

THE RUSSIANS MUST EVACUATE WARSAW AND DO SO QUICKLY

TO REMAIN THERE ONLY INVITES DISASTER

Teutonic Allies Rushing In Upon The Russians From North And South In Great Force

By Associated Press: London, July 20.—The uppermost question with allied observers concerning the eastern situation is when Warsaw will be evacuated rather than it will be.

Through Copenhagen comes a report of the occupation of Windau, giving Germans possession of another Baltic naval base. This menace to the Russian to the north is paralleled from southeast by the advance of the Teutonic allies on the Lublin railroad, one of the chief arteries of communication with Warsaw.

From Windau the Germans are reported to be advancing toward Riga with the intention of seizing that port and clearing nearby seas of mines, thus obtaining another naval base.

Only sporadic engagements which have been without result have occurred upon the western battle front.

GERMANS NOW AT WARSAW

AT POINTS RUSSIANS DRIVEN BACK WITHIN TEN MILES OF CAPITAL

GERMANS TAKE PORT

Capture Windau and Take Important Fortress Russians in Full Retreat South of Warsaw

By Associated Press: Berlin, July 20.—Important messages for the Teutonic allies along the battline in Russia from the Baltic Sea to Bukovina are explained in an official statement issued today at the German war office.

"Between the Pissa and Skwa the Russians evacuated a position which had been penetrated at several points by our troops and are retreating towards the Narawa. The German reserve landwehr, fighting in this district of marshy ground which is extremely favorable to the resistance of the enemy, accomplished notable deeds.

"The army of Gen. Von Gallwitz, advancing further now is standing with all of its troops on the Narawa line south of Ostrolenka and Nowogrozieck. (Nowogrozieck is a strong fortress about ten miles north-west of Warsaw.)

"In Poland between the Vistula and the Pissa the Russians are retreating seaward. In the southeastern theatre the enemy defeated on the seventh day of the night entered the line near Bresklow and Baranow which also is wavering.

"Between the upper Vistula and the Bug a battle of the allied troops (Austro-Germans) under Marshall Von Mackensen is proceeding with violence. At the eruption point near Silesowice and Kraonostze the enemy made desperate efforts to avert defeat. Fresh troops sent against ours were defeated however.

"The enemy stopped in his retreat near Kraonostze, where he attempted some resistance but suffered a severe defeat. German troops and the corps under the command of Field Marshall Von Arz captured from July 16 to 18, 16,250 prisoners and 23 machine guns.

"The National Geographic Society has issued the following description of Windau reported captured by the Germans: "Windau is Russia's Atlantic City, the place where the Russian family of moderate income goes to spend the vacation period.

FURTHER PROGRESS BY GERMAN DRIVE. Berlin, July 20.—Further progress in the great German drive towards Warsaw to the north and south was announced officially today. The German war office reports the capture of Ostrolenka on the Narawa river about sixty miles north of Warsaw.

NAVAL ACTIVITY OF THE ITALIANS INTENSIFIED

By Associated Press: Rome, July 20.—The following statement was given out at the ministry of marine here today: "Since the last statement on July 7 the navy has intensified its action in cooperation with the aerial service against the enemy's coast in the lower and upper Adriatic.

DECREASED BIRTH RATE ATTRIBUTED TO ALCOHOL

Peasants of Caen Drink at Least a Pint of Brandy Daily and Oftentimes More

Paris.—In an investigation of the causes of the depopulation of France, Monsieur Charles Benoit, took the canton of Cruilly, in the arrondissement of Caen both of which are gradually losing their population, and made a house to house inquiry in search of data as to whether the decreased birthrate should be attributed to physiological, psychological, moral, economic, fiscal, judicial, political or social causes. In several cases he said the reply to his questions was "alcohol."

In several cases "the exhaustion of the race" was given without precision as to the causes of the exhaustion.

Dr. Levasort, head of the Bon-Sauveur Insane Asylum at Caen, is more categorical than the inhabitants interviewed by Monsieur Benoit. "What alcohol has done to this population formerly so healthy and robust," he says, "one cannot realize without living in the region. Peasants in the valley of the Auge who produce a great deal of the cider and distill it at will, drink at least a pint of brandy per day; some, women as well as men, drink double that."

"It is with the coffee that the women acquire the habit. Whenever a neighbor pays a visit, the hostess offers a 'drop of coffee'; the cider brandy goes with it and after it until the quantity surpasses by far the quantity of coffee. No one thinks of attaining the cider brandy since it costs them nothing. Drinking at home leads to drink-

ing in public, and this perhaps accounts for the fact that the communes of less than 4,000 population is 54 per cent of the total.

Whether drink may be considered the cause of the decrease in the birthrate or not, the progression of depopulation seems to have kept pace with the progression of alcoholism. Where the consumption of spirits was formerly a gallon and a half a year per capita, it is now more than three gallons, while the decreased birthrate, traced back through many generations in the same families by Monsieur Benoit, shows a decrease from an average of 4 children per family in the 19th century to 3 in the 20th.

The department of Calvados, which has given its name to one of the liqueurs that inevitably accompany the after lunch or after dinner coffee in France, is one of the departments where fruit growers profit most from the privilege law accords them of making brandy of their crop without paying a government tax. Of the fifty-one million gallons of cider produced in France in 1912, Calvados produced five million four hundred thousand. How much of this was reduced to cider brandy statistics do not tell since private distillation is subjected to no control.

Statistics show, however, that while Calvados has only 1 per cent of the population of France, it has 4 per cent of the number of controlled distilleries, and that in 1912 they produced 170,000 gallons of pure alcohol equivalent to 485,000 gallons of brandy—more than a gallon a head for each of the inhabitants, including children. Add to this the unknown quantities of private distilled and it is possible to credit the statement that in some communes the annual consumption of brandy approaches ten gallons per capita per annum.

ANOTHER ROAD MEETING

AT PETROLIA TOMORROW

Final Plans For Opening More Direct and Better Road to Wichita to Be Taken Up

A meeting is to be held at Petrolia tomorrow at which plans for the opening of a more direct and better road to Wichita Falls will be decided upon. Preliminary plans were discussed at a meeting held at Petrolia last week. The Petrolia Enterprise had the following account of this meeting:

An enthusiastic meeting was held at the office of G. H. Watson in Petrolia Tuesday afternoon to take steps toward opening up a first class road along the right of way of the Wichita Valley from Byrnes, Petrolia and Dean to Wichita Falls. Among those present were: C. W. Bean and J. W. Culbertson and others from Petrolia citizens. A committee consisting of J. J. Taylor, H. W. Perkins, F. J. Holmes, and H. L. McGregg was appointed to see the land owners along the route between Petrolia and Dean and secure right of way and C. W. Bean was selected to secure right of way from Dean to Wichita Falls. These committees were instructed to report at a meeting to be held in G. H. Watson's office in Petrolia next Wednesday, July 21 when definite action will be taken in the premises. There is no question but that the proposed road will be given every aid and encouragement by the Clay county commissioners. Commissioner Burke of Petrolia being heartily and enthusiastically in favor of opening the road. The principal expense will be in securing right of way and with barely one exception, that will be nominal. There is very little grading to be done, and practically no bridges and very few culverts to put in. Every one interested is especially urged to attend the meeting in Petrolia next Wednesday.

ORVILLE WRIGHT TO BE A MEMBER OF NAVAL BOARD

From the time that it was suggested by Secretary Daniels of the navy that the active aid of noted inventors be obtained for the new navy board of invention and development the name of Orville Wright, aviator, has been prominent. It was agreed that one of the first men, after Thomas A. Edison, would be Orville Wright.

PROHIBITION IN MINERAL WELLS.

The probable effect of prohibition in this county, in the event of its adoption, can best be determined in advance by a comparison of the changed conditions in such localities as have experimented with the theory. This committee has shown from statistics and from reports or responsible parties, just what prohibition has done for Henrietta. Other places like Amarillo, Abilene, Denton, Paris, Greenville and Cleburne have suffered accordingly, the latest victim being Mineral Wells, which, prior to the adoption of prohibition, was the mecca for thousands of visitors during the summer months. Hear the evidence below from prominent business men at that place and ask yourself if you want to place this city and county in a similar condition.

In addition to the unfavorable conditions mentioned in these letters, used in the recent Falls county campaign, other serious effects have been felt. Prior to the adoption of prohibition the railroad leading to that city had operated two motor cars in addition to the steam service, but these cars were taken off within thirty days after the town went dry and have not since been operated. Two of the best dairies have sold their cattle for beef and have left the town. On Mesquite street, from the depot to the postoffice, there are now six teen vacant business houses. The Piedmont Hotel, for which an offer of \$60,000.00 was made a few months ago, recently sold for only \$16,000.00.

And yet our prohibition friends would have you believe that its adoption does not effect business conditions. If Mineral Wells has suffered as indicated by these reports, may we not reasonably expect a like or more serious result in Wichita Falls?

Manager of the Lamar Wells. Mineral Wells, Tex., July 3, 1915.

Dear Sir: In answer to your inquiry of recent date, in regard to the effect which prohibition has had on the general conditions, etc., of our city, will state that to the best of my knowledge that we had at this time last year about one-third more visitors than we have this year, and we have had fewer pleasure seekers this year than I have ever seen before, and as a matter of fact the greater part of our visitors this season are women and children.

It is a well known fact that the pleasure seeker is the largest asset that a watering place has, and since prohibition has been in effect in our city, their absence has been keenly felt.

As to the effect it has had on our business in general, will state that as we depend almost entirely on the visiting public for our existence, the absence of the large crowd of pleasure seekers (which we have previously enjoyed) has naturally cut down the receipts of the hotel men, the truck grower, the meat man, and the grocer, to say nothing of other lines of business.

I will state further that local option has to a great extent made whiskey drinkers out of men who formerly indulged only in the lighter alcoholic beverages such as beer, etc. It has diminished revenues on valuable business property, and in many cases destroyed it altogether. In that respect it has brought about a serious business condition. Large sums of money formerly spent here, now go to Fort Worth and Dallas, never to return to the channels of business in Mineral Wells.

In my opinion local option is a fatal mistake in a health resort or a pleasure resort.

Yours very truly, H. B. RUGLEY.

Jno. W. Moyer, District Attorney. Mineral Wells, Tex., July 3, 1915.

Dear Sir: I am in receipt of your letter of the 5th inst. in regard to my assisting you in the campaign now on in Falls county.

The leading hotels and restaurants say that business has fallen off from 30 to 50 per cent and the managers of the Southwestern Telephone and the Western Union Telegraph companies report that their business is considerably less than it was at this time last year.

I understand that Mr. Fort of this place has been circulating a petition among his friends, that we have splendidly paved streets, etc., and undesirably to give prohibition the credit for all the good things that have come to Mineral Wells. I have not seen the petition, but I doubt very much if it calls attention to the fact that provision for all of our improvements had been made prior to the adoption of prohibition. I doubt also if it calls attention to the fact that the oil excitement of this place has contributed largely to our financial welfare during the past six months; if it does, they no doubt give the prohibition cause the credit for the discovery of oil. I am reliably informed that one Mr. Smith, at present our cotton weigher at this place, and most rapid pro, refused to sign the statement because the same was untrue. Many others refused to sign same for the reason.

Yours very truly, JNO. W. MOYERS.

Men Who Know Marlin. Mineral Wells, Tex., July 3, 1915.

Dear Sir: In answer to your query as to what effect local prohibition has had on our town in a business way,

really values, rental, etc., will say that as to rental values we can not answer, except as to our individual property, as we do not do a rental business or our own rentals have been cut practically one-half; property values greatly depreciated.

Our crowd of visiting population, has been alarmingly reduced; in fact, there has been fewer people this season than since 1903, and it is our candid opinion that the chief cause of these conditions is local prohibition and we believe there is several hundred other people here that will gladly testify that Mineral Wells is more more greatly speaking from the visitor standpoint, and they are the people that spend the money with us.

We have been fortunate in having voted bonds, and raising money at a price date for street paving and good roads which has been expended in particular for home labor; we also have had quite an oil excitement to help us in these straggling times, otherwise in our opinion we could have more fully realized the real shortage in our visitors that has so long made Mineral Wells famous.

Yours truly, HAZELWOOD BROS.

Owner of the Fairfield Inn. Mineral Wells, Tex., July 8, 1915.

Dear Sir: There is no question but what this town was greatly damaged by having gone prohibition. A great many houses became vacant, both residence and business property, on account of Mineral Wells becoming dry, and there has been an enormous falling off in visitors here owing to the fact of Mineral Wells being dry.

The pros did not expect whiskey to be shipped in here as it is being. There is a great deal of whiskey com-

ing in daily. I am told that one train brought in one evening last fall 225 jugs of whiskey from one gallon up. There has been considerable more drunkenness here since the town went dry than heretofore as everybody can get all the whiskey they want from Fort Worth.

There is no question in my mind that when we can have another election this town will go largely wet, and the precinct here too, as the business element now realizes the situation thoroughly, very truly,

WALTER H. BOYKIN.

And this from a former citizen of Wichita Falls, at one time proprietor of the old St. Charles Cafe, and later city marshal of Mineral Wells.

Former City Marshal. Mineral Wells, Tex., July 5, 1915.

Mr. W. A. Patrick, Marlin, Tex. Dear Sir: Replying to your inquiry:

The number of visitors here this year is at least one-third short of last year and smaller than any of ten years previous.

The pleasure seeker is not show in evidence as in past years. When shipping law was in effect persons wanting liquors went to Fort Worth either by train or auto to secure this supply. This was after local option became effective.

The reduction in the number of visitors has seriously affected the truck growers, dairymen, and raisers of poultry. The discovery of oil and gas in this county brought many visitors here and they with the employment offered to laborers by the paving of the city and construction of good roads, was our salvation in a business way.

Yours truly, ED. DOGGETT. (ADVERTISEMENT)

CASTLE OF OSOWIEC OFFERS STUBBORN RESISTANCE

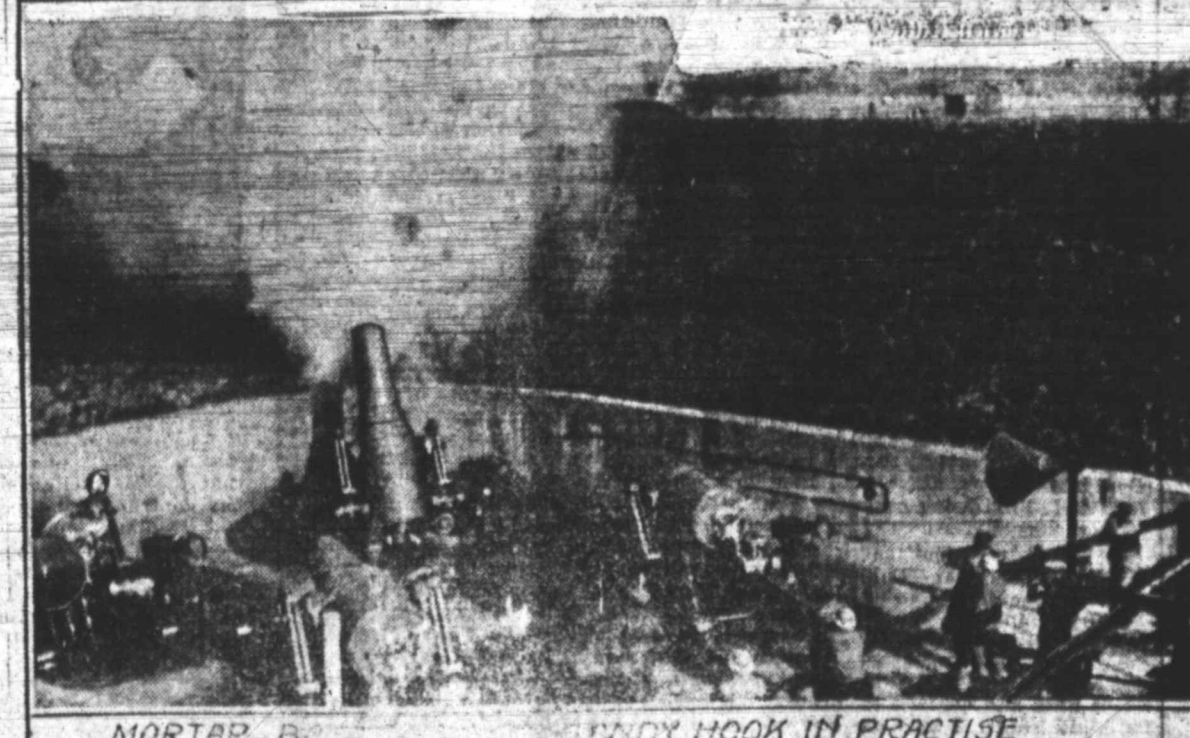

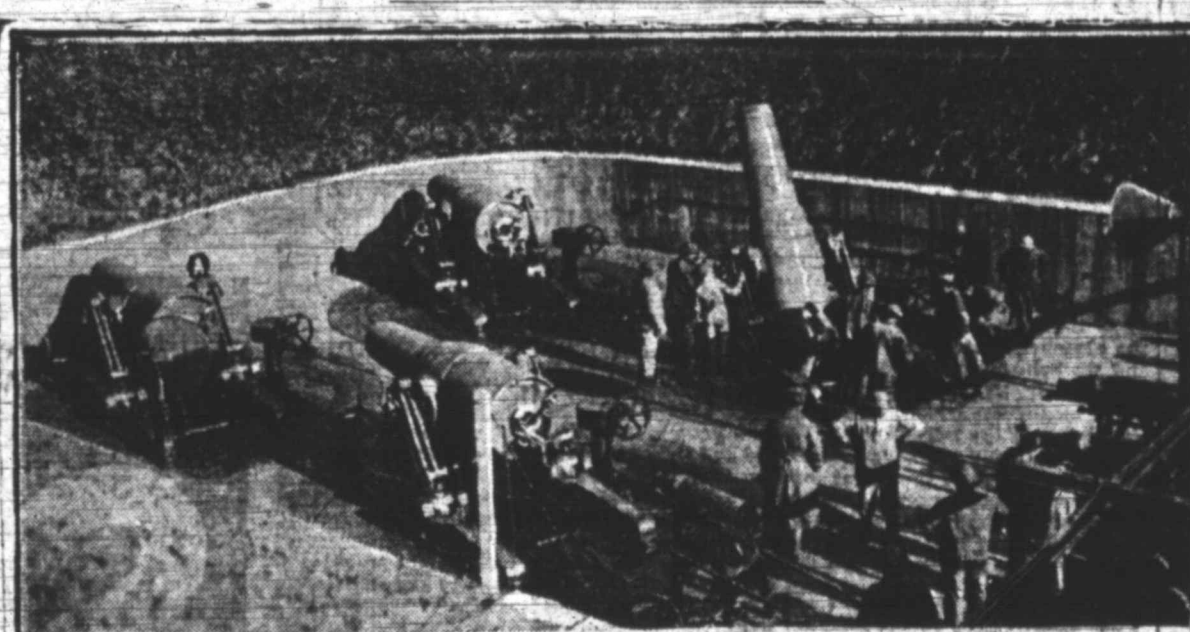

Washington, July 20.—Opposing as stubborn a resistance to the armies of the invader as did the Austrian fortress of Przemysl, the Russian fortress of Osowiec, which forms the subject of today's description of places important in the war zone by the National Geographic Society, has withstood the attack of troops and also guns through months. To the west and to the east, the Germans have advanced deeper into Russian territory, but the fortress of Osowiec still continues to check the enemy's progress along an important path. The war primer says:

"Osowiec, about 20 miles inside the Russian frontier, southeast from the East Prussian border and the lake country, guards the important railway approach to Bialostok, and the great Petrograd-Warsaw trunkline, the cutting of which is one of the prime objects of the German invaders. Bialostok is 38 miles southeast of Osowiec. Fifty-six miles west southwest of Osowiec, the Germans have encamped at Ostrolenka, 20 miles from the German border, and about 20 miles from the trunkline artery. From Ostrolenka, three branch

SPLENDID MARKSMANSHIP DISPLAYED BY MORTAR BATTERIES AT SANDY HOOK

Great satisfaction was expressed at Fort Hancock, on Sandy Hook, over the results of the target practice held recently when a dozen or more salvos were fired from the main twelve inch mortar batteries. The gunners were shelling a floating target, being towed by the tug Harvey Brown, and it is said that every shell struck the float or landed so near to it that they were regarded as a count. For miles up and down the coast the boom, boom, of the big mortars could be heard. They were fired in pairs, and at times the volleys came close together. Searchlights made the range almost as bright as day, and the government launch Connelly, assisted by the steamship General Meigs, kept all vessels out of the danger zone. Captain W. R. Bettison, adjutant, explained that for reasons of safety the range was limited to between three and four miles. The mortars were elevated at an angle of between forty-five and sixty-five degrees, and the distance to be made determined the charge of powder. Each bomb was provided with a "tracer" an inflammable gas which accompanied the projectile and enabled its course to be traced. The target was a red pyramid twelve feet square. Any shot within fifty feet, a mark approximating the deck of a medium sized warship, was counted as a hit. The shooting was entirely by indirect fire, the gunners taking the range from the officers at the observation stations. Officers at the fort considered

railways join the main line. From Osowiec, a railway passes south, through Bialostok and over the Warsaw-Petrograd line, over a Warsaw-Vilna branch line, through the fortress Brest Litovsk, upon the trunkline Warsaw-Moscow, by Kholm, a station on the railway Warsaw-Kiev, passing through Lublin and Kholm. "The little village of Osowiec, with its single street and straggling farms, has little other importance than its military strength. It is situated on the right and lower shore of the Bobr river. The field works front toward the northwest and fall back to the river. Just across from Osowiec, upon the left and higher shore of the river, is the larger village of Gonolons, to which the defensive works are continued. The Bobr is navigable here, and part of its shore is steep and easily defensible. Osowiec is one of the more important frontier Russian fortresses."

Friberg and Thornberry.

Thrashing will soon be finished in this part. Mrs. B. D. Bentley, one of the first settlers of the Thornberry community but now of Stillwater, Okla., is visiting her son, M. R. Bentley at the old home. She attended church Sunday and enjoyed meeting old friends. Miss Ollie Blecks, one of Thornberry's pleasant young ladies has just completed a course in the Wichita Business College and is at home for a time. She expects to accept a position as stenographer this fall. Thornberry Ladies Aid will meet with Mrs. Asa Cuyler Wednesday evening.

Miss Lois Bentley of Stillwater, Okla., is visiting relatives at Thornberry. Ashley Osborn is the champion corn raiser this year. It is reported that he has the best corn ever raised on the hard land. Pelham Nesbit returned home after spending some weeks in Elk City and Oklahoma City. Temperance rally at Friberg Friday night. We will have a good speaker from Wichita Falls. Casper Geyer finished harvesting his wheat last week. The pastor of the Wichita Falls circuit has the best all around truck patch in the country; fine white head cabbage, onions, collards, melons, nice tomato patch and good corn. Arthur Stephenson, one of Thornberry's progressive young farmers, has completed a good size wheat bin and shed for tools. That is wise we think as all machinery ought to be in the shed.

Marsh Bentley has his wheat stacked, waiting for a thresher. Cotton is small for this time of the year and the acreage also is small. Plowing for wheat has been stopped for the present on account of the dry weather. The wheat yield in this country will average around 12 bushels per acre. Some made as high as 25 and some a low as 4 or 5.

Cures Old Sores, Other Humors, Won't Cure.

The worst cases, no matter how long standing, are cured by the wonderful, old reliable Dr. Williams' Antiseptic Ointment. It relieves and cures at the same time. See box for full directions.

A MOTHER'S APPEAL TO MANHOOD.

The following little poem by Mrs. W. S. Willis, 1308 Travis St., Wichita Falls, Texas, a mother of two little girls and four little boys. Composed while sadly meditating over the awfulness of the saloon proposition of this city. Kindly, oh kindly consider her appeal. 'Tis the true sentiment of a mother to the voter.

Now the time is in its zenith;
Rise ye up, oh noble man,
Hear the war cry whiskey, whiskey!
Crush it! crush it! while you can.

See his mighty greedy hands,
How he grasps for baby sweat,
How he longs to crush our darlings,
Trample them beneath his feet.

Grasp your weapons; manhood fly
Now while time is at your hand,
And our whole life leans upon you
Trust him far without our land.

See that noble boy behind you,
Entering sweet young manhood's door;
Tempt him not lest he might topple,
Fall where others fell before.

See those maidens fresh and sweet;
Yes, ah! they'll feel his sting;
Feel that awful, awful curse,
When virtue has been put to wing.

Homes glare at his feet lie
In wreckage all a heap;
Ah! cursed he is to people all,
He loaves at them to sweep.

Rise ye up, oh noble manhood,
Hear our earnest, fearful cry;
Shoulder arms! defend our city,
If you don't we're sure to die.

Can't you hear we mothers calling,
Can't you see our poor hearts bleed?
Ah, we're sure you're going to rally,
You can see this awful need.

See the baby boys around us,
Once for each near death we stood;
Then came bringing, proud our precious
Knew you'd help us when you could.

Grasp your weapons, man and use them;
What! You do not understand;
Your vote, your vote and influence,
Yield them, yield them, while you can.

Trust your vote and kill old whiskey,
'Tis a woman's cry to you;
Tho' we cannot cast a ballot,
We believe true manhood's true.

At this momentous time we trust you,
Cast our honor at your feet;
Will you slush us? Nay, we don't believe it,
True manhood never will retreat.

When woman's fate is in the balance
And young manhood all depends
Upon your ballot, listen;
We know you're going to win.

God will lead you on to victory,
Your commander he will be,
Holding high that royal banner
That leads thru' all Eternity.

Wichita Falls, Texas, July 20, 1915

Is it necessary to have headlights on automobiles in Wichita Falls as strong as searchlights on a battleship?

This is hot weather and every time we think about how American rights are being violated by two great opposing powers in the European war the thermometer goes up.

According to figures furnished by the United States department of commerce there were exported during the eleven months ending May 31, 1915, horses to the value of \$55,953,115 and mules \$10,182,841.

The splendid little shower of this morning was needed and will be worth much to corn and cotton. A little more will be welcome. To make corn and cotton in this country the more rains that fall in July the better the yield will be.

The German submarine U-51 is reported to have been sunk with her crew in the Black Sea. It will be remembered that the U-51 is the craft that made a voyage of 5,000 from the German base, making several narrow escapes and finally torpedoing the Maesje and Triumph, the two great battleships of Great Britain. Captain O'Herring, the U-51 commander will go down in history as a most daring sea fighter.

Statements bearing on the loss of life caused by the European war vary greatly, but the most trustworthy estimates of figures that have thus far been published are those of the Red Cross Society which are as follows: Russia, 732,000; Germany, 482,000; France, 464,000; Austria, 341,000; and Great Britain 116,000. These estimates do not include the period since Italy entered the war, nor do they cover the losses of the European war during the last month, which have been terrible, especially in Galicia. It may be truly said that the total dead represents the most courageous and physically fit population of the nations involved.

Texas needs nothing more than she needs a new constitution, but the way to get a new constitution is by the holding of a constitutional convention. With but two or three exceptions, the people of Texas have refused to adopt proposed amendments submitted by the various legislatures and the reason for this is plain: They had little faith in the men they elected to the legislature to draw up amendments to the constitution. And in this they are probably correct. The average men who seek and are elected to the legislature are not the men the people are willing to impose confidence in to change our constitution, and therefore the great majority of proposed amendments are invariably voted down. Doubtless it will be that way again on the 24th of this month, when six proposed amendments are to be voted on. Perhaps some of them are good, but that will not help matters much. It now looks as if all will share the same fate.

M. H. Wolf of Dallas favors the United States government taking charge of the shipping business during the war. Mr. Wolfe is a cotton man of national reputation and is trying to solve the cotton market problem. Unless the government does take charge of the matter of shipping, there will be no foreign market for American cotton except to markets that treat the cotton with contempt. Mr. Wolfe will permit us to ship it, and then will be her own market, and she will pay for the cotton just the price she wants to pay, regardless of what other markets might be offering for it.

THE CONSTITUTIONAL AMENDMENTS.

To the Voters of Wichita County: An election will be held on July 27th...

For many years the business of the Supreme Court has been too large for three judges, and how it is almost impossible for the court to properly consider the many appeals within three years after the receipt of transcripts.

The Bar Association of Texas was unanimous in its expression of approval, and directed its president, Mr. John L. Dyer, to appoint a chairman from the bar of each county to urge a favorable ballot for this amendment.

DON'T TALK LIKE GUILTY MAN.

"Am I going to die?" Leo M. Frank asked prison physicians after his throat was cut by a fellow prisoner. "We don't know," said the surgeon. "You are in a serious condition."

In a letter to Governor Ferguson, Cyclone Davis, congressman at large, sizes up our troubles with Great Britain and Germany as follows: "I want to compliment you in all sincerity on the splendid spirit of your interview on the pending war questions."

"No one can deny but that Great Britain is the greatest commercial enemy of the United States has. The sinking of the Lusitania with more than 100 Americans aboard by the German cannot be excused. It is the policy of the United States to be neutral, and it is in the power of the United States to stop the European war—not by force, but by refusing absolutely to ship anything to Great Britain."

MR. E. B. CARVER FAVORS TICK ERADICATION.

Editor Times: I notice that you invite publication through the columns of your paper the views of cattlemen of this section with regard to the tick eradication plan to be held next Saturday in Wichita county.

Under the proposed plan, which will be decided Saturday, dipping stations will be established at various ranches and every 21 days the tick infested cattle will be dipped under government supervision.

SOVING TEXAS PRISON PROBLEM.

El Paso Times: Reports from Austin indicate there is something doing in penitentiary circles that seems to promise a solution of the Texas prison problem.

Drastic changes in the management of the penitentiaries and State farms have already been made. Factories are being operated, timber lumber and other products utilized, salesmen placed on the road, and prison industries are again being made to hum.

The prison payroll has been slashed and other expenses curtailed, involving a saving of approximately 40 per cent. The box factory at Rusk is again in operation, giving employment to sixty convicts, and the 600,000 feet of lumber owned by the State at the factory is being rapidly converted into crates and baskets for fruit and vegetable growers.

On January 1st, the prison commission had on hand 400 wagons manufactured by convicts at Huntsville. Some of these wagons were four years old and no effort was made to sell them. A valuable salesman was put on the road, the wagons were sold at a good price, and the wagon factory has again been put in operation.

Growing sugar on the Harten and Clemens farms is to be resumed on a big scale, and the \$500,000 worth of sugar-making machinery owned by the State, which has been idle for several years will again be put in operation.

A VOICE FROM AMARILLO.

The Antis had a letter in the Sunday paper from Mr. Will A. Miller of Amarillo. There are some interesting things about that letter. He says that Mayor Beasley of Amarillo has lent his influence to help make Wichita county dry.

ANTI ADDRESSES WILL BE GIVEN THERE NIGHTLY.

Anti-prohibition arguments will be added to moving pictures and vaudeville at the Lamar-Airdome until the election, the anti-prohibition committee having made arrangements to have speakers after the amusement program each night.

NUMBER OF JITNEYS IS STEADILY DECREASING

None Have Applied for Licenses Under New Ordinance Which Becomes Effective Tuesday.

With only one week remaining before the jitney regulation ordinance goes into effect, the number of jitneys in operation here has dwindled steadily, there being now only two or three still doing business.

MAYOR BRITAIN SPEAKS AT AIRDOME FOR ANTIS

Anti-prohibition arguments will be added to moving pictures and vaudeville at the Lamar-Airdome until the election, the anti-prohibition committee having made arrangements to have speakers after the amusement program each night.

SETTLEMENT OF KRUPP STRIKE IS ORDERED

Geneva, via Paris, July 20.—An important meeting was held at Essen yesterday, according to advices received at Basel, the work and administration of the Krupp gun works and representatives of the workmen, in order to settle the wage dispute.

Grain, Cotton and Livestock Market Reports

Chicago Grain Futures.
By Associated Press.
Chicago, July 20.—Improved weather in the harvest region tended today to ease down the wheat market. Corn weakened with wheat. In oats the feature was selling that was believed to be due to pressure from the new crop. Wheat closed heavy 2 1/4 to 3/8 under last night's close. The closing prices were: Wheat, July 1.11 1/2; Sept. 1.06; Dec. 1.08 1/2. Corn, July 77; Sept. 72 5/8; Dec. 69. Oats, July 48 3/4; Sept. 47 3/4; Dec. 39 1/4.

Fort Worth Livestock.
By Associated Press.
Fort Worth, July 20.—Cattle receipts 2100, steady to strong. Beaves \$7.50 to \$8.50. Hog receipts 500, market five cents higher. Sheep receipts 900, steady; lambs \$7 to \$7.50.

New York Cotton Futures.
By Associated Press.
New York, July 20.—This morning's weather map failed to show as much rain as expected in the south-

west and Liverpool was relatively steady, but after opening steady at a decline the cotton market eased off under local pressure and southern selling. Private predictions for showers carried active months 6 to 9 points lower. Liverpool bought on this setback causing rallies of 3 or 4 points. Reports of showers in the southwest were followed by further setbacks, but prices steadied up toward midday on covering and talk of high temperature in Georgia with active months selling back within a point or two of last night's close. Trading was very quiet during the early afternoon and fluctuations were irregular, with prices ruling about 3 to 5 down. The close was steady. July 8.68; Oct. 9.15; Dec. 9.43; Jan. 9.52; March 9.77.

Kansas City Cash Grain.
By Associated Press.
Kansas City, July 20.—Wheat No. 2 hard 1.30 to 1.45; No. 2 red 1.18 to 1.28. Corn No. 2 mixed 77. Oats No. 2 white 52 to 52 1/4.

NEW VOTE OF \$750,000,000 IN HOUSE OF COMMONS

By Associated Press.
London, July 20.—A new vote of \$750,000,000 was introduced today in the House of Commons. This second supplementary vote will bring the sum actually appropriated by Parliament for war expenditures to \$3,250,000,000. The amount thus provided will tide over a period of the forthcoming Parliamentary recess. The vote merely sanctions expenditures out of funds on hand. In moving the new vote of credit Premier Asquith announced that for the first 17 days of July the war expenditures were \$270,000,000 and that the rate of expenditure showed daily a natural tendency to rise.

SUSPECT ARRESTED IN AXE MURDER CASES

Chicago, July 20.—Police of a number of cities delved into records of mysterious axe murders, while two Chicago detectives and Mayor Jones of Blue Island, Ill., left for Buffalo to bring back Casimir Arleszewski, who is said to have confessed to the murder of Jacob Mischel, his wife, his daughter, Mrs. Mary Mansfield, and her baby, Mary Mansfield in Blue Island, July 5, 1914. Arleszewski was a boarder at the Mischel home, and he told the Buffalo police that he waited until the family was asleep and then killed his victims with an ax.

COURT OF APPEALS RULES FIGHT FILMS CAN'T COME IN

New York, July 20.—A decision sustaining the constitutionality of the law against the importation of fight films has been handed down by the United States circuit court of appeals in the case brought by Lawrence Webber for an injunction restraining the customs service from preventing Webber bringing into the United States the Willard-Johnson film.

Word of the decision was received from Philadelphia by Webber's attorney. It was announced that an immediate appeal would be taken to the United States supreme court.

CLAUDE BOND ON TRIAL ON A CHARGE OF THEFT

The jury in the case of J. H. Houston, who was tried in the 30th district court yesterday on an indictment charging larceny, was still out this afternoon, having had the case nearly 24 hours.

Claude Bond, a negro, is on trial today in the 30th district court, on a charge of theft, receiving stolen property and concealing stolen property. This indictment was returned in connection with the burglarizing of the P. B. M. store several months ago, when a number of suit cases and dresses were taken. Another indictment on a burglary charge has been returned in connection with the same affair.

The remainder of the term in the 30th district court will be devoted to criminal cases and a large number will be tried within the next two weeks.

Huff, Mrs. E. M. Brown and Mr. A. Zundelowitz and wife of Wichita Falls; E. House and J. T. Jordan of Ferris; Mrs. M. G. Long and daughter, Mrs. F. A. Piper and Mrs. Bernheim of San Antonio.

PANHANDLE DOCTORS MEET AT PLAINVIEW

By Associated Press.
Plainview, Texas, July 20.—The Panhandle District Medical Society was to convene here today, with State Health Officer W. B. Collins as one of the speakers. Gov. Ferguson has been invited to address the meeting of doctors, which closes tomorrow night. Others on the speakers program include Dr. J. S. Turner of Dallas; Dr. J. E. Daniels, Wichita Falls, and Dr. C. H. Harris, Fort Worth.

TIGERS WIN FIVE INNING GAME FROM INDEPENDENTS

The Tigers won the city championship from the Independents Sunday afternoon by a score of 8 to 4. The game went only five innings. Andrews and Minnerly were the battery for the Tigers and Kirkbride and Stanfield for the Independents. A movement is now on foot for the consolidation of the two teams giving Wichita Falls the fastest independent team in this section of the State.

NORWEGIAN RIGHTS ALSO VIOLATED BY GERMANY.

Christiania.—Although the German government officially has declared its willingness to pay full damage when Norwegian boats have been "accidentally" torpedoed by German submarines, reports of the sinking of Norwegian steamers are becoming so numerous as to offer serious complications.

Many of the leading papers denounce the government for not doing what it ought to in order to protect Norwegian sailors and citizens. No word has been published from the government regarding what steps it has taken or how it has protested.

The Tidens Tegn says that it now is necessary that the government break its silence and let the people know what it has done and is going to do in order to stop these continued encroachments and "protect our flag, our sailors and peaceful travelers."

The Morgenbladet says: "While our sailors are met by invidious death, while our flag is offended and Norwegian ships are torpedoed without warning, the government and parliament are busy discussing whether the language we are talking is real Norwegian or whether the hymns and prayers are to be discontinued in public schools. About those events that fill everybody with uneasiness and wrath they say nothing."

The Shipping Gazette points to the American vote to Germany, which contains the same questions and

This extremely hot weather it is a bad policy for women to try to do the family baking, especially when they can get good, FRESH HOME-MADE BREAD, right out of the oven and wrapped in sanitary packages. Telephone and our auto will stop and demonstrate the quality of our bread.

NOTICE OF SALE OF INTEREST IN FIRM

I have sold my interest in the furniture business of Small & Ponder on Seventh street to my partner, W. L. Ponder who will continue the business at the old stand. Mr. Ponder will be responsible for all accounts owed by the firm and all accounts due the firm are payable to him. I wish to thank the public for their patronage and bespeak a continuance of the same for Mr. Ponder.

STREAM OF PRISONERS TRICKLING INTO HOLLAND.

The Hague, Netherlands.—A steady stream of prisoners-of-war keeps trickling out of the German empire and reaches the haven of Holland. Hardly a day goes by without an Englishman, Russian, Frenchman or Belgian making his appearance in some Dutch frontier village to become the object of admiration and the recipient of enough cigars to keep him in tobacco for the rest of his natural life. As a rule they are the most energetic men of their company who could stand the

detention no longer and who, after passing through the most terrible hardships often tumble across the line in a state of complete exhaustion. Many of their fellow sufferers are shot on their way. Often they come to the barbed wire fence which has been built all around the frontier to mark at their prospective freedom with a sudden bullet in their legs or in their back.

Mrs. L. Fallon and Miss Helen Hines made a trip to Iowa Park this afternoon.

THE DRINK PROBLEM SOLVED

Without wishing to throw any bouquets at ourselves, we must say that we have put it all over the other fellows in the matter of ice cream and ice cream drinks.

One draught of nectar from our fountain will waft you to the clouds of ethereal delight—and bring you back after another.

Our nut caramel ice cream, especially, is one of the most delightful confections ever concocted, and we serve it every day at our fountain, or deliver it to your home or office, at any time you designate. It is only one of the many. We have made a scientific study of making and mixing temperance and food drinks, as well as creams, sherbets and ices, and if we were only able to impress their real goodness on all of the people there would not be any prohibition agitation—the drink question would settle itself by every one drinking at our fountain.

A GIRL ALWAYS APPRECIATES

A gift of fine stationery. And it is a gift that can be offered as freely as candy or flowers. Our boxed stationery is the kind used by people who know. It is

dainty in every detail. It is correct in every particular. A gift of a box of it would make some girl glad. Why not make it?

We carry the well known Whiting line, in the newest colors and designs of initial and plain stationery, and correspondence cards in pink, blue and white, with gold and plain edges. We also carry score cards, place cards, tally cards for all seasons and occasions.

SHOPPING BY WIRE

Modern merchandising has made wonderful progress in many ways that have tended to make it easy and comfortable for the women buyers, but probably the greatest of all has been the introduction of the shopping by wire plan—by telephone. Sit down at your telephone and call us up for any article that you may want—toilet goods, stationery, medicines, magazines, fountain drinks or ice cream, Victor records, rubber goods—a long list of articles wanted in the home most every day—and we will have them out to you in a hurry. We'll even send a selection of articles to you if you wish, and we'll guarantee to make them as cheap and just as good as if you made your selections.
