100 INDICTED FOR ELECTION FRAUDS AT INDIANAPOLIS

TOM TAGGERT ONE OF THOSE INDICTED

LIST INCLUDES PROMINENT REPUBLICANS, DEMOCRATS AND PROGRESSIVES

CONSPIRACY IS CHARGED

Violation of Primary and Election Laws and Bribery and Blackmail Among Counts

By Associated Press. Indianapolis, Ind., June 22.—An indictment charging election frauds and conspiracy was returned against more than 100 persons including several high in party councils by the Marion county grand jury here today. The charges are based on the election of November 3, 1914, the registration of last September and October and the primary of May 5, 1914. Thomas Taggart, Democratic national committee man, Mayor Joseph E. Bell, Chief of Police Samuel Perrott, Fred Barrett, city attorney, and Democratic county chairman Robert Metzger, former chief of police and Republican member of the board of safety and Frank P. Baker, former county prosecutor, are among the more prominent of the men indicted. All the men, Democrats, Republicans and Progressives, are named in a single indictment which contains 48 counts. The main charge is conspiracy to commit felonies by corrupting the election, by violation of the primary law and registration laws, by bribery and blackmail. Many members of Mayor Bell's official family, former city officials, policemen, ward leaders and primary and election officials are among those indicted. An indictment was also returned against Donn M. Roberts, former mayor of Terre Haute. Roberts' connection with Indianapolis politics was touched upon during the trial in the federal court when he was convicted and sentenced to six years in the federal prison. Several witnesses mentioned the alleged fact that Roberts had sent repeaters to Indianapolis from Terre Haute. The indictment charges certain officials with conspiracy to permit persons to register falsely in the primary and in the election. Another charge against certain officials is that they substituted other ballots for the purpose of substituting other ballots therefor. Two counts set up a conspiracy to aid and abet primary poll clerks in marking ballots in a manner different from that requested by the voters, while other counts allege the use of money in influencing the electors both at the primary and in the general election. Another charge is that certain election officials gave information to outsiders as to how some were voted. Taggart was the first of the indicted men to appear at the sheriff's office to acknowledge service in the case. He was followed closely by Mayor Bell. Both were released on personal bonds of \$5,000 each.

COMMITTEE NAMED FOR LABOR DAY CELEBRATION

Observance on a Much Larger Scale Than Heretofore Planned by the Labor Council.

Plans for a big Labor Day celebration here are already under consideration. It is expected that the celebration will be on a much larger scale than last year. At the meeting of the Trades and Labor Council last night a committee was appointed to report an outline for the observance of the day here. Outside towns will be invited to join in the celebration. This committee comprises Messrs. Wray of the printers, Willard of the musicians and Malone of the barbers.

WAR MUNITIONS GRAVEST PROBLEM FOR ALLIES

David Lloyd George Forming Committees in Every Manufacturing Town in Britain

By Associated Press. London, June 22. (3:47 a. m.)—David Lloyd George, minister of munitions who returned from a week's end stay at Bologne where he consulted Albert Thomas, French under secretary of war on the munition question, is forming committees in London and in all manufacturing towns to take advantage of every possibility for increasing the production of munitions. This is the gravest problem confronting the allies in all theatres of war, he said.

SIGNALING OF STOPS AND TURNS BY AUTOISTS

Such a Provision May Be Added to the Traffic Ordinance Now Before the City Council

Autoists will be required to signal when they are making turns or preparing to stop, if the new traffic ordinance is passed by the council. This feature is not in the ordinance at present, but City Attorney Nutt expects to add it before final passage is secured. The same rules will apply as in Dallas and other cities, and it is believed that observance will result in preventing many automobile accidents. An autoist intending to stop would extend his arm at right angles to the machine, so that any vehicle in the rear could see it. There are also signals for indicating which direction a car will turn. The ordinance has been passed to third reading by the council, and comprises many new regulations. Not only automobiles but horse-drawn vehicles will be regulated and pedestrians will not be overlooked. As a trouble is anticipated when the "jay-walking" provision becomes effective, but it is believed the public will soon become accustomed to its observance. No limit is placed by the ordinance upon the length of time a car may stand at the curb; in many cities a car may remain only a stated number of minutes, but no such provision is contemplated here.

FIRST LOAD OF WHEAT HAS BEEN MARKETED

Came From Thornberry Community and Was of No. 2 Grade Testing 59 Pounds

The first load of 1915 wheat has arrived in Wichita Falls, being from the Doyle & Thornberry farm near Thornberry, Clay county. It was of No. 2 grade and tested 59 pounds. Four loads were brought in from this farm, where threshing is still in progress. Up to noon today no Wichita-county wheat had been brought in here, although some is expected hourly. The Wichita Mill & Elevator Company has shipped eight cars of new wheat which came in by rail from Oklahoma and Wichita Valley points. It averages 58 and 59 pounds test. One load from Oklahoma testing 60. Most of it is No. 2 and No. 3. Manager G. H. Hodgkin of the elevator said that some smutty wheat had come in, this condition resulting from excessive rains. Threshing is now in progress at a number of points in the county.

GENERAL DEWIT FOUND GUILTY OF TREASON

Gallant Leader of Boer Forces Who Led Uprising Against England Receives Prison Sentence.

By Associated Press. Bloemfontein, Union of South Africa, via London, June 22. (noon)—Sentence of six years imprisonment and a fine of \$10,000 was imposed today on General Christian DeWet, one of the leaders of the South African rebellion against the British government, who was found guilty yesterday of treason on eight counts. General DeWet was commander in chief of the Free States forces during the Boer War. In 1914 he headed a rebellion in the Orange Free State and Western Transvaal against Great Britain. He was promptly captured, however, and the trial which resulted in the sentence today was begun on June 10.

Market Reports

Local Grain Market. Wheat 90 cents; oats loose 30, sacked 32 cents.

Chicago Grain Futures. By Associated Press. Chicago, June 22.—For the first time this season wheat prices today went below one dollar for the July option and for September. Continued improvement in harvest weather was mainly responsible for the decline, however, profit taking by shorts brought about something of a rally. After opening 1/4 to 2-14 down the market steadied at a range that averaged one cent under last night's level. Better trade conditions eased off corn. Oats gave way with wheat and corn. Renewal of rains in Kansas led afterward to more decided upturns in wheat. The close was unsettled. Corn closed nervous. The close for the leading months: Wheat, July 1.01 3/4; Sept. 97 7/8; Dec. 1.02 7/8. Corn, July 72 7/8; Sept. 72 1/8. Oats, July 43 3/4; Sept. 38 1/8.

Fort Worth Livestock. By Associated Press. Fort Worth, June 22.—Cattle receipts 2500, steady, beefs \$6 to \$7. Hog receipts 500 steady, lights \$7 7/8 to \$7.80. Sheep receipts 1000, steady. Lambs \$8 to \$9.

Kansas City Cash Grain. By Associated Press. Kansas City, June 22.—Wheat No. 2 hard \$1.16 to \$1.19; No. 2 red \$1.16 to \$1.18. Corn No. 2 mixed 73. Oats No. 2 white 45.

New York Cotton Futures. By Associated Press. New York, June 22.—Cotton opened steady at an advance of 3 to 8 points on covering by some of yesterday's sellers. The demand, however, was by no means active and prices soon eased off to within a point or two of last night's closing. Liquidation became more active late in the morning and prices broke rather sharply with active months selling 1/2 to 3 points under last night's closing figures. Trading was less active during the late forenoon with active months 5 to 10 points net lower under continued scattering liquidation. Cotton closed firm. July 9.36; Sept. 9.75; Dec. 10.10; Jan. 10.46; March 10.30.

QUET PREVAILS AT ATLANTA TODAY

POLICE AND MILITARY AUTHORITIES, HOWEVER, ARE PREPARED TO ACT

MILITIA GUARDS GOVERNOR

Troops Called Out Last Night to Protect Governor's Home From Mob Gathered There

By Associated Press. Atlanta, Ga., June 22.—While the militia still was on guard at Gov. Slaton's country home quiet prevailed both there and in the city today and there was no indication of a repetition of the exciting scenes of yesterday and last night which followed the commotion of Leo M. Frank's death sentence in the city near beer saloons which were closed by the authorities yesterday were allowed to re-open this morning and there were no crowds on the street. At the governor's home it was stated that the militia probably would be withdrawn tonight. Officials of the state and city insisted today that last night's demonstration ended danger to Governor Slaton among the people most bitterly opposed to the commutation of Frank's sentence. A state of preparedness, however, was maintained today both by the police and the military authorities. The calm of the day was in striking contrast to the tension of yesterday. Word received from the state prison farm at Milledgeville was to the effect that Frank was not yet in physical condition to take up work. His long confinement and the strain of the last few days taken in conjunction with his night ride by automobile and train to the prison farm seem to have completely unnerved the man who had shown such a remarkable stoicism heretofore.

TROOPS CALLED OUT TO PROTECT GOV. SLATON

Atlanta, Ga., June 22.—With several hundred men and boys clamoring for admission through gates which had been barricaded by barbed wire and threatening to overpower the twenty county policemen armed with riot guns, Governor Slaton late last night called upon the militia to protect his home. Four companies of State Guardsmen were rushed to the governor's country home in automobiles and martial law was proclaimed in a district extending half a mile in front of his home, half a mile back and for a distance of about a quarter of a mile on either side. When the soldiers lined up with fixed bayonets to disperse the crowd, stones, bricks and bottles were thrown at them. A brick struck Lieutenant Arnold Parker in the stomach and rendered him unconscious for a short time. A bottle thrown at W. W. Foose, a private, struck his gun and cut his hand. The commanding officer, Major Catron, was struck by a stone, as were several of the men. The governor proclaimed martial law, exactly 11 o'clock, and by midnight the crowd had practically been dispersed. There was no firing. A telephone message from Milledgeville where the state prison is located, and where Leo M. Frank was taken, said that Governor Slaton had commuted his death sentence to life imprisonment, said that trouble was feared there last night, and asked that the governor order out the Milledgeville company of militia. The governor told his informant that such a request would have to come through the sheriff of Baldwin county. Last night, however, the sheriff had not requested troops. The governor was surrounded in his home by about a dozen friends, nearly every one of whom was armed with a rifle or pistol. The unexpected arrival of a member of the family at a dark corner of the front porch caused the governor, hastily to pick up a pistol. In front of the governor's home were more than 100 automobiles filled with persons evidently there to see what the crowd would do. The troops had great difficulty in clearing the road of these machines, and many of their orders were met with the retort of "Shoot!"

GOVERNOR FERGUSON WILL VISIT FRISCO EXPOSITION

By Associated Press. Austin, Texas, June 22.—Governor James E. Ferguson is planning to leave the state within the next week or two for a visit to California and the Panama-Pacific Exposition. Lieut. Gov. W. P. Hobby automatically will become governor when the state executive crosses the Texas border. The proposed trip will be Governor Ferguson's first real vacation since he assumed office and he is working hard now trying to get ahead with his work in order to make the trip.

English Military Men Not Alarmed Over Situation—Russian Offensive Will Take Time

By Associated Press. London, June 22.—The Petrograd correspondent of the Daily Mail says: "An appeal to the public to maintain calmness signed by the Russian general staff is posted today in public places that official statements tell the whole truth and that wild rumors in Petrograd are unfounded." Military men view the situation without alarm but admit that it may be some time before Russia will be able to resume the offensive. While Russia is reforming her lines she looks to the allies to keep Germany busy. The Russian ammunition situation is improving.

AUTOMOBILE HIGHWAYS OPEN TO FORT WORTH

Bridge Across Little Wichita is Repaired and the Road is in Fairly Good Shape All the Way.

The wagon bridge over the Little Wichita is again in use and the Colorado to the Gulf and Meridian Road route is in passable shape all the way from Wichita Falls to Fort Worth. The wagon bridge across the Little Wichita north of Henrietta has been open for traffic since Sunday. D. P. Talley made a trip to Fort Worth in his car Sunday and found the road in fairly good shape. He found only one mud hole and that was not a bad one. The roads are rough in some places but as a whole are in fairly good shape, he reports.

STATE MAY BUY "MADE IN TEXAS" PRODUCTS

Governor Wires State Purchasing Agent to Hold Up Million Dollar Contract

By Associated Press. Fort Worth, Texas, June 22.—Prior to the opening of the "Buy in Texas" convention here this morning, Governor Ferguson wired State Purchasing Agent Levy in Austin to hold up the million dollar contract for supplies until he can investigate home made goods.

MOTHER FINDS MISSING DAUGHTERS AFTER 23 YEARS

Boise, Idaho, June 22.—Mrs. W. C. Denison of Waco, Texas, has met her two daughters she had not heard of for twenty-three years. In 1892 Mrs. Denison had left them, children of 7 and 4, respectively, with her father-in-law in Texas, while she went to another part of the state to join her husband. Returning a few months later she found her father had given the girls away for adoption. She says she refused to give any further information and died with revealing the children's whereabouts. Last January a nephew found an old letter that gave a clue, and an extensive correspondence finally located one daughter in Boise and the other at Caldwell, thirty miles west of this place.

MEASURING VOLUME OF WATER IN TEXAS STREAMS

By Associated Press. Austin, June 22.—Measurements of the volume of water of the principal streams in Texas is being made by the federal government, according to Walter E. Hall, district engineer of the state's water resources branch of the United States geological survey, with headquarters in Atlanta. Mr. Hall, whose district includes Texas, has been here conferring with the state board of water engineers, stating that when the measurements are completed it will be possible to say just how much water may be diverted from any stream for irrigation or other purposes without impairing the stream. The data will be available for the state board of water engineers.

By Associated Press. Philadelphia, Pa., June 22.—Two firemen were killed and fourteen were injured today while fighting a \$50,000 factory fire. The dead are William James, battalion chief and John Hillman, a ladderman. An explosion of benzine wrecked the building and caused one wall to topple over on sixteen firemen.

DESPERATE FIGHTING ON EAST AND WEST FRONTS AND AT DARDANELLES

By Associated Press: London, June 22.—Wireless dispatches from Berlin today represent the battle which has been in progress in the vicinity of Arras as one of the great conflicts of the war which may decide the fate of France. Losses of both the Germans and the allies are described as fearful and one stretch of the field from Arras eight miles toward the Belgian border is said to be covered with corpses.

The official French and German statements today give few details of the fighting. The Paris announcement concedes that the Germans captured a section of the trench at one point but asserts they were repulsed elsewhere. The Berlin statement mentions no important fighting in this district yet. In Alsace there was heavy fighting along the valley of the Secht river and the French assert that their lines were pushed farther northward. The Berlin communications say that the German positions were transferred to the eastern bank of the river. An unofficial message from Berlin says that the Russians have been defeated all along their lines in front of Lemberg, Galicia, and are now fighting for time in order to save their guns and other war material. According to this dispatch the Austrians and Grecians are ten miles from Lemberg. A press dispatch from Athens reports great activity among the allied fleet at the Dardanelles from which it is assumed that a general attack on the strait is planned. Reports indicate offensive movements on the Gallipoli peninsula on the part of both the Turks and the allies but neither side has been able to break the deadlock. The Turks made an attack last Wednesday but are said to have been repulsed and 700 men captured. The battle of Plava on the Isonzo front (Austro-Italian) still is in progress. The Austrians are making repeated efforts to drive back the Italians across the river. An official communication from Rome says that these attempts have failed. Elsewhere along the Italian front less important engagements are occurring with small success claimed by the Italians.

Dunkirk on the French coast was bombarded yesterday by a long range gun as was done several weeks ago. At that time the German gun was said to have been located by an aviator and silenced. In yesterday's attack several persons were killed.

GERMAN REPORT SAYS RUSSIANS ALONG RETREAT LINE BEFORE LEMBERG

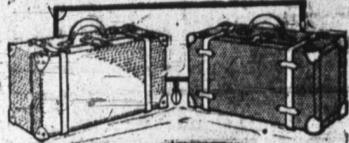

By Associated Press. Berlin, June 22, by wireless to Sayville, N. Y.—Announcement made today by the Overseas News Agency says that the Russians before Lemberg have been defeated along the whole line and are fighting only to gain time in order to save their artillery and other war materials.

Remarkable Progress Made in Submarine Craft.

Increased Speed and Accuracy in Attack Most Important Advance—Nations in Fervent Haste to Outdo Each Other.

The improvements which have been effected in the design and construction of submarine craft during the past few months have been most remarkable. At the end of the year the finest underwater craft possessed by the admiralty were the nine new boats of the E class, displacing 728 tons on the surface and 810 when submerged. These had a surface and submerged speed of 16 and 10 knots respectively, carried two 18-pounder guns and four tubes firing 21-inch torpedoes.

Almost at the very outbreak of hostilities the submarine, which had always been looked upon as likely to prove of value for defensive purposes only, demonstrated its value as a weapon of offense. Immediately every nation began with feverish haste to lay down underwater craft of new and improved design. Several of these boats are now in commission, and while for obvious reasons nothing may be said as to the new British ocean-going submarines of the E, F, V and W classes, there are a number of facts which may be made public regarding the submarine craft of other countries.

The vessels Germany has completed and put in commission since last July are of from 500 to 1,000 tons displacement. Their length is from 215 to 228 feet and they have a beam of 30 feet. Photographs have been published of the U-36, the vessel which captured the Dutchman, Batavier V. It has been remarked regarding her that it would seem that her very size exposed her unduly to danger in the narrow seas and the opinion has been vouchsafed that she will fall an easier prey than would some of the smaller submarines should she be attacked by destroyers.

It is not quite clear what that opinion is founded upon and so far the Germans seem to have made very few mistakes in connection with their submarines. It is not known how many boats of this size they possess, but it may be taken that since the end of July they have launched and fitted up at least nineteen of these big submarine cruisers, one of which is fitted with engines of from 6,000 to 7,000 horsepower.

The new German submarines are armed with four tubes firing 19 1/2-inch torpedoes, an antiaircraft gun and two 14 pounders, and there is reason to believe that while the un-

derwater speed of these boats is only about 12 knots as most their design is such that they can travel at 20 to 24 knots on the surface.

But it is not only in speed and size that developments have been made. The "sight" of the submarine has been improved and the modern periscope is fitted with a compass by which it is now possible for a helmsman to steer to fractions of a degree. Instead of to one-quarter points as before. The accuracy with which a torpedo can be fired is greatly increased by this and in the newest boats it is possible to obtain the bearings of an enemy ship some miles away and set a course which without the periscope having to be shown above water, will bring the boat to a point from which a torpedo may be fired with absolute certainty of its hitting its target.

WINDOW CLEANER IS BLIND

Owner of Hotel Says Victim of Railroad Wreck Earns His Living as Porter.

Beloit, Wis.—Totally blind as a result of a railroad accident near Milwaukee seven years ago, John Gibson, forty-eight years old, is earning his living by scrubbing floors and washing windows at the Transient hotel in Beloit. The proprietor of the place says Gibson is earning his living as well as any full-fledged porter he ever had.

The man does this cleaning work entirely by the sense of touch and a system of mental measurements and calculations. "There is nothing in his work to denote disability," says the proprietor. "Seven years ago," Mr. Gibson said, "I was working on a railroad near Milwaukee when an explosion occurred in some blasting powder. When I left the hospital I was totally blind."

Poseidon, N. D.—Bearing the pain for 13 hours of a bullet wound through his leg, Herman Piedt, the ten-year-old son of a farmer of this county, stoically kept silent about his injuries and divulged them only when he became so lame that he could not move. He said another boy was shooting golfers with a small rifle, which was accidentally discharged, the bullet going through Herman's leg.

First Train Scared Him

Danville, Ky.—Frightened at the sight of the first train he had ever seen, George Mason, who lives in the cliffs north of High Bridge, on the Kentucky river, threw a rock at the Royal Palm on the Queen & Crescent route. The stone broke a window and hit Ray Fagan.

Mason declares he never before saw a train. He thought the thing was some "huge worm."

BRITISH WAR LOAN OPEN TO ALL THE PEOPLE

John Bull to Raise Money for War Purposes by Having All of His Subjects Contribute.

London, June 22.—The House of Commons Monday gave the national government a blank check to be filled in, in accordance with the expenditures of the year.

In asking this indefinite credit, Chancellor of the Exchequer McKenna announced that he proposed to issue a war loan to be terminated at the option of the government between 1925 and 1930 for the excess of the national expenditures for war and other services for the year over the revenue.

McKenna said that unless the loan were issued the only method whereby the country could continue to pay its way would be by the further indefinite issue of treasury bills. He saw objections to this course, the principal one being such issues are bankers' money, not public money.

"I want the public to lend the money in a way which will not oblige us to repay during the war," he continued. "We require many hundreds of millions," added the chancellor.

After explaining the proposal that if a higher rate of interest should be offered on subsequent loans holders of the forthcoming loan should receive the higher rate, McKenna continued:

"This is a great national appeal to every class for a great national purpose."

The chancellor then proceeded to explain the method by which he intended to let the people utilize their savings. War loan vouchers will be offered for sale at postoffices, trades union headquarters, etc., for 5 shillings and multiples thereof. The vouchers when a total of five pounds has been purchased, will be exchangeable at postoffices for a five pound bond. This arrangement will give the working class every advantage accorded to others. The allotments will be made on applications and the lists will be closed on or before July 10.

"Our requirements are great and every effort made now is an effort not only necessary to enable us to carry on the war, but to enable us to maintain our financial pre-eminence after the war," McKenna continued.

"He who subscribes now is doing an act of mercy both to himself and to his country. He who subscribes now and saves in order to subscribe will be able to bear the strain after the war is over and will be thankful for the efforts made to help himself. But still dearer to him must be the knowledge that every aid he gives himself is multiplied for his country and his country will be his for his providence and generosity."

BECKER WILL NOT "SQUEAL" TO KEEP OFF ELECTRIC CHAIR

New York, June 22.—Charles Becker, condemned to die for the murder of Herman Rosenthal, will not try to save his life by "squealing," Becker finally reached this decision, after a conference with his wife in the death house at Sing Sing.

"My husband has no revelations to make," said Mrs. Becker. "He is innocent and he believes his innocence will move Governor Whitman to save his life. He has by no means given up all hope."

It was also learned that Becker has prepared a detailed autobiography which tells of his entrance into the police department and his rise to a lieutenantancy in which, as head of Commissioner Walsh's most active raiding squad, Becker became a power.

Recently Becker was asked by friends to amplify, if not re-write the story of his life and throw back the curtain from the inner workings of what is popularly known as "the system." It was pointed out that Governor Whitman, as district attorney, was most particularly anxious to get the man at the top and at one time was disposed to be lenient to whoever opened the way to the goal.

After talking it all over Sunday, Becker decided to let the story of his life stand as first written.

Mr. Manton will make his final appeal to Governor Whitman probably today. It will be based chiefly on the alleged weakness of the case and not on any promise of Becker to expose "the system."

The mercury climbed two degrees past the 100 degree mark Monday afternoon making yesterday the hottest day of the season to date. The weather is favorable to wheat farmers and permits the harvest to go forward without interruption, although bringing discomfort to folks in town.

READY-TO-USE FRUITS BY THE GALLON

It might surprise you to know how many women who used to put up all their own fruit, don't put up any now.

They found, as you can easily prove to your entire satisfaction, that to buy fruits ready-to-use is easier, cheaper and more satisfactory.

A great many women are now using my gallon stock. This year I have peeled peaches, apricots, blackberries, plums and pitted cherries in gallon cans.

The peaches and apricots are 50c per gallon, the blackberries 60c, the plums 45c and the pitted cherries 90c. Every can guaranteed.

AUSTRIAN BORDER TOWNS IN WAR ZONE

ANCIENT VILLAGES FALL INTO THE HANDS OF INVADING ITALIAN FORCES. RECALLS ROMAN EMPIRE DAYS.

Washington, June 22.—Today's lesson in geography, prepared by the National Geographic Society, deals with Grado, the Austrian frontier port recently brought behind the Italian lines in their drive on Trieste.

Grado is the port of Aquileia, situated on the island sand dunes at the outermost edge of the Venetian Lagoon. It is a more important village today than the city that it formerly served, and once bitterly rivalled Grado, at least, has some present renown for the products of its sardine and conserving factories.

Grado was founded in 452 A. D., as a naval harbor, when Aquileia became a naval station in the tottering Roman Empire. After the fall of the Empire, Grado came under the power of the Venetian Republic.

Grado has a well developed fishing industry, that largely gives employment to its 3,500 inhabitants. It is a square town, with narrow streets, picturesque buildings, numerous courtyards and many testimonials of brighter bygone days.

Aquileia's History. Aquileia, one of the first towns captured by the Italians in their storm across the Austrian borders at the head of the Adriatic, stands foremost among the Austrian Italian speaking possessions in the sentimental attachment of the patriotic sons of Italy.

Today, Aquileia is a mean, poverty marked, dwindling fishing village, with a few thousand inhabitants. The wonderful structures of its heyday have served for centuries as stone quarries, and nothing now remains of their fabulous splendor.

SO-CALLED ATROCITIES ON BOTH SIDES SAYS POPE

Paris, June 22.—Pope Benedict holds the opinion that belligerents on both sides have been guilty of so-called "atrocities" and is not inclined to place all the blame on the Austro-Germans, according to Louis D'atapie, correspondent of the Paris newspaper La Liberte, who was granted an interview by his holiness.

DEFENSE, IT IS UNDERSTOOD, WILL MAKE AN EFFORT TO HAVE THE CASE PASSED FOR PRESENT.

A motion for continuance is expected to be filed in the 75th district court Wednesday when the case of E. W. Fry, charged with forgery, is called for trial.

PARIS, JUNE 22.—POPE BENEDICT HOLDS THE OPINION THAT BELLIGERENTS ON BOTH SIDES HAVE BEEN GUILTY OF SO-CALLED "ATROCITIES" AND IS NOT INCLINED TO PLACE ALL THE BLAME ON THE AUSTRO-GERMANS, ACCORDING TO LOUIS D'ATAPIE, CORRESPONDENT OF THE PARIS NEWSPAPER LA LIBERTE, WHO WAS GRANTED AN INTERVIEW BY HIS HOLINESS.

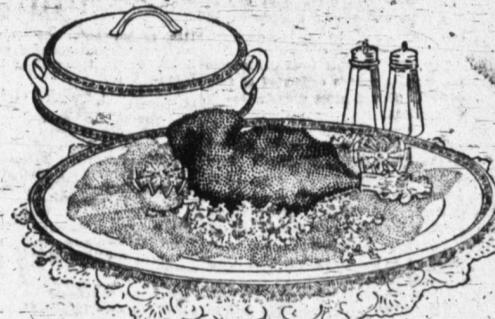

The interview was published yesterday. L'atapie told the Pope that the people of France regarded his silence on alleged war crimes as "strange."

"Then the people of France are unjust, or rather misinformed," responded his holiness, "and I blame you journalists for this. I first addressed a letter favoring a peace settlement; then I proposed a Christian truce, and next I endeavored to obtain an exchange of prisoners, obtaining appreciable results."

"The correspondent asking Pope Benedict for an expression on the sinking of the Lusitania. 'I don't know of a more frightful misdeed,' responded the Pontiff. 'My heart is the heart of the father; it is heavy and torn. But do you believe the blockade which is drawn about Germany and Austria, condemning millions of innocent people to famine, was really inspired by humane sentiments?'

The Wichita State Bank. The Guaranty Fund Bank.

SOLICITS YOUR BUSINESS AND OFFERS SAFETY FIRST.

SAFETY FIRST is our principle and the GUARANTY FUND LAW your protection—it means that your money deposited in this bank is absolutely safeguarded.

It is one of the best things we have to offer together with COURTEOUS TREATMENT and every accommodation consistent with conservative banking.

Below is a newspaper clipping showing how this GUARANTY FUND LAW WORKS and how you are protected.

We will soon be the only bank in town operating under this Guaranty Fund Law.

Newspaper comment: The Wichita Daily Times says:

A few days ago there was a bank failure at Amarillo. It was a state guarantee bank, however, and the depositors will not lose one cent. The state guaranty fund has in it \$961,000 and the closing of the Amarillo bank will take from it the sum of \$89,000 with which to pay the protected depositors. The more we see of this law the better we like it. Every depositor who trusts his hard-earned money to a bank should be protected to the limit, and that is what has been done in every instance where a bank operating under this law has failed or closed its doors.

And the El Paso Times says: According to a statement made by Receiver Arnold, depositors of the defunct Arizona Bank and Trust Company will receive 75 per cent when its affairs are finally wound up. The first dividend of 50 per cent will be paid on May 4, it is said.

The patrons of the Texas bank will get their money promptly. The patrons of the Arizona bank will only get 75 per cent and will have to wait for that.

Wichita Falls, Texas, June 22, 1915

Yesterday was the longest day of the year, and also the warmest, so far.

The total receipts from the income tax for this year is estimated at \$33,000,000. This is some greater than it was in 1914.

There is more money on deposit in the banks of Wichita Falls than there was this time last year. And what is more, the banks are anxious to loan this idle money. There will be little excuse for any farmer selling his wheat at the present market price, provided he has a desire to hold it for a higher price.

The British government has paid to the United States \$300,000 on a cargo of cotton, destined for a German port and taken by the British government.

There is some satisfaction in this, but not enough. American ships ought to be allowed to enjoy the freedom of the seas. No power should be allowed to declare itself master of the seas. But that is just what Britain is doing. Here's hoping she will be forced to concede that other powers, it matters not whether backed by a strong navy or not, have just the same rights to use the seas as herself.

A divorce has been granted Mrs. Georgia Scott-Townsend from her husband on the ground of cruel mental treatment. The Townsends lived in Denver. She was the daughter of Winfield Scott, the Fort Worth millionaire who died two or three years ago, and who left all or nearly all his property to his second wife and her sons. Mrs. Townsend brought suit in the Tarrant county district court to have the will broken and won her suit in the lower court. The case was appealed, however, and on hearing the decision of the lower court was reversed and a new trial ordered. Before the suit came to trial the second time a compromise was effected by which Mrs. Townsend received a fair share of the estate left by her father. She will make her home in Fort Worth.

There are sixty-seven thousand members of the printers union, and their annual earnings are said to be sixty-one million dollars per year, or an average of a little more than \$100 per month. Considering that forty-eight hours constitutes a week's work for a printer, they are probably the best paid of any skilled labor organization in existence, not excepting the locomotive engineers, for it must be taken into consideration that in arriving at the average wage of a printer, not only those printers who work regularly are counted, but every member in good standing in the organization, whether employed or not, is taken in. The average earning of a brick mason, though the best paid when at work, is only about \$800 per year. That of locomotive engineers about \$1,000 per year.

If this week will be as good to the farmers of Wichita and adjoining counties as last week was, the end will see all wheat and oat crops cut and in the sheaf. In fact, a greater portion of all wheat and oat crops in this section of the state has already been saved and several threshing outfits are at work in various parts of the country. So far only one report as to the yield has reached The Times, and that was to the effect that the farm on which threshing was being done, the yield of wheat was in the neighborhood of twenty-two bushels per acre. All things considered, that is fine. If the wheat producers could hold their wheat for sixty or ninety days, the general opinion is that the

price would be much better. Our banks and bankers are ready and willing to make liberal loans to farmers who wish to hold their wheat for a better price, in the event they need financial assistance. Over a half million dollars was lost to the wheat farmers of Wichita county last year by marketing their grain too soon. That experience should and doubtless will have a tendency in preventing them from making the same mistake this year.

THIS EXPLAINS THE WHY OF ROCK AND RYE.

"State Press," Dallas, Tex. Being an ex-country editor, of the old regime, when men dared to invade the "wild and woolly west" with a Washington hand press and a cracker box full of type, I desire to inform you, that I have had experience with profane, delinquent subscribers, ticks and redbugs.

Consequently, I can sympathize with your efforts in the "News" of June 11th, to harmonize the Maud Muller poetry with the natural actions of Maud, during the redbug season at harvest time.

Therefore, I take my pen in hand to dedicate a humble ode, which I hope you will find appropriate to your state of mind, if you wish to experiment with redbugs. Otherwise you might hand it to Bill Sterret, or some other philanthropist, that is journeying from Jerusalem to Jericho.

Fraternally yours, EDGAR RYE.

P. S.—If you like the poetry, you might get some composer of music, to set it to rag-time, jig-time or "chigger-time."

State Press refused to publish the poem and gave this as his reason for refusing:

Rock and Rye.

The laureled poet of the Wichita, whose name is Rye, has favored State Press with a rocky poem on the subject of chiggers. Of course, any one would expect poetry to be rocky when written by Rye, but this particular outburst indicates that the author is stony-hearted. He would submarine a chigger ship and dance riotously while the crew were perishing. In fact, his poem is a sort of "chant of hate," and is so manifestly bitter State Press declines to publish it for fear some predacious redbug would sue him for libel.—Dallas News.

And this is the poem; published by request of the author:

The Devilish Little Redbug, O, the devilish little redbug, So invisibly cute and so smug, Diving beneath the outer skin, Between the foot and the shin;

Chigger, Biting— Like all the Devils in Hell grinning, As we scratch the irritation, The red feverish inflammation, Burning like the fires of damnation, Somebody kill the pest, Else there is no rest.

While the papers are discussing, The victims of the bugs cussing, And the "good Samaritans" hunting, For flour of sulphur or something, To alleviate,

To annihilate The devilish little redbug, So invisibly cute and smug, Hiding beneath the outer skin, Between the foot and the shin, Boring down to the bone, Raising a little hell of his own.

Now, if this poetic mess, Don't relieve "State Press," There is bugs in his head And, he'd better go to bed; Swat the flies, Look wise, Shut his eyes,

Dream of snow flakes in the air, Falling upon "Maud Muller's" hair, And the Judge in his sleigh, With his feet in the hay, Smoking a Virginia Chewtoe, Ready to shoot the chute.

EMPRESS — WEDNESDAY

THE MORE THE MERRIER! The foe has blood that should be spilled, and the hosts of men who should be killed, so dig in like a terrier! The farmer leaves his fields of grain, his useful labors, safe and sane, the smith becomes a warrior, from every trade and helpful art, from crimson fields the men depart—alas, the more the sorrier. What ails the nations of the earth, that they forsake all things of worth, and think they will be happier dead on every short, each moment growing scrapper? Is madness epidemic now, that every king will trade his plow for something he can slaughter with that where the harvest used to grow, red death is stalking to and fro, pale famine, his dread daughter, with? If I were king I would sit tight; I'd surely be "too proud to fight," though called on also ran again; if I had rude, rambunctious foes, I think I'd let them pull my nose, before I'd start shenanigan.

EVANGELIST NELSON TALKS ON BIBLE NAMES

Shows Origin of Name "Christian" And its Whom the Name Should be Applied.

Another good audience heard Evangelist J. B. Nelson last night. At the close of the sermon there was a confession. Three were baptized yesterday afternoon.

Mr. Nelson took up the subject of the name and discussed it from both Old and New Testaments. He told how God changed Jacob's name from Jacob to Israel. El is Hebrew for God, so every time that the name Israelite was called God's name was called and honored, because it contains the name of God.

God blessed wherever His name was recorded in Old Testament times, Ex. 20:24. The prophet Isaiah prophesied in Is. 45:5 that a new name was to be given in the house of God,

which is the church, 1 Tim. 3:15, which was better than sons and daughters. This new name was to be given after the Gentiles come in and to be given the mouth of the Lord. Is. 62:2. In Acts 11:26, we find that the Gentiles have been converted and the new name is given. "The disciples were called Christians first at Antioch." Then Agrippa said unto Paul, almost thou persuadest me to be a Christian, Act. 26:28. "Yet if any man suffer as a Christian let him not be ashamed," 1 Pet. 4:16. The whole family in heaven and earth is named in Christ. If they are named in Christ, the name will be Christian or Christianite. This the name that is better than of sons and daughters, because every time you say Christian you say Christ and His name is honored. In Jas. 2:7 we find that we must not blaspheme that worthy name by which we are called. The names disciples, sheep, saints, etc. gives to us the names of certain traits of character or make up of the child of God. A disciple is a learner, faint pure, sheep is humble innocent.

Mr. Nelson stated that if he preached just what Paul and Peter preached their preaching would make what their preaching made, Christians. The kingdom of God was produced and is perpetuated by the seed of the kingdom, which is the word of God, Mk. 4:26, 27; Lk. 8:11. When the seed, the word of God is sown it will produce Christians and nothing else. The thing for all men to do, is to sow no more for less than what God has authorized to be sown, and we will have no more nor less than what God wants.

The meeting is growing, so come and hear a good sermon tonight.

Two Wichita county cases were reversed in the civil appeals court at Amarillo Monday. One was that of the Wichita Valley Railway vs. C. F. Somerville, involving title to a small strip of land on Ohio avenue, a verdict for the defendant being returned in the county court last summer. The other was that of Mrs. Laura Hart vs. Fort Worth & Denver, in which a judgment for \$500 was rendered in the district court for damage to an automobile.

At The Theaters

Lamar Airdome.
 A vaudeville bill far from mediocre opened last night at the Lamar Airdome and the closing act, Adolph and Raymond, equilibrists, could easily be headliners on almost any program. A good bit of comedy was infused into their work which contained some remarkable demonstrations of equilibristic skill, by a comedy café-act. One of the team was in full dress with a comedy makeup and the other impersonated a waiter. A feature stunt was the drinking of a glass of water by one of the team while he was balancing himself, lead down on a tumbler on the table top. Dixie Jose, the old fashioned melody girl, also had a pleasing act and her speaking voice had a pleasing quality so often lacking in vaudeville actors. She played oldtime melodies on her fiddle, taking from the pockets of her voluminous hoop-skirt numerous articles entirely foreign to musical instruments, which she used in place of the bow. She capped the climax by pulling off a slipper and playing "Dixie" with great gusto.
 These acts will be repeated tonight with a good picture program which includes a two part Gold Seal, "The Torrent."
 Millions of gallons of water burst down a dam and flood a village in "The Torrent," a Gold Seal two reel drama featuring Marie Walcamp and Wellington Flynter. The scenario of the thrilling drama was written by Henry McRae who also produced the play with results which beggar description.
 The most thrilling scene in "The Torrent" was staged on March 15, when President LaRoche formally opened Universal City. A spectacle commensurate in importance with the opening of the only municipality in the world entirely devoted to moving pictures was decided upon and Director McRae was given a free hand in staging the spectacle.

The Gem.
 Anna Nilson, Alice Hollister and Harry Millard are featured in a three part Kaleid, "The Destroyer." Miss Hollister takes the part of the beautiful and fascinating but unprincipled dancer, Cherie. A synopsis of the picture is given.
 Although engaged to Helen, Dick falls a victim to the wiles of Cherie, a dancer. Helen desperately strives to break the woman's influence. For awhile her efforts are successful. Then she and Dick visit a fashionable restaurant. There they meet Cherie. The woman monopolizes Dick and Helen goes home alone.
 To make sure of her hold upon Dick, Cherie flatters the boy and gives him a sum of money to invest for her. Dick loses this money in an unfortunate speculation. His father learns of Dick's intimacy with Cherie and orders him to have nothing further to do with the woman.
 When Dick falls upon Cherie, he finds that his father has already spoken to her. In a bad humor, Cherie demands her money. Promising to return it, the boy returns to his father's office and steals money from the safe. Later when Dick learns what Dick has done, he disowns him.
 Dick hastens to Cherie to seek consolation. He finds Macklyn, a rival for her favor, present. When the woman hears Dick has been disinherited, she scornfully orders him to leave her apartment. With this evidence of the woman's character, Dick vows never to see her again. He eventually tries to get back into Helen's graces, but the girl's love for him has died.
 Dick drifts lower down life's ladder. Months later, Cherie and Macklyn alight in front of a fashionable jeweler's. A beggar accosts them just as they leave their automobile and whines a request for money. Macklyn scornfully drops a coin into the man's hand. Cherie, however, recognizes the wretch. She contemptuously draws away from him. It is Dick.

The Majestic.
 Tuesday has become looked forward to as "Fox Feature Day" at the Majestic and each Tuesday brings something good. Today it is "From the Valley of the Missing."
 As leading woman of the big spectacular melodrama, "Life" produced at the Manhattan opera house, New York City, Jane Miller, made a tremendous success in a most difficult role. William Fox, president of the Fox Film Corporation at once decided to engage this most winning and clever actress for the part of Ann Shellington in the Fox production of the picture play made from Grace Miller White's greatest novel "From the Valley of the Missing."
 Miss Miller is equipped as is no other actress on the boards to enact this most striking of screen roles. She is a southern belle, the daughter of the state treasurer of Missouri, and before going on the stage had written several successful novels and plays although she is barely out of her teens. It was, in fact, because she did not like the way in which an actress played a principal part in one of her dramas that she decided to act it herself. She admits that her first essay on the stage was not as entirely successful as she had hoped; so she set about studying dramatic art seriously. Miss Miller advises girls with stage ambitions to study for the pictures instead of striving for success upon the boards. Not only does the screen afford a better opportunity, she declares, but it is distinctly to her mind, a higher form of art. Of her part in "From the Valley of the Missing" Miss Miller says:
 "Ann Shellington is the most delightful role I have ever played. She is sweet and sympathetic yet endowed with a dash of high spirits and infectious independence that make her quite irresistible. In the scenes between her brother and Everett and herself she is afforded every dramatic opportunity. The scene with Lon Crank and Len Crabbe are also among the most effective in which I have ever appeared. I am delighted with the great chance Mr. Fox has given me. I think that for dramatic aspirants picture work is the greatest schooling there is."

SOME THINGS WORSE THAN WAR, DECLARES GOMPERS

Says Freedom, Justice and Ideals of Humanity More to Be Desired Than Peace
 Washington, June 21.—Declaring that while he had always abhorred war, but believed there were things even more abhorrent, Samuel Gompers, president of the American Federation of Labor, in a letter made public here, sets forth his position as to international peace. The letter was addressed to Ernest Bohm, secretary of the Central Federated Union of New York, and expressed Gompers' regret at his inability to speak at a peace meeting, to which he had been invited.
 "I have no hesitancy in saying there are some things even more abhorrent than war. That is to be robbed of the birthright of freedom, justice, safety and character," read the letter. "The American Federation of Labor as a great group, representing the workers of America, and as an officer and a man, have something to say for the maintenance of peace and am still willing to go to the fullest lengths for its maintenance."
 "I am not willing to have either the labor movement or our men and women place in a false position. The United States will not voluntarily enter in the present European war, of that I am confident. We shall keep out of it if we possibly can with a degree of faithfulness to the fundamental principle of justice, freedom and safety."
 "If, despite our reserve and self-control, we shall be dragged into it whether we like it or not, there will be but one position for us to take, and that is for us to be true to ourselves and our fellows; true to the highest ideals of humanity, for which our movement stands."
DEFICIT IN STATE TREASURY GOON PROBABLE
 Austin, Texas, June 21.—It was predicted here today that by the middle of September, when the State of Texas again would be operating on a deficit. This was the opinion expressed by State Treasurer J. M. Edwards, who pointed out that many of the larger appropriations made at the recent special session of the legislature will be available and that all appropriations for running the state government will be available by Sept. 1. There now is an approximately \$2,000,000 in the state treasury to the credit of general revenue; but heavy drains already are being made against this by claims allowed by the recent legislature. The miscellaneous bill carried \$300,000 and included a number of claims refused by previous governors.

The Empress.
 In addition to the usual one reel subjects for Tuesday's program a two part Kay Bee will be shown at the Empress. Rhea Mitchell, Thomas Catterton and Walt Whitman are featured in this picture, "The Valley of Hate." A synopsis is given.
 Allen Walsh, a young northerner, takes charge of a school in the mountains of Tennessee, where he falls in love with Madge Canfield. Being vigorously opposed to the feud which Daddy Canfield keeps up against Fay Hutton, the school master comes to be regarded by the girl's father as an enemy. The young people are forbidden to have anything to do with one another. Nevertheless, they meet in secret. A cousin of Canfield's is ordered by a peddler, and Canfield convinces Madge that Walsh is guilty. She consents to lead her lover to a spot where her father intends to kill him. On the way, however, she learns that Walsh is innocent. Rather than let him know that she has plotted against his life, she persuades him to put on her bonnet and shawl, while she dons his coat and hat, pretending that it is all in fun. She is shot by her father. Walsh induces Ma Hutton, the wife of Canfield's enemy, to nurse the girl back to health. The two families are reconciled and Walsh and Madge are married.

REMODELING BUILDING TO MEET STORE'S NEEDS

Work was begun yesterday remodeling the building occupied by the Kahn's Company at the corner of Indiana and Eighth to accommodate the growing business of this firm. The improvements planned provide for a practical reconstruction of the interior, both down stairs and on the second floor, which in the future is to be occupied by the firm. The upstairs will be devoted to ladies' ready-to-wear millinery and will be divided into departments to add to the convenience of the customers and to facilitate the handling of the business. The first floor will be used for men's and boys' clothing, furnishing goods, hats and shoes. A broad and convenient stairway will be constructed inside the building leading from the first to the second floor and other improvements will be made that are calculated to facilitate the service. Naylor, Hammack & Noey are the contractors, the plans for the improvements being prepared by Fields & Clarkson, architects. Mr. Hirschfelder, the new manager for the company, plans to materially add to the advantage already enjoyed by this firm and expects to keep step with the progress of the city in every way. He is very much impressed with Wichita Falls as a commercial center, and especially optimistic as to the future of the city, and is making these improvements in carrying out the policy of the company to keep up with, or a little in advance of the growth of this place.

Sanatogen

Endorsed by Over 21,000 Physicians

"We'll just put him on Sanatogen." What a happy thought prompted that decision! He wasn't his "old self" at all—and try to mask it as he might, his face showed only too well how poorly he felt. And so when a friend—with conviction born of experience—spoke of Sanatogen, they "put him on Sanatogen." Sanatogen—combining the tissue-building properties of a FOOD with the invigorating qualities of a TONIC—rejuvenated his appetite, improved his digestion, brought rest to his nerves, made good the over-drafts upon his energies—and little by little brought back the old-time vigor and sprightliness and joy of living. Then simply let us tell you this: Over 21,000 physicians have testified in writing to the value of Sanatogen after having observed its effects in daily practice. So, too, have hundreds of famous men and women whose very names must be convincing—people who know from personal experience the restorative help that Sanatogen gives. It is a verdict that cannot be mistaken.
