HOW AID WAS SENT GERMAN CRUISERS BY STEAMSHIP LINE

CAPTAIN OF BOAT TELLS OF TRIP WITH COAL FOR WARSHIPS—ONLY ONE CARGO REACHED FLEET, GOVERNMENT SAYS.

CONSPIRACY TRIAL EVIDENCE

One Boat Gets to Cruisers with Coal and Narrowly Escapes Destruction When British Men-of-War Suddenly Appear.

By Associated Press. New York, Nov. 24.—How the Hamburg-American line sent German warships in the Atlantic in August and September, 1914, 2,000 tons of coal, and large amounts of foodstuffs by the steamer Berwind, an American boat under the American flag, was told today on the witness stand by the Berwind's captain, F. E. Falkenberg.

The Berwind sailed from New York, August 5th, ostensibly for Buenos Aires, with Joseph Poppinghouse, an official of the Hamburg-American line, as supercargo, and in charge.

Stormy weather forced the Berwind to stay with the fleet sixteen days before discharging her cargo. About September 10th, three of the fleet left, leaving only the Postas and Cap Trafalgar still receiving cargo.

The two remaining ships were surprised early September 14th, by the British auxiliary cruiser Carmania and another British boat. The German ships fled and the Berwind trailed behind out of range.

The government charges the Berwind was the only one of sixteen boats chartered by the defendant as a cost of \$2,000,000 to relieve German cruisers, which succeeded. The others, it is believed, all were captured before they reached the German fleet.

By Associated Press. Washington, Nov. 24.—Secretary Lansing made it clear today that so far as he is able to judge, the German naval attaché, Captain Boy-Ed, was not guilty of any violation of law in supplying funds for sending out of American ports the Hamburg-American vessel to provision German warships at sea.

ADVANCE IN SERBIA BY AUSTRO-GERMANS SEEMS LESS RAPID

CONTRADICTION CLAIMS OF VICTORY IN BALKAN THEATER ARE RECEIVED—HEAVY FIGHTING NOW IN PROGRESS THERE.

RUSSIAN ASSISTANCE COMING?

Berlin Sends Report to This Effect: Italians Claim That Fall of Gorizia is Near—Russians Report Advance in Volynia.

By Associated Press. London, Nov. 24.—Contradictory claims of victory in the Balkans leave the present situation in doubt but it is evident the advance of the Austro-German armies and their Bulgarian allies is not so rapid as earlier reports indicated.

The fate of Monastir is still in the balance. Reports emanating from Athens state that the Bulgarians, having regard for Greek susceptibilities, are waiting for the Germans to come up and occupy the city.

In the entente capitals, renewed confidence is professed that Greece is moving toward complete agreement with the wishes of the allies.

Berlin has revived the report that Russia is contemplating a great campaign in the Balkans for which a large army has been gathered at Odessa. The Germans who have given publicity to this report, do not seem at all sure that Romania will refuse permission to this army to cross her territory.

Petrograd reports a slight advance along the Stry river, with sharp checks for the Germans, and Austrians in both the northern and the southern portions of the eastern front. Vienna, however, says there is nothing worthy of report along this line.

Italy looks for the immediate fall of Gorizia which, according to reports, is dominated by artillery of both sides and forms a no man's land.

Mitrovista, recently the Serbian capital and Pristina, an important town on the eastern edge of the famous Kosovo plain, have been captured by the Teutons, Berlin says. The German statement that Serbians have been driven from Pristina apparently means they have been forced back over the northern part of the Kosovo plain on which it had been predicted they would make a determined stand.

YOUNG MAN IS SHOT BY WOMAN IN FLATS

RECEIVES BULLET IN BACK AND MAY DIE AS RESULT OF THE WOUND.

INMATES OF HOUSE BEATEN

Women Are Injured and Furniture is Damaged in Quarrel Which Preceded Tragedy.

From Tuesday's Daily. As the result of a quarrel in a house in the flat district Wednesday night W. L. Hearn, near death in the Wichita Memorial Hospital with a bullet hole through his spinal column and lungs, Hazel Ward, a woman of the flats, is in another ward in the hospital in a critical condition with a badly battered skull while Essie Browning, proprietress of the house where the trouble occurred is in bed with bruises over her body and head. Her condition, however, is not regarded as serious.

The Browning woman fired the shot that is likely to prove fatal for Hearn. No complaint has yet been filed against her. Officers who have investigated the affair are of the opinion that the shot was fired in self defense.

Hearn who is about 23 years old is from Burnsville, Miss., where his father is a farmer. According to the story told by the Browning woman he appeared at her house earlier in the evening with another man. He came back shortly before eleven o'clock, she said, saying that he had given his companion his money and that the latter was trying to ditch him. He insisted that the man was in the house and when told that there was no one there he became violent. He seized the keys from the Browning woman and, she says, locked the doors of the house. In the meantime Hearn was telephoning to the police station.

After locking the doors the Browning woman said he attacked her knocking her down three times. She fled into her own room locking the door. The man then appears to have turned his attentions to the Ward woman. The screams of the two women brought help. A man crashed his way through the back door and into the room where Hearn was beating the Ward woman over the head with a heavy iron and porcelain spittoon weighing ten pounds or more. This man whose name was not learned had dragged Hearn into the dance room where they were drinking when the Browning woman who had secured a revolver in her room, ran into the room and fired two shots. One went wild and smashed through the front window of the dance hall. The other struck Hearn almost squarely in the center of the back, striking to the right and passing through his lung. It was cut from his back "the skin of his right breast" this morning. The bullet was of .32 calibre and the Browning woman's companion not found.

Sheriff George Hawkins and Police Officer Gilman reached the house just after the shooting. The front door was still locked when they arrived and they bent in the door to see into the house. The key was found in Hearn's pocket. Hearn said the Ward woman was carrying the bullet in automobiles. The Browning woman received medical attention at her house.

The companion of Hearn had not been located today. Hearn had been at other houses in the district during the evening and appeared in a quarrelsome mood, according to statements made by the inmates to the officers.

Hearn's father is said to be a well to do farmer and at the hospital this morning Hearn asked that he be notified concerning the trouble and his condition. Hearn has made no statement concerning the shooting.

Witnesses. Broken water pitchers and bowls litter the floors of the house where the shooting took place. The front of an electric piano is smashed in where it was hit by a water pitcher, doors are broken down and the bed of the Ward woman's room is covered with blood where she was thrown and beaten. In the struggle two gas radiators were torn from their connections and the officers found the fumes of escaping gas filling the house. Other than a few scratches Hearn had no wounds but the bullet hole through his body.

OIL STRIKE IN WELL AT MCKINNEY REPORTED

McKinney, Texas, Nov. 23.—Oil has been struck in the well that was being drilled at the Texas Cotton Mills here and it is believed that a producing oil pool will be developed. The well is being drilled for water supply at the cotton mill and is drilled to a depth of between 1,500 and 1,600 feet.

The belief has been general for some time that an oil pool underlies McKinney and efforts have been made from time to time to organize companies for putting down test wells. Several such companies have been organized. One test well is now being drilled a few miles east of this town.

SAYS GERMANS PREPARING FOR RUSSIAN ADVANCE

Petrograd, Nov. 23.—Kovel, west of the Stry river in Volhynia, where the Russians have recently reported successes over their Teutonic adversaries is being prepared for the possibility of an advance of the battle line westward according to refugees from that city. The German administration is declared to have been pressing during the past month, the work of constructing strong fortifications. Military stores have been removed and the able bodied population has left the city. A food shortage is reported.

SAYS CONSPIRACY TO HELP GERMANY WAS NATION WIDE

PROSECUTION ATTORNEY DELIVERS OPENING ADDRESS IN THE STEAMSHIP CASE—JURY COMPLETED SOON TODAY.

NAVAL ATTACHE'S CONNECTION

Government Expects to Show the Part Played by Captain Boyed in Plot to Send Steamship to Aid of War Craft of Germany.

By Associated Press. New York, Nov. 23.—At the opening of today's session of the trial of Dr. Karl Buentz, managing director of the Hamburg-American line on charges of violating the customs laws by sending supplies to German warships, it became known that an important witness for the government is in Bermuda. Roger B. Wood, the assistant district attorney in charge of the prosecution refused to disclose the name of this witness.

The jury box was filled within an hour after the day's session began. William Rand of counsel for the defense notified Assistant District Attorney Wood that the defense would withdraw that part of the previous admission pertaining to the alleged connection of Captain K. Boy-Ed, German naval attaché, with the acts charged by the government. This part stated that the sending of steamships with supplies to German warships had been carried on largely under the naval attaché's direction. No reason for withdrawing the admission was given. In almost the first words of his opening address to the jury Mr. Wood charged that Captain Boy-Ed directed the chartering and loading of some of the vessels and that \$750,000 for relief of German warships was spent under his direction here.

Says \$750,000 Was Spent. "We expect to show," Mr. Wood said, "that this conspiracy extended from New York and Philadelphia to San Francisco and New Orleans. We expect to show that Dr. Buentz employed a man named Kulenkampf to clear two vessels in a hurry from Philadelphia at the very opening of the war, telling him that this was desirable because the Hamburg-American line should not appear in these transactions. We can prove that one of the vessels the Berwind, was loaded with coal bought from the Berwind Coal Company and we understand that Dr. Buentz wanted Mr. Berwind of the company to clear the steamer but that Mr. Berwind demurred and Kulenkampf was called in to do the work.

"We shall prove that not long afterward Kulenkampf received \$750,000 from some place in Germany. He did not know where or from whom. He put this money in two New York banks and soon after Captain Boy-Ed came to him and told him the money was to be spent under his (Captain Boy-Ed's) direction. We shall show that \$500,000 to \$600,000 went to San Francisco where it was spent to charter and supply three ships with coal and provisions and that these ships sailed out and met the German cruiser Leipzig, and perhaps the Dresden."

Mr. Wood's address which covered the accusations in the main, lasted less than 40 minutes.

Admission by Defense.

William Rand of counsel for the defense opened with these words:

"So far as certain facts are concerned, we concede that they are as Mr. Wood states them to be. The first witness was Richard Wrigley, a steamship broker of this city who testified that he chartered on August 3, 1914 through the Hamburg-American line the American steamer Lorenzo and Berwind, the first two vessels which sailed for the German Atlantic fleet. John H. Evans acted for the line Mr. Wrigley said, in the whole transaction, giving indemnity bond to the owners for the full value of the vessel, \$350,000 and \$250,000 respectively.

"This was done in case anything should happen and the vessels not be returned to us. We could not get war insurance at the time and some guarantee was necessary."

At yesterday's session widespread sympathy among residents of New York for one side or the other of the nations at war in Europe rendered extremely difficult the selection of a jury. Forty-two talemens were examined but only ten talemens were selected and these only tentatively. Eight of this number, however, were said by counsel to be acceptable to both sides. The entire panel was exhausted.

The defense exhausted five of its ten peremptory challenges and the government four of the six allowed to it.

Not more than six of the forty-two men examined professed to be entirely neutral with respect to the European war. Many of the talemens had relatives serving in the armies of one side or the other, while others of German, British or French descent had enrolled their sympathies under the colors of their fathers. Only three were of native American parentage and one of these was married to a woman of German parentage.

Austin, Texas, Nov. 23.—A contribution of \$1000 was made by Governor Ferguson to the \$100,000 fund raised by the city of Dallas to bring the National Democratic convention of 1916 to that city. The governor tendered the check to Secretary of State John G. McKay, who is a member of the committee soliciting contributions to the fund.

WANT GOVERNMENT CONTROL OF DISHONEST ADVERTISING

Federal Trade Commission is Asked to Treat Such Practice as Unfair Competition

By Associated Press. Washington, Nov. 23.—Representatives of the Associated Advertising Clubs of the world appeared today before the federal trade commission to urge the commission to take jurisdiction over dishonest advertising as unfair competition within the meaning of the federal trade law. "We feel we are a natural ally of the commission, with our 14,000 members embracing fourteen methods of advertising," said H. S. Houston, president of the club. "In addition to our national vigilance committee, we have in each state separate vigilance committees."

James Keeley, editor of the Chicago Herald, presented the view of a large number of advertising agencies that dishonest advertising was unfair competition.

"A spoken lie may be a private matter, but a printed lie is a public matter. It concerns the public and is a matter for public treatment," said Mr. Keeley. "Publishers deal in white space and the value thereof depends upon the confidence of the public in what is printed therein. To print a crooked advertisement in that space is to assault public confidence; to depreciate the value of advertising is to injure one of the greatest of public utilities."

At the end of the hearing Chairman Davis suggested that the representatives present specific complaint in writing, so that the commission might take up and act on the question of jurisdiction. Mr. Houston said that would be done immediately.

FRENCH AND BULGARIANS BATTLE IN SERBIAN BAY

Eye Witness Describes Fight in Which French Were Forced Back by the Invaders.

By Associated Press. French Headquarters, Kavagar, Serbia, Nov. 21, (by courier to Saloniki, Nov. 22, via Paris, Nov. 23).—A sanguinary battle between the French and Bulgarians in the gorges of the Bagek river's confluence with the Cerna in southeastern Serbia has resulted thus far in the retirement of the French from a point north of Dracovo to the right bank of the Cerna.

The French however, are still holding the Bagek gorge and the important bridge head at Balharisti, controlling the heights opposite. The Associated Press correspondent today visited the French camp west of the bridge head which is detailed to guard the strong natural position in the granite walls of the gorge. This gorge is however, exposed to artillery from the surrounding heights, and is guarded by infantry.

Half an hour later the correspondent with a party of French officers watched the battle from the neighboring hills. Every detail was visible during occasional periods of the lowering of mists from the hilltops. Hostilities were opened with savage artillery duel. From the point of observation flashes of flame and puffs of smoke could be seen, revealing the positions of the guns on both sides of the Var dar river, which is joined by the Cerna a few miles north of Grenovo. Clouds of smoke from the bursting shells gave some idea of the results of the fire which the Bulgarians concentrated in an effort to dislodge the French from the gorge. Siranpel was being successfully placed within the gorge several times.

Soon the whirl of machine guns and the popping of rifle fire betrayed the position of the Bulgarian infantry. On the hill behind the gorge moving figures could be seen outlined against the sky. They climbed with what seemed to be interminable slowness until after a brief struggle with the enemy the Bulgarians fled over the crest.

Meanwhile from the direction of Kavadar, a train of ambulances sped toward the scene of the battle to collect French wounded. General followed in an automobile to take direction of the action on the ground. The Bulgarians are bringing up heavy forces from the neighborhood of Prejip.

The French plan of campaign seems to have been to occupy as quickly as possible the maximum number of positions of natural strength and to take care of their communications as effectively as could be done with the forces available. When one position thus held was made the object of a serious attack, the French withdrew as the complete lack of effective means of transportation renders the rapid shifting of troops from one position to another impracticable.

The striking feature of the campaign in Serbia is its utter likeness to that in France.

DECLARE ZEALANDIA WAS INSIDE THREE-MILE LIMIT.

Washington, Nov. 23.—Officers of the battleship Kentucky, at Progreso, Mexico, have reported that the American steamer Zealandia was encountered of a mile inside the three-mile limit when recently forcibly searched by a boarding party from a British cruiser, and therefore was in a neutral port. They agree with the British report, however, that no papers were aboard the ship to show her nationality, but were in the American consulate ashore. The British officers contend the vessel was a quarantaine of a mile outside the three-mile limit and therefore on the high seas.

DAYLIGHT ROBBERY ON WICHITA BRIDGE

NEGRO IS HELD UP BY THREE WHITE MEN EARLY THIS AFTERNOON

IS STABBED WHEN HE RESISTS

Men Secure \$25 From Him, Then Leave Him Wounded—Officers are Searching

From Tuesday's Daily. That he was held up and robbed of about \$25 on the wagon bridge of the Wichita River, in broad daylight, in the assertion of Lee Frazier of Richmond, Texas, a negro cotton picker.

In resisting the three men whom he claims robbed him, Frazier received a deep wound in the side, inflicted by a knife in the hands of one of the men.

Frazier was going north from this city, intending to pick cotton at points north of here, when the three white men stopped him in the middle of the bridge. This was at 1:30 this afternoon. They secured his money and then fled, leaving him helpless on the bridge. G. B. Isley who keeps a store in North Wichita saw part of the encounter on the bridge and telephoned the police that there had been some trouble. Officers went to the scene and found Frazier, bleeding from his wound.

Search was being made this afternoon for the three white men, of whom Frazier was able to furnish a good description. The robbery is considered one of the boldest ever perpetrated in this city.

Another Similar Incident.

Another daylight robbery was reported to the police this morning. L. W. Wynne of Bowie, a white man, reported that he had been assaulted by three white men near the Mansfield Hotel yesterday afternoon and robbed of \$10. He was taken into the hotel and put to bed and did not report the robbery until this morning.

Last night a man whose name was not learned claimed to have been robbed in the flat district by three Mexicans. Officers saw a group of men tussling at a distance. Frazier, who had separated and ran. One of the men ran toward the officers shouting that he had been robbed. The officers overhauled two of the Mexicans but in the confusion the man who claimed to have been robbed disappeared.

SUSPECTS DENY THEY TRIED TO ROB SHERIFF HAWKINS

Examining Trial of Two Arrested on Sunday Night is Held This Morning.

From Tuesday's Daily. John Jenkins and Lynn Morgan, the two young men arrested Sunday evening by Sheriff Hawkins and charged with attempted highway robbery, were brought over to the grand jury by Justice Howard after a hearing this morning. Both made statements to District Attorney Leslie Humphrey. These statements were in line with the statements they made Sunday evening after their arrest.

Morgan testified that he had seen a man hide something Saturday morning behind a barrel in a lumber yard near a laundry (the Acme). Soon after he met the red headed boy (Jenkins) and was with him most of the day. Both were out of money and without jobs, he said, and decided to go to Wichita. On the way they stopped to catch a freight train Morgan said he thought of having seen the man hide something in the lumber yard and suggested to Jenkins that they see what it was. They found it to be a revolver. Morgan said he put it in his pocket and suggested to Jenkins that they take it back up town and sell it to get money to buy something to eat. They had started toward the street and met a man walking about thirty feet ahead of a second man. When the second man (Sheriff Hawkins) came up Morgan said he heard the command "Hands up."

Morgan said he himself shouted "hands up" and started to draw his gun, but dropped it and put his hands, when he saw the other man had him covered.

Morgan said he had been picking cotton near Duke, Oklahoma, before coming to Wichita Falls and that he had never seen Jenkins until he met him at the passenger station Sunday morning. He did not remember of having seen the man who walked ahead of the sheriff before.

Jenkins' statement was much the same as that made by Morgan. He said that his home was at Texaskana and that he had lived near New Boston and at Bonham. He said that after going with Morgan when the latter got the gun they met two men as they walked toward the street. He said both Morgan and the other man commanded hands up and drew guns. He said he believed the other and (Sheriff Hawkins) commanded hands up. He said he heard Morgan's gun drop to the ground.

Sheriff Hawkins told of being approached in the restaurant by a man wanting to find a drink and going with him to the place where they met the two men under arrest. He said he made the man who took him there walk ahead of him. This man had passed the other two when Sheriff Hawkins reached them. "Throw up your hands and give us what you've got," Mr. Hawkins said Morgan commanded. "Give us what you've got," Mr. Hawkins commanded. "Hands up" drawing his own gun.

We Want To Thank Our Customers

For the very liberal patronage they have extended to us during the past year. Our trade has been away beyond our expectations, and continues to increase all the time.

We also wish to invite others who have not heretofore traded with us to give us a trial when in need of groceries. We believe we are better able to serve the families of Wichita Falls and vicinity with staple and fancy groceries than is any concern in the city. The extent of our business makes necessary the buying in very large quantities, giving us the advantage of the best selection and the lowest prices in the markets. We in turn give this advantage to our customers, making prices that are low and guaranteeing the quality of every article we sell.

To parties who are responsible we are glad to carry accounts on a monthly basis, giving the convenience to the housewife of ordering goods by telephone when in a hurry, and assuring her of always having her table needs at hand without the trouble of coming to town.

We have fresh shipments of vegetables and green fruits every morning.

15 ROUND GO WITH HONORS STILL EVEN

NEITHER DAVIS NOR HENDERSON GAIN ANY DECIDED ADVANTAGE IN BOUT.

QUESTION STILL UNDECIDED

Have Fought 25 Rounds Without Once Going to Clinch—Near Knockouts in the Preliminaries

Red Henderson and "Sailor" Davis boxed fifteen rounds Thursday night at the Business Men's Athletic Club. With the result that the question of superiority is still a matter of individual opinion.

These two lightweights have boxed a total of 25 rounds in the last seven days without once going to a clinch and at both bouts there might as well have been no referee so far as necessity for the services of one arose.

If it is deemed absolutely necessary for the argument to be settled, one way would be to use four or five ounce gloves instead of the half pound mitts that were worn in the two bouts.

So far as the number of blows landed is concerned, Davis landed three times to Red's once, but there was punishment in the licks that Henderson shot home. In defensive work, Davis is undoubtedly the most clever of the two, his dodging and ducking tactics bringing the crowd to its feet more than once during the fifteen rounds.

Preliminaries interesting. The preliminary events made up an exciting card, with two near knockouts that added to the excitement.

The program began with a three-round go between two boys, Bill Levine and John Voss; they worked fairly well, Levine seeming to have the better of the argument.

Another preliminary was between "Shag" and Dutch Kirk, two local performers which ended in the second round when Shag was floored and got up with some difficulty.

There was also a battle royal in which five negroes participated. It was not too fast an affair, but finally all but two of the blacks retired from the ring, leaving a beefy negro and a slim one to have it out.

Boxers Are Cautious. J. W. Mide was referee of the main event on the card. The first three rounds were entirely too slow.

The fifteenth round saw plenty of speed with honors about even. The next mill will be early in December, with the feather weight, Bobby Burns as the probable chief performer.

LOCAL TEAMS LOSE TO VISITING ELEVENS

STAMFORD HIGH, AND LAWTON INDEPENDENTS WIN THANKS-GIVING GAMES.

LARGE CROWD IN ATTENDANCE

Home Elevens Make Strong Bids for Victory in Each Contest But Fail to Last.

It was a disastrous day for the football teams of Wichita Falls. Stamford high picked out the big end of a 15 to 9 score, at the expense of Wichita Falls high and then the Lawton Independents hung a 6 to 0 shutout on the Wichita Falls Independents.

Both games were clean and tolerably fast and in each of them the home elevens played just good enough to keep the spectators in the notion that it might win.

The local high school even made a much pluckier fight than in the game last Saturday at Stamford, when the latter team won by a 48 to 0 score. The Wichitans scored nine points yesterday before the visitors got started, but the Stamford lads came back strong after they did get under way and crossed the goal line three times.

added in the final quarter. Only one goal was kicked. Toward the end of the game the Stamfordites used the forward pass with some success, putting one touchdown across with it. Practically all of Wichita Falls' attempts were failures.

The early part of the Lawton-Wichita Falls game made it appear that the locals were going to have things their own way, for after the first few opening scrimmages, in which the locals' goal was threatened, they marched steadily down the field on a series of line plays and end runs, to within striking distance, getting within six yards of the goal.

In the second quarter the locals shone brilliantly on both offense and defense, blocking one kick and intercepting two forward passes to good effect. Courtney started in breaking up forward passes and, if the game can be said to have had a feature, it was in Courtney's all around work.

The Forest.
I love the forest; I could dwell among That silent people, till my thoughts uprew In nobly ordered form, as to my view Rose the succession of that lofty through. The mellow footsteps on a ground of leaves Formed by the slow downfall of numerous years. The couch of moss, whose growth alone appears Beneath the fir's inhospitable eaves. The chirp and flutter of some single bird. The rustle in the brake, what precious store Of joys have these conferred on poet's heart! And then at times to send one's own voice out In the full frolic of one starting shout. Only to feel the after stillness more. —Lord Houghton.

STOMACH TROUBLES

Mr. Ragland Writes Interesting Letter on This Subject.

Madison Heights, Va.—Mr. Chas. A. Ragland, of this place writes: "I have been taking Theodor's Black-Draught for indigestion, and other stomach troubles, also colds, and find it to be the very best medicine I have ever used. After taking Black-Draught for a few days, I always feel like a new man." Nervousness, nausea, heartburn, pain in pit of stomach, and a feeling of fullness after eating, are sure symptoms of stomach trouble, and should be given the proper treatment, as your strength and health depend very largely upon your food and its digestion.

To get quick and permanent relief from these ailments, you should take a medicine of known curative merit. Its 75 years of splendid success, in the treatment of just such troubles, proves the real merit of Theodor's Black-Draught. Safe, pleasant, gentle in action and without bad after-effects, it is sure to benefit both young and old. For sale everywhere. Price 25c. M. C. U.

MOVIES HAVEN'T YET MUCH ON UNION STATION SCENES

Half a Dozen Trains at a Time and Express Trucks Force Folks To Keep Jumping.

The place is the Union Station. The time is about 2 p. m. any day. The southbound Fort Worth & Denver passenger train is in and has been cut, where the platform goes across track No. 1. The northbound Wichita Falls & Northwestern passenger train is on track 2 north of the platform crossing, the Wichita Valley is on track 2 south of the crossing. The northbound Fort Worth & Denver is on track 3. The Byers train and the Wichita Falls & Southern train are on tracks four and five. Women and children and a few men are jamming towards the steps of the coach on the southbound Denver on track one. Streams of people crowd the platform leading to confusion. "Yi yi. Out a track" a shout above the rumble of wheels on the brick platform to the north. Yelling at the top of his voice, pulling, yanking and jerking a young man breaks into the crowd at the tongue of an express truck. Those who are lucky get out of the way, the others get knocked down or pushed violently aside, for no matter what his intentions the young man at the end of the express truck tongue is not always able to hold up for the big truck is being impelled by youths from behind. Scattering men, women and children who are not always able to get their suit cases and grips out of the way the truck makes its way across the platform to the express cars into which its load of package in toxicants are transferred while conductors and trainmasters speed them in their task. The scene is one of daily occurrence. Fortunately no one has been injured. Some day some man may devise some scheme whereby express trucks won't have to tear through crowds of passengers getting onto trains.

Cotton advanced one dollar and fifty cents per bale today, which puts it up to within a few points of the highest price of the season.

Porter Carlton, the American convicted of wife murder in Italy, has been released from prison and is now on his way back to America.

The 1914 cotton crop exceeded that of 1913 by more than 2,000,000 bales, yet the value of it was less. And the 1915 crop of cotton, it is estimated is going to fall short of the 1914 crop something in the neighborhood of five million bales, yet the 1915 crop will bring to the cotton producer more money. Looking at the matter in that light it would seem that the less cotton the south produces the more those who produce it receive for it.

Henry Ford says he is willing to give up his great fortune, if by doing so he can bring about peace in Europe. He is unlike most men of great fortunes, the great majority of whom would dislike very much to see hostilities cease in Europe for the reason that the longer the war is prolonged, the greater their fortunes will grow.

According to an estimate made by Secretary of the Treasury, McAdoo, the expenditures of running the government for the year 1917, will be \$12,806,294 in addition to what they are now. This estimate includes the \$2,000,000 appropriation recommended by President Wilson for national defense. "This amount," says the statement, "can easily be raised by internal taxation, without appreciable burdens upon the American people. The secretary also suggests a reduction in the income tax law on single persons from \$3,000 to \$2,000 and on married persons from \$4,000 to \$3,000, and changing the surtax imposed on incomes above a certain figure, new taxes on gasoline, crude and refined oils, horsepower of automobiles and various other things.

It now looks as if Greece was not going to be forced into the European war, even if she is forced to permit the troops of the allies to invade her territory, and that also means that in the event the Germans decide to do the same thing there is nothing left for Greece to do but submit, then send in her bill for damages at the close of the war. She is powerless to do anything else, and at this distance looks to be the most sane or sensible course to pursue under the circumstances. Had Belgium realized her weakness at the beginning of the war and frankly acknowledged she was powerless to stop the Germans from passing through her territory it would have been much better for the people of that country. Her people are now suffering, and the powers for which she made the great sacrifice can render her no aid. Greece, apparently is trying to avert such a condition of affairs.

A most clear and distinct statement of the cause of so many railroad receiverships is to be found in the letter of Mr. Chas. E. Schlaff, receiver of the Missouri, Kansas and Texas lines, as printed in The Herald of Monday's date. The statement was made in response to the request of the president of the Farmer's Union, who, some time ago expressed the belief that the railroad's side of the controversy should be given by one of the railroad's managers. Reduced to its last analysis, it is due to the failure of the roads' revenues to keep pace with their operating expenses which have been increased and magnified by legislation, tax boards, labor organizations and personal injury judgments which of itself is no small item. The way the situation appears to be now, the more business the roads do, the greater the loss. Instead of their earnings being dependent upon the volume of business transacted, it is the reverse; therefore, they cannot be expected to try very hard to increase their business. It ought to be plain to every fair-minded man that no enduring prosperity can come to the country until a new policy with respect to railroad operation and control is adopted and the doctrine of the square deal applied to their management by legislatures, tax boards and juries.

THE PASSING OF THE COWBOY.

Joseph G. McCoy was credited, in the brief dispatch noting his death the other day, with having "laid out the 1,000-mile trail from Texas to Abilene, Kas., over which more than 10,000,000 cattle were driven." Whether he was really the first to drive a herd of "longhorns" over that truly historic

clear that of that epic age of the plains he could say: "All this I saw and of much was I a part."

Made by nature for cattle breeding, producing in good years ninety-five calves to each 100 cows, the Texas grazing lands at the close of the Civil war were tenanted by millions of cattle without definite market or determinate value. Demand for an outlet was imperative and the only way was to the north. The building of the Kansas Pacific railway made Abilene and Ellsworth the first great meeting points of the locomotive and the "longhorn."

Then opened the age of the cattle bacon and the cowboy, and the adding to American life o. types which will long occupy the pen of the romancer. It was not merely a marketing; it was also an exodus. From Texas came the pressure that swept the Indian aside and destroyed the bison herds. Owing to climatic conditions Texas did not mature steers ready for the butcher's block. But transplanted to the north he "double wintered" the "longhorn" took on flesh like a "native." The climax of the period came in 1884, when over 200 herds or nearly 800,000 head crossed the Red river, bound for the Northwest, requiring for their guiding and guarding about 4,000 men and over 30,000 horses.

It was work for men ready to live hard and often die suddenly. It was a time when fortunes were won fast and added swiftly. It fastened upon the popular imagination the figure of the cowboy beside that of the '49ers. It had its heroes and its villains and its bards. A Texas college professor has collected their rude songs. It has found, in a way, its historian in Andy Adams, whose "Log of a Cowboy," "The Outfit," and "Red Anthony" are fiction only in frame and all fact in the picture. It did not last long, for Joseph McCoy, not yet 80, had seen it all, from eager beginning to valiant flower and inglorious end in a multitude of sordid and often bloody little fields.

The old order has changed, giving place into the new. The swelling tides of human life have swept over the "range." It is, perhaps, fifteen years since a "longhorn" was seen in the Chicago stockyards. The cattle baron has become a feeder as well as a breeder. The cowboy is no longer hunched upon his bronco with all the boundless plains for his kingdom. He has become a prosaic tender of cattle within a fence. His imitations are seen on the stage, but the men who "rode the trail" from San Antonio to Dodge and on to Buford and the Canadian line are no more. Some still live, of course, but they are growing old. Soon all who lived the epic of plains will be gone, and only from printed page and the distorted recollections of the stage shall we know that free life under the sun and the stars.—Pittsburgh Gazette-Times.

LIVERPOOL'S FIRMNESS CAUSES COTTON TO GAIN SEVERAL POINTS

GRAIN MARKET RALLIES TODAY

Both Wheat and Corn Advance on Heavy Buying After Decline Early in Day

By Associated Press. New York, Nov. 26.—The cotton market was active early today with business more general than for some time past and with buying encouraged by firmness in Liverpool over the local holidays, rather smaller crop estimates than those published earlier in the month and renewed talk of improved spot demand. First prices were 15 to 20 points higher and after reaction of two or three points under realizing, January contracts sold up to 12.05, March to 12.33 and May to 12.52 or about 23 to 24 points net higher on covering and bull support. December was relatively firm, selling within fifteen points of January, compared with a difference of 20 points or over when notices were circulating here Wednesday morning.

Chicago Grain.

Chicago, Nov. 26.—Wheat prices rallied sharply today after a little show of weakness at the start. Leading firms were active buyers on the early decline which was due to earlier quotations at Liverpool and to large receipts northwest. Pit traders who at first leaned to the selling side covered freely when the upturn began. After opening 1/2 to 3/4 and 1/2 lower with December at 102 3/4 and 103 1/2 and May at 106 1/2 to 105 3/4 the market reacted above Wednesday's close all around. Unsettled weather had a bullish influence on corn and so did an advance abroad. Selling by long interests led to only temporary setbacks. Opening prices which ranged from 1/4 to 1/2 higher were followed by moderate downturns and then a fresh advance. Oats swung with corn. Trade was fairly large. Lower prices on hogs weakened provisions. Later, however, the market responded to the corn bulge.

AT THE THEATERS

The Lydia Margaret.
Valle Valli, one of the famous Broadway actresses is featured today in "The High Road." The picture tells the story of Mary Page, one of the world's unfortunates who realizes the road she is following before it is too late. She descends the primrose path for the straight road narrow road and on "the high road" makes good. She becomes a leader of the girls in the factory where she has won back her own self respect and the respect of others. When the owner of the factory attempts to cut wages she leads the girls in their fight for justice. In this attempt she visits the mayor of the town to find that he is her old sweetheart whom she refused to marry on account of her infatuation for Wilson "the man in the case." A thrilling factory fire is one of the most startling points in the picture and in the end Mary's struggle on the high road receives its reward.

The Empress.
A charming mystery story is "The Green Cloak" featuring that beautiful screen Thespiian, Miss Irene Fenwick, scheduled as the chief attraction at the Empress. As usual Miss Fenwick is surrounded by a cast of sterling excellence including Hebe Ling, Frank Belcher and Irla Connor in addition to a number of other stage artists of reputation. "The Green Cloak" swirles with adventure. The film story begins well along toward the middle of the plot and from a sensational start swings rapidly into the interesting business of unravelling the tangled skeins of destiny. Prof. McAllister and his beautiful daughter Ruth return from a western trip. When Ruth meets her former sweetheart she confesses her love for him but tells him that it is impossible for them to think of marriage. Their chat is interrupted by the arrival of a mysterious young man whom Ruth introduces as a friend she met out West. A half hour later when the stranger, on plea of having letters to write returns to the library, tragedy stalks forth. He is found dead with a cloak tassel from one of Ruth's garments in his hand and a violin string wound tightly around his throat. Ruth tells the police that he was her husband and is promptly charged with his murder.

The Majestic.
Charlie Chaplin in "In the Park" a two part comedy is one of the headline attractions at the Majestic today. Also on the program is "Her Renunciation" a Biograph drama and an Essanay "Tish's Spy" Richard Travers and Lillian Drew are featured in the Essanay a comedy of which "Tish" is the title. James Newcomb calling Jim McDonald a married man refuses to marry him and so both Jim and a person, becomes a lady chauffeur for Tish Carberry. Tish and her companions, Aggie and Lizzie and Jane go to Canada for a vacation. Called by Jim and a red headed detective hired by Jane's father, Aggie, a hot fever victim, success, comedy and ludicrous and exciting times are experienced by the women in camp. A big snake starts a wild dash toward the river. Jane and Lizzie fall over a cliff into the stream, and after many thrills in which a canoe proposal has a ludicrously disastrous end, and in which a motorboat explosion sends a constable flying into a tree, Jim rescues Jane and the detective deserts after she decides to marry Jim to take care of him.

The Gem.
This first installment of a popular serial, "Neal of the Navy" is to be shown today at the Gem Theatre. Lillian Lorraine and William Courtlight are the principals. The picture covers near the Island of Martinique and the introductory scenes show Mount Pelée in eruption. Neal and his father and mother are on a ship that picks up Lorraine and her daughter. Annette, after the storm, to the cliff's clashing is pinned the map of a mine owned by Winston and which the villains are attempting to get. The father is lost as is Captain Hardin and several of the crew but Mrs. Hardin, Neal and Annette are picked up by a U. S. S. cruiser. This happens while the two principals are but children. Young Neal Hardin becomes enthralled over a naval career and later enlists. A splendid picture is depicted from this interesting beginning.

"WALK THIS WAY" AT OPERA HOUSE SATURDAY.
Years ago there was a common saying "See a red headed woman you will see a white horse," but now a days the white horse is rarely seen, while the red heads have become a popular commodity. Miss Mae "Ginger" Collins, the Scotch lassie, who is starring this season with Billy Single Clifford in the season's novelty "Walk This Way" is classed with the red heads and the

real brick red (not an auburn shade) and she is proof of her hair, she has prevailed on the management to allow her to entertain all the red headed ladies and children free of charge at the matinee performances. She secures a block of seats from the local manager knowing full well, she will have with her a full quota of what she says "the best looking women in the world," but red headed men and boys are barred. The name "Ginger" was not given to Miss Collins on account of her hair, but because of her vivacity—one writer claiming she is the girl who put "gin" in "ginger." Miss Collins will sing several extra songs at the matinee and among them Irene Franklin's great success, "Red Head." Don't miss "Walk This Way" afternoon and evening, Nov. 27th.

MUSIC WILL BE FEATURE OF ELK'S MINSTREL PERFORMANCE

Songs, Both Raggy and Classic on the Program—Local Artists Are To Take Part.

The committee in charge of the Elk's show has certainly done some good work in the selection of songs for the show to be given on next Wednesday and Thursday nights. An unusually catchy lot of songs in both classic and rag numbers will be introduced and from the way the big chorus is taking hold of the selections in the rehearsals, it is certain that many of the numbers will be whistled and sung long after the Elk's show is a thing of the past. Among the many songs to be introduced are: "I Want to be a Prima Donna," "Dearie Girl," "Listen to That Dixie Band," "The Simple Melody," "Tennessee, I Hear You Calling," "Take Me to That Midnight Cake Walk Ball," "I Guess I'll Soon Be Back in Dixieland," "The Little Grey Mother" and "Alabama Jubilee."

It has been the aim of the music committee to arrange a program that will contain numbers appealing to a wide range of tastes. Those who delight in character rag songs can find in the list of song numbers to be presented, promise of great entertainment, while those who prefer the ballad will also find their tastes

"Tabasco" Hodgins, making tri-asse in the "Chicken Rag" considered. Then in order to widen the appeal of the program, catering to the more fastidious, the committee has secured the services of Ivan Murchison. Mrs. Robertson will sing in "Sally's Groves" by Lehart and Mr. Murchison's selection has been "Farewell to the King's Highway" one of de Koven's inimitable tender numbers. A glance over the list of the songs cannot fail to impress one of the efforts made to present a well rounded program for the approval of the audience. Each number will be sung by soloists chosen for their ability to present the songs in an entertaining manner, and some of them are a novelty on any program. Rehearsals are going in fine shape and the big chorus is now rounding into form to make the show a big water mark of success for shows of local talent.

THANKSGIVING WEATHER SHOWS SOME IMPROVEMENT
For the first time in several years, fairly good weather prevailed here on Thanksgiving day, the occasion usually being one of wet weather. Some rain fell yesterday, but it came at dusk, when it caused no interference with any of the day's plans. The rain was preceded by an uncomfortable dust storm and was accompanied by a drop in temperature. Last year Thanksgiving day saw the streets deep in mud and on only one or two Thanksgivings in the past eight years has pleasant weather prevailed.

"The GREEN CLOAK"

"THE GREEN CLOAK" is a dramatic gem, brimful of virile, stirring incidents without a dull inch in its entire five thousand feet of continuous, interest-sustaining, action!

"THE GREEN CLOAK," with the first flash of the carbon grips the imagination and carries you through five surprising reels of love, murder, mystery and revenge!

"THE GREEN CLOAK" is easily Miss Fenwick's masterpiece. In the tragic role of the woman accused of murder she gives the most beautiful and convincing performance of her brilliant screen career.

LOCAL TEAMS LOSE TO VISITING ELEVEN'S
(Continued from Page 2)
within 20 yards of the goal. There they were unable to gain and Isham dropped back as if for a kick. The Lawton line held like a wall and the locals seeing the kick could not be blocked, held off for a few precious seconds. Isham did not try to kick but skirted his right end like a streak outprinted the locals who attempted to block his way and put the ball across the line. Lawton failed to kick goat.
On the next kickoff the ball went to Courtney who made a brilliant 45 yard return and all but succeeded in entirely getting away. For the remainder of the game the team hammered away at each other in rather uninteresting style, neither being able to make first down very often. A dust storm-blow up with a sprinkle of rain and a cold wind and most of the spectators liked for home. The game ended with the ball in Wichita Falls possession near the middle of the field.
Numerous Injuries.
Injuries were numerous in both games and it looked like some of the "players were down-for the count, but none were forced to retire. In several instances players insisted on staying in the game when they would have done better to drop out. Stanforth who refereed the first half of the game with Lawton, was called into play in the second half, a rather unusual procedure, but one which no objection was raised.
The lineups follow:
Stanforth-high; Duncan-center; Swanson and Nowlin, guards; Owens and Cannon, tackles; Loop (captain) and Shaw, ends; Hart, quarterback; Bryant and Smith, half backs; Holbert, fullback.

WE CLEAN AND PRESS the finest suits in Wichita Falls. We look after the best wardrobes in the city. There is a reason for this. If we did not give absolute satisfaction in both work and price we would never be able to hold this business. We do one hundred cents worth of work for the dollar; we know that fifty or seventy-five cents worth of work scattered over a dollar job would never do with the class of people who patronize our shop. The American people get what they pay for; if the price is so cheap the work is the same way. We clean and press your suit for One Dollar, because the dollar is right—less is not enough.
