

TERRIFIC FIGHTING ON WEST FRONT AND ALONG THE BELGIAN COAST

A FATEFUL ENTERPRISE IS RUMORED

WHOLE ASPECT OF WAR MAY BE CHANGED BY OPERATIONS NOW IN PROGRESS—BOMBARDED THE BELGIAN COAST.

NAVAL OPERATIONS

Reports Indicate Activity By German Fleet as Well as English—Russians Delivering Heavy Counter Strokes Against the Teutons.

FATEFUL ENTERPRISE RUMORED.

The British public, however, are more anxious to know what is happening nearer home. Since Monday last there has been a more or less continuous bombardment of Ostend, Zeebrugge, and other points on the Belgian coast, and according to rumor an enterprise is being attempted which may change the whole aspect of the war on the western front.

LITTLE NEWS FROM EAST.

This applies to events on the Russian front, for since the publication early this morning of the Russian communication nothing official has been received of developments there except the Vienna report which tells nothing except what was already known. The Russians are believed to be more than holding their own at various points along their line.

TORREON EVACUATED BY GENERAL VILLA'S TROOPS

Carranza Troops Entering City From Three Directions—Villa Destroying Railroads Behind Him.

Laredo, Texas, Sept. 25.—Villa troops are evacuating Torreon and Carranza forces are entering that city tonight, according to a telegram received at Carranza headquarters in Nuevo Laredo. Reports today indicated that Villistas would offer heavy resistance to the Carranzistas who were said to be entering Torreon from three directions. Unconfirmed reports here stated Villa was destroying the railway line behind him as he retreated.

AMERICAN CONSULS AMONG REFUGEES

El Paso, Texas, Sept. 25.—The last of the foreign refugees from around Torreon arrived today. With them came Consul Coen of Durango and Consul Agent Williams of Torreon. According to their reports General Villa is superintending the destruction of the railroad north of Torreon. A number of foreigners were reported as refusing to obey the advice of the state department and were remaining in Mexico.

FROM THE SEA TO VOSGES

After Artillery Bombardment Lasting Fifty Hours Berlin Reports the Enemy Made Attempt to Advance—Terrific Fighting Continues.

Berlin, Sept. 25.—The German official communication says that after an artillery preparation of great intensity, which at some points lasted fifty hours, the expected Anglo-French offensive has begun on the western front. The communication claims that the northern British wing has already been repulsed and that the French also have been repulsed near Souchez, Neuville and at points between Champagne and the Argonne, their retreating columns losing very heavily from artillery fire.

FIRST POSITIONS OF THE GERMANS OCCUPIED.

Paris, Sept. 25.—The French official statement says: "On the Belgian coast our batteries have cooperated in the bombardment by the fleet of the German positions at Westende and Middelkerke. The British troops have attacked with success enemy positions to the west of Loos and Hulcheux. Our troops operating in conjunction with the British army delivered to the north of Arras an energetic attack which permitted the French to establish several points in the enemy's lines."

MANEUVERS TO TEST OUT COAST DEFENSES.

Newport, R. I., Sept. 25.—Maneuvers for trying out the coast defenses of New York, New London, and Boston will be carried out next month before the forts, and four divisions of destroyers, it was learned today. While the details were not made public, it is believed one object will be the testing of efficiency of searchlights and the determination of ranges. The maneuvers of Boston will take place from October 4th to October 9th. The drills at New London will be held from October 12th to October 19th, and at New York from October 27th to October 29th.

ROCKEFELLER COMPLETES WEEK OF INSPECTION

Left Pueblo Last Night for Denver for Series of Conferences With Mine Officials.

Pueblo, Colo., Sept. 25.—John D. Rockefeller, Jr., tonight completed the first week of his inspection of Colorado properties of the Colorado Fuel & Iron Company. He reached Pueblo after a day spent at the mines of Fremont county and immediately boarded a Denver train. Monday, according to plans, he will begin a series of conferences with company officials in Denver, at which whatever policies are to be formulated.

Since Rockefeller reached Trinidad last Monday, he has driven some hundreds of miles over mountains and plains, in motor cars, dug coal in the Frederick mine and descended a 400-foot shaft at Coal Creek, eaten beef steak and beans at miners' boarding houses and danced with miners' wives and daughters in a little school house after an amateur entertainment.

Mr. Rockefeller came to Colorado with the avowed intention of studying at first hand the labor conditions following the strike of 1913-15. From the day he entered Berwind Camp—the first visited—until he departed in a drizzling rain from the Fremont mine late today, his time was taken up largely with meeting and talking with miners and inspecting the places where they live and toil.

Special to The Times. Austin, Texas, Sept. 25.—Charged with inciting an insurrection against the United States, Malbis-Rosen, aged 36 a bartender of Redwood, Guadalupe county, was lodged today in the Travis county jail in default of bail in the sum of \$1,000. The preliminary hearing has been set by Tom Caldwell, United States commissioner for next Thursday morning.

Rocha was arrested by state rangers under command of Capt. W. H. Fox ten days ago and, with three other Mexicans, was placed in jail at San Marcos. An investigation was made by federal officers with the result that Rocha was turned over to Deputy United States Marshall Platt and the prisoner was brought from San Marcos to Austin.

The complaint against Rocha is signed by Assistant United States District Attorney Hugh R. Robertson, with headquarters at San Antonio.

Akron, Ohio, Sept. 25.—Eight men were shot, one seriously in a street fight here today. An argument led to the fighting followed by shooting on the part of Paul Harkins, who fired into the crowd.

EMPEROR CONGRATULATES SECRETARY OF TREASURY

In Telegram Declares Success of War Loan Equal to Splendid Victory on Battlefield

Berlin, Sept. 25.—(by wireless to Sayville.) Lengthy editorials congratulating the government on the success of the third war loan are printed by the newspapers, says the Overseas News Agency. Simultaneously Emperor William sent his first congratulatory telegram to Dr. Carl Helfferich, secretary of the imperial treasury, with another message which read: "The result is beyond all expectations. It is equal to a splendid victory achieved upon the battlefield and without the loss of human life."

The Lokal Anzeiger speaks of the loan as a "triumphant demonstration of the confidence and determination of the nation."

FOUR DAYS MORE IN WHICH CARS CAN BE REGISTERED

Beginning October 1, Complaints Will Be Filed Against All Owners Not Registering Number

Just four days remain in which Wichita Falls motorists may register their cars with the city tax assessor and secure city licenses. Beginning with October 1, all who fail to have the required "T" on their machines will be subject to arrest and fine, according to Chief of Police Hall. To date only 451 cars have been registered for city licenses, and it is felt that there are several hundred more that should be registered. The number of bicycles registered is 266 and of motorcycles 22.

FIVE VOTE CONVICTS BEGIN THEIR SENTENCES

Former Neuces County Officials and Residents in Victoria County Jail

Victoria, Texas, Sept. 25.—The five Neuces county officials and residents convicted recently and sentenced Friday at Corpus Christi for alleged election frauds arrived here today to be confined in the Victoria county jail, pending the perfection of their appeal from the judgment of the district court to the United States circuit court of appeals at New Orleans. The prisoners are well known here. Each exercises confidence that he will win his case on appeal.

LOUIS TERRAZAS AND SON ESCAPE JAIL AT CHIHUAHUA

NOW REPORTED MAKING THEIR WAY TOWARD AMERICAN BORDER—THREE OF JAILERS REPORTED SHOT

WERE PRISONERS OF VILLA

Members of Wealthiest Family in Mexico and Were Held For Months. Ransom Part of Which Had Been Paid

El Paso, Texas, Sept. 25.—After being held hostage for about eighteen months, Louis Terrazas, together with his son, Guillermo Terrazas, have escaped from Chihuahua City and are en route to the border overland, according to official Villa advices today. Three guards of the Chihuahua jail are reported to have been shot on suspicion of complicity in the escape.

After the migration of the Terrazas family to the United States, abandoning their ranch, which included vast areas in Chihuahua, Louis Terrazas Jr. was caught and held hostage for the political activity of the family in the United States and incidentally for a ransom of \$500,000 demanded of Gen. Louis Terrazas on a threat to kill his son.

It is understood that part of the ransom was paid but the prisoner was not released. Subsequent ransoms were demanded and compromised but the prisoners were given only the liberty of the city under guard. It is said that nearly \$1,000,000 was paid for the promised release of Louis without moving him nearer the border.

Guillermo Terrazas was held merely as a member of the Terrazas family.

CAVALRYMAN MISSING, FEARED KILLED BY BANDITS. United States troops continue an active patrol all last night around Progresso, without encountering any Mexicans. Nearly four hundred are now in that district.

ALLEGED CONFESSION FROM YOUNG MAN FROM OKLAHOMA. Philadelphia, Pa., Sept. 25.—John Frank Anderson, 23 years of age, who says he is a member of a well-to-do family of Ardmore, Okla., was arrested in a hotel today and confessed, according to the police that he shot and killed James Campbell, a saloon keeper, in the latter's place of business here last night. His purpose was robbery. He also said he was the man who attempted to hold up and rob other saloons in this city. Anderson told detectives he was a machinist and that he arrived in Philadelphia, three days ago, out of funds. He tried to obtain work, he said, but failed. Then he added, he decided on the hold-up.

NAFARRATE DENIES HIS MEN TOOK ANY PART IN BATTLE

AMERICAN OFFICERS REPORT UNIFORMED MEXICANS ENTRENCHED ACROSS RIVER COVERED RETREAT OF BANDITS.

NO CHANGE IN POLICY YET

Until Authentic Information Received American Government Will Take No Aggressive Action Against Carranza Forces Across Rio Grande.

Washington, Sept. 25.—Major General Funston, commanding United States troops on the border and General Nafarrate, the Carranza commander both disclaim for their men responsibility for the fighting yesterday near Progresso, Texas, in which one American trooper was killed and an officer was wounded while the casualties on the Mexican side are not known.

Reporting to the war department today General Funston said his men had repelled the raiding party which fled across the border under the protection of soldiers "in uniform" entrenched on the other side. The Carranza agency gave out a telegram from General Nafarrate asserting there were no Carranza troops in the vicinity.

A full report on recent fighting on the border was made to the state department today by the war department. It states that in no case have the American soldiers begun the fighting, but it is admitted that civilians and deputy sheriffs in Texas provoked some attacks. In yesterday's fight it is asserted that an armed force invaded American territory and was repulsed.

Officials were frankly puzzled over the border situation. General Carranza has directed General Trevino to make a thorough investigation and a thorough understanding of conditions on the Rio Grande is expected to result. Until authentic information is obtained as to the cause of the raid the policy of the American government will be unchanged and while raiders will be driven off American troops will not be permitted to cross into Mexico in pursuit.

EYES ALONG TEXAS BORDER TURNED TO WASHINGTON. Brownsville, Tex., Sept. 25.—The eyes of the lower Texas border turned today on Washington where it is expected the next important development will occur as a result of yesterday's official report to the war department of the flight at Progresso crossing in which Mexicans, behind trenches covered with heavy fire the retreat of Mexican bandits who raided the town of Progresso. It is recognized among army officers here as the most serious development that has occurred on the Mexican border since the beginning of internal strife in the Republic.

J. C. McAllen, millionaire ranchman of Brownsville and the ranch cook Friday afternoon fought off a band of fourteen Mexican bandits who attacked his ranch house in Hidalgo county, killing two and wounding three, according to the report received here today. The ranch house is in a clearing differing from many houses in that section surrounded by thick brush. Approach was difficult for the bandits, who seeing their losses were so heavy retreated.

This is the same band which two days before raided the Palpa ranch near Mission and were followed through Monte Cristo and McAllen ranches into the ranch of Sam Lane. After they had cut telephone wires severing all communication from the ranch in that section for some hours.

Captain R. B. McCoy, commanding officer at Mission, reported to Fort Brown that he sent out two detachments of soldiers in automobiles and believed that the Mexicans would either be killed or driven from the country, where they have been operating.

With the exception of activities in Hidalgo county ranches no trouble was reported along the lower border. In the absence of reports at Fort Brown everything is quiet. An additional troop of Cavalry Co. has been sent to Santa Maria to patrol in the absence of Captain Z. G. Anderson's troops which is on duty at Progresso.

United States troops continue an active patrol all last night around Progresso, without encountering any Mexicans. Nearly four hundred are now in that district.

ALLEGED CONFESSION FROM YOUNG MAN FROM OKLAHOMA. Philadelphia, Pa., Sept. 25.—John Frank Anderson, 23 years of age, who says he is a member of a well-to-do family of Ardmore, Okla., was arrested in a hotel today and confessed, according to the police that he shot and killed James Campbell, a saloon keeper, in the latter's place of business here last night. UNCLE SAM ACQUIRES TITLE BIG LOT BOOZE

By Associated Press. Sept. 25.—The United States government today acquired title by a default judgment to 450 barrels of whiskey and other liquors seized recently at the Bush Distilling Company's plant in Kansas City in connection with the alleged moonshine frauds at Port Smith, Ark. Under the law the government will sell the liquor at auction thus hoping to reimburse itself for the losses entailed in the alleged irregularity which are said to exceed \$70,000, the highest the government uncovered in recent years. A number of officials of the company are under indictment at Port Smith in connection with the alleged fraud.

ASK INJUNCTION AGAINST DUVAL COUNTY OFFICERS

Tax Payers Seek to Prevent Issuance County Warrants and Prevent Resignations

By Associated Press. Corpus Christi, Texas, Sept. 25.—District Judge C. M. Taylor of the 79th district this afternoon at Alice took up the application of C. M. DuBoise and other property owners of Duval county for an injunction against County Judge G. A. Parr and other officials of that county. A permanent injunction is sought to restrain the members of the county commissioners' court and the county tax collector and assessor from issuing warrants in payment for materials and work for a new county court house, it being alleged that this method of paying for such a building has been resorted to since the failure of a bond issue to be authorized. An allegation of the petition is that in times past officials of Duval county have resigned or swapped offices to prevent the fulfillment of writs of injunction and today property owners are asking that Judge Parr, Collector Robin and the four commissioners be enjoined from resigning.

Disgrace To Permit A Patient To Die From Tuberculosis

By Associated Press. Philadelphia, Sept. 25.—Physicians who have been years in the study of tuberculosis declared today at the closing session of the seventh annual meeting of the American Association of Clinical Research that the cure evolved by Dr. Jefferson D. Gibson of Denver, retiring president of the association, is one that has long been sought in vain. Tuberculosis among the relatively non-fatal diseases. Dr. Gibson mentioned the cure in his address opening the meeting on Thursday and described it in detail in a paper at today's session. It provides a cure by adding X-ray ozone and static electricity to the climatic and dietetic treatment now common in tuberculosis hospitals. By this method it is claimed the presence of the disease can be detected in robust persons even before the well known symptoms have been detected and advanced cases can be cured in remarkably short time. In his papers Dr. Gibson said: "It might seem that I have allowed my enthusiasm to run away with me in studying this cure, but I think a feeling of gratification is at least justified when I say that out of 757 cases thus treated there have been only 61 deaths. I wish to state now with emphasis that the X-ray will finally bring about the emancipation of the human race from this dreadful scourge. In a few years when the method is better developed it will be a disgrace for a physician to allow a case of tuberculosis of any kind to progress an advanced stage, because the X-rays even now find the incipient tendencies even before the symptoms form."

Dr. Coleman of New York was elected president of the association.

NEW YORK AUTO BANDITS IN DARING ROBBERY.

By Associated Press. New York, Sept. 25.—One of the most daring of the numerous holdups by automobile bandits that have taken place in this city during the last year occurred today when three men sprang from an automobile to a crowded sidewalk, struck Charles Reid until he was unconscious and robbed him of a satchel containing \$2,000 cash and jumped back into the automobile and escaped before an alarm could be given. Reid was a cashier of a bank and was taking the money to another bank.

TEACH YOUR CHILDREN HOW TO DO BUSINESS

The School Banking Department Conducted By The
Wichita State Bank

Is the first step in fundamental principle of sound business. Last year we inaugurated this plan of teaching the school children of Wichita Falls the principles of banking and the value of saving their pennies. Over 700 took advantage of the opportunity, all of whom had bank accounts when school closed, and most of them are still maintained. By our school banking plan, any pupil can deposit any amount, from a penny up, with the teacher. When \$5.00 have been accumulated the teacher will deposit the amount in this bank, and a bank book with the depositor's name on it will be issued. Two prizes of \$5.00 each will be given at the close of the school year. One to the student having the largest number of deposits, the other to the student having deposited the largest sum of money. In case two or more pupils shall be tied, the prizes will be awarded to the one having the best grade marks.

**Teachers Will Begin Receiving Deposits
Monday SEPT., 27**

Don't let your children miss this opportunity to learn the first principles of successful business life. Small daily deposits soon become powerful assets for either children or grown up people. By one time saving a dollar a month, Carnegie is now able to spend a million a month.

For full particulars as to our plan have the children enquire of their teacher or come direct to the bank.

Wichita Falls, Texas, Sept. 25, 1915

It is now thought that action on a new court-house for Wichita county will be taken at the next meeting of the commissioners court. So far but little opposition to the proposition has been encountered.

The Masons of Wichita Falls have about decided that they have gone long enough without a home and have decided to have constructed a handsome Masonic Temple at the northeast corner of 10th and Scott. If present plans are carried out it will be a three-story structure 50x150 feet and will cost right at \$40,000.

A bank advertisement in an East Texas newspaper reads as follows: "This bank desires to announce that during the coming cotton season it will advance money to its customers at the rate of 5 per cent per annum, to be secured with bonded warehouse cotton receipts and will be available to cotton growers only." That ad has the right sort of ring to it, when cotton growers can get advances on cotton at 5 per cent per annum they will not be forced to sell on a low market, but can hold until there is a better demand and a better market. When all the banks and bankers in the cotton states adopt that liberal policy toward the cotton growers it will mean much for the whole people of the South. The trouble has been all along that interest has been made so high the cotton grower could not afford to pay, and therefore dumped his cotton on the market, taking just what was offered, and that was hardly equal to the cost of his product.

Rev. Dr. Hills, made famous by the fact that he is now pastor of Old Plymouth church, New York, the church where Henry Ward Beecher used to preach, confessed to his congregation that he had lost his fortune by too great a desire to accumulate more wealth on Wall street, and he is now broke. Dr. Hills in his younger days, was a socialist, and at that time thought it was a crime for a man to have an income greater than \$50,000 per year. But he soon got out of that way of thinking and by preaching, lecturing and writing, accumulated a snug fortune of more than a million dollars. All this he has now lost.

The federal government has made it possible for banks to advance money on cotton at 4 per cent interest, and most banks, or at least many banks, have announced they are willing to do this. As the Times understands it, this cotton money is advanced to the banks by the government at a low rate of interest—something like 3 per cent, and the banks that get this government money are expected to loan it out on cotton at not more than 6 per cent. Much credit for getting the government to come to the relief of the cotton producer by making it possible for him to secure 6 per cent money is given to Congressman Bob Henry of Waco, who has neglected no opportunity that has presented itself to urge upon the government that it should do just what it is doing now, only the government changed the plan somewhat, and instead of loaning the cotton producer direct on cotton, prefers to handle it through the banks. There are those who will deny that the persistency with which Congressman Henry has urged upon the federal government to do something in a financial way to aid the cotton farmers of the South has had anything to do with the matter, but the Times is rather inclined to believe that had Mr. Henry ceased to urge the matter, cotton farmers all over the cotton states would not have been able to secure 6 per cent money. So let's give to the Waco Congressman the credit, or at least the major portion of it. He has done well.

"We favor a single presidential term, and to that end we urge the adoption of an amendment to the constitution making the president of the United States ineligible for re-election and we pledge the candidate of this convention on this principle." The above is a plank of the last National Democratic platform. President Wilson is not a candidate for re-election, but it is conceded that he is going to be nominated by the Democrats, and will accept. In fact, no other Democrat is being considered, probably for the reason that nearly all Democrats are agreed that if the Democrats win the presidency in 1916 Wilson will have to head the ticket. If they can't win with him it is useless to put up any other man. Just how the Democrats are going to dispose of that plank in the platform which makes Wilson ineligible for a second term will probably be by constraining it to mean that until the constitution of the United States is amended limiting the time or terms one man shall hold the office of president, the plank as quoted above is no bar to President Wilson accepting a second nomination, and if elected a second term. That is the reasonable and sensible construction to be placed upon it. At any rate, if Wilson lives, he is going to be renominated for the reason that the American people have confidence in his ability to run this government, and will be re-elected by the greatest popular vote ever given any candidate for the presidency. Many of the strongest and most able Republican newspapers concede this now, and will throw their influence to Wilson regardless of who the Republicans nominate.

REGARDING THE NEW COURT HOUSE.

In speaking of the proposition to build a new court house, County Commissioner A. McClesky of Iowa Park said that he realized the necessity for more room, but thought that another story could be added to the present court house, at a cost of not to exceed \$40,000, that would be sufficient. This would furnish ample room for all purposes, and at the same time make of the old court house a very neat, substantial and modern affair. A new vault could be added, and the building equipped with an elevator. He favors this for the reason that if a new building is decided upon but little if any of the material now in the present building could be used, to any advantage, and the loss would be almost if not quite total. In regard to the selection of a new court house site, Mr. McClesky is of the opinion that if that is done the present site will revert back to the original owners.

FAVORS GOVERNMENT OWNERSHIP.

Editor Times:—"Competition is the life of trade," is an old proverb, and apparently believed by many of the common people and by a few statesmen. Ex-President Taft said in a late speech "The trusts (which have practically eliminated competition) must be dissolved and we must go back to individual competition or go forward to Socialism."

One only has to examine his own propensities to find out that every proprietor seeks fields of business in which no other man is engaged or where the demand for his wares is too great for his supply. The contractor, the carpenter, the merchant, lawyer, doctor, indeed the heads of every line of business are employing a large share of their energies to eliminate it in some way. Even an untrained observer can see that it is the poison stimulant that wrecks and ruins a large per cent of working and business people, and only the strong and cunning survive. To avoid this ruin, many have, and are still organizing combinations, or purchasing over the business or production of competitors in order to exclusively control the particular commodities they handle and thus be able to fix larger prices and therefore increase the profits thereon.

No reasonable man can attach any blame to those who thus manage, for it harmonizes with the first law of nature—"Self preservation." But a few of these combines, having so nearly monopolized some of the industries, and become conscious of their power, no longer restrain their greed but are emboldened to defy the laws of justice and have become a menace to the liberties and natural rights of the citizens of the nation, states and municipalities. In addition to our increasing taxation to the government, we are necessarily forced also to pay heavy tribute to these greedy combines or trusts.

What are we going to do about it? One answer is "regulate them." This cannot be done, former efforts have failed, and past experience teaches us that they control legislation, and courts, hence any law providing to regulate prices and mode of dealing is by the courts pronounced unconstitutional, and the decision is correct. There is only one way to regulate the trusts, as I see it—let the government take over all the trusts and form one big trust, owned by the public and managed by the people for their benefit as is now being done by the private owners. Just now there is a matter that is engaging some of our citizens and should concern every one of us. I allude to a deal that is reported to be on for the purchase of the Citizens Power and Light plant by the Wichita Falls Electric Co. It is thought by some that such a deal cannot be consummated without the consent of the people. I rather doubt this yet I don't know—I would like to hear from some one who does know. But allowing it to be a fact, the people will be unable to regulate the price of light and power beyond the price stipulated in the contract with the city government. On next Sunday at 3 o'clock p. m. at the Labor Hall, let as many as are interested in political reforms, meet and talk these matters over. The Socialist local meets at that hour and we invite as many as wish to attend. J. J. MANLEY.

TOWN LOT SALE HELD 33 YEARS AGO

MONDAY ANNIVERSARY OF OPENING WICHITA FALLS TOWN-SITE

FIRST BUILDING STANDING

It is Now Located Near the Hunt Elevator Having Been Added to Since Constructed

Tomorrow is Wichita Falls' birthday and there would be 33 candles on the birthday cake if Wichita Falls were giving a party. On September 27, 1882, the town lot sale which marked the beginning of the present city of 15,000 population was held.

The Times today publishes a picture of the present day Wichitians who were here at that time. It publishes also a picture of a number of Wichitians who have been 30 years or more, there being over 40 in the group. This is probably less than half of the Wichitians who have been here 30 years, but the others, for one reason or another, were not in the picture.

Although the sale of the townsite lots marked the birth of the town, Wichita Falls was already on the map, there having been a settlement here for several years before that time. It was not until the railroad came, however, that the community attained any importance. The birthday of Wichita Falls has not been celebrated with any degree of formality in a number of years, although efforts have been made for some form of annual observance.

At the meeting of "old timers" arranged by The Times to have the group pictures taken, there was some talk of organizing an association of those who have been here 30 years or more, and admitting new members each year as they attain the 30 year mark. Plans have also been discussed for a reunion at Lake Wichita of the earlier settlers here, and it is likely that some action for such an affair will be taken shortly.

In connection with the birthday of the city, it is worthy of note that the first frame building to be erected in the present city limits is still standing. It is located near the Hunt elevator, having been added to since first constructed. It was built by A. H. Harris, father of Will T. Harris, deputy county clerk, in 1880, and is still in good condition.

FRY FORGERY CASE SET FOR TRIAL NEXT THURSDAY

Former Young County Judge Will Again Be Tried on Charge of Forging Warrant

The forgery case against E. W. Fry, former county judge of Young county, is set for next Thursday in the 78th district court. About 150 witnesses from Young county have been subpoenaed for this trial which promises to be one of widespread interest.

Judge Fry will be tried on one of 49 indictments against him, charging forgery and passing of forged instruments. At his first trial last June, the jury was unable to agree, standing seven to five for acquittal.

MAKING TIME IN ALLIES' LOAN NEGOTIATIONS

By Associated Press. New York, Sept. 25.—Negotiations toward establishing a \$500,000,000 loan to Great Britain and France marked time today. Many of the American bankers who have been in consultation with the Anglo-French financial commission failed to visit the financial section today and the commission itself remaining uptown received fewer callers than on any previous day of its stay here.

No one in close touch with the situation could be found who could give a generally credited report that the commission had submitted to the British and French governments the rough draft of terms satisfactory to American bankers and was awaiting word from Paris and London before proceeding further with negotiations. The general belief was a reply would be received by Monday. It was regarded likely the reply would contain other suggestions which would be made the basis of further bargaining and referred again to Paris and London before actual working agreement would be reached.

One report that was definitely denied was that the commission intended to depart for Europe next Saturday. No arrangements, it was said, had been made for their return home.

AN EYE OPENER

After all, the price you pay is the test of your skill as a buyer. Most talk about quality is mere wind, uttered to raise a cloud of dust to obscure a fancy profit. All reputable distributors sell merchandise of about the same grade. This MUST be so because they buy goods from the same factories, and sell to the same retail customers, who might be fooled once but not twice. The real reason so many customers make such a meager saving is they pay more money for the SAME GOODS than their wiser neighbors do.

A Wide Open Challenge

It is no reflection on the average buyer to say that he does not and cannot know the value of most articles within 5 or 10 per cent. Strip nineteen articles out of twenty of the numbers, labels, and other distinguishing marks, and the very men who made them are apt to vary that much in estimating their worth. Look yourself square in the eyes and see if you are buying merchandise at the lowest price. This is an age when all must economize and if you are a cash customer you have that independence that enables you to buy your goods at the least price. We depend entirely

We claim that we sell you goods of STANDARD QUALITY for less prices than other people can afford for these two sound reasons: First—We sell strictly for cash and one price, saving the enormous expenses of Bookkeepers, Stenographers, Collectors, and lost accounts. Mind you—Lost Accounts. Second—We buy for several stores at one time in quantities. This combined buying enables us to buy our goods for less, and our economical method of distribution enables us to sell them for less. We challenge comparison of the values offered in this store with those you may obtain from any other source—quality for quantity, quantity for quality, price for price.

When you see in this store goods that look like those you see elsewhere, and our price is lower, be fair to yourself. Don't take for granted the quality is lower. Just Remember the System of Economy. upon the independent customer for our business, therefore "We Must be Right" if we get business. Think it over and see if our chain store buying and economical system will enable you to save by buying here. We shall be pleased to have your Fall Business.

ARABIC CASE WILL BE UP AGAIN THIS WEEK

Germany, It is Reported, Will Seek Assurances British Merchants Will Submit to Search.

By Associated Press.
Washington, D. C., Sept. 25.—Negotiations between Count Von Bernstorff the German ambassador, and the state department over the sinking of the White Star liner, Arabic, probably will be resumed next week. The German ambassador is understood to have received several messages from his foreign office, which, it is said, are in accord with intimations in press dispatches from Berlin of a desire to settle amicably the entire dispute.

The chief obstacle, according to the German ambassador, is the alleged policy of the English with respect to ramming submarines. There are intimations that before modifying completely her submarine policy Germany will seek, through the United States, some assurance that British merchantmen will submit to visit and search.

President Wilson's position is unchanged—that the principles involved cannot be submitted to arbitration although questions of fact or amounts of indemnity might be determined.

Classes commence Monday. The attendance this year is expected to be about 3000 in excess of that of last year.

CORRESPONDENT DESCRIBES BOMBARDMENT OF ZEEBRUGGE.

London, Sept. 25.—The Amsterdam of Reuters Telegraph company says that the Handelsblad's correspondent on the island of Cadzand, province of Zeeland, Holland sends the following account of the bombardment of Zeebrugge by a British squadron.

"An English squadron consisting of five large warships and twenty-five smaller vessels opened fire at Zeebrugge at 6:30 o'clock this morning. Only two of the big ships fired from what apparently were 28 centimeter guns. The German batteries replied with lighter guns but not until ten o'clock. A big column of smoke at eleven o'clock arose above Zeebrugge apparently caused by shell fire from an English vessel. The English also employed light guns but the shots did not reach the coast and probably were directed against submarines. From time to time a German aeroplane flew from the coast to the fleet while a captive balloon also ascended from Zeebrugge. The fleet left at 10:30 o'clock."

F. E. Ray and wife of Lalla Lake, are visiting friends here. Mr. Ray formerly was a railroad conductor here. They have been away from Wichita Falls a number of years but still have friends here.

Ray, J. Frank Norris of Fort Worth, stopped off here yesterday between trains while en route from Mangum, Okla., where he had just closed a big union revival meeting. The meeting resulted in about 300 converts and the debts of all the churches of that place were cleared in a fund raised Friday night. Rev. Norris spent the time of his stay here with Rev. R. C. Miller, pastor of the First Baptist Church.

MEXICANS ALSO TALKING ABOUT "THE DAY" LETTER INDICATES.

San Antonio, Tex., Sept. 25.—Acting upon information of a plot contained in a letter written by a Mexican, the federal authorities have arrested Pietro Garcia on a charge of inciting insurrection against the law and order of the United States. Warrants have been issued for five more men and the department of justice officials say the plot involves a large number of other Mexicans. The letter written in this city and addressed to a man in Hidalgo county was found on the address and through him traced to the alleged author. Among other things, the communication contained the following:

"We now have 200 rifles and 4,000 rounds of ammunition. Continuing the communication says in part: 'Be prepared for the day as the re-

crutings is progressing, and they continue to come in. We are assured of support and they got the dynamite but keep it secret, and destroy this letter as soon as you have read it. Let us not lose hope. This land will soon be ours."

JUNGK'S WILL STAY IN MEXICO UNTIL THINGS LOOK WORSE.

T. J. Lecham, proprietor of the Marion hotel has received a letter from his sister, Mrs. Clement J. Jungk of Minaco, Mexico telling of conditions there. Minaco is west of Chihuahua. Mrs. Jungk writes that they had been advised to leave Mexico by the American consul. Others had left, she said, but they intended to stay until things looked worse than when the letter was written, which was about ten days ago. The Jungks are in the mercantile business at Minaco. They have been warned that when the Carranza forces secure possession of the country, if they are successful in the present campaign against Villa, the property of all foreigners will be confiscated.

She writes that vague rumors are reaching that section of the trouble on the American side of the Rio Grande and no one knows what to believe. Americans living in Chihuahua and Sonora have been warned to leave these sections as it is expected that Carranza will attempt to carry the war into that territory with the consequent danger to foreigners who remain there.

Mrs. Jungk is the mother of Carl Jungk who is employed in the local postoffice.

ROCKEFELLER DESCENDS SHAFT IN COAL CAGE

Cold Creek, Colorado, Sept. 25.—John D. Rockefeller Jr., descended the 400 foot shaft of the Cold Creek mine here today. With several of his party he was locked in a cage which had just unrolled at the bottom of the shaft. Mr. Rockefeller then walked through the mine, walking with several miners. This was the first shaft mine inspected.

McMAHON TELLS ABOUT DRILLING AN OIL WELL

"The Drilling of an Oil Well" is the title of an article in the current number of the "Texaco Star" the Texas Company's publication, the article being from the pen of J. L. McMahon of this city, assistant superintendent of the Producing Oil Company. Mr. McMahon describes in detail the procedure which is followed in drilling wells. The article is illustrated with numerous pictures, some of which were taken in the North Texas field.

NAFARRATE DENIES HIS MEN TOOK PART IN FIGHT

Galveston, Texas, Sept. 25.—Emphatic denial that any Carranza troops participated in yesterday's battle between Mexicans and American troops along the Rio Grande is contained in a message from General E. C. Nafarrate at Matamoros to the constitutionalist command here. He explains that all his troops are quartered in the town and are under positive orders not to go near the river.

NEW YORK CITY'S NATIONAL GUARD GIVES EXHIBITION

New York, Sept. 25.—What the soldiers of New York City are capable of doing in time of war was demonstrated today when 10,000 local troops of the New York National Guard engaged in maneuvers before many thousands of spectators. Governor Whitman and Governor Walsh of Massachusetts watched the citizen soldiers. The construction of a pontoon bridge across a park lake, the explosion of ground mines, the operation of a field wireless outfit, the establishment of a field hospital and cavalry and machine gun maneuvers were among the features.

BELGIAN INDUSTRY BEING RESUMED

BIG FACTORIES, COAL MINES AND BANKS REOPENED UNDER GERMAN SUPERVISION

NOTES ARE BEING ISSUED

This Power Conferred on Societe General De Belgique by German Authorities

By Associated Press. Brussels, Sept. 24.—The German administration in Belgium has so far succeeded in reconstructing the financial system of the country that a number of the larger businesses, such as the big factories, coal mines and banks, which practically came to a standstill a year ago have been able to resume operations.

The withdrawal of the directors of the National Bank of London in August, 1914, who took with them its gold stock and the plates for printing notes, left the country without a solid basis for its currency system. Notes were in circulation, but there was no gold with which to redeem them; and there was danger that the circulation might be further expanded through new issues of the Belgian government in London, which could easily be smuggled into the country. Soon after the occupation of Belgian territory the German government deposited Dr. Von Luma, one of the most efficient directors of the Reichsbank to proceed to Belgium and take in charge the rehabilitation of the currency system. As the officials of the National Bank had refused to return to Brussels or restore its assets, it became necessary to find a new way of securing the note circulation.

At the same time the German authorities were levying war contributions upon various Belgian cities to raise money for meeting the expenses of governing the occupied territory—contributions which could not easily be raised in the form of cash. The cities were therefore asked to issue their certificates of indebtedness payable at some future time, and it was decided to use these as one form of security for new notes, besides bank balances abroad, German gold and other currency. As the National Bank had refused to continue the further discharge of its functions, the note issuing power was conferred upon the Societe General de Belgique, the oldest and largest banking company of the country.

This concern has now been serving for some months as bank of issue, and its notes have come into general circulation. Especially its smaller notes are in great demand, the silver currency having long ago disappeared by reason of hoarding.

Two other important financial tasks had to be taken in hand. One was the fixing of indemnities to be paid for supplies of staple goods—like coal and other raw materials—which had been taken over by the military authorities for the armaments; the other was the abolition of the moratorium which had been in force since the war began. The settlement of the indemnities was complicated by the fact that the goods in question were in many cases not owned outright, but were still to be paid for by the persons from whom they were seized. The commission having this matter in hand was, however, authorized to pay in advance half of the value of such goods, pending the final adjustment, in order that manufacturing and other business concerns might as soon as possible come into possession of money with which to resume operations.

Columbus, Ohio, Sept. 25.—Dennis Kelly, Columbus capitalist and his business associates who last June were convicted of defrauding the government of more than \$1,500,000 in revenue tax on artificially colored oleomargarine, were sentenced to serve two years each in the penitentiary at Moundsville, West Virginia, and fined \$1,000 each. A stay of execution was granted, pending appeal.

400 MORE LONGSHOREMEN HAVE JOINED STRIKERS

Nearly 3,000 Freight Handlers Now Out at New York City—Want Share of Profits

By Associated Press. New York, Sept. 25.—Four hundred longshoremen working on piers in the North river walked out on strike today for more pay. Nearly 3,000 freight handlers in the metropolitan district now are on strike. The walk-out today was coincident with the posting of placards along the water front calling upon river captains, boatmen, deckhands, firemen, etc., to "organize to get our share that the owners are getting from our labor since the European war began."

THE STATE OF TEXAS.

To the Sheriff or any Constable of Wichita county greeting:

You are hereby commanded to summon John Sloan by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 30th judicial district; but if there be no newspaper published in said judicial district, then in a newspaper published in the nearest district to said 30th judicial district, to appear at the next regular term of the county court of Wichita county, to be held at the court house thereof, in Wichita Falls on the first Monday in October A. D., 1915, the same being the 4th day of October A. D., 1915, then and there to answer a petition filed in said court on the 3rd day of September A. D., 1915 in a suit, numbered on the docket of said court No. 2310, wherein Charlie Swals is plaintiff, and John Sloan is defendant, and said petition alleging that on about September 15th, A. D., 1912, plaintiff and defendant entered into a contract whereby defendant agreed to pay plaintiff the sum of \$96.00 per year for the board and care of defendant's two children; that plaintiff has complied with his part of said contract and defendant is due plaintiff under said contract the sum of \$288.00. Wherefore plaintiff prays that defendant be cited herein as the law directs and that upon trial hereof he have judgment for the sum of \$288.00 all costs of suit and general and special relief.

Herein fail not, but have before said court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Witness M. P. Kelly, clerk of the county court of Wichita county. Given under my hand and the seal of said court at office in Wichita Falls this 3rd day of September A. D., 1915.

CARRANZA FORCES MAY MEET RESISTANCE AT TORREON

By Associated Press. Laredo, Texas, Sept. 25.—That the advancing Carranza forces will meet resistance at Torreon instead of finding the city abandoned by Villistas was indicated in dispatches received here today by Carranza authorities. Carrancistas are closing in upon Torreon from three directions, said the military advisers. Gen. Obregon telegraphed last night from Tacama near Torreon that many little bands of Villistas are encountered on the march and that these are eager to surrender.

Not Prejudiced. A candidate for a situation as schoolteacher in the Florida Everglades, being asked the shape of the earth, replied: "Well, some folks like it round and some like it flat, and I've finnerly teachted it both ways."

SILVER WEDDING CELEBRATION OF MR. AND MRS. BACHMAN.

Friday evening, September twenty-fourth, marked the passage of the fourth year of the married life of Mr. and Mrs. Howard Bachman and this event, occasioned a reception in which the friends of the family joined in congratulations to the bride and groom of a quarter century.

The Bachman home on Eleventh street was the scene of the reception and was handsomely decorated for the occasion. The reception hall and stairway was a mass of red roses and handsome ferns in artistic arrangement and the library adjoining was lavishly adorned with ferns and fragrant pink La France roses. The punch bowl was embowered here and Miss Stella, the third daughter of the family, attended in a charming pink gown in harmony with the floral surroundings, served punch to the guests.

The bridal white was reserved for the dining room, the white roses being used with a background of greenery. The immense dining table was overlaid with hand made Batesburg cloth and bride roses formed the centerpiece.

The silver motif was observed in this centerpiece, which was formed of a large Sheffield silver vase, filled with roses and clustered about with the small silver single bud vases. A refreshment course of ice cream, cake, wafers and minis was served in the dining room by Misses Lillian and

Each member vied with the others in telling of vacation pleasures and in exhibiting new crocheted patterns gained during the summer. Election of officers for the coming year was in order, the following being elected: Mrs. Bernard Martin, president; Mrs. P. B. Cox, secretary and treasurer and Mrs. T. H. Peery, press reporter. The membership of the club was increased to twenty by the addition of the following new members: Mesdames H. M. Kearby, Brundage, Brown, Jones, Harris, Chaucey, Newton and Hughes. Late in the afternoon the hostess served an ice course to the following members: Mesdames Bernard Martin, J. H. Martin, T. C. Thornberry, A. L. Thornberry, Brundage, Fowler, Kelly, Cox, Stanley, Trevaughn, Brown, T. H. Peery.

WHAT WICHITA CLUBS WILL DO THIS WINTER

Clubs play an important part in the social life of Wichita Falls women and with the first of October is ushered in the opening of the season for the various study clubs. The majority of the clubs have their first meetings the first and second week in October. The Daughters of the American Revolution will meet in the first regular session of this fall on Saturday and will continue a study of history of the United States. The Daughters of the Confederacy will also resume meetings this month.

The Unity Club holds its first meeting next Friday afternoon and during the year of 1915-16 will engage in a study of Browning's "The Ring and the Book" also Shakespeare's "Tempest." Club officers are: Mrs. A. H. Carrigan, president; Mrs. Bruce Greenwood, vice president; Mrs. R. L. Miller, secretary; Mrs. Zundelwitz, treasurer; Mrs. H. B. Patterson, corresponding secretary; Miss Carrigan, Mrs. J. T. Montgomery and Mrs. M. B. Darnell, program committee; Mrs. Darnell, critic.

The Pathfinder Club will also hold its first meeting next Friday, entering upon a study of Shakespeare with contemporary history. The course opens with "Anthony and Cleopatra" and "Henry VIII" will be undertaken the last half of the club year. The officers of the club are: Miss Emma Smith, president; Mrs. M. A. Beckman, vice president; Miss Hazel Finster, secretary; Miss Tempie Thompson, treasurer; Mrs. S. H. Burnside, parliamentarian; Misses Pauline Mears, Theresa Smith and Tula Stokes, program committee.

This week will mark the opening of the Wichita Travel Club for the season. The study course will include a study of the British Isles from the viewpoint of a tourist and a study of the literature of Great Britain by localities. Mrs. Wiley Blair is president; Mrs. C. C. Smith, vice president; Mrs. Oia G. Hamlin, secretary; Mrs. G. W. Akin, corresponding secretary and Mrs. P. T. Danson, parliamentarian.

The Delphian Society will take as a study course, "The War's Progress" and "Current Events" and will enter on its second year of organization with the following officers: Mrs. Newton Maer, president; Mrs. Walter Robertson, vice president; recording secretary, Mrs. A. J. Lyons; corresponding secretary, Mrs. Mark Moore; critic and parliamentarian, Mrs. W. W. Silk.

EXCLUSIVE STYLES

Today—owing largely to conditions in Europe and more largely to the wonderful natural prosperity of the United States—this country is the most important in the world. The new fashions made by the patient women of the stricken Rue-de-la-Paix are made for America. The world's gold comes in ever-increasing stream to our shores. Such merchandise as Europe still can export comes to this country. Artists and cunning craftsmen from every corner of the world turn their eager eyes to America—lending their help to the upbuilding of this glorious country. Almost all the mills of the United States are now running full time. Labor was never better paid. What now can keep prosperity back? Can "mental attitude?" You, and all the rest of us, can soon remedy that—brace up, wake up, cheer up and "dress up."

MASONS WILL BUILD HOME DURING COMING WINTER

3 STORY BUILDING WILL BE ERECTED

BETWEEN \$35,000 AND \$40,000 TO BE PUT INTO NEW BUILDING

HALL ON THIRD FLOOR

Second Floor Will Be Fitted up As Club Room—Business Rooms on First Floor

The building committee of the Masonic Lodge at a meeting late Friday afternoon decided to proceed with plans for the erection of a three story brick temple on the lot owned by the lodge at the corner of Tenth street and Scott avenue. If present plans are carried out work on the building will start early in the winter.

A call has been issued for a meeting Wednesday evening of members of the Knights Templar and of the Scottish Rite Masons to take action for the formation of a club to occupy the second floor of the building. This meeting will be held at 3 o'clock at the Masonic hall and all Knights Templar and members of the Scottish Rite Degree in the city are urged to be present.

The lodge purchased the site for its home several years ago. It lies 150 feet along the north side of Tenth street and extends back fifty feet along Scott avenue. The building will cover the entire tract. The first floor will be given over to business rooms. It is planned to use the second floor for club rooms and the third floor will be given over to the lodge hall.

ARMENIANS ARE BEING SLAIN BY THE THOUSANDS

Turks Gradually But Effectually Extirminating Them—Modus Operandi Described

London, Sept. 25.—The Turks are gradually but effectively exterminating the Armenians, asserts an Asiatic correspondent of The Times. "The modus operandi is to send from each Armenian village, day by day, as many persons as a train can carry. When they arrive at Koniak, or some adjacent station, they are turned out and secured over the Vaurus mountains. "Once on the other side, they are supplied with enough food for a few days, and told to continue their journey to the neighborhood of Mosul, as they will now be in perfect safety. But in point of fact, the region is nothing but a desert, and before many hours, marauding bands of Kurds and Bedouins rob and pillage these helpless men, women and children, so that those who are not actually slain, die of hunger or thirst. The consequence is that many distracted mothers thrust their children into the Euphrates rather than see them suffer. Some even sell them for what they will bring, before starting on the journey.

"A widely known American missionary who arrived at Constantinople the first week in September, declares he saw as many as 15,000 Armenians killed around one station. American missionaries, scattered about Asia Minor, and particularly in the Armenian district, gradually are leaving, upon the advice of their ambassador. The attacks upon the Armenians are said to be excused upon the ground that they assisted the Russians in the occupation of the town of Van. The Chronicle prints what is declared to be an account by eye witnesses of the Armenian massacres, asserting that besides many thousands killed, a half million have been deported, while thousands of others have been imprisoned. The charge is made that after the men are massacred, the women and children are sent into slavery to be converted to Islamism.

FOUR INJURED IN AUTO ACCIDENT NEAR HANLEY

By Associated Press. Fort Worth, Texas, Sept. 25.—Four persons, two men and two women were injured in a mysterious automobile accident on the Fort Worth-Dallas pike near Hanley, Friday night. One of the men has a broken jaw. Names of the parties have been concealed as well as the owner of the car. It is said to belong to a Dallas man.

CROSS DEATH VALLEY IN DODGE AUTOMOBILE

Detroit Car Completes Perilous Trip Without Mishap to Those in the Party

A recent issue of Motor West, the Pacific coast motor car publication, contains a story of conquering the western deserts, particularly Death Valley, with an automobile. The trip, which embraced 1,000 miles, was not planned as a car test but the party, headed by O. K. Parker, an engineer, was prospecting for molybdenite a rare ore used in steel refining.

The car used was a stock Dodge Brothers' touring car and was nicknamed "Death Valley Dodge." Motor West says: "Not only did the Death Valley Dodge party dare death in most awful forms but they covered a region generally considered as outside the pale of the motor car.

"The topography consists of mountain ranges with desert valleys, or sinks, between the mountains, these sinks being separated by uplifts of volcanic origin. The region is the most desolate and barren in America, and there are no roads but the trails of the occasional prospector." The article here describes the approach to the Mojave desert and the approach to Death Valley, by way of Wildrose canyon.

Continuing it says: "Wildrose canyon grades are so steep that they seem almost impossible for an automobile; in fact, it is right there that many of the cars which have essayed the trip have come to grief, and perhaps this is as well, for if they cannot negotiate Wildrose canyon they could not live through the greater strain to come in the fight with the sand dunes of Death Valley. "The Parker party found even worse conditions than those that led to the death of Pete Bush, who fell a victim to the desert last year when his water gave out miles from a supply. The winter storms had piled up the boulders and gravel in Emigrant canyon until the way seemed impossible for a burro. However, they fought their way through, only to find when Death Valley was reached that the whole flat had been swept with fierce winds until the sand dunes were a veritable sea of sandy waves.

MANDAMUS ISSUED AGAINST SCHOOL AUTHORITIES

Houston High School Girl Secures Aid of Court to Compel Giving Her Grade

By Associated Press. Houston, Texas, Sept. 25.—On the petition of Ellen Redfield, aged sixteen, a mandamus has been issued here against school authorities, requiring that she be graded in her studies in order that she may enter Rice Institute. The petition, directed against Superintendent Horn and two instructors in the city schools, sets forth that the petitioner requires sixteen units in order to matriculate at the institute so that she may finish her studies, and alleges that her examination papers have not been graded by her instructors.

CAPT. VON PAPPEN REFERRED ONLY TO NEWSPAPER MEN

German Military Attache Denies He Meant Term "Idiotic Yankers" to Apply to All Americans

By Associated Press. San Francisco, Sept. 25.—Capt. Von Pappen denied today that the expression "idiotic Yankers" contained in the letter entrusted to J. F. J. Archibald and intercepted by the British authorities was intended to apply to the American people. "The much discussed letter was to my wife," he said. "In passing it may be said that publishing a man's letter to his wife is bad form. The British authorities published only an excerpt of my letter, thus changing its meaning entirely. My wife, or anyone else, reading the letter from start to finish would have gathered that the expression 'idiotic Yankers' referred to the publishers of a New York newspaper. The newspaper had been calling us conspirators and other epithets. It grew especially vehement after a portfolio containing several of our private papers had been stolen from one of our men of the train. In writing to my wife, I dealt with these publications. Not a word did the British publish about those parts of my letter."

Heed the Clarion Call of Winter--Be Prepared

It's autumn by the calendar, and winter is on the way. Already the trees are shedding their coats of green, summer bids farewell, while Dame Nature (though we dare not suggest the cause) is even shedding tears by the buckets full (today.) But don't get blue. It's a long lane that has no silver lining, behind the cloud the sun's still shinin'. You may talk of the sun and the sky serene, and the norther that gaily blows, but there is no joy in an autumn throng when you're wearin' summer clothes. Your sleeves have a luster weird and grim, and your collar begins to scratch. Your "straw" looks rusty and out of place, and your trousers need a patch. There is no solace for me, you say. But hush. Just let us speak. Your only road to happiness now—is

DEFENDANTS WIN \$1,600,000 SUIT

JUDGMENT FOR OIL COMPANY AND OTHER DEFENDANTS IN COLLET SUIT

TRIED ON SPECIAL ISSUES

Plaintiff Had Not Been Made Party With Husband For Foreclosure Suit 20 Years Ago

Judgment for the defendants was rendered Saturday at Vernon in the case of Mrs. L. A. Collett vs. the Houston & Texas Central Railway Company, the Corsicana Petroleum Company, the Magnolia Petroleum Company and the Central Trust Company of New York. The judgment was handed down by Judge J. A. Nabours, being based upon the answers which the jury returned last week to the special issues upon which the case was submitted.

Mrs. Collett was suing for the value of the mineral rights on a section of land in this county, in the Electrica oil field, upon which the Corsicana Petroleum Company has fifteen producing wells and which mineral rights were valued at \$1,600,000. Argument was heard this week on the judgment, Judge A. H. Carrigan and Judge J. T. Montgomery of Wichita Falls being of counsel for the defense. It is understood that the case will be taken to the higher courts.

The claims of Mrs. Collett arose from the fact that when the Houston & Texas Central Railway owners in fee of the land, sued her husband to foreclose their lien on the tract, they did not make Mrs. Collett a party to the suit. This foreclosure suit was brought and decided over 20 years ago. Last year when the Corsicana Petroleum Company, which had a lease on the tract, was endeavoring to borrow money upon it, the omission was discovered. A quit claim deed was secured from Mr. and Mrs. Collett, but later the suit was filed.

After the jury answered the special issues last week, a report was sent out from Vernon that there had been a finding for the plaintiff. This report was due to a misunderstanding of the purport of the special issues.

J. L. McMAHON RESIGNS POSITION WITH OIL CO.

For Several Years Has Been Asst. Gen. Supt. North Texas District Producers Oil Company

J. L. McMahon, assistant general superintendent of the North Texas district of the Producers Oil Company, has resigned his position here, effective October 1. Mr. McMahon has oil and gas interests in Oklahoma and mining interests in Missouri, to which he will devote his time. Announcement of Mr. McMahon's resignation is received with marked regret by not only his associates in the Producers Company and in the oil business, but by the many Wichitans who have been glad to count him as a friend.

Mr. McMahon has been here for over two years, coming from San Antonio in the summer of 1913. In his position with the Producers Company he was in charge of much of the development work which that concern inaugurated in this section. Of the hundreds of oil men who have made Wichita Falls their home in the past five years, none could count more friends than J. L. McMahon, and his pleasant, cordial, kindly manner won him marked popularity among all with whom he came in contact. For some years "Mack" has been interested in Oklahoma oil and gas developments, as well as in some mines in Missouri, and he has found it necessary to devote his full time to these interests. His successor with the Producers Company has not yet been selected.

CORPSE STILL LACKING FOR MURDER EVIDENCE

Supposed Victim in Jail But Blood Stains and Other Evidence Still Unexplained

All that is needed to make a murder out of the events of Thursday night at a resort in the flats, is a corpse, and so far one has not materialized. After a careful investigation of the affair, officers are inclined to the belief that no one was either killed or injured. The woman who discovered the blood and the cut screen, is in jail on a charge of vagrancy and her husband is also confined on a similar charge.

It is believed that the woman left her husband in the room and that he had an attack of nose-bleed, which resulted in the gory appearance of the bed. He is then thought to have cut the screen and made his exit that way. Some color was lent the story by the report of several women in the neighborhood that they had seen someone drive away in a buggy. This incident led to the rumor that there had been a murder and that a body had been taken away in the buggy and hidden. However, officers traced the buggy out to the

GRANT'S ARMY WILL MARCH IN PARADE

VETERANS WILL RETRACE LINE IN CAPITOL MARCHED FIFTY YEARS AGO

30,000 EXPECTED TO MARCH

President Wilson Will Review Veterans From Spot Where President Johnson Stood in 1865

By Associated Press. Washington, Sept. 25.—Thousands of veterans of the Union army are here on the eve of the forty-ninth annual encampment of the Grand Army of the Republic.

Fifty years after the last shot was fired survivors of the union host which marched in review from the capitol to the White House, are to retrace their steps next Wednesday. In the court of honor where President Johnson stood September 29, 1865, President Wilson will stand to greet the remnant of the victorious armies of Grant and Sherman. Elaborate plans have been made to assure the success of the encampment and the city is in holiday array. Pennsylvania avenue through which the military pageant will pass is walled with the national colors and flags—fettered from windows and housetops.

By tomorrow it is expected 30,000 veterans, many of them survivors of the 160,000 who participated in the grand review of 1865, will have reached the city. Preparations for entertaining 100,000 visitors have been made. On the opening day of the encampment various informal receptions will be held and much of the time given over to registration under a system whereby veterans can easily find old comrades.

President Wilson will attend the first formal reception in a huge auditorium adapted for the purpose in the old Census building near the capitol which also will contain headquarters of the various departments and army court of the Grand Army and allied organizations during the encampment. The following day the military review will be held.

General Nelson A. Miles, who will act as marshal of the review, taking the place General Sherman occupied in 1865, and David J. Palmer, commander in chief of the G. A. R. already have arrived. Among others who are here or expected by tomorrow are the following noted veterans:

General James H. Wilson and General Granville M. Dodge, the only two living corps commanders of the Union army; Division Commanders Generals Ames of Mississippi; D. M. Gregg of Pennsylvania; Lewis Grant of Ohio, and Brig. Gen. John Wilder of Tennessee. Nearly all the veterans who marched with Sherman and Grant, who are enrolled for the line of march Wednesday have passed seventy years of age and it is probable that another commemoration of the event never will be held.

The line of march for the parade will be from Peace Monument at the east entrance of the capitol grounds, up Pennsylvania avenue and through a Court of Honor erected in front of the White House. With the president when he reviews the procession will be members of the cabinet, other distinguished officers of the United States, justices of the supreme court and members of Congress. Besides the veterans in line there will be some of veterans various citizens military organizations, troops of the regular army, marine corps and sailors from the fleet.

The parade, it is estimated, will require about three hours in passing General Miles, as honorary grand marshal of the parade, will have army and navy officers as his aides. Col. Holsler, chief of staff to the commander in chief of the G. A. R., will be the active marshal. As special guard to Commander in Chief Palmer will be the U. S. Grant Post of Brooklyn, N. Y. Veterans will march in their respective Grand Army departments, the line being headed by the department of Illinois which was the first to be organized after the war.

On Thursday and Friday business meetings of the encampment, with sessions of allied organizations will be held. After the election of grand officers Friday the veterans will proceed to Arlington National Cemetery, where President Wilson will lay the cornerstone of a new national amphitheatre. Another feature will be a public reception in the capitol Thursday evening under the auspices of the Women's Relief Corps. This organization, co-operating with the women of the G. A. R., will plant two trees, one on each side of the bonnie yard leading to the Lincoln Memorial in Potomac Park. The first spadeful of earth in planting the first tree will be turned by Commander in Chief David J. Palmer, while Mrs. Sarah E. Fulton, president of the Women's Relief Corps, will have that honor in planting the second tree.

One of the events for tomorrow will be the wig-wagging of a message of greeting and good will to visiting veterans from President Wilson. The message will be signalled by mirror familiar with the old Myer code which was sent from station to station about Washington by survivors of the signal corps of fifty years ago. Secretary Garrison and Secretary Daniels have co-operated with the committees to entertain the veterans. Regular troops from Fort Myer are to give daily drill exhibitions on the Washington Monument grounds while submarines, torpedo boats and other military craft unknown to civil war times are to be on exhibition in

HARD BUTLER'S BROTHER MURDEROUSLY ATTACKED

Longview Man Knocked Down, Throat Cut and Left For Dead By Negro Highwayman

Mack Butler, brother of Hard Butler of this city, and a former resident of Wichita Falls, narrowly escaped death several days ago

near Longview. Mr. Butler was knocked down and his throat was cut, the wind pipe being severed, but he survived. The negro has not been apprehended.

Mr. Butler was attacked by the negro who rushed upon him from behind and pinning him with his left arm, struck him several times in the face. The negro then went through Butler's pockets, after which he took him to a nearby railroad track and negro him upon it. Then, kneeling just in front of the man's chest, the

cut was. The injured man was unable to move for some time, but managed to crawl home within three hours. He was given medical attention and is now believed out of danger. Officers throughout the state have been notified to look for the negro.

WE CAME DOWN TOWN SATURDAY MORNING TO FIND WICHITA FALLS GETTING A HUMP ON

—and we almost came to the conclusion that block streets were made for dry towns. But since we are not street builders and can only judge them like most men judge clothes (by the way they wear) we decided to leave the humps to the street commissioners and continue to saw wood on our own buck.

Our clothing is made by some of the best tailors in the city for style, fit and wear, and although they were not originally cut and made for you individually, they were made for red blooded American citizens who know the value of good clothes, else why should they agree to pay \$25 to \$45 for suits when they could buy regular stock suits.

When America Was Young

The United States Geological Survey has just published a report which, though technical, nevertheless embodies some interesting history of the early ages of the North American continent. It tells of the rise and fall of a portion of the continent millions of years ago, long before the age of man at a time when strange beasts inhabited the country, when the climate was subtropical, and when a peculiar swamp vegetation flourished, the remains of which were converted into the present great coal beds of the West.

Late in what is termed by geologists "Carboniferous time," according to W. T. Lee, the author of the report (Professional Paper 95-C), there were mountains in Colorado and New Mexico comparable to the present Rocky Mountains. During the Triassic period and much of the Jurassic, which followed, a time to be measured in millions of years, these mountains were eroded away. Late in the Jurassic period a wide area had been worn down so near sea level that a slight subsidence of the land allowed sea water to enter from the Pacific Ocean and spread over Wyoming, northern Colorado, and eastern Utah. Near the close of the Jurassic a slight uplift expelled this sea. After some time this area began again to settle and the streams spread fine sediments over the bed of the shallow basin lately occupied by the sea and over the lowlying lands. This subsidence introduced the Cretaceous period and culminated in the occupation of the region by a sea which reached from Utah to the Mississippi Valley and from the Gulf of Mexico to the Arctic Ocean.

The subsidence was slow at first and the streams spread their muds uniformly over an area extending from New Mexico to Montana and from Utah to Kansas. Only small areas of the Rocky Mountain region were not covered by them. In streams, swamps and bayous of this early Cretaceous time lived huge reptiles; some of them were 85 feet long and 20 feet tall, with a bulk many times as great as the largest elephant of to-day. By the close of Lower Cretaceous time the water from the Gulf of Mexico had spread over the graded plain as far as the present Rocky Mountains. This invasion of the sea was followed, apparently without great lapse of time by a still greater invasion in the Upper Cretaceous epoch.

The first deposits of Upper Cretaceous age, the Dakota sandstone, were spread out uniformly over the level plain, which then included the whole area that was later pushed up

to form the Rocky Mountains. Over these sands, which were laid down along the advancing front of the sea, were deposited the marine sediments as the sea moved forward. In its waters lived great numbers of serpent-like swimming reptiles; and over it soared pterodactyls, the fossil remains of which show that they measured 18 feet from tip to tip of wings. On its shores and in its waters sported large diving birds, which still retained the teeth inherited from the reptilian ancestors.

On the shores of this sea, especially along its western margin, great swamps developed and in them grew a variety of semitropical plants, such as palm and fig trees. The resulting carbonaceous material which accumulated as peat was later converted into coal. The sea did not attain its maximum size at once. Probably at no one time was the whole interior basin under water. The advance of the sea and the filling of the basin kept pace with each other, so that sediments and fossils which indicate nearness to the shore and coal beds which indicate swamps above sea level are found at many positions from bottom to top of the Upper Cretaceous formations.

At the close of the Cretaceous period notable changes were produced in the geography of the region. The interior basin, which had been subsiding throughout the Cretaceous period, was now lifted; its waters were poured back into the oceans, and the mountains whose roots had been buried were resuscitated. In some places the erosion that followed removed from these newly lifted mountains the Cretaceous rocks that once covered them and cut deep enough into the underlying formations to obtain the pebbles of older rocks, which may now be found in the lower part of the oldest Tertiary beds. In other places the Cretaceous rocks were not entirely removed. Beds that once lay 5,000 feet below the level of the sea were lifted to form mountain tops that now stand more than 12,000 feet above sea level.

LETTER WRITER FAILED TO APPEAR; NO TRAGEDY

Husband Waited, So Did Reporter But "Baby" and "Man" Didn't Meet at Post Office.

"Will you read this letter for me? I can't read," said a man at the post-office Saturday morning, addressing a reporter for The Times. The Times man took the letter and read it aloud to the man, to the tenor following:

"Dear baby—Well, baby how are you? Baby, I sure do want to see you. Meet me at the postoffice Saturday morning. Somebody told me that you had another fellow that you loved more than me. Baby, you don't love anybody more than me, do you? Baby, be sure and meet me Saturday morning. I send you sweet kisses." "Who is baby?" asked the reporter.

"My wife," said the other. The reporter hung around for quite a spell, waiting for the letter writer to come and meet baby and get his sweet kiss, or whatever else there might be there for him. Somebody else waited, too, but he never came.

FIRST MEETING OF MUSICIAN'S CLUB OCTOBER 14

The first meeting of the Musician's Club will be held Thursday, October 14 at the Westland Hotel, the year to start with an informal tea. There are now some sixty members of this club and as the services of C. Barthold Machlin as director of the chorus and ensemble work have been secured for the coming winter it is expected that the club will make a splendid progress. It is also likely that the club will have the use of the Westland club rooms to be finished soon for its meetings this winter. All members are requested to keep this announcement in mind and to be on hand at the opening meeting.

Mrs. Robert Thorburn has returned from Amarillo, where she visited relatives for the past two months. Mrs. A. E. Ferguson has returned from a three weeks visit in Chicago and St. Louis, where she went to enroll her son, Perry, in the Principia School.

Misses Lella Beall Anderson and Louise Montgomery leave tonight for Dallas, where they will enter Miss Hockaday's School for Girls.

Two Wichita Falls boys who are attending the State University, Ralph Pond and J. L. Jackson Jr., have been pledged as members of the Sigma Alpha Epsilon fraternity at Austin.

"CROOKEY" AT THE GEM THEATER WEDNESDAY

Frank Daniels in "Crookey" is the attraction at the Gem Wednesday.

J. Stuart Blackton and Albert E. Smith determined to produce a farce comedy that would establish a new record—even for Vitagraph. And they succeeded.

First of all they engaged Frank Daniels, the greatest comedian of this generation, the man who has probably made more people laugh than any other human being. They knew his capabilities; they knew his humor. They knew his was the kind of humor that motion pictures had been waiting for.

They had Paul West write the plot. They had him write it to Frank Daniels's measure—to bring out to the limit Frank Daniels's imitable ability.

They gave Frank Daniels the cream of Vitagraph support. And then they turned on the full power of Vitagraph Blue Ribbon production.

The result is "Crookey." "Crookey" is Frank Daniels' first departure from the stage to the screen. And it is the triumph of his career.

Few successful stage actors succeed in motion pictures. The reason is simple. Their stage success is based on what they say and how they say it, rather than on what they do. Take the words out of their mouths and they fall flat.

Frank Daniels is the great exception. His stage success you remember lies in his actions. It takes an extraordinary comedian to keep an audience in convulsions for even a few minutes without talking. And yet Frank Daniels can do it for an hour and a half! He has done it—as you will see when you see "Crookey." He will make you laugh harder, heartier, than any comedian you ever saw. He is a born picture actor. He didn't know it. No one knew it. Not until J. Stuart Blackton and Albert E. Smith decided to make the greatest farce-comedy ever produced. They couldn't have done it without Frank Daniels. Nor could Frank Daniels have landed with one jump to the very top of motion picture headlines without them or without Vitagraph.

FORMER PUBLIC SCHOOL TEACHER MARRIES RECENTLY

Cards have been received announcing the marriage of Miss Carrie McClaren, a very popular former teacher in the public schools. During her stay here she made many friends to whom the following announcement will be of interest: "Mr. and Mrs. I. L. McClaren announce the marriage of their daughter, Carrie Whaley to Mr. Victor C. Jones, Wednesday, Sept. 15, 1915, Marshall, Texas. At home 1112 West Myrtle, San Antonio, Texas."

MR. and MRS. LITTLE ENTERTAIN YOUNG FOLKS FRIDAY

Friday evening Mr. and Mrs. W. W. Little entertained at their home, 1623 Tenth street in honor of Miss Virginia Nans of Owensboro, Ky., and Phil Bullock. Victrola music was provided for dancing, a program of twenty numbers being given by the guests. For those who did not dance there was an interesting round of progressive conversation. Lunch was served during the dances and an ice course marked the intermission. Miss Grace Nolen assisted the host and hostess in entertaining and the guest list included the following: Misses Lella Beall Anderson, Ella Louise Peery, Wilma Fligo, Mary Lou Thomas, Matie Ruth Corlett, Marion Maer, Louise Leicham, Adele Adickas, Margarett Burnside, Louise Fox, Ellen Adele Robertson, Sibil Kell, Helen Stone, Ruby Moore, Anita Monroe, Ruth Simpson, Fannie Mae Minter, Delphine Wyatt, Alice Bonner, Edith Yates, Inez Geary, Louise Montgomery, Annette Walsh, Messrs. Many Germans In Russia

Washington, D. C., Sept. 25.—"Hundreds of thousands of Germans were living under the scepter of the Tsar when the world war broke out, the Teutonic subjects of Russia being greater, many times in number than the combined German emigrants of all the other Allied nations," according to a bulletin just issued by the National Geographic Society. "Until very recent years, the condition of these German colonists in Russia was that of favored citizens, of citizens specially entrusted with the work of developing the Empire. With the strong revival of the Great Russian policy, that of the russification of the whole monsterland, however, German schools were suppressed and other measures were adopted toward making the Teutonic citizens good Slavs. "The Tsar's German subjects formed a much more important element in Russia than is generally considered. From their ranks were recruited the model artisans and peasant proprietors, while they furnished a significant quota to the ranks of Russia's professional men, business men and technical workers. Descendants of the German colonists who were also brought into the Empire by Catherine the Great, herself a German princess, were prominent lawyers, university teachers, scientists, engineers, army leaders, captains of industry and of commerce, and members of the Russian bureaucracy and diplomatic corps. "For generations, these German colonists and their Slav neighbors have gotten along amicably with one another. Their attitude, on both sides, has been one of tolerance and good nature. The German language served as a medium of communication everywhere whether at Petrograd or Vladivostok, at Archangel or Khabarovsk. The colonists were not in the habit of their mother tongue; sent their children to German schools, celebrated

and vast grants of land were made to them. One belt of settlement reaches down the Volga valley, from Tver, branching south from the Volga, to Kharkof. Many privileges were given to these settlers, and their colonies rapidly grew rich. Their villages were planted with fruit trees, their farms were operated with Germanic thrift and attention to business, and the more advanced methods of agriculture in use in their old homes were put into practice. Their Slav neighbors, in many cases, profited by example and learned much from Teutonic management. The position of the colonist, however, was better than that of his neighbor. He was never a serf, but a peasant proprietor; and, therefore, he enjoyed a many years' handicap over the Russian peasant. It is these colonists in Central Russia who have been the backbone and the sinew of Russian agriculture."

CITY AUTHORITIES URGED TO OBSERVE FIRE PREVENTION

Special to The Times. Austin, Texas, Sept. 25.—Mayors, fire chiefs and fire marshals of practically every incorporated city and town in Texas have been mailed, by the state fire commissioner, a copy of the proclamation issued by the governor designating Saturday, October 2 as state fire prevention day. The commissioner is also sending copies of this proclamation to insurance agents and general agents over the State. The co-operation of the city officials is urged by commissioners in an effort to arouse interest of the people of the importance of cleaning their premises on fire prevention day.

ROTARY CLUB NOW BEING ORGANIZED

AT MEETING FRIDAY NIGHT TEMPORARY ORGANIZATION WAS FORMED—G. KEITH PRES.

MEET AGAIN ON THURSDAY

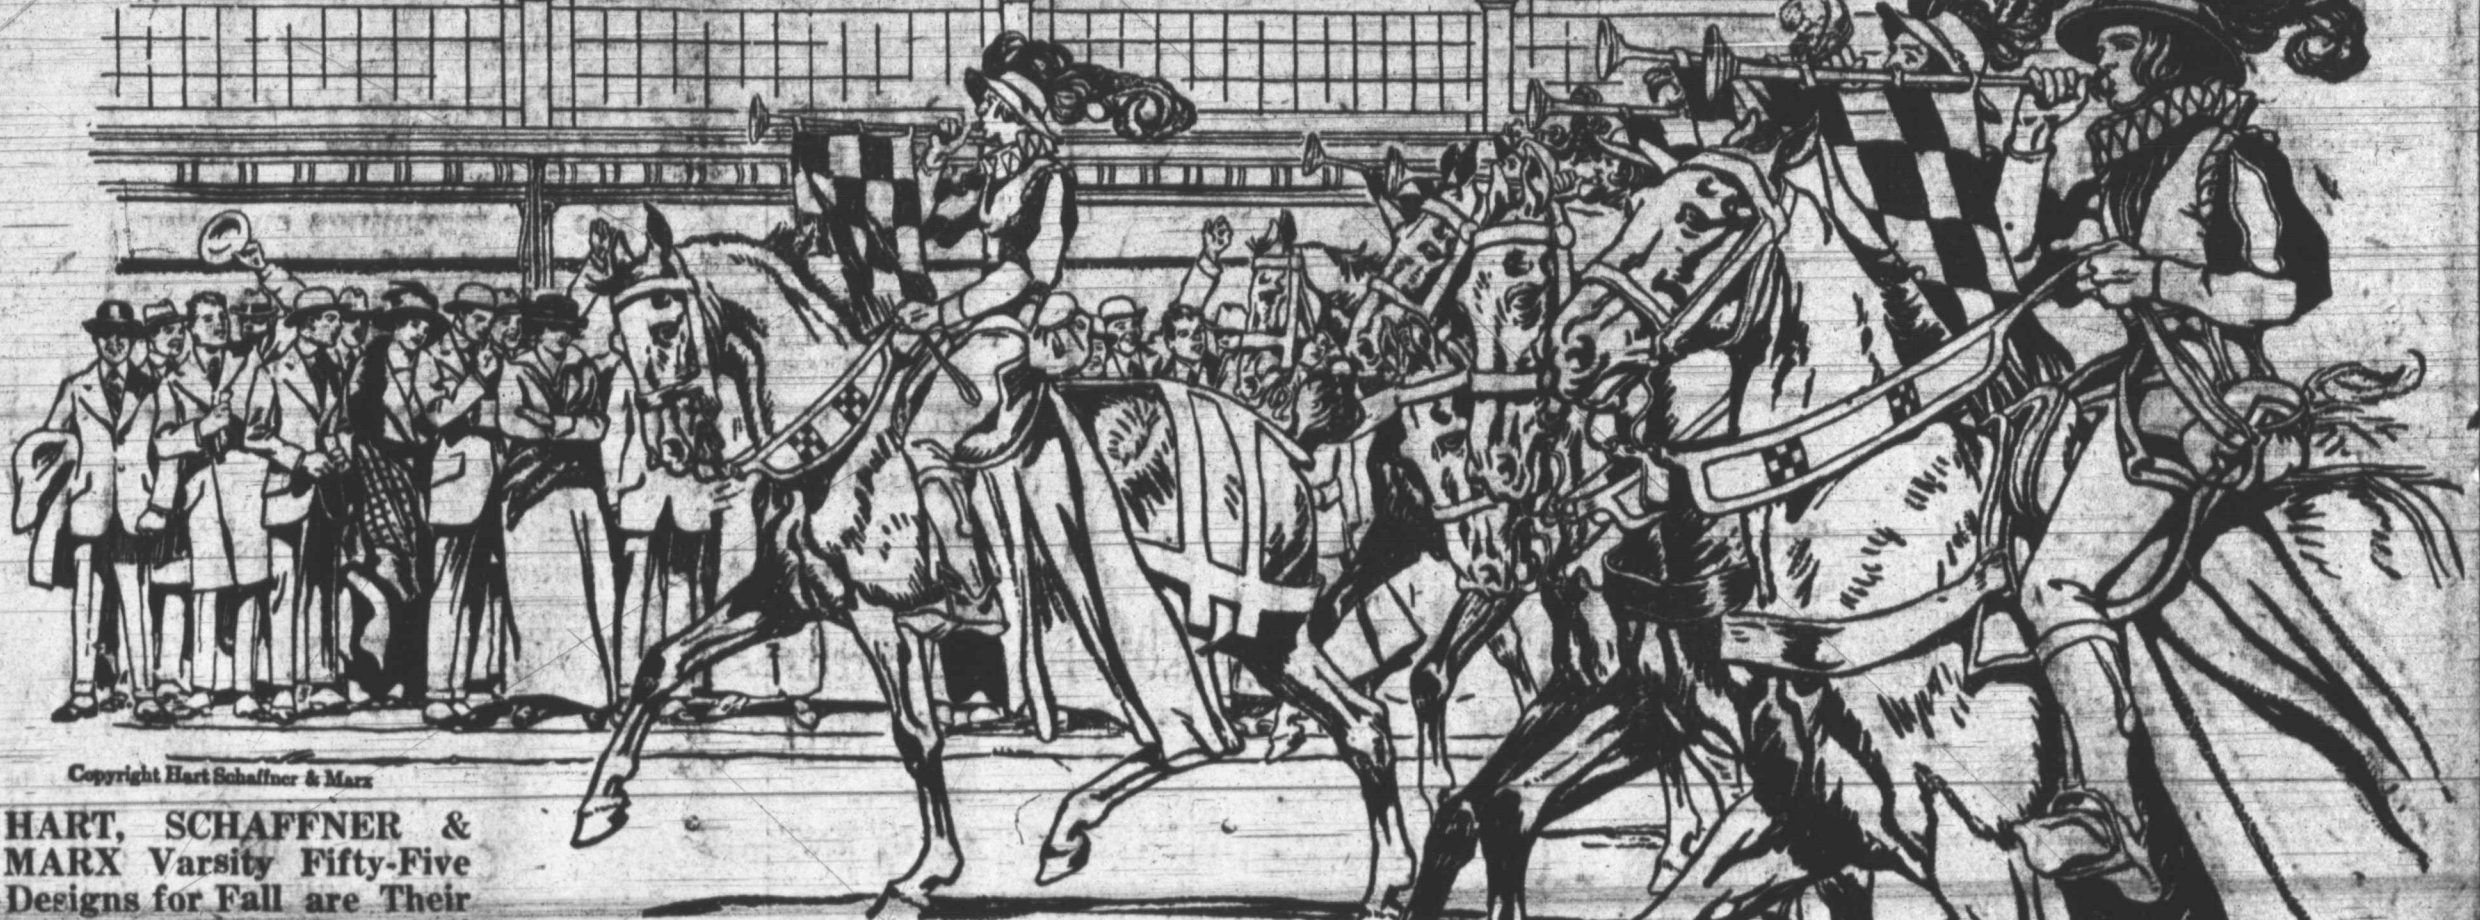

Committee at Work Completing List of those to Whom Membership is to be Extended.

Temporary organization of the Wichita Falls Rotary Club was effected at a meeting Friday afternoon at the Chamber of Commerce rooms with a large charter membership. At a meeting next Thursday, it is expected that permanent organization will be perfected. George Keith was chosen temporary chairman and J. F. Arnold, secretary.

A number of firms and individuals have already become members, and in lines where there is competition, there is keen rivalry, as only one concern or individual in one line can be a member. The annual dues were fixed at six dollars, payable semi-annually. A committee is now at work compiling the list of those to whom membership is to be extended. There are numerous lines of business in which there is much competition, and the committee is to recommend the merchant or concern considered best fitted for Rotary Club membership. The following have already become members in their respective lines:

- Four mills—Wichita Mill & Elevator Company, W. M. Friddy.
- Glass factories—Ball Bros. Glass Company, T. B. Smock.
- Poultry and egg dealers—Overstreet Produce Company, J. T. Overstreet.

LIKENESS OF HORSES

CONSIDERED REMARKABLE

Fire Department Will Keep Open House Today to Exhibit "Tom" and "George."

Two new horses have been acquired by the fire department for the hose wagon, replacing the team which was sold several days ago. The new team will be used until a motor vehicle replaces the hose wagon, and was purchased because of its cheapness. The horses are perfect mates, being exactly alike in every detail, and have been the object of much curiosity on that account. Many visitors have called at the fire station to see them and in view of their remarkable likeness, the members of the department have agreed to keep open house today, so that the public may call and inspect the team.

FAMILY CARES

This Information May Be of Value To Many a Mother in Wichita Falls

When there is added to the many cares inseparable from the rearing of children that affliction of weakness of the kidneys and auxiliary organs, the mother's lot is far from a happy one. This condition has often been corrected by the use of Doan's Kidney Pills. When relief comes the mother's burden will be lighter and her home happier.

Mrs. J. E. Bissett, 603 Lee St., Wichita Falls, says: "A younger member of my family had a bad case of kidney complaint. She seemed to lose strength rapidly and was dull and irritable. There was no control over the kidney secretions. Some one advised me to give her Doan's Kidney Pills and after taking the second box she was better. Her health picked up and she became much stronger. The action of her kidneys also became regular." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Bissett recommends. 11 CRIMINAL CASES

TRIED LAST WEEK

ONLY ONE ACQUITTAL RESULTED—TWO WERE GIVEN SUSPENDED SENTENCE

FRY CASE SET FOR THURSDAY

Some Civil Cases Will Come Up in Early Part of Week—Murder Trial Week After Next

Eleven criminal cases were tried in the 75th district court last week, and the docket is comparatively clear as a result of trials in both the 39th and 78th courts since the grand jury convened. Of the eleven cases tried, only one resulted in an acquittal, two resulted in convictions with suspended sentence and the remaining eight resulted in convictions without suspension of sentence. In two cases where suspended sentence was asked, the jury failed to recommend it.

The last case to be tried was that of Pat Solans, charged with robbery. He was convicted and given a five year sentence. Solans is already under a suspended sentence for forgery in Tarrant county, and will have to serve both sentences now. His case is a companion to that of Ed Thrasher, who was convicted of robbery and given ten years.

Fry Case Up Thursday. This week some civil cases are to receive attention, but week after next the case of Oscar Wells, charged with murder, is set for trial and several other criminal cases are also set for October. Next Thursday the forgery cases against E. W. Fry are set for trial.

The case of J. D. Houston, indicted for pandering, has been dismissed by the state. Houston was tried in July, the jury standing eleven to one for acquittal. Other cases disposed of last week are: Arthur Williams, theft two year sentence; Ed Thrasher, robbery, ten year sentence; Pat Solans, alias Bert Williams, robbery, five years; C. E. Cowart, robbery, two years; R. Hankins, forgery, two years suspended sentence; Nat Parou, robbery, three years. Frank C. Anderson, robbery, three years suspended sentence; O. R. McKennon, forgery, two years; W. H. Bowman, forgery, two years; M. G. Strader, attempted theft from person acquitted.

COTTON GAINS OVER \$5 BALE IN WEEK ALL HIGH RECORDS FOR SEASON PASSED SATURDAY AT NEW YORK

NUMEROUS BULLISH FACTORS Liverpool Higher Than Due—Tropical Storm Reports and 25 Point Advance in Spots

By Associated Press. New York, Sept. 25.—Bill higher levels were reached in the cotton market here today with January selling at 13.15 or \$5.40 a bale above the low level of last Saturday and 28 points above last night's final figures, on a continuation of active general buying. Closing prices were strong at a net gain of from 20 to 25 points for the day.

HEAVY BUYING MORE THAN OFFSET HEAVY LIQUIDATION New Orleans, Sept. 25.—All high records for the season were again passed in the cotton market today buying being in sufficient volume to offset heavy liquidation from profit taking lones. The demand was stimulated by a better Liverpool than due, renewed warning on the tropical storm, rain in the western belt, lack of October tenders and a rise of 25 points in the spot department. At the best of the day prices were 22 to 25 points up. The close was 20 to 25 points up on a steady tone.

ROTARY CLUB NOW BEING ORGANIZED

AT MEETING FRIDAY NIGHT TEMPORARY ORGANIZATION WAS FORMED—G. KEITH PRES.

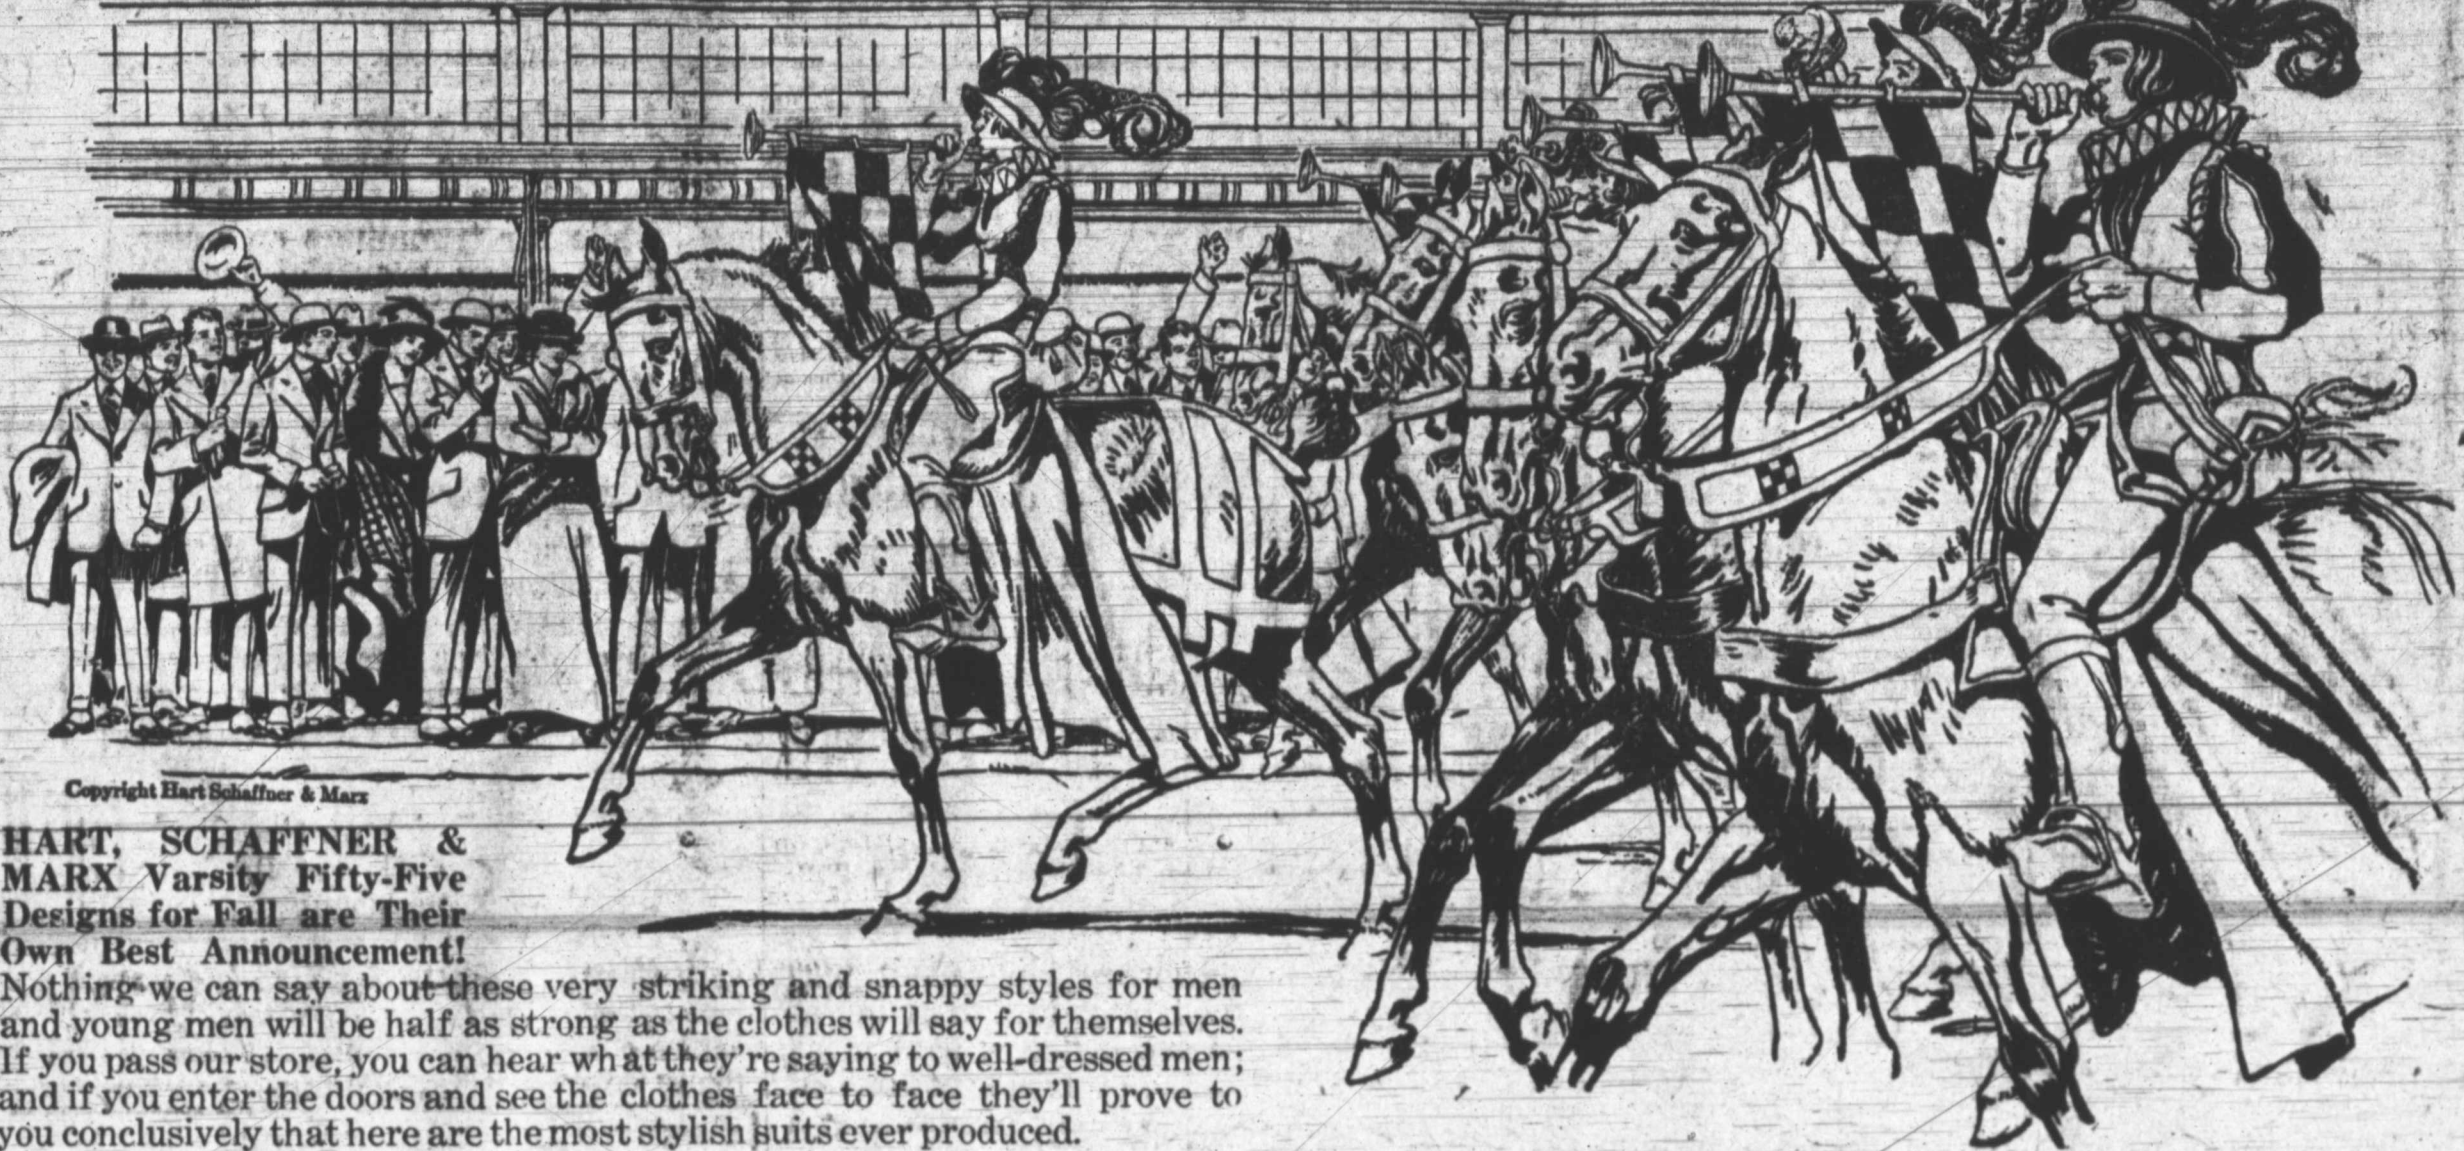

MEET AGAIN ON THURSDAY

Committee at Week Completing List of those to Whom Membership is to Be Extended.

Temporary organization of the Wichita Falls Rotary Club was effected at a meeting Friday afternoon at the Chamber of Commerce rooms with a large charter membership.

- A number of firms and individuals have already become members, and in lines where there is competition, there is keen rivalry, as only one concern or individual in one line can be a member. The annual dues were fixed at six dollars, payable semi-annually. A committee is now at work completing the list of those to whom membership is to be extended.

FRY CASE SET FOR THURSDAY

Some Civil Cases Will Come Up in Early Part of Week—Murder Trial—Week After Next

Eleven criminal cases were tried in the 78th district court last week, and the docket is comparatively clear as a result of trials in both the 26th and 78th courts since the grand jury convened.

The last case to be tried was that of Pat Solans, charged with robbery. He was convicted and given a five year sentence.

The case of J. E. Houston, indicted for pandering, has been dismissed by the state. Houston was tried in July, the jury standing eleven to one for acquittal.

Next Week Is Dress Up Week

And we are here to dress you up with the finest line of suits, hats, shirts, ties, shoes and accessories it has ever been our pleasure to show.

Our store these days is a trysting place for the liveliest Fall styles ever shown

Suits that are jubilant with dash and distinctiveness—buoyant with grace and gumption. Snug-setting models and loose, swagger ones; all the fetching fabric-effects—vim in every line and design.

These clothes are eloquent of Michael's-Stern energy in tailoring up to our standards—and yours.

Some clothes are just naturally born in the swim; others just try to force their way in with flashy style-kinks and loud-shrieking patterns.

We cater most studiously to that class of men who believe that clothes should be seen and not heard—who know real style from freakish innovation.

Our MICHAELS-STERN clothes have the naturalness of line, the quiet elegance of design which distinguish the inherently smart from the merely novel and superficial.

They pay the highest tribute to the man who wears them.

AT THE THEATERS

"THE CROOKED PATH" AT THE GEM THEATRE MONDAY

Alice Hollister, Harry Millarde and Henry Holman are featured in "The Crooked Path" a three part Kalom which is the feature of the Monday program. A synopsis follows:

Lynn and Alan both love Mary. Because he deems it his duty to support his widowed mother, Lynn hides his love although he is the favored suitor. Piqued, Mary becomes Alan's wife. Both boys work in the village bank. Lynn comes upon Alan while the latter is intoxicated and helps him home. Thus Lynn meets Mary for the first time since her marriage. Alan witnesses this meeting. His jealousy aroused, the man orders Lynn from his house.

Obsessed by a desire for revenge, Alan steals a sum of money from the bank and falsifies Lynn's books so as to make it appear that the latter had committed the crime. The defalcation is discovered and Lynn is sent to prison for two years. Upon his release from the penitentiary, Lynn returns home and succeeds in securing a position. Lynn learns that only Mary's kindness saved his mother from starvation. Alan comes upon the two while Lynn is expressing his gratitude. In his jealousy, Alan tries to shoot his foe. Mary comes between the men and receives the bullet in her arm. The injury is slight and she soon recovers.

Dade, an ex-convict drifts into the town. Alan sees an opportunity to abscond with a large sum of money. Dade observes the scoundrel placing this money into a traveling bag and trails the thief home. While Alan is getting ready to flee, Mary discovers what he has done. Her frantic pleas fall upon deaf ears. Mockingly telling his wife that he is leaving her to her lover, Alan turns to go. Dade, determined to possess the bag containing the money, blocks his path. While the two are struggling Mary runs to summon Lynn. When the latter, accompanied by the police, reach the scene, they find Dade and Alan, their fingers clutched about each other's throats, dead.

THEDA BARA AT THE MAJESTIC NEXT TUESDAY

Theda Bara, the "vampire woman" will be featured Tuesday at the Majestic, playing a return engagement in "The Kreutzer Sonata." This film was received with great enthusiasm at its first showing and the management has had repeated requests for its return. This beautiful actress is well known here, having been starred at the Majestic in "A Fool There Was" the picture inspired by Burne Jones' painting and Kipling's famous poem, "The Vampire." The story of "Kreutzer Sonata" gives this wonderful actress an opportunity to do some of her most remarkable characterizations of the woman without a heart.

Celia Friedlander, the beautiful and rubesishly passionate girl, who, under scruple, breaks the heart of the faithful Miriam, so that she may possess herself of Miriam's husband, Gregor, the brilliant violinist, is one of the strongest screen parts ever written and in many ways the most startling and remarkable. Miss Bara's powers, developed in the companies of Bernhardt, Jane Hading, and other famous French actresses as well as during her seasons as leading woman of the world renowned Antoine and Gymnase Theatres, Paris, were never displayed, even in the memorable "A Fool There Was" to more transcendent advantage than in Tolstol's great work as it is seen upon the screen. With cruel, serpent like cunning, Celia weaves her coils about the infatuated Gregor. She casts her unbreakable spell of beauty and fascination over him till Gregor forgets everything in order that he may be in her arms. From the farm in Russia, where, as a wealthy land owner's adopted girl, she first meets Gregor and charms him by playing "Kreutzer Sonata" to the last throbbing scene of the play where she and Gregor are trapped by Miriam and, in a scene so thrilling as to be almost painful in its intensity, meet their deserts. Miss Bara's superb art never falters, nor steps aside.

ALICE BRADY IN "THE BOSS" MAJESTIC THURSDAY

Thursday is marked at this theatre as "World Film Day" and the Thursday picture this time is "The Boss" with Alice Brady featured. Mike Regan, fighter, bartender, political "boss" saves the Griswold family from ruin because he loves the daughter Emily.

VICTOR MOURE AT THE EMPRESS THEATRE MONDAY

Victor Moore is to play in "Chimmie Fadden" at the Empress Monday matinee and night. This time the character is that most famous of all Bowery boys, Chimmie Fadden, the character which made the literary name and fame of E. W. Townsend. Moore once played "Chimmie Fadden" on the legitimate stage, but he is himself the authority for the statement that the big fun is in the film. "There's so much more space to do things," says Victor. Chimmie Fadden was first a series of newspaper stories in the New York Sun. Then it became a book

which sold into hundreds of thousands of copies. And it became one of the most popular of all American comedies. Now it reaches the photoplay.

Chimmie Fadden was a tough Bowery lad, good at heart, but very weak on manners and sadly out of place in refined society. Chimmie had a bad brother by the name of Larry with a penchant for second story work—and a dear old Irish mother. Moreover, he had an eye for beauty. And when he rescued the rich Fanny Van Cortlandt from the obnoxious attentions of a man—he caught a glimpse of her French maid—and his heart softened to the point of romance. Thus Chimmie Fadden becomes the story of the Irish-American Bowery boy and his Duchess.

During the course of the story Chimmie is pressed into service as the butler for the Van Cortlandt family on the occasion of a formal dinner. It may not have been very funny for them, but this scene certainly sets a new pace for silent comedy.

WEDNESDAY PARAMOUNT FEATURES MARY PICKFORD

"Little Pal" with Mary Pickford is the Wednesday Paramount offering at the Empress.

Following her overwhelming triumph in "The Dawn of a Tomorrow" Mary Pickford, the unsurpassable star of the Famous Players Film Co., was next seen as "Little Pal" in a feature of that name released on the Paramount program—one of the most unique roles in which she has ever been presented. The photoplay was woven about the star, and presents a strong tale of primitive emotions and primal passions, evidencing a hitherto unsuspected aspect of Miss Pickford's astounding versatility. This is probably the first time in Mary Pickford's phenomenal screen career that she has ever impersonated an Indian girl, and as "Little Pal" Miss Pickford furnishes ample proof that to her boundless art nothing is impossible. Throughout the entire production, she literally lives the life, and apparently without an effort suggests all the mannerisms and emotions of the little Indian girl, and in her wondrous characterization one forgets even the brilliant ability of the star and sees only the creature which she simulates.

In order to acquire the habits and mannerisms of the Indian girl, so effectively portrayed in "Little Pal" Miss Pickford a few months ago engaged the daughter of a full blooded Indian in Colorado as a companion. For weeks Miss Pickford watched, studied and analyzed the movements of the Indian maid, imitating and perfecting them in private life until she was confident that she could portray the role of the Indian girl with absolute fidelity and naturalness. Her marvelous mimic powers are evident in the screen presentation of this unusual character.

CRANE WILBUR, NOW A MUTUAL STAR

Famous Screen Player To Be Featured in Hershey Productions.

Crane Wilbur, who has long occupied a firm place in the hearts of movie fans the world over, and who is noted as one of the handsomest young leads in motion picture work, is the latest of screen stars to join the forces of the Mutual.

Wilbur, engaged by David Hershey to play the leads in

Crane Wilbur, Movie Star, Who Has Joined Mutual Forces.

Auctions being screened at his Los Angeles studios, for release in their regular Mutual program, will make his debut as a star under the "winged clock" banner, in "The Protest," a three reel subject of intense interest, to be released Sept. 29th.

Wilbur boasts one of the largest followings of any screen player in the country. One of his greatest picture successes was with Pearl White in the Pathé serial, "The Perils of Pauline." Later he starred in "The Road of Strife," a serial play produced by the Lubin studios. Mr. Wilbur, who comes from a family of actors, was born in Athens, N. Y., and is a nephew of William H. Crane, celebrated star of the speaking stage.

His first stage appearance was with Henry Irving. Later he appeared with Miss Fiske, and in following years was the star of numerous successful productions.
