

\$1,635,000 Hidden

In This Year's Goodyear Tires

Here are amazing facts: Goodyear Fortified Tires contain five costly features found in no other tire. They have other features not common.

If we omitted those features, this year's probable output would cost us \$1,635,000 less. We could add that much to our profits. And you would never know it until troubles came.

This year's improvements alone will cost us \$500,000 yearly. Most of this goes into extra rubber—all into extra tread. And we shall spend on research \$100,000 this year to find other betterments still.

Users Save \$5,000,000

Yet our 1915 price reduction—made February 1st—will save Goodyear users about \$5,000,000 this year. And that was our third reduction in two years, totaling 45 per cent.

These extra features—used by us alone—will save users millions more.

That's why Goodyears dominate. They have long outlasted any other. They are gaining new users faster than we can supply them. We hope, for your own sake, that they'll soon win you. Any dealer will supply you.

AUTOMOBILE IS TAKEN FROM C. G. WOODS GARAGE

Sheriff's Department Looking For Five Passenger Cadillac Taken Last Night

The sheriff's department is today searching for an automobile taken from the garage of C. Clint Wood, near the corner of 10th and Brook, some time last night. The loss was not discovered until this morning. The car is a 1914 model 5-passenger Cadillac, its number being 852.

FORMER WICHITA BOY VISITOR FROM CANAL ZONE

The friends of George J. Bentley will be interested to know he is now visiting his parents in the old home at Thornberry. He has lately returned from the Canal zone, bringing with him a bride from Washington, D. C.

The following is taken from the Washington Post of June 25th: "Saint Mark's Episcopal church was the scene of a beautiful wedding last night, when Miss Mary Lorraine Espina, daughter of Mr. and Mrs. George F. Espina, became the bride of Mr. George Joseph Bentley, formerly of Texas, now of Cristobal, Canal Zone.

The Rev. R. C. Stetson performed the ceremony. The church was decorated with radiance roses and palms. Mr. William Jensen gave an organ recital as the guests were assembling and just before the arrival of the bride, the party Mrs. Edwinetta Schröder, Zurich sang a selection from 'Samson and Delilah'.

The bride, who was given in marriage by her father, wore a lovely gown of ivory-toned satin with a court train the bodice was of chantilly lace with a jacket effect of satin outlined with pearls. Her tulle veil was held with orange blossoms, and she carried a shiver bouquet of lilies of the valley. The bride wore a diamond and opal lavalliere set in platinum, the gift of her parents.

Miss Marian Graber, the maid of honor, wore a gown of pink chiffon over taffeta with a bolero of chantilly lace and pearl trimming and carried a bouquet of radiance roses.

The bridesmaids were Miss Lillian H. Maurice, Miss Lisette W. Dill, Miss Hilda D. Patschke and Miss Elizabeth D. Miller. They wore gowns of blue taffeta and chantilly lace with bands of pink velvet over the shoulders, and carried arm bouquets of radiance roses.

The flower girl, little Miss Shambaugh wore a dainty lingerie frock and carried a basket of white and pink rose petals which she scattered in the pathway of the bride.

Mr. John W. Stepp was best man, and the ushers were Mr. W. Wallace Kendrick, Mr. Robt. E. Jamison, Mr. Benjamin F. Butler and Mr. Paul Geopfert.

A large reception followed the ceremony, at the home of the bride's parents on 218 Sixth street, S. E., when the young couple were assisted in receiving by Mrs. Espina, who wore a gown of orchid satin and lowered chiffon with a corsage of pink sweet peas, also Miss Margaret J. Caywood, the bride's aunt, in golden brown satin trimmed with ecru lace.

Mr. and Mrs. Bentley left Washington for their wedding trip—the bride wearing a Palm Beach suit and a tan hat.

After an extensive trip through the West, including a visit to Mr. Bentley's parents, Mr. and Mrs. D. S. Bentley at Wichita Falls, Tex., they will go by way of Cuba and Porto Rico to their future home in Cristobal, Canal Zone, where Mr. Bentley has been stationed for the last two years as an expert hydrographer and meteorologist.

DRY TERRITORY IN UTAH ENLARGED

SALT LAKE CITY, Utah, June 30.—Tuesday's liquor election increased Utah's "dry" territory materially. The towns of Logan, Provo, Richmond, and Smithfield continue dry by increased majorities over the previous election. Paragon and Maryvale went from the wet to the dry column; Milford remains wet, and Phoenix, a new town in Bingham Canyon, went wet, a tie vote took place at Gunnison, which will remain dry unless the official count changes the vote. Returns thus far received indicate that Beaver County changed from wet to dry.

ALLIES' LOSSES IN WARSHIPS 230,000 TONS

Teutonic Allies Losses Only 140,000 Tons Torpedoes Have Been Big Factor in Destruction

Liverpool.—After ten months of war the losses suffered by the contending navies present some interesting points for speculation, says the Journal of Commerce, affording a comparison of the relative merits of the various offensive weapons in the naval struggle, and showing how costly it is to the countries concerned to indulge in minor encounters.

Summarizing the losses under types of vessels, Great Britain and her allies have been deprived of the services of eight battleships, fourteen cruisers, four gunboats, six destroyers, six submarines, fourteen boats and six armed merchantmen and auxiliaries.

The losses of Germany and her allies consist of one battleship, twenty-three cruisers, fifteen gunboats, thirteen torpedo craft, six submarines and twenty armed merchantmen and auxiliaries.

Separating the losses under the various causes, neglecting auxiliaries and armed merchantmen, the torpedo boats destroyed 131,000 tons of allied vessels, the mine 50,000 tons, gunfire 27,000 tons, and 22,000 tons have been lost in various other ways.

The German, Austrian and Turkish fleets have been deprived of 13,000 tons of war vessels by means of the torpedo, 23,000 tons of the mine, 81,000 tons by gunfire and 23,000 tons from various other causes.

These figures show that England and her allies have lost 230,000 tons of fighting material costing approximately \$100,000,000 while the Teuton and Turkish losses total 140,000 tons, worth about \$60,000,000.

The figures also show that the miscellaneous losses officially recorded are approximately the same on both sides, while from torpedo, gun and mine the British and their allies have lost nearly double the tonnage of their opponents have lost by the same causes. By torpedo the British losses are ten times more than those of the other side which shows clearly how important a part that weapon plays.

In gunfire England has established a long lead chiefly because the German ships at large when war was declared have been destroyed by this means. In the armed merchantmen and auxiliary class the net register tonnage of allied ships destroyed amounts to 36,000 while the German, Austrian and Turkish losses stand at approximately double that figure.

DIABETES A DISEASE OF INTELLIGENT CLASSES

Dr. Mitchell, Tells Homoeopathic Doctors that this Disease is On Increase in U. S.

By Associated Press. Chicago, July 1.—Diabetes is on the increase in the United States, claiming as its victims particularly persons of high social and economic value, according to Dr. Clifford Mitchell of Chicago, who addressed the American Institute of Homoeopathy here today.

Dr. Mitchell said: "Diabetes is a disease which is increasing steadily in the United States. Mortuary statistics available include the deaths registered up to the year 1914 and from them we learn that between 1901 and 1905 there were only 3,772 registered deaths from this disease, on an average for these six years but in the year 1913 there were 9,660 deaths. The death rate on the average from 1901 to 1905 was per hundred thousand only 11.5 while that for 1913 was 15.3."

Moreover, disregarding the mortality, but looking at the disease from the viewpoint of curability, diabetes is certainly more formidable than almost any disease with which we are familiar, inasmuch as neither drugs, diet, climate nor surgical operation can be said to effect a cure, and the average age of death from diabetes is between fifty and fifty-five.

"The number of persons in the United States with latent diabetes is probably larger than we realize. The existence of concealed diabetic tendencies in a considerable number of beings must be recognized. It is time that both press and public wake up to the fact that diabetes in the Twentieth Century has killed more than ten thousand persons in the United States alone, and that most of these persons were of high social and economic value was responsible for the statement that 'If you have diabetes, it's a cinch you've got your brains.'"

"Diabetes is indeed a disease of the intelligent class, and we can ill afford to let it prey upon these people so much needed by our nation at all times."

20 BRITISH DREADNAUGHTS ARE REPORTED SUNK

Berlin, by wireless to Sayville, June 30.—Among the news items given out by the Overseas News Agency were the following:

"German papers reprint a special article which appeared in the Stockholm Aftonbladet, in which it was asserted that the losses of British warships caused by German submarine attacks were anxiously kept secret by the British admiralty which was fearful of a considerable decrease in the superiority of the British fleet over the Germans.

"At the beginning of the war the ships of the first battle line of the British fleet numbered about sixty, but these, the Aftonbladet article declares, have been reduced by systematic submarine torpedoing to twenty while Germany has lost no ships of this class.

"If these tactics are continued with characteristic German endurance, the article argues, the possibility of a victorious sea battle for the Germans against the British is near."

Before any product leaves our hands it must toe the mark. In this way we have built up a reputation which keeps our refineries busy supplying Texaco products all over the world.

In Africa, Australia, India, Europe, South America, the success of Texaco petroleum products has been evidenced by the constantly increasing volume of business.

Research, experiment and study keep us ahead of the times. No matter what the conditions, we have a

TEXACO PRODUCT

for you which is calculated to give service and value.

You can recognize the Texaco quality products by the Red-Star-Green-T emblem on the package.

For quality and service it will pay you to get them.

Active Tick Eradication Campaign is Being Waged

Fort Worth, Texas, July 1.—An active campaign is being waged by the United States bureau of animal industry and the state sanitary livestock commission against ticks in Texas.

The entire force of inspectors of both the bureau are in the field supervising dipping of cattle and constructing pens and offering aid to ranchmen as to how to proceed with the further extermination of the fever tick. The movement is being waged to eradicate the Texas fever among livestock which is caused directly by ticks.

The inspectors are also waging war against the scabies germ which has been causing heavy damage among Texas cattle during the last few years.

Forty-six counties in the state were quarantined for several months against scabies, but all with the exception of about six have had the quarantines lifted. This was made possible after the faithful co-operation of the state and federal bureaus.

Dr. L. J. Allen of the United States bureau of animal industry, who is in charge of the tick eradication work, has recently received letters from ranchmen in Travis, Hamilton, Erath, Comanche and Wise counties asking for information as how to proceed in destroying ticks in those sections.

The letters state that cattle are dying at a rapid rate from Texas fever caused by ticks. Information was forwarded at once.

Dr. J. H. Avery, chairman of the livestock sanitary commission of Texas, issued the following statements Wednesday concerning the tick eradication movement that the bureau and commission are waging together:

"With reference to the work of systematic tick eradication, as conducted by the livestock sanitary commission in counties where the people express a desire by a majority vote at an official election to rid their county of the fever tick, I wish to explain as near as I can the manner in which such work is carried on by the commission and just what is expected of each and every citizen in a county voting affirmatively on this question.

"As soon as possible after a tick eradication election has been held in a county, the votes are properly counted and the livestock sanitary commission officially notified of the result. If the returns show that the county carried in favor of tick eradication, a proclamation is issued declaring such county within what is termed the provisional quarantined area, and is protected in the matter of preventing tick infested cattle and horses from entering that county. At the proper season a corps of inspectors, both federal and state, are then detailed to make a thorough canvass of the county to the end of locating all tick infested animals and premises. After this canvass has been completed the inspectors go back over the same routes and dip or spray all animals which on the previous trip, or found to be infested with ticks, or which on the second round might show to be so infested. This dipping or spraying, say it is commenced July 1, is repeated at regular intervals or about twenty-one days until the infestation has been entirely eradicated, which, ordinarily, will be about four months. With but slight infestation

CRIMINAL DOCKET TAKEN UP IN DISTRICT COURT

Two Negroes Found Guilty and Sentenced—Young Lawyer Makes First Appearance

Consideration of the criminal docket began yesterday in the 75th district court. Two young negroes charged with burglary were found guilty late Wednesday and sentenced to two years. They were represented by Wayne Somerville, the new member of the local bar, whose first case it was. Mr. Somerville handled the case in a very creditable manner but the state's evidence proved strong.

This morning Ed Thresher, charged with forgery and passing a forged instrument, pleaded guilty on to charges and was given two years each case. Two young negroes could not be asked in his case. Checks were for \$12 and \$17. Case of a negro named Coleman, charged with burglarizing the Howard cery, was next called. Wayne Somerville being appointed by the court represent the defendant.

Editor Times:—In your paper bearing this date you give considerable space to Mr. Priddy, who suggests that the farmers sell their spot grain at the present price and buy September or December futures, pointing out the advantages of a saving in "storage, insurance, interest, taxes, etc."

er cannot, he is simply unfortunate, and Mr. Priddy has no right to try to hold out any hopes for him through a gambler's chance. One shearing in a season is sufficient. Just why wheat and other grain should go so low in price just at this time, when farmers are loaded up and obliged to sell in many instances, we are unable to say. Perhaps Mr. Mike Thomas of the Texas Business Men's Association, threw some light on the subject when, at a meeting of that body in Dallas last March he said: "If you oppress the farmer to where he drives a flea-bitten mule, you'll ride behind a pair of bobtailed ponies. But enable him to own a Ford and you can have your Cadillac."

LAY CORNERSTONE FOR NEW BUILDING AT MASONIC HOME. Fort Worth, Texas, July 1.—The cornerstones of the new school building at the Masonic Widows and Orphans Home here, was to be laid this afternoon with appropriate ceremonies. It was estimated the building when completed and furnished, will cost \$75,000. Masons also were to open here today an employment bureau to furnish employment to lodge members in Tarrant county.

POPULAR PRINCIPLES. (San Antonio Express.) (1) To make non but true statements of circulation. (2) To maintain advertising rates as published. (3) To reject fraudulent advertising. (4) To oppose free publicity—resolved the newspaper division of the Associated Advertising Clubs of the World, in their Chicago convention, a sterling code for those newspaper publishers, and they are gratefully many, who apply, and have always applied, the "Truth" principle of that great organization in their business.

And the extent to which this declaration of principles and practice has been commended in print throughout the country, during the closing days of the convention, makes publications that are indifferent to its application the exception indeed, and puts them in an unpleasantly glaring light. It was demonstrated, too, at this convention, as at its forerunners, that the principals in the business of advertising who are really worthy of public patronage are as heartily and honestly avowed to this high character of publicity as are the foremost factors—the newspapers.

None who offers an honest commodity, or honest service, for public trading can receive aught, but gain out of the close and constant practice of these ethics. It may be that the taboo of free publicity will aggrieve some few persons in every community—but if it does, the persons aggrieved will not be those who contribute substantially (if at all) to the support of the newspaper that must depend upon the sale of its advertising space. And the rejection of fraudulent advertising will disconcert even fewer persons—the frauds themselves—for the seeker of fraudulent advertising in the press, whose motive is to acquire an interest in the fraudulent scheme exploited, is a very rare bird.

Diverse and intermittent political and social instances to the contrary notwithstanding, we live in moral times and the newspapers largely share the responsibility for them. As public chronicles and public guides they have no right and no excuse to

indulge in statements that are not true and pursue business methods that are not legitimate. They have a right, and an obvious reason, to conduct their business at a profit—and these conditions of honesty and of business desert are well met by the code adopted at the convention of the A. A. C. W. Who is there to advance a reason why it should not be maintained and universally respected? Who is there to deny that reliability is the basic ingredient in forming the confidence of the public, and that the public confidence is indispensable to the success of any newspaper, or of any general enterprise that employs the newspaper to bring its patronage and development?

Let's all join the "Don't Worry" club.

One firm at Ballinger, Tex., has already shipped this year \$35,000 worth of eggs. The same firm pays a premium of from 3 to 5 cents for infertile eggs.

Two negroes charged with burglarizing a hen-roost were duly convicted in the 78th district court yesterday and given two years each in the penitentiary. Our reason for making editorial mention of this incident is to, in a way refute the slanderous charge that has gone out from here that no one charged with crime could be convicted by a Wichita county jury. We forgot to mention also, that the negroes secured five chickens.

The way to get the best results from the "Buy-It-Made-in-Texas" movement is to make a good start by buying what you need and can get right here in Wichita Falls. This advice is meant for all. If the wage earner, the farmer or the man who is the proprietor of only a modest business concern is expected to live up to it, it is good for the fellows who are roosting on the top of the ladder. If it isn't good for them, then it is nothing but a waste of words to try make it apply to those who are holding the ladder up to keep it in position in order to prevent the fellows at the top from getting a fall.

The government report, just issued places the reduction of cotton acreage in the United States this year at 5,871,000 under that of 1914. Figuring that the yield per acre will be as great this year as that of last, it will mean at least a reduction of 2,450,000 bales. Ordinarily a report like that causes the cotton market to shoot up a few points, and doubtless it will have that effect this time. Last year, or just when cotton was being marketed, the speculators estimated the surplus at between five and seven million bales, and they bought the bulk of the cotton at a price below the cost of production. Their scheme worked all right. But it now develops that the surplus left over from last year's cotton crop is only about 5,000,000 bales, or just little over the normal. If the government figures are correct and there is as much demand for cotton this year as last, there will be little or no surplus crop.

There are said to be 1,750,000 automobiles in use in the United States, and that fully 50 per cent. of them are owned by farmers and stockmen. The manufacturers are now estimating that 60 per cent. of their entire output for this year will be purchased by farmers. Good roads preserves the life of an automobile. The opposition to good roads, for the most part, comes from the country. Perhaps when the time comes that a great majority of farmers buy and use automobiles they will find out that it will pay them to vote bonds for the purpose of building good roads as often as the proposition comes before them. Wichita county could well afford to vote a half million dollars good road bonds, and if the people of the country are ready The Times feels quite sure that the people of Wichita Falls will support a bond issue of that magnitude by a good majority.

The Austin Statesman, a morning paper, and the Austin Tribune, an afternoon paper, have consolidated, and in the future will be published in the afternoon and on Sunday mornings under the hyphenated name of the Austin Statesman and Tribune. This step was taken by the Statesman company on petition of the advertisers, who did not see the necessity of supporting two morning newspapers, the other being the Austin-American, but thought they could well afford to support one morning newspaper and one afternoon newspaper, and pledged themselves to do this. Austin is a city of about 40,000 population, and to support the two newspapers—one afternoon and one morning, it is going to tax them to the limit. By this consolidation the advertisers will have one paper less to support, and in return there is not the least doubt but that they will get better service from the two papers at less cost than they were getting from the three.

THE CULTURED CHILD.

How sharper than a serpent's tooth it is to be the dad of an obnoxious, cultured youth, an educated lad. You la-

Getting Ready for Your Fourth of July Celebration.

Edison Diamond Disc Phonographs \$150 to \$450

Victor-Victrola \$15 to \$300

Mr. Edison invented the phonograph in 1877. One year later he invented and patented the first disc phonograph. This information may come as a surprise to many, for not until now has the great master permitted a disc phonograph to be offered to the public in his name. The new Edison Diamond Disc Phonograph, therefore, represents the culmination of thirty-five years of endeavor to perfectly reproduce sound.

Enjoy the glorious Fourth in your own home with a Victrola or an Edison. Instead of getting a lot of dangerous fireworks, enjoy yourself in a safe and sane way with the Victrola or Edison. With either of the above instruments you have all the music of all the world in your own home—varying from Ada Jones to Tetrazzini, Billy Sunday to Harry Lauder; The Old Folk Dance to our present Tango.

Come in any time and we will gladly demonstrate these great instruments with your favorite selection. Terms to suit your convenience.

"HOW TO LIVE RIGHT" REV. FRIAR'S SUBJECT

Says Man Must Have Love For the Right and Hatred For the Wicked Thing. Mr. Friar spoke last night on "How To Live Right," taking his Scripture lesson from the fifth chapter of Romans. He said in part: "By regeneration you are made to partake of the divine nature of God. Jesus Christ formed in you. What we need more than anything else is the old time, Holy Ghost religion. No man is going to live right until he has love for the right and an intense hatred for the wicked thing, not an outward restraint but an inward im-

pulse to live right, an overpowering desire for right living. "If you have no intense hatred for the evil things, then you have not the love of God in your heart. If a man says he loves God and still can go into a saloon and not disturb his conscience, then that man knows nothing about God. You can live right by association and transformation." In conclusion the evangelist said, "All Heaven is on the side of the man who is trying to do right and with such backing as that one cannot fail. Sinner if you come home tonight and let Jesus come into your life you will be transformed into the love of God." The members of the party expressed themselves as much pleased with the change of sentiment that is noticed, the meeting growing in favor with the attendance growing in proportion. Services will be held tonight as previously announced.

Notice. All union stores will be closed Monday, July 5th on account of July 4th being on Sunday. L. A. DEATON, President.

COLONNA TOGGERY SHOP

Great Half Yearly Sale Ladies' Ready-To-Wear Apparel

This is a Splendid Opportunity

for you to fill your wardrobe with good things for your summer trip, at bargains so low that you can really get two or three garments for the price of one. We want to clear out all summer stock as quick as possible, preparatory to invoicing.

Please Bear in Mind

that you are not buying old carried over stock. This is not our method of doing business. Every season's end we have these sales to clear out our stock to the public so as not to carry over a single garment.

We make these prices so low that you compel yourself to buy.

Begins Friday Morning, July 2nd

This Half Yearly Sale In Our Garment Section Offers the Greatest Bargains of the Year

In the reductions we have made on every Suit, Coat, Dress, Skirt as well as all Shirt Waist, etc., in our house, are of such a nature as will make your Dollars do double duty. Hundreds of garments are marked at half price and on many others your savings are more.

Attend this, which will be one of the greatest and most far reaching sales we have ever inaugurated in our popular garment section. During this sale we are compelled to deviate from our usual liberal policy, therefore cannot send any of the garments here advertised on approval either in or out of the City.

All Silk Dresses 33 Per Cent off and Less

All Silk Dresses in our house of the present season's styles, the greater part are dresses received during the past thirty days, will be on sale at 33% off and less. The material is worth more than the prices at which these dresses are being sold. Come early and have your choice.

About 15 Cloth Suits

New, spring materials and styles, worth up to \$30, colors putty, sand, green, at **\$10 00**

Silk Suits

We have just a few of these left. All very pretty and fine material of Silk Poplin. We close these out at one-half price. \$30 suits **\$12 50 and \$15 00**

Palm Beach Suits

Everybody should have a Palm Beach suit—they are the coolest thing you can wear these hot days—keeps away the heat and cools the system.

- \$15.00 Palm Beach Suits **\$10 50**
- \$13.50 Palm Beach Suits **\$ 9 50**
- \$10.50 Palm Beach Suits **\$ 7 50**

Palm Beach Skirts

- \$6.50 Palm Beach Skirts **\$5 45**
- \$5.50 Palm Beach Skirts **\$3 95**

Silk and Lace Blouses

- Many beautiful Blouses in Crepe and wash Silk.
- \$6.50 Silk Blouses **\$4 95**
- \$5.00 Silk Blouses **\$3 95**
- \$4.50 Silk Blouses **\$3 50**
- \$3.50 Silk Blouses **\$2 65**
- An assortment of Lawn and Lingerie waists, worth up to \$2, at **95c**

Street Dresses

Entire dress stock of Linens, Voiles, Ratine, Rice Cloth, etc., placed on sale at 33% off, and some at 50%. Prices as quoted below:

- \$12.50 Dresses for **\$8 50**
- \$10.00 Dresses for **\$6 50**
- \$9.50 Dresses for **\$5 50**
- \$8.50 Dresses for **\$5 25**
- \$6.50 Dresses for **\$4 50**
- \$5.50 Dresses for **\$3 50**

We have about 20 or 25 dresses in small sizes that we will put into two lots. These dresses are worth up to \$10.

- Lot one will go at **\$3 75**
- Lot two will go at **\$2 65**

Kimono

Too many Silk and Crepe Kimonos, so we will put these on sale also.

- \$12.50 Silk Kimonos **\$9 50**
- \$10.00 and \$9.50 Silk Kimonos **\$7 50**
- \$7.50 and \$6.50 Kimonos **\$5 50**
- \$5.00 Silk Kimonos **\$3 95**
- \$3.50 Crepe Kimonos **\$2 50**
- \$2.75 Crepe Kimonos **\$2 00**
- \$2.25 Crepe Kimonos **\$1 45**

Millinery

Our entire stock of Spring Millinery will be put on sale at 33% and 50% off. Many pretty hats to be sacrificed. Trimmed hats as low as \$1.50, worth up to \$6 and \$7. All untrimmed spring shapes at one-half price

Mid-Summer Millinery

Of course, we cannot sell these at one-half price, but we will make a nice reduction, deducting our entire profit—isn't that satisfactory.

Beautiful White Dresses

Some of the prettiest white dresses you have ever seen. We put these on sale also. We always carried handsome dresses, so you realize these dresses we offer you on sale are not merely dresses of ordinary type but handsome garments.

- \$45.00 White Dresses **\$30 00**

EVERYDAY THE WAR CONTINUES

Two industries are absolutely benefitted. There has never been a time in the history of the country when farming and stock raising was so profitable as it is today and it will be for years to come. High priced food stuff makes high priced farm lands. High priced cattle makes high price ranch lands. High priced living is driving the people from the cities and towns. There is no safer and profitable business, and lands are bound to enhance in value rapidly. Wichita is the banner county of this state for wheat or stock raising.

BUY A FARM I have some bargains. Can take your property in as part payment. Now is the time to buy. Don't delay—see me today.

A. L. HUEY, Office 604 Eight Street, Phone 1478—night phone 1298

We have for sale a 320 acre farm, one mile of Iowa Park, well improved, 260 acres in cultivation; dark, sandy loam and no waste land. An extra good farm and bargain; priced \$52.50 per acre. Have customer wanting general stock of merchandise in exchange for a well improved farm of 699 acres of which 500 acres are in cultivation; priced at \$40 per acre and is worth it.

F. F. KNOTTS Farm Loans—Farm Lands—City Property

RESIGNATIONS OF OFFICERS CAUSE MILITARY PROBLEMS.

Washington, July 1.—The navy, as well as the army, faces the problem of threatened wholesale resignations of officers who can make far more money from private manufacture of war supplies, than they can ever hope to get from the Government, no matter how high they may rise in the service.

Secretary Daniels admits that two naval constructors had sought his permission to resign, asserting plainly that unless they are allowed to do so, they will consider themselves practically in a state of slavery.

Daniels' view, however, is that they have not right to quit while the Government needs them. Like Secretary Garrison, he is awaiting Attorney General Gregory's opinion on the subject. This had not yet been received, as had been expected.

Garrison says he is not unalterably opposed to officers' resignations, but did want to know what the department's rights were if resignations should be offered wholesale.

The Victrola.....

doesn't promise --it accomplishes

A promise is only a hope, an accomplishment is realization.

You run no risk of disappointment with the Victrola because you know now that it will give you the world's music by the world's masters of music in exact accord with the artist's interpretation.

No other instrument can do as much. No other instrument!

Come in and let us demonstrate the Victrola. We'll gladly play for you Victor Records by the most famous singers and musicians.
