number, where the heights of towers are to be enjoyed at a far lower cost than can be accomplished amid the more thoroughly commercialized scenery of Switzerland, and where there are more than 50 registered health resorts; it, nevertheless, has been comparatively neglected, more especially by Americans.

"Austrian Tyrol forms a considerable part of the forbidding and difficult boundary that runs between Italy and Austria. It is a barrier more effective than the Voges barrier between Germany and France or than the Carpathian barrier between Hungary and Galicia. Austrian Tyrol is 10,395 square miles of Alpine mountains touched with a wonderful and intricate design of valleys. While there are swer lakes in Tyrol than in Switzerland, and while the highest Tyrolese ummit, 13,790 feet above the sea level, falls far behind the monarchs of the Swiss Alps, yet the Austrian rowland yields nothing in charm y comparison with its neighbor.

"Among the rock strewn gullies of Tyrol Dante found the materials for his picture of the entrance to hell. The main chain of the Alps crosses his region from east to west, and round it on all sides is a wild chaos of rock masses. Tyrol, though small, has more sorts of climate within its orders than any other part of Europe. There are parts of the crownland where the winters are those of northern Siberia, and the summers re those of Franz Joseph Land. here are other parts, more southern here an Andalusian languor is hardy freshened by recurring winter. "Tyrol is primarily a pasture land, here is a little farming within the sheltered valleys and some lumbering, ut for the most part, the population depends for support upon its flocks and herds. Fortified Tires

Have Pushed Millions of Rocks from the Tire Road

They have saved waste and trouble to hundreds of thousands of motorists. The result is that last year, despite some hundred rivals, men bought about one Goodyear for every car in use.

The rocks that remain are Mishap and Misuse. No tire can ever avoid them. But if you'll judge tires by merit, not by luck, you are bound to come to Goodyears. You'll find they average best.

GOOD YEAR Fortified Tires. 3 Price Reductions. Our last big reduction—on February 1st—made the third in two years, totaling 45 per cent. Thus, as our output increases, you get more and more for your money. Be fair with yourself—try these tires. Any dealer will supply you.

The Rocks Avoided. We have saved millions of rim-cuts, blowcuts and loose treads by features exclusive to Goodyears. We have brought you security through our piano-wire base. Our All-Weather tread—exclusive to Goodyears—has minimized punctures, tread wear and skidding. It is tough and very thick. The grips are sharp-edged and resilient. All these protections—the best ever developed—are in Goodyear Fortified Tires alone.

Buick Six-Cylinder Model C-55. Model C-55—Price \$1650 f. o. b. Flint, Mich., complete with speedometer.

The Valve-in-Head Motor The Keystone of Buick Success. Any man in the Buick organization who has not proved himself the advantages, the merits and the value of this company's guarantee back of each Buick valve-in-head motor car; any man who does not daily practice the policies under which these cars are built and marketed, overlooks the four following great factors to which this company can trace its success and the ever growing demand for its motor cars: The Buick Motor Company guarantees its Valve-in-Head motor will develop and deliver more power than any other motor of the same size—American or foreign make—that's the Buick idea of power. The Buick Motor Company guarantees that every man in this great organization contributes his best effort to make and market a motor car that will at all times and under all circumstances give the owner uninterrupted use of his investment—that's the Buick idea of service. The Buick Motor Company guarantees to make all parts of its cars so carefully that every Buick car built may merit distinction as a motor car of absolute dependability—that's the Buick idea of honesty. The Buick Motor Company guarantees to be exact in all statements and to serve every Buick owner courteously and quickly, thus insuring him the motoring pleasure he expects—that's the Buick idea of satisfaction. Just to the extent that any man in the Buick organization respects to emphasize the worth of these guarantees or lacks appreciation of this policy, he falls in comparison with the standard of this company's product and ideals. Model C-37—Price \$1235 f. o. b. Flint, Michigan, complete with speedometer. Model C-24—Price \$900 f. o. b. Flint Michigan, complete except speedometer. Model C-36—Price \$1185 f. o. b. Flint, Michigan, complete except speedometer. Model C-25—Price \$950 f. o. b. Flint, Mich., complete except speedometer. WICHITA BUICK SALES AGENCY 705 Scott Avenue

Insist on the Butter-Nut Label

There are all kinds of imitations of Butter-Nut Bread on the market. But the title or the shape of the loaf is all they can imitate. They can't approach the delicate, appetizing Butter-Nut flavor.

The NEW BUTTER-NUT BREAD

So, for your own protection, look for the Butter-Nut label like that shown in the left-hand lower corner of this advertisement.

For that label marks perfect bread from our very best bread.

Butter-Nut is the best 5 cents' worth of bread you ever bought. Larger size loaf, 10 cents. A single loaf, ordered from your grocer today, will prove it.

GOLD DUST
 —it actually works at hundreds of tasks daily

"Let the Gold Dust Twins do your work" is much more than a popular phrase. It is based on truth, an actuality, for Gold Dust really works.

The millions of women who use it for dishwashing and scrubbing know this. But Gold Dust should be used for cleaning and brightening everything. It is the only washing and cleaning powder needed in any home.

The small quantity required is quickly taken up by hot or cold, hard or soft water—forming a perfect cleaning solution. The valuable antiseptic cleaning agent it contains helps to make things sanitariously clean, as well as bright and new-looking.

Has nothing on our free delivery service. In fact it is not in it with the service that our battery of bicycle boys give our patrons, because you do not have to bother with sending the money in advance or buying the stamps—Just telephone your wants and the goods will be there almost before you hang up the phone. And it doesn't matter how far you live or what time you call. We have gotten our delivery service organized into a system that permits of no excuses for distance, bad weather or delay. You can shop by telephone here if you wish, because we are always glad to send a variety of articles if you are undecided. And the service is free, as we permit of no tips to our messenger boys.

Five Year Guarantee Bags and Suit Cases

To the traveling public this week we offer special inducements in the prices of Suit Cases and Traveling Bags and also give quality that it is not excelled anywhere in the state. We have an especially fine line of Walrus, Allegator, Horsehide and solid leather bags, and ladies' silk lined bags and cases at unusually low prices. We carry such well known lines as the "Likely Cross Country Luggage," guaranteed for five years and other equally well known makes.

If we were not master workers in the craft of tailoring we could not hope to retain the host of satisfied customers who patronize us every week in the year. There is a difference as sure as you live. There is a satisfaction in knowing that when you send your work to a shop that it is in the hands of responsible workmen who know exactly what to do with it. There is no wondering whether or not they will injure or ruin a costly garment. Phone us your wants and forget it. The work will be done right, the garments returned promptly and satisfaction guaranteed.

WHEN YOU STOP TO THINK

Have you really done all you could towards beautifying that cemetery plot of yours? We know it is the habit to neglect those things, and count a death in the family as an added burden to be thrown off as lightly as possible. Don't you think you owe it to the community in which you live to assist those who are striving with all their might to make our BURIAL GROUNDS half way beautiful. The good ladies of the Cemetery Association have labored long and unceasingly, without so much as "thank you" from good, influential citizens, who have never looked at their plot since that last sad day when some one was buried. Are you a real live wire, or just a plain make believe? Go out and look the situation over, that neglected plot on the hill will answer this question for you. Decoration Day May 30th. Are you ready?
