1,700 LIVES LOST WHEN LUSITANIA IS SUNK!

British Admiralty Declares Death Toll Is Heavy Prominent Americans on Board Are Believed Among Dead Four Torpedoes Fired by Submarine Two Take Deadly Effect

By Associated Press.

London, May 8.—Seventeen hundred passengers lost their lives, the British admiralty estimates, when the Cunard liner Lusitania was torpedoed Friday morning off Old Head Kinsale on the Irish coast.

The known survivors number only 458 while there were 2160 people aboard when the attack was made. Of those saved 300 were landed at Queenstown, eleven at Kinsale and 52 others are reported to be on steamers. All but one of the rescue fleet has reported. There is a slender hope that fishing boats and other craft have rescued a few more.

In addition to the living 45 bodies of those who died from injuries or who were drowned have been landed at Queenstown and five more at Kinsale, and it is reported 200 other bodies have been picked up.

Apparently few first cabin passengers are among the survivors. The American consul at Queenstown can account for only 51 Americans saved out of 188 aboard.

The roll of saved does not include Alfred Vanderbilt, Charles Frohman, Elbert Hubbard, Justus Miles Forman, the author or Charles Klein, the playwright. Of the Americans aboard 106 were in the first cabin, 5 in the second and seventeen in the steerage.

Roosevelt Condemns Act as Piracy And Says United States' Self Respect Is at Stake

Syracuse, May 8.—Theodore Roosevelt after learning the details of the sinking of the Lusitania last night said:

"This represents not merely piracy, but piracy on a bigger scale of murder than any old time ever practiced. This is the warfare that destroyed Louvain and Dinant and killed the innocent men, women and children of Belgium.

C. E. Swenson, Wichita Falls Man, Is Believed to Be Among Those Who Lost Their Lives

That C. E. Swenson, a Wichita Falls man was aboard the ill-fated Lusitania, is the belief of officials of the Wichita Falls Motor Company by whom he was employed. Mr. Swenson left about ten days ago to go to London for his company to demonstrate their motor trucks for which orders are now being taken in England. He wrote his children here last Saturday from New York that he was sailing on the Lusitania.

His expense account names another vessel but it is believed certain that

"It is warfare against the innocent and against our fellow countrymen. It is inconceivable that we can refrain from taking action. We owe it not only to humanity, but to our own National self-respect."

LUSITANIA'S CAPTAIN SAVED.

London, May 8.—Captain Turner of the Lusitania was among those saved it was learned today.

Washington Awaits More Definite Word From Scene; Situation Is Admitted Very Critical

Washington, May 8.—Officials are awaiting authentic news as to the number of killed in the Lusitania disaster before making any statement as to this country's course. It is admitted, however, that the situation is the most serious that has confronted the government since the Mexican crisis.

London, May 8.—According to one of the Lusitania survivors, the passengers saw the trail left by a torpedo as it flashed on its course toward the vessel. Then came a terrific crash as the missile pierced the vessel's side, followed by another which littered the decks with wreckage. The liner at once turned for the shore.

Four Torpedoes Fired at Vessel by Submarine and Two of These Find Target In Liner's Side

Four torpedoes were fired but only two found their mark. The loss of lives from the explosion must have been terribly heavy. The tragic freight of bodies bears evidence of this. Many of those taken ashore were seriously hurt by the explosion and more than a score died from the effects of their injuries.

he sailed on Lusitania. Swenson is a mechanic who has been in the employ of the motor company about a year.

Frank Kell, president of the company has been cabling London and wiring New York in an effort to ascertain definitely but has been unable to do so.

Mr. Kell received a cablegram this morning from A. F. Landon, his British correspondent, saying that 1500 persons had been saved.

HAIL CAUSES DAMAGE NORTH OF IOWA PARK

Wheat in Some Fields Beaten into Shreds and Other Serious Damage Done

Wheat waist high was torn to shreds and laid flat in a number of fields north of Iowa Park, garden crops were beaten to pieces, fruit was knocked from trees, rabbits and chickens were killed and other damage was done by a terrific hail storm that swept over a section north of Iowa Park late yesterday afternoon, according to telephone reports from that place this morning.

Detailed reports could not be obtained because the storm put a number of telephones in the hail swept areas out of commission but the damage has been heavy. Some fields are reported to have been so badly damaged that there will be no wheat harvested. Others were damaged fully fifty per cent. The storm was the same that approached Wichita Falls but the clouds raised before reaching this city and there was no hail here.

A severe hail storm is reported from the section southeast of Electra but the damage there was not nearly so heavy as in the district north of Iowa Park. Some of the garden crops and other tender vegetation is also reported from Thornberry. It appeared from Wichita Falls that a heavy cloud hanging low passed around to the south and west of the city but no reports to serious damage had been received from that section up to noon today.

DEATH FOLLOWS SHOCK FROM LIGHTNING FLASH

Death of Wife Reveals Possible Struggle of Middle Aged Couple For Existence

Among the death notices in yesterday's Times was one of a woman, past middle age, "death due to heart failure. Burial will be in Riverside." A short notice but to those knowing the inside of the case one full of pathos. Death was in reality caused by the threatening storm of Thursday. The old couple (the notice stated "husband survives") lived in a frail construction, half tent, half house, which was soaked with the downpour that accompanied the wind and lightning. Husband and wife stepped to the window to look out when the roar of thunder and accompanying flash of lightning shook the tent home. In a moment the wife was lifeless in her husband's arms.

Neighbors tell of the unusual culture of the old couple, of their struggles for a livelihood and of their devotion to each other. Years ago the theatrical troupe of *Rehearsal-Lafayette* was a favorite with the theatrical public and the corpse of today was a leading actress in that troupe. If her name should be mentioned there are probably some here and still more in the older states who will recognize in it a one-time favorite. The husband was also a member of the same company, and the romance of the footlights and the stage has lasted through life. It is time they left the stage, probably giving way to the public's insistent demand for musical comedy and chorus girls, but the joy of the world of make-believe has sustained them through hardship and misfortune. Neighbors and friends aided them as far as their pride would allow, for the husband could find no work to do and so they existed. They were great readers and surrounding libraries gave much pleasure. A favorite was "The Music Master," perhaps they saw a comparison in the hope of the husband that the body of his wife may be shipped to Springfield to rest among friends and relatives (they have no near relatives living to give assistance) and with the aid of friends this may be accomplished. For the future, the husband has no plans and little interest since his wife is at rest.

TEMPERATURE DROPPED NEAR 40-DEGREE MARK

Norther Came in Thursday Evening With Violent Looking Cloud—Gas Fires Lighted

A near-norther that sent the mercury down almost to the 40 degree mark and that whistled through D. V. D.'s and summer clothes in regular January style visited Wichita Falls Thursday night and gave this vicinity a touch of winter that was out of all reason. Temperatures of 42 to 47 degrees were recorded by several thermometers and one at the home of George Simmons, who keeps weather records, went down to 40 degrees; it was on the north side of the house.

An hour or so before the crisp came a very vicious looking cloud overhung the city with all the earmarks of a cyclone cloud, but the twister did not materialize. Some rain fell during the afternoon. The drop in temperature was not so pronounced, coming after the rain of the past few days, as it would otherwise have been, but it was severe enough to cause decided discomfort. Gas heaters were glowing in many homes and those who had taken their stoves down for the summer saw the error of their ways. Overcoats were in evidence downtown, some with the odor of camphor still clinging to their folds and the general atmosphere was much more of January than of May. Although not available it is believed that all low temperature records for this time of the year were broken Thursday. At any rate the weather was contrary enough to upset all calculations of newcomers and those other things

At The Theaters

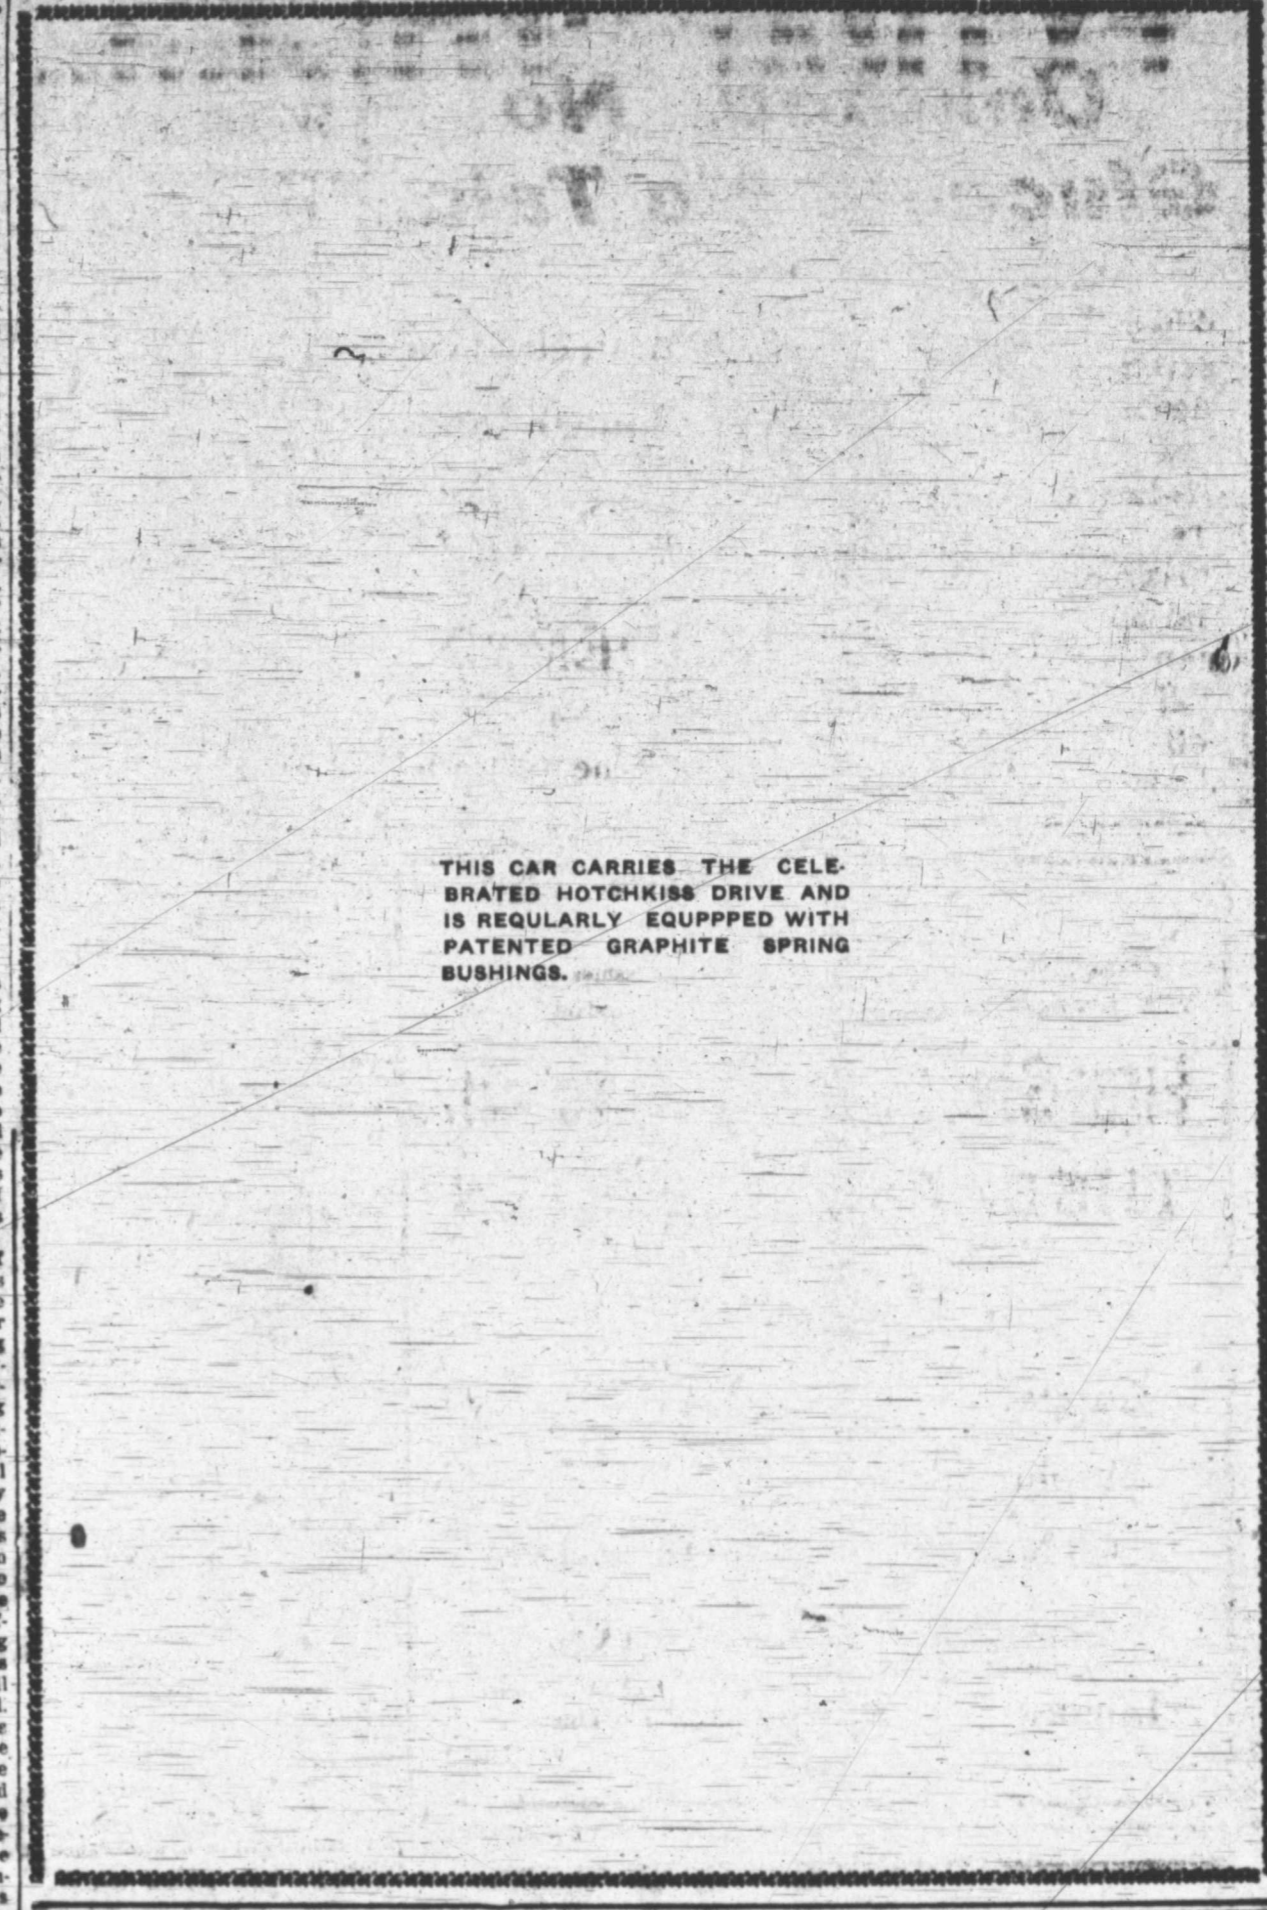

The Express.

Patty Arbuckle in a Keystone comedy, the nineteenth episode of "The Twenty Million Dollar Mystery" and a two part Kay Bee, "The Phantom on the Hearth" makes up today's program. Edward Brennan, Fannie Midgely and Violet McMillan are featured in the latter picture, a synopsis of which follows:
The Rev. James Larney has a beautiful daughter, Agnes. A circus comes to town, and the girl, seeing an advertisement for a parachute jumper, applies for the job and is engaged. She promises to join the show in the next village. Mr. Larney when he finds Agnes gone, guesses immediately where she is. Years before he had been deserted by his wife, who ran away with a circus, but never has he told his daughter of his lifelong sorrow. She believes her mother dead. At the circus Mrs. Larney drifts in to see some of her old ring associates and discovers that Agnes is her daughter. Feigning illness, she sends the girl for a doctor, thus preventing her making the balloon ascent. Mrs. Larney herself, tells him in the next village. As the basket is yelied, the balloonist does not discover the substitution. Mr. Larney reaches the fair grounds just in time to see the balloon struck by lightning. He is in a quandary, safe. Mrs. Larney and the balloonist are killed, and the girl goes home with her father.

The Gem.

The detective series, "The Exploits of Elaine" which has been a startling success since the first releases will commence today at the Gem. The stories are written by Arthur Reeve and Craig Kennedy, modern detective of "Cosmopolitan" fame is the hero (portrayed by Arnold Daly). Pearl White, who contributed to the fame of the "Perils of Pauline" series is the leading lady and other actors of note are in the cast. A synopsis is given:

The Consolidated Insurance Co., of which Taylor Dodge is president, has suffered considerable loss through the mysterious robberies of the master criminal known as "The Clutching Hand." Perry Bennett, a young lawyer, assistant to Dodge is endeavoring to discover the criminal. Being of an affable and pleasing personality, he creates a deep impression upon Elaine, his employer's beautiful daughter. Dodge is visited by Limpy Red, a gunman, who advises him how the mysterious crook can be found and gives him directions to find his lair. Dodge dismisses the gunman, and on returning to his office finds a mysterious note pinned to his door. Entering his home, he is met by Elaine, Bennett and Jameson, a reporter. He refuses to be interviewed by the reporter, and enters his library, where he deposits Limpy Red's directions in his safe. Jameson, hearing Dodge remark that he has discovered "The Clutching Hand" hastens to his friend, Craig Kennedy, a noted detective, and tells him the news. Kennedy is greatly excited by this knowledge, and calling on his way to the home, hastens to answer his telephone, he steps upon an iron register on the floor. As he grasps the telephone, there is a powerful electric flash and Dodge sinks lifeless to the floor. The dead wires below have done their work in a few moments to contain Limpy Red's confession. His partner searches out Limpy Red and slays him in a low dive. Kennedy arrives at the Dodge home and finds he is too late. Dodge is found in the library, already the victim of "The Clutching Hand." The detective starts immediately to search for clues and discovers finger prints on a plaster bust. Examining them he finds them to be his own and begins to realize of the cleverness of the criminal with

My Mother
Mother of mine, with hair of grey,
Little mother who cheered me at close of day,
Who brightened my task the whole day through,
Naught else mattered in life but you.

Mother of mine: How your eyes would shine
With the light of mother love divine;
I see you now in the twilight gleam;
And seeing, forget life's weary stream.

Mother of mine, your prayer of love

STOMACH TROUBLES

Mr. Ragland Writes Interesting Letter on This Subject.

Madison Heights, Va.—Mr. Chas. A. Ragland, of this plac writes: "I have been taking Theford's Black-Draught for indigestion, and other stomach troubles, also colds, and find it to be the very best medicine I have ever used.

After taking Black-Draught for a few days, I always feel like a new man. Nervousness, nausea, heartburn, pain in pit of stomach, and a feeling of fullness after eating, are sure symptoms of stomach trouble, and should be given the proper treatment, as your strength and health depend very largely upon your food and its digestion.

To get quick and permanent relief from these ailments, you should take a medicine of known curative merit.

Its 75 years of splendid success, in the treatment of just such troubles, proves the real merit of Theford's Black-Draught. Safe, pleasant, gentle in action and without bad after-effects, it is sure to benefit both young and old. For sale everywhere. Price 25c.

OVER \$3000 DAMAGE JAMISON GIN BY FIRE

Blaze Thursday Evening May Have Originated From Tramps Taking Shelter There

Fire at 6:30 Thursday evening caused \$3000 to \$3500 damage to the Jamison gin at Indiana and Third streets. Two gin stands were put out of commission, considerable damage was done to the engine, conveyor and other equipment and the building was partially destroyed. It is not known how the fire originated, as the gin had not been running for some time and it was possibly caused by tramps or others who used the building for shelter.

Both fire companies responded, but only one line of hose was laid and good work was done with this in spite of the fact that the flames had when the department arrived. One gin stand was totally destroyed and another badly damaged; the brushes on the other stands were damaged by water. There was considerable damage to the woodwork in the engine room but it is not known whether the engine itself was put out of commission.

Estimates of the damage place the loss at not less than \$3000 and it will probably go higher. The loss is covered by insurance.

CATTLE DYING FROM PECULIAR MALADY

Fort Worth, Texas, May 7.—Cattle are dying in large numbers over the state from what is believed to be forage poisoning, according to reports received at the office of Dr. W. T. Christmas, state veterinarian.

Calls have come from Bowie, Park Springs, Weatherford, Comanche, St. Jo, DeLeon and other places within the past three days. All of these states that cattle are dying from an unknown disease.

Dr. Christmas stated Thursday before leaving for Bowie, where he was called by the Chamber of Commerce, "this must be a forage disease, as all our calls come from places in the timber belt; and so such trouble is being experienced by cattle raised in the wooded sections."

"Of course, we shall not know just what the trouble is until several post mortem examinations have been made on the dead animals. In the meantime, I would advise all farmers and stockmen of timber section to keep cattle out of the wooded pastures at least until these rains stop and grass is given a chance to grow."

Dr. Christmas will return from Bowie today and go direct to Weatherford, where further examination will be made.

Some of the reports received are to the effect that blooded cattle have been lost, and frequently in large numbers.

R. L. Banks, Parker county demonstrator, and Judge Temple, county judge, were called to the Bennett place near Bowie in Parker county Thursday to investigate the cause of the death of eight head of cattle which died suddenly on the Bennett place recently. The cattle seem strangely affected, and as neither Mr. Banks nor Judge Temple could diagnose the disease, they are endeavoring to get in touch with the livestock sanitary commission at Fort Worth and get him to investigate the cases at Bennett's.

Disappointed With Play Pictures Government Cinematographers to Accompany Army

Paris.—Moving pictures have been unequal to the occasion, the press and the public declaring that they have done little to either portray or exalt patriotic sentiment. Exploiters of films blame the censor, while the censor reports that producers of picture plays lack proper inspiration.

Cinematograph directors gave a private view of films exhibited in other countries and even in some of the French provincial cities, but prohibited in Paris, to prove their case. Among the things to which the project of police objected were scenes of German prisoners captured in the Vinay Woods near Epernay, German prisoners at the camp of Angers, a French village showing tombs of German soldiers after a battle, films depicting the destruction of churches and villages by fire and bombardment, besides numerous picture plays presenting soldiers and Red Cross uniforms not in actual service.

The general opinion of the notabilities invited to this representation was that the censor was perfectly justified in cutting out imaginary war and hospital scenes, holding that they were unworthy to represent the heroism and devotion of the soldiers and nurses. A contrary opinion was held, however, regarding certain films of actual happenings. The result has been that the government has authorized four representative cinematograph concerns to take moving pictures of war scenes at the front. In the meantime moving picture houses are depending largely upon old films to entertain their public, which is gradually growing smaller.

French wit has always found a wide field of effort in the caricaturing of public officials of all grades and departments. Martial law has given the latter their first opportunity to revenge themselves. Any film re-

cordance with a notice from the German government vessels flying the British flag in these waters were liable to destruction and that travelers at their own risk made the journey on English vessels. The "Imperial German Embassy."

Another of the Lusitania's passengers was D. A. Thomas, a multimillionaire, Welch coal operator and Lady Makeworth, an English suffragette, Alexander Campbell, a prominent English business man just before going aboard the ship called the warning "Tommyrot."

A Queenstown message received later and timed 4:59 p. m. says: "About 20 boats of all sorts belonging to our line (Cunard) are in the vicinity where the Lusitania sank. About 15 other boats are making for the spot to render assistance."

A message from Liverpool reads: "Following received by admiralty: 'Galley Head, 4:25 p. m.—Several boats, apparently survivors, are southeast nine miles. Greek steamer proceeding to assistance.'"

CARING FOR CHILDREN AND WIVES OF SOLDIERS

War Babies and Mothers' League Reports 4,000 English Babies Born out of Wedlock

By Associated Press London.—The work of the War Babies and Mothers' League, which has officially reported more than 4,000 cases of soldiers' children born out of wedlock, is described in a report by A. James Hills, its secretary. He says:

"The girl is very shy in owning up, and it is only at the last moment when she is frantic and distracted that she takes someone into her confidence. Before the baby is born, we feed the mother if she needs it and we arrange other details if she is unable to do so. If she needs clothes for the baby, for herself or for her other children, we give them."

By other children, Hills explained that many of the women who have to be assisted lived before the war as the wives of the men now in the trenches. In most cases, obstacles, military or otherwise, stood in the way of marriage. An Irish girl, a Catholic, said she could not induce her man, a Protestant, to marry in her church, and she refused to do so in his, so they did without. These couples live quite as respectably as those legally united.

In his message to the legislature Governor Ferguson asks for a million dollars for country schools, and that part of his message was, received with approval by a great majority of the people of the State. If Texas expects to be what she ought to be every encouragement the State can offer to the rural population should be given, and the very first step in that direction should be to improve the country schools.

In a rather lengthy editorial the Denison Herald, in commenting on the fact that the Fort Worth papers are carrying advertisements daily signed by the manager of the North Texas Traction Company showing how and to what extent the jitney cars have interfered with their business, causing the Traction Company not only to fail to enter operating expenses during the past four months, but to maintain the street car service in the city of Fort Worth at a great loss, has the following to say:

"It may be as claimed by some that the jitney comes to us through the process of evolution, just as the electric car succeeded the horse drawn car and the auto the carriage and buggy and for that reason its adaptation and progress can not be stayed; but it might be well for the public to consider just what the convenience will cost in the long run through not having the aid and assistance of the street car companies in the paving of streets and in the general development of the municipality. These are questions the public should consider while they are seriously crippling institutions which in the past have contributed so materially to the growth and prosperity of the city."

MAN WITH THE HOE.

Oh, this is the time when the man with the hoe gets out in the garden where gooseberries grow; he weeds out the weeds and he thins out the stalks, and no one would say he was kin to the ox. You see him exulting, you hear him exclaim, "M a r t i e, come look at this cucumber frame!"

The disheveled beans and the marrowfat peas are growing and thriving as fine as you please. Come hither, Matia, and squint at the corn the way it's been climbing since yesterday morn! And look at the onions, a-flourishing there—they'll take the blue ribbon this year at the fair! And then, if you watch, you will see the man go, this down-trodden mortal, the man with the hoe, to call on his neighbors and brag of his greens, his cabbage and spinach and safety first beans. The man with the hoe, in the lands o'er the brine, may look like an ox or a sample of swine, as he drudges along in the heat of the day, for a crust and a drink and some counterfeit pay; but here in this land of the brave and the free, he bubbles with mirth and he chortles with glee; he whoops and he laughs, where the peasant repines, and bores us with tales of his succotash vines.

Walt Mason

For a man who was at first opposed to any changes in the Robertson law and was against the Gibson bill to start with, and later became interested in it only on account of the promise of insurance companies to loan money in Texas, and who up to as late as three days before he issued the call for the extra session said publicly that he had not promised any one to ever submit the Gibson bill at this time, the governor of Texas seems to be overly anxious to get this bill passed. There may be a bug under the Gibson bill

GERMAN MERCHANTS PROSECUTED FOR DISMISSING HELP
By Associated Press.
Berlin.—A large number of Berlin shop girls have brought action against firms, which, after inducing them at the beginning of the war to accept a reduction of salary, have dismissed them. There have been more than seventy prosecutions of one firm.

A special court at Charlottenburg has now given judgment that such dismissals are illegal, holding that the reduction in salary was arranged and accepted on the understanding that it would prevent the employe suffering from unemployment during the war, and that employers cannot give notices of dismissal until normal conditions are restored in the labor market. If, therefore, a shop girl is dismissed, she is entitled to all sums deducted from her wages since the beginning of the war.

The world has known what Cottolene is for over a quarter of a century

Cottolene established a class of its own over a generation ago. Cottolene was in the front rank of the great movement for bettering household service and for improving food products.

Cottolene

The cottonseed oil in Cottolene is pressed from selected seed—it is a grade so choice that it is not listed on the market. It is purer, sweeter and better in food value than most salad oils.

It is the exact combination of these two fats which gave Cottolene its high place over a quarter of a century ago, and which has held this place for it.

Your grocer has Cottolene now

TWO SETS OF OFFICERS FOR FOREST OIL CO.

Further Litigation Impending Over Status of Company Having Holdings Here

The affairs of the Forest Oil Company, which have been in the courts already and concerning which one suit is now pending, are to be aired further as a result of quo warranto proceedings instituted by G. E. Wilson and T. B. Owen and their associates. It appears from the petition that this company now has two sets of officers or directors, one of which it is alleged, was not properly chosen; as a result, the control of the company is unsettled.

Some of the stockholders of the company early in March brought receivership proceedings against it. This action being taken by the Owen-Wilson faction of stockholders. The receivership was dissolved in the higher courts; in the meantime suit had been brought by some of the stockholders against Owen & Wilson to recover certain property of the company which it was alleged they held. Since that time, Owen and Wilson and associates have acquired a majority of the stock, but the other faction's officers and directors are nominally in control. The Owen-Wilson interests elected officers and directors of their own, and the quo warranto proceedings are to determine which set is the lawful one.

The Forest Oil Company was incorporated for \$200,000, taking over the oil holdings of Owen and Wilson, who had done some successful development east of Electra and in the Iowa Park shallow field. Wichita Falls and Mineral Wells parties held most of the stock.

WOULD RID CITY OF RESERVATION DISTRICT

Committee Appointed Recently to Devise Plan to Clean up City

With the purpose of working out some plan for ridding the city of the reservation, a committee from a local church has been organized and is now mapping out a plan of action. The committee was appointed this week to see what can be done, and consists of T. B. Noble, M. P. Kelly and S. E. Trevathan.

Nothing has been given out by this committee as to its plans, further than steps are to be taken at once. It is understood that no effort will be made to have coercive action taken by city or county authorities until other means, the nature of which is not being made public, have proven unsuccessful. The committee in question was named at a meeting at the M. E. Church, South, where the pastor, Dr. A. L. Andrews has in his sermons, been dwelling upon the necessity for the citizens taking some action.

OWNER AND TENANT SUING OIL COMPANIES FOR DAMAGES

Suits were filed in the 78th district court today by F. B. Weddle vs. Forest Oil Company, Corsicana Petroleum Company, J. M. Guffey Petroleum Company and Red River Oil Company and by E. A. Perkins against these companies and the Producers Oil Company, for damages arising from oil and gas water flowing into a tank on land owned by Mr. Perkins on which Mr. Weddle is a tenant. Last year Mr. Weddle sued the five companies named, but a misjoinder of parties was pleaded, and the plaintiff was given a judgment of \$336 from the Producers Company alone. Now he is suing the other four companies, while the owner of the land is suing all five. The sum of \$2500 is asked from each by the tenant and \$10,000 by the landlord. T. N. Boone is attorney for the plaintiffs.

"I AM GOING" BADGES MAKE THEIR APPEARANCE

Go-to-Church Campaign Committee are Displaying Great Activity Here

Badges with the legend "I am going" are being distributed today by the committee in charge of the go-to-church campaign and are appearing on many coat lapels. By this means and through personal letters, personal appeals and other methods, the necessity for attending Sunday school and church Sunday morning will be impressed upon all Wichitans who can be reached.

Encouraging reports have been received from those at work on the campaign and if the weather is favorable, it is believed that all records for attendance will be easily surpassed Sunday. The campaign is being waged for Sunday school as well as church attendance.

EFFECT OF UNIFORM ON SPIRIT OF WORKINGMEN

By Associated Press. London.—The success which has attended the experiment of placing workmen at Liverpool in khaki is very interesting from a psychological standpoint, writes a college professor to one of the London newspapers. He explains: "I have frequently been told by recruits in the army that, although they may have felt some sort of enthusiasm when drilling in civilian costume, it has been of a lukewarm character compared with the intensity of spirit which they develop after they had donned the uniforms and been supplied with rifles. "In this emotional elation through change of clothing is illustrated a very common rule of life, which has been felt by most of us in the course of everyday existence. The bishop or person who discards his clerical attire and gets into his golfing garb throws aside memories of theological arguments and concentrates on the hope of emulating the strokes of a Braid or a Vardon. A hospital nurse lives up to the glorious traditions of her uniform. A change into evening dress is a much more potent appetizer than a sherry and bitters."

GERMANS COULDN'T SUPPRESS BELGIAN ENTHUSIASM

Amsterdam.—Seventy Belgian prisoners who recently passed through Brussels in charge of a guard of German cavalry, received a rousing welcome from the Belgian inhabitants of the town, notwithstanding the orders of the German municipal authorities that no demonstrations were to take place.

The prisoners, who included infantrymen and engineers, were captured near Briegatolites. As they passed down the streets of Brussels, the people of the town gathered along the sidewalks. Hats and handkerchiefs were waved in the air and there were shouts of "Vive la Belgique," "Vive la Belgique" and "Lève de Koning." The prisoners smiled and answered back "Courage, comrades." Meanwhile the crowd showered them with gifts of fruit, chocolate, sandwiches and candies.

WICHITA FALLS WILL BE 'ALL DOLLED UP'

Under the direction of a special decorator employed for the work, Wichita Falls is now being dressed up for the U. C. T. convention which begins next Thursday. J. Dreyfuss of Dallas, an expert decorator, has been employed for this work and is here to begin his duties. If the weather permits, this work will be pushed rapidly in the next few days so as to reach all merchants by the time the convention opens.

The national colors and those of the U. C. T. are to figure in the decorative scheme. Practically all merchants downtown have agreed to decorate and the entire business section will bespeak Wichita Falls welcome to the visitors when they arrive.

JITNEY ORDINANCE BEFORE COUNCIL

MEASURE INTRODUCED BUT FIRST READING GOES OVER TO LATER MEETING

TERMS NOT OBJECTIONABLE

Drivers Disposed To Accept Ordinance As Drafted With a Few Slight Changes

A jitney regulation ordinance to which the jitney drivers have little objection was introduced at Thursday night's meeting of the council, and went over to a later meeting on its first reading. The jitney drivers were present with an attorney, but after hearing the ordinance read they seemed to have little fault to find with it, and the indications are that it will pass with some minor changes.

The ordinance provides for \$10 annual license fee for five passenger cars and \$30 for larger cars; for the furnishing of \$100 bond; for the maintenance of regular routes and schedules, and for a limit on the number of passengers to be carried. The proposed section keeping highways of streets used by the car line was not included. The section covering regular routes and schedules provides that jitneys must run at least twelve hours per day.

W. E. Weeks, attorney for the jitney drivers, said the main objection was to the twelve hour proposition, and he said such a rule could serve as good purpose. There were only a few hours a day, he said, when traffic was heavy. He suggested that when a jitney operator applies to the council for a license, he be required to state what hours he would operate his car and maintain his schedule for those hours. Mr. Weeks expressed his satisfaction over the general nature of the ordinance, saying that in some places the purpose of such ordinances had been to regulate the jitneys out of business.

Mayor Britain stated that such was not at all the purpose of the council. The ordinance was discussed at some length; Mr. Weeks thought the \$5000 bond was somewhat high, but this feature was not gone into to any extent. The ordinance provides that jitneys may not deviate from their routes more than two blocks and this will work a hardship on those who have been accustomed to making special calls for extra pay. Copies of the ordinance will be furnished members of the council for study this week and the matter will come up on its second reading next Thursday.

HACK AND DRAY ORDINANCE

A new hack and dray ordinance keeping these vehicles off Eighth street was introduced and also placed on its first reading. It provides numerous places where hacks and drays may have their stands, as follows: North side of Seventh street for 60 feet east of Ohio and 60 feet west of Ohio; east side of Indiana avenue south of Seventh, for 60 feet; west on Seventh street at Old First National corner; Indiana avenue north of Seventh; 80 feet on Ohio across from the city hall; on Ninth from Michigan to Ohio and on Michigan from Seventh to Eighth. The ordinance provides for a \$5 license fee.

The city attorney was instructed to prepare a more stringent ordinance relating to driving stock through the streets. At present one man may drive as many as five cows and some complaint has been received of damage to lawns and flower beds. It is probable that the number will be reduced.

MANY PORT ARTHUR MEN ABOARD THE GULFIGHT

Captain Gunter Was Member of Elks Lodge Thers and Well Known Officer

Port Arthur, Texas, May 7.—A number of Port Arthur's citizens were on the steamer Gulfight, which was torpedoed off the Solly islands, but with the exception of Eugene Chappant, seaman, who was drowned, none of them was injured. First Officer E. E. Smith and Chief Engineer Butterworth both live in Port Arthur. Smith took charge of the vessel upon Captain Gunter's death, and reported the injury of the vessel to the Gulf company.

Captain Gunter was a member of the local lodge of Elks, and one of the well known sailing masters taking vessels out of this port, and had been in the oil trade here for thirteen years.

Following is the complete crew list of the Gulfight, with their places of residence, as filed in the customs house before sailing on April 10: Ralph E. Smith, 1101 Sixth, Port Arthur. Paul K. Boess, Gulf company, Port Arthur. F. Hillabend, New York. E. Johnson, Sweden. E. H. McPadden, Port Arthur. E. Johnson, Norway. Arnold Short, Chicago. Victor Kreguler, Philadelphia. Albert Lee, Boston, Mass. C. Oldenberg, Denmark. Henrik Thorsen, Norway. Harry Hogden, England. Eugene Chappant, Port Arthur. G. W. Smith, Baton Rouge, La. E. P. Butterworth, Port Arthur. Emil Enters, Bayonne, N. J. Conrad Jackstead, Philadelphia. Axel Lundquist, Brooklyn. George Sand, Brooklyn. G. N. Neilson, Galveston. F. C. Masler, Chicago. John Taylor, Port Arthur. D. Becker, Port Arthur. L. F. Blasey, Columbia, Miss. Feliz Eymann, Port Arthur.

Don't Hide Them With a Veil—Remove Them With the Othine Prescription. This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by druggists under guarantee to refund the money if it fails. Don't hide your freckles under a veil; get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely. Be sure to ask the druggist for the double strength Othine; it is this that is sold on the money back guarantee. (Advt)

The Difference

There is a difference between pretending and doing, between sentiment and remembrance as much as there is between real heart aches and pretentious sorrow. One is the contraction of the tender cords around the heart by the act of memory, the other is crying aloud to be heard and seen of men. A real sorrowing heart seeks relief in deeds of kindness and beneficence to the world and humanity.

You make every one glad and proud of your cemetery when your acts of love and remembrance are expressed by a lasting tribute.

THE LAND OF SHEBA

This ancient land of Sheba was the garden in which the first coffee tree blossomed to bless the race, so far as history and tradition informs. True, the coffee tree may have graced the Garden of Eden, as it would beautify a modern lawn. We do not know. Its white and fragrant blossoms and rich, dark red cherries, doubtless beautified the woodland in Ethiopia in the days of the historic queen who visited Solomon at Jerusalem, a thousand years before the birth of the Babe of Bethlehem.

1,700 LIVES LOST WHEN LUSITANIA IS SUNK!

British Admiralty Declares Death Toll Is Heavy Prominent Americans on Board Are Believed Among Dead

Four Torpedoes Fired by Submarine Two Take Deadly Effect

By Associated Press.

London, May 8.—Seventeen hundred passengers lost their lives, the British admiralty estimates, when the Cunard liner Lusitania was torpedoed Friday morning off Old Head Kinsale on the Irish coast.

The known survivors number only 458 while there were 2160 people aboard when the attack was made. Of those saved 300 were landed at Queenstown, eleven at Kinsale and 52 others are reported to be on steamers. All but one of the rescue fleet has reported. There is a slender hope that fishing boats and other craft have rescued a few more.

In addition to the living 45 bodies of those who died from injuries or who were drowned have been landed at Queenstown and five more at Kinsale, and it is reported 200 other bodies have been picked up.

Apparently few first cabin passengers are among the survivors. The American consul at Queenstown can account for only 51 Americans saved out of 188 aboard.

The roll of saved does not include Alfred Vanderbilt, Charles Frohman, Elbert Hubbard, Justus Miles Forman, the author or Charles Klein, the playwright. Of the Americans aboard 106 were in the first cabin, 5 in the second and seventeen in the steerage.

Roosevelt Condemns Act as Piracy And Says United States' Self Respect Is at Stake

Syracuse, May 8.—Theodore Roosevelt after learning the details of the sinking of the Lusitania last night said:

"This represents not merely piracy, but piracy on a bigger scale of murder than any old time ever practiced. This is the warfare that destroyed Louvain and Dinant and killed the innocent men, women and children of Belgium.

C. E. Swenson, Wichita Falls Man, Is Believed to Be Among Those Who Lost Their Lives

That C. E. Swenson, a Wichita Falls man was aboard the ill-fated Lusitania, is the belief of officials of the Wichita Falls Motor Company by whom he was employed. Mr. Swenson left about ten days ago to go to London for his company to demonstrate their motor trucks for which orders are now being taken in England. He wrote his children here last Saturday from New York that he was sailing on the Lusitania.

His expense account names another vessel but it is believed certain that

"It is warfare against the innocent and against our fellow countrymen. It is inconceivable that we can refrain from taking action. We owe it not only to humanity, but to our own National self-respect."

LUSITANIA'S CAPTAIN SAVED.

London, May 8.—Captain Turner of the Lusitania was among those saved it was learned today.

Washington Awaits More Definite Word From Scene; Situation Is Admitted Very Critical

Washington, May 8.—Officials are awaiting authentic news as to the number of killed in the Lusitania disaster before making any statement as to this country's course. It is admitted, however, that the situation is the most serious that has confronted the government since the Mexican crisis.

London, May 8.—According to one of the Lusitania survivors, the passengers saw the trail left by a torpedo as it flashed on its course toward the vessel. Then came a terrific crash as the missile pierced the vessel's side, followed by another which littered the decks with wreckage. The liner at once turned for the shore.

Four Topedoes Fired at Vessel by Submarine and Two of These Find Target In Liner's Side

Four torpedoes were fired but only two found their mark. The loss of lives from the explosion must have been terribly heavy. The tragic freight of bodies bears evidence of this. Many of those taken ashore were seriously hurt by the explosion and more than a score died from the effects of their injuries.

he sailed on Lusitania. Swenson is a mechanic who has been in the employ of the motor company about a year.

Frank Kell, president of the company has been cabling London and wiring New York in an effort to ascertain definitely but has been unable to do so.

Mr. Kell received a cablegram this morning from A. F. Landon, his British correspondent, saying that 1500 persons had been saved.

HAIL CAUSES DAMAGE NORTH OF IOWA PARK

Wheat in Some Fields Beaten Into Shreds and Other Serious Damage Done

Wheat waist high was torn to shreds and laid flat in a number of fields north of Iowa Park, garden crops were beaten to pieces, fruit was knocked from trees, rabbits and chickens were killed and other damage was done by a terrific hail storm that swept over a section north of Iowa Park late yesterday afternoon according to telephone reports from that place this morning.

Detailed reports could not be obtained because of storm put a number of telephones in the hail swept area out of commission but the damage has been heavy. Some fields are reported to have been so badly damaged that there will be no wheat harvest. Others were damaged fully fifty per cent. The storm was the same that approached Wichita Falls but the clouds raised before reaching this city and there was no hail here.

A severe hail storm is reported from the section southeast of Electric but the damage there was not nearly so heavy as in the district north of Iowa Park. Some damage to garden crops and other tender vegetation is also reported from Thoraberry. It appeared from Wichita Falls that a heavy cloud being passed around to the south and west of the city but no reports of serious damage had been received from that section up to noon today.

DEATH FOLLOWS SHOCK FROM LIGHTNING FLASH

Death of Wife Results Pitiable Struggle of Middle Aged Couple Far East

Among the death notices in yesterday's Times was one of a woman, past middle age, "death due to heart failure. Burial will be in Riverside." A short notice but to those knowing the inside of the case one full of pathos. Death was caused by the threatening storm of Thursday. The old couple (the notice stated "a husband survives") lived in a frail construction, half tent, half house, which was soaked with the downpour that accompanied the wind and lightning. Husband and wife stepped to the window to look out when the roar of thunder and an accompanying flash of lightning shook the tent home. In a moment the wife was lifeless in her husband's arms.

Neighbors tell of the unusual culture of the old couple, of their struggles for a livelihood and of their devotion to each other. Years ago the theatrical troupe of Hennessy & Boyle was a favorite with the theatrical public and the couple today was a leading actress in that troupe. If her name should be mentioned there are probably some here and still more in the older states who will recognize it as a one-time favorite. The husband was also a member of the same company, and the romance of the footlights and painted scenery has lasted through life. In time they left the stage, probably giving way to the public's insistent demand for musical comedy and chorus girls, but the joy of the world of make-believe has sustained them through hardships and misfortune. Neighbors and friends aided them as far as their pride would allow, for the husband could find no work to do and so they existed. They were great readers and surrounding libraries gave much pleasure. A favorite was "The Music Master," perhaps they saw a comparison in the two cases. It is the hope of the husband that the body of his wife may be shipped to Springfield to rest among friends and relatives (they have no near relatives living to give assistance) and with the aid of friends this may be accomplished. For the future the husband has no plans and little interest since his wife is at rest.

TEMPERATURE DROPPED NEAR 40-DEGREE MARK

Neither Came in Thursday Evening With Vicious Looking Cloud—Gas Fires Lighted

A near-norther that sent the mercury down almost to the 40 degree mark and that whistled through B. F. D.'s and summer clothes in regular January style visited Wichita Falls Thursday night and gave this vicinity a touch of winter that was out of all reason. Temperatures of 42 to 47 degrees were recorded by several thermometers and one at the home of George Simmons, who keeps weather records, went down to 46 degrees; it was on the north side of the house.

An hour or so before the crisp came a very vicious looking cloud overhung the city with all the earmarks of a cyclone cloud, but the twister did not materialize. Some hail fell during the afternoon. The drop in temperature was not so pronounced, coming after the rain of the past few days, as it would otherwise have been, but it was severe enough to cause decided discomfort. Gas heaters were glowing in many homes and those who had taken their stoves down for the summer saw the error of their ways. Overcoats were in evidence downtown, some with the color of camphor still clinging to their folds and the general atmosphere was much more of January than of May. Although records are not available, it is believed that all low temperature records for this time of the year were broken Thursday. At any rate the weather was contrary enough to upset all calculations of newcomers and those other things.

At The Theaters

The Empress. Fatty Arbuckle in a Keystone comedy, the nineteenth episode of "The Twenty Million Dollar Mystery" and a two part Kay Bee, "The Phantom on the Hearth" makes up today's program. Edward Brennan, Fannie Midgley and Violet McMillan are featured in the latter picture, a synopsis of which follows:

The Rev. James Larney has a beautiful daughter, Agnes. A circus comes to town, and the girl, seeing an advertisement for a parachute jumper, applies for the place and is engaged. She promises to join the show in the next village. Mr. Larney when he finds Agnes gone, guesses immediately where she is. Years before he had been deserted by his wife, who ran away with a circus, but never has he told his daughter of his lifelong sorrow. She believes her mother dead. At the circus Mrs. Larney drifts in to see some of her old ring associates and discovers that Agnes is her daughter. Feigning illness, she sends the girl for a doctor, thus preventing her making the balloon ascent. Mrs. Larney, herself, gets into the basket in her place. As the basket is veiled, the balloonist does not discover the substitution. Mr. Larney reaches the fair grounds just in time to see the balloon struck by lightning. He is in agony until Agnes returns from her errand, safe. Mrs. Larney and the balloonist are killed, and the girl goes home with her father.

The Gem. The detective series, "The Exploits of Elaine" which has been a startling success since the first releases will commence today at the Gem. The stories are written by Arthur Reeve and Craig Kennedy, modern detective of "Cosmopolitan" fame is the hero (portrayed by Arnold Daly). Pearl White who contributed to the fame of the "Flesch-Falouts" series is the leading lady and other actors of note are in the cast. A synopsis is given:

The Consolidated Insurance Co., of which Taylor Dodge is president, has suffered considerable loss through the mysterious robberies of the master criminal known as "The Clutching Hand." Perry Bennett, a young lawyer, assistant to Dodge, is endeavoring to discover the criminal. Being of an affable and pleasing personality, he creates a deep impression upon Elaine, his employer's beautiful daughter. Dodge is visited by Limpy Red, a gunman wronged by "The Clutching Hand." Limpy Red advises him how the mysterious crook can be found and gives him directions to find his lair. Dodge dismisses the gunman, and on returning to his office finds a mysterious note, advising him to at once destroy the directions received. It is signed by a well drawn picture of a Clutching Hand. Greatly perturbed, he returns to his home. Stepping out of his limousine he is surprised to find an envelope with his enemy's trade mark pasted on the door. Entering his home, he is met by Elaine, Bennett and Jameson, a reporter. He refuses to be interviewed by the reporter, and enters his library where he deposits Jameson, hearing Dodge remark that he has discovered "The Clutching Hand" hastens to his friend, Craig Kennedy, a noted detective, and tells him the news. Kennedy is greatly excited by this knowledge, and calling to Jameson to follow him, hastens on his way to Dodge's home, remarking that he fears for Dodge's life. Meanwhile, as night has fallen, two masked figures approach Dodge's home, and one of them, forcing his way into the cellar dragging wires, approaches the furnace pipe, and attaches them to it. Dodge, in his library above, as a precaution, removes Limpy Red's correspondence from the safe, and secretes it in a hidden recess in the wall, and places a take envelope in its place. Turning to answer his telephone, he steps upon an iron register on the floor. As he grasps the telephone, there is a powerful electric flash and Dodge sinks lifeless to the floor. The dead wires below have done their work. In a few moments the masked intruder enters the library, notes the dead man, and approaches the safe. Mixing some peculiar powders, he places them on the top of the safe and lights a fuse. There is a blind bang and the robber secures the envelope supposed to contain Limpy Red's confession. His partner searches out Limpy Red and slays him in a low dive. Kennedy arrives at the Dodge home and finds the body later. Dodge is found in the library, already the victim of "The Clutching Hand." The detective starts immediately to search for clues and recovers finger prints on a plaster bust. Examining them he finds them on a high degree of magnification to be the clearest of the criminal with

which he has to cope. Bennett, consulting the grief stricken Elaine, registers a solemn vow to consecrate his life to bringing the "Clutching Hand" to justice.

The Majestic. "Love and Trouble," an Essanay comedy, "His Own Hero," a Lubin, and "His Roman Wife," a two-part Biograph drama are today's reels. Alan Hale and Louise Vale are featured in the latter picture, a story of which follows:

On a surveying trip, Travers, a civil engineer, meets Zara, the belle of a pipey camp. Despite the warning that gipsy love seldom brings happiness, he marries her. Tombo, her lover, vows revenge. After her son is born Zara pines for her people and returns to them. Travers takes the baby home to his mother and renews associations with Alice Gray, his boyhood friend. Zara is taken from the camp by Gorman, a theatrical manager, who takes her as a classical dancer. Tombo follows her to the city. Travers again meets the gipsies and is told that Zara is dead. He asks Alice to marry him and she consents. At the theatre he recognizes his Roman wife in Zarita, the dancer. He rushes out distraught. After a sleepless night he reads in a newspaper that La Zarita is dead, stabbed by a jealous lover. Tombo has executed his oath of vengeance, and Travers is free to marry Alice—a woman of his race, with ideals like his own. For Roman love seldom brings happiness.

My Mother
Mother of mine, with hair of grey,
Little mother who cheered me at close of day,
Who brightened my task the whole day through,
Naught else mattered in life but you.

Mother of mine: How your eyes would shine
With the light of mother love divine;
I see you now in the twilight gleam,
And seeing, forget life's weary stream.

Mother of mine, your prayer of love
Comes down to me from Heaven above
Your presence gone, your love will remain
To strengthen me through loss or gain.

Madison Heights, Va.—Mr. Chas. A. Ragland, of this place writes: "I have been taking Theodor's Black-Draught for indigestion, and other stomach troubles, also colds, and find it to be the very best medicine I have ever used.

After taking Black-Draught for a few days, I always feel like a new man." Nervousness, nausea, heartburn, pain in pit of stomach, and a feeling of fullness after eating, are sure symptoms of stomach trouble, and should be given the proper treatment, as your strength and health depend very largely upon your food and its digestion.

To get quick and permanent relief from these ailments, you should take a medicine of known curative merit. Its 75 years of splendid success, in the treatment of just such troubles, proves the real merit of Theodor's Black-Draught. Safe, pleasant, gentle in action and without bad after-effects, it is sure to benefit both young and old. For sale everywhere. Price 25c. N. C. M.

as district president made the address of the evening and was presented with an immense shower bouquet of roses, a token from the First District. Officers were elected at the closing session Tuesday afternoon as follows: Mrs. W. R. Potter of Bowie, president; Mrs. Coffield, Bowie, secretary and treasurer; Mrs. J. U. Field, Haskell and Mrs. J. G. Nunn of Am- arillo, vice presidents; Mesdames S. H. Burnside and W. W. Silk of Wichita Falls, executive board; Mrs. R. E. Buchanan, parliamentarian. Seymour was unanimously selected as the next meeting place of the Federation.

Kidney Trouble Often Causes Nervousness and Heart Trouble
Two years ago I was badly run down, not able to do any work; suffered from nervousness, heart trouble, kidneys and bladder in bad shape; no appetite, unable to do any work, and since using six bottles of Dr. Kilmer's Swamp Root, I feel fine; am in excellent health and can do most any kind of light work. Since using the Swamp Root I have been relieved of all my above troubles. I cheerfully give the above testimony and hope others may be benefited. Very truly yours, J. L. Dickson, Westminster, S. C.

Sworn to before me, S. L. Brownlee, Justice of the Peace.
Letter to Dr. Kilmer & Co., Binghamton, N. Y.
Prove what Swamp Root will do for you. Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will cost you nothing. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing be sure and mention the Wichita Falls Daily Times. Regular fifty cent and one dollar size bottles for sale at all drug stores.—Adv.

OVER \$3000 DAMAGE JAMISON GIN BY FIRE

Blaze Thursday Evening May Have Originated From Tramps Taking Shelter There
Fire at 6:30 Thursday evening caused \$3000 to \$3500 damage to the Jamison gin at Indiana and Third streets. Two gin stands were put out of commission, considerable damage was done to the gin stand, and other equipment and the building was partially destroyed. It is not known how the fire originated, as the gin had not been running for some time, but it was possibly caused by tramps or others who used the building for shelter.
Both fire companies responded, but only one line of hose was laid and good work was done with this in spite of the fact that the flames had when the department arrived. One gin stand was totally destroyed and the other damaged; the brushes on the other stands were damaged by water. There was considerable damage to the woodwork in the engine room but it is not known whether the engine itself was put out of commission.
Estimates of the damage place the loss at not less than \$3000 and it will probably go higher. The loss is covered by insurance.

FREE BOOK ON STOMACH ILLS.

Geo. H. Mayr of 154 Wisting St., Chicago, Ill., a prominent druggist, has published a guide to health, in which he shows how he cured himself and brought relief to thousands of other sufferers from constipation, biliousness, indigestion and intestinal troubles by the use of French healing oils. One dose usually convinces. The most chronic cases rarely need over three doses. Any one wanting a copy of this book can get it at the drug store free. Mayr's Wonderful Stomach Remedy is now sold here by Foshoe & Lynch and druggists everywhere.

CATTLE DYING FROM PECULIAR MALADY

Fort Worth, Texas, May 7.—Cattle are dying in large numbers over the state from what is believed to be forage poisoning, according to reports received at the office of Dr. W. T. Chrisman, state veterinarian.
Calls have come from Bowie, Park Springs, Weatherford, Comanche, St. Jo, DeLeon and other places within the past three days. All of these states that cattle are dying from an unknown disease.

Dr. Chrisman stated Thursday before leaving for Bowie, where he was called by the Chamber of Commerce, "this must be a forage disease, as all our calls come from places in the timber belt, and no such trouble is being experienced by cattlemen of the prairie sections."
Of course, we shall not know just what the trouble is until several post mortem examinations have been made on the dead animals. In the meantime, I would advise all farmers and stockmen of timber section to keep cattle out of the wooded pastures at least until these rains stop and grass is given a chance to grow.
Dr. Chrisman will return from Bowie today and go direct to Weatherford, where further examination will be made.

Some of the reports received are to the effect that blooded cattle have been lost, and frequently in large numbers.
R. L. Banks, Parker county demonstrator, and Judge Temple, county judge, were called to the Bennett place near Brock in Parker county Thursday to investigate the cause of the death of eight head of cattle which died suddenly on the Bennett place recently. The cattle seem strangely affected, and as neither Mr. Banks nor Judge Temple could diagnose the disease, they are endeavoring to get in touch with the livestock sanitary commission at Fort Worth and get him to investigate the cases at Bennett's.

The Face Cream For You.

Editorial Room 167

Wichita Falls, Texas, May 7, 1915

In his message to the legislature Governor Ferguson asks for a million dollars for country schools, and that part of his message was, this paper has no the least doubt, received with approval by a great majority of the people of the State.

In a rather lengthy editorial the Denison Herald, in commenting on the fact that the Fort Worth papers are carrying advertisements daily signed by the manager of the North Texas Traction Company showing how and to what extent the jitney cars have interfered with their business, causing the Traction Company not only to fail to earn operating expenses during the past four months, but to maintain the street car service in the city of Fort Worth at a great loss, has the following to say:

"It may be as claimed by some that the jitney comes to us through the process of evolution, just as the electric car succeeded the horse drawn car and the auto the carriage and buggy and for that reason its adaptation and progress can not be stayed; but it might be well for the public to consider just what this convenience will cost in the long run through not having the aid of the assistance of the street car companies in the paving of streets and in the general development of the municipality. These are questions the public should consider while they are seriously crippling institutions which in the past have contributed so materially to the growth and prosperity of the city."

MAN WITH THE HOE.

Oh, this is the time when the man with the hoe gets out in the garden where gooseberries grow; he weeds out the weeds and he thins out the stalks, and no one would say he was kin to the ox. You see him exulting, you hear him exclaim "M-e-r-r-r!"

And look at the onions, a-flourishing there—they'll take the blue ribbon this year at the fair! And then, if you watch, you will see the man go, this downtrodden mortal, the man with the hoe, to call on his neighbors and brag of his greens, his cabbage and spinach and safety first beans. The man with the hoe, in the lands o'er the brine, may look like an ox or a sample of swine, as he drudges along in the heat of the day, for a crust and a drink and some counterfeit pay; but here in this land of the brave and the free, he bubbles with mirth and he chortles with glee; he whoops and he laughs, where the peasant repines, and bores us with tales of his successful vines.

Overman

For a man who was at first opposed to any changes in the Roberson law and was against the Gibson bill to start with, and later became interested in it only on account of the promise of insurance companies to loan money in Texas, and who up to as late as three days before he issued the call for the extra session said publicly that he had not promised any one to even submit the Gibson bill at this time, the governor of Texas seems to be overly anxious to get this bill passed. There may be a bug under the Gibson bill.

chip and the thing to do is for the legislature to sit down on it so hard that it will kill the bill. Let the Roberson law alone and if the exiled insurance companies want to return to Texas let them come back, pay what they owe in taxes and do like other companies have done—Sherman Democrat.

FRENCH FILMS WILL SHOW REAL WARFARE

Diseasified With Play Pictures Gov. ernment Cinematographers to Accompany Army

Paris.—Moving pictures have been unequal to the occasion, the press and the public declaring that "they have done little to either portray or exalt patriotic sentiment. Exploitation of films blame the censor, while he censor reports that producers of picture plays lack proper inspiration. Cinematograph directors gave a private view of films exhibited in other countries and even in some of the French provincial cities, but prohibited in Paris, to prove their case. Among the things to which the pre-ject of police objected were scenes of German prisoners captured in the Vimy Woods near Espery, German prisoners at the camp of Angers, a French village showing tombs of German soldiers after a battle, films depicting the destruction of churches and villages by fire and bombardment, realistic numerous picture plays presenting soldiers and Red Cross uniforms not in actual service.

The general opinion of the notabilities invited to this representation was that the censor was perfectly justified in cutting out imaginary war and hospital scenes, holding that they were unworthy to represent the heroism and devotion of the soldiers and nurses. A contrary opinion was held, however, regarding certain films of actual happenings. The result has been that the government has authorized four representative cinematograph concerns to take moving pictures of war scenes at the front. In the meantime moving picture houses are depending largely upon old films to entertain their public, which is gradually growing smaller.

French wit has always found a wide field of effort in the caricature of public officials of all grades and departments. Martial law has given the latter their first opportunity to revenge themselves. Any film re-

CARING FOR CHILDREN AND WIVES OF SOLDIERS

War Babies and Mothers' League Reports 4,000 English Babies Born out of Wedlock

By Associated Press London.—The work of the War Babies and Mothers' League, which has officially reported more than 4,000 cases of soldiers' children born out of wedlock, is described in a report by A. James Hills, its secretary. He says:

"The girl is very shy in owning up, and it is only at the last moment when she is frantic and distracted that she takes someone into her confidence. Before the baby is born, we feed the mother if she needs it and we arrange other details if she is unable to do so. If she needs clothes for the baby, for herself or for her other children, we give them."

By other children, Hills explained that many of the women who have to be assisted lived before the war as the wives of the men now in the trenches. In most cases, obstacles, military or otherwise, stood in the way of marriage. An Irish girl, a Catholic, said she could not induce her man, a Protestant, to marry in her church, and she refused to do so in his, so they did without. These couples live quite as respectfully as those legally united.

cordance with a notice from the German government vessels flying the British flag in these waters were liable to destruction and that travelers at their own risk made the journey on English vessels. The "Imperial German Embassy."

Another of the Lusitania's passengers was D. A. Thomas, a multimillionaire, Welch coal operator and Lady Makeworth, an English suffragette, Alexander Campbell, a prominent English business man just before going aboard the ship called the warning "Tommyrot."

A Queenstown message received later and timed 4:59 p. m. says: "About 20 boats of all sorts belonging to our line (Cunard) are in the vicinity where the Lusitania sank. About 15 other boats are making for the spot to render assistance. A message from Liverpool reads: "Following received by admiralty: 'Galley Head, 4:25 p. m.—Several boats, apparently survivors, are southeast nine miles. Greek steamer proceeding to assistance.'"

GERMAN MERCHANTS PROSECUTED FOR DISMISSING HELP
By Associated Press.
Berlin.—A large number of Berlin shop girls have brought action against firms, which, after inducing them at the beginning of the war to accept a reduction of salary, have dismissed them. There have been more than seventy prosecutions of one firm.

A special court at Charlottesville has now given judgment that such dismissals are illegal, holding that the reduction in salary was arranged and accepted on the understanding that it would prevent the employe suffering from unemployment during the war, and that employers cannot give notices of dismissal until normal conditions are restored in the labor market. If, therefore, a shop girl is dismissed, she is entitled to all sums deducted from her wages since the beginning of the war.

The world has known what Cottolene is for over a quarter of a century

Cottolene established a class of its own over a generation ago. Cottolene was in the front rank of the great movement for bettering household service and for improving food products. Its manufacture and its constituents are as well known as the simplest things done in every kitchen.

Cottolene

The cottonseed oil in Cottolene is pressed from selected seed—it is a grade so choice that it is not listed on the market. It is purer, sweeter and better in food value than most salad oils. The beef stearine is the product of the finest leaf beef suet known.

It is the exact combination of these two fats which gave Cottolene its high place over a quarter of a century ago, and which has held this place for it. Cottolene is economical, but better than that it actually improves the quality and flavor of all foods cooked with it.

Your grocer has Cottolene now

TWO SETS OF OFFICERS FOR FOREST OIL CO.

Further Litigation Impending Over Status of Company Having Holdings Here

The affairs of the Forest Oil Company, which have been in the courts already and concerning which one suit is now pending, are to be aired further as the result of quo warranto proceedings instituted by G. E. Wilson and T. B. Owen and their associates. It appears from the petition that this company now has two sets of officers or directors, one of which, it is alleged, was not properly chosen as a result of the control of the company is unsettled.

Some of the stockholders of the company early in March brought receivership proceedings against it, this action being taken by the Owen-Wilson faction of stockholders. The receivership was dismissed in the higher court; in the meantime suit had been brought by some of the stockholders against Owen & Wilson to recover certain property of the company, which it was alleged they held. Since that time, Owen and Wilson and associates have acquired a majority of the stock, but the other faction's officers and directors are nominally in control. The Owen-Wilson interests elected officers and directors of their own, and the quo warranto proceedings are to determine which set is the lawful one.

The Forest Oil Company was incorporated for \$300,000, taking over the oil holdings of Owen and Wilson, who had done some successful development east of Electra and in the town Park shallow field. Wichita Falls and Mineral Wells parties held most of the stock.

WOULD RID CITY OF RESERVATION DISTRICT

Committee Appointed Recently to Devise Plan to Clean up City

With the purpose of working out some plan for ridding the city of the reservation, a committee from a local church has been organized and is now mapping out a plan of action. The committee was appointed this week to see what can be done, and consists of T. B. Noble, M. P. Kelly and S. E. Trevathan.

Nothing has been given out by this committee as to its plans, further than steps are to be taken at once. It is understood that no effort will be made to have coercive action taken by city or county authorities until other means, the nature of which is not being made public, have proven unsuccessful. The committee in question was named at a meeting at the M. E. Church, South, where the pastor, Dr. A. L. Andrews has in his sermons, been dwelling upon the necessity for the citizens taking some action.

OWNER AND TENANT SUING OIL COMPANIES FOR DAMAGES

Suits were filed in the 78th district court today by F. B. Weddle vs. Forest Oil Company, Corsicana Petroleum Company, J. M. Guffey Petroleum Company and Red River Oil Company and by E. A. Perkins vs. the same companies and the Producers Oil Company, for damages arising from oil and salt water flowing into a tank on land owned by Mr. Perkins on which Mr. Weddle is a tenant. Last year Mr. Weddle sued the five companies named, but a judgment of parties was made, and the plaintiff was given a judgment of \$338 from the Producers Company alone. Now he is suing the other four companies, while the owner of the land is suing all five. The sum of \$2500 is asked from each of the tenant and \$10,000 by the landlord. T. R. Boone is attorney for the plaintiffs.

"I AM GOING" BADGES MAKE THEIR APPEARANCE

Go-to-Church Campaign Committee are Displaying Great Activity Here

Badges with the legend "I am going" are being distributed today by the committee in charge of the go-to-church campaign, and are appearing on many coat labels. EFFECT OF UNIFORM ON SPIRIT OF WORKINGMEN

By Associated Press
London.—The success which has attended the experiment of placing workmen in uniform is being investigated from a psychological standpoint, writes a college professor to one of the London newspapers. He explains:

"I have frequently been told by recruits in the army that, although they have felt some enthusiasm when drilling in civilian costume, it has been of a lukewarm character compared with the intensity of spirit which seemed to develop after they had donned their uniforms and been supplied with rifles."

"In this emotional elation a very change of clothing is illustrated a very common rule of life, which has been felt by most of us in the course of everyday existence. The bishop or parson who discards his clerical attire and gets into his golfing garb throws aside memories of theological arguments and concentrates on the hope of emulating the strokes of a Braid or a Vardon. A hospital nurse lives up to the glorious traditions of her uniform. A change into evening dress is a much more potent appetizer than a slerry and bitters."

GERMANS COULDN'T SUPPRESS BELGIAN ENTHUSIASM

Amsterdam.—Seventy Belgian prisoners who recently passed through Bruges in charge of a guard of German soldiers received a rousing welcome from the Belgian inhabitants of the town, notwithstanding the orders of the German municipal authorities that no demonstrations were to take place.

The prisoners, who included infantrymen and engineers, were captured near Deirterghem. As they passed down the streets of Bruges, the people of the town gathered along the sidewalks. Hats and handkerchiefs were waved in the air and there were shouts of "Vive le Belgique," "Leve België" and "Leve de Koning." The prisoners smiled and answered back "Comrade, comrade." Meanwhile the crowd showered them with gifts of fruit, chocolate, sandwiches and cheese.

While the enthusiasm was at its height, some of the German horsemen charged the crowd. It is said that the municipal authorities will assess a fine against the populace for the unauthorized demonstration.

WICHITA FALLS WILL BE 'ALL DOLLED UP'

Under the direction of a special decorator and engineer for the work, Wichita Falls is now being dressed up for the U. C. T. convention which begins next Thursday. J. Drayfuss of Dallas, an expert decorator, has been employed for this work and is here to begin his duties. If the weather permits, this work will be pushed rapidly in the next few days so as to reach all merchants by the time the convention opens. The national colors and those of the U. C. T. are to figure in the decorative scheme. Practically all merchants downtown have agreed to decorate and the entire business section will bespeak Wichita Falls welcome to the visitors when they arrive.

JITNEY ORDINANCE BEFORE COUNCIL

MEASURE INTRODUCED BUT FIRST READING GOES OVER TO LATER MEETING

TERMS NOT OBJECTIONABLE

Drivers Disposed To Accept Ordinance As Drafted With a Few Slight Changes

A jitney regulation ordinance to which the jitney drivers have little objection was introduced at Thursday night's meeting of the council, and went over to a later meeting on its first reading. The jitney drivers were present with an attorney, but after hearing the ordinance read they seemed to have little fault to find with it, and the indications are that it will pass with some minor changes.

The ordinance provides for \$10 annual license fee for five passenger cars and \$20 for larger cars; for the furnishing of a bond; for the maintenance of regular routes and schedules; and for a limit on the number of passengers to be carried. The proposed section keeping jitneys off streets used by the car line was not included. The section covering regular routes and schedules provides that jitneys must run at least twelve hours per day.

Little Objection Made.
W. F. Weeks, attorney for the jitney drivers, said the main objection was to the twelve hour proposition, and he said such a rule could serve no good purpose. There were only a few hours a day, he said, when traffic was heavy. He suggested that when a jitney operator applies to the council for a license, he be required to state what hours he would operate his car and maintain his schedule for those hours. Mr. Weeks expressed his satisfaction over the general nature of the ordinance, saying that in some places the purpose of such ordinances had been to regulate the jitneys out of business.

Mayor Britain stated that such was not at all the purpose of the council. The ordinance was discussed at some length; Mr. Weeks thought the \$3000 bond was somewhat high, but this feature was not gone into to any extent. The ordinance provides that jitneys more than two blocks and this will work a hardship on those who have been accustomed to making special calls for extra pay. Copies of the ordinance will be furnished members of the council for study this week and the matter will come up on its second reading next Thursday.

Wreck and Dray Ordinance.
A new hack and dray ordinance keeping these vehicles off Eighth street was introduced and also placed on its first reading; it provides numerous places where hacks and drays may have their stands, as follows: North side of Seventh street for 60 feet east of Ohio and 60 feet west of Ohio; east side of Indiana avenue south of Seventh, for 60 feet; 60 feet on Seventh street at old Fifth National corner; Indiana avenue north of Seventh, 20 feet on Ohio across from the city hall; on Ninth from Michigan to Ohio and on Michigan from Seventh to Eighth 15 ft. license fee.

The city attorney was instructed to prepare a new ordinance on Ohio relating to driving stock through the streets. At present one man may drive as many as five cows and some complaint has been received of damage to lawns and flower beds. It is probable that the number will be reduced.

MANY PORT ARTHUR MEN ABOARD THE GULFLIGHT

Captain Gunter Was Member of Elks Lodge There and Well Known Officer

Port Arthur, Texas, May 7.—A number of Port Arthur's citizens were on the steamer Gulflight, which was torpedoed off the Scilly islands, but with the exception of Eugene Chapais, seaman, who was drowned, none of them was injured.

First Officer R. E. Smith and Chief Engineer Butterworth both live in Port Arthur. Smith took charge of the vessel upon Captain Gunter's death, and reported the injury of the vessel to the Gulf company.

Captain Gunter was a member of the local lodge of Elks, and one of the well known sailing masters taking vessels out of this port, and had been in the oil-trade here for thirty years.

Following is the complete crew list of the Gulflight, with their places of residence, as filed in the customs house before sailing on April 10:
Paul K. Bonasa, Gulf company, Port Arthur.
F. Hillebrand, New York.
B. Johnson, Sweden.
E. H. McFaddin, Port Arthur.
E. Johnson, Norway.
Arnold Short, Chicago.
Victor Kreguler, Philadelphia.
Albert Lee, Boston, Mass.
C. Oldenberg, Denmark.
Henrik Thorsen, Norway.
Harry Hogden, England.
Eugene Chapais, Port Arthur.
G. W. Smith, Baton Rouge, La.
E. P. Butterworth, Port Arthur.
Emil Entorn, Bayonne, N. J.
Conrad Jackstead, Philadelphia.
Axel Lundquist, Brooklyn.
George Sand, Brooklyn.
O. N. Nelson, Green Bay.
F. C. Mesler, Chicago.
John Taylor, Port Arthur.
D. Becker, Port Arthur.
L. F. Blasey, Columbia, Miss.
Felix Eysmaus, Port Arthur.

D. 1915, at four o'clock p. m., said sale subject to confirmation by the Court, the right is reserved in the Court to reject any and all bids, the object of merchandise, furniture and fixtures can be seen at any time on application to the undersigned. M. MCGINLEY, Trustee in Bankruptcy. 4-10c.

SAN FRANCISCO'S SEA WALL COMPLETED TODAY By Associated Press. San Francisco, May 7.—After nearly 20 years work a concrete seawall here has been completed today. Millions of dollars have been spent on the wall which gives San Francisco a broad drive and dock front extending along the bay for miles.

At The Churches

Christian Church Bible school at 9:30, preaching at 10:45 in the morning, and at 5 o'clock in the evening by the pastor. Christian Endeavor at 7 o'clock. This is Bible school and church attendance day, and all friends are invited to attend every service. If you are a member of this church you are expected to be present beginning with the Bible school. Loyalty to the church of your choice demands that every church member in this city be present not only now but at every service in the future. Let us work for our Master and our King like we meant business. The pastor will return before Sunday from the state convention at Dallas, and we feel he will have a great message for us. Strangers and friends will find a cordial welcome at the Bible school and at the church services. Come and let us worship together. J. W. BRADLEY, Chairman Official Board.

Church of Christ Bible school opens at 9:30 a. m. Preaching at 11 o'clock, and at 5:00 p. m. Morning subject: "The Old Testament Gospel." Evening subject: "The Gospel All-Sufficient." We hope for a pretty day and a large crowd. Remember the church is between Eleventh and Twelfth streets on Bluff. C. A. BUCHANAN, Minister.

Fourth Street Baptist Church This is Go-to-Church day. We want every member of our church and congregation, as well as all others who may not go elsewhere to attend our services. Begin with the Sunday school which meets at 9:45. Preaching at 11 a. m. at 3 p. m. Sunday school band at 2 p. m. H. Y. R. U. at 7 p. m. Woman's Alliance Monday, 8 p. m. Midweek prayer meeting Tuesday 8 p. m. This is also mother's day. Let us all honor our mother's religion and make church attendance in Wichita Falls a record-breaker. You are cordially invited to worship with us. T. E. CANNEDY, Pastor.

Lutheran Church (Mo. Synod) (Corner Eleventh and Holiday) Sunday School (German and English classes) at 9:00 a. m. Bible Class at 9:45 a. m. German morning worship at 10:30 a. m. English services at 2:30 p. m. Everybody is cordially invited to worship with us. C. M. BEYER, Pastor.

The Church of Good Shepherd (Corner Tenth and Burnett) Regular services—Sunday school at 9:30; morning worship with communion at 11. Evening service at 8. BIG INCREASE IN THE SCHOLASTICS EXPECTED Austin, Texas, May 6.—It was predicted here today that the scholastic census of Texas, which must be taken during May by the census school trustees of the state, will show an increase of at least 75,000 school children between the ages of seven and seventeen years. There now are 1,100,000 school children of those ages registered. Approximately 10,000,000 banks already have been mailed to the trustees who are to take the census in each district. The census trustee under the law is required to visit each home in his district and make a careful enumeration of the children and return his enumeration to the state department of agriculture.

FRECKLES

Don't Hide Them With a Veil—Remove Them With the Othine Prescription. This prescription for the removal of freckles was written by a prominent physician and is usually successful in removing freckles and giving a clear, beautiful complexion that it is sold by druggists under guarantee to refund the money if it fails. Don't hide your freckles under a veil; get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely. Be sure to ask the druggist for the double strength Othine; it is this that is sold on the money back guarantee. (Adv.)

MAN FALLS FROM WINDOW WHILE WALKING IN SLEEP

Quinn Tribune Chief.

"Come quick, the man above me has committed suicide."

This was the cry that fell upon the ears of R. F. Nix, landlord of the Nix hotel, at midnight Sunday night.

Groans were heard outside, and Mr. Nix found a young man, one of his guests lying upon the ground, north of the building, with a broken back.

The unfortunate young man was found to be John Seymour, of Sulphur Springs, barely twenty-one years old.

His injuries were due to a fall. When he awoke he had arrived from the North and blew a long piercing whistle, which frightened the sleeping boy, who was addicted to sleep-walking, and who made a head-long dive out of the window of the third floor.

Being about twenty-five feet above the ground, his head made a hole more than five inches deep in the soft earth.

Dr. Hanna was hurriedly summoned, and could only state that the case was hopeless. The boy might live for a while, but he would always remain a cripple.

Some fifty dollars was made up, and the young man shipped back to his home at Sulphur Springs. R. A. Davidson going with him to see that he be made as comfortable as possible while traveling.

The Difference

There is a difference between pretending and doing, between sentiment and remembrance as much as there is between real heart aches and pretentious sorrow. One is the contraction of the tender cords around the heart by the act of memory, the other is crying aloud to be heard and seen of men. A real sorrowing heart seeks relief in deeds of kindness and benefaction to the world and humanity. You make every one glad and proud of your cemetery when your acts of love and remembrance are expressed by a lasting tribute.

THE LAND OF SHEBA

modern lawn. We do not know. Its white and fragrant blossoms and rich, dark red cherries, doubtless beautified the woodland in Ethiopia in the days of the historic queen who visited Solomon at Jerusalem, a thousand years before the birth of the Babe of Bethlehem. One would like to know that this progressive woman introduced this cheering cup to the ruler of Palestine, but there is not a myth, although Menelik, the present king of Abyssinia, claims direct descent from Solomon and Sheba, it being a tradition that Sheba became one of the monarch's many wives. Be this as it may, all the rulers of that ancient country have since claimed descent from the author of the Proverbs. Ethiopia embraced Judaism in ancient days, and was converted to Christianity in the Fourth Century.

This ancient land of Sheba was the garden in which the first coffee tree blossomed to bless the race, so far as history and tradition informs. True, the coffee tree may have graced the Garden of Eden, as it would beautify a modern lawn. We do not know. Its white and fragrant blossoms and rich, dark red cherries, doubtless beautified the woodland in Ethiopia in the days of the historic queen who visited Solomon at Jerusalem, a thousand years before the birth of the Babe of Bethlehem. One would like to know that this progressive woman introduced this cheering cup to the ruler of Palestine, but there is not a myth, although Menelik, the present king of Abyssinia, claims direct descent from Solomon and Sheba, it being a tradition that Sheba became one of the monarch's many wives.
