Special to The Times.

lowa Park, Texas, June 17.—Hail stones as big as baseballs fell here yesterday afternoon breaking window lights in many homes and business uses in the town and stripping the foliage and fruit from trees. A heavy rain fell. The rain and hall were preceded by a hard blow which took down a string of telephone poles. North of town uncut wheat was beat en into pieces. The hail continued en into pieces. The hail continued to fall for about fifteen minutes. Telephone wires are down in the country and it was impossible this morning to learn the extent of the damage. The big hail stones, however, are known to have fallen over only a small area. A mile and a half north of town no rain or hail fell.

file word: Common stage makes the word mean a body of worshippers and some will even call the building in which they worship the church. In Grecian literature the word from which we get church is used thousands of times and has no reference to a worshipping body. In Acts 19:32, 39, 41, we find the word assembly and it comes from the same word from which the word church comes and there it has no reference to the church of God. In one instance it refers to a court one instance it refers to a court where men are tried for crime. Literally speaking, the word means, to call out; to congregate together; to assemble. In the New Testament it means to be called out of Satan's kingdom into the kingdom of Christ. Who hath delivered us from the power of darkness, and hath translatson," Col. 1:13; "Whereunto he called you by our gospel," 2 Thes, 2:14. The church of God is a body

of spiritual worshippers, who have been called out of the service of Sa-tan by the gospel of Christ. To be a Christian is to be a memper of the church, for the very same law that makes a person a Christian makes bim a member of the church. The kingdom of Christ and the church of Christ are the same, so to be in the church is to be in the kingdom and to be in the kingdom is to be

Church membership in the sight of God and the teaching of the Bible is a result. It is the result of men being born again. Our membership in our fleshly families is a result of natural law, and our membership in the family of God is a result of spiritual law. "Except a man be born again, he cannot see the kingdom of God—except a man be born of the water and spirit, he cannot enter into the kingdom of God," Jno. 8:3-5. When people obey the gospel of Christ, God will add them to the church daily such as should be saved," Acts 2:47; "But now hath God set the members every one of them in the bedy, as it hath pleased Him," I Cor. 12:18. The very moment you become a Christian, a child of God, you become a member of the church, the family. To be a legitimate child is to be a member of a family. Such terms as a visible, nyisible church are unknown to the teachings of the Bible. It is just the church, a spiritual institution, composed of baptized believers in Christ, Gal. 3:27. To talk about joining the church after becoming a Christian is just about like talking about joining some flesily family after you have had an exly family after you have had an ex-istence in this world for fifteen years. When you were born you beily as a result of the natural law, so when you were born of God you be-came a member of the church and you do not have to join the church.
I can't turn a man out of the church, because I can't turn him.
Christ takes care of the membership and we look after the fellowship or association. By your name being on the church roll does not make you a member. If it does, then, when the rats ate up the church roll over in Kentucky they are up the church

the destruction of the Lusitania on May 7. Within the last few days much has been written on the various aspects of the achievement, but little emphasis has been laid on the danger which threatens those who embark in large ships.

"The peril is not se much from submarines as from the lack of discipline on the part of the English crews and the imperfect nature of the life saving apparatus. About half the crew of the Lusitania was saved, or we should say, saved themselves, while scarcely one fifth of the passengers escaped. That says much. Whoever travels by English ships can count himself as lost in the event of a mishap. That was the case before and is still the case new."

The Wichita Daily Times says: A few days ago there was sbank failure at Amarillo. It was a state guarantee bank, however, and the depositors will not lose one cent. The state guaranty fund has in it \$961,000 and the closing of the Amarillo bank will take from it the sum of \$89,000 with which to pay the protected depositors. The more we see of this law the better we like it. Every depositor who trusts his hard-carned money to a bank should be protected to the limit, and that is what has been done in every instance where a bank operating under this law has failed or closed its doors.

And the El Paso Times says: According to a statement made by Receiver Arnold, depositors of the defunct Arizona Bank and Trust Company will receive 75 per cent when its affairs are finally wound up. The first dividend of

50 per cent will be paid on May 4, it is said. The patrons of the Texas bank will get their money promptly. The patrons of the Arizona bank will only get 75 per cent and will have to wait for that.

### Here's an actual gift.

Nobody asked for better tires than Goodyear built last year. They were so extragood that for years these tires have outsold any other.

But we found new improvements. This year we add them at an extra cost of \$500,000 for the year.

### \$5,000,000 Less

Yet this year -- on February 1st-we made another big price reduction. On this year's probable output it will save Goodyear users some \$5,000,000. And that was our third reduction in two years, totaling 45 per cent.

At The Theaters

Mr. and Mrs. Sidney Drew are fea-ured in a three-part Broadway fea-ure, "Between the Two of "Fhem." story is given:

While competing for the ten thous and dollar prize play, George Gray, an author, will not permit his wife, Marjorie, who is really very talented to assist him or make any suggestions. Realizing that he is not doing the plot justice; Marjorie interviews a dramatic critic and enlists his aid. A couple of "charitable" neighbors see her enter the critic's home alone. and scenting a scandal, consider it their duty to warn Gray. Thinking the anonymous warning preposterous, George tears it up, but later, finding an apparently compromising letter, is greatly disturbed. Doubts creep into his mind, and he engages the services of Steele, a detective, to watch Marjorie. That night, she goes to the critic with the play finished according to her own ideas. Delighted with its great improvement, they talk enthusiastically over it and the de-tective, watching them, misconstrues the situation. Gray completes his play and sends it off, after which he receives the detective's report. He goes to Marjorie's room, where he bitterly denounces her and goes out of the house, without glving her a chance to defend herself. Several days afterward, Gray receives word from the publishers that they have accepted the "corrected version" of his play! He does not know what to make of it, as he knows nothing of any other version than his own. Gradually it dawns on him his wife must have something to do with it, and when he receives his check with his wife's manuscript, containing his name as author, he knows the truth. He now feels keenly their estrangement and becomes remorseful. On the opening night of the play, it proves a hit, and unable to stand the lause and congratulations, he does applause and congratulations, he does the only honorable thing. He publicly announces that credit for the authorship is entirely due to his wife. Marjorie leaves the theatre and hurries home, locking herself in her room. On Gray's humble return, she tells him- through the locked door -just what she thinks of him; when he is thoroughly penitent, she permits

The Empress.
"The Day of Reckoning," a two-part
American with Vivian Rich, Louise
Lester, Jack Richardson and Charlotte Burton is the feature today at the Empress. It tells the story of a heroine who has suffered much and a hero who is a real man. Virginia Kirtley and Joseph Harris are featured in a pretty little comedy,
"The Face Most Fair," and the program is completed by a one-reel American, "When Empty Hearts are
Filled." Harry Von Meter and Vivian
Rich are featured. A synopsis fol-

Paul Latham and his wife, their cottage and a fishing boat, which means to them happiness and independence—until Paul meets with an accident which cripples him for life. In his despair, he is on the verge of ending it all, when Nancy saves him just in time. She has found a child, strapped to a hatch, evidently washed ashore from some wreck, unable to trace the boy's iden-the little newcomer brings to Paul Latham something to live for. When Tom is six years old, a Mr. and Mrs. Bayly come to the village. They are seeking their child who was lost from the "Oceanic" three years before. Paul and his wife see the notice in the newspaper, describ-ing how the child was lashed to a hatch and set afloat. They bow be-fore the inevitable. Tom's belongings are packed, and the boy carefully washed and dressed—to await the dreaded arrival of his own parents. But when Mr. and Mrs. Bayly come, they declare that their child is a girl. Paul and his wife, even in their sorrow for the despair ing couple, cannot help thanking heaven for the fate which again has filled their empty hearts with joy.

# CAUILLAC EIGHT SETS A NEW COAST RECORD

Makes Night Drive From Los Angeles to San Francisco in 12 Hours, 10 Minutes

Again the Cadillac-this time the eight cylinder type—has set a new ecord for the run from Los Angeles to San Francisco, according to word received by the Cadillac Company from Don Lee, its California distribut-Mr. Lee terms this performance the greatest road record ever made

By road, the distance from Los Angeles to San Francisco is 492 miles. The Cadillac, being driven at night, made the run in 12 hours and 10 minutes: The car left Los Angeles at 8 m., June 3 simultaneously with "The Lark" the fastest train on the Southern Pacific railroad, which makes its run between the California metropolis in 13 hours, 45 minutes. The train's time was beaten by I hour and 35 minutes, the meter car arriving in San Francisco at 8:10

a. m., June 4. In order to set this new record, it was necessary that the Cadillac maintain speed great enough to average al most 40 1/2 miles per hour. The perils of such speed are obvious when it is known that practically the entire distance was made during the darkness of night, over roads that rise and fall in the mountains, skirt precipitous cliffs and abound with sharp and dangerous turns. The car was driven by Baudette and Bramlette, who alternated at the wheel and carried

two other men as passengers. Almost every year Mr. Lee sets a new record for motor car travel be-tween California's chief cities; and this record usually stands until a Cadillac breaks it the following year. The car which has just made this run is the first Cadillac Eight demon strator sent to the coast, and had been driven 17,000 miles prior to this drive. It carried all stock equip-

### 350 BELGIAN CHILDREN REFUGEES FROM THE YSER

Paris.—Three hundred and fitty little Belgian child refugees have just strived in Paris from the region of the Yser, which has lately been the scene of bitter fighting. Most of scene of bitter fighting. Most of the 350 are orphans. In other cases their parents relused to leave their For months most of these chil dren have lived in ruined houses, in caves, in barns and even with the soldiers in the trenches. . Colonies for them have now been arranged in Southern France, where they will be looked after by Belgian school teachers and Belgian pans.
